

4. The Browsing History Categories are listed.

- a. Click the  button under the **Temporary Internet Files** heading to delete your cache. This includes copies of web pages, images, and media that are saved for viewing. Temporary Internet Files are also referred to as cache.
- b. Click the  button under the **Cookies** heading to delete cookies. Cookies are files stored on your computer by websites to save preferences, such as login information.
- c. Click the  button under the **History** heading to delete the list of websites you have visited.
- d. Click the  button under the **Forms data** heading to delete any saved information that you typed into forms.
- e. Click the  button under the **Passwords** heading to delete passwords that are automatically saved when logging on to a previously visited website.

To delete all the items (temporary Internet Files, Cookies, History, Form data, and Passwords) click the  button

5. You will be prompted “*Are you sure you want to delete all temporary Internet files?*” - click the **Yes** button.
6. Click either the Close button or the “X” in the upper right to close the *Delete Browsing History* dialog box.
7. Click the **Ok** button in the *Internet Options* dialog box.
