TOTAL CREDITS = 64 (Note F)**NOTES:**

- A. Math requirement varies among major departments; please consult with your adviser.
- B. 21-22 elective credits required. A student is free to choose any electives, but they should be in some logical sequence leading toward an upper college degree program.
- C. Eight hours of science are required. Courses must be selected from two different sets and one laboratory course is required. See "The University College" section of the Bulletin.
- D. See "The University College" section of the Bulletin for course options. Check the prerequisites for the Area Studies/Cultural Diversity course selected.
- E. Six hours from two different sets required. See "The University College" section of the Bulletin for course options.
- F. A minimum of eight credit hours of SUMMIT COLLEGE courses is required.
