Biomedical Engineering (Biomechanics) 480001BS with Co-Op

The following information has official approval of the College of Engineering, but is intended only as a supplemental guide. Official degree requirements are established at the time of admission to the degree-granting college. The transfer process is completed through an appointment with your academic advisor.

Italicized courses fulfill General Education requirements. Unless a course is specified, refer to the General Education guide at [http://www.uakron.edu/advising/docs/General_Education_Guide.pdf](http://www.uakron.edu/advising/docs/General_Education_Guide.pdf)

| 2nd Year | Summer Semester | Credit Hours | |
|----------|-----------------|--------------||
| Optional Co-Op | | | |
### 3rd Year
#### Fall Semester
- **4600:300** Thermodynamics I  
  3  
  3450:223, prerequisite; 3650:292, corequisite
- **4600:321** Kinematics  
  2  
  4600:203 and (4600:165 or 4200:101 or 4300:101 or 4400:101 or 4800:101)
- **4800:362** Transport Fundamentals for BME  
  3  
  3450:335 and 4600:203
- **4800:365** Mechanics of Biological Tissues  
  3  
  4300:202 and 3450:335
- **Speech/Oral Communication Requirement**  
  3  
  **Total** 14

#### Spring Semester
- Co-Op Assignment I

#### Summer Semester
- **370:461** Applied Statistics  
  4  
  3450:222
- **Social Science Requirement (not economics)**  
  3
- **3400:210** Humanities in the Western Tradition  
  4  
  32 credit hours and 3300:112 equivalent
- **3400:221** Humanities on the World since 1300  
  4  
  32 credit hours and 3300:112 equivalent
- **Total** 11

### 4th Year
#### Fall Semester
- Co-Op Assignment II

#### Spring Semester
- **4xxx:300** or 400 lvl Engineering Elective  
  3
- **4400:307** Basic Electrical Engineering  
  4  
  3650:292, prerequisite; 3450:335, corequisite
- **4800:310** Modeling and Simulation of Biomedical Systems  
  3  
  3450:335
- **4800:400** Biomaterials  
  3
- **BME Elective**  
  3
- **Total** 16

#### Summer Semester
- Co-Op Assignment III

### 5th Year
#### Fall Semester
- **4800:491** BME Design I  
  2  
  4800:111, prerequisite; 4800:305, corequisite
- **4800:305** Intro to Biophysical Measurements  
  4  
  4800:101 and (4400:231 or 4400:307), prerequisites; 3100:202, corequisite
- **BME Elective**  
  3
- **3600:120** Intro to Ethics (Humanities Requirement)  
  3
- **Area Studies/Cultural Diversity Requirement**  
  2-3
- **Humanities Requirement**  
  3
- **Total** 17-18

#### Spring Semester
- **4600:420** Intro to Finite Element Method  
  3  
  4600:315 and 4300:202
- **BME Elective**  
  3
- **4800:492** BME Design II  
  2  
  4800:491
- **4800:460/560** Experimental Techniques in Biomechanics  
  3  
  3150:153, 3450:335, 3650:292, 4600:203
- **Social Science Elective**  
  3
- **Physical Education Requirement**  
  1
- **Total** 15

### Minimum Total Credits for Degree
- **137**

*BME Electives must include a minimum of 3 credits from Biomedical Engineering (4800). All other electives may be chosen from a list of Approved Electives.*
**IN GENERAL:** The Bachelor of Science in Biomedical Engineering was designed to provide an in-depth understanding of the fundamentals of engineering. The program focuses first on core engineering coursework followed by advanced applications specific to the field of Biomedical Engineering.

The Biomechanics track is designed for those students who would pursue a Mechanical Engineering background with specialization in the areas of cardiovascular, orthopedic, rehabilitation engineering and system simulations.

3300:112 English Composition II is preferred, however 2020:222 Technical Report Writing will still be accepted.

**JOB OUTLOOK:** Biomedical Engineering is a rapidly growing field. New companies are being developed each month. The job outlook is excellent. A graduate will also be prepared to enter graduate study in Engineering, Law, or medical school.

**SALARY LEVEL:** Starting salary offers for new graduates range from $47,000 to $61,200 per year with an average of $51,500.

**CO-OP OPTION:** Students can choose between a five-year program, which includes up to four semesters of co-op experience, or a four-year program without co-op experience. The Co-op Program provides an opportunity to gain real-world, relevant experience while working toward a bachelor's degree. Students who participate in the Co-op Program earn money to help fund their education, graduate with 12 or more months of career-related experience, and often receive a higher starting salary after graduation. More information about the Co-op Program can be found at engineering.uakron.edu/coop.

**PLACEMENT:** The Engineering Co-op and Placement Office, ASEC 203, Akron, Ohio 44325 assists all graduates with full-time placement.

**OUT-OF-PHASE STUDENTS:** A student who is out of phase with his/her class through course failure, transfer, etc. should be aware of the importance of giving priority to Mathematics, Physics, Statics, Mechanics of Solids, and Dynamics in scheduling. These courses are prerequisites to other engineering courses and should be completed as early as possible.

**STUDENT ACTIVITIES:** A student interested in Mechanical Engineering is encouraged to affiliate with the student section of the American Society of Mechanical Engineers. This society holds monthly meetings, plant tours and social events and provides an opportunity for the engineering student to learn more about the chosen field and to become acquainted with faculty members and fellow students. Student sections of the Society of Automotive Engineers and the American Institute for Aeronautics and Astronautics are also based in the Mechanical Engineering Department.

**TRANSFER TO COLLEGE OF ENGINEERING:** To be admitted to the college, the student must:

- Complete at least 30 semester hours of coursework post high school
- Complete Calculus 2 with a C- or higher
- Have a 2.3 grade point average in at least three of the following categories:
  - in all coursework
  - in all engineering coursework
  - in all required mathematics coursework
  - in all required science coursework (chemistry, physics, computer science, biology)

Admission of students who do not meet the above requirements will be considered by the dean or representative only if the request originates by an Engineering department head or representative.

Students can arrange inter-college transfers through an appointment with their academic advisor; advisor contact information is listed in "My Akron".

**WOMEN AND MINORITY ENGINEERS:** Eligible students are invited to register into the applicable engineering course elective. There are two options; 4100:110, Women in Engineering Seminar & Peer Group (Contact: Heidi Cressman, 330-972-7701, or hec9@uakron.edu). This course provides beginning women students an overview of the career opportunities for women in engineering. The course introduces relevant topics in engineering, an overview of career opportunities, student led discussion groups and an opportunity to meet with professionals in various engineering disciplines. The other option is 4100:120, Minority Engineering Seminar and Peer Groups (Contact: Julie Zhao, 330-972-2823, or zhao1@uakron.edu). This course provides an overview of disciplines and opportunities in engineering. It also reinforces educational/career choices and provides role models of successful minority engineers.

(Jackson)
