

Overview

The following is a comparison of the average wage earned by students who performed a co-op or internship during the 2007-08 and 2008-09 academic years. This report is divided by academic semester, followed by degree granting college, and then by major. The data includes the average hourly wage and the number of students working in either a co-op or internship. The data does not include those students who performed a co-op or internship but did not report their salary information to the Center for Career Management.

Any questions regarding this report can be directed to:
