

Internet Explorer 7 Start-up Settings

The first time you use Internet Explorer 7 you will be prompted to select a few settings. The following screens outline the various settings.

1. You are required to choose your default search provider. To see the available list of search providers select the option “Let me select from a list of search providers.” Once you click the  button at the bottom of the page the search providers will be listed. At that point you will select the desired provider.

Required Settings

 **Please choose your default search provider**

Internet Explorer 7 allows you to easily find information on the web using a search provider.
Your current default search provider is: *Live Search*

Keep my current default search provider.

Let me select from a list of other search providers.
Click "Save Settings" below to see the list of search providers.

2. You can turn on the Phishing filter (recommended). This option will alert you if the website you are visiting is a phishing site.

Optional Settings

 **Help make your browsing more secure by setting up Phishing Filter**

Phishing Filter is designed to warn you if the website you are visiting might be impersonating another website.

Turn on automatic Phishing Filter (recommended).

Some website addresses will be sent to Microsoft to be checked. Information received will not be used to personally identify you. Read [Internet Explorer's Privacy Statement](#) online.

3. You can select the ClearType viewer to make the webpage text easier to read.

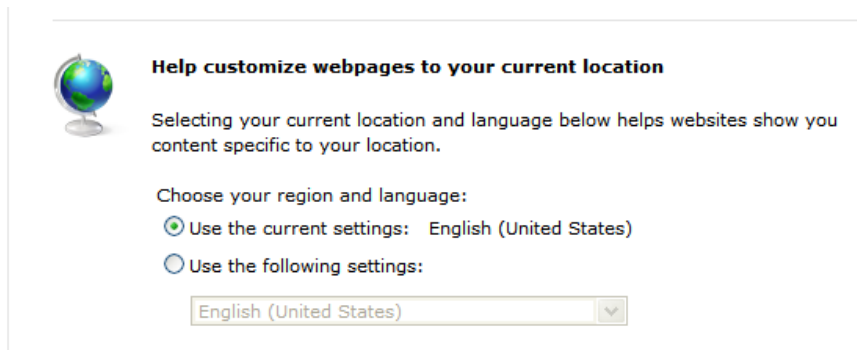

See webpages more clearly

Turning on Microsoft ClearType can help make webpage text easier to read. After turning on ClearType, use the [ClearType Tuner](#) to adjust the settings for your monitor.

Always use ClearType to view web pages (recommended).

4. You will want to leave the region and language as English (United States).

Help customize webpages to your current location

Selecting your current location and language below helps websites show you content specific to your location.

Choose your region and language:

Use the current settings: English (United States)

Use the following settings:

English (United States) ▼

5. Click the  button at the bottom of the page.

6. If you selected the option to view a list of search providers (Step 1) you will receive a page with a list of the search providers. Select the desired search provider by clicking on their name.

7. You will be asked to verify that you wish to add the search provider. Click the  button.
