

Practicum I – AT
5550:360
1 Credit

Description of Assignment: Orthopedic Physician Rotation

Course Description

The practicum is designed to be a culmination of the athletic training students' practical experience. The experience will allow the athletic training student the opportunity to observe general population patients in an extension of the athletic training profession.

Course Objectives

- Expose collegiate athletic training students to orthopedic patients in a medical setting
- Outline the administrative procedure for scheduling, office management
- View X-ray, MRI, CT scan, bone scan and document findings w/assistance
- View an orthopedic surgery
- Expose athletic training student to insurance and billing procedures

Course Policies/Procedures/Evaluation

See Practicum I guidelines (also includes the evaluation forms) The entire practicum I guidelines can be found at the following link:
