No software to buy. Learn anywhere. Start your training right now!

Our Web Based Simulation training allows you to learn CATIA V5 over the Internet.

Unlike traditional classroom training, you will learn in an error-proof environment, so only correct techniques are memorized, allowing for faster comprehension. Each \$400 course can be completed in 16-20 hours. You will have 21 days to complete each online course. You may request additional 21 day resets of any course, at anytime, within a two-year period. Purchase the Fundamentals Online Bundle and save \$275 on the first five CATIA courses! No other discounts apply.

CATIA V5 training can be customized and delivered onsite to your employees.

No software purchase is necessary! All we need is a conference room and LCD projector that will accommodate our laptop lab and your personnel. Call Cheryl at 330-972-6460 for information.

WHAT IS CATIA? CATIA Version 5 is Dassault Systemes' computer aided drafting and computer-aided manufacturing (CAD/CAM) software solution that allows you to virtually define mechanical components and assemblies, and then create the tools and processes needed to manufacture your products. CATIA is predominately used by design, tooling, and manufacturing engineers, commercial and consumer designers and users of other CAD/CAM software programs. CATIA enables users to tailor product development according to their industry-specific requirements. This software is the standard in the aircraft industry and used widely in the automotive industry across the U.S.

WHO SHOULD TAKE THESE COURSES? This series of courses is suited for Designers whose companies are switching to CATIA V5, or who just want to increase their marketability. This training is also suited to those who are familiar with 3D construction from 2D instructions (Carpenters, Mechanics, Electricians, etc.) and are looking for a career change.

TAKE IT ONLINE The CATIA V5 series classes are currently offered online using a Web-based simulation of the CATIA software so you do not have to have the CATIA software or live in the Akron/ Northeast Ohio area to participate in the courses.

WHAT ARE THE HARDWARE AND SOFTWARE REQUIREMENTS? Courses can be accessed with a computer (IBM/MAC/Linux OS) with high speed Internet connection (recommended), an Internet browser with Macromedia Flash plug-in installed, an active email account and pop-up blockers disabled.

COURSES AND FEES Courses and fees are listed on the Website at www.uakron.edu/ce A savings of \$275 can be realized by registering for the CATIA V5 Fundamentals Online Bundle – the five foundational courses.

HOW DOES ONLINE TRAINING WORK? These classes are Web-based instruction using a simulation of the CATIA software program. Access your classes from the convenience of your home or office computer using a Web browser. A video explaining the method can be found on our Website at www.uakron.edu/ce You do not need the actual CATIA V5 software loaded on your computer to participate in these Web-based training modules. The training includes video demonstrations, interactive exercises where you apply the concepts shown in the video, and checks where you demonstrate your mastery of the subject matter. Once you have successfully completed all the checks for a course, you can request a certificate that documents your training and 2.0 Continuing Education Units (CEU's).

HOW LONG DO I HAVE ACCESS TO THE WEB CLASSES AFTER I RECEIVE THE CEU certificate? You have access to the Web classes for a 2 year period to revisit and refresh your training.

HOW TO REGISTER

1. Register online at www.uakron.edu/ce or call Workforce Development and Continuing Education at The University of Akron, Mon-Fri, 8-4 p.m. 330-972-7577. Payment information can be found on our Website.
2. You must email the program support specialist at conted@uakron.edu after you have registered to get login/password information. This will enable us to verify your email address as able to send and receive. This is required for entry into the course. We will send your login/password by return email.
3. Prepare your Internet browser by disabling any Pop Up Blockers (pop-ups are a necessary part of the tutorial).
4. Login to the classroom at <http://www.v5train.com> once you have been notified that your account has been setup.
7. Enter the classroom and complete the course work online.
8. Request completion letter/certification/CEUs to document your training by emailing the program support specialist at conted@uakron.edu
9. Fees are NON-REFUNDABLE once you have been issued a username and password.
