AAS LAND SURVEYING
PROGRAM EDUCATIONAL OBJECTIVES

Program educational objectives are broad statements that describe what graduates are expected to attain within a few years after graduation. Program educational objectives are based on the needs of the program’s constituencies. The educational objectives for graduates of the Land Surveying program are to attain:

1. The knowledge to be able to pass the National Society of Professional Surveyors (NSPS) Certification Surveying Technician Level I exam (70% pass rate).

2. The knowledge and technical ability to collect, adjust, analyze, and interpret survey measurement data.

3. The ability to work in a team environment and to communicate technical and professional information in written, verbal, and graphic forms.

4. The ability to progress towards higher education and professional licensure.

5. An understanding of ethics, professional responsibility, and the necessity for life-long learning.
