MEMORANDUM OF UNDERSTANDING

Whereas, the faculty of the College of Nursing and the department of Mechanical Engineering in the College of Engineering have recommended to the Deans of the respective colleges for the establishment of full-time non-tenure track faculty (copies of the recommendation are attached hereto and made a part hereof as attachment A and B, respectively); and,

Whereas, the Deans of the respective Colleges have approved these recommendations; and,

Whereas, the Akron-AAUP and The University of Akron mutually agree to the establishment of full-time non-tenure track faculty positions within the College of Nursing and one such position in the department of Mechanical Engineering in the College of Engineering consistent with the recommendations of bargaining unit faculty in those colleges.

Now, therefore, the Akron-AAUP and The University of Akron agree as follows:

1. There shall be temporarily established in the College of Nursing the full-time non-tenure track classification of Assistant Professor, Associate Professor, and Professor of Clinical Nursing (Non-Tenure Track) in accordance with the recommendations of the bargaining unit faculty as set forth in Attachment A and as approved by the Provost. These positions shall be referred to as Assistant Professor of Clinical Nursing (NTT), Associate Professor of Clinical Nursing (NTT), and Professor of Clinical Nursing (NTT). These positions shall be established as tenure track positions in accordance with Article 8 (Retention, Tenure and Promotion) and Article 34 (Initial Hire) prior to the expiration of the current collective bargaining agreement.

2. There shall be established in the department of Mechanical Engineering in the College of Engineering one full-time non-tenure track position for teaching Design, with the possible ranks of Assistant Professor (NNT), Associate Professor (NNT), or Professor of Engineering (NNT) in accordance with the recommendations of the bargaining unit faculty as set forth in Attachment B and as approved by the Provost.

3. All appointments shall be subject to approval by The University of Akron Board of Trustees.

4. All full-time non-tenure track faculty whose positions are subject to this memorandum of understanding shall be members of the Akron-AAUP bargaining unit and shall be covered by the Akron-AAUP and The University of Akron Collective Bargaining Agreement.
5. In the event that there are additional recommendations in the future from the Colleges with the approval of the departmental bargaining unit faculty members for full-time non-tenured faculty positions, and these recommendations are approved by the Dean, the parties agree to negotiate on the establishment of those full-time non-tenure track positions.

IN WITNESS WHEREOF, the parties have caused this Memorandum of Agreement to be made effective this 31st day of October, 2005.

Cynthia Capers PhD, MSN
Professor and Dean
The College of Nursing

Dear Dr. Capers,

It is with great pleasure that we enclose the Preamble and the Criteria for Rank and Progression of Faculty in the Clinical Track that was approved by the faculty at the April 25, 2005 Faculty Organization meeting. As you know the criteria was brought to the Faculty Organization for approval from the Faculty Practice Committee and the Retention Promotion and Tenure Committee. The final document represents the cumulative work of the faculty which could not have progressed without your guidance and support. These criteria address clinical scholarship as an essential component of a practice based profession.

We recognize that our college is setting precedent for a clinical track at The University of Akron. However, at least two other state universities in Ohio and several other universities across the country have clinical tracks in place.

Thank you for taking these documents forward to the University Administration.

Respectfully,

Therese Dowd PhD, RN
Chair, Retention Promotion and Tenure Committee

Elizabeth Kinion EdD, MSN, APN-BC, FAAN
Chair, Faculty Practice Committee

Criteria for Appointment, Promotion and Reappointment in the Clinical Track
Criteria for Rank and Progression of Faculty in the Clinical Track  
College of Nursing  
The University of Akron 2005

Preamble:
The four major areas of teaching activity in which growth is expected between ranks are: 1) depth of knowledge, 2) involvement in planning, implementation, and evaluation of courses in the College including teaching/advising other faculty in the process, 3) development of innovative teaching materials and/or strategies, and 4) involvement in the overall curriculum and evaluation process.

The four major areas of professional activity in which growth is expected between ranks are: 1) clinical expertise in preferred/specialty area of nursing practice, 2) participation in professional nursing organizations, 3) utilization/development of scholarly activities in clinical practice, 4) Service on committees at the college, university, local, national, and/or international level that are relevant to practice.

Rules and guidelines for qualified Clinical Nursing Track Faculty Appointment and Reappointments:

1. The purpose of the Clinical Nursing Track Faculty appointments is to sanction the efforts made to maintain the expert clinical performance of faculty and affirm the commitment to maintain and improve the discipline of nursing.

2. Initial appointments to the college may be at any rank in the Clinical Nursing Track if new faculty meet criteria.

3. Doctorally prepared faculty with the appropriate clinical credentials are invited to apply for rank in the Clinical Nursing Track.

4. All ranks shall be reviewed annually. The faculty member can request a longer period between reviews for appointment. There is no limit to the number of times that faculty may request reappointment at their level.
The University of Akron  
College of Nursing  
Criteria for Rank and Progression in the Clinical Track

The purposes of the Clinical Track are to: 1) acknowledge the scholarly contributions of clinical experts to the College of Nursing, The University of Akron and the discipline of nursing and 2) confer a parallel rank for the clinical track faculty within the University.

The following information is presented to describe the Scholarship of Practice (Application) as defined by the American Association of Colleges of Nursing (AACN) and to identify the information that served as a guide for developing the criteria for faculty in the Clinical Track.

Scholarship of Practice (Application): "The scholarship of practice encompasses all aspects of the delivery of nursing service where evidence of direct impact in solving health care problems or in defining the health problems of a community is presented" (AACN, 1999, p.4) and includes "application of nursing and related knowledge to the assessment and validation of patient care outcomes, the measurement of quality of life indicators, the development and refinement of practice protocols/strategies, the evaluation of systems of care, and the analysis of innovative health care delivery modes" (AACN, 1999, p.5.)

Examples of Scholarship of Practice:
- Peer-reviewed publications of research, case studies, technical applications, or other practice issues,
- Presentations related to practice,
- Consultation reports,
- Reports compiling and analyzing patient or health services outcomes,
- Products, patents, license copyrights,
- Grant awards in support of practice,
- State, regional, national, or international recognition as a master practitioner,
- Professional certifications, degrees, and other specialty credentials,
- Reports of meta-analyses related to practice problems,
- Reports of clinical demonstration projects,
- Policy papers related to practice (AACN, 1999, p.5-6)

Criteria for Appointment, Promotion and Reappointment in the Clinical Track
CRITERIA FOR APPOINTMENT, PROMOTION, AND REAPPOINTMENT
ASSISTANT PROFESSOR, CLINICAL TRACK

Appointment to the rank of assistant professor includes the criteria for instructor and, in addition:

Criteria for Appointment, Promotion and Reappointment in the Clinical Track
Dr. Haritos,

Faculty of Mechanical Engineering have unanimously voted today to hire a design professor once you have funds available for this purpose.

They feel that a non-tenure track design faculty will help the department to:

(i) maintain the College's lead in competitive student design projects,
(ii) teach design courses in the department, and
(iii) help the department for accreditation work for both programs.

They think that an individual can be hired on a three to five-year renewable contract to this permanent position in the department.

We thank you for offering a solution to solve this "design professor" issue once and for all.

Best Regards

Celal
