Argentina

International Business Internships Available Business Marketing Accounting Communications Advertising

Globalearn specializes in Business/Marketing Argentina internships. –Spanish not required

Marketing/Business/Accounting and Entrepreneurial internships are available in Buenos Aires Argentina for our 8 weeks summer program. The projects and companies are matched to your skills, goals and expectations. These companies may be local companies, or international companies with Argentinean office locations. We will match you with your expertise and goals to advance or learn new skills. Buenos Aires is acclaimed as “The Gateway of International Business for South America” as Argentina’s capital and largest city.

University credit is available with most US universities.

Globalearn will match you with a mentor and projects to experience current methodologies and processes. This international experience will open your mind as well as doors when you return back to your home countries.

We believe the educational experience in working on real world project in a new culture can grow your skills as well as your problem solving techniques while also being exposed to international experience. The cultural experience of living day to day life as well as working abroad with a team of local professionals and developing your international network is an experience that you will maintain with you for life.

Internships domains: Fashion, Import/Export, Medical Devices, Consulting, Alternative Energy and other areas... **Entrepreneurial opportunities also available**
