Panopto Focus - Springboard Integration

You can automatically create your Panopto folder and log into your Panopto folder from your Springboard course. Your students will not have to be added to the viewer list in order to view your recordings. Credentials are passed from Springboard into Panopto to make this an automatic process.

Log into Springboard and enter your course

1. Open a web browser window to: https://springboard.uakron.edu

2. Log in using your UAnet ID and password.

3. Enter your course.

4. In the content area, select the module that you wish to use for Panopto. (You may want to create and name a module first).

5. Select “Add Existing Activities.”

7. Choose “Panopto.”

You can now select this link when you want to create a recording for your course and your students can select this link to view the recordings for the course.
