GENERAL EDUCATION REQUIREMENTS

RATIONALE: The General Education Program at The University of Akron offers an educational experience to students pursuing a bachelor's degree or an associate's degree (to a limited extent). It is designed to help students acquire knowledge, skills, and attitude contributing to an understanding of self and the world; to promote effectiveness in meeting civic, occupational, and personal challenges; to enhance appreciation of the range and depth of human knowledge and experience; and to encourage the desire and ability to continue learning.

The basic goals of the General Education Program are to enhance the student's:

- ability to think critically - to abstract, analyze, synthesize, and evaluate;
- ability to think creatively;
- ability to communicate clearly and effectively;
- understanding of historical and cultural perspectives;

The General Education Program emphasizes academic experiences that enhance the student's:

- ability to interpret written works;
- awareness of language and its uses;
- understanding of and ability to utilize mathematical and scientific principles and methods;
- appreciation of artistic experience and expression;
- understanding of contemporary political, social, and economic issues;
- understanding of western and non-western cultural traditions;
