A descriptive bulletin with explanations of courses and colleges at the University of Akron
I.

The

University

of Akron
A Story of Growth

Buchtel College was established by the Ohio Universalist Convention on May 31, 1870, on a hill overlooking Akron, a thriving industrial city of 10,000 situated at the summit of the Ohio Canal. The college was named in honor of John R. Buchtel, a farm machinery manufacturer, whose money (half a million dollars) and spirit sustained the enterprise. Support also came from local men who pioneered important industries—cereals, clay products, matches, farm machinery, and rubber.

By 1913 it was apparent that Buchtel College was more closely oriented toward Akron than toward Universalism, and in that year its assets were transferred to the city as the nucleus of The Municipal University of Akron. The Buchtel name was perpetuated in the Buchtel College of Liberal Arts.

From 1910 to 1920, Akron was America's fastest growing city, blossoming from 70,000 to 208,000 persons in that decade, and the University grew apace. In 1914 a College of Engineering was established. Other professional colleges followed: Education (1921), Business Administration (1953), Law (1959), Community and Technical (1964), Fine and Applied Arts (1967), and Nursing (1967). To make courses available to a broad cross-section of citizens, a comprehensive Evening Session was established in 1915. Its 6,000 students can be found in nearly every degree program offered by the University.

In undergraduate education, Akron was an early supporter of the Free Elective idea (1880's) and General Education (1935), the latter program being developed into one of the most fully rationalized in the country. Graduate work evolved from the awarding of the first master's degree (1882) to the beginning of doctoral work in 1956. Currently, the doctorate is offered in seven fields of study with two additional programs approved for planning in engineering and history.

Since Buchtel College initiated college courses in Rubber Chemistry (1908), it is appropriate that Akron's first Ph.D. program was offered in Polymer Chemistry. However, Akron's first major research effort was the Guggenheim Airship Institute which flourished briefly in the 1930's only to disappear with the demise of lighter-than-air craft.

Akron scientists participated in the critical development of synthetic rubber during World War II, and the University's Institute of Polymer Science is now a world leader in polymer research and education. Currently Akron's research efforts, totalling more than $1,600,000, reach into many fields, from barnacles to inner-city problems.

The 71-acre campus with 48 modern buildings is located at the hub of an industrial urban area of 700,000 persons. The University of Akron now enrolls 9,677 day and 4,755 evening students in credit courses and an additional 1,912 in "informal" adult education. Its students come from 36 states and 49 foreign countries. The 20,000 alumni are situated around the globe in positions of responsibility. Akron's long-time leadership in continuing adult education through its Institute for Civic Education and its Center for Urban Studies has been supplemented by the cultural leadership it has provided in the renaissance of artistic endeavor in Akron.

On July 1, 1967, The University of Akron became a state university, thus securing a base that enables it to extend its influence far beyond local boundaries. Its first century of service has prepared it for a widening role in years to come.
Objectives

The University of Akron, in fulfilling its role as an institution of higher education, expects students who qualify for admission to achieve the following objectives:

To acquire knowledge of man's social being and history, of his physical and biological nature and environment, of his cultural situation, and of the processes that make for personal and group fulfillment through the development of his personality and character.

To develop and strengthen the ability to use in qualitative and quantitative ways the English language.

To be intellectually curious and eager for scholarly growth.

To think logically and critically and make sound judgments.

To appreciate beauty in all its forms.

To understand people and their differences.

To develop an independent spirit and a personal sense of values with the proper regard for the rights of others and to assume a commitment to a free society and the social and civic responsibility as a participant in the world community.

To maintain physical health and vigor and comprehend the importance of appropriate leisure time activities.

To determine their future occupations and interests.

Utilizes faculty and facilities effectively in instruction.

Conducts research activities directed to the advancement of knowledge.

Provides expert advice and assistance to industrial, civic, and educational agencies.

Offers programs for continuing education and dissemination of knowledge and culture through various media to the community beyond the University.

The degree programs are established in various fields in the colleges as determined by the adequacy of their resources and facilities to meet the foregoing objectives.

The University recognizes a student's level of accomplishment in these programs by awarding associate, baccalaureate, master's or doctor's degrees.

Accreditation . . .

The University's Standing

Any educational institution is as strong as the level of excellence which it demands of itself, as well as of its faculty and students.

The University of Akron has set high standards for itself which result in its being accredited and approved by the following organizations and associations:

The North Central Association of Colleges and Secondary Schools, Ohio College Association, American Medical Association, American Chemical Society, the Engineers' Council for Professional Development, National Council for Accreditation of Teacher Education and State Board of Nursing Education and Nurse Registration. The College of Business Administration is accredited by the American Association of Collegiate Schools of Business and the Electronic Technology and Mechanical Technology Associate degree programs are both Engineering Technology curricula accredited by the Engineers' Council for Professional Development.
The University of Akron is a member of the following organizations:

American Council on Education, Association of American Colleges, Association of Urban Universities, American Society for Engineering Education, Ohio College Association, the American Association of Colleges for Teacher Education, holds associate membership in the International Council on Education for Teaching and in the National League for Nursing, Department of Baccalaureate and Higher Degree Programs.

The College of Law has membership in the League of Ohio Law Schools and is fully approved by the American Bar Association, and is registered with the State Education Department, The University of the State of New York.

The University is also a member of the Association of University Evening Colleges. In addition to this, it is an accredited member of the North Central Conference on Summer Schools.

Women graduates of the University with approved baccalaureate degrees (requiring at least two years or a minimum of 60 credits of non-professional, non-technical work credited toward a B.A. degree) are eligible to membership in the American Association of University Women.

Accreditation assures a student that he is recognized and approved by select regional and national educational associations, societies and councils.

A student has the security of knowing that credits earned at his university have transfer value to comparable institutions of learning, just as incoming transfer students learn by checking this list that The University of Akron can be expected to honor most of their credits earned at a similarly accredited college or university.

For the student taking pre-professional courses in order to enroll eventually for subsequent study in advanced fields such as medicine, dentistry, law or theology, there is the assurance that courses taken at The University of Akron will prepare him to be accepted by a graduate or professional school where he can specialize further.

For the student who intends to meet the University requirements for a Bachelor’s Degree or Associate Degree and then enter his chosen profession or vocation, there is the satisfaction of knowing that this degree will be respected whenever he presents his credentials to a prospective employer.

**Academic Offerings**

The University of Akron’s academic offerings cover the complete educational spectrum from two-year associate degree programs, through four-year baccalaureate programs, to master’s degree programs as well as programs of study leading to the doctor’s degree.

The first and second year student may be enrolled in either the General College, obtaining the background in General Studies required for entering one of the University’s upper colleges, or he may be enrolled in the Community and Technical College, taking courses that will earn him an associate degree at the end of two years.

By the time a student who is aiming toward a baccalaureate degree reaches his third year, he has completed many of the General Studies courses and is ready to enter an Upper College. It is in the Upper College of his choice that he begins devoting more and more of his time and attention to a specific area of study.
The student may also be one of the hundreds of graduate students working toward a master’s degree. Or, he may have completed the earlier programs and be engaged in the scholarly study and research essential to preparation for a doctor’s degree in chemistry, polymer science, industrial psychology, or education.

ASSOCIATE PROGRAMS
In this fast-paced age of technological development, a need has grown for persons trained specifically for work in the semi-professional, technical and highly skilled classifications. Most critically needed are lab technicians, engineering assistants, industrial sales people, supervisors, secretaries and management assistants.

Community and Technical College
The University of Akron began offering programs aimed toward helping society meet such needs in 1937 when it introduced its Community College program. Initially offering only non-credit studies, the Community College expanded rapidly and in 1959 the University began offering associate degree programs in a variety of fields through its General College.

The demand for such training has continued to grow. As a result in 1964, the associate degree program was separated from the General College and the Community and Technical College was established.

The Community and Technical College offers credit courses leading to an associate degree at the end of a two-year program of study in the areas of industrial technology, electronic technology, mechanical technology, health technology, transportation, chemical technology, sales and merchandising, commerce, food service management, arts, commercial art, surveying and construction technology, instrumentation technology, cytotechnology, data processing and secretarial science. Included in the latter are courses aimed specifically toward preparing graduates to qualify as executive, international, legal, technical and medical and dental secretaries.

BACCALAUREATE PROGRAMS
In 1935 The University of Akron pioneered a concept in general education in the belief that all college students should have mas-
tered basic courses in the humanities and the social and physical sciences. Students, even those aiming toward careers in such vocationally-directed fields as engineering, chemistry or business administration, benefit from these “know-why” courses.

General College
As a result, students seeking a baccalaureate degree who are enrolling in the University with less than 96 credits, study in the General College before “graduating” to an upper college. Here they develop the ability to understand and express ideas effectively and to comprehend the processes involved in accurate thinking. They learn the responsibilities of an educated member of society, as well as learning to understand themselves and their individual abilities.

After completing their courses of study in the General College, students seeking a baccalaureate degree enter one of the following upper colleges:

Buchtel College of Liberal Arts—
is organized in divisions of the humanities, natural sciences and social sciences, and furnishes a broad, thorough liberal education as well as preparation necessary for the medical, dental and legal professions. Baccalaureate degrees conferred in the liberal arts area are the Bachelor of Arts, Bachelor of Science, Bachelor of Science in Labor Economics, and Bachelor of Science in Medical Technology.

College of Engineering—
offers a five-year program of courses leading to a Bachelor of Science degree in chemical, civil, electrical and mechanical engineering, arranged on the highly successful cooperative work-study plan that bridges the gap between academic college training and practical industrial experience.

College of Education—
furnishes the necessary preparation for prospective teachers, counselors and administrators for primary, elementary and secondary schools, and in health and physical education. All courses comply with State certification requirements and degrees of Bachelor of Science in Education or Bachelor of Arts in Education are offered.

College of Business Administration—
offers professional programs in business to prepare students for careers in commerce, industry and government. Undergraduate degrees conferred are the Bachelor of Science in Accounting, Bachelor of Science in Business Administration and the Bachelor of Science in Industrial Management.

College of Fine and Applied Arts—
offers programs leading to the Bachelor of Arts degree with majors in art, home economics, speech and music and to the Bachelor of Music degree. The Art Department offers a program which can lead to a Bachelor of Fine Arts degree upon approval by the Ohio Board of Regents of that degree.

College of Nursing—
offers a basic collegiate program in nursing which leads to the degree of Bachelor of
Science in Nursing with a major in Nursing. The program prepares nurses for all beginning positions in professional nursing, including community health nursing.

**ADVANCED STUDY**

After earning a baccalaureate degree, students desiring still further education may embark on programs in either of the following:

College of Law—
provides legal education leading to the Juris Doctor degree in either day or evening classes. For admission an applicant must have an undergraduate degree from an accredited college or university in an appropriate field of study.

Graduate School—
offers advanced courses leading to the Doctor of Philosophy degree in chemistry, polymer science, industrial psychology, and education; to the Doctor of Education degree in school administration; and to the Master's degree in accounting, biology, business administration, chemistry, economics, education, engineering, English, French, history, international business, management, mathematics, philosophy, physics, political science, polymer science, psychology, sociology, Spanish, speech, statistics and urban studies. A program leading to the Doctor of Philosophy degree in History will be offered beginning in September 1970.

Evening College
Education is a year-long, round-the-clock endeavor at The University of Akron. To provide educational opportunities for those who must earn their livelihood at daytime jobs, the University operates an Evening College. The courses offered in the Evening College are fully accredited, and many of the faculty members teach both day and evening courses. As a result, more than 6,000 of the University's student enroll-

ment attend evening courses in their quest for associate, baccalaureate and advanced degrees or for added education in their chosen professions.

**Summer Sessions**

For more than 40 years, the University has also offered both daytime and evening classes during summer months. Specific goals of the Summer Sessions are to permit University students to accelerate their academic progress; to help teachers work toward additional or advanced degrees or toward certification during summer vacations; to permit regular engineering students to continue their studies on schedule while working in the cooperative program; for transient students from other universities who wish to work toward their degrees during the vacation; and for high school graduates who may wish to enter the University immediately after their graduation in June.

**Off-Campus Academic Programs**

In July 1968 The University of Akron established off-campus academic programs,
offering resident credit centers for third and fourth year baccalaureate courses and academic centers for first and second year courses. Resident credit centers are provided at the Babcock & Wilcox Company's Research Center in Alliance, Canton McKinley High School and Lathrop Elementary School and Canton Aultman Hospital in Canton, and at Massillon City Hospital in Massillon and in the Madison School District in Mansfield, Ohio. Academic centers are in Orrville and Alliance.

Students
A composite picture of an Akron student would be hard to sketch. But if one limits his attentions to the typical undergraduate, the following comments will draw a true picture of the students at The University of Akron:

Akron students show by appearance and action that they attend a university which is in a forward-thinking, prosperous community. The students are abreast of trends and clearly a part of national collegiate interests, both curricular and extracurricular.

Akron students enjoy the security of knowing that if they wish to do so, they can anticipate a future life in the Akron area, since there are many opportunities for employment in industrial and professional fields which are close to the campus.

Many Akron students have the unique advantage of living with their families and yet adding to their cosmopolitan circle of acquaintances. Akron, as "the rubber capital," attracts many campus visitors and increasing numbers of foreign students. New dormitory facilities make it possible for nonresident students to add a valuable ingredient to the atmosphere of the University scene.

Akron students live in an area of the United States which is on the "culture trail." This means that they have frequent access to plays, lectures and professional performances either in or near Akron. The Metropolitan Opera Studio group has presented workshop productions of operas in capsule on The University of Akron campus.

Faculty
At The University of Akron, there is no "typical teacher." Each professor functions as an important part of an organized directed group. But he exerts his skills in his own individual manner. Although he is part of a closeknit campus community, he is not part of a cloistered, segregated Ivory Tower clique.

Even his living conditions reflect the heterogeneous aspect of the faculty. There is no fenced-in compound where faculty families live together. There is no in-bred social or professional attitude—but instead, the strongly personal, deeply American-flavored uniqueness of the individual.

Many Akron professors have studied at institutions whose reputations are recognized all over the world. A few of them are: Akron, California, Carnegie Tech, Chicago, Cincinnati, Colorado, Columbia, Cornell, Harvard, Indiana, Iowa, Johns Hopkins, Michigan, Minnesota, North Carolina, Northwestern, N.Y.U., Ohio State, Princeton, Purdue, Syracuse, Temple, Utah, George Washington, Wisconsin, Wooster and Yale. Outside of the U.S.: The Universities of Bolivia, Frankfurt, Halifax, Jadvypr, London, Manitoba, McGill, San Francisco Xavier de Chuquisaca, Tübingen and The Sorbonne. This variety of background of educational training is part of the University's richness.

Akron professors have academic records which show that they are equipped with a depth and breadth of scholarship. More than half of the faculty group have earned their doctor's degrees.

Administration
The public responsibility for educational advancement at the University is delegated
to specific individuals. In accordance with Ohio law, the University is governed by a Board of Trustees consisting of Ohio citizens who are appointed by the Governor of Ohio.

This Board functions as the legal and policy-making body of the University while the University Council functions as the faculty legislative group.

On campus, providing the necessary link between the public and its University, are a number of people who function as part of the Administration. This includes a President, three Vice Presidents, twelve Deans, a Business Manager and an Auditor, Treasurer and Controller, Registrar, Librarian, Dean of Graduate Studies and Research, Director of Institutional Research, Director of University Relations, Director of Alumni Relations, Director of the Institute for Civic Education and Superintendent of Buildings and Grounds.

The Advisers of Men, Advisers of Women, Testing and Counseling Bureau, Director of Housing and Director of Admissions, also part of the administrative table of organization, devote most of their attention directly toward the students.

When an academic step affecting students is to be considered, members of this administrative group must lead the way in deciding if . . . when . . . and how something should be done.

**Location**

Strategically located in the industrial heartland of America, and situated in the central part of a major metropolitan area, the University is uniquely qualified to help men and women seek the enlightening adventure of college education. Its location provides an easily accessible center of learning while permitting the student to examine the many vocational opportunities of a wide variety of business and industrial institutions. And, by offering fully-accredited courses throughout the year, both during daytime hours and at night, it also permits the student to work in one of the area’s many industries, thus combining a collegiate education with experience.

The area surrounding The University of Akron also offers unusual cultural opportunities. Living in an area of the United States called the “culture trail”, students have frequent access to plays, lectures and professional performances, either within Akron or in the surrounding area, which includes Warren and Canal Fulton with their famous summer stock theaters.

**How to get there**

The location of The University of Akron is ideal from a traveling standpoint. Automobile travelers find Akron but a short drive south of the Ohio Turnpike that ties together the whole eastern half of the nation. The city’s suburbs touch on the new interstate north-south Highway 71 that stretches from Lake Erie to the Gulf Coast and Interstate 90 that ties in with the New York Thruway. Bus travelers will find the Greyhound station but a short walk from the campus as will patrons of the B & O, Pennsylvania and Erie-Lackawanna railroads. And airline passengers will find Akron the terminal of limousine service from both the Cleveland-Hopkins and the Akron-Canton airports.
**Growth**

Growth in size and facilities is part of the story of any dynamic institution and The University of Akron is no exception. In 1951 the student body numbered only 3,673 and the University's thirteen acres of ground encompassed only ten buildings. Since then, however, the student body has quadrupled, reaching in the 1967-68 academic year, a record high of more than 15,500. The campus has also grown, covering 71 acres with 48 buildings.

Nor is the end in sight. As rapidly as the need for an increasing number of educated minds has grown, the University has expanded. Construction work is now under way to provide housing by 1969 for an additional 490 men in a new 16-story high-rise residence hall; Schrank Hall, new home of the Community and Technical College, is scheduled for completion also in 1969; remodeling projects in three classroom buildings on campus—Ayer, Knight and Kolbe Halls—will soon provide space for general classroom use; construction will soon begin on a community-university $6.6 million performing arts hall adjacent to downtown Akron to be used for symphonic concerts, opera, drama, ballet and lectures.

Thus, although situated on valuable land within easy walking distance from the heart of Akron's downtown business district, The University of Akron continues to grow. New buildings, modern equipment, expanding campus area, adequate parking facilities, comfortable residence halls and many other necessities of modern education are rapidly being added to provide the students of today and tomorrow with all the facilities required to meet the University's continuing high standards of excellence as an institution of higher learning.
THE UNIVERSITY OF AKRON

To Rts. 77, 241, 80e, 18, 91, 224
and Akron Canton Airport
Buildings

Auburn Science and Engineering Center, the home of the four departments of the College of Engineering and the departments of mathematics and biology, the Institute of Polymer Science, also houses the scientific and engineering holdings of the University's library. The ground floors of the new structure are devoted to vehicular parking for faculty and students.

Ayer Hall, on the northwest side of the campus, provides classrooms and office space for the history, physics, political science and sociology departments. It is named for the first Dean of the College of Engineering, Frederick E. Ayer, the developer of The University of Akron cooperative work study plan.

Buchtel Hall, in the center of the main campus, is the Administration center of the University. It contains offices of the President, the Vice President for Academic Affairs, the Vice President for Planning, the Vice President for Business and Finance, and the Dean of Student Services and is headquarters for Development, the Auditor, the Controller and Treasurer, University Relations, University News Service, Publications, the Admissions Office, Institutional Research and the Center for Information Systems. It is named for the institution's first benefactor, John R. Buchtel.

Business Administration and Law Building houses the Colleges of Business Administration and Law classrooms and offices plus the John S. Knight Auditorium and C. Blake McDowell Law Library in addition to lecture, laboratory and seminar rooms, and a practice courtroom.

Education Building, provides a lecture room that seats 260, 19 general classrooms, a handicrafts room, an auxiliary closed circuit television studio, a complete language laboratory, a teaching demonstration classroom and is headquarters for the Dean of the College of Education.

Firestone Conservatory of Music, a gift of the Harvey S. Firestone family, includes two buildings located at East Market and Forge Streets. It provides classrooms, practice rooms and office space for the Department of Music and has a large auditorium for student recitals.

Home Management House, located immediately adjacent to the residence halls, provides Home Economics majors a place to put into practice what they learn in the classroom.

Knight Hall provides classrooms, laboratories and office space for the chemistry department. It is named for C. M. Knight, head of the first Science Department and
developer of the world’s first rubber chemistry course.

Parke R. Kolbe Hall includes classrooms and offices of the Buchtel College of Liberal Arts, the University Theatre, WAUP-FM radio station, and instructional television studios, as well as the English, speech and geography-geology departments. It is named for the first president of the municipal University.

The University Library contains 285,000 volumes.

In the Main Library are the circulating, reference and periodical collections in the social sciences and humanities and a government documents collection for social sciences, humanities, and sciences. Unique features of the Main Library are the Herman Muehlstein Rare Book Room and the Charles E. and Mabel M. Ritchie Memorial Room that now houses the University Archives.

On the ground floor of the Main Library is Audio Visual Services with a collection of records and films for student use.

The Science-Technology Division of the University Library is in the Auburn Science and Engineering Center. It houses circulating, reference, and periodicals collections for the departments of biology, chemistry, geology, mathematics, physics, polymer science and the colleges of engineering and nursing.

Memorial Hall, is the center of men’s and women’s physical education activities. It contains two large gymnasiums, a swimming pool, classrooms and offices of the Athletic Department faculty. It is dedicated to the memory of Summit County men and women who died in World War II.

Schrank Hall is headquarters for the Community and Technical College, the ROTC and AFROTC units and the departments of Art, and Home Economics.

Simmons Hall contains offices and classrooms of the department of Psychology plus the University’s Computer Center. It is named for the former University President, Hezzleton E. Simmons.

Spicer Hall is the major student contact building, housing the offices of the Registrar, Student Services, Cashier, Evening College, Institute for Civic Education, and the Deans of the Summer Sessions and of the General College.

Testing and Counseling Building—Housing the Testing and Counseling Bureau of Student Services, this building is located at 221 E. Center Street.
Residence Halls

The University's Residence Halls complex is located on the North Campus adjacent to the Main Campus and within easy walking distance of downtown Akron. The complex contains four dormitory buildings capable of housing 860 students, Orr, Ritchie, and Sisler-McFawn Halls, housing a total of 341 women and the Residence Tower which houses 315 men. A second residence tower is under construction with occupancy scheduled for Fall 1969.

All of the modern buildings are fully air-conditioned and equipped with the finest built-in furniture and conveniences. Each building has its own lounges and recreation areas and all are equipped with laundry facilities and storage rooms.

The Residence Hall complex also contains a coed dining hall used exclusively by dorm students and a twelve-bed infirmary which also serves as the University's Health Center.

GARDNER CENTER houses bowling alleys, music rooms, TV lounge, student activity offices and work rooms, game and billiard room, book store, Alumni Office, Senior Placement Bureau, and cafeteria and dining facilities.

Pending further construction, several of the University's offices and facilities are housed in temporary structures immediately adjacent to the campus. Until the new dormitory facilities are completed several students are being quartered in other buildings near the campus. Temporary faculty offices are also located in the Home Economics Annex on East Exchange Street, the Community and Technical College Annex on Center Street, and the Speech and Hearing Clinic on James Street.

Teaching Aids and Facilities

While the give-and-take relationships established through personal contact between teacher and student will always remain the keystone of the educational process, numerous studies have established the fact that imparting knowledge through the use of modern teaching aids makes most learning situations more meaningful and lasting. Concern for student learning, in keeping with these facts, resulted in the establishment, in 1967, of the Office of Instructional Media—a major step toward the ultimate creation of The University of Akron's Learning Resources Center. The Office of Instructional Media incorporates the Instructional Television Center, Audio-Visual Services, WAUP-FM, and the Radio Workshop.

The Instructional Television Center, which was made operational in 1960, functions as an effective teaching tool through continuous production of daily lectures, originating from the University's instructional television center, and which are transmitted via co-axial cables to campus classrooms. This has proved to be an efficient means of presenting educational material to an expanding number of students while maintaining the values of traditional professor-to-student relationships as well as adding new values to the teaching process.
Annually, an estimated 7,000 students receive part of their instruction by television. By June, 1969, approximately 70,000 class registrants will have participated in receiving part of their education by television. By then approximately 170 courses will have been presented in whole or in part, by this means since 1960.

No courses are presented entirely by television. Each television lecture is presented to a class which meets periodically with its professor "in person.”

Audio-Visual Services dates back to 1945 when the first centralized collection of instructional materials (filmstrips, slides, etc.) was purchased for the purpose of supplementing several University professors' lectures. This new service was eagerly accepted and in 1961 the scope of audiovisual services was greatly expanded through allocation of a major portion of the ground floor of the present University Library building to the Audio-Visual Department. An extensive audio-tape and phonograph collection is stored here for use of faculty and students.

Audio-Visual Services also has a Materials Production Division which prepares original artwork and photographic materials used by instructors for reinforcement of classroom learning principles.

An audio-visual services annex has been established in Simmons Hall to facilitate service to faculty and students.

WAUP-FM and The Radio Workshop are also integral parts of the Office of Instructional Media. Students gain invaluable experience in mass media by writing, producing, and presenting programs over the University's radio station WAUP-FM. Active participation in the Radio Workshop is
open to all qualified students and many professional careers have begun in these radio-television studios. The opportunities for fine professional experience are always enhanced by the traditional and close working relationships which exist between the Department of Speech and the Office of Instructional Media.

The Language Laboratory and the recording studio, a specialized adjunct, are electronically-equipped rooms in the College of Education Building, with sound booths and a monitor's console.

The Laboratory is expressly for the purpose of familiarizing students with a foreign language through the utilization of actual voices of particular countries recorded on tapes and record transcripts.

Student booths are equipped with earphones, microphones with amplifiers, and in some cases, tape recorders. The instructor's console has microphones, eight tape decks, monitoring facilities and a turntable.

The Structures, Materials, and Mechanics Laboratory, one of the modernly-equipped facilities of the Department of Civil Engineering, provides training for students interested in structures, foundation engineering, and structural, solid, fluid and soil mechanics.

The Laboratory, equipped with an ElecTo-Matic torsion testing machine and Universal hydraulic testing machines, is used by undergraduate and graduate students and also by faculty members for studies and research.

Faculty and students also have access to hardness testers, an electronically-controlled MTS closed-loop materials testing system, a seven-channel, six-speed tape recorder, strain gage indicators and vibration systems.

Additional equipment includes a complete soil mechanics laboratory, an hydraulic demonstration channel, a modern moisture room, a loading platform, load cells, hydraulic jacks and items for general use.

The Speech and Hearing Clinic, with its audiology and language laboratories, provides complete hearing and language diagnostic service to both the community and the University. Research and training on the undergraduate and graduate professional levels are assisted by the use of closed-circuit television as well as manual and self-recording audiometers, psychoacoustic equipment, oscilloscopes and complete selections of taping devices for effective conditioning procedures. A board of medical consultants assists in the aspects of the educational and clinical programs of the Clinic.

The Computer Center, a recently-expanded and modernized complex for students and faculty, is located in Simmons Hall.

The Center is equipped with the IBM 360/40 computer and 44 computer systems with magnetic disks, tapes, remote terminals and a wide variety of peripheral equipment.

Faculty research receives considerable computer support. The Center's services include the preparation of financial and academic planning, operating and control reports.

The Center's computers are also used for instruction in a number of computer-related courses leading to a two-year associate degree in data processing. Students also use the computers for homework assignments and special projects in numerous other courses.
II.
The University of Akron
Student Activities and Services
**Extracurricular Activities**

Everyone at The University of Akron can be a member of some group, team, club or committee. A student can participate in songfests, Student Council elections, pledge weeks, rush parties, sorority teas, fraternity bull sessions, student meetings of professional societies, kaffee klatsches, University radio workshops, Town and Gown lectures, military balls, ox roasts, Father’s Day festivities, intercollegiate sports, intramural sports, May Queen crownings, Forensic Union matches, University plays, Music Department concerts or recitals, Honors Convocations, recognition dinners, Founders Day programs, homecoming festivities, intercollegiate sports, intramural sports, May Queen crownings, Forensic Union matches, University plays, Music Department concerts or recitals, Honors Convocations, recognition dinners, Founders Day programs, homecoming festivities, intercollegiate sports, intramural sports.

Also, all student groups have faculty advisers. For instance, the student publications function with the assistance of a Publication Committee made up of the Dean of Student Services, the University Treasurer, the faculty advisers and editors of *The Buchtelite* and *Tel-Buch*, and presidents of both the Student Council and the Women’s League. In addition, the Director of University Relations acts as Chairman of the Committee.

**Musical Activities**

There are many campus musical groups which perform for the large University functions and also present instrumental and vocal concerts and recitals.

Students may audition for membership in the marching or symphonic bands, the orchestra, or the brass, woodwind, percussion, or string ensembles, if they have talent in playing a musical instrument.

Vocalists may apply for membership in the Opera Workshop, Choral Ensemble, and, with the University Singers or the Evening Chorus, may perform in the choral concerts of the Akron Symphony Orchestra.

About 100 recitals by individual music students and faculty members are presented each year in the Firestone Conservatory, which includes classrooms, an auditorium and reception areas which are used by hospitality committees in connection with recitals.

Students with musical ability will find a wide variety of instruments including a three-manual classic-style Moller organ, a
Neupert harpsichord, and a concert-style harp owned by the University and offered to students for use in the instrumental groups or as adjuncts of private or group instrumental lessons.

Many off-campus groups avail themselves of the musically trained students and during the course of an academic year, about 75 performances will be presented by instrumental ensembles or singing groups.

Private lessons are offered to University students and also to non-campus musicians, with payments either on a per-lesson plan or through the conventional quarter arrangement as used for other courses of instruction.

**Performing Arts**

University students have ample opportunity to develop their abilities to face the public and talk "on their feet"—either to "live" audiences in plays, discussions or debates or to the unseen audiences who tune them in on their radio or TV sets.

The center of dramatic activities is in the University Theatre. This is located in Kolbe Hall which was built in 1955, honoring the former President, Dr. Parke R. Kolbe. Facilities are of the finest for both the on-stage actor and the backstage technician.

Each year, four or more major productions are presented. Open tryouts are held for students in all of the Colleges of the University.

There are outlets for those who aspire to write, produce or act in experimental theatre, also. A series of one-act plays is presented annually with student directors, actors and crews.

Forensic and debate teams compete intercollegiately.

For those who want to gain valuable experience in the mass media, the University has complete facilities for telecasting and broadcasting. It is in the University Television Studio that all Closed Circuit Television lectures originate. The Radio Workshop presents daily programs which are broadcast to the public over WAUP, the University's independent FM station.

**Student Publications**

The Bucitellite ... a weekly newspaper with 25-30 issues in each academic year. This is the campus "voice" with straight news, columns, and photographs describing campus events. It is published tabloid-style on regular newsprint, distributed to students free of charge on newsstands located in various spots on campus. A staff of about 30 students works on this publication.
TEL-BUCH . . . a yearbook with a comprehensive editorial and photographic coverage of student life at the University. This is an impressive publication of about 300 pages. Its staff usually numbers about 20 students. At the beginning of each academic year, full-time students may receive their editions of the annual, on presentation of their Student I.D. cards. The Tel-Buch is one of the favorite souvenirs of campus life at the University.

NITE-LIFE . . . a monthly publication with news of interest to students in the Evening College. Each year there are 10 issues. This, too, is distributed free to students on campus newsstands.

YAWP . . . a literary magazine, published each semester by the Johnson Club, in which all copy consists of original writings by students.

Sports Activities
A wide program of sports for both intercollegiate and intramural participants is maintained at the University.

Competition is keen, especially in the intercollegiate athletic events, but it is stressed that proper focus is to be maintained at all times on principles of basic good health and hygiene; the philosophy is for emphasizing qualities of honor and sportsmanship in all players.

Intercollegiate games, meets and matches are scheduled annually with other colleges for the following athletic teams: football, cross country, basketball, swimming, wrestling, baseball, track, golf and tennis.

Soccer is another intercollegiate sport, and matches are held with other teams in the Ohio Collegiate Soccer Association.

Intercollegiate competition is planned by the R.O.T.C. staffs for The University of Akron rifle team which is a member of the Lake Erie Conference.

Students desiring information about eligibility to participate should consult the Registrar.

All athletic contests are under the control of the Director of Athletics (offices in Memorial Hall) and the Faculty Committee on Athletics. This group sets the rules for awards, honors and appointments.

Memorial Hall, built in 1954, honoring the war dead of Summit County, has two spacious gymnasia and a regulation size (75'x35') swimming pool for the use of both men and women.

Members of the student body and alumni have pride in the Hall of Fame in Memorial Hall, honoring the "greats" in Summit County sports history.

Fraternities and Sororities
There are eleven national sororities for women and ten national fraternities and one local fraternity for men on the University campus. Although these are University-supervised the selection of membership and government of each organization is the responsibility of each individual group in accordance with rules of the Panhellenic Council and the Interfraternity Council.

Each sorority and fraternity schedules about five major social events during an academic year, many of them taking place in their own houses and some of them utilizing the facilities of the main campus. Dances are often held in the Gardner Student Center and big-name bands are frequently brought in for these events.

Although most sororities have limited residence facilities in their houses one new group now accommodates 52 women students. All fraternities have housing for men. Appointment of housemothers or housefathers is by the organization itself. All fraternities and sororities have faculty members or faculty wives as advisers or honorary members.
Fraternal organizations contribute to the campus color at the University, conducting a "Greek Week" and constructing elaborate floats for special parades. During the year there are several competitive events such as the Interfraternity-Panhellenic Songfest.

The Independent Student Association, like the Greek organizations, is an active organization of non-affiliated students numbering about 30 to 100 persons each year.

Also, on campus are nearly 45 honorary organizations which are classified as honor societies, recognition societies or professional fraternities. These cover each of the academic areas, as well as the military and air force groups. National senior men and women's honoraries are Omicron Delta Kappa and Mortar Board.

All-Campus Meetings
There are three all-University convocations at which attendance is requested of the student body. These are annual events, scheduled about the same time each year and planned by a student-faculty Assembly Committee.

The convocations are: the President's Convocation in the early part of the Fall quarter; Founders Day Convocation in January honoring John R. Buchtel, first benefactor, and Dr. Parke R. Kolbe, first president of the municipal University; and Honors Convocation, near the end of the Spring quarter, honoring outstanding students.

During the academic year there are occasionally other assemblies, usually held in Memorial Hall, when the entire campus population is expected to attend. Assemblies for specialized, smaller groups are frequently held in the University Theatre in Kolbe Hall or in the John S. Knight Auditorium in the building for the Colleges of Business Administration and Law.

During Summer Sessions, a series of art films is offered to students. These and other motion picture presentations are usually in the University Theatre.

Cultural Offerings
Each year there are abundant opportunities for the students and townspeople alike to enjoy special cultural events on campus.

The Institute for Civic Education arranges a yearly "Town and Gown" series which are free to students and are available to townspeople who purchase tickets.

One of the cultural highlights at The University of Akron is the annual Fine Arts Festival. This is offered without admission charge to the public and is usually scheduled on a Spring weekend.

The Fine Arts Festival offers a richly varied selection of programs related to music, art and theatre featuring such personalities as Heidi Krall, Leon Fleisher, Dr. Henry R. Hope, Len Chandler, Miss Frances Yeend, Grant Johannsen as well as student and faculty artists and members of University musical organizations. The Akron Symphony Orchestra participates each year.

At all times, the cultural schedule is kept as flexible as possible, with constant possibility of enlargement. In keeping with the times, discussion groups and field trips are encouraged so that students may develop...
their abilities to become responsible, effective citizens.

Wherever possible, students are integrated with off-campus individuals who come to the University to increase their own knowledge and reciprocally, to serve as direct sources of information to the students.

Student Services

The Office of Student Services is a major division of the University, the purpose of which is to provide the help needed for the student to develop academically, personally and socially. The facilities which help to accomplish this objective include:

Counseling and Advising

This office is responsible for the academic counseling and advising of all freshman — and sophomore — level students. The Advisers are professionally-trained counselors and are prepared to help the students through academic and personal counseling on an appointment or walk-in basis.

Academic counseling helps the student adjust to the requirements of the curriculum and to utilize course offerings that will better prepare him for his future. Sensible credit hour loads, proper choice of subjects, scholastic achievement, study habits, outside work loads and other circumstances having an effect on successful work are all matters for concern in this kind of counseling.

Personal counseling is that which aids the students when problems of a personal nature are obstructing his academic career or his personal life.

Testing and Counseling Bureau

The Testing and Counseling Bureau provides psychological testing and professional counseling, without charge, to all students enrolled for credit at The University of Akron. Students may come to the Bureau for assistance in identifying aptitudes, interests and personality traits for consideration in the choice of an educational or vocational goal.

Assistance is also offered in dealing with personal or social problems which detract from the student's ability to derive the maximum benefit from his university experience. In addition, the Bureau offers study skills assistance on both individual and group basis.

The Bureau maintains a career library and a study skills laboratory. Students may utilize these facilities in order to improve upon learning skills and study habits.

Counseling services are normally made available through scheduled appointments. However, should a student feel the need to see a counselor immediately a staff member is usually available.

Placement Office

Career placement assistance is available to students in the Placement Office in business, industry, government, private agencies, and in education. The Office is located on the ground floor of the Gardner Student Center.

For the graduating student opportunities are provided for interviews with on-campus representatives of prominent businesses, industries and branches of govern-
ment, including the military services, and education at the primary, elementary, and secondary levels. Information on careers in both administration or teaching at the college or university level is available.

The facilities and services of the Placement Office are for students, from associate through graduate and professional degree levels.

More than 400 interviewers come to the University each fall and spring to interview degree candidates.

**FINANCIAL AIDS**
A detailed statement regarding all of the aspects of the Financial Aids Office, a Division of Student Services, appears in Chapter III of the Bulletin. Part-time employment is another responsibility of the Financial Aids Office, and many part-time job opportunities are listed in the Financial Aids Office, which is located in Spicer Hall.

It is the responsibility of each student who holds a job while attending the University to report to his Dean and to the Office of Student Services, the number of hours he is employed. Whenever there are significant changes made in the number of hours of employment, the student is expected to keep the information up-to-date in the Dean's office. Disciplinary action may be taken by a Dean if a student neglects to comply with these procedures.

Vocational guidance and information are available to all students throughout their college careers through the counselors in the Office of Student Services, the Testing and Counseling Bureau, and in the Placement office.

**STUDENT HOUSING**
Demand for campus housing is on the rise as nonresident students enroll at the University with increasing frequency.

Regulation of student housing centers in the Office of Student Services. Its basic rules are as follows:

Unmarried male students under 20 years of age are required to live with their parents, legal guardians, relatives with permission of their parents or legal guardians subject to the parietal rules of the University, or in University Residence Halls or other University approved housing.

Unmarried male students 20 years of age but not yet 21 years of age, with permission of their parents or legal guardians, may live in housing of their choice subject to the parietal rules of the University.

Unmarried female students under 21 years of age are required to live with their parents, legal guardians, relatives with permission of their parents or legal guardians subject to the parietal rules of the University, or in University Residence Halls or other University approved housing.

The University provides five new Residence Halls for non-commuting students, two for men and three for women. Comfortable double room accommodations are thereby provided for 341 women and 805 men. Each room has ample space for books and clothing. The furniture and decor are attractive and modern. Sun bathing areas and outdoor recreation areas are provided for all residents. The University swimming pool is open to Residence Hall students on Sunday afternoon.

For the annual rate of $990, the student receives living accommodations, bed linen and 20 meals a week.

**STUDENT HEALTH SERVICE**
The University constructs every facility with high safety standards and carries out this principle of maintaining physical security for its students by following stringent accident prevention measures. However, The University of Akron assumes no responsibility for student accidents incurred
while attending or participating in classroom, gymnasium or laboratory work.

Increased numbers of University students have brought about the expanded Health Service facilities immediately adjacent to the Residence Halls. First aid services are available in the Health Services, and an infirmary area is provided for twelve inpatients, with facilities for students not requiring hospital treatment.

Complete physical records of the men and women on campus are kept in the Student Health Service Center offices. A physician and a registered nurse are on duty regularly.

Residence Hall students receive bed care for up to 72 hours, without charge. Those students receiving bed care for a greater period of time than 72 hours will be charged the daily rate which is currently charged by local hospitals for similar services.

The student who becomes ill on campus may have to be taken to a local hospital. If, in the opinion of the University physician, this is necessary, the student will be taken to the most convenient hospital. The University assumes no legal responsibility or obligation for the expenses of such transportation or for medical services at the hospital.

Student health and accident insurance designed specifically for students of The University of Akron is required of all residence hall students and all international students except those who present proof that they already have similar coverage. Other day students carrying nine or more credits may purchase this insurance at the same annual individual rate of $25.00. The student insurance provides coverage for such items as hospitalization, surgical benefits, and in-hospital medical benefits.

Spiritual Guidance

Three chaplains are available to members of the student body and faculty, offering individual and group guidance services.

For Protestants: A minister of a Protestant denomination has been appointed by the Akron Area Council of Churches to serve as a full-time spiritual adviser to the students who have indicated affiliation with a Protestant church.

The Protestant chaplain's office is located in the First Evangelical United Brethren Church adjacent to the campus at 164 South Union Street. He is available each weekday for consultation with individual students who have indicated affiliation for discussions and forums and serves as spiritual counselor for those facing individual problems.

For Eastern Orthodox: A priest is available to all Eastern Orthodox students on campus. Regular meetings are held on alternate Tuesdays at the Greek Orthodox Church of the Annunciation adjacent to the campus at 129 South Union Street. The priest is available before and after the Tuesday meetings for consultation and at other times at his own church.

For Catholics: A priest is in residence at Newman Hall, branch of the national Catholic club for college students, about one block from the main campus, at 143 South Union Street. He offers Mass each day at noon and conducts formal classes for Catholic students, supplying spiritual guidance to aid them in utilizing most effectively the temporal knowledge which they gain in their college years.

Newman Hall has an assembly room, library, kitchen and conference rooms where students may study or hold discussion groups. The doors open at 7:30 a.m.

This center was established for the benefit of the Catholic students taking daytime courses at the University, authorized and supported by the offices of the Bishop of the Diocese of Cleveland.

There are synagogues in the city for students of the orthodox, conservative, and reformed Jewish faith.
III.
The University of Akron
Admissions, Requirements, Procedures and Cost
Types of Students

A university with an enrollment exceeding 15,000, The University of Akron has several classifications of students, each seeking an education according to his own needs and abilities. Classifications include:

UNDERGRADUATE—One who has not earned a Baccalaureate degree and is eligible to enroll in undergraduate level credit courses.

POSTBACCALAUREATE—One who holds a Baccalaureate degree from an accredited institution, who is eligible to enroll in credit courses on the undergraduate level and who has not been admitted to the Graduate School. Postbaccalaureate students apply for admission to the undergraduate college (Liberal Arts, Education, etc.) in which they wish to earn undergraduate credit.

GRADUATE—One who holds a Baccalaureate degree from an accredited institution, has been admitted to the Graduate School, and is eligible to enroll in graduate level credit courses.

SPECIAL STUDENT—One who does not meet the Admissions requirements but is admitted by petitioning the Dean concerned for permission to take courses for which he is qualified by certain abilities or maturity. A special student may not take more than 15 credits unless he gains official transfer to the status of a regular student.

AUDITOR—One who enrolls in a course with the permission of his Dean but does not receive a grade on his official academic record. Permission to audit a course may be granted if the student has a record of good scholarship or if he has taken and passed the particular course previously or if, in the opinion of his Dean, experience qualifies him to take the course. A student must indicate that he is an auditor at the time of registration. Auditors are required to do all prescribed course work except the writing of examinations. Audit fees are the same as for credit courses.

TRANSIENT

1. From another institution—One who is regularly enrolled and eligible to continue at another institution, and who has written permission from that institution to enroll at The University of Akron for specified courses. Transient students must present to the Admissions Office, The University of Akron, such written permission prior to registration.

A transient student may not, as a general rule, attempt more than 16 credits in any quarter or session and is subject to all rules and regulations of The University of Akron.

A copy of the record of all work attempted at The University of Akron will be sent to the institution in which the student is regularly enrolled.

2. From The University of Akron—A student enrolled at The University of Akron must obtain written permission of the Dean of his college before enrolling (transient student status) for credit work at any other institution. Credit for such work may be granted at the discretion of the Dean of his college.

Entrance Requirements

Required High School Courses

Prior to admission, applicants who have not previously attended an institution of higher learning must have passed certain preparatory courses on the high school level. These are:

4 units of English
1 unit of mathematics
3 units of social studies

(including American History)
1 unit of natural science
1 additional unit from any of these

Additional subject requirements for students planning to major in:

SCIENCE, PREMEDICAL OR PREDENTAL
1½ units of high school algebra
1 unit of plane geometry
ENGINEERING
1.5 units of high school algebra
1 unit of plane geometry
\( \frac{1}{2} \) unit of solid geometry or
\( \frac{1}{2} \) unit of trigonometry
1 unit of physics or chemistry

MANAGEMENT
1.5 units of high school algebra

A prospective student who has met the above requirements, has been graduated from a regionally accredited Ohio secondary school and takes one of the college entrance tests, is eligible to enroll. An applicant may submit scores from either the American College Testing Program (ACT) or from the Scholastic Aptitude Test (SAT) of the College Entrance Examination Board. Out-of-state applicants who meet the above requirements may be admitted upon the basis of the quality of their secondary school work and their standing in the entrance tests.

Admission Procedure

1. Obtain an Application Form from The Admissions Office. If your request is by mail, use this address: ADMISSIONS OFFICE, The University of Akron, Akron, Ohio 44304. Fill it out and return as soon as possible. If you are applying for admission to the University for the first time, include the non-refundable Application Fee.

2. At the time of your application, ask an official of your high school to send your transcript to the Admissions Office. This record of your secondary school standing must be received and evaluated before any admission action can be taken by the University.

3. Take Entrance and Counseling Tests. You can make arrangements through your local high school to take the ACT or SAT. (The University of Akron’s Testing and Counseling Bureau serves as a testing center for both of these nationally recognized tests.) These test scores are needed before an applicant is formally admitted to the University.

In addition, special counseling tests administered only at the University are required of all new freshman applicants. Generally these tests may be taken at the University on the same day as the ACT or the SAT. They may also be taken during Orientation Week.

4. If you are a transfer applicant, request registrars of all institutions previously attended to send complete and official transcripts to the Admissions Office. If you have completed less than 45 credits of course work at other institutions you must also submit a copy of your high school transcript and the results of either the ACT or SAT. These documents must be received and evaluated before any admission action can be taken by the University.

5. A Health Record will be sent from the Admissions Office after you have applied for admission. Take it to your family physician and after he has filled it out, return the form to the University. You should mail this form to the Admissions Office by September 1.

6. After you have been notified of your acceptance to the University, You Will Be Asked to Report for Counseling in the Counseling and Advising Division of the Office of Student Services. At this time, your suitable courses of study will be chosen and
you will sign up for these classes. Also, at this
time, you will be told the amount of fees you
will be expected to pay to the University.

(All checks should be made payable to:
The University of Akron, and should specify
what fees and for which student payment is
being made.)

Transfer from Non-Baccalaureate Programs
The records of incoming transfer students from
accredited or "Class A" non-baccalaureate
programs in the University's Community and
Technical College who plan a change in objec-
tive, are evaluated both in terms of the General
Studies program and in terms of major require-
ments. Since these students will, almost with-
out exception, enter the General College, the
Dean of the General College consults with the
appropriate Upper College Dean or his design-
ated representative, in order to obtain the
major program requirements. Permission to
substitute courses taken in a non-baccalaureate
program for electives or for required courses in
the baccalaureate program is decided on an
individual basis by the Upper College Dean
in consultation with the appropriate depart-
ment head. These requirements along with the
General Studies requirements are transmitted
to the student in his letter granting admission
or transfer.

International Student Program

The University of Akron welcomes qualified
students from other lands and seeks to make
their educational experience a pleasant and
meaningful one. During the 1968-69 academic
year, approximately 350 students with citizen-
ship other than the United States attended
the University. These students represented 45
countries.

Admission Procedures
Acceptance as a new applicant from abroad
will be made only for enrollment in September,
the beginning of the academic year. All admis-
sion requirements must be completed by June
1, preceding the September in which the stu-
dent desires to enroll.

In addition to those records mentioned
under "Admission Procedures" for all students,
two additional documents are required of the
international student:

1. Proof of English language proficiency.
The University of Akron requires all students
for whom English is not the native language
to participate in the Test of English as a For-

gn Language (TOEFL). This test is admin-
istered throughout the world in major cities.
Applications may be obtained from bi-national
agencies, U.S.I.S. offices, or by applying
directly to Educational Testing Service, Prince-
ton, New Jersey 08540. Because it normally
takes 4 to 6 weeks for the University to receive
the results of the TOEFL, students are encour-
gaged to take the examination in October or
January. The University cannot guarantee the
student who takes the examination in March
that his records will be processed completely
before the June 1 deadline.

2. Proof of adequate financial support. It is
estimated that the international student will
need a minimum of $2,800 per year for his
tuition and living expenses while attending
The University of Akron. Immigration regula-
tions prevent the student from earning any
substantial portion of this amount. There are
virtually no scholarships available to under-
graduates from abroad. Graduate students may
request and often receive financial aid through
fellowships and graduate assistantship. The
graduate student who is interested in applying
for this aid should request the necessary forms
at the time he applies for admission.

The international student is requested to
transmit a letter from an appropriate govern-
mental or bank official showing that he has
sufficient funds to cover the cost of his educa-
tion while attending The University of Akron
and that these funds will be available to him
in this country.

Housing
The University of Akron maintains no separ-
ate housing facilities for international stu-
dents. The international student may apply
for housing in the residence halls and is
encouraged to make application early. Most
residence hall facilities have been reserved by March for the following academic year. The request for deposit fee can be waived for the international student who is unable to arrange financial exchange before his admission is concluded.

Orientation
International students are required to attend a special orientation program which begins two weeks before classes. During the two week orientation period, international students are housed with families from the local community. During the orientation, international students are given an English language placement examination. This is in addition to the proficiency examination overseas. Students may be required to participate in non-credit English classes if it is felt the results of this placement examination warrant such action.

Special Note
The University of Akron has a Dean of International Studies, a full-time foreign student adviser and instructors of English as a Second Language. If the international applicant has questions about housing, climate or immigration regulations, he is encouraged to contact the foreign student adviser directly.

The University of Akron is a member of the Regional Council for Education, the Institute for International Education, and The National Association of the Foreign Student Affairs.

Special International Education Programs
The University of Akron is headquarters for the Engineering Management of Water Supply Systems program sponsored by the Agency for International Development (AID). It is open to top management and middle management of water supply systems. Applications for this program may be made through AID or directly to the University of Akron.

During the 1968-69 academic year, The University of Akron also served as a training center for two interns in University administration through AID.

The University of Akron also participates in the International School at Basel, Switzerland, by sending qualified U.S. students overseas for their junior year of study. This program is administered by the Regional Council for International Education.

In 1968 The University of Akron sent approximately 30 students to Latin America as part of their continuing program "Classrooms Around the World." (See descriptions of courses 580:480 and 580:580.) This program was in its eighth year.

In 1969 The University of Akron sent approximately 30 students to Europe as part of its continuing program "Classrooms Around the World." This program is offered for graduate or undergraduate credit. The European trip was the ninth.

Procedures and Requirements

Orientation
The first major contact a new student has with the University after having been admitted comes during an Orientation period held prior to the beginning of each quarter. During Orientation, new students learn a great deal about the University and about what it expects from students. They meet many of the University's administrative officers and faculty members and discuss their problems and questions with upper college students. In this way, new students have an opportunity to become acquainted with their chosen University and clear up many of the questions that arise when embarking on a new enterprise.

Counseling
During Orientation, and each quarter thereafter, each student sits down with a counselor to discuss his progress to date and the next logical steps toward completion of his academic program. During that session, the counselor and student together review the areas of success and of problems that the student has encountered in previous quarters and determine what courses the student's academic record calls for in future quarters. During that session the two then work out a list of courses to be taken during the following quarter.

Registration
Each quarter it is necessary for students to
select specific courses, complete the necessary forms and pay the appropriate fees. This formal process is called registration.

Students may elect to register by mail or in person. Details relative to each of these options is described in the Schedule of Classes published every academic period and available upon request from the Registrar’s Office. A non-refundable late Registration Fee is assessed registrants enrolling after the official Open Registration Week.

Attendance
Students are expected to attend all class meetings for which they are registered. They may be dropped from a course by the Dean if they are repeatedly absent and the instructor recommends this action. Students can gain readmission only with the permission of the instructor and the Dean.

Modification of Student Schedules
A student must enter a course before the end of the first week of the quarter. A student may alter the schedule of courses for which he is registered only with the permission of his Dean.

Withdrawal
The decision to permit a student to withdraw or not to withdraw from a course is a responsibility of the student’s Academic Dean. After the mid-point of a quarter or session, however, the Academic Dean does not take action upon a student’s request for withdrawal until the student (and/or his Dean) has conferred with the instructor concerning the matter, nor until the instructor has had an opportunity to present his recommendations to the Dean charged with the decision. This latter requirement need not be met when the student is requesting complete withdrawal from the University because of illness or other personal circumstances beyond his control.

If a student withdraws from a course with the permission of his instructor and Dean, no record of failure appears on his record.

If a student leaves a course without going through the withdrawal procedure or is dropped from any course by his Dean, he is given a failing grade in the course.

Credit by Examination
A student interested in earning credits by special examination may do so with the permission of the Dean of his college and the Dean of the college in which a particular course is offered and by payment of the Special Examination Fee of $11.00 per credit. The grade obtained in such an examination is recorded on the student’s permanent academic record. Credit by examination is not permitted in the quarter before graduation.

Re-examination
A student may not request re-examination in order to raise a grade.

Repeating Courses
An undergraduate student who has earned a failing grade may repeat a course once, subject to these conditions:

a. A student who has attempted not more than 60 quarter credits may repeat a course in which he has failed if he enrolls when advised and has permission of his Dean. If he passes the course with a grade of D or better on the second attempt, only the second grade earned will count. If he fails the course on the second attempt, both grades of F will count.

b. A student enrolled at the University must repeat a failed course in the next quarter it is offered.

c. A student must repeat the exact course which he has failed at The University of Akron and must take this course at The University of Akron.

Discipline
Continuation as a student of the University is dependent on the maintenance of satisfactory grades and conformity to the rules of the institution.

Grades
Students at the University receive grades on various types of classroom performance during the progress of most courses and a final grade at the end of the quarter. At the end of the quarter, the Registrar’s office mails the quarter grade reports to students through their campus mail box or to their home addresses.

Individual tests throughout the course are usually graded with percentage or letter marks,
but permanent records are maintained with a quality point system indicating a student's academic level of achievement.

This method of recording grades is explained as follows:

The Grading System

<table>
<thead>
<tr>
<th>Percentage</th>
<th>Grade</th>
<th>Quality Points Per Quarter</th>
</tr>
</thead>
<tbody>
<tr>
<td>93-100 inclusive</td>
<td>A</td>
<td>4</td>

</tr>
</tbody>
</table>

Importance of Grades

A student's grades affect his academic progress in the following ways:

1. A student becomes either eligible or ineligible to remain at the University, according to the quality point value of each grade for each course which he has completed.

2. The student who maintains specified levels of scholastic achievement receives privileges to participate in extra-curricular activities.

3. On the basis of grades, students receive opportunities to take additional courses which will accelerate their academic progress.

4. A student must maintain a quality point average of at least 2.0 (C) and complete approximately 96 credits to be eligible to be promoted to an Upper College from the General College. His acceptance is dependent on the approval of the Dean of the Upper College which he has chosen to enter and on his academic performance to date.

5. To receive a degree, each student must have attained a quality point average of at least 2.0 both as an overall average and for all work taken at the University of Akron.

6. High grades are essential for persons planning to go on into graduate work.

Probation, Dismissal

A student who fails to maintain a quality point average of 2.0 (C) is placed on academic probation and may be subject to a change of courses, suspension or some other form of discipline. Academic discipline is determined by the Dean of the college in which the student is enrolled. Reinstatement of a student is also determined by the Dean of the college.

Students who have been dismissed from the University are not eligible to register for credit courses.

Graduation with Honors

If he has earned 90 or more credits at the University, a student receiving his initial baccalaureate degree will be graduated "summa cum laude" if he has an overall quality point average of 3.75 or higher; "magna cum laude" if his overall average is between 3.50 and 3.74; and "cum laude" if it is between 3.25 (B plus) and 3.49.

Requirements for Baccalaureate and Associate Degrees

(The All References to "Credits" Mean "Quarter Hours")

A candidate for the Baccalaureate or the Associate degree must:

1. File an application for graduation with The University of Akron Registrar at the start of his final academic year. Filing deadlines may be obtained from the office of the Registrar; and

Place an order with the University Bookstore for the cap and gown, within dates approved by the University Marshal; and

Participate in Commencement exercises. Degree candidates who wish to be graduated "In Absentia" must make written request to the Dean of their college within established dates.

2. Earn a minimum 2.0* quality point ratio, as computed by The University of Akron:

   a. For all collegiate work attempted, includ-

* The College of Education and The College of Nursing require a minimum 2.5 quality point ratio in the major field.
ing work taken at other accredited institutions; and

b. For all work attempted at The University of Akron; and

c. For all work attempted in the major field, including work taken at other accredited institutions; and

d. For all work attempted in the major field at The University of Akron.

3. Meet all degree requirements in his elected major, program, and college, and be approved for graduation by the appropriate college faculty, University Council, and the Board of Trustees.

Except for doctoral candidates, a student is expected to complete the requirements for a degree in not more than five calendar years from the date of his enrollment, as defined below. The University reserves the right to make changes which alter the number of credits and/or courses required for a degree, in the event the student fails to complete his degree requirements within five calendar years from the date of his enrollment.

The Dean of a College, in consultation with the Department Head of the student’s major field of study, may grant waivers in writing, in the event a change in rules affecting degree requirements operates with undue hardship upon a student enrolled before the change becomes operative. The action of the Dean of the College in granting or refusing a waiver may be reviewed by the Vice President for Academic Affairs on his own motion, or at request of the Dean of the College or the student affected.

For the purpose of this section, “college” means the college or division in which the student is enrolled for a degree; “enrolled” or “enrollment” refers to the date the student registers next following the:

a. date of promotion or transfer to upper college, in the case of students enrolled in the General College or the Community and Technical College;

b. date of his matriculation in the Community and Technical College, the College of Law, or the Graduate Division, or an upper college in the case of post baccalaureate students.

4. Must spend his last year in residence (earning a minimum of 48 credit hours in the Baccalaureate degree total or 24 credit hours in the Associate degree total) at The University of Akron unless excused in writing by the Dean of his college.

5. Take the Graduate Record Examination (Baccalaureate degree candidates only), and discharge all other individual obligations to The University of Akron.

NOTE: A candidate for a second Bachelor’s degree must earn a minimum of 48 credit hours in residence which have not counted towards his first Bachelor’s degree.

A candidate for a second Associate degree must earn a minimum of 24 credit hours in residence which have not counted towards his first Associate degree.

Change of Requirements
To better accomplish its objectives, the University reserves the right to alter, amend, or revoke any rule or regulation. The policy of the University is to give advance notice of such change, whenever feasible.

Unless the change in a rule or regulation specifies otherwise, it shall become effective immediately with respect to each student who subsequently enters the University, whatever the date of his matriculation.

Without limiting the generality of its power to alter, amend, or revoke rules and regulations, the University reserves the right to make changes in degree requirements of students enrolled prior to the change by:

1. Altering the number of credits and/or courses required in a major field of study.
2. Deleting courses.
3. Amending courses by increasing or decreasing the credits of specific courses, or by varying the content of specific courses.
4. Offering substitute courses in the same or in cognate fields.

* Quality point average of 2.5 in major field is required.
Fees and Expenses

(Fees subject to change without notice)

Despite willingness of taxpayers and generous friends of the University to help support higher education, some portion of his total expense must be borne by the student. Typical costs for one year (September through June) based on an average academic load of 48 credits for the three quarters are:

Following are comprehensively outlined fees for students at the University who are studying for credit and noncredit in all areas of instruction. Included also are the additional expenses required for special academic services available to students such as private music lessons, thesis-binding, etc.

It is the responsibility of the student to know the correct amount of fees and non-Ohio resident surcharge.

In any question concerning fees, surcharge, or residence, it is the responsibility of the student, his parents, or court appointed guardian, to furnish such proof as may be required by The University of Akron. Students who are in doubt about their status should consult with the Registrar, if in day classes, or with the Dean of the Evening College, if in evening classes.

It is the responsibility of the Registrar to assess fees and surcharges at the time of registration; information given by the student at that time is used in the assessment. Each registration is later audited by the University Auditor, and appropriate additional charges or refunds will be made.

All fees and surcharges are due at the time of registration or on the specified fee payment deadline. The status of the student as of the opening day of the quarter or session for which he is registered, will determine the final, correct amount of fees and surcharges.

**ADMISSION APPLICATION FEE** (Undergraduate & Post Baccalaureate)—A check, money order or cash in the amount of $15 must accompany an undergraduate or post baccalaureate student’s application for admission to the University.

**ADMISSION APPLICATION FEE** (Graduate & Law)—A check, money order or cash in the amount of $15 must accompany all applications for prospective graduate and law students.

**ADMISSION APPLICATION FEE** (Transient Student)—A check, money order or cash in the amount of $15 must accompany the application of a transient student for each period of enrollment.

**GENERAL SERVICE FEE**—All students pay a General Service Fee of $15.00 for each quarter or session in which they enroll for 9 credits or more. All students pay a General Service Fee of $5.00 for each quarter or session in which they enroll for 8½ credits or less.
INSTRUCTIONAL FEE—For each undergraduate and post baccalaureate quarter credit, paid by both resident and non-resident students:

1 through 15 quarter credits $11.00 per quarter credit
or 15% through 18 quarter credits at $165.00 per quarter*
and any additional quarter credits over 18 at $11.00 per quarter credit

NON-RESIDENT SURCHARGE—For each undergraduate and post baccalaureate quarter credit enrolled by non-Ohio students:

1 through 15 quarter credits $13.00 per quarter credit
or 15% through 18 quarter credits at $200.00 per quarter*
and any additional quarter credits over 18 at $13.00 per quarter credit

Explanation: In addition to the Instructional Fee paid by all students, nonresidents pay non-resident surcharge to make up for tax support the University receives from residents of the State of Ohio.

Room and Board

On the Boarding Plan at the University, young men and women living in the residence halls obtain both board and room for a yearly total of $990. Payment plans can be arranged with the Director of Housing.

Graduate and Professional (Law) Fees

Fee for Ohio residents per credit per quarter ............................... $22.00
Fee for nonresidents per credit per quarter ............................... 28.00

Late Registration Fee

Fees are payable at the time of registration or by the mail registration deadline. An additional $15.00 is charged each student who has not completed registration and payment of fees before the closing time of registration in the session in which he is to be enrolled.

Veterans' Expenses

Disabled veterans who are eligible for admission to the University may register for courses without payment of fees, if they are certified by the Veterans' Administration.

Full payment of fees is required if the veteran does not have his Certificate of Eligibility at the time of registration. The cash payment will be refunded when the veteran presents his Certificate of Eligibility.

Non-disabled veterans must pay their fees at the time they register. They will receive specified allowances under Public Law 89-358.

Sons and daughters of deceased veterans covered under Public Law 634, must pay their fees at the time of registration. They will receive specified allowances under Public Law 634.

Music Fees

MUSIC ORGANIZATIONS—No fees are charged for enrollment of qualified students in Music Organizations.

APPLIED MUSIC—For private lessons in Band Instruments, Organ, Piano, Violin, Voice:

<table>

<td>70.00</td>
</tr>
<tr>
<td>One hour practice per week on pipe organ 10.00</td>
<td>10.00</td>
</tr>
</tbody>
</table>

Thesis and Binding

For candidates for advanced degrees (Payable at time of application for degree).

Binding fee, per volume $5.00
Microfilming fee (for Ph.D. degrees only) 25.00

Two volumes must be deposited in the University Library.

Graduation Fee

Each Degree $12.00
In Absentia (additional) 12.00

Auditors

The fees for an auditor in any course or group of courses are the same as if taken for credit.

Department of Special Programs

A fee of $18.00 is charged for each Department of Special Programs course unless otherwise noted in the circular which describes the courses.

* Does not include special quarter credit fees in music.

* Does not include special or miscellaneous fees, i.e.: music, late registration, etc.
Student Health and Accident Insurance

Student health and accident insurance designed specifically for students of The University of Akron is required of all residence hall students and all international students except those who present proof that they already have similar coverage. Other day students carrying nine or more credits may purchase this insurance at the same annual individual rate of $22.50.

Miscellaneous

One free transcript of record is furnished a student. A fee of $1.00 is charged for each additional copy.

A fee of $11.00 per credit is charged for each examination in college work not taken in course (credit by examination).

A change of schedule fee of $3.00 per course is charged each student who, after completing registration, enrolls for an additional or substitute course or section except when such change is made at the request of the dean having jurisdiction over the student.

In addition to other costs, a fee of $25 is charged students enrolled in course 510:402 (Student Teaching), and a fee of $75.00 is charged for students enrolled in 740:332 (Home Management House).

A rental fee of $4.00 per year plus a deposit of $1.00 is charged each student who engages a locker on campus. The deposit is refundable.

A towel rental fee of $3.00 and a locker rental fee of $2 ($1 refundable) per quarter are charged each student in Physical Education who uses locker room facilities in Memorial Hall.

A fee of $5.00 for each returned or NSF check.

A laboratory breakage deposit fee (refundable) .................. $10.00

Parking Fees

Credit students—

- enrolled for 9 or more credits $15.00 (per qtr.)
- enrolled for 8% or less credits 7.00 (per qtr.)

Summer Sessions students .... 10.00 (per ses.)
Workshop participants .... 5.00
Department of Special Programs .... 5.00 (per qtr.)

(All fees are subject to change without notice.)

Rules Governing Nonresident Surcharge

A student is required to pay a nonresident surcharge unless he qualifies as a bona fide resident. The Board of Trustees has adopted a regulation that does these things: (a) Defines the qualifications for residence status; (b) places on the student the burden of proving that he qualifies as a bona fide resident by clear and convincing evidence; (c) assumes that once the student has been properly classified as a nonresident student, this status continues, but provides him with the opportunity to prove by clear and convincing evidence that his status has changed; (d) provides an orderly procedure to permit the student to appeal if he believes his status has been wrongly determined; (e) penalizes false claims or presentation of false evidence in support of a claim (the student's application may be denied, or he may be suspended, expelled, or otherwise disciplined, and he may be fined $25.00 for each offense). The student may get the full text of this regulation from the Office of the Registrar or the Dean of the Evening College.

For purposes of assessing fees and surcharges, the Board defines a "bona fide resident" as a person who has in good faith established a dwelling place or abode in the State of Ohio, with the intent to make the State of Ohio, his permanent home for purposes other than attending The University of Akron, for at least twelve consecutive months prior to the date of the beginning of a quarter or term for which a person seeks to enroll as a bona fide resident. A fraternity house or University residence hall shall be presumed not to be a permanent home or abode for the purpose of this regulation.

A student who properly qualifies under one of the following rules is a bona fide resident; one who fails to so qualify is a nonresident:

1. The student is under 21 years of age, never married, and one of his natural parents (guardians) is a bona fide resident. If his father is no longer his natural guardian, the next rule applies.

2. The student is under 21 years of age, never married, and a person other than his natural father is his natural or legal guardian, and such natural or legal guardian is a bona fide resident. Such person may be the widowed
mother, a grandparent who stands in loco parentis to the child after the death of his mother and father, his legal guardian, his adoptive parents, his mother who has been awarded exclusive custody of the child by a court of competent jurisdiction, or other person who under the laws of the State of Ohio is a natural guardian.

3. The student, whatever her age, is married and her husband is a bona fide resident. If she is legally separated from her husband and the residence of her choice is not the State of Ohio, then she shall not qualify as a bona fide resident under this rule.

4. The student is under 21 years of age, male, married, and is a bona fide resident. That he may be divorced, separated, or a widower is immaterial to the operation of this rule.

5. The student is 21 years of age or older, male, and a bona fide resident. A student who did not qualify as a bona fide resident on his 21st birthday does not qualify until the expiration of at least one year as a bona fide resident.

6. She is an unmarried female student, 21 years of age or older, and is a bona fide resident. A student who did not qualify as a bona fide resident on her 21st birthday does not qualify until the expiration of at least one year as a bona fide resident.

7. She is a widow who has not remarried, or a divorcee who has not remarried, and she is a bona fide resident. Her age is immaterial to the operation of this rule.

8. She is legally separated from her husband, and she is a bona fide resident as a matter of her choice. An interlocutory decree of divorce shall be deemed the equivalent of a legal separation. The age of the female shall be immaterial.

9. In any circumstance involving a married female not covered by the foregoing rules, the wife shall be presumed to be a bona fide resident if her husband is a bona fide resident, and she shall be presumed not to be a bona fide resident if her husband is not a bona fide resident. Her age shall be immaterial to the operation of this presumption.

10. Notwithstanding the foregoing tests of residence, the Committee on Residence Status may determine in proper cases that a minor is a bona fide resident. In addition to facts relating to the establishment of a bona fide dwelling place or abode within the State of Ohio and the intent for the requisite of time to make the State of Ohio a permanent home for purposes other than attending The University of Akron, the Committee on Residence Status shall consider the presence or absence of prior military service, the source and extent of the minor's support, the nature and degree of control by the parent or guardian, the existence or nonexistence of consent by the parent or guardian to the minor's establishing a separate domicile, whether or not the minor has been abandoned by his parent or guardian, and other relevant facts.

"The Committee on Residence Status" means a committee comprised of three persons, i.e., the Controller of the University who shall act as chairman, the University Registrar, and the Dean of the College of Law. In an ex-officio capacity shall be the Auditor and the Dean of the Evening College.

A student who has been properly classified as a bona fide resident or nonresident student as of the first day of a quarter or session retains that status continuously throughout the quarter or session for which he is registered. A student who has been properly classified as a nonresident student retains that status continuously throughout the period of attendance at The University of Akron unless he can show by clear and convincing proof that he qualifies as a bona fide resident.

The Registrar shall classify a student as a bona fide resident or nonresident student at the time of registration for each quarter or session. The Registrar may in advance of his determination seek the advice of the Committee on Residence Status.

A student may appeal to the Committee on Residence Status from a classification by the Registrar that he does not qualify as a bona fide resident, by executing and filing with the Registrar a form entitled "Application
for Residence Status." The Registrar may transmit this form to the chairman of the Committee who shall conduct a hearing on the merits of the application. The student may request on this form to appear personally before the Committee on Residence Status. The student may thereafter appear and may employ counsel at his expense. The decision of the Committee shall be final.

A student has the burden of persuasion by clear and convincing proof that he qualifies as a bona fide resident. The Committee on Residence Status may require the student to submit evidence in support of the statements made on his "Application for Residence Status." The Committee shall not be bound by the usual common law or statutory rules of evidence, nor by any technical or formal rules of procedure. The Committee may admit any relevant evidence in support of the student's claim, or in opposition to it, may exclude evidence that is irrelevant, cumulative, or lacking in substantial probative effect. The Committee on Residence Status may make rules of procedure consistent with this regulation.

A person who knowingly submits a false claim or knowingly gives false evidence in support of a claim commits conduct detrimental to The University of Akron. He may be denied admission, suspended, expelled or otherwise disciplined as the President of the University shall determine. If his proper status is that of a nonresident, he shall pay nonresident tuition and a penalty of twenty-five dollars ($25.00) for each offense.

Regulations Regarding Refunds
Registration does not automatically carry with it the right of a refund or reduction of indebtedness in cases of withdrawal, and failure or inability to attend class. The student assumes the risk of all changes in business or personal affairs.

Fees Subject to Refund are Described Below:
1. Undergraduate and postgraduate (instructional and non-resident surcharge)
2. Graduate
3. College of Law (including Library)
4. Music
5. General Service
6. Special Programs (Informal Courses)
7. Parking (Only if permit is returned)
8. Student Teaching
9. Residence Hall Fees
10. Laboratory Breakage Fee

Amount of Refund:
A. In full
   1. If the University cancels the course.
   2. If the University does not permit the student to enroll or continue, except that a student dismissed or suspended by the University for disciplinary reasons will receive no refund.
   3. If the student is drafted into military service by the United States and presents his Notice of Induction. Students who enlist voluntarily, see D below.
B. In full less $10.00
   1. Upon written request of the student enrolled in courses other than in the Department of Special Programs, who is officially withdrawn before the first day of the term for which enrolled.
C. In full less $4.00
   1. Upon written request of the student enrolled in the Department of Special Programs who is officially withdrawn before the first day of the term for which enrolled.
D. In part according to the following percentages upon written request of the student who is officially withdrawn on or after the first day of the term for which enrolled.

<table>

Refunds will be determined as of the date of formal withdrawal unless proof is submitted that circumstances beyond control of the student prevented the filing of the formal withdrawal earlier in which case the refund will be determined as of the date of last attendance in class. Refunds will be mailed
within 30 days after date of withdrawal.

Residence Hall Refunds
In the event of cancellation of an accepted housing contract (for any reason) $50.00 will be retained by the University as a forfeiture.

In the event of a cancellation of a housing contract in writing 90 days prior to the start of a quarter, a full refund of monies paid, less $50.00, will be made.

In the event of cancellation of a housing contract in writing less than 90 days, but prior to the start of a quarter, a full refund of monies paid less $50.00 will be made if the residence halls housing the same sex as the cancelling student are filled to capacity at the start of a quarter.

In the event of cancellation of a housing contract in writing less than 90 days prior to the start of a quarter and the residence halls housing the same sex as the cancelling student are not filled to capacity, a refund will be made of $158.00.

In the event of cancellation of a housing contract in writing after the start of a quarter and the residence halls housing the same sex as the cancelling student are not filled to capacity, a refund will be made of $2.10 per day for each day remaining in the quarter.

In the event of cancellation of a housing contract in writing after the start of a quarter and a replacement can be found for the cancelling student and the residence halls housing the same sex as the cancelling student are filled to capacity, a refund will be made of $4.35 per day for each day remaining in the quarter, but in no event will the refund exceed $260.00.

In the event of cancellation of a housing contract in writing, either before or after the start of a quarter of a board only contract, a refund will be made of $2.10 per day for each day remaining in the quarter.

Financial Aids
An entering freshman or an enrolled student at the University in undergraduate, graduate or postgraduate courses has several possibilities of receiving financial aid which can facilitate his acquiring a college degree. A student transferring from another institution must complete a regular quarter at the University before he is considered for scholarship assistance.

Students who are intellectually capable of completing University courses and have indication of this on their academic records are eligible for consideration as recipients of a fellowship, scholarship, award, loan, or employment opportunity. Applicants wishing to be considered on the basis of need must submit a Parents' Confidential Statement to the National College Scholarship Service.

Definition of terms:
FELLOWSHIP—an endowment or sum of money paid for the support of a graduate or postgraduate student.

SCHOLARSHIP—An endowment or sum of money paid for the support of a student, usually undergraduate, while he is studying at the University.

AWARD—a sum of money given to a University student as special recognition of an achievement, to aid him in continuing his higher education.

贷款—an amount of money which a student may borrow, with a planned schedule of repayment.

Information and application forms for fellowships can be obtained from the Office of the Dean of the Graduate School. Information and application forms for scholarships, awards and loans are available in the Student Financial Aids Office.

Currently offered fellowships, scholarships and awards, as well as sources of money which can be loaned to worthy students are listed as follows:

Acme-Zip Fund Scholarships
This scholarship fund has been established from the proceeds of the Acme-Zip football games. Scholarships will be awarded to worthy students by the University Scholarship Committee, with an equal amount going to the University General Fund. Special consideration will be given to requests from students enrolled in the Colleges of Business Administration and Engineering.

Akron Area Plumbers and Pipefitters Industry Scholarship Fund
These scholarships are designed to provide educational opportunities for students interested in careers in fields related to the Akron Area Plumbers and Pipefitters Industry, such as public health,
sanitation, community planning, mechanical and civil engineering. First preference will be given to children of journeyman plumbers and contractor members of the organization who are pursuing programs in civil engineering, mechanical engineering, business administration or nursing at The University of Akron.

The Akron Bar Association Auxiliary Scholarship
This fund, established by the Akron Bar Association Auxiliary, provides an annual scholarship from principal and income not to exceed $1,000 to an entering student in a full-time program of law study. The University Scholarship Committee, on the basis of scholarship, legal aptitude, character and need, and with the advice of the Dean of the College of Law shall make the selection, giving first preference to a resident of Summit County, Ohio. A recipient may apply for an annual renewal of the scholarship.

Akron District Society of Professional Engineers Award
A plaque is awarded to the outstanding senior engineer based on scholarship, citizenship, promise of excellence in the profession and leadership. In addition, a permanent plaque is mounted in The Auburn Science and Engineering Center on which successive winners of the award will be listed.

Akron Education Association Scholarship
A scholarship, sponsored jointly by The University of Akron, the Akron Board of Education and the Akron Education Association to cover registration fees. The scholarship will be awarded to a student planning to enter the teaching profession. The award will be granted by the University Scholarship Committee upon recommendation of a committee of the Akron Education Association. First preference will be given to a son, daughter, niece, nephew, brother, sister or spouse of certificated employees of the Akron Board of Education who is enrolled in the College of Education as a full-time student.

Akron Fire Fighters Association Scholarship
This scholarship was established by the Akron Fire Fighters Association to cover registration fees. It is awarded to a worthy student in need of financial assistance to meet college costs. Selection is made by the University Scholarship Committee.

Akron National Bank & Trust Company Award in Trusts
An annual award of $200 to the law student who excels in the study of the law of trusts and estates. Selection to be made by the Dean of the College of Law.

Akron-Summit County Federation of Women's Clubs Fine Arts Award
An award of $50 is made to an outstanding art student.

Akron-Summit County Federation of Women's Clubs Speech Award
An award of $100 is made to an outstanding senior woman in speech.

Akron Rubber Group Scholarships in Chemistry
An award of $400 a year is available for entering students and undergraduate students majoring, or intending to major, in chemistry. Outstanding ability in science and chemistry will be given primary emphasis in the awarding of these scholarships. Renewal of the scholarship for succeeding years is contingent upon satisfactory scholarship.

Akron Section of the American Chemical Society Award
The award of student memberships and subscriptions to two of the Society's official publications is made to two chemistry major students of junior rank on the basis of scholarship.

Akron Soap Box Derby Scholarship
An award of $500 to the winner of the Akron Soap Box Derby is made by the Chevrolet Dealers of the Akron area. The scholarship is payable at the time the winner becomes enrolled as a full-time student at The University of Akron.

Akron University Alumni Fund Scholarships
Akron University alumni designated the total amount of their 1959 annual fund drive for scholarships for young men or women of excellent scholastic accomplishment in high school work. It is the intention that these scholarships be four-year awards, subject to review of the University Scholarship Committee each quarter. There are no geographical restrictions.

Akron University Associates Scholarships
The purpose of these scholarships is to encourage well-qualified students to attend The University of Akron. The scholarships will be administered by the University Scholarship Committee. Scholarships may be applied toward registration fees only and may be renewed each year contingent upon high scholastic achievement.

Akron University Awards
Upon recommendation of the University Scholarship Committee, students who possess talent in athletics, the dramatic arts, journalism, music or fine arts and an over-all academic record of acceptable quality, The University of Akron provides an award to the student. Such awards are subject to review each quarter.

Mr. and Mrs. Alex Schulman established this scholarship in memory of Morris Sacks. The income from this fund is to be used annually for scholarships, with matching amount to be used for current operating expenses. It is to be awarded to a worthy student.
Alex Schulman Scholarships
The income from the Alex Schulman Endowment Fund is to be used to provide scholarships to worthy students with matching amounts to be used for current operating expenses.

The Alex Schulman Memorial Award
This endowed fund was established by Ernest Kirtz, Bernard S. Schulman and William C. Zekan in memory of the late Alex Schulman. The income will be used to assist worthy students preferably of the Negro race. The recipients and the amount each receives will be determined by the University Scholarship Committee.

Senior Alumni Prize
A fund has been established by the Alumni Association for the purpose of awarding an annual cash prize of $50 to that senior student who has completed the regular undergraduate curriculum with the highest average grade for the work taken, having carried an average load of 12 credits per quarter.

Carl D. and Margaret A. Sheppard Memorial Scholarship
A fund established by the family and friends in memory of the late Carl D. Sheppard and Margaret A. Sheppard for the purpose of providing scholarship assistance to worthy students. Preference will be given to undergraduate or graduate students of journalism in the Department of English.

Sigma Tau Engineering Freshman Award Medal
The engineering honorary fraternity, Sigma Tau, presents the Award Medal to the sophomore who earned the highest quality point ratio for his freshman year.

The H. E. Simmons Memorial Scholarship
The H. E. Simmons Memorial Scholarship was established in memory of President Emeritus H. E. Simmons. The earnings from this endowed scholarship will be awarded to a freshman student or students interested in chemistry. The University Scholarship Committee will determine the amount of the awards and make the selection of the scholarship recipients.

Simon Perkins Jr. High School PTA Scholarship
Established by the Simon Perkins Jr. High School Parent-Teacher Association in the amount of $300 annually to be administered by the University Scholarship Committee with no restrictions except that first preference be granted to Simon Perkins graduates.

Society for Advancement of Management Award
This award is made by The University of Akron Chapter of the Society for Advancement of Management to the outstanding senior in the Department of Industrial Management.

South Akron Board of Trade Scholarships
The South Akron Board of Trade has established four scholarships to be awarded to an outstanding graduate from Coventry, South, Garfield, and St. Mary's High Schools in the amount of $150 for the freshman year, payable at $50 per quarter. The candidate must be in the upper third of his graduating class and must become a full-time University student. Scholastic achievement, citizenship, promise and leadership are the qualities used as the basis for the awards.

Jason and Corinne Sumner Scholarship
Established by Mrs. Beatrice S. Williamson, Class of 1908, in memory of her father and mother, Jason and Corinne Sumner, this fund provides financial assistance to worthy students attending The University of Akron. Recipients are selected by the University Scholarship Committee.

Touchdown Club Awards
Touchdown Club awards vary in amounts and periods of coverage. Scholastic achievement, citizenship, athletic ability, need and leadership will be used as a basis for making these awards.

Tuesday Musical Club Scholarships
Awards, totaling $500, to be given each year to deserving students of music at The University of Akron. These awards are to cover the cost of courses in Applied Music in the Department of Music.

Union Carbide Corporation Research Fellowship
This award is provided by the Union Carbide Corporation to a graduate student in polymer chemistry.

The University of Akron Memorial Fund
A fund established as the result of miscellaneous contributions by individuals and organizations in memory of friends of the University. Recipients are determined by the University Scholarship Committee.

The University of Akron National Merit Scholarship
Through an arrangement with the National Merit Scholarship Corporation, The University of Akron is sponsoring one National Merit Scholarship beginning with the fall semester 1964. Only National Merit finalists are eligible. The recipient will be a man in the New York City area. The amount of the award will be a minimum of $100 and a maximum of $1,500 depending upon the student's needs as estimated by the National Merit Scholarship Corporation. The award is made possible by a $100,000 grant from the Herman Muehlstein Foundation of New York City through its Herman Muehlstein Fund for Student Aid. Additional scholarships will be awarded in subsequent years.
The University of Akron
Pre-medical Scholarship Fund
This scholarship of $500 per year is awarded to a worthy freshman student who intends to pursue the study of medicine. The Sacks Electric Supply Company established the scholarship but the selection of the candidate is made by the University Scholarship Committee.

Dr. and Mrs. George Van Buren
Medical Award
A $200 award to be made each year to a deserving student at The University of Akron who has been accepted as a medical student by a medical college. The award to be applied to the first year tuition of the medical college. Selection will be made by a committee appointed by the President of The University of Akron and will be based on character, scholarship and need. This award was endowed by a gift of Dr. and Mrs. George Van Buren in 1987. Dr. Van Buren received his pre-medical training at The University of Akron, Class of 1935.

Edward and Eleanor Voke Family Scholarship
This scholarship is available to full-time and part-time students enrolled at the University who have demonstrated scholastic ability, possess high quality of citizenship, promise and leadership and who have financial need.

Pindy Wagner, Jr. Bowling Scholarships
These scholarships amount to fees, not to exceed $400 per year and are awarded to high school senior men and women who are candidates for admission to The University of Akron. They extend over two school years.

To qualify the individual must be a member of the Akron Junior Bowling Congress and must be a high school student in his final semester. For each later quarter the award is contingent upon satisfactory performance in college. The applicant must be of good repute and recommended by his high school. The applicant must be in the upper half of his class and accepted for admission to The University of Akron. He must enroll as a full-time student. Decision as to the winner is made jointly by a committee of the Akron Junior Bowling Congress and the University Scholarship Committee.

The award will be made regardless of race, creed, color, national origin, or course of study and will be made jointly by the above awards committee each Spring.

Wall Street Journal Award
This award is made annually to the senior student in the field of finance for academic achievement.

Judge Walter B. Wanamaker
Memorial Scholarship
The Judge Walter B. Wanamaker Memorial Scholar-

ship was created in 1966 by Frederick H. Gillen to give financial assistance to worthy students. The recipient will be selected by the University Scholarship Committee.

Mr. and Mrs. E. D. Warner Scholarship
This fund has been established by Mr. and Mrs. E. D. Warner for the purpose of making awards to students who are in need of financial assistance and who have demonstrated satisfactory scholarship. Selection is made by the University Scholarship Committee.

West Publishing Company Awards
The West Publishing Company annually awards suitable law books to students with the highest first year average, highest second year average, highest third year average and to a student who has displayed leadership and scholarship.

Western Electric Fund Scholarship
This fund provides an annual scholarship for a student in engineering. Amounts will vary, but in no case will exceed tuition and fees, for a first or second year student in an engineering curriculum. The recipient shall be a citizen of the United States and shall be chosen without regard to color, creed, or national origin.

WHLO Radio Scholarship
A scholarship awarded by Radio Station WHLO to a student displaying a strong interest in broadcasting. Selection to be made by the University Scholarship Committee.

The Witco Chemical Company Fellowship
The Witco Chemical Company Fellowship in Chemistry awards $2500 to a qualified graduate student in the Department of Chemistry for an academic year.

Women’s Art League of Akron Awards
Awards made to promising art students.

Women’s Auxiliary of the Akron District Society of Professional Engineers Scholarship
An award of $300 a year is made to a sophomore in the College of Engineering who has acquired a minimum of 42 credits at The University of Akron. The student selected must be enrolled as a full-time student and will be selected on the basis of scholarship, leadership, and need.

Mr. and Mrs. William D. Zahrt Scholarships
This scholarship was established by Mr. and Mrs. William D. Zahrt for high scholarship students. The scholarship is in the amount of $500 a year for two students upon scholarship performance.
The University Scholarship Committee will make the selection.

Zeta Tau Alpha Foundation Award
These awards are made available to women students on campuses throughout the country. The majority of these awards are $200 grants made to undergraduate students. Recipients are recommended by the University Scholarship Committee with final selection resting with the Foundation Scholarship Committee.

The Educational Opportunity Grant Program
The Higher Education Act of 1965 provides gift assistance to students in the form of Educational Opportunity Grants. Grants to students will be made and will range from $200 to $800 per year. Preference will be given to entering freshmen. They are to be awarded to students who have demonstrated good academic achievement and come from low-income families and are to be part of a "package" type of assistance which will also include other scholarships, National Defense Student Loans, and/or wages from the student's employment—the total package designed to meet the educational costs that cannot be met through parental contributions.

The College Work-Study Program
This program provides on-campus work opportunities at the prevailing campus wage rates to students from low-income families. Up to 15 hours per week is permitted while school is in session and 40 hours weekly during vacation periods. Every attempt will be made to place students in work related to their major field of interest. To be eligible a student must carry at least 12 credits, must be capable of maintaining a minimum of 2.0 or "C" grade average and must meet a financial means test based on family income. Generally speaking, any student who finds he must gain employment to meet educational expenses is eligible.

National Defense Student Loan Fund
The University administers these loans under the following provisions: the student must (a) be in need of the amount of the loan to pursue a course of study; (b) be capable of maintaining good standing in such course; and (c) have been accepted for enrollment as a more-than-half-time student, or, if already attending an institution, be in good standing as an undergraduate or graduate student with a more-than-half-time academic load. Repayment begins nine months after a borrower ceases to pursue a full-time course of study at an institution of higher education, and ends 11 years thereafter. Interest rate is 3%. Up to one-half of any loan (plus interest) is canceled for service as a full-time teacher in a non-profit elementary or high school or a college.

IV. The University of Akron Academic Programs
Here are definitions and examples which help explain the academic organization at The University of Akron.

CREDITS—when used in this Bulletin, credits refer to the number of quarter hour credits for any course.

THE UNIVERSITY—the entire institution; an academic whole. For example: The University of Akron.

A COLLEGE—a wide area of specialized higher learning within the framework of the University itself. For example: The Buchtel College of Liberal Arts.

A DIVISION OF INSTRUCTION—a generic grouping within a college. For example: The Buchtel College of Liberal Arts has three divisions: Humanities, Social Sciences and Natural Sciences.

A DEPARTMENT OF INSTRUCTION—a closely defined area of specialization within a division. For example: The Humanities Division within the Buchtel College of Liberal Arts has four departments: English, Classics, Modern Languages, Philosophy.

SUBJECTS OF INSTRUCTION—the most minutely specialized part within each department; the actual point of academic contact between faculty and student. For example: The Chemistry Department has about 108 subjects of instruction.

THE STUDENT—the individual receiver of all academically imparted information; the focal point of University instruction. The University's subdivisions of colleges, divisions and departments are basically designed so that students of similar interests and ambitions may study together and spend their college years most advantageously.

Two other terms it would be helpful to know right from the start are Code Numbers and Course Numbers. Because these terms are similar they are often confused.

Code Number Course Number
(Mechanical 460:320 (Kinematic Analysis Engineering) of Mechanisms)

In the above example the first three digits of that number (460) are called the Code Number. These numbers refer only to the college and department in which the course is taught. In this case the number refers to the Mechanical Engineering Department (60) of the College of Engineering (400).

The second set of digits (320), following the colon, make up the Course Number. These numbers pin down exactly which course in the Mechanical Engineering Department is being specified.

The Course Numbers also tell another story. In addition to pinpointing the precise course involved, they also tell at what level the course is being taught or at what point in his college career the student is ready to take the course.
An explanation of that numbering system follows:

000-099 General Studies and Developmental courses.
100-199 First year level courses.
200-299 Second year level courses.
300-399 Third year level courses.
400-499 Fourth year level courses.
500-699 Master's level courses.
600-799 J.D. level courses.
700-899 Doctor's level courses.

When approved 400-level undergraduate courses are taken for graduate credit they become 500-level courses. Students must apply for and be admitted to the Graduate School to receive graduate credit for any course.

Understanding some of the terms that are used, it now becomes easier to understand the organization of the University. The following table lists the various colleges, including their respective divisions and departments. The number in parentheses following department name is that department's Code Number, and is used as a prefix for all courses taught in that department.

**THE UNIVERSITY OF AKRON**

**THE GENERAL COLLEGE** (100)
100 General Studies
150 Air Force ROTC
160 Army ROTC

**THE COMMUNITY AND TECHNICAL COLLEGE** (200)
202 Associate Studies
224 Commercial Art
228 Food Service Management
242 Commerce
244 Data Processing
252 Sales and Merchandising
254 Secretarial Science
256 Transportation
270 Diploma Nursing
272 Cytotechnology
284 Chemical Technology
286 Electronic Technology
288 Industrial Technology
290 Instrumentation Technology
292 Mechanical Technology
298 Surveying and Construction Technology
In the pages that follow, the curricula of the various colleges will be discussed along with the general requirements of each, the degrees offered and other information needed for fuller understanding of their programs. In addition, a complete list of the courses offered, detailing the Code and Course Number, course title, number of credits, prerequisites and general course description, may be found in a later chapter. Curricula leading to Master's or Doctor's degrees are detailed under the Graduate School rather than with the Upper College through which it is offered.
Associate Degree
Programs

Specialized programs of study directly applicable to professions in technical and highly skilled fields are offered through the Community and Technical College. These programs, leading to the Associate degree, are provided for high school graduates who do not consider it desirable to pursue a baccalaureate program of study, but do have the conviction that education beyond the high school is necessary if they are to be self-supporting, useful, intelligent members of our modern, complex society. Associate programs require two years for their completion and are designed to give the graduating student the concepts and skills that are demanded in today's commercial and industrial world.
Community and Technical College

WILLIAM M. PETRY, M.S.M.E., Dean

OBJECTIVES

The purpose of the Community and Technical College is to further the objectives of The University of Akron by providing a quality program of general and technical collegiate education and to pursue the following aims:

To offer specialized technical programs in the areas of Commerce, Applied Science, Nursing and Health.

To provide nonvocationally oriented students with a two year Associate Degree program in the liberal arts.

To counsel students with respect to their adjustment to the collegiate environment and to their academic, personal and vocational objectives.

The College recommends each student for the appropriate associate degree or certificate in accordance with his level of accomplishment.

The College offers both pre-service and in-service training: pre-service for the recent High School graduate who can receive an Associate Degree upon the satisfactory completion of two years of full time studies and in-service training through the Evening College where employed persons may pursue the same degrees while working full time.
Departments within the four divisions of the College offer programs of study leading to the Associate Degree in Arts or Associate Degree in Applied Science (carrying a designation of the program completed).

**Associate Studies Division**
- Arts
- Commercial Art

**Business and Office Technology Division**
- Commerce
- Data Processing
- Food Service Management
- Sales and Merchandising
- Secretarial Science
  - Medical and Dental
  - Technical
  - Executive
  - Legal
  - International
- Transportation

**Engineering and Science Technology Division**
- Chemical Technology
- Electronic Technology
- Industrial Technology
- Instrumentation Technology
- Mechanical Technology
- Surveying and Construction

**Health Technology Division**
- Nursing (Diploma)
- Cytotechnology

**Requirements for Graduation**
Candidates for the Associate Degree must

1. Earn credit in all of the required courses listed in the program;
2. Complete successfully a minimum of 96 credits;
3. Earn a minimum quality point ratio of 2.0 in all work attempted and all work taken at The University of Akron and;
4. Be recommended by the faculty.
5. Spend his last two quarters in residence (earning a minimum of 24 credits) at the University unless excused by the Dean of the College.
6. Other requirements are set forth in the section on "Requirements for Graduation" in Chapter 3.

A student who expects to receive a second Associate Degree must earn a minimum of 24 credits in residence which have not counted toward his first degree.

### Diploma Nursing Program

The University of Akron, in cooperation with the following area hospital schools of nursing, Akron City, Akron General and St. Thomas in Akron, provides a program of studies basic to a diploma in nursing.

Nursing students must meet the University entrance requirements and are regularly enrolled with college credit for the courses satisfactorily completed.

Applications for this program are handled through the hospital schools of nursing which award the diploma.

The programs planned for the four schools of nursing differ slightly in regard to courses taken and their sequence. The following courses are offered:

### Total Credits: 99
Baccalaureate
Degree Programs

Students wishing to earn a baccalaureate degree will find fully accredited courses offered in liberal arts, engineering, education, business, nursing and fine and applied arts. Students with less than 96 credits seeking the baccalaureate degree are enrolled in the General College where they are given the opportunity to learn to express ideas effectively and to grasp the processes involved in accurate, logical thinking. Successful completion of courses in the General College qualifies students for entrance into one of the Upper Colleges. At this point, students select a specific field of study in one of the colleges of the University and begin course work which directly applies toward that field of study.
OBJECTIVES

The purpose of the General College is to further the objectives of The University of Akron by providing a quality program of general collegiate education and to pursue the following aims:

To offer all students a basic program of General Education through the curriculum of the General Studies and the prerequisite courses for advancement to the degree-granting colleges.

To counsel students with respect to their adjustment to the collegiate environment and to their academic, personal, and occupational objectives.

To direct students to the proper curricula so that they will enter the degree-granting colleges prepared to undertake advanced work.

The College recommends students for advancement to the degree-granting colleges upon satisfactory completion of the appropriate requirements.
The Department of General Studies of the General College provides students with courses aimed at developing ability to understand and express ideas effectively, to comprehend the processes involved in accurate thinking and to learn the responsibilities of an educated member of society. Also, by taking courses in the General Studies department, students gain knowledge which helps them to develop intelligent behavior patterns and gain understanding of themselves and their own individual abilities.

The General Studies program is an outgrowth of the belief that a student's personal education is like a pyramid—that is, in order for him to develop his intellectual abilities to their cultural or professional height, he must first establish a wide foundation of general knowledge to serve as the structural basis.

Serving as the foundation of each University student's educational pyramid is the General Studies curriculum including English Composition, Types of Literature, Effective Speaking, Numbers Communication, Reasoning and Understanding in Science, Institutions in the United States, Western Cultural Traditions, Eastern Civilizations, Physical Education and the Senior Seminar. This well-balanced program of studies has been thoughtfully evolved by experts in academic research, representing many leading American educational institutions including The University of Akron. The General Studies program as it is now presented is the fruit of a half century of planning, revising and developing.

Students, well-grounded in the General Studies, are academically prepared to continue into realms of higher education; this curriculum has proved the most advantageous starting point for a student, no matter his eventual scholastic goal. It is valuable in equal measure to the enrollee who is indecisive about his professional future and to the enrollee who arrives at the University firmly convinced that he knows what he wants to become.

Students who complete the courses outlined in the General College curriculum, earning a total of approximately 96 credits (slightly more for Engineering) and achieving a quality point ratio of 2.0 (C) or better, are eligible for promotion to the Upper College of their choice.

Acceptance of a student in an Upper College is the responsibility of the respective academic Dean, in consultation with the Dean of the General College and heads of departments concerned.

These are the required courses in the

**MILITARY SCIENCE AND AEROSPACE STUDIES**

The University's Reserve Officer Training Corps program is one of the oldest in the country, dating from 1919 when a branch of the Army ROTC was established. In 1946, a unit of the Air Force was formed to provide basic and advanced instruction in Aerospace Studies. Both Army and Air Force ROTC offer 4-year programs of instruction designed to provide male students with training in military and aerospace skills, prerequisite to commissioning as Second Lieutenants in the Army or Air Force Reserve. Regular Army and Air Force commissions are also offered to students who qualify as Distinguished Military Graduates.

The program is elective. However, to qualify for enrollment, the student must meet the following requirements:
a. Character—Be of good moral character, as evidenced by record in his home community and at the institution.

b. Citizenship—Be a citizen of the United States. Certain exceptions may be made to this requirement for alien students desiring to enroll in the program. These exceptions are handled on an individual basis.

c. Age
   (1) Minimum—be at least 17 years of age for enrollment in the advanced course.
   (2) Maximum be under 28 years of age at the time of commissioning. For scholarship students, be under 25 years of age on 30 June of the calendar year in which he will become eligible for commissioning.

d. Medically—meet minimum prescribed physical fitness requirements.

e. Academic Status—be enrolled in and attending a full-time regular course of instruction. The course of study must lead to a degree in a recognized academic field and be one that the student can pursue concurrently with his participation in the ROTC program.

f. Other requirements
   (1) Be selected by the PMS or PAS
   (2) Have approval of institutional authorities
   (3) Execute the loyalty oath or affirmation

Principal objectives of the ROTC program are to develop in each student—

a. The fundamentals of self discipline, integrity, and a sense of responsibility.

b. An appreciation of the role of a participant in matters dealing with the national defense.

c. The ability to evaluate situations, to make decisions, to understand people, and to practice those attributes considered essential in a leader.

The four year course of instruction is divided into two parts—basic course instruction and advanced course instruction. The former is offered during the Freshman and Sophomore years and includes training in fundamental Military and Aerospace skills. The latter is offered during the Junior and Senior years to those students successfully completing the basic course or possessing the equivalency and who are selected by the PMS or PAS.

Credits earned during the basic and advanced courses are applicable toward the total credits required for the baccalaureate degree. Uniforms and textbooks are made available at no cost to the student. Both must be returned at the completion of the school year or withdrawal from the program.

Students accepted for enrollment in the advanced ROTC training program, in addition to receiving text materials and uniforms, also receive a monthly subsistence allowance of $50.00, not to exceed a total of 20 months and additional pay of $171.50 per month during the period of Summer Camp. The six week summer camp normally occurs between the Junior and Senior years. Summer Camp for Air Force ROTC cadets is of four weeks duration.

Once a student enters the Advanced ROTC program he must complete requirements for a degree as well as the Advanced program prior to receiving a commission. He is also under obligation to complete the Advanced course in order to qualify for a University degree unless specifically excused by the President of the University.

Scholarships, ranging from one to four years, are offered in both programs on a competitive basis to qualified students. These scholarships offer full tuition, fees, and text materials. For full details of these programs see the appropriate Army or Air Force ROTC staff representative.

Active duty military obligations incurred as a result of participation in the ROTC program are as follows:

**ARMY**

- Basic Program (Freshman and Sophomore) ............... None
- Advanced Program (Junior and Senior) non-scholarship .... 2 years
- 4 Year Scholarship Program ...................... 4 years
- 2 Year Scholarship Program ...................... 4 years

**AIR FORCE**

- Basic Program (Freshman and Sophomore) ............... None
- Advanced Program (Junior and Senior) ................. 4 years
- Advanced Program with Flying Training ................... 6 years

Transfers between Army and Air Force ROTC programs can be accomplished on an
individual basis after coordination with the appropriate Army or Air Force ROTC staff officer.

**FLIGHT TRAINING PROGRAMS**

Both the Army and Air Force programs offer flight training options. Army cadets may, during their senior (graduating) year, enroll in the Army Flight Training Program, offering 35 hours of ground instruction. (These hours are not creditable toward the baccalaureate degree). The program leads to an FAA approved pilot's license and is offered without cost to the cadet. It is designed to afford an opportunity for those who desire to qualify for Army Pilot Training after entry on active duty. Flight trainees incur an active duty obligation of not less than three consecutive years from date of completion of the Army initial flight training course.

Senior Air Force ROTC students who have been selected for pilot training receive 36½ hours of flight instruction from an approved flying school at no cost to the student and a private pilot's license may be obtained if the student completes the necessary FAA requirements.
AN UPPER COLLEGE:

*The Buchtel College of Liberal Arts*

DON A. KEISTER, Ph.D., *Dean*
PAUL S. WINGARD, Ph.D., *Associate Dean*

OBJECTIVES

The purpose of the Buchtel College of Liberal Arts is to further the objectives of The University of Akron by providing a quality program of undergraduate and graduate education in the humanities, the social sciences, and the natural sciences and to pursue the following aims:

To maintain departments of instruction for the preparation of student majors in various academic fields.

To prepare students for useful and rewarding careers in the professions and industry, and for the graduate and professional education necessary for the attainment of professional competence.

To provide appropriate instruction for the General Studies program.

To provide a wide range of elective courses available to students who wish to enrich or diversify their academic programs.

To offer courses designed to meet the curricular needs in Engineering, Education, Business Administration, Fine and Applied Arts and Nursing.

The College recommends each student for the appropriate bachelor’s, master’s or doctor’s degree in accordance with his level of accomplishment.
The Buchtel College of Liberal Arts is one of six Upper Colleges at The University of Akron. Its name truthfully implies that its traditions date back farther than those of the other five undergraduate colleges, since the University itself is an outgrowth of Buchtel College, a liberal arts institution founded in 1870.

When Buchtel College became a Municipal University, the original name was retained in its College of Liberal Arts. Then, and now, the liberal arts goal has been to offer broad training to the college student so that he can prosper in life and sustain a creative appreciation of the arts and sciences.

The breadth of liberal arts education at the University is most readily explained by describing its three administrative divisions. They are as follows:

I. The Humanities Division—stresses cultural development and teaches an awareness of classics, languages, philosophy and the written word.

Among the countless careers which graduates of this division enter are: writing, translating, researching, teaching and lecturing. Also, Humanities Division graduates have excellent preparation for the specialized fields of language, and library science.

II. The Social Sciences Division—stresses intelligent participation in community affairs through education in such fields as history, economics, geography, political science, psychology and sociology.

Graduates in the Social Sciences Division often become teachers, businessmen, public administrators, social workers and politicians. Also, they are prepared for graduate study in business, law, psychology, sociology, social work, geography, public administration and urban studies.

III. The Natural Sciences Division—is the most professionally-oriented division in this college, with the highest number of graduates continuing their education in specific areas of advanced study. In undergraduate years, a Natural Sciences student has a course of study with a strong emphasis on such subjects as biology, chemistry, geology, mathematics or physics.

A graduate of this division reaches an excellent point of departure for entering such areas of specialization as medicine or dentistry. Biology majors may go on to become parasitologists, entomologists, embryologists or botanists; chemistry majors usually continue into fields of organic, inorganic, physical or polymer chemistry; geology majors advance into such diverse specialties as petroleum, petrology, geochemistry and paleontology; physics majors may become specialists in such fields as atomic, solid state or polymer physics.

Even with no further study after receiving their bachelor's degree, graduates in this division are equipped to become, for example, computer programmers, professional scientists or mathematicians.

Requirements for Admission
To be admitted to the Buchtel College of Liberal Arts the student must have completed satisfactorily at least 96 credits of work with a 2.0 ratio, have completed the required General Studies courses, have completed the departmental or divisional prerequisites and have the approval of the Dean of the college.

Requirements for Baccalaureate Degrees
1. At least 192 credits. Electives included in the 192 credits required for the degree may consist of any courses offered for credit in the University's degree programs, provided that the prerequisites as set forth in the bulletin are met and further provided that not more than 3 credits of physical education activities, 12 of applied music, 6 of music organizations and 9 of courses in the Community and Technical College are included.

2. Completion of requirements in a major field of study (see below), and the recommendation of the head of the department in which the student has majored.

3. All candidates for a degree in the Buchtel College of Liberal Arts, except those in the labor economics and medical technology curricula, must have demonstrated their ability to use two languages.

If the candidate is a native-born speaker of English, this ability will be shown by his completion of a second year of an approved foreign language on the university level.
If the student is not a native-born speaker of English, this ability will be shown by his completion of the General College sequence of English (110:111-112-205).

The general University requirements for baccalaureate degree are set forth in Chapter 3.

Degrees
The following baccalaureate degrees are granted in the divisions:

The Humanities: Bachelor of Arts
The Social Sciences: Bachelor of Arts; Bachelor of Science in Labor Economics.

The Natural Sciences: Bachelor of Science; Bachelor of Science in Medical Technology.

(At the discretion of the Dean, students majoring in mathematics or biology may be granted the Bachelor of Arts degree if at least 26 credits of their work is in the humanities or social sciences. The 26 credits must be earned in more than one department. Students majoring in Geology will receive the Bachelor of Science degree.)

The Major Field
To qualify for graduation a student must concentrate or major in the work of either a department or a division of the college. The major will consist of from 36 to 96 credits in addition to the required General Studies and foreign language courses. Part or all of these credits may be taken in specifically required courses depending upon the major chosen. The longer and more professionally-oriented majors should be started during the first or second year when the student is still under the guidance of the Office of Student Services. The shorter Liberal Arts majors need not be declared before the end of the second year when the student is ready for promotion to Buchtel College.

Ordinarily a student will select a department in which to major. The exact requirements for each such major will be found on the following pages in the section headed "Departments of Instruction." Some departments offer more than one type of major. No minor is required, but in some cases the major includes certain courses in other departments. As soon as the student is promoted to the College, the head of his major department becomes his academic adviser.

Students who desire a broader education than the departmental major offers may elect a divisional major and qualify in the general area of the humanities, the social sciences or the natural sciences. Such students meet only the requirements of the chosen divisional major as described on the following pages in the section headed "Divisions of Instruction." As soon as the student contemplating a divisional major is promoted to the College, the chairman of his major division becomes his academic adviser.

Preparation for High School Teaching
Students interested in a teaching career on the high school level may qualify for secondary school certification by the State Department of Education while enrolled in the Buchtel College of Liberal Arts. Generally the Liberal Arts major subject will also constitute a teaching major. The education and psychology courses required for the secondary school teaching certificate may be taken as electives toward the Liberal Arts degree. Additional elective credits will generally enable the student to qualify in a second teaching field, which facilitates teacher placement, without exceeding the 192 credits necessary for graduation from the Buchtel College of Liberal Arts.

Such a program is particularly recommended for students who, as part of their preparation for teaching, plan to go to graduate school and earn an advanced degree through specialization in their field of major interest.

The number of credits in a teaching field required for certification may be determined by reference to the table entitled "Statement of Number of Hours Required For Certification in Various Teaching Fields" located in the College of Education section of this Bulletin. The major field must include 9 credits more than the number shown in the table except where that number is 45 or more. A second teaching field must include the number of credits shown in the table.

The professional courses in education and psychology required for certification are listed in the table below, which shows how they may be scheduled over a two-year period. They may be spread over three years or taken in three quarters and two Summer Sessions.
The student would then be expected to specialize during the third and fourth years in one of the areas listed below.

### AREAS OF SPECIALIZATION WITH RECOMMENDED COURSES

#### BOTANY:
- **Advisors:** D. Goldstrohm, L. W. Macior, W. P. Stoutamire.

#### ECOLOGY:
- **Advisor:** W. A. Sheppe.

#### HIGH SCHOOL TEACHING
For State Certification see College of Education section, and "Preparation for High School Teaching."
- **Advisor:** R. F. Keller.

#### MEDICAL TECHNOLOGY
A three year program (144 credits) at the University of Akron.
- The three year University Curriculum is followed by twelve months of Medical Technology instruction in one of the five approved schools of Medical Technology in the Akron area: Akron City Hospital, Akron General
Hospital, Barberton Citizens Hospital, Children's Hospital, or St. Thomas Hospital.

The hospital period is completed by taking the examination of the Registry of Medical Technologists, which grants the certificate M.T. (A.S.C.P.). The University grants the B.S. in Medical Technology after receipt of evidence that the examination has been passed.

Advisors: R. Nokes, D. Nunn.

MICROBIOLOGY:
Advisors: D. Nunn, E. Flaumenhaft.

PHYSIOLOGY AND PRE-PROFESSIONAL:
Including pre-medical, pre-dental, pre-veterinary medical students.

ZOOLOGY:
Advisor: D. L. Jackson

At the discretion of the Dean, the Bachelor of Arts Degree may be conferred upon students who have met the General Studies requirements, completed the second year of a foreign language, and have at least 36 credits in courses approved by the Head of the Department of Biology, together with appropriate courses in the Humanities or Social Sciences. The following courses are suggested as a survey of the major current theories and advances in the biological sciences: 310:121, 122, 123 Principles of Biology; 310:246 General Genetics; 310:271 General Ecology; 310:-272 Organic Evolution; 310:301 Cell Biology. In addition one of the introductory courses in chemistry would be helpful in understanding some of the interactions in biological systems. Philosophy of Science 360: 464 is also recommended for this degree.

315: CHEMISTRY
Requirements for a major:
The General Studies and German 353:201, 202, 203.
Mathematics: Must complete 345:225.
Physics 365:201, 202, 203.
320: 321: 322: CLASSICS
Requirements for a major:
The General Studies. At least 36 credits in the department, including: 320:161, 162, 163 Comparative Literature; 320:313, 314, 315 Classical Archaeology.

325: ECONOMICS
Requirements for a major in Economics:
1. The General Studies and the second year of a foreign language.
2. At least 45 credits in the department including 325:245-246-247; 325:400; 325:410.
Requirements for a major in Labor Economics:
1. The General Studies.
2. At least 45 credits in the department including: 325:245-246-247; 325:330 and two of the following: 325:431; 325:432; 325:333.
4. At least 12 credits in Upper College Sociology, History, Psychology, Geography or Political Science.

330: ENGLISH
Requirements for a major:
The General Studies and the second year of a foreign language. At least 39 credits in the Department, including 330:246, 265, 266, 267. Of the Journalism courses, only 331:201 and 206 may be included in the required 39 credits.
335: GEOGRAPHY
Requirements for a major:

The General Studies. The second year of a foreign language. At least 36 credits in Geography, including 335:100, 481, 484. At least one course from the following: 335:350, 353, 354, 355, 358, 360, 361, 362, or 363. Successful completion of one of the following options:

Physical Geography—210 and any three of the following: 312, 314, 415, 418.
Economic Geography—220 and any three of the following: 324, 326, 422, 428.
Urban Geography—230 and any three of the following: 336, 433, 435, 438.
Cartography—240 and any three of the following: 342, 346, 444, 448.

337: GEOLOGY
Requirements for a major:

The General Studies. The second year of a foreign language, preferably French, German or Russian. At least 45 credits in Geology, including 337:101, 102, 310, 313, 315, 316, 317, 318, 360 or 363 and field camp at another institution acceptable to the Department. Chemistry, 315:132, 133 and 134. Biology, 310:121, 122 and 123. Physics, 365:101-102, 103 or 201, 202 and 203. Mathematics, 345:111, 221.

Depending on each student’s major field of interest within geology, additional work in the supporting science will be strongly recommended.

340: HISTORY
Requirements for a major:

The General Studies and the second year of a foreign language. At least 36 credits in the department including courses 340:201, 202, 203, 207, 208, 209 or their equivalents, and 498.

345: MATHEMATICS
Requirements for a major:

The General Studies and the second year of French, German or Russian.

The courses 345:221, 222, 223, 224, 225, 311, 312, 413, 421, 422, 423 and a minimum of 15 additional credits of 400-level courses in the department.

The courses 345:101, 102, 103, 111 and 110:111 do not meet major requirements.

347: STATISTICS
Requirements for a major:

The General Studies and the second year of French, German or Russian.

The courses 345:221, 222, 223, 224, 225, 311, 421, 422, 423, 347:450, 451, 452, 453 and a minimum of 9 additional credits of 400-level courses in the department.

The courses 110:111 and 345:101, 102, 103, 111 and 347:200, 251, 252 do not meet major requirements.

352: MODERN LANGUAGES
Requirements for a major:

The General Studies. Completion of 36 credits above the level of 203 in one of the languages, French, German, Italian, Russian or Spanish. A minimum of 18 of these 36 credits must be in literature courses and/or cultural courses.

All incoming language students, including transfer students, who have completed two or more years in the target language must take the placement test in that language prior to enrollment. Students with one year or less of a foreign language will enroll in 352:101 (French), 353:101 (German), 355:101 (Italian), 357:101 (Russian) or 358:101 (Spanish), depending on their choice of majors.

Students wishing to prepare for teaching certification in a modern language should have credit for the Conversation and Composition course in the language they wish to teach.

360: PHILOSOPHY
Requirements for a major:

The General Studies and the second year of a foreign language. At least 44 credits in the department, to include 360:120, 170, 211, 212, 213, 480, 488, 489 = 28. Electives planned in a selective concentration of from 20-24 credits. A comprehensive examination in the history of Philosophy is required for departmental recommendation.
365: PHYSICS

Requirements for a major:
The General Studies and the second year of a foreign language, preferably German or Russian.

Physics courses: A total of 60 quarter credits, including 365:201, 202, 203, 405, 406, 407, 410, 411, 412, 413, 430, 431, 432, 433, 451, 452, and 453, plus 10 additional credits of approved Physics electives. For students preparing for graduate study, courses 365:441, 442, 443 and 420 are particularly recommended.

Mathematics courses: 345:221, 222, 223, 224 and 225. Courses 345:421, 422 and 425 are recommended but not required.

Chemistry courses: 315:126, 127, 128 or 132, 133, 134. Courses 315:313, 314, 315 are recommended but not required.

370: POLITICAL SCIENCE

Requirements for a major:
The General Studies and the second year of a foreign language. At least 45 credits in the Department, including 370:100, 200, 303, 310, 360, 395, plus one 400-level course.

375: PSYCHOLOGY

Requirements for a major:
The General Studies and the second year of a foreign language. At least 45 credits in the Department, including 375:141, 145, 147, 315, 407, 412, 430.

385: SOCIOLOGY

An undergraduate major in Sociology will be expected to meet the following requirements:

To fulfill the requirements of the General Studies curriculum: two years of a foreign language; minimum cumulative average of 2.00; minimum of 45 quarter hours in Sociology, including:

<table>
<thead>
<tr>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>385:100 Introduction to Sociology .................. 5</td>
</tr>
<tr>
<td>385:301, 302, 303 Methods of Social Research ............ 9</td>
</tr>
<tr>
<td>385:414 History of Social Thought ................. 4</td>
</tr>
<tr>
<td>385:415 Contemporary Sociological Theory .......... 4</td>
</tr>
</tbody>
</table>

Total 22

Additional courses in Sociology ............ 23

The credits beyond the 22 of required courses are elective for all majors. All students, including those desiring an emphasis in Social Welfare, Anthropology, Corrections, and Urbanization are counseled by the department into the appropriate sequence of courses to complete the major, plus the area of emphasis.

Humanities Division Major

The Humanities Division consists of the Departments of Classics, English, Modern Languages, and Philosophy. The divisional major must include the following, in addition to the General Studies and the second year of a foreign language:
1. At least 72 credits in the division, at least 36 credits of which must be in courses on the Upper College level. The minimum of 72 credits must include at least 9 credits in each of any five of the following: English, Philosophy, French, German, Italian, Spanish, Russian, Latin, Greek, and the Classics.

2. At least 9 credits in the Department of History.

Natural Sciences Division Major
The Natural Sciences Division consists of the Departments of Biology, Chemistry, Polymer Science, Mathematics, and Physics. The divisional major must include the following, in addition to the General Studies and the second year of a foreign language:

1. At least 81 credits in the division.

2. At least 18 credits each in 4 of the following: Biology, Chemistry, Geology, Mathematics, including statistics, and Physics.

3. At least 9 additional credits on the Upper College level in the division.

Social Sciences Division Major
The Social Sciences Division consists of the Departments of Economics, Geography-Geology, History, Political Science, Psychology, Sociology and Urban Studies. The divisional major must include the following, in addition to the General Studies and the second year of a foreign language:

1. At least 82 credits in the division.

2. At least 27 credits and not more than 32 credits in each of two of the six departments. No credits in excess of 32 in any department will be accepted unless the student meets the major requirements of such department for graduation.

3. At least 14 credits in each of two other departments, or 28 credits in one other department.

4. At least 36 credits of divisional courses on the Upper College level.

5. At least 36 credits outside the division.

6. In some instances, passage of a general final examination in the second quarter of the senior year.
The College of Engineering

MICHAEL J. RZASA, Ph.D., Dean
DONALD R. BURROWBRIDGE, M.S., Director, Cooperative Program

OBJECTIVES
The purpose of the College of Engineering is to further the objectives of The University of Akron by providing a quality program of engineering education and to pursue the following aims:

To offer sound basic instruction in the engineering disciplines.
To develop in students the ability to apply engineering principles to the economic and technological progress of society.
To promote in students a high sense of ethics and professional responsibility.
To foster in students an appreciation of the need to further the role of the engineering profession in society.

The College recommends each student for the appropriate bachelor's or master's degree in accordance with his level of accomplishment.
The "heart" of the Engineering College is its five-year cooperative program which was begun in 1914, the same year that the college itself was established. This plan of alternating work with study begins in a student's third year when he is formally admitted to the College of Engineering, following his two years of fundamental training in the General College.

A graduate program was established in 1957 for students who study part-time in the Evening College. The degrees of Master of Science in Engineering, Chemical Engineering, Civil Engineering, Electrical Engineering and Mechanical Engineering are awarded. The Doctor of Philosophy in Engineering program has been approved for planning purposes by the Ohio Board of Regents.

Although the College of Engineering emphasizes specific professional preparation, it nevertheless operates in accordance with the University policy of affording each student a grasp of the broad cultural phases of modern times. A graduate is expected to apply his technical knowledge with the constant awareness that his goal is to serve humanity. In order that these engineers serve humanity best, the University strives to educate them in the areas of art as well as science.

**The Cooperative Plan**

The cooperative plan provides for a coordinated sequence of alternate periods of classroom instruction and industrial employment.

During the cooperative phase of the five-year course, the student is employed in industry during the Fall quarter of the third or Pre-Junior year. During the Winter quarter the student attends class. The schedule of alternation between quarters of classroom studies and industrial co-op employment continues during the Pre-Junior and Junior years. The complete schedule for the five-year course is shown in the table of "Engineering Schedule."

The cooperative plan provides simultaneously for the development of fundamental principles in the classroom and for their application in industrial practice. The cooperative student has the opportunity to find the type of work and industrial organization in which he can best apply his individual ability. He gains an appreciation of the problems of labor and management by first-hand experience. He develops mature judgment by coping with the everyday problems of the industrial world. The employer of cooperative students has the opportunity to select and train students whose abilities and aptitudes can be adapted to the needs of his technical staff requirements.

While students are at work, they are required to obey all rules and regulations prescribed by the employer. In addition, they are subject to all current labor laws and conditions.

The University does not guarantee employment, but makes every effort to place students to the best financial advantage that is consistent with the acquisition of sound subprofessional experience.

**Requirements for Admission**

In addition to the general requirements for admission to the University, students applying for admission in Engineering must present the following secondary school credits:

- Algebra 1 ½ units
- Plane Geometry 1 unit
- Solid Geometry or Trigonometry ½ unit
- Chemistry or Physics 1 unit

It is strongly recommended that applicants in Engineering present additional credits in mathematics and physical science.

Since the Engineering curricula have been designed to operate on an annual rather than on a quarter basis, beginning students are regularly admitted only in September. In special cases, admission may be granted during other months.

All beginning students register in the General College. Those admitted in Engineering will be eligible for promotion to the College.
of Engineering after satisfactory completion of the sixth quarter Engineering schedule.

Degrees
The College of Engineering offers curricula on the cooperative plan in Chemical, Civil, Electrical and Mechanical Engineering. The degrees conferred include the Bachelor of Science in Chemical, Civil, Electrical and Mechanical Engineering.

For the Master's degree programs in Engineering, see the Graduate School Section.

Requirements for Graduation
1. Compliance with University requirements, chapter 3, this BULLETIN.
2. Successful completion of all the required courses listed in the schedule.
3. Completion of required cooperative work periods.
4. The recommendation of the student's department head.

Any Junior or Senior Engineering student with a quality point ratio of 2.50 over-all and 2.75 Engineering or better may substitute not more than two approved upper college courses in mathematics, science or engineering for equal number of certain required engineering courses.

420: CHEMICAL ENGINEERING
Chemical Engineering is the branch of engineering concerned with the development and application of manufacturing processes in which chemical and/or physical changes of material are involved. The manufacturing process can usually be resolved into a series of related momentum, mass, and energy transport processes. Industries based on chemical or physical changes are called the Chemical Process Industries and manufacture products such as inorganic and organic chemicals, rubber, plastics, petroleum, detergents, metals, pharmaceuticals, and foodstuffs.

The chemical engineer will usually be concerned with one of the following areas: research and development, plant design and construction, or plant operation and management. In addition to the traditional Processing Industries, chemical engineers are increasingly finding employment in new areas, such as biomedical engineering, nuclear power, the space program, and environmental control.

430: CIVIL ENGINEERING

Civil Engineering is a profession responsible for the conception, analysis, design and construction of facilities necessary to maintain our modern way of life.

The civil engineer is responsible for the design, construction, and maintenance of transportation systems (highways, railroads, airports, canals), for much of our public health (water supply, sewage treatment, air and stream pollution), for the structures important to our daily living (building, bridges, dams), and for much of our ordered way of life (surveying and mapping, traffic management, community planning), and plays an important role in the exploration of space and the sea (design of launch facilities, space vehicles, deep submergence vehicles).

The civil engineering curriculum at the University of Akron is designed to expose the student in his pre-junior year and first part of his junior year to a well-balanced core of
courses in the following areas: (1) structural engineering and engineering mechanics; (2) environmental engineering; (3) water resources engineering; (4) foundation engineering including soil mechanics and engineering geology; and (5) transportation engineering including highway planning and design. In the terminal portion of the junior year and during the senior year, the curriculum is planned for specialization.

Civil Engineering graduates of the University of Akron are employed by many firms and institutions throughout the United States and the rest of the world; others are engaged in private practice. Their work involves research and development in many specialized areas: design of engineering structures ranging from submarines, buildings, highways, cities, space bases to space vehicles; and work in construction engineering.

can economy which has not been influenced by electronics. The high speed digital computer has found its way into merchandising, production control, warehouse control, banks and the stock exchange.

The wide use of electrical means for measurements and controls has resulted in the need for electrical engineers in all types of industries besides those of electrical manufacture, utilities and communications.

* Students not choosing ROTC may select 9 credits in electives with approval of their academic advisor.
** Elective credits will generally be taken to supplement the student's major interest in Civil Engineering. An elective schedule must have departmental approval, by the end of the Junior year.

440: ELECTRICAL ENGINEERING

The many branches of electrical engineering include production and distribution of electrical energy; research, development and manufacture of varied electrical and electronic products; design, installation and operation of communication systems including telephone, radio, television and microwave links; adaptation of electrical and electronic principles to industrial needs such as instrumentation and process control, automation of production machinery and machine tools through use of computers and magnetic tape; participation at all levels in government projects in the space age, instrumentation, tracking, telemetry and data gathering and evaluation relating to satellites and space crafts; design of modern lighting, both indoors and out; cooperation in such fields as nuclear physics, electro-chemistry, metallurgy, bio-chemistry and medicine.

The growth of electronic research and manufacturing has been accelerated by the space age. There is hardly a segment of the American
**460: MECHANICAL ENGINEERING**

Mechanical Engineering is concerned with the design and analysis of physical systems. A high level of professional competence in this field can only be achieved through an extensive study of mathematics, mechanics, fluids, energy, and electricity. Among the many subtopics included in these major headings are stress analysis, vibrations, compressible and incompressible fluid flow, energy conversion, environmental control, heat transfer, and automatic controls. The typical mechanical engineering design problem may involve any one or possibly all of these areas in the design of a complex system.

Mechanical Engineers are employed in a variety of jobs by a large number of companies. The jobs include management, design, analysis, safety, production, and plant engineering. The types of companies include automotive, petroleum, power, aerospace, tire, consulting, publishing, insurance, and manufacturers in general. It is interesting to note that the aerospace industry employs far more mechanical than aerospace engineers. The difference between the two curricula is so little, that vary few universities see fit to distinguish between the two degrees.

The Mechanical Engineering Curriculum is designed to emphasize fundamentals which will place the graduate in a strong position to pursue further education through either formal or informal channels.

AN UPPER COLLEGE:

The College of Education

H. KENNETH BARKER, Ph.D., Dean

JOHN S. WATT, Ph.D., Associate Dean

OBJECTIVES

The purpose of the College of Education is to further the objectives of The University of Akron by providing quality undergraduate and graduate programs for students of Education and by helping them attain the following:

A knowledge of a major field and related fields of inquiry and the ability to use this knowledge in explaining the realities of life today.

A knowledge of instructional materials and new technology and skill in recognizing and utilizing instructional tools most suitable for specific purposes.

A knowledge of the social issues relevant to education and living in a pluralistic society and the competence to translate implications of changes in society into instructive action as teacher-citizens as well as teacher-scholars.

An understanding of the learner and the learning processes and the ability to translate these into appropriate teaching behaviors in acting and reacting with students.

An appreciation of the values and feelings essential for working with young people and with colleagues and the ability to develop emphatic relationships in a wide variety of professional and social roles in the school and community.

Skill in the acquisition of inquiry techniques appropriate to generalizing knowledge and choices and practice in using them to inquire into educational problems in rational, defensible ways.
To accomplish these objectives, this Upper College offers a variety of programs for the preparation of elementary and secondary teachers, counselors, school administrators and other educational personnel. The baccalaureate degrees, Bachelor of Arts and Bachelor of Science in Education, are offered. Graduate degrees include the Master of Arts and Master of Science in Education and the Ph.D. and Ed.D. degrees.

Programs leading to each degree include a balanced offering of a foundation in general education; an intensive study in depth of the teaching and/or administration area; and those professional courses and other learning experiences which attempt to combine theory and practice.

In addition to the regular degree programs, special courses and related services such as institutes and workshops are regularly offered with the planning assistance of public school personnel.

Throughout its history, the College of Education has maintained a close relationship with the Akron Public Schools. Perkins Normal School, which was founded by the Akron Board of Education, became the Teachers College of the University in 1921, expanding into the College of Education in 1935. Today, the public school administration of Akron and surrounding school districts cooperate in advisory capacities to the College of Education. Their schools are used widely for observation and for the assignment of student teachers. Approximately one-half of the teachers in the Akron Public Schools are former students of the University.

Requirements for Admission
To be admitted to the College of Education, the student must be able to meet the following criteria:

1. Completion of at least 96 credits with at least a 2.0 quality point average.
2. Demonstration of those qualities of character and personality deemed essential for a professional person in education. This determination is made by instructors conducting the education courses in the general college; by the staff in the Office of Student Services; and if necessary, by measuring performance by means of standardized evaluation instruments.
3. Demonstrated evidence of the ability to attain a 2.5 quality point average in his choice of major fields.

All students preparing for certification may be evaluated by the College of Education Undergraduate Committee, subject to review by the Dean. This evaluation will take place when the student officially indicates his intention to work for certification, and periodically thereafter if deemed necessary by the faculty of the College of Education. This committee can recommend to the Dean of the College of Education any one of the following actions:

1. That the student's admission to or retention in the program for certification be confirmed with no other action suggested.
2. That the student's admission to or retention in the program for certification be confirmed but that he be apprised that he has certain weaknesses which must be corrected before he will be approved for student teaching.
3. That the student's final admission to or retention in the program for certification be denied because of certain weaknesses which the committee believes are not correctible.

Student Advisers
Students should confer with the following persons, depending upon the fields in which they expect to teach. Students should also feel free to consult with the Dean or Associate Dean of the College of Education.

Art ......................... Miss Davis
Business Education ...... Mr. Misko, Mrs. Tucker
Elementary ............. Mr. Arms, Mrs. Badger,
                        Mr. Beisel, Mr. Ferguson,
                        Mr. Maben, Mr. Barr,
                        Mr. Carrino, Mr. Meconi,
                        Mrs. Seifert, Mr. Williams
Secondary .............. Mr. Biondo, Mr. Johnson
                        Mrs. Lindbeck, Mr. Ocasek,
                        Mrs. Pfeiffer, Mr. Rich,
                        Mr. Watt, Mr. Wood
Home Economics ........... Mrs. Sullivan
Music ..................... Mr. MacDonald
Physical Education ........ Mr. Ewers,
                          Mr. Cochrane, Mr. Maluke
Special Education ....... Mr. Arm, Mr. Myers
Speech ..................... Mr. Baker
Requirements for Bachelor's Degree
Students prepare to teach any one of the following areas or fields: Nursery School, Kindergarten-Primary, Elementary; the conventional academic fields found in junior and senior high schools; and the special fields of Art, Business, Home Economics, Music, Physical Education, Slow Learners, and Speech and Hearing Therapy. A minimum of 192 credits with a grade point ratio of 2.0 must be completed to qualify for the Bachelor's degree.

The specific subjects required for degrees in certain fields are set forth in subsequent pages. In all cases, the requirements include courses in the general studies, subject matter areas, and professional sequences.

The B.A. in Education degree is granted to those whose major is in one of the academic fields or in Speech and Hearing Therapy. The B.S. in Education is granted to those whose major is in the other special fields or in elementary education.

A physical examination is required each year of all students who are preparing for certification as teachers.

Student Teaching
Student teaching is done in the public schools under the direction of supervising teachers and a representative of the College of Education faculty. Each student must teach all day, every day for a full quarter. When arranging his University schedule for this quarter, the student may not register for any other course.

In order to qualify for student teaching a student must maintain a 2.5 average in his teaching field. Satisfactory work also must be done in other teaching fields and in professional education to warrant recommendation for a teaching certificate.\*\*

Recommendations for Certification
Every teacher in Ohio public schools is required to have a certificate covering the fields in which he is teaching. This certificate is issued by the State Department of Education upon recommendation of the Dean of the College of Education. The student must make out an application form which may be obtained in the office of the Dean. This form should be filled out about one month before the student plans to complete all of his requirements for teaching.

Students are expected to receive their recommendation for certification from the institution granting the degree. Students who expect to receive degrees from other institutions but who wish to qualify for certification at The University of Akron will be expected to meet all of the certification requirements of The University of Akron.

Students Enrolled in Other Colleges
At The University of Akron
Some students who receive degrees from other colleges in the University may also wish to qualify for teaching. They will be recommended for certification after completing their major and minor requirements and the pre-professional and professional courses included in the RECOMMENDED SEQUENCE FOR SECONDARY EDUCATION listed later in this chapter. Such students must be closely advised during the last two years.

Any student in the University who is not enrolled in the College of Education and who wishes to teach should register with the Dean of the College of Education by completing the form "Admission to Teacher Education" at the time of promotion to Upper College or two years prior to the time he expects to be eligible to teach.

Elementary Education
The Kindergarten-Primary program is for students preparing to teach in the kindergarten through the third grade. The Elementary program is for those preparing to teach in grades one to eight inclusive.

All students working for a degree in Elementary Education will be required to obtain a minor in a non-professional field chosen from among those fields approved by the Department of Elementary Education and consisting of a minimum of 27 credits of academic work.

\* Music majors, before assignment for student teaching, are required to pass the General Musicianship Examination described in the Music section of the College of Fine and Applied Arts. To avoid possible delay in graduation, it is necessary for the student to take the examination six months prior to the anticipated assignment for student teaching.
In addition, students are required to complete a "Field Participation" experience prior to student teaching.

A typical schedule arranged by academic years appears below. Further information may be obtained from the Department of Elementary Education.

*Elected by those who wish the Kindergarten-Primary Certificate.
Any elementary certificate will be validated for kindergarten teaching provided the applicant submits evidence of completion of nine credits in kindergarten methods and materials. The three courses Early Elementary Education 520:330, 331 and 332 serve this purpose.

By taking the following courses, students in the Kindergarten-Primary program may also receive University recommendations as Director or Teacher in Nursery Schools:

<table>

Certification for Teaching Foreign Language in the Elementary School
Persons desiring certification to teach modern foreign language on the elementary level must meet the regular requirements for certification on the secondary level, plus these Ohio State requirements:
A. Child Psychology or Human Growth and Development.
B. Purposes and Practices of Elementary Education, or equivalent.
C. Methods of Teaching the Modern Foreign Language.

Certification of Non-Professional Degree Holders for Elementary School Teaching in Ohio
The State Department of Education will, upon the request of the Superintendent in an employing city, county, or exempted village, and the recommendation of the institution in which appropriate bachelor's degree, who submits the credit is completed, grant a temporary elementary certificate to the holder of an evidence of the completion of the 18 credits listed in the section following.

To qualify for a Provisional Elementary Certificate the holder of a baccalaureate degree should complete a program of courses substantially equivalent to that required for the degree in elementary education. Typically this requires approximately 54 quarter credits of course work.

Retraining from Secondary to Elementary Certificate
The holder of a Provisional, Professional, or Permanent High School or Special Certificate may obtain a certificate valid for elementary teaching upon submitting evidence of the satisfactory completion of the following 18 credits:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>565:157 Human Development and Learning</td>
<td>4</td>
</tr>
<tr>
<td>375:307 Child Psychology</td>
<td>4</td>
</tr>
<tr>
<td>520:335 Teaching of Reading</td>
<td>5</td>
</tr>
<tr>
<td>520:336 Arithmetic in Elementary Grades</td>
<td>5</td>
</tr>
<tr>
<td>520:451 Elementary Education</td>
<td>4</td>
</tr>
</tbody>
</table>

Such certification shall be designated as a "Retraining" certificate and may be renewed only by submitting evidence of the completion of 18 credits of additional course work applicable to a degree in elementary education. Then, when qualified, application may be made for the Provisional Elementary Certificate.

Certification for Teaching Music in the Elementary School
Any student who completes a regular four-year program qualifying him for a Four-Year Provisional Elementary Certificate may have that certificate validated for teaching music in the elementary school by completing the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>751: Music Organization</td>
<td>3</td>
</tr>
<tr>
<td>510:402 Student Teaching**</td>
<td>3</td>
</tr>
<tr>
<td>520:323 Teaching and Supervision of Music in the Primary Grades*</td>
<td>2</td>
</tr>
<tr>
<td>520:324 Teaching and Supervision of Music in the Elementary Grades*</td>

<td>2</td>
</tr>
<tr>
<td>750:155 Music Literature II</td>
<td>2</td>
</tr>
<tr>
<td>750:156 Music Literature III</td>
<td>2</td>
</tr>
<tr>
<td>750:160 Sight Singing</td>
<td>2</td>
</tr>
<tr>
<td>750:260-261 Keyboard Harmony</td>
<td>4</td>
</tr>
<tr>
<td>752:124 Voice</td>
<td>2</td>
</tr>
</tbody>
</table>

Total 33

* Since these courses may be substituted for 520:122 Primary-Elementary Music Education (3 quarter credits) in the regular Elementary Program, the net increase in the student's program would be 29 quarter credits. This recommended program has the approval of the music staff.
** Successful completion of Musicianship Examination is a prerequisite.
Dual Certification Program  
Elementary and Secondary  
This curriculum prepares teachers for both elementary and secondary schools. Students completing this curriculum will receive the four-year provisional certificate to teach in the secondary school and a certificate which will qualify them to teach in grades 1 through 8 of the elementary school. Students in this program must meet the requirements for Elementary Education (with minor modifications in the areas of Art and Music Education); must complete the course 530:313, Principles and Practices in Secondary Education, taken during the Junior year; and must meet the requirements in the field or fields of teaching at the secondary level in which certification is requested. For advisement in this area, contact the Head of the Department of Elementary Education.

Secondary Education  
The secondary program is for students preparing to teach in junior and senior high schools. A list of the specific requirements for the various teaching fields will be provided for the student by his College of Education adviser or by the Dean of the College.

Teaching Fields

Each student preparing for secondary school teaching must have at least two academic teaching fields. One field shall be at least nine credits more than the minimum required by the State Department of Education, except where the teaching field is forty-five credits or more. However, if a student chooses one of the special teaching fields or one of the comprehensive teaching fields, as listed below, he will not be required to prepare in a second field.

For selection of required courses for a teaching field, a student should consult the Head of the Department of Secondary Education who will appoint an advisor.

Special Education

Students preparing to teach in the Special Fields of Art, Business Education, Home Economics, Music, Health and Physical Education, and Speech will follow the pattern of courses outlined under RECOMMENDED SEQUENCE FOR SECONDARY EDUCATION in this chapter. Lists of specific course requirements and recommended yearly and quarter patterns will be provided to the student by his advisor.

Special Education

The special education certificate is valid for teaching at both the elementary and secondary level. Students preparing to teach at either level may include in their program of studies selected special education courses to gain such certification. Program options are as follows:

Combination Special Education—Elementary Education Program

The addition of the following special education courses to the standard elementary education program in lieu of elective hours, coupled with a student teaching modification, comprise this program of study. Completion of
this program leads to a teaching certificate valid for teaching in the regular and special classrooms.

Prerequisite:  
565:157 Human Development and Learning 4

Required:  
580:460 Development Characteristics of Slow-Learning Children 5  
580:461 Principles of Teaching Exceptional Children 4  
580:462 Methods and Materials for Teaching Slow-Learners 3  
580:464 Reading and Language Arts for the Slow-Learner 3  
580:465 Social Studies for the Slow-Learner 3  
580:466 Number Concepts for the Slow-Learner 3  
580:468 Occupational Orientation and Job Training for Exceptional Children 3

Student Teaching Modification

Special Education As A Secondary Teaching Field

The following special education courses may comprise the first or second teaching field at the secondary level. Completion of these courses in addition to the professional education courses required of secondary teachers and a modification of the student teaching requirement comprise this program of study.

The additional teaching field can be any of the several recognized subject matter areas of preparation.

Prerequisite:  
565:157 Human Development and Learning 4

Required:  
580:460 Development Characteristics of Slow-Learning Children 5  
580:461 Principles of Teaching Exceptional Children 4  
580:462 Methods and Materials for Teaching Slow-Learner 3  
520:335 Teaching of Reading 5  
580:464 Reading and Language Arts for the Slow-Learner 3  
580:465 Social Studies for the Slow-Learner 3  
580:466 Number Concepts for the Slow-Learner 3  
580:468 Occupational Orientation and Job Training for Exceptional Children 3

Student Teaching Modification

Speech and Hearing Therapy

Recommended program for students interested in certification in Speech and Hearing Therapy may be obtained from the College of Education or from the Speech and Hearing Clinic.

* If special education is selected as the first teaching field an additional course requirement can be included in the program.
AN UPPER COLLEGE:

The College of Business Administration

WILBUR EARLE BENSON, Ph.D., Dean

The College of Business Administration is a professional College of The University that is dedicated to teaching, business research and public service. The College is a member of the American Association of Collegiate Schools of Business, the national accrediting agency for colleges of business administration and offers undergraduate and graduate degree programs during the day and evening.

OBJECTIVES

The purpose of the College of Business Administration is to further the objectives of The University of Akron by providing a quality program of collegiate education in business to prepare students for professional careers in commerce, industry and government. Specific objectives of the College in terms of student achievement include the following:

- Competence in the basic functional areas of business enterprise;
- Analytical ability and balanced judgment in the solution of business problems;
- Understanding of human behavior and the impact of social, political and economic forces in the decision-making process;
- Facility in the use of management tools of accounting, quantitative techniques and communications;
- Development of a business code of ethics;
- And,
- Desire to continue the pursuit of knowledge and the achievement of excellence in the area of administration.
Additional objectives of the College of Business Administration are: to act as a service division by offering courses to students in other colleges; to serve the business community of the state and region by sponsoring conferences, short courses and management development programs; to foster and encourage research in business; to offer graduate instruction and opportunities for research to students at the master's level; and, to prepare students for entering law school; and to prepare students for advanced research and study in business and economics.

The College of Business Administration is organized on a departmental basis and offers programs of study in accounting, finance, industrial management, marketing and international business. Three baccalaureate degrees are offered; the Bachelor of Science in Accounting, the Bachelor of Science in Business Administration and the Bachelor of Science in Industrial Management.

The College of Business Administration offers, through the Graduate School, advanced professional business study leading to the degree of Master of Business Administration with concentrations in Accounting, Finance, Management, Marketing, and International Business. In addition, the Master of Science in Accounting and the Master of Science in Management are offered.

At The University of Akron there has been a long and eventful history of education relating to the field of commerce and industry. Beginning in 1919 courses were offered in the Department of Commerce. Eventually the department became the nucleus of the College of Business Administration which was established in 1953.

Since its inception, the College of Business Administration's curriculum has been designed with equal emphasis on broad basic principles as well as immediate practices. Classroom knowledge is consistently made more significant by field trips and inspection tours to witness business operations.

Similarly, the College maintains a sound balance between education in the arts, humanities and sciences and professional business courses. Half of the courses of study at the undergraduate level are in the areas of liberal arts, and sciences; the remaining courses are divided between general business subjects and the student's indicated area of specialization.

Requirements for Admission
The College of Business Administration accepts students after they have completed two years of General College work. The entrance requirements to the College are:

1. Successful completion of at least 96 credit-hours with an inclusive grade-point average of at least 2.00 and at least a 2.00 average in all business and economics courses.

2. Successful completion of the following courses, or their equivalent:

The College reserves the right to require examinations of students transferring work to validate the credits, if necessary, or properly to place the student where the more advanced courses presume a certain background of knowledge.

Department of Instruction

620: ACCOUNTING

The functions of accounting are essential to the decision-making process in commerce, industry and government. Because of the important role it plays in economic affairs, accounting has attained the professional status of law and medicine.

Three major fields of employment for accountants are public, private and governmental accounting. Regardless of the areas of concentration, standards, ethics and the mastery of accounting concepts and procedures are essential to all three. Accounting graduates who choose public accounting may become seniors, managers, principals or partners in public accounting firms. A student who chooses an accounting career in private industry may hold the position of accountant, cost accountant, senior accountant, budget director, internal auditor, treasurer or controller. Federal, state and local governments provide a wide variety of job opportunities at the professional level for well-educated accountants. There are exceptional opportunities for professional advancement regardless of the type of institution graduates may choose.

The accounting curriculum is designed to prepare the student for professional service, in-
In recognition of the fact that both public and private accounting rest on the same foundation, the following courses are required of all undergraduate accounting majors:

<table>

The Level I achievement test, prepared and graded by the American Institute of Certified Public Accountants, is required of all students before credit will be granted in 620:222 (Elementary Accounting). Students interested in majoring in Accounting should score well on this test. The Level II accounting test is required of all students desiring credit for 620:440 (Auditing).

In addition to the accounting courses required in the above program, students preparing for a career in public accounting are advised to take 620:420 (Advanced Accounting). Majors preparing for careers in industrial accounting should take courses in Management including 650:403 (Production Control) and 650:303 (Motion and Time Study).

Because of the increasing demand for accountants with a knowledge of computer theory and practice, majors are advised to elect 620:454 (Accounting Systems). Courses in mathematics beyond finite mathematics are also strongly recommended.

The degree of Bachelor of Science in Accounting will be awarded to those students who complete the prescribed work.

640: FINANCE

The Department of Finance offers courses which develop and apply the principles and techniques of economics, administration and operation which are common in all business and industrial organizations.

Programs in the Department are structured for students preparing for a variety of careers in finance. For example, finance majors may choose a career in banking, investment management, credit management, teaching or government service. The department provides courses for students majoring in liberal arts but seeking careers in business, and provides an excellent fundamental background for advanced study, law or governmental careers.

During his General Studies program the student who wishes to major in Finance should take general psychology and either applied or industrial psychology. In addition to completing 620:270 (Managerial Accounting), he must complete a minimum of 23 credits of work in his major, including two 5 credit courses on the 400 level and 650:473 (Business Policy). With the approval of his adviser a student may select courses for his major from those listed below. Courses designated with an asterisk (*) are required for a major in this field.

The degree of Bachelor of Science in Business Administration will be awarded to those students who complete the prescribed work, including a problems course or seminar in the major area.

650: MANAGEMENT

The University of Akron was one of the first institutions of higher learning to establish an Industrial Management curriculum. Important factors in the decision to establish such a program were the location of the University in a major industrial area and the recognition of an emerging educational need.

The emphasis on education for management is the result of several factors. First, managers are becoming increasingly aware that a pro-
A professional approach to management requires understanding of quantitative methods and the behavioral sciences. Second, the management task is becoming much more complex in terms of the number of activities, volume of work, and the broader impact of managerial decisions. Third, the practice of management in any setting requires a measure of specific preparation and qualification.

Events of the past several years have brought about a rapid and sweeping change in the business and industry of our society. The major in industrial management recognizes the unique directional problems of the firm involved in manufacturing producers goods.

The graduate with an Industrial Management degree finds many employment opportunities with industrial firms; in staff, supervisory, and other management positions. He possesses, in addition, the required basic understanding for effectively managing facilities, equipment and personnel in a variety of activities such as transportation, warehousing, research or institutional management. Also, the graduate has the fundamental preparation to undertake advanced study leading to a master's degree.

Departmental philosophy decrees that the student entering the field of management will have a solid basic liberal background within the framework of the Industrial Management curriculum.

In addition to 620:290 (Cost Accounting) or 620:270 (Managerial Accounting) the student majoring in Industrial Management must take the following courses:

660: MARKETING

The chief marketing executive in the firm is responsible for sustaining customer acceptance of his firm's products and services, and for finding new opportunities for his firm through the developments of new and improved products and services; effective advertising and other communications programs; efficient physical distribution of the firm's products and services so that they are accessible to present and prospective users; and pricing of the firm's offerings. He is also responsible
for organizing the various functions involved in the marketing effort. He attempts to allocate the resources of his firm for maximum impact in the markets which he feels are most profitable in order to provide the firm with a high and continuing flow of money income.

The Marketing curriculum is designed to provide the student with a clear understanding of the nature and uses of marketing techniques and their varying combinations in a total marketing plan. The student is also given a sound basis for further scholarly research in such areas as consumer and buyer behavior, operational and symbolic aspects of products and services, the communications techniques and theory, and organizational behavior as these relate to the objectives of the firm. Thus, the student becomes aware of current practices in the marketing discipline as well as the latest theoretical developments.

During his General Studies program the student who wishes to major in Marketing is required to take nine credits of behavioral sciences, either in Psychology or Sociology. In addition to 620:270 (Managerial Accounting), he must complete a minimum of 24 credits in his major, including 660:370 (Sales Administration); 660:480 (Marketing Cases and Problems); and 660:490 (Marketing Research), plus 12 hours of other marketing courses at the 300-400 level.

Recommended electives for the student majoring in Marketing may be selected from the following courses:

The degree of Bachelor of Science in Business Administration will be awarded to those students who complete the prescribed work.
AN UPPER COLLEGE:

The College of Fine and Applied Arts

RAY H. SANDEFUR, Ph.D., Dean

OBJECTIVES

The purpose of the College of Fine and Applied Arts is to further the objectives of The University of Akron by providing a quality program of undergraduate and graduate education in the artistic, technological, clinical and studio experience in speech, the dramatic arts, music, the visual arts and the family life arts, and

To maintain curricula for the preparation of student majors in these areas,
To prepare such students for graduate study and career opportunities on the level of professional competence,
To provide instruction designed to meet specific curricular needs of all the Colleges of The University,
To serve the elective interests of students seeking diversity and enrichment in their academic programs,
To encourage the development of technical knowledge and professional skills which underlie the communicative functions of human expression, and
To nurture and expand, through this congregatation of the arts, not only a knowledge of man's creative and cultural heritage but also a perceptual and aesthetic awareness of direct sensory experience through creation and performance.

The College recommends each student for the appropriate bachelor's or master's degree in accordance with his level of accomplishment.
Requirements for Admission
To be admitted to the College of Fine and Applied Arts the student must have completed satisfactorily at least 96 credits of work with at least a 2.0 ratio; have completed the required General Studies courses; have completed the departmental or divisional prerequisites and have the approval of the Dean.

Requirements for Baccalaureate Degrees
1. Electives included in the 192 credits of total work required for the degree may consist of any courses offered for credit in the University's four-year degree programs, provided that the prerequisites as set forth in this Bulletin are met, and further provided that not more than two credits of physical education activities, twelve of applied music, six of music organizations and nine of courses in the Community and Technical College are included. (Credit limitations on applied music and music organizations do not apply to the Bachelor of Music degree.)

2. The recommendation of the Head of the student's major department.

3. All candidates for a Bachelor of Arts degree in the College of Fine and Applied Arts must have demonstrated their ability to use two languages.

If the candidate is a native-born speaker of English, this ability will be shown by his completion of a second year of an approved foreign language on the university level.

If the student is not a native-born speaker of English, this ability will be shown by his completion of the General Studies sequence in English (110:111-112 and 205).

4. Other requirements as set forth in the section on "Requirements for Graduation" in Chapter 3 and on the following pages.

Degrees
The following baccalaureate degrees are granted in the College: Bachelor of Arts, Bachelor of Music. The University has also applied to the Ohio Board of Regents for approval to offer the Bachelor of Fine Arts degree in Art. Courses leading to the BFA degree are approved and listed in this Bulletin.

The Major Field
To qualify for graduation, a student must concentrate or major in the work of a department of the college. The major will consist of from 36 to 96 credits in addition to the required General Studies and foreign language courses. Part or all of these credits may be taken in specifically required courses depending upon the major chosen. The longer and more professionally-oriented majors should be started during the first or second year when the student is still under the guidance of the Office of Student Services. The shorter majors need not be declared before the end of the second year when the student is ready for promotion to the College of Fine and Applied Arts.

A student will select a department in which to major. The exact requirements for each such major will be found on the following pages in the section headed "Departments of Instruction." Some departments offer more than one type of major. No minor is required, but in some cases the major includes certain courses in other departments. As soon as the student is promoted to the College, the head of his major department becomes his adviser.

Preparation for High School Teaching
Students interested in a teaching career on the high school level may qualify for certification by the State Department of Education while enrolled in the College of Fine and Applied Arts. Those wishing to prepare for such a career should register with the Dean of the College of Education at least two years prior to the time he expects to be eligible to teach. Generally the Fine and Applied Arts major subject will also constitute a teaching major. The education and psychology courses required for the secondary school teaching certificate may be taken as electives toward the Fine and Applied Arts degree. Additional elective credits will generally enable the student to qualify in a second teaching field, which facilitates teacher placement, without exceeding the 192 credits necessary for graduation from the College of Fine and Applied Arts. Such a program is particularly recommended for students who, as part of their preparation for teaching, plan to go to graduate school and earn an advanced degree through specialization in their field of major interest. Special teaching certification in Art for kindergarten through grade 12.
DEPARTMENTS OF INSTRUCTION

710: ART

Requirements for a major in Art are:

General Studies and second year of language (French recommended).

Art Courses (Studio Emphasis): 710:125, 126, 146, 147, 180, 181, 182, 230, 240, 242, eight credits in History of Art courses; 15 credits from introductory level courses; and ten credits from advanced level courses, continuing two from the introductory level; 710: 440 Studio Problems for 10 credits. Modifications may be made to allow for individual interests subject to approval of the Head of the Department.

Art Courses (History of Art Emphasis): 710:125, 126, 146, 147, 180, 181, 182, 230, 240, 244, 320, 403, 414, 415, 416 and 417.

Students interested in majoring in Drawing and Painting, Sculpture, Printmaking, Communications Graphics, Design (with emphasis on Ceramics, Interior Design or Crafts) should choose their curriculum in consultation with the Head of the Department.

740: HOME ECONOMICS

Requirements for all degrees:

The General Studies, the second year of a foreign language, Home Economics courses 740:121, 123, 147, 162, 165, 201, 245, 246, 322, and Economics 325:248. Additional course requirements for each major area:

Foods and Nutrition:

Chemistry 315:121-122-123, and 201-202-203.
Accounting 620:221 and 222, or 401.
Management 650:356. (The prerequisite of 650:263 is waived.)
Home Economics 740:314, 318, 316, 324, 412, 416.

Textiles and Clothing:

Chemistry 315:121-122-123.

General Home Economics:

750: MUSIC

A written and aural/oral examination in the fundamentals of music and an audition in a performance area is administered prior to entrance in the University to those students who intend to follow a musical degree program. Students must contact the Office of the Department of Music to arrange for the examination.

Requirements for a major leading to the Bachelor of Arts degree:

The General Studies and the second year of a foreign language. At least 45 credits in the department including courses 750:151, 152, 153, 154, 155, 156, 251, 252, 253, 351, 352, 353, participation in a music organization (751 courses) for six quarters. A study of piano until passage of jury examination in functional piano. (See Keyboard requirements for General Musicianship Examination.) Participation in Student Recital (750:157) for six quarters. No more than six credits in music organizations (751 courses) and no more than twelve credits in piano and/or other applied music (752 courses) may be included in the minimum 192 credits required for the degree. It is recommended that students attend the weekly Student Recital, participate in music organizations and continue their private study of applied music beyond these minimum requirements. Recommended but not required: 360:452 Aesthetics, 360:250 Philosophy of Art. Further courses in music may be taken as electives, subject to above credit limits.

The Bachelor of Arts music major is intended as a cultural course or as preparation for graduate study but not as professional preparation for a musical or teaching career. Requirements for a major leading to the Bachelor of Music degree:

The General Studies and the second year of a foreign language. Forty-eight credits in a primary area of applied music and six credits in electives (secondary area) in applied music (752 courses), twelve credits in music organizations (751 courses), participation for twelve quarters in Student Recital (750:157 & 357), sixty credits in 750:151, 152, 153, 154, 155, 156, 160, 161, 162, 251, 252, 253, 260, 261,
passage of the General Musicianship examination, presentation of a senior recital. A junior recital is recommended but not required.

By extending either the B.A. or B.M. programs to five years, the student may, with careful planning, take the courses in education, psychology, and music education required for teaching certification. Both the B.A. and B.M. degrees may be earned in a combination five-year program.

Degree requirements for a music major leading to the B.S. in Music Education (administered through the College of Education) include the following musical requirements:

Twenty-four credits in a declared primary area of applied music (752 courses), twelve credits in musical organizations (751 courses), participation in Student Recital for twelve quarters, 63 credits in 750:151, 152, 153, 154, 155, 156, 160, 161, 162, 251, 252, 253, 254, 255, 256, 260, 261, 262, 351, 352, 353, 354, 355, 356, 360, 361, 454, and successful passage of the General Musicianship Examination before assignment to Student Teaching. A half recital is required during the senior year.

General Musicianship Examination

The General Musicianship Examination will be scheduled at the end of any quarter by request of the student and will require satisfactory performance in the following areas:

1. Prepared performance: each candidate, with the approval but not the instructional aid of a faculty member is required to select and to prepare not more than three weeks prior to the examination compositions for two of the following three performance media: (a) voice (b) keyboard (c) other instrument. (This requirement may be met through the end-of-quarter juries in applied music.)

2. Voice
   a. Sight-singing monophonic and polyphonic music with and without words
   b. Singing all intervals within the range of an octave
   c. Singing major and minor, chromatic and whole-tone scales, triads and seventh chords in root positions and in inversions
   d. Singing simple melodies with syllables

3. Keyboard
   a. Sight-reading of easy accompaniments
   b. Harmonization at sight of easy melodies in familiar keys
   c. Playing familiar melodies and accompaniments to school songs by ear
   d. Transpositions of simple songs and accompaniments
   e. Scales, arpeggios, simple chord progressions, and modulations in major and minor keys

4. Conducting
   a. Command of all standard conducting patterns
   b. Understanding of technique used with changing meters
   c. Proper technique for conducting fermatas, attacks, releases, and differing dynamic levels

5. Rhythm
   a. Performing varied rhythms in simple, compound and combined meters
   b. Performing varied rhythms in mixed meters

6. Theory, ear-training, and dictation
   a. Knowledge of all traditional key signatures, major and minor scales, and key relationships
   b. Understanding of standard musical terms
   c. Ability to distinguish all intervals within an octave, the four primary triads, and diatonic seventh chords in minor keys, aurally and visually
   d. Ability to take simple melodic and harmonic dictation in familiar keys.

Core Curriculum in Music

The first two years of the Bachelor of Music and the Bachelor of Science in Education (Music Education) programs are essentially the same. Thus, a student who is acceptable to both programs has time to prepare for both degrees or to make an unhurried choice between them.

**Total Credits:** 202

---

**Minimum Standards of Achievement**

*For the B.S. in Ed. (Music major) degree:*

1. Primary performance area.*
   a. At least 12 quarters of private study.
   b. Completion of the 200 level as determined by jury exam.

   c. Performance in Student Recital (or sectional) each quarter.
   d. Performance of at least a half-recital in senior year.
   e. Private study is required during every quarter the student is enrolled as a music major.
   f. Participation in a musical organization on the student’s primary instrument.

2. Piano Proficiency (Students for whom piano is the primary performance area will meet requirements under “1” above, and “d” and “e” below).
   a. At least three quarters of class or private study.
   b. Completion of the 100 level as determined at jury exams.
   c. Study of “Class or Private Piano” as necessary, until entrance examination for “Keyboard Harmony” can be passed.
   d. Completion of the courses in “Keyboard Harmony.”
   e. Passing the keyboard portion of the General Musicianship Examination.

3. Voice Proficiency (Students for whom voice is the primary performing area will meet requirements under “1” above, and “d” and “e” below).
   a. At least three quarters of class or private study.
   b. Completion of the 100 level as determined at jury exams.
   c. Study of “Class or Private Voice” as necessary, until entrance examination for “Sight Singing and Ear Training” can be passed.
   d. Completion of the courses in “Sight Singing and Ear Training.”
   e. Passing the vocal portions of the General Musicianship Examination.

*For the B.M. (Performance major) degree:*

1. Primary performance area.*
   a. At least 12 quarters of private study at 4 credits per quarter.
   b. Completion of the 400 level as determined at jury exams.
   c. Performance in Student Recital (or sectional) each quarter.
   d. Performance of a senior recital (junior recital optional).
   e. Private study required every quarter a student is enrolled as a music major.

---

* Core curriculum for B.Sci.Ed. (Music) and B.M. degrees.
  † Applied Music is to be taken on the student’s declared major instrument. Applied music requirements differ each quarter by two credits in the major performance area between the B.M. and B.Sci.Ed. (Music) degrees. See Sequence of Courses for B.M. to compare.
2. Secondary performance area.*
a. At least three quarters of private study.
b. Completion of the 100 level as determined at jury exams.
3. Piano Proficiency (Students majoring in piano meet requirements under "1" above, and "d" and "e" below).
a. At least three quarters of class or private study.
b. Completion of the 100 level as determined at jury exams.
c. Study of “Class or Private Piano” as necessary, until the entrance examination for “Keyboard Harmony” can be passed.
d. Completion of the courses in “Keyboard Harmony.”
e. Passing the keyboard portion of the General Musicianship Examination.
4. Voice Proficiency (Students majoring in voice meet requirements under "1" above, and "d" and "e" below).
a. At least three quarters of class or private study.
b. Completion of the 100 level as determined at jury exams.
c. Study of “Class or Private Voice” as necessary, until the entrance examination for “Sight Singing and Ear Training” can be passed.
d. Completion of the courses in “Sight Singing and Ear Training.”
e. Passing the vocal portions of the General Musicianship Examination.

780: SPEECH

Requirements for all speech majors:
The General Studies and the second year of a foreign language.
A minimum of 36 credits in Speech. In addition, if planning to teach speech with Fine and Applied Arts degree, students should take 330:237, 238, 239, 242, 265, 266.

The following courses are required for other programs:

Required Courses in the Undergraduate Pre-Professional Program in Rhetoric and Public Address:
780:131, 132, 133, 135, 136, 143, 144-145, 234, 261, 278, 281, 344, 384, 444/544, 481, 490/590, 497/597. In consultation with the student’s adviser, the student should elect courses in English, psychology, sociology, political science and other related fields. Advisement toward individual goals may alter the pattern of upper level courses.

Required Courses in the Undergraduate Pre-Professional Program in Communicative Disorders:
780:131, 133, 135, 136, 137, 270, 276, 278, 353, 354, 457, 471, 472, 473, 474, 475*, 476/576*, 497/597. (*Required for some programs, recommended for all.) Other courses will be selected upon the interest, previous education and certification requirements for each student.

There are required courses in the Departments of Psychology and Biology.
As soon as a student has decided to major in any area of Communicative Disorders, he should consult with his adviser to identify requirements related to his goals.

Required Courses in the Undergraduate Program in Theatre:
780:131, 133, 135, 137, 234, 261, 262, 265, 266, 281, 361, 362, 364, 367, 368, 369, 460/560, 463, 464, 467/567, 468/568, 497/597. In consultation with the student’s adviser, courses in English, philosophy, art, psychology and music should be elected. Advisement toward individual goals may alter the pattern of upper-level courses.

Required Courses in the Undergraduate Program in Communication and Mass Media:
780:131, 132, 133, 135, 136, 137, 144, 278, 281, 282, 283, 344, 381, 384, 444/544, 481, 497/597. In consultation with the student’s adviser, courses in psychology, sociology, political science and other related fields should be elected. Advisement toward individual goals may alter the pattern of upper-level courses.
AN UPPER COLLEGE:

The College of Nursing

ESTELLE B. NAEES, Ph.D., Dean

OBJECTIVES

The purpose of the College of Nursing is to further the objectives of The University of Akron by providing a quality program of collegiate education for nursing and to pursue the following aims:

To assist students to command the segments of a variety of fields and types of knowledge basic to a rational approach to the whole ambit of human life and living.

To help students acquire a functional knowledge necessary to plan, to give, and to evaluate professional nursing care in the hospital, in the home, and in the community.

To prepare students to assume the responsibilities of nurse practitioners in beginning positions in nursing, including community health nursing.

To develop in students a command of an integrated field of knowledge which may serve as a core for further growth and graduate study in a specialized area of nursing.

The College recommends each student for the appropriate bachelor's degree in accordance with his level of accomplishment.
Programs leading to a Bachelor's degree in Nursing were initiated in 1945. The first four-year basic collegiate program leading to a Bachelor of Science Degree with a major in Nursing was established in 1966. In 1967, the Department of Nursing was elevated to a College of Nursing.

The program in nursing is approved by the State of Ohio Board of Nursing Education and Nurse Registration. The College of Nursing holds membership in the National League for Nursing, Department of Baccalaureate and Higher Degree Programs.

Graduates of the College of Nursing are prepared to enter all essential areas of professional nursing, including community health nursing. Graduates are eligible for state examination for licensing as Registered Nurses.

The curriculum is designed to include a balance of general and professional education so coordinated that the contributory liberal arts courses are prerequisite to or concurrent with the professional nursing courses. The courses in nursing follow a logical sequence, each utilizing all previous learning, synthesizing and focusing this learning through applications in clinical nursing practice. The curriculum is complete with experiences that prepare graduates for competencies in professional nursing. The program of studies provides a foundation for continuous personal development and for graduate study in nursing.

Requirements for Admission
Applicants are expected to meet the general University admissions requirements.

Transfer students may receive credit for quality work earned in approved colleges. Registered nurses who received their preparation in hospital or associate degree programs may qualify for placement in the nursing concentration by examination in those clinical areas in which they have had theory and practice experience. Examinations may be taken after the completion of the course requirements of the freshman year. Enrollment of transfer students is contingent upon University facilities. The needs of the generic students receive priority.

Prior to enrolling in the clinical nursing courses in the sophomore year, each nursing student must receive approval from the Dean of the College of Nursing. Generally, students with desirable personal qualifications, sound physical and mental health, and a 2.0 quality point ratio or higher will receive approval for entering into and remaining in the nursing major.

All students are required to take a complete physical examination before the fall enrollment in the sophomore year. The physical examination includes prescribed laboratory tests, x-rays and immunization for smallpox, diphtheria, typhoid, tetanus and polio. Annual physical examination is required before the fall enrollment in the junior and senior years.
Requirements for Promotion

Students who complete the courses prescribed by the General College and the College of Nursing and who earned a total of approximately 96 credits with a quality point ratio of 2.0 (C) or above are eligible for promotion to the College of Nursing.

Acceptance of the student in the College of Nursing is the responsibility of the Dean, in consultation with the Dean of the General College and heads of the departments concerned.

Requirements for Graduation

1. File an application with the Registrar in the final academic year. (Refer to current Bulletin for date)

2. Complete a minimum of 195 credits toward the degree and earn a minimum of 2.0 quality point ratio for all collegiate work attempted, including work taken at accredited institutions other than The University of Akron. A minimum of 2.0 quality point ratio is required in all work attempted in the major field at The University of Akron and in other accredited institutions.

3. Other institutional requirements including residence requirements are listed elsewhere in this Bulletin.

**Agencies**

The agencies cooperating in providing the laboratory experiences for students in the courses in nursing are:

- Akron City Hospital
- Akron General Hospital
- Fallsview Mental Health Center
- The Children's Hospital of Akron
- The City of Akron, Department of Public Health
- Visiting Nurse Service of Summit County
Advanced Study

The Graduate School and
The College of Law

Qualified students who have completed their baccalaureate programs with sufficiently high standings may continue their studies through the University's Graduate School in programs leading to the Master's degree as well as to the Doctor's degree. Undergraduate students who qualify may enroll in certain graduate level classes and apply the credits earned to the total required for the baccalaureate degree. To receive Graduate credit for the courses, however, students must be admitted to the Graduate School.
The Graduate School

EDWIN L. LIVELY, Ph.D.,
Dean of Graduate Studies and Research

ROBERT C. CARSON, Ph.D.,
Assistant Dean of Graduate Studies and Research

OBJECTIVES*

The purpose of the Graduate School is to further the objectives of The University of Akron by providing a quality program of graduate education and to pursue the following aims:

To offer advanced courses in various fields of knowledge beyond the baccalaureate level.

To offer students opportunities to develop and apply research techniques and to use the resources appropriate to their graduate programs.

To contribute to the advancement of knowledge for the benefit of mankind through the efforts of its faculty and students.

The Graduate Faculty recommends students who have been nominated by the student's college faculty for the appropriate master's or doctor's degree.

* The Graduate School is in the process of being reorganized during 1968-69. At the time of publication of this Bulletin, not all changes had been completed. Therefore, some statements in this section may not be applicable during the 1969-70 academic year.
Graduate study at The University of Akron began a few years after Buchtel College opened its doors, and the first earned Master's Degree was conferred in 1880. The College of Education awarded its first Master's Degree in 1924, and the Colleges of Engineering and Business Administration followed in 1959. The first earned Doctor's Degrees were conferred in 1959. Professor Charles Bulger was appointed first Dean of Graduate Work in 1933, and he continued in that capacity until 1950. Professor Ernest H. Cherrington, Jr., served as Director of Graduate Studies from 1955 to 1960 and as Dean of The Graduate Division from its establishment in 1960 to 1967. Dr. Arthur K. Brintnall was appointed Dean of Graduate Studies and Research in 1967, being succeeded in 1968 by Dr. Edwin L. Lively.

The Graduate School offers programs of advanced study leading to the degrees of Doctor of Philosophy in Chemistry, Polymer Science, Industrial Psychology, and Education (Elementary, Secondary, and Guidance and Counseling). The Doctor of Education degree is offered in Educational Administration. The Doctor of Philosophy program in Engineering has been approved for planning purposes by the Ohio Board of Regents, and it is expected to admit students in September 1969.

The staff and facilities of the Institute of Polymer Science, which has conducted basic research on campus since 1943, are available to qualified students. Such studies are facilitated by proximity to the home plants and research centers of leading rubber manufacturers and the location on campus of the Library of the Division of Rubber Chemistry of the American Chemical Society.

The Graduate School also offers programs of study leading to the Master's Degree with majors in the following areas: Accounting, Biology, Business Administration, Chemistry, Economics, Education, Chemical Engineering, Civil Engineering, Electrical Engineering and Mechanical Engineering, English, French, Geography, International Business, History, Industrial Management, Mathematics, Philosophy, Physics, Political Science, Polymer Science, Psychology, Sociology, Spanish, Speech, Statistics and Urban Studies.

Several other departments offer a limited amount of work which may be undertaken on the graduate level. Such courses may supplement the major program of study and may constitute the minor subject for students who do not devote their entire attention to one field.

The Graduate Council

Academic programs and policies of the University's Graduate School are recommended by the Graduate Council which is elected by the Graduate Faculty. Membership in the Council presently includes two members from the College of Engineering, two members from the College of Business Administration, two members from the College of Education, four members from the College of Liberal Arts and two members from the College of Fine and Applied Arts.

The Council's Chairman is elected by members of the Council, and the Dean of Graduate Studies and Research, an ex-officio member, serves as Secretary. The functions of the Council include examination of proposed graduate programs and course offerings, and recommendation of policy for all phases of graduate education.

The Nature of Graduate Education

The Graduate School is organized for the purpose of providing properly qualified students with the graduate education which they may require for the full development of their scholarly and professional capacities, subject to the criteria that all such programs are determined to be academically sound and feasible.

Graduate education involves the extension of knowledge. However, it is by no means a mere continuation of undergraduate study. Graduate education is more concerned with the significance of facts than with their accumulation. While the latter usually constitutes a necessary portion of a graduate program, it must not be regarded as an end in itself. The primary purpose is to orient the student toward research in its broadest connotation and to give him experience in the methods by which information is evaluated and knowledge is acquired. At its best, graduate education is characterized by able and enthusiastic advanced students who join faculty leaders to form a community of scholars dedicated to the
common pursuit of truth. Critical analysis, independence of thought, originality of method, intensity of purpose, freedom from bias, thoroughness of inquiry, keenness of perception and vital creativity all here combine to produce in the successful student both the professional competence and the breadth of understanding essential to leadership in all areas of human endeavor.

The administrative functions of the Graduate School include establishment of suitable entrance requirements, admission of qualified students, maintenance of high quality instruction, and provision of minimum requirements for advanced degrees. The School accomplishes its purpose through the individual and collective actions of the members of the Graduate Faculty with the administrative assistance of the Dean.

Requirements for Admission

Every person who desires to enroll in or audit any graduate course or who desires to enroll in any course for graduate credit must be admitted to the Graduate School either as a graduate student or a special graduate student.

Any student who wishes to enroll in a graduate course (coded 500, 600, 700 or 800) for credit or audit must:

1. Fill out the Application for Admission to the Graduate School. The student must indicate the specific area of study he wishes to pursue and whether or not he desires to become a candidate for an advanced degree.

2. Submit official transcripts to the Dean of Graduate Studies and Research of all college or university work taken (except at The University of Akron). None will be returned. The applicant for admission to graduate study must show an overall quality point average of no less than 2.50 (2.00 is "C"; 3.00 is "B"), a quality point average of no less than 2.75 in the intended major field, and the necessary background courses for the graduate program which he wishes to pursue as well as any specific entrance requirements set by the college in question. Foreign students must have first class standing.

3. Pay a $15.00 non-refundable application fee.

4. Take the Graduate Record Examination (Aptitude and Advanced Tests). Applicant will make his own arrangements with Educational Testing Service, at Princeton, New Jersey, or Berkeley, California.

It is the responsibility of the applicant to make certain that all credentials requested by the Graduate School are received no less than six weeks prior to the official registration period published on the University Calendar. Failure to do so may result in deferment of admission to a later quarter.

International students must furnish all credentials including TOEFL scores by June 1 for September admission.

It is important that every student who may wish to qualify for an advanced degree indicate his intention at the earliest possible date. By so doing he may expect to receive advisement which will facilitate efficient progress toward his goal.

The Dean of Graduate Studies and Research, upon recommendation of the dean of the college in which the student expects to study, will admit the applicant if his transcripts show an overall quality point average of no less than 2.50 (2.00 is "C"; 3.00 is "B"), a quality point average of no less than 2.75 in the intended major field, and the necessary background courses for the graduate program which he wishes to pursue as well as any specific entrance requirements set by the college in question. Foreign students must have first class standing.

The Graduate Faculty reserves the right to require any applicant to prove that he has acquired a satisfactory background for graduate study by taking and passing such special examinations as may be indicated.

Mature individuals, who may not meet the admission requirements set forth above, but who desire certain selected graduate courses, upon recommendation of the head of the department in which the course is offered, may be admitted by the Dean of Graduate Studies and Research, as special graduate students. Such an applicant must submit full academic credentials as described above and must demonstrate to the department head concerned that he has completed in course or by experience all prerequisites for such courses. He may then enroll for credit or as an auditor, but such

Credits refers to number of quarter hour credits assigned to various courses.
enrollment does not admit the individual to a graduate program or to any work beyond the course or courses specified.

**Graduate Student**—one who holds a Bachelor's degree from an accredited institution, has been admitted to the Graduate School, and is eligible to enroll in courses on the graduate level.

**Transient Student**—one who is a regularly enrolled student at another institution who is eligible to re-enroll at that institution and has written permission from that institution to enroll at The University of Akron for specific courses. A transient student's admission is valid for only one enrollment term. A transient student may not, as a general rule, take more than 16 credits and is subject to the same rules and requirements as a regularly enrolled student of The University of Akron.

**Special Graduate Student**—an adult who may or may not hold academic degrees but who desires to enroll in or audit certain selected graduate courses.

**Requirements for the Master's Degree**

**Candidates for the Master's Degree must:**

1. Apply for Advancement to Candidacy after completion of 30 quarter hours.

2. Earn a minimum of 45 credits (quarter hours) with a quality point ratio of at least 3.00 ("B" average) in all graduate hours attempted. All credits of "C" for any course taken must be compensated by an equal number of "A" credits. If a student accumulates two "C"s during his graduate work, he may be placed on probation by the Dean of Graduate Studies and Research. Upon receiving a third "C", the graduate student may be dismissed by the Dean of Graduate Studies and Research, upon consultation with the head of the department in which the student is pursuing his graduate studies. "D" grades are not given to graduate students. An "F" grade must be compensated by adding to the degree credit requirements a number of credits equal to those of the "F" grade. Such additional credits must be passed with a grade of "A". A second grade of "F" received by any graduate student will constitute a dismissal from the graduate program.

**Note:** Some departments may require a thesis or formal problem. In such cases the title of the thesis or problem should be filed with the Dean of Graduate Studies and Research at approximately the same time the candidate applies for Advancement to Candidacy. The thesis will be prepared in accordance with the rules of the graduate faculty and will be submitted in duplicate to the Dean of Graduate Studies and Research no later than two weeks prior to commencement. These copies will be final and must bear the signatures of the adviser, faculty reader, department head and college dean.

The payment of the binding fee, $5 per copy, is made at the Controller's office prior to delivery of copies to the University Library for binding.

The research project and thesis or report will comprise from three to nine of the quarter hours required for the degree.

3. Complete all requirements for the degree within five years from the date of beginning coursework in the Graduate School of the University of Akron. Transfer credits must also follow in the same five-year period. An extension may be granted in unusual cases by the Dean of Graduate Studies and Research.

4. Meet any additional requirements listed under the college and department in which the program is offered; complete such final or cumulative examinations as may be required.

5. File an Application for Graduation with The University of Akron Registrar at the start of his final academic year. Filing deadlines may be obtained from the Office of the Registrar; and

   Place an order with the University Bookstore for the cap and gown, within dates approved by the University Marshal; and

   Participate in Commencement exercises. Degree candidates who wish to be graduated "In Absentia" must make written request to the Dean of Graduate Studies and Research within established dates.

**Transfer Credits**

Up to a maximum of 15 credits of graduate work taken at a properly accredited graduate school may be transferred in partial fulfillment of the requirements for the degree upon recom
mendation of the major Department Head with the approval of the Dean of Graduate Studies and Research. All work so transferred must be of "A" or "B" quality and must form an integral part of the student's program of study in The University of Akron. The student should petition the Department Head concerned to recommend transfer credit acceptance, after he has successfully completed 18 graduate credits at The University of Akron. Extension courses are not accepted.

Requirements for the Doctor of Philosophy Degree

Besides fulfilling the general requirements listed above, candidates for the Doctor of Philosophy degree must meet the following specific requirements:

1. At least one year in full-time residence. The one-year period may be based on either an academic or calendar year, depending upon the curriculum involved.

2. Knowledge of one or two foreign languages, as approved by the head of the department and/or chairman of the interdepartmental committee. Depending on the department and curriculum involved, the student may elect either

   PLAN A: Reading knowledge, with aid of a dictionary, of two approved foreign languages.

   At the discretion of the major department (1) An average of "B" in the second year of a college level course in a language will be accepted as evidence of proficiency in reading knowledge for that language, (2) English may be considered as one of the approved foreign languages for students whose first language is not English, and (3) demonstrated competence in a research technique (e.g., statistics and/or computers) may be substituted for one of the two foreign languages.

   PLAN B: Comprehensive knowledge of one approved foreign language, including reading without the aid of a dictionary and such additional requirements as the department may impose.

   Language examinations are given in Fall and Winter on the dates announced by the department head. Students should prepare for and complete these examinations early in their programs. If a student fails the language examination, he must pay a fee of $5.00 for the second examination and $10.00 each for any additional examinations.

3. Successful completion of any cumulative or preliminary examination required by and administered by the department.

4. The preparation and completion of a dissertation based upon original research which has been approved by the head of the department and/or the chairman of the interdepartmental committee. The dissertation must be a contribution to knowledge worthy of publication and unrestricted in circulation except for limitations that may arise from national security regulations. The dissertation, prepared in accordance with the rules of the Graduate Faculty, must be submitted in duplicate to the Dean of Graduate Studies and Research two weeks prior to commencement. (Neither copy will be returned for any reason.) Both copies must bear the signatures of the adviser, faculty reader, department head, and college dean.

   Both copies will be bound and placed in the University Library. All dissertations will be microfilmed and copies will be available through University Microfilms, Inc., Ann Arbor, Michigan. Payment of binding and microfilm fees (currently $30.00 for the two copies, $5.00 for each additional bound copy) must be made at the Controller's Office before the copies are delivered to the University Library.

5. Any additional requirements listed hereafter under the college and department in which the program contemplated is offered.

   NOTE: The student must complete all requirements for the doctor's degree (a) within ten years from the date of his initial registration in the Graduate School, if he enters with a Bachelor's degree and (b) within seven years from the date of his admission to the Graduate School, if he enters with a master's degree. Extensions may be granted in special cases, by the head of the department and/or the Chairman of the Interdepartmental Committee, and the Dean of Graduate Studies and Research.

Major and Minor

The program of study leading to a graduate degree may be composed of work in one or

Credits refers to number of quarter hour credits assigned to various courses.
more departments of the University depending upon the purpose and need of the student.

If it is agreed in conference with the major department head that some work will be taken in other departments, the minor or minors should be selected and planned to constitute an integrated program of advanced study. Furthermore, the student must demonstrate that he has had sufficient undergraduate work, or its equivalent, in the proposed major and minor areas to qualify him for study on the graduate level therein.

Fees
A resident of Ohio who enrolls in graduate courses shall pay a fee of $22.00 per credit for all such credit work.

A nonresident of Ohio who enrolls in graduate courses shall pay a fee of $28.00 per credit for all such credit work.

An Auditor shall pay the same fee as a student enrolled for credit.

Graduate students will also pay a general service fee of $5.00 per quarter, if enrolled for less than nine credits or $15.00 per quarter if enrolled for nine or more credits.

Students taking work for graduate credit shall be subject to whatever other special and miscellaneous fees published in the University Bulletin may be applicable to their respective cases.

Fellowships and Scholarships
A limited number of research assistantships and fellowships are available and range in amount up to annual stipends of $4,500. In addition, tuition and fees may be remitted by the University to the recipients of some fellowships.

Graduate Assistantships in teaching and research are available in most departments for students with excellent undergraduate records and a desire to prepare for college teaching or assist in departmental research. Appointees receive a stipend of from $2,400 to $3,600 and are granted remission of tuition and fees for enrollment in up to 24 credits of graduate work per year. Application deadline is March 1.

Advancement to Candidacy
A graduate student who wishes to qualify for an advanced degree should make his desire known to the head of his major department during, if not prior to, his first quarter of enrollment in graduate courses. At that time his complete academic record will be reviewed by the dean of the college or the department head, and his program of study will be outlined provided he meets the standards set forth in this bulletin.

A student working toward the Doctor's Degree will file with the Dean of Graduate Studies and Research an Application for Advancement to Candidacy upon successful completion of his cumulative examinations. The application will bear the approval of the major department head and will list all requirements that remain to be completed.

A student working toward the Master's Degree will file with the Dean of Graduate Studies and Research an Advancement to Candidacy Application when he has completed approximately 30 credits of work. This application must be filed no later than the first week of the student's last quarter. It must bear the recommendation of the adviser or department head and dean of the college concerned, as well as the statement of work to be completed. All students must be advanced to candidacy before they are cleared for graduation.
Doctor of Philosophy in Chemistry

In addition to satisfying the general requirements of the Graduate School, students working toward the Doctor of Philosophy Degree in Chemistry must meet the following requirements:

1. Pass proficiency tests required of all entering students.

2. Satisfactory completion of a course of study designed and accepted by the student's advisory committee. This course of study shall consist of a program deemed suitable to prepare the student in his designated area of chemistry, and shall consist of a minimum of 36 credits in graduate courses. Eight credits a quarter shall be considered a normal load. At least 18 credits of graduate work, and all dissertation credits, must be completed at The University of Akron.

3. Earn credit for a dissertation, to be established by enrollment in Chemistry 865, such that course credits plus dissertation credits total at least 126 credits (exclusive of M.S. dissertation credit). The amount of credit for the dissertation in each academic quarter or term shall be determined by the Head of the Chemistry Department (in agreement with the student's advisory committee).

4. Pass preliminary examinations in analytical, inorganic, and physical chemistry.

5. Pass an oral examination upon completion of the research dissertation.

6. Pass cumulative examinations given monthly during the academic year. The candidate is urged to begin these examinations early in his graduate program, and must pass eight of them as a degree requirement.

7. Pass the general requirements for the Doctor of Philosophy degree.

Doctor of Philosophy in Polymer Science

An Interdisciplinary Program leading to the Doctor of Philosophy in Polymer Science is administered by the Department of Polymer Science. Graduates from the three main disciplines (Chemistry, Physics, and Engineering) are guided into the appropriate courses of study and research under the supervision of a departmental staff member in their own field. Research facilities of the Institute of Polymer Science are available for thesis research.

In addition to satisfying the general requirements of the Graduate School, students working toward the Doctor of Philosophy Degree in Polymer Science must meet the following requirements:

1. Satisfactory completion of a course of study prescribed by the student's advisory committee, based on their judgment of his background, and on the result of any special examinations that they might impose. This course of study will consist of a minimum of, but usually more than, 54 credits in graduate courses, as outlined below, or their equivalent. At least 18 credits of graduate course work, and all dissertation credits must be completed at The University of Akron.

2. Credit for a dissertation, to be established by enrollment in Polymer Science 791, such that course credits plus dissertation credits total 126 hours (exclusive of M.S. thesis credit).

3. Pass eight cumulative examinations which are given at intervals during the academic year. The candidate is urged to begin these examinations early in his graduate program.

4. The passing of an oral examination upon completion of the research dissertation.

5. Pass the general requirements for the Doctor of Philosophy degree.

Doctor of Philosophy in Industrial Psychology

A program leading to the Doctor of Philosophy in Industrial Psychology is offered through the Department of Psychology.

The degree will be awarded to students who, besides fulfilling the general requirements of

Credits refer to number of quarter hour credits assigned to various courses.
the Graduate School have met the following specific requirements.

1. A 135 credit minimum total requirement (including a 45 credit Master's program where applicable), including thesis and dissertation. Students considered deficient in any area may be required to take additional courses.

2. The completion of a core program. This is meant to prepare the student first as a psychologist and only later in the industrial specialty.

3. The completion of preliminary examination on the core areas. Even though students may elect certain courses within some core areas, examinations will cover all courses in all core areas. Written and oral examinations will also be required in the major (Industrial) and the minor.

4. The completion of at least 18 credits in a minor field. This minor may be taken in the department in another area, e.g., clinical psychology, or it may be taken in another appropriate department.

5. The completion of a dissertation comprising 20 credits. The oral examining committee must be constituted of at least five full-time staff members, one of whom must be from outside the department.

6. Language Requirements (see general requirements for the Doctor of Philosophy Degree).

7. Pass the general requirements for the Doctor of Philosophy degree.

Ph.D. Core Program

Master's Core Program Plus:

Group A—Measurement—all required:
375:795 Computer Techniques in Psychological Measurement ... 3
375:706 Advanced Tests & Measurements ... 3

Group B—Experimental—at least 4 credits required:
375:710 Theories of Learning .................. 4
375:713 Perception .......................... 3
375:615 Physiological Psychology ........... 3

Group C—Individual Differences—at least 4 credits required:
375:612 Theories of Personality ............ 5
375:613 Theories of Psychotherapy .......... 4

Group D—General Requirements—all required:
375:517 History of Psychology .............. 4
375:790 Dissertation Research ............. 20

Reminder: Although the student has options in the core, he will be examined on material from all courses in the core.

TOTAL REQUIREMENTS—135 credits
In M.A. Core (16-22)
In Ph.D. Core (38 Minimum)
Electives (81 maximum)

Note: Final selection of applicants will be made in March of each academic year. At that time, all applications received will be considered by the Psychology Staff and the best qualified ones will be selected.

The Master's Degree

Programs of advanced study leading to the Master's degree are offered by the Departments of Biology, Chemistry, Economics, English, Geography, History, Mathematics, Modern Languages, (French and Spanish), Philosophy, Physics, Political Science, Polymer Science, Psychology, Sociology, Statistics and Urban Studies. Before undertaking such a program the student must show that he has:

1. Met the general requirements for admission to the Graduate School.

2. Met the standard requirements for an undergraduate major in the area of proposed graduate specialty or that he has performed work which the department head approves as equivalent to an undergraduate major.

General requirements for the degree are listed on preceding pages.

Additional requirements in effect in the several departments offering graduate programs follow:

Biology: Research and thesis, 9 credits. A minimum of 36 credits total course work ap-

Credits refers to number of quarter hour credits assigned to various courses.
proved by the student's advisory committee is required. A minor may be taken in approved graduate courses, including education. Participation in seminars and demonstration, prior to last semester of enrollment, of reading proficiency in a foreign language appropriate to the field of study are required. Summer study at a biological station is recommended.

CHEMISTRY: Research and Thesis, 9 credits. A minimum of 36 credits of course work as approved by the student's advisory committee is required. With permission of the student's advisory committee a maximum of 18 credits may be taken in mathematics or physics. Attendance and participation in seminar-type discussions scheduled by the department are required. Demonstration, prior to the last quarter of enrollment, of reading proficiency in a foreign language appropriate to the field of study is required.

ECONOMICS:

1. At least 45 credit hours. Of these not more than 12 credits from the following sources may be applied toward the degree: 600 level courses taken outside the department; 500 level courses taken in the department.

2. The following courses are required: 325:601; 325:611; 325:695-696. The thesis must be written in the student's major area of concentration from the following:

   a. Economic Theory and Policy
   b. Quantitative Methods
   c. International Economics and Trade
   d. Economic Development and Planning (Underdeveloped Countries)
   e. Labor Economics

3. At least 12 credit hours for the major concentration and 8 credit hours for the minor concentration are required for all areas except in the case in which the student chooses as major concentration Economic Theory and Policy; in this case a minimum of 16 hours in this area will be required.

4. A written examination taken after completion of required courses and concentration area requirements is intended to test the candidate's knowledge in economic theory and in his areas of concentration.

ENGLISH: Forty-five hours of course work are required. Program will include at least two sequences of period courses and, unless previously taken, 330:501, 517-518, 562, and 690, Bibliography and Literary Research. At least 21 hours will be taken on the 600 level. A thesis (330:699) or two thesis essays are required. Demonstration, prior to last quarter of enrollment, of reading proficiency in a foreign language appropriate to the field of study is required.

FRENCH:

Option I: Completion of 50 credits of graduate course work, no thesis required.

Option II: Completion of 45 credits of graduate work, including a thesis equivalent to 5 of the 45 credits required.

I. Core Requirements:

   32 credits at the 500 level distributed as follows: Literature, 9 hours; Linguistics, 9 hours; Culture and Civilization, 9 hours; Advanced Language Skill, 5 hours.

II. Electives:

   Option I—18; Option II—9. With approval of the departmental graduate committee, up to 9 elective credits may be taken in another department.

III. Additional Requirements:

   A. Admission Requirement—Proficiency level in the four competencies (listening comprehension, speaking, reading and writing) will be evaluated by applicable parts of the MLA proficiency tests.

   B. Second Language Requirement—At some time prior to the beginning of his last graduate quarter, the candidate will be required to demonstrate a reading knowledge of a modern foreign language other than French. Choice of the second language will be left to the student in consultation with his adviser.

   C. Final Comprehensive Examinations—The candidate will be required to pass both a written and oral final examination covering all areas of study included in his program.
**Geography**

*Requirements for the Master of Arts Degree in Geography:*

1. The general requirements of the Graduate School.

2. Completion of a minimum of 45 quarter credits of which at least 36 must be course work and of which 24 quarter credits (exclusive of research), must be in Geography courses and must include: 335:680, 682, 687, and 690, and at least one of the following: 335:619, 620, 630, 640, or 660. Courses taken outside the department of Geography must be approved by the department prior to enrollment.

3. A thesis, carrying 6 to 9 quarter credits, must be approved by a committee of the department.

4. Successful completion of a comprehensive examination administered by the departmental committee.

*Requirements for the Master of Science degree in Geography:*

1. The general requirements of the Graduate School.

2. Completion of a minimum of 45 quarter credits of course work, of which at least 24 (exclusive of research) must be in Geography courses and must include: 335:680, 682, and 687, and at least one of the following: 335:610, 620, 630, 640, or 660. Courses taken outside the department must be approved by the department.

3. Courses taken outside the department must be approved by the department.

4. Completion of 12 quarter credits of graduate level statistics courses approved by the department.

5. Successful completion of a comprehensive examination administered by the departmental committee.

**History:** Completion of 45 credits, including 14 credits in 600-level courses, plus historiography if not part of undergraduate record plus 690, 696, a comprehensive examination covering three fields to be determined in conjunction with the departmental adviser. Demonstration, prior to the last quarter of enrollment, of reading proficiency in a foreign language appropriate to the field of study.

**Mathematics:** Completion of 45 credits to include 345:611, 612, 613, 621, 622, 623; 9 graduate credits either in Analytical Function Theory, Mathematical Statistics, or Geometry, plus elective credits in 500-level or 600-level mathematics or statistics courses. All candidates will be required to include 345:698, and the topics discussed therein will be the basis for a paper or thesis. Upon recommendation of the department, enrollment in 345:699 for an additional 3 credits will be permitted. A comprehensive examination, taking the form suggested by the department, will be required of each candidate.

**Philosophy:** Complete 360:611, 612, 613, 614, within a total of 48 credits. Pass written comprehensives in areas approved by the department. Show comprehensive knowledge of one foreign language, French, German or Greek. Complete a thesis under the supervision of the department.

**Physics:** The following courses must be included in the graduate program: 365:601-602-603 and 651-652-653, and either 681 or 490. Courses 365:661-662-663 are strongly recommended, but not required.

A comprehensive examination, taking the form suggested by the department, must be passed; the fields covered will include classical mechanics, quantum mechanics, electricity and magnetism, atomic and nuclear physics, and thermodynamics.

Graduate research participation is strongly encouraged. Up to 8 credits may be earned in 365:697 upon the satisfactory completion of a graduate research project. One additional credit may, upon approval of the department, be permitted in 365:698 for the completion of a master's thesis based on such research. A successful thesis may thus account for up to 9 of the total of 45 graduate credits required. Both the thesis and course 365:697 are, however, entirely optional.

**Political Science:** 45 credits, at least 27 of which (including thesis) must be at the 600-level in Political Science. Nine credits for thesis. Thesis topic and completed thesis must be approved by the student's thesis committee. Each student will be required to take at least
one course or seminar in each of the four sub­fields of American Government and Politics, Comparative Politics, International Politics, and Political Theory. In certain cases, at the discretion of the Department Head, candidates for the master's degree may be asked to take undergraduate courses to overcome serious deficiencies.

POLYMER SCIENCE: A minimum of 36 credits in appropriate courses in Biology, Chemistry, Mathematics, Physics, Polymer Science, and Engineering, as prescribed by the student's advisory committee. The research project (enrollment in 394:691) and resulting thesis will constitute nine of the credits required for the degree. Attendance at and participation in seminar-type discussions scheduled by the Department are required. Demonstration of reading proficiency in a foreign language appropriate to the field of study.

PSYCHOLOGY: Completion of 375:601, 602 and 603 or 347:671 and 672, 375:630 and 660; Satisfactory Performance on a Psychology Department Qualifying Examination.

SOCIOLOGY: A minimum of 48 quarter credits, at least 36 of which (including thesis) must be at the 600 level in Sociology. Required courses are 600, 601, 603, 614, 650. Each candidate is required to pass a written examination in which he demonstrates his competence in sociological research methods, and his general mastery of Sociology; and an oral examination covering a defense of his thesis and relevant aspects of Sociology.

SPANISH:

Option I: 50 credits of graduate work, no thesis required.

Option II: Completion of 41 credits of graduate work, including a thesis equivalent to 9 credits of the 41 credits required.

I. CORE REQUIREMENTS:
32 credits at the 500 level covering essential areas in Literature, Culture, Linguistics, and Language Skills. Thesis candidates are required to enroll in the Seminar in Hispanic Bibliography and in Research Methods (607).

II. ELECTIVES:
With the approval of the departmental graduate committee, up to 9 elective graduate credits may be taken in another department.

III. ADDITIONAL REQUIREMENTS:

A. Admission Requirement—Proficiency level in the four competencies (listening comprehension, speaking, reading, and writing) will be evaluated by applicable parts of the MLA proficiency tests.

B. Second Language Requirement—At some time prior to the beginning of his last graduate quarter, the candidate will be required to demonstrate a reading knowledge of a modern foreign language other than Spanish. Choice of the second language will be left to the student in consultation with his adviser.

C. Final Comprehensive Examinations—The candidate will be required to pass both a written and oral final examination covering all areas of study included in his program.

STATISTICS: Completion of 45 quarter credits to include 347:651, 652, 653, 661, 662, 665, 666; 3 graduate credits each in Matrix Algebra and Complex Variable; plus elective courses in either statistics, mathematics, or specific areas of application. All candidates will be required to include 345:698 and the topics discussed therein will be the basis for a paper or thesis. Upon recommendation of the department, enrollment in 345:699 for an additional 3 credits will be permitted for completion of a thesis. A comprehensive examination, taking the form suggested by the department, will be required of each candidate.

URBAN STUDIES: Completion of 50 credits, which must include the following:

1. Urban Studies Core (27 credits):

600 (4 credits) and 640 (3 credits) required. Credits taken in an academic department other than Urban Studies may, if approved by the Department of Urban Studies, be applied towards the fulfillment of the Urban Studies core requirement.

Credits refer to number of quarter hour credits assigned to various courses.
3. Urban Related Courses (20 credits): This requirement may be fulfilled by taking urban related courses in a specific academic department, several academic departments, or by taking additional urban studies core courses.

Courses taken by the student to fulfill the Urban Studies requirement must be approved by the Urban Studies Department.

THE COLLEGE OF ENGINEERING

A program of advanced study leading to the Doctor of Philosophy in Engineering has been approved by the Ohio Board of Regents and is now in the planning stage. It is hoped that students will be admitted in September 1969.

Master of Science degrees in Engineering, Master of Science in Chemical Engineering, Master of Science in Civil Engineering, Master of Science in Electrical Engineering, and Master of Science in Mechanical Engineering are offered.

In addition to the general requirements for admission to the Graduate School, an applicant for graduate study in Engineering must either (1) hold a bachelor's degree in a curriculum accredited by the Engineers' Council for Professional Development at the time of his graduation, or (2) provide evidence of an equivalent academic background to the satisfaction of the Dean of the College of Engineering and the Department Head.

Additional College requirements may be specified.

The Master's Degree

1. At least 6 credits outside of the College of Engineering as approved by the department.

2. Course requirements:

* This program is intended for those students whose interests do not substantially coincide with one of the four Departments. The course selection and the examination are supervised by interdepartmental committees.

THE COLLEGE OF EDUCATION

The Doctor of Philosophy Degree Programs leading to the Doctor of Philosophy Degree in Elementary Education, Secondary Education, and Guidance and Counseling are offered through the College of Education. The degree will be awarded to students who, besides fulfilling the general requirements of the Graduate School, have met the following specific requirements:

1. A minimum of 135 graduate credits (including a 45-credit Master's program where applicable), including the doctoral dissertation.

Credits refers to number of quarter hour credits assigned to various courses.
Students considered deficient in any area may be required to take additional courses.

2. The completion of a core program designed to prepare the student generally before he begins to specialize.

3. The completion of preliminary examinations on the core areas and the major field of concentration.

4. Successful completion of an examination in a language judged not to be the student's native tongue.

5. The completion of at least 18 credits beyond the Master's degree level in a cognate area.

6. The completion of final written and oral examinations in the student's major field of concentration.

7. The completion of a dissertation comprising not more than 22 credits. The oral examining committee must be constituted of at least five full-time staff members, one of whom must be from outside the College of Education.

8. Pass the general requirements for the Doctor of Philosophy degree.

The Doctor of Education Degree

A program leading to the Doctor of Education degree in School Administration is also available.

The admission procedures and requirements for this degree are the same as outlined above in the Doctor of Philosophy degree program, except the language requirement is waived.

Core Program

The following courses are required of all students in both Ph.D. and Ed.D. Programs:

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>

Information regarding specific course requirements in each of the major areas of concentration may be obtained in the office of the College of Education.

Credits refers to number of quarter hour credits assigned to various courses.

The Master's Degree

Programs of advanced study leading to the degree of Master of Arts in Education and Master of Science in Education are offered.

Students who expect to earn the Master's Degree for advancement in the field of teaching must have met the general requirements for admission to the Graduate School and must be qualified to hold a standard teaching certificate. Exceptions to this latter requirement will be made for qualified students who do not wish to teach or perform duties in the public schools, provided they present or acquire an appropriate background of study or experience. Students who expect to earn the Master's Degree in guidance and administration also should have some successful teaching experience. The major field quality point average requirement will apply to all work taken in the professional sequence including General Psychology. A physical examination may be required if and when indicated. Any student who exhibits a deficiency in English or other skills may be required to correct same before recommendation for an advanced degree.

The general requirements for the degree, listed on preceding pages, must be met. Each department may establish additional requirements relating specifically to that field. In addition, all Master's degree students must
complete the courses listed under "CORE COURSES" as well as all requirements in the major field of concentration.

Core Courses

Total Program 45

Visiting Teacher

The service of the Visiting Teacher includes working with individual children and their families when a child has difficulty such as maladjustment, failure to learn or non-attendance. This service supplements the contribution of the teacher and other personnel and is carried out in cooperation with them. As a liaison service, it helps to integrate school and community services for the benefit of the child.

For those students seeking certification as a Visiting Teacher, the following requirements must be met:
1. Possession of a provisional or higher certificate valid for teaching in Ohio.
2. Evidence of at least one year of teaching experience.
3. The following courses of study:

<table>

Teaching the Culturally Disadvantaged

The serious need for many more specially trained people for schools enrolling culturally disadvantaged is generally recognized by the experts in the field and is considered by many to be the most pressing of our current educational problems. Consequently, we need to make special efforts to find ways of getting more persons interested in making a commitment to teach in inner city schools.

Among the objectives of this program would be to help each student:

1. Acquire the basic knowledge and understanding of the American city with special emphasis on the unique characteristics of the "core" areas;
2. Acquire a knowledge of the developmental characteristics of culturally disadvantaged children and an understanding of how cultural deprivation, deteriorating neighborhoods, racial discrimination, and poor home conditions affect the youngster's attitudes toward school and society—his level of aspira-
tion, his self-image and other personal characteristics;

3. Develop a true sensitivity and empathy for disadvantaged children and their unique problems;

4. Develop an understanding of the impact which the special nature and characteristics of the inner city and its inhabitants have on the school curriculum, organization, instructional processes, guidance program, etc.;

5. Develop some insight into what action teachers, administrators, and supervisors might take to mobilize all the resources of the school and neighborhood it serves to help each child achieve at the level of his real ability especially through special relationships;

6. Develop skill in the selection of those instructional devices and materials likely to prove useful in teaching the culturally disadvantaged child.

The program is designed both for students already certified as well as those with no professional background.

**Employment Counselor**

This program has been designed to meet the needs of Ohio State Employment Service Counselors and those who counsel in related or similar agencies. It may lead to a Master's degree if all requirements listed below are met.

Three different disciplines are represented: Education and Counseling, Management, and Sociology. Students must take the required Counseling courses and courses in at least one of the other two fields. Students may elect courses in all three fields. The required research paper may be done in any one of these three areas.

The listed prerequisites are not all essential. However, it is assumed that the candidate has a baccalaureate degree within which he has strength in one of these areas: Business, Economics, Psychology or Sociology. If he lacks a background in these areas, a selection among the following suggested prerequisites should provide helpful preparation for the graduate program. The candidate should make his choices in consultation with his academic advisor.

**Suggested Prerequisites:**

The master's degree requires a minimum of 45 quarter hours selected in consultation with an academic advisor in the College of Education.

**Sixth Year Program**

In addition to the foregoing Graduate Programs which meet minimum State of Ohio certification requirements in the areas of Administration, Supervision, Guidance and Special Areas, the College of Education offers one year of study beyond the Master's Degree in the areas of School Superintendent, Guidance and School Psychology, respectively.

**School Superintendent**

Credits refers to number of quarter hour credits assigned to various courses.
With minor adjustments in course requirements it is possible to obtain a Master's Degree in School Psychology in the Psychology Department. Course 375:604 will be accepted in lieu of 585:601 in the Education Core.

THE COLLEGE OF BUSINESS ADMINISTRATION

Programs of advanced study leading to the degrees of Master of Business Administration, Master of Science in Accounting, and Master of Science in Management are offered in the College of Business Administration. Before undertaking such programs the student must show that he has:

1. Met the general requirements for admission to the Graduate School.
2. Met the standard requirements for an undergraduate major in the area of proposed graduate specialization or that he has completed in a satisfactory manner such background courses as may be prescribed by the faculty of the College to provide adequate basis for graduate study. The necessary background courses may total up to 45 credits of undergraduate level work for those whose academic records show no courses in economics or business administration.
3. The major field quality point average requirement will apply to all economics and business administration courses previously taken.

General requirements for the degree are listed on preceding pages. In addition to these, a student must follow one of the graduate study programs listed below:

The Master of Business Administration degree is offered with the following options or concentrations; Accounting, Finance, International Business, Management or Marketing.

M.B.A. – Accounting Concentration

Functional Courses:
(Select three of the following four)

THE COLLEGE OF FINE AND APPLIED ARTS

The Master's Degree
A program of study leading to the Master's Degree is offered by the Department of Speech. Before undertaking such a program the student must show that he has:

1. Met the general requirements for admission to the Graduate School.

2. Met the standard requirements for an undergraduate major in the area of proposed graduate specialty or that he has performed work which the department head approved as equivalent to an undergraduate major.

3. In addition to the general requirements for the degree listed in preceding pages, the student must complete a course of study with a minimum of 45 credits including Thesis.

4. Prepare a written Thesis (creative, historical, critical, or experimental) approved by the candidate's committee.

Public Address programs will include 780:690, 691, 692, 693, advanced work in other areas of the department, and after consulting major adviser, selected courses in history and English and other related fields.

Theatre programs will include 780, 660, 662, 663, 664, 665, 667, 668, 669.

Programs in the Area of Communicative Disorders (Speech Pathology and Audiology) will be established at the time of the student's admission to the program. See the director of the Speech and Hearing Clinic.

Credits refers to number of quarter hour credits assigned to various courses.
The College of Law

STANLEY A. SAMAD, J.S.D., Dean

OBJECTIVES

The purpose of the College of Law is to further the objectives of The University of Akron by providing a quality program of university education for Law and to pursue the following aims:

To prepare students for a career in the profession of law by imparting information concerning legal institutions, basic principles of the substantive and procedural law, and jurisprudential thought concerning the role of law in society.

To help to develop in students an active and critical attitude rather than a passive approach toward the rules of law and their social implications.

To develop in students a high sense of professional responsibility in terms of technical competency, appreciation of professional standards and the responsibility of the lawyer to achieve a more nearly perfect system of civil and criminal justice.

The College recommends each student for the Juris Doctor degree upon satisfactory completion of the requirements.
The College of Law was established on September 1, 1959 as the successor to the Akron Law School. Founded in 1921 as an independent evening law school, the Akron Law School produced two generations of successful members of the bench and bar, and leaders in industry and commerce. Recognizing that legal education is best conducted in university-centered programs, and mindful of the need for the continuation of a sound program of legal education in the most densely populated quadrant of the state, The University of Akron accepted an offer of merger, and formed the College of Law.

The College of Law continued to offer a plan of part-time study of law with all classes scheduled during the evening hours. The completion in 1965 of a modern, new building to house the Colleges of Law and Business Administration, and a realization by the University of an impending shortage of opportunities for the study of law on a full-time basis, led to a decision to offer both day and evening programs in law.

The schedule of courses for full-time students is designed so that the Juris Doctor degree may be earned in nine quarters or three academic years. Attendance at the summer sessions is optional.

The schedule of courses for part-time evening students is designed so that the Juris Doctor degree may be earned in four academic years consisting of four fall quarters, four winter quarters, four spring quarters, and three summer sessions. The normal academic load in the evening program is nine credits, and the summer sessions are an integral part of the program.

The schedule of courses has been designed by the faculty to provide a logical progression of subject matter, as well as reasonable freedom in the selection of elective courses. Students are encouraged to observe this schedule in planning their programs so that they can continue their advantageous progression of subject matter.

The primary purpose of students enrolling in the College of Law is to accrue fundamental knowledge of law and the role of law in society, interlaced with a grasp of the public responsibilities of the lawyer, enabling them to become attorneys and counsellors at law and leaders in governmental affairs. The ultimate aim of the College is the development of graduates who will serve society not only through the representation of their individual, corporate, or governmental clients, but who will also serve as architects of society.

Students are trained to develop their powers of legal analysis and synthesis, to develop the technical skills of legal advocacy and legal draftsmanship, and to learn practical skills of research and the management of litigation.

Pre-Legal Education
A student expecting to enter the College of Law should hold a baccalaureate degree which has been granted by an accredited institution of higher learning. His undergraduate courses should have developed his ability in expression and comprehension of the English language, afforded him basic information about human institutions and cultivated his ability to think creatively and critically, with thoroughness and intellectual curiosity.

Requirements are flexible for undergraduate study preceding legal education. However, it is generally recommended that students have a liberal arts background with majors in any of these fields: English, economics, history, mathematics, philosophy, political science, psychology, sociology or a science. Also, acceptance is granted to students with degrees in areas of business administration, education and engineering.

Comments on specific fields of logical background study are as follows:

ACCOUNTING—so that a future lawyer will be able to understand financial terminology.

ECONOMICS—valuable because law protects and regulates economic interests.

HISTORY—important because political, economic and constitutional history are basic to the study of law.

POLITICAL SCIENCE—a logical program for pre-law students because their future profession deals with governmental and political policies.

SOCIOLOGY—valuable because many jurisprudents explain law in sociological terms and advocate a sociological, humanistic approach to the development of law.
Requirements for Admission
An applicant for admission to the College of Law desiring to become a candidate for the Juris Doctor degree must satisfy the following requirements:

1. He must be of good moral character.
2. He shall show evidence that he has received a Bachelor's degree from a regionally accredited college or university in a field of study deemed appropriate by the faculty of the College of Law, with an academic average substantially better than the minimum average required for such degree.
3. He must have taken prior to admission the Law School Admission Test and earned a satisfactory score.

The procedures for securing admission are as follows:

1. Obtain an application form from the College of Law.
2. File with the College of Law an official copy of the transcript of the record from the institution which awarded the degree, at least one week prior to the official registration period published in the University Calendar.
3. Arrange to take the Law School Admission Test which is given by the University, or submit evidence of the score if the test was taken elsewhere.
4. When practical, arrange for a personal interview with the Dean of the College of Law.
5. Submit an application fee of $15.00.

The College accepts beginning students only in the fall quarter.

All inquiries and correspondence pertaining to admission should be sent to:

The College of Law
The University of Akron
Akron, Ohio 44304

Admission to Advanced Standing
A law student who has completed part of his law course at a school on the approved list of the Section of Legal Education and Admission to the Bar, American Bar Association, and who is eligible for readmission to his former law school, may be admitted to advanced standing. A student desiring admission to advanced standing shall (1) obtain from the Dean of his former law school a letter setting forth the fact that he is eligible for further instruction, and consent to the transfer; (2) submit evidence of meeting the admission requirements of The University of Akron College of Law; (3) present an official transcript of all work completed at his previous law school. Credit to be given for the prior law school work shall be that determined by the Dean of the College of Law.

Auditors
Members of the Bar and graduates of law schools who are not yet members of the Bar may, with the permission of the Dean of the College of Law, enroll for a course without credit. The auditor is required to do all the work prescribed for the regular student enrolled for credit except taking examinations. The fee for the auditor is the same as for a regular student.

Standards of Academic Work
The following system of grades is used in recording the quality of a student's academic work:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Points Per Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A Excellent</td>
<td>4</td>
</tr>
<tr>
<td>B Good</td>
<td>3</td>
</tr>
<tr>
<td>C Satisfactory</td>
<td>2</td>
</tr>
<tr>
<td>D Poor</td>
<td>1</td>
</tr>
<tr>
<td>F Failed</td>
<td>0</td>
</tr>
<tr>
<td>I Incomplete</td>
<td>0</td>
</tr>
</tbody>
</table>

Academic averages are computed by dividing the quality points achieved by the credits attempted. When a course is failed and repeated, the credits and the quality points involved each time are included in the computation as if the repeated course were an independent course.

Credit refers to number of quarter hour credits assigned to various courses.
A quality point ratio of less than 2.0 is unsatisfactory. A law student whose scholarship is unsatisfactory may be placed on probation, suspended for a definite period of time or dropped from the College at any time by the Dean.

If a student withdraws from a course with the permission of the Dean, it will not count as work attempted. If a student leaves a course without the permission of the Dean or is dropped from any course by the Dean, he is given a failing grade in the course and it is counted as work attempted.

Requirements for a Degree
The Juris Doctor degree is conferred upon students of good moral character who have been recommended by the Dean and faculty of the College of Law and who have:

1. Completed satisfactorily all required courses, seminars and electives to earn at least 126 credits and a noncredit course of a clinical nature in legal aid. The legal aid requirement may be waived by the Dean.
2. Attained at least a 2.0 average for all courses taken and at least a 2.0 average for the senior year.
3. Spent their last year in residence at the University unless excused by the Dean.

Fees and Expenses
Fees are as follows:
- Application fee, nonrefundable: $15
- Fees for residents of Ohio, per credit: $22
- Fees for nonresidents of Ohio, per credit: $28

Students taking less than nine credits in any quarter pay a General Service Fee of $5 for that quarter. Students taking nine or more credits pay $15.

For those students living in University housing, the cost is $990 for three quarters. This fee includes room (two students per room), bed linen, and twenty meals per week for three quarters.

Books (new) will cost approximately $110 per year for full-time students and about $75 per year for part-time students.

Loan Funds
University loans by which tuition and maintenance fees may be paid over the quarter in periodic installments may be requested through the Office of the Controller. Normally, these loans do not exceed one-half the fees due in a quarter.

Law students may apply for the following loans: National Defense Student Loans, the Philip H. Schneider Scholarship Loan Fund, Ohio Higher Educational Assistance Commission Loans (available to full-time students who are residents of Ohio), and the American Bar Association Fund for Legal Education (for students in good standing, after the first year).

Application for loans should be obtained from the Student Financial Aids Office, The University of Akron, well in advance of the beginning of the quarter.

Loans for emergency purposes will be considered during the academic year.

Library
The law library is the laboratory of the College of Law and is most important in providing the law student with materials for research and study. The law library contains approximately 38,000 volumes. University libraries comprising more than 225,000 volumes are available to law students.

Enrollment in Other Schools
A student who is enrolled in the program leading to the Juris Doctor degree may not take work in any other school, college or course of instruction, unless he first obtains the written consent of the Dean. No student may attend a course designed as a review for the bar examination until he has completed all course requirements for the Juris Doctor degree.

Bar Admission Requirements
Each student entering the College of Law is encouraged to read Rule XVII of the Supreme Court of Ohio, Admission to the Practice of Law, or the comparable rule of court in the jurisdiction wherein he desires to take the bar examination and practice law.

The Supreme Court of Ohio requires that each student entering a law school and who intends to practice law in Ohio shall file within 120 days from the beginning day of the fall quarter an application for registration as a law student, evidence of his meeting the prelegal educational requirements established by the Rule, a legible set of fingerprints on a
prescribed form and a filing fee of $20.00. As a condition for taking the bar examination, the applicant must file an application not less than 90 days prior to the date of the bar examination, a certificate of the College of Law that the student has completed or will complete all courses required by the Rule and a filing fee of $40.00. The Rule requires that a student be tested in the following courses: Business Associations (including Agency, Partnerships and Private Corporations), Constitutional Law, Contracts, Criminal Law, Equity (including Trusts), Evidence, Negotiable Instruments, Pleading and Practice, Property (Real and Personal), Torts and Wills. Further, the student must be certified as having had instruction in Legal Ethics.

The appropriate forms may be obtained from the College of Law on request. It is the responsibility of the student to initiate a request for, to execute properly, and to file timely, the requisite forms.

The Honor System
Consistent with the aim of training professionally responsible lawyers, and in recognition of the importance of honor and integrity of the individual lawyer, the faculty has placed the responsibility of honorable conduct on the individual student, and the administration of the honor system on a council of students composed of Student Bar Association officers and class representatives.

One noteworthy feature of the honor system is that each examination is unproctored. Entering students are urged to familiarize themselves with the Honor Code.

Clubs
The Student Bar Association is designed to introduce law students to the professional responsibilities and problems they will face upon admission to the bar, to provide closer integration among the future lawyers and present-day leaders of the legal profession, to promote professional responsibility and to acquaint law students with the opportunities and obligations to improve the administration of justice through the organized bar. In addition, the Student Bar Association provides a form of student government and promotes good fellowship.

The Grant Chapter, Phi Alpha Delta Law Fraternity was established in 1962. This fraternity has as its objectives the advancement of the legal profession, the attainment of a high standard of scholarship and the development of a spirit of good fellowship among its members. Law students in good standing may become pledges after the first quarter and active members after the second quarter.

The Judge Florence E. Allen Chapter, Phi Delta Delta Legal Fraternity (International) for women was established in 1965. The objectives of this fraternity are to promote the highest professional standards among women law students and women in the legal profession and to promote the achievement of its members.

An appellate moot court program known as Bracton’s INN is offered to all students. Bracton’s INN has as its purpose the development of skills in legal research, brief writing and oral advocacy before a moot appellate tribunal. Bracton’s INN is student-managed.

The wives of law students have established an organization called Law Wives. This association holds social events and provides services for the wives of entering students, for the Student Bar Association, and for the College.

The Akron Law Review Association
A board of student editors prepares and edits, with the advice of the faculty, The Akron Law Review, a semi-annual legal periodical devoted to legal research and commentary on the law. Membership on the board is limited to those students of superior academic achievement who desire to engage in legal research, analysis, writing, and editorship. Membership on the board of student editors is indicative not only of scholarship, but of uniquely valuable training in skills important to the profession of law.

Scholarships, Honors and Awards
Applications for scholarships may be obtained from the Dean of the College of Law. These applications should be submitted not later than May 1. No awards will be made until the student is accepted by the College of Law. Grants up to the equivalent of one year’s fees may be made for an academic year, and may be considered for renewal, provided the student’s performance is superior.
Fee remission scholarships in the sum of $15,000 are available for entering law students. These scholarships are renewable from year to year.

In addition to the foregoing, ten fee remission scholarships are available for the 1969-70 academic year for students from minority groups who have completed the Summer 1969 program sponsored by the Council on Legal Education Opportunity.

The Akron Bar Association Auxiliary Scholarship, established by the Akron Bar Association Auxiliary, provides an annual scholarship from principal and income not to exceed $1,000 to an entering student in a full-time program of law study. The University Scholarship Committee, on the basis of scholarship, legal aptitude, character and need, and with the advice of the Dean of the College of Law shall make the selection, giving first preference to a resident of Summit County, Ohio. A recipient may apply for an annual renewal of the scholarship.

The Akron National Bank and Trust Company provides an annual award to the graduating senior who excels in the study of the law of trusts and estates, with the selection to be made by the Dean.

The American Law Book Company has authorized the West Publishing Company to award four titles of *Corpus Juris Secundum* to students of all classes who have made the most significant contribution to overall legal scholarship.

The W. H. Anderson Company, Publisher, awards to the highest ranking student in Corporations each year a copy of *Anderson's Ohio Corporation Desk Book*, and to the highest ranking student in wills a copy of *Adams and Hosford: Ohio Probate Practice*.

The Lawyers Co-operative Publishing Company and Bancroft-Whitney Company, joint publishers of *American Jurisprudence*, award to top ranking students in about twenty courses a specially bound copy of the equivalent title from their multi-volume publication.

Mr. and Mrs. Evan B. Brewster have established an annual award in the sum of $125.00, half of which is to assist a deserving law student who ranks in the upper half of his class to obtain the use of assigned case and text books, and half for the expansion of the Law Library collection.

The Bureau of National Affairs, Inc. awards a year's complimentary subscription to *The United States Law Week* to a graduating student who, in the judgment of the faculty, has made satisfactory progress in his senior year.

The Fellows of the Ohio State Bar Association Foundation award annually two $100 scholarships. One scholarship is awarded to a sophomore law student with the highest academic average and the second to a junior law student with the highest academic average.

The Judge W. E. Pardee Memorial Award of $150 (established 1963-64) is presented annually to a participant or team of participants in Bracton's Inn (the Case Club of the College of Law) who best displays advocatory skill and professional decorum.

The Judge and Mrs. W. E. Pardee Memorial Scholarship in an amount not to exceed $500 is awarded annually to a deserving student who has demonstrated scholarship.

The West Publishing Company annually awards suitable law books to students with the highest first year average, highest second year average, highest third year average and to a student who has displayed leadership and scholarship.

Prentice-Hall, Inc. provides annually a complimentary subscription to its Federal Tax Guide, Edition "A", to the graduating senior who has excelled in the study of taxation.

Clinical Training

The College offers, under the supervision of its Director of Clinical Training, opportunities to its students to serve in the program of legal aid and legal services to the poor sponsored by the Summit County Legal Aid Society (or a comparable program in the county in which the student resides), in the office of the Summit County Prosecutor, and in the offices of corporate counsel and in private law offices. The aim of the program is both to develop skills in interviewing, counseling, drafting, negotiating and advocacy that are associated

Credits refers to number of quarter hour credits assigned to various courses.
with the management of the affairs of a client, and to develop a critical awareness of the lawyer's responsibility to improve the administration of civil and criminal justice. Unless excused by the Dean, each student is required as a condition of graduation to serve in one or more of the offices listed above during the course of one quarter. Additional services may be undertaken on a voluntary basis. Students enrolled in the full-time division are eligible to serve in the program upon completion of the first year's work, students in the part-time division upon the completion of the second year's work.

Continuing Education

Evening College
Summer Sessions
Off-Campus Programs
Special Programs
Civic Education
The Evening College

Charles V. Blair, M.A., Dean
Cecil L. Dobbins, B.B.A., Assistant Dean
John G. Hedinck, M.A., Assistant Dean

The University of Akron has a rich, historical tradition of devoting special attention to the development of courses for the education and interest of busy part-time students through evening classes which were first offered in 1909. This form of continuing education for adults has become as significant a pattern for urban universities in America today as was the pattern of agricultural extension in rural America nearly a century ago.

Through evening credit courses, informal special interest courses and programs of education for public responsibility, the Evening College keeps its doors open around-the-clock and around-the-year.

The Evening College at The University of Akron is a continuation of the regular daytime college life on campus. Credit courses have the same academic value whether taken in day or evening. Many of the full-time day faculty members also teach Evening College courses, insuring a high calibre of instruction.

Additional part-time faculty members are engaged to augment the Evening College teaching staff and accommodate large annual enrollments. These part-time instructors are people from the community with a full range of academic and practical experiences in their own and related fields.

The Evening College fulfills its responsibilities for the continuing education of adults by administering the credit courses offerings of the University's several undergraduate and graduate colleges and schools. Informal, special interest courses are arranged by the College's Department of Special Programs. Public affairs programming is conducted by the College's Institute for Civic Education.

Students enrolled in the Evening College include, but are not limited to, the following:

1. Persons who desire to accumulate University credits in a formal degree pattern, but who hold full-time jobs during the day. These students may begin, continue, or complete their education with Evening College courses.

2. Some students, in accepting part-time jobs, are requested by their employers to work during some of the daytime hours. They may attend lectures in the morning, work a partial schedule in the late afternoon, and return to the campus for evening lectures. The Evening College's definition of full and part-time job includes the role of the homemaker who often finds this College the major means of achieving her personal educational goal.

3. Many mature people, who are established in their chosen professions, invest some of their night hours in the Evening College to improve themselves academically and professionally. They may be awarded any of the University's degrees after meeting all of the requirements and earning sufficient credit in the Evening College.

Evening College classes begin officially at 5 p.m. Class patterns are generally arranged on a Monday-Wednesday or Tuesday-Thursday cycle. There are a few Evening classes on Friday evenings and Saturday mornings.

Evening College Activities
An Evening Student Council coordinates the extracurricular student activities of the College, which are similar to those of the day college and, in fact, sometimes are part of the daytime schedule.

Organizations which have been established for Evening College students include Alpha Sigma Lambda, the national scholastic honorary fraternity; Gamma Beta, the Evening College sorority; Chi Sigma Nu, the Evening College fraternity, and Alpha Epsilon, the honorary fraternity.

Bulletins, brochures and flyers with Evening College, Department of Special Programs, and Institute for Civic Education information may be obtained from the Evening College offices, Room 118, Spicer Hall. These offices are opened from 8 a.m. to 9 p.m. Monday through Thursday and from 8 a.m. to 6 p.m. on Fridays during the regular academic year. These publi-
cations outline admissions procedures, steps in registering, prerequisites, student course loads, absences, withdrawals, and grades.

A student newsletter, the Nite-Life, written and edited by a student staff, keeps Evening College credit enrollees informed of current happenings on campus.

Enrollment in the Evening College each quarter approximates 6,000 students. This compares to approximately 9,000 students enrolled in the day session. These figures do not include approximately 1,200 students registered in the Department of Special Programs and between 15-20,000 annual attendees at Institute for Civic Education programs.

The Summer Sessions
William A. Rogers, Ph.D., Dean

For more than 48 years, the University has offered courses in the summer. Classes are now available in both the day and evening in all sessions. In 1969, the University will offer its first summer program as a "quarter" institution. There will be two 5 week sessions offering both day and evening classes. In addition, there will be a three week Post-Session beginning immediately after Labor Day.

Several three part, year long courses will be offered over the summer session. Courses such as Institutions in the U. S., Reasoning and Understanding in Science, and Western Cultural Traditions will be offered in a three week sequence. Students will be able to complete the sequence each summer session.

The Department of Special Programs will offer special interest non-credit courses. Developmental courses for students who need remedial work will be offered by The Community and Technical College.

THE SUMMER SESSION HAS BEEN DESIGNED TO SERVE THE FOLLOWING STUDENTS:

Teachers—so that they may study during their summer vacations and earn credits leading to the Bachelor's or the Master's degree. Other courses are available that lead to the Ph.D. in Chemistry, Education, Polymer Science, Industrial Psychology, and the Ed.D. in School Administration; and programs are offered for teachers who wish to obtain emergency certificates or renew their teaching certificates.

Engineering Students—so that they may continue on schedule while studying on the cooperative program.

The Community and Technical College—Courses leading to the two year Associate Degree in Arts, Business and Office Technology, and Engineering and Science Technology. These courses are available in the day and evening program.

Transient Students from Other Colleges and Universities—so that they may take advantage of their summer time in Akron to work towards their chosen degrees. Students classified as undergraduate "transients" use the Transient Application Form available in the Admissions Office located in Buchtel Hall. Graduate "transient" students must submit a letter from their college to the Dean of Graduate Studies and Research. No additional fee is required.

June High School Graduates—June high school graduates may apply for admission and enroll immediately upon graduation. Recent high school graduates may accelerate their academic programs or take developmental courses if indicated by entrance tests.

Continuing University of Akron Students—Summer classes provide an opportunity for continuing students to accelerate their academic program. Other students find the summer a convenient time to make up for lost time during the regular academic year.

New Students—Admission—Applicants to The University of Akron who enroll during a summer period can obtain application forms from the Admissions Office located in Buchtel Hall. Summer Session applicants must meet all of the admission requirements. The $15 admis-
The University of Akron

The application fee is paid only once and is a non-refundable fee.

**Former Akron Students**—Students who were not enrolled in the previous quarter must contact the Registrar's Office for clearance (and registration forms) prior to contact with an adviser. The Registrar's Office is located in Spicer Hall on Carroll Street.

**Residence Facilities**—Housing for men and women is available on the University campus during the summer. Those interested in information and reservations should contact The Director of Housing.

- **Single Occupancy**: (Room Only) — $3.50 per day
- **Double Occupancy**: (Room Only) — $2.50 per day

*Rates are subject to change without notice*

**Summer Meal Arrangements**—Meals are not included in the room rates. On the average, students can eat for $3.25 a day in the Gardner Student Center.

**Academic Program**—The Dean of Summer Sessions reserves the right to cancel and/or combine classes. Decisions to cancel and/or combine classes will be based upon the academic and financial feasibility of the given situation. Reassignment of faculty to improve student-faculty ratio is an additional right reserved by the Dean of Summer Sessions.

**Off-Campus Academic Programs**

**William A. Rogers, Ph.D., Dean**

On July 1, 1968, the office of the Off-Campus Academic Programs was established. As a state university, The University of Akron will establish resident credit centers, academic centers, and branch universities with the approval of the Ohio Board of Regents.

Resident credit centers are generally established in local high schools or other suitable facilities where third and fourth year baccalaureate courses are offered. In addition, graduate education and business administration courses may be scheduled.

Academic centers are usually located in a local high school and offer the first and second year courses at the baccalaureate level for transfer purposes. Academic center classes are made available in the late afternoon and evening hours.

At the present time, The University of Akron does not participate in branch university activities.

Currently, the University has active resident credit centers at The Babcock & Wilcox Company (Research Center in Alliance, Ohio); resident credit centers in Canton, Ohio, located at Canton McKinley High School, Canton Lathrop Elementary School, and Canton Aultman Hospital; in Massillon, Ohio, at Massillon City Hospital; and in the Madison School District in Mansfield, Ohio.

Presently, the University shares the academic center facility located in the senior high school in Orrville, Ohio, with Kent State University. At Orrville, the University offers the technical courses of The Community and Technical College curriculum. The technical manpower needs of Wayne County are being served by The Community and Technical College program at the Orrville Academic Center.

Graduate level courses in engineering are offered at the Research Center of The Babcock & Wilcox Company in Alliance.

Two Economic Education Workshops (in cooperation with the Ohio Council on Economic Education) serve approximately ninety elementary and secondary education teachers.

An “intensive” Diagnostic and Remedial Primary Reading Graduate Workshop for teachers in the urban setting located at the Canton Lathrop inner-city school is being conducted at the present time. A set of teaching materials was designed by the members of this workshop for inner-city reading teachers.

At Canton Aultman Hospital, R.N.’s are enrolled in courses that lead to the baccalaureate
degree. These courses are held in the nurses’ residence, Morrow House, and are open to all students in the community. This program has been developed in cooperation with the School of Nursing at Canton Aultman Hospital.

A similar program for R.N.’s has been established at Massillon City Hospital. Nurses and other students from the Massillon area are enrolled in baccalaureate level courses.

It is expected that The University of Akron will be responsible for all state university off-campus academic activities in Wayne, Medina, and Holmes counties by fall 1970.

Department of Special Programs

MRS. MARY ELIZABETH CHESROWN, Head of the Department

Continuing education in today’s age of specialization is a necessity for many persons wishing to improve work skills. For others, it is a leisure-time avocation for personal enrichment. Since 1937 The University of Akron, through the Department of Special Programs’ year-round sessions of informal courses, has had offerings in both categories, for adults who do not require academic credit.

More than 100 classes, based upon the educational needs of the community, are offered each quarter. There are no requirements for admission to informal courses and any educational background is acceptable. Interest in learning in a relaxed and noncompetitive environment is the only consideration.

Permanent student records are kept for all persons enrolled. Homework and examinations may be given, although final grades are based solely on attendance.

Following is a representative though partial listing of types of subjects taught in informal classes:

For the student wishing to improve his career skills —

**ELECTRONICS**—Basic Electronics, Electronic Application, AC-DC Circuitry, and Transistors.

**METALLURGY**—Electroplating, Properties of Materials, and Metal Casting.

**SECRETARIAL SKILLS**—Advanced Dictation and Transcription, Forkner Shorthand, Shorthand, and Typewriting.

**SOCIAL SCIENCE**—Labor Relations.

Strictly for enjoyment are —

**HUMANITIES AND FINE ARTS**—Antiques, Glass Blowing, Ceramics, Crafts, The Novel, Religions of the World, Interior Decorating, Jazz Appreciation, Motion Picture Production Workshop, Piano Master Class, and Poetry.

**MODERN LANGUAGES**—French, German, Italian, Greek, Spanish, and Russian.

**PHYSICAL EDUCATION AND RECREATION**—Bowling, Family Camping, Physical Fitness for Men and Women, Scuba and Skin Diving, and Swimming for Women.

**SCIENCE**—Astronomy, Geology, and Rocks and Minerals.

The Institute for Civic Education

CHARLES V. BLAIR, M.A., Director
JOHN G. HEDRICK, M.A., Associate Director
CECIL L. DOBBINS, B.B.A., Assistant Director
MRS. MARY ELIZABETH CHESROWN, Assistant to the Director

The Institute for Civic Education, public affairs programming arm of the Evening College, represents an idealistic and optimistic concept. Its program assumes that men in a democratic society can and will develop, through patterns of continuing education, a greater sense of public responsibility and will exercise that responsibility to make Reason more effective in our social order.

Universities cannot completely rely on the traditional academic classroom approach to fulfill the requirements of education for public responsibility. A variety of structures and programs have been developed with various names for these tasks. Some are centers for continuing education, others focus on the study of liberal education by adults. At The University of Akron this work is carried out by the Institute for Civic Education, which began as an experimental project in 1956 with financial assistance from the Fund for Adult Education, after being fostered in its earlier years as part of the University's Evening and Adult Education Division.

The Institute serves as a special civic programming center for the University and as such fulfills a managerial and coordinating function for many non-credit, informal programs of continuing education for adults. These programs vary in length, frequency and cost and many are free of any charge. Most of the activities of the Institute are conducted on the University's campus in an informal atmosphere, and most involve one or more faculty members as lecturers or resource persons. Specific offerings and program details are described in separate brochures and announcements which are available to anyone on request from the Institute. In addition, the Institute publishes and circulates a monthly Civic Education Calendar of educational events.

Among the continuing educational services provided by the Institute are conference coordination and consultation, cultural and civic field trips, serving as the foreign visitor center in Akron, labor education programs, a twenty-eight week liberal education experience for the over-specialized person in business, guest lectures, study-discussion programs, Thursday Breakfast Roundtable for men interested in regional planning and development, Town and Gown series of platform lectures by outstanding commentators and authorities on national and international affairs, urban studies programs and ten annual World At Our Door travel-film lectures.

The Institute also serves as the liaison agency of The University of Akron in ad-
ministering the Akron-Summit Tutorial Program (A-STP), with its joint sponsor, the Akron Community Service Center and Urban League. A-STP is one of the most successful anti-poverty educational projects in Summit County.

A contract with the Agency for International Development of the United States Department of State to provide an 11-week residential program in the Engineering Management of Water Supply Systems is administered by the Institute for the University. Participants in the water management project come from the developing nations of the world and are referred to The University of Akron by AID, the World Health Organization, the Pan American Health Organization, and the several specialized agencies of the United Nations. Since 1962, there have been 107 participants in this project representing 36 different countries.

In cooperation with the Akron Area Adult Education Council, which was established in 1952, the Institute produces bi-monthly public Council meetings, weekly Community and National Issues luncheons and weekly World Affairs luncheons. The Institute serves as headquarters for the Adult Education Council and the Institute's Director is the Council's Executive Secretary.

The University of Akron, through the work of the Institute, is a charter member of the University Council on Education for Public Responsibility. Sister institutional members, all equally dedicated to informal public affairs education, include the University of California, New York University, University of Oklahoma, Pennsylvania State University, Southwestern at Memphis, Syracuse University, and the University of Washington.
"Institutions of higher learning are being called upon ever more frequently for public service—for defense research, foreign development, and countless other programs. They have performed magnificently. We must now call upon them to meet new needs.

"Today, 70 percent of our people live in urban communities. They are confronted with problems of poverty, residential blight, polluted air and water, inadequate mass transportation and health services, strained human relations, and overburdened municipal services.

"Our great universities have the skills and knowledge to match these mountainous problems. They can offer expert guidance in community planning; research and development in pressing educational problems; economic and job market studies; continuing education of the community’s professional and business leadership; and programs for the disadvantaged."

President Lyndon B. Johnson
January 12, 1965

The above statement by President Johnson sums up many of the responsibilities universities are being called upon increasingly to meet. The University of Akron is already involved in many of the programs cited and members of the faculty and staff are studying some of the others.
V. Public Service Programs
Research, Center for Urban Studies,
Center for Information Services,
Referral Service Network Office
Colleges and universities have traditionally been thought of as ivy-covered storehouses of knowledge where neat parcels of information are regularly dispensed to the eager young students of the day. But this is only partly true, for while the dissemination of knowledge is still a major responsibility of any university, today’s institutions of higher learning have other important obligations as well:

1. To advance the frontiers of knowledge, and
2. To perform appropriate educational public services.

This challenge cannot be met passively. The University of Akron cannot serve solely as a repository of knowledge but must actively contribute to the store of knowledge. And this contribution, if it is to have any value to society, must be related to the problems of the world we live in.

Recognizing its obligation to the people it serves, the University is seeking constantly to ensure that the research being performed here is not only an integral part of the total university life but is also relevant to the needs of today and tomorrow.

A revolution in research has been evident at The University of Akron where research has been a prime concern of the institution since its founding in 1870.

No longer is research solely the product of an individual scholar, today research is often a team effort involving several disciplines. Research groups composed of chemists and physicists or biologists and statisticians probe the unknown. The fast-developing space age has accelerated the trend toward larger interdisciplinary groups whose membership is determined by the problem . . . not the tradition.

Research teams at The University of Akron are formed to deal with specific problems posed by private business or government agencies. The research is conducted by those in the University who can best contribute to the solution of the problem no matter what their specialty may be.

The University Research Council coordinates all research activities performed on campus and is the administrative arm for contract research conducted for agencies not connected with the University.

It is the aim of the Council to encourage such activities as will further the educational goals of the University.

The Council is composed of:

Dr. Edwin L. Lively, Dean of Graduate Studies and Research, Chairman;
Dr. H. Kenneth Barker, Director, Institute of Civic and Educational Research;
Dr. Wilbur Earle Benson, Director, Institute of Business and Economic Research;
Dr. Maurice Morton, Director, Institute of Polymer Science;
Dr. Michael J. Rzasa, Director, Institute of Science and Engineering Research; and
Dr. Robert C. Carson, Coordinator of Funded Research, Secretary

While the planning and organization of a research project is usually carried out by or with the assistance of a faculty member, both graduate and undergraduate students have the opportunity to participate, depending on the nature of the project and the skills and knowledge required.

Thus, the University’s research activities benefit students in several ways. Through research the University serves not just as a storehouse of knowledge of what has taken place, but offers the dynamic atmosphere of an institution participating in the development of the world of tomorrow.

This, in turn, assures the student of a skilled, knowledgeable faculty, not cloistered in an ivory tower, but alert to the latest developments in the various disciplines. It also makes it easier for the student to bridge the gap between the knowledge of the past that he is obtaining from his books and lectures, and the up-to-date activities of the worlds of commerce, industry, education and technology.
Institute of Polymer Science
Originally called the Institute of Rubber Research, this Institute is engaged in basic research in the chemistry and physics of polymers. The Institute has a staff of eleven faculty members who direct the work of its pre-doctoral and post-doctoral students. The Institute has a wide range of equipment and instrumentation appropriate to its activities.

Some of the projects currently being carried on by this Institute are:
- Multicomponent Membranes for Reverse Osmosis
- Mechanism of Reinforcement of Elastomers
- Mechanics of Rubber Spring Systems
- Sequence Distribution in Copolymers
- High Temperature Elastomer Networks from Difunctional Block Copolymers
- Unperturbed Chain Motions in Flexible Micromolecules

Institute of Civic and Educational Research
Concerned with the increasingly complex human problems facing our society today, this Institute is carrying out a number of studies designed to assist government and industry meet the challenges of the times. In addition to studies whose concern is with how to improve the educational process, there are a number of programs which aim to improve governmental service, both by devising new solutions to problems and by bringing together experts in various fields to share their expertise with others.

Some of the current projects being carried on in this Institute include:
- Student Commitment as an Admissions Criterion
- Teacher and Pupil Attitude and Performance in Relation to Number of Books Used in First Grade Reading
- Development of Resource Material in Space Oriented Mathematics
- Student Reactions to the Use of Programmed Learning
- Conference on Current Social Welfare Programs and Trends for Career Workers without Professional Degrees
- A Study of Thermal Decomposition of Materials
- Boranes as Carbonium Ion Analogs
- Study of the Variation of the Wind Gust Factor
- Systematic Studies of Terrestrial Orchid Seedlings
- Chelate Systems containing a Metal-Carbon Sigma Bond
- Lipids of Frog Oocyte Fractions
- Natural Convection in Non-Newtonian Fluids
- A Study of Barnacle Cement

Institute for Teachers of Disadvantaged Youth
Multi-phase Research and Evaluation of the "War on Poverty" Programs

Institute of Science and Engineering Research
The studies conducted in this Institute are what most people think of when the word research is used, for it is this Institute that deals with the natural sciences. Here are the chemists and physicists and engineers, with the test tubes, spectrophotometers, nuclear reactors and all of the varied paraphernalia of modern science. As a result, this Institute possesses a large number of specialized laboratories and many unusual pieces of equipment.

Typical projects underway at present are:
- A Study of Thermal Decomposition of Materials
- Boranes as Carbonium Ion Analogs
- Study of the Variation of the Wind Gust Factor
- Systematic Studies of Terrestrial Orchid Seedlings
- Chelate Systems containing a Metal-Carbon Sigma Bond
- Lipids of Frog Oocyte Fractions
- Natural Convection in Non-Newtonian Fluids
- A Study of Barnacle Cement

Institute of Business and Economic Research
The work of this Institute is carried out principally by members of the Department of Economics and the College of Business Administration. Most of the work in this Institute is not of a project nature but rather is of the nature of a consultation. The specific problem of a specific client is handled rather than large scale, long-range theoretical studies.

Some of the project areas in which work is currently being carried on include:
- Regional Economic Growth and Development
- Job Evaluation
- Marketing and Market Research
The Center for Urban Studies was established in 1965 to analyze and explore the basic problems of the urban structure through a continuing program of urban research. The establishment of the Center represents a recognition by the administration and faculty of the University of the need to gain a more comprehensive understanding of the complex interrelationships which cause expansion and decay, wealth and poverty, advantage and exclusion, and a host of other problems and opportunities in the highly urbanized area today.

The Center for Urban Studies represents a commitment on the part of the University to help find solutions to many of the complex problems created by urban growth and development.

The objective of the Center is to provide a deeper understanding of the urban growth process on both the local and regional levels through a continuing program of basic and applied research. While the Center's major emphasis has been devoted to Akron and its environs, the research activities, findings, and in many cases, the extension programs, have a much broader scope and application.

The Center for Urban Studies represents an interdisciplinary approach to the analysis of the urban region. In its research activities the Center draws upon the skills of the faculty members in the various disciplines represented in the Colleges of Liberal Arts, Engineering, Education, Business Administration, and Fine and Applied Arts. The Center provides facilities through which interested faculty and graduate students can carry out urban research activities.

To achieve its objective the Center for Urban Studies initiates and conducts programs in three major areas—Research, Data Accumulation and Extension.

Basic and Applied Research is being undertaken in a number of areas in order to provide information and basic data which will be useful to local communities, planners, organizations, urban researchers and the citizenry of urban regions.

Accumulation of data resulting from research conducted by the Center and other agencies will be maintained in the Center's research library for the storage, processing and retrieval operations necessary to continual program of research.

Extension programs including seminars and conference are designed to make the results of the urban research activities directly available to public officials, the business community and residents in the urban region.
The Center for Information Systems (CIS) of The University of Akron has developed and is operating the Information Retrieval Project of the Division of Rubber Chemistry, American Chemical Society. Services offered include current awareness bulletins and question-and-answer services.

Mr. Panos Kokoropoulos, Director of The Center for Information Systems, is in charge of the overall direction of the Project.

Services Available
Two current awareness bulletins are published weekly by CIS. *Polymer Literature Abstracts* contains citations and abstracts of all full-length articles pertinent to research and development which were analyzed during the week. *Polymer Industry News* reports news items reflecting changes in the industry, including economics, product innovations and tradenames, and technology and patents. Subscribers receive two copies of each bulletin; additional copies are provided at cost. Cumulative indexes of each publication are furnished to subscribers, also.

Question-and-answer services can be provided on an overnight basis, the answers being mailed the next morning. Retrospective searches provide pertinent reference to articles published from 1959 to present and to news items.

Selective Dissemination of Information (SDI), a current awareness question-and-answer service, furnishes references pertinent to standing questions at designated time intervals.

Search Files
All references are simultaneously published in current awareness bulletins and stored in search files. *Polymer Literature Abstracts* references are placed in the computer retrieval system. *Polymer Industry News* items are stored separately on keysort cards and searched on a keydex system. Full-length reproductions of articles cited in the current awareness bulletins or the search results are available.

Future Development
The Center for Information Systems of The University of Akron will continue to develop improvements and to incorporate new concepts into the present system as information and the information needs of its users change.

The CIS is also investigating new projects and designing new systems in cooperation with other departments of the University.

The Bibliography of Rubber Literature, published by CIS starting with the 1961-62 volume, will include CIS references in all volumes from 1965 to present. The Bibliography will be programmed for computer retrieval.

Referral Service Network Office
The University of Akron has established a Referral Service Network Office for the State of Ohio. This program is part of the Ohio Five-Year Technical and Business Services Plan, as provided by the State Technical Services Act of 1965, and administered through the U.S. Department of Commerce.

The Referral Service Network Office of The University of Akron is part of a state-wide network that will develop within the framework of state institutions an effective system for placing the findings of science in the hands of Ohio commerce, industry and business as defined under the State Technical Services Act of 1965 and amended thereof.

The Referral Service Network Office develops profiles of industry and commerce in the geographic area surrounding Akron. Such profiles are designed to show any special problems and/or interests of this area's industry. Economic problems and considerations peculiar to the area are also identified so
that other appropriate sources of public or private assistance can be alerted to these special considerations in addition to their being fed back into the overall Ohio Technical and Business Services System.

The objectives of the Referral Service Network Office are:

To provide a reference service to identify sources of engineering and other scientific expertise for Ohio enterprise.

To aid in reducing the time lag required in commercially exploiting the advantages of a rapidly expanding technological knowledge.

To work toward the establishment of a closer and continuing communications relationship between sources and users of technical services.

To transfer the new technology to managers and engineers in all segments of private industry in a more effective manner so as to insure better utilization of scientific and technological information by governmental sources.

To bring the technical information services provided under other federal programs to a wider clientele for both large and small businesses.

To develop profiles of industry and commerce in this area in order to show any special problems and/or interest of the area's industry.

To maintain close contact with industry and commerce in this area.

In operation, the Referral Service Network Office acts as a reference service receiving requests for information or service from industry within this area by mail, telephone or personal visitation. The Network Office replies by identifying from the Technical Information Sources Catalog the source(s) of such information or service and referring the inquiror to that source(s).

The Referral Service Network Office is not an information repository or actual source of hard documents or technical assistance per se, but serves as a focal point for referrals to such sources. Whatever occurs after the referral is made is between the requestor and the source, and the requestor will then deal directly with that source of information once the referral is made from the Network Office.
VI.

Courses of Instruction
### Departmental Numbering System

**The General College (100)**
- 110 General Studies
- 150 Air Force ROTC
- 160 Army ROTC

**The Community and Technical College (200)**
- 201 Developmental Programs
- 202 Associate Studies
- 224 Commercial Art
- 228 Food Service Management
- 242 Commerce
- 244 Data Processing
- 252 Sales and Merchandising
- 254 Secretarial Science
- 256 Transportation
- 270 Preclinical Nursing
- 272 Health Technology
- 284 Chemical Technology
- 286 Electronic Technology
- 288 Industrial Technology
- 290 Instrumentation Technology
- 292 Mechanical Technology
- 298 Surveying and Construction Technology

**The Buchtel College of Liberal Arts (300)**
- 310 Biology
- 315 Chemistry
- 320 Classics
- 321 Greek
- 322 Latin
- 325 Economics
- 330 English
- 331 Journalism
- 335 Geography
- 337 Geology
- 340 History
- 345 Mathematics
- 347 Statistics
- 352 French
- 353 German
- 355 Italian
- 357 Russian
- 358 Spanish
- 360 Philosophy
- 365 Physics
- 370 Political Science
- 375 Psychology
- 385 Sociology
- 390 Interdisciplinary Programs
- 394 Polymer Science
- 398 Urban Studies

**The College of Engineering (400)**
- 410 General Engineering
- 420 Chemical Engineering
- 430 Civil Engineering
- 440 Electrical Engineering
- 460 Mechanical Engineering

**The College of Education (500)**
- 510 General and Foundations
- 520 Elementary
- 530 Secondary
- 555 Physical Education
- 557 Men's Physical Education
- 559 Women's Physical Education
- 560 Guidance and Counseling
- 565 Educational Psychology
- 570 School Administration
- 580 Special Programs
- 590 Research

**The College of Business Administration (600)**
- 620 Accounting
- 640 Finance
- 650 Management
- 660 Marketing

**The College of Fine and Applied Arts (700)**
- 710 Art
- 740 Home Economics
- 750 Music
- 751 Organizations
- 752 Applied Music
- 780 Speech

**The College of Nursing (800)**
- 820 Nursing

**The College of Law (900)**
- 920 Law

#### Course Numbers

Course numbers, in turn, indicate by their first number the level at which the course is taught, as follows:

- **000** - **099** General Studies Courses
- **100** - **199** Freshmen, first year level courses.
- **200** - **299** Sophomore, second year level courses.
- **300** - **399** Junior, third level (and pre-junior level) courses.
- **400** - **499** Senior, fourth year level courses.
- **500** - **599** Master's level courses.
- **600** - **699** J. D. courses.
- **700** - **899** Doctor's level courses.

* When approved undergraduate courses are taken for graduate credit they become **500** level courses.

Note: Numbers appearing at the end of the first line in the course description in parentheses (1-3) indicate hours of recitation or lecture and hours of laboratory work. In the example (1-3) there would be one recitation/lecture hour per week and three laboratory hours.
The General College

110: GENERAL STUDIES

110:111-112. ENGLISH COMPOSITION. 4 credits each quarter.
Must be taken in sequence.

110:205. TYPES OF LITERATURE. 4 credits.
Prerequisite: 112. These courses are intended to enable the student to obtain proficiency in the reading and writing of English. The reading materials used will be, primarily, outstanding literary works of our Western tradition.

Through these courses the student will gain competence in reading and writing. He will improve his writing skill through short expository papers (writing at least one a week), and, in the following courses, progress to writing longer and more complex critical and analytical pieces, including, in 112, a longer documented paper. He will improve his reading skill through reading, analyzing and discussing selected materials arranged in order of increasing difficulty and through critical analysis and appraisal of his own and other students' compositions.

110:108. EFFECTIVE SPEAKING. 4 credits.
Through this course the student will acquire speaking-listening proficiency, he will develop an awareness of and skill in the accurate use of language and learn to relate fundamentals of effective speaking to certain aspects of reading, writing and listening. The course will place special emphasis on the argumentative and persuasive aspects of speech. At least two-thirds of the course will be devoted to speech performance.

110:115-116-117. INSTITUTIONS IN THE UNITED STATES. 3 credits each quarter.
Sequential. Primary objective of this course is to enable the student to understand human relationships through a comparative, descriptive, and analytical study of the institutions of the United States. An exposition of basic institutional principles will be followed by a discussion of these principles in terms of the institutional structure of the United States.

110:121-122. PHYSICAL EDUCATION. 1 credit each quarter.
Participation in individual and group sports, in which each individual can acquire knowledge and skill in activities which may be of value and satisfaction to him throughout his life. Two periods each week.

110:211. NUMBERS COMMUNICATION. 4 credits.
Through this course in the language of quantitative relationships the student will develop his ability to receive and express ideas in mathematical symbols, increase his appreciation of the methods of mathematical reasoning, and come to understand and think creatively about the quantitative aspects of the world in which he lives. Two lecture and two participation-discussion periods each week.

The primary objectives of this course are to assist the student in understanding the procedures and aims of science and to enable the student to utilize the basic principles of science.

110:303-304. EASTERN CIVILIZATIONS. 3 credits each quarter.
Prerequisite, 96 credits. The primary objective of this course is to give the student a knowledge of past human experience and an understanding of present attitudes in some of the major cultural areas of the non-Western world, such as the Far East, the Indian Subcontinent, the Near East, Africa and South-East Asia. The student will become familiar with the essential features of these areas as manifested in their outstanding accomplishments in religion, philosophy, art, science and political organization.

110:317-318-319. WESTERN CULTURAL TRADITIONS. 3 credits each quarter.
Sequential. Primary objectives of this course are to enable the student to understand human experience of the past, so that he may develop an intelligent and constructive standard of personal behavior and may become a responsible member of society. To achieve these objectives, it is necessary for the student to grasp the essential features of the traditions of Western civilization as manifested in its outstanding accomplishments and creative endeavors in letters, music, and the visual arts. It is not intended that this course give a complete portrayal or minute development of any one of these fields, but rather that certain particularly important eras which have special significance for our time should be chosen. Two lectures and two participation-discussion periods each week.

110:401. SENIOR SEMINAR. 2 credits.
Prerequisite, Senior standing. An analytical examination of significant, current problems and issues, including their origin and development, and the consideration of possible solutions for them. Each student must satisfactorily complete this course before graduation and should take it in either one of his last three quarters preceding graduation, since this course is NOT offered in the summer.

U.S. Air Force R.O.T.C.

150: AEROSPACE STUDIES

150:113-114-115. FIRST YEAR AEROSPACE STUDIES (AS 100), General Military Course (GMC). 1½ credits each quarter.
Three 1-hour classes each week and consists of both academic courses and military training. The academic portion, World Military Systems Vol. I, is an introduction to the study of the nature and causes of war, the functions and employment of the United States military forces and the role of the United States Air Force as an instrument of national power. Its purpose is to orient the student in the political and ideological surroundings in which the U.S. military forces operate. The subject matter is valuable to the student in his capacity as a citizen, voter and taxpayer even if he does not intend to continue into the advanced Professional Officer Course (POC). The weekly Corps Training experience is designed to provide a working environment for the practice of military customs and courtesies and to develop a student’s leadership skills.

150:253-254-255. SECOND YEAR AEROSPACE STUDIES (AS 200), General Military Course (GMC.) 1½ credits each quarter.

Three 1-hour classes each week and consists of both academic courses and military training. The academic portion, World Military Systems Vol II, and Struggle for Peace continues the study of the U.S. military forces with particular emphasis on the role and mission of the U.S. Air Force and the manner in which the Air Force is structured to accomplish its mission. The student examines in considerable detail the basis for the conflict between democracy and communism and the threat this conflict poses to world peace. It affords students an understanding of the relationship between national power and the military forces. It contributes to the understanding of civic responsibilities in a democratic society. The weekly Corps Training period provides practical leadership experiences in basic military and officer-type activities.

150:303-304-305. THIRD YEAR AEROSPACE STUDIES (AS 300), Professional Officer Course (POC). 3 credits each quarter.

Prerequisite, 255 and individual selection by Professor of Aerospace Studies on basis of competitive standing. Four 1-hour classes each week. This is the first half of the two-year Professional Officer Course.

150:453-454-455. FOURTH YEAR AEROSPACE STUDIES (AS 400), Professional Officer Course (POC). 3 credits each quarter.

Prerequisite, 305. Four 1-hour classes each week. Second half of the two-year Professional Officer Course. The academic portion of the Professional Officer Course is a two-year program to develop the leadership and managerial potential of a student in a way that will facilitate his duties as an officer when called to active duty. The course is student centered in which the individual learns by doing. Situation problems require creative thinking and emphasis is focused on effective speaking and writing.

AS 300 academic portion includes a survey of the development of airpower in the United States, aerospace power today, and an introduction to astronautics and space operations. Within this study, attention is devoted to developing the communicative skills needed by junior officers. Corps Training provides advanced leadership experiences in officer-type activities.

AS 400 academic portion includes a study of Air Force leadership at the junior officer level, including its theoretical, professional, and legal aspects; and a study of military management functions, principles and techniques. Within this study, attention is devoted to developing the communicative skills needed by junior officers. The final portion of the course is devoted to preparation for active duty. Corps Training consists of advanced leadership experiences in officer-type activities.

U.S. Army R.O.T.C.

160: MILITARY SCIENCE

160:100-101-102. FIRST YEAR MILITARY SCIENCE (MS I) 1½ credits each quarter.

Three 1-hour classes each week consisting of both academic courses and leadership training. This course of study is designed to familiarize each student with the U.S. Army through a discussion of the role, history, organization, and equipment of the U.S. Army. Primary subjects include the nature and causes of war, the principles of war, types of warfare, a military history of the American Revolution and War of 1812, the present U.S. military situation, a familiarization with infantry individual weapons, and an explanation of the Department of Defense and Army organization. This course would be most beneficial to any student regardless of his future intentions to continue in the ROTC Advanced Program as the studies will help him to understand more fully his role as a citizen and the role of national defense in our democratic society. The weekly Leadership Laboratory places the student in a working environment to develop his leadership skills and introduce him to the customs and traditions of the military. This training is designed to develop individual character and the attributes essential to a citizen leader.

160:200-201-202. SECOND YEAR MILITARY SCIENCE (MS II) 1½ credits each quarter.

Prerequisite, 100-101-102 or equivalent. Three 1-hour classes each week consisting of both academic courses and leadership training. This course of instruction is designed to develop the student’s understanding of the procedures necessary to lead small military units and to familiarize him with
the principles applied in modern warfare. Primary subjects include small unit tactics, map reading, and military history. Military tactics will give the student an understanding of the duties and responsibilities of small unit commanders whereas military history analyzes specific battles and campaigns from the Civil War through the Conflict in Vietnam. The course prepares the student for further study in the Advanced ROTC Program. The weekly Leadership Laboratory offers the student an opportunity to develop leadership traits at small unit level by presenting them with practical responsibility for command.

160:300-301-302. Third Year Military Science (MS III) 3 credits each quarter.
Prerequisite, 200-201-202 or equivalent. Five 1-hour classes each week consisting of both academic and leadership training. The first two quarters of this course are designed to prepare each student to become a junior officer in the Army upon college graduation. The course of study will give each student a working knowledge of small unit tactics and the leadership essential at the junior commander level. Other topics include personal and professional qualifications of a military instructor, military career opportunities and benefits, and the branches of the Army. The spring quarter is devoted to prepare the student for his successful participation in and completion of the six week cadet summer camp training required of all advanced ROTC students. Emphasis is placed on learning the individual skills of a soldier. The weekly Leadership Laboratory places the student in a working environment where he can develop his leadership skills through the practical application of the principles and techniques learned in the classroom.

160:400-401-402. Fourth Year Military Science (MS IV) 3 credits each quarter.
Prerequisite, 300-301-302. Five 1-hour classes each week consisting of both academic study and leadership training. The purpose of this course is to familiarize the student during the fall and winter quarters with the fundamentals and techniques of leadership, drill, and command. The subject matter includes company tactics, logistics, and administration, besides battalion level staff procedures, military intelligence, and organization for tactical operations. The course of study during the spring quarter is devoted to prepare the student for two years of active military duty upon graduation. During this quarter, all cadets will receive a working knowledge of military law and the duties and responsibilities of a newly commissioned officer. The weekly Leadership Laboratory provides practical leadership experiences in cadet and officer-type activities. The student is treated and performs as a junior officer.
The Community and Technical College

201: DEVELOPMENTAL PROGRAM

201:41. DEVELOPMENTAL ENGLISH. 3 hours, no credit.
This course is designed to help students think and express themselves in writing so that they can become better prepared for college English.

201:51. DEVELOPMENTAL MATHEMATICS. 3 hours, no credit.
This course is designed to help students with basic skills of arithmetic which are combined with careful definitions of elementary Algebra and Geometry to help the student understand broad mathematical concepts necessary to an understanding of most college mathematic courses.

201:61. DEVELOPMENTAL READING & STUDY SKILLS. 3 hours, no credit.
This course is designed to help students develop effective reading and study skills in order to succeed more readily in college courses.

201:71. DEVELOPMENTAL NATURAL SCIENCE — CHEMISTRY. 3 hours, no credit.
This course is designed to help students use scientific knowledge to solve problems so that they can become better prepared for college chemistry and other natural science courses.

202: ASSOCIATE STUDIES

202:119-120. ENGLISH. 3 credits each quarter.
119 is prerequisite for 120. The two courses are intended to increase the reading and writing proficiency of students. The first quarter deals mainly with vocabulary, basic writing mechanics (punctuation, spelling, grammatical usage, etc.) and sentence structure. In the first quarter, the students will write short paragraphs and work exercises to develop basic writing skills. The second quarter is designed to stress the development and organization of the essay. The students will increase writing skills and improve reading comprehension by expository writing based on their analysis of short readings.

202:122. TECHNICAL REPORT WRITING. 3 credits.
Practice in preparing and writing the technical and industrial reports most likely to be required of technicians, engineers, scientists, and writers.

202:131. MATHEMATICAL ANALYSIS I. 4 credits.
Prerequisite, 1 unit of algebra, 1 unit of plane geometry. The theory of sets, algebraic properties and operations, linear equations in one unknown, functions and graphs, analytical geometry of the straight line, systems of linear equations, exponents and radicals, tables and interpolation, quadratic equations in one unknown.

202:132. MATHEMATICAL ANALYSIS II. 4 credits.
Prerequisite, 131. The right triangle, vectors and analytical trigonometry, logarithms, exponential functions, trigonometric formulas, identities, and equations, oblique triangles, binomial theorem, progressions, equations of quadratic form and non-polynomial equations, and applications of the above.

202:133. MATHEMATICAL ANALYSIS III. 3 credits.
Prerequisite, 132. The graphs of trigonometric functions, simultaneous quadratic equations, conics, curve sketching, theory of equations, inequalities, graphical methods of calculus, differentiation, integration, and applications.

202:151. BASIC PHYSICS I. 4 credits. (3-1)
Principles of mechanics and heat. Topics include force and motion, work and energy, properties of fluids and gases, thermal behavior of matter, and introduction to atomic physics.

202:152. BASIC PHYSICS II. 3 credits. (2-1)
Principles of electricity and magnetism. Topics include electrostatics, basic direct-current circuits, magnetism and electro-magnetism, alternating currents, and basic a-c circuits.

202:153. BASIC PHYSICS III. 3 credits. (2-1)
Principles of sound and light. Topics include wave motion, sound waves, light and illumination, reflection and refraction, mirrors and lenses, and interference and diffraction.

202:234. MATHEMATICAL ANALYSIS IV. 3 credits.
Prerequisite, 133. The theory of locus, applications of the derivative, definite integral, applications of the definite integral, polar coordinates, functions of several variables, multiple integrals, infinite series, differential equations and applications.

202:235: MATHEMATICAL ANALYSIS V. 3 credits.
Prerequisite, 132. The structure and logic of mathematics, Boolean algebra, probability and statistics, permutations and combinations, algorithmic procedures in problem analysis, determinants, and matrices, linear algebra, inequalities, and illustrative problems of a business nature.

202:240. HUMAN RELATIONS. 3 credits.
A study of principles and methods which will aid in understanding the interpersonal relations of people on the job, in the community, and in the home.

202:242. AMERICAN SOCIETY 4 credits.
A coverage of the impact of traditions behind American values and the impact and influence of
values on American society and thought. Emphasis is placed on role of individual in American life.

202:247. Survey of Basic Economics. 5 credits.
A survey of basic economic principles and issues. An introduction course designed for those students who intend to take only one course in economics. Included are discussions of: economic systems; exchange, money, and banking; national income, employment, and fiscal policy; and current domestic economic problems.

202:251. Work Relationships. 2 credits.
A study of the various principles and methods which can aid the individual in understanding responses of a job situation.

202:253. Intergroup Relations. 2 credits.
A course designed to study the nature of diverse groups and the relations between groups in our society.

A study of the Black American including origins, historical achievement and the present strivings to achieve first class citizenship in American Society. Emphasis is on the thoughts and beliefs of black men rather than on white reaction to Negro society.

224: COMMERCIAL ART

Prerequisites, 292:121, 710:125. Craftsmanship is stressed in exercises using the specialized tools, materials and techniques of the commercial art studio.

224:140. Typography and Lettering. 3 credits.
Prerequisites, 124, 710:126. Letter symbols studied in terms of communication and esthetic considerations. History of letter forms, hand lettering, alphabet design, contemporary type faces.

224:223. Photography. 3 credits each quarter.
Sequential; prerequisite, 710:244. Creative use of photographic materials and equipment. Photography is studied as a fine and applied art. Student must own or have use of a camera with controllable shutter, lens diaphragm and focus.

Prerequisites, 140, 292:103, 292:122, 710:147; 242-243-244 must be completed in prerequisite order. Problems in commercial graphic design. Analysis, research, visual experimentation and finished art. Emphasis on craftsmanship and visual problem solving.

224:245. Design in Commercial Art. 3 credits.

224:247. Packaging and Display Design. 3 credits.
Prerequisites, 140, 710:147, 146. Visual design and development of protective devices for packaging, shipment and display of consumer products.

224:248. Presentation Techniques. 3 credits.
Prerequisites, 222, 243. Techniques of visual communication and presentation of design concepts. Illustration, charts, models, layout and sketches. Development of personal portfolio.

228: FOOD SERVICE MANAGEMENT

228:121-122-123, Fundamentals of Food Preparation I, II, III. 3 credits each quarter.
Fundamental principles of food preparation and cookery. Laboratory experience in high standards of production, attractive service, use and selection of equipment and time management. Emphasis on basic principles from which food preparation techniques are formed.

228:135. Food Purchasing. 4 credits.
Food purchasing for various types of food services; storing and handling. Emphasis on specification requirements and selection for major foods purchased for food services.

228:233. Quantity Food Service. 5 credits.
Fundamental principles of food preparation and cookery. Laboratory experience in high standards of production, attractive service, use and selection of equipment and time management. Emphasis on basic principles from which food preparation techniques are formed.

228:236. Menu Planning and Cost Control. 4 credits.
Menu planning for various types of commercial, industrial, school, and institutional food services; basic factors influencing planning; and merchandizing techniques. Special emphasis on catering and vending services. Food cost control.

228:237-238. Food Service Internship I and II. 4 credits each quarter.
Prerequisite 235. A continuation of 233. Food Service experience under commercial operating conditions. 237 precedes 238.

228:243. Food Equipment and Plant Operations. 3 credits. (2-2)
A course to acquaint the student with available food service equipment, its selection, use and care. Field trips will be taken to wholesale outlets and food service establishments to see food service equipment demonstrated and in operation.
242: COMMERCE

242:101. ELEMENTS OF DISTRIBUTION. 4 credits.
A study of the basic principles and methods in Distribution. This includes an examination of the functions, institutions and general commodities involved in the marketing process. An overview of agricultural, consumer and industrial goods distribution through the economy with special attention to brand, product and channels of distribution policies.

242:102. PERSONNEL PRACTICES. 4 credits.
A study of current personnel practices and principles as applied to offices, stores and industry. This includes basic personnel functions, interviewing, counseling, supervisory training, morale principles as applied to offices, stores and industry. This includes basic personnel functions, interviewing, counseling, supervisory training, morale factors and union-management relations.

242:111. PUBLIC RELATIONS. 3 credits.
A study of the philosophy and functions of management known as Public Relations. This includes newspaper, radio and television, brochures and other types of organizational publications.

242:121. ADMINISTRATIVE OFFICE SUPERVISION. 4 credits.
This course is a survey of the background and growth of office operations, procedures, and services. Conceptual ideas for assembling, processing, distributing and retaining information are presented through fundamental principles and successful practices used in getting office work accomplished. Limited case studies emphasize implementing action as well as help in acquiring useful knowledge.

242:170. BUSINESS MATHEMATICS. 3 credits.
A course designed to develop skill and accuracy in mathematics used in business offices, retailing, and sales. It provides a review of the fundamentals of mathematics as they apply to business, including decimals, fractions, percentages, equations, interest, stocks and bonds, time payment plans, prices and profits, and checking accounts.

242:180. ESSENTIALS OF LAW. 4 credits.
A brief history of the law, study of contracts, agency, criminal law, sales, bailments, domestic relations, probate law, and torts as they relate to business.

242:211. BASIC ACCOUNTING I. 3 credits.
This course includes a fundamental study of the principles and procedures of double-entry accounting as applied to the sole proprietorship form of business. This course covers the accounting cycle, special journals, special ledgers, special accounts for a trading concern, and payroll accounting.

242:212. BASIC ACCOUNTING II. 3 credits.
Prerequisite, 211. This course includes a fundamental study of accounting principles and procedures as applied to partnership and corporate forms of business. Study will also be in the areas of internal control, negotiable instruments, asset valuation, departmental accounting, sales and property taxes, and other methods of determining adjustments.

242:243. SURVEY IN FINANCE. 4 credits.
Sequential; prerequisites, 3 credits of Economics and 3 credits of Accounting. A survey of the field including instruments, procedures, practices and institutions. Emphasis on basic principles.

244: DATA PROCESSING

244:120-121. INTRODUCTION TO INFORMATION PROCESSING I AND II. 4 credits, 120; 3 credits, 121.
An introduction to both manual and automated information processing. 120 must precede 121.

244:130-131. COMPUTER PROGRAMMING I AND II. 3 credits each quarter.
Prerequisite, 120. An introduction to computer programming. 131 is a continuation of 130 stressing intermediate and advanced programming concepts.

244:232-233-234. COMPUTER PROGRAMMING III, IV, AND V. 3 credits each quarter.
Sequential; prerequisite, 131. 232 is a continuation of 131. 233 stresses advanced programming concepts including recursive programming and the construction and use of higher level programming languages.

244:240-241. BUSINESS AND MANUFACTURING SYSTEMS I AND II. 3 credits for 240, 2 credits for 241.
Sequential; prerequisites, 131 and 640:161. Methods and techniques of business systems design, development, and implementation. 240 must precede 241.

244:251-252. DATA PROCESSING PROJECT I AND II. 4 credits for 251, 2 credits for 252.
Sequential; prerequisites, 232 and 240. Individual problem assignment including systems design, programming, and testing. 251 must precede 252.

252: SALES AND MERCHANDISING

252:103. PRINCIPLES OF ADVERTISING. 3 credits.
A review of the basic principles and functions of current advertising practice. A strong emphasis is placed on copy, layout and their interaction upon consumer's buying motives. Also included is an overview of related distributive institutions, media types and economic functions of advertising.

252:104. DISPLAY TECHNIQUES. 3 credits.
A basic studio course in Retail Display Tech-
Techniques. Includes window, interior, and point of purchase display categories.

252:137. DESIGN AND COMPOSITION IN COMMERCIAL ART. 3 credits.
Principles of design as applied to commercial art. Function in visual design, elements of design, color theory, lettering, printing processes, layout to camera-ready art. Studio projects in advertising graphics. No credit toward Commercial Art major.

252:202. RETAILING AND FRANCHISING. 3 credits.
Presents basic principles and practices of retailing and franchising operations. This includes site selections, store design, types of retail institutions, store operations and services, distribution centers and branch coordination.

252:203. TECHNIQUES OF RETAIL MERCHANDISING. 3 credits.
A survey of current retailing procedures at the department level to include the merchandising function, buying and pricing procedures, inventory control, sales analysis, open-to-buy planning and control and department expense control.

252:210. WHOLESALING AND SERVICE FUNDAMENTALS. 3 credits.
A survey course in the fundamentals of wholesaling and service type business institutions. This encompasses a brief history of these enterprises with emphasis on the current types, status and functions of each. Also pertinent legislation and its effects are discussed. Job opportunities and progressions are explained and examined.

252:211. MATHEMATICS OF RETAIL DISTRIBUTION. 3 credits.
Sequential; prerequisite; 254.170. A basic skills course dealing with merchandising mathematics. This includes an understanding of the types of markups, the retail method of inventory, sales and stock planning and open-to-buy computations. Problem solving techniques are utilized throughout in order that the student can acquire a working knowledge of the mathematical concepts and background for successful retail buying.

252:212. PRINCIPLES OF SALESMANSHIP. 3 credits.
A study of the basic principles of selling, emphasizing individual demonstrations and sales projects. A review of the sales function as an integral part of the marketing process. This includes personal preparation for the vocation, buying motives, prospecting, the selling process and ethical problems related to industrial, wholesale, retail and direct selling.

254: SECRETARIAL SCIENCE

254:121. OFFICE PROBLEMS. 4 credits.
This course is designed to develop the secretary's occupational intelligence by teaching the best use of reference materials, office time, office supplies and equipment, the processing of incoming mail, postal and shipping services and knowledge about card punch and electronic data processing.

254:125. BUSINESS MACHINES. 2 credits.
Techniques of machine and slide rule calculation as applied to business. Basic operations of the key-driven, fully- and semi-automatic, and 10-key calculators are taught.

254:153. TYPING PRINCIPLES. 3 credits.
Fundamentals of typewriting followed by drill to acquire skillful coordination of machine parts. The ability to type 35 words per minute with five errors for three minutes is the minimum requirement.

254:154. TYPING PRACTICES. 3 credits.
Prerequisite, 153. Application of the typewriting skill to various typewriting problems. The ability to type 45 words per minute with five errors for three minutes.

254:155. TYPING PROJECTS. 3 credits.
Prerequisite, 154. Application of typewriting skill to letter production, business reports, technical papers, manuscripts, and statistical typing. A minimum standard of 55 words per minute with five or fewer errors for five minutes.

254:169. SHORTHAND REFRESHER & TRANSCRIPTION. 4 credits.
For the student who has completed Gregg shorthand theory and needs a review. Theory review and typewriter transcription. Minimum dictation speed attainment: 70 wpm for five minutes. Credit not allowed for this course and 171.

254:171. SHORTHAND PRINCIPLES. 4 credits.
For the beginning shorthand student. Presentation of the Gregg shorthand theory and brief forms. Minimum reading rate from homework notes at 100 wpm. Writing dictation from practiced material at 50 wpm for 2 minutes with 95 percent accuracy.

254:172. INTERMEDIATE SHORTHAND AND TRANSCRIPTION. 4 credits.
Typing Practices, 154, must have been completed or should be taken concurrently. For the students who completed Gregg shorthand theory. Introduction to new matter dictation and typewritten transcription.

254:173. SHORTHAND AND TRANSCRIPTION. 4 credits.
Typing Projects, 155, must have been completed or should be taken concurrently. Emphasis on skill in writing Gregg shorthand and transcribing. A minimum dictation skill of 70 wpm on new material for 5 minutes is required to complete this course.

254:181. OFFICE NURSING TECHNIQUES I. 3 credits.
This course provides theory and practice in
nursing duties most often performed in a physician's and dentist's office. These include temperature, pulse, and respiration reading; examination room supplies, instruments, and methods of sterilization; taking of blood pressure and administering injections.

254:182. Office Nursing Techniques II. 3 credits.
Prerequisite, 181. This course is devoted to medical and dental office laboratory techniques. These include laboratory orientation to urinalysis, Hematology, Bacteriology, Roentgen Rays, EKG, Basic Metabolism, and nature of dental materials.

254:257. Secretarial Machines I. 3 credits.
Prerequisite, 155. Office-style typewriting, business forms, duplication processes, dictation and transcribing machines. Minimum of 55 wpm with five or fewer errors for five minutes.

254:258. Secretarial Machines II. 3 credits.
Prerequisite, 257. Key punch; automated tape machine; special typewriters; electric filing systems: Color Scan, Varidex, Subject Terminal Digit, and Geographies.

254:274. Advanced Dictation and Transcription I. 4 credits.
Vocabulary building, general dictation on letters, articles, and standard speed material. The minimum speed requirement is 80 wpm on new material for five minutes.

254:275. Advanced Dictation and Transcription II. 4 credits.
Prerequisite, 274. Dictation on letters, articles, and standard speed material. Minimum speed requirement 90 wpm on new material for 5 minutes.

254:276. Executive Dictation and Transcription. 4 credits.
Prerequisite, 275. Dictation on letters, articles, and standard speed material. Minimum speed requirement 100 wpm on new material for five minutes.

254:277. Legal Executive Dictation and Transcription. 4 credits.
Prerequisite, 275. A course designed to develop shorthand and transcription skill of legal correspondence, basic pleadings, legal papers, reports, and rules of practice. A minimum dictation skill of 100 wpm on new material for five minutes is required to pass the course.

254:278. Technical Executive Dictation and Transcription. 4 credits.
Prerequisite, 275. A course designed to develop skill in the writing and transcribing of specialized shorthand dictation for the technical, science, and engineering secretary.

254:282. Medical and Dental Transcription. 3 credits.
Prerequisite, 258. Introduction to medical or dental terminology. Emphasis on meaning, pronunciation, spelling, and application of common medical or dental terms, abbreviations, stems, and suffixes as related to the human body—including teeth.

254:293. Business Communications. 3 credits.
Prerequisite, 202:120. Course designed to develop skill in writing better business letters and reports. Intensive practice in writing adjustments, credit and collection letters, departmental and branch reports, applications and resumes, inquiries and refusals.

256: TRANSPORTATION

256:110-111. Transportation Economic Policy I and II. 3 credits each quarter.
The economic characteristics of the transportation industries. A survey course of the early development of the economical aspects of rail, highway, water, air and pipeline. An analysis of the role of transportation in the nation's economic development. 110 must precede 111.

256:115. Transportation: Commercial Motor. 3 credits.
A study of the economic characteristics of the commercial motor industry. Emphasis on the problems, practices, rates, regulation, fares, and tariffs of the motor carrier. Attention is also given to operations, equipment, and financial aspects in this field.

256:116. Transportation: Commercial Air. 3 credits.
A critical analysis of the economic characteristics of the commercial air industry. A study of the problems, practices, regulations, rates, fares, and tariffs of the air carrier. Types of carriers and their services will be examined.

256:117. Transportation: Commercial Water. 3 credits.
Theories, practices, and regulations of the commercial water transportation industry with a detailed analysis of the part it plays in the nation's economy. Emphasis will be placed on inland and lake shipping as well as ocean-going water carriers. Classification, rates, practices, and tariffs will be included in the study.

256:118. Transportation Freight Rates and Classification. 3 credits.
An analysis of freight rates, tariffs, and classifications. Detailed study of motor transport ratings and their applications utilizing extracts of existing tariffs of various regions. Details of posting, filing, and construction of tariffs are emphasized through problem solving.

256:320. Transportation Terminal Management and Operations. 3 credits.
A study of the management problems, practices, and decision-making as pertains to location of
facilities, personnel programs, operations, organization, and control. Attention will be directed to the practical aspects of terminal management.

256:221. Transportation Traffic Principles. 3 credits.
Principles applicable to industrial traffic management; traffic organization and documentation; shipping documents; carrier liability; shippers responsibility; routings; and transits will be explored. Emphasis on the problems encountered by the shipper in the economical movement of cargo will be highlighted.

256:222. Transportation Traffic Practices and Procedures. 3 credits.
Sequential; prerequisite, 221. Practices applicable to industrial traffic management and problems involving the shipper will be studied. Operations, services, warehousing, privileges, and locational factors will be analyzed.

Sequential; 225-226-227 must be completed in prerequisite order. A series of three courses which includes comprehensive study of federal regulation of the transportation industry. 225 covers a thorough review of the Interstate Commerce Commission; its functions and organization; and remedial action available to shippers and carriers under the Interstate Commerce Act. Emphasis is on ICC regulations, related acts, and practitioner procedures. 226 covers an analysis of the Interstate Commerce Regulations Acts affecting transportation and the National Transportation Policy. 227 constitutes a continuing analysis of the Interstate Commerce Commission with emphasis on related Federal Regulatory agencies; General Rules of Practice before the Commission; Study of cases establishing transportation policy; and code of ethics required.

284: CHEMICAL TECHNOLOGY
Basic facts and principles of chemistry. Nomenclature and introduction to the reactions of various elements. Important industrial applications. 101 must precede 102.

284:121. Organic Principles. 3 credits.
Sequential; prerequisite, 102. Nomenclature, classification, chemical properties, and preparation of organic compounds.

284:122. Organic Methods. 4 credits.
Sequential; prerequisite, 121. Continuation of organic principles.

284:201. Principles of Analysis. 4 credits.
Sequential; prerequisite, 102. Elementary theory and calculations in analytical chemistry, with emphasis on laboratory methods for identifying various chemical systems both inorganic and organic in nature.

284:202-203. Instrumental Methods I and II. 4 credits each quarter.
Sequential; prerequisite, 201. Instrumentation employed by the chemist, particularly in analysis of chemical systems. Emphasis on equipment, its use, and the interpretation of results. 202 must precede 203.

284:204. Chemical Stoichiometry. 2 credits.
Sequential; prerequisite, 202:133. A study of Mathematical problems and relationships found in the chemical industry.

284:208. Chemical Quality Control. 2 credits.
Sequential; prerequisite, 101 and 202:133. A study of sampling techniques used in the chemical industry. Emphasis will be placed on methods of sampling chemicals and calculators used to set and monitor standards of quality.

284:210-211. Scientific Glass Blowing I and II. 1 credit each quarter.
Sequential; prerequisite, permission. Laboratory instruction to demonstrate the art of glass blowing. Fabrication and blowing of scientific glassware and chemical apparatus will be stressed. 210 must precede 211.

284:250. Elements of Physical Chemistry. 4 credits.
Sequential; prerequisite, 202, 201, 202:204. Fundamental principles governing chemical behavior. Introductory thermodynamics, solution chemistry, chemical equilibrium, phase rule, electrochemistry, chemical kinetics and structure.

284:255. Literature of Chemistry. 1 credit.
Sequential, prerequisite, permission. A study of the literature of chemistry and how it can be used to gather information. Techniques of abstracting and computer application will be introduced. A bibliography suitable for a term paper or research project will be required.

284:260. Elastomer Technology. 3 credits.
Prerequisites: 102, 121 and 202:131. A study of the principles and methods of selecting and compounding rubber for specific end uses. The compounders art. Design and manufacture of rubber products. Processing and testing of basic elastomers.

284:270. Polymer Chemistry Methods. 4 credits.
Sequential; prerequisite, 102, 122, 202:133. A survey of basic polymer preparation and testing methods. Commercially important polymers will be used as lecture and laboratory examples.
286: ELECTRONIC TECHNOLOGY

286:122. CIRCUIT THEORY. 4 credits. (3-1)

286:123. ELECTRONICS I. 3 credits. (2-1)
Corequisite, 122. Fundamentals of electron devices. Theory and operating characteristics of vacuum and gas tubes, transistors, and other semiconductors.

286:124. ELECTRONICS II. 3 credits. (2-1)
Sequential; prerequisite, 123. Basic electronic circuits including power supplies, filters, and voltage and power amplifiers using tubes and transistors.

286:127. MEASUREMENTS. 4 credits. (3-1)
Corequisite, 122. Principles and use of electrical and electronic instruments including moving coil instruments, bridges, oscilloscopes, and signal generators. Analysis of measurement errors.

286:128. ELECTRONIC DRAFTING. 3 credits.
(1-2)

286:153. ELECTRICITY AND MAGNETISM. 4 credits.
(4-0)
Corequisite, 202:131. Nature of electricity, d-c currents and voltages, Ohm's Law, resistance networks, magnetic and electric field theory, magnetic circuits, inductance and capacitance.

286:225. ELECTRONICS III. 4 credits. (3-1)

286:226. INTEGRATED CIRCUITS. 2 credits. (1-1)
Sequential; prerequisites, 237, and 245. Characteristics, fabrication, and application of integrated electronic circuits of both analog and digital types.

286:237. DIGITAL COMPUTERS. 4 credits. (3-1)

286:242. MACHINERY. 4 credits. (3-1)

286:243. ANALOG COMPUTERS. 4 credits. (3-1)

286:249. INDUSTRIAL ELECTRONICS. 4 credits.
(3-1)
Sequential; prerequisites, 225 and 242. Industrial electronic circuits and equipment including welding control, light and heat controls, magnetic amplifiers, speed and voltage regulators.

286:250. ELECTRONIC PROJECTS. 2 credits.
(1-1)
Sequential; prerequisite, final quarter or permission of instructor. Design, construction, and testing of selected electronic circuit.

286:251. COMMUNICATIONS SYSTEMS. 4 credits.
(3-1)
Sequential; prerequisite, 225. Principles of radio-wave propagation, modulation and demodulation. Fundamentals and circuits of communications systems including radio, radar, and television.

286:253. CONTROL SYSTEMS. 3 credits. (2-1)

286:255. SHOP PRACTICES. 1 credit. (0-1)
Sequential; prerequisite, 128. Use of hand tools in construction and assembly of electronic equipment including printed circuit fabrication. Techniques of performance testing and trouble shooting.

286:256. CIRCUIT ANALYSIS. 4 credits.
Sequential; prerequisites, 122, 202:234, and permission. Analysis of linear electric circuits in both frequency and time domains. Includes matrix methods of network analysis, Fourier analysis, and introduction to transform methods of analysis.

288: INDUSTRIAL TECHNOLOGY

288:120. WORK MEASUREMENT PROCEDURES. 5 credits.
A study of procedures for determining work methods. The appraisal of the value of work involving human activity in terms of time.

288:141. SAFETY PROCEDURES. 3 credits.

288:221. FACTORY PLANNING AND MATERIALS HANDLING. 4 credits.
The selection and arrangement of the physical
facilities that constitute the factory. The selection of the materials handling system that will accomplish the required handling.

288:232. Labor Management Relations. 4 credits.
A study of the labor viewpoint, the management viewpoint, and the effects of governmental regulations on the successful solution of current labor-management disputes.

288:242. Production and Quality Control Procedures. 6 credits.

288:245. Plants and Equipment Maintenance. 3 credits.

290: Instrumentation Technology

290:120. Instrumentation Drafting. 3 credits. (1-2)
A study of the effective ways of presenting instrumentation information. Includes practice in the preparation of sketches, drawing, graphs and bills of materials according to industry standards.

290:121. Fundamentals of Instrumentation. 5 credits. (4-1)
Sequential; prerequisite, 202:153. A study of the variables encountered in process instrumentation and the indicating and recording devices used to measure these variables. Includes measurement of flow, pressure, temperature and related phenomena in industrial processes.

290:230. Control Principles. 4 credits. (3-1)
Sequential; prerequisite, 121. General control principles with emphasis on the characteristics of the process being controlled. Includes typical hydraulic, pneumatic and electrical controllers.

290:231. Control System Analysis. 4 credits. (3-1)
Sequential; prerequisites, 230, 232. Analysis and design of feedback control systems by means of frequency response methods. Includes an introduction to digital control fundamentals.

290:232. Computer Principles. 5 credits. (4-1)

290:240. Calibration and Standardization. 2 credits. (0-2)
Corequisite, 230. A laboratory course to provide training in the calibration and standardization of various pneumatic, hydraulic and electrical instruments. Also includes methods of maintenance and troubleshooting.

290:241. Instrumentation Project. 3 credits. (1-2)
Sequential; prerequisite, final quarter or permission. Design, construction and testing by individual student of a specific instrumentation project. Comprehensive use is made of previous courses of study.

292: Mechanical Technology

Lettering and proper use of instruments. Freehand sketching. Emphasis on accuracy and drawing techniques.

292:122. Technical Drawing II. 3 credits.

292:123. Technical Drawing III. 3 credits.

292:125. Statics and Dynamics. 5 credits.

Sequential; prerequisite, 125; corequisite, 241. Fundamental properties of materials. Testing of material properties. Applications of methods to control properties of materials.

292:243. Kinematics. 3 credits.
292:244. MECHANICAL DESIGN I. 4 credits.

292:245. MECHANICAL DESIGN II. 5 credits.
Sequential; prerequisite, 244. Machine layouts. Dimension determination from graphical constructions. Limit dimensioning for mass production manufacture. Complete overall design of a simple machine including detail and assembly drawings for each part or sub-assembly.

292:247. SHOP METHODS AND PRACTICES.
4 credits.
A study of various machine tools and operations that can be performed on them. Use of hand tools, lathes, shapers, milling machine, grinders and drill press. Manufacturing processes of casting, forging, and welding. Heat treatment.

292:249. APPLIED THERMAL ENERGY. 4 credits.

292:251. ELEMENTARY FLUID MECHANICS.
4 credits.
Sequential; prerequisite, 125; corequisite, 133. Statics and dynamics of fluids. Viscosity, energy and momentum relationships. Applications to fluid machinery and measurement.

298: SURVEYING AND CONSTRUCTION TECHNOLOGY

298:122. BASIC SURVEYING. 4 credits.
Corequisite, 202:133. Basic tools and computations of surveying measurement of distances and angles, traverse surveying.

298:223. APPLIED SURVEYING. 4 credits.
Sequential; prerequisite, 122. Triangulation, traverses, leveling, map projections.

298:232. CONSTRUCTION. 3 credits.

298:233. CONSTRUCTION ADMINISTRATION.
3 credits.

298:235. MATERIALS TESTING LABORATORY.
2 credits.

298:242. SOIL MECHANICS. 3 credits.

298:243. SOILS LABORATORY. 2 credits.

298:245. COST ANALYSIS AND ESTIMATING.
3 credits. (3-0)
Elements of cost in construction, determination of unit costs, analysis of cost records, quantity surveys.
Buchtel College of Liberal Arts

310: BIOLOGY

310:121-122-123. PRINCIPLES OF BIOLOGY. 4 credits each quarter.
Sequential. An integrated course emphasizing cell structure and function, genetics, evolution, comparative morphology and physiology of living organisms and their developmental and ecological relationships. Laboratory.

310:133. MICROBIOLOGY. 4 credits.
Basic principles of microbiology; destruction, removal and inhibition of microorganisms; immunity and allergy; common pathogens. Laboratory.

310:135. NATURE STUDY—PLANTS. 3 credits.*
Common plants of this region, life habits. Recommended for teachers of nature study. Not available for credit towards a degree in biology.

310:136. NATURE STUDY—ANIMALS. 3 credits.*
Common animals of this region, life habits. Recommended for teachers of nature study. Not available for credit towards a degree in biology.

310:147-148-149. ANATOMY AND PHYSIOLOGY. 3 credits each quarter.
Anatomy of human body, chiefly gross study of all organ systems, and their functions. Not open to biology and pre-medical majors. Laboratory.

310:177. INTRODUCTORY BACTERIOLOGY. 3 credits.
Basic principles of morphology, growth and techniques. Offered as a course for engineers, others by permission. Laboratory.

310:182. CONSERVATION OF NATURAL RESOURCES. 4 credits.*
Prerequisite, 123. Principles and practice of conservation of mineral, plant and animal resources.

310:193. INTRODUCTORY HUMAN PHYSIOLOGY. 4 credits.
Physiology of human processes operating in organ systems. Not open to premedical majors. Laboratory.

310:227. TECHNIQUES IN BIOLOGY. 4 credits.
Prerequisite, 123. Paraffin, freezing, and squash techniques for preparing tissues for microscopic examination. Required for all medical technology students.

310:228. TECHNIQUES IN BIOLOGY. 4 credits.
Prerequisite, 123. Instruction in instrumentation used in biological laboratories. Recommended for all majors in biology laboratory.

310:246. GENERAL GENETICS. 4 credits.
Prerequisite 123. Principles of heredity, fundamental principles of genetics.

310:247. GENETICS LABORATORY. 1 credit.
Prerequisite or corequisite 246. Fundamental principles of genetics illustrated by experiments with Drosophila and other organisms.

310:271. GENERAL ECOLOGY. 4 credits.*
Prerequisite, 123. A study of the interrelationships between organisms and environment. Laboratory.

310:272. ORGANIC EVOLUTION. 4 credits.
Prerequisite, 310:123. Early concepts of Evolution: Darwinian Theory and supporting evidence; the mechanism of evolution; molecular evolution; evolutionary trends in plants and animals.

310:301. CELL BIOLOGY. 4 credits.
Prerequisites, 310:123, 315:201-203, or 315:263-268. A study of the structure and functions of cells using microbial, plant and animal cells for demonstration of common tenets. The laboratory is designed to introduce the student to techniques used in biological research as well as to demonstrate biological phenomena. Laboratory.

310:307. MICROBIOLOGY. 4 credits.
Prerequisite, one year of college chemistry; 123. A general survey of microorganisms found in the Protista with emphasis on the bacteria—their physical and chemical characteristics. Relationships of microorganisms to man and his environment. Laboratory.

310:308. MICROBIOLOGY. 4 credits.

310:309. MICROBIOLOGY. 4 credits.

310:313. FALL FLORA. 3 credits.*
Prerequisite, 123. Classification and recognition of autumn-flowering plants of the region. Laboratory.

310:314. PLANT TAXONOMY. 3 credits.
Prerequisite, 123. History of plant classification. Current theory and practice of taxonomy. Laboratory.

310:315. SPRING FLORA. 3 credits.*
Prerequisite, 123. Classification and recognition of spring-flowering plants of region. Laboratory.

* Courses so marked involve field trips and the student may be expected to defray minor transportation costs.
310:328. HISTOLOGY. 4 credits.
Prerequisite, 123. Study of animal tissues. Laboratory.

310:341. INVERTEBRATE ZOOLOGY. 5 credits.*
Prerequisite, 123. Invertebrate groups, their classification, anatomy and life history of representative forms. Laboratory.

310:343. PARASITOLOGY. 4 credits.
Prerequisite, 123. Principles of parasitism; survey of the more important human and veterinary parasitic diseases. Laboratory.

310:344. GENERAL ENTOMOLOGY. 4 credits.*
Prerequisite, 123. Insects, their nature, structure, life history, and economic importance; insect orders, representative families and types. An insect collection is made (the department reserves the right to retain any specimens). Laboratory.

310:361-362. HUMAN ANATOMY AND PHYSIOLOGY. 4 credits each quarter.
Prerequisite, 123, College Chemistry. A study of structure and function of the human body. Laboratory.

310:411-412-413/511-512-513. PLANT PHYSIOLOGY. 4 credits each quarter.
Prerequisite, 123 and Organic Chemistry. Water, soil and mineral requirements of plants, and their metabolism, growth, and response to stimuli. Laboratory.

310:415/515. PLANT ANATOMY. 4 credits.
Prerequisite, 123. Structure and development of cells, tissues, organs and organ systems of seed plants. Laboratory.

310:416/516. MYCOLOGY. 4 credits.
Prerequisite, 123. A study of the characteristics and life cycles of representative fungi with emphasis on plant pathogens. Laboratory.

310:417/517. PHYCOLOGY. 4 credits.
Prerequisite, 123. Examination of the major groups of algae with emphasis on life cycles and economic importance. Laboratory.

310:418/518. PLANT MORPHOLOGY. 4 credits.
Prerequisite, 123. The structure, reproduction, evolution and economic significance of liverworts, mosses, club-mosses, horsetails and ferns. Laboratory.

310:419/519. PLANT MORPHOLOGY. 4 credits.
Prerequisite, 123. The structure, reproduction, evolution and economic significance of flowering and non-flowering seed plants. Laboratory.

310:431/531. PHYSIOLOGY OF THE FUNGI. 4 credits.
Prerequisite, Mycology 416, and Organic Chemistry. The cultivation, growth, nutrition, metabolism, respiration, composition, and reproduction of fungi. Laboratory.

310:435/535. GENERAL PHYSIOLOGY. 4 credits.
Prerequisite, 123, and Organic Chemistry. Fundamental life processes as exhibited in organisms, especially in organ systems of higher vertebrates. Laboratory.

310:437-438. CELLULAR MICROBIOLOGY. 4 credits each quarter.
Prerequisite, 123, and Organic Chemistry. Characteristics of cellular and subcellular systems; main emphasis on characteristics common to all living things, most examples from microorganisms. Laboratory.

310:440-441/540-541. BACTERIAL PHYSIOLOGY. 3 credits each quarter.
Prerequisite, 307, 308, 309, also Organic Chemistry, General Biochemistry recommended. Biochemical activities of the bacterial cell with emphasis on metabolic transformations, catabolic pathways, biosynthesis, electron transport and energy relationships are stressed.

310:443-453. PATHOGENIC BACTERIOLOGY. 4 credits.
Prerequisite, 307, 308, 309. Study of the major groups of bacteria which produce infections in man. The biochemical properties of microorganisms which engender virulence, and the nature of host resistance. Laboratory.

310:444/544. IMMUNOLOGY. 4 credits.
Prerequisite, 307, 308, 309; 443 recommended. The nature of antigens, the antibody response, and antigen-antibody reactions. The site and mechanism of antibody formation, hypersensitivity, immunologic tolerance, and the immune diseases will also be considered. Laboratory.

310:448/548. HUMAN GENETICS. 3 credits.
Prerequisite, 123. Principles of genetics in the human, immuno-genetics, mutation, genetics of populations, selection and eugenics.

Prerequisite, 123 or 191 and 780:135. This course, designed for both biology and speech students, considers speech as a basic biological process. It briefly surveys anatomical concepts of bodily organizations, and studies in more detail the anatomy and physiology of body regions and organs, which are both directly and indirectly responsible for speech. Laboratory.

310:453-454-455/553-554-555. DEVELOPMENTAL ANATOMY. 4 credits each quarter.
Prerequisite, 123. A sequence designed to introduce the process of vertebrate development. Lecture and laboratory work including descriptive and experimental embryology, phylogenetic development.

* Courses so marked involve field trips and the student may be expected to defray minor transportation costs.
opment of the major vertebrate orders, and individual student research in developmental anatomy.

310:457/457. EXPERIMENTAL EMBRYOLOGY. 3 credits.
Prerequisite or corequisite, 455. A survey of the field of Experimental Embryology emphasizing basic terminology, definitions, and the principles and experimental methods of investigating basic processes in the various phases of vertebrate embryology. Laboratory.

310:458/558. VERTEBRATE ZOOLOGY. 4 credits.*
Prerequisite, 310:123. Biology of vertebrates, primitive fishes through mammals. Laboratory.

310:467-468/567-568-569. BIOLOGICAL PROBLEMS. 1-3 credits each quarter.
Prerequisite, permission. Honors work, usually of laboratory investigations. Open to Seniors.

310:480/580. RADIATION BIOLOGY. 4 credits.
Prerequisite, permission. This presents basic information in the applications of radio-isotopes and high energy sources to biology. Radiation safety and dosimetry will be included as well as selected practical applications of radio-labeled compounds. Laboratory.

310:481/581. PLANT BIOSYSTEMATICS. 3 credits.
Prerequisites 415, 417, 418, 419 or permission. A survey of current research methods and thinking in plant phylogenetic and taxonomic work. Includes study of original publications, discussion of experimental methods and the use of the herbarium in research.

310:491-492/591-592. HUMAN PHYSIOLOGY. 4 credits.
Prerequisites, Organic chemistry and senior or graduate standing. A detailed study of function of the human body with special emphasis on neuro-muscular, cardiovascular, and respiratory physiology. Laboratory.

GRADUATE COURSES

310:601-602. SEMINAR IN BIOLOGY. 1 credit each quarter.
Discussion of students' research and papers from the current literature in biology.

310:610-611. PLANT DEVELOPMENT. 4 credits each quarter.

310:647-648. CYTOLOGY. 3 credits each quarter.
Study of cells, main emphasis will be placed on the characteristics common to all cells and on investigative techniques used to determine these characteristics. Specialized cells will be considered mainly as they demonstrate general cellular principles.

310:667-668-669. MASTERS RESEARCH. 3 credits each.

315: CHEMISTRY

315:111-112. INTRODUCTORY CHEMISTRY FOR ENGINEERS. 3 credits each quarter.
Introduction to basic facts and principles of chemistry, particularly as they apply to civil and mechanical engineering students.

315:121-122-123. INORGANIC CHEMISTRY. 3 credits each quarter.
Designed primarily for students in Home Economics and for laboratory technicians. Fundamental laws and theories of chemistry; the more important elements and their compounds. Laboratory.

315:124. CHEMISTRY. 4 credits.
Fundamentals of organic, inorganic and physiological chemistry. Filmed Laboratory.

315:126-127-128. GENERAL INORGANIC CHEMISTRY FOR ENGINEERS. 4 credits each quarter.
Introduction to basic facts and principles of chemistry, particularly in relation to atomic structure and the periodic table. Laboratory.

315:129-130-131. GENERAL CHEMISTRY. 4 credits each quarter.
Introduction to basic facts and principles of chemistry. Laboratory.

315:132-133. PRINCIPLES OF CHEMISTRY. 4 credits each quarter.
Introduction to basic facts and principles of chemistry. Structure of the atom and the periodic table. The chemical bond, chemical reactivity and oxidation-reduction relations. The states of matter. For chemistry majors and pre-medical students. Laboratory.

315:134. PRINCIPLES OF CHEMISTRY AND QUALITATIVE ANALYSIS. 5 credits.
Prerequisite, 133. The general theory of aqueous solutions, including acid-base behavior. Electrochemistry and chemical kinetics. The general laws of equilibria in chemical reactions, especially as they apply to qualitative analysis. For chemistry majors and pre-medical students. Laboratory.

315:201-202-203. ORGANIC AND BIOLOGICAL CHEMISTRY. 3 credits each quarter.
Prerequisite, 123. Designed especially for students in Medical Technology and Home Economics. Principles of organic chemistry with emphasis on biological systems. Laboratory.

315:263-264-265. ORGANIC CHEMISTRY, LECTURE. 3 credits each quarter.
Prerequisite, 194 or 128 and permission. Coa-
lent bond; structure of organic molecules; aliphatic and aromatic compounds; functional groups, polynuclear hydrocarbons and heterocyclic compounds; mechanisms of simple organic reactions.

315:266-267-268. ORGANIC CHEMISTRY, LABORATORY. 2 credits each quarter.
Corequisite, 265, 264, 265. Laboratory experiments to develop techniques in organic chemistry and to illustrate principles.

315:313-314-315. PHYSICAL CHEMISTRY, LECTURE. 3 credits each quarter.
Prerequisite, 265 and 345:224 or permission. Gases, thermo-dynamics, thermo-chemistry, solutions, dilute solutions, chemical equilibrium, phase rule, chemical kinetics, electrochemistry, electrolytic equilibria, and atomic and molecular structure.

315:316-317-318. PHYSICAL CHEMISTRY, LABORATORY. 2 credits each quarter.
Corequisites, 313, 314, 315. Laboratory designed for illustrating techniques and equipment used in physical chemical investigations.

315:335-336-337. ANALYTICAL CHEMISTRY FOR LABORATORY TECHNICIANS. 4 credits each quarter.
Prerequisite, 134 or 123. Intended primarily for students preparing to become laboratory or hospital technicians. Elementary theory and calculations in qualitative and quantitative analysis, laboratory exercises, methods and instruments used in hospital laboratories.

315:401/501. BIOCHEMISTRY. 5 credits.
Prerequisite, 268. Constituents of cells and tissues, their organic and fundamental physical chemical properties. Proteins, enzymes, vitamins, carbohydrates, fats, energy relationships, intermediary metabolism.

315:411/511. PHYSICAL CHEMISTRY FOR BIOLOGY MAJORS. 5 credits.
Prerequisites, 268 and 345:111 and permission. Gases, thermo-dynamics, electrochemistry, chemical kinetics, macromolecules and colloids, special topics in biochemistry, biophysics and molecular biology.

315:421-422/521-522. QUALITATIVE ORGANIC ANALYSIS. 3 credits each quarter.
Prerequisites, 268 and 428 or permission. Characterization and identification of organic substances, separation and identification of components of organic mixtures. Laboratory.

315:423. ANALYTICAL CHEMISTRY, LECTURE. 3 credits.
Prerequisite, 265 or 134 and permission. Introduction to the theoretical principles of quantitative analysis. Techniques and calculations, gravimetric and volumetric methods.

315:424. ANALYTICAL CHEMISTRY, LECTURE. 3 credits.
Prerequisite, 423. More advanced treatment of theoretical principles of quantitative analysis and of experimental procedures and techniques. Introduction to instrumental analysis.

315:425. ANALYTICAL CHEMISTRY, LECTURE. 3 credits.
Prerequisite, 424; corequisite, 315. Continuation of instrumental analysis with emphasis on newer analytical tools and methods.

315:426-427-428. ANALYTICAL CHEMISTRY, LABORATORY. 2 credits each quarter.
Corequisites, 423, 424, 425. Laboratory techniques employed in gravimetric, volumetric, and instrumental analysis.

315:450. INDUSTRIAL CHEMISTRY. 3 credits.
Prerequisite, 268. Chemical engineering unit operations considered in non-mathematical language, basic principles of instrumentation, manufacture of various inorganic and organic chemicals.

315:463/563. ADVANCED ORGANIC CHEMISTRY. 2 credits.
Prerequisite, 265. Introduction to the study of mechanisms of organic reactions.

315:464/564. ADVANCED ORGANIC CHEMISTRY. 3 credits.
Prerequisite, 463. Continuation of 463.

315:472-572. ADVANCED INORGANIC CHEMISTRY. 3 credits.
Prerequisites, 315, 318. Concepts of atomic structure integrated in systematic classification of elements. Periodic table. Study of the chemistry of the representative elements according to periodic grouping.

315:473/573. ADVANCED INORGANIC CHEMISTRY. 2 credits.
Prerequisite, 472. Chemistry of the transition elements. Coordination compounds, organometallics and metal carbonyls.

315:481-482-483. SENIOR PROBLEMS. 2 credits each quarter.
Prerequisite, permission. An assignment of special problems to the student, designed as an introduction to research problems.

GRADUATE COURSES

315:601-602-603. CHEMISTRY OF POLYMERS. 2 credits each quarter.
315:604-605-606. CHEMISTRY OF POLYMERS
LABORATORY. 2 credits each quarter.
Prerequisites, 265, 268. Preparation and iden-
tification of polymers to illustrate the methods of
polymerization discussed in 601, 602, 603, and
649.

315:609. MICRO-QUANTITATIVE ORGANIC
ANALYSIS. 3 credits.
Prerequisites, 268, 428 and permission. Micro-
quantitative analytical methods for determination
of carbon, hydrogen, nitrogen, sulfur, and halogen
in organic substances. Laboratory.

315:610. BASIC QUANTUM CHEMISTRY. 2 credits.
Prerequisite, 315. A study of the principles of
quantum chemistry and their present applications.
The emphasis is upon 1) understanding the prin-
ciples behind the various approximate methods
currently being used to describe molecular sys-
tems, 2) learning to perform the actual calcula-
tions with the use of a high-speed computer and
programs supplied by the instructor, and 3) the
interpretation and limitations of the results of the
various methods.

315:611. CHEMICAL BONDING. 2 credits.
Prerequisite, 610. Application of quantum
chemistry to the elucidation of chemical bonding
and the structure of molecules.

315:612. SPECTROSCOPY. 2 credits.
Prerequisite, 611. Application of quantum me-
chanical principles to the interpretation of mole-
cular spectra.

315:613. SYNTHETIC METHODS OF ORGANIC
CHEMISTRY. 3 credits.
Prerequisite, 265. A discussion of synthetic
organic chemistry. Standard syntheses of organic
compounds as well as newer techniques.

315:615. CHEMICAL INSTRUMENTATION I.
3 credits.
Prerequisites, 425, 428, or permission. Principles
and applications of electrical and electronic de-
vices for chemical analysis. Laboratory.

315:616. CHEMICAL INSTRUMENTATION II.
3 credits.
Prerequisite, 615. Principles and applications
of various transducers for chemical analysis. Lab-
oratory.

315:617. INSTRUMENTAL METHODS OF ANALYSIS.
3 credits.
Prerequisite, 616. Principles and applications of
analytical chemical techniques based on physical
measurements. Laboratory.

315:621-622-623. ADVANCED PREPARATIONS.
1 or 2 credits each quarter.
Prerequisite, permission. Methods for preparing
and purifying organic and inorganic compounds.
Laboratory.

315:625. COLLOID CHEMISTRY. 2 credits.
Prerequisites, 425, 428. A thermodynamic and
kinetic approach to interfacial, electrokinetic, and
colldoid phenomena. Application of Schlieren
optics to studies in diffusion, ultracentrifuge, and
distributions. Debye double layer concept and
colloid stability. Micelles. Adsorption and related
phenomena.

315:629-630-631. THEORETICAL INORGANIC
CHEMISTRY. 2 credits each quarter.
Prerequisites, 315, 318 and 473 or permission.
A detailed treatment of the chemistry of the tran-
sition elements. Liganf field theory, kinetics and
mechanisms, magnetism, applications of group
theory, electronic spectra, molecular orbital the-
ory.

315:635. BASIC THERMODYNAMICS. 2 credits.
Prerequisites, 315, 318. A rigorous treatment
of the laws of thermodynamics and their appli-
cation to chemical systems.

315:636. STATISTICAL THERMODYNAMICS. 2 credits.
Prerequisite, 635. Statistical thermodynamics
systematically developed and applied to calculation
of thermodynamics properties of various states of
matter.

315:637. KINETICS. 2 credits.
Prerequisites, 315, 318. Methods of investiga-
tion and theory of the rate of chemical reactions.
The theory of rate processes and its application in
chemistry.

315:638-639-640. ADVANCED PHYSICAL CHEMISTRY
LABORATORY. 3 credits each quarter.
Prerequisite, permission. Laboratory experiments
in physical chemistry.

315:649. CHEMISTRY OF ELASTOMERS. 2 credits.
Prerequisites, 265, 268 or permission. A study
of the molecular structure and chemical reaction
and properties of natural and synthetic rubbers,
as well as the polymerization processes involved in
the formation of the synthetic elastomers.

315:650. PHYSICAL ORGANIC CHEMISTRY I.
3 credits.
Corequisite, 610. A study of the criteria for
mechanisms of organic reactions: linear free
energy relationships, acidity functions, isotope
effects, etc.

315:651-652-653. QUANTUM CHEMISTRY.
3 credits each quarter.
Prerequisite: 345:225, or permission. Wave me-
chanics from a postulational basis: exactly soluble
problems, angular momentum and spin. Approxim-
ation methods and many-particle systems. The
structure of diatomic and polyatomic molecules,
and their properties; symmetry and spectroscopy.
Self-consistent field techniques.
315:685. Master's Research. 1 to 9 credits.
For properly qualified candidates for Master's degree. Supervised original research in inorganic, analytical, physical, and organic chemistry.

315:670. Chemical Microscopy and Microchemical Analysis. 3 credits.
Prerequisite, 427 and permission. Microscale studies, identifications, microchemical procedures.

315:671. Thermanalytical Techniques. 3 credits.
Prerequisite, 318 and permission. The methods of differential thermal analysis, thermogravimetric analysis and related techniques are discussed. The methods of heating, programming, amplifying and recording and the effects of atmosphere, heat transfer, dilution, sample size and geometry are described. Applications to inorganic and organic reactions, reversible and irreversible, are discussed.

315:672. Advanced Analytical Chemistry. 4 credits.
Prerequisite, 428 or equivalent. Two lectures, 2 laboratory periods. Advanced techniques for separation, determination and identification. Classical as well as recent techniques.

Prerequisite, 265. Modern theory of stereochemistry and its application to reactions of organic chemistry.

315:674. Kinetics of Polymerization. 2 credits.
Prerequisite, 315. Mechanism and kinetics of condensation polymerization, including molecular weight distribution and network formation. Kinetics of addition polymerization and copolymerization, including molecular weight distribution, three-dimensional polymerization and emulsion polymerization.

Prerequisite, 315. Methods of determination of molecular weights, including osmotic pressure, light scattering, sedimentation and viscosity. Dimensions of macromolecules in solution, and network theory of rubber elasticity.

315:676. Macromolecular Solutions. 2 credits.
Prerequisite, 673 or permission. Theoretical and experimental determination of macromolecular conformation in solution. Thermodynamic properties of polymer liquids and liquid mixtures. Solution properties of polyelectrolytes. Macromolecular association; liquid crystals.

315:680. Special Topics in Organic Chemistry. 1, 2, or 3 credits. (May be repeated)
Prerequisite, permission. Topics in advanced organic chemistry such as natural products, heterocyclic compounds, photochemistry.

315:681. Special Topics in Analytical Chemistry. 1, 2 or 3 credits. (May be repeated).
Prerequisite, permission. Topics in advanced analytical chemistry such as electronanalyzer, activation analysis, atomic absorption spectrometry, mass spectrometry, liquid-liquid and liquid-solid chromatography, gas chromatography, ion exchange, thermoanalytical methods, separations, standards, sampling, recent developments.

315:682. Special Topics in Inorganic Chemistry. 1, 2 or 3 credits. (May be repeated).
Prerequisite, permission. A consideration of topics in modern inorganic chemistry, such as: coordination compounds, the chemistry of the solid state, representative elements, nuclear chemistry, nonaqueous solvents, organometallic compounds.

315:683. Special Topics in Physical Chemistry. 1, 2, or 3 credits. (May be repeated).
Prerequisite, permission. Subject matter from the areas of modern physical chemistry.

315:684. Special Topics in Polymer Chemistry (Lectures and/or laboratory). 1, 2, or 3 credits.
Prerequisite, 265, 268, 315, 318 or permission. Study of topical subjects of current interest in the chemistry of macro-molecules, encompassing organic, inorganic or physical chemistry aspects, and including laboratory work where applicable.

315:685-687. Experimental Physical Chemistry of Polymers. 2 credits each quarter.
Prerequisite or corequisite, 674, 675, 676 respectively. Laboratory experiments to illustrate methods and principles discussed in 674, 675, 676, respectively.

315:688. Advanced Chemical Thermodynamics. 3 credits.
Prerequisite, 636. Thermodynamics of solutions, fluctuation theory, generalized thermodynamic potential, irreversible thermodynamics.

Prerequisite, 650. A study of mechanisms of organic reactions developed from a consideration of the reactive intermediates of organic chemistry: carbonium ions, carbanions, free radicals and carbones.

315:690. Theoretical Organic Chemistry. 3 credits.
Prerequisite, 689. The application of modern quantum chemistry and thermodynamics to problems in organic chemistry.

315:691. Advanced Instrumental Analysis. 2 credits.
Prerequisite, 617. Modern Instruments.

315:692. Advanced Instrumentation. 3 credits.
Prerequisites, 318, 428. Theory and application of instrumental measurements. Interpretation of data.
Doctoral Research. 1 to 24 credits each quarter.

Open to properly qualified students accepted as candidates for the degree of Doctor of Philosophy in Chemistry. Supervised original research may be undertaken in organic, inorganic, physical, or analytical chemistry.

320: CLASSICS

320:161-162-163. Comparative Literature. 3 credits each quarter.
Major writers of Greece and Rome; their influence on later European literature. No foreign language necessary. Required of majors.

320:199. Classical Mythology. 4 credits.
Myths, legends and folklore of Greece and Rome; some attention to the history of religion. No foreign language necessary.

320:313-314-315. Classical Archaeology. 3 credits each quarter.
The ruins and monuments of Greece and Rome; history reconstructed by examination of the material remains. No foreign language necessary. Required of majors.

320:401-402-403/501-502-503. Egyptology. 3 credits each quarter.
Prerequisite, permission of instructor. Classical Egyptian (standard hieroglyphic of the 18th Dynasty); the history and antiquities of Egypt as far as the Roman occupation.

320:404-405-406/504-505-506. Assyriology. 3 credits each quarter.
Prerequisite, permission of instructor. The Akkadian language; history and antiquities of Mesopotamia. May be repeated for credit with another cuneiform language.

321: GREEK

321:121-122-123. Elementary Greek. 4 credits each quarter.
The standard language of Hellenistic times with some attention to Modern Greek.

321:431-432-433/531-532-533. Greek Reading and Research. 3 credits each quarter.
Prerequisites, 121-122-123 or equivalent. Second-year Greek or any Advanced Greek may be taken under these numbers. Homer, Sophocles, Plato, or the like; the New Testament is commonly offered. May be repeated for credit with a change of subject.

322: LATIN

322:121-122-123. Elementary Latin. 4 credits each quarter.
Some attention to the development of the Romance languages, especially Italian.

322:143-144-145. Second Year Latin. 3 credits each quarter.
Selections from Virgil or Pliny; other material may be offered.

(Note: Students who have completed two years of high school Latin will enroll in Latin 143-144-145. Those who have had one year or less will enroll in 121-122-123.)

(Note: Some of the following courses will be given each year. Latin 322:143-144-145 or equivalent is prerequisite.)

322:303. Roman Satirists. 3 credits.

322:304. Roman Dramatists. 3 credits.
Plautus, Terence and Seneca. History of the drama and theatre.

322:305. Roman Historians. 3 credits.
Sallust, Livy, Tacitus and Suetonius. Historiography; philosophy of history.

322:306. Roman Philosophical and Religious Writers. 3 credits.
Lucretius, Cicero, Seneca and Boethius. The conflict of religions in the Roman Empire.

322:307. Medieval Latin Writers. 3 credits.
The Vulgate, the liturgy and hymns; St. Augustine or the other Fathers; monastic chronicles and Goliardic verse.

322:308. Roman Lyric and Elegiac Poets. 3 credits.
Catullus, Horace, Ovid, Propertius and Tibullus.

322:311. Roman Novelists. 3 credits.
Petrarch and Apuleius. Milesian tale and Alexandrian romance.

322:431-432-433/531-532-533. Latin Reading and Research. 3 credits each quarter.
Generally Latin Epigraphy, but certain subjects in the literature or archaeology of Rome may be offered. May be repeated for credit with a change of subject.

325: ECONOMICS

325:243. Survey of Economic Analysis. 4 credits. (For M.B.A. Candidates.)
Intensive introduction to the analysis of modern industrial society as well as of the formulation of economic policy. The structure of economic theory and its relation to economic reality. (No credit for persons having completed 245, 246, 247.)
325:244. Introduction to Economic Analysis. 4 credits.
Intensive introduction to the analysis of modern industrial society as well as of the formulation of economic policy. The structure of economic theory and its relation to economic reality. (No credit for persons having completed 245, 246, 247.)

325:245-246-247. Principles of Economics. 3 credits each quarter.
Sequential. Economic activity in modern industrial society, preparation for responsible participation in process of shaping public policy. No credit to students who have received credit in Economics 243.

325:248. Consumer Economics. 4 credits.
Spending habits of American consumers, influences affecting their spending decisions, personal finance, budget planning, saving programs, installment buying, insurance, investments, housing finance.

325:330. Labor Problems. 4 credits.
Prerequisite, 247. Labor economics, principles, and public policy. Development of structure, objectives and policies of unions in the United States. Labor-management relation negotiations of trade agreements, administration of grievance procedures, economic effects of union activities, problems of public control.

325:333. Labor Economics. 4 credits.
Prerequisite, 325:330. This course deals with the basic theoretical tools used in the analysis of the problems of labor in any modern economic system. Emphasis is given to the examination of the determinants of the demand for and the supply of labor.

325:371. Development of Economic Institutions. 4 credits.
Prerequisite, 247. Analytical survey of the origins and growth of the institutional frame of contemporary economic life in all its forms.

325:380. Money and Banking. 4 credits.
Prerequisite, 247. Institutions of money, banking, and credit, monetary expansion and contraction, public policies affecting this process, development of our money and banking system.

325:400/500. Macroeconomics. 4 credits.
Prerequisite, 247; recommended 650:346, 347. Changes in the national income, production, employment, price levels, long-range economic growth, short-term fluctuations of economic activity.

325:405/505. Public Finance. 4 credits.
Prerequisite, 247. Tax systems and other sources of revenue of federal, state, and local governments; changing patterns of public expenditures; fiscal policy and debt management; economic effects of public policy.

325:410. Micro-Economics. 4 credits.
Prerequisite 247. Advanced analysis of consumer demand, production costs, market structures, determinants of factor income.

325:420. Mathematical Economics I. 4 quarter hours.

Prerequisites, 420 or permission. A continuation of Mathematical Economics I. Input-output analysis, static and dynamic versions. Linear programming and activity analysis; application to theory of the firm. Rudiments of game theory. Dynamic economic analysis; solution techniques; some significant dynamic models from the literature.

325:425/525. Quantitative Economics. 4 credits.
Prerequisites, 247, 650:346, 347 or equivalent. Quantitative relationships. Construction of static and dynamic models and their use in explanation, forecasting and decision-making. Elements of linear-programming, activity analysis, game-theory.

325:426/526. Economic Forecasting. 4 credits.
Prerequisites, 247, 650:346, 347. Relationship between facts and explanation. The techniques of making forecasts as basis for decisions in business and government as well as for the verification of hypotheses.

325:431/531. Labor and the Government. 4 credits.
Prerequisites, 247, 330. Development of public policy for control of industrial relations, from judicial control of 19th century to statutory and administrative controls of World War II and post-war periods. Economic effects of public control.

Prerequisites, 247, 330. Principles and organization of collective bargaining, collective bargaining agreements, issues presented in labor disputes and settlements, union status and security, wage scales, technological change, production standards, etc.

Prerequisite 247. Systems of economic organization, ranging from the theoretical extreme of unregulated private enterprise to that of Marxian
communism. Comparison of actual system of mixed public and private enterprise in contemporary United States with the state socialism of the Soviet Union.

325:460/560. ECONOMIC DEVELOPMENT AND PLANNING FOR UNDERDEVELOPED COUNTRIES. 4 credits.

325:461/561. PRINCIPLES OF INTERNATIONAL ECONOMICS. 4 credits.
Prerequisite, 247. Theory of international trade and foreign exchange, policies of free and controlled trade, international monetary problems, world economic planning.

325:472/572. STRUCTURE OF ECONOMIC THEORY. 4 credits.
Prerequisite, permission of instructor. This course deals with the logical structure of economic theory. The relationship between formal theory and empirical data, and the testing of macro- and micro-economic hypotheses.

325:475/575. DEVELOPMENT OF ECONOMIC THOUGHT. 4 credits.
Prerequisite, 247. Evolution of theory and method, relation of ideas of economists to contemporary conditions.

325:481/581. MONETARY AND BANKING POLICY. 4 credits.
Prerequisites, 247, 380. Control over currency and credit, policies of control by central banks and governments, U. S. Treasury and Federal Reserve System.

325:482. MONETARY THEORY. 4 credits.
Prerequisite, 325:380. This course aims to provide the student with a background in monetary theory. Questions to be studied include the demand and supply of money, interest rate theory and gold standard and gold flows mechanism.

325:490/590. SEMINAR IN ECONOMICS. 4 credits.
Prerequisite, permission. Opportunity for advanced students to study special fields of Economics.

GRADUATE COURSES

325:601. MACRO-ECONOMIC THEORY. 4 credits.
Advanced analysis of national income, the level of employment, and economic long-term growth.

325:606. FISCAL THEORY AND POLICY. 4 credits.
Economic theory of fiscal policy, government and income determination in the framework of the theory of general equilibrium. Background and goals of fiscal policy; problems and conflicts inherent in the attainment of these goals. Impact of fiscal policy upon the level of economic activity.

325:611. MICRO-ECONOMIC THEORY. 4 credits.

325:615. INDUSTRIAL ORGANIZATION. 4 credits.
This course deals with the various forms of market structures. It is designed, however, not as a descriptive course, but primarily as analytical study of these observable market structures and of the dynamic determinants which shape and change them.

325:627. ECONOMETRICS. 4 credits.

325:628. LINEAR PROGRAMMING AND ACTIVITY ANALYSIS. 4 credits.
A study of the methods of linear programming, including a presentation of the special cases of the transportation problem and input-output analysis. A comparison is also made between conventional marginal analysis and the linear programming formulation of the theory of the firm.

325:634. LABOR ECONOMICS. 4 credits.
The economic issues and implications involved in hours of work, employment and unemployment, and the impact of trade unions upon the basic institutions of a free private enterprise economy.

325:635. COMPARATIVE LABOR ECONOMICS. 4 credits.
A comparison of the structure and function of labor organizations in the United States, Western Europe, and some of the emerging underdeveloped countries. Emphasis is on the analytical explanation of the differences as well as of the common features of these organizations and on the social and legal framework within which they function.

325:655-656. READING IN ADVANCED ECONOMICS. 4 credits each quarter.
Intensive investigation of selected problem-areas in advanced Economics under the supervision of the instructor. Since the subject matter is decided upon in each case, the course may be taken repeatedly for credit.
325:683. **SEMINAR ON REGIONAL ECONOMIC DEVELOPMENT. 4 credits.**

The study of a particular national or international regional development. Any one or a combination of the following regions may be considered: The Middle East, North Africa, areas within Latin America such as the Brazilian North East or Caribbean, Southern Europe, South East Asia or Eastern Europe.

325:665. **ECONOMIC PLANNING AND PLANOMETRICS. 4 credits.**

Types, methods and applications of planning. Planning for growth. Application of Input-Output, linear programming, computer simulations, and other statistical and mathematical methods in planometrics.

325:667. **SEMINAR ON ECONOMIC GROWTH AND DEVELOPMENT. 4 credits.**

Main theories of economic growth since the age of classical economics are reviewed. This seminar deals with the major factors and problems in the development of emerging countries. Aggregative macro models of capital formation, investment, technology and external trade are discussed.

325:668. **SEMINAR IN THE THEORY OF INTERNATIONAL TRADE. 4 credits.**

Classical International Trade theory displayed by means of current geometric—algebraic methods. Major recent developments in international trade theory and their applications to current issues, such as trade liberalization, economic development and regional economic integration.

325:669. **INTERNATIONAL ECONOMICS. 4 credits.**

Historical development of international trade theory is surveyed and brought up to date. Equilibrium in the balance of payments through various mechanisms is discussed. The international monetary problems and reform proposals are examined. The European Economic Community and other regional integration attempts and their possible effects on the U. S. Balance of Payments and the evolution of the international economy are studied.

325:683. **MONETARY THEORY AND POLICY. 4 credits.**

An intensive study of some important areas of Monetary Theory including the more significant modern developments. Emphasis will be placed on the integration of money and value theory among other areas, plus some pressing policy issues.

325:695-696. **RESEARCH AND THESIS. 3 credits each quarter.**

330: **ENGLISH**

330:237. **REPRESENTATIVE AMERICAN WRITERS. 3 credits.**

Writers to 1840.

330:238. **REPRESENTATIVE AMERICAN WRITERS. 3 credits.**

1840-1890.

330:239. **REPRESENTATIVE AMERICAN WRITERS. 3 credits.**

1890 to present.

330:240-241. **SHAKESPEARE. 3 credits each quarter.**

Sequential. Reading of 15 or more plays, with explanatory lectures and discussions.

330:242-243. **MAKING OF MODERN ENGLISH. 3 credits each quarter.**

Sequential. Review of parts-of-speech grammar, strengths and weaknesses. Introduction to modern linguistic theory, descriptive and generative techniques.

330:244. **APPRECIATION OF DRAMA. 3 credits.**

330:245. **APPRECIATION OF FICTION. 3 credits.**

330:246. **APPRECIATION OF POETRY. 3 credits.**

Courses 244, 245, and 246 constitute an approach to critical reading.

330:265-266-267. **ENGLISH LITERATURE. 3 credits each quarter.**

Sequential. Reading of 15 or more plays, with explanatory lectures and discussions.

330:271. **EUROPEAN BACKGROUND OF ENGLISH LITERATURE. 5 credits.**

Representative French, German, Italian, and Spanish works, medieval to nineteenth century, in translation.

330:272. **MODERN EUROPEAN LITERATURE. 5 credits.**

Representative European writers from about 1850 to the present in translation.

330:275-276-277. **THE ENGLISH BIBLE AS LITERATURE. 3 credits each quarter.**

330:321-322-323. **ENGLISH FICTION. 3 credits each quarter.**

Sequential; prerequisite, 267. English fiction from Defoe to Conrad.

330:343. **PROBLEMS IN EXPOSITORY WRITING. 3 credits.**

Prerequisite, 243 or permission. Writing advanced papers based on individual researchings; careful correction of varied papers to show both errors and means for improvement.
330:330. ADVANCED COMPOSITION. 3 credits.
Training in various forms of writing; frequent consultation with instructor.

330:335-356. CONTINENTAL DRAMA. 3 credits each quarter.
Sequential; Masterpieces of the drama from the Greeks to the present.

330:363-364-365. ENGLISH DRAMA. 3 credits each quarter.
Sequential; prerequisite, 267. The Development of English Drama from the Middle Ages to the present.

330:401-402-403. CHAUCER'S Canterbury Tales. 3 credits.
Prerequisite, 267. The Tales and other literary works in Middle English.

Sequential; prerequisite, 401. From studies in Old English language and Old English prose to selections from old English poetry, including Beowulf.

330:408-409-410-411. SEVENTEENTH CENTURY LITERATURE: MILTON. 3 credits each quarter.
Sequential; prerequisite, 267. Non-dramatic literature from Bacon to Dryden; concentrated study of selected prose and major poems of Milton.

Sequential; prerequisite, 267. Works of Pope, Johnson, and other writers of the period.

330:415-416-515-516. EIGHTEENTH CENTURY LITERATURE. 3 credits each quarter.
Sequential; prerequisite, 267. Concentrated study of major plays and poems.

330:417-418-517-518. SHAKESPEARE. 3 credits each quarter.
Sequential; prerequisites, 267, 241. Conferences by major plays and poems.

330:419-519. LITERATURE OF THE ROMANTIC PERIOD. 4 credits.
Prerequisite, 267. Poetry and prose of the early nineteenth century.

330:420-520. LITERATURE OF THE VICTORIAN PERIOD. 4 credits.
Prerequisite, 267. Poetry and prose of the later nineteenth century.

Prerequisite, 267. The Colonial Period.

Sequential; prerequisites, 237, 238, 239. Irving to Crane.

330:424-425-524-525. AMERICAN LITERATURE IV, V. 3 credits each quarter.
Sequential; prerequisites, 237, 238, 239. The twentieth century, excluding drama.

330:440-441-540-541. TWENTIETH CENTURY ENGLISH LITERATURE. 3 credits each quarter.
Sequential; prerequisite, 267. A study of representative works of major British and Irish writers from 1900 to the present.

Prerequisites for 450, 491, 492 either 267 or 237, 238, 239 depending upon the nature of the Seminar. Special studies, methods of literary research, special concentration in English and American literature.

From Proto-Old English to the present.

330:603. MODERN LINGUISTICS. 4 credits.
Modern synchronic linguistics; studies in applied linguistics.

330:611. INDIVIDUAL READING IN ENGLISH. 1-3 credits.
Study under the direction of a professor guiding the student's individual reading and research.

330:622. SHAKESPEARE'S CONTEMPORARIES IN ENGLISH DRAMA. 5 credits.
Readings in such playwrights as Lyly, Marlowe, Johnson, Beaumont, Fletcher, Middleton, and Ford and in contemporary writings pertinent to the theatrical scene.

330:630-631. AMERICAN LITERATURE VI, VII. 3 credits each quarter.
Sequential; prerequisites, 237, 238, 239. The twentieth century, excluding drama.

330:640. HISTORICAL LITERATURE. 4 credits.
Prerequisite, 267. Poetry and prose of the later nineteenth century.
330:628. VICTORIAN POETS. 5 credits.
Major verse of Tennyson, Browning, and Arnold, related poetry and critical studies.

330:632. AMERICAN ROMANTIC FICTION. 5 credits.
The meaning of American Romanticism applied to the study of such writers as Poe, Hawthorne, and Melville.

330:633. AMERICAN REALISM. 5 credits.
The meaning of American Realism applied to the study of such writers as Twain, Howells, James, Crane, Dreiser, London, and Norris.

330:640. LITERARY CRITICISM. 5 credits.
The development of European literary criticism from classical times to the present.

330:690. SEMINAR IN ENGLISH. 3-5 credits.

330:691. SEMINAR IN ENGLISH. 3-5 credits.

330:692. SEMINAR IN ENGLISH. 3-5 credits.
Special studies offered in the specialties of the members of the Graduate Faculty as needed.

330:699. RESEARCH ENGLISH: THESIS. 5 credits.

331:355: GEOGRAPHY

335:100. WORLD CULTURAL GEOGRAPHY. 3 credits.
An introduction to the geography of the world. Investigates principles of cultural geography by introducing basic physical, economic, and settlement patterns and by utilizing maps as research devices.

335:210. PHYSICAL GEOGRAPHY. 3 credits.
Landforms, weather and climate, soils and vegetation. The nature and distribution of these physical elements and their significance for man. Laboratory.

335:520. ECONOMIC GEOGRAPHY. 3 credits.
The geographical basis for production, exchange and consumption of goods. The effect which economic patterns have on man's culture and on the adjustment of man to his environment.

335:230. RURAL AND URBAN SETTLEMENT. 3 credits.
Study of the origin, function and rationale of settlement patterns which man has evolved in the process of occupying various areas.

335:240. MAPS AND MAP READING. 3 credits.
Designed to develop competence in map use and evaluation, use and interpretation of globes, cartograms, block diagrams, topographic sheets and thematic maps.

335:312. GEOGRAPHIC ASPECTS OF LANDFORMS. 3 credits.
Distribution patterns of the various types of landforms and their significance for man.

335:314. CLIMATOLOGY. 3 credits.
A study of the controls of weather and climate. Acquaints the student with the types of climates, their world pattern of distribution, and the problems involved as man attempts to control and modify weather and climate.

335:324. GEOGRAPHY OF WORLD MANUFACTURING. 3 credits.
Manufacturing activities as they evolve under different resource and cultural conditions. Particular emphasis on factors which lead to concentra-
tions of manufacturing in specific areas and methods used to measure intensity of concentration.

335:326. Geography of Mineral and Power Resources. 3 credits.
An analysis of the influence of minerals on human activities.

335:326. Urban Land Use Analysis. 3 credits.
A study of the internal structure of the city with particular emphasis on the methods of defining and mapping the various parts.

335:342. Graphic and Cartographic Representation. 3 credits.
Use of cartographic principles and techniques as well as other forms of graphic representation, as a means of recording information. Emphasis is placed on use of cartographic tools and equipment. (no special drafting ability required)

335:346. Geographic Aspects of Air Photo Interpretation. 3 credits.
A study of the basic principles of aerial photography and its utilization. The interpretation of aerial photography and application to map making and geographic research.

335:350. Anglo-America. 3 credits.
Regional and systematic geography of the U. S. and Canada, relating cultural and economic patterns to physical environment.

335:353. Northern Latin America. 3 credits.
An analysis of the relationship of cultural and economic patterns to physical environment in Mexico, Central America, northern South America, and the Caribbean.

335:354. Southern Latin America. 3 credits.
Regional and topical analysis of geographic relationships in Latin America, south of the equator.

335:356. Europe. 3 credits.
Regional and systematic analysis of cultural, economic and physical patterns of the continent, excluding the USSR.

335:358. USSR. 3 credits.
Regional and topical analysis of the Soviet Union considering how the Russian culture and economic patterns relate to the physical environment of northern Eurasia.

335:360. Central and East Asia. 3 credits.
Regional and systematic geography of China, Japan, and adjacent areas, with emphasis on cultural, economic and physical patterns and relationships.

335:361. South and Southeast Asia. 3 credits.
Analysis of the relationship of cultural and economic patterns to physical environment in the Indian sub-continent and southeast Asia.

335:362. North Africa and Southwest Asia. 3 credits.
Regional and systematic geography of that part of the world united by a desert environment and Muslim culture.

335:363. Africa South of the Sahara. 3 credits.
Topical and regional analysis of the relationship between cultural, economic and physical environment patterns.

335:380. Reading and Individual Research. 3 credits.
Prerequisite, permission of instructor. Directed reading and research in special field of interest chosen by student in consultation with the instructor.

335:415/515. Geography of Water Resources. 3 credits.
Discusses the occurrence of water in nature and the influence of water on human activities.

335:418/518. Geography of Vegetation and Soils. 3 credits.
Examination of natural vegetation and soil types found over the surface of the earth. Discussion of the geographic relationships of soils and vegetation to climate and landforms, and to man's activities.

335:422/522. Geographic Aspects of Transportation. 3 credits.
Discusses the geographic patterns of the various transportation systems, explains their rationale and investigates the influence of transportation patterns on man's activities.

335:428/528. Industrial and Commercial Site Selection. 3 credits.
Relationship between relief, climate, resources, population, transportation and the industrial and commercial location process. Case studies in the effects of transportation networks, rates, sources of materials, labor supply, location of markets, etc., on selection and evaluation of potential sites.

335:433/533. Geographic Aspects of Planning. 3 credits.
The role of geographic investigation in city, regional and resource planning.

335:435/535. Geography of Recreation Resources. 3 credits.
The effect of the physical and economic environment on recreational patterns. Discussion of seasonality and tourism patterns. Case studies of important recreational activities and areas in which tourism contributes significantly to the area economy.

335:438/538. Geography of the Metropolitan Area. 3 credits.
Association of phenomena within the metropolitan area expressed in land use and occupancy
features. The changing function of the urban area; relationships between urban centers.

335:444/544. MAP COMPIlATION AND REPRODUCTION. 3 credits.
The non-drafting techniques involved in producing modern maps.

335:448/548. STATISTICAL MAPPING. 3 credits.
Problems of cartographic statistical representation. Methods of data manipulation and problems of symbolization are stressed as well as techniques of presentation.

335:481/581. INTRODUCTION TO GEOGRAPHIC RESEARCH. 3 credits.
A critical study of the methodology applied in the investigation of geographic regions.

335:687. HISTORY OF GEOGRAPHIC THOUGHT. 4 credits.
A critical review of the major developments in geographic thought from the Greek period to modern times.

335:690. INDIVIDUAL READING AND RESEARCH. 4 credits.
Prerequisite, permission of the instructor and the department head. Intensive investigation of selected topics, under guidance of a faculty member.

335:695. THESIS RESEARCH. 3 credits.
(May be repeated twice for credit.)
Prerequisite, permission of department heads. Supervised original research.

337: GEOLOGY

337:101. INTRODUCTORY PHYSICAL GEOLOGY. 5 credits.
The materials, structures, surface features of the earth and processes which have produced them. Laboratory.

337:102. INTRODUCTORY HISTORICAL GEOLOGY. 5 credits.
The geologic history of the earth and the succession of the major groups of plants and animals as based on the geologic interpretation of rock formations and fossils. Laboratory.

337:210. GEOMORPHOLOGY. 4 credits.
Prerequisite, 101. The landforms of the earth. Description of the various types, their geographical distribution, and an explanation of the geological processes which have produced them. Laboratory.

337:211. OCEANOGRAPHY. 4 credits.
Prerequisites, 101 and 102. An introduction to the physical processes, geologic history and development of marine areas. Laboratory.

337:360. INTRODUCTORY INVERTEBRATE PALEONTOLOGY. 5 credits.
Prerequisite, 102 or permission. An introductory course emphasizing morphology and evolution of the major invertebrate groups with a consideration of the practical applications of paleontology. Laboratory.

337:313. FIELD METHODS IN GEOLOGY. 3 credits.
Prerequisites, 101 and 102 or permission. Introduction to the use of geologic field equipment including Brunton compasses, alidades and plane table surveying, and stereoscopes and aerial photography interpretation.

337:315. STRUCTURAL GEOLOGY. 4 credits.
Prerequisite, 101 or permission. Identification and interpretation of common and important structur-
337:316. Crystallography and Mineralogy. 4 credits.
Prerequisite, 101 or permission. Study of morphological crystallography and general mineralogy. Laboratory emphasis on mineral recognition based on simple physical tests, thin section and polished section analysis. Laboratory.

337:317. Optical Mineralogy. 4 credits.
Prerequisite, 316. An introduction to the petrographic microscope and its use in the identification of minerals in thin section. The optical properties of common igneous, metamorphic and sedimentary minerals will be studied in detail. Laboratory.

337:318. Petrography. 4 credits.
Prerequisite, 317 or permission. A basic course in which igneous, sedimentary and metamorphic rocks are described and classified. Laboratory.

337:393. Micropaleontology. 5 credits.
An introduction to the techniques, systematics and application of micropaleontology. Laboratory.

337:411. Pleistocene Geology. 4 credits.
Prerequisite, 210 or permission. An examination of the causes and effects of the Pleistocene expansions of polar ice masses with particular emphasis on glacial deposits and world climatic changes.

Prerequisite, permission. A field trip course emphasizing phases of geology not readily studied in Ohio and including individual pretrip preparation and a written report on field problems studied. Students will be expected to bear the actual costs involved in operating the trip.

337:413-513. Geology Field Camp. 9 credits.
Prerequisites, Structural Geology, Stratigraphy, Field Methods. Instruction as a working field geologist with emphasis on collection, recording, and interpretation of field data; detailed structural and stratigraphic field study. Five week camp, work 6 days per week.

337:415. Economic Geology. 4 credits.
Prerequisites, 315 and 318. A study of metallic mineral assemblages and non-metallic mineral deposits, emphasizing factors controlling deposition and exploration techniques.

337:421. Igneous Petrology. 4 credits.
Prerequisite, 318. A study of the origin and paragenesis of igneous rocks; the study of selected rock sites. Laboratory.

337:422. Metamorphic Petrology. 4 credits.
Prerequisite, 318. Problems in metamorphism and advanced studies of selected rock sites: A study of metamorphic crystallization with changes in environment. Laboratory.

337:423. Sedimentary Petrology. 4 credits.
Detailed hand sample and thin section examination of selected sedimentary suites particularly with respect to mineralogy and texture. Laboratory.

337:425. Stratigraphy. 4 credits.
Emphasis on the principles of sedimentation and their application in the interpretation of depositional environment and tectonics. Classical stratigraphic sequences will be studied. Laboratory.

337:431-531. Rocks and Minerals. 5 credits.
Prerequisites, 101, 102 and permission. The processes which result in the genesis of rocks and minerals will be stressed in lecture. The laboratory portion of the course will be devoted to techniques of rock and mineral analysis for science teachers.

337:432. Evolution and Geologic Time. 5 credits.
Prerequisite, 101 and permission. The development of the geologic time scale, including early and modern techniques of dating. Special emphasis will be given to the impact of evidence for evolution upon the concept of geologic time and the impact of geologic processes and their understanding upon the modern concept of evolution for science teachers.

337:433/533. Geomorphic Processes and Their Investigation. 3 credits.
Prerequisite, 101, 102, 210, 315 or permission. This course will require the use of material from previously outlined courses in the interpretation of the local environment. Attention will also be given to studies of the local area by earlier investigators for science teachers.

337:460. Advanced Paleontology. 3 credits.
Prerequisites, 360 or 363. A study of the major features of evolution including rates of evolution and extinction using as examples selected fossil groups.

337:482/582. Research Problems. 1-3 credits.
Prerequisite, departmental approval. Directed reading and research in special field of interest chosen by student in consultation with the instructor. May be repeated to a total of 6 credits.

340: HISTORY

340:201. United States History to 1815. 4 credits.
From the period of exploration and discovery through the War of 1812.

The emergence of nationalism and sectionalism,
the Civil War, Reconstruction, and the new industrial society.

340:203. United States History, 1898-Present. 4 credits.
From the Spanish-American War to the present.

340:204. The Ancient Near East. 3 credits.
Mesopotamia and Egypt; Israel and her neighbors to the time of the Persian Empire.

340:205. Greece. 3 credits.
The Minoans and Mycenaean; Classical Greece to the triumph of Macedon.

340:206. Rome. 3 credits.
Rome and the Hellenistic East to the end of Classical times.

340:207. Modern Europe, 1500-1715. 4 credits.
The Renaissance and Reformation, development of the nation states, religious wars, and the Age of Louis XIV.

340:208. Modern Europe, 1715-1870. 4 credits.
The French Revolution and Napoleon, a study of nineteenth century "isms", and the formation of Germany and Italy.

340:209. Modern Europe, 1870-Present. 4 credits.
The modern world: World Wars I and II, Nazism, Communism, Fascism, and postwar Europe.

A survey of the social, economic and cultural history of Afro-Americans from the 17th century to the present.

A survey of economic developments from European background through the Jacksonian period, treating topically and historically such factors as agriculture, labor, commerce, politics and economic thought that influenced growth and change. Special emphasis on the economy and its relationship to public policy.

A survey of economic developments from the Colonial era to the First World War, treating topically and historically agriculture, labor, commerce, politics, economic thought, and industrial changes. Special emphasis on the economy and its relationship to public policy.

A survey of economic developments since 1917, treating topically and historically the factors that led to the American free enterprise system. Special emphasis on the rise of modern industry and its relationship to public policy.

A study of select concepts and attitudes in their social and cultural framework with emphasis on growth of population, rural and urban life, religion, education and learning, literature and the arts, the new man.

A study of select concepts and attitudes with emphasis on reforms, the impact of the Civil War and the rise of business, agertarianism, cult of the self-made man, urbanism, muckrakers, religion, literature and the arts, education, and learning.

340:401, 402. Honors Seminar in History. 3 credits each quarter.
Selected readings; the writing of a research paper in proper scholarly form. Permission of the department head and/or the instructor required. Normally a student will take both 401 and 402, but under special circumstances he may be permitted to take 401 only.

Diplomacy of the Revolution, the establishment of basic policies, and the diplomatic problems of wartime and postwar Europe.

Diplomacy of the developing nation, of the Spanish-American War and World War I, and the peacemaking, 1919-1920.

The peace structure of the 1920's, its collapse in the 1930's, wartime and postwar diplomacy.

340:420/520. Colonial America. 3 credits.
The establishment of European colonies in North America to 1689 with special emphasis on English settlements.

340:421/521. The American Colonies and the British Empire. 3 credits.
Colonial life from 1689 to 1754, struggle for control of North America, and the development of British colonial institutions.
340:422/522. THE AMERICAN REVOLUTION, 1754-1783. 3 credits.
The Revolution and the War of Independence.

340:423/523. FOUNDING OF THE UNITED STATES TO 1801. 3 credits.
The Confederation, the Constitution, and the Federalist Era.

340:424/524. NEW NATION. 3 credits.
Formation of political parties; Jeffersonian politics; the War of 1812; Era of Good Feelings.

340:425/525. AGE OF JACKSON. 3 credits.
The roots of Jacksonian Democracy; the Age of Jackson: the Whig party; Age of Reform.

340:426/526. CIVIL WAR. 3 credits.
Slavery controversy; causes of American Civil War; politics and conduct of the war to 1863.

340:427/527. RECONSTRUCTION. 3 credits.
Politics and conduct of war to 1865; Reconstruction; roots of Jim Crow mentality.

340:428/528. THE UNITED STATES IN THE LATE NINETEENTH CENTURY. 3 credits.
The emergence of modern America with emphasis on economic, social, political, and intellectual developments, 1877-1898.

340:429/529. THE UNITED STATES IN THE TWENTIETH CENTURY, 1898-1920. 3 credits.
The Progressive era and World War I.

Normalcy, the Great Depression, and World War II.

The impact of nationalism, socialism, and imperialism on European civilization.

340:432/532. THE AMERICAN CITY, TO 1870. 3 credits.
The emergence of the American city.

340:433/533. THE AMERICAN CITY, SINCE 1870. 3 credits.
The American city during a half century of rapid urban and industrial growth.

340:434/540. RENAISSANCE. 5 credits.
The Italian Renaissance with emphasis on the economic, social, and cultural trends. The Northern Renaissance.

340:435/541. THE REFORMATION. 5 credits.
Europe in the sixteenth century; its religious, cultural, political and diplomatic development, with special emphasis upon the Protestant and Catholic Reformations.

340:436/542. THE CLASSIC ERA, 1610-1715. 3 credits.
The Constitutional, diplomatic, cultural, intellectual and social developments of 17th century Europe.

340:437/543. THE ERA OF ENLIGHTENMENT, 1715-1783. 3 credits.
Intellectual, social, political, economic and diplomatic developments of 18th century Europe.

340:438/544. THE ERA OF REVOLUTION, 1783-1815. 3 credits.
The French Revolution and Napoleon.

340:439/545. MEDIEVAL EUROPE, 400-1100. 3 credits.
The Barbarians, the Carolingian revival, and the renewed invasions.

340:440/546. MEDIEVAL EUROPE, 1100-1300. 3 credits.
The High Middle ages: Part I: Political, social, economic, religious, and intellectual reawakening. Part II: The great age of synthesis.

340:441/547. MEDIEVAL EUROPE, 1300-1500. 3 credits.
The Later Middle Ages: Economic and political decline, the great international wars, economic and social unrest, and religious cross-currents.

340:442/548. NINETEENTH CENTURY EUROPE, 1815-1848. 3 credits.
Europe from the Napoleonic era to the revolution of 1848 with emphasis upon the impact of the French and industrial revolutions.

340:443/549. NINETEENTH CENTURY EUROPE, 1848-1871. 3 credits.
The impact of nationalism, socialism, and imperialism on European civilization.

The coming of modern industrial society; intellectual currents; the background of World War I.

World War I, Russian revolutions, the rise of Fascism, and other postwar problems.

340:446/552. TWENTIETH CENTURY EUROPE, 1930-1945. 3 credits.
Rise of National Socialism, the plight of the democracies, road to war, and World War II.

340:447/553. TWENTIETH CENTURY EUROPE, 1945 TO PRESENT. 3 credits.
Europe since World War II, the cold war, and European attempts at unity.

340:448/554. RUSSIA TO 1725. 3 credits.
From the foundation of Kiev through the reign of Peter the Great.
340:459/559. RUSSIA IN THE EIGHTEENTH AND NINETEENTH CENTURIES. 3 credits.
Changes in Russian society and culture, the impact of the West, the end of serfdom, the intelligentsia, the attempts of autocracy to adjust to the industrial age.

340:460/560. RUSSIA IN THE TWENTIETH CENTURY. 3 credits.
Russia in World War I, the revolution, and the Soviet period.

340:465/565. ENGLAND, 1471-1588. 3 credits.
Anglo-Saxon and medieval England.

340:466/566. ENGLAND, 1530-1750. 3 credits.
Early modern England, an age of transition.

340:467/567. ENGLAND, 1750 TO THE PRESENT. 3 credits.
Modern Britain and the Empire-Commonwealth.

340:468/568. ENGLAND, 1471-1588. 3 credits.
The transition from medieval to modern times. Emphasis on economic, social, religious and cultural history, especially music and architecture.

340:469/569. ENGLAND, 1530-1750. 3 credits.
The Armada to the Restoration.

340:470/570. ENGLAND, 1750 TO THE PRESENT. 3 credits.
The Restoration, the Glorious Revolution, and the early Hanoverians.

340:471/571. HISTORY OF WESTERN SCIENCE AND TECHNOLOGY TO 1500. 3 credits.
Science and technology in ancient and medieval times, to 1500.

340:472/572. HISTORY OF WESTERN SCIENCE AND TECHNOLOGY, 1500-1800. 3 credits.
A study of developments leading to the scientific revolution.

The specialization and professionalization of science in the Nineteenth and Twentieth centuries.

340:480/580. HISTORY OF CHINA TO 1840. 3 credits.
Traditional China from its origins to the Opium War.

340:481/581. HISTORY OF CHINA SINCE 1840. 3 credits.
The impact of the West; Nationalism; Communism.

340:482/582. HISTORY OF JAPAN. 3 credits.
Traditional and modern Japan; its relations with China and the West.

340:483/583. COLONIAL LATIN AMERICA. 3 credits.
Pre-Columbian civilization, discovery and conquest, Spanish and Portuguese institutions.

340:491/591. LATIN AMERICA, NINETEENTH CENTURY. 3 credits.
Era of independence through the launching of new nations.

340:492/592. REPUBLICS OF LATIN AMERICA, TWENTIETH CENTURY. 4 credits.
Political history, social revolution, and contemporary problems.

Latin American problems and policy: the Monroe Doctrine, O.A.S., intervention, militarism, social revolution, recent relations and trends.

340:496/596. HISTORY OF MEXICO. 5 credits.
Indian civilizations to the present with emphasis upon relations with the United States.

340:498/598. HISTORIOGRAPHY. 4 credits.
Historians and historical writing in Europe and America; experience in research.

GRADUATE COURSES

340:600. SEMINAR IN LATIN AMERICAN HISTORY. 5 credits.
Prerequisite, any two of 590, 591, 592, 594, 596, or permission. Selected topics in cultural, diplomatic, intellectual and political history.

340:611-612-613. INDIVIDUAL READING. 1-3 credits each.
Permission required.

340:619. PROSEMINAR ON GREECE. 4 credits.
Study of historical literature, sources of materials, and major interpretations of Greek history.

340:620-621. SEMINAR ON GREECE. 4 credits each quarter.
Prerequisite, 619. This seminar in Greek history will be generally but not necessarily restricted to topics dealing with the archaic and formative periods.

340:622. PROSEMINAR ON ROME. 4 credits.
Study of historical literature, sources of materials, and major interpretations of Roman history.

340:623-624. SEMINAR ON ROME. 4 credits each quarter.
Prerequisite, 622. This seminar in Roman history will be generally but not necessarily restricted to topics dealing with the archaic and formative periods.

Study of historical literature, sources of materials, and major interpretations of the economic and social history of Europe.

340:638-639. SEMINAR IN THE ECONOMIC AND SOCIAL HISTORY OF EUROPE. 4 credits each quarter.
Economic and social history.

340:629. PROSEMINAR IN EUROPEAN INTELLECTUAL HISTORY. 4 credits.
Prerequisite, 628. Study of historical literature, sources of materials, and major interpretations of European Intellectual History.

340:643-644. SEMINAR IN EUROPEAN INTELLECTUAL HISTORY. 4 credits each quarter.
Selected topics will be investigated in depth.

340:645. PROSEMINAR IN HISTORY OF FRANCE. 4 credits.
Study of historical literature, sources of materials, and major interpretations of French history.

340:646-647. SEMINAR IN THE HISTORY OF FRANCE. 4 credits each quarter.
Prerequisite, 645. Selected topics will be investigated in depth, with emphasis upon the French Revolutionary era.

340:651. PROSEMINAR IN ENGLISH HISTORY. 4 credits.
A study of historical literature, sources of materials, and major interpretations of the period.

340:652-653. SEMINAR IN ENGLISH HISTORY. 4 credits each quarter.
Prerequisite, 651. Selected materials in English History will be studied in depth.

Study of historical literature, sources of materials, and major interpretations of the history of seventeenth and eighteenth century America.

340:661-662. SEMINAR IN THE HISTORY OF COLONIAL AND REVOLUTIONARY AMERICA. 4 credits each quarter.
Prerequisite, 660. Selected topics in the development of the British colonies, the Revolutionary movement, the War for Independence, and the early Confederation, and the creation of the new government.

340:663. PROSEMINAR IN EARLY NINETEENTH CENTURY UNITED STATES HISTORY. 4 credits.
Study of historical literature, sources of materials, and major interpretations of Early Nineteenth Century United States history.

340:664-665. SEMINAR IN EARLY NINETEENTH CENTURY UNITED STATES HISTORY. 4 credits each quarter.
Prerequisite, 663. Selected topics on the period including historiography. Special emphasis on Jeffersonian Democracy, reformism, and the coming of the Civil War.

340:680. PROSEMINAR IN AMERICAN ECONOMIC HISTORY. 4 credits.
Study of historical literature, sources of materials, and major interpretations of American Economic History.

340:681-682. SEMINAR IN AMERICAN ECONOMIC HISTORY. 4 credits each quarter.
Prerequisite, 680. Selected topics in the development and operation of the economy.

340:683. PROSEMINAR IN AMERICAN SOCIAL AND INTELLECTUAL HISTORY. 4 credits.
Study of historical literature, sources of materials, and major interpretations of American Social and Intellectual History.

340:684-685. SEMINAR IN AMERICAN SOCIAL AND INTELLECTUAL HISTORY. 4 credits each quarter.
Prerequisite, 683. Selected topics will be investigated in depth.

340:689. SEMINAR IN AMERICAN URBAN HISTORY. 3 credits.
Prerequisite, 436 or 437. Selected topics for research and writing.

340:690. THESIS RESEARCH. 4 credits.
Research for thesis for Master of Arts degree.

340:696. THESIS WRITING. 4 credits.
Writing of thesis for Master of Arts degree.

345: MATHEMATICS

345:100. MATHEMATICS LABORATORY. 0 credits.
Opportunity for individual work under staff guidance. For students enrolled in Finite Math, Elementary Functions and Analytical Geometry-Calculus.

Sequential; prerequisite, one year of high school algebra. Sets, logic, factoring, functions, graphing, linear and quadratic equations, inequalities, progressions, permutations and combinations, binomial expansion, mathematical induction, matrices and determinants, linear programming, game theory, probability and introduction to the calculus.

345:111. ELEMENTARY FUNCTIONS. 5 credits.
Prerequisite, high school algebra and trigonometry. An introduction to elementary function theory. Sets, number systems; polynomial, circular, inverse trigonometric functions; binomial theorem, mathematical induction, progressions.

345:204. ASTRONOMY. 3 credits.
The earth as a body in space, other planets; the moon and other satellites; comets, meteorites; solar system and its motions; analysis of light; the sun and other stars, star clusters, nebulae, Milky Way, external galaxies; structure of universe.

345:205. HISTORY OF MATHEMATICS. 3 credits.
Prerequisite, 111 (or equivalent). Origin and development of mathematical ideas and processes.
345:206. **Actuarial Mathematics.** 3 credits.
Prerequisite: 111 (or equivalent). Interest procedures, annuities, amortization, sinking funds, bonds, stocks, depreciation, formulas for life insurance, premiums, valuation procedures, construction of mortality tables.

345:207. **Empirical Equations and Nomography.** 3 credits.
Prerequisite: 222. Correlation of data involving two or three variables by empirical methods; nomographic methods for evaluation of empirical formulas.

Sequential; prerequisite, 111 (or equivalent). Equations of functions and their graphical representation—analytic geometry; limits, continuity, introduction to differentiation and integration; applications involving maxima and minima; differentials, curvature; applications to area—volume—surface of revolution; moments and center of mass; methods of integration; solid analytical geometry; vectors, partial differentiation, multiple integrals.

345:225. **Differential Equations.** 5 credits.
Prerequisite: 224. Infinite series; methods of forming and solving important types of ordinary and some partial differential equations; applications of differential equations to science.

345:311. **Abstract Algebra.** 3 credits.
Prerequisite: 222. Introduction to groups, rings, integral domains, axiomatic foundation of the natural numbers, integer number system, fields, rational numbers, real and complex number systems.

345:312. **Linear Algebra.** 3 credits.
Prerequisite: 311. Extension of concepts relating to groups, vector spaces, matrices and determinants, linear transformations, polynomial algebra.

345:401/501. **Theory of Numbers.** 3 credits.
Prerequisite: 224. Development of an integral domain, prime numbers, Euler's algorithm, congruence, Euler's Phi function, quadratic residues, Pell equation, Waring's problem.

345:413/513. **Introduction to Topology.** 3 credits.
Prerequisite: 312. Introduction to topological spaces and topologies, functions, mappings, homeomorphisms, connected spaces, compact spaces, metric spaces.

345:414/514. **Higher Algebra.** 3 credits.
Prerequisite: 223. Mathematical induction, partial fractions, complex number system, binomial theorem, multinomial theorem, summation of series, limits, infinitesimals, convergence and divergence of series, power series, inequalities, continued fractions and applications to indeterminate equations, theory of numbers, probability, method of least squares.

345:421-422/521-522. **Advanced Calculus I, II.** 3 credits each quarter.
Sequential; prerequisite, 224. An introduction to the real number system, sequences and series, limits, continuity, differentiation, partial differentiation, integration, multiple integration, uniform convergence.

345:423/523. **Advanced Mathematical Analysis.** 3 credits.
Prerequisite: 422. Topics to include maxima and minima of several variables, transformations, improper integrals, line and surface integrals, approximate integration, complex variable.

345:425/525. **Theory of Functions of a Complex Variable.** 3 credits.
Prerequisite: 224. Complex numbers, analytic functions, elementary functions of a complex variable, mapping and geometry of elementary functions, theory of integrals, power series, residues and poles, conformal mapping.

Sequential: prerequisite, 225. Interpolation, finite difference methods, numerical differentiation and integration; numerical solutions to ordinary differential equations, algebraic and transcendental equations, coding, method of least squares.

345:431/531. **Special Functions.** 3 credits.
Prerequisite: 225. Power series solution to differential equations, Bessel functions, Legendre functions, hypergeometric functions, boundary-value problems, orthogonal functions, Fourier Series.

345:432/532. **Partial Differential Equations.** 3 credits.

345:433/533. **Laplace Transforms.** 3 credits.
Prerequisite: 225. Applied properties, differentiation and integration of transforms, convolution theorem, transforms of unit, impulse, and periodic functions; applications to differential equations.

345:434/534. **Vector Analysis.** 3 credits.
Prerequisite: 224. Vector algebra with applications to analytic geometry, differential and integral calculus of scalar-vector, vector-scalar, and vector-vector functions, integral theorems, curvilinear coordinates, engineering applications.

345:435/535. **Tensor Analysis.** 3 credits.
Prerequisite: 434. n-dimensional spaces, coordinate transformations, contravariant and covariant vectors; contravariant, covariant and mixed tensors; symmetric and skew-symmetric tensors, fundamental operations with tensors, differentiation of tensors, applications.
345:441/541. Non-Euclidean Geometry. 3 credits.
Prerequisite, 223. A historical development of the modern view in geometry emphasizing postulational systems and the introduction of coordinates in various spaces.

345:442/542. Projective Geometry. 3 credits.
Prerequisite, 312 (or equivalent). An introduction to projective linear spaces and coordinate systems: the propositions of incidence, the principle of duality, the theory of forms of the first and second kinds, conics.

GRADUATE COURSES

345:610. Matrix Algebra. 3 credits.
Prerequisite, 225. Study of techniques used in matrices-symmetric-Hermitian, inverse of a matrix, rank, linear equations, vector spaces and linear transformations, characteristic equation of a matrix; bilinear, quadratic and Hermitian forms.

Sequential; prerequisite, 312. Study of abstract mathematical systems, axiomatic set theory, properties of groups and rings, fields, vector spaces, ideals, lattices, and sentential calculus.

345:614. Topology. 3 credits.
Prerequisite, 413. Sets, topological spaces, product and quotient spaces, embedding and metrization, compact spaces, uniform spaces.

Sequential; prerequisite, 223. Structure of the real number system, sets and their properties, limit theorems, properties of continuous and semi-continuous functions, derivatives of functions, Borel sets and Baire functions, measure, measurable sets, measurable functions, Riemann and Lebesgue integration, the Lebesgue integration as a set function, planar measure and double integration.

Sequential; prerequisite, 423. Concepts of number systems, elementary functions, homeomorphic functions, continuity, differentiability, power series, complex integration, residue theory, analytic continuation, singularities.

345:628. Advanced Numerical Analysis. 3 credits.
Prerequisite, 428 (or equivalent). Least square polynomial approximation, Gaussian quadrature, approximations of types other than polynomial, numerical solution of differential equations of various types, integral equations and solutions of systems of equations.

345:841. Algebraic Geometry. 3 credits.
Prerequisite, 312. An introduction to the study of systems of algebraic equations in several variables and of the structure which can be associated with such equations.

345:642. Differential Geometry. 3 credits.
Prerequisite, 422. An introduction to the theory of curves and surfaces in three dimensions, intrinsic geometry of a surface, the geometry of surfaces in the large.

For properly qualified candidates for the Master's Degree in mathematics and statistics. Seminar type discussions scheduled by the Department involving special problems dealing with various phases of mathematics and statistics. A supervised research project will be included in this course.

347: STATISTICS

347:200. Statistical Laboratory. 2 credits.
Opportunity for individual work under staff guidance.

347:251-252. Introduction to Statistics I, II. 3 credits each quarter.
Sequential; prerequisite, 345:101 (or equivalent). An introduction to the fundamental ideas of statistics at a pre-calculus level to include topics from descriptive statistics, probability, discrete distributions, problems of sampling, normal distribution, tests of hypotheses, regression and correlation, analysis of variance, time series and index numbers, nonparametric statistics, estimation.

Prerequisite, 345:223. An introduction to frequency distributions, probability, probability distributions, expected values, sums of random variables.

Sequential; prerequisite, 425:222. Elementary combinatorial probability theory, probability distributions, mathematical expectation, functions of random variables, sampling distributions, point and interval estimation, tests of hypotheses, regression and correlation, introduction to experimental designs.

347:454/554. Sampling Techniques. 3 credits.
Prerequisite, 252. Statistical aspects of sampling, general discussion of methods of drawing samples, evaluation of sample surveys.

GRADUATE COURSES

Sequential; prerequisite, 345:422. Probability theory, random variables and probability distribu-
tions, moment generating functions and limit theorems, large and small sample theory, theory of tests of hypotheses, point and interval estimation, introduction to nonparametric statistics.

347:661. Regression and Correlation. 3 credits.
Prerequisite: 653. Analytical theory of least squares using matrix notation, methods of matrix inversion, multiple regression, orthogonal polynomials, basic analysis of variance, correlation analysis, partial correlation.

347:662. Analysis of Variance. 3 credits.
Prerequisite: 653. The general linear model in matrix notation, experimental design models, analysis of variance and covariance, variance components, response surfaces.

3 credits each quarter.
Sequential; prerequisite, 653 or 655. Applications of statistical theory to the natural and physical sciences and engineering, including tests of hypotheses, regression and correlation, analysis of variance and covariance, nonparametric statistics, sampling, quality control, reliability, and other selected topics.

347:665-666. Advanced Topics in Statistics I, II.
3 credits each quarter.
Sequential; prerequisite, 652 (or permission). Selected topics in statistics including concepts in nonparametric statistics, order statistics, advanced inference, multivariate analysis, sequential analysis, stochastic processes, advanced analysis of variance.

3 credits.
Prerequisite: 345:225 and one course in statistics. Translation of statistical operations into machine language. Iterative procedures, recursion formulas.

347:671-672. Statistical Methods I, II.
3 credits each quarter.
Sequential; prerequisite, 345:101 (or equivalent). Scientific inference using frequency distributions, tests of significance, point and interval estimation, regression and correlation, analysis of variance, covariance, non-parametric statistics.

347:673. Experimental Design.
3 credits.
Prerequisite: 252 (or equivalent). Fundamental principles of designs, randomized blocks, latin squares, factorial design, individual comparisons, confounding, applications to problems in applied fields.

2 credits.
Prerequisites: 672, 375:602 or permission. Theory and techniques in identifying independent variables through the use of factor analysis.

3 credits.
Prerequisites: 252, 375:145 or permission. Theoretical bases and relationships among various non-parametric techniques compared with parametric ones.

352: FRENCH

4 credits each quarter. Sequential.
Reading, speaking, writing and listening comprehension; intensive drill in pronunciation, short stories, outside reading and/or supplementary work in the Language Laboratory.

3 credits each quarter. Sequential.
Prerequisite: 103 (or equivalent). Grammar review, practice in reading, writing, speaking and listening comprehension; short stories, plays, novels on intermediate level, outside reading and/or supplementary work in the Language Laboratory.

0 credits.
3 hours per week. May be repeated. A one-quarter non-credit course for graduate students preparing for the graduate reading proficiency examination in French. No previous knowledge of French required.

3 credits each quarter.
Prerequisite: 203 (or equivalent). Advanced composition using French models, special attention to words and idioms, development of oral expression and conversational ability.

3 credits each quarter.
Prerequisite: 203 (or equivalent). Introduction to the study of French literature; the fundamentals of explication de texte; with reading and class discussion in French of representative works.

3 credits each quarter.
Prerequisite: 203 or equivalent. An audio-visual survey of the French cultural heritage emphasizing color slides and recorded music. Conducted in French.

1 credit.
Prerequisite: 203 (or equivalent). Intensive drill in pronunciation with correction and improvement of student’s accent, emphasis on articulation and intonation by use of phonograph records and individual tape recordings made by the student.

3 credits each quarter.
Prerequisite: 203 or equivalent. A continuation of the material covered in 301, 302, and 303 at a more advanced level.
352:407-408-409/507-508-509, French Literature of the Middle Ages and the Renaissance. 3 credits each quarter.

352:411-412-413/511-512-513, Seventeenth Century French Literature. 3 credits each quarter.

Prerequisite, 203 or equivalent. Representative works of the seventeenth century writers Malherbe, Théophile, Boileau, La Fontaine, Corneille, Racine, Molière, Descartes, Pascal, Bossuet, La Rochefoucauld, La Bruyère, Mme. de Sévigné and Mme. de la Fayette.

Prerequisite, 203 or equivalent. French literature of the eighteenth century.

Prerequisite, 203 or equivalent. Study of the novel of the nineteenth century with reading and class discussion in French of representative works.

352:423-424-425/523-524-525, Nineteenth Century French Poetry and Drama. 3 credits each quarter.

Prerequisite, 203 or equivalent. Poetry and drama of the nineteenth century with emphasis on the works of Lamartine, Hugo, Vigny, Musset, Dumas père, Scribe, Dumas fils, Baudelaire, Verlaine, Rimbaud, Mallarmé, Bécourt, Le Théâtre libre, Bostand and Maeterlinck.

352:427-428-429/527-528-529, Twentieth Century French Literature. 3 credits each quarter.

Prerequisite, 203 or equivalent. Representative plays, novels and poems by Cide, Proust, Valéry, Claudel, Bernanos, Péguy, Giraudoux, Cocteau, Anouilh, Malraux, Satre, Caneus and others.

352:491-492-493, Individual Reading in French. 1 to 3 credits each quarter.

Prerequisite, permission.

GRADUATE COURSES

352:601, Advanced French Grammar and Stylistics. 3 credits.

Advanced study of normative French grammar with translation into French of English texts and practice in free composition.

352:603-604-605, Romance and Applied French Linguistics. 3 credits each quarter.

Studies in Romance Linguistics with particular emphasis on linguistic developments and methodology in French; application of essential linguistic principles in learning and teaching French.

352:606-608-609, Selected Topics in the Movement of French Ideas. 3 credits each quarter.

Idea characteristic of various periods in French literature. The first quarter will focus on writers before 1750. Second and third quarter topics will be selected from 1750 to the present time. A formal report demonstrating the ability to use essential research techniques will be required in this course.

352:611-612-613, Contemporary French Culture as Expressed in Literature. 3 credits each quarter.

An anthropological approach to culture emphasizing social and civic institutions, education, value systems, national characteristics, and historical perspectives. A study of major themes and patterns of French culture as they are consciously and unconsciously expressed in nineteenth and twentieth century literature.

353:101-102-103, Beginning German.

4 credits each quarter. Sequential.

Reading, speaking, writing and listening comprehension; intensive drill in pronunciation, short stories, outside reading and/or supplementary work in the Language Laboratory.

353:201-202-203, Intermediate German.

3 credits each quarter. Sequential.

Prerequisite, 103 or equivalent. Grammar review, practice in reading, writing, speaking and listening comprehension; short stories, plays, novels on intermediate level, outside reading and/or supplementary work in the Language Laboratory.

353:205, German Readings for Non-Majors. 0 credits.

3 hours per week. May be repeated. A one-quarter non-credit course for graduate students preparing for the graduate reading proficiency examination in German. No previous knowledge of German required.

353:301-302-303, German Composition and Conversation. 3 credits each quarter.

Prerequisite, 203 (or equivalent). Advanced composition using German models, special atten-
tion to words and idioms, development of oral expression and conversational ability.

353:305-306-307. INTRODUCTION TO GERMAN LITERATURE. 3 credits each quarter.
Prerequisite, 203 (or equivalent). Introduction to the study of German literature. Readings and class discussions in German of representative works.

353:403-404-405. ADVANCED GERMAN COMPOSITION AND CONVERSATION. 3 credits each quarter.
Prerequisite, 303 (or equivalent). Development of oral expression and conversational ability.

353:305-306-307. INTRODUCTION TO GERMAN LITERATURE. 3 credits each quarter.
Prerequisite, 203 (or equivalent). Introduction to the study of German literature. Readings and class discussions in German of representative works.

353:419/519. THE AGE OF GOETHE I. 3 credits.
Prerequisite, 203 or equivalent. Enlightenment and the generation of Sturm und Drang, including works of Wieland, Lessing, Klopstock, Herder the young Goethe, and others.

353:420/520. THE AGE OF GOETHE II. 3 credits.
Prerequisite, 203 or equivalent. Faust, selections from parts I and II. Ballads of Goethe and Schiller.

Prerequisite, 203 or equivalent. Romanticism. The poetry of Goethe, Novalis, Eichendorf, Heine, and others. Study of the Märchen, folklore and Germanic mythology.

353:431/531. CLASSICAL GERMAN DRAMA. 3 credits.
Prerequisite, 203 or equivalent. Representative works of the major classical dramatists including Lessing, Goethe, (except Faust) Schiller, Kleist, Grillparzer, and others.

353:432/532. DRAMA OF SOCIAL CRITICISM. 3 credits.
Prerequisite, 203 or equivalent. Representative works of the major dramatists of social criticism including Sturm und Drang dramatists, Büchner, Hebbel, Hauptmann and Wedekind.

353:433/533. TRENDS IN MODERN DRAMA. 3 credits.
Prerequisite, 203 or equivalent. Representative works of modern dramatists including Hofmannsthal, Kaiser, Brecht, Zuckmayer, Dürenmatt, and Borchert.

353:435/535. THE ROMANTIC SHORT STORY. 3 credits.
Prerequisite, 203 or equivalent. Reading and discussion of works of German Romanticism, including those of Tieck, Kleist, E.T.A. Hoffmann, Brentano, Eichendorff, and others.

353:436/536. THE SHORT STORY OF POETIC REALISM. 3 credits.
Prerequisite, 203 or equivalent. Reading and discussion of works representative of the period, including those of Doste-Hülshoff, Stifter, Keller, Meyer, Storm, and others.

353:437/537. THE MODERN SHORT STORY. 3 credits.
Prerequisite, 203 or equivalent. Reading and discussion of representative works of Hauptmann, Schnitzler, T. Mann, Kafka, Zweig, Borchert, Boll, and others.

353:439/539. TWENTIETH CENTURY GERMAN LITERATURE I. 3 credits.
Prerequisite, 203 or equivalent. The fading of old traditions and emergence of new values during the first decades of the century. Readings and discussions of the works of T. Mann, Schnitzler, Hauptmann, Kaiser, George, Hofmannsthal, Rilke, Wedekind, and others.

353:440/540. TWENTIETH CENTURY GERMAN LITERATURE II. 3 credits.
Prerequisite, 203 or equivalent. New interpretations of reality during and after World War I. A continuation of the studies undertaken in 439, based on readings and discussions of the writings of Hesse, Kafka, Döblin, Werfel, and others.

353:441/541. TWENTIETH CENTURY GERMAN LITERATURE III. 3 credits.
Prerequisite, 203 or equivalent. Recent trends as reflected in such writers as Zweig, Zuckmayer, Dürenmatt, Boll, Frisch, Grass, and others.

353:491-492-493. INDIVIDUAL READING IN GERMAN. 1-3 credits each quarter.
Prerequisite, permission.

355: ITALIAN

355:101-102-103. BEGINNING ITALIAN. 4 credits each quarter. Sequential.
Reading, speaking, writing and listening comprehension; intensive drill in pronunciation, short stories, outside reading and/or supplementary work in the Language Laboratory.

355:201-202-203. INTERMEDIATE ITALIAN. 3 credits each quarter. Sequential.
Prerequisite, 103 (or equivalent). Grammar review, practice in reading, writing, speaking and listening comprehension; short stories, plays, novels on intermediate level, outside reading and/or supplementary work in the Language Laboratory.

357: RUSSIAN

357:101-102-103. BEGINNING RUSSIAN. 4 credits each quarter. Sequential.
Reading, speaking, writing and listening comprehension; intensive drill in pronunciation, short stories, outside reading and/or supplementary work in the Language Laboratory.
357:201-202-203. INTERMEDIATE RUSSIAN. 3 credits each quarter. Sequential.
Prerequisite, 103 (or equivalent). Grammar review, practice in reading, writing, speaking and listening comprehension; short stories, plays, novels on intermediate level, outside reading and/or supplementary work in the Language Laboratory.

357:301-302-303. RUSSIAN COMPOSITION AND CONVERSATION. 3 credits each quarter.
Prerequisite, 203 (or equivalent). Advanced composition using Russian models, special attention to words and idioms, development of oral expression and conversational ability.

357:305-306-307. INTRODUCTION TO RUSSIAN LITERATURE. 3 credits each quarter.
Prerequisite, 203 (or equivalent). Direct reading and discussion, in Russian, of novels, short stories, and drama in the modern idiom of Spain, Puerto Rico and the 17 Spanish-American republics.

357:309-310-311. RUSSIAN CIVILIZATION AND CULTURE. 3 credits each quarter.
Prerequisite, 203 (or equivalent). Readings and discussion of Russian texts relating to important developments in Russian civilization and culture.

357:427. RUSSIAN LITERATURE OF THE TWENTIETH CENTURY. 5 credits.
Prerequisite, 203 (or equivalent). Reading and discussion of selected literary works from Gorky to Evtushenko.

357:439. ADVANCED RUSSIAN SYNTAX, GRAMMAR AND CONVERSATION. 5 credits.
Prerequisite, 405 (or equivalent). Advanced work in composition, translation into Russian, and idiomatic use of the spoken language.

357:491-492-493. INDIVIDUAL READING IN RUSSIAN. 1-3 credits each quarter.
Prerequisite: permission.

358: SPANISH

358:101-102-103. BEGINNING SPANISH. 4 credits each quarter. Sequential.
Reading, speaking, writing and listening comprehension; intensive drill in pronunciation, short stories, outside reading and/or supplementary work in the Language Laboratory.

358:201-202-203. INTERMEDIATE SPANISH. 3 credits each quarter. Sequential.
Prerequisite, 103 (or equivalent). Grammar review, practice in reading, writing, speaking and listening comprehension; short stories, plays, novels on intermediate level, outside reading and/or supplementary work in the Language Laboratory.

358:301-302-303. SPANISH COMPOSITION AND CONVERSATION. 3 credits each quarter.
Prerequisite, 203 (or equivalent). Advanced composition using Spanish models, special attention to words and idioms, development of oral expression and conversational ability.

358:305-306-307. INTRODUCTION TO SPANISH AND SPANISH-AMERICAN LITERATURE. 3 credits each quarter.
Prerequisite, 203 (or equivalent). Direct reading and discussion, in Spanish, of novels, short stories, and drama in the modern idiom of Spain, Puerto Rico and the 17 Spanish-American republics.

358:309. INTRODUCTION TO HISPANIC LINGUISTICS. 5 credits.
Prerequisite, 203 (or equivalent). An elementary survey of four approaches to the study of the Spanish language: (a) the history of the language, from late spoken Latin to modern Spanish; (b) the structure of present-day Spanish; its phonology and grammar; (c) the dialects, or regional varieties, of Spanish; (d) applied linguistics, with special emphasis on the problems likely to be met by prospective teachers of Spanish. Lectures and discussion. This course should be taken by all Spanish majors.

358:401. COMMERCIAL CORRESPONDENCE IN SPANISH. 5 credits.
Prerequisite, 203 (or equivalent). Translation of business letters from Spanish into English and from English into Spanish, with emphasis on modern phraseology in commercial correspondence.

358:403-404-405. ADVANCED SPANISH COMPOSITION AND CONVERSATION. 3 credits each quarter.
Prerequisite, 303 (or equivalent). A continuation of the material covered in 301, 302, and 303 at a more advanced level.

Prerequisite, 203 (or equivalent). Reading and discussion of representative novels and short stories with special emphasis on the works of Miguel de Cervantes. Drama, poetry and essays of the sixteenth, seventeenth, and eighteenth centuries will be studied. Conducted in Spanish.
Prerequisite, 203 (or equivalent). Reading, discussion and lectures. Study of Neoclassicism, Romanticismo, Realismo, Naturalismo, the generation of 1898 and 1927. Conducted in Spanish.

358:419-420-421/519-520-521. SPANISH LITERATURE SINCE 1940. 3 credits each quarter.
Prerequisite, 203 (or equivalent). Reading and discussion of the most representative writers of Spain's literary Renaissance since 1940. Representative poetry, drama, novels, and short stories will be studied. Conducted in Spanish.

Prerequisite, 203 (or equivalent). Reading and discussion of representative Spanish-American Literature from discovery to the present time. Oral and written reports. Conducted in Spanish.

Prerequisite, 203 (or equivalent). Emphasis on the customs, traditions, literary trends, and artistic tendencies that constitute Spain's specific contribution to Western Civilization. Cultural evolution, including educational and political institutions of Puerto Rico and the 17 Spanish-American republics. Conducted in Spanish.

358:491-492-493. INDIVIDUAL READING IN SPANISH. 1-3 credits each quarter.
Prerequisite, permission.

GRADUATE COURSES

358:601-602-603. MEDIEVAL AND RENAISSANCE SPANISH LITERATURE. 3 credits each quarter.
Reading and discussion of the monumental medieval literary works of Spain such as Poema de Mio Cid, El Conde Lucanor, El Libro de Buen Amor. Studies in the effect of the revival of learning on Spanish literature; Italianism, Humanism, Mysticism. Conducted in Spanish.

358:605. SEMINAR IN HISPANIC LINGUISTICS. 5 credits.
Present-day methods of comparative, historical, and structural linguistics. Research work in Castilian and Spanish American linguistics. Offered in accordance with student needs. Conducted in Spanish.

358:607. SEMINAR IN HISPANIC BIBLIOGRAPHY AND IN RESEARCH METHODS. 5 credits.
Required of all candidates on the thesis plan. Special studies in research methods. Identification, analysis and evaluation of Hispanic bibliographical sources. Offered in accordance with student needs. Conducted in Spanish.

358:609-610-611. SEMINAR ON CLASSICAL AND MODERN PENINSULAR LITERATURE. 3 credits each quarter.
Reading and discussion of representative writers from the Renaissance to the late Baroque period. Studies in the essay, the novel, the theater, the poetry and the philosophic writings of the modern period. Conducted in Spanish.

358:613-614-615. SEMINAR ON SPANISH AMERICAN LITERATURE. 3 credits each quarter.
Studies in representative writers preceding the War for Independence. Reading and discussion of various genres and authors representing significant literary developments of the modern period. Conducted in Spanish.

358:690. THESIS WRITING. 9 credits.

360: PHILOSOPHY

360:101. INTRODUCTION TO PHILOSOPHY. 4 credits.
An introduction to philosophic problems and attitudes through acquaintance with the thought of some of the leading thinkers of the Western tradition.

360:120. INTRODUCTION TO ETHICS. 4 credits.
Prerequisite, 101. An introduction to the problems of moral conduct through readings from the tradition and class discussion; Nature of "good", "right", "ought" and "freedom".

360:130. COMPARATIVE RELIGION. 4 credits.
Prerequisite, 101. The insights and teachings of the major living religions compared and analyzed by a study of their basic texts; Buddhism, Hinduism, Confucianism, Taoism, Judaism, Christianity, Islam.

360:170. INTRODUCTION TO LOGIC. 4 credits.
An introduction to the nature and function of deductive systems with particular attention to traditional logic, including forms of immediate inference and formal fallacies.

360:211. HISTORY OF PHILOSOPHY I. 4 credits.
Prerequisite, one philosophy course or permission of instructor. The history of Western thought, including its scientific, religious, social and political circumstances from Pre-Socrates through Platonics.

360:212. HISTORY OF PHILOSOPHY II. 4 credits.
Prerequisite, 211 or permission of instructor. A continuation of 211 from St. Augustine through the Renaissance and Reformation.

360:213. HISTORY OF PHILOSOPHY III. 4 credits.
Prerequisite, 212 or permission of instructor. A continuation of 212 from Descartes through Hegel, Mill and Schopenhauer.
360:216. CLASSICAL AMERICAN PHILOSOPHY. 4 credits.
Prerequisite, one course in philosophy. The movement of ideas in America is examined from Puritanism to pragmatism, not only as it reflects the stream of Western ideas, but especially as it may be said to contain a particularly American philosophy in development.

360:222. ETHICAL ANALYSIS. 4 credits.
Prerequisite, 120 or two courses in philosophy. The examination and analysis of ethical problems such as the "is-ought" dichotomy, the relation of language to ethics as well as types of ethical theories.

360:224. SOCIAL AND POLITICAL PHILOSOPHY. 4 credits.
Prerequisite, one course in philosophy or permission of instructor. An examination of the images of man implied in the major social and political philosophies in Western History. Special attention is devoted to the epistemological, methodological, ontological and axiological assumptions and consequences of these theories.

360:232. PHILOSOPHY OF RELIGION. 4 credits.
Prerequisite, two courses in philosophy. Discussion and analysis of the problems of theology and the nature of the religious experience; God's nature and existence, immortality, sin, faith, and reason, the holy, revelation and redemption.

360:250. PHILOSOPHY OF ART. 4 credits.
Prerequisite, 101 or permission. An introduction to the major theories of the nature of art and the art object with readings and discussions of examples. Such thinkers as Plato, Aristotle, Schopenhauer, Lessing, Pater and Freud are examined.

360:274. FORMAL LOGIC. 4 credits.
Prerequisite, 170 or permission of instructor. An introduction to symbolic logic through the construction of a propositional calculus and a first-order predicate calculus.

360:334. CONTEMPORARY PROBLEMS IN PHILOSOPHY OF RELIGION. 4 credits.
Prerequisite, 232 or permission of instructor. An examination of contemporary religious ideas through acquaintance with the thought of Buber, Tillich, Bon Hoeffer, Barth, Bulmann, Altizer, et al.

360:372. INDUCTIVE LOGIC AND SCIENTIFIC METHOD. 4 credits.
Prerequisites, 170 and one other course in philosophy. Problems of inductive inference, probability theory, sampling, verification, hypothetico-deductive method.

360:417. CONTEMPORARY CONTINENTAL PHILOSOPHY. 4 credits.
Prerequisites, 211, 212 and 213; or permission of instructor. Analysis and discussion of the major trends in Continental philosophy; Neo-Kantianism, Existentialism and Phenomenology, Neo-Hegelianism, and Marxist revisionism.

360:418. CONTEMPORARY BRITISH AND AMERICAN PHILOSOPHY. 4 credits.
Prerequisites, 211, 212 and 213; or permission of instructor. An analysis and discussion of the major trends in recent British and American philosophy; pragmatism, logical empiricism, linguistic analysis, logical analysis, and naturalism.

360:452/552. AESTHETICS. 4 credits.
Prerequisite, 230 or permission of instructor. An analysis of the elements of aesthetic experience, aesthetic judgment and the aesthetic object.

360:462/562. THEORY OF KNOWLEDGE. 4 credits.
Prerequisite, three courses in philosophy. An examination of the nature of knowledge: theories of perception, conception and truth, the problem of induction, and the relation of language to knowledge.

360:464/564. PHILOSOPHY OF SCIENCE. 4 credits.
Prerequisite, 372 or 402 or permission of instructor. The nature of explanation, causality, and physical theory.

360:465/565. SEMINAR: SPECIAL PROBLEMS IN PHILOSOPHY OF SCIENCE. 4 credits.
Prerequisite, permission of department member.

360:490/580. SEMINAR. 4 credits.
Prerequisite, permission of instructor.

360:481/581. SEMINAR. 4 credits.
Prerequisite, permission of instructor.

360:482. SEMINAR. 4 credits.
Prerequisite, permission of instructor.

360:488-489. COORDINATING SEMINARS I, II. 2 credits each quarter.
Sequential. Individual work course for majors, in which the materials and insights of the area of concentration are combined into a thesis in the light of the general principles of philosophic criticism. Open to philosophy majors by permission of department head.

GRADUATE COURSES

Admission to courses requires permission of departmental advisor.

360:611. ANCIENT PHILOSOPHY. 4 credits.
Beginning with the early cosmologists, this is a study of the origins and development of Western philosophy, the syntheses of Plato and Aristotle, through Plotinus.

360:612. MEDIEVAL PHILOSOPHY. 4 credits.
Prerequisite, 611. Continuation of 611, from the Patristics through the breakup of Scholasticism.
360:613. Renaissance and Early Modern Philosophy. 4 credits.
Prerequisite, 612. Continuation of 612, from Renaissance Humanism and Cosmology to Kant.

360:614. Modern Philosophy. 4 credits.
Prerequisite, 613. Continuation of 613, from Kant through Nietzsche.

360:616. Existential Phenomenology. 4 credits.
This course presents the classical phenomenological tools: intentionality, eidetic reduction and noetic-noematic distinctions. The phenomenon of the "lived-world" is explored via the phenomenological method, centering on the experience of freedom, death and anxiety in their ontological significance. Emphasis will be placed upon specific readings in the problem areas derived from the existential and phenomenological literature.

360:617. Logical Empiricism. 4 credits.
An analysis and discussion of the positivistic approach to the problems of truth and confirmation, meaning and verification, and sensation and observation; considerable emphasis upon the "interdisciplinary problems" raised by this approach, such as the problems of law and explanation in history. Reading covering the works of Ayer, Russell, (the early) Wittgenstein, Carnap, Hempel, Scriven, Dray, Gardner, et al.

360:618. Analytic Philosophy. 4 credits.
Analysis and discussion of the analytic approach to the problems of referring, truth, the relation of language to metaphysics, meaning, and the concept of a person; particular emphasis upon determining the motivation, contribution, and value of this approach. Reading covering the works of (the late) Wittgenstein, Moore, Austin, Anscombe, Geach, Kenny, Vesey, et al.

360:626. Ethical Theory. 4 credits.
An examination of the problems related to human conduct and decision-making in the light of the Western tradition as well as the contemporary insights of positivism, phenomenology, existentialism, logical analysis, naturalism and pragmatism.

360:676. Logical Theory. 4 credits.
An introduction to the main problems typically encountered in logical theory: Logic and ontology, alternative logics, truth and analyticity, induction, special problems concerning the interpretation of the conditional and modal logics. It is suggested that graduate students be familiar with the material covered in undergraduate logic (274) before taking this course.

360:680. Seminar. 4 credits.

360:681. Seminar. 4 credits.

360:682. Seminar. 4 credits.

365: Physics
Prerequisites, high-school algebra and trigonometry, or 345:111 as a corequisite. General physics; emphasizes such unifying concepts of contemporary physics as conservation laws, symmetry principles and the nature of particles and fields. Newtonian mechanics; electricity and magnetism; interference and diffraction of waves; the nature of heat; space and time in the theory of relativity; quantum mechanics of atomic phenomena; recent developments in the study of elementary particles.

Corequisite, 101-102-103. Optional courses to provide additional computational experience in introductory physics, and to emphasize the application of algebra and trigonometry to the solution of physical problems. Course 107 should be taken concurrently with 101, etc.

Prerequisite, adequate preparation in high-school algebra and trigonometry. An introductory physics course for students of science and engineering. Kinematics and classical mechanics with emphasis on conservation laws, particularly as they relate to contemporary physics. Thermodynamics from the atomic point of view; concepts of order and disorder. Basic laws of electromagnetism. Wave motion, both mechanical and electromagnetic. Interference and diffraction of waves for both coherent and non-coherent sources. Vectors and a limited amount of calculus are introduced as needed.

Corequisite, 201-202-203. Optional courses intended (1) to stress problem-solving techniques in elementary physics, and (2) to elaborate the application of mathematics through calculus to simple physical phenomena. Course 211 should be taken concurrently with 201, etc. Recommended for freshmen students, and also for other students with average performance or less in prior physical science and mathematics courses.

365:301. Elementary Modern Physics. 4 credits.
Prerequisite, 203 or permission of the instructor. Special relativity, introduction to quantum
physics, atomic spectra, topics in nuclear and solid state physics.

365:311-312-313. Colloquium. 1 credit each quarter.

365:397-398-399. Undergraduate Research I, II and III. 1 to 6 credits each quarter.
Prerequisite, permission of instructor. Participation in a current research project in the department under the supervision of a faculty member.

365:400/500. History of Physics. 4 credits.
Prerequisite, 103 or 203. A study of the origin and evolution of the major principles and concepts that characterize contemporary physics.

Prerequisite, 203. Contemporary physics at the intermediate level, aimed at the understanding of the observable properties of matter in terms of the interactions of its microscopic constituents.

365:410/510. Electronic Devices and Circuits. 4 credits.
Prerequisite, 203; corequisite, 345:224. Electron tubes, semiconductors, and their utilization in circuits. Introduction to the mathematical analysis of these circuits.

Prerequisite or corequisite, 410. Experiments involving measurements of physical properties of various systems which are most readily made with electronic instruments and circuits. Amplifiers, oscillators, bridges, special circuits. Detection and counting of nuclear radiations. Thermal and electrical properties of metals, semiconductors and other materials. Photoelectric effect. Charge on the electron.

365:420/520. Optics. 4 credits.
Prerequisites, 203 and 345:224. Reflection, refraction; prisms, thin lenses, thick lenses, mirrors; waves and their propagation; interference and diffraction; interference gratings; polarization; emission of light; velocity of light; photometry; lasers.

365:421/521. Optics Laboratory. 2 credits.
Corequisite, 420. Experimental studies of lenses, mirrors, prisms, diffraction gratings, interferometers, photometers, polarization, optical spectra and lasers.

365:430/530. Kinetic Theory and Thermodynamics. 4 credits.
Prerequisites, 203 and 345:224. Kinetic theory of gases; temperature; thermodynamic systems; work; ideal gases; real gases; laws of thermodynamics; entropy, reversibility and irreversibility; Carnot cycle; Kelvin temperature scale; change of phase.

Prerequisite, 203; corequisite, 345:225. Introduction to vector analysis, planar statics and kinematics, plane motion of a particle and of a rigid body, plane impulsive motion, moving frames of reference, spatial motion of a particle and of a rigid body. Lagrange's equations, the special theory of relativity.

Prerequisite, 203; corequisite, 345:225. Coulomb's law; Gauss's law; Poisson and Laplace equations; electrical images; magnetic statics; Kirchhoff's laws, chemical and thermal electromotive forces; Ampere's laws. Forces on moving charges, electromagnetic induction, alternating circuits, coupled circuits, filters, Maxwell's equations and electromagnetic waves.

365:450/550. X-rays. 4 credits.

Prerequisite, 413 or permission of instructor. Applications of electronic and solid state devices and techniques to research-type projects in contemporary physics. Introduction to resonance techniques; nuclear magnetic resonance, nuclear quadrupole resonance. Scintillation spectroscopy. Alpha and beta ray spectrometry.

365:460/560. Reactor Physics. 4 credits.

Prerequisite, 203. An introduction to the concepts of polymer molecular dimensions and configurations, rubber elasticity, diffusion and viscosity, polymer chain segmental motions, glass transition temperature, creep, visco-elasticity, partial crystallinity, spherulitic structure, and the mechanical properties of polymers.

365:470/570. Introduction to Solid State Physics. 4 credits.
Prerequisites, 301; 345:225 or permission of instructor. An account of the basic physical processes which occur in solids, with emphasis on
the fundamental relation between these processes and the periodicity of the crystalline lattice.

Prerequisites, 203, 345:225 or permission of instructor. The theoretical basis and experimental techniques of Nuclear Magnetic Resonance (NMR) spectroscopy. Classical concepts and quantum mechanical treatments of NMR. The Bloch equations; spin-spin and spin-lattice relaxation times. Steady state and transient phenomena. General features of broadband and high-resolution NMR spectra. NMR instrumentation and operating principles. The theory and analysis of high resolution NMR spectra. Discussion of the quantitative applications of broadband and high-resolution NMR spectra to the determination of physical and chemical structures.

365:490/590. INTRODUCTION TO QUANTUM MECHANICS. 4 credits.

Prerequisites, 435, 345:225 or permission of instructor. A brief introduction to the concepts of quantum mechanics; correspondence principle, uncertainty principle, state functions, Schroedinger's equation, WKB approximation, wave packets, continuum states, postulates of quantum mechanics, central potentials, hydrogen atom.

Prerequisites, 203, 345:225, 345:421 and senior or graduate standing in a physical science or engineering. A consideration of many mathematical methods useful in science and engineering. Elliptic integrals, perturbation theory, conformal mapping, variational methods, potential equation; diffusion equation, wave equation, Fourier transform, eigenfunctions and eigenvalues, solution of boundary value problems using Green's function, inertia tensor. Emphasis on applications to physics and engineering.

GRADUATE COURSES

365:601-602-603. ATOMIC AND NUCLEAR PHYSICS I, II AND III. 3 credits each quarter.

365:611-612-613. PHYSICAL PROPERTIES OF MATTER I, II AND III. 3 credits each quarter.

Prerequisite, 203. Experimental stress-strain relations of real materials, simple stress-strain analysis, brittle and ductile fracture, phenomenological theories for fracture, discussion of mechanical properties in terms of atomic and molecular structure, measurement and analysis of the friction and adhesion of real materials, surface tension of liquids and solids, thermodynamics of spreading and wetting, viscosity.

365:621-622-623. ATOMIC AND MOLECULAR SPECTRA I, II AND III. 3 credits each quarter.

Prerequisites, 301, 345:225 or permission of instructor. Elements of atomic theory; line spectra; electron spin and multiplet structure; the building-up principle and the periodic system of the elements; spectral intensities; hyperfine structure; isotope effect, nuclear spin. Molecular bands and development of theory; rotational, vibrational and electronic bands; Raman effect, isotopic effect, intensity of bands; methods of determining the molecular constants from wave number measurements.

Prerequisite, 345:225 or permission of instructor. Study of relations between the physical behavior of elastomers, plastics, and fibers and their molecular constitution.

365:635-636-637. PHYSICS OF POLYMERS LABORATORY I, II AND III. 2 credits each quarter.

Prerequisite, 201; corequisites, 631-632-633. Selected laboratory experiments to illustrate the principles and methods discussed in courses 631-632-633.

365:651-652-653. THEORETICAL CLASSICAL PHYSICS I, II AND III. 4 credits each quarter.

Prerequisites, 435 and 443. A course in theoretical physics emphasizing advanced classical mechanics, electricity and magnetism and developing the foundations of quantum mechanics. Inertial reference frames and Newtonian time scales, non-inertial frames, generalized coordinates, Lagrange's equations, theory of small vibrations, normal coordinates, Hamilton's equations, principles of least action, Hamilton-Jacobi method, application to atomic systems and origin of quantum mechanics, introduction to tensor analysis. Maxwell's equations, space-time symmetry of the field equations, transformation of the field vectors to moving systems, stress and strain in elastic media, electromagnetic forces on charges and currents, electrostatic energy, magnetostatic energy, Poynting's theorem, forces on dielectrics in an electrostatic field, forces in the magnetostatic field, forces in the electromagnetic field, general properties of an electrostatic field, calculations of an electrostatic
field from change distribution, expansion of the potential in spherical harmonics, dielectric polarization, general properties of the magnetostatic field, calculation of the fields of a current distribution.

365:661-662-663. THERMODYNAMICS AND STATISTICAL MECHANICS I, II and III. 3 credits each quarter.
Prerequisites, 430 and 345:225. Introduction to basic statistical concepts. Application of statistical ideas to systems of particles in equilibrium to develop the basic notions of statistical mechanics. Derivation of the purely macroscopic statements of thermodynamics. Illustration and discussion of macroscopic aspects followed by the same for the microscopic aspects of the theory. Phase transitions and quantum gases. Nonequilibrium situations and transport theory.

365:681-683. QUANTUM MECHANICS I, II and III. 3 credits each quarter.
Prerequisites, 433, 443, 345:225 or permission of instructor. Courses 683 and 490 are recommended but not required. A thorough development of ordinary wave mechanics; matrix formulation and unification in the more abstract Dirac formulation. The state function and its interpretation; wave packets; uncertainty relation; the wave equation; dynamical variables and operators; stationary states, Hamiltonian operators; eigenvalues and eigenfunctions; angular momentum; scattering theory; Green's functions; Born approximation; spin; Pauli matrices; symmetry properties; parity; perturbation methods; spin-orbit interactions; Clebsch-Gordon coefficients; exclusion principle; T-R invariance; S-matrix.

365:684. ADVANCED NUCLEAR PHYSICS. 4 credits.
Prerequisites, 603, 683. Quantum mechanics applied to the nucleus. Interaction of radiation with the nucleus, nuclear scattering, nuclear reactions; energy levels of nuclei.

365:685-686-687. SOLID STATE PHYSICS I, II and III. 3 credits each quarter.

365:697. GRADUATE RESEARCH. 1 to 8 credits.
Prerequisite, permission. Properly qualified candidates for the M.S. degree may obtain up to eight credits for participation in faculty-supervised original research investigations. Grades and credits will be awarded at the completion of relevant portions of approved research projects, and not necessarily at the end of normal grading periods.

365:698. MASTER'S THESIS RESEARCH. 1 credit.
Prerequisite, permission. With the approval of the department, one credit may be earned by candidates for the M.S. degree upon the satisfactory completion of a Master's Thesis. This thesis shall be the report of one or more faculty-supervised original research investigations.

365:699. SPECIAL TOPICS IN PHYSICS. 1 to 5 credits.
Prerequisite, permission. To enable students who need information in special areas in which no formal course is offered, to acquire knowledge in these areas.

370: POLITICAL SCIENCE

An examination of the American political system, with emphasis on the fundamental principles, ideas, institutions and processes of modern government.

370:110. CIVIL LIBERTIES IN AMERICA. 3 credits.
Cannot be used for credit toward major in Political Science. A study of civil liberties issues in the U.S. Historical materials, judicial decisions, and contemporary social criticism are used to enhance understanding of the nature and justification of our civil liberties.

370:120. CURRENT POLICY ISSUES. 3 credits.
Cannot be used for credit toward major in Political Science. A survey of the major political issues and problems confronting the nation; the environment in which public policies are formed and executed.

370:200. COMPARATIVE POLITICS. 5 credits.
An introduction to comparative political analysis; description of the political systems of Great Britain, France, Germany and the Soviet Union; the contrast between democracy and totalitarianism.

370:210. STATE AND LOCAL GOVERNMENT AND POLITICS. 3 credits.
Prerequisite, 100. An examination of institutions, processes and intergovernmental relations at the state and local level.

370:220. AMERICAN FOREIGN POLICY: PROCESS AND PROBLEMS. 4 credits.
An examination of American foreign policy with emphasis on the policy-making process; public opinion and other limitations on policy; specific contemporary policy problems in selected areas.
370:302. AMERICAN POLITICAL IDEAS. 3 credits.
Prerequisite, 100, or permission. A study of the
major thinkers and writers of American political
thought.

370:303. DEVELOPMENT OF WESTERN POLITICAL
THOUGHT. 5 credits.
Prerequisite, 100 or permission. A survey of the
major ideas and concepts of western political
theory from the pre-Socratics through the modern
period.

370:310. INTERNATIONAL POLITICS. 5 credits.
Prerequisite, 100 or 200. Relations among na-
tions examined in the political context.

370:320. BRITAIN AND THE COMMONWEALTH.
3 credits.
Prerequisite, 200 or permission. Description and
analysis of the government and politics of Great
Britain and the leading nations of the Common-
wealth.

370:321. WESTERN EUROPEAN POLITICS. 3 credits.
Prerequisite, 200 or permission. Description and
analysis of the government and politics of France,
Germany, Italy and Switzerland, with appropriate
references to Scandinavia and the Low Countries.

370:322. SOVIET POLITICS. 3 credits.
Prerequisite, 200. Theory and practice of gov-
ernment and politics in the Soviet Union, with
minor references to the Communist nations of
Eastern Europe.

370:323. EAST ASIAN POLITICS. 3 credits.
Prerequisite, 200. Government and Politics in
China and Japan, with minor emphasis on other
governments in the East Asian area.

370:324. MIDDLE EASTERN POLITICS. 3 credits.
Prerequisite, 200 or permission. An examination
of the government structures and political proc-
esses of the nations of the Middle East.

370:325. LATIN AMERICAN POLITICS. 3 credits.
Prerequisite, 200 or permission. An examination
of the patterns of government and politics in the
Latin American area.

370:326. POLITICS OF DEVELOPING NATIONS.
3 credits.
Prerequisite, 200 or permission. An examination
of the governmental structures and political proc-
esses of the emerging nations. The political pat-
terns of Southeast Asia and Africa will be empha-
sized.

370:340. AMERICAN POLITICAL PARTIES AND
INTEREST GROUPS. 5 credits.
Prerequisite, 100. The central role of political
parties and interest groups in the political pro-
cess. Development, structure and function of par-
ties; patterns of party allegiance and voting behavior;
interest groups and their effect on party govern-
ment and policy.

370:341. THE LEGISLATIVE PROCESS. 5 credits.
Prerequisite, 100. Examination of the American
legislative process on all governmental levels with
emphasis on the U.S. Congress. The structure and
role of the legislature and of parties and other
agencies that affect legislative processes.

370:350. THE AMERICAN PRESIDENCY. 3 credits.
Prerequisites, 100 or 330. The Presidency as the
focal point of politics, policy, and leadership in
the American political system.

370:360. THE SUPREME COURT AND
CONSTITUTIONAL LAW. 5 credits.
Prerequisite, 100. The development of the U.S.
Constitution as reflected chiefly in Supreme Court
decisions; judicial review in the democratic politi-
cal process. Special emphasis on contemporary
civil liberty problems.

370:370. PUBLIC ADMINISTRATION. 4 credits.
Prerequisites, 100 or 330. An examination of the
implementation of public policy. Administrative
organization and principles will be stressed.

370:380. URBAN AND REGIONAL POLITICS.
3 credits.
Prerequisite, 100 or 210. An examination of the
problems emerging from urban and regional
complexes in the United States. The structure and
processes of political decision-making at this level
will be analyzed.

370:390. INDEPENDENT STUDY. 3-5 credits.
Prerequisite, 15 credits in Political Science and
Adviser's permission.

370:395. PROSEMINAR FOR POLITICAL SCIENCE
MAJORS. 4 credits.
Prerequisite, 15 credits in Political Science.
Group study and research; discussion of recent
trends and developments in Political Science.
Required of all majors.

370:403/503. CONTEMPORARY POLITICAL IDEAS.
5 credits.
Prerequisite, 303 or permission. An examination
of central concepts of political thought from Marx
to the present. Modern liberalism, communism,
fascism and totalitarianism emphasized.

370:410/510. INTERNATIONAL LAW AND
ORGANIZATION. 3 credits.
Prerequisite, 310 or permission. Established
rules, practices and conventions governing the
relations of the several nations and their citizens
with one another; political organizations; United
Nations; regional patterns.

370:420/520. PROBLEMS IN COMPARATIVE
POLITICS. 3 credits.
Prerequisite, 200. Comparative studies in depth
of various aspects of foreign political systems.
Prerequisite, 340 or permission. The nature and role of public opinion in the political process; historical development, current methods of measurement. The political behavior of the American electorate.

370:441/541. The Policy Process. 3 credits.
Prerequisite, 12 credits in Political Science. An intensive study of the policy-making process, emphasizing the roles of the various participants in the executive and legislative branches as well as private individuals and groups. The case method will be emphasized.

370:460/560. The Judicial Process. 3 credits.
Prerequisite, 360. The role of judges and courts in the context of the American political process. Special attention is given to the Supreme Court, its politics, personalities and procedures, and to the role of the courts in a democratic political system.

370:470/570. The Administrative Process. 3 credits.
Prerequisite, 370. An intensive analysis of the process and environment of administrative decision-making.

Prerequisite, 380. An intensive study of selected problems in urban policy.

GRADUATE COURSES

370:600. Seminar in Political Theory. 5 credits.
Prerequisite, 9 credits of Political Science or permission. Selected topics in Political Theory will be investigated in depth.

370:610. Seminar in International Politics. 5 credits.
Prerequisite, 9 credits of Political Science or permission. Analysis of current problems in the theory and practice of international politics and organization.

370:620. Seminar in Comparative Politics. 5 credits.
Prerequisite, 9 credits of Political Science, including Political Science 420, or permission. Research on selected topics in Comparative Politics. The comparative method in Political Science.

Prerequisite, 9 credits of Political Science, or permission. Selected topics will be investigated in depth. Emphasis on theories of political development.

370:630. Seminar in National Politics. 5 credits.
Prerequisite, 9 credits of Political Science, or permission. Readings and research on the formulation, development and implementation of national policy in one or more areas of contemporary significance.

370:641. Seminar in Intergovernmental Relations. 5 credits.
Prerequisite, 9 credits of Political Science, or permission. A graduate level examination of problems resulting from the rapidly changing relations between levels of government in the U.S.; legal, social and political implications; comparisons with other federal systems.

Prerequisite, 9 credits of Political Science, including 460, or permission. Law and the judicial process are viewed in the political context. Readings and research on selected topics.

370:670. Seminar in the Administrative Process. 5 credits.
Prerequisite, 9 credits of Political Science, including 470, or permission. An intensive examination of the administrative implementation of public policies. Readings and research on selected topics.

370:680. Seminar in Urban and Regional Politics. 5 credits.
Prerequisite, 9 credits of Urban and Regional Politics, including 480, or permission. Focuses on the processes of policy formulation and execution in the modern metropolitan community, with emphasis on a structural-functional context.

370:690. Independent Research and Readings. 3-5 credits.
Prerequisite, permission.

370:695. Scope and Methods in Political Science. 3 credits.
Prerequisite, 9 credits of Political Science, or permission. Nature and scope of research problems in political science.

370:699. Thesis. 3-9 credits each quarter.

375: PSYCHOLOGY

375:141. General Psychology. 5 credits.
Basic facts and principles in the scientific study of behavior.

375:145. Quantitative Methods in Psychology. 4 credits.
Prerequisites, 141 and 110:211. Presentation of data, descriptive statistics, correlation, hypothesis testing and introduction to quantitative methodologies in psychology.
375:147. INTRODUCTION TO EXPERIMENTAL
PSYCHOLOGY. 5 credits.
Prerequisite, 141. Laboratory procedures and
quantitative methods in psychology. Lectures,
reference reading and experiments.

375:151. DEVELOPMENTAL PSYCHOLOGY. 5 credits.
Prerequisite, 141. A study of developmental
changes from infancy through senescence and the
typical adjustment problems of individuals of dif-
erent ages in our culture.

375:160. INDUSTRIAL PSYCHOLOGY. 4 credits.
Prerequisite, 141. A survey of the applications
of psychology in industry, business and govern-
ment. Emphasis will be on psychological under-
standing of men at work and the evaluation of
work behaviors.

375:307. PSYCHOLOGY OF CHILDHOOD AND
ADOLESCENCE. 4 credits.
Prerequisite, 141. Development of the individual
from birth through the adolescent period; emphasis
on needs and problems of typical children and
adolescents; preparation of case histories.

375:310. EXPERIMENTAL PSYCHOLOGY. 4 credits.
Prerequisites, 147 and a course in Statistics or
permission. Scientific methods and tools of modern
experimental psychology; group and individual
laboratory experiments in sensory processes, at-
tention, perception and learning.

375:315. SOCIAL PSYCHOLOGY. 4 credits.
Prerequisite, 141. Responses of the individual
in relation to group situations and social influences
of modern life. Lectures, readings and experi-
ments.

375:320. PHYSIOLOGICAL PSYCHOLOGY. 5 credits.
Prerequisite, 147. The relationship between the
behavior of organisms and physiological processes
mediating the behavior. Brain structure and func-
tion, motivation, etc. Biology 310:191 is desirable
as a background.

375:403/503. PERSONALITY. 3 credits.
Prerequisite, 141. Consideration of current con-
cepts of the normal personality with emphasis on
methods of measurement, experimental findings,
and research techniques.

375:405/505. PSYCHOPATHOLOGY OF CHILDHOOD.
4 credits.
Prerequisite, 307. Study of the diagnosis and
treatment of deviant children and adolescents.

375:407/507. PSYCHOLOGICAL TESTS AND
MEASUREMENTS. 4 credits.
Prerequisites, 141 and a statistics course or
permission. The nature, proper use and construc-
tion of tests and measurements in industry, gov-
ernment and education. Aptitude and achievement
tests, rating scales, attitude and opinion analysis.

375:409/509. INTRODUCTION TO THE CLINICAL
METHOD. 3 credits.
Prerequisite, 407. The use of tests, interviews
and personal history data in vocational and acad-
emic counseling and guidance.

375:412/512. PSYCHOLOGY OF LEARNING.
4 credits.
Prerequisite, 147. Problems of conditioning and
learning; acquisition of individual responses; rein-
forcement, drive, frequency, transfer, retention,
problem solving. Lectures, readings, and experi-
ments.

375:417/517. HISTORY OF PSYCHOLOGY. 4 credits.
Psychology in the pre-scientific period and the
details of the development of systematic view-
points in the 19th and 20th centuries.

375:420/520. HUMAN FACTOR. 4 credits.
Prerequisites, 141, 18 credits in Psychology.
Definition, analysis, and solution of specific se-
lected Human factors. Design problems.

375:421. ADVANCED INDUSTRIAL PSYCHOLOGY.
5 credits.
Prerequisites, 160 and 145. Theoretical and
social foundations of Industrial Psychology.

375:430/530. ABNORMAL PSYCHOLOGY. 5 credits.
Prerequisite, 9 credits in Psychology. Syndromes,
etiology, diagnosis and treatment of the major
psychopathological conditions ranging from tran-
sient maladjustments to the psychoses.

375:440-441-442. HONORS SEMINAR IN
PSYCHOLOGY. 3 credits each quarter.
Sequential; prerequisite, psychology major,
Senior standing and permission.

GRADUATE COURSES

375:601. THESIS-DISSERTATION SEMINAR.
4 credits.
Prerequisite, permission. Preparation and writ-
ing of the thesis and dissertation. Analysis of re-
search designs. Review of profession problems and
ethics.

375:602. ADVANCED PSYCHOLOGICAL STATISTICS I.
4 credits.
Prerequisites, 375:145 or permission. Basic
theory of hypothesis testing, chi square, analysis
of variance, regression analysis and correlation.

375:603. ADVANCED PSYCHOLOGICAL STATISTICS II.
4 credits.
Prerequisites, 375:602, 375:145 or permission.
Advanced topics in hypothesis testing and correla-
tional analysis. Survey of selected non-parametric
techniques.

375:606. INDIVIDUAL INTELLIGENCE TESTING I:
STANFORD-BINET. 3 credits.
Prerequisite, 407 and permission. Lectures and
practice in the administration and scoring of the
Stanford-Binet.
375:607. **Individual Intelligence Testing II: Wechsler Scales.** 3 credits.
Prerequisites, 407 and permission. Lectures and practice in the administration, scoring, and interpretation of the Wechsler Adult Intelligence Scale (WAIS) and the Wechsler Intelligence Scale for Children (WISC).

375:608-609. **Experimental Development I and II.** 4 credits each.
Prerequisites, 151 and 307. A probing of developmental data by means of intensive study of the literature, field observations and experimentation.

375:610. **The Psychology of Music.** 3 credits.
Prerequisites, undergraduate degree in psychology or music, permission of the instructor. A scientific study of music, its performers, and its listeners. Objective, empirical research in support from it. Contemporary theoretical formulations; Jungian, Adlerian, Rogerian, and other major systems.

375:611. **Theories of Personality.** 5 credits.
Prerequisites, 403 and 430. Historical considerations of personality. Psychoanalysis and deviations from it. Contemporary theoretical formulations; personality dynamics, structure and organization.

375:612. **Theories of Psychotherapy.** 4 credits.
Prerequisite, 612 or permission. Contemporary theories of psychotherapy including Freudian, Jungian, Adlerian, Rogerian, and other major systems.

375:613. **Experimental Psychopathology.** 4 credits.
Prerequisites, 430, 530 and 612. An approach to the study of abnormal behavior using objective measurements along with a series of pertinent and meaningful behavioral dimensions. Emphasis on experimental studies.

375:614. **Physiological Psychology I.** 3 credits.
A survey of the neuroanatomical and neurophysiological bases of behavior with emphasis on functional analyses of neural mechanisms and behavior.

375:615. **Physiological Psychology II.** 3 credits.
Prerequisite, 615. Detailed treatment of the biochemical and neurophysiological bases of motivated behavior, hormonal and endocrine mechanisms, gene and enzyme systems.

375:616. **Graduate Seminar in Psychology.** 2-4 credits.
Prerequisite, 30 graduate credits of psychology. Special topics in the major areas.

375:618. **Survey of Projective Techniques.** 3 credits.
Prerequisites, 430, 403, 407, 612 recommended. Introduction to the rationale assumptions and ethics of projective testing. Elementary administration, scoring, and interpretation of the Rorschach and survey of other important projective instruments.

375:620. **Practicum in Psychological Assessment and Interpretation.** 1-3 credits. (May be repeated to a total of 9 credits.)
Prerequisites, 20 hours of Graduate Psychology and permission. Supervised work-experience in the application of psychological techniques to human assessments and interpretations.

375:630. **Advanced General Psychology.** 4 credits.
Prerequisites, 145, 147. Selective review of contemporary status in various specialty areas in psychology. Emphasis on current problems, new developments, and changing concepts.

375:640. **Experimental Methods and Apparatus.** 4 credits.
Prerequisites, 141, 147, 310 and graduate standing. Research techniques and apparatus historically and presently in use, review and interpretation of the literature, the construction and use of novel and traditional equipment including elementary circuit design. Two hours lecture and two hours lab per week.

375:641. **Research Seminar.** 4 credits.
Prerequisites, 141, 147, 310, 640. An extension of 640. The student will be required to design an experiment, build any required apparatus, run the experiment and report the results to the class relating it to other studies in the field. Individual work and participation will be emphasized. Two hours lecture and two hours lab per week.

375:650-651. **Engineering Psychology.** 4 credits each quarter.
Prerequisites, 141, 145, 147, and 310. The techniques employed by human factors engineers. Systems analyzes, mission profiles, function and task analyses, time-line and line analyses, work layout and related techniques.

375:900. **Thesis Research.** 2-6 credits.
Prerequisite, 601. Research analysis of data and preparation of thesis for the Master's Degree.

375:705. **Computer Techniques in Psychological Measurement.** 3 credits.
Prerequisite, 602 or permission. Information about the computer and its application to research on typical problems in psychology.

375:706. **Advanced Tests and Measurements.** 3 credits.
Prerequisite, 407 or permission. Advanced techniques in test construction and analysis.

375:710. **Theories of Learning.** 4 credits.
Prerequisite, 412. Empirical evaluation of the bases of major theoretical positions. Lectures, readings and experiments.
375:711. ACQUISITION OF SKILL. 4 credits.
Prerequisite, 412. A review of research concerned with motor learning, the acquisition of manual or non-verbal behavior. The conduct and reporting of an original experiment may be required.

375:713. PERCEPTION. 3 credits.
Prerequisites, 320 and 412 or permission. The neural and physiological correlates of behavior in organisms.

375:714. SENSATION. 3 credits.
Prerequisite, 147. Structure and function of peripheral receptor mechanisms with attention to the bases of sensation.

375:715. COMPARATIVE PSYCHOLOGY. 3 credits.
Prerequisites, 147 and 715, or permission. A comparative study of the behavior of organisms emphasizing an analysis based on phylogenetic position.

375:716. SYSTEMS OF PSYCHOLOGY. 3 credits.
Prerequisite, 417. Overview of development of the scientific method. Analysis of special problems confronting modern psychology.

375:717. SEMINAR IN THE HISTORY OF PSYCHOLOGY. 3 credits.
Prerequisite, 417/517. The consideration of special problems in the history of psychology.

375:718. EXPERIMENTAL MOTIVATION. 3 credits.
Prerequisites, 147, 412 or permission. A broad, experimentally-oriented treatment of motivation emphasizing the evolution and development of current theoretical viewpoints and their empirical bases.

375:719. INDUSTRIAL MOTIVATION. 4 credits.
Prerequisite, 720. Identification, description, analysis and techniques for implementation of intrinsic and extrinsic incentives during work activity.

375:720. MOTIVATION-CLINICAL. 3 credits.
Prerequisite, 720. Historical and contemporary survey of motivational theory and research findings as applied in the area of clinical psychology.

375:721. EXPERIMENTAL SOCIAL PSYCHOLOGY. 4 credits.
Prerequisite, 315. An examination of selected theoretical and methodological issues in the study of social perception, group dynamics, inter-group relations and attitude formation and change.

375:722. SEMINAR IN INDUSTRIAL PSYCHOLOGY. 3 credits.
Prerequisites, permission. Intensive evaluation of selected industrial psychology techniques. May be repeated to a total of 9 credits. Techniques include leadership, morale, merit rating, job evaluation, interviewing, attitude scaling, advertising, and public relations.

375:723. RESEARCH IN INDUSTRIAL PSYCHOLOGY. 3 credits (May be repeated twice for credit)
Prerequisite, 602 or permission. Performance of research on problems found in business, industry or governmental agencies.

375:724. LITERATURE SURVEY, SELECTED TOPICS. 3 credit hours.
Prerequisite, permission. Readings in psychology according to the needs of the student. May be repeated to total of 9 credits.

375:725. SOCIAL-INDUSTRIAL PSYCHOLOGY. 3 credits.
Prerequisite, permission. Organizational Psychology—The study of the relationships between organizational characteristics and human behavior.

375:726. PSYCHOLOGY OF INDUSTRIAL SELECTION. 3 credits.
Prerequisite, 602 or permission. Evaluation of techniques employed by psychologists for initial job selection and subsequent promotions. Excludes formal testing.

375:727. PERFORMANCE EVALUATION. 3 credits.
Prerequisite, 602 or permission. The analysis, development, and use of objective and subjective criteria in industry for use in performance appraisal, test validation, training and validation of environmental arrangements.

375:728. PSYCHOLOGY OF TRAINING IN INDUSTRY. 3 credits.
Prerequisite, 412 or permission. The nature of industrial training, needs for training, methods and techniques, evaluation of training, training and learning theory.

375:729. FACTOR ANALYSIS. 2 credits.
Prerequisite, 602 or permission. Theory and techniques in identifying independent variables through the use of factor analysis.

375:730. NON-PARAMETRICS. 3 credits.
Prerequisite, 145 or permission. Theoretical bases and relationships among various nonparametric techniques compared with parametric ones in Psychology.

375:731. SCALING TECHNIQUES. 2 credits.
Prerequisite, 602 or permission. Consideration of scales of measurements, use of curve fitting, psychophysical methods and psychological scaling methods.

375:732. PSYCHOLOGICAL EXPERIMENTAL DESIGN. 3 credits.
Prerequisite, 603 or permission. Theory and application of statistical tests of significance to more complex psychological experimental designs than in 603.
385: SOCIOLOGY

385:100. INTRODUCTION TO SOCIOLOGY. 5 credits.
Basic terminology, concepts and approaches in Sociology; including an introduction to the analysis of social groups, and the application of sociological concepts to the understanding of social systems. Required of majors.

385:104. SOCIAL PROBLEMS. 4 credits.
Prerequisite, 100. Selected contemporary problems in society examined from the viewpoint of sociological concepts which underlie an understanding of social behavior.

385:150. CULTURAL ANTHROPOLOGY. 5 credits.
Structural and functional analysis of the concept and phenomenon of culture in general; comparative study of the social organization, material implements, world-view and ethos of contemporary non-literate groups seen in the process of rapid acculturative change.

385:151. PHYSICAL ANTHROPOLOGY. 4 credits.
Study of protohuman and early human paleontology and comparative anatomy of Homo Sapiens as a single, polymorphous species into racial variations and their current socio-cultural significance; Paleolithic, Neolithic and protohistorical archeology, including the emergence of agriculture and urbanization in the old and new worlds; and the evolution and structure of language as man's fundamental system of symbols.

385:256. NEW WORLD PREHISTORY. 4 credits.
Prerequisites, 150 or 100, or permission. A survey of the prehistoric cultures of North, Middle, and South America; beginning with the peopling of the Western Hemisphere and ending with European contact.

385:257. INDIANS OF SOUTH AMERICA. 4 credits.
Prerequisites, 150 or 100, or permission. A survey of the aboriginal peoples of South America, with emphasis on culture areas and continuity of culture patterns.

385:276. INTRODUCTION TO SOCIAL WELFARE. 5 credits.
Prerequisite, 100. Survey of the field of Social Welfare with special emphasis on the place of social work in the welfare system. Introduction of concepts relative to the place of welfare in our society and an examination of welfare as a social institution.

385:301. METHODS OF SOCIAL RESEARCH. 3 credits.
Prerequisite, 100 or permission. A combination lecture and laboratory course requiring at least five laboratory hours per week. Research design, data gathering techniques and statistical procedures. Required of majors.

385:302. METHODS OF SOCIAL RESEARCH. 3 credits.
Prerequisite, 301, continuation of 301. Required of majors.

385:303. METHODS OF SOCIAL RESEARCH. 3 credits.
Prerequisite, 302, continuation of 301 and 302. Required of majors.

385:314. CRIMINOLOGY. 4 credits.
Prerequisite, 100 or permission. The nature and extent of types of crime in varied social/cultural settings; the relation of the development of various criminal behavioral systems to the nature of criminal law, law enforcement process, societal values, social settings and motivational orientations; the study of the etiologies of criminal behavioral systems.

385:320. POPULATION. 4 credits.
Prerequisite, 100 or permission. Introduction to demographic analysis; the numbers, distribution, characteristics, and trends of U. S. and world population.

385:327. SOCIAL STRATIFICATION. 4 credits.
Prerequisite, 100 or permission. A study of the way social rankings occur in societies and how particular rankings affect individual behavior, group relations and social structures.

385:336. SOCIAL CHANGE. 4 credits.
Prerequisite, 100 or permission. Introduction to theories and processes of social change, dimensions of change in contemporary, traditional and urban-industrial societies; projection and prediction of selected trends and forms.

385:337. SOCIAL MOVEMENTS. 4 credits.
Prerequisite, 100 or permission. Social movements distinguished from other forms of collective behavior; analysis of social situations likely to produce social movements; focus upon structure and function of movements and their role in social change.

385:340. SOCIOLOGICAL READING AND RESEARCH. 1-4 credits.
Prerequisite, permission. Individual study of a problem area of specific interest to the individual student under guidance of a department member. Preparation of a research paper.

385:357. MAGIC, MYTH AND RELIGION. 4 credits.
Prerequisite, 100 or 150. Evolutionary transformations of magic and ritual into science and technology. Examination of animism, totemism, and other forms of pre-literate religions. Mana, taboo, and other religious and social symbols.
385:376. FIELD EXPERIENCE IN A SOCIAL AGENCY. 3 credits.
Prerequisite, 473 or permission. Individual placement in selected community agencies for supervised experience in casework, groupwork, corrections, and similar fields. Primarily for senior majors.

385:377. FIELD EXPERIENCE IN A SOCIAL AGENCY. 3 credits.
Prerequisite, 376, continuation of 376. Courses must be taken consecutively to receive credit.

385:404/504. THE FAMILY. 4 credits.
Prerequisite, 9 hours of sociology. Analysis of the Family as a social system; historical, comparative, and contemporary sociological approaches examined in relation to family structure and functions.

385:414/514. THE HISTORY OF SOCIOLOGICAL THOUGHT. 4 credits.
Prerequisite, 414 or permission. A study of the contributions of European and American thinkers to sociological thought. An appraisal of the theorist, his main works, influences on his thinking, and his sociological views. Emphasis on the historical development of the major schools of thought. Required of majors.

385:415/515. CONTEMPORARY SOCIOLOGICAL THEORIES. 4 credits.
Prerequisite, 414 or permission. An examination and critical evaluation of the works of modern sociological theorists. Each is studied in breadth and depth, provides a perspective of the range of problems in the field suggested approaches. Required of majors.

385:423/523. JUVENILE DELINQUENCY. 4 credits.
Prerequisite, 100 or permission. An analysis of differences and relationships between social problems, deviancy, adult criminal code, juvenile (delinquent) code, and delinquent subcultures; the nature, extent and trends of delinquency in various social/cultural settings; the interrelationships between social/cultural settings, motivational orientations and the developmental process of varied delinquent role formations. The legal processing of juveniles and the etiologies of forms of delinquency.

385:424/524. PROBATION AND PAROLE. 4 credits.
Prerequisites, 314 or 423, or permission. The nature and organization of probation and parole. An examination of current issues and problems; procedures, techniques, and evaluation of outcomes; and new directions in probation and parole work will be undertaken.

385:427/527. RACIAL AND CULTURAL INTERGROUP RELATIONS. 4 credits.
Prerequisite, 100 or permission. A sociological interpretation of the relationships between dominant and minority groups. An analysis of minority response patterns, the development of prejudice, discrimination, stereotypes, and ways of coping with inter-group tensions.

385:430/530. SOCIAL STRUCTURE AND PERSONALITY. 4 credits.
Prerequisite, 100 or permission. Examination of the interrelationships between position in society and personality characteristics. Personality will be treated as both a result and a determinant of social structure and process.

385:431/531. SOCIAL INTERACTION. 4 credits.
Prerequisite, 100 or 375:141, or permission. An intensive study of advanced theory and research in social-psychology, particularly how social interaction and self-conception affect one another.

385:432/532. THE SOCIOLOGY OF SOCIALIZATION. 4 credits.
Prerequisites, 385:100 or 375:141, or permission. Theoretical and empirical analyses of the learning and playing of social roles.

385:433/533. SOCIAL ORGANIZATION. 4 credits.
Prerequisite: 9 hours of sociology. The nature of social organization and social control; organizational typologies; theories of organizational structure and functions; analysis of complex organizations in a social system.

385:435/535. SOCIOLOGY OF URBANIZATION. 4 credits.
Prerequisite, 100 or permission. A study of the implications of growing density and nucleation of population on attitudes, social structures and social change.

385:438/538. INDUSTRIAL SOCIOLOGY. 4 credits.
Prerequisite, 9 hours of sociology or Industrial Management. Comparison of formal and informal structures in industrial organizations; analysis of work roles and status systems; communication processes; relation of work plant to community and society.

Prerequisite, competence in elementary statistics. Special problems and social research in urban areas, emphasis on problems of stratification, and social problems. Includes advanced statistical techniques and computer usage.

385:441/541. URBAN RESEARCH METHODS II. 4 credits.
Prerequisite, 440. A continuation of 440.

385:455/555. CULTURE AND PERSONALITY. 4 credits.
Prerequisites, 100 and 150. A cross-cultural study of the roles and relationships of individual potentials and socio-cultural norms, socialization, and primary groups in the formation of the basic structures of modal and deviant personalities.
385:459/559. FACTS AND VALUES IN CULTURE. 3 credits.
Prerequisite, 100 and 150. An examination of the independence, ambiguity, and relativity of facts and values from a cultural point of view. Subjective and objective components of the distinction between factual judgments and value judgments. Evaluation of cultural relativism.

385:461/561. LANGUAGE AND CULTURE. 3 credits.
Prerequisite, 100, 150 or permission. Language as a subsystem of culture in relation to language as a whole. The study of language and culture versus language in culture, as different approaches to their interdependence and interaction.

385:463/563. TYPES OF KINSHIP AND SOCIAL ORGANIZATION. 4 credits.
Prerequisite, 100 and 150. A comparative structural analysis of non-Western systems of kinship and social organization in terms of status, role, reciprocal expectation, nomenclature, nuclear and extended households, and other kinship groupings.

385:473/573. METHODS AND CONCEPTS OF SOCIAL WORK. 5 credits.
Prerequisite, 276 or permission. Analysis of the methods and concepts utilized in contemporary practice in the various fields of social work.

385:485/585. COMMUNITY ORGANIZATION. 3 credits.
Prerequisite, permission. An examination of community organization as a social work process. Students learn to assess problems and project program to meet them.

GRADUATE COURSES

385:600. SOCIOLOGICAL RESEARCH METHODS. 4 credits.
Advanced research methods including advanced statistical techniques.

385:601. SEMINAR IN SOCIAL RESEARCH DESIGN. 4 credits.
An intensive analysis of problems in a research design similar to those which will be encountered in the preparation of a master's thesis.

385:602. SEMINAR IN THEORY AND MEASUREMENT OF SOCIAL ATTITUDES. 4 credits.
Prerequisite, 600 and 601, or permission. Theories of social attitudes and techniques for their measurement.

385:603. SEMINAR IN SOCIOLOGICAL THEORY CONSTRUCTION. 4 credits.
An intensive study of techniques, rules, and methods for constructing scientific theory. The emphasis is upon the development of theories appropriate to the problems of sociological investigation. The writings of both social and physical scientists are studied in this regard, with a consideration of what philosophers of science have contributed.

385:606. SOCIOLOGY OF WORK. 3 credits.
An examination of work as a behavioral phenomena in human societies; contrasts with non-work and leisure; significance of occupations, professions, and work types in organization of work.

385:609. SEMINAR IN SMALL GROUP THEORY. 4 credits.
Prerequisite, permission. Theory of small group relationships and discussion of empirical findings about primary groups.

385:610. SEMINAR IN SMALL GROUP RESEARCH TECHNIQUES. 4 credits.
Prerequisite, 385:609. Application and implications of techniques of laboratory research in small groups.

385:612. SOCIOLOGY OF COMMUNICATION. 3 credits.
Examination of communication media, content, audiences, and impact within a sociological context.

385:614. SEMINAR IN SOCIOLOGICAL THEORY. 4 credits.
An examination of major theoretical frameworks and concepts that form the foundation of sociological thought. Emphasis placed on classic works and their implications for contemporary sociological theory.

385:616. SOCIAL CHANGE. 4 credits.
An advanced seminar in the theories of social change.

385:620. POPULATION THEORY. 4 credits.
Prerequisite, 320 or permission. The field of demography; the historical development of population theory; contemporary theories and their application to existing trends in the nation and world. Relation of population theory to other aspects of society.

385:624. FAMILY STRUCTURE AND THEORY. 3 credits.
Prerequisite, 404 or permission. Analysis of actual and theoretical patterns of family systems; current research in family in relation to theories of the family and theories of social systems.

385:630. THE SOCIOLOGY OF POLITICAL BEHAVIOR. 2 credits.
Description, analysis, and interpretation of political behavior through the application of sociological concepts.

385:631. SEMINAR IN THE SOCIOLOGY OF POLITICAL BEHAVIOR. 2 credits.
Prerequisite, 385:630. Description, analysis, and interpretation of political behavior, through the application of sociological concepts.
385:635. Readings in Contemporary Sociological Literature. 1-4 credits.
Prerequisite, 10 hours of Sociology and permission. Intensive reading and interpretation of written material in the student's chosen field of interest. Regular conferences with instructor. May be taken more than once.

385:640. Seminar in Criminology and Juvenile Delinquency. 4 credits.
Analysis and evaluation of problems in criminological research; issues and problems in the development of criminal law and the process of selection and treatment of offenders; and the relationship of criminal and delinquent behavioral systems, as forms of socially deviant behavior, to social/cultural standards. An emphasis is placed on contemporary theories.

Prerequisite, 39 hours of graduate level Sociology courses and/or permission. Significance of some major sociological concepts for theoretical and practical significance of contemporary social issues.

385:656. Thesis. 2-8 credits. (May be repeated for a total of 8 credits.)
Prerequisite, permission. Supervised thesis writing.

394: POLYMER SCIENCE

394:407. Polymer Science. 3 credits. (2-3)
Prerequisite, 315:314, or 365:301, or 420:305, or permission. The principles of polymerization processes and the relationships between molecular structures and physical behavior of polymers are dealt with.

GRADUATE COURSES

394:694-695. Special Projects in Polymer Science. 2 credits each quarter.
Prerequisite, permission. Individual research projects of a limited character, intended to be completed within one quarter, will be assigned to students entering the Polymer Science program, under the supervision of a faculty member. These are intended to familiarize the student with typical problems and techniques in this field and to prepare him for his thesis research.

Prerequisite, permission. For properly qualified candidates for master's degree. Supervised original research in polymer science, under the direction of a faculty member, followed by submission of a thesis.

394:701-702-703. Polymer Technology. 3 credits each quarter.
Prerequisite, permission. A study of the basic principles and methods involved in the technology of polymeric materials, with special emphasis on rubber and plastics, and including the processing, compounding and finishing operations to which these materials are subjected.

394:711-712. Special Topics in Polymer Science. 2 credits each quarter.
Prerequisite, permission. Study of special subjects of current interest in Polymer Science, encompassing the chemistry, physics or engineering aspects of macromolecular substances, and including laboratory work where applicable. Lectures and/or laboratory.

394:701. Doctoral Research in Polymer Science. 2-24 credits.
Open to properly qualified students accepted as candidates for the degree of Doctor of Philosophy in Polymer Science. At the present time, supervised original research may be undertaken in the fields of the chemistry, physics or engineering aspects of Polymer Science, depending on availability of staff and facilities.

398: URBAN STUDIES

GRADUATE COURSES

398:600 Urban Science. 4 credits.
Prerequisite, permission. A study of approaches used in the various disciplines in the study of urban area and region. This course is required of all students entering the urban studies program.

Prerequisite, permission. A study of the fiscal resources and potentials of an urban community and the limitations to urban fiscal planning.

398:602. Economic Implications of Urban Growth. 3 credits.
Prerequisite, permission. An examination of the urban economic unit and its susceptibility to social, economic, political and physical change.

398:611. Politics in Urban Areas. 3 credits.
Prerequisite, permission. An empirical analysis of urban political structure and processes, and major political problems.

398:612. Administration of Urban Government. 3 credits.
Prerequisite, permission. The organization and management characteristics of various types of
government entities in urban areas. Municipal and county governments, and special districts will be examined within the framework of organization and management theory.

398:620. SOCIAL ORGANIZATION AND STRUCTURE OF THE URBAN AREA. 3 credits.
Prerequisite, permission. An examination of the social organization and the functional implications of social change and disorganization.

398:621. SOCIAL SERVICES PLANNING IN AN URBAN SOCIETY. 3 credits.
Prerequisite, permission. An in-depth analysis of the total social services requirements and the various ways in which the social services planning function is carried out in urban communities.

398:631. URBAN FACILITIES PLANNING. 3 credits.
Prerequisite, permission. A study of the approaches to urban facilities planning—the need, process and limitation.

398:632. PLANNING AND URBAN RENEWAL IN THE URBAN REGION. 4 credits.
Prerequisite, permission. An in-depth examination of the types, forms, approaches and nature of urban planning at various levels and a critical appraisal of the impact of urban renewal.

398:640. URBAN STUDIES SEMINAR. 3 credits.
Prerequisite, 15 credits of Urban Studies core curriculum and 3 of approved advanced statistics or permission. Advanced urban research methods and techniques applied to a specific urban area. A comprehensive research paper is required.

398:641. QUANTITATIVE METHOD OF URBAN REGIONAL ANALYSIS. 4 credits.
Prerequisite, permission. The application of quantitative methods to urban and regional research. An interdisciplinary consideration of techniques of population projection, migration estimation, regional income and social accounting, inter-regional flow analysis and urban cycle and multiplier analysis.

398:670. SEMINAR ON INNOVATIVE ASPECTS OF NEW COMMUNITIES. 3 credits.
Prerequisite, permission. A study of the development of utopian communities and "new towns" and their social, political and economic implications for urban development.

398:689. INDIVIDUAL STUDIES. 2-6 credits. (May be repeated for a total of 6 credits.)
Directed individual readings or research focused on a specific area or topic.
410: GENERAL ENGINEERING

410:101. ENGINEERING DESIGN. 2 credits. (2-0)
Introduction of the freshman engineering student to problem-solving techniques in engineering design. Required of all entering Engineering freshmen.

410:301. COOPERATIVE WORK PERIOD I. 0 credits.

410:302. COOPERATIVE WORK PERIOD II. 0 credits.

410:403. COOPERATIVE WORK PERIOD III. 0 credits.

410:404. COOPERATIVE WORK PERIOD IV. 0 credits.

420: CHEMICAL ENGINEERING

420:200. PROCESS CALCULATIONS I. 3 credits. (3-0)
Introduction to the material balance and other fundamental concepts as applied to the solution of chemical engineering problems.

420:201. PROCESS CALCULATIONS II. 3 credits. (3-0)
Sequential; prerequisite, 200. Introduction to the energy balance and to the solution of chemical engineering problems requiring material and energy balances.

420:220. STAGED OPERATIONS. 4 credits. (4-0)
Sequential; prerequisite, 201. The graphical and analytical applications of equilibrium and material balance considerations to the solution of multi-stage processes.

420:305. MATERIALS SCIENCE. 3 credits. (3-0)
Sequential; corequisite, 315:122. The study of the atomic and molecular structure and their relationship to the behavior of engineering materials, under thermal, chemical, mechanical, nuclear, and electrical stresses.

420:310. CHEMICAL PROCESS INDUSTRIES. 3 credits. (3-0)
Sequential; prerequisite, 201. A study of the processes used to manufacture basic chemicals. Included are raw materials, processing sequences and economic factors.

420:321. TRANSPORT PHENOMENA I. 4 credits. (4-0)
Sequential; prerequisite, 220 and 345:225. Theory and application of momentum transfer in chemical engineering.

420:322. TRANSPORT PHENOMENA II. 4 credits. (4-0)
Sequential; prerequisite, 321. Theory and application of energy transfer and simultaneous energy and momentum transfer in chemical engineering applications.

420:408. POLYMER PROCESSING AND APPLICATIONS. 3 credits. (2-1)
Prerequisite, 394:407 or permission. The principles of forming and setting polymeric materials, for example, by extrusion, calendaring, molding, etc., are treated and applied to elastomers, thermoplastic and thermosetting materials. Various industrial applications of polymers are also discussed. The course consists of two 1-hour lecture periods and one 3-hour laboratory period per week.

420:415. UNIT OPERATIONS. LABORATORY I. 2 credits. (0-2)
Corequisite, 423. Experiments in chemical engineering operations. Emphasis is on collection and analyses of data and report writing.

420:416. UNIT OPERATIONS. LABORATORY II. 2 credits. (0-2)
Sequential; prerequisite, 423.

420:417. UNIT OPERATIONS. LABORATORY III. 2 credits. (0-2)
Sequential; prerequisite, 423.

420:423. TRANSPORT PHENOMENA III. 4 credits. (4-0)
Sequential; prerequisite, 322. Theory and application of mass transfer phenomena. Includes evaporation, distillation, absorption, crystallization and diffusional operations.

420:425. THERMODYNAMICS I. 3 credits. (3-0)
Sequential; prerequisites, 201, 315:315. A study of the fundamental laws of thermodynamics as applied to chemical processes.

420:426. THERMODYNAMICS II. 2 credits. (2-0)
Sequential; prerequisite, 425. Continuation of 425 and an introduction to statistical thermodynamics.

420:430. REACTION KINETICS. 4 credits. (4-0)
Sequential; prerequisite, 423. Study of non-equilibrium processes. Reaction mechanisms, rate equations and reactor design as applied to both homogenous and heterogenous systems.

420:435. PROCESS CONTROL. 3 credits. (3-0)
Sequential; prerequisite or corequisite, 423, 345:225. The study of the response of process systems, controllers, sensing elements, and application to control systems design.
420:440. PROCESS ECONOMICS. 3 credits. (3-0)
Sequential; corequisite, 423. Economic analyses of chemical process, equipment selection and cost estimation.

420:441. PLANT DESIGN I. 3 credits. (3-0)
Sequential; prerequisite, 440. Chemical plant equipment design, plant layout, site selection.

420:442. PLANT DESIGN II. 2 credits. (0-2)
Sequential; prerequisite, 441. Chemical plant design project.

420:443. PLANT TRIP. 1 credit. (0-1)
Sequential; prerequisite, 440. Visitations to typical chemical process industries. Critical inspection and discussion of facilities.

420:499. CHEMICAL ENGINEERING RESEARCH.
1 to 4 credits. (0-1 to 4)

GRADUATE COURSES

420:600. MOMENTUM TRANSPORT I.
3 credits. (3-0)
Prerequisite, 600. Discussion of boundary layer formation, turbulent flow phenomena, and nonisothermal flow. Topics of current interest.

420:601. MOMENTUM TRANSPORT II.
3 credits. (3-0)
Prerequisite, 600. Discussion of boundary layer formation, turbulent flow phenomena, and nonisothermal flow. Topics of current interest.

420:602. NON-NEWTONIAN FLOW. 3 credits. (3-0)
Prerequisite, 600. Rheological behavior of non-Newtonian fluids. Viscometry. Applications to engineering design.

420:605. ENERGY TRANSPORT I. 3 credits. (3-0)
Prerequisite, 600. Discussion of forced convection heat transfer. Analytical and graphical solutions.

420:606. ENERGY TRANSPORT II. 3 credits. (3-0)

420:610. DIFFUSIONAL OPERATIONS.
3 credits. (3-0)
Prerequisite, 610. Discussion of design techniques for absorption, adsorption, and extraction processes. Multicomponent absorption and extraction.

420:611. ABSORPTION AND EXTRACTION.
3 credits. (3-0)
Prerequisite, 610. Discussion of design techniques for absorption, adsorption, and extraction processes. Multicomponent absorption and extraction.

420:612. DISTILLATION. 3 credits. (3-0)
Prerequisite, 423 or permission. Multicomponent calculational techniques applied to the design of distillation equipment. Extractive and azeotropic distillation.

420:613. SPECIAL TOPICS IN MASS TRANSFER.
3 credits. (3-0)
Prerequisite, 345:225 or permission. Topics in advanced mass transfer operations of chemical engineering such as extractive distillation, absorption, extraction, leaching and diffusion.

420:615. ADVANCED REACTION KINETICS I.
3 credits. (3-0)
Prerequisite, 430 or permission. Kinetics of homogeneous systems. Reactor design. Non-ideal flows.

420:616. ADVANCED REACTION KINETICS II.
3 credits. (3-0)

420:620. ADVANCED CHEMICAL ENGINEERING THERMO I. 3 credits. (3-0)
Prerequisite, 425 or permission. Discussion of the law of thermodynamics. Prediction and correlation of thermodynamic data. Phase and reaction equilibria.

420:621. ADVANCED CHEMICAL ENGINEERING THERMO II. 3 credits. (3-0)
Prerequisite, 620. An introduction to statistical and non-equilibrium thermodynamics with application in chemical engineering.

420:625. ANALOG COMPUTATION. 3 credits. (3-0)
Prerequisite, 345:225. Discussion of the use of analog computation in chemical engineering including programming and operational techniques.

420:626. ADVANCED CALCULATION METHODS I.
3 credits. (3-0)
Prerequisite, 345:225 or permission. Discussion of methods used to develop mathematical models for chemical engineering problems and their analytical solutions.

420:627. ADVANCED CALCULATION METHODS II.
3 credits. (3-0)
Prerequisite, 345:225 and permission. Discussion of numerical and optimization techniques in the solution of chemical engineering problems.

420:628. SPECIAL TOPICS IN ADVANCED CALCULATIONS. 3 credits. (3-0)
Prerequisite, 345:225 or permission. Advanced calculation techniques applied to the solution of complex problems in chemical engineering operations.

420:630. PROCESS DYNAMICS I. 3 credits. (3-0)
Prerequisite, 435 or permission. Discussion of the dynamic response of processes, controllers, and
sensing elements, stability criteria. Application to control of simple chemical process.

420:631. Process Dynamics II. 3 credits. (3-0)
Prerequisite, 630. Discussion of advanced concepts in control of chemical processes such as design of cascade control, feed forward control and numerical control systems.

420:635. Chemical Engineering of Polymers I. 3 credits. (3-0)
Prerequisite, 423 or permission. Study of the plastics industry with emphasis on the application of common unit operations and uses of plastics.

420:640. Solids Processing. 3 credits. (3-6)
Prerequisite, 423 or permission. Comprehensive problems in sedimentation, fluidization drying and other operations involving treatment of particulate solids.

420:650. Topics in Design. 3 credits. (3-0)
Prerequisite, 345:225 or permission. Topics in advanced chemical engineering plant or process design such as catalysis, cryogenics, high pressure technology, high vacuum technology, estimation of physical properties, advanced process economics, special unit operations.

420:670. Water Pollution Control. I. 3 credits. (3-0)
Prerequisite, permission. Waste treatment methods as applied to the chemical process industries.

420:671. Water Pollution Control II. 3 credits. (3-0)
Prerequisite, 670. Advanced waste treatment methods as applied to the chemical process industries.

420:680. Air Pollution Control. 3 credits. (3-0)
Prerequisite, permission. Basic methods and applications of air pollution control in the chemical process industries.

420:699. Chemical Engineering Research. 1 to 6 credits. (0-0-6)
For properly qualified candidates for Master's degree. Supervised original research in a specific area of Chemical Engineering to be selected on a basis of availability of staff and facilities.

430: Civil Engineering

430:231. Surveying I. 4 credits. (3-1)
Principles of plane surveying. Use of tape, level and transit. Computation of areas. Field problems involving measurement of horizontal and vertical distances and angles.

430:301. Engineering Mechanics I. 4 credits. (4-0)

430:302. Engineering Mechanics II. 4 credits. (4-0)
Prerequisite, 301; corequisite, 345:225. Kinetics of particles, and rigid bodies. Force, mass and acceleration; work and energy; momentum and impulse methods. Vibrations. Stresses and deformations caused by axial, torsional and flexural force systems.

430:303. Engineering Mechanics III. 4 credits. (3-1)

430:304. Mechanics I. 4 credits. (4-0)
Prerequisite, 365:201; corequisite, 345:225. Basic concepts of mechanics, elementary vector algebra, concurrent force systems, equilibrium of a particle, kinematics of a particle, kinetics of a particle, products of vectors, nonconcurrent force systems, center of mass, center of gravity and centroid. Second moments of masses and areas, equilibrium of rigid bodies, kinematics of rigid bodies. Course can only be taken by students enrolled in Chemical and Electrical Engineering Programs.

430:305. Mechanics II. 4 credits. (4-0)
Prerequisite, 304. Stress and strain, axial forces, flexure, torsion, statically indeterminate systems, impulse and momentum, work and energy, energy methods for equilibrium. Course can only be taken by students enrolled in Chemical and Electrical Engineering Programs.

Prerequisite, 303. Analysis of roof trusses, mill bents and bridge trusses. Fixed and moving loads. Influence lines.

430:321. ENVIRONMENTAL ENGINEERING I.
4 credits. (4-0)
Problems of engineering in public and industrial water supplies. Quality and quantity requirements. Development of surface and ground water supplies to meet the consumptive use of present and future. Treatment methods and techniques for domestic and industrial use. Distribution systems design and analysis by such methods as Hardy Cross. Reservoirs and pumping stations. Principles of water utility management and water works finance.

430:322. ENVIRONMENTAL ENGINEERING II.
4 credits. (3-1)

430:323. ENVIRONMENTAL ENGINEERING III.
4 credits. (4-0)
Prerequisite, 310:177 and 430:322. The engineering aspects involved in the control of the environment of the citizen. Includes communicable disease control, air pollution, industrial hygiene, milk and food sanitation, radiological health, solid waste disposal.

430:332. SURVEYING II. 4 credits. (3-1)
Prerequisite, 321. Precise leveling, triangulation, topographic surveying, astronomic observations pertinent to surveying, horizontal and vertical alignment of transportation routes, earthwork computations.

430:341. WATER RESOURCES ENGINEERING I.
3 credits. (3-0)
Prerequisite, 460:310. Introduction to hydrologic measurements, runoff computations, groundwater flow and storage, water law, reservoir design, frequency analysis, economy of water resources development, planning for water resources development.

430:342. WATER RESOURCES ENGINEERING II.
3 credits. (3-1)
Prerequisite, 430:341. Introduction to hydraulic components of engineering projects and structures; flow in closed conduits and open channels; dams, spillways, hydraulic machinery, water power, river mechanics, flood control. Laboratory includes individual assignment of model study of hydraulic structures.

430:350. URBAN PLANNING. 4 credits. (4-0)
History of the development of cities from the earliest civilizations through the industrial revolution of the 19th century. Early attempts to planning. The necessity, organization and legal aspects of planning and zoning. Environmental problems affecting engineers. The search for new solutions.

430:351. TRANSPORTATION ENGINEERING I.
4 credits. (4-0)
Prerequisite, 350. Modern techniques of mass transportation. Local and long distance transportation needs. Traffic analysis. Planning of transportation systems. Highways, railroads, airports, heliports, etc. Principles of highway design.

430:352. TRANSPORTATION ENGINEERING II.
4 credits. (3-1)

430:401-402. STEEL DESIGN I AND II.
3 credits each quarter.

430:403-404. REINFORCED CONCRETE DESIGN I AND II. 3 credits each quarter.

430:411. SOIL MECHANICS. 4 credits. (3-1)

430:412. FOUNDATIONS. 4 credits. (3-1)

430:418/518. ENGINEERING GEOPHYSICS.
3 credits. (3-1)
430:425. ENVIRONMENTAL ENGINEERING
LABORATORY. 3 credits. (1-2)
Selected physical, chemical, and bacteriological
analysis of raw and treated water and waste
waters.

430:426/526. ENVIRONMENTAL ENGINEERING
DESIGN. 3 credits. (3-0)
Analysis of various environmental control
systems for water and waste water treatment. Eco­
metropolitan and urban areas to determine the
most economical system for water supply and
pollution control.

430:433/533. PHOTOGRAMMETRY. 3 credits.
Prerequisite, 322. Photogrammetry. Fundamental
principles involved in surveying by aerial or other
photography, including the reduction of photo­
tograph to a map. Laboratory exercises in the
photographic study of a prepared geometric land­
scape. Experience with the basic photogrammetric
instruments.

430:441. HYDRAULIC STRUCTURES I. 4 credits.
(4-0)
Prerequisite, 411. The analysis and design of
reservoirs and hydraulic structures such as dams,
spillways, gates and outlet works. The use of
design procedures and specifications in the design
of hydraulic structures. The study of hydraulic
machinery used in such structures.

430:443. APPLIED HYDRAULICS. 4 credits. (4-0)
Prerequisite, 460:310. Fundamental principles
of flow in pipes and open channels. Discussion of
flow control devices and channel transitions. Simi­
litude of model studies, theoretical aspects of hy­
draulic structures, river engineering, coastal hy­
draulics, stream channel mechanics.

430:451. STRUCTURAL MECHANICS I. 3 credits.
(3-0)
Prerequisite, 430:307. Deflection Theory; mo­
ment distribution; slope deflection method; elastic
center and column analogy methods.

430:452. STRUCTURAL MECHANICS II. 3 credits.
(3-0)
Prerequisite, 430:451. A continuation of 430:451
including work and energy methods, influence
lines, variable moment of inertia, arch theory,
axially loaded members, beams and columns,

430:453/553. COMPUTER METHODS IN
STRUCTURAL MECHANICS. 4 credits. (4-0)
Prerequisite, 430:451. Fundamental concepts of
computers; role of computers in structural and
solid mechanics; fundamental concepts in struc­
tural analysis; stiffness and flexibility character­
istics of structures; introduction to determinants
and matrices; solution of linear equations; eigen­
value problems; energy concepts in structures;
transformation matrices; flexibility and stiffness
methods of analysis.

430:461. HIGHWAY ECONOMICS AND
ADMINISTRATION. 4 credits. (4-0)
Prerequisite, 430:352. The study of highway
administration and management with regard to its
development and practice as established by the
state and federal highway agencies. Analysis of
methods in evaluating highway taxation. Discus­
sion of cost allocation studies and methods in
evaluating the economic feasibility of highway
routes.

430:463. HIGHWAY PLANNING I. 4 credits. (2-2)
Prerequisite, 430:352. Analysis of highway plan­
ning programs and including highway needs
studies, priority rating systems and programming
methods. Discussion of traffic assignment and
forecasting techniques as related to highway plan­
ing. Discussions will primarily be devoted to rural
route problems using case history methods of an­
alysis.

430:464. HIGHWAY PLANNING II. 4 credits.
(2-2)
Prerequisite, 463. Continuation of 430:463
with emphasis on urban locations and planning.

430:471. CONSTRUCTION ADMINISTRATION.
3 credits. (3-0)
Prerequisite, senior standing or permission of
Department. Construction specifications. Prepara­
tion of construction documents. Bidding and bonds.
Construction management and supervision. Ap­
lication of Critical Path Method (CPM). Agree­
ments and contracts. Report writing.

430:472. CONSTRUCTION ENGINEERING. 4 credits.
(4-0)
Prerequisite, senior standing or permission of
Department. Planning of construction operations.
Construction equipment and their selection. Safety
engineering.

GRADUATE COURSES

430:601-602. THEORY OF ELASTICITY I AND II.
3 credits each quarter.
Prerequisite, 405/505. Analysis of stress and
strain; equilibrium equations; plane stress and
plane strain problems. Torsion of bars. Finite
difference approximations and relaxation methods.
Energy principles and variational methods. Solu­
tions by means of complex variables. Advanced
topics in elasticity.

430:603-604. THEORY OF PLASTICITY I & II.
3 credits each quarter. (3-0).
Prerequisite, 480. State of stress and strain;
theories of strength; plastic stress-strain relations;
problems in plastic flow; strain hardening prob­
lems; bending of plates; extremum principles;
special topics and problems.
430:605. THEORY OF PLATES. 3 credits.
Prerequisite, 405/505 or permission. Pure bending of plates, small deflection theory, solutions for various edge conditions, plates on elastic foundations, large deflection theory.

430:606. SHELL STRUCTURES. 3 credits.
Prerequisite, 405/505 or permission. General theory of thin shells. Analysis of domes, and shell walls. Shells of double curvature. Practical design problems.

430:608-609. ADVANCED THEORY OF STRUCTURES I and II. 3 credits each quarter.

430:611. ADVANCED SOIL MECHANICS I. 3 credits.
Study of physical and chemical properties of clays, rheology and plasticity, soil-water systems, soil structure, and soil stabilization techniques.

430:612. ADVANCED SOIL MECHANICS II. 3 credits.
Prerequisite, 611. Theories of compressibility and consolidation, shear strength theories, water flow in soils. soil freezing and permafrost, and techniques for rigorous solutions to soil problems.

430:614. FOUNDATION ENGINEERING I. 3 credits.
Foundation bearing capacity and settlement analysis, and design of shallow and deep foundations. Analysis and design of piles and pile groups.

430:615. FOUNDATION ENGINEERING II. 3 credits.
Prerequisite, 614 or permission. Theory and design of retaining structures. Stability analysis and design concepts for earth structures. Soil-structure interaction theory and applications to underground structures including conduits, tunnels, and shafts.

430:616. FOUNDATION ENGINEERING III. 3 credits.
Prerequisite, 615 or permission. Advanced methods of foundation construction including dewatering, soil stabilization, freezing, and pile sinking techniques. Cofferdams, underpinning, and other special problems.

430:617. SOIL DYNAMICS. 3 credits.
Prerequisites, 611, 657, or permission. Vibration theory relating to soils, soil structures, and foundations and applications to engineering problems. Design of foundations for dynamic loading including impact, pulsating, and blast loads.

430:620. SANITARY ENGINEERING PROBLEMS. 3 credits.
Prerequisites, 321 and 322. The application of both laboratory methods and theory to the solution of sanitary engineering problems involving water pollution, stream regeneration, special industrial wastes, detergents, and others.

430:621-623. INDUSTRIAL WASTE TREATMENT I, II and III. 3 credits each quarter.
Prerequisite, permission. Study of the problems arising from industrial water pollution. Methods of treatment of industrial wastes with specific applications to various industries.

430:641. ADVANCED HYDRAULICS. 3 credits.

430:642. MULTIPHASE FLOW. 3 credits.

430:643. ADVANCED FLUID MECHANICS. 3 credits.
Basic equations of fluid mechanics in general coordinates. Navier-Stokes equation, its solution by various simplifying assumptions; slow viscous flow, potential flow, etc. Theoretical considerations concerning solutions of typical fluid mechanics problems. Theory of turbulence.

430:645. POTENTIAL FLOW THEORY. 3 credits.
Laplace's equation, its solution by analytic and numerical methods. Conformal transformation of regions with fixed and free ( implicit) boundaries. Direct and inverse relaxation. Simplified solutions. Applications to groundwater seepage, heat flow, electric potential fields, and fluid dynamic problems.

430:646-647. THEORY OF WAVES I & II. 3 credits each quarter. (3-0)

430:650. ENERGY METHODS. 3 credits. (3-0)
Prerequisite, 430:506. General concepts and principles; work and energy; virtual work and Castigliano's theorems; variational approach and variational methods; potential and complementary energy, use of energy methods for the solutions of engineering problems; special problems.

430:651. PLASTIC ANALYSIS I. 3 credits. (3-0)
Prerequisite, 430:452. Analysis and design of beams and frames made of ductile material on the basis of the ultimate load; plastic bending of beams; limit loads of statically indeterminate structures; fundamental theorems of limit analysis; general methods for determining the limit load; variables influencing the value of plastic moment;
430:652. PLASTIC ANALYSIS II. 3 credits. (3-0)
Prerequisite, 430:651 and 430:506. Limit analysis of rotationally symmetric plates and shells; constitutive equations for rigid perfectly plastic material; lower bound and upper bound theorems; complete solutions; approximate yield conditions; multiple loads; yield conditions for shells; circular plates; cylindrical shells; conical shells; spherical shells; shallow shells; extensions and limitations of limit analysis.

430:653-654. ELASTIC STABILITY I & II. 3 credits each quarter. (3-0)
Prerequisite, 430:506. Buckling of beams, columns, bars and frames; torsional buckling; inelastic buckling; energy approach and energy methods; buckling of rings, curved bars and arches; buckling of thin plates and shells; applications; special problems.

430:655. PRESTRESSED CONCRETE. 3 credits.

430:657-658. DYNAMICS OF STRUCTURES I AND II. 3 credits each quarter.

430:659. DYNAMICS OF PLATES AND SHELLS. 3 credits.
Prerequisites, 657, 658. Vibration of membranes, plates and shells with various boundary conditions. Dynamic response of plates and shells subjected to external dynamic forces. Special problems.

430:660. VISCOELASTICITY. 3 credits. (3-0)
Prerequisite, 430:601. Linear theory of viscoelasticity; viscoelastic models; hereditary integrals; viscoelastic beams; vibrations; axial impact; buckling of columns; viscoelasticity in three dimensions.

430:681-682. ADVANCED ENGINEERING MATERIALS I AND II. 3 credits each quarter.
Prerequisite, permission. The behavior of solid materials used by engineers. Principles which explain, describe, and define such behavior.

430:691. SPECIAL PROBLEMS I. 3 credits.
Prerequisite, graduate standing and permission. Supervised research or directed individual study in the student's major field. Topic selected by the student, subject to approval by advisor.

430:692. SPECIAL PROBLEMS II. 3 credits.
Prerequisite, 691 and permission. Continuation of 691. Individual research should lead to final report of publishable quality.

430:699. MASTER'S THESIS. 1-9 credits.
Prerequisite, permission. Research and thesis on some suitable topic in civil engineering as approved by the department. Defense of thesis in final examination.

440: ELECTRICAL ENGINEERING

440:233. CIRCUITS I. 3 credits. (3-0)

440:234. CIRCUITS II. 3 credits. (3-0)

440:321. PHYSICAL ELECTRONICS I. 3 credits. (3-0)

440:335. CIRCUITS III. 3 credits. (3-0)
Prerequisite, 234. Introduction to the use of Fourier, Laplace and State Variable techniques to analyze the dynamic operation of circuits.

440:336. CIRCUITS IV. 3 credits. (3-0)
Prerequisite, 335. Application of Fourier, Laplace and State Variable approaches to establish frequency and time domain expressions for steady state and transient responses in an electrical circuit. Role of Bessel's functions in certain electrical problems.

440:337. CIRCUITS V. 3 credits. (3-0)
Prerequisite, 336. Use of operational methods in the solution for the response due to a general form of a periodic excitation. Application of Complex Variable functions to electrical problems.
440:342. Electrical Measurements III.  
3 credits. (3-0)  
Prerequisite, 341. Analysis and characteristics of temperature and displacement transducers.

440:345. Illumination. 3 credits. (3-0)  
Prerequisite, 345. Fundamentals of illumination and principles underlying specifications and designs for adequate electrical lighting.

440:351. Electromagnetic Fields I.  
3 credits. (3-0)  
Prerequisite, 345:225. Static and dynamic electric and magnetic fields are treated on the vector basis with a final topic of Maxwell’s equations in point and integral forms.

440:352. Electromagnetic Fields II.  
2 credits. (2-0)  
Prerequisite, 351. An extension of dynamic electromagnetic fields with applications including particle dynamics and propagation equations.

440:353. Electrical Machinery I.  
4 credits. (3-1)  

440:354. Electrical Machinery II.  
4 credits. (3-1)  
Prerequisite, 353. The theory of electrical machinery neglecting saturation. Transformer connections under balanced load. Regulation and basic control of machines.

440:356. Electrical Machinery Fundamentals. 3 credits. (2-1)  
Prerequisite, 233. A course for non-EE majors stressing the practical aspects of AC and DC machinery and associated schematic diagrams.

440:357. Control and Application of Electrical Motors. 4 credits. (3-1)  
Prerequisite, 354. Magnetic control of motors, accelerating and decelerating times, duty cycles, control theory and application for given problems.

440:359. Transmission Lines and Networks. 4 credits. (3-1)  
Prerequisite, 336. Steady state and transient analysis of distributed parameter circuits. Low and high frequency applications. Networks for transmission. Laboratory.

440:365. Electronics I. 4 credits. (3-1)  

440:366. Electronics II. 4 credits. (3-1)  
Prerequisite, 365. Circuit analysis of electron devices in the frequency domain. Voltage amplifiers, power amplifiers, and oscillators. Laboratory.
440:459/559. WAVE ANALYSIS AND SYNTHESIS. 3 credits. (3-0)
Prerequisite, 461/561. Analysis of filter circuits. Synthesis techniques such as Foster and Cauer.

440:461/561. COMPUTER CIRCUITRY I. 3 credits. (3-0)
Prerequisite, 366. Analysis of computer circuits. Introduction to the use of Boolean Algebra and mapping techniques in analyzing switching circuits.

440:462/562. COMPUTER CIRCUITRY II. 3 credits. (3-0)
Prerequisite, 461/561. Extension of 461/561 into more complex problems of computer synthesis and design.

440:473/573. CONTROL SYSTEMS II. 3 credits. (3-0)
Prerequisite, 372. Methods for synthesizing closed loop systems. Application of servomechanism principles.

440:480/580. SYMMETRICAL COMPONENTS I. 3 credits. (3-0)
Prerequisite, 354. Per unit method as applied to power system calculations. Fundamental principles of symmetrical components as applied to the analysis of unbalanced electrical circuits.

440:481/581. SYMMETRICAL COMPONENTS II. 3 credits. (3-0)
Prerequisite, 480/580. Simultaneous faults on symmetrical power systems. Positive, negative, and zero sequence impedance calculations of apparatus and lines.

440:484. ELECTRICAL MACHINERY III. 3 credits. (3-0)

440:485. ELECTRICAL MACHINERY LABORATORY III. 1 credit. (3-0)
Corequisite, 484. Laboratory to accompany 484.

440:486/586. ADVANCED ELECTRICAL MACHINERY. 3 credits. (3-0)
Prerequisite, 484. Advanced topics relative to reactances and transient performance of electrical machinery.

GRADUATE COURSES

440:602. NETWORK ANALYSIS AND SYNTHESIS. 3 credits. (3-0)
Prerequisite, 438/538. Study of filter circuits. Synthesis techniques such as Foster and Cauer.

440:604. CONTROL SYSTEM THEORY. 3 credits. (3-0)

440:605. NON-LINEAR CONTROL THEORY. 3 credits. (3-0)
Prerequisite, 604. Techniques for the determination of stability for non-linear systems such as describing function analysis, the second method of Lyapunov, and Popov frequency locus techniques.

440:607. ELECTROMAGNETIC FIELD THEORY II. 3 credits. (3-0)
Prerequisite, 453/553. Application of Maxwell's equations continued. Propagation equations and antenna analysis.

440:609. SEMICONDUCTOR APPLICATIONS I. 3 credits. (3-0)
Prerequisite, 422/522. Application of semiconductor devices in electronic circuits.

440:610. SEMICONDUCTOR APPLICATIONS II. 3 credits. (3-0)
Prerequisite, 609. Application of semiconductor devices in waveforming circuits.

440:612. SYSTEMS ANALYSIS. 3 credits. (3-0)
Prerequisite, 345/255. Application of operations research methods and optimization approach to engineering problems. Linear and dynamic programming, queuing, and Monte Carlo techniques.

440:613. OPTIMAL AND ADAPTIVE CONTROL THEORY. 3 credits. (3-0)
Prerequisite, 473/573. The design of control systems to minimize scalar performance indices. Introduction to Pontryagin's Maximum Principle.

440:614. RANDOM PROCESS ANALYSIS. 3 credits. (3-0)
Prerequisite, 613. Analysis and design of control systems with stochastically defined input. Introduction to estimation filters.

440:621. PROTECTIVE RELAYING. 3 credits. (3-0)
Prerequisite, 681 or permission. The principles and application of relays as applied to the protection of power systems.

440:630. LINEAR CIRCUIT ANALYSIS. 3 credits. (3-0)
Prerequisite, 438/538. Use of pole-zero and matrix methods in circuit analysis.

440:681. STEADY STATE ANALYSIS OF POWER SYSTEMS. 3 credits. (3-0)
Prerequisite, 481/581. General circuit constants, power circle diagrams, steady state stability, load flow.

440:682. TRANSIENT ANALYSIS OF POWER SYSTEMS. 3 credits. (3-0)
Prerequisite, 481/581. Sudden application of load to machines. Transient and dynamic stability.

440:692. SPECIAL PROBLEMS. 1 to 6 credits.
Prerequisite, permission of department head. For qualified graduate students. Supervised research.
or investigation in student's major field of training or experience. Credit dependent upon nature and extent of project. May be taken more than once.

440:699. MASTER'S THESIS. 1 to 9 credits.
Prerequisite, permission of department head. Research and thesis on some suitable topic in Electrical Engineering.

445: COMPUTER SCIENCE
445:160. COMPUTER SCIENCE I. 3 credits. (2-1)
Introduction to stored program digital computers—their application and use. Concepts, computer components, problem analysis, programming, and coding using a compiler language.

445:220. ANALOG COMPUTERS. 3 credits. (2-1)
Prerequisite, 440:233, corequisite, 345:225. Basic concepts involved in the solution of scientific and engineering problems via the analog computer.

445:260. COMPUTER SCIENCE II.
3 credits. (2-1)
Prerequisite, 160. A continuation of 160 with stress on the use of the computer as a problem-solving tool at the machine language or assembler language level.

445:360. COMPUTER SCIENCE III.
3 credits. (2-1)
Prerequisites, 260 and 345:224. A continuation of 260 with particular emphasis on algorithmic processes, special computer techniques, problem solving, timing, and evaluation. An overview of current applications, research, and development in computer science and related fields.

445:460. SPECIAL TOPICS IN COMPUTER SCIENCE. 3 credits. (2-1)
Prerequisite, 360. Special topics in computer science primarily oriented toward applications, research, and problem solving. With the instructor's permission, a student may elect to take this course on an individual project basis.

GRADUATE COURSES
445:660. COMPUTER APPLICATION I.
3 credits. (3-0)
Prerequisites, 345:225 and 160. Organization of scientific and engineering problems for computer adaptation. Subject matter selected from various branches of science and engineering.

445:661. COMPUTER APPLICATION II.
3 credits. (3-0)
Prerequisite, 660. Extension of 660 into more complex problems selected by students on the basis of interest.

460: MECHANICAL ENGINEERING
460:125. ENGINEERING GRAPHICS I.
3 credits. (1-2)
Freehand sketching techniques. Orthographic projections and pictorial representation of typical machine elements.

460:126. ENGINEERING GRAPHICS II.
2 credits. (0-2)
Prerequisite, 125. Introduction to formal design drawing. Graphical communication.

460:300. THERMODYNAMICS I. 3 credits. (3-0)
Introduction of basic concepts of Thermodynamics, the pure substance, the system, and the laws of Thermodynamics.

460:301. THERMODYNAMICS II. 3 credits. (3-0)
Sequential; prerequisite, 300. Entropy, inequality of Clausius, the irreversible process, irreversibility, availability, cycle analysis.

460:302. THERMODYNAMICS III. 3 credits. (3-0)
Sequential; prerequisite, 301. Maxwell relations, real gases, ideal mixtures, fugacity, chemical reactions, phase and chemical equilibrium, nozzle and blade passage flow.

460:310. FLUID MECHANICS. 3 credits. (3-0)
Sequential; prerequisite, 310. Ideal flow, flow with friction, flow with heat transfer. Shock.

460:315. HEAT TRANSFER. 4 credits. (3-1)
Sequential; prerequisite, 310. Ideal flow, flow with friction, flow with heat transfer. Shock.

460:320. KINEMATIC ANALYSIS OF MECHANISMS.
4 credits. (3-1)
Sequential; prerequisite, 320. Displacements, velocities, accelerations, and introduction to static and inertia forces in plane-motion mechanisms. Introduction to design of gears, gear trains, andcams.

460:325. VIBRATIONS. 3 credits. (3-0)
Sequential; prerequisites, 345:225, 345:222. Undamped, damped, and forced vibrations for systems having a single degree of freedom.

460:330. DYNAMICS OF MACHINERY.
4 credits. (3-1)
Sequential; prerequisites, 320, 430:302. Dynamic analysis of components and machines—dynamic
forces and reactions. Balancing of rotating and reciprocating masses.

460:335. ANALYSIS OF MECHANICAL COMPONENTS. 4 credits. (3-1)
Sequential; prerequisites, 330, 430:303. Materials and design stresses. Theories of failure for static, dynamic, and thermal loads. Application to analysis and design of components.

460:340. MECHANICAL MEASUREMENTS. 3 credits. (2-1)

460:360. ENGINEERING ANALYSIS I. 3 credits. (3-0)

460:361. ENGINEERING ANALYSIS II. 3 credits. (3-0)
Sequential; prerequisite, 360. Special topics in the "closed-form" analysis of problems in mechanical engineering.

460:362. ENGINEERING ANALYSIS III. 3 credits. (3-0)
Sequential; prerequisite, 361. The application of numerical and computer techniques to the solution of problems in Mechanical Engineering.

460:410. ENVIRONMENTAL CONTROL. 3 credits. (3-0)
Sequential; prerequisites, 320, 315 or permission. Thermodynamics of gas mixtures. Physiological requirements for sustenance and comfort. Control of gas mixtures, heating, cooling, and humidity.

460:412/512. PRINCIPLES OF NUCLEAR ENGINEERING I. 3 credits. (3-0)
Prerequisite, permission. Basic principles of nuclear engineering. Review of nuclear physics with application to nuclear engineering.

460:415. ENERGY CONVERSION. 3 credits. (3-0)

460:429. MECHANICAL DESIGN I. 4 credits. (3-1)
Sequential; prerequisite, 335. The design process. Creativity and inventiveness. The tools of decision making—probability, reliability, optimization.

460:421. MECHANICAL DESIGN II. 4 credits. (3-1)
Sequential; prerequisite, 420. Decision-making. The interdisciplinary aspects of design. Case studies and projects.

460:422/522. EXPERIMENTAL STRESS ANALYSIS I. 3 credits. (3-0)
Sequential; prerequisite, 420, 430:303. Experimental methods of determining stress or strain. Use of brittle lacquer, strain gages, and photoelasticity. Advantages and limitations of each method. May be taken for graduate credit.

460:430/530. ENGINEERING DYNAMICS I. 3 credits. (3-0)
Prerequisites, 430:103, 345:114. Engineering applications of: systems of particles, work, energy, Lagrangian mechanics, rigid body kinetics, the inertia tensor.

460:440. AUTOMATIC CONTROLS I. 3 credits. (3-0)

460:441. AUTOMATIC CONTROLS II. 3 credits. (3-0)

460:495. MECHANICAL ENGINEERING PROBLEMS. 1-3 credits.
(May be repeated for a maximum of 3 credits.) Sequential; prerequisite, 345:225. Complex variables and Laplace transforms. Mathematical models of physical systems. Transient systems analysis and steady-state sinusoidal analysis. Analog simulation of linear systems.

460:496. SPECIAL TOPICS. 3 credits. (3-0)
Sequential; prerequisite, permission. Brief description of current content to be announced in schedule of classes.

GRADUATE COURSES

460:600. FLUID DYNAMICS. 3 credits. (3-0)
Sequential; prerequisites, 310, 392. Fluid flow as affected by thermodynamic considerations. Study of shock and shock areas. Application of dynamic fluid flow.

460:605. JET PROPULSION PRINCIPLES. 3 credits. (3-0)
Sequential; prerequisites, 310, 302. Fundamentals of propulsion systems. Analysis of ramjet, turbojet, rockets, and thrust augmentation.

460:608. THERMODYNAMICS. 3 credits. (3-0)
460:610. DYNAMICS OF VISCOUS FLOW I. 
3 credits. (3-0)
Prerequisites, 430:643 or permission. Mathematical derivation and solution of the conservation equations for viscous flow. Fractional analysis of basic equations and boundary conditions to obtain simplified models. Boundary layer analysis. Application to engineering problems by exact and approximate methods. Consideration of laminar and turbulent flows. Temperature dependent properties. Tensor notation.

460:611. DYNAMICS OF VISCOUS FLOW II. 
3 credits. (3-0)
Prerequisite, 460:610. Continuation of Dynamics of Viscous Flow I. Laminar boundary layer theory, similarity solutions and integral methods. Consideration of high speed flows in a continuum and in a rarefied atmosphere.

460:612. PRINCIPLES OF NUCLEAR ENGINEERING. 
II. 3 credits. (3-0)
Prerequisite, 460:412. Study of theory, design and operation of nuclear reactors, including shielding calculations, instrumentation, health physics, fuel cycles and use of radioactive isotopes.

460:615. CONDUCTIVE HEAT TRANSFER. 
3 credits. (3-0)

460:616. CONVECTIVE HEAT TRANSFER. 
3 credits. (3-0)

460:617. RADIATIVE HEAT TRANSFER. 
3 credits. (3-0)

460:618. HEAT TRANSFER PROBLEMS. 
3 credits. (3-0)
Sequential; prerequisite, permission. Special topics and problems in conduction, convection, or radiation.

460:620. EXPERIMENTAL STRESS ANALYSIS II. 
3 credits. (3-0)
Sequential; prerequisite, 422. Dynamic strain measurement and design of transducers using electrical resistance strain gages.

460:621. EXPERIMENTAL STRESS ANALYSIS III. 
3 credits. (3-0)

460:622. CONTINUUM MECHANICS. 3 credits. (3-0)
Prerequisites, 430:103, 345:114 or equivalent. Analysis of stress and deformation at a point. Derivation of the fundamental equations by applying the basic laws of conservation of mass, energy and momentum in mechanics and those of thermodynamics. Relations between stress and strain and strain rate. Specialized laws affecting the stress-strain relationships.

460:623. APPLIED STRESS ANALYSIS I. 3 credits. (3-0)
Prerequisite, 460:622. Elastic analysis of stress, stress analysis beyond elastic limit, Non-Linear elastic stress analysis, mathematical techniques applied to stress analysis.

460:624. APPLIED STRESS ANALYSIS II. 3 credits. (3-0)
Prerequisite, permission. Stress analysis of systems subjected to dynamic loads, stress analysis of elements subjected to thermal loads. The concept of stress, advanced topics in fatigue, creep, stress relaxation and related effects.

460:625. ANALYSIS OF MECHANICAL COMPONENTS. 3 credits. (3-0)

460:626. THERMOELASTICITY. 3 credits. (3-0)
Prerequisite, 430:602. Thermoelastic equations, thermal stresses, dynamical thermal stress problems, Papkovitch potentials, variational methods.

460:627. NON-LINEAR CONTINUUM MECHANICS. 3 credits. (3-0)
Prerequisites, 460:622 or permission. Finite deformation and strain, stress, constitutive equations, strain energy functions. The solution of finite deformation problems, hyperelasticity, and electroelasticity.

460:630. MECHANICAL VIBRATIONS I. 3 credits. (3-0)
Sequential; prerequisite, 345:225. The study of free vibrations, damped vibrations, transient response, and forced vibrations in linear elastic systems. This course is intended for those graduate students who have done no previous coursework in vibrations.

460:631. MECHANICAL VIBRATIONS II. 3 credits. (3-0)
Sequential; prerequisite, 630 or equivalent. Laplace transform and Fourier series analysis of linear systems. Analysis of two-degree-of-freedom systems, multimass lumped systems, and distributed mass systems.
460:632. RANDOM VIBRATIONS. 3 credits. (3-0)
Prerequisites, 460:630 or equivalent. Stationary random processes and their transmission through linear time-invariant systems. Interaction of random vibration with three mechanisms of failure.

460:633. ENGINEERING DYNAMICS II. 3 credits. (3-0)
Prerequisite, 460:530. Engineering applications of: Euler's differential equation, Hamilton's principle, the principle of Manpertiüüs oscillatory motion, phase space, and the Hamilton-Jacobi equation.

460:660. ENGINEERING ANALYSIS I. 3 credits. (3-0)
Prerequisite, permission. Applications of mathematics to engineering problems. Problems in heat transfer, stress analysis, fluid flow, dynamics and design are studied from the point of view of mathematical analysis involving index notations, matrices, linear transformations, complex variables, conformal mapping, and Bessel and Legendre solutions.

460:661. ENGINEERING ANALYSIS II. 3 credits. (3-0)
Prerequisite, 660 or permission. Continuation of 660. Engineering problems to include applications of partial differential equations, method of characteristics, boundary value conditions, the Euler equation, and Lagrange multipliers.

460:680. POLYMER PROCESSING. 3 credits. (3-0)
Sequential; prerequisite, 310 or permission. Study of process engineering in the polymer conversion industry, emphasizing the analytical treatments of heat transfer, mass flow, mixing, shaping, and molding of polymeric materials.

460:681. DESIGN OF RUBBER COMPONENTS. 3 credits. (3-0)
Sequential; prerequisite, 430:303 or permission. Study of the principles of the design of elastomeric products, emphasizing analytical treatments of the elastic behavior and mechanisms of failure of resilient mountings, springs, seals, bearings, and tires.

460:695. SPECIAL PROBLEMS IN MECHANICAL ENGINEERING. 1-6 credits.
Sequential; prerequisite, permission of department head. For qualified candidates for graduate degree. Supervised research in student's major field of training or experience. Credit dependent upon nature and extent of project as determined by supervisor and department head.

460:699. MASTER'S THESIS. 1-6 credits.
Sequential; prerequisite, permission. Research and thesis on some suitable topic in mechanical engineering.
The College of Education

510: GENERAL AND FOUNDATION EDUCATION

510:156. EDUCATION IN AMERICAN SOCIETY. 3 credits.
Nature and purposes of education in American society including description of its distinctive features and analysis of factors determining its character.

510:350. TESTS AND MEASUREMENTS. 3 credits.
Prerequisite, 565:157. Various methods and devices employed in comprehensive and continuous evaluation. Some attention given to treatment and interpretation of scores.

510:360. AUDIO-VISUAL EDUCATION. 3 credits.
Prerequisite, 740-165. Concentrated experience in nursery schools under the direction of a supervising teacher and a University supervisor.

510:400. STUDENT PARTICIPATION. 1 credit.
Systematic observation and participation in the classroom.

510:403. PROBLEMS IN EDUCATION. 3 credits.
Prerequisite, Senior status in Education. Involves the senior student in a critical approach to the more general problems of education as a scholarly discipline, as a social undertaking, and as a profession. This course, which crosses divisional boundaries, assists the preservice teacher to evaluate educational practice in the light of philosophy of education.

510:401. STUDENT TEACHING. 6-9-12 credits.
Corequisite, 403, prerequisite, 530:313 or equivalent. Student teaching under supervision of supervising teacher and University supervisor.

510:402. SEMINAR IN STUDENT TEACHING. 3 credits.
Corequisite, 402.

510:404. INTERDISCIPLINARY SEMINAR. 4 credits.
Designed for students who have demonstrated high academic achievement and who wish to do special work in education.

510:410/510. AUDIO-VISUAL EDUCATION. 3 credits.
To acquaint teachers of all levels with the wide variety of visual and auditory aids available and the techniques for their respective use. Learning to operate projectors and sound reproducers, to locate materials available and to construct materials for one's own specific use.

GRADUATE COURSES

510:603. EDUCATION AND SOCIAL TRENDS. 3 credits.
Study of contemporary political, economic and social trends and their effects on educational policies and practices.

510:690-691-692. INTERNSHIP TEACHING AND SEMINAR. 4 credits each quarter.
Teaching at least ½ time under supervision from the University and the school system. Includes a two-hour seminar each week.

510:700. PHILOSOPHIES OF EDUCATION. 5 credits.
An examination of basic philosophical problems which underlie the broad educational questions that confront society. This course provides a foundation upon which a critical understanding can be developed of fundamental questions of modern society and education.

510:701. HISTORY OF EDUCATION IN AMERICAN SOCIETY. 4 credits.
The historical development of education in the American social order, with special emphasis on the social, political, and economic setting.

510:702. SEMINAR: MODERN THEORIES OF EDUCATION. 3 credits.
Prerequisite, 700 or equivalent. An examination of the major theoretical frameworks and ideologies that form the foundation of modern educational thought. Emphasis is given to modern theories and their implications for contemporary educational policy and practice.

510:705. COMPARATIVE EDUCATION. 4 credits.
Comparative study of philosophies, organization, administration, curricula and methods of foreign schools, including those in England, France, Germany, the Soviet Union, representative countries of the Middle East and Latin America, stressing those phases which have special significance for American Education.

510:706. ELEMENTARY SCHOOL LABORATORY. 4 credits.
Corequisite, 403 or equivalent. Student teaching under supervision of supervising teacher and University supervisor.

510:707. SEMINAR IN INDEPENDENT STUDY. 1-4 credits.
Corequisite, 402.

510:730. ADULT EDUCATION. 3 credits.
A survey course for public school teachers and administrators as well as for those engaged full time in Adult Education. Historical background including European influences and their relation to rapid developments in the field during the last decade. Emphasis on current programs throughout the United States.

520: ELEMENTARY EDUCATION

520:141. HANDICRAFTS IN ELEMENTARY SCHOOL. 3 credits.
A broad range of experiences through the
manipulation of various craft mediums which will enrich the curriculum of the elementary school.

520:262. ELEMEN TARY SCHOOL MUSIC
LITERATURE AND APPRECIATION. 3 credits.
Prerequisite, 750:161. For non-music majors only. Materials and methods for teaching music appreciation in the grades. Correlation of these methods and materials with children's activities. A study of the enjoyment of familiar music through recordings, films and required concert attendance.

520:280. CHILDREN'S LITERATURE. 5 credits.
A survey of materials for children in prose, poetry and illustrations from early historical periods to modern types; criteria of selection and methods of presentation are critically examined.

520:321. ART FOR THE GRADES. 3 credits.
Prerequisite, 710:121. Art requirements in elementary grades; laboratory work to give teachers a knowledge of materials and mediums and skill in handling them.

520:322. PRIMARY-ELEMENTARY MUSIC
EDUCATION. 3 credits.
Prerequisite, 750:161. For non-music majors only. Theory and practice of presenting general music in the grades. Discussion of objectives and methods for grades one through six and a survey of materials in these fields. Required observations of music teaching in the city schools.

520:323. TEACHING AND SUPERVISION OF MUSIC IN
THE PRIMARY GRADES. 2 credits.
Prerequisite, 750:253. To prepare vocal and instrumental music teachers for organizing, teaching, and supervising music education in the primary grades (1-3). Observation and participation are required.

520:324. TEACHING AND SUPERVISION OF MUSIC IN
THE ELEMENTARY GRADES. 2 credits.
Prerequisite, 520:323. To prepare vocal and instrumental music teachers for organizing, teaching, and supervising music education in the elementary grades (4-6). Observation and participation are required.

520:330. EARLY ELEMENTARY EDUCATION I.
3 credits.
Prerequisite, 565:157. Aims to develop a forward-looking viewpoint in the education of young children. Materials, techniques and practices are examined which furnish opportunities to explore Kindergarten-Primary Education.

520:331. EARLY ELEMENTARY EDUCATION II.
3 credits.
Prerequisite, 520:330. Emphasis is placed on the curricular offerings of typical Primary schools. Language Arts, Science, Social Studies are emphasized.

520:332. EARLY ELEMENTARY EDUCATION III.
3 credits.
Prerequisite, 520:331. The professional problems of teaching in the kindergarten-primary grades are explored. Small group discussion and classroom visitations are correlated to bring theory and practice into working perspective.

520:333. SCIENCE FOR THE ELEMENTARY GRADES.
5 credits.
Prerequisite, 565:157. For the prospective teacher of science in the elementary school; development of a point of view toward science teaching and a study of methods of presenting science material.

520:335. THE TEACHING OF READING. 5 credits.
Prerequisite, 565:157. Reading program for the elementary school, together with modern methods of teaching reading at the various levels.

520:336. ARITHMETIC IN THE ELEMENTARY
GRADES. 5 credits.

520:337. TEACHING THE LANGUAGE ARTS.
7 credits.

520:338. THE TEACHING OF SOCIAL STUDIES.
3 credits.
Prerequisite, 565:157. Social studies program in the elementary school and the varied means of implementing the program.

520:339. PRINCIPLES OF DIAGNOSTIC TEACHING OF
READING. 4 credits.
Nature of reading problems in a classroom setting. Methods and materials employed in a corrective reading program by the classroom teacher.

520:436/536. GEOMETRY AND MEASUREMENT IN
ELEMENTARY SCHOOL MATHEMATICS. 4 credits.
Prerequisite, 336. Trends in geometry and measurement instruction in the elementary school. Procedures for the development of important geometric concepts and measurement skills.

520:437/537. STRUCTURE OF THE NUMBER SYSTEM
IN ELEMENTARY SCHOOL MATHEMATICS. 4 credits.
Prerequisite, 336. Advanced topics in mathematics and techniques in the elementary school. Procedures for the development of important arithmetic concepts and computational skills.

520:451. ELEMENTARY EDUCATION. 4 credits.
Evaluation of recent trends and practices in elementary education. Language Arts and Social Studies will be emphasized. Required for those converting from other certificates to elementary.
GRADUATE COURSES

520:630. Elementary School Curriculum and Instruction. 3 credits.
Application of the findings of recent research to curriculum building and procedures in teaching.

520:631. Elementary School Administration. 3 credits.
Prerequisite, 570:601. Problems, procedures and principles of organization, administration and supervision in elementary schools.

520:640. Theory and Practice in Elementary Mathematics. 3 credits.
A comparative analysis and evaluation of the purposes and programs of experimental mathematics programs for the elementary schools with application of the findings to instructional methods and materials.

520:732. Supervision of Instruction in the Elementary School. 3 credits.
A study of supervisory role of the elementary principal and other supervisory personnel. Consideration of the particular aspects of supervision at the elementary school level in relation to general supervisory practices.

520:780. Seminar in Elementary Education. 3 credits. May be repeated.
An intensive examination of a particular discipline in elementary education.

Prerequisite, 565:157. Four units of study carried on concurrently: (1) basic principles of teaching; (2) a working knowledge of methodology in a specific field; (3) observation and participation; (4) preparation of teaching materials.

530:313. Teaching of Speech. 3 credits.
Prerequisite, 12 credits in speech courses. An investigation of educational methods for speech-communication specialists through examination of theories, study of teaching processes and methods and preparation of instructional materials.

530:315. Seminar in Teaching Modern Foreign Languages. 4 credits.
Prerequisite, 565:157. An elective course for those students who major in modern foreign languages.

530:316. Methods in Teaching Art. 5 credits.
Prerequisite, completion of the required course for art teachers and quality point ratio of 2 in the field. Study of trends and procedure in teaching and in supervision; relation of art to the home, school and community; observation in selected schools is required.

530:325. Teaching and Supervision of Music in the Junior High School. 2 credits.
Prerequisite, 520:324. To prepare music teachers for organizing, teaching, and supervising music education in junior high school grades (7-9). Special emphasis on the adolescent voice, the changing voice, the general music class, and special interest groups and ensembles. Observation and participation required.

530:326. Teaching and Supervision of Music in the Senior High School. 2 credits.
Prerequisite, 750:253 and 361. To prepare music teachers for organizing, teaching, and supervising music education in the senior high school. Emphasis will be on theory and applied music, especially instrumental organizations.

530:351. Home Economics Education. 5 credits.
Organization of home economics in secondary schools. Two hours observation, two hours lecture.

530:373. Principles of Typewriting Instruction. 2 credits.
Prerequisite, Typewriting 254:155 and a quality point ratio of 2 in the field. Methods of presentation in typewriting. Demonstrations and observations required. A theory test in the field must be passed before credit will be given for the course.

530:374. Principles of Shorthand Instruction. 2 credits.
Prerequisite, Shorthand 254:173 and a quality point ratio of 2 in the field. Methods of presentation in shorthand and transcription. Demonstrations and observations required. A theory test in the field must be passed before credit will be given for the course.

530:375. Principles of Bookkeeping Instruction. 2 credits.
Prerequisite, Accounting 620:222 and a quality point ratio of 2 in the field. Methods of presentation in bookkeeping, business cycle, practice sets and lesson plans. A theory test in the field must be passed before credit will be given for the course.

530:425/525. Reading Programs in Secondary Schools. 3 credits.
Relationship of reading to human development; materials, class organization and procedures for developing reading improvement programs for high school and college students.

GRADUATE COURSES

530:619. Secondary School Curriculum and Instruction. 3 credits.
Application of the findings of recent research to curriculum building and procedures in teaching.
530:620. SECONDARY SCHOOL ADMINISTRATION.
3 credits.
Prerequisite, 570:601. Problems, procedures and principles of organization and administration in secondary schools.

530:721. SUPERVISION OF INSTRUCTION IN THE SECONDARY SCHOOL. 3 credits.
Consideration of the unique elements of the secondary school organization and purpose which make supervision of instruction within its framework a special case. Definition of the supervisory leadership role in improving instruction at the secondary school level and development of a practical theory of secondary school supervision.

530:780. SEMINAR IN SECONDARY EDUCATION.
3 credits. May be repeated.
An intensive examination of a particular area of secondary education.

555: PHYSICAL EDUCATION

555:101. APPLIED ANATOMY. 5 credits.
Study of the human body; origin, insertion, action, innervation and blood supply of the important muscles of the body in relation to Physical Education and health.

555:102. APPLIED PHYSIOLOGY. 4 credits.
General laws of life; functional activity of tissues, organs, systems; what they can do and how they work in everyday life.

555:170. ORGANIZATION AND ADMINISTRATION OF RECREATION. 3 credits.
Administration, budgets, management of individual playgrounds, the neighborhood recreation center and community activities.

555:304. THEORY AND PRACTICE OF SWIMMING. 3 credits.
Analysis of strokes, dives and related skills; methods and practice in teaching of swimming.

555:311. RED CROSS FIRST AID. 2 credits.
Standard American Red Cross course which gives instruction and practice in the immediate and temporary care of injuries and sudden illness.

555:315. ADAPTIVE PHYSICAL EDUCATION. 3 credits.
Prerequisite, 101 and 102. Current theories and practices relating to the needs of physically handicapped children; emphasis is given to underlying philosophy, purpose and administration.

555:319. COMMUNITY HYGIENE. 4 credits.
Personal and community hygiene, nutrition, disease prevention and control, mental and emotional health and problems of medical care. For Health and Physical Education majors and minors.

555:320. CAMPING AND OUTDOOR EDUCATION. 3 credits.
Camping skills and counseling techniques. Camp administration, school camping and outdoor education.

555:321-322. ORGANIZATION AND ADMINISTRATION OF PHYSICAL EDUCATION. 3 credits each quarter.
Organization and administration of Physical Education programs.

555:325. ORGANIZATION AND ADMINISTRATION OF SCHOOL HEALTH. 4 credits.
Organization of health education, with special reference to national, state and local control. Staff, program, budget, health and safety, facilities and other phases of administration.

555:333. METHODS AND MATERIALS IN TEACHING HEALTH EDUCATION. 5 credits.
Current materials for elementary and secondary school grades; integration and correlation of health education in the education of school children; survey of community, state and federal agencies concerned with health of school-age children.

555:334. GAMES AND RHYTHMS FOR ELEMENTARY GRADES. 3 credits.
One lecture and two laboratory periods each week. Lectures on theories of play, child development and supervision responsibilities with classroom teachers in the program of Physical Education. Laboratories give an opportunity for analysis and teaching games for the various age groups. For majors in Physical Education.

555:335. MOVEMENT EXPERIENCES FOR ELEMENTARY CHILDREN. 3 credits (2-2).
The nature of basic movement education, tumbling and gymnastics for the elementary child.

555:338. HEALTH AND PHYSICAL EDUCATION ACTIVITIES FOR ELEMENTARY GRADES. 5 credits.
Two lectures and two laboratory periods each week. Philosophy and objectives of health and Physical Education programs on the elementary level. Practice in teaching games and rhythms of low organization; planning health and Physical Education programs based upon needs, interests and development of elementary children; common communicable and non-communicable diseases; methods of organization; study of source materials available.

GRADUATE COURSES

555:601. ADMINISTRATION OF HEALTH, PHYSICAL EDUCATION ATHLETICS AND RECREATION. 5 credits.
Organization, administration, and evaluation of health and physical education programs in school or community. Administrative policies and problems of athletic programs, varsity and intramural, at the elementary, secondary and collegiate levels. Organization and administration of recreation programs.
555:603. CURRICULUM PLANNING IN HEALTH AND PHYSICAL EDUCATION. 3 credits.
Analysis of the objectives, procedures and trends in health and physical education curricula and the principles and procedures for developing sound programs.

555:605. PHYSIOLOGY OF MUSCULAR ACTIVITY AND EXERCISE. 3 credits.
A study of the functions of body systems and the physiological effects of exercise. Laboratory experiences will accompany lectures and discussions.

555:606. MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION. 3 credits.
Prerequisite, 590:603. A critical analysis of existing laboratory testing and a discussion and study of measurement and evaluation in terms of future needs.

555:608. SUPERVISION OF PHYSICAL EDUCATION. 3 credits.
Principles involved in the supervision of physical education service programs. Procedure and techniques of supervision of service classes at the three levels: elementary, junior high and senior high school.

557: MEN'S PHYSICAL EDUCATION

557:145-146. BASIC COURSE IN PHYSICAL EDUCATION ACTIVITIES. 3 credits each quarter.
For men majoring in Physical Education. Learning rules and skills in sports, games and activities commonly included in Physical Education programs.

557:193-194. THEORY AND PRACTICE OF PHYSICAL EDUCATION. 3 credits each quarter.
Prerequisite, 146. To develop personal technique and skill in presenting calisthenics, marching, gymnastic activities and officiating in sports; history; general lesson plans suitable for elementary and secondary school programs. Observation at all school levels.

557:306. THEORY AND TECHNIQUES OF FOOTBALL COACHING. 2 credits.
Theory, techniques, and practices related to selected sports, techniques of organizing and teaching classes in these sports, laboratory experience through supervised teaching in service courses. Application of current rules in officiating.

557:307. THEORY AND TECHNIQUES OF SOCCER COACHING. 2 credits.
Theory, techniques, and practice related to the different ways of coaching baseball. One hour lecture, two hours laboratory.

557:308. THEORY AND TECHNIQUES OF WRESTLING COACHING. 2 credits.
Coaching philosophy, theory, techniques, and practices related to the coaching of wrestling. One hour lecture, two hours laboratory.

557:313. CARE AND PREVENTION OF ATHLETIC INJURIES. 3 credits.
Theory and practice in scientific manipulation of the muscles as related to the prevention and treatment of athletic injuries.

559: WOMEN'S PHYSICAL EDUCATION

559:147-148. BASIC COURSE IN PHYSICAL EDUCATION ACTIVITIES. 3 credits each quarter.
For women majoring in Physical Education. Learning rules and skills in sports, games and activities commonly included in Physical Education programs.

559:195-196. THEORY AND PRACTICE OF TEAM AND INDIVIDUAL SPORTS. 3 credits each quarter.
Prerequisite, 148. Analysis of skills essential to selected sports, techniques of organizing and teaching classes in these sports, laboratory experience through supervised teaching in service courses. Application of current rules in officiating.

559:303. THEORY AND PRACTICE OF PHYSICAL EDUCATION. 3 credits.
Historical development, methods and practice in the teaching of apparatus, gymnastics, stunts and tumbling. Tests and measurements in Physical Education.

559:308. THEORY AND PRACTICE OF DANCE. 3 credits.
Analysis of the basic dance steps for folk, square and social dance; square dance calling; modern dance technique and improvisations; methods and materials of teaching dance. Supervised teaching in service courses.

560: EDUCATIONAL GUIDANCE AND COUNSELING

560:410. PERSONNEL SERVICES IN SCHOOL AND SOCIAL WORK. 3 credits.
Prerequisite, Senior standing. A basic introduction to the background, role and function, tech-
niques, and selected issues in the personnel field.
Particularly helpful for students who may be con-
considering entering the field of social work, pupil
personnel or college personnel at the graduate
level.

**GRADUATE COURSES**

560:602. **Orientation to Guidance Services.**
3 credits.

Background and development of pupil person-
nel services, basic concepts related to pupil per-
sonnel work, current programs in elementary and
secondary schools and present status and trends
in pupil personnel services.

560:605. **Seminar in Guidance.** 3 credits.

(To be taken by counseling candidates in con-
junction with 602 or immediately thereafter.) A
series of individual and group experiences designed
to evaluate and select applicants for graduate pre-
paration in counseling.

560:606. **Guidance in the Elementary School.**
3 credits.

Foundation of guidance in the elementary
school, guidance services in the elementary school
and the utilization of guidance and counseling in the
elementary school.

560:607. **Patterns of Career Development.**
3 credits.

Prerequisite, 608. Traces career development
from early childhood through retirement and pro-
vides fundamental knowledge necessary in elemen-
tary and secondary counseling in the area of

careers.

560:608. **Techniques of Guidance.** 3 credits.

Study of the following guidance tools and tech-
niques and their application in guidance programs,
objective and subjective measurement devices,
cumulative record systems, case study and case
conference, the interview.

560:609. **Vocational Guidance and**
**Occupational Information.** 3 credits.

Sources, organization and uses of occupational
information; principles, practices and techniques
of group instruction and individual guidance in
studying, evaluating and choosing an occupation.

560:610. **The Counseling Interview—**
**Approaches, Procedures and Evaluations.**
3 credits.

Prerequisite, 608 or permission. Emphasis is
placed upon the characteristics and interviewing
role of the guidance counselor, various counseling
approaches, the counseling interview and the
philosophy of counseling within an educational
institutions. (Should be elected preceding 615.)

560:612. **Group and Educational Guidance.**
3 credits.

The first half of the course deals with the place
of group guidance in schools, techniques the
counselor uses in group guidance and materials
appropriate to group guidance. The second half of
the course deals with educational guidance, espe-
cially the planning of an educational program
from junior high school through senior high school
and college or the appropriate post-high school
plan.

560:614. **Evaluation and Diagnosis of**
**Learning Problems.** 4 credits.

Study and measurement of factors leading to
learning problems with some attention to remedial
procedures.

560:615. **Practicum in Counseling.** 5 credits.

Prerequisite, 608. Supervised counseling experi-
ence with individuals and small groups.

560:628. **Student Personnel Services in**
**Higher Education.** 3 credits.

An overview of student personnel services in
higher education; their evolution and growth,
philosophy, organization, and administration.

560:701. **Organization and Administration of**
**Guidance Services.** 3 credits.

Study of the principles and practices in the or-
organization and administration of pupil personnel
programs, roles and functions of the counselor,
school psychologist, and other pupil personnel
workers, problems peculiar to this area, and evalu-
ation and research as it pertains to pupil per-
sonnel services.

560:702. **Advanced Practicum in Student**
**Counseling.** 3 credits.

Supervised experiences in individual and group
counseling of students in the field and in the pupil
personnel center. Periodic counseling sessions with
the practicum supervisor are also provided for
candidates.

560:703. **Seminar in School Guidance and**
**Counseling.** 4 credits.

An examination and discussion of topics related
to major areas in this field such as the counselor
as a professional, the counselor as a person and
issues in guidance and counseling.

560:704-705. **Seminar in Pupil Personnel**
**Research.** 3 credits each quarter.

Prerequisite, 590:713, approval of Doctoral
Committee. Provides an extensive background in
selected areas of pupil personnel services and in-
cludes criteria for evaluation and application of
research findings.

560:706-707-708. **Internship in Counseling**
**Supervision.** 3 credits each quarter.

Experience in supervising the counseling done
by master's degree candidates in guidance and

counseling. Further supervised experiences in in-
dividual and group counseling of students in the
field and in the pupil personnel center are also provided.

560:709. INTERNSHIP IN FIELD RESEARCH. 3 credits.
Prerequisites, 705, 590:603, and approval of Doctoral Committee. Designed for Ph.D. candidates nearing completion of their program, the course provides advanced research experience related to practical problem situations in the public school system.

565: EDUCATIONAL PSYCHOLOGY

565:157. HUMAN DEVELOPMENT AND LEARNING. 4 credits.
Prerequisite, 375:141. A study of the principles underlying the intellectual, emotional, social and physical growth and development of the human organism; and of the learning process with its implications for the instructional procedures.

GRADUATE COURSES

565:601. DEVELOPMENTAL PROCEDURES IN LEARNING. 3 credits.
Basic concepts in the areas of human development and learning and their practical application by the classroom teacher in working with individuals and groups.

570: SCHOOL ADMINISTRATION

GRADUATE COURSES

570:601. PRINCIPLES OF EDUCATIONAL ADMINISTRATION. 5 credits.
Theory and practices of educational administration in state and county systems, cities and rural districts. School law, organizing, administration, finance, pupil accounting, planning and completion of school buildings.

570:602. LEGAL BASIS OF EDUCATION. 3 credits.
Prerequisite, 601. The legal principles underlying American education as reflected in statutory provisions and the decisions of our courts. Some specific attention given to Ohio law.

570:603. PRINCIPLES OF SCHOOL FINANCE. 3 credits.
Prerequisite, 601. Study of financial operations of school systems including tax and other income, expenditures and budgeting.

570:604. SCHOOL AND COMMUNITY RELATIONS. 3 credits.
Principles and practices in maintaining cooperative relationships between the schools and the public.

570:610. PRINCIPLES OF EDUCATIONAL SUPERVISION. 5 credits.
Study of the principles, organizations and techniques of supervision with a view to the improvement of instruction.

570:611. SUPERVISION OF STUDENT TEACHING. 3 credits.
Primarily for supervising teachers in the guidance of student teachers. Topics include: readiness for student teaching; student teacher, directing teacher and college supervisor relationships; use of the conference, demonstration and observation; helping student teachers through evaluation.

570:701. SCHOOL BUILDING AND CONSTRUCTION. 3 credits.
Prerequisite, 601. Designed mainly for the potential superintendent, executive head or post-Master's student in administration.

570:702. SCHOOL BUSINESS ADMINISTRATION. 3 credits.
A study of school business administration as a part of the total administrative pattern, and as a creative planning process designed to facilitate instruction.

570:703. ADMINISTRATION OF STAFF PERSONNEL. 3 credits.
Guidelines, techniques, and procedures for helping the administrator to become a democratic leader. Duties and responsibilities of the staff as participants in administrative activity.

570:704. ADMINISTRATIVE ORGANIZATION IN EDUCATION. 3 credits.
The principles and theory underlying effective administration organization in the educational setting. Special attention will be directed toward communication and evaluation as organization processes.

570:710. PRINCIPLES OF CURRICULUM DEVELOPMENT. 4 credits.
An overview of the instructional programs of a school in terms of basic purposes, functions and structures necessary to study and interpret these instructional programs.

570:720. EVALUATING EDUCATIONAL INSTITUTIONS. 3 credits.
Laboratory course in which the evaluation of educational institutions will be made by use of up-to-date techniques and criteria.

570:730. SEMINAR IN SCHOOL ADMINISTRATION. 4 credits.
Prerequisites, 601 and 590:603. Focus will be on recent research in administration and educational administration theory.

570:731. SEMINAR: PROBLEMS OF THE SCHOOL ADMINISTRATOR. 3 credits.
An examination of some of the major problems
that face the chief administrator as he works with schools of today. Practicing educational administrators will share with the students their experiences with current educational problems and the many practical solutions of these problems.

580: SPECIAL EDUCATIONAL PROGRAMS

580:420/520. SUPERIOR STUDENTS—THEIR GROWTH PATTERNS AND EDUCATION. 3 credits.
Designed to provide students with knowledge of the developmental characteristics of superior students, unique problems they encounter in an educational setting and various dimensions of superiority.

580:431-434/531-534. WORKSHOP. (Elementary or Secondary School) 3-4 credits each quarter.
Opportunity for individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units.

580:435/535. WORKSHOP IN ECONOMIC EDUCATION. 3-4 credits.
Opportunity for individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units.

580:436/536. WORKSHOP IN READING. 3-4 credits.
Opportunity for individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units.

580:437/537. WORKSHOP IN ARITHMETIC. 3-4 credits.
Opportunity for individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units.

580:438/538. WORKSHOP ON EXCEPTIONAL CHILDREN. 3-4 credits.
Opportunity for individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units.

580:439/539. WORKSHOP IN PHYSICAL SCIENCE. 3-4 credits.
Opportunity for individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units.

580:440/540. WORKSHOP IN SOCIAL STUDIES. 3-4 credits.
Opportunity for individual work under staff guidance on curriculum problems; utilization of community resources; planning of curriculum units.

580:460/560. DEVELOPMENTAL CHARACTERISTICS OF SLOW LEARNING CHILDREN. 3 credits.
Comparative study of the physical, emotional, intellectual and social development of normal and slow learning children from infancy through adolescence.

580:461/561. PRINCIPLES OF TEACHING EXCEPTIONAL CHILDREN. 4 credits.
Basic principles underlying the instruction of exceptional children—slow learners, gifted, physically handicapped, etc.

580:462/562. METHODS AND MATERIALS FOR TEACHING SLOW LEARNERS. 3 credits.
A study of the understandings, techniques, skills and materials unique in the instruction of the slow learner.

580:463/563. ARTS AND CRAFTS FOR THE SLOW LEARNER. 3 credits.
Arts and crafts especially suited to the unique characteristics of slow learners.

580:464/564. READING AND LANGUAGE ARTS FOR THE SLOW LEARNER. 3 credits.
Program and techniques especially suited to slow learners; diagnosing problems and planning remedial and corrective measures.

A study of the methods and materials designed to meet the unique needs of a varying slow learner school population.

580:466/566. NUMBER CONCEPTS FOR THE SLOW LEARNER. 3 credits.
A study of the procedures and sequential learnings appropriate for the teaching of number concepts to the slow learning child.

580:467/567. DEVELOPMENT PROCEDURES: TRAINABLE MENTALLY RETARDED. 5 credits.

580:468/568. OCCUPATIONAL ORIENTATION AND JOB TRAINING FOR EXCEPTIONAL CHILDREN. 3 credits.
A study of the developmental understandings related to the post-school adjustment of exceptional youth.

580:469/569. PRACTICES IN EDUCATING CHILDREN WITH LEARNING DISORDERS. 5 credits.
Prerequisite, 580:461. A study of the multiple learning characteristics and the special education procedures advocated and practiced with children whose educational disability stems from learning and/or behavioral disorders.

580:470-479/570-579. EDUCATIONAL INSTITUTES AND FOUNDATION PROGRAMS. 3-4 credits each quarter.
Special courses designed as in-service upgrading programs in various fields, frequently provided with the support of national foundations.
580:480/580. INTERNATIONAL SCHOOL STUDY. 3-9 credits.
On-the-scene study of education in foreign countries, usually by concentrating on the study of schools in one restricted geographical area.

580:481/581. SOCIOLOGICAL FOUNDATIONS OF INNER-CITY SCHOOL PROBLEMS. 5 credits.
The basic characteristics of the inner-city: deterioration, social stratification, value patterns, etc., and their effects on the school and the educational process.

580:482/582. CHARACTERISTICS OF INNER-CITY YOUTH. 5 credits.
The physical, emotional, social and intellectual traits of children in the core areas of our large metropolitan centers.

580:490/590. CLINICAL TEACHING PRACTICUM: CHILDREN WITH LEARNING PROBLEMS. 5 credits.
Prerequisite, permission. A supervised clinical teaching experience with individual or small groups of problem learners. The experience will be designed to familiarize and give practice to the special teacher in diagnostic and remedial teaching techniques devised in conjunction with pupil personnel resources.

GRADUATE COURSES

580:680. TRENDS IN READING INSTRUCTION. 3 credits.
Prerequisite, 520:335 or 530:425 or permission. Survey and analysis of trends in reading instruction in terms of current research.

580:681. DIAGNOSIS OF READING PROBLEMS. 5 credits.
Prerequisite, 520:335 or 530:445 or 580:980 or permission. Relation of growth to reading development and reasons for retardation. Implementation of diagnostic techniques by developing case studies in a supervised setting.

580:682. CORRECTION OF READING PROBLEMS. 5 credits.

580:683. CLINICAL PRACTICES IN READING I. 4 quarter hours.
Prerequisite, 580:682. The nature and etiology of reading difficulties experienced by selected children. Supervised practices and independent work with children in conjunction with staff from other related disciplines. Case study techniques and diagnostic reports will be employed.

580:684. CLINICAL PRACTICES IN READING II. 4 quarter hours.
Prerequisite, 580:683. Students learn advanced procedures in diagnosing and correcting reading disabilities by working with referrals experiencing extreme reading retardation. Supervised practice; independent work; case study reports and lesson logs employed.

A survey of the educational problems usually found in inner-city schools. Field work (tutorial, playgrounds, home visitation) with disadvantaged children will be required.

580:692. ADVANCED STUDY AND RESEARCH IN READING INSTRUCTION. 5 credits.
Prerequisites, 520:335 or 530:425; 580:603 and teaching experience. Survey of research, comparison and evaluation of programs, design and development of projects in reading through group and individual study.

580:693. SUPERVISION AND CURRICULUM DEVELOPMENT IN READING INSTRUCTION. 3 credits.
Prerequisites, 530:619 or 520:630, and teaching experience. Study of reading relative to total curriculum; procedures for developing reading program in all curriculum areas; examination of children’s literature and related instructional reading by supervisors and consultants.

A seminar and independent study course on the role and function of the School Psychologist. Part of the course will be tailored to meet individual needs of trainees. Enrollment will be concurrent with the trainee’s internship.

580:760-761-762. INTERNSHIP IN SCHOOL PSYCHOLOGY. 3 credits each quarter.
Full-time work under the supervision of a qualified school psychologist for a complete academic year according to the provisions of the State Department of Education. Additional readings and activities required.

590: EDUCATIONAL RESEARCH

GRADUATE COURSES

590:603. TECHNIQUES OF RESEARCH. 3 credits.
Research methods and techniques commonly used in education and psychology; preparation of research reports.

590:711. STATISTICS IN EDUCATION. 4 credits.
Statistical methods and techniques used in the field of measurement and by research workers in education.

590:713. ADVANCED EDUCATIONAL STATISTICS. 4 credits.
Prerequisite, 711. A second level statistics course
related to quantification in the behavioral sciences. General areas included are testing of statistical hypotheses, experimental design, analysis of variance and nonvariance, factor analysis and introduction to nonparametric statistics.

1-3 credits each quarter.
On the job experience in a public school system working with administrators and/or supervisors.

1-3 credits.
Study, analysis and reporting of an educational problem.

590:899. Research in Education. 3-30 credits.
Thorough study and analysis in depth of an educational problem; field projects in special areas; synthesis of existing knowledge in relationship to a specific topic.
The College of Business Administration

620: ACCOUNTING

620:221-222. PRINCIPLES OF ACCOUNTING. 4 credits each quarter.
Sequential. Accounting concepts and techniques essential to administration of a business enterprise; principles of proprietorship, partnership, and corporation accounting; analysis and interpretation of financial statements and reports.

620:270. MANAGERIAL ACCOUNTING. 4 credits.
Prerequisites, 222 and 325:246. For non-accounting majors only. Accounting as an information system that provides the significant financial data needed by management for decision-making, planning and control as well as for reporting to outside interests.

620:290. COST ACCOUNTING. 4 credits.
Prerequisites, 222 and 325:246. Theory and practice of accounting for material, labor and overhead expenses, with particular reference to budgeting and standard costs.

620:317-318. INTERMEDIATE ACCOUNTING. 5 credits each quarter.
Sequential; prerequisite, 222. Accounting theory and problems of statement preparation and interpretation; financial statement analysis; statement of funds.

620:355. INTRODUCTION TO ELECTRONIC DATA PROCESSING. 5 credits.
An introduction to the fundamentals of data processing, including a survey of computer applications in management.

620:390. ADVANCED COST ACCOUNTING. 4 credits.
Prerequisite, 290. Emphasis on standard cost procedure and other advanced cost accounting problems.

620:391. BUDGETING. 4 credits.
Prerequisite, 401 or 290. Principles and policies for budgeting and control of expenses and capital investments.

620:401. ACCOUNTING SURVEY. 5 credits.
Primarily for graduate students with no previous accounting background.

620:420/520. ADVANCED ACCOUNTING. 5 credits.
Prerequisite, 318. Accounting theory and advanced problems in partnerships, insolvency, estate and trusts, accounting and consolidated statements.

620:480/580. ACCOUNTING PROBLEMS. 4 credits.
Prerequisite, 318 and permission of instructor. Individual research on an advanced accounting problem in area of student's particular interest.

620:489/589. CPA PROBLEMS—AUDITING. 3 credits.
Prerequisite, permission of instructor.

620:499. SEMINAR IN ACCOUNTING. 1-3 credits.
Prerequisite, permission of instructor.

GRADUATE COURSES

620:610. ACCOUNTING MANAGEMENT AND CONTROL. 5 credits.
Emphasis is placed on the role of accounting as a tool of management planning and control in the areas of production, finance, marketing and general administration.

620:637. ADVANCED ACCOUNTING THEORY. 5 credits.
This course invites a critical examination of accounting concepts and standards. Current trends are discussed.

620:680. INTERNATIONAL ACCOUNTING. 5 credits.
Prerequisite, 420. International variations in accounting standards and reporting problems; auditing problems in the multinational firm.

620:440/540. AUDITING. 5 credits.
Prerequisites, 290, 318. A study of the problems of the auditor as a member of the staff (internal) and as an external or public accountant. Emphasis is placed on auditing standards and procedures.

620:454/554. ACCOUNTING SYSTEMS. 5 credits.
Prerequisites, 290, 318 and permission of instructor. Principles of the design and installation of accounting systems, procedures and methods. Emphasis is placed on data processing and systems analysis.

620:460/560. CONTROLLERSHIP PROBLEMS. 5 credits.
Prerequisites, 290, 318. An examination of accounting and control techniques, including budgetary control, direct costing, and problems requiring the use of advanced tools of decision making.

620:470/570. GOVERNMENTAL AND INSTITUTIONAL ACCOUNTING. 5 credits.
Prerequisite, 318. Application of accounting principles and procedures to problems of budgets, appropriations, and funds in governmental units, educational institutions, and hospitals.

620:480/580. ACCOUNTING PROBLEMS. 4 credits.
Prerequisite, 318 and permission of instructor. Individual research on an advanced accounting problem in area of student's particular interest.

620:489/589. CPA PROBLEMS—THEORY. 3 credits.
Prerequisites, 430, 440 and approval of instructor. Application of auditing and accounting theory through the study of advanced problems.

620:499. SEMINAR IN ACCOUNTING. 1-3 credits.
Prerequisite, permission of instructor.
640: FINANCE

640:161. BUSINESS ORGANIZATION AND MANAGEMENT. 4 credits.
Survey of current management procedures in business organization, finance, manufacturing, marketing, personnel administration, industrial relations, government regulation, business taxation, accounting and statistical controls.

640:340. THE LEGAL ENVIRONMENT OF BUSINESS. 5 credits.
Consideration of legal rules, the process of adjudication, and the law making process. Exploration of the fields of substantive law that are of particular concern to the businessman—contracts, secured transactions, commercial paper, sales and business organizations. Examination of the regulation of business by the federal government.

640:341-342. BUSINESS LAW. 341, 5 credits; 342, 4 credits.
Sequential. Designed primarily for the 9 credit hours of law required for accounting majors. Origin of commercial law, operation and discharge of contracts; law of sales, agency, negotiable instruments; partnerships and corporations; recent court cases integrated with the text material to demonstrate how principles apply to concrete cases.

640:344. LAW OF CREDITS AND COLLECTIONS. 3 credits.
Types and characteristics of sales contracts; law of collection procedure, liens, and other legal recourse of creditors.

640:349. REAL ESTATE LAW. 3 credits.
Legal problems connected with property transfer and acquisition, landlord and tenant relationships, trusts, etc.

640:356. FOREIGN TRADE. 5 credits.
Prerequisite, 325:247. Economics and practices of foreign trade with emphasis on world trade from the standpoint of United States.

640:358. PRINCIPLES OF INSURANCE. 4 credits.
Prerequisite, 371. Underlying principles on which all forms of insurance are based. Beginning with the theory of probabilities, the principles are developed as they apply to the divisions of insurance—life, fire, marine, casualty and security bonds.

640:371. BUSINESS FINANCE. 5 credits.
Prerequisites, 620:222 and 325:247. Principles and practices used in financing large and small organizations. Forms of organization, raising of capital by means of stocks and bonds, investing the capital in fixed and working assets; conservation of capital, failures and reorganization.

640:374. CREDITS AND COLLECTIONS. 3 credits.
Prerequisites, 161 and 325:247 or permission. Nature and fundamentals of credit, credit investigation and analysis, credit and collection operations, collection aids and problems.

640:376. BANKING PRACTICE AND MANAGEMENT. 5 credits.
Prerequisite, 371. Surveys work of the more important credit institutions, including commercial banks, finance companies, savings banks and consumer credit and government credit agencies. Role of each type of institution in the economic system. Function of bank reserves; bank portfolio policy; capitalization and earning power; impact of public policy upon organization, structure, and operation of the credit system.

640:450. BUSINESS AND SOCIETY. 5 credits.
Prerequisite, Senior standing. Primarily a conceptual course which considers the economic and social implications of modern business in society and the norms and values by which their functioning is or might be directed.

640:472. INVESTMENTS. 5 credits.
Prerequisite, 371. Formulation of investment policies for various types of individual and institutional investors, consideration of principles and techniques applicable to analyzing securities of industrial corporations, railroads, utilities and municipalities and to the development of workable criteria for the selection or rejection of issues.

640:477/577. SECURITY ANALYSIS. 5 credits.
Prerequisite, 472. Comparative study of organized security markets. Principles and practices of organized stock exchanges and over-the-counter markets. Protecting the public interest through regulation and control of promotions, the issue of securities, underwriting practices and stock-trading practices.

640:479/579. PROBLEMS IN FINANCE. 5 credits.
Prerequisite, 371. Financing of large corporations. Use of different types of securities as instruments of finance; internal financing by reserve accruals and by retention of net income; mergers, consolidation, and holding syndicates; influence of taxation on corporate policy; and reorganization under the Federal Bankruptcy Act.

640:499. SEMINAR. 1 credit.
Prerequisite, permission of instructor.
GRADUATE COURSES

640:650. Administering Costs and Prices. 5 credits.
The purpose of the course is to provide an understanding of the techniques used by managers in reaching both short and long-run decisions in these areas. The course explores the areas of decision-making on costs and prices which determine business profitability.

640:665. Comparative Industrial Rationale. 5 credits.
An institutional approach to the study of industrial organization. Consideration is given to the determinants of these industrial structures and an effort will be made to evaluate the market relationship between structure and market performance. Industrial organization under various economic and political systems will be considered.

Working capital management, controlling inventory investments, administering costs and funds, managing investment in plant and equipment, administering business income and forecasting for financial management.

640:678. Capital Budgeting. 5 credits.
This course attempts to integrate the various theories of capital budgeting into a comprehensive conceptual scheme. Theoretical concepts and practical applications will be blended for a better understanding of capital problems.

Financial policies and practices of companies involved in multinational operations, considers management of working capital and permanent assets, return on investment and capital budgeting for the global firm.

640:698. Seminar in General Business. 5 credits.
Prerequisite, 27 graduate credits in Business. Research projects, group reports and discussions.

650: Management

650:263. Production Organization. 3 credits.
Prerequisites, 640:161 and sophomore standing. Principles and techniques of organization as they relate to effective production and operations management.

650:301. Work System Design. 3 credits.
Prerequisites, 363 and 346. A study of the systems concept in the management of activity. The nature of systems, patterns of work performance, criteria for system design, and application to design and control of various types of work systems. Use of simulation techniques.

650:302. Industrial Plants. 3 credits.
Prerequisite, 301. A study of the manufacturing work system in general, covering the nature of materials used in manufacturing, processes applied, and the economic considerations relevant to the management of manufacturing.

650:303. Motion and Time Study. 3 credits.
Prerequisite, 302. Study of the theory of work measurement and various methods used for the purpose, including work sampling and direct stopwatch time study. Emphasis is placed on evaluation and analysis of collected data.

Prerequisite, 345:101. Nature and uses of statistical data, measures of location and variation, elementary probability, binomial and normal distributions, interval estimation, and hypothesis testing.

Prerequisite, 346. Tests of randomness, control chart concepts, linear regression, correlation, index numbers, and time series analysis.

650:350. Personnel Management. 3 credits.
Prerequisites, 263 and 375:160. Investigation of individual and group behavior in the business environment and the analysis of personnel programs and policies, communications and practices in relationship to the effect upon productivity, organizational effectiveness and the satisfaction of personal objectives.

650:351. Personnel Functions. 3 credits.
Prerequisite, 350. Principles and practices of line and staff executives in managing the recruiting, interviewing, testing, selecting, developing, appraising, compensating, utilizing, and maintaining of an effective and satisfied work force.

650:352. Management Training and Development. 3 credits.
Prerequisite, 350. Investigation of the principles, objectives, methodologies and perspectives of the process of manager development and its relationships to organizational effectiveness.

650:363. Production Management. 3 credits.
Prerequisite, 263. Place of management in business; economics of industrial production; factors of production; and control of the production process.

650:364. Business Operational Planning. 3 credits.
Prerequisites, 263 and 347. The use of current statistical and economic techniques for planning the over-all operation of a business firm. Consideration is given to both internal and external factors which influence the short-run and long-range economic success of a business firm.

Prerequisites, 640:161 and 5 credits of Psychology. This course is a comprehensive introduc-
tion to modern management practices which examines conceptually the management process, management functions, and management principles.

650:403. PRINCIPLES OF CONTROL. 3 credits.
Prerequisite, 347. Control principles and techniques basic to management decision-making process and effective operational control.

650:404. PRODUCTION PLANNING AND CONTROL. 3 credits.
Prerequisite, 403. Production planning and forecasting; centralized production control; scheduling; routing and dispatching; types of manufacture in relation to types of production control. Representative systems of production control. Application of quantitative methods to production control.

650:405. QUALITY CONTROL. 3 credits.
Prerequisite, 403. Quality control and inspection in the organization structure; the inspection function; collection and use of inspection data; application of statistical methods to quality control and use of control charts.

650:447/547. ADVANCED STATISTICS. 3 credits.
Prerequisite, 347. Sampling theory and applications, random sampling, stratified sampling, systematic and cluster sampling, area and multistage sampling, ratio estimates, sampling in time series.

650:456/556. MANAGEMENT PROBLEMS. 2 to 5 credits.
Prerequisites, 403 and Senior Standing. The student applies modern management principles, practices and theory to an actual problem in industry.

650:469/569. PERSONNEL RELATIONS. 3 credits.
Prerequisites, 350 and 325:247. Analysis of management, union and employee objectives, attitudes, and strategy, as they affect the conduct of business and the economy. Stress placed on individually assigned readings and reports.

650:473/573. BUSINESS POLICY. 5 credits.
Prerequisites, graduating senior and permission of department head. The course is designed to enable the student to understand informal organization; the philosophy of modern management; evaluation of objectives of management; policy requirements of business and use of various management tools in operating the business firm.

650:499. SEMINAR IN MANAGEMENT. 1 to 5 credits.
Prerequisites, Senior standing and Department Head permission. This course provides a means for individualized study in management from which the student can derive significant value.

GRADUATE COURSES

650:651. MANAGEMENT OF INTERNATIONAL OPERATIONS I. 3 credits.
Prerequisites, 325:541 and permission of instructor. This course deals with the institutional environment of International Business—the parameters of the international business system which hold the system together and which the individual businessman cannot materially alter within a near or a medium range of time.

650:652. MANAGEMENT OF INTERNATIONAL OPERATIONS II. 3 credits.
Prerequisite, 651. A feature of this course is the use of the international operations simulation game developed at the University of Chicago and also used at Stanford. This is a major business simulation exercise oriented toward the specific problems of international business management. Modern theory of economics and political development discussed in relation to the game.

650:663. INDUSTRIAL RELATIONS. 3 credits.
The purpose of the course is to present the rights and duties of management in dealing with labor and the economic consequences of union and management policies and practices. The course also deals with administrative activity in terms of human relationships involved.

650:665. EXECUTIVE DECISIONS. 3 credits.
Prerequisite, 668. Theory underlying decision-making with particular attention to the quantification of the decision-making process.

650:666. OPERATIONS RESEARCH. 3 credits.
Prerequisite, 665. Operations research as viewed by the manager supervising its use and how it can be used to aid in making higher level decisions.

650:667. MANUFACTURING AND OPERATIONS ANALYSIS. 3 credits.
Prerequisite, 665. Emphasis is on analysis of economic problems of production and operations, management use of such techniques as programming, economic model building and simulation.

650:668. ADMINISTRATIVE BEHAVIOR AND METHODS. 3 credits.
Prerequisite, 18 hours of graduate level credit. Designed to direct critical thinking toward the internal goal sharing and competitive nature of hierarchal structures. To evaluate the social and behavioral science viewpoints and contributions to organizational activities. The functions of planning, directing, organizing, and control will be studied as variables in the dynamic process and psychology of working groups. Laboratory assignments.

650:669. THE LEADERSHIP ROLE IN ORGANIZATIONS. 3 credits.
Prerequisite, 668. Leadership styles as seen in classical methods, two dimensional grids, multidimensional scales and as interaction with situational factors. Training and development methods for managers in industry evaluated. Role playing, in-basket, sensitivity, T-groups, organizational labs
and conflict resolution. Critical review of assessment procedures and psychology of leadership. Small group laboratory assignments.

650:670. ORGANIZATIONAL THEORY AND POLICY FORMULATION. 3 credits.
Prerequisite, 669. The study of organization structure and process, interactions of formal and informal systems, communications, job satisfactions and control patterns. Contemporary theories reflecting how people behave in organizations. Organizational lab assignments.

650:675. APPLIED INDUSTRIAL STATISTICS I. 3 credits.
Prerequisite, 447. A review of statistical techniques in quality control, including multiple regression and correlation.

650:676. APPLIED INDUSTRIAL STATISTICS II. 3 credits.
Prerequisite, 675. Analysis of variance and covariance, industrial design and analysis of experiments, introduction to response surfaces.

650:698. GRADUATE SEMINAR IN MANAGEMENT. 1-5 credits.
Prerequisite, 30 hours of course work at the Master's level. This is a course for the Master's degree candidate in management during his last two quarters. It enables the student to undertake a program of independent study and reading delineated and supervised by his faculty advisor and leads to a finished major paper which should be completed within one year from the time of enrollment in the course.

660: MARKETING

660:299. MARKETING PRINCIPLES. 4 credits.
Prerequisite, 325:246. This broad course integrates commodity, institutional, functional and managerial concepts of the marketing process to provide the student with a total framework of economic activity.

660:320. PHYSICAL DISTRIBUTION. 4 credits.
Prerequisite, 299. A basic course in the source, movement and storage of goods, including emphasis on the economics of transportation and the requirements of an effective system.

660:330. INTERNATIONAL MARKETING. 4 credits.
Prerequisite, 299. Students concentrate on principles of international trade, balances, and import and export distribution machinery. The course pinpoints characteristics and potentials of various foreign markets. (Credit not given for both FOREIGN TRADE AND INTERNATIONAL MARKETING.)

660:340. MERCHANDISING. 4 credits.
Prerequisite, 299. Initially reviews and applies the basic concepts of presenting merchandise to the customer, with special emphasis on the individual entrepreneur and the small, regionalized chain. Next, this course focuses on large, national firms and chains. Attention is devoted to the implications of mass marketing for the firm's resources and its impact on other functional areas.

660:350. ADVERTISING. 4 credits.
Prerequisite, 299. Basic principles of a marketing communication system are developed, with emphasis on media selection and feedback requirements. The roles of research and trade requirements are stressed.

660:360. INDUSTRIAL MARKETING. 4 credits.
Prerequisite, 299. Following principles of modern marketing management, this course focuses on the development of local, regional and national markets. Particular emphasis is placed on problems of industrial goods manufacturers.

660:370. PURCHASING. 4 credits.
Prerequisite, 325:246. This course deals with "marketing in reverse," and includes such topics as buying the right quantity, inspection and quality control, and sources and assurance of supply.

660:440. RETAIL MANAGEMENT PROBLEMS. 4 credits.
Prerequisite, 340. The problems and opportunities involved in the application of management principles to a broad variety of retail organizations. Environmental influences as they affect retailing are explored in depth.

660:450. ADVERTISING CASES AND PROBLEMS. 4 credits.
Prerequisite, 350. Case analysis of specific corporate experience in consumer and industrial goods, and in the institutional setting. Each student develops a contemporary case for discussion and analysis.

660:470/570. SALES ADMINISTRATION. 4 credits.
Prerequisites, 350 or 360. Advanced consideration of the firm's marketing mix as it is applied to and adjusted to marketing objectives and policies and their implementation and control.

660:480/580. MARKETING CASES AND PROBLEMS. 4 credits.
Prerequisite, 470 or its equivalent. Detailed case analysis of corporate marketing problems, most of which involve all of the marketing inputs and allied internal and external forces and resources.

660:490/590. MARKETING RESEARCH. 4 credits.
Prerequisites, 299, 650:346. Through lectures, cases and team projects, students are taught to detect and evaluate actionable forces in the marketplace. Emphasis is placed on investigation appropriate to the economics of the situation.

660:499. SEMINAR. 1-4 credits.
Prerequisite, permission of the instructor. This
course provides a means for individualized in-depth study of a marketing problem or problems from which the student can derive significant benefit.

GRADUATE COURSES

660:630. INTERNATIONAL MARKETING POLICIES. 4 credits.
Explores some of the problems of planning and implementing multi-national markets including marketing to and within different national and regional areas. Attention is directed to the impact of different economic philosophies on marketing policies, strategies, channels, and communication problems with promotional media.

660:660. MARKETING MANAGEMENT AND POLICY. 4 credits.
This basic survey stresses company functions in relation to demand and consumer factors, and the cost and operational elements that determine profitable operation. The corporate viewpoint is emphasized, as are considerations of quantitative analysis and programming. Especially recommended for those with a limited marketing background.

660:670. MARKETING PLANNING. 4 credits.
In the context of a dynamic domestic marketing environment, students develop extensive marketing plans, both short- and long-run, for major U.S. corporations. Specific attention is directed to an appreciation of the complexity of the marketing task and its interrelationship with a wide variety of business and environmental forces.

660:680. MARKETING THEORY. 4 credits.
A course designed (1) to acquaint the student with those theoretical works from the areas of marketing, economics, psychology, sociology and cultural anthropology which have some relevance to a general theory of marketing; (2) to assess the available empirical works in terms of their theoretical implication; (3) to project the practical significance of a general marketing theory to the management of the firm; and (4) to evaluate the use of marketing as an instrument for national economic development.

660:699. SEMINAR IN MARKETING. 4 credits.
This cap-stone course permits the M.B.A. candidate to undertake a carefully delineated program of independent study and reading which leads to a finished major paper. Students are encouraged to share progress reports with their colleagues. The seminar work must be completed within one year from the time of enrollment in the course.
The College of Fine and Applied Arts

710: ART

710:121. DESIGN. 3 credits.
Basic principles of creative design and color theory. Discussion and studio. No credit toward major or minor in art for students starting Fall 1968.

710:125. DRAWING—DESIGN I. 5 credits.
Freehand drawing experience with an orientation to elements and principles of visual organization. Restricted media.

710:126. DRAWING—DESIGN II. 5 credits.
Prerequisite, 125. Continuation of Drawing—Design I. In-depth exploration of a wide range of techniques and media. Attention to controlled descriptive drawing and space illusion and their aesthetic applications. In addition to the studio work, the student will attend a series of weekly lectures which will provide an orientation to the wide range of career possibilities available in the art field.

710:135. UNDERSTANDING ART. 5 credits.
A foundation for the critical evaluation of the visual arts using the basic principles of design as applied to our environment, past and present. Consideration will be given to the possibilities and limitations of materials and processes in relation to design. No credit toward major or minor in art for students starting Fall 1968.

710:137. DESIGN AND COMPOSITION IN COMMERCIAL ART. 3 credits.
Principles of design as applied to commercial art, color theory, lettering, layout, reproduction processes. Discussion and studio. No credit toward major or minor.

710:145. DRAWING. 3 credits.
Prerequisite, 121 or permission of head of department. Fundamentals of graphic expression: perspective, development of form and space in line, value and texture through variety of media and techniques. Studio.

710:146. SPATIAL AWARENESS. 2 credits.
Prerequisites, 125 and 126. Development of the aesthetic perception of space. Emphasis is on awareness of three dimensional forms and their relationships to each other, to two-dimensional forms, and to environmental space.

710:147. TWO-DIMENSIONAL DESIGN. 3 credits.
Prerequisites, 125 and 126. Lecture and studio experience in two-dimensional design. Experimentation with systems for purposeful organization of visual elements. Study of visual theory including color theory.

710:150-151. DRAWING AND PAINTING.
3 credits each quarter.
Desirable that 145 precede this course. An introduction to painting, understanding and appreciation through application of fundamentals of color and composition. First quarter, oil; second quarter, water color. Studio. No credit toward major or minor.

710:180-181-182. SURVEY OF HISTORY OF ART.
3 credits each quarter.
Sequential. Architecture, sculpture, painting and the minor arts from Prehistoric through Contemporary.

710:210. INSTRUMENT DRAWING. 2 credits.
Prerequisite, 146. A studio investigation of the aesthetic principles intrinsic to instrument drawing and their bearing on the visual arts.

710:230. LIFE DRAWING. 3 credits.
Prerequisite, 126. A study of the perceptual and conceptual problems in drawing from the life model. Study of the skeletal, muscular and mechanical nature of the human figure and the application of this knowledge to the resolution of aesthetic problems using the human figure as a motif.

710:240. THREE DIMENSIONAL DESIGN. 5 credits.
Prerequisite, 146. Exposure to problems of three dimensional spatial relationships. Direct application of theories, materials, and mechanical principles to the realm of three dimensions. Stress is on the use of different tools and procedures to realize an aesthetic end.

710:242. INTRODUCTION TO OIL PAINTING. 5 credits.
Prerequisites, 147 and 230. A study of the technical and aesthetic problems involved in oil painting. A painterly orientation toward the plasticity of form as mediated by color.

710:244. INTRODUCTION TO PHOTOGRAPHY. 2 credits.
Prerequisite, 147. A lecture, studio, and laboratory course in which the student studies and experiences fundamental characteristics of photosensitive materials, the chemistry of photography, optical systems and photographic equipment. Photography is studied as an art medium.

710:246. INTRODUCTION TO WATER COLOR. 5 credits.
Prerequisite, 147. A studio course in the theory and technique of water color painting. A study of traditional transparent water color methods, and experimentation with less conventional approaches to aqueous media.

710:248. INTRODUCTION TO SCULPTURE. 5 credits.
Prerequisites, 240 and 230. The basic sculptural
processes and the aesthetic relationships to these processes and the materials to which they may be applied.

710:250. INTRODUCTION TO COMMUNICATIONS GRAPHICS. 5 credits.
Prerequisites, 147 and 210. Studio experience in the use of tools and materials of the commercial graphic artist. Elementary design problems in commercial graphic design.

710:252. INTRODUCTION TO PRINT MAKING. 5 credits.
Prerequisites, 147 and 230. A studio introduction to the basic print-making processes and techniques as well as the concept of the print as a work of art.

710:254. INTRODUCTION TO CERAMICS. 5 credits.
Prerequisite, 240. Consideration of types and preparation of clays, forming and decorative processes, glazes, and glazing and firing. Quality of total design is major emphasis.

710:256. INTRODUCTION TO CRAFTS. 5 credits.
Prerequisite, 240. Concentrated studio experimentation, design, and production through basic craft experiences as exemplified in textile design and printing, jewelry and metal smithing and enameling.

710:257. DESIGN AND CRAFTS. 3 credits.
Prerequisite, 121. Extension of design to objects in space; emphasis on the continuous interaction of physical materials, structural processes and significance of the total organization. Studio.

710:259. CERAMICS. 3 credits.
Prerequisite, 121. Design through the use of forming processes (hand-built and wheel), decorating, glazing, firing processes. Studio.

710:269. LIFE DRAWING. 3 credits.
Prerequisite, 145. Structure of the human figure: its anatomy, proportion and articulation as they relate to the visual arts. Studio.

710:330. HISTORY OF PRIMITIVE ART I. 3 credits.
Prerequisite, 182, Junior standing, or permission. A survey of art forms of continental Africa and the South Sea Islands with consideration of their influence on Modern Art.

710:333. CERAMIC BODIES AND GLAZES. 5 credits.
Prerequisite, 254. Calculations, computation and testing of ceramic bodies and glazes—particular attention to colorants.

710:340. ADVANCED LIFE DRAWING. 3 credits.
Prerequisite, 242. Additional studio course in drawing from the human figure. Individual interpretation of the human figure, using numerous media and drawing techniques. Emphasis upon aesthetic structure and the formal realization of personal intention.

710:342. ADVANCED OIL PAINTING. 5 credits.
Prerequisites, 51 hours including 246 and 252. Additional study in the oil painting medium. An opportunity to explore oil painting techniques and experiment with the aesthetics of color, form, and style. * 51 hours include 125, 126, 146, 147, 180, 181, 182, 210, 230, 246, 242, 244, and two other introductory courses.

710:344. ADVANCED PAINTING—NON-OIL MEDIA. 5 credits.
Prerequisite, 51 hours including 246 and 254. An advanced painting course for the exploration of non-oil media. The student may pursue, through experimentation, an advanced study of transparent water color or of opaque non-oil media such as tempera, gouache, casein, polymer acrylics and mixed media.

710:350. ADVANCED SCULPTURE. 5 credits.
Prerequisites, 51 hours including 248 and 254. A continuation of studio work in Sculpture with concentration in one medium as designated. The media corresponding to the letters are: A. Welding, B. Carving, C. Ceramics, D. Direct, E. Casting. Course may be repeated for credit when a different medium is so indicated.

710:352. ADVANCED PRINTMAKING. 5 credits.
Prerequisites, 51 hours including 252 and 340. A continuation of studio work in Printmaking with concentration in one process as designated by the letter as follows: A. Intaglio, B. Relief, C. Lithography, D. Serigraphy. Course may be repeated for credit when a different process is so indicated. (Printmaking major must take all four.)

710:354. ADVANCED DESIGN—CERAMICS. 5 credits.
Prerequisites, 51 hours including 254 and 335 (or concurrent). Personal aesthetic solutions in ceramic medium.

710:358. ADVANCED DESIGN—INTERIOR DESIGN. 5 credits.
Prerequisite, 51 hours including 246 and 264. A study of the essentials of shelter as enclosure and space. Developmental studies in full architectural scale. Also a survey of domestic architecture, furniture, and accessories, starting with contemporary and going in reverse chronological order through American.

710:359. ADVANCED DESIGN—INTERIOR DESIGN. 5 credits.
Prerequisite, 358. Study of materials and design requirements relating to the field of Interior Design. Solving and presenting in various ways. Interior Design problems, with main emphasis on domestic. Continuation of the historical aspects from about 1875 back through English, French, and the Spanish Renaissance.
710:360. **Advanced Design—Interiors Design.** 5 credits.
Prerequisite, 259. Continuing studio experience in solving Interior Design Problems with emphasis on multi-unit housing, public interiors, etc. Consideration of professional practices and ethics. Historical: The Italian Renaissance back to the earliest evidences of Shelter and furnishings.

710:362. **Advanced Design—Weaving.** 5 credits.
Prerequisites, 51 hours including 256. Creative and experimental approach to hand weaving. Emphasis is upon design qualities, in particular spacing, color, and texture. Warping, threading, and manipulation of floor and table looms and wide range of weaving techniques.

710:364. **Advanced Design—Textiles.** 5 credits.
Prerequisites, 51 hours including 256 and 252. Studio exploration of textile design and technical procedures other than weaving. Consideration of the aesthetic, historical and practical aspects of textile design.

710:366. **Advanced Design—Metalsmithing.** 5 credits.
Prerequisites, 51 hours including 248 and 256. Experimentation and production of aesthetic works using semi-precious and precious metals with major considerations of function, size, and form in relationship to material used.

710:368. **Advanced Design—Enameling.** 5 credits.
Prerequisites, 51 hours including 256. Studio specialization in enameling design and craftsmanship beyond the introductory phase.

710:375. **Creative Photography.** 3 credits.
Prerequisite, 51 hours. Projects utilizing photographic media and tools are designed to expand the student's awareness of visual qualities and order—the subject and the photographic image. Students must own or have use of a camera with controllable shutter, lens, diaphragm, and focus.

710:377. **Applied Photography.** 5 credits.
Prerequisites, 51 hours including 252 and 375. Photographic media, controlled light, optical and photographic equipment are manipulated experimentally to produce graphic images. These images are studied for possible usage in Advertising, Illustration, Packaging Design, and Display Design.

710:380. **Letter Form and Typography.** 5 credits.
Prerequisites, 51 hours including 250. Letter symbols studied in terms of communication and aesthetic awareness. History of letter forms, hand lettering, alphabet design, contemporary type faces, reproduction processes.

710:382. **Advanced Lettering.** 3 credits.
Prerequisite, 380. This course is an extension of Letter Form and Typography. Emphasis will be on the development of the student's individual style. It is also a study in depth of historical, mechanical and creative lettering.

710:384. **Illustration.** 5 credits.
Prerequisites, 51 hours including 246, 250 and 252. The application of painting and drawing skills and aesthetic sensitivity to specific commercial and editorial illustration art assignments.

710:386. **Packaging Design.** 5 credits.
Prerequisites, 380 and 377. Synthesis of two and three dimensional visual thinking. Research in materials applicable to packaging of various products. Assignment of projects stressing the development of conventional and experimental package design.

710:403-404-405/503-504-505. **History of Art Seminar,** 3 credits each quarter.
Prerequisite, permission of head of department. A restricted field of study to be selected.

710:406. **Advertising Design.** 5 credits.
Prerequisite, 386. Creative development of idea from mental awareness of the problem through idea sketches and ultimately to final visual comprehensive art. Emphasis on variety of assignments.

710:407. **Advertising Design.** 5 credits.
Prerequisite, 406. Development of understanding of creative visual problem solving, as applied to specific areas of advertising within mechanical limitations of art for reproduction.

710:408. **Advertising Design.** 5 credits.
Prerequisites, 407 and 430. Studio problems in the development of all phases of an advertising campaign for the promotion of an existing or new product.

716:409/509. **Advanced Life Drawing.** 3 credits.
Prerequisite, 290. A more fully developed conception of creative design in terms of the human figure and its significance as a fundamental expression element. Studio.

710:412/512. **History of Art in the United States.** 4 credits.
Prerequisite, 182 or permission. Consideration of the development of art in the United States from earliest evidences to approximately World War II.

710:413/513. **History of Contemporary Art.** 4 credits.
Prerequisite, 182 or permission. A study of the significant developments in art during approximately the past 50 years.

710:414. **History of Medieval Art.** 5 credits.
Prerequisite, 182 or permission. A study of the
The University of Akron

710:415. HISTORY OF RENAISSANCE ART IN ITALY. 4 credits.
Prerequisite, 182 or permission. A study of architecture, painting and sculpture of Italy during the Thirteenth through the Sixteenth centuries.

710:416. HISTORY OF RENAISSANCE ART IN NORTHERN EUROPE. 4 credits.
Prerequisite, 182 or permission. A study of the architecture, painting, sculpture, and graphic arts in the low countries, Germany, and France during the Fifteenth and Sixteenth centuries.

Prerequisite, 182 or permission. A study and analysis of major European examples of architecture, landscape design, painting, prints, and sculpture from approximately 1750 to the early 1900’s.

710:425-426-427/525-526-527. SPECIAL PROBLEMS IN ART. 3 credits each quarter.
Prerequisite, permission of head of department. Problems of an advanced nature in the field of special interest. Studio.

710:430. DISPLAY DESIGN. 3 credits.
Prerequisite, 406. The various phases of two and three-dimensional display will be approached aesthetically. Static and moving displays, display lighting, free-standing, supported and collapsible units will be studied.

710:432. TV GRAPHICS. 5 credits.
Prerequisites, 407 and 430. The emphasis in this course will be upon the total design and its component parts, the still and moving image, both on stage and screen, within the limited time sequence.

710:434. COMPREHENSIVE DRAWING. 5 credits.
Prerequisite, Senior standing or permission. An in-depth study of drawing for the advanced art student. Emphasis upon interpretive and inventive drawing using the widest possible range of media and techniques. An exploration of the conceptual aspects of drawing, and their correlation with studio activity.

710:440. STUDIO PROBLEMS. 2-5 credits.
Prerequisite, Senior standing or permission. Investigation in depth of aesthetic and technical problems within a student-selected area of specialization. Course may be elected several times with consent indicated by letter: A. Printmaking, B. Sculpture, C. Painting-Drawing, D. Design (Emphasis in Interior Design, Crafts, or Ceramics), E. Communication Graphics.

740: HOME ECONOMICS

740:121. TEXTILES. 5 credits.
Basic study of natural and man-made fibers. Emphasis upon physical properties, selection and care; attention given to design and manufacture.

740:123. CLOTHING CONSTRUCTION. 5 credits. (2-6)
Fundamental principles of patterns. Construction and fitting of garments. Line, color and design in relation to selection of material and pattern.

740:133. NUTRITION FUNDAMENTALS. 3 credits.
For students in some nursing programs and food service management. No prerequisite; not open to majors or minors in home economics. Basic nutrition principles and their application to self and others with normal needs; comparative nutritive value of various common foods. Planning well balanced diets and use of exchange list.

740:141. FOOD FOR THE FAMILY. 4 credits. (2-4)
For non-majors. Application of nutrition to meal planning; problems in selecting, budgeting and preparing food; table etiquette, meal service, entertaining.

740:143. FOOD AND NUTRITION. 4 credits. (3-2)
Designed for some nursing programs. Not open to majors or minors in home economics. Principles of nutrition and food preparation. Selection and care of food; dietary requirements of various age levels, analysis of student’s own diet; racial differences in dietary habits; food preparation for invalid, tray service.

740:147. HOME ECONOMICS SURVEY. 2 credits.
Survey of history and development of home economics with emphasis on current opportunities available in the field.

740:155. HOUSE FURNISHINGS. 3 credits.
Principles which contribute to a satisfactory selection and arrangement of home furnishings. Discussion of furniture, carpeting, window treatments, household textiles, storage and various accessories used in the home with relation to utilization, cost and upkeep.

740:159. FAMILY HOUSING. 3 credits.
A study of various types of dwellings in relation to family values and needs. Attention given to planning and evaluating dwellings, understanding of various costs and construction methods. Evaluation of materials and services available; study of maintenance involved in various types of dwellings.

740:162. HOME MANAGEMENT. 3 credits.
Operation and function of home. Theories of home management in relation to utilization of human and material resources in the promotion of family well-being.
740:165. Child Development. 5 credits. (4-2)
Physical, social, mental and emotional development of the child from pre-natal through preschool years.

740:201. Modern Family Living. 5 credits.
Study of interaction in various family life cycles with emphasis on changing roles, developmental tasks, family life cycles and socio-economic and cultural influences upon the family.

740:245. Basic Nutrition and Foods. 4 credits.
Basic study of food nutrients, their sources and functions; the composition of common foods, their place in the diet. Principles involved in selection, purchase and preparation of food.

740:246. Basic Nutrition and Foods. 4 credits.
Continuation of 245.

740:305. Tailoring. 4 credits. (1-6)
Construction of suit, coat or ensemble with lining.

740:306. Advanced Clothing. 4 credits. (2-4)
Application of principles of design and construction. Adaptation of standard patterns to individual's proportions and flat pattern design. Introduction to dress designing by draping.

740:307. Advanced Textiles. 3 credits.
Prerequisite, 121. A study of textile and fashion industry with emphasis upon applications as to choice and care of textiles for home and family. Experimentation with various textiles.

740:315. Experimental Foods. 4 credits. (2-2)
Prerequisite, 246. Techniques and methods in experimental food preparation: group and individual experimentation.

740:316. Nutrition in Health. 3 credits.
Prerequisite, 246. Composition, metabolism and physiological function of foodstuffs; nutritive requirements for individuals in various life cycles and on varied economic planes; results of dietary deficiencies.

740:317. Historic Costume. 4 credits.
Chronological study of costume from ancient to modern times as a source of inspiration for contemporary dress design and the theater.

740:318. Meal Service and Food Demonstration. 4 credits. (2-6)
Prerequisite, 246 or permission. Problems in management of resources in relation to meal preparation and service; table etiquette, appropriate forms of service for various types of meals; experience in organizing and presenting demonstrations.

740:321. Field Work. 2-5 credits.
Additional study or apprentice experience in a specialized field of home economics. Open to seniors by permission.

740:322. Home Management Residency. 5 credits.
Five weeks residence in home management home; practical problems in management of time, money and energy; experience in group living. Married students may select special managerial problems on a non-residency basis.

740:323. Advanced Nutrition. 3 credits.
Prerequisite, 316. Continuing study of nutrition with emphasis on current research methods and findings. Application of nutrition to world food problems. Individual research paper required.

740:326. Nutrition in Disease. 2 credits.
Prerequisite or corequisite, 323. Applications of principles of normal nutrition to diet in disease; construction of diets for specific disease conditions.

750:105. Beginning Class Piano. 2 credits.
Designed for students with no previous keyboard experience to learn rudimentary keyboard skills such as playing scales, chords, arpeggios and melodic patterns as well as simple music. Before enrolling the student should consult with the Keyboardboard department staff. May be repeated to a total of 6 credits.

750:106. Advanced Class Piano. 2 credits.
Prerequisite, audition. Designed for students who have had some previous keyboard experience but are insufficiently skilled to enter Keyboard Harmony I. A continuation of work done in 105. May be repeated to a total of 6 credits.

Minimum memorization and solo singing requirement—five songs. Voice literature emphasis—folk songs, ballads, spirituals, sacred songs and easy art songs in English. (Note: the art song may be sung in the original foreign language, providing
the student is thoroughly familiar with the language involved.) Practice emphasis—practice guidance, proper posture, breath support, ease, naturalness, free tone, tonal color variation, mood and style orientation through listening to and singing six suggested "basic model songs".

750:108. CLASS VOICE II. 2 credits.
Prerequisite, 107. Minimum memorization and solo singing requirement—five songs. Vocal literature emphasis—folk songs, ballads, spirituals, sacred songs and simple songs in English. (Note: the art song may be sung in the original foreign language providing the student is thoroughly familiar with the language involved.) Practice emphasis—legato and sostenuto, efficiency in tonal production, clarity of articulation and application of the "Principles of Production in Tonal Progression" in Lesson 16.

750:109. CLASS VOICE III. 2 credits.
Prerequisite, 108. Minimum memorization and solo singing requirements—six songs. Vocal literature emphasis—old Italian and old English songs, art songs in English or foreign language if the student is conversant with the language. Practice emphasis—agility and flexibility, Lyric Bel-Canto style, extending compass and dynamic range, perfecting intonation, recitative style and delivery.

750:151-152-153. THEORY I, II, III. 3 credits each quarter.
Sequential. Study and creative use of the elements of music; investigation of the music of major composers of the classic and romantic eras; introduction to earlier musical practices and contemporary music.

Sequential. Familiarization of student with large body of musical material from all branches of musical writing: for vocal and instrumental, solo and ensemble, symphonic and choral groups. Special attention given to style and structural procedures by principal composers. Designed for students with some musical background. (Students seeking a non-professional, music appreciation course should refer to 301, 302 and 303.)

750:157. STUDENT RECITAL. (Freshmen and Sophomores). 0 credit. Required each quarter of all music majors.
A weekly meeting of music students with members of the faculty, providing opportunity for experience in public performance before an audience, lecture and discussion of problems in the general area of performance, including ensemble playing and singing, conducting, accompanying, stage deportment, solo performance.

Prerequisite, 153. Vocal mastery of major and minor scales, all intervals convenient to the vocal range, broken chords, problems of rhythm, meter, tempo, dynamics, modulation, and part singing. Singing will be done both with and without syllables and numbers. Aural recognition of these fundamental materials, a necessary adjunct to both accurate vocal performance and general musicianship, will be a part of the study.

750:201. FUNDAMENTALS OF MUSIC. 3 credits.
Functional introduction to music, notation, terminology, scale construction, simple melodic dictation, sight-singing, familiarity with piano keyboard and experience in singing part songs.

750:251-252-253. THEORY IV, V, VI. 3 credits each quarter.
Sequential; prerequisite, 153. IV: Renaissance vocal counterpoint. V: Baroque instrumental counterpoint. VI: Form and analysis of music of all eras.

750:254-255-256. STRING INSTRUMENT TECHNIQUES. 2 credits each quarter.
Sequential; prerequisite, 153. Learning the fundamentals of technique, tone production, methods, and materials pertaining to the violin, viola, cello, and string bass; culminating in heterogeneous string ensemble activities.

Prerequisites, 106 or equivalency and 153. The essentials of basic theory and harmony practically applied at the keyboard, accompaniment, improvisation, transposition, modulation and sight reading.

750:263. SERVICE PLAYING FOR ORGANISTS. 2 credits.
Prerequisite, 261. Emphasis on performance in class by each student, with criticism and constructive comment by the instructor and other class members. Work outside class would include a minimum of reading and a maximum of practice of the skill being studied.

750:301. MUSIC APPRECIATION: EARLY AND BAROQUE (TO 1750). 2 credits.

301, 302 and 303 are designed as electives for the general student (the non-music major) to provide an introductory survey of the art of music.

750:305. MARCHING BAND ORGANIZATION AND TECHNIQUES. 2 credits.
Prerequisite, 751:104 or permission of instructor. This course deals with problems involved in chart-
750:306. MARCHING BAND ARRANGING. 2 credits.
Prerequisites, 153 and 751:104 or permission. Learning to arrange effectively for the marching band, including optimum registration of instruments, style, and familiarity with all the problems involving sound with an outdoor marching band. The course will include a discussion of scoring for the concert band as it relates to scoring for the marching band.

3 credits each quarter.
Sequential; prerequisites, 153 and 156. Development of music from ancient to modern times; scores, recordings and live performance as illustrative material.

750:354. WOODWIND INSTRUMENT TECHNIQUES.
2 credits.
Prerequisite, 153. Playing of woodwind instruments. Basic techniques for clarinet, flute, oboe and bassoon are presented and practiced.

750:355. BRASS INSTRUMENT TECHNIQUES.
2 credits.
Prerequisite, 153. Playing of brass instruments. Basic techniques for trumpet, French horn, trombone, and tuba are presented and practiced.

750:356. PERCUSSION INSTRUMENT TECHNIQUES.
2 credits.
Prerequisite, 153. Playing of percussion instruments. Basic techniques of snare drum, timpani, xylophone, bells, chimes and other percussion instruments are presented and practiced.

750:357. STUDENT RECITAL. (Juniors and Seniors). 0 credit.
See 157 for description.

750:360. CHORAL TECHNIQUES. 3 credits.
Prerequisites, 153, 361. Techniques employed in choral conducting, securing attacks, releases, dynamic and tempo changes, voice classification; methods of securing correct intonation; analysis of choral literature; developing and maintaining a choral organization.

750:361. Conducting. 3 credits.
Prerequisite, 153. Technique and practice in conducting, including beat patterns, fermatas, tempo change, attacks and releases, score reading through the use of small and large ensembles with reference to public school music.

750:451/551. INTRODUCTION TO MUSICOLOGY.
3 credits.
Prerequisite, 353. Comparative musicology; acoustics; psychology and physiology of music; aesthetics; theory of music theory; historical musicology.

750:452. COMPOSITION. 3 credits.
Prerequisite, 253. Study and creative use of the major styles and idioms of musical composition of the twentieth-century.

750:453/553. BIBLIOGRAPHY AND RESEARCH.
3 credits.
Prerequisite, 353. Examination of all types of published musical materials and publications related to music; methods of research; field trips to specialized collections; writing of research papers in areas of interest.

750:454. ORCHESTRATION. 3 credits.
Prerequisites, 253, 256, 354, 355 and 356. Theory of instrumentation ranging from small ensembles to full band and orchestras.

750:455. ADVANCED CONDUCTING. 3 credits.
Prerequisites, 361, 454. Baton technique and problems relating to the practice, reading and preparation of scores; organization of orchestra and band, problems in programming and practice conducting larger instrumental ensembles.

GRADUATE COURSES

750:601. CHORAL LITERATURE. 3 credits.
A study in depth of the style, structure, technical demands, manner of setting the text, and special performance problems found in masterworks by the great choral composers of nine centuries. The influence of extra-musical factors which are peculiar to a composer or to his age will also be considered.

750:604. DEVELOPMENT OF OPERA. 3 credits.
A course dealing with the growth and development of opera from its beginning, with emphasis on the social, cultural and intellectual forces that shaped it. Included will be a detailed examination of stylistic and structural changes as well as performance practices from Monteverdi’s Orfeo to the present.

751: MUSICAL ORGANIZATIONS

No fee is charged for enrollment of qualified students in music organizations. Enrollment may
be repeated each semester for credit as indicated. Students seeking the B.A. or B.S. degree in Buchtel College may include only six such credits in the minimum 192 credits required for graduation.

751:101. UNIVERSITY SINGERS.
1 credit. (3 hours a week)
A mixed choir. Membership by audition. Numerous appearances throughout the year, on campus, at various civic organizations, broadcasting stations and social groups, as well as public performances. Two performances annually of major choral works with the Akron Symphony Orchestra and Chorus. Previous choral experience and music-reading skill necessary.

751:102. UNIVERSITY EVENING CHORUS.
1 credit. (2 hours a week)
Membership by audition. Prospective members are advised to contact the Music Department at least two weeks before the beginning of the quarter. To provide musical experience as one of the options available to Evening Session students in the Fine Arts, persons registering for the course during the Evening Session would become part of the Akron Symphony Chorus which performs two or three times annually with the Akron Symphony Orchestra.

751:103. UNIVERSITY SYMPHONY ORCHESTRA.
1 credit.
An organization devoted to the study of orchestral literature; presents Fall and Spring concerts, as well as “pops” concerts; special programs, such as Christmas, Easter, and Commencement; performs with guest conductors and soloists of national reputation as well as outstanding student soloists. Membership through audition; also available for evening session students.

751:104. UNIVERSITY BAND.
1 credit. (6 hours a week)
The University Marching Band is organized in the fall of the year (first semester) and plays for all football games. It is open to all qualified students, both men and women. The Symphony Band functions after the football season and continues for the rest of the year. Membership in both the Symphony and Marching Bands through audition with the Director of Bands.

751:105. CHORAL ENSEMBLE.
1 credit. (2 hours a week)
Membership by audition. Study and performance of literature for chamber vocal ensemble from all periods of music history. Frequent public concerts. Designed for personnel with good music reading ability and previous choral experience.

751:106. BRASS ENSEMBLE.
1 credit. (2 hours a week)
Membership by audition. Must be a member of the University Band or Orchestra. Study and performance of literature for brass ensemble from all periods of music history. Frequent public concerts. For advanced brass players.

751:107. STRING ENSEMBLE.
1 credit. (2 hours a week)
Membership by audition. Must be a member of the University Orchestra. Study and performance of literature for string ensemble by the master composers. Designed to develop a high sense of musicianship among string players and to familiarize the student with string ensemble literature through performance.

751:108. OPERA WORKSHOP.
1 credit. (2 hours a week)
Musical and dramatic group study of excerpts from the operatic repertoire. Includes an annual production of a standard opera and/or contemporary chamber work with staging, costumes, and scenery. Students must secure the approval of their University voice instructor before enrolling.

751:109. PERCUSSION ENSEMBLE.
1 credit. (2 hours a week)
Membership by audition. Must be a member of the University Band or Orchestra. Study and performance of literature for various percussion groups. Designed to develop skill in ensemble performance on a wide variety of percussion instruments, particularly in the growing modern repertoire for such groups.

751:110. WOODWIND ENSEMBLE.
1 credit. (2 hours a week)
Membership by audition. Must be a member of the University Band or Orchestra. Study and performance of literature for a variety of woodwind groups; literature taken from several periods and styles in music history. Designed to develop the skills of the woodwind performer through ensemble performance and to increase his knowledge and understanding of woodwind literature.

751:111. CHAMBER ORCHESTRA.
1 credit. (2 hours a week)
An organization designed to train instrumentalists in the performance of orchestral music for small ensembles. Membership by audition, open to students with advanced ability.

751:112. MEN'S GLEE CLUB.
1 credit. (2 hours a week)
A choral organization designed to perform a wide range of compositions written for men's voices and representing various musical styles and periods. Membership by permission of the director.

751:113. WOMEN'S GLEE CLUB.
1 credit. (2 hours a week)
A choral organization designed to perform a wide range of compositions written for women's voices and representing various musical styles and periods. Membership by permission of the director.
751:114. **Keyboard Ensemble.**
1 credit. (2 hours a week)
Study and performance of a wide variety of chamber music. Designed to develop a keen sense of the musicianship required of keyboard performers in ensemble. Registration required of all music majors whose primary performance area is piano, organ or harpsichord.

**752: APPLIED MUSIC**

2 or 4 credits each quarter.
(Undergraduate or Graduate)

All music majors must perform each quarter before an applied music jury on each instrument which he studies privately for credit. The non-music major studying applied music will appear before a jury at the discretion of his private teacher.

No credit hour fee is charged for enrollment in applied music. Fees are based on the number of private lessons per week and are listed in the section on "Fees and Expenses." Credit is earned on the basis of two credits per quarter for one thirty-minute lesson per week and ninety minutes practice per day. Enrollment may be repeated each quarter for credit.

Students seeking the B.A. or B.S. degree in Buchtel College may include only 12 such credits in the minimum 192 credits required for graduation.

752:121-221-321-421/521. **Percussion.**
752:122-222-322-422/522. **Classical Guitar.**
752:123-223-323-423/523. **Harp.**
752:124-224-324-424/524. **Voice.**
752:125-225-325-425/525. **Piano.**
752:126-226-326-426/526. **Organ.**
752:127-227-327-427/527. **Violin.**
752:128-228-328-428/528. **Viola.**
752:129-229-329-429/529. **Cello.**
752:130-230-330-430/530. **String Bass.**
752:131-231-331-431/531. **Trumpet or Cornet.**
752:132-232-332-432/532. **French Horn.**
752:133-233-333-433/533. **Thornbome.**
752:134-234-334-434/534. **Baritone.**
752:135-235-335-435/535. **Tuba.**
752:136-236-336-436/536. **Flute or Piccolo.**
752:137-237-337-437/537. **Oboe or English Horn.**
752:138-238-338-438/538. **Clarinet or Bass Clarinet.**
752:139-239-339-439/539. **Bassoon or Contrabassoon.**
752:140-240-340-440/540. **Saxophone.**
752:141-241-341-441/541. **Harpischord.**

Students must contact the Music Department and consult with the applied music instructor before registering for course work.

**780: SPEECH**

780:131. **Public Speaking.** 3 credits.
Training in types of public address; performance and individual criticism.

780:132. **Ethical Persuasion.** 2 credits.
Moral responsibility of the speaker; motivational forces in persuasive discourse.

780:133. **Oral Interpretation I.** 4 credits.
Oral interpretation from the printed page with special emphasis on factual prose and prose fiction.

780:135. **Introduction to Phonetics.** 3 credits.
Introduction to the use of the International Phonetic Alphabet, in General American speech. The physical, psychological and neurological bases of sound production.

780:136. **Bases of Speech.** 3 credits.
Prerequisite, 135. Study of the social, linguistic, psychological, genetic and semantic bases of speech.

780:137. **Voice and Articulation.** 3 credits.
Prerequisite, 135. Study of the principles and mechanisms of standard speech and voice.

780:141. **Intercollegiate Debate.** 1 credit.
(May be repeated for a total of 4 credits.)
Substantive and legislative debate practice addressed to current issues.

780:143. **Parliamentary Procedure.** 2 credits.
Current practices in parliamentary procedure.

780:144-145. **Oral Argument.**
2 credits each quarter.
Theory of argument, analysis of logical processes, study of the current national intercollegiate debate proposition.

780:234. **Oral Interpretation II.** 3 credits.
Oral interpretation from the printed page with special emphasis on poetry and drama.

780:261. **Introduction to Theatre.** 3 credits.
A survey of the arts and crafts of dramatic production, evolution of theatre structures, staging, audiences. Participation in the mounting of University Theatre productions.
780:262. Stage and Television Makeup. 3 credits.
This course enables the student actor to learn facial and character analysis, makeup materials and the techniques for creating straight and character makeup for both television and the stage.

780:265. Basic Stagecraft. 3 credits.
Basic aspects of stagecraft in terms of production: the stage and its equipment; construction and handling of scenery; theatrical hardware; painting of scenery. Lab hours in conjunction.

780:266. Acting. 3 credits.
The actor's approach to theatre: establishment of character, inner resources, stage practices, external acting techniques.

780:270. Introduction to Speech Disorders. 3 credits.
Basic concepts and principles of speech pathology. Classification and incidence of speech disorders.

780:276. Applied Phonetics. 3 credits.
Training in acoustic phonetic transcription, analysis of dialects, distortions and sound substitution.

780:278. The Psychology of Speech. 4 credits.
The nature, origins and purposes of speech. The basic psychological principles involved in the communicative process and their application to both groups and individuals.

780:281. Introduction to Radio and Television. 3 credits.
Prerequisite, 133 or permission. Radio and television audience analysis research. Special projects in message design and development.

A study of the history, nature and function of educational and commercial broadcasting.

780:283. Communication Media: Television. 3 credits.
Prerequisite, permission of instructor. The function and structure of television as a communication medium. An analysis of select media, their interrelationship with other communication forms—and an overview of the aesthetic and persuasive limitations and potential of each.

780:344. Public Discussion and Group Procedures. 3 credits.
Prerequisite, permission of instructor. Techniques of discussion in terms of skills of the effective discussion leader and participant.

780:353. Introduction to Audiology. 3 credits.
Anatomy, physiology and acoustics of hearing. Survey of the field of audiology. The nature of hearing problems.

780:354. Speech Reading. 3 credits.
Prerequisite, 353. Theories and practices in teaching lip reading to adults and children. Classical nature and modifications. Observation and practicum, The University of Akron Speech and Hearing Clinic.

780:361. Play Directing. 3 credits.
A practical course in the principles and techniques of bringing a play from page to stage.

780:362. Advanced Stagecraft. 3 credits.
Prerequisite, permission. Backstage organization and management in terms of production; the production staff; three-dimensional scenery construction; special scenery and rigging problems. Lab hours in conjunction.

780:364. Scene Design. 3 credits.
Prerequisite, permission. Principles of design as applied to dramatic production.

780:367. History of Theatre: Greek Through Pre-Elizabethan Period. 3 credits.
Prerequisite, 261 or permission of instructor. The physical stage, scene design, styles in acting and production, stage lighting, theatrical conventions, dramaturgy and influences on modern theatre.

780:368. History of Theatre: Elizabethan Period Through the 18th Century. 3 credits.
Prerequisite, 261 or permission of instructor. The physical stage, scene design, styles in acting and production, stage lighting, theatrical conventions, dramaturgy and influences on modern theatre.

780:369. History of Theatre: 19th Century to Present. 3 credits.
Prerequisite, 261 or permission of instructor. The physical stage, scene design, styles in acting and production, stage lighting, theatrical conventions, dramaturgy and influences on modern theatre.

780:381. Broadcasting Media. 4 credits.
Prerequisites, 133 and 281. Analysis of the technique, performance and message in radio and television production. The impact of verbal and non-verbal cue systems in media on opinion change.

Prerequisite, permission. The role of mass media as they relate to modern communication theory. Special projects in research.

780:444/544. Group Processes and Conference Leadership. 3 credits.
Communication theory; group dynamics; interpersonal relations; semantics; applied individual projects and seminar reports.
780:457/557. PRINCIPLES OF AUDIOMETRY.  
3 credits.  
Prerequisite, 353. Hearing tests and hearing instruments. Case findings and referral. Interpretation of hearing test results. Organization of hearing conservation programs. Observation and practicum, The University of Akron Speech and Hearing Clinic.

780:460/560. DRAMATIC CRITICISM. 4 credits.  
Prerequisites, 780:367, 368, 369 or permission of instructor. Detailed study of the major documents of dramatic criticism with special emphasis on the relevance of this criticism today.

780:463. ADVANCED ACTING. 3 credits.  
Prerequisite, 266. Acting styles and techniques for the more demanding serious and comic roles in both contemporary and classic plays. Special emphasis on vocal training, stage movement, use of costumes and properties.

780:464. STAGE LIGHTING. 3 credits.  
The history of stage lighting; theories and practices of stage illumination.

780:465/565. SPECIAL PROJECTS IN THEATRE. 2-4 credits. (may be repeated for total of 6 credits)  
Prerequisite, permission of the instructor. Individual or group projects, relative to a University Theatre production, in any of the following areas: costume, lighting, scene design and construction, acting, directing, make-up, children's theatre or theatre management.

780:467/567. CONTEMPORARY THEATRE STYLES. 4 credits.  
The emergence of Modern Contemporary Theatre; selected examples of 19th and 20th Century plays; writing, scene design and production practices; the departures from Realism.

780:468/568. CHILDREN'S THEATRE WORKSHOP. 3 credits.  
A study of theatre for the child audience: play selection, scene design and construction, acting, directing. A full-length play for children, produced by the class, culminates the course.

780:470/570. SPEECH FOR CLASSROOM TEACHERS. 4 credits.  
Study of the types and nature of speech and language disorders in the classroom. Interrelationship of the teacher and speech clinicians. Available for graduate credit only with approval of program director.

780:471/571. SPEECH PATHOLOGY I. 4 credits.  
Prerequisites, 270 and 278. Study of articulation disorders. Etiology, evaluation and correction. Observation and practicum, The University of Akron Speech and Hearing Clinic.

780:472/572. SPEECH PATHOLOGY II. 3 credits.  
Prerequisite, 471. Study of the pathology, methods of testing and therapy for stuttering, cleft palate, voice disorders and cerebral palsy. Observation and practicum, The University of Akron Speech and Hearing Clinic.

780:473/573. SPEECH PATHOLOGY III. 3 credits.  
Prerequisite, 472. Study of the pathology, methods of testing and therapy for adult aphasia, and children's organically based language disorders. Observation and practicum, The University of Akron Speech and Hearing Clinic.

780:474/574. CLINICAL PRACTICES I. 3 credits.  
Procedures used in The University of Akron Speech and Hearing Clinic. Methods of reporting. Initial experience in The Speech and Hearing Clinic leading to ASHA practicum requirements. To be concurrent with 471.

780:475/575. CLINICAL PRACTICES II. 3 credits.  
Prerequisite, 90 hours laboratory experience and permission. Laboratory experience in The University of Akron Speech and Hearing Clinic.

780:476/576. SPEECH AND LANGUAGE DEVELOPMENT. 3 credits.  
Prerequisite, 136 or permission. A study of the development of speech and language in children, theories of speech and language development in the individual.

780:481. PERSUASION AND PROPAGANDA ANALYSIS. 3 credits.  
Prerequisite, 780:381 or permission of instructor. The theory and analysis of the multi-cue system in oral communication as designed to modify attitudes and behavior. Emphasis on recognition and understanding of propaganda.

780:484. SPEECH-COMMUNICATION THEORY II. 3 credits.  
Prerequisite, 780:384 or permission of instructor. Study of the field of communication and its relationship to ancient rhetorical theory and modern communication theory. Student seminar reports.

780:490/590. SPEECH CRITICISM. 4 credits.  
Study of the goals and philosophy of rhetorical evaluation. Available for graduate credit only with approval of Head of Department.

780:497/597. SPEECH SEMINAR. 3 credits.  
Special project relating to a selected area of speech.

GRADUATE COURSES

780:620. INTERNSHIP IN SPEECH PATHOLOGY AND/OR AUDILOGY. 3-6 credits.  
(may be repeated for a total of 9 credits)  
Prerequisite, permission of director of program. Clinical practicum in The University of Akron Speech and Hearing Clinic and/or selected community centers. 275 clock hours minimum ASHA
certification requirements must be fulfilled prior to the completion of the M.A. This course may be used to complete these requirements.

780:623. SPEECH AND HEARING PROGRAMS. 3 credits.
The organization and management of speech and hearing programs in voluntary and official agencies.

780:625. RESEARCH METHODS IN COMMUNICATIVE DISORDERS. 3 credits. (may be repeated once)
Prerequisite, a statistics course. Types of research problems and approaches to them in communicative disorders.

780:640. SPECIAL PROBLEMS IN RHETORIC AND PUBLIC ADDRESS. 3 credits. (may be repeated for a total of 6 credits)
Prerequisite, permission of the instructor. Problem analysis, investigation and evaluation of a major interest area in rhetoric and public address.

780:650-651-652. TOPICS IN ADVANCED AUDIOLOGY I, II AND III. 3 credits each quarter.
Prerequisite, 650, 651 or 652. Current topics in clinical and experimental audiology. Emphasis on review of current literature.

780:654. EXPERIMENTAL AUDIOLOGY. 3 credits.
Prerequisite, 6 credits in audiology or permission. Principles of psychoacoustics. Review of instrumentation and research techniques. Study of significant literature in the field.

780:655. INSTRUMENTATION IN AUDIOLOGY. 3 credits.
Prerequisites, 457, 654. Current methodology in auditory research. Emphasis on the type of equipment used in conducting auditory research.

780:656-657-658. CLINICAL AUDIOLOGY I, II AND III. 3 credits each quarter.
Prerequisites, 650, 651 or 652. Current methodology in evaluation of audition of the child and adult. Emphasis on the patterns found in the various types of auditory disorders and auditory rehabilitation.

780:659. SEMINAR IN AUDIOLOGY. 3 credits.
(may be repeated for a total of 8 credits)
Prerequisite, permission. Current methodology in auditory rehabilitation, experimental audiology, clinical audiology, or other selected areas.

780:660. ADVANCED TECHNICAL THEATRE. 3 credits.
Prerequisite, permission of instructor. Detailed problems in mounting plays on secondary school or university stages.

780:661. PLAYWRITING. 3 credits.
Prerequisite, permission of instructor. Principles of dramatic construction through (a) an analysis of the playwright's art and (b) the writing of a short play by the individual student.

780:662-663-664-665. THEATRE SEMINARS. 3 credits each quarter.
In-depth studies of specialized areas in theatre:
780:662. Musical Theatre
780:663. American Theatre
780:664. Commedia dell'arte
780:665. Theatre Audiences

780:667-668-669. STUDIES IN DRAMATIC PRACTICE. 3 credits each quarter.
Detailed and selective studies in theatre, with emphasis on dramaturgy, social influences on theatre, auditoria and staging areas, technical elements and acting techniques.
780:667. Pre-Elizabethan Theatre
780:668. Theatre: Elizabethan through 18th century
780:669. Theatre: 19th and 20th centuries

780:670. SPECIAL PROBLEMS: PATHOLOGY AND AUDIOLOGY. 3 credits.
(may be repeated for a total of 9 credits)
Prerequisite, permission of instructor. Guided research or reading in selected topics in speech pathology, audiology or language disorders.

780:671-672-673. ADVANCED SPEECH PATHOLOGY I, II AND III. 3 credits each quarter.
(each may be repeated once for an additional 3 credits)
Prerequisite, 474 or permission. Historical background, current theories and research related to the etiology, diagnosis and treatment of selected speech and language disorders.

780:674. STUTTERING, THEORIES AND THERAPIES. 3 credits. (may be repeated once)
Reading and discussion of selected theories and therapies related to stuttering.

780:675. INSTRUMENTATION IN SPEECH PATHOLOGY. 3 credits.
Prerequisite, permission. Equipment usage in the clinical setting and in field studies.

780:676. COMMUNICATIVE DISORDERS OF CHILDREN. 3 credits.
Oral and aural language deviations. Their etiology, pathology and remediation.

780:677. VOICE PATHOLOGY. 4 credits.
Prerequisite, 473 or permission. Background and current research related to the etiology, diagnosis and therapy for various disorders of voice.

780:678. TOPICS IN DIFFERENTIAL DIAGNOSIS OF SPEECH AND LANGUAGE DISORDERS. 3 credits.
(may be repeated for a total of 9 credits)
Prerequisite, permission of director of Speech and Hearing program. The study and application of diagnostic procedures related to selected speech and language disorders.

780:680. Special Problems in Communication and Mass Media. 3 credits. (may be repeated for a total of 6 credits)
Prerequisite, permission of the instructor. Problem analysis, investigation and evaluation of a major interest area related to communication theory, the mass media, or interpersonal communication.

780:681. Advanced Persuasion and Propaganda Analysis. 3 credits.
Prerequisite, 780:381 or permission of the instructor. Detailed analysis of multi-symbol systems in persuasion and propaganda, particularly as related to information control.

780:684. Studies in Communication Research. 3 credits.
Prerequisite, permission of the instructor. A study of the dimensions of the field of communication: information analysis, social interaction and semantic analysis.

780:690. Critical Studies in Rhetorical Theory. 3 credits.
Studies in classical and medieval rhetoric.

Rhetorical criticism of speeches of American orators from the colonial period to the present.

780:693. Critical Studies in British Public Address. 3 credits.
Rhetorical criticism of the speeches of Fox, Pitt, Burke and other British speakers from the early Parliamentary period to the present.

780:694. Research and Thesis. 3 credits.
(may be repeated for total of 9 credits)
Prerequisite, permission of the department head.
The College of Nursing

820: NURSING

820:150. HISTORY OF NURSING. 2 credits.
Nursing from prehistoric times to present day. An effort is made to show the relationship of the methods in care of the sick to political and economic conditions, and to show the professional heritage of the present day nurse and the ethical backgrounds of the profession.

820:261. NURSING IN A SOCIAL ORDER. 4 credits.
Prerequisite, by permission. This course includes a survey of the major historical, philosophical, and sociological factors which have affected nursing.

820:271-272. GENERAL NURSING. 8 credits each quarter. Sequential.
Prerequisite, by permission. Fundamental concepts are applied to all nursing conditions and situations within the whole health field, local, national and international health problems. A resolution of health problems is based on the understanding of the uniqueness of the human person and his behavior in health and illness. Knowledge and skills needed by nurses in any clinical setting are emphasized; i.e., interviewing, administering treatments, hygiene and comfort measures.

820:321-322-323. ADULT NURSING. 7 credits each quarter. Prerequisites, 271-272. The purpose of this course is to increase understanding in the ability to adapt and develop the basic core of nursing. Points of reference are common and special health conditions in adult life and nursing practice in various types of health agencies. Preventive, curative and rehabilitative functions of nursing that focus upon the patient as a human person and a member of a family unit are emphasized.

820:331-332-333. MATERNAL AND CHILD NURSING. 7 credits each quarter.
Prerequisites, 271-272. The basic concepts of nursing and human behavior are applied to the care of mothers and children in the family setting. The course begins with the adolescent as a potential parent and includes the psychological, anatomical and physiological aspects of childbearing.

820:341. PSYCHIATRIC NURSING. 10 credits.
Prerequisites, 271-272. Social and community aspects of psychiatry are explored with special attention given to behavioral theories, personality difficulties and clinical application in the care of disturbed patients.

820:431. PUBLIC HEALTH ORGANIZATION AND PUBLIC HEALTH NURSING. 10 credits.
Prerequisites, 321-322-323, 331-332-333, and 341. Concepts of public health philosophy, administration, epidemiology and biostatistics are developed. Particular consideration is given to the health needs of the person, the family, and groups of people in the home, the school, at work and in the community.

820:461. ISSUES IN NURSING. 3 credits.
Prerequisite, 261. Content in this course is intended to orient the student to current economic, social and educational trends with their influence on contemporary nursing. Nursing organizations and nursing opportunities, legal and professional relationships with their responsibilities are included.

820:471. SEMINAR IN NURSING. 8 credits.
Prerequisites, 321-322-323, 331-332-333, and 341. An identification and investigation of the major problems in nursing in order to provide an opportunity to increase depth in nursing theory and facilitate the application of all previous learning experiences. Performance of nursing functions of a beginning position, and orientation to the organizational and operational aspects of nursing practice are included.

820:490. INDEPENDENT STUDY. 3-5 credits.
Prerequisites: Senior standing and the permission of the instructor. The course provides an opportunity to develop greater depth in an area of nursing through methodology specific to the discipline of nursing.
The College of Law

920: LAW

920:602. DEVELOPMENT OF LAW AND LEGAL INSTITUTIONS. 4 credits.
An historical introduction to the development of the Anglo-American legal system.

920:603. LEGAL METHOD AND LEGISLATION. 4 credits.
Legal method; the formulation and operation of legal arguments based on cases and statutes.

920:605. CONTRACTS I. 4 credits.

920:606. CONTRACTS II. 4 credits.
Prerequisite, 605. Impossibility. Frustration, conditions. Breach, beneficiaries, assignments.

920:614. PROPERTY I. 3 credits.
Possession; means by which title may be obtained. Fixtures, emblements.

920:615. LEGAL RESEARCH AND WRITING. 1 credit.
Integration of methods of research and skill in legal problem solving, with communicative skills in the preparation of legal memoranda and briefs.

920:617. TORTS I. 4 credits.
A survey of basic tort law with consideration given to the impact of insurance and modern notions of allocating the cost of unintentionally caused harm on tort doctrines keyed to negligence.

920:618. TORTS II. 4 credits.
Prerequisite, 617. Continuation of Torts I.

920:619. AGENCY. 3 credits.

920:622. ADMINISTRATIVE PROCESS. 4 credits.
Prerequisite, 630. Traditional politico-legal theories of separation of powers and the administrative process; procedure for rule-making and adjudication; conclusiveness of administrative determination.

920:625. PROPERTY II. 4 credits.
Prerequisite, 614. History of land law (beginning with the Norman Conquest); the types of estates in land, freehold and nonfreehold; concurrent ownership; future interests before and after the Statute of Uses; Statute of Frauds; methods of conveyance; the mortgaging of real estate; recording, title registration; covenants; adverse possession.

920:626. PROPERTY III. 3 credits.
Prerequisite, 625. Landlord-tenant relationship, the scope and character of legislation restricting land use, easements, profits, licenses, rights incident to land ownership and law applicable to the insuring of real estate.

920:628. LEGAL PROFESSION. 1 credit.
The legal profession as an institution. Professional responsibility. Duties and privileges of members of the legal profession.

920:631. COMMERCIAL TRANSACTIONS I. 4 credits.

920:632. COMMERCIAL TRANSACTIONS II. 3 credits.
Prerequisite, 631. Continuation of Commercial Transactions I.

920:633. EVIDENCE I. 3 credits.

920:634. EVIDENCE II. 3 credits.
Prerequisite, 633. Continuation of Evidence I.

920:635. PLEADING AND JOINED. 5 credits.

920:636. CONSTITUTIONAL LAW. 5 credits.

920:637. REMEDIES. 5 credits.
A comparison of the relief afforded through actions traditionally designated as at law and in equity; the relationships among actions for damages, for restitution (including quasi-contract, constructive trust, equitable lien, and equitable and legal accounting), and for specific performance, injunction, recission, reformation, bill of peace, interpleader, quiet title, and declaratory judgment.
920:638. CRIMINAL LAW. 4 credits.
Nature and source of criminal liability. The act. Mental conditions requisite to criminal responsibility. Specific crimes and defenses thereto. These materials are studied in the light of modern trends and needs.

920:639. JURISDICTION AND JUDGMENTS. 4 credits.
Prerequisite, 635. Basic concepts of jurisdiction of courts over the subject matter and person, and the control and effect of judgments.

920:640. ADMINISTRATION OF CRIMINAL JUSTICE. 3 credits.
Prerequisite, 639. A study of the administration of criminal justice relating processes of criminal law to the objectives of criminal correction.

920:644. FEDERAL JURISDICTION AND PROCEDURE. 4 credits.

920:645. PROBLEMS IN TRIAL ADVOCACY. 2 credits.
Prerequisite, 635. Assigned problems requiring the application of rules of procedure and professional considerations in typical trial contexts.

920:646. OHIO TRIAL AND APPELLATE PRACTICE. 3 credits.
Prerequisites, 625 and 639. Survey of the trial of a case from selection of a jury to judgment, and the procedure and problems of review.

920:651. SOCIAL LEGISLATION. 4 credits.
A study of social legislation including social security, workmen's compensation, full and fair employment, and general and special assistance to alleviate poverty and substandard housing.

920:652. CREDITORS' RIGHTS. 4 credits.

920:653. MUNICIPAL CORPORATIONS. 3 credits.

920:654. DOMESTIC RELATIONS. 3 credits.
To instruct the student in the major areas of family law and to acquaint him with the theories that have influenced its development. Functions performed by various agencies which seek to effect a nonjudicial settlement of domestic problems.

920:655. INDIVIDUAL STUDIES AND RESEARCH. 1 to 5 credits. May be repeated.
Prerequisite, 615. With permission of the Dean, special problems, projects, or research may be taken for credit under the supervision of a member of the faculty. Credit varies in proportion to the magnitude of the project.

920:659. PROBLEMS IN CONFLICT OF LAWS. 4 credits.
Prerequisite, 639. Problems of law applicable in situations involving more than one state.

920:660. SEMINAR IN SELECTED LEGAL PROBLEMS. 1-4 credits. (May be repeated.)
Analysis of special or current problems arising in the field of law from time to time offering opportunities for legal research, effective integration of legal and relevant non-legal materials, and expository legal writing.

920:661. SEMINAR IN POLITICAL AND CIVIL RIGHTS. 3 credits.
Prerequisite, 636. A study of some of the basic problems in the relationship of the individual to government and in the protection of rights of minority groups.

920:662. SEMINAR IN ESTATE PLANNING. 5 credits.
Prerequisite, 664. Analysis of relevant tax and nontax problems in planning estates and an examination of dispositive devices in accomplishing the objectives of estate planning. Project: drafting of an estate plan of some complexity.

920:663. PATENT, TRADEMARK AND COPYRIGHT LAW. 3 credits.
A study of the prerequisites to federal protection of patents, trademarks and copyrights, registration procedures, appeals from administrative actions, rights of patentees, trademark owners and copyright holders, grants, licenses and assignments, infringements, plagiarism and unfair competition.

920:664. FEDERAL INCOME TAXATION. 5 credits.
A consideration of the law of federal income taxation and a survey of federal tax practice.

920:665. SEMINAR IN LAND USE PLANNING. 3 credits.
Prerequisite, 626. Examination of the assumptions, doctrines, and implications of city planning law, is to enable the student to analyze effectively the legal and administrative problems involved in allocating and developing land located in metropolitan areas.

920:666. SEMINAR IN JURISPRUDENCE. 4 credits.
Examination and evaluation of principal theories of legal philosophy. Theories are frequently con-
sidered in connection with concrete problems and are evaluated in the light of various goal values.

920:667. SEMINAR IN COMPARATIVE LEGAL SYSTEMS. 3 credits.
A study of contemporary foreign legal systems by a discussion of basic problems in specific areas on a comparative basis.

920:668. LABOR LAW. 4 credits.

920:669. WORLD LAW. 4 credits.
Nature and substance of the law governing relationships of states with other states.

920:670. SEMINAR ON LEGAL PROBLEMS OF THE POOR. 3 credits.
Study of theoretical and practical problems of legal representation of the poor, in contexts of administration of public welfare, public housing, public education, landlord-tenant relationships, low income buyer, mental illness, the family, civil rights and enforcement of criminal law. Complements field work undertaken in legal aid, but may be taken independent of it.

920:671. BUSINESS ASSOCIATIONS I. 3 credits.
Prerequisites, 605 and 610. An introduction to the law relating to the conduct of the business enterprise, including agency relationships, partnerships, other unincorporated business associations, and corporations. Emphasis is on the control, management, financing, and governmental regulation of corporations, whether publicly owned or closely held.

920:672. BUSINESS ASSOCIATIONS II. 3 credits.
Prerequisite, 671. Continuance of Business Associations I with emphasis on managers' benefits and hazards, asset distribution to shareholders, dissolution and reorganization.

920:673. TRUSTS AND ESTATES I. 3 credits.
This course integrates the material traditionally covered in separate courses on wills, trusts and future interests. Intestacy, will substitutes and life insurance problems. Testamentary and inter vivos transactions applicable to dispositions of both real and personal property.

920:674. TRUSTS AND ESTATES II. 5 credits.
Prerequisite, 673. Continuation of Trusts and Estates I.

920:675. TRADE REGULATIONS I. 3 credits.
Study of concentration in market structure; monopoly, oligopoly and merger. Restrictive practices; collaboration in pricing, market sharing, boycott and other collective pressures, resale price maintenance, exclusive dealing and tying.

920:676. TRADE REGULATIONS II. 3 credits.
The legal monopolies; patent and copyright, market restraints by labor unions. Regulation of industry; regulation of entry; rate regulation, discrimination in prices or services.

920:677. LEGAL PROBLEMS IN BUSINESS PLANNING. 5 credits.
Prerequisite, 664 and 672. An advanced course using the problem approach in the planning of business transactions in the light of the applicable corporate, tax, and securities law considerations.

920:678. SEMINAR IN INTERNATIONAL TRANSACTIONS AND RELATIONS. 4 credits.
Prerequisite, 669. Legal problems involved in doing business abroad. Entry, holding, property, economic activity and choice of corporate form. Implications of interacting legal systems in such areas as restrictive practices, currency and exchange. The European Common Market: its fundamental legal structure and process. Relations between developed and developing countries are studied reflecting the need for the legal removal of barriers and the promotion of cooperation.

920:679. PROBLEMS IN SECURED TRANSACTIONS. 3 credits.
No specific prerequisite. Problems of security interests in personal property (chattel mortgages, pledges, trust receipts, etc.) with special emphasis on the Uniform Commercial Code. Selected sections of the Bankruptcy Act are covered where they affect the rights of secured parties. As time permits, a discussion of the problem of priority between security interests and federal tax liens.

920:680. INSURANCE LAW. 4 credits.
Prerequisite, 920:606. Fundamental legal principles of insurance of person and property, such as insurable interest, measure of recovery, subrogation, rights of assignees and beneficiaries, warranty, concealment, representation and fraud. Adjustment of claims. Regulation.

920:681. SEMINAR IN JUDICIAL ADMINISTRATION. 3 credits.
Prerequisite, 920:635. A study of problems and practices in selection, tenure and removal of judges, selection and responsibilities of court administrators, the effects of devices and procedures used to expedite movement of cases through the litigation process, and analysis of suggested reforms.

University Emeritus Faculty

PAUL ACQUARONE, Professor Emeritus of Botany and Geology (1931)
B.S., Pennsylvania State College; Ph.D., Johns Hopkins University, 1929.

DAVID E. ANDERSON, Associate Professor Emeritus of Engineering Materials (1923)
B.A., Augustana College; M.S., University of Chicago, 1923.

IRENE C. BEAR, Professor Emeritus of Home Economics (1944)
B.S., Illinois Wesleyan University, M.A., Texas State College for Women, 1937.

HELEN BECKER, Associate Professor Emeritus of Primary Education (1949)

CHARLES BULGER, Dean Emeritus of the Buchtel College of Liberal Arts and Professor Emeritus of Modern Languages (February 1910)
Ph.B., Buchtel College; M.A., Ph.D., University of Wisconsin, 1925; Litt.D., The University of Akron, 1953.

RENA NANCY CABLE, Associate Professor Emeritus of Art (1927)
B.E., M.Ed., The University of Akron, 1931.

ANNA BELLE CHALFANT, Assistant Professor Emeritus of French (1947)
B.A., Ohio State University; M.A., Middlebury College, 1934.

IRENE C. BEAR, Professor Emeritus of Home Economics (1944)
B.S., Illions Wesleyan University, M.A., Texas State College for Women, 1937.

HELEN BECKER, Associate Professor Emeritus of Primary Education (1949)

CHARLES BULGER, Dean Emeritus of the Buchtel College of Liberal Arts and Professor Emeritus of Modern Languages (February 1910)
Ph.B., Buchtel College; M.A., Ph.D., University of Wisconsin, 1925; Litt.D., The University of Akron, 1953.

RENA NANCY CABLE, Associate Professor Emeritus of Art (1927)
B.E., M.Ed., The University of Akron, 1931.

ANNA BELLE CHALFANT, Assistant Professor Emeritus of French (1947)
B.A., Ohio State University; M.A., Middlebury College, 1934.

IRENE C. BEAR, Professor Emeritus of Home Economics (1944)
B.S., Illions Wesleyan University, M.A., Texas State College for Women, 1937.

HELEN BECKER, Associate Professor Emeritus of Primary Education (1949)

CHARLES BULGER, Dean Emeritus of the Buchtel College of Liberal Arts and Professor Emeritus of Modern Languages (February 1910)
Ph.B., Buchtel College; M.A., Ph.D., University of Wisconsin, 1925; Litt.D., The University of Akron, 1953.

RENA NANCY CABLE, Associate Professor Emeritus of Art (1927)
B.E., M.Ed., The University of Akron, 1931.

ANNA BELLE CHALFANT, Assistant Professor Emeritus of French (1947)
B.A., Ohio State University; M.A., Middlebury College, 1934.

IRENE C. BEAR, Professor Emeritus of Home Economics (1944)
B.S., Illions Wesleyan University, M.A., Texas State College for Women, 1937.

HELEN BECKER, Associate Professor Emeritus of Primary Education (1949)

CHARLES BULGER, Dean Emeritus of the Buchtel College of Liberal Arts and Professor Emeritus of Modern Languages (February 1910)
Ph.B., Buchtel College; M.A., Ph.D., University of Wisconsin, 1925; Litt.D., The University of Akron, 1953.
GENE J. PRESTON, Associate Professor Emeritus of Bibliography (1939)
B.A., Northwestern University; M.A., University of Illinois, 1936.

MRS. RUTH PUTMAN, Assistant Professor Emeritus of English (1934)
B.A., Howard College; M.A., Western Reserve University, 1936.

EDGAR C. ROBERTS, Assistant Professor Emeritus of English (1928)
B.S.Ed., M.A., The Ohio State University, 1924.

CLARA G. ROE, Professor Emeritus of History (1947)
B.A., University of Michigan; M.A., University of Chicago; Ph.D., University of Michigan, 1943.

CHARLES ROGLER, Professor Emeritus of Sociology (1949)
B.A., M.A., University of Michigan; Ph.D., University of Kansas, 1935.

FREDERICK S. SEPTON, Professor Emeritus of Physical Education (1915)
B.S., Colgate University; M.Ed., Harvard University, 1925.

SAMUEL SELBY, Distinguished Professor Emeritus of Mathematics (1927)
B.A., M.A., University of Manitoba (Canada); Ph.D., University of Chicago, 1929.

MRS. LUCY T. SELF, Assistant Professor Emeritus of Secretarial Science (February 1933)
B.A., Ohio Wesleyan University, 1920.

ROY V. SHERMAN, Professor Emeritus of Political Science (1929)
B.A., M.A., Ph.D., State University of Iowa, 1927.

PAUL C. SMITH, Associate Professor Emeritus of Electrical Engineering (1925)
B.S.E.E., Purdue University, 1917; P.E., Ohio.

ERNEST A. TABLER, Associate Professor Emeritus of Mathematics (1935)
B.S., Kent State University; M.A., Western Reserve University, 1933.

CLARENCE R. UPP, Associate Professor Emeritus of Mechanical Engineering (1925)
M.E., The Ohio State University, 1910; P.E., Ohio.

GEORGE STAFFORD WHITBY, Professor Emeritus of Rubber Chemistry (1942)
A.R.C.Sc., B.S., University of London; M.S., Ph.D., D.Sc., McGill University, 1939; LL.D.,
Mount Allison University, New Brunswick, 1932; D.Sc., The University of Akron, 1958.

MRS. FLORENCE N. WHITNEY, Associate Professor Emeritus of English (1936)
B.A., Dakota Wesleyan University; M.A., Columbia University, 1913.

EARL R. WILSON, Associate Professor Emeritus of Mechanical Engineering (1929)
B.M.E., The Ohio State University, 1918; P.E., Ohio.

NOTE: The dates in parentheses indicate the beginning of service at Buchtel College or The
University of Akron; unless otherwise stated, service began in the month of September.
University Faculty and Administration*

Full-Time

NORMAN P. AUBURN, President of the University and Professor of Political Science (1951)

MRS. MAGDA ABDAL-LATIF, Associate Information Specialist in Center for Information Systems (May 1968)
B.A., The University of Alexandria (Egypt); M.S., The University of Akron, 1967.

IRVING ACHORN, Associate Professor of Art (1963)
B.S., M.A., Kent State University, 1956.

RONNIE G. ADAMS, Assistant Professor in the Community and Technical College (1969)
B.C.E., Cleveland State University; M.S.C.E., Lehigh University, 1963.

MRS. JANET MERRILL ALGER, Assistant Professor of Sociology (1968)
B.S., Columbia University; M.A., Yale University, 1966.

MRS. ANN G. ALLAN, Instructor in Bibliography and Acting Head of Technical Services (January, 1968)

MRS. VIRGINIA ALLERSON, Instructor in Bibliography, Subject Librarian, Science-Technology and Librarians for the Division of Rubber Chemistry (October 1968)
B.S., Purdue University; M.L.S., Kent State University, 1967.

LASCHELLES F. ANDERSON, Assistant Professor of Economics (1966)
B.A., Harvard University; M.A., New York School for Social Research.

ALEXIS M. ANIKEEFF, Professor of Psychology (1967)
B.A., M.A., University of Michigan; Ph.D., Purdue University, 1949.

JOHN ARENDT, Materials Testing Engineer in Civil Engineering (February 1967)
B.S.E., Fenn College, 1944.

WALTER E. ARMS, Assistant Professor of Education (1968)
B.S., Northwest Missouri State College; M.Ed., University of South Dakota; Ph.D., Indiana University, 1968.

WILLIAM J. ANN, Assistant Professor of Education (1967)
B.S., Ohio Northern; M.S., Bowling Green State University; Ph.D., Kent State University, 1967.

MRS. HELEN ARNETT, Associate Professor of Bibliography and Education Librarian (1953)
B.A., The University of Akron; B.S.L.S., Western Reserve University; M.A., San Jose State College (California); Ph.D., Western Reserve University, 1965.

GLENN A. ATWOOD, Assistant Professor of Chemical Engineering (1965)
B.S.Ch.E., M.S.Ch.E., Iowa State University; Ph.D., University of Washington, 1963.

JOHN BACHMANN, PPG Chemical Division Professor of Chemistry (February 1961)
B.Ch.E., Ph.D., University of Minnesota, 1939.

MRS. GERTRUDE BADGER, Instructor in Education (1965)
B.S.Ed., B.A., The Ohio State University; M.Ed., Kent State University, 1960.

EVELYN BAKER, Assistant Professor of Speech (1966)
B.A., the University of Chicago; M.A., The University of Akron, 1945.

MRS. VIRGINIA HICKS BAKAY, Assistant Professor of Accounting (1968)

JOAN E. BAKER, Assistant Professor of Law (1968)
B.A., Reed College (Oregon); J.D., George Washington University; LL.M., Yale Law School, 1968.

J. WAYNE BAKER, Instructor in History (1968)
B.A., Western Baptist Bible College; B.D., Talbot Theological Seminary; B.A., Pepperdine College; M.A., The University of Iowa, 1964.

NOTE: The dates in parentheses indicate the beginning of service at The University of Akron; unless otherwise stated, service began in the month of September.

* Personnel on record as of February 1, 1969.
MERRILL T. BAKER, Professor of Speech (1968)
HOWARD R. BALDWIN, Registrar (July 1967)
B.S.Ed., Mt. Union College; M.Ed., Kent State University.
GEORGE W. BALL, Director of University Relations (1957)
B.A., Mount Union College, 1943.
A. FREDERICK BANDA, Associate Professor of Finance (1968)
B.S., City College of New York; M.B.A., New York University, 1964.
JAMES P. BANKS, Director of Development (July 1966)
B.A., Ohio University, 1950.
H. KENNETH BARKER, Dean of the College of Education, Dean of International Programs and Professor of Education (1966)
B.A., M.A., University of Louisville; Ph.D., University of Michigan, 1959.
DAVID G. BARR, Assistant Professor of Education (1967)
B.S., M.A.M., Kent State University, 1966.
CHARLES M. BARRETT, Associate Professor of Sociology (1966)
DAVID THOMAS BASO, Administrative Systems Programmer (August 1968)
DONALD E. BECKER, Assistant Professor of Management (1959)
MRS. SUE BECKHAM, Instructor in English (1966)
CLARE BEDILLION, Assistant Professor in the Community and Technical College (1968)
B.A., The Women's College of Georgia; M.A., New York University, 1944.
WILLIAM H. BEISEL, JR., Associate Professor of Education and Director of Student Teaching (1960)
MRS. JUTTA T. BENDREMER, Lecturer in English (1967)
M.A., Hunter College; M.S., Brooklyn College, 1951.
EUGENE MOSS BENEDICT, Instructor in the Community and Technical College (January 1969)
WILBUR EARLE BENSON, Dean of the College of Business Administration and Professor of Finance (July 1968)
DONALD K. BERQUIST, Assistant Professor of Accounting (1968)
B.S.B.A., Youngstown University; M.S., The Ohio State University, 1964; C.P.A., Ohio.
ROBERT C. BERRY, Director of Placement (August 1946)
CARL A. BERSANI, Assistant Professor of Sociology (1965)
B.A., Eastern Michigan University; M.A., University of Michigan; Ph.D., Iowa State University, 1965.
WILLIAM BEYER, Professor of Mathematics (1961)
B.S., The University of Akron; M.S., Ph.D., Virginia Polytechnic Institute, 1961.
MICHAEL BEZBATCHENKO, Associate Professor of Mechanical Engineering (June 1948)
B.M.E., The University of Akron; M.S., Case Institute of Technology, 1954; P.E., Ohio.
CLARE E. BIGGINS, Director of Purchasing (April 1967)
B.S.C., Ohio University, 1957.
NORMAN G. BILLS, Assistant Professor of Education (1968)
B.S., Ph.D., Western Reserve University, 1953.
LESTER JAMES BILSKY, Instructor in History (1962)
B.A., Washington University (St. Louis), 1956; University of Washington.
VINCENT J. BIONDO, Instructor in Education (1968)
ROBERT A. BLACK, Associate Professor of Economics (1955)
B.A., Carleton College; M.B.A., University of Chicago; Ph.D., University of California, 1963.
RALPH O. BLACKWOOD, Associate Professor of Education (1967)
B.A., Muskingum College; M.A., Ph.D., The Ohio State University, 1962.

CHARLES V. BLAIR, Dean of the Evening College, Assistant Professor in the Community and Technical College and Director of the Institute for Civic Education (April 1959)

C. ROBERT BLANKENSHIP, Instructor in Education and Director of Audio-Visual Services (1952)
B.A., Muskingum College; M.A., Ph.D., The Ohio State University; M.A., Indiana University, 1959.

RALPH O. BLACKWOOD, Associate Professor of Education (1967)
B.A., Muskingum College; M.A., Ph.D., The Ohio State University, 1962.

CHARLES V. BLAIR, Dean of the Evening College, Assistant Professor in the Community and Technical College and Director of the Institute for Civic Education (April 1959)

C. ROBERT BLANKENSHIP, Instructor in Education and Director of Audio-Visual Services (1952)
B.A., Muskingum College; M.A., Ph.D., The Ohio State University; M.A., Indiana University, 1959.

RALPH O. BLACKWOOD, Associate Professor of Education (1967)
B.A., Muskingum College; M.A., Ph.D., The Ohio State University, 1962.

CHARLES V. BLAIR, Dean of the Evening College, Assistant Professor in the Community and Technical College and Director of the Institute for Civic Education (April 1959)

C. ROBERT BLANKENSHIP, Instructor in Education and Director of Audio-Visual Services (1952)
B.A., Muskingum College; M.A., Ph.D., The Ohio State University; M.A., Indiana University, 1959.

RALPH O. BLACKWOOD, Associate Professor of Education (1967)
B.A., Muskingum College; M.A., Ph.D., The Ohio State University, 1962.
Robert C. Carson, Associate Professor of Mathematics, Assistant Dean of Graduate Studies and Research and Coordinator of Funded Research (July 1963)
B.S., M.S., Purdue University; Ph.D., University of Wisconsin, 1953.

Romeo E. Cartier, Jr., Assistant Professor of Civil Engineering (1966)
B.S.C.E., University of Miami; M.S. Eng., University of Connecticut, 1962; P.E., Ohio, West Virginia.

Stephen S. Castle, Professor of Marketing (1967)
B.A., Hillsdale College; M.B.A., University of Michigan; Ph.D., Michigan State University, 1964.

Guy J. Caudill, Assistant to the University Architect (December 1968)

Chou-Shun Chen, Assistant Professor of Electrical Engineering (1968)
B.S., National Taiwan University; M.S., Ph.D., University of Rochester, 1967.

Chun-Fu Chen, Assistant Professor of Electrical Engineering (February 1968)
B.S., National Taiwan University; M.S., The University of Tennessee; Ph.D., Vanderbilt University, 1968.

Mrs. Mary Elizabeth Chesrown, Assistant to the Dean of the Evening College and Assistant to the Director of the Institute for Civic Education (May 1965)

James Chew, Assistant Professor of Mathematics (1968)
B.S., M.S., Ph.D., Virginia Polytechnic Institute, 1966.

Frank L. Child, Administrative Assistant, Department of Chemistry (January 1967)
B.A., Michigan State University, 1956.

Walter S. Chmielewski, Associate Professor of Mechanical Engineering (1967)
B.S.M.E., Michigan State University; M.S.M.E., University of Michigan; Ph.D., West Virginia University, 1966.

Young H. Cho, Assistant Professor of Urban Studies, Assistant Professor of Political Science and Assistant Director of the Center for Urban Studies (1967)
B.A., Seoul National University (Korea); M.P.A., Ph.D., Syracuse University, 1965.

Mamerto L. Chu, Jr., Assistant Professor of Mechanical Engineering (1968)
B.S.M.E., Iloilo City University (Philippines); M.S.M.E., Ph.D., University of Houston, 1967.

Frank J. Cianciola, Assistant Director of Gardner Student Center (July 1968)

Mrs. Barbara Clark, Library Cataloger (1948)

Frances A. Clark, Assistant Professor of Accounting (1946)
B.S., The University of Akron; M.Ed., University of Pittsburgh, 1946.

Mrs. Ruth Clinefelter, Assistant Professor of Bibliography and Social Sciences Librarian (June 1952)

Kenneth Cochran, Professor of Physical Education and Director of Athletics (1948)

James Collins, Instructor in Sociology (1968)
B.A., M.A., Kent State University, 1965; The University of Connecticut.

Robert E. Collins, Assistant Professor in the Community and Technical College (1964)
B.A., Glenville State Teachers College (W. Va.); M.A., West Virginia University, 1952.

Robert N. Collins, Professor of Mechanical Engineering (1968)
B.S.M.E., University of Oklahoma; M.S.M.E., Ph.D.M.E., University of Wisconsin, 1963.

Vernon Cook, Instructor in Political Science (1965)
B.A., The Ohio State University, 1951.

Ford L. Coolman, Associate Information Specialist in Center for Information Systems (April 1967)
B.A., Wittenberg University, 1931.

Gerald Couard, Associate Professor of Chemistry (1948)
B.S., Penn College; M.S., Ph.D., Western Reserve University, 1944.

Thomas J. Coyne, Associate Professor of Finance (1969)
B.B.A., Marshall University; M.B.A., Kent State University; Ph.D., Case-Western Reserve University, 1967.

‡ Leave of absence, 1969-70.
WALDEN BLAIN CRABTREE, Assistant Professor of Education (1968)
B.A., St. Meinrad College (Indiana); M.S.Ed., Ph.D., Indiana University, 1968.

MRS. FAYE DAMBROT, Instructor in Psychology (1967)

ALEX DAVES, Associate Professor of Psychology (1968)
B.A., Ph.D., Western Reserve University, 1952.

RALPH FRANK DARI, Jr., Assistant Professor of Education (1968)
B.S., Southeast Missouri College; M.A., Washington University; Ph.D., Southern Illinois University, 1967.

MALCOLM J. DASHIELL, Associate Professor of Art (1953)

PAUL A. DAUM, Instructor in Speech (1965)

DONALD M. DAVIS, Assistant Professor in the Community and Technical College (1966)
B.S.B.A., University of Dayton; M.S., University of North Carolina, 1951.

EMILY DAVIS, Professor of Art (1945)
B.A., Ohio State University; M.A., Columbia University, Teachers College; Ph.D., The Ohio State University, 1936.

ROBERT L. DECKER, Assistant Professor of Speech (1967)
B.A., University of Miami; M.A., Western Reserve University, 1956.

MRS. MARY DEHAVEN, Instructor in English (1969)
B.A., University of Wisconsin; M.A., The University of Akron, 1963; Case-Western Reserve University.

BERNARD A. DEITZER, Associate Professor of Management (January 1967)
B.A., Allegheny College; M.L.L., University of Pittsburgh; Ph.D., The Ohio State University, 1967.

JOHN M. DENISON, Assistant Director of University Relations (February 1949)
The University of Akron.

JAMES L. DENNISON, Instructor in Physical Education (1965)

PETER DESY, Instructor in English (1966)

ROBERT L. DIAL, Assistant Professor of English (1965)
B.S., Central Missouri State College; M.A., Ph.D., University of Kansas City, 1963.

CELLE L. DOBINS, Assistant Dean of the Evening College and Assistant Director of the Institute for Civic Education (February 1965)
B.B.A., Fenn College, 1952.

D. DALE DOPKE, Assistant Professor of English (1965)
B.S.Ed., Central Missouri State College; M.A., Ph.D., Washington University, 1963.

DAVID T. DOLAN, Assistant Professor in the Community and Technical College (1965)

JOSEPH J. DONATELLI, Jr., Instructor in Modern Languages and Director of Language Laboratory (1967)

RAY E. DORR, Lecturer in Physical Education (March 1968)

JAMES L. DOWERSPIKE, Professor of Education (1960)

ROBERT G. DUBIN, Assistant Professor of Mechanical Engineering (February 1968)
B.M.E., Fenn College; M.S.M.E., University of Kansas; Ph.D.ME, University of Iowa, 1968.

MILAN F. DUBRACIC, Assistant Professor in the Community and Technical College. (January 1968)
Ingenieur of Chemistry, University of Zagreb; Ph.D., University of Massachusetts, 1968.

R. WAYNE DUFF, Vice President for Business and Finance (May 1963)

THEODORE DUKE, Professor of Latin and Greek (1948)
B.A., The University of Akron; M.A., Western Reserve University, Ph.D., Johns Hopkins University, 1946.

1 Leave of absence, 1968-69.
AMES F. DUNLAP, Professor of Speech (1955)
B.S.Ed., Wilmington College; M.A., Ph.D., Ohio State University, 1954.

AMES W. DUNLAP, Professor of Finance (1963)
B.B.A., Memphis State University; M.B.A., Ph.D., University of Arkansas, 1963.

D. M. DURST, Assistant Professor of Finance (1968)
B.S., Kent State University; M.B.A., Georgia State College, 1966.

ASHOK DUTT, Assistant Professor of Geography, Assistant Professor of Urban Studies and Assistant Director of the Center for Urban Studies (1968)
B.A., M.A., Ph.D., Patna University (India), 1961.

JAMES WALTER DUNLAP, Assistant Professor of Finance (1963)
B.S.Ed., Wilmington College; M.A., Ph.D., Ohio State University, 1954.

JAMES H. DUNLAP, Professor of Finance (1963)
B.S., University of Southern Mississippi; M.A., Ohio State University, 1963.

DAVID R. DURST, Assistant Professor of Finance (1968)
B.S., Kent State University; M.B.A., Georgia State College, 1966.

JAMES W. DUNLAP, Professor of Finance (1963)
B.B.A., Memphis State University; M.B.A., Ph.D., University of Arkansas, 1963.

D. M. DURST, Assistant Professor of Finance (1968)
B.S., Kent State University; M.B.A., Georgia State College, 1966.

JAMES WALTER DUNLAP, Assistant Professor of Finance (1963)
B.S.Ed., Wilmington College; M.A., Ph.D., Ohio State University, 1954.

JAMES H. DUNLAP, Professor of Finance (1963)
B.S., University of Southern Mississippi; M.A., Ohio State University, 1963.

DAVID R. DURST, Assistant Professor of Finance (1968)
B.S., Kent State University; M.B.A., Georgia State College, 1966.

JAMES W. DUNLAP, Professor of Finance (1963)
B.B.A., Memphis State University; M.B.A., Ph.D., University of Arkansas, 1963.

D. M. DURST, Assistant Professor of Finance (1968)
B.S., Kent State University; M.B.A., Georgia State College, 1966.
WILLIAM A. C. FRANCIS, Instructor in English (1966)

PAULINE FRANKS, Assistant Professor of Bibliography and Associate University Librarian (1950)
B.S.Ed., Kent State University; B.S.L.S., Western Reserve University, 1940.

J. E. FREDERICK, Assistant Professor of Chemistry, Assistant Professor of Polymer Science and Research Associate in the Institute of Polymer Science (1966)
B.S.Ch., Glenville State College; Ph.D., University of Wisconsin, 1964.

PAUL D. GARN, Professor of Chemistry (1963)
B. S., M.S., Ph.D., Ohio State University, 1952.

GEORGE CAVALA, Associate Professor of Mathematics (1968)
B.S., Indiana University (Pennsylvania); M.Litt., Ph.D., University of Pittsburgh, 1967.

ALAN N. GENT, Professor of Polymer Physics and Assistant Director of the Institute of Polymer Science (April 1961)
B.S., Leicester Technical College and University College (England); B.S. (Special), Ph.D., London University (England), 1955.

DON N. GERLACH, Associate Professor of History (1962)
B.S.Ed., M.A., Ph.D., University of Nebraska, 1961.

RUBEL N. GIERSCH, Director of the Physical Plant (1966)
B.M.E., Cleveland State University (Fenn College), 1954.

PETER J. GINGO, Associate Professor of Mathematics (1969)
B.S., The University of Akron; M.A., Ph.D., The University of California at Los Angeles, 1968.

WILLIAM M. GLAZIER, Assistant Professor in the Community and Technical College (1958)
(1967)
B.S.C.E., Michigan Technical University; M.S.E., University of Michigan, 1956; P.E., Ohio and District of Columbia.

MRS. PATRICIA GODFREY, Assistant Professor of Nursing (January 1969)
R.S.N., M.A.Ed., Western Reserve University, 1964; R.N.

LATHARDUS GOGGINS, Assistant Professor of Geography (1969)
B.A., Central State University; M.A., The Ohio State University, 1955; St. Johns University.

LAWRENCE C. GOLDEN, Instructor in the Community and Technical College (1968)
B.S., Case Institute of Technology; Wharton School of Finance and Commerce (Philadelphia).

DONALD GOLDSTROHM, Assistant Professor of Biology (1967)
B.S., Waynesburg College; M.S., Ph.D., West Virginia University, 1966.

DENNIS GORDON, Professor of Accounting (1946)

JOHN D. GRAFTON, Director of Housing (October 1964)

REGINALD A. GRAHAM, Assistant Professor of Marketing (1966)
B.S., Miami University; M.B.A., Kent State University, 1958.

RICHARD L. GRANT, Assistant Professor of Law (1967)
B.S., University of Pennsylvania; LL.B., Stanford University; LL.M., Georgetown University, 1967.

HOWARD L. GREENE, Assistant Professor of Chemical Engineering (1965)
B.Ch.E., M.Ch.E., Ph.D., Cornell University, 1966.

C. FRANK GRIFFIN, Assistant Professor of Physics (1967)
B.S., M.S., Texas Technological College; Ph.D., The Ohio State University, 1964.

JOHN E. GRIMM, Adviser of Men (July 1967)

EDNA P. GRIFFIT, Assistant Professor of Nursing (January 1968).
B.S.N.Ed., The University of Akron; M.S.Ed., Western Reserve University, 1967; R.N.

RICHARD J. GROSS, Assistant Professor of Mechanical Engineering (1967)
B.S.M.E., University of Pittsburgh; M.S.M.E., Ph.D., Carnegie Institute of Technology, 1967.

FRANK J. Gruccio, Jr., Instructor in the Community and Technical College (1966)

ROBERT GROMBACH, Associate Professor of Electrical Engineering (1961)
B.S.E.E., Case Institute of Technology; M.S.E.E., West Virginia University, 1951.

EMILE GRUNBERG, Professor of Economics (1946) 1956)
M.A., Ph.D., University of Frankfurt (Germany), 1930.

MRS. BARBARA CHELLEMAN, Lecturer in the Community and Technical College (1967)

MRS. RUTH T. HADDOK, Instructor in Mathematics (1968)

SCOTT D. HAGEN, Assistant Professor of Biology (1966)
B.S., Kansas State University; M.S., Kansas State Teachers College.

GORDON A. HAGERMAN, Assistant to the Vice President for Academic Affairs (July 1941)
B.A., The University of Akron, 1941.

CARL L. HALL, Controller and Treasurer (1959) (March 1965)
B.S., Ohio State University, 1950.

DOROTHY Hamlen, Professor of Bibliography, Director of University Archives, Rare Books Librarian (February 1957)
B.A., The University of Akron; B.S.L.S., Western Reserve University, 1942.

LOUIS F. HAMPY, Associate Professor of Finance (1968)
B.S., The University of Akron; M.B.A., Northwestern University, 1931.

PETER J. HAMPY, Associate Professor of Psychology and Director of Developmental Programs in the Community and Technical College (August 1954)
B.A., M.A., University of Manitoba (Canada); Ph.D., Western Reserve University, 1950.

RICHARD L. HANSFORD, Dean of Student Services (August 1949)

EDWARD W. HANTEN, Professor of Geography and Professor of Urban Studies and Director of the Center for Urban Studies (1963)
B.A., Earlham College; M.A., Ph.D., University of Pittsburgh, 1962.

DELL HARBIN, Lecturer in Art (January 1969)
The University of Akron.

HORACE HARBY, Assistant to the President for Development (May 1966)
B.S., Clemson College, 1930.

MRS. PHYLLIS HARDENSTEIN, Assistant Professor of Speech (February 1947) (1956)
B.A., The University of Akron; M.A., University of Wisconsin, 1951.

MARY GRACE HARRINGTON, Assistant Professor of Bibliography and Business Administration Librarian (November 1960)
B.A., The University of Akron; B.A.L.S., University of Michigan, 1939.

H. JAMES HARWOOD, Associate Professor of Chemistry, Associate Professor of Polymer Science, and Research Associate in the Institute of Polymer Science (October 1959)
B.S., The University of Akron; Ph.D., Yale University, 1956.

WADE B. HATCHE, Physical Facilities Analyst (October 1966)

MRS. MARLENE HATHAWAY, Instructor in English (1965)
B.A., Kalamazoo College; M.A., The University of Akron, 1965

ROBERT S. HATHAWAY, Instructor in the Community and Technical College and Director of the Computer Center (1963)
B.S.Ch.E., Northwestern University, 1934.

RICHARD H. HAUSE, Assistant Professor of Psychology (1967)
B.A., Kenyon College; M.S., Ph.D., University of Pittsburgh, 1964.

PAUL C. HAYES, Associate Professor of Education (1967)
B.S., Wilmington College; M.A., Miami University; Ph.D., University of Ottawa (Canada), 1940.

MRS. CAROL JEAN HEALS, Instructor in Home Economics (1968)
B.S., Framingham State College (Massachusetts), 1967; The Ohio State University.

GERALD S. HEALES, Associate Professor of Mechanical Engineering (1967)
B.S.M.E., M.S., Ph.D., Virginia Polytechnic Institute, 1966.
JOHN G. HEDRICK, Associate Director of the Institute for Civic Education and Assistant Dean of the Evening College (July 1967)
B.S.Ed., Kent State University; M.A., University of Notre Dame, 1958.

MRS. JACQUELINE HEGBAR, Lecturer in Classics (1967)

WALTER H. HEINTZ, Associate Professor of Physics (1967)
B.S., University of Massachusetts; M.S., Ph.D., The Ohio State University, 1962.

WILLIAM S. HENDON, Associate Professor of Urban Studies, Associate Professor of Economics and Associate Director of the Center for Urban Studies (1968)

RICHARD HENRY, Assistant Professor in the Community and Technical College (1961)
B.M.E., The Ohio State University; M.S.E., The University of Akron, 1965.

THOMAS P. HERBERT, Instructor in the Community and Technical College (1968)
B.S.E.E., University of Dayton, 1960; Pennsylvania State University.

JAY R. HERSHHEY, Adviser of Men (1967)

NICHOLAS C. HILYARD, Assistant Professor of Physics, Assistant Professor of Polymer Science and Research Associate in the Institute of Polymer Science (1966)
B.S., Ph.D., Southampton University (England), 1963.

ELIZABETH J. HITTLE, Professor of Speech and Director of the Speech and Hearing Clinic (1950)
B.S.Ed., The University of Akron; M.A., Kent State University; Ed.D., Western Reserve University, 1963.

KENNETH C. HOLT, Associate Professor of Education and Coordinator of Educational Research and Services (1962)
B.S., State University of New York, College of Education (Buffalo); M.S., Ph.D., University of Wisconsin, 1960.

WILLIAM W. HOKMAN, Assistant Professor of Mathematics (1967)
B.S.Ed., M.A., M.S., West Virginia University.

R. BRUCE HOLM, Instructor in English (1967)
B.A., University of Rochester; M.A., University of Michigan, 1963.

THOMAS J. HOLTON, Professor of Law (July 1967)

DONALD L. HOLUB, Scientific Computing Specialist (January 1968)
B.S.Ch.E., Iowa State University, 1963.

KATHRYN HORN, Assistant Professor of Nursing (February 1967)
B.S.N.E., Saint Louis University; M.S.Ed., The University of Akron, 1963, R.N.

EUGENE M. HOUD, Lecturer in Philosophy (1968)

IRENE HORNING, Assistant Professor of Biology (1946)
B.S.N., Western Reserve University, 1934, R.N.

MRS. REINE HOREWITZ, Instructor in Modern Languages (1968)

MARTHA HOVSEFELT, Instructor in English (1961)

RICHARD B. HOUSKIN, Assistant Professor in the Community and Technical College (1967)
B.A., Hiram College; M.E., Kent State University, 1955.

MRS. JANICE MEIKLE Houser, Instructor in Modern Languages (1955)
B.A., Butler University; M.A., Indiana University, 1964.

JOHN J. Houser, Assistant Professor of Chemistry (1965)
B.S., Villanova University; Ph.D., Pennsylvania State University, 1964.

LOWELL HOYT, Assistant Professor in the Community and Technical College (1967)
B.A., Bryan College; B.D., Th.M., Grace Theological Seminary; M.S., University of South Carolina, 1964.

DOROTHY R. HUFFLER, Assistant Professor of Nursing (1968)
B.S.N., Saint Louis University; M.S., University of Colorado, 1964, R.N.
JOHN HULL, Assistant Professor of English (1948) (1954)
B.A., The University of Akron; M.A., Western Reserve University, 1953.

MRS. JULIA HULL, Assistant Professor of English (1948)
B.A., The University of Akron; M.A., Western Reserve University, 1950.

ROBERT C. HUNTER, Assistant Professor of Law (1969)

PAUL O. HESS, Professor of Electrical Engineering (January 1941)
B.S.Ed., B.S.E., M.S.E.; D.Sc., University of Michigan, 1935; P.E., Ohio.

FARLEY K. HUTCHINS, Professor of Music (1957)
M.B., Lawrence Conservatory of Music; S.M.M., S.M.D., School of Sacred Music, Union Theological Seminary, 1951.

JAMES E. INMAN, Instructor in the Community and Technical College (1968)

MRS. SYD S. INMAN, Instructor in Modern Languages (1968)

RICHARD JACKOBOSCE, Assistant Professor of Music (July 1967)

DALE L. JACKSON, Associate Professor of Biology (1961)
B.S., Ph.D., University of Durham (England), 1959.

JIM L. JACKSON, Instructor in Geology (1967)
B.S., Kent State University; M.S., Western Reserve University, 1964.

SHANNON KATHLEEN JACOBS, Advi ser of Women (August 1968)
B.A., University of California (Santa Barbara); M.S., Indiana University, 1968.

DONALD M. JENKINS, Assistant Professor of Business Law (1965)

MRS. JANICE JENSEN, Instructor in the Community and Technical College (1966)
B.A., College of Wooster; M.A., Kent State University, 1966.

ALFRED H. JOHNSON, Associate Professor of Education (1956)
B.S., College of Wooster; M.S., Ph.D., University of Wisconsin, 1956.

DUDLEY C. JOHNSON, Jr., Director of Counseling and Advising (July 1961)
B.S., University of Vermont; M.S.Ed., University of Southern California, 1961.

MRS. GERTRUDE JOHNSON, Assistant Professor of Law and Law Librarian (1964)
B.A., J.D., Case-Western Reserve University; M.L.S., Kent State University, 1965.

MARY JEAN JOHNSTON, Assistant Professor in the Community and Technical College (1965)

DAVID L. JONES, Associate Professor of English (February 1981)
B.A., M.A., Ph.D., Harvard University, 1958.

BURL K. KAGEFF, Assistant Professor of Music (1962)

MORRIS KALMEN, Adjunct Professor of Speech (1968)
B.S., The University of Akron; M.D., The Ohio State University, 1931.

SEBASTIAN KANAKKANATT, Information Specialist in Center for Information Systems (1965)
B.S., Madras University (India); M.S., The University of Akron, 1968.

PEGGY KAUFFMAN, Instructor in Modern Languages (1987)

KAREN L. KAUFMAN, Adviser of Women (1988)

JAMES M. KEENE, Adviser of Men (July 1987)

DON A. KEEFER, Dean of Buchtel College of Liberal Arts and Professor of English (1931)
B.A., M.A., The University of Akron; Ph.D., Western Reserve University, 1947.

ORVILLE R. KEEFER, Jr., Associate Professor of Accounting (1966)
B.A., M.B.A., The Ohio State University; Ph.D., University of Illinois, 1964.

ROGER F. KELLER, Jr., Professor of Biology and Chairman of the Division of Natural Sciences (1954)
B.S., University of New Hampshire; Ph.D., Michigan State University, 1953.

FRANK V. KELLEY, Counselor, Testing and Counseling Bureau (July 1968)
B.S., Malone College; M.S., The University of Akron, 1968.
MRS. JOAN KELLOGG, Associate Information Specialist in Center for Information Systems (June 1967)
B.A., Western Reserve University, 1944.

HERBERT S. KENNEDY, Assistant Professor in the Community and Technical College (1965)
B.S.A.E., University of Washington; Diploma in Aeronautics, College of Aeronautics (United Kingdom); M.S., U.S. Naval Postgraduate School; Pennsylvania State University.

SALLY KENNEDY, Assistant Professor of English (1966)
B.A., Columbia College; M.A., Ph.D., University of Tennessee, 1968.

HERBERT S. KENNEDY, Assistant Professor in the Community and Technical College (1966)
B.S.A.E., University of Washington; Diploma in Aeronautics, College of Aeronautics (United Kingdom); M.S., U.S. Naval Postgraduate School; Pennsylvania State University.

SALLY KENNEDY, Assistant Professor of English (1966)
B.A., Columbia College; M.A., Ph.D., University of Tennessee, 1968.

MRS. LILLIAN KING, Assistant Professor in the Community and Technical College (1966)
B.S., The University of Akron; M.S., Kent State University, 1965.

MICHAEL KLEIN, Computer Scientist in the Computer Center (1964)

ROBERTS KLINE, Assistant Professor in the Community and Technical College (1967)
B.S., Indiana State College; M.Ed., Indiana University of Pennsylvania, 1967; University of Pittsburgh.

KENNETH KLOUDA, Computer Systems Senior Associate (January 1967)
B.S., Kent State University, 1964.

GEORGE W. KNEPPER, Professor of History (August 1954)
B.A., The University of Akron; M.A., Ph.D., University of Michigan, 1954.

NANCY A. KNIGHT, Instructor in Bibliography and Fine Arts Subject Librarian (1967)
B.A., University of Idaho; M.S.I.S., Louisiana State University, 1960.

WILLIAM G. KOFRON, Assistant Professor of Chemistry (1963)
B.S., Notre Dame University; Ph.D., University of Rochester, 1961.

PANOS KOLONOPoulos, Assistant Professor in the Community and Technical College and Director of the Center for Information Systems (1965)
B.S., University of Thessaloniki (Greece); M.S., University of Dayton, 1964.

ALBERT KORSOK, Associate Professor of Geography (1968)
B.S., Western Reserve University; M.A., Northwestern University; Ph.D., University of Illinois, 1960.

ROBERT KOVACH, Professor of Law (1963)
B.B.A., J.D., Case-Western Reserve University; L.L.M., New York University, 1957.

KEVIN SCOTT KREJC, Instructor in Literature (1966)
B.A., Ohio Wesleyan; M.F.A., The Ohio State University, 1968.

ALAN F. KRESIS, Associate Professor of Chemistry (1966)
B.A., Columbia College; M.A., Columbia University; M.S.Ch., Ph.D., University of Michigan, 1958.

DORUS KRUSE, Systems Associate in Computer Center (August 1966)
B.S., Valparaiso University; M.B.A., The Ohio State University, 1964.

WILLIAM F. KUEHL, Professor of History (1964)
B.A., Rollins College; M.A., Ph.D., Northwestern University, 1954.

ERNEST A. KUEKIS, Assistant Professor of Mathematics (1965)

MILTON L. KURT, Associate Professor of Electrical Engineering (June 1954)
B.S.E.E., M.S., University of Illinois, 1952; F.E., Illinois, Ohio.

HENRY A. KUSKA, Assistant Professor of Chemistry (1965)
B.A., Cornell College (Iowa); Ph.D., Michigan State University, 1965.

ROGER A. KVAM, Assistant Professor of Political Science (1964)
B.A., Wheaton College; B.D., Princeton Theological Seminary; M.A., Harvard University, 1964

JOHN A. LADOSKI, Instructor in Physical Education (July, 1966)
B.S.Ed., The University of Akron, 1968.

WILLIAM LAMONT, Adviser of Men (August 1968)
B.S., M.Ed., Kent State University, 1968.

DENO L. LANARI, Senior Accountant (November 1966)
B.B.A., Kent State University, 1957.

SUSANNAH LANE, Instructor in Speech (1967)
B.F.A., Ohio Wesleyan University; M.F.A., Ohio University, 1957.
GORDON LARSON, Associate Professor of Physical Education and Assistant Director of Athletics (February 1961)
B.S.Ed., M.E., Kent State University, 1954.
RALPH LARSON, Assistant Director of Purchasing (July 1960)
B.S.Ed., M.Ed., Kent State University, 1953.
ROBERT W. LARSON, Director of Student Financial Aids (August 1958)
DOROTHY LAUBACHER, Associate Professor of Home Economics (1950)
B.S., M.A., The Ohio State University, 1941.
RALPH LARSON, Assistant Director of Purchasing (July 1960)
B.S.Ed., M.Ed., Kent State University, 1953.
ROBERT W. LARSON, Director of Student Financial Aids (August 1958)
DOROTHY LAUBACHER, Associate Professor of Home Economics (1950)
B.S., M.A., The Ohio State University, 1941.
RALPH LARSON, Assistant Director of Purchasing (July 1960)
B.S.Ed., M.Ed., Kent State University, 1953.
ROBERT W. LARSON, Director of Student Financial Aids (August 1958)
DOROTHY LAUBACHER, Associate Professor of Home Economics (1950)
B.S., M.A., The Ohio State University, 1941.
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
WALTER D. LEHRMAN, Instructor in English (1956)
CHARLES JOHN MACCHOK, Instructor in Physical Education (1968)
B.S., University of Cincinnati; M.A., The University of Akron, 1968.

LAZARUS W. MACIOR, Associate Professor of Biology (1967)
B.A., M.A., Columbia University; Ph.D., University of Wisconsin, 1959.

THEODORE MACKIWI, Associate Professor of Modern Languages (1962)
Ph.D., University of Frankfurt (Germany), 1951; Yale University.

MRS. JUDITH HELLEN MAFFETT, Instructor in Physical Education (1968)
B.S., M.Ed., Kent State University, 1962.

LAZARUS W. MACIOR, Associate Professor of Biology (1967)
B.A., M.A., Columbia University; Ph.D., University of Wisconsin, 1959.

THEODORE MARRA, Lecturer in Mathematics (1969)

RICHARD C. MARSHALL, Assistant Professor of Law (1959)

ROBERT C. MARTIN, Supervisor of Instructional Television (1967)
Temple University.

JEAN ELLIOTT MATTHEWS, Editor in the University News Service (January 1969)
B.A., Miami University (Ohio), 1968.

WILLIAM MAVRIDES, Assistant Professor of Education and Director of Instructional Media (July 1960)

MRS. ALICE MAYOR, Instructor in Chemistry (1967)
B.S., Eastern Michigan University; M.S., Purdue University, 1947.

KATHLEEN McCONKEY, Artist, Publications (November 1966)

GERALD S. McFADDEN, Director of Staff Personnel (August 1968)
B.S., M.Ed., Kent State University, 1959.

WILLIAM McGUCKEN, Assistant Professor of History (1968)
B.S., M.A., Queens University (Canada); Ph.D., The University of Pennsylvania, 1968.

DONALD McINTYRE, Professor of Chemistry, Professor of Polymer Science and Research Associate in the Institute of Polymer Science (1966)
B.A., Lafayette College; Ph.D., Cornell University, 1954.

JAMES McLAIN, Assistant Professor of Economics (1946)
B.A., The University of Akron; M.A., Western Reserve University; Ph.D., Ohio State University, 1959.

ROBERT C. McNEIL, Assistant Professor of Classics (1963)

MARION W. McPHERSON, Lecturer in Psychology and Associate Director of the Archives of History of American Psychology (1967)
B.A., M.A., University of Maine; Ph.D., Indiana University, 1949.

CLAUE Y. MEADE, Professor of Modern Languages (1964)
B.A., M.A., University of Minnesota; Ph.D., University of California, 1957.

LAVERNE J. MECONI, Assistant Professor of Education (1967)
B.S., West Chester State College (Pennsylvania); M.A., University of Pennsylvania; Ph.D., The Ohio State University, 1966.

EBERHARD A. MEINECKE, Associate Professor of Mechanical Engineering, Associate Professor of Polymer Science and Research Associate in the Institute of Polymer Science (October 1963)
D.Eng., Braunschweig Institute of Technology (Germany), 1960.
JOHN A. MENDIOLA, Assistant Professor of Speech (1968)
B.A., Hiram College; M.A., The Ohio State University, 1955.

J. F. MERCER, Assistant Professor in the Community and Technical College (1965)
B.A., Ohio University; M.A., Western Reserve University, 1959.

ROBERT MERRIX, Assistant Professor of English (1966)
B.A., M.A., Butler University; Ph.D., University of Cincinnati, 1966.

MRS. RUTH MESSINGER, Lecturer in English (1968)
B.A., Wellesley College; M.A., Western Reserve University, 1948.

DONALD J. METZGER, Assistant Professor of Sociology (1968)
B.A., Youngstown University, 1962.

SYLVIA V. MEYERS, Instructor in the Community and Technical College (1966)
B.S., St. Louis University; M.A., John Carroll University, 1965; R.N.

JOHN E. MILKEREIT, Director, University News Service (January 1965)
B.S., Purdue University, 1960.

STEPHEN DEAN MILLER, Adviser of Men (August 1966)
B.S., University of Maine; M.A., Syracuse University, 1965.

ALOYSIUS E. MISKO, Professor of Secretarial Science (1962)
B.S., Central Michigan University; M.S., Ed.D., University of Michigan, 1962.

HAROLD MOLNEU, Assistant Professor of Political Science (1967)
B.A., Berea College; M.A., Ohio University; Ph.D., The American University, 1967.

JOHN B. MONSON, Instructor in the Community and Technical College (1966)
B.A., College of Wooster; M.A., Rutgers University, 1963.

MARVIN M. MOORE, Associate Professor of Law (July 1960)

MAURICE MORTON, Professor of Polymer Chemistry and Director of the Institute of Polymer Science (October 1948)
B.S., Ph.D., McGill University (Canada), 1945.

RICHARD MUSTARDI, Assistant Professor of Biology (1967)
B.S.Ed., M.Ed., Kent State University; Ph.D., The Ohio State University, 1968.

JUDITH MOWERY, Instructor in Bibliography and Humanities Subject Librarian (May 1967)
B.A., Ohio University; M.S.L.S., Western Reserve University, 1965.

JOHN MULHAUSER, Instructor in Geography (1966)

FRED L. MULLEN, Instructor in the Community and Technical College (1967)
B.S.E.E., Case Institute of Technology; M.S.E., The University of Akron, 1966.

RICHARD J. MURPHY, Research Chemist (1966)
Associateship, National College of Rubber Technology (London), 1966.

JEROME MUSIKAT, Assistant Professor of History (1962)

CHARLES MUSSER, Assistant Professor of Psychology (1968)

MRS. LOIS MYERS, Assistant Professor of Bibliography and Humanities Librarian (1946)
B.A., Wittenberg University; B.S.L.S., Carnegie Institute of Technology, 1939.

ROBERT H. MYERS, Assistant Professor of Education (1966)

ESTELLE B. NAES, Dean of the College of Nursing and Professor of Nursing (June 1966)
B.S.N., M.S.N.E., Ph.D., Saint Louis University, 1962; R.N.

ADNAN NAYJAN, Assistant Professor of Management (January 1969)
B.A., University of Syria; M.B.A., Ph.D., The Ohio State University, 1966.

THOMAS NASH, Assistant Professor of Geography (1967)

HENRY NETTLING, Assistant Controller (February 1964)

SAMUEL C. NEWMAN, Professor of Sociology (1951)
B.A., University of Pittsburgh; M.A., Oberlin College; Ph.D., Ohio State University, 1939.

† Leave of absence, 1968-69.
ALLEN G. NOBLE, Professor of Geography (1964)
B.A., Syracuse University; M.A., University of Maryland; Ph.D., University of Illinois, 1957.

MRS. GAY L. NOKES, Instructor in Physical Education (1958) (1967)
B.S., Michigan State University; M.A., Kent State University, 1964.

RICHARD F. NOKES, Assistant Professor of Biology (January 1962)
B.S., D.V.M., Michigan State University, 1935.

WALLACE NOLIN, Assistant Professor of Music (1969)
B.S., Muskingum College; M.M.Ed., Kent State University, 1957; The Ohio State University.

GUILLEROM NORMAND, Instructor in Modern Languages (1968)
B.A., Southern University; M.A., University of Kentucky, 1967.

DOLORE M. NUSS, Associate Professor of Biology (1967)

OLIVER OCASEK, Associate Professor of Education (January 1961)
B.S.Ed., M.A., Kent State University, 1950.

MICHAEL T. ORAVECZ, Lecturer in the Community and Technical College (1968)

SARAH ORLOFF, Associate Professor of Education (1963)
B.A., M.A.Ed., The University of Akron; Ph.D., Western Reserve University, 1963.

R. THOMAS OST, Assistant Registrar (June 1967)

JOHN W. OWEN, Associate Director of Admissions (June 1965)

LORRAINE V. PAINTER, Advisor of Women (July 1967)
B.M.E., Denison University; M.S.Ed., Indiana University, 1967.

MRS. PHYLLIS PAUL, Counselor in Testing and Counseling Bureau (July 1955)
B.A., The University of Akron; M.A., Western Reserve University, 1937.

MRS. D’ORSAY PEARSON, Instructor in English (1966)

W. M. PETTY, Dean of the Community and Technical College and Professor of Mechanical Engineering (1946)
B.S.M.E., University of Missouri; M.S.M.E., Case Institute of Technology, 1951; P.E., Ohio.

MRS. ISOBEL L. PFEIFFER, Assistant Professor of Education (1966)
B.A., Manchester College (Indiana); M.S., Indiana University; Ph.D., Kent State University, 1966.

JOHN S. PHILLIPSON, Associate Professor of English (1961)
B.A., University of Rochester; M.A., Ph.D., University of Wisconsin, 1952.

FRANK T. PHIPPS, Professor of English (1953)
B.A., M.A., Miami University; Ph.D., Ohio State University, 1953.

MRS. IRJA PIRMA, Assistant Professor of Polymer Science and Research Associate in the Institute of Polymer Science (1963)
Diploma in Chemistry, Technische Hochschule of Darmstadt (Germany); M.S., Ph.D., The University of Akron, 1960.

HARRY T. PENNICK, Associate Professor of Physics (1964)
B.A., Southwestern College (Kansas); Ph.D., University of Buffalo, 1955.

JOHN PIZOR, Assistant Professor in the Community and Technical College (1966)
B.S., Grove City College; M.Ed., University of Pittsburgh, 1946.

R. R. PLESSIN, Adjunct Professor of Anatomy in the Department of Biology (1967)
The University of Akron, 1930; M.A., The Ohio State University, 1939; M.D., The Ohio State University, 1934; University of Pennsylvania, 1946 (Chief of Surgery, Children’s Hospital of Akron).

ARTHUR R. POLLOCK, Jr., Instructor in the Community and Technical College (1967)
B.S.Ed., Indiana University of Pennsylvania, 1962; Western Reserve University.

JOHN A. POPPLESTONE, Professor of Psychology and Director of the Archives of the History of American Psychology and Chairman of the Division of Social Sciences (1961)
B.A., University of Michigan; M.A., Wayne State University; Ph.D., Washington University, 1958.
CHARLES F. POSTON, Professor of Finance and Director of Institutional Research (1959)
B.A., Eastern Illinois State College; M.A., University of Illinois; Ph.D., University of North Carolina, 1959.

EPHRAIM POURNARAKIS, Assistant Professor of Economics (1967)
B.A., Athens Graduate School of Economics and Business Science (Greece); M.A., Ph.D., The University of Kansas, 1967.

GRACE L. POWELL, Assistant Professor of Geography (1968)
B.A., M.S., University of Alberta (Canada); Ph.D., Pennsylvania State University, 1968.

KENNETH FRAMUK, Lecturer in English (1967)

RICHARD N. PRATTE, Associate Professor of Education (1967)

MRS. MINNIE PRITCHARD, Lecturer in the Community and Technical College (1967)

GEORGE E. PROUGH, Instructor in Marketing (1968)

LOUIS D. RODABAGH, Associate Professor of Mathematics (1964)
B.A., Miami University; M.A., Ph.D., The Ohio State University, 1938.

Mrs. Linda C. Rodda, Lecturer in the Community and Technical College (1967)  

Louis E. Roemer, Assistant Professor of Electrical Engineering (1968)  
B.S., M.S.E.E., Ph.D., University of Delaware, 1987.

Cecil A. Rogers, University Auditor (1932)  

William A. Rogers, Associate Professor of Education, and Dean of Summer Sessions and Off-Campus Academic Programs (1957)  

Mrs. Margaret F. Rogler, Assistant Professor of Marketing (1948)  
B.S., University of Nebraska; M.S., University of Denver, 1944.

Henry Rosenquist, Assistant Professor of Psychology (1965)  
B.S., M.A., Columbia University; Ph.D., Tulane University, 1964.

Louis Ross, Associate Professor of Mathematics (February 1946)  
B.S., B.A., M.A.Ed., The University of Akron; Ph.D., Western Reserve University, 1955.

Mrs. Margaret F. Rogler, Assistant Professor of Marketing (1948)  
B.S., University of Nebraska; M.S., University of Denver, 1944.

William Root, Assistant Professor of Civil Engineering (1967)  
B.A., San Francisco State College; M.A., Ph.D., Stanford University, 1967.

Max M. Rule, Assistant Professor in the Community and Technical College (1965)  

Mrs. Elizabeth Runyan, Instructor in English (1967)  
B.A., University of Chicago; M.A., Kent State University, 1966.

Denny D. Rotramel, Assistant Professor of Accounting (1968)  

Mario E. Ruiz, Assistant Professor of Modern Languages (1967)  
B.A., San Francisco State College; M.A., Ph.D., Stanford University, 1967.

Max M. Rule, Assistant Professor in the Community and Technical College (1965)  

Mrs. Margaret F. Rogler, Assistant Professor of Marketing (1948)  
B.S., University of Nebraska; M.S., University of Denver, 1944.

Louis Ross, Associate Professor of Mathematics (February 1946)  
B.S., B.A., M.A.Ed., The University of Akron; Ph.D., Western Reserve University, 1955.

Mrs. Nancy Hunter Rossi, Instructor in Home Economics (1968)  
B.S., M.S., University of Tennessee, 1965.

Denny D. Rotramel, Assistant Professor of Accounting (1968)  

Mario E. Ruiz, Assistant Professor of Modern Languages (1967)  
B.A., San Francisco State College; M.A., Ph.D., Stanford University, 1967.

Max M. Rule, Assistant Professor in the Community and Technical College (1965)  

Mrs. Elizabeth Runyan, Instructor in English (1967)  
B.A., University of Chicago; M.A., Kent State University, 1966.

HeLEN Ryan, Instructor in Modern Languages (1968)  
B.A., Ohio Wesleyan University; M.A., Middlebury College, 1967.

Michael J. Rzas, Dean of the College of Engineering and Professor of Chemical Engineering (February 1964)  
B.E., Yale University; M.S., Ph.D., University of Michigan, 1947.

Donald E. Sabatino, Assistant Director of Student Center and Director of Student Activities (1963)  

Charles T. Salem, Director of Admissions (1965)  

Stanley A. Samad, Dean of the College of Law and Professor of Law (1959)  
B.A., J.D., University of Cincinnati; L.L.M., Case-Western Reserve University, 1959;  

Ray H. Sandefur, Dean of the College of Fine and Applied Arts and Professor of Speech (1950)  
B.A., B.S.Ed., Emporia State Teachers College; M.A., University of Colorado; Ph.D., State  
University of Iowa, 1950.

Joseph Oliver Sansbury, Assistant Director of Admissions (August 1968)  
B.S., Central State University; M.Ed., University of Toledo, 1968.

Everett Santee, Scientific Instruments Technician (1966)  
B.S., West Virginia State College, 1962.

Simsek Sarieh, Assistant Professor of Civil Engineering (1967)  
B.S., Robert College (Istanbul, Turkey); M.S., Ph.D., West Virginia, 1966.

Robert S. Sartoris, Director of University Publications (July 1963)  
B.S., Purdue University, 1951.

Subhash Saxena, Associate Professor of Mathematics (1968)  
B.A., M.A.M., Ph.D., University of Delhi (India), 1958.

Blin B. Scatterday, Associate Professor in the Community and Technical College (1964)  

Robert J. Schmeidler, Instructor in Psychology (January 1968)  
B.A., Yale University, 1961; Columbia University.

Robert G. Schmidt, Associate Professor of Sociology (1967)  
RONALD E. SCHNEIDER, Associate Professor of Physics (1962)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.

H. PAUL SCHRAKE, Jr., Assistant Professor of Bibliography and University Librarian (January 1965)
B.S., Ohio University; M.S., University of Illinois, 1963.

C. DONALD SCHUMACHER, Counselor, Testing and Counseling Bureau (July 1967)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.

H. PAUL SCHRAKE, Jr., Assistant Professor of Bibliography and University Librarian (January 1965)
B.S., Ohio University; M.S., University of Illinois, 1963.

C. DONALD SCHUMACHER, Counselor, Testing and Counseling Bureau (July 1967)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.

H. PAUL SCHRAKE, Jr., Assistant Professor of Bibliography and University Librarian (January 1965)
B.S., Ohio University; M.S., University of Illinois, 1963.

C. DONALD SCHUMACHER, Counselor, Testing and Counseling Bureau (July 1967)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.

H. PAUL SCHRAKE, Jr., Assistant Professor of Bibliography and University Librarian (January 1965)
B.S., Ohio University; M.S., University of Illinois, 1963.

C. DONALD SCHUMACHER, Counselor, Testing and Counseling Bureau (July 1967)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.

H. PAUL SCHRAKE, Jr., Assistant Professor of Bibliography and University Librarian (January 1965)
B.S., Ohio University; M.S., University of Illinois, 1963.

C. DONALD SCHUMACHER, Counselor, Testing and Counseling Bureau (July 1967)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.

H. PAUL SCHRAKE, Jr., Assistant Professor of Bibliography and University Librarian (January 1965)
B.S., Ohio University; M.S., University of Illinois, 1963.

C. DONALD SCHUMACHER, Counselor, Testing and Counseling Bureau (July 1967)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.

H. PAUL SCHRAKE, Jr., Assistant Professor of Bibliography and University Librarian (January 1965)
B.S., Ohio University; M.S., University of Illinois, 1963.

C. DONALD SCHUMACHER, Counselor, Testing and Counseling Bureau (July 1967)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.

H. PAUL SCHRAKE, Jr., Assistant Professor of Bibliography and University Librarian (January 1965)
B.S., Ohio University; M.S., University of Illinois, 1963.

C. DONALD SCHUMACHER, Counselor, Testing and Counseling Bureau (July 1967)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.

H. PAUL SCHRAKE, Jr., Assistant Professor of Bibliography and University Librarian (January 1965)
B.S., Ohio University; M.S., University of Illinois, 1963.

C. DONALD SCHUMACHER, Counselor, Testing and Counseling Bureau (July 1967)
B.S., The University of Akron; M.S., John Carroll University, 1958; Ph.D., Case Institute of Technology, 1964.
JOSEPH I. SMITH, Assistant Director for Operations of the Center for Information Systems and Director of the Referral Service Network Office (May 1965)
B.S., Central State College, 1963.

RONALD G. E. SMITH, Assistant Professor of Finance (1968)

MRS. ELEONORE L. SNYDER, Instructor in Nursing (1968)
B.S.N., Western Reserve University, 1960; R.N.

WALTER SÖNENBURG, Jr., Lecturer in Speech (1968)

SAMUEL SPÄK, Assistant Professor of Music (1968)
Licentiate, King's College in Sussex (England); Fellowship, Trinity College in London.

FLORENCE SOUTTER, Instructor in the Community and Technical College (1968)

WALTER STEPHENS, Associate Professor of Chemistry, Associate Professor of Polymer Science and Manager of Applied Research in the Institute of Polymer Science (1950)
B.S., M.S., Ph.D., The University of Akron, 1960.

WALLACE STERN, Assistant Professor of Speech (1966)

R. EVELYN STEVENS, Assistant Professor of Political Science (1968)
B.A., M.A., Ph.D., University of California (Berkeley), 1963.

WILLIAM J. STEVENS, Associate Professor of English (1959)
B.A., M.A., Dalhousie University (Halifax, N.S.); Ph.D., Western Reserve University, 1959.

WILLIAM STONE, Instructor in English (1966)
B.A., Bethany College; M.A., University of Maryland, 1966.

WARREN F. STOUTMIRE, Associate Professor of Biology (1966)
B.S., Roanoke College; M.S., University of Oregon; Ph.D., Indiana University, 1954.

JAMES J. SWITZER, Adviser of Men (August 1968)

PHILIP SYVYESANT, Instructor in Modern Languages (1966)
B.A., Thiel College; M.A., Western Reserve University, 1964.

CARL L. SUTTER, Instructor in Management (1968)

MRS. MARY ELLEN SULLIVAN, Computer Specialist in the Computer Center (July 1967)

THOMAS SUMNER, Dean of the General College and Professor of Chemistry (1950)
B.S., Ph.D., Yale University, 1951.

LEONARD SWEET, Associate Professor of Mathematics (1959)
B.A.Ed., The University of Akron; M.Ed., Kent State University, 1954; Western Reserve University.

JAMES D. SWITZER, Instructor in the Community and Technical College (1965)
B.A., College of Wooster; M.A., Kent State University, 1965.

GEORGE L. SZÖKE, Associate Professor of Mathematics (1963)
B.S.M.E., Polytechnical University of Budapest; M.S.E., The University of Akron, 1963.

MRS. CATHERINE TALIAFERRO, Assistant Professor of English (October 1961)
B.A., The University of Akron; M.A., Radcliffe College, 1940.

FRANK J. TASCONE, Jr., Accountant (July 1966)

E. BARBARA TAUCCI, Associate Professor of Mathematics (1967)
B.A., The University of Akron; M.S., Iowa State University; Ph.D., Yale University, 1966.

HOWARD L. TAYLOR, Associate Professor of Business Administration (1963)
B.S., The University of Akron; M.S., Ph.D., Iowa State College, 1898.

MRS. PATRICIA TAYLOR, Instructor in Physical Education (1962)
RONALD TAYLOR, Assistant Professor of Art (1964)

JAMES W. TRENT, Assistant Professor of Geology (1965)
B.S., M.S., McMaster University; Ph.D., Rice University, 1966.

JOHN W. TELESKA, Research Associate in the Center for Urban Studies (1961) (1966)

STUART M. TERRILL, Assistant to the Director of Institutional Research (December 1957)

MRS. HELEN S. THACKABERRY, Assistant Professor of English (February 1940)

ROBERT E. THACKABERRY, Professor of English (1938)
B.A., M.A., Ph.D., State University of Iowa, 1937.

ERNST R. THACKERAY, Distinguished Professor of Physics (1949)
B.A., M.A., University of Saskatchewan (Canada); Ph.D., University of Wisconsin, 1948.

DOUGLAS DAVID TESKE, Director of Alumni Activities (January 1969)
B.S., Ashland College, 1960.

DAVID THEUSCH, Instructor in the Community and Technical College (1966)
B.S., Minot State College; M.S., University of North Dakota, 1966.

MRS. HELEN THORNBERG, Assistant Professor of Bibliography and Head of Library Acquisitions (1959)
B.A., College of William and Mary; M.S.L.S., Western Reserve University, 1959.

RUDOLPH J. TICHY, University Architect (May 1967)
B.S. in Architecture, Western Reserve University, 1943.

IRENE TILL, Associate Professor of Economics (1968)
B.A., Syracuse University; M.A., Radcliffe College; Ph.D., Columbia University, 1937.

DAVID H. TIMMERMAN, Assistant Professor of Civil Engineering (1962) (1967)

MRS. HELEN THOONAN, Assistant Professor of Bibliography and Head of Library Acquisitions (1959)
B.A., College of William and Mary; M.S.L.S., Western Reserve University, 1959.

WILEY TREVETT, Adjunct Professor of Anatomy (1967)
Chief of Surgery, Akron General Hospital.

MRS. AUDRA TENNEY TUCKER, Associate Professor of Secretarial Science (1929)

PAUL E. TWINING, Professor of Psychology (November 1941)
B.S., Ottawa University; M.A., University of Kansas; Ph.D., University of Chicago, 1938.

MICHAEL TYNER, Instructor in Art (1967)
B.S., University of Michigan; M.F.A., Cranbrook Academy of Art, 1966.

PAUL UHLINGER, Professor of Philosophy (1966)
B.A., Youngstown University; B.D., Oberlin College Ph.D., Boston University, 1953.

DONALD S. Varian, Associate Professor of Speech (1934)
B.A., M.A., University of Wisconsin, 1934.

MRS. KATHRYN VEGSO, Adviser of Women and Director of Women's Activities (February 1959)
B.S., University of Illinois; M.S.Ed., The University of Akron, 1963.

CHARLES VISGAK, Assistant Professor of Philosophy (1965)
B.A., The University of Western Ontario; M.A., University of Toronto; Ph.L., University of Ottawa, 1957.

EDWIN E. WAGNER, Professor of Psychology (1959)

MRS. JANET WAISBROT, Instructor in Modern Languages (1965)
B.A., Western Reserve University; M.A., Kent State University, 1966.

MILTON A. WALLACE, Instructor in Community and Technical College (1966)

JOAN E. WARNER, Assistant Professor of Secretarial Science (January 1964)
B.S., M.S.Ed., The University of Akron, 1966.
NORMAN F. WASHBURN, Professor of Sociology (1960)
B.A., University of Missouri; M.A., New School of Social Research; Ph.D., Washington University, 1953.

MRS. VIRGINIA J. WATKINS, Assistant Professor in the Community and Technical College (1967)

JOHN STEWART WATT, Associate Dean of the College of Education and Professor of Education (1956)

HENRY WATTS, Associate Professor of Sociology (1968)
B.A., M.A., University of Buffalo; Ph.D., Michigan State University, 1962.

MRS. VIRGINIA J. WATKINS, Assistant Professor in the Community and Technical College (1967)

WILLIAM V. WEBB, Instructor in the Community and Technical College (1968)
B.A., University of Notre Dame; M.S., John Carroll University, 1969.

WYATT M. WEBB, Assistant Professor of Education (1967)
B.S., The University of Akron; M.S.Ed., University of Cincinnati; Ph.D., The Ohio State University, 1967.

PAUL A. WEIDNER, Professor of Political Science (1960)
B.A., M.A., University of Cincinnati; Ph.D., University of Michigan, 1959.

WILLIAM V. WEBB, Instructor in the Community and Technical College (1968)
B.A., College of Wooster, 1965; The University of Akron.

PAUL A. WEIDNER, Professor of Political Science (1960)
B.A., M.A., University of Cincinnati; Ph.D., University of Michigan, 1959.

MRS. MARJORIE A. WHITE, Assistant Professor of Nursing (1967)
B.S.N.Ed., University of Minnesota; M.S.N.Ed., University of Rochester, 1960; R.N.

FRANCIS J. WERNER, Instructor in Psychology and Counselor in Testing and Counseling Bureau (August 1950)

ROBERT C. WEYRICK, Associate Professor in the Community and Technical College (1964)

JOHN WIAUND, Accountant (July 1967)

ROBERT J. WILLEY, Associate Professor of Law (1966)
B.A., LL.B., University of Nebraska; L.L.M., New York University, 1966.

MAURICE G. WILLIAMS, Associate Professor of Education (1966)
B.A., The University of Akron; M.E., Kent State University; Ed.D., Western Reserve University, 1962.

MAX S. WILLIS, JR., Associate Professor of Chemical Engineering (1968)
B.S., Pennsylvania State University; M.S., Ph.D., Iowa State University of Science and Technology, 1962.

CHARLES WILSON, III, Professor of Physics, Professor of Polymer Science and Research Associate in the Institute of Polymer Science (1965)
B.S.E., M.S., University of Michigan; Ph.D., Washington University, 1952.

MARY H. WILSON, Assistant Professor of Home Economics (April 1943)
B.S., Iowa State College, 1932.

PAUL WINGARD, Associate Dean of Buchtel College of Liberal Arts and Professor of Geology (February 1966)
B.A., M.S., Miami University; Ph.D., University of Illinois, 1960.

CHARLES L. WOOLERY, Professor of Electrical Engineering (1968)
B.S., M.S., Ph.D., The Ohio State University, 1965.
PAUL W. WOOD, Instructor in Modern Languages (1967)
W. RICHARD WRIGHT, Special Assistant for Development (June 1967)
EUGENE S. WSOCKI, Director of the Budget (June 1968)
   Northwestern University Evening School of Commerce.
ROBERT E. YEAKLEY, Adjunct Professor of Anatomy in the Department of Biology (1966)
   B.A., College of Wooster; M.D., Western Reserve University, 1945 (St. Thomas Hospital).
KAREN YINGER, Instructor in Sociology (1967)
ROBERT W. YOUNG, Instructor in Bibliography and Head of Science Technology Library (June 1967)
GARY YUKL, Assistant Professor of Psychology (1968)
   B.A., M.A., Occidental College; Ph.D., University of California (Berkeley), 1967.
HANS ZBINDEN, Instructor in Modern Languages (1965)
ANNE ZSILLI, Instructor in Modern Languages (1968)
   B.A., The University of Akron; M.S., Middlebury College, 1968.
Part-Time Faculty*
(Credit Courses)

Louis W. Abes, Lecturer in Associate Programs

Stanley W. Akers, Lecturer in Education

Mrs. Snejana Apinara, Lecturer in General Studies

Donald Allcorn, Special Instructor in Tuba

John R. Anton, Lecturer in Geography
M.A., Ph.D., University of Vienna, 1949.

Mrs. Shirley T. Barton, Lecturer in the Community and Technical College
B.S., Bob Jones University; M.Ed., Kent State University, 1965.

Richard T. Becker, Lecturer in Data Processing
B.A., Miami University (Ohio), 1951.

Mrs. Patricia Bernofsky, Special Instructor in Music

Mrs. Carole Bhatnager, Lecturer in Speech

Mrs. Ralph Blackwood, Lecturer in the Community and Technical College
B.A., Berea College; M.A., Columbia University; Ph.D., University of Maryland, 1958.

Helen Blatner, Lecturer in Education

Barrie Boshart, Lecturer in Political Science
B.A., St. John's College; M.A., Kent State University, 1965.

Raymond Lee Borom, Lecturer in General Studies

Robert P. Bowers, Lecturer in the Community and Technical College

Merlin C. Bruner, Lecturer in Law
B.A., University of Wichita; J.D., The University of Akron, 1966.

Mrs. Linda Lou Butcher, Lecturer in the Community and Technical College

Lawrence S. Cantor, Lecturer in Marketing

Laurence D. Carlson, Lecturer in Marketing
B.S.B.A., Kent State University; M.B.A., The Ohio State University, 1967.

John D. Chapman, Lecturer in Finance
B.A., Yale University, 1947.

Neal J. Collins, Lecturer in General Studies

Nicolas Constantinidis, Special Instructor in Piano
B.M., Baldwin Wallace College; M.M., Cleveland Institute of Music; Diploma, Conservatory of Warsaw, Poland, 1955.

Jeannette R. Cooper, Lecturer in Chemistry
B.S., The University of Akron, 1942.

William E. Copeland, Lecturer in Accounting

James Coscarea, Lecturer in General Studies
B.A., Mount Union College; M.A., Ohio University, 1962.

Roger A. Crawford, Lecturer in Chemistry
B.S., University of Illinois; M.S., Ph.D., Oregon State University, 1959.

*On record February 1, 1969.
DANILE CROGHAN, Lecturer in Economics
B.A., Kent State University; M.A., The University of Akron, 1968.

JOHN CROWE, Special Instructor in Voice

JOHN A. DAILY, Lecturer in Management

FREDERICK DEZORT, Lecturer in Political Science

IRENE DRILON, Lecturer in Speech
The University of Akron.

GEORGE J. DORBYN, Lecturer in the Community and Technical College

RONALD C. DORBYN, Lecturer in General Studies

JAMES F. DOMBO, Lecturer in the Community and Technical College
B.S.Ed., M.E., Kent State University, 1955.

FLORENCE H. DOUGHERTY, Lecturer in Education

PAUL H. DUNHAM, Lecturer in Management
B.A., Western Reserve University; M.B.A., Kent State University, 1980.

MRS. JANE DUNLAP, Lecturer in the Community and Technical College
B.A., New York University, 1943.

HUGH DURKIN, Lecturer in Accounting

MRS. BARBARA KINGSBURY EATON, Lecturer in Education

JOSPEH M. EGER, Lecturer in Geology
B.S., University of Oklahoma; Ph.D., Texas A & M, 1959.

MRS. RALPH D. EIFERT, Lecturer in the Community and Technical College
B.S., The Ohio State University; J.D., The University of Akron, 1962.

W. DAVID ELLSWORTH, Lecturer in Journalism

ROBERT M. EWING, Lecturer in Education

DONALD D. EWING, Lecturer in the Community and Technical College

DOUGLAS L. EWING, Lecturer in Physics

MRS. ANITA EXLINE, Special Instructor in Flute
B.A., The University of Akron, 1942.

RAYMOND L. FALCONE, Lecturer in Speech

MRS. LEONA W. FARIS, Lecturer in Home Economics
B.S., The Ohio State University, 1940.

ARTHUR W. FIELDS, Lecturer in Marketing
B.S., M.B.A., Murray State University, 1968.

JUDITH A. FLASCO, Lecturer in General Studies

MRS. CAROL FLAUMENHAFT, Lecturer in History

FLORENCE FLATTEN, Lecturer in Speech
B.F.A., Ohio University; M.A., Western Reserve University, 1948.

J. WILLIAM FREEMAN, Lecturer in Law
B.S.M.E., J.D., Case-Western Reserve University, 1945.

ROBERT FRUTCHET, Special Instructor in the French Horn
B.S., M.S., Kent State University, 1962.

DAVID GELLATLY, Lecturer in General Studies

DORIS H. GERBY, Lecturer in the Community and Technical College
PAUL A. CILMORE, Lecturer in Mathematics
B.S., Loyola University (Baltimore); M.A., The University of Akron, 1965.

MRS. GERALDINE L. GLAZIER, Lecturer in the Community and Technical College

SAMUEL GOLDMAN, Lecturer in Law
B.A., Miami University; LL.B., Harvard University, 1948.

KATHRYN GREEN, Lecturer in Home Economics
B.S., Kent State University, 1968.

NEIL E. GREENE, Lecturer in Accounting
B.A., Western Reserve University; LL.B., The University of Akron, 1964.

MRS. CECILIA GRoss, Lecturer in General Studies

ROBERT L. GUILLAN, Lecturer in Art

EDWARD J. HACKIM, Lecturer in Management

MRS. ELSIE S. HAMPTON, Lecturer in the Community and Technical College
B.S., M.A., University of Minnesota, 1942.

MRS. S. BONNIE HANKAMMER, Lecturer in Speech
B.S., M.A., Kent State University, 1954.

PAUL EDWARD HARBOK, Lecturer in Technical Drawing
B.S.Ed., Kent State University, 1951.

CHARLES C. HAROUS, Jr., Lecturer in Associate Programs

WILLIAM M. HARVEY, Lecturer in the Community and Technical College
B.S.C.E., M.S.C.E., Purdue University, 1964.

RUTH M. HAUDE, Lecturer in Psychology
B.S., Indiana State Teachers' College (Pa.); M.A.,

R. BARDEWELL HEAVENS, Lecturer in Marketing
B.A., Bowdoin College; M.B.A., Babson Institute, 1959.

WILLIAM HEBERT, Special Instructor in Flute
Juilliard School of Music, 1947.

MRS. ACNES M. HELMS, Lecturer in General Studies
B.S.Ed., The University of Akron, 1953.

CARL HELWIG, Lecturer in the Community and Technical College

FRED HEYBURN, Special Instructor in Oboe

MRS. KATHERINE K. HILTABIDLE, Lecturer in Biology
B.S., The Ohio State University, 1936.

MRS. BARBARA HINEY, Lecturer in General Studies

MRS. AUDREY B. HITT, Lecturer in the Community and Technical College
Kent State University.

HAROLD J. HOLSHUN, Lecturer in Law
B.A., J.D., The University of Michigan, 1942.

ELMORE J. HOUSTON, Lecturer in Speech
B.A., Purdue University, 1964.

MRS. ROSALIND IRISH, Lecturer in English
B.S., B.A., The University of Akron; M.A., Columbia University, 1924.

RALPH E. IGLA, Lecturer in Journalism
B.S., Butler University, 1947.

SHARON JACOBS, Lecturer in Modern Languages
B.A., University of California; M.S., Indiana University, 1968.

MRS. HELEN JACOBS, Lecturer in the Community and Technical College
B.S., Salem College; M.Ed., The University of Pittsburgh, 1959.

EDWARD J. JENKINS, Lecturer in the Community and Technical College
B.S., John Carroll University, 1961.
DONALD T. JELFO, Lecturer in History
B.A., University of Rochester; M.A., Case-Western Reserve, 1968.

JAMES KALAL, Special Instructor in Classical Guitar
The University of Akron.

WILLIAM KANNELL, Lecturer in Sociology

DOROTHY ELLEN KATZ, Lecturer in Education

MRS. MARY J. KAUFMAN, Lecturer in General Studies

ROBERT W. KOGER, Lecturer in General Studies

MILTON A. KRENCHEN, Lecturer in Education
B.S., M.S.Ed., The University of Akron, 1966.

MRS. BEATRICE LAATSCH, Lecturer in Associate Programs
B.S.Ed., The University of Akron, 1938.

JAMES LARIA, Lecturer in Physical Education

MRS. ELSA LEFAIVER, Lecturer in English

MRS. LOIS LICHTRY, Lecturer in Sociology

CLARENZ LIGHTFRITZ, Special Instructor in Piano
Bowling Green State University; private instruction with Ernest White and Miss Rena Wills.

BRUCE E. LIMBERG, Lecturer in Geology
B.S.E, Southern State College, 1968.

WALTER C. LIPPS, Lecturer in Physical Education
B.E., The University of Akron, 1928.

DAVID K. LONG, Lecturer in General Studies

WILLIAM LONG, Special Instructor in Percussion Instruments
B.M., Oberlin College, 1948.

RONALD W. LOTZ, Lecturer in Sociology

MRS. BARBARA MACGREGOR, Special Instructor in Piano
B.M., The University of Akron; M.M., Cleveland Institute of Music, 1967.

DIANE MANNING, Lecturer in General Studies

CATHERINE M. MANGOLD, Lecturer in Art

VINCENT MARCHIONNA, Lecturer in Chemistry

MRS. NANCY MARANO, Lecturer in Associate Programs

MRS. ALMA MAYSON, Lecturer in Education
B.A., St. Augustine's College; B.A., Western Reserve University, 1955.

SCOTT, MCDONALD, Lecturer in Psychology
B.A., Northeastern Oklahoma A and M; B.S., M.S., Oklahoma State University, 1954.

MRS. CLAIRE S. MERRUX, Lecturer in General Studies

PAUL L. MILLER, Lecturer in Marketing
B.S.M.E., Penn State; M.B.A., Kent State University, 1963.

MRS. HOPE MONTONI, Special Instructor in Voice
B.M., Hartford College of Music; M.M., Kent State University, 1969.

MARY MOSTENIC, Lecturer in General Studies

FREDERICK W. MOYER, Lecturer in Finance
B.S., M.A., Ph.D., Ohio State University, 1949.

CHARLES MOYER, Lecturer in General Studies
B.A., Ohio State University, 1965.
MRS. RUTH NURMI, Special Instructor in Harpsichord  
B.S., M.A., University of Minnesota, 1960.
Mrs. Catherine Oano, Lecturer in the Community and Technical College  
B.S., M.S., The University of Akron, 1956.
MRS. BETTY J. OBLISK, Lecturer in Associate Programs  
Vernon L. Odom, Lecturer in Sociology  
B.A., Morehouse College; M.S.W., Atlanta University, 1950.
Joseph E. Palmer, Lecturer in Accounting  
Mrs. Mary Paolucci, Lecturer in General Studies  
Robert Paolucci, Special Instructor in Brass Instruments  
Juilliard School of Music.
Charles D. Parker, Lecturer in Law  
B.A., Harvard University; J.D., The Ohio State University, 1956.
W. Styrer Parry, Lecturer in Education  
Mrs. Betty O. Peters, Lecturer in Education  
B.S.Ed., Kent State University; M.S.Ed., The University of Akron, 1967.
Mrs. Suzanne Pierce, Lecturer in General Studies  
B.S., Miami University, 1961.
Alfred Eugene Pocock, Lecturer in General Studies  
Errol S. Pringle, Lecturer in Accounting  
Madeline Pringle, Lecturer in Modern Languages  
Mrs. Minnie Pritchard, Lecturer in the Community and Technical College  
Mrs. Ruth Putman, Assistant Professor Emeritus of English  
B.A., Howard College; M.A., Western Reserve University, 1938.
Evan J. Reed, Lecturer in Law  
B.A., J.D., University of Michigan, 1933.
Nuff Rey, Special Instructor in Guitar  
Mrs. Nina Richards, Lecturer in Biology  
Mrs. Elizabeth Ricketts, Lecturer in Education  
David J. Robinson, Lecturer in Associate Programs  
B.S.E.E., The University of Akron; M.S.E., Case Institute of Technology, 1967.
Reba Robinson, Lecturer in Education  
B.S.Ed., Ashland College; M.A., The Ohio State University, 1949.
Robert B. Romweder, Lecturer in Law  
B.A., The University of Akron; J.D., University of Michigan, 1931.
Mrs. Helen E. Rosenberg, Lecturer in the Community and Technical College  
B.S., Muskingum, 1964.
Sam E. Salem, Lecturer in the Community and Technical College  
Joseph Schiavone, Special Instructor in Clarinet, Bassoon and Saxophone  
Mrs. Grace Reginald Scott, Special Instructor in Voice  
B.S. in Music, Eastman School of Music, University of Rochester, 1949.
Eugene Shareck, Special Instructor in Saxophone  
M.M.E., Baldwin Wallace College; M.M., University of Michigan, 1963.
Maurice Sharp, Special Instructor in Flute  
Curtis Institute of Music; Cleveland Symphony Orchestra.
W. Dennis Shaul, Lecturer in Law  
B.A., University of Notre Dame; B.A., M.A., Oxford University; LL.B., Harvard University 1966.
James C. Shew, Lecturer in the Community and Technical College  

Edward Shotts, Lecturer in Associate Programs

Robert E. Shuff, Lecturer in Law  
B.A., Heidelberg College; J.D., Case-Western Reserve University, 1943.

Robert Simmons, Lecturer in Accounting  
B.S.Ed., The University of Akron; M.S.Ed., Kent State University, 1953.

Russell S. Simakarian, Lecturer in Management  

Mrs. Karen Sinclair, Lecturer in History  

Mrs. Lula Henrietta Smith, Lecturer in General Studies  

Ronald G. Snider, Lecturer in English  

Betty Spencer, Lecturer in General Studies  

Mrs. Virginia R. Stevens, Lecturer in the Community and Technical College  

Mrs. Marilyn Stranahan, Lecturer in English  

Kathleen D. Swonguer, Lecturer in the Community and Technical College  
B.S., Kent State University, 1964.

Mrs. Bonnie Thomas-Moore, Lecturer in the Community and Technical College  
B.A., Kent State University, 1948.

Robert Thorburn, Lecturer in Sociology and Political Science  

Gerald Eugene Thorne, Lecturer in Associate Programs  
B.A., Barrington College, 1957.

John F. Townsend, Lecturer in Marketing  

Samuel H. Vashinder, Lecturer in General Studies  
B.S., M.A., Kent State University, 1966.

Raymond Vincent, Lecturer in General Studies  

Ralph Vitt, Special Instructor in Percussion Instruments  
B.S., M.S.Ed., The University of Akron, 1967.

Carl W. Voight, Lecturer in Management  
B.B.A., University of Toledo, 1932.

Mrs. Frank Wangler, Special Instructor in Harp  
B.M., Michigan State University, 1962.

Lowell A. Watkins, Lecturer in Associate Programs  
B.A.Ed., Illinois State University; M.B.A., University of California in Los Angeles.

Mrs. Charlene Weber, Lecturer in Education  
B.S., The University of Akron, 1953.

William M. Werner, Lecturer in the Community and Technical College  
B.S., J.D., The University of Akron, 1968.

Harold F. White, Lecturer in Law  
B.S., Ohio University; J.D., The University of Akron, 1952.

Mrs. Ilse H. White, Lecturer in Modern Languages  
Diploma in French, University of Berlin; B.E., The University of Akron, 1966.

Mrs. Dorla Whipple, Lecturer in Sociology  
B.A., Boston University; M.A., Kent State University, 1966.

Nellie Whittaker, Special Instructor in Piano  

Robert H. Wilcox, Lecturer in the Community and Technical College  
BERNARD S. WINICK, Lecturer in Finance  
B.S., The Ohio State University; LL.B., The University of Akron, 1964.  
MRS. MARY O. WINNER, Lecturer in the Community and Technical College  
B.S.S.S., The University of Akron; M.Ed., Ohio University, 1951.  
KENNETH C. WOODRING, Lecturer in the Community and Technical College  
JAMES C. WORTHAM, Lecturer in Mathematics  
B. DONALD YOUNG, Lecturer in General Studies  
B.S., M.S.Ed., The University of Akron, 1967.  
A. WILLIAM ZAVARELLO, Lecturer in Associate Programs  

Teaching Faculty by College and Department

General College

Head of Department: Associate Professor David C. Riede;  
Course Directors: Lester J. Bilsky, James F. Dunlap, Scott D. Hagen, Phyllis M. Hardenstein, Gerald H. Levin, John Lindquist, Andrew Maluke, Sarah Orinoff.

Community and Technical College

DIVISION OF ASSOCIATE STUDIES  
Chairman: Associate Professor Blin B. Scatterday;  
Assistant Professors: Charles V. Blair, Wm. S. Fleming, Richard Hoskin, Lowell Hoyt, Jack Mercer, Jane M. Steiner;  
Lecturers: Mrs. Jane Dunlap, Mrs. Judith Fiasco, Charles C. Hargis, Jr., Mrs. Audrey Hitt, Sam E. Salem.

DIVISION OF BUSINESS AND OFFICE TECHNOLOGY  
Chairman: Professor Aloysius Misko;  
Associate Professor: Mrs. Audra Tenney Tucker;  
Assistant Professors: Clare Bedillion, Robert E. Collins, Donald M. Davis, David T. Dokn, Mary Jean Johnston, Mrs. Lillian King, Robert S. Kline, John C. Pizor, Max M. Rule, Joan Warner, Mrs. Virginia J. Watkins;  

DIVISION OF ENGINEERING AND SCIENCE TECHNOLOGY  
Chairman: Associate Professor Michael Bezbatchenko;  
Associate Professors: Nathan Cardarelli, Robert C. Weyrick;  
Assistant Professors: Ronnie C. Adams, Marko Brdar, Milan Dubravec, Harold L. Edwards, William M. Glazier, Carl Helwig, Richard L. Henry, Herbert Kennedy, Panos Kokoropoulos;  
Instructors: Thomas Herbert, Fred Mullen, Milton W. Wales;  

DEVELOPMENTAL PROGRAMS  
Director: Associate Professor Peter J. Hampton;  
Lecturers: Mrs. Ralph Blackwood, James F. Dombo, Doris Cerry, Mrs. Elsie S. Hampton, Ralph R. Marshall, Neal E. Wolfe.
Buchtel College of Liberal Arts

BIOLOGY
Acting Head: Associate Professor Dale L. Jackson; Professor: Roger F. Keller; Associate Professors: Eugene Flaumenhaft, Lazarus Macior, Dorothy Nunn, Walter Sheppe, Warren P. Stoutamire; Assistant Professors: Donald Goldstrowh, Scott Hagen, Irene Horning, Richard Mostardi, Richard F. Nokes; Lecturers: Katherine K. Hiltabidle, Mrs. Nina Richards, Mrs. Dianna Smith; Adjunct Professors of Anatomy: R. R. Piskin (M.D.), H. V. Sharp (M.D.), Wiley Trivett (M.D.), Robert E. Yeakley (M.D.); Visiting Associate Professor: Howard A. I. Newman.

CHEMISTRY
Head: Professor John Bachmann; Professors: Vaughn W. Floutz, Paul D. Garn, Ian R. MacGregor, Donald McIntyre, Maurice Morton, Thomas Sumner; Associate Professors: Gerald Corsaro, Michael Farona, H. James Harwood, Alan F. Krivis, Howard Stephens; Assistant Professors: Lewis Petters, John E. Frederick, John J. Houser, William G. Kofron, Henry A. Kunka, William D. Lyon; Instructor: Mrs. Alice Mayor; Lecturers: Jeanette R. Cooper, Roger A. Crawford, Vincent Marchionna.

CLASSICS
Head: Professor Theodore Duke; Assistant Professor: Robert C. McNeil; Lecturer: Mrs. Jacqueline Hegbar.

ECONOMICS
Acting Head: Professor Frank T. Phipps; Professors: Don A. Keister, Gerald H. Levin, Robert E. Thackaberry; Associate Professors: David L. Jones, John S. Phillipson, William J. Stevens; Assistant Professors: Robert L. Dial, Dale Doepke, John Hull, Mrs. Julia Hull, Sally Kennedy, Robert Merris, Mrs. Cathryn Taliaferro, Mrs. Helen S. Thackaberry; Instructors: Mrs. Sue Beckham, Mrs. Mary DeHaven, Peter Desy, William A. C. Francis, Mrs. Marlene Hathaway, R. Bruce Holland, Martha Hostelt, Walter D. Lehma, Mrs. D'Orsay Pearson, Mrs. Elizabeth Bunyan, William Stoner; Lecturers: Mrs. Rutia T. Benderer, W. David Ellsworth, Halleck D. Fry, Jr., Mrs. Rosalind Irish, Mrs. Elsa LeFaire, Mrs. Ruth Messenger, Kenneth Pranuk, Jennie Skerl, Ronald G. Snider, Mrs. Marilyn Stranahan, Mrs. Mary C. Welty.

ENGLISH
Acting Head: Professor Frank T. Phipps; Professors: Don A. Keister, Gerald H. Levin, Robert E. Thackaberry; Associate Professors: David L. Jones, John S. Phillipson, William J. Stevens; Assistant Professors: Robert L. Dial, Dale Doepke, John Hull, Mrs. Julia Hull, Sally Kennedy, Robert Merris, Mrs. Cathryn Taliaferro, Mrs. Helen S. Thackaberry; Instructors: Mrs. Sue Beckham, Mrs. Mary DeHaven, Peter Desy, William A. C. Francis, Mrs. Marlene Hathaway, R. Bruce Holland, Martha Hostelt, Walter D. Lehma, Mrs. D'Orsay Pearson, Mrs. Elizabeth Bunyan, William Stoner; Lecturers: Mrs. Jutta T. Bending, Joseph M. Egar, William D. Lyon, James W. Teeter; Lecturers: Mrs. Carol Flaumenhaft, Clarence J. Gilham, Donald Jeloff, Mrs. Karen Sinclair.

MATHEMATICS
MODERN LANGUAGES
Head: Professor Arno K. Lepke; Professors: Claude Y. Meade, Herbert W. Smith, Jr.; Associate Professors: Hugo Lijeron, Theodore Mackiw; Assistant Professor: Mario E. Ruiz; Instructors: Jacques Bourgeacq, Joseph Donatelli, Stephen Faria, Jr., Mrs. Reine Horowitz, Mrs. Janice Houser, Sys S. Inman, Peggy Kauffmann, Guesster Normand, Helen Ryan, Phillip Shyvesant, Mrs. Janet Waishbrot, Paul W. Wood, Hans Zbinden, Anne Zsilli; Lecturers: Mrs. Sys S. Inman, Sharon Jacobs, Mrs. Kriemhilde Livingston, Madeline Fringle, Ilse H. White.

PHILOSOPHY
Acting Head: Professor Paul Uhlinger; Assistant Professor: Charles Visgak; Lecturer: Eugene M. Hood.

PHYSICS
Head: Professor Charles W. Wilson, III; Distinguished Professor: Ernest R. Thackeray; Professor: Alan N. Gent; Associate Professors: Walter H. Heintz, Harry T. Pinnick, Ronald E. Schneider; Assistant Professors: C. Frank Griffin, Nicholas C. Hilyard.

POLITICAL SCIENCE
Head: Professor Paul A. Weidner; Professor: Norman P. Auburn; Assistant Professors: Yong H. Cho, Roger A. Kva, Harold Molineu, Mrs. Evelyn Stevens; Instructors: Vernon Cook, Carl Lieberman; Lecturers: Barrie Bodden, Frederick Dezort, Robert Thorburn.

POLYMER SCIENCE
Head: Professor Maurice Morton; Professors: Alan N. Gent, Donald McIntyre, Charles Wilson, III; Associate Professors: H. James Harwood, Eberhard A. Meinecke, Howard Stephens; Assistant Professors: Lewis Fetters, J. E. Frederick, Nicholas C. Hilyard, Mrs. Iria Piirma.

PSYCHOLOGY
Head: Professor John A. Popplestone; Professors: Alexis Anikeeff, Arthur K. Brintnall, Paul E. Twining, Edwin E. Wagner; Associate Professors: Alex Darbes, Peter J. Hampton; Assistant Professors: Richard H. Haude, Henry Rosenquist, Gary Yukl; Instructors: Mrs. Faye Dambrot, Francis J. Werner; Lecturers: Mrs. Ruth Haude, James H. Hodge (M.D.), Bruce Limberg, Scott McDonald, Marion W. McPherson.

SOCIOLOGY

URBAN STUDIES
Head: Professor Edward W. Hanten; Associate Professors: William S. Hendon, Lloyd B. Lueptow, James Richardson; Assistant Professors: Yong H. Cho, Ashok Dutt.

College of Engineering

CHEMICAL ENGINEERING
Head: Professor Coleman J. Major; Professor: Michael J. Rzasa; Associate Professors: Robert W. Roberts, Max S. Willis, Jr.; Assistant Professors: Glenn A. Atwood, Lawrence G. Focht, Howard L. Greene.

CIVIL ENGINEERING
Head: Professor Andrew L. Simon; Professor: D. G. Fertis; Associate Professor: Alvin M. Richards, Jr.; Assistant Professors: *R. Ernest Cartier, Jr., Joseph F. Lestingi, George P. Manos, Simsek Sarikelle, David H. Zinnerman.

ELECTRICAL ENGINEERING

Head: Professor Donald C. Thorn; Professors: Paul O. Huss, Kenneth F. Sibila; Associate Professors: Donald R. Burrowbridge, Joseph A. Edminister, Robert S. Grumbach, Milton L. Kult, Richard A. Williams; Assistant Professors: Chun-Fu Chen, Chiou-Shiun Chen, Louis E. Roemer.

MECHANICAL ENGINEERING

Head: Professor Robert N. Collins; Professor: W. M. Petry; Associate Professors: Thomas H. Brittain, Walter S. Chimielewski, Robert G. Dubensky, Gerald S. Healey, Eberhard A. Meinecke; Assistant Professors: Mamerto L. Chu, Jr., Richard J. Gross, Lindon C. Thomas.

College of Education

COUNSELING AND SPECIAL EDUCATION

Head: Associate Professor Paul Hayes; Associate Professors: Dick I. Rich, William A. Rogers; Assistant Professor: Charles L. Wood.

EDUCATIONAL ADMINISTRATION

Head: Associate Professor Robert E. Ferguson; Associate Professors: William H. Beisel, Jr., Jerold W. Maben, Maurice G. Williams; Assistant Professors: Walter Arms, David G. Barr, Caesar A. Carrino, LaVerne J. Meconi, Joan G. Seifert; Instructor: Mrs. Gertrude Badger; Lecturers: Helen Blatesic, Mrs. Mary Boehnlein, Mrs. Florence Doughtery, Mrs. Barbara Eaton, Joann Parkas, Robert Gullian, Miss Dorothy Katz, Milton A. Krenichen, Mrs. Alma Mayson, Mrs. Betty Peters, Miss Reba Robinson, Mrs. Charlene Weber.

PHYSICAL

SECONDARY

Head: Professor John S. Watt; Professor: H. Kenneth Barker; Associate Professors: Alfred H. Johnson, Oliver Ocasek, Richard N. Pratte, William Root; Assistant Professors: Walden Crabtree, Mrs. Joy S. Lindbeck, William Mavrides, Mrs. Isobel L. Pfeiffer; Instructors: Vincent J. Blondo, C. Robert Blankenship; Lecturers: Stanley Akers, Glen Childs, Charles Cox, Robert Erwine, Mrs. Elizabeth Ricketts, Miss Juliet Parenti.

College of Business Administration

ACCOUNTING

Head: Professor Dennis Gordon; Associate Professors: Orville R. Keister, Jr., Richard C. Roberts, Mary Vernon Slusher; Assistant Professors: Donald K. Berquist, Mrs. Virginia H. Bakay, Frances Clark, Denney D. Rotramel; Lecturers: Hugh Durkin, Neil B. Green, Errol S. Pringle, William E. Copeland, Robert Simmons, Joseph E. Palmer.

FINANCE

Head: Professor James W. Dunlap; Professors: Wilbur Earle Benson, Charles F. Poston; Associate Professors: A. Frederick Banda, Thomas J. Coyne, Louis F. Hampel; Assistant Professors: David R. Durr, Donald M. Jenkins, Ronald E. Smith, George J. Emershaw; Lecturers: John D. Chapman, Frederick W. Moyer, Bernard S. Winick.
MANAGEMENT
Head: Professor Frank L. Simonetti; Professor: Thomas W. Sharkey; Associate Professors: Bernard A. Deitzler, Howard L. Taylor; Assistant Professors: Donald E. Becker, Adnan Najjar, Karl A. Shilliff; Instructors: Carl L. Suter, Frank Slaby, Jr.*; Lecturers: John A. Dally, Paul H. Dunham, Edward J. Hackim, Russell Simsarian, Carl W. Vobbe.

MARKETING
Head: Professor Stephen S. Castle; Assistant Professors: Reginald A. Graham, Mrs. Margaret F. Bogler; Instructor: George E. Prosh; Lecturers: Lawrence S. Canter, Larry Carlson, Arthur W. Fields, R. Bardwell Heavens, Paul L. Miller, John F. Townsend.

College of Fine and Applied Arts

ART
Head: Professor Emily Davis; Associate Professors: Irving Achorn, Malcolm J. Dashiell; Assistant Professor: Ronald Taylor; Instructors: Earl L. Ertman, Kevin Krecji, Edwin Sernoff, Donald W. Thomas, Michaela Tyner; Lecturers: Robert T. Culian, Mrs. Charlotte Hanten, Dell Harbin, Mrs. Catherine M. Mangold, Mrs. Janet Ostrov.

HOME ECONOMICS
Acting Head: Associate Professor Mrs. Joyce Sullivan; Associate Professor: Dorothy Laubacher; Assistant Professor: Mary H. Wilson; Instructors: Mrs. Carol J. Healer, Mrs. Nancy Rossi; Lecturers: Mrs. Leona Farris, Kathryn Green.

MUSIC
Head: Associate Professor John MacDonald; Professors: Farley K. Hutchins; Associate Professor: Henry P. Smith; Assistant Professors: Frank Bradshaw, Mrs. Alice M. Flaksman, Richard Jackoboice, Burt K. Kageff, Mrs. Marian Lott, Eugene Mancini, Wallace Nolin, Samuel Spinak, Darrell E. Watters; Special Instructors: Donald Allcorn, Mrs. Patricia Bernofsky, Nicola Constantindis, John Crowe, Mrs. Anita Exline, Robert Frutchey, William Hebert, Fred Heyburn, James Kalal, Clarenz Lightfritz, William Long, Mrs. Barbara MacGregor, Mrs. Hope Montoni, Mrs. Ruth Nurmi, Robert Paolucci, Nuff Rey, Lawrence Scarpitti, Joseph Schiavone, Mrs. Grace Reginald Scott, Eugene Sharick, Maurice Sharp, Richard Shirey, Ralph Vitt, Mrs. Frank Wangler, Miss Nellie Whittaker.

SPEECH
Head: Professor Merrill T. Baker; Professors: James F. Dunlap, Elizabeth J. Hittle, Ray H. Sandefur; Associate Professors: James V. Fee, Donald S. Varian; Assistant Professors: Evelyn Baer, Robert Decker, Mrs. Phyllis Hardenstein, Ruth B. Lewis, John Mendiola, Howard Slaughter, Wallace Sterling; Instructors: Mary Capotosto, Paul A. Daum, Mrs. Charlotte Essner, Susannah Lane; Adjunct Professor: Morris Kalman; Lecturers: Mrs. Carole Bhatnager, Joseph Dick, Irene Dillon, Ronald Dobson, Ray Falcone, Mrs. Florence Fletcher, Mrs. Bonnie Hankammer, Elmore J. Houston, Robert Koger, David C. Long, Alfred E. Pocock, Mrs. Beatrice Silverberg, Walter Sonnenburg, Jr., Betty Spencer.

College of Nursing

NURSING
Dean: Professor Estelle B. Naes; Associate Professor: Evelyn M. Tovey; Assistant Professors: Mrs. Eveline M. Brotzman, Mrs. Patricia A. Godfrey, Edna P. Crist, Kathryn Homeier, Dorothy R. Hufier, Mrs. Marjorie A. White.

College of Law

LIBRARY STAFF 1968-69

MELVIN B. OWENS, Assistant Professor Military Science (June 1967)
B.S., Long Island University, 1962; Lieutenant Colonel, Quartermaster Corps.

JACKIE R. ALSOP, Assistant Professor Military Science (July 1967)
B.S., University of Dayton, 1960; Major, Artillery.

JAMES M. HALLINAN, Jr., Assistant Professor Military Science (August 1966)
B.S., John Carroll University, 1956; Major, Infantry.

ARLEN C. MILLER, Assistant Professor Military Science (April 1968)

GEORGE T. BELL, Assistant Professor Military Science (August 1968)
B.S., U.S. Army Military Academy, 1965; Captain, Adjutant General's Corps.

MICHAEL W. GRIFFITH, Assistant Professor Military Science (June 1967)
B.S., U.S. Army Military Academy, 1964; Captain, Infantry.

EUGENE J. LARSON, Assistant Professor Military Science (January 1969)
B.B.A. University of Wisconsin, 1960; Captain, Transportation Corps.

MICHAEL A. MITCHELL, Assistant Professor Military Science (September 1968)
B.A., Rutgers University, 1964; Captain, Infantry.

RICHARD L. WEBER, Assistant Professor Military Science (October 1968)
B.S., Youngstown University, 1963; Captain, Infantry.

CARL J. THOMAS, Chief Drill Instructor (August 1968)
Sergeant Major.

ALLEN D. DAVIS, Senior Drill Instructor (November 1967)
Sergeant First Class.

LEON W. HALL, Administrative NCOIC (September 1966)
Sergeant First Class.

ROY R. LONG, Supply Sergeant (November 1966)
Sergeant First Class.

JAMES C. OLIVER, Administrative Clerk (July 1968)
Staff Sergeant.

BRUCE L. BURGER, Enlisted Drill Instructor (May 1967)
Staff Sergeant.

JEFFREY J. RYAN, Administrative Clerk (February 1968)
Specialist Fourth Class.

RODERICK M. SANSON, III, Administrative Clerk (February 1968)
SP4.

HAOROLD L. SOLETH, Assistant Professor of Military Science (1968)
B.S., Creighton University, 1956, Major, Armor.

CARL J. THOMAS, Administrative Sergeant Major (August 1968)

AIR FORCE

LEE M. NEFF, Professor of Aerospace Studies (August 1968)

HARRY A. COOLEY, Assistant Professor of Aerospace Studies (August 1967)
B.S., Tougaloo College, 1952; Major, USAF.

NEIL R. BEARCE, Jr., Assistant Professor of Aerospace Studies (June 1968)
B.A., University of Maryland, 1963. Captain, USAF.

ROBERT E. COPNER, Assistant Professor of Aerospace Studies (June 1968)
B.A., Rutgers University, 1960. Captain, USAF.
JAMES L. FAGAN, Personnel Specialist (May 1967)
Staff Sergeant, USAF.

PAUL S. HAMILTON, Detachment Sergeant Major (February 1964)
Master Sergeant, USAF.

ROBERT G. HEISTAND, Personnel Specialist (July 1967)
Technical Sergeant, USAF.

MICHAEL J. KOLBAS, Assistant Professor of Aerospace Studies (June 1967)
B.S., 1958; Captain, USAF.

DAVID A. LEPARD, Assistant Professor of Aerospace Studies (June 1966)
B.A., University of Buffalo, 1959; Captain, USAF.

JERRY W. LIVINGSTON, Administrative Specialist (June 1966)
Staff Sergeant, USAF.

SAMUEL J. VENTURINO, Administrative Specialist (October 1966)
Staff Sergeant, USAF.

CENTER FOR INFORMATION SYSTEMS

PANOS KOKOPOULOS, Director and Assistant Professor in the Community and Technical College (1965)
B.S., University of Thessaloniki (Greece); M.S., University of Dayton, 1984.

FORD L. COOLMAN, Associate Information Specialist (April 1967)
B.A., Wittenberg University, 1931.

SEBASTIAN V. KANAKKANATT, Information Specialist (July 1965)
B.S., University of Madras (India); M.S., University of Akron, 1986.

JOAN KELLOGG, Associate Information Specialist (June 1967)
B.S., The Ohio State University, 1944.

MRS. MAGDA ABDEL LATIF, Associate Information Specialist (May 1966)
B.S., Alexandria University; M.S., Akron University, 1967.

REFERRAL SERVICE NETWORK OFFICE

JOSHUA I. SMITH, Director of Referral Service Network Office and Assistant Director for Operations of Center for Information Systems (May 1965)
B.A., Central State University, 1963.

INSTITUTE OF POLYMER SCIENCE
1968-69

MAURICE MORTON, Director of the Institute of Polymer Science and Professor of Polymer Chemistry (October 1948)
B.S., Ph.D., McGill University, 1945.

G. STAFFORD WHITBY, Consultant on Rubber Research and Professor Emeritus of Rubber Chemistry (1942)
A.R.C.Sc., B.S., University of London; M.S., Ph.D., D.Sc., McGill University; LL.D., Mount Allison University, New Brunswick; D.Sc., The University of Akron, 1958.

ALAN N. GENT, Assistant Director of the Institute of Polymer Science and Professor of Polymer Physics (April 1961)
B.S., Ph.D., University of London, 1955.

LEWIS J. FETTERS, Research Associate, Assistant Professor of Polymer Science and Assistant Professor of Chemistry (1967)
B.A., College of Wooster; Ph.D., The University of Akron, 1962.

JOHN E. FREDERICK, Research Associate, Assistant Professor of Polymer Science and Assistant Professor of Chemistry (1966)
B.S., Glenville State College; Ph.D., University of Wisconsin, 1964.
H. James Harwood, Research Associate, Associate Professor of Polymer Science and Associate Professor of Chemistry (October 1959)
B.S., The University of Akron; Ph.D., Yale University, 1958.

Nicholas C. Hilyard, Assistant Professor of Polymer Science and Assistant Professor of Physics (October 1959)
B.S., Ph.D., Southampton University (England), 1963.

Donald McIntyre, Research Associate, Professor of Polymer Science and Professor of Chemistry (1966)
B.A., Lafayette College; Ph.D., Cornell University, 1954.

Eberhard A. Meincke, Research Associate, Associate Professor of Polymer Science and Associate Professor of Mechanical Engineering (October 1963)
D.Eng., Institute of Technology (Braunschweig, Germany), 1960.

Richard Murphy, Research Chemist, Applied Research (1966)
Associateship, National College of Rubber Technology (London), 1966.

Mrs. Irena Prima, Research Associate and Assistant Professor of Polymer Science (December 1952)
Diploma in Chemistry, Technische Hochschule of Darmstadt; M.S., Ph.D., The University of Akron, 1960.

Robert W. Roberts, Research Associate and Associate Professor of Chemical Engineering (1966)
B.S.Ch.E., Washington University; M.S.Ch.E., Ph.D.Ch.E., State University of Iowa, 1962.

Howard L. Stephens, Manager of Applied Research, Associate Professor of Polymer Science and Associate Professor of Chemistry (1950)
B.S., M.S., Ph.D., The University of Akron, 1960.

Charles Wilson, III, Research Associate, Professor of Physics and Professor of Polymer Science (1983)
B.S.E., M.S., University of Michigan; Ph.D., Washington University, 1952.

Thomas Abbott, Research Fellow (1969)

Heichi Azuma, Research Assistant (1968)
B.S., Kohnan University; M.Eng., Osaka City University, 1968.

Ronald Bockrath, Firestone Fellow (1966)
B.S., Bowling Green State University, 1966.

Robert C. Chang, Research Assistant (1969)
B.S., Tunghai University (Taiwan); M.S., Oklahoma State University, 1965.

Tze Chiang Cheng, Research Assistant (1968)
B.S., Tunghai University (Taiwan); M.S., Virginia Polytechnic Institute, 1962.

David N. Crampone, Postdoctoral Fellow (1968)
B.S., Hodgins, Ph.D., University of Adelaide, 1968.

Stephen V. Caume, Research Assistant (1968)
B.S. Physics, University of Dayton; M.S. Physics, Miami University, 1966.

Ronald L. Denecour, Cabot Fellow (1966)
B.S.Ch.E., Lawrence Institute of Technology; M.S., The University of Akron, 1966.

Louis A. Falvo, General Tire Fellow (1967)
B.S., M.S.Ch.E., Massachusetts Institute of Technology, 1964.

Edward M. Firer, Research Assistant (1968)
B.A., University of Bridgeport; M.S., University of Maryland, 1969.

Makoto Fujimoto, Visiting Foreign Scientist (1968)
B.S., Tokyo College of Science, 1959.

Evelyn P. Gause, Research Assistant (1968)

Suat H. Goh, Research Assistant (1968)
B.S., Nanyang University; M.S., The University of Akron, 1966.

Lawrence J. Guibault, NIH Fellow (1966)
B.S., Kansas State University, 1964.
Robert J. Hill, II, NSF Fellow (1968)
B.S., Grove City College, 1966.

Mohammed K. Hussain, Research Assistant (1968)
B.S., M.S., Osmania University (India), 1957.

Jhee Iwomata, Visiting Foreign Scientist (1968)
B.A. of Pharmacology, M.S., University of Tokyo, 1959.

William A. Judy, Research Assistant (1968)
B.S., Case-Western Reserve University, 1964.

Vasanth R. Kamath, Research Assistant (1966)

Directory 315

Rudolf F. KammerEkck, Phillips Fellow (1967)
Degree of Textil-Chemiker-Ingenieur, Institut für Textil Chemie (Hohenstein, Württ, Germany), M.S., North Carolina State University, 1967.

Sebastian V. Kanakkanatt, Research Assistant (1964)
B.S., University of Madras; M.S., The University of Akron, 1966.

James Kinston, NDEA Fellow (1967)
B.S., M.A., Bowling Green State University, 1967.

Subramanian Krishnasurthy, Research Fellow (1967)
B.Ch.E., University of Bombay; M.S.Che., Johns Hopkins University, 1967.

Tiong H. Kuan, Research Assistant (1968)
B.S.Ch.E., De La Salle College (Philippines), 1967.

Chen-Kun Lan, Research Assistant (1968)
B.S., National Taiwan University, 1967.

Ti-Fah Liu, Research Fellow (1968)

Lyle O. Malotxy, Goodrich Fellow (1968)

Devendra V. Mehta, Research Fellow (1965)
M.S.Ch., LL.B., University of Gujsrat, India; B.S., M.B.Ch., University of Missouri at Rolla, 1965.

L. Michaels, Postdoctoral Fellow (1969)
Ph.D., Institut für Makromolekulare Chemie, der Universität Freiburg.

Bernard H. Meyen, Research Assistant (1966)
B.S.Ch.E., University of Cincinnati, 1964.

Sharell L. Mikebell, NDEA Fellow (1968)
B.A., Olivet Nazarene College; M.S., The Ohio State University, 1968.

Pranab K. Mookerjee, Research Assistant (1968)
B.S.Ch.E., Jadavpur University (Calcutta); M.S.Ch.E., Wayne State University, 1966.

Masas Murano, Research Assistant (1968)
B.S., Kyoto University; Ph.D., Kyoto University, 1968.

Mark E. Myers, Jr., Columbian Carbon Fellow (1967)

Iman Nazemi, Research Assistant (1968)
M.S., Institute of Technology, Bandung; M.S., The University of Akron, 1964.

Daniel L. Neumann, Research Fellow (1966)
B.S., Purdue University, 1966.

Gilvan Vieira de Oliveira, General Electric Fellow (1968)
B.S., University of Rio de Janeiro, 1965.

Sayed B.A.S. Qaderreate, Research Assistant (1968)
B.S., M.S., Utkal University, 1965.

Nicholas A. Rounds, Research Assistant (1966)
B.Ch.E., University of Cincinnati, 1966.

Ronald A. Sanderson, General Tire Fellow (1966)
B.S. (Hons.), University of Cape Town (South Africa), 1965.

Frederick C. Schwab, Research Assistant (1966)
B.S.Ch.E., Fenn College; M.S., Union College, 1966.

David M. Schwabere, Research Assistant (1968)
B.S., Worcester Polytechnic Institute; M.S., Cornell University, 1966.
FLOYD SHEPHERD, Research Fellow (1969)
INDERJIT I. SINGH, Research Assistant (1968)
EUGENE L. SLAGOWSKI, Research Assistant (1968)
B.S., University of Wisconsin, 1960.
RATANJIT S. SONDE, Research Assistant (1968)
B.S., M.S., Rajasthan University; M.S., (Hech.), Agra University, 1965.
CARL R. STRAUSS, Research Assistant (1967)
B.S.Ch.E., University of Illinois; M.S., The University of Akron, 1963.
TIMOTHY T. TAYLOR, NDEA Fellow (1968)
B.S., St. Thomas College; M.S., New Mexico Institute of Mining and Technology, 1969.
EDWIN THALL, Union Carbide Fellow (1967)
B.S., Pratt Institute; M.S., New Mexico Institute of Mining and Technology, 1967.
KERISHORE UDUP, Research Assistant (1968)
B.S., B.S. (Tech), M.S. (Tech), University of Bombay, 1963.
UPEN I. VAIDYA, Research Assistant (1968)
B.S., M.S. Gujarat University, 1964.
JOHN J. A. VERTHE, Goodyear International Fellow (1968)
B.S., State University of Ghent (Belgium), 1968.
JIN-LIANG WANG, American Cyanamid Fellow (1967)
B.S., Taipei Institute of Technology; M.S., Kent State University, 1966.
JAMES C. WEST, Research Assistant (1966)
B.S., Marietta College; M.S., The University of Akron, 1966.
JOSEPH ZYMOMAS, Goodyear Fellow (1967)
B.S., Loyola University; M.S., St. Joseph's College, 1967.

INSTITUTE FOR CIVIC EDUCATION

CHARLES V. BLAIR, Director of the Institute for Civic Education, Dean of the Evening College and Assistant Professor in the Community and Technical College (April 1959)
Cecil L. Dobbins, Assistant Director of the Institute for Civic Education and Assistant Dean of the Evening College (February 1965)
B.A., Fenn College, 1952.
John G. Hedrick, Associate Director of the Institute for Civic Education and Assistant Dean of the Evening College (July 1967)
B.S.Ed., Kent State University; M.A., University of Notre Dame, 1958.
Mrs. Mary Elizabeth Cheshown, Assistant to the Director of the Institute for Civic Education and Assistant to the Dean of the Evening College (May 1965)

CENTER FOR URBAN STUDIES

Edward W. Hanten, Director of the Center for Urban Studies, Professor of Urban Studies and Professor of Geography (1963)
B.A., Earlham College; M.A., Ph.D., University of Pittsburgh, 1962.
William S. Hendon, Associate Director of the Center for Urban Studies, Associate Professor of Economics and Associate Professor of Urban Studies (1968)
Lloyd B. Luftow, Associate Director of the Center for Urban Studies, Associate Professor of Urban Studies and Associate Professor of Sociology (1967)
B.S., M.S., Ph.D., University of Wisconsin, 1964.
Young H. Cho, Assistant Director of the Center for Urban Studies, Assistant Professor of Urban Studies and Assistant Professor of Political Science (1967)
B.A., Seoul National University (Korea); M.P.A., Ph.D., Syracuse University, 1965.
Ashok Dutt, Assistant Director of the Center for Urban Studies, Assistant Professor of Urban Studies and Assistant Professor of Geography (1968)
B.A., M.A., Ph.D., Patna University (India), 1981.
John W. Telesca, Research Associate (August 1968)
B.S., Mount Union College, 1958.
SPEECH AND HEARING CLINIC

ELIZABETH J. HITTLE, Director of the Speech and Hearing Clinic and Professor of Speech (1950)  
B.S.Ed., The University of Akron; M.A., Kent State University, 1949; Ed.D., Western Reserve University, 1963.

EVELYN BAER, Coordinator of Services and Assistant Professor of Speech (1966)  

MARY CAPOTOSTO, Instructor in Speech (1968)  

ROBERT L. DECKER, Chief Audiologist and Assistant Professor of Speech (1967)  
B.A., University of Miami; M.A., Western Reserve University, 1956.

MRS. CHARLOTTE ESSENER, Instructor in Speech (1965)  

JAMES V. FEE, Associate Professor of Speech (1967)  
B.S.Ed., M.S.Ed., Southern Illinois University; Ph.D., The Ohio State University, 1964.

MRS. BONNIE HANKAMMER, Lecturer in Speech (1968)  
B.S., M.A., Kent State University, 1954.

MORRIS KALMAN, M.D., Adjunct Professor of Speech (1967)  
B.S., The University of Akron; M.D., The Ohio State University, 1931.

RAY H. SANDEFUR, Dean of the College of Fine and Applied Arts and Professor of Speech (1950)  
B.A., B.S.Ed., Emporia State Teachers College; M.A., University of Colorado; Ph.D., State University of Iowa, 1950.

E. JAMES TENNEN, Associate Professor of Speech (1969)  
B.A., Anderson College; M.S., Ph.D., University of Wisconsin, 1952.

MRS. BEATRICE SILVERBERG, Research Associate (1968)  
B.A., The University of Akron; M.A., University of Chicago, 1941.

TESTING AND COUNSELING BUREAU

THOMAS O. BROWN, Director and Assistant Professor of Education (July 1964)  
B.S., M.Ed., Mississippi State University; Ph.D., University of Missouri, 1968.

FRANK V. KELLEY, Counselor (July 1968)  
B.S., Malone College; M.S., The University of Akron,

MRS. PHYLLIS PAUL, Counselor (July 1955)  
B.A., The University of Akron; M.A., Western Reserve University, 1937.

C. DONALD SCHUMACHER, Counselor (July 1967)  
B.S., Bowling Green State University, 1956.

FRANCIS J. WERNER, Counselor and Instructor in Psychology (August 1950)  

UNIVERSITY HEALTH SERVICE

GENEVIEVE DREWS, M.D., Acting Senior University Physician (1966)  
University of Colorado Medical School, 1961.

ESTANISLAO A. MATOS, M.D., University Physician (1967)  
M.D., University of Colorado Medical School, 1961.

THOMAS RILEY, M.D., University Physician (1968)  
M.D., University of Michigan, 1960.

MRS. MARY CORNELIUS, R.N., University Nurse (1968)  
MRS. EVELYN GANNON, R.N., University Nurse (1968)  
St. Mary's School of Nursing, 1942.

MRS. ELLEN MILLER, R.N., University Nurse (1967)  
Maine Medical Center School of Nursing, 1961.

MRS. MARGUERITE MYERS, R.N., University Nurse (1966)  
Akron City Hospital, 1935.

MRS. JANET ROSE, R.N., University Nurse (1968)

Current Members of College Advisory Committee 1968

THE BUCHTEL COLLEGE OF LIBERAL ARTS

Mrs. Richard Corns, Mrs. Sam DuPree, Dr. William H. Falor, Mr. Arden E. Firestone, Mrs.
Lincoln Gries, Mrs. Curtis Harwick, Mr. Alfred Herberich, Mr. Donald Kaufman, Mr. Perth
Killinger, Mr. Frank Knowlton, Mr. Sam McKeel, Mr. Clinton Miller, Mrs. Richard Miller, Mr.
Vern Odom, Mr. Charles Pierson.

THE COLLEGE OF ENGINEERING

Mr. D. F. Behney, Mr. G. L. Bruggemeier, Mr. E. F. Dismeyer, Mr. Robert B. Knill, Mr.
Thomas A. Knowles, Mr. Wendell R. LaDue, Mr. Vern Oldham, Mr. C. A. Palmer, Mr. Carl
Rohrer, Mr. William R. Bhulin, Mr. Ward Sigler, Mr. L. E. Soderquist, Mr. Ernest S. Theiss,
Mr. Harry Warner.

THE COLLEGE OF EDUCATION

Mrs. Ray Bliss, Dr. Sarah Caldwell, Mr. T. D. Calvin, Mr. Clarence W. Cox, Mr. Bernard
L. Dunn, Mr. Donald R. Fair, Mr. Ralph Gillman, Mr. Charles Hazlett, Mr. Allen E.
Howland, Mrs. Donald Minnig, Mr. Conrad Ott, Mr. W. S. Parry, Mrs. George Seeley, Mr.
R. E. Wilkins, Dr. Harold Wilson.

THE COLLEGE OF BUSINESS ADMINISTRATION

Mr. F. J. Carter, Mr. Weldon Case, Mr. David C. Corbin, Mr. George Daverio, Mr. John L.
Feudner, Jr., Mr. Gordon Heffern, Mr. Peter K. Hoglund, Mr. Kimball Firestone, Mr. Don K.
Good, Mr. John N. Hart, Mr. J. W. Keener, Jr., Mr. Clarence Kelley, Mr. Joseph A. Meek,
Mr. M. S. Richardson, Mr. William M. Williams, Jr.
THE COLLEGE OF FINE AND APPLIED ARTS
Mrs. Fred I. Albrecht, Dr. James L. Berk, Mr. Richard Buchholzer, Mrs. L. A. Graham, Mrs.
E. V. K. Jaycox, Mrs. Walter Keith, Mr. Louis Lane, Mr. David K. Larrimer, Mr. R. A.
Michelson, Dr. E. Gates Morgan, Mr. Irving J. Olson, Mrs. John Renner, Mrs. J. G. Robertson,
Mrs. Sol Sacks, Mrs. Guido Stempel.

THE COLLEGE OF NURSING
Sister Mary Brigid, Mr. Julius Darsky, Dr. Douglass M. Evans, Mrs. William Falor, Mr. Harold
Funk, Miss Mary Knapp, Dr. Joseph Lichty, Mrs. S. H. Mountcastle, Mr. Earl Raymer, Mr.
Roger Sherman, Mr. Dave Towell, Judge William Victor, Dr. J. T. Villani, Mrs. Jason Wade,
Dr. Evangeline Wittman.

THE COLLEGE OF LAW
The University of Akron College of Law Committee of the Akron Bar Association serves as
the Advisory Committee to the College of Law. Members are Mr. Allen B. Diefenbach,
Chairman; Mr. Hollis Allan, Mr. Bruce W. Bierce, Mr. Lisle M. Buckingham, Mr. Paul K. Christoff,
Mr. Raymond Elliott, Mr. W. Howard Fort, Mr. Oscar A. Hunsicker, Jr., Mr. Robert W.
Laundrie, Mr. D. Don Livers, Mr. John J. Lynett, Mr. C. Blake McDowell, Sr., Judge Donald
B. McFadden, Mr. Louis L. Manes, Mr. Robert H. Maxson, Jr., Mr. Andrew Michaels, Judge
Theodore R. Price, Mr. Bernard I. Rosen, Ex Officio; Mr. Charles Sacks, Mr. David A. Thomas,
Mr. Joseph Thomas and Mr. David H. Wilson.

THE GRADUATE SCHOOL
Dr. Glen Alliger, Dr. Karl Arnstein, Mr. E. A. Brittenham, Mr. Raymond Brown, Mr. Bill
Giermann, Dr. James D'Ianni, Mr. Burton D. Morgan, Dr. John Morley,
Mr. H. H. Poor, Mr. William Scull, Mr. Frank Steere, Jr., Dr. Guido H. Stempel, Dr.
Franklin Strain, Dr. Rex H. Wilson.

THE EVENING COLLEGE
Mr. E. S. Babcox, Mr. Roy Blasiola, Mr. Stanton H. Brightman, Mr. Ray Campbell, Mr. Chester
Conner, Mr. Robert Crane, Mr. Ralph L. Hanna, Mr. Philip G. Karam, Mrs. George Leonard,
Mr. Kenneth Nichols, Mrs. Fred Nimmer, Mrs. Z. C. Oseland, Jr., Judge Thomas Powers, Mr.
John Scherba, Mr. Phillip Young.

THE COMMUNITY AND TECHNICAL COLLEGE
Mr. George W. Brittain, Mr. R. A. Brownsword, Mr. Robert C. DeShon, Mr. R. Victor Dis,
Mr. M. A. Frendberg, Mr. Howard S. Kane, Mr. Robert Kidney, Mr. Harold P. Lamb, Mr.
G. J. Lambillotte, Mr. D. Bruce Mansfield, Mr. P. W. Perdriaux, Mr. F. B. Pyle, Mr. Bruce M.
Robertson, Mr. Clark Sutherland, Mr. H. H. Wiedenmann.

PUBLIC SCHOOL FACULTIES COOPERATING WITH THE
COLLEGE OF EDUCATION

William S. Mercer, M.A. ............................................... Local Superintendent, Twinsburg

SUPERVISING TEACHERS

Summer and Fall, 1968, and Winter and Spring, 1969

Frances Abbott (Kent), Geraldine Abbott (Norton H.S.), Ron Allegree (Kenmore), Laura Allen (Erie Island), Norma Anis (Jennings), Helen Armitage (King), Mr. Ray Baker (Ellet), Art Bailey (Ellet), John Banks (Goodrich), Bruce Barnes (Ellet), Elizabeth Barrow (Goodyear), John Baumbach (West), Roberta Benson (Jennings), Viva Best (Garfield), Ruth Biondo (Perkins), Bruce Blake (Firestone), Bernice Bickle (Central), Thomas Boggs (Betts & Findley), Katherine Bond (Ellet), Florence Bowsher (Jennings), Herbert Bracken (East), Helen Bunts (Case), Charlotte Burks (Voris), William Butke (Hyre), Robert Calder (North), Doloris Cannaio (Rankin), Emma Carson (Lane), Eloise Clark (Litchfield), Ruth Cochrane (North), Rose Crano (North), Warren Creed (North), Joan Cutrone (Kenmore), Charles L. Rieger, M.A

Earl Love (Firestone), John Baumbach (West), Roberta Benson (Jennings), Viva Best (Garfield), Ruth Art Bailey (Ellet), John Banks (Goodrich), Bruce Blake (Firestone), Bernice Bickle (Central), Thomas Boggs (Betts & Findley), Katherine Bond (Ellet), Florence Bowsher (Jennings), Herbert Bracken (East), Helen Bunts (Case), Charlotte Burks (Voris), William Butke (Hyre), Robert Calder (North), Doloris Cannaio (Rankin), Emma Carson (Lane), Eloise Clark (Litchfield), Ruth Cochrane (North), Rose Crano (North), Warren Creed (North), Joan Cutrone (Kenmore), Charles L. Rieger, M.A
Julia Van Court (Hower), James Van Deventer (Perkins), Robert Vernon (Garfield), Mary Villers (Fraunfelter), Eugene Vinciguerra (Ellet), Ralph Vitt (Kenmore), William Waggoner (Garfield), Mary Waggonhoffer (Buchtel), Helen Wagner (Ellet), Dorothy Walchuck (Hotchkiss), Dixie Walker (Kenmore), Vera Westfall (Barberton), Ilse White (Buchtel), Robert White (North), Parker Wilcox (North & Central), Charles Williams (Hyre), Elizabeth Witt (Thornton), Nancy Yaussy (U. L. Light), Irene Yurko (Memorial), Donald Young (East), Harriet Zook (Rankin).

THE ALUMNI ASSOCIATION

An individual who has received a degree from this institution or has completed 32 credit hours is considered to be an Alumnus and is eligible for membership in The University of Akron Alumni Association. The Alumni Council, the members of which are elected by a national ballot mailed to more than 20,000 Alumni, is the governing body of the Alumni Association. For the 1968-69 year, President Harry P. Stitzlein '50 will preside over the Association with administrative matters handled by the Alumni Relations office, which is located in the Gardner Student Center on the campus.

The purpose of the Alumni Association is to promote the interests of The University of Akron and further the mutually beneficial relationships between the University and its Alumni. Among the activities and responsibilities of the Alumni Association are:

1. Sponsorship of four major events during each academic year—the Acme-Zip Game Party in September, Homecoming in October, Alumni Fun Night in February, and Alumni Day in June—attracting more than 2,000 Alumni and friends each year;
2. Promotion of the Akron U Fund which is used for scholarships, faculty salaries and special purposes at the discretion of The University of Akron Development Foundation (in 1967-68 $111,075 was raised);
3. Maintenance of accurate records of Alumni;
4. Publication of The University of Akron Alumnus, the quarterly magazine with news of campus developments and Alumni;
5. Hosting summer receptions at homes of Alumni honoring freshmen entering the University the following autumn;
6. Encouragement of Alumni—University participation through clubs which are now located in 33 geographic areas.

Locations and presidents of Alumni clubs currently operating are: Phoenix—Harry J. Shauffer; Tucson—Robert E. Ashely; Los Angeles—Richard M. Greenwald; San Diego—John E. Lucas; San Francisco—Mrs. Anthony Simatovich (Josephine Amer); Denver—Don Carney; Washington, D. C.—Palmer W. Wardman; Miami—W. P. Shaughnessy; St. Petersburg—Harris William Holsinger; Atlanta—Glen A. Bishop; Chicago—Daniel J. Weinberger; Boston—Eugene Joseph O’Neil; Detroit—Ray K. Schieb; Grand Rapids—Henry Stoner; Minneapolis—William T. Farmer; St. Louis—William H. Ireland; New York—Jerry G. Meyers; Buffalo—Norman E. Weiler; Columbus—Al Isner; Toledo—William C. King; Cleveland—Robert Eugene Sipes; Akron—Harry P. Stitzlein; Youngstown—Abe Cohen; Canston—Mervin Leroy Atwell; Cincinnati—J. D. Mussoud; Dayton—Paul G. Tresca; Pittsburgh—Charles William Hamilton; Erie—H. A. Roseman; Philadelphia—Maurice E. Long; Dallas—Harvey L. Davis; Houston—Herman K. "Griss" Eckert; Kansas City—J. Neal Burke; Cape Kennedy—Mrs. Rockwell B. Wright (Margaret Van Hyning).

Officers of the Alumni Council for 1968-69 are: President—Harry P. Stitzlein ’50; First Vice President—A. William Zavarello ’59; Second Vice President—Mrs. William A. Palmer ’40; Recording Secretary—Mrs. Frank A. Wahl ’60; Treasurer—Carl Hall Executive Secretary and Director of the Akron U Fund—Allen M. Boyer ’42.

Members of the Alumni Council are: (term expires June, 1969) Paul D. Bagwell ’37; Mrs. Evan B. Brewster ’25; Stanton H. Brightman ’61; Dr. George S. George ’48; James W. Matz ’25; Diane Simonetti ’66; Harry P. Stitzlein ’50; A. William Zavarello ’59; (term expires June 1970) Martin O. Chapman ’47; Harvey L. Davis ’37; Eugene B. Hollander ’49; Mrs. William A. Palmer ’40; Daniel E. Quillin ’51; Marion S. Richardson ’17; Mrs. Frank A. Wahl ’60; (term expires June, 1971) Mrs. William P. Bray, Jr. ’42; William C. Detwiler ’47; John L. Feudner, Jr. ’34; Mark Figetakis ’55; Ronald A. Karg ’62; Lawrence G. Knecht ’34; William R. Ruhlin ’48.

Allen M. Boyer ’42 is Director of Alumni Relations and Director of the Akron U Fund. Doug Theaker joined the Alumni Office as Director of Alumni Activities in January, 1969.
