CORROSION ENGINEERING TECHNOLOGY

• Associate degree grads average starting salary: $55,000*
• Prepare for certification tests in Basic Corrosion and Cathodic Protection offered by NACE
• Wide selection of career opportunities

* Department of Labor and Statistics.
CORROSION ENGINEERING TECHNOLOGY

The AAS in Corrosion Engineering Technology prepares students to evaluate corrosion of materials in the field and apply strategies for mitigating corrosion. The program strives to balance classroom instruction with relevant field and lab work. The Department of Defense has provided funds that will directly support the degree.

ASSOCIATE DEGREE AND CERTIFICATE

- Associate of Applied Science in Corrosion Engineering Technology
- Certificate in Corrosion Technology

EMPLOYMENT OPPORTUNITIES

With an AAS degree in Corrosion Engineering Technology, you can find employment in any industry that is impacted by material degradation, including oil and gas, chemical process, and construction industries.
