Assistant/Associate Professor, Polymer Education  
Job ID#: 9338  
Full/Part Time: Full-time  
Regular/Temporary: Regular

Responsibilities

In addition to developing an externally funded research program in polymer science education, the successful applicant will be expected to direct graduate and undergraduate student research in the area of curriculum development, pedagogy and delivery methods; teach graduate and undergraduate classes and contribute to the functioning of the department, college and university through service on committees, centers and outreach activities.

Required Qualifications

Applicants should have 1) a PhD in an appropriate science, engineering or education discipline, 2) baccalaureate degree in chemistry, physics, engineering, or polymer science, 3) a record of research accomplishment as demonstrated by peer-reviewed publications and extramural grants commensurate with rank and 4) relevant teaching experience and proficiency.

Preferred Qualifications

Desired qualifications include 1) a dedication to pedagogical methods research, 2) an ability to develop new pedagogy and content delivery methods, 3) an ability to teach and mentor graduate and undergraduate students, 4) knowledge and/or experience working with polymers, and 5) strong communication skills.

Salary

Competitive
