Students on probation wishing to take either of these courses must contact the Dean of Students in writing, for special permission prior to registration. Students on probation cannot substitute either of these two courses to meet the required minimum of 18 credit hours of bar courses.

NOTE 2: Students planning to sit for an out-of-state bar examination may receive special permission to enroll in a bar course for that state. The student must submit a request in writing to the Dean of Students for permission prior to registration.
