PRACTICAL SKILLS THAT EMPLOYERS DEMAND. AND THE SALARY TO MATCH.

BUSINESS MANAGEMENT TECHNOLOGY

- ACBSP accredited degree programs
- Seamless pathway from Associate degrees to Bachelor’s of Organizational Supervision
- Flexible day, evening and online classes

* Based on survey of Spring 2015 College of Applied Science and Technology graduates.
BUSINESS MANAGEMENT TECHNOLOGY

The Business Management Technology program provides a comprehensive education with practical, hands-on training in varied business activities, all designed to prepare you for entry-level management or supervisory positions in business, industry, government, or as a self-employed manager.

Upon graduation, students may continue their education and step up to earn a Bachelor’s in Organizational Supervision (BOS). The BOS degree helps strengthen your organizational leadership and supervisory skills so you can take on more responsibility, regardless of the field.

DEGREES

• Bachelor’s of Organizational Supervision
• Associate of Applied Business in Business Management Technology (General, Accounting, Small Business Management options)

CERTIFICATES

• Accounting Specialist
• Business Management Technology
• Small Business Management

MINOR

• Business Management Technology
