A descriptive bulletin with explanations of courses and colleges at The University of Akron
I.
The University of Akron

A Story of Growth

Established by the Ohio Universalist Convention on May 31, 1870, Buchtel College was built on a hill overlooking Akron, a thriving industrial city of 10,000 situated at the summit of the Ohio Canal. The College was named in honor of John R. Buchtel, a farm machinery manufacturer, whose half a million dollars and spirit sustained the enterprise in higher education. Support also came from local men who pioneered such important industries as cereals, clay products, matches, farm implements and rubber.

By 1913 it was apparent that Buchtel College was more closely oriented toward Akron than toward Universalism, and in that year its assets were transferred to the city as the nucleus of The Municipal University of Akron. The Buchtel name was perpetuated in the Buchtel College of Liberal Arts, and on July 1, 1970, in the Buchtel College of Arts and Sciences.

From 1910 to 1920, Akron was America's fastest-growing city, blossoming from 70,000 to 208,000 persons in that decade, and the University grew apace. In 1914 a College of Engineering was established. Other professional colleges followed:
Education (1921), Business Administration (1953), Law (1959), Community and Technical (1964), Fine and Applied Arts (1967), and Nursing (1967). To make courses available to a broad cross section of citizens, a comprehensive Evening Session was established in 1915. Today over 7800 Evening College students pursue undergraduate and graduate education in every degree program offered by the University.

In undergraduate education, Akron was an early supporter of the Free Elective idea (1880s) and General Education (1935), the latter program being developed into one of the most fully rationalized in the country. Graduate work evolved from awarding of the first master's degree (1882) to the beginning of doctoral work in 1956. Currently, doctoral programs are offered in fourteen fields of study.

Since Buchtel College initiated college courses in Rubber Chemistry (1908), it is appropriate that Akron's first Ph.D. program was offered in Polymer Chemistry. However, Akron's first major research effort was the Guggenheim Airship Institute which flourished in the 1930s and 1940s.

Akron scientists participated in the critical development of synthetic rubber during World War II, and the University's Institute of Polymer Science is now a world leader in polymer research and education. Currently Akron's research efforts, totaling approximately $3 million, reach into many fields, from equipment and student support to research-creative projects.

The 114-acre campus with 51 modern buildings is located at the hub of an industrial urban area of 1½ million persons. The University of Akron now enrolls more than 23,121 day and evening students in credit courses and an additional 4,262 in “informal” adult education. Its students come from 32 states and 64 foreign countries. The 44,000 alumni are situated around the globe in positions of responsibility. Akron's long-time leadership in continuing adult education through its Institute for Civic Education, Center for Urban Studies, Department of Special Programs and its Institute for Life-Span Development and Gerontology has been supplemented by the cultural leadership it has provided in the renaissance of artistic endeavor in Akron.

On July 1, 1967, the University of Akron became a state university, thus securing a base that enables it to extend its influence far beyond local boundaries. Its first century of service has prepared it for a widening role in years to come.

**Mission of the University**

Although the scope of interests, academic programs and activities are national and international, The University of Akron has, from the time of its founding, considered one of its special missions to be building service to the community. Accelerating growth and change in our complex society, coupled with myriad changes in the University's program and structure, offer a new challenge for its urban mission. This challenge, in turn, requires answers to the questions: What characteristics make a University urban? What do they imply for its special urban mission?

**Distinguishing Characteristics**

**As an Urban University**

The distinction of a university as urban goes beyond its geographic location within an urban environment. It is an integral part of the city. It strives for a symbiotic relationship with the urban community for its own vitality as a responsible social institution. The urban university, wherever appropriate, integrates its own programs with the host of cultural, intellectual, and social activities generated by other community institutions. Most importantly, the urban university is looked upon as one of several important community resources.

The distinguishing characteristics of The University of Akron as an urban institution are reflected in its students, faculty, programs, and teaching/learning process.

**A. Students**

In comparison to the residential college or university, The University of Akron has a larger proportion of students who are:

- older;
- working full or part-time, day and/or evening;
- living at home;
- first generation college students;
- in a closer relationship with the community in which the University is located.

Full-time employees seeking to gain promotion in their companies, advanced professionals wanting to keep current in their own areas of specialization, homemakers released from the responsibilities of preschool children, and citizens who simply want to satisfy some special interest find The University of Akron a welcome opportunity within convenient commuting distance. They constitute a significant portion of the student body in credit and non-credit programs, day and evening. The presence
of mature, working students in the classroom provides special educational and socialization experiences for the younger, full-time students from throughout the nation who make up the larger part of the student body. The older students have less time for extracurricular involvement. Outside work loads, financial demands and demands of the home and family cause frequent interruptions in their educational programs.

The University of Akron also provides the opportunity for culturally and economically disadvantaged persons with underdeveloped talents to become a significant part of the student body and to receive appropriate assistance toward meeting educational goals.

B. Faculty

The basic academic programming is provided by full-time faculty. Broader, more flexible offerings are made possible by using professional and talented individuals from the community through part-time or adjunct appointments. These special faculty bring an air of immediacy about current problems in their professions into university classrooms.

Conversely, faculty involvement in the urban laboratory helps to translate theory into realistic perspectives. This continuous flow back and forth between the community and the University helps the faculty to achieve quality in all its efforts.

C. Program and Teaching/Learning Process

Throughout the complete spectrum of educational offerings, ranging from certificate programs through two-year associate, baccalaureate, professional and graduate programs leading to the doctorate, the University seeks to become more deeply involved in the urban milieu which surrounds the campus. Through cooperative programs, internships, workshops, fellowships, research grants, and special government agency projects the curriculum is enriched in almost every academic discipline. The interaction between faculty and students in the teaching/learning process is enhanced by having available the resources of local hospitals; schools (both public and private); municipal, county, and state government agencies; industry; businesses and offices.

The curricular pattern not only involves overt interaction between the University community and the greater metropolitan area, but far more significantly, includes the in-depth study of the traditional academic disciplines in order to focus the technical skills and theoretical constructs of each discipline toward the solution of urban problems. In this fashion, students inevitably will be better prepared to face the constantly fluctuating mosaic of problems which the urban landscape now is — and will be in the future.

THE URBAN MISSION OF THE UNIVERSITY OF AKRON

Modern American society is irretrievably urban. As the focus of University activities is brought closer to the community, urban society becomes more involved in the learning process of students, thus providing them with an intimacy of urban understanding that will be useful throughout a lifetime.

Thus, those characteristics which distinguish the University of Akron's students, faculty and programs all point to its distinct mission as an urban institution. The University has a responsibility to serve directly the larger “community of learning” through teaching, research, creative endeavors, and public service. Within this responsibility there is a special relationship to the urban complex. Wherever and whenever possible, as plans are made and programs implemented, a deep concern about the urban process is demonstrated. The full learning opportunities of the campus to the city — and of the city to the campus is identified and continuously strengthened.

GOALS AND PURPOSES OF THE UNIVERSITY OF AKRON

The commitment of The University of Akron has been and continues to be the dissemination and pursuit of knowledge, the nurturing of intellectual curiosity, the search for truth, and a conscious effort to serve the community of which it is a part. This outline of goals and purposes provides a further definition of this commitment and serves as a basis upon which the individual colleges, departments, and service units of the University establish realistic program objectives with specificity, practicality, and accountability.

GOAL I

The University will plan, develop, implement, and measure all of its efforts in light of its primary purpose to provide optimum learning opportunities for students of a variety of ages, backgrounds, and needs.
Some Policies and Procedures to Achieve Goal

A policy of open admission ans selective retention for graduates of accredited high schools will be continued. While giving particular attention to serving students from Northeastern Ohio, the University will also endeavor to attract more students from the rest of Ohio, other states, and countries. Program offerings, both credit and non-credit, as well as course accessibility and scheduling will recognize that the University's constituency includes:
- recent high school graduates;
- persons transferring from other institutions;
- older persons with lifelong learning commitments or with specific learning or self-enrichment needs;
- persons who can attend only part-time;
- persons who must interrupt their attendance from time to time;
- persons who can attend only at night.

The University will utilize its urban environment in providing learning opportunities for its students. Program counseling for students will take into consideration their desires and interests as well as their aptitudes and academic potential. Both student need and academic achievement will be considered when granting financial assistance. Assistance will be provided to students in locating employment commensurate with their competence and interests.

GOAL II

The University will continue to develop its faculty resources by emphasizing improvements in teaching and professional growth through research, publication, and creative activities; by providing opportunities for them to increase leadership within their academic disciplines; and by encouraging the integration of community services and appropriate faculty activities.

Some Policies and Procedures to Achieve Goal

The University will continue its preeminence as a teaching institution by employing only well qualified faculty and by expanding opportunities for them to become more effective. The University will encourage and assist faculty members to secure outside support for research and creative activities related both to their teaching and to the advancement of knowledge. Faculty members will be encouraged to publish in professional journals, to take editorial responsibility for the publication of national journals, and to demonstrate their creative work in shows and performances. Resources will be made available for the Library, Computer Center, and Media services to secure the materials, information, and services necessary to support teaching, research and scholarly activity. Teaching, research, creative activities and community involvement will be considered when faculty performance is evaluated.

GOAL III

University programs and the teaching/learning process will be designed to fulfill the students' varied academic needs to emphasize quality and to reflect the comprehensive role of the urban university in modern society.

Some Policies and Procedures to Achieve Goal

The University will encourage a continuous search for improved ways and means of conducting the teaching/learning process. Current programs and curricula will be evaluated continuously in relationship to this goal. New programs at all levels will be developed on a selective basis to meet changing technological, social and cultural needs within the resources available. All undergraduate programs will contain a general education experience, including courses in the social sciences, the humanities, and the natural sciences. An honors program will be provided for those with outstanding intellectual capability and motivation. Priority for new doctoral and master's degree programs will be based on demonstrated needs of contemporary society and the academic disciplines, the need to maintain quality, the resources available, and the enrollment potential. Inter-institutional cooperation in offering academic programs, both undergraduate and graduate, will be encouraged where appropriate.

GOAL IV

The University will maintain an eminent position of service to the urban community through its programs, faculty, and students.
Some Policies and Procedures
to Achieve Goal

Evening scheduling of degree programs as well as continuing education programs will continue to increase. The University will continue to encourage faculty to conduct research related to urban problems and to utilize their expertise in public service activities in the community.

Selective programming in the visual and performing arts will contribute to Akron's cultural renaissance. The University's urban setting will be utilized as a "laboratory" for students to gain a variety of experiences related to their course work, to develop their cultural awareness, and to acquire those skills necessary to learning in a complex society.

Accreditation . . .
The University's Standing

Any educational institution is as strong as the level of excellence which it demands of itself, as well as of its faculty and students.

The University of Akron has set high standards for itself. Since 1914 it has been approved by the recognized regional accrediting agency, North Central Association of Colleges and Schools. Last summer the University was reaccredited at the highest level, as a comprehensive doctoral degree-granting institution. Special accreditation for particular programs of study have also been awarded by the following accrediting agencies: American Chemical Society, National Accrediting Agency for Clinical Laboratory Sciences, Engineer's Council for Professional Development, National Council for Accreditation of Teacher Education, Ohio State Department of Public Instruction, American Assembly of Collegiate Schools of Business, National Association of Schools of Music, Ohio State Department of Public Instruction, American Speech and Hearing Association, American Dietetic Association, National League for Nursing, Ohio Board of Nursing Education and Nurse Registration, American Bar Association, Association of American Law Schools, and League of Ohio Law Schools.

The University of Akron is a member of the following organizations: American Council on Education, American Society for Engineering Education, Ohio College Association, American Association of Community and Junior Colleges, the American Association of Colleges for Teacher Education, holds associate membership in the International Council on Education for Teaching and membership in the National League for Nursing, Department of Baccalaureate and Higher Degree Programs.

The School of Law has membership in the Association of American Law Schools and League of Ohio Law Schools and is fully approved by the American Bar Association, the State of New York Court of Appeals and the Council of The North Carolina State Bar.

The University is also a member of the American Society for Training and Development, Association for Continuing Higher Education, United States Association of Evening Students, Ohio Council on Continuing Higher Education, National Association of Summer Sessions, North Central Conference on Summer Schools, and the University Council on Education for Public Responsibility.

Women graduates of the University with approved baccalaureate degrees (requiring at least two years or a minimum of 60 credits of non-professional, non-technical work credited toward a B.A. degree) are eligible to membership in the American Association of University Women.

Accreditation assures a student that his/her degree is recognized and approved by select regional and national educational associations, societies and councils.

A student has the security of knowing that credits earned at this University have transfer value to comparable institutions of learning just as incoming transfer students learn by checking this list that The University of Akron can be expected to honor most of their credits earned at a similarly accredited college or university.

For students taking pre-professional courses in order to enroll eventually for subsequent study in advanced fields such as medicine, dentistry, law or theology, there is the assurance that courses taken at The University of Akron will prepare them to be accepted by a graduate or professional school where they can specialize further.

For students intending to meet the University requirements for a bachelor's degree or associate degree and then enter their chosen profession or vocation, there is the satisfaction of knowing that this degree will be respected whenever they present their credentials to a prospective employer.
Academic Offerings

The University of Akron's academic offerings cover the complete educational spectrum from two-year associate degree programs, through four-year baccalaureate programs, to master's degree programs as well as programs of study leading to the doctorate.

The first year student may be enrolled in either the General College, obtaining the background in General Studies required for transferring to one of the University's Upper Colleges, or may be enrolled in the Community and Technical College, taking courses that will earn an associate degree at the end of two years.

By the time a student who is aiming toward a baccalaureate degree reaches the second year, he/she has completed many of the General Studies courses and is ready to enter an Upper College. It is in the Upper College of his/her choice that he/she begins devoting more and more time and attention to a specific area of study.

The student may also be one of the hundreds of graduate students working toward a master's degree. Or, the student may have completed the earlier programs and be engaged in the scholarly study and research essential to preparation for a doctoral degree in chemistry, history, polymer science, psychology, education, engineering, or sociology.

ASSOCIATE PROGRAMS

In this fast-paced age of technological development, a need has grown for persons trained specifically for work in the semi-professional, technical and highly skilled classifications. Most critically needed are lab technicians, health technicians, engineering assistants, sales people, supervisors, secretaries, and management assistants.

COMMUNITY AND TECHNICAL COLLEGE

The University of Akron began offering programs aimed toward helping society meet such needs in 1937 when it introduced its Community College program. Initially offering only non-credit studies, the Community College expanded rapidly and in 1959 the University began offering associate degree programs in a variety of fields through its General College.

The demand for such training has continued to grow. As a result in 1964, the associate degree programs were separated from the General College and the Community and Technical College was established.

The Community and Technical College offers credit courses leading to an associate degree at the end of a two-year program of study in the areas of: Arts, Business Management Technology, Chemical Technology, Commercial Art, Community Services Technology, Criminal Justice Technology, Cytotechnology, Data Processing, Educational Technology, Electronic Technology, Fire Science Technology, Food Service Management, Industrial Technology, Instrumentation Technology, Mechanical Technology, Office Services Technology, Respiratory Therapy Technology, Sales and Merchandising, Secretarial Science, Surveying and Construction Technology, and Transportation. In addition, the College offers a certificate program in Real Estate.

BACCALAUREATE PROGRAMS

In 1935 The University of Akron pioneered a concept in general education in the belief that all college students should have mastered basic courses in the humanities and the social and physical sciences. Students, even those aiming toward careers in such vocationally-directed fields as engineering, chemistry, or business administration, benefit from these "know-why" courses.

GENERAL COLLEGE

students seeking a baccalaureate degree who are enrolling in the University with less than 30 semester credits, study in the General College before transferring to an Upper College. Here they develop the ability to understand and express ideas effectively and to comprehend the processes involved in accurate thinking. They learn the responsibilities of an educated member of society, as well as learning to understand themselves and their individual abilities.

After completing their courses of study in the General College, students seeking a baccalaureate degree enter one of the following upper colleges:

COMMUNITY AND TECHNICAL COLLEGE—

offers two programs leading to baccalaureate degrees; both are designed as transfer programs which permit qualified engineering technology students to continue their education to the baccalaureate level. During his first and second years the student follows an associate degree program in the corresponding engineering technology. The
third and fourth years provide the additional study required for the baccalaureate degree in either electronic technology or mechanical technology.

**BUCHTEL COLLEGE OF ARTS AND SCIENCES—**

is organized in divisions of the humanities, natural sciences and social sciences, and furnishes a broad, thorough liberal education as well as preparation necessary for the medical, dental and legal professions. Baccalaureate degrees conferred in the liberal arts area are the Bachelor of Arts, Bachelor of Science, Bachelor of Science in Labor Economics, Bachelor of Science in Medical Technology, and Bachelor of Science in Political Science/Criminal Justice.

**COLLEGE OF ENGINEERING—**

offers a five-year optional co-op program of courses leading to a Bachelor of Science in Chemical, Civil, Electrical and Mechanical Engineering, Bachelor of Science in Engineering and the Bachelor of Construction Technology. The five-year program is arranged on the highly successful cooperative work-study plan that bridges the gap between academic college training and practical industrial experience.

**COLLEGE OF EDUCATION—**

furnishes the necessary preparation for prospective teachers in elementary and secondary schools as well as for health, physical education, and special education teachers. All courses and programs comply with State certification requirements and degrees of Bachelor of Science in Education, Bachelor of Arts in Education, and Bachelor of Science in Technical Education are offered.

**COLLEGE OF BUSINESS ADMINISTRATION—**

offers professional programs in business to prepare students for careers in commerce, industry and government. Undergraduate degrees conferred are the Bachelor of Science in Accounting, Bachelor of Science in Business Administration and the Bachelor of Science in Industrial Management.

**COLLEGE OF FINE AND APPLIED ARTS—**

encompasses the fine and applied arts including Art, Home Economics and Family Ecology, Music, Mass Media/Communication, Social Work, Theatre Arts and Ballet, and Speech Pathology and Audiology. The College confers the following undergraduate degrees: Bachelor of Arts, Bachelor of Music, Bachelor of Fine Arts, Bachelor of Arts in Dietetics, Bachelor of Arts in Foods and Nutrition, Bachelor of Arts in Textiles and Clothing, Bachelor of Arts in Family and Child Development, Bachelor of Arts in Speech Pathology and Audiology, Bachelor of Arts in Ballet, Bachelor of Arts in Communication/Rhetoric, Bachelor of Arts in General Speech, Bachelor of Arts in Mass Media Communication, Bachelor of Arts in Theatre Arts.

**COLLEGE OF NURSING—**

offers a basic collegiate program in nursing which leads to the degree of Bachelor of Science in Nursing with a major in nursing. The program prepares nurses for all beginning positions in professional nursing.

**UNIVERSITY HONORS PROGRAM**

The University of Akron's Honors Program has been designed to recognize and to support highly motivated and achievement oriented students in any major program. Emphasizing close student faculty relationships, honors work offers unique learning experiences which should help each participant to discover his own potential, capabilities and sense of direction.

Participants are eligible for substantial honors scholarships. Honors students complete all requirements for a departmental or divisional major. They also attend interdisciplinary colloquia in the humanities, the social sciences and the natural sciences which focus on the interrelations of academic studies while exploring significant issues of our contemporary society. Every honors student is expected to complete a senior honors project which reflects his area of interest in the major field.

**CERTIFICATE PROGRAMS**

In order to add to the dimensions of the traditional disciplines, the University has established six interdisciplinary and interdepartmental programs of study. In addition to his major the student may elect to pursue one of these programs which will add a dimension of depth through concentrated work focusing on Afro-American Studies, Cartographic Specialization, Environmental Studies, Peace Studies, Planning, Latin American Studies, Soviet Area Studies, Computer Science or Real Estate.
EVENING & SUMMER EDUCATION

EVENING COLLEGE —

Education is a year-long, round-the-clock endeavor at The University of Akron. To provide educational opportunities for those who must earn their livelihood at daytime jobs, the University operates an Evening College. The courses offered in the Evening College are fully accredited, and many of the faculty members teach both day and evening courses. As a result, more than 7,500 of the University's student enrollment attended evening courses in their quest for associate, baccalaureate and advanced degrees or for added education in their chosen professions.

SUMMER SESSIONS —

For more than 40 years, the University has also offered both daytime and evening classes during summer months. Specific goals of the Summer Sessions are to permit University students to accelerate their academic progress; to help teachers work toward additional or advanced degrees or toward certification during summer vacations; to permit regular engineering students to continue their studies on schedule while working in the cooperative program; for transient students from other universities who wish to work toward their degrees during the vacation; and for high school graduates who may wish to enter the University immediately after their graduation in June.

ADVANCED STUDY

After earning a baccalaureate degree, students desiring still further education may embark on programs in either of the following:

SCHOOL OF LAW —

Provides legal education in either day or evening classes leading to the Juris Doctor degree. For admission an applicant minimally must have an undergraduate degree from an accredited college or university in an appropriate field of study.

GRADUATE SCHOOL —

Offers programs of advanced study leading to the degree of Doctor of Philosophy in Chemistry, History, Polymer Science, Psychology, Sociology, Education (Elementary, Secondary, and Guidance and Counseling), and Engineering. The Doctor of Education degree is offered in Educational Administration. The Graduate School also offers programs of study leading to the Master's Degree with majors in the following areas: Accounting, Biology, Business Administration (Accounting, Finance, International Business, Management, and Marketing), Chemical Engineering, Chemistry, Civil Engineering, Earth Science, Economics, Education (Elementary, Secondary, Elementary or Secondary School Principal, School Supervisor, Local Superintendent, Counseling, Special Education, Visiting Teacher, Reading Specialist, School Psychology, and Teaching the Culturally Disadvantaged), Electrical Engineering, Engineering, English, French, Geography, History, Home Economics and Family Ecology, Management, Mass Media-Communication, Mathematics, Mechanical Engineering, Music, Nursing, Philosophy, Physics, Political Science, Polymer Science, Psychology, Sociology, Spanish, Speech, Speech Pathology and Audiology, Statistics, Technical Education, Theatre Arts, and Urban Studies. In addition, the College of Education provides a sixth year program offering a year of study beyond the Master's degree in the area of School Superintendent.

OFF-CAMPUS ACADEMIC PROGRAMS

Since 1968, The University of Akron has offered special institutes, workshops, and courses to professional groups. The University, through its academic departments, Institute for Civic Education, Department of Special Programs, Developmental Programs and its Institutes and Centers will continue to provide "outreach" programs, whenever practical.

As an urban institution of higher learning, the University clearly identifies and supports its Public Service role. Off-Campus programs have been developed throughout the calendar year.

For further information, please call the office of the Executive Dean for Continuing Education and Public Services, 375-7028.

WAYNE GENERAL AND TECHNICAL COLLEGE

In order to better meet the needs of citizens in Wayne, Holmes, and Medina counties, the Wayne General and Technical College opened its doors in fall, 1972. This branch campus of The University of Akron enrolled over 800 day and evening students in the 1977 fall term. Six technical programs as well as the first two years of a traditional four year liberal arts program are offered leading to one of the following degrees: Associate in Applied Science in
Business Management Technology, Electronic Technology, Mechanical Technology, Retail Management Technology, Secretarial Science, or Social Services Technology.

**How to get there**

The location of The University of Akron is ideal from a traveling standpoint. Automobile travelers find Akron but a short drive south of the Ohio Turnpike that ties together the whole eastern half of the nation. The city's suburbs touch on Interstate 71 that stretches from Lake Erie to the Gulf Coast, Interstates 76 and 80 which link the nation coast-to-coast, Interstate 77 that links the area with the southeastern coast, and Interstate 90 that ties in with the New York Thruway. Bus travelers will find the Greyhound station but a short walk from the campus. And airline passengers will find Akron the terminal of limousine service from both the Cleveland-Hopkins and the Akron-Canton airports.

**Buildings**

ADMISSIONS/ALUMNI RELATIONS OFFICES: These offices are located at the corner of Fir Hill and East Buchtel Avenue. On the ground floor, the Admissions Office can assist you with applications, requirements and procedures whether you are an undergraduate, postbaccalaureate, transient, transfer, auditor or special student. On the second floor of the building, the Alumni Relations staff coordinates the University-related activities of the nearly 40,000 alumni living throughout the world.

AUBURN SCIENCE AND ENGINEERING CENTER: This complex, one of the largest academic buildings under one roof in the State of Ohio, houses the College of Engineering, the department of biology, the Institute of Polymer Science (research ac-
tivities), the scientific and engineering holdings of the University Library, and the Library for the Division of Rubber Chemistry-American Chemical Society.

AYER HALL: Ayer Hall provides classrooms and offices for the mathematics and physics departments, as well as the Testing and Counseling Bureau.

BIERCE LIBRARY: Completed in 1973 at a cost of $8 million, the Bierce Library has total holdings here and at several other locations of 811,658. The facility also houses the University Archives, an audio-visual center, a microfilm department, a map room and Herman Muehlstein rare book collection.

BUCHTEL HALL: Originally built in 1870, this structure was destroyed by fire in 1899 and rebuilt in 1901. Completely restored in 1973 following a devastating fire in 1971, it is the University's last remaining link with its predecessor, Buchtel College. It provides office space for numerous administrative officials of the University.

CARROLL HALL: Adjacent to the Gardner Student Center, Carroll Hall houses classrooms, laboratories and offices for the Center for Economic Education, the College of Nursing, the departments of counseling and special education, developmental programs, and computer assisted instruction as well as the University's planning department, audio-visual services and the Learning Resources Center.

EMILY DAVIS GALLERY: This gallery provides cultural programs in the visual arts, a showcase for the artistic achievements of students and faculty, and the finest exhibitions available of professional art work.

EAST HALL: This facility includes classrooms, an experimental theatre, the University's Day Care Nursery Center as well as offices for the Black Cultural Center, the Center for International Programs, and the honors program.

EDUCATION BUILDING: This building houses the College of Education and provides a lecture room that seats 260, nineteen general classrooms, a handicrafts room, a teaching demonstration classroom, and an auxiliary closed circuit television studio.

FIRESTONE CONSERVATORY: This facility provides classrooms, practice rooms, and offices for ballet.

GARDNER STUDENT CENTER: This facility, which serves as a unifying force in the life of the institution, houses nearly 80 percent of all nonacademic activities on campus. It provides space for bowling lanes, lounges, student activity offices and work rooms, game and billiard room, University Book Store and cafeteria and dining facilities. Also located in the complex are the student teaching office and senior placement office.

GUZZETTA HALL: Complementing the Edwin J. Thomas Performing Arts Hall, this structure houses the Dean of the College of Fine and Applied Arts, and the departments of mass media-communication, music, and theatre arts and dance. Besides providing more than 40 student practice rooms, the complex houses an impressive multi-media center, a small experimental theatre, a 300-seat recital hall, and the campus radio station.

OWER HOUSE: Designated as an Historic Place by the National Park Service, this 102-year-old mansion houses the Institute for Civic Education.

KNIGHT HALL: Provides classrooms, laboratories, and offices for the chemistry department.

PARKE R. KOLBE HALL: Houses the University Theatre, instructional media offices and studios as well as classrooms and offices for the departments of geography, and of geology.

C. BLAKE McDOWELL LAW CENTER: Housing the entire School of Law, the Center opened in 1973 and provides space for the 119,497-volume law library, classrooms, moot court room, seminar rooms and faculty offices.

LEIGH HALL: This building houses the entire College of Business Administration. John S. Knight Auditorium, located on the street level, is the site of many programs open to both campus and community.

MEMORIAL HALL: Dedicated to the memory of Summit County men and women who died in World War II, this is the center of men's and women's physical education activities. Providing offices for the departments of athletics and physical education as well as the Sports Information Office, it contains two large gymnasiums, a swimming pool, training rooms, and classrooms.

NORTH HALL: This facility houses the following administrative service departments: news service, publications, radio and television information, purchasing, duplicating services, mailing services, and staff personnel offices.

OLIN HALL: Olin Hall houses the office of the Dean of Buchtel College of Arts and Sciences and the following departments: classics, economics, English, general studies, history, modern languages, philosophy, political science, and sociology. The Center for Peace Studies, Afro-American
Studies, English Language Institute, a language laboratory and Institute for Technological Assistance are also located here.

EDWIN J. THOMAS PERFORMING ARTS HALL: Costing more than $13.9 million, this unique cultural center was formally opened during 1973. Designed to accommodate concerts, opera, ballet and theatre productions, the Hall is a masterpiece in terms of architecture, acoustics and creative mechanisms.

SCHRANK HALL: This complex provides offices, classroom space and career placement service for the Community and Technical College, and facilities for home economics and family ecology, the art department, and the Army and Air Force ROTC units.

SERVICE BUILDING 1: This building provides studios for commercial art.

SIMMONS HALL: The department of psychology and the division of science and engineering technology have offices and laboratories in this building. It also houses the History of American Psychology Archives as well as the University’s computer center.

SOUTH HALL: This facility provides additional studios for the art department.

SPICER HALL: This major student contact building houses the registrar, student services, controller, cashier, accounts payable and receivable, state university examiner and the Dean of the Evening College and Summer Sessions. In addition, the Dean of the General College, the division of counseling and advising and the department of special programs are located here.

WEST HALL: This renovated structure houses the Center for Urban Studies, the department of urban studies, the department of speech pathology and audiology, and the outpatient Speech and Hearing Clinic.

WHITBY HALL: This long-awaited addition to the Institute of Polymer Science, opened in fall, 1975, houses the academic portion of IPS. The Institute’s research activities continue in Auburn Science and Engineering Center.

Residence Halls

The University of Akron residence hall program is administered from the Office of Residence Halls located on the first floor of Bulger residence hall. Physically, the residence halls are situated in two different locations. The more centrally located area is just north of Buchtel Avenue. This complex consists of Bulger, Spanton, Orr, Ritchie, and Sisler McFawn residence halls and Robertson Dining Hall, the dining facility for all residence hall students. Bulger and Spanton Halls are high rise buildings, with a capacity for 490 men and 315 women respectively. Orr, Ritchie, and Sisler McFawn Halls are three story buildings housing women with a capacity for 123, 96, and 125 residents respectively. The remaining facilities are located on the periphery of the campus. Mitchell and Battrick Halls are located at 419/421 E. Carroll Street with capacity for 18 and 24 women respectively; Thompson Hall, 261 Spicer Street housing 39 women; Torry Hall, 282 Torrey Street housing 64 men; Alpha Gamma Delta Sorority House, 464 E. Carroll Street housing 51 women; Sumner Hall, 430 Sumner Street housing 43 men; and James Street Residence Hall, 277 E. James Street housing 12 women.

Most of the residence halls are fully air-conditioned and all are equipped with modern furniture and conveniences. The rooms are double occupancy except for a couple of three-person and four-person rooms. Each building has its own lounge and recreational areas and is equipped with laundry and vending facilities.

Gardner Student Center

The Gardner Student Center complex provides the University family and the community with a multitude of services, and is the focal point for campus relaxation and enjoyment of lectures, conferences and discussions. Within this “service center,” one can find at their fingertips: Cafeteria and Dining facilities, Student Activities Offices, Student Legal Services, the Bookstore, Faculty and Student Lounges, Placement Office, Student Teaching Office and a Student Art Store. The Student Center Director’s Office coordinates the Student Activities Program and, through the University Calendar Office, schedules meeting facilities and offers experienced personnel for planning conferences, workshops and large social events. In continual demand are the services of the Communication Center, which include information and referrals, Xeroxing and mimeograph service, mailing, literature distribution, sign making and ticket sales. There is also a “Hot Line” telephone available for fast, free communication with any campus office. The Game Room has bowling lanes, billiard tables, and amusement games.
Growth

Growth in size and facilities is part of the story of any dynamic institution and The University of Akron is no exception. In 1951 the student body numbered only 3,673 and the University's 13 acres of ground encompassed only 10 buildings. Since then, however, the student body has increased, reaching in the 1977 academic year, a high of more than 26,000. The campus has also grown, covering 128 acres with 50 buildings.

Nor is the end in sight. As rapidly as the need for an increasing number of educated minds has grown, the University has expanded. The new 83,868 square-foot, $5,500,000. Guzetta Hall was officially dedicated in the fall of 1976 providing new facilities for the Departments of Music, Theatre Arts and Dance, and Mass Media/Communication.

A new $10,045,000 Chemistry and Health Sciences building is presently under construction which will provide new facilities for the College of Nursing and the Department of Chemistry. The structure will also include additional laboratories and classrooms for the Department of Biology and the Division of Allied Health. The building should be ready for occupancy in the fall of 1978.

Thus, although situated on valuable land within easy walking distance from the heart of Akron's downtown business district. The University of Akron continues to grow. New buildings, modern equipment, expanding campus area, adequate parking facilities, comfortable residence halls and many other necessities of modern education are rapidly being added to provide the students of today and tomorrow with all the facilities required to meet the University's continuing high standards of excellence as an institution of higher learning.

Teaching Aids and Facilities

While the give-and-take relationships established through personal contact between teacher and student will always remain the keystone of the educational process, numerous studies have established the fact that imparting knowledge through the use of modern teaching technological aids makes most learning situations more effective and efficient. Concern for student learning, in keeping with these facts, resulted in the establishment, in 1967, of the Office of Instructional Media — a major step toward the creation of The University of Akron's Learning Resource Center. The Office of Instructional Media incorporates the departments of Audio-Visual Services, Electronic Systems Engineering, and the Instructional Television Center.

AUDIO-VISUAL SERVICES dates back to 1945 when the first centralized collection of instructional materials (filmstrips, slides, etc.) was purchased for the purpose of supplementing several University professors' lectures. This new service was eagerly accepted and in 1961 the scope of audio-visual services was greatly expanded. An extensive collection of moveable media hardware and mediated software is housed in the Audio-Visual Services area for faculty and student use.

Audio-Visual Services also has a Materials Production Division which prepares original artwork and photographic materials used by instructors for reinforcement of classroom learning principles.

ELECTRONIC SYSTEMS ENGINEERING was brought under the Instructional Media Department's direction in 1972 to compliment the degree of sophistication required by the Audio-Visual Services and the Instructional Television Center in the area of facilities planning, installation of satellite learning resource areas and the maintenance of electronics equipment. In addition, the Electronic Systems Engineering operates the Instructional Media Distribution Center which transmits video tapes and audio taped lectures as well as remedial and enrichment materials. The Center transmits via 24 video channels and 15 audio channels to most classroom buildings on the University campus.

THE INSTRUCTIONAL TELEVISION CENTER, which was made operational in 1960, functions as an effective teaching tool through continuous production of lectures originating from the University's Instructional Television Center and are transmitted via co-axial cables of campus
classrooms from the Instructional Media Distribution Center. This has proved to be a successful means of presenting educational material to an expanding number of students while maintaining the values of traditional professor-to-student relationships as well as adding new values to the teaching process. Annually, an estimated 7,000 students receive part of their instruction by television.

The University of Akron together with Kent State University and Youngstown State University program and produce learning and information materials for Northeastern Educational Television of Ohio, Inc. (NETO) via Channels 45 and 49.

WAUP-FM AND THE RADIO WORKSHOP are integral parts of the Department of Mass Media/Communication. Students gain invaluable experience in mass media by writing, producing, and presenting programs over the University's radio station WAUP-FM. Active participation in the Radio Workshop is open to all qualified students and many professional careers have begun in these radio-television studios.
THE STRUCTURES, MATERIALS, AND MECHANICS LABORATORY, one of the modernly-equipped facilities of the Department of Civil Engineering, provides training for students interested in structures, foundation engineering, and structural, solid, fluid and soil mechanics.

The Laboratory, equipped with an ElecTo-Matic torsion testing machine and Universal hydraulic testing machines, is used by undergraduate and graduate students and also by faculty members for studies and research.

Faculty and students also have access to hardness testers, an electronically-controlled MTS closed-loop materials testing system, a seven-channel, six-speed tape recorder, strain gage indicators and vibration systems.

Additional equipment includes a complete soil mechanics laboratory, an hydraulic demonstration channel, a modern moisture room, a loading platform, load cells, hydraulic jacks and items for general use.

THE SPEECH AND HEARING CLINIC, of the Department of Speech Pathology and Audiology functions as both a service and a practicum training component of the traditional academic program of training-service-research. The clients served in the Clinic provide the practicum experience needed by student clinicians in training, while receiving badly needed therapeutic service for themselves. The Clinic also provides comprehensive case-finding, diagnostic, and treatment programs outside the University, i.e., in the community for persons of all ages who may experience communicative disorders resulting from problems in the areas of speech, hearing, and/or language. These valuable therapeutic services are rendered using the latest and most modern techniques and equipment. Professionally certified supervisors and teachers from the Department staff are used to oversee the student clinicians performing the services. The Clinic program is coordinated with other complementary community services in hospitals, rehabilitation centers, and community service agencies.

THE COMPUTER CENTER at The University of Akron provides: (a) the computational support to those academic efforts of research and instruction where such support is feasible, and (b) the administrative data processing to assist in the conduct of the business of the University.

The facilities of the Center are available to all students enrolled in credit (and certain non-credit) courses at the University on an “as required” basis; they are also available to faculty, staff, and administrative officers of the institution. Centrally located on campus in Simmons Hall, the Computer Center is open seven days a week — day and evenings — while school is in session.

The Academic Systems Section assists students and faculty in making effective use of the Computer Center. It provides consultation and help in preparing usable computer programs, in analysis and solution of problems where the use of the computer is indicated, and will also acquire and install prepackaged programs for specific departments. For students who encounter problems in using the computer assistance is available all week, night or day.

The Center is equipped with an IBM 370 model 158 computer with magnetic tapes, disks, remote terminals, and a wide variety of peripheral equipment. An Op-Scan optical mark scanner that prepares computer-readable tapes from specially marked forms provides fast and reliable data entry for test scoring services and surveys. The Center has available all the widely used computer languages, e.g. FORTRAN, COBOL, PL/I, RPG, BAL, BASIC, SPSS, GPSS, APL, as well as some lesser known, e.g. SNOBOL, FORMAC, WATIV, ASSIST, XPL, ALGOL, COURSE WRITER, SIMSCRIPT, etc. An extensive library of computer programs covers a wide range of disciplines for research and instructional support. Digital plotting can be provided by high-speed printer or by line drawings from a thirty-inch Cal Comp plotting machine. The “Open Shop” area includes a Digital Equipment Corporation PDP 11/40 minicomputer for “hands-on” programming used in the instructional support of computer programming. Keypunches, sorters, and various off-line equipment are available for general use by qualified faculty and students.
II.
The University of Akron
Student Activities and Services

Extracurricular Activities

Students today are concerned about their environment — in the University, in the community, and in the world. Through participation in selected extracurricular activities, a student can extend classroom experiences into relevant programs which will provide a participatory role in the community. A voice in the governance and direction of the University environment can be expressed through such groups as Associated Student Government, Residence Hall Council, Associated Women Students, Black United Students, Inter-fraternity and Panhellenic councils and the Graduate Student Council. A student might choose to contribute through the communications media of the Buchtelite or Nite Life (student newspapers), the TelBuch (University yearbook) and the television and radio networks.

Students can get involved. Nearly all student groups, including sororities and fraternities, participate in local projects which benefit some segment of our community. Because the University is located in the center of a large metropolitan area, there are many opportunities to volunteer
services in areas of need. The Akron Tutorial Project is an example of channeling the University student resources for the younger students in the educational system of our community. The Center for Concern is a campus volunteer program to match the community human service needs with the skills and interests of the students.

Currently the Extracurricular Activities subcommittee of the Student Affairs Committee, made up of faculty, students, and administrators, serves to make recommendations regarding the allocation of monies from the Extracurricular Activities Fund. This fund is a portion of the General Service Fee which the University has made available to those campus groups which program for the total campus community. As a result, a student by showing his ID card may attend athletic, musical, ballet and theatrical events, hear nationally known speakers and receive campus publications with little or no additional charge.

Students interested in forming a group must prepare a constitution and charter to be considered for registration as a University organization. Each student group has a faculty adviser who is recommended by the student members and appointed by the President of the University.

The Edwin J. Thomas Performing Arts Hall, complemented by Guzzetta Hall, provides students with the most architecturally stimulating and functional facilities in which students progress from the early learning stages to the final professional presentation of the arts. Students have opportunity to perform regularly on campus and to tour in state, national and international activities.

University students interested in music may audition for membership in the famous 250-piece Marching Band, the Concert Choir, the Jazz/Pops Vocal Ensemble, the award-winning Jazz Ensemble, the University Orchestra, the select Student/Faculty Chamber Orchestra, the Symphony Band, Men's or Women's Glee Clubs, Brass Choir, Percussion Ensemble, Woodwind Quintets, Brass Quintets, the outstanding Opera Theatre, the Evening Chorus, which performs regularly with the Akron Symphony Orchestra, and many small student ensembles.

Those who aspire to act, write or produce in theatre are encouraged to attend tryouts and to apply for technical positions. The Experimental Theatre in Guzzetta Hall is one of the most flexible designs to date. Kolbe Theatre, too, with its intimate proscenium stage is the scene for many University productions.

Those interested in mass media communication will find that Guzzetta Hall contains the most fully equipped television studios of its kind in Ohio. Students participate in the Radio-Television Workshop and broadcast regularly over WAUP-FM. WRHA broadcasts directly to the residence halls and through Akron Cablevision to the community. Students participate, too, in the University's television studio, where closed circuit television lectures originate. Forensic and debate teams provide local and national competition.

The newest of the University's performing arts concentrations is the academic program in ballet. This has resulted in the professional debut of the Ohio Ballet, a company which takes unique pride in its distinctive American style.

Performing Arts

University students have ample opportunity to develop their abilities to face the public and present "on their feet" — either to live audiences in plays, discussions, debates, recitals or the dance, or to the unseen audiences who tune them in on radio or television.

Student Publications

THE BUCHTELITE . . . a newspaper with two issues a week during the academic year. This is the campus "voice" with news, columns, and photographs describing campus events. It is published on regular newsprint, distributed to students free of charge on newsstands located in various spots on campus. A staff of about 50 students works on this publication.

TEL-BUCH . . . a yearbook with a comprehensive editorial and photographic coverage of student life at the University. This is an impressive publication of about 300 pages. Its staff usually numbers about 25 students.

NITE-LIFE . . . a monthly publication with news of interest to students in the Evening College. Each year there are 10 issues. This, too, is distributed free to students on campus newsstands.

YAWP . . . a literary magazine, published twice a year by student editors who seek expression through creative writing and art work.

ARETE . . . journals and newsletters are produced by law students to advance the goals of the profession, present opinions of contemporary issues related to law and
to facilitate communication among law students. More detailed scholarly articles are published in the AKRON LAW REVIEW.

**Sports Activities**

The University aims to provide a broad and diversified program in intercollegiate and intramural sports. All students, regardless of their athletic success or experience, are encouraged to take part.

A wide variety of intramurals ranging from flag football to tennis are offered. On the intercollegiate level the University provides 11 men's varsity sports (football, soccer, cross country, basketball, wrestling, swimming, riflery, track, baseball, golf and tennis) and two women's varsity sports (volleyball and basketball). On a club basis students may also participate in skiing, bowling, karate and skydiving, and women's softball and tennis. Over 400 students participate annually in intercollegiate and intramural sports and thousands benefit from competition on the intramural level.

Such a comprehensive athletic program must be accompanied by the necessary facilities to accommodate it. The hub of the current athletic facilities is Memorial Hall. Included in the building are two gymnasiums and a five-lane heated swimming pool. The main gymnasium, seating 3,200, is the home of both the men and women's varsity basketball teams. Adjacent to Memorial Hall is Lee Jackson Field, a 24-acre sports complex that includes an 8-lane all-weather track, a soccer field, a baseball and two softball diamonds, a basketball court and 12 tennis courts.

Three miles from the main campus sits the Rubber Bowl, the University's renovated, multi-purpose 35,000-seat stadium and an Astroturf-covered field. Besides being the site for University intercollegiate football and soccer games, the stadium also serves as a playing field for Akron area high school football teams.

All varsity athletic sports are under the control of the Director of Athletics (offices in Memorial Hall) and the Faculty Committee on Athletics. This group sets the rules for awards, honors and appointments. Students desiring information about eligibility to participate in varsity athletics should consult the Registrar.

**Social Organizations**

While in college a student learns much about himself as an individual. One of the best ways to learn who he is can be gained through group membership. There are 12 national sororities for women and 11 national fraternities and one local fraternity for men on the University campus. Although these are University-supervised, the selection of membership and government of each organization is the responsibility of each individual group in accordance with the rules of the Panhellenic Council, the Interfraternity Council, and the University.

The Greeks contribute much to the quality of our student body. They provide sound leadership on our campus and assist in the students' development of scholarship and service. Most sororities and fraternities have residence facilities in their houses. Appointment of a housemother is by the organization itself.

Fraternal organizations contribute much to the campus color of the University, conducting a "Greek Week," and competitive events such as the Interfraternity-Panhellenic Songfest. Greeks support many community service agencies with their time and talent.

Many students find the social programs of the Residence Halls and the Student Center as their channel for co-ed activities.

Black United Students have organized a group of men and women students who assist in the recruitment, orientation and adjustment of black students. BUS, in cooperation with the Black Cultural Center, presents Black History Week and other cultural programs for the benefit of all University students. In the A-Book are listed the recognized student groups which cover all facets of extracurricular activities, including the honor societies, professional fraternities, departmental organizations, and military groups. The University is proud of having chapters of the national freshman honor societies, Alpha Lambda Delta and Phi Eta Sigma, as well as the national senior honor societies, Omicron Delta Kappa and Mortar Board.

**Student Services**

The Office of Student Services is a major division of the University, the purpose of which is to provide the help needed for the student to develop academically, personally and socially. Special services are also available to the non-traditional adult student who wishes to continue studies in higher education. The facilities which help to accomplish this objective include:
COUNSELING AND ADVISING

This office is responsible for the academic counseling and advising of all freshman and sophomore level students. The Advisers are professionally-trained counselors and are prepared to help the students through academic and personal counseling on an appointment or walk-in basis.

Academic counseling helps the student adjust to the requirements of the curriculum and to utilize course offerings that will better prepare him for his future. Sensible credit hour loads, proper choice of subjects, scholastic achievement, study habits, outside work loads and other circumstances having an effect on successful work are all matters for concern in this kind of counseling.

Personal counseling is that which aids the student when problems of a personal nature are obstructing his academic career or his personal life.

FINANCIAL AIDS

The Student Financial Aids Office, which is part of the Division of Student Services, provides assistance to persons who, without financial aid, might not be able to attend The University of Akron. Five professional staff members are available to provide such assistance.

A detailed statement regarding all the programs of financial assistance can be found in Chapter III of this Bulletin. Since the process of applying for financial assistance is complicated, it is suggested that families contact a high school counselor or a university financial aid officer for additional information. The word “family” is crucial because the financial aid system assumes that the family will work together to assist a family member pay for college.

Generally, financial aid is provided in three forms: gift assistance, loan assistance and work assistance. It is not unusual for a student to have all three forms of assistance. This is called a “financial aid package.” If a person receives a proper financial aid package, it is assumed that the family will not be expected to contribute more than is reasonable for a family member’s education.

PLACEMENT OFFICE

Career placement assistance is available to students in the Placement Office in business, industry, government, private agencies, and in education. The Office is located on the ground floor of the Gardner Student Center.

For graduating students opportunities are provided for interviews with on-campus representatives of prominent businesses, industries and branches of government, including the military services and education at the primary, elementary, and secondary levels. Information of careers in both administration or teaching at the college and university level is available.

The facilities and services of the Placement Office are for students, from associate through graduate and professional degree levels and for alumni.

More than 400 interviewers come to the University each fall and spring to interview degree candidates.

RESIDENCE HALLS

The Office of Residence Halls has the responsibility of providing comfortable, safe, and healthy living accommodations for non-commuting students. The residence hall program is committed to providing a living experience which contributes significantly to the educational, social and personal development of each resident student.

The total capacity of the residence halls at The University of Akron is for 1350 students. Living in each residence hall is a trained Head Resident and selected upper-class students serving as resident assistants on each floor. The rooms are furnished, drapes provided; however, students provide their own bed linen and personal linen. The rooms are designed such that there is ample space for books and clothing. The furniture and decor are attractive and modern. Recreation areas, inside and outside, are available for all residents.

A full schedule of student planned activities is provided designed to augment the in-class activities and allow for the development and expansion of resident social, cultural, and educational interests. Individual involvement and contribution is essential for the success of these programs.

The current rate for housing accommodations and food service is $1650 per year ($825 per semester). The board plan includes 20 meals per week. All students who live in the residence halls must participate in the board plan; room is not available without board.

To the extent that any surplus space should ever become available in University residence halls or housing, the University shall enforce a rule requiring occupancy of such facilities by students attending the University.
STUDENT HEALTH SERVICE

The University constructs every facility with high safety standards and carries out this principle of maintaining physical security for its students by following stringent accident prevention measures. However, The University of Akron assumes no responsibility for student accidents incurred while attending or participating in classroom, gymnasium or laboratory work.

Increased numbers of University students have brought about the expanded Health Service facilities immediately adjacent to the Residence Halls. First aid services are available in the Health Services, and an infirmary area is provided for 12 in-patients, with facilities for Residence Hall students not requiring hospital treatment.

Complete physical records of the men and women on campus are kept in the Student Health Service Center offices. A physician and a registered nurse are on duty regularly.

Residence Hall students receive bed care for up to 72 hours, without charge. Those students receiving bed care for a greater period of time than 72 hours will be charged the daily rate which is currently charged by local hospitals for similar services.

The student who becomes seriously ill or suffers a serious injury on campus should be taken to an emergency ward of one of the local hospitals without delay. Whoever is present should call Security or an ambulance immediately in this kind of an emergency situation. The University assumes no legal responsibility or obligation for the expenses of such transportation or for medical services at the hospital.

Student health and accident insurance designed specifically for students of The University of Akron is required of all residence hall students and all international students except those who present proof that they already have similar coverage. Other students carrying nine or more credits may purchase this insurance at the annual individual rate of $68.00. The student insurance provides coverage for such items as hospitalization, surgical benefits, and in-hospital medical benefits.

STUDENT LEGAL PROGRAMS

This office represents an innovative and unique approach to providing necessary, but limited, legal assistance to students. While not providing the type of legal counseling that may be considered to be the practice of law, this office does provide assistance, guidance, and referral to students with respect to private rights which they may believe they have.

In addition to limited legal counseling with students, this office offers programs and activities which expose students and others to legal concepts which specifically affect students and which affect citizens generally.

Reports of student misconduct are directed to this office and in all cases of alleged student misconduct this office attempts to guarantee to the student the elements of procedural and substantive due process of law, thereby affording a fair and equitable procedure by which to determine the validity of misconduct charges.

This office also coordinates reference inquiries about students for purposes of employment, transfer to another university, or for other reasons. Since the collection, maintenance, use and dissemination of information concerning students is a task which must balance the individual’s "right to privacy" with the University’s and the community’s "right to know," this office is sensitive to the concept of confidentiality and the rights of students with regard to their records.

TESTING AND COUNSELING BUREAU

The Testing and Counseling Bureau provides psychological testing and professional counseling, without charge, to all students enrolled for credit at The University of Akron.

Counseling Service. The Bureau’s Counseling Service offers assistance: (1) in identifying one’s interests, aptitudes and needs for consideration in the choice of an educational or vocational goal, (2) in dealing with personal or social problems which deter one from deriving the maximum benefit from the university experience, and (3) in strengthening one’s reading and study skills.

The Counseling Service maintains a career information library for use by students. In addition, information about Fulbright and Danforth Fellowships is available.

Counseling service, individually or in groups, is available by appointment or immediately, when necessary.

Consulting is available for student organizations, and other groups, in such areas as human relations, leadership training, communications skills, etc.

Testing Service. The Bureau’s Testing Service offers a variety of testing programs such as: American College Testing, Scholas-
tic Aptitude Test, University of Akron foreign language and mathematics placement, Graduate Record Examination, Miller Analogies Test, Law School Admissions Test, and the College Level Examination Program. (Successful completion of CLEP tests can be substituted for certain course requirements of the General College.)

Religious Guidance

A significant number of people in the University community need the Gospel made real by human interaction. The campus ministry team tries to provide a loving response to every person who approaches them, by being supportive as well as by giving personal counseling.

The campus ministers see the Church as assisting the university in shaping values and in creating awareness of self-identity.

The campus ministry team sponsors Bible study, lectures, workshops, discussions, weekend retreats and social action projects.

Both Protestant and Catholic campus ministers are available at the Ecumenical Campus Ministry located in the Newman Center at 143 South Union Street.

A priest is available to all of the Eastern Orthodox faith at the Greek Orthodox Church of the Annunciation adjacent to the campus at 129 South Union Street.

There are synagogues in the city for students of the orthodox, conservative, and reformed Jewish faith. The Akron Jewish Center, located on the west side of the city, provides cultural opportunities for all students and residents of the city.

Many of the extracurricular activities groups have a faith as a focal point of the organization. These are listed in the students' handbook. The A-Book.
III. The University of Akron Admissions, Requirements, Procedures, and Cost

Types of Students

With an enrollment of 23,121, The University of Akron has several classifications of students, each seeking an education according to his/her own needs and abilities. Classifications include:

UNDERGRADUATE — One who has not earned a Baccalaureate degree and is eligible to enroll in undergraduate level credit courses.

POSTBACCALAUREATE — One who holds a baccalaureate degree from an accredited institution, who is eligible to enroll in credit courses on the undergraduate level and who has not been admitted to the Graduate School. Postbaccalaureate students apply for admission to the undergraduate college (Arts and Sciences, Education, etc.) in which they wish to earn undergraduate credit.
GRADUATE — One who holds a Baccalaureate degree from an accredited institution, has been admitted to the Graduate School, and is eligible to enroll in graduate level credit courses.

PROFESSIONAL — One who holds a Baccalaureate degree from an accredited institution and has been admitted to the School of Law.

SPECIAL STUDENT — One who does not meet the Admissions requirements but is admitted by petitioning the Dean concerned for permission to take courses for which he/she is qualified by certain abilities or maturity. A special student may not take more than 15 credits unless he/she gains official transfer to the status of regular student.

AUDITOR — One who enrolls in a course with the intention of not obtaining a quality point value grade (A-F) or a grade of NC or CR. A student must indicate that he/she is an auditor at the time of registration. Audit status may be denied if space is not available. An auditor is expected to do all prescribed course work except the writing of examinations.

TRANSIENT — From another institution — One who is regularly enrolled and eligible to continue at another institution, and who desires to enroll at The University of Akron for specified courses. Undergraduate transient students apply directly to the Admissions Office. Graduate students apply through the office of the Dean of the Graduate School.

A transient student may not, as a general rule, attempt more than 16 credits in any semester or session and is subject to all rules and regulations of The University of Akron.

From The University of Akron — A student enrolled at The University of Akron must obtain written permission of the Dean of his college before enrolling (transient student status) for credit work at any other institution. Credit for such work may be granted at the discretion of the Dean of his/her college.

Entrance Requirements

RECOMMENDED HIGH SCHOOL COURSES

All applicants, in order to increase their possibilities for success are strongly urged to complete the following preparatory courses while in high school:

- 4 units of English
- 1 unit of mathematics
- 2 units of Social Studies (including American History)
- 1 unit of natural science
- 2 additional units from any of these

Additional subject recommendations for students planning to major in Engineering, Science and Pre-Professional:

- 1½ units of high school algebra
- 1 unit of geometry
- ½ unit of trigonometry
- 1 unit of physics or chemistry

It is strongly recommended that applicants in Engineering and Nursing present additional credits in mathematics and physical science.

A prospective student who has been graduated from a regionally accredited Ohio secondary school and takes one of the college entrance tests is eligible to enroll. An applicant may submit scores from either the American College Testing Program (ACT) or from the Scholastic Aptitude Test (SAT) of the College Entrance Examination Board. Out-of-state applicants who meet the above requirements may be admitted upon the basis of the quality of their secondary school work and their standing in the entrance tests.

Students applying for admission who have formerly attended other institutions of higher learning are eligible to transfer to the University if they present satisfactory scholastic records as judged by The University of Akron officials and if the students are eligible to re-enter the institution from which they desire to transfer. Students under 25 years of age who present fewer than 12 credits or their equivalent of accredited transfer work must submit a high school transcript or G.E.D. scores. Students under 21 years of age with fewer than 12 transfer credits must submit results from the ACT or SAT test in addition to a high school transcript and G.E.D. scores. If it appears necessary to validate the transfer credits of students with more than 12 credits, the appropriate admitting officer may require the ACT battery for these persons also.

Admission is necessarily limited by the University's capacity to provide for students' educational objectives. The University reserves the right to approve admission only to those individuals whose ability, attitude and character promise satisfactory achievement of University objectives.
Admission Procedure

1. Obtain an Application Form from the Admissions Office. If your request is by mail, use this address: ADMISSIONS OFFICE, The University of Akron, Akron, Ohio 44325. Fill it out and return as soon as possible with the non-refundable Application Fee.

2. At the time of your application ask an official of your high school to send your transcript to the Admissions Office. This record of your secondary school standing must be received and evaluated before any admission action can be taken by the University. Students over 25 years of age are not required to submit high school transcripts.

3. Take Entrance Tests. You can make arrangements through your local high school to take the ACT or SAT. (The University of Akron's Testing and Counseling Bureau serves as a testing center for both of these nationally recognized tests.) These test scores are needed before an applicant is formally admitted to the University. Students over 21 are not required to submit test scores.

4. If you are a transfer applicant, request registrars of all institutions previously attended to send complete and official transcripts to the Admissions Office. If you have completed less than 12 credits of course work at other institutions and are under 21 years of age you must also submit the results of either the ACT or SAT. If you are under 25 years of age and have completed less than 12 credits of course work at other institutions you must submit a copy of your high school transcript. These documents must be received and evaluated before any admission action can be taken by the University.

5. A Health Record will be sent from the Admissions Office after you have been admitted. Take it to your family physician and after he has filled it out, return the form to the University.

6. In your letter of admission to the University, you will receive directions as to academic counseling. General College freshmen and some sophomore day students receive academic advisement through the Counseling and Advising Division of the Office of Student Services. Evening students at the same level will be advised by the Evening College. Students in the Community and Technical College or at the upper college level will be advised by a faculty member in the appropriate department.

(All checks should be made payable to: The University of Akron, and should specify what fees and for which student payment is being made.)

International Student Program

The University of Akron welcomes qualified students from other lands and seeks to make their educational experiences pleasant and meaningful. During the 1977-78 academic year approximately 300 students with citizenship other than the United States attended the University. These students represent 52 countries and are pursuing studies in a number of major fields.

ADMISSION PROCEDURES

Acceptance as a new applicant from abroad will be made only for enrollment in September, the beginning of the academic year. All admission requirements must be completed by July 1 preceding the September in which the student desires to enroll.

In addition to those records mentioned under "Admission Procedures" for all students, two additional documents are required of the international student:

1. Proof of English language proficiency. The University of Akron requires all students for whom English is not the native language to participate in the Test of English as a Foreign Language (TOEFL). This test is administered throughout the world in major cities. Applications may be obtained from bi-national agencies, U.S.I.S. offices, or by applying directly to Educational Testing Service, Princeton, New Jersey 08540. Because it normally takes 4 to 6 weeks for the University to receive the results of the TOEFL, students are encouraged to take the examination in October or January. The University cannot guarantee the student who takes the examination in March that his/her records will be processed completely before the July 1 deadline.

2. Proof of adequate financial support. The international student is requested to transmit a letter from an appropriate governmental or bank official showing that he has sufficient funds to cover the cost of his education while attending The University of Akron and that these funds will be available to him in this country. It is estimated that the international student will need a minimum of $4,500 per year for undergraduate and graduate study for his tuition and living expenses while attending The
University of Akron. Immigration regulations prevent the student from earning any substantial portion of this amount. There are virtually no scholarships available to undergraduates from abroad. Graduate students may request and often receive financial aid through fellowships and graduate assistantship. The graduate student who is interested in applying for this aid should request the necessary forms at the time he/she applies for admission.

**ORIENTATION**

International students are required to attend a special orientation program which begins two weeks before classes. During the orientation, international students are given an English language placement examination. This is an addition to the proficiency examination overseas. Students may be required to participate in non-credit English classes if it felt the results of this placement examination warrant such action.

**ENGLISH LANGUAGE INSTITUTE**

The University of Akron offers an intensive English Language Institute for international students whose command of the English Language has not reached a level of proficiency to enable them to begin full-time course work. The English Language Institute operates on a schedule of two 15 week semesters and a summer session. Applicants are required to pass a language proficiency test before they can be admitted as degree seeking university students for full-time course work.

**SPECIAL NOTE**

The University of Akron has a Dean of International Studies, a full-time International Student Adviser and instructors of English as a Second Language. If the international applicant has questions about housing, climate or immigration regulations, he is encouraged to contact the international student adviser directly.

The University of Akron is a member of The National Association for Foreign Student Affairs.

**SPECIAL INTERNATIONAL EDUCATION PROGRAMS**

The University of Akron sends students to different parts of the world as part of its continuing program "Classrooms Around the World." This program, offered for graduate or undergraduate credit, was started in 1960.

**Procedures and Requirements**

**ORIENTATION**

The first major contact a new student has with the University after having been admitted comes during an Orientation period held prior to the beginning of each semester. During Orientation, new students learn a great deal about the University and what it expects from students. They meet many of the University's administrative officers and faculty members and discuss their problems and questions with upper college students. In this way, new students have an opportunity to become acquainted with their chosen University and clear up many of the questions that arise when embarking on a new enterprise.

**COUNSELING**

During Orientation, and each term thereafter, each student sits down with a counselor to discuss his progress to date and the next logical steps toward completion of his academic program. During that session, the counselor and student together review the areas of success and of problems that the student has encountered in previous terms and determine what courses the student's academic record calls for in future terms. During that session the two then work out a list of courses to be taken during the following term.

**REGISTRATION**

Each term it is necessary for each student to select specific courses, complete the necessary forms and pay the appropriate fees. This formal process is called registration.

The student may elect to register by mail or in person. Details relative to each of these options is described in the Schedule of Classes published every academic period and available upon request from the student's advising agency: Office of Counseling and Advising Evening College or Upper College. A non-refundable late Registration Fee is assessed registrants enrolling after the official Open Registration period.

**ATTENDANCE**

Students are expected to attend all class meetings for which they are registered. Students may be dropped from a course by their Dean if they are repeatedly absent and the instructor recommends this action; students can gain readmission only with permission of their Dean and the instructor.
MODIFICATION OF STUDENT SCHEDULES

A student must register for a course before the end of the first week of the term. A student may alter the schedule of courses for which he/she is registered only with the permission of his/her Dean or Dean's designate.

Day students in the General College and first term students in the Community and Technical College should make all changes through their advisors in the Counseling and Advising Office, Spicer Hall. Evening students in these colleges should contact the Evening College Office, Spicer Hall.

WITHDRAWAL

A student may withdraw from a course for any reason up to the mid-point of a semester or summer session (the end of the eighth week of a semester and the equivalent point of a summer session) with the signature of his/her advisor.

After midpoint of a semester or a summer session, a student must have the written approval of both his or her instructor and advisor to withdraw. Such approval must be dated and signed by the instructor and advisor and turned in to the Registrar prior to the last week of classes. Should either refuse to sign the withdrawal form, the student may appeal to the Dean of his/her College, who shall make the final decision. This requirement need not be met when the student is requesting complete withdrawal from the University.

An approved withdrawal will be indicated on The University of Akron official academic record by a W. A student who leaves a course without going through the withdrawal procedure will be given an F in the course.

A student may be dropped from a course by his/her Dean if the student is repeatedly absent and the instructor recommends this action. A dismissed student may gain readmission only with the permission of the instructor and the Dean. A student dropped from a course receives an F which counts as work attempted whenever quality-point ratio calculations are made.

TRANSFER CREDIT

Course work taken at an institution of higher education in the United States of America which:

1. is fully accredited by an appropriate regional accrediting association, or
2. is not fully accredited by an appropriate regional accrediting association but which has an "A", "B", "C", or "I" listing in the Transfer of Credit Practices of Selected Educational Institutions, the American Association of Collegiate Registrars and Admissions Officers (AACRAO),

will be listed on The University of Akron official academic record. Each course will reflect the course number, title, grade, and credit value; no quality point value will appear on the record and no grade point average will be calculated for the course work listed. In addition, the name of the institution will be listed on The University of Akron official academic record as well as the time period during which the courses were taken.

For courses which have been taken at an institution of higher education of the types listed above, the Dean of the College in which the student intends to obtain the degree will specify which courses listed, other than General Studies, will apply toward the degree requirements at The University of Akron. This specification will be made at the time the student enters the degree granting college. The Dean of the General College will specify which courses listed will apply toward the General Studies requirements when the student enters the University.

For courses which have been taken at an institution which has a "B", "C", or "I" listing in the AACRAO Transfer of Credit Practices, the specification will be made by the student's Dean on a provisional basis and must be validated by successful completion of credit work at The University of Akron. The validation will normally consist of completing 16 credits of designated course work at The University of Akron with a grade point average of 2.000 or better.

TRANSIENT STUDENT

A University of Akron student may take course work at another institution of higher education as a transient student. For all courses other than General Studies, the student must obtain prior written permission from the Dean of the College in which he/she is enrolled; for General Studies courses, prior written permission must be obtained from the Dean of the General College. These courses will be listed on The University of Akron official academic record. Each course will reflect the course number, title, grade and credit value; no quality point value will appear on the record and no grade point average will be calculated for the course work listed. The name of the institution will be listed on The University of Akron official academic record as well as the date that the course work was taken.
CREDIT BY EXAMINATION

A student interested in earning credits by special examination may do so with the permission of the Dean of his/her college and the Dean of the college in which a particular course is offered and by payment of the Special Examination Fee of $12.00 per credit. The grade obtained in such an examination is recorded on the student's permanent academic record. Credit by examination is not permitted in the quarter before graduation.

CREDIT/NON-CREDIT OPTION
(UNDERGRADUATE AND POST-BACCALAUREATE ONLY)

1. Students who take a course on a "Credit" or "Non-Credit" (CR/NC) basis, and who earn a grade equivalent to A through C, shall receive credit (CR) for the course and have the grade, CR, placed on their permanent record; a grade equivalent to D+ through F will be recorded with the Non-Credit grade, NC.

2. Students who have completed 50% of the number of credits required for a degree with a G.P.A. of at least 2.3, shall be allowed, with the consent of their adviser, to take one free-elective* course per term on a CR/NC basis.

3. With the consent of the student's adviser, the first or second year of foreign languages may be taken on a CR/NC basis at any time the student is registered, and regardless of the G.P.A.

4. No more than 15 credits of non-language courses and no more than 20 credits in total, including language courses, may be taken on a CR/NC basis. (For an associate degree, half this number is permitted).

5. The election to take a course on a CR/NC basis can be made only at the time of registration for that course. Students who elect to take a course on a CR/NC basis cannot withdraw and register to take that course for a letter grade after the first week of that term. The Registrar will notify the instructor by means of the final class list of those students who have elected to utilize the CR/NC option.

6. Courses for which CR is awarded will be counted as hours completed only; courses for which NC is awarded shall not be counted as hours attempted; in neither case shall CR or NC be considered in calculating grade-point average, but in both instances the course shall be entered on the student's permanent record.

7. A student may repeat a course for Credit (CR), or a quality point grade (A-F) after receiving a grade of NC.

8. A College may, due to a closed class problem, designate in the printed schedule, on an annual basis, a course as not available to be taken on a CR/NC basis.

9. Students taking the course on non-credit basis are expected to meet the full requirements of the course as required by the instructor.

RE-EXAMINATION

A student may not request re-examination in order to raise a grade.

REPEATING COURSES

Any course may be repeated as many times as necessary by an undergraduate student subject to the following conditions:

1. In order to secure a quality point value grade (A-F) or a grade of NC, CR or AUDIT, the student may repeat a course in which he/she previously received the grade of D+, D, D-, F, AUDIT or NC. Registrations under the CR/NC option are subject to the restrictions in the CR/NC policy.

2. The student must repeat the same course within 12 months of the completion of the prior attempt unless given special permission by the student's Dean to extend this period or substitute another course if the previous course is no longer offered. Such course must be repeated at The University of Akron.

3. Grades for all attempts at a course will appear on the student's official academic record.

4. Only the grade for the last attempt will be used in the grade point average.

5. All grades for attempts at a course will be used in grade point calculation for the purpose of determining graduation with honors and the student's class standing.

6. For purposes of this section, credit for this course or its equivalent will apply only once toward meeting degree requirements.

ACADEMIC REASSESSMENT

An undergraduate student who has not attended an institution of higher education (which is fully accredited by an appropriate regional accrediting association or which has an 'A' listing in the Report of Credit Given, the American Association of Collegi-
ate Registrars and Admissions Officers) for at least three calendar years and enrolls at The University of Akron and maintains a grade point average of 2.5 or better for his/her first 24 credits may petition his/her Dean to delete from his/her grade point average the grades of his/her previous enrollment at The University of Akron. If the student qualifies, all previous grades will be deleted from the grade point average up to the maximum allowed.

The number of credits deleted from the grade point average shall not exceed 30 percent of the hours required for the degree objective of the student. If the number of credits earned before the three year interval exceeds 30 percent of his/her degree requirements, the 30 percent factor will apply to the first credits earned.

This policy is to apply only to the grade point average. All grades will remain on the student's official academic record. A student may utilize this academic reassessment policy only once.

In the determination of graduation with honors and in the determination of the student's class standing, all grades obtained at The University of Akron shall be used in the calculations.

**DISCIPLINE**

Continuation as a student of the University is dependent on the maintenance of satisfactory grades and conformity to the rules of the institution.

**GRADES AND THE GRADING SYSTEM**

Students at the University receive grades on various types of classroom performance during the progress of most courses and a final grade at the end of the term. At the end of the term, the Registrar's office mails grade reports to student's home addresses; summer grade reports are mailed for both summer sessions at the end of the second summer session.

Individual tests throughout the course are usually graded with percentage or letter marks, but permanent records are maintained with a quality point system.

This method of recording grades is explained as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points Per Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
</tbody>
</table>

The following grades may also appear on the term grade reports or on the permanent record: there are no quality points associated with these grades:

I = Incomplete. Means that the student has done passing work in the course but that some part of the work is, for good and acceptable reason, not complete at the end of the term. Failure to make up the omitted work satisfactorily by the end of the following term, not including summer sessions, converts the "I" to an "F." When the work is satisfactorily completed within the allotted time the "I" is converted to whatever grade the student has earned.

IP = In Progress. Means that the student has not completed the scheduled course work during the term because the nature of the course does not permit completion within a single term. Such work toward a thesis.

PI = Permanent Incomplete. The student's Instructor and the Instructor's Dean may for special reason authorize the change of an incomplete "I" to a Permanent Incomplete (PI).

W = Withdraw. Indicates that the student registered for the course but withdrew officially sometime after the second week of the term.

NGR = No Grade Reported. Indicates that, at the time grades were processed for the present issue of the record, no grade had been reported by the Instructor.

INV = Invalid. Indicates the grade reported by the Instructor for the course was improperly noted and thus unacceptable for proper processing.

*If the instructor wishes to extend the "I" grade beyond the following term for which the student is registered, prior to the end of the term he/she must notify the Registrar's Office in writing and indicate the date of its termination. It is the responsibility of the student to make arrangements to make up the incomplete work. The faculty member should submit the new grade to the Registrar's Office in writing.

**IMPORTANT OF GRADES**

1. A student becomes either eligible or ineligible to remain at the University, according to the quality point value of each grade for each course which he/she has completed.

2. The student who maintains specified levels of scholastic achievement receives privileges to participate in extra-curricular activities.

3. On the basis of grades, students receive opportunities to take additional courses which will accelerate their academic progress.

4. A student must maintain a quality point average of at least 2.0 (C) and complete approximately 30 credits to be eligible to be transferred to an upper college from the General College. His/her acceptance is dependent on the approval of the Dean of the upper college which he/she has chosen to enter and on his/her academic performance to date.

5. To receive a degree, each student must have attained a quality point average of at least 2.0 for all work taken at The University of Akron.

6. High grades are essential for persons to go on into graduate work.
PROBATION, DISMISSAL

A student who fails to maintain a quality point average of 2.0 (C) is placed on academic probation and may be subject to a change of courses, suspension or some other form of discipline. Academic discipline is determined by the Dean of the college in which the student is enrolled. Reinstatement of a student is determined by the Dean of the college from which he/she was dismissed.

Students who have been dismissed from the University are not eligible to register for credit courses until readmitted.

GRADUATION WITH HONORS

If students have earned 60 or more credits at the University, the students receiving their initial baccalaureate degree will be graduated "summa cum laude" if they have an overall quality point average of 3.75 or higher; they will be graduated "magna cum laude" if their overall average is between 3.50 and 3.74; and "cum laude" if it is between 3.25 and 3.49.

Students receiving the first two-year associate degree who have earned a quality point ratio of 3.25 or higher for all work taken and who have a minimum of 30 credits at The University of Akron are honored at graduation with the designation, with distinction.

REQUIREMENTS FOR BACCALAUREATE AND ASSOCIATE DEGREES

A candidate for the Baccalaureate or the Associate degree must:

1. File an application for graduation with the Registrar
   a. If you plan to complete degree requirements at the end of fall semester, submit an application by or before June 15.
   b. If you plan to complete degree requirements at the end of spring semester, submit an application by or before December 15.
   c. If you plan to complete degree requirements at the end of summer sessions, submit an application by or before April 15.

2. Earn a minimum 2.000 grade point average as computed by the Registrar for work attempted at The University of Akron consistent with the REPEATING COURSES policy. The GPA achieved at the time of completion of requirements for a degree will be used to calculate rank in class and honors.

3. Earn the minimum grade point average specified in the CREDIT AND GRADE POINT REQUIREMENTS FOR GRADUATION TABLE as computed by the appropriate college and/or major department for work attempted in the major field at The University of Akron consistent with REPEATING COURSES policy.

4. Meet all degree requirements which are in force at the time a transfer is made to a degree granting college. If the student should transfer to another major, then the requirements should be those in effect at the time of the transfer. For a student enrolled in an associate degree program in the Community and Technical College, the requirements shall be those in effect upon entrance into the program.

5. Be approved for graduation by the appropriate college faculty, University Council and Board of Trustees.

6. Complete the requirements for a degree in not more than five calendar years from the date of transfer, as defined below. In the event the student fails to complete the degree requirements within five calendar years from the date of transfer, the University reserves the right to make changes in the number of credits and/or courses required for a degree.

   The date of transfer for a student in a baccalaureate program will be the date that the student is accepted by the degree granting college. For a student enrolled in an associate degree program in the Community and Technical College, the date of transfer refers to the date of entrance into the program.

7. Earn the last 32 credits in the baccalaureate degree total or 16 credits in the associate degree total in residence at The University of Akron unless excused in writing by the Dean of the College in which the student is enrolled.
8. If a student who has transferred from another institution wishes to present for his/her major fewer than 14 credits earned at The University of Akron he/she must have the written permission of both his/her Dean and head of the department concerned.
9. Discharge all other obligations to The University of Akron.

REQUIREMENTS FOR ADDITIONAL BACCAULAUREATE AND ASSOCIATE DEGREES

1. Meet all the requirements given in the section Requirements for Baccalaureate and Associate Degrees.
2. Earn a minimum of
   a. 32 credits which have not counted toward the first baccalaureate degree.
   b. 16 credits which have not counted toward the first associate degree.
3. Earn the above credits in residence.

CHANGE OF REQUIREMENTS

To better accomplish its objectives, the University reserves the right to alter, amend, or revoke any rule or regulation. The policy of the University is to give advance notice of such change, whenever feasible.

Unless the change in a rule or regulation specifies otherwise, it shall become effective immediately with respect to each student who subsequently enters the University, whatever the date of his/her matriculation.

Without limiting the generality of its power to alter, amend, or revoke rules and regulations, the University reserves the right to make changes in degree requirements of students enrolled prior to the change by:

1. Altering the number of credits and/or courses required in a major field of study.
2. Deleting courses.
3. Amending courses by increasing or decreasing the credits of specific courses, or by varying the content of specific courses.
4. Offering substitute courses in the same or in cognate fields.

The Dean of a College, in consultation with the Department or Division Head of the student's major field of study, may grant waivers in writing, in the event a change in rules affecting degree requirements operates with undue hardship upon a student enrolled before the change was effective. The action of the Dean of the College in granting or refusing a waiver must be reviewed by the Vice President and Provost on his own motion, or at the request of the Dean of the College of the student affected or at the request of the student affected.

### Fees and Expenses

(Fees subject to change without notice)

Despite willingness of taxpayers and generous friends of the University to help support higher education, some portion of this total expense must be borne by the student. Typical costs for one year (September through June) based on an average academic load of 32 credits for the two semesters are:
Following are comprehensively outlined fees for students at the University who are studying for credit and noncredit in all areas of instruction. Included also are the additional expenses required for special academic services available to students such as private music lessons, thesis-binding, etc.

It is the responsibility of the student to know the correct amount of all fees including the non-Ohio resident surcharge.

In any question concerning fees, surcharge, or residence, it is the responsibility of the student, his parents, or court-appointed guardian, to furnish such proof as may be required by The University of Akron. Students who are in doubt about their residency status should consult with the University Registrar.

It is the responsibility of the Registrar to assess fees and surcharges at the time of registration; information given by the student at that time is used in the assessment. Each registration is later audited by the University Auditor, and appropriate additional charges or refunds will be made.

All fees and surcharges are due at the time of registration or on the specified fee payment deadline. The status of the student as of the opening day of the semester or session for which he is registered, will determine the final, correct amount of fees and surcharges.

FEES

(Fees subject to change without notice.)

1. INSTRUCTIONAL FEE* (ALL STUDENTS)

<table>
<thead>
<tr>

<td>$338 per semester</td>
<td>$338 + 24 per credit over 16</td>
</tr>
</tbody>
</table>

Graduate and Professional (Law)

1 or more credits 38 per credit

2. TUITION SURCHARGE* (Non-residents of Ohio pay the surcharge in addition to the Instructional Fee)

| Undergraduate | ½ or more credits | $30 per credit |

Graduate and Professional (Law)

| 1 or more credits | 15 per credit |

*Does not include special or miscellaneous fees, i.e., music, late registration, etc. Zero credit courses are charged on the basis of the number of hours of class per week.

3. GENERAL FEE

| Undergraduate | $9 per credit to a maximum of $62 per semester (Maximum General Fee for two combined Summer Sessions is $82) |

Graduate and Professional (Law)

| Part time (8½ or less credits in any semester) | $24 per semester |

| Part time (8½ or less credits in any semester) | 10 per semester |

4. ADMISSION APPLICATION FEE (non-refundable)

| Undergraduate and Postbaccalaureate | $20 |

| Entering Graduate Student | 20 |

| Entering School of Law Student | 20 |

| Transient Student (each period of enrollment) | 20 |

5. SPECIAL FEES

Late Registration Fee

Charged to students who have not completed registration and paid fees by the end of Open Registration $20

Music Fees*

Private lessons in Band Instrument, Organ, Piano, Violin and Voice (in addition to normal instructional fees):

Two ¼ hour lessons per week (Undergraduate) 83

Two ½ hour lessons per week (Graduate) 83

One ½ hour lesson per week (Undergraduate) 42

One ½ hour lesson per week (Graduate) 42

*These fees in addition to the instructional credit hour fee.

Thesis and Binding Fees

Binding (per volume) 7

Microfilming (for Ph.D. degrees only) 31

Graduation Fees

Each Degree 12

In Absentia, per degree (add'l) 2

Late Application Charge 5

Department of Special Programs & ICE

Charge will be based on contact hours. The number of hours will be dependent upon the course and costs. 2-5 per contact hour
6. MISCELLANEOUS FEES

A.C.T. Test $8.50
Education Administration Battery 6
Miller Analogies Test 8
Transcripts (if more than one copy is ordered at the same time, the fee is $5.00 for each additional copy) 2
I.D., late or lost 5
Credit by Examination (Undergraduate and Postbaccalaureate), per credit 12
Student Teaching Fee 25
Language Tape Rentals (refundable) 10
 Locker Fee ($2.00 refundable) (September-June) 6
 Locker Fee, Physical Education and Schrank Hall ($2.00 refundable) per semester 5
 Towel Rental 5
 Change of Course Registration (add/drop) 4
 Laboratory Breakage and Late Service Deposit (refundable) 10
 “Insufficient Funds” or Returned Check Charge 5
 Co-op Course Fee 23

7. PARKING FEES

Students enrolled for 9 or more credits per semester $30
Students enrolled for 8 1/2 or fewer credits per semester 15
Summer Session students, per session 10
Workshop participants up to 8
Department of Special Programs 5 per course
Off-Campus Instruction Students up to 10

ROOM AND BOARD

Residence hall facilities are available for the housing of a limited number of undergraduate students. The current total cost of housing accommodations and food service is $825 per semester or $1650 per year. All students who live in the residence halls must participate in the provided 20 meals per week board plan.

Students living off campus may participate in the residence hall board program, the current rate being $420 per semester.

VETERANS' EXPENSES

Disabled veterans who are eligible for admission to the University may register for courses without payment of fees if they have been authorized for training by the V.A. If they have not been authorized, payment of all fees is required. However, the University will return to the veteran the payment made when the official authorization is received.

Non-disabled veterans must pay their fees at the time they register. They will receive direct payment from the V.A. after their enrollment has been certified under the provision of USC Title 38.

Ohio Veterans Bonus Commission recipients may arrange with the Accounts Receivable Office to have the Ohio Bonus Commission billed directly for tuition charges only.

Dependents of veterans covered under other provisions of USC Title 38 must pay their fees at the time of registration. The V.A. will make direct payment to the eligible payee.

AUDITORS

The fees for an auditor in any course or group of courses are the same as if taken for credit.

STUDENT HEALTH AND ACCIDENT INSURANCE

Student health and accident insurance designed specifically for students of The University of Akron is required of all residence hall students and all international students except those who present proof that they already have similar coverage. Other day students carrying nine or more credits, graduate students carrying six or more credits may purchase this insurance, at the same annual individual rate, through the Health Services office.

RULES GOVERNING NON-RESIDENT SURCHARGE

RESIDENCY REQUIREMENTS

Payment of non-resident tuition surcharge is required of any student who does not qualify as a permanent resident of Ohio as defined by one or more of the following sections which became effective 1 September 1973 and shall continue in effect until recission or amendment.

OHIO STUDENT RESIDENCY FOR TUITION SURCHARGE PURPOSES

A. Definitions

For purposes of this rule:
1. A resident of Ohio “for all other legal purposes” shall mean any person who maintains a 12-month place of residence in Ohio, who is qualified as a resident to vote in
Ohio and receive state welfare benefits, and who may be subjected to tax liability under Section 5747.02 of the Revised Code: provided such person has not, within the time prescribed by this rule, declared himself or herself to be or allowed himself or herself to remain a resident of any other state or nation for any of these or other purposes.

2. "Financial support" as used in this rule, shall not include grants, scholarships and awards from persons or entities which are not related to the recipient.

3. An "institution of higher education" as used in this rule shall mean any university, community college, technical institute or college, general and technical college, medical college or private medical or dental college which receives a direct subsidy from the State of Ohio.

B. General Residency for Tuition Surcharge Purposes
The following persons shall be classified as residents of the State of Ohio for tuition surcharge purposes:

1. Dependent students, at least one of whose parents or legal guardian has been a resident of the State of Ohio for all other legal purposes for 12 consecutive months or more immediately preceding the initial enrollment of such student in an institution of higher education.

2. Persons who have resided in Ohio for all other legal purposes for at least 12 consecutive months preceding their initial enrollment in an institution of higher education and who are not receiving, and have not directly or indirectly received in the preceding 12 consecutive months, financial support from persons or entities who are not residents of Ohio for all other legal purposes.

3. Persons who reside and are gainfully employed on a full-time or part-time and self-sustaining basis in Ohio and who are pursuing a part-time program of instruction at an institution of higher education.

C. Specific Exceptions and Circumstances

1. A person on active duty status in the United States military service who is stationed and resides in Ohio and his or her dependents shall be considered residents of Ohio for these purposes.

2. A person who enters and currently remains upon active duty status in the United States military service while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile.

3. Any alien holding an immigration visa shall be considered a resident of the State of Ohio for tuition surcharge purposes in the same manner as any other student.

4. No person holding a student or other temporary visa shall be eligible for Ohio residency for these purposes.

5. A dependent person classified as a resident of Ohio who is enrolled in an institution of higher education when his or her parents or legal guardian remove their residency from the State of Ohio, shall be considered a resident of Ohio for these purposes during continuous full-time enrollment and until his or her completion of any one academic degree program.

6. Any person once classified as a nonresident, upon the completion of 12 consecutive months of residency in Ohio for all other legal purposes, may apply to the institution he or she attends for reclassification as a resident of Ohio for these purposes. Should such person present clear and convincing proof that no part of his or her financial support is or in the preceding 12 consecutive months has been provided directly or indirectly by persons or entities who are not residents of Ohio for all other legal purposes, such person shall be reclassified as a resident.

7. Any reclassification of a person who was once classified as a nonresident for these purposes shall have prospective application only from the date of such reclassification.

D. Procedures
Institutions of higher education charged with reporting student enrollment to the Ohio Board of Regents for state subsidy purposes and assessing the tuition surcharge shall provide individual students with a fair and adequate opportunity to present proof of their Ohio residency for purposes of the rule. Such institution may require the submission of affidavits and other documentary evidence which it may deem necessary to a full and complete determination under this rule.
Note: The Registrar shall classify a student as a bona fide resident or nonresident student at the time of registration for each term or session. The Registrar may in advance of his determination seek the advice of the Committee on Residence Status. The Committee on Residence Status means a committee comprised of the Director of Institutional Research and Systems Development who shall act as chairman, the University Registrar, the Dean of the School of Law and the University Auditor.

A student may appeal to the Committee on Residence Status from a classification by the Registrar that he/she does not qualify as a bona fide resident, by executing and filing with the Registrar a form entitled "Application for Residence Status." The Registrar may transmit this form to the chairman of the Committee who shall conduct a hearing on the merits of the application. The student may request on this form to appear personally before the Committee on Residence Status. The student may thereafter appear and may employ counsel at his/her expense. The decision of the Committee shall be final. A student has the burden of persuasion by clear and convincing proof that he qualifies as a bona fide resident. The Committee on Residence Status may require the student to submit evidence in support of the statements made on his "Application for Residence Status." The Committee shall not be bound by the usual common law or statutory rules of evidence nor by any technical or formal rules of procedure. The Committee may admit any relevant evidence in support of the student's claim or in opposition to it, may exclude evidence that is irrelevant, cumulative, is lacking in substantial probative effect. The Committee on Residence Status may make rules or procedure consistent with this regulation.

If a student's proper status is that of a nonresident, he/she shall pay nonresident tuition and interest at the rate of 6 percent per annum on the unpaid balance. A student who knowingly submits a false claim or knowingly gives false evidence in support of a claim commits an offense against The University of Akron and may be subject to disciplinary procedures.

Note: For purposes of residency determination only, enrollment of nine credit hours or more will be considered full-time.

REGULATIONS REGARDING REFUNDS

Registration does not automatically carry with it the right of a refund or reduction of indebtedness in cases of failure or inability to attend class or in cases of withdrawal. The student assumes the risk of all changes in business or personal affairs.

Fees Subject to Refund are:
1. Instructional and Nonresident Surcharge.
2. General Fee.
3. Special Programs (Informal Courses).
4. Parking (Only if permit is returned).
5. Student Teaching.
6. Laboratory Breakage and Late Service Deposit.
7. Residence Hall Fees (Note: These fees subject to special Refund Policy).

Amount of Refund is to be determined in accordance with the following regulations:

A. In full:
1. If the University cancels the course.
2. If the University does not permit the student to enroll or continue.
3. If the student dies before or during the term or is drafted into military service by the United States or if the student enlisted in the National Guard or Reserves prior to the beginning of the term in which he/she is called to active duty, presents his/her notice of induction or Orders to Active Duty. Students who enlist voluntarily for active duty, see "D" below.

B. In full less $3 per enrolled credit hour to a maximum of $30:
If the student requests in writing official withdrawal from all credit courses on or before the first day of the enrolled term. (See General Information, Change of Course Registration procedures in this Bulletin.)

C. In full less $3:
If the student requests in writing official withdrawal from Department of Special Programs courses on or before the first day of the enrolled term.

D. In part:
If the student requests in writing official withdrawal after the first day of the Fall or Spring semesters, the following refund percentages apply:
Refunds

Refund/Release and Forfeiture Policy

A contract for housing accommodations and food services at The University of Akron upon being breached by the student, or otherwise terminated by The University of Akron, is subject to the following refund provisions:

(A) a full refund of any prepaid fees (except the advance $50 rental payment) and release of other financial liability therefor under the following circumstances:

1. graduation of the student from The University of Akron;
2. academic dismissal of the student from The University of Akron;
3. non-attendance or complete withdrawal by the student from The University of Akron prior to the start of the contract term;
4. in the event mandatory or recommended participation in academic programs of The University of Akron require the student to commute regularly beyond the Akron metropolitan area (i.e., student teaching or co-op engineering assignments).

(B) with a partial refund of prepaid fees (except the advance $50 rental payment) according to the Refund Schedule below, and release of financial liability for subsequent terms covered by the contract term, in the event the student completely withdraws from The University of Akron after the start of the contract term. In such instances, the student shall not be liable for damages.

(C) with a partial refund of prepaid fees (except the advance $50 rental payment) in accordance with the Refund Schedule below:

1. in the event the University, in its sole discretion, terminates the contract for reasons related to the orderly operation of the Residence Halls, or for reasons relating to health, physical, or emotional safety and well being of the student, or for reasons relating to the health, safety, and well being of the person or property of other students, faculty, staff, or University property. In such instances, the student shall not be liable for damages and shall be released of further financial liability beyond the date of termination.
2. in the event the student breaches the contract prior to the end of the term thereof but continues to be enrolled as a student at The University of Akron. In addition, if the student has contracted for subsequent terms beyond that term in which the contract is terminated, the student shall pay as damages for breach of the term of the contract an additional amount of $100.
3. in the event that the student is dismissed or suspended from The University of Akron for disciplinary reasons in accordance with law or rules and regulations of The Board of Trustees; or, if the student is placed on terms of disciplinary probation in accordance with law or rules and regulations of The Board of Trustees, whereby such terms of probation prohibit the student from residing in University housing accommodations.

These conditions do not release the student from financial liability for any fees which are due not later than the effective date of such termination, dismissal, suspension or probation.
Refund Schedule

Beginning with the first day of the Fall and Spring semesters, the following refund percentages shall apply for all contracts for housing accommodations and food services:

<table>
<thead>
<tr>
<th>Refund Inclusive Dates</th>
<th>Applicable</th>

</tbody>
</table>

Notice Requirements

All notices of intent to break this contract must be submitted in writing to the Office of Residence Halls. If the student is a minor (under the age of 18 years), the written notification of termination must be co-signed by the student's parent or legal guardian.

Financial Aids

Financial aid for post-secondary education takes many forms and comes from many sources. In assessing the need for financial aid, a determination is made regarding the ability of the student and his/her family to pay for post-secondary education. The difference between what a family is expected to contribute and the cost of education is considered unmet need; unmet need represents the amount of money which the financial aid officer tries to award so the student can realize his/her academic potential.

In order to meet the needs of financial aid applicants, there are a number of sources from which aid can be received. The following programs represent those sources of aid for which The University of Akron selects recipients and distributes the funds. A special aid application for these programs can be obtained at The University Student Financial Aids Office.

1. National Direct Student Loan (NDSL)
2. The College Work Study Program (CWSP)
3. The Supplemental Educational Opportunity Grant (SEOG)
4. The Nursing Student Loan Program (NSL)
5. The Nursing Scholarship Grant Program (NSG)

In addition to the above, there are three other major financial aid programs in which a student may be interested. They are:

1. The Basic Educational Opportunity Grant (BEOG)
   This program is sponsored by the Federal Government and is considered to be the foundation of a financial aid package. It is available to undergraduate students only. Amounts vary from $200 to $1,600. Both half-time and full-time students can participate in the program.

2. The Ohio Instructional Grant (OIG)
   This program is sponsored by the Ohio Board of Regents and is available to full-time undergraduate students only. A separate application is required to participate in this program.

3. The Guaranteed Student Loan Program (GSLP)
   When other financial aid is not available, the GSLP can provide assistance in the form of a student loan. The program is available only at certain banks. Please check with your local bank.

There is an additional program called the UNIVERSITY ACADEMIC SCHOLARSHIP PROGRAM. Scholarships are given to outstanding high school students who apply for scholarships and outstanding scholars within the University. A separate application must be completed for one to be considered for such aid. A need analysis form is not required.

The PRESIDENTIAL SCHOLARSHIP PROGRAM was initiated for the 1975/76 academic year. At the present time, 15 scholarships are awarded each year to new freshmen. During 1977/78, the scholarship amount was $750. The Presidential Scholarship is considered to be our most prestigious scholarship.

The Honors Program of The University of Akron awards a number of scholarships each year to new freshmen. In 1977/78, the scholarship amount was $660. This combination scholarship/academic program is also considered to be a most prestigious program.

Graduate fellowships and other graduate awards are distributed by The Graduate School and, therefore, a separate application is required.

In summation, there are a number of sources of funds. Consultations with a high school counselor or a university financial aid counselor are suggested as one considers the many financial aid options.
MAJOR FINANCIAL AID PROGRAMS

BASIC EDUCATIONAL OPPORTUNITY GRANT

This program is sponsored by the Federal Government, and provides gift assistance in the form of grants ranging from $200 to $1,600 annually to students demonstrating financial need.

OHIO INSTRUCTIONAL GRANT

This program is sponsored by the State of Ohio, and provides gift assistance in the form of grants ranging from $150 to $600 annually to students demonstrating financial need. Students must be residents of Ohio, and must enroll on a full-time basis.

SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT

The University administers this federally funded program which provides gift assistance in the form of grants ranging from $200 to $1,500 annually. These grants are awarded to students who have demonstrated good academic potential and who have exceptional financial need.

COLLEGE WORK-STUDY PROGRAM

The Federal Government and the University contribute funds to this program which provides work opportunities to students who have demonstrated financial need. Every attempt is made to place students in work related to their major field of interest.

NATIONAL DIRECT STUDENT LOAN

This loan is available to students who have demonstrated financial need, and are enrolled on at least a half-time basis. Loan amounts range up to $1,500 annually. Repayment, with 3 percent interest, begins nine months after the borrower ceases to pursue course of study at a post-secondary school of education.

NURSING STUDENT LOAN

The Nurse Training Act provides for loans of up to $2,500 annually to students enrolled in the course leading specifically to a Bachelor of Science in Nursing, and who have demonstrated financial need. Repayments are similar to the National Direct Student Loan, and cancellation will be made in varying amounts for each year of full-time employment in professional nursing.

GUARANTEED STUDENT LOAN PROGRAM

The State of Ohio, through the Ohio Student Loan Commission, administers guaranteed student loans made to students by private lending institutions within the state. Students may qualify for a loan of up to $2,500 annually if they are enrolled in an eligible school of post-secondary education. Other states have similar loan programs for their residents.

LAW ENFORCEMENT EDUCATION PROGRAM

The U. S. Department of Justice, through the Law Enforcement Assistance Administration, provides for grants, administered by the University, of up to $250 per quarter for instructional and general service fees, to full-time employees of publicly-funded criminal justice agencies. The recipients must agree to remain in full-time criminal justice employment for two years after completion of the courses for which the grant was awarded. Eligible students who are attending on a full-time basis may also qualify for a loan to meet additional course expenses.

SCHOLARSHIPS, FELLOWSHIPS, and GRANTS

PAMELA ADAMSON MEMORIAL SCHOLARSHIP FUND

This endowed fund was established in 1975 by Manor Care, Inc. in memory of Pamela Adamson of Akron, a Manor Care hostess whose young life was a cheerful dedication to the comfort of others, especially to those of constant need in their senior years. Provided is tuition assistance for full-time undergraduate students preparing for careers in social services, particularly the institutionalized aged. Recipients and amount of scholarships award are determined by the University Scholarship Committee.

AIR FORCE ROTC COLLEGE SCHOLARSHIP PROGRAM

These scholarships, authorized by Public Law through the Vitalization Act of 1964, are designed to offer assistance to outstanding students who enroll in the Air Force ROTC program. Each scholarship provides for full payment of tuition, laboratory and associated fees, an allowance for textbooks, and includes a tax-free allowance of $100 each month during the period the student is in school and on scholarship status.

AKRON ALPHA DELTA KAPPA NU SCHOLARSHIP

In May of 1976, the Alpha Delta Kappa Nu Chapter, International Honorary Teachers' Sorority, established this scholarship, to be awarded annually to a freshman student, male or female, interested in teacher education. Selection of the recipient is handled by the University Scholarship Committee.

AKRON AREA CHAPTER OF THE AMERICAN SOCIETY FOR PERSONNEL ADMINISTRATION SCHOLARSHIP

Funds contributed by the Akron Area Chapter of the American Society for Personnel Administration are used to provide scholarship assistance for undergraduates enrolled in the College of Business Administration.

AKRON AREA PLUMBERS AND PIPEFITTERS INDUSTRY SCHOLARSHIP FUND

These scholarships are designed to provide educational opportunities for students interested in careers in fields related to the Akron Area Plumbers and Pipefitters Industry, such as public health, sanitation, community planning, and
mechanical and civil engineering. First preference is given to children of journeyman plumbers and contractor members of the organization who are pursuing programs in civil engineering, mechanical engineering, business administration, or nursing at The University of Akron.

THE AKRON BAR ASSOCIATION AUXILIARY SCHOLARSHIP

This fund, established by the Akron Bar Association Auxiliary, provides annual scholarships from principal and income not to exceed $1,000 to entering students in a full-time program of law study. The University Scholarship Committee, on the basis of scholarship, legal aptitude, character, and need, and with the advice of the Dean of the School of Law makes the selections, giving first preference to residents of Summit County, Ohio. A recipient may apply for an annual renewal of the scholarship.

AKRON BRICK AND BLOCK COMPANY FOUNDERS MEMORIAL SCHOLARSHIPS

A fund established in 1967 by the Akron Brick and Block Company in memory of the company founders, Messrs. Henry Camp, Kenneth Kutz, Albert A. Hilkert, and George H. Meyers, for the purpose of providing scholarships to students with serious financial need. Preference is given to male students in the field of engineering or business administration.

AKRON-CANTON CHAPTER IN-PLANT PRINTING MANAGEMENT ASSOCIATION SCHOLARSHIPS

Established in 1977 by the Akron-Canton Chapter of the In-Plant Printing Management Association, this scholarship in amount of $500 is granted to high school graduates who have been accepted into an accredited college majoring in the Graphic Arts Program. Selection is made by the Akron-Canton Chapter of the IPMA following a review of applications submitted by students residing in a nine-county area covered by the Chapter.

AKRON COUNCIL OF ENGINEERING AND SCIENTIFIC SOCIETIES SCHOLARSHIP

Funds contributed by the Akron Council of Engineering and Scientific Societies provide a $500 award to a senior majoring in engineering, chemistry, physics, or mathematics on the basis of academic performance, character, financial need, and co-curricular activity.

AKRON DISTRICT SOCIETY OF PROFESSIONAL ENGINEERS SCHOLARSHIP

The Akron District Society of Professional Engineers sponsors this scholarship in the amount of $500 per year to a junior or senior engineering student recommended by the Dean of the College of Engineering.

AKRON PANHELLENIC ASSOCIATION SCHOLARSHIP

The Akron Panhellenic Association sponsors this scholarship in the amount of $150 per year. The recipient must be a full-time student meeting the Panhellenic average grade point requirement, an active member of a sorority, and an involved and contributing member in campus and Greek activities.

AKRON RUBBER GROUP SCHOLARSHIPS IN CHEMISTRY

Awards of $660 per year are made to entering students and/or undergraduate students majoring, or intending to major, in chemistry or chemical engineering. Outstanding ability in science and chemistry are given primary emphasis in awarding these scholarships.

AKRON RUBBER GROUP MEMORIAL SCHOLARSHIP FUND

Established in 1976 by the Akron Rubber Group with funds provided initially in memory of John Gifford, this memorial scholarship fund awards entering students and/or undergraduate students majoring, or intending to major, in chemistry or chemical engineering.

AKRON UNIVERSITY ASSOCIATES SCHOLARSHIPS

Scholarships for qualified students are available from unrestricted funds provided by the following corporations which hold membership in Akron University Associates:

The Akro, Canton & Youngstown Railroad Company
Akron Coca-Cola Bottling Company
The Akron Equipment Company
Akron National Bank & Trust Company
Akron Savings & Loan Company
The Fred W. Albrecht Grocery Company
The Babcock & Wilcox Company
Bellows-International Division of IBEC
Brown Derby, Inc.
Burger Iron Company
Cabot Corporation
Centran Bank of Akron
The Cotter Merchandise Storage Co.
Cities Service, Columbian Division
E.I. du Pont de Nemours & Company
The East Ohio Gas Company
Eaton Corporation, Molded Products Division
Ernst & Ernst
The Firestone Bank
Firestone Foundation
First National Bank of Akron
Firwood Manufacturing Company, Inc.
Ford Motor Company
The General Tire & Rubber Company
The B.F. Goodrich Company
The Goodyear Tire & Rubber Company
HWH Associates, Inc.
The Hardware & Supply Company
Harwick Chemical Corporation
Hiney Printing Company
The Hoover Company
J.M. Huber Corporation
The Kent Machine Company, Division of The Lamson & Sessions Company
Knight Foundation
The Lawson Milk Company
Lord Corporation
Mack Trucks, Inc.
Marting Realty, Inc.
Massey-Ferguson, Inc.
Merrill Lynch, Pierce, Fenner & Smith, Inc.
Laura R. & Lucian Q. Moffit Foundation
Monsanto Company
Norton Company
Ohio Edison Company
The M. O'Neil Company
Owens-Corning Fiberglas Corporation
Pepsi-Cola Bottlers of Akron, Inc.
Petro-Tex Chemical Company
Polsky's
PPG Industries, Inc.
Reilly Foundation
Roadway Express, Inc.
The Roush Foundation
John G. Auhlin Construction Company
A. Schulman, Inc.
The J.M. Smucker Company
The Spohn Corporation
The Standard Oil Company
Teledyne Monarch Rubber Company
Temperature Control Company
The Timken Company
Union Oil Company of California
R.T. Vanderbilt Company, Inc.
Xerox Corporation

**AKRON WOMEN IN CONSTRUCTION SCHOLARSHIP**

A scholarship in the amount of $300 a year to be awarded to a female student from the Akron area, majoring in a construction field.

**THE SAM ALEXANDER SCHOLARSHIP FUND**

This scholarship fund was established in 1977 by Home Centers, Inc., in honor of Founder Sam Alexander upon his retirement, following a quarter of a century of dedicated service as president and vice chairman of the company. It provides scholarship aid covering tuition for full-time undergraduate students. Recipients and amount of scholarships awarded are determined by the University Scholarship Committee.

**ALLIED CHEMICAL FOUNDATION GRANT**

Awarded in 1975, this grant provided by the Allied Chemical Foundation, is being used by the Institute of Polymer Science as a fund for a fellowship and/or other form of support for the Institute's graduate research program.

**THE AKRON ALPHA DELTA KAPPA SCHOLARSHIP**

This scholarship is awarded to a freshman interested in teacher education, and was established in 1976 by the Alpha Delta Kappa Nu Chapter, International Honorary Teachers' Sorority. Recipient of this $150 scholarship is selected by the University Scholarship Committee.

**AMERICAN CYANAMID COMPANY GRANT**

This grant, awarded in 1974, is being used by the Institute of Polymer Science to fund the training and academic research of selected graduate students in the Institute.

**CHRIS ANGELOFF MEMORIAL SCHOLARSHIP FUND**

This scholarship fund was established in 1975 through contributions from family, friends, and teammates in memory of Chris Angeloff, starting tight end on the 1975 University of Akron football team, who died unexpectedly during the second quarter of the Akron-Marshall University game in the Akron Rubber Bowl, Saturday, September 6, 1975. His death of heart complications was a tragedy shared by his family, teammates, and many friends who had come to know and admire him as a person devoted to his family, his team, and his University. At the request of his family, income from the fund is used for athletic scholarships, with first preference being participants in varsity football. Memorial contributions are welcomed.

**ARMY ROTC SCHOLARSHIPS**

These scholarships provide financial assistance to highly qualified, highly motivated students who desire to pursue careers as commissioned officers in the Regular Army after graduation from college. Each scholarship provides for payment of instructional and other fees, an allowance for textbooks and supplies and a subsistence allowance of $100 per month during the period of the scholarship.

**THE ART AUCTION SCHOLARSHIP FUND**

These scholarships are made possible from the proceeds from the Annual Art Auction held by the Art Department.
DAVID BRUCE AUBURN SCHOLARSHIP
An endowed fund established by the Schaefer Foundation in 1968 in honor of David Bruce Auburn, the youngest child of Dr. Norman P. and the late Kay M. Auburn, and supported further by the Auburn family. Endowed income is used for scholarship purposes for deserving students from the State of Ohio enrolled in The University of Akron Community and Technical College as determined by the University Scholarship Committee.

KATHLEEN MONTGOMERY AUBURN SCHOLARSHIP FOR GRADUATE STUDY
Contributions from major women's campus groups, alumnae, Faculty Women's Club, and faculty members provide scholarship aid for women pursuing graduate or professional study at the University.

KAY AUBURN CHAMBER BALLET SCHOLARSHIP
A fund established by The Women's Committee of The University of Akron in honor of the late Kathleen Montgomery Auburn, wife of President Emeritus Norman P. Auburn, for the purpose of assisting a full-time student who has been recommended by the Artistic Director of the Ohio Ballet and approved by the Dean of the College of Fine and Applied Arts. The amount of the award is $200 annually.

NORMAN P. AUBURN SCHOLARSHIP IN ENGINEERING
An annual $1,000 scholarship to a first-year College of Engineering student who shows promise of high academic achievement. This scholarship is for the first academic year and may be renewed once. Selection of the recipient (resident or nonresident) is made by the University Scholarship Committee and the Dean of the College of Engineering. This scholarship, in honor of President Emeritus Norman P. Auburn, is in recognition of his dedicated academic leadership of the University (1951-71), and especially in the development and expansion of the College of Engineering in comprehensive programs through the doctorate. Established January, 1974.

DAVE AXNER ATHLETIC SCHOLARSHIP FUND
Established in 1976 by the Chevrolet Motor Division of General Motors Corporation in recognition of the outstanding play of fullback Dave Axner in The University of Akron's NCAA Division II playoff game with Northern Michigan University in the Knute Rockne Bowl December 4, 1977, at Akron. The fund is used to provide athletic scholarships for participants in varsity football. The scholarship serves as Chevrolet's tribute to the University's Athletic Department for instilling a quest for excellence on the football field as one means of developing a system of values that will help young men build a better life.

THE EDWARD SPENCER BABCOX SCHOLARSHIP FUND
This endowed fund was established by the Babcox Business Publications in honor of the company founder, Mr. Edward Spencer Babcox. One half of the income is used for scholarship assistance as determined by the University Scholarship Committee, with the remaining half going into the University's current operating fund. Students in the field of rubber and tire journalism are given preference.

SUMMERFIELD BALDWIN III SCHOLARSHIP
In memory of the late Dr. Summerfield Baldwin III, Professor of History, an award is presented to a student in the junior class who is majoring in the field of history and who scholastically and intellectually proves that he or she intends to pursue studies in this field, preferably to the graduate level.

CAPTAIN HOWARD L. BARDEN MEMORIAL FUND
Established in 1967 in memory of Captain Howard L. Barden, USAF, a 1957 graduate of the University, by his wife, this fund is used to provide scholarship assistance for undergraduate students selected by the University Scholarship Committee.

MARY LOUISE BEVERLY SCHOLARSHIP
A fund established in 1965 by Mr. Robert F. Harris, Class of 1928, in memory of his sister, Mrs. Mary Louise Beverly, Class of 1940, who was for many years Principal of Spicer School and more recently Director of Elementary Education in the Akron Public Schools. The income is used to assist worthy students in the College of Education. Memorial contributions are still being accepted as additions to this endowed fund.

RAY C. AND ELLEN P. BLISS POLITICAL SCIENCE SCHOLARSHIP FUND
This endowment fund was established in 1972 by Mr. Ray C. Bliss, Class of 1935, and Mrs. Ray C. Bliss (Ellen Palmer), Class of 1931, for the purpose of making scholarship awards to any full-time undergraduate student, without regard to race, color, creed, sex, or national origin who is in need of a grant in pursuing a major in political science within the Buchtel College of Arts and Sciences. First preference is given to students from Summit County, State of Ohio. All applicants must have demonstrated scholastic ability, possess high qualities of citizenship,
moral character, promise, and leadership. The fund is administered by The University of Akron Development Foundation. Contributions to the fund are accepted from interested donors.

MARSHA L. BLOOM SCHOLARSHIP FUND

A fund established by family and friends in memory of the late Marsha L. Bloom for the purpose of providing scholarship assistance to undergraduate women students in the Department of Chemistry.

THE RUTH K. AND LOYD S. BLOOMFIELD MEMORIAL SCHOLARSHIP FUND

This endowed scholarship fund, established in 1976 by Mrs. Loyd S. Bloomfield in loving memory of her husband, will provide scholarship aid for full-time undergraduate students. Recipients and amount of scholarships will be determined by the University Scholarship Committee, without regard to race, color, creed, sex, or national origin.

BREWSTER SCHOLARSHIP

A fund established by Mr. and Mrs. Evan B. Brewster (Margaret Zink, Class of 1925) to provide scholarship assistance to junior or senior students in amounts up to $200 a year.

MRS. EVAN (PEG ZINK, '25) BREWSTER EXPANDING SCHOLARSHIP ACCOUNT

Established in 1977 by Evan B. Brewster, Esq., '26, in honor of his wife, the former Peg Zink, '26, this expanding scholarship account is funded through earnings from an endowment. The annual income is awarded by the University Scholarship Committee to students who pledge to repay within five years following graduation; thus increasing the assistance available for future students.

BUCKEYE CLUB ANNUAL SCHOLARSHIP AWARD

A $600 annual scholarship award given by the State of Ohio Banking Alumni Association to a deserving bank or finance major in the junior year at one of the colleges of business in Ohio.

MILDRED HETER BUCKINGHAM MEMORIAL SCHOLARSHIP

This endowment fund was established by Mr. Lisle M. Buckingham for the purpose of making awards to full-time students who show promise in the field of applied music and who are recommended by the Department of Music.

Under the provisions of the will of the late Dr. E. B. Foltz a fund was established to provide for a premedical prize of $100, which is awarded each year to that member of the graduating class who makes the highest average grade in all work taken in the four-year premedical course and who plans to enter medical college the following year. The actual award is not made until the winner has enrolled in medical college.

ALFRED HERBERICH JUNIOR PRIZE
The Phi Sigma Alpha Junior Prize of $50, to the student in the Buchtel College of Arts and Sciences having the highest average for 80-96 semester hours in residence.

HOUSEHOLDER PHYSICS PRIZE
A fund established under the will of the late Fred F. Householder, former Professor and Head of the Department of Physics, provides recognition and cash awards to outstanding students majoring in physics, as selected by the physics faculty.

DUANE R. KELLER MEMORIAL FUND
An award of $50 to the senior engineering student who has made the greatest improvement in his cumulative grade average during his pre-junior and junior years.

THE J.K. LASSER & COMPANY AWARD TO THE OUTSTANDING STUDENT MAJORING IN ACCOUNTING
A scholarship award of $600 from J.K. Lasser & Company to an outstanding junior majoring in accounting as selected by the faculty of the Accounting Department.
THE DOROTHY LAUBACHER AWARD IN HOME ECONOMICS AND FAMILY ECOLOGY

The faculty in the Department of Home Economics and Family Ecology and friends established this award in 1977 in honor of Professor Emeritus Dorothy Laubacher, who taught in the department with distinction for 27 years. The award is presented annually to an outstanding sophomore or junior majoring in home economics, with its first preference being a student in foods and nutrition. Recipient and amount is determined by the department faculty.

THE LAW WIVES CLUB AWARD

The club provides annual cash awards to three law students, spouses of club members, displaying scholarship and leadership in student affairs, as determined by the Dean of the School of Law.

LAWYERS CO-OPERATIVE PUBLISHING COMPANY AND BANCROFT-WHITNEY COMPANY AWARD

An annual award of a separately bound volume from American Jurisprudence to the highest ranking student in each of the courses listed:

- Administrative Law
- Agency-Partnerships
- Bills and Notes
- Civil Procedure
- Conflicts
- Constitutional Law
- Contracts
- Corporations
- Creditors' Rights
- Criminal Law

LAWYERS CO-OPERATIVE PUBLISHING COMPANY AND BANCROFT-WHITNEY COMPANY AWARD (continued)

- Estate Planning
- Evidence
- Family Law
- Insurance
- Labor Law
- Personal Property
- Real Property
- Remedies
- Torts
- Trusts
- Will

MERCK AWARD

An award from Merck & Company, Inc., of a complimentary copy of The Merck Index of Chemicals and Drugs to the outstanding senior of the year in the Department of Chemistry.

NATIONAL ASSOCIATION OF ACCOUNTANTS AWARD

An award made annually by the Akron Chapter of the National Association of Accountants to an outstanding senior student in the Accounting Department of the College of Business Administration.

OUTSTANDING SENIOR GEOGRAPHY MAJOR AWARD

Each year the faculty of the Geography Department submits the name of the outstanding senior major in geography to the National Council for Geographic Education. If they concur the student is granted the Council's award.

JUDGE W.E. PARDEE MEMORIAL AWARD

Established in 1963 in memory of the Hon. W.E. Pardee, Judge on the original Ninth District Court of Appeals of Ohio, the grant of $150 is awarded annually to a participant, or team of participants, in Bracton's Inn, the Case Club of the School of Law, who best displays advocacy skill and professional decorum.

PHI ALPHA DELTA LAW FRATERNITY, INTERNATIONAL GRANT CHAPTER AWARD

A U.S. Savings Bond in the face amount of $50 is awarded to a graduating law student who is a member of Grant Chapter, P.A.D., predicated upon meritorious achievement in scholastics, community service, and P.A.D., determined by a committee chaired by the Dean of the School of Law.

THE PHI DELTA DELTA LEGAL FRATERNITY (WOMEN'S INTERNATIONAL) BETA XI CHAPTER AWARD

An annual award of $25, in memory of Judge Florence E. Allen, to a graduating woman law student excelling in the study of law. Selection of recipient is at the discretion of the Dean of the School of Law.

PHI SIGMA AWARD

An annual award by the National Phi Sigma Society to an outstanding student in the biological sciences.

POLYMER SCIENCE AWARDS

Sponsored by the Rubber Manufacturers Association, competitive prizes are awarded to encourage undergraduate students through the junior year in chemistry, physics, and engineering to become better acquainted with polymer science and engineering, and to explore educational and occupational opportunities in the field.

PRENTICE-HALL, INC. AWARD

Prentice-Hall, Inc., provides an annual award of its three-volume Federal Tax Guide, Edition "A," to the graduating senior who has excelled in the study of federal tax law, as determined by the Dean of the School of Law.

PRO MUSICA VOCALIS AWARD

This award is given to a student of voice who has excelled in choral work during the previous academic year.
RUBBER AGE AWARDS

These are awards of $100 each to the students writing the best master's thesis and the best doctoral dissertation on some aspect of rubber chemistry or technology.

SALES MARKETING EXECUTIVE ASSOCIATION OF AKRON AWARD

An annual award of $100 to an outstanding senior marketing student who has demonstrated superior qualities of leadership and scholastic achievement. Selection is made by the Dean of the College of Business Administration upon recommendation of the Department of Marketing. In addition, a permanent plaque is mounted in the College of Business Administration on which successive winners of the award are listed.

THE JOYCE A. SULLIVAN AWARD IN HOME ECONOMICS AND FAMILY ECOLOGY

The faculty in the Department of Home Economics and Family Ecology and friends established this award in 1976 in honor of Dr. Joyce A. Sullivan, Head of the Department, 1968-76. It is presented annually to an outstanding junior or senior majoring in home economics. The department faculty select the recipient and determine amount of the award.

TRAVAIL FELLOWSHIP AWARD

This fellowship, funded for the first time in 1977, is awarded annually by the Graduate Student Council to assist graduate students as they conduct research for thesis and dissertations. The stipends are provided to defray travel and living expenses while the student engages in his/her research. Eligibility is restricted to those graduate students who have completed their first year of graduate studies. Stipends range upwards to $500. Application must be made to the Graduate Student Council.

TREADGOLD POLYMER SCIENCE AWARDS IN CARBON BLACK TECHNOLOGY

Awards of not less than $50 are available annually to one or more qualified graduate students in polymer science who are engaged in research on the application and/or function of carbon black. These awards are available from a fund established in 1970 by the children and grandchildren of Elodie and Anthony Galen Treadgold in honor of their Fiftieth Wedding Anniversary.

DR. AND MRS. GEORGE VAN BUREN MEDICAL AWARD

A $500 award is made each year to a deserving student at The University of Akron who has been accepted as a medical student by a medical college. The award is to be applied to the first-year tuition of the medical college. Selection is made by a committee appointed by the President of The University of Akron and is based on character, scholarship, and need. This award was endowed by a gift of Dr. and Mrs. George Van Buren in 1967. Dr. Van Buren received his premedical training at The University of Akron.

VEGSO INCENTIVE AWARD (VIA)

Established by Kathryn Armstrong Vegso, Assistant to the Vice President and Dean of Student Services, to provide the cost of books for a student returning to the University and who does not qualify for other financial assistance. Revenue for this award originated with honoraria from speaking engagements.

WALL STREET JOURNAL AWARD

This award is made annually to the senior student in the field of finance for academic achievement.

WEST PUBLISHING COMPANY AWARDS

An annual award of law books, in two categories: (1) four selected titles of Corpus Juris Secundum to law students in each of the classes for high scholarship and leadership in student affairs, and (2) four selected titles from the Hornbook Series to law students in each of the classes with the highest academic average.

WOMEN'S ART LEAGUE OF AKRON AWARDS

Awards made to promising women art students.
IV. The University of Akron Academic Programs

Here are definitions and examples which help explain the academic organization at The University of Akron.

THE UNIVERSITY — the entire institution: an academic whole. For example: The University of Akron.

A COLLEGE — a wide area of specialized higher learning within the framework of the University itself. For example: The Buchtel College of Arts and Sciences.

A DIVISION OF INSTRUCTION — a generic grouping within a college. For example: The Buchtel College of Arts and Sciences has three divisions: Humanities, Social Sciences and Natural Sciences.

A DEPARTMENT OF INSTRUCTION — a closely defined area of specialization within a division. For example: The Humanities Division within the Buchtel College of Arts and Sciences has four departments: English, Classics, Modern Languages, Philosophy.

SUBJECTS OF INSTRUCTION — the most minutely specialized part within each department: the actual point of academic contact between faculty and student. For example: The Chemistry Department has more than 108 subjects of instruction or courses.
Credits — when used in this bulletin, credits refer to the number of quarter hour credits for any course.

THE STUDENT — the individual receiver of all academically imparted information; the focal point of University instruction. The University’s subdivisions of colleges, divisions and departments are basically designed so that students of similar interests and ambitions may study together and spend their college years most advantageously.

Two other terms it would be helpful to know are Code Numbers and Course Numbers. Because these terms are similar they are often confused.

Code Number = Course Number
(Mechanical 4600:320) (Dynamics) Engineering

In the above example the first four digits of that number (4600) are called the Code Number. These numbers refer only to the college and department in which the course is taught. In this case the number refers to the Mechanical Engineering Department (600) of The College of Engineering (4000). A complete listing of Department Code Numbers appears at the beginning of Chapter VI, Courses of Instruction.

The second set of digits (320), following the colon, make up the Course Number. These numbers pin down exactly which course in the Mechanical Engineering Department is being specified.

The Course Numbers also tell at what level the course is being taught or at what point in his college career the student is ready to take the course.

An explanation of that numbering system follows:

<table>
<thead>
<tr>
<th>Level</th>
<th>Code Numbers</th>
</tr>
</thead>
<tbody>
<tr>
<td>100-199</td>
<td>First year level courses.</td>
</tr>
<tr>
<td>200-299</td>
<td>Second year level courses.</td>
</tr>
<tr>
<td>300-399</td>
<td>Third year level courses.</td>
</tr>
<tr>
<td>400-499</td>
<td>Fourth year level courses.</td>
</tr>
<tr>
<td>500-699</td>
<td>Master’s level courses.</td>
</tr>
<tr>
<td>600-799</td>
<td>J.D. level courses.</td>
</tr>
<tr>
<td>700-899</td>
<td>Doctor’s level courses.</td>
</tr>
</tbody>
</table>

When approved 400-level undergraduate courses are taken for graduate credit they become 500-level courses. Students must apply for and be admitted to the Graduate School to receive graduate credit for any course.

In the pages that follow, the curricula of the various colleges will be discussed along with the general requirements of each, the degrees offered and other information needed for fuller understanding of their programs. In addition, a complete list of the courses offered, detailing the Code and Course Number, Course Title, Number of Credits, Prerequisites and General Course Description, may be found in a later chapter. Curricula leading to Master’s or Doctor’s degrees are detailed under the Graduate School rather than with the Upper College through which it is offered.
Associate Degree Programs

Specialized programs of study directly applicable to professions in technical and highly skilled fields are offered on-campus through the Community and Technical College and off-campus through The Wayne General and Technical College. These programs, leading to the Associate degree, are provided for high school graduates who do not consider it desirable to pursue a baccalaureate program of study, but do have the conviction that education beyond the high school is necessary if they are to be self-supporting, useful intelligent members of our modern, complex society. Associate programs require two years for their completion and are designed to give the graduating student the concepts and skills that are demanded in today's commercial and industrial world.
GOALS

As part of The University of Akron, the Community and Technical College participates in the Goals and Purposes of the University. The following goals are of special and particular importance to the Community and Technical College:

Consistent with the philosophy of learning as a life-long experience the College will provide educational opportunities for students of a variety of ages, backgrounds, and needs; full-time or part-time, day or evening.

The College will provide for industry, business, government agencies, healthcare establishments, and human service occupations the pre-service and in-service manpower training for entry-level positions or advancement in employment.

The College will serve students by providing the means to examine academic and career opportunities considering interests, abilities, and achievements.

The College will provide quality instruction with qualified and experienced teachers who are encouraged to use the community as a "laboratory" for achieving educational goals.

The College recommends each student for the appropriate degree in accordance with his/her level of accomplishment.

The College offers both pre-service and in-service training: pre-service for the recent High School graduate who can receive an Associate Degree upon the satisfactory completion of two years of full-time studies and in-service through the Evening College where employed persons may pursue the same degrees while working full time.

To provide the university and community with information about potential careers an Office of Career Planning has been instituted in the Community and Technical College. Any person interested in information related to a potential career is encouraged to contact the Office of Career Planning.

ASSOCIATE PROGRAMS

Departments within the divisions of the College offer specialized technical programs in the areas of Business Technology, Engineering Technology, Public Service Technology, and Allied Health Technology. These programs lead to the Associate in Applied Science degree (carrying a designation of the program completed). In addition, a program in the Liberal Arts leading to the Associate in Arts degree is provided to nonvocationally oriented students.

Associate Studies Division
  Arts
  Commercial Art

Public Services Technology Division
  Community Services Technology
  Educational Technology
  Elementary Aide
  Child Development

  Respiratory Therapy Technology

BACCALAUREATE PROGRAMS

The Engineering and Science Technology Division also offers programs of study leading to the Bachelor of Science in Electronic Technology and the Bachelor of Technology in Mechanical Technology degrees. Requirements for these
baccalaureate degrees are listed in the section on Baccalaureate Degree Programs.

REQUIREMENTS FOR GRADUATION

Candidates for the Associate Degree must:
1. Earn credit in all of the required courses listed in the program.
2. Complete successfully as a minimum the number of credits listed for each program.
3. Complete a program of study that includes at least 16 credits in the general studies or general educational areas. These courses shall be based on a broad interpretation of the liberal arts concept and will include courses offered by the University in such areas as written and oral communications, humanities, and social and physical sciences.
4. Earn a minimum grade point average of 2.0 in all work attempted and all work taken at The University of Akron.
5. Be recommended by the faculty.
6. Spend last semester in residence (earning a minimum of 16 credits) at the University unless excused by the Dean of the College.
7. Other requirements are set forth in the section on “Requirements for Graduation” in Chapter 3.

A student who expects to receive a second Associate Degree must earn a minimum of 16 credits in residence which have not counted toward his first degree.

2020: ARTS

A program of general education beyond the high school level intended to produce a socially intelligent individual, one who understands effective social values as well as scientific facts.

2220: CRIMINAL JUSTICE TECHNOLOGY

A program to prepare young people seeking a career in criminal justice and to provide additional education to those employed in criminal justice areas. The curriculum includes the technical functions of criminal justice and courses to develop a better understanding of our rapidly changing society.

Certain courses in the Criminal Justice Technology program require permission of the instructor in addition to course 2200-100. It is, therefore, the responsibility of each Criminal Justice Technology student to meet with an adviser at the start of his or her program of study at The University of Akron.

| Credits | 5550:211 First Aid 2 |
| Credits | Technical Electives 8 |
| Credits | Total Credits 64 |

The following Physical Education courses are recommended for Criminal Justice majors: 139, Life Saving; 155, Swimming; 173, Self-Defense; or 174, Karate.

Students with a particular interest in Corrections may vary their program of study by substituting 3850:330, Criminology (3 credits); 3850:432, Probation and Parole (3 credits); and 3850:431, Corrections (3 credits), for courses: 2220:250, Criminal Case Management, 6 credits; 2220:200, Criminal Justice Theory and Practice, 3 credits; and 2220:240, Dynamics of Vice Crime and Substance Abuse, 3 credits. Students electing this pattern of courses will need three more elective credits since their total program will still require a total of 64 credits.

2230: FIRE SCIENCE TECHNOLOGY

This program is designed for the student interested in a career in fire fighting as well as other areas related to fire protection and prevention. It also helps active firemen upgrade themselves within the fire service.

2420: DATA PROCESSING

This program prepares individuals for careers in electronic data processing operating, programming, and systems analysis. This program gives a practical understanding of computers in business functions; extensive programming and processing experience is provided through laboratory assignments.

2440: DATA PROCESSING

This program prepares individuals for careers in electronic data processing operating, programming, and systems analysis. This program gives a practical understanding of computers in business functions; extensive programming and processing experience is provided through laboratory assignments.

2420: SALES AND MERCHANDISING

This program equips graduates to fill entry level positions in distributive business fields including retailing, wholesaling, and related services. The core curriculum includes courses in advertising, marketing, sales, and visual merchandising. The program provides emphasis in Retailing, Industrial Distribution, and Fashion.

2540: SECRETARIAL SCIENCE

Prepares students for the different but often overlapping fields of secretarial, stenographic, or clerical work; provides thorough training in typing, shorthand, and communications; includes courses that prepare graduates for work as executive and legal secretaries, and as medical assistants. An international option provides secretarial training for overseas assignments.

2550: OFFICE SERVICES TECHNOLOGY
The Office Services Technology career program emphasizes skill to development for clerical and record-keeping occupations and prepares the student to perform the various services that are a vital part of the modern business office. Studies include the development of skills in operating office machines and systems, records management, and personnel supervision.

Total Credits 64

2560: TRANSPORTATION
This program provides qualified personnel for the fields of transportation in such areas as sales, traffic and operations, personnel management, and public relations. The program includes courses in traffic practices and procedures, rate theory, and terminal management as they pertain to the movement of goods and people by rail, highway, water, and air. Transportation provides training to plan and supervise the movement of goods and people by rail, highway, water, and air. A Commercial Aviation option emphasizes the movement of material by the various methods of air transportation.

GENERAL OPTION
1100: Physical Education 1
1100:105 Introduction to Public Speaking or Effective Oral Communications 3
2020:121 English 4
2020:222 Technical Report Writing 3
2020:240 Human Relations 3
These admissions are highly competitive, and the University cannot guarantee training in an approved hospital school. The hospital school requires separate admission.

Years of study in this program includes courses in biology, chemistry, and medical technology, followed by twelve months of training in an approved hospital school. The hospital school requires separate admission. These admissions are highly competitive, and the University cannot guarantee placement in them.

2750: CYTOTECHNOLOGY

A cytotechnologist specializes in screening microscope slides prepared by physicians or other medical personnel. Two years of study in this program includes courses in biology, chemistry, and medical technology, followed by twelve months of training in an approved hospital school. The hospital school requires separate admission. These admissions are highly competitive, and the University cannot guarantee placement in them.
2840: CHEMICAL TECHNOLOGY

This program prepares students for technical positions in chemical and chemistry related laboratories and manufacturing plants. The curriculum includes the fundamentals of chemistry, physics and mathematics and stresses modern instrumental methods. There are five areas of emphasis in this program, each providing additional job opportunities to graduates. The areas are: Industrial, Rubber and Plastics, Geology, Environmental, and Forensic (or crime lab). A list of recommended general, basic and technical electives for each of the five areas of the program follows.

### ALLIED HEALTH PROGRAMS

The University of Akron, in cooperation with a number of area hospitals, provides credit instruction for students interested in careers in allied health fields including Surgical Assisting, and Radiologic Technology.

Students must meet the University entrance requirements and are regularly enrolled with college credit for the courses satisfactorily completed. A listing of the University courses is given on page 70 of this bulletin.

Applications for these programs are handled through the hospitals where the clinical instruction is held. An associate degree program is not yet offered in these areas, however, one is presently under consideration in surgical assisting. Interested students may contact the office of the Dean of the Community and Technical College for further information.

### CERTIFICATE PROGRAM IN REAL ESTATE

A Certificate Program in Real Estate augments the present Business Management Technology (Real Estate) associate degree program. A full description of this certificate program may be found in the section of this Bulletin covering all certificate programs.

---

### DIPLOMA NURSING PROGRAM

The University of Akron, in cooperation with the following area hospital schools of nursing, Akron City, Akron General and St. Thomas in Akron, provides a program of studies basic to a diploma in nursing.

Nursing students must meet the University entrance requirements and are regularly enrolled with college credit for the courses satisfactorily completed.

Applications for this program are handled through the hospital schools of nursing which award the diploma.

The programs planned for the three schools of nursing differ slightly in regard to courses taken and their sequence. The following courses are offered:

*Faculty may select substitute course for student.*
The Wayne General and Technical College

John G. Hedrick, M.A., Dean
Martin Kemp, M.S., Business Manager
Robert McElwee, M.A., Coordinator of Curriculum and Advising

The Wayne General and Technical College, allied with The University of Akron for administrative and academic support, operates on the principle that students bring to the campus a wide range and variety of experience, needs, capacities, aspirations and interests. This principle has been incorporated in the planning of The Wayne General and Technical College. Wayne College thus exists for these specific purposes:

1. To provide the first and second year of baccalaureate instruction integral to the traditional four-year liberal arts and sciences programs. After successful completion of the first two years, students will be awarded the degree of Associate in Arts. These students can transfer as juniors to four-year colleges and universities.

2. To provide collegiate technical education leading to the degree of Associate in Applied Science in Business Management Technology, Electronic Technology, Mechanical Technology, Retail Management Technology, Secretarial Science, or Social Services Technology. Students will acquire specific skills leading to employment or advancement, if currently employed.

3. To provide programs of community service, adult education, and cultural activities as determined jointly with local community interest groups and other educational institutions as well as labor and business.

4. To provide continuing general education for all members of the community on a demand basis. Citizens at any age beyond high school are able to attend day or evening classes with ease of admission accorded by open-admission policies established throughout the Ohio system of higher education. Continuing Education is concerned with the common knowledge, skills and attitudes needed by each individual to be effective as a person, member of a family, employee and citizen in our free society.

B. Instructional Programs

Consistent with the purposes and objectives of the Ohio Board of Regents' standards, The Wayne General and Technical College of The University of Akron will offer the following two major academic career choices:

1. The College Transfer Program, a replication of the liberal arts programs of the first two years of a baccalaureate college or university.

A growing number of students each year choose to take the first two years of collegiate study near home in a two-year college; The Wayne General and Technical College, for example.

2. The Two-Year Technical Program is designed to provide specialized collegiate technical programs organized to develop high levels of skill in specialized occupations and to serve the needs of employers in Wayne, Holmes, and Medina Counties.

ADMISSION

Admission applications are available at the Admissions Office on campus or at The Wayne General and Technical College in Orrville.

REGISTRATION

Campus students who wish to take a course(s) at Wayne College too, include the branch courses along with their other selections.

Wayne College students who wish to take a course(s) on campus too, include campus courses along with their other selections.

Suggested Routes from:

Akron
US 224 and 76 to Ohio 57 to Wayne County 29 at yellow blinker, right to Wayne County 47.

Medina
Ohio 57 to Wayne County 29 at yellow blinker, right to Wayne County 47.

Wadsworth
Ohio 57 to Wayne County 29 at yellow blinker, right to Wayne County 47.

Rittman
Ohio 57 to Wayne County 29 at yellow blinker, right to Wayne County 47.

Wooster
US 30 to Ohio 57, north to Junction of Wayne County 29, left to Wayne County 47.
The General College
Marion A. Ruebel, Ph.D., Dean

OBJECTIVES

The purpose of the General College is to further the objectives of The University of Akron by providing a quality program of general collegiate education and to pursue the following aims:

To offer all students a basic program of General Studies and the prerequisite courses for advancement to the degree-granting colleges.

To counsel students with respect to their adjustment to the collegiate environment and to their academic, personal, and occupational objectives.

To direct students to the proper curricula so that they will enter the degree-granting colleges prepared to undertake advanced work.

The College recommends students for advancement to the degree-granting colleges upon satisfactory completion of the appropriate requirements.

1100: DEPARTMENT OF GENERAL STUDIES

The Department of General Studies of the General College provides students with courses aimed at developing ability to understand and express ideas effectively, to comprehend the processes involved in accurate thinking and to learn the responsibilities of an educated member of society. Also, by taking courses in the General Studies department, students gain knowledge which helps them to develop intelligent behavior patterns and gain understanding of themselves and their own individual abilities.

The General Studies program is an outgrowth of the belief that a student's personal education is like a pyramid — that is, in order for him to develop his intellectual abilities to their cultural or professional height, he must first establish a wide foundation of general knowledge to serve as the structural basis.

Serving as the foundation of each University student's educational pyramid is the General Studies curriculum including English Composition, Literature, Speech, Mathematics, Natural Science, Social Science, Western Cultural Traditions, Eastern Civilizations, and Physical Education. The General Studies program as it is now presented is the fruit of a half century of planning, revision and developing.

Students, well-grounded in the General Studies, are academically prepared to continue into realms of higher education; this curriculum has proved the most advantageous starting point for a student, no matter his eventual scholastic goal. It is valuable in equal measure to the enrollee who is indecisive about his professional future and to the enrollee who arrives at the University convinced that he knows what he wants to become.

Students who complete 30 semester credits and achieve a quality point ratio of 2.0 (C) or better are eligible for transfer to the Upper College of their choice. The College of Arts and Sciences, the College of Business Administration, and the College of Nursing have slightly different requirements for transfer, therefore, students planning to transfer to one of these three colleges should check with their advisor to learn the specific requirements for transfer.

Acceptance of a student in an upper college is the responsibility of the respective academic Dean, in consultation with the Dean of the General College and heads of departments concerned.

The required General Studies Courses are:

* The 6 credit requirement in the social science area also may be met through one of the following options.

A. Completion of a minimum of two courses totaling at least 6 credits selected from two of the following four sets of course offerings:
1. 3250:244, Introduction to Economic Analysis, 3 credits. (Students majoring in engineering are advised to take this as one of their selections.)
2. 3250:201, Principles of Economics, 3 credits. (Students majoring in business, economics, etc., are advised to take this as one of their selections. Students doing so should plan to take 3250:202, 3 credits.)
3. 3250:100, Introduction to Economics, 3 credits.
4. 3850:100, Introduction to Sociology, 4 credits.
5. 3870:150, Cultural Anthropology, 4 credits.

B. For Community and Technical College majors only, completion of the following three courses (total of 9 credits):
   2020:240, Human Relations, 3 credits.
   2020:242, American Urban Society, 3 credits.
   2020:247, Survey of Basic Economics, 3 credits.

**Engineering students are only required to take 2 credits; all other students must take 4 credits.

**Minimum of 6 credits of science. This requirement may be met either by taking courses in the Departments of Biology, Chemistry, Geology, or Physics, or by any combination of two out of four of the Natural Science courses, 1100:221, 222, 223, and 224 (3 credits each).
weeks for the Two-Year Program applicants are used to cover the academic work taken by cadets who completed the General Military Course (GMC). Uniforms, lodging, and meals are provided without charge, and travel pay is authorized to and from the individual's home or school. In addition, cadets and applicants receive pay at approximately half the rate of a second lieutenant.

**FLIGHT TRAINING**

As a pilot qualified student enrolled in the Air Force ROTC Flight Instruction Program (FIP), you can get an important start on your Air Force flying career.

When enrolled in FIP, you will receive up to 25 hours of flight instruction at an FAA approved civilian-operated flying school near the campus. Approximately 18 hours will be dual instruction and the other seven will be solo flying. In addition to the flight training, the student will participate in a ground school covering the rules and regulations pertaining to flying.

The Air Force pays for flight instruction, textbooks, navigational equipment, and transportation to and from the flying school.

**BASE VISITS**

Classroom instruction is made more meaningful for the cadet through visits to Air Force bases. To bring the scope of Air Force operations into a clearer perspective, Air Force ROTC strives to enable every cadet to make at least one such visit each year. Many cadets have the opportunity to make more.

Requirements for Admission:

**GENERAL QUALIFICATIONS**

General qualifications for entry into Air Force ROTC:
1. Be a citizen of the United States or applicant for naturalization.
2. Be a full-time student.
3. Be in sound physical condition.
4. Be of good moral character.
5. Meet age requirements as follows:
   a. AFROTC four-year scholarship recipients must be at least 17 years of age and able to complete commissioning requirements prior to age 25.
   b. If not on scholarship status and designated for pilot or navigator training, be able to complete all commissioning requirements prior to age 26½.
   c. If not on scholarship status and not qualified for flying training, be able to complete commissioning requirements prior to age 30.

**ADDITIONAL QUALIFICATIONS FOR PROFESSIONAL OFFICER COURSE**

Additional qualifications for admittance to the Professional Officer Course:
1. Be at least 17 years of age.
2. For the Four-Year Program cadet, complete the General Military Course or receive credit for Junior ROTC, Civil Air Patrol, military school training, or prior service.
3. For the Two-Year student applicant, complete the six-week Field Training Course.
4. Receive a satisfactory score on the Air Force Officer Qualifying Test (AFO-QT).
5. Pass an Air Force physical examination.
6. Be interviewed and selected by a board of Air Force Officers.
7. Enlist in the Air Force Reserve prior to entry into the Professional Officer Course.

**REQUIREMENTS FOR COMMISSIONING**

1. Successfully complete the Professional Officer Course and Field Training.
2. Earn at least a baccalaureate degree.
3. Agree to accept, if offered, a commission in the United States Air Force.
4. Agree to serve for a period of not less than four years on active duty after commissioning; or, if accepted for a flying training program, agree to serve for a period of not less than five years of active duty as a flying officer after completion of pilot or navigator training.

**SCHOLARSHIPS**

Air Force ROTC college scholarships are available to qualified applicants in both the Two and Four-Year AFROTC Programs covering periods of four, three, and two years. Each scholarship provides full tuition, laboratory and incidental fees, and full reimbursement for curriculum-required textbooks. In addition, all scholarship cadets receive $100 monthly non-taxable subsistence allowance.

Four-year scholarships are available for applicants in pilot, navigator and scientific/
engineering career fields. Applicants will be evaluated on the basis of their:

CEEB Scholastic Aptitude Test (SAT) or the American College Test (ACT) results.
High School academic record.
Extracurricular and athletic activities.
Air Force Officers Qualifying Test scores.
Passing an Air Force medical examination.

All three and two-year scholarships are awarded on a competitive basis and applicants are evaluated on their:
Air Force Officers Qualifying Test.
Collegiate grade point averages.
Extra-curricular and athletic activities.
Screening and nomination board rating.
Academic major and potential active duty career field.

Scholarship information may be obtained by contacting the Department of Aerospace Studies.

FINANCIAL ALLOWANCES
All cadets enrolled in the Professional Officer Course will receive a non-taxable subsistence allowance of $100 per month.

UNIFORMS AND TEXTBOOKS
All AFROTC uniforms and textbooks are provided by the Air Force both for on-campus courses and at field training.

1600: DEPARTMENT OF MILITARY SCIENCE
The University's Army Reserve Officer Training Corps (ROTC) was established in 1919, making it one of the oldest in the country. The main goal of the Army program is to provide both the Active Army and Army Reserve and National Guard with commissioned male and female officers whose civilian education and attitudes contribute to the development of a military defense structure which reflects as well as defends our society. The graduates of this program perpetuate and strengthen the tradition of our nation's citizen soldier concept.

Students enrolled in Army ROTC have an unusual opportunity to study and participate in leadership and management experiences which are unique to the college curriculum. Leadership, self discipline, responsibility and physical stamina are stressed as students learn to plan, organize, motivate and lead others. Program goals are to develop decision making capabilities through detailed examination of leadership factors: expand oral and written communication arts: provide some technical training in basic military skills: and develop an understanding of the relationship between the student's basic degree field and its application in one of 47 management fields in the U.S. Army.

THE FOUR-YEAR PROGRAM
All full time students enrolled in The University of Akron or Wayne General and Technical College may enroll in the Army Four-year program. Freshmen and Sophomores enroll in the Basic Military Course (MS I, MS II) of the four-year program for 1.5 credits per semester. Military Science I and II are held two hours each week and include: Leadership fundamentals, military history, marksmanship, orienteering, national security affairs, and Army organization. Books and uniforms (for sophomores) are provided free. ROTC, taken as an elective, offers credit towards graduation and is included in the grade point average but imposes no obligation on students to complete all semesters of the Basic Course. The Professor of Military Science may award advance standing for students who have participated in high school ROTC, military schools, the Reserve or National Guard or active military service.

Students who complete the Basic military course may apply for enrollment in the Advanced Course which is described below.

THE TWO-YEAR PROGRAM
Students who have completed the Basic Course or attend a six weeks basic military skills training program may apply for Military Science III and IV — the Advanced Course. Course studies are held four hours a week for three credits. They include: methods of instruction, advanced leadership, application of tactics, branches of the Army, resource management, case studies in military/political relationships, military history, and officer responsibility. The course includes a six-week paid summer camp usually between the junior and senior years. Students in this program receive free books and uniforms and are paid $100 monthly. They are under obligation to complete the course and accept a commission as a Second Lieutenant in the Army. Upon graduation students will either serve with the active Army or in a Reserve Component.
CADET ACTIVITIES

The Department of Military Science offers numerous activities to enrich classroom instruction; provide a better understanding of the military and military life; and improve technical skills. These include:

- Military Post Orientation Visits
- Adventure and Survival Training—mountaineering, canoeing, skiing, camping, orienteering, boating
- Precision drill
- Competitive rifle marksmanship
- Military history club
- Tactics Club

QUALIFICATIONS FOR ENROLLMENT

1. United States citizenship. (Alien students may be enrolled under special circumstances).
2. Full time student (Advanced course students must be enrolled in baccalaureate degree course).
3. Good moral character.
4. Age requirements as follows:
   a. Be at least 17 for enrollment in the basic course
   b. Be under 28 years old by time of commission (Waiverable for veterans)
   c. Scholarship students must be under 25 by commissioning date
5. Mentally and physically fit

QUALIFICATIONS FOR ADVANCE COURSE

1. Basic qualifications for enrollment above
2. Completion of Basic Course, Basic Summer Camp, Veteran, or 90 hours Campus Seminar
3. Qualify on the Army physical evaluation
4. Permission of the Professor of Military Science
5. Be in good academic standing with the university

REQUIREMENTS FOR COMMISSIONING

General requirements for a commission include:

1. Completion of a Baccalaureate or Advanced degree
2. Completion of the Advanced Army ROTC Course
3. Agreement to incur a maximum active service obligation as follows:

<table>
<thead>
<tr>
<th>Requirement</th>

<td>4 years</td>
</tr>
</tbody>
</table>

RESERVE COMPONENTS OPTION

Army ROTC students who have completed the ROTC Basic and Advance Program may apply for a position in the Army National Guard or the Army Reserves and have no obligation to serve with the active Army. If accepted to either component the student may be commissioned a 2nd Lieutenant regardless of whether he or she has completed the university requirements for a degree. The 2nd Lieutenant in a Reserve Component will attend meetings one weekend per month and be paid over $100 for each month.

SCHOLARSHIPS

In addition to four-year scholarships offered to high school seniors, the Army offers three, two, and one year scholarships on a competitive basis to men and women enrolled in the program. These scholarships provide free tuition, fees, text materials and a non-taxable monthly stipend of $100 per month for the period of the scholarship. Army scholarship students who qualify as Distinguished Military Graduates may apply for a Regular Army commission. All scholarship students must agree to spend four years on active duty.

UNIFORM AND TEXTBOOKS

Textbooks for all courses and equipment for enrichment activities are provided free by the Department of Military Science. Uniforms are issued free to Military Science II students for retention upon completing the program.

FINANCIAL ALLOWANCES

Advance Course members and all scholarship students are paid a non-taxable subsistence allowance of $100 per month while in the program. Students attending Basic or Advanced summer camp are paid travel, meals, housing, and a salary.
The baccalaureate-level programs in engineering technology are intended to fill the widening gap in modern industry between the professional engineer and the engineering technician. The graduate of a program works in close support of engineers, translating conceptual ideas into functioning systems and providing supervisory direction for the implementation of these ideas by technicians and craftsmen.

These programs are designed as transfer programs to permit qualified engineering technology students to continue their education to the baccalaureate degree. During his/her first and second years, the student follows an associate degree program in the corresponding engineering technology. The third and fourth years provide the additional study required for the baccalaureate degree. Emphasis is placed on advanced training in the student's field of specialization, broadened knowledge of related technical fields, extended general education, and basic management training.

The programs are available in Electronic Technology and Mechanical Technology. It is intended that graduates will find employment in manufacturing, technical sales and service, application engineering, inspection and testing, and the more standardized aspects of engineering design.

The requirements for the Bachelor of Science in Electronic Technology degree or the Bachelor of Technology in Mechanical Technology degree are:
1. Compliance with the general University requirements for a baccalaureate degree as listed in the University Bulletin.
2. Compliance with the requirements of the General Studies program as outlined in the University Bulletin.
3. Completion of the requirements for the Associate Degree in a related engineering technology at The University of Akron or other accredited institution.
4. Successful completion of a minimum of 135 credits including Associate Degree program, General Studies courses, and the following course requirements:

### BACHELOR OF SCIENCE IN ELECTRONIC TECHNOLOGY
(An ECPD accredited Engineering Technology curriculum)

For the First and Second year requirements, see Associate Degree program in Electronic Technology.

#### Third and Fourth Year Requirements

OBJECTIVES

The Buchtel College of Arts and Sciences serves the objectives of The University of Akron, which exists that learning may be procured, preserved, and enlarged. More particularly, the Buchtel College seeks to foster:

1. The commitment to humanity — that loyal devotion to the heritage contained in those disciplines growing out of the ancient, liberal arts which teach man both his limitations and potentialities. The College seeks to provide an appropriate environment for a student to acquire an ability to evaluate, integrate, and understand the conditions of man’s existence, to understand himself in the natural world and in a particular civilization or society. No course or combination of courses can insure such understanding, and there is no schooling that can guarantee wisdom. Therefore, that College requires the student to study ideas and experiences that are the subject matter of a variety of disciplines:

2. The nature of civility — those actions whereby virtue, the advancement of society, and wise and humane government are encouraged:

3. The advancement of learning — that substantive knowledge discovered and cultivated by critical curiosity, tested by experimentation, propagated by instruction, and capable of affecting the life of man so that he may in a free society exercise a responsible liberty. The most enduring contribution which the College can make is to help the individual acquire the skill, motivation, and breadth of knowledge to continue his intellectual development throughout his life.

The College recommends each student for the appropriate bachelor’s, master’s or doctor’s degree in accordance with his level of accomplishment.

The Buchtel College of Arts and Sciences is one of six upper colleges at The University of Akron. Its name truthfully implies that its traditions date back farther than those of the other five undergraduate colleges, since the University itself is an outgrowth of Buchtel College, a liberal arts institution founded in 1870.

When Buchtel College became a Municipal University, the original name was retained in the College of Liberal Arts which was subsequently renamed the Buchtel College of Arts and Sciences. Then, and now the liberal arts goal has been to offer broad training to the college student so that he/she can prosper in life and sustain a creative appreciation of the arts and sciences.

The college is composed of three administrative divisions. They are as follows:

I. THE HUMANITIES DIVISION

It is concerned with the intellectual traditions that have formed man and with their application to the present and future growth of the human being by affording insights into contemporary life and by promoting the development of the individual as a creative, critical, and articulate person through the study of the classics, languages, literature, and philosophy.

II. THE NATURAL SCIENCES DIVISION

It is the most professionally-oriented division in this college, with the highest number of graduates continuing their education in specific areas of advanced study. In undergraduate years, a Natural Sciences student has a course of study with a strong emphasis in biology, chemistry, geology, mathematics or physics.

III. THE SOCIAL SCIENCES DIVISION

It stresses intelligent participation in community affairs through education in such fields as history, economics, geography, political science, psychology and sociology.

REQUIREMENT FOR ADMISSION

To be admitted to the Buchtel College of Arts and Sciences the student must have completed satisfactorily at least 30 credits of work, and have the approval of the Dean of the college.

DEGREES GRANTED

Humanities Division: Bachelor of Arts
Social Sciences Division: Bachelor of Arts, Bachelor of Science in Labor Economics, Bachelor of Science in Political Science/Criminal Justice
Natural Science Division: Bachelor of Arts, Bachelor of Science, Bachelor of Science in Medical Technology

REQUIREMENTS FOR BACCALAUREATE DEGREES

1. A student transferring into the Buchtel College of Arts and Sciences must have completed the equivalent of, or take, English 1100:111, 112, 3 credits of Modern University Mathematics, and the remainder of the General Studies Program.

The requirements for the Bachelor's Degree in the Buchtel College of Arts and Sciences must include, in addition to courses used to meet General Studies and language requirements, a minimum of 47 credits consisting of:

a. 300 and 400 level courses (both in the student's major and outside the major), and

b. Any other courses outside the major department as specified and approved by the student's major adviser and the department or division head (permission should be obtained prior to enrollment).

2. All candidates, except for those in the Labor Economics, Natural Sciences Division major, Medical Technology, and the Political Science/Criminal Justice curriculums must have demonstrated the ability to use two languages. If the candidate is a native-born speaker of English, this ability will be shown by the completion of a second year of an approved foreign language on the University level.

If the candidate is not a native-born speaker of English, this ability will be shown by the completion of the General Studies sequence of English 1100:111, 112.

3. Completion of requirements in a major field of study (see Divisions of Instruction) and the recommendation of the student's major department.

4. The student must have a minimum grade point average of 2.0 in all work in his/her major.

5. Any student who wishes to receive a second baccalaureate degree must complete 32 credits of course work in addition to the 128 credits necessary for his/her first degree; 16 of these credits must be 300 or 400 level courses or other approved courses.

6. The general University requirements for a baccalaureate degree are set forth on pages 81-82 of this General Bulletin.

MAJOR FIELD

To qualify for graduation a student must concentrate or major in the work of either a department of a division of the college. The major will consist of at least 24 credits. Part or all of these credits may be taken in specifically required courses depending upon the major chosen. The longer and more professionally-oriented majors should be started during the first year when the student is still under the guidance of the Office of Student Service.

Ordinarily a student will select a department in which to major. The exact requirements for each such major will be found on the following pages in the section headed "Departments of Instruction". Some departments offer more than one type of major. No minor is required, but in some cases the major includes certain courses in other departments. As soon as the student is transferred to the College, the head of his/her major department becomes his/her academic adviser.

Students who desire a broader education than the departmental major offers may elect a divisional major and qualify in the general area of the humanities or the natural sciences. The exact requirements for these majors will be found on the following pages in the section headed "Departments of Instruction". As soon as the student contemplating a divisional major is transferred to the College, the chairman of his/her major division becomes his/her academic adviser.

PREPARATION FOR HIGH SCHOOL TEACHING

Students interested in a teaching career on the high school level may qualify for secondary school certification by the State Department of Education while enrolled in the Buchtel College of Arts and Sciences. Generally the Arts and Sciences major subject will also constitute a teaching major, although a second teaching field usually is required. The education and psychology courses required for the secondary school teaching certificate may be taken as electives toward the Arts and Sciences degrees. Additional elective credits will generally enable the student to meet the requirement of a second teaching field, without exceeding the 128 credits necessary for graduation. Such a program is particularly recommended for students who, as a part of their preparation for teaching, plan to go to graduate school and earn an advanced degree through specialization in their field of major interest.

The number of credits in a teaching field required for certification may be
determined by reference to the section entitled "Teaching Fields located in the College of Education section of this Bulletin."

1. In addition to meeting the requirements in a teaching field a student must also take the following courses in psychology and in the College of Education.

DIVISIONS OF INSTRUCTION

3100: BIOLOGY

The Bachelor of Science, The Bachelor of Arts and the Bachelor of Science in Medical Technology degrees are offered.

Requirements for the B.S. degree with a major in Biology and the B.S. in Medical Technology degree.

The General Studies and the second year of a foreign language. Biology students must obtain 36 credits in biology to qualify for a Bachelor of Science degree. Additional courses in biology or other sciences are usually necessary to satisfy the admission requirements of graduate and professional schools for advanced work and professional studies.

All majors for a B.S. degree in biology take the following sequence of courses which will provide an understanding of the fundamentals of modern biology. During the first year, students intending to major in Biology should consult a member of the Biology Faculty.

Third Year: 3100:311 Cell Biology and 3100:394 Techniques and Instrumentation Lab. The student would then be expected to specialize during the third and fourth years in one of the areas listed below.

AREAS OF SPECIALIZATION WITH RECOMMENDED COURSES

BOTANY

ECOLOGY

HIGH SCHOOL TEACHING

For State Certification see "Preparation for High School Teaching," on previous page and page XXX.

MEDICAL TECHNOLOGY

A three year program (96 credits) at The University of Akron. (A foreign language is not required).

3100:331-2 Microbiology; 3100:335 Parasitology; 3100:381-2 Human Anatomy and Physiology; 3100:383 Lab Techniques and Instrumentation; 3100:447 Immunology; 3150:333-6 Analytical Chemistry for Laboratory Technicians. The student will have the option of 3100:214 Organic Evolution and/or 3100:217 General Ecology. 3100:212 Genetics Lab is also optional.

The three year University curriculum is followed by 12 months (32 cr.) of clinical Medical Technology instruction in an AMA approved School of Medical Technology. The University is affiliated with the following hospital schools: Akron City Hospital, Akron General Medical Center, Barberton Citizens Hospital, Canton Aultman Hospital, Cleveland Metropolitan General Hospital, Mt. Sinai Hospital of Cleveland, Mt. Sinai Hospital of Cleveland, St. Alexis Hospital (Cleveland), St. Thomas Hospital, and The Children's Hospital Medical Center of Akron. The student must apply to a Hospital School for separate admission. The University cannot guarantee placement. Students may train at other approved schools after obtaining special permission from the Head, Department of Biology. Students majoring in Medical Technology in this University are not required to have their transcripts evaluated by NAACLS before entering the clinical (laboratory/hospital) phase of their pro-
gram. This exemption by NAACLS from the transcript evaluation requirement does not imply any approval or accreditation of the medical technology curriculum in this institution.

The University grants the B.S. in Medical Technology after receipt of evidence of satisfactory completion of the hospital instructional program.

MICROBIOLOGY
3100:331-2 Microbiology; 3100:437 Immunology; 3100:431 Bacterial Physiology or 3100:435 Virology.

PHYSIOLOGY AND PRE-PROFESSIONAL
Including pre-medical, pre-dental, pre-veterinary, pre-pharmacy students.
3100:466-7 Developmental Anatomy; 3100:461-2 Human Physiology; 3650:261-2 Physics for Life Sciences I & II.

ZOOLOGY
A minimum of 13 hours from the following: 3100:351 Invertebrate Zoology; 3100:428 Biology of Behavior; 3100:458 Vertebrate Zoology; 3100:464 General and Comparative Physiology; 3100:466-7 Developmental Anatomy.

At least one of the following courses should also be included: 3100:341 Flora and Taxonomy I; 3100:342 Flora and Taxonomy II; 3100:444 Biology of Thallophytes; 3100:445 Plant Morphology.

Requirements for the B.A. degree with a major in Biology:
The General Studies requirements and the second year of a foreign language. At least 17 credits in the humanities or social sciences, including at least two of the following 3400:477 Western Science & Technology to 1800; 3400:478 Western Science & Technology 1800-3600; 464 Philosophy of Science. At least 24 credits in the biological sciences which must include 3100:111-2 Principles of Biology; 3100:211 General Genetics; 3100:214 Organic Evolution; 3100:217 General Ecology; and 3100:311 Cell Biology or, with permission, 3100:130 Principles of Microbiology. At least one year of chemistry, including, preferably, some biological chemistry (3100:129-130 General Chemistry is suggested).

Adviser: D. L. Jackson

3150: CHEMISTRY
Requirements for a B.S. degree with a major in Chemistry:
1. The general studies and the second year of German* 53 credits
   2. At least 45 credits in the department which must include:

<table>
<thead>
<tr>

   Total 12

   Classics Electives 12

Language courses must be above the 200 level in order to be included in this total. In the case of a Latin major, three (3) credits in this language (preferably in Latin Grammar and Idiom) must be taken during the senior year.

Certification requirements:
Students wishing to be certified for public school teaching with Latin as the principal teaching field must complete 26 credits in that language. In addition they must complete the required credits in a second academic teaching field. See Teaching Fields section under the College of Education.
3250: ECONOMICS

The Bachelor of Arts and the Bachelor of Science in Labor Economics degrees are offered.

Requirements for a B.A. degree with a major in Economics:

1. The General Studies and the second year of a foreign language. 53 credits.
2. At least 30 credits in the department, including:

<table>

3370: GEOLOGY

Requirements for a B.S. degree with a major in Geology:
1. The General Studies and the second year of a foreign language. 53 Credits.

2. At least 39 credits in Geology, including:

- Introductory Physical Geology 4
- Introductory Historical Geology 4
- Geomorphology 3
- Mineralogy: Crystallography 3
- Mineralogy: Minerals 3
- Structural Geology 4
- Introductory Invertebrate Paleontology 4
- Field Methods in Geology 2
- Optical Mineralogy 4
- Petrography 3
- Geology Field Camp 6

Total Required in Geology 39

3. Non-Geology courses required for majors:

- 3100:111 Principles of Biology 8
- 3150:132, 133 Principles of Chemistry I, II 7
- 3150:134 Qualitative Analysis 2
- 3450:221 Analytic Geometry - Calculus I 4
- 3650:231, 232 Concepts of Physics I, II 8

OR

- 3650:291, 292 Elementary Classical Physics 8

Total 29

4. Electives

Depending upon a student's major field of interest within Geology, additional work in a supporting science will be strongly recommended. During the first year, students intending to major in Geology should consult a member of the Geology Faculty.

Requirements for a B.S. degree with an option in Geophysics:

1. The General Studies and a second year of a foreign language.

2. At least 30 credits in Geology including:

- Introductory Physical Geology 4
- Introductory Historical Geology 4
- Structural Geology 4
- Fundamentals of Geophysics 3
- Exploration Geophysics 3
- Geology Field Camp 6
- Geology Electives 6

Recommended Geology Electives: 3370-230, 271, 404, 435, 437, 470

3. Non-Geology courses required:

- 3150:132, 133 Principles of Chemistry I, II 7
- 3450:221, 222, 223 Analytic Geometry-Calculus I-III 12
- 3450:235 Differential Equations 3
- 3650:291, 292 Elementary Classical Physics I-II 8
- 3650:431 Mechanics 3
- 3650:436 Electricity and Magnetism 3

3400: HISTORY

Requirements for a B.A. degree with a major in History:

1. The General Studies and the second year of a foreign language (French, German or Russian suggested) 53 credits

2. A minimum of 30 credits in History including:

- Historical Methods 2
- Other History courses 28

Total 30

Of the 28 remaining history credits a student must take some distribution of the courses in American and European History. A suitable pattern would be:

- 3400:201-202 U.S. Survey 8
- 3400:301, 302 Modern Europe 8
- Electives 45

3450: MATHEMATICS

The Bachelor of Arts and the Bachelor of Science degrees are offered in Mathematics, Applied Mathematics and Statistics.

Requirements for a B.S. or a B.A. degree with a major in Mathematics:

1. The General Studies and the second year of French, German and Russian 53 credits.

2. At least 40 credits in the department including: *

- Analytic Geometry - Calculus I 4
- Analytic Geometry - Calculus II 4
- Analytic Geometry - Calculus III 4
- Differential Equations 3
- Abstract Algebra 3
- Linear Algebra 3
- Introduction to Topology 3
- Advanced Calculus I 3
- Advanced Calculus II 3

Mathematics Electives 30

Total 40

(Elective credits must be in approved 300/400 level courses in mathematics)

3.A For the B.S. degree: complete 18 credits of course work outside the department and beyond the General Studies in a suitable area of concentration as approved by the department.

3.B For The B.A. degree: complete 18 credits of Humanities or Social Science beyond the General Studies. The 18 credits are to be from more than one department.

4. Electives 17

### Requirements for a B.S. degree or a B.A. degree with a major in Applied Mathematics:

1. The General Studies and the second year of French, German or Russian 53 credits.

4. Electives 17

### 3500: MODERN LANGUAGES

3500: Hebrew, Modern Persian, Modern Languages 3520: French 3530: German 3550: Italian 3570: Russian 3580: Spanish

Requirements for a B.A. degree with a major in French, German, Russian or Spanish:

1. The General Studies
2. Completion of 24 credits above the second year (200) level: 6 credits in composition & conversation; 6 credits in culture; and 6 credits in electives in the major field.

### 3600: PHILOSOPHY

Requirements for a B.A. degree with a major in Philosophy:

1. The general studies and the second year of a foreign language 53 credits.
2. Philosophy Courses: A minimum of 30 credits in the department which must include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3600:101</td>
<td>3</td>
</tr>
<tr>
<td>3600:120</td>

</tr>
<tr>
<td>3600:213</td>
<td>3</td>
</tr>
</tbody>
</table>

Of the additional credits, 6 must be earned in 300/400 level courses 12

Total: 30
3. Electives in a selected concentration

4. Electives

3650: PHYSICS

Both the Bachelor of Science degree and the Bachelor of Arts degree are offered. The B.S. degree is intended for persons seeking the most detailed and quantitative preparation in physics available in an undergraduate curriculum; students preparing for graduate study in physics or another physical science should usually satisfy all the requirements for the B.S. degree. The B.A. degree, by contrast, is provided primarily for persons desiring a useful background in physics, but whose professional objectives may not require graduate study in physics or a related physical science.

Requirements for a B.S. Degree with a major in Physics:

1. The General Studies and the second year of a foreign language (44 credits).
2. Physics courses: A minimum of 40 credits. Included should be:
   - 3650:291-292 Elementary Classical Physics I, II 8
   - 3650:301 Elementary Modern Physics 3
   - 3650:406 Waves 3
   - 3650:407 Quantum Physics 3
   - 3650:410 Electronics 3
   - 3650:411-412 Intermediate Laboratory I, II 4
   - 3650:430 Statistical Physics 3
   - 3650:431 Mechanics 3
   - 3650:436 Electricity and Magnetism 3
   - 3650:451-452 Advanced Laboratory I, II 4

   Physics Electives 9
   Physics Course Total 40

   Notes:
   - Additional physics courses are usually necessary to satisfy the admission requirements of graduate schools for advanced work in physics or certain other physical sciences.
   - Courses 1100:224, 3650:130, 133, 137, and 141 are not applicable toward the required 40 credits of physics courses.

3. Mathematics:
   - 3650:221-222-223 Analytic Geometry-Calculus I, II, III 12
   - 3450:235 Differential Equations 9
   Mathematics Course Total 21

4. Chemistry:
   - 3150:132-133 Principles of Chemistry I, II 7

5. Computer Science
   - 4450:206 Fortran (Sci/Eng) 2

6. Electives 20

   Total required credits for B.S. degree 128

Requirements for a B.A. degree with a major in Physics:

1. The General Studies and the second year of a foreign language (44 credits).
2. Physics courses: A minimum of 24 credits. Included should be:
   - 3650:291-292 Elementary Classical Physics I, II 8
   - 3650:410 Electronics 3
   - 3650:411-412 Intermediate Laboratory I, II 4

   Total 15

   Physics Electives 9
   Physics Course Total 24

   Courses 1100:224, 3650:130, 133, 137, 138 and 141 are not applicable toward the required 24 credits of physics courses without special permission.

3. Mathematics:
   - 223 Analytic Geometry-Calculus I, II, III 12

4. Electives 48

   Total required credits for B.A. degree 128

Comment on Degree Programs

The preceding requirements specify the minimum curriculum for the B.S. and B.A. degrees with a major in Physics. Students expecting to specialize in a particular professional area should consider utilizing part or all of their elective courses toward one of the important program options listed below. These programs are intended to be illustrative only; a considerable degree of flexibility is possible, depending upon the needs and interests of individual students.

Some physics students may consider it important in their bachelor’s degree programs to prepare themselves in greater depth in other science areas (besides physics and mathematics) than may usually be possible within the traditional four-year departmental degree curricula. These students may therefore prefer to work toward the B.S. in Natural Science degree, which in effect allows the substitution of 16 credits of science courses (either in one additional scientific discipline, or equally in two additional scientific disciplines) for the two year foreign language requirement. For further information, refer to the Natural Sciences Division Major section of the General Bulletin, or contact the Department of Physics.

Areas of Specialization in Physics, with recommended Courses:

II. Biophysics Option (B.S. or B.A. degrees). A total of 27 credits to include: 3100:111-112, 211, 214, 311, 480: 3150:263-264: 3650:421.
III. Chemical Physics Option (B.S. degrees recommended). A total of 20 credits to include: 3150:263-264, 313-314, 315-316; 3650:421, 471.

V. Geophysics Option (B.S. or B.A. degrees). A total of 18 credits to include: 3700:101, 102, 350, 3650:421, 471.

VI. Polymer Physics Option (B.S. degrees recommended). A total of 24 credits to include: 3150:263-264, 313-314; 3650-421; 3940:401, 402, 411-412-413.

VII. Physics/Astrophysics/Astronomy Pre-Graduate School Option (B.S. degrees recommended).
A total of 34 credits to include: 3650-321, 331-332, 404, 420, 421, 438, 445, 446, 481-482, 399.

COOPERATIVE INDUSTRIAL EMPLOYMENT PLAN

For academically qualified undergraduate students majoring in Physics, an optional cooperative plan is available which provides a scheduled sequence of professionally-oriented industrial employment (totalling a full calendar year) alternating with periods of on-campus classroom instruction. This Co-Op Plan requires a five-year period for the completion of the bachelor's degree program in Physics, with the spring term of the third year plus the fall and summer terms of the fourth year typically spent off-campus with a participating industrial employer.

Arrangements for student entry into the Co-Op Plan are on an individual basis, and must be initiated by the student during the second year of undergraduate study. For further information about the Co-Op Plan, contact the Department of Physics.

3700: POLITICAL SCIENCE

The Bachelor of Arts in Political Science and the Bachelor of Science in Political Science/Criminal Justice degrees are offered.

Requirements for a B.A. with a major in Political Science.

1. The General Studies and the second year of a foreign language 53 credits.
2. At least 30 credits in the department including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3700-100</td>
<td>Government and Politics in the U.S.</td>
<td>3</td>
</tr>
<tr>
<td>3700-200</td>
<td>Comparative Politics</td>
<td>4</td>
</tr>
<tr>
<td>3700-201</td>
<td>Introduction to Political Science</td>
<td>3</td>
</tr>
<tr>
<td>3700-303</td>
<td>Introduction to Political Thought</td>
<td>3</td>
</tr>
</tbody>
</table>

If the student is unable to take any of the aforementioned courses in Political Science as a result of problems in scheduling, the Head of the Department of Political Science may permit the substitution of appropriate departmental courses.

SPECIAL CURRICULAR TRACKS IN POLITICAL SCIENCE

The Political Science Department offers three special curricular tracks for students interested in Pre-Law, the International Service, or Criminal Justice.

1. Pre-Law track
2. International Service track
3. Criminal Justice track

For further information about the requirements for the major, each of these tracks includes electives appropriate for prepara-
profession for careers in law, government service or International Service. Information about these curricular tracks may be obtained from the Head of the Department of Political Science.

3750: PSYCHOLOGY
Requirements for a B.A. with a major in Psychology:
1. The General Studies and the second year of a foreign language, 53 credits.
2. At least 30 credits in the department including:
   - 3750:100 Introduction to Psychology 3
   - 3750:110 Quantitative Methods in Psychology 3
   - 3750:120 Introduction to Experimental Psychology 4
   - Psychology Electives 10
   Total 30
3. Electives
   Students should consult with their faculty advisor to plan a program of psychology electives geared to their educational objectives.

3750: SOCIOLOGY
(3850: Sociology, 3870: Anthropology)
Sociology is usually defined as a social science concerned with the systematic study of human society. More specifically, it focuses upon patterned human behavior and attempts to predict and explain this behavior.

Requirements for a B.A. degree with a major in Sociology:
1. The General Studies and the second year of a foreign language, 53 credits.
2. Minimum of 30 credits in Sociology courses including:
   - 3850:100 Introduction to Sociology 4
   - 3850:301 Methods of Social Research I 3
   - 3850:302 Methods of Social Research II 3
   - 3850:403 History of Sociological Thought 3
   - 3850:404 Contemporary Sociological Theories 3
   - Cultural Anthropology 4
   - Physical Anthropology 3
   - New World Prehistory 3
   - Language and Culture 3
   Total 16
   Sociology Electives 14
   Total 30

(3870:150 Cultural Anthropology can be counted as part of these hours.)
3. Electives
   A student should consult with his/her department adviser in using electives to enhance his/her specialty area, i.e., academic sociology, deviance and corrections, family, agency and life cycle, urban planning and social research, etc.

Requirements for a B.A. degree with a major in Sociology/Anthropology:
1. The General Studies and the second year of a foreign language, 53 credits.
2. Minimum of 31 credits in the Department including:
   - 3850:100 Introduction to Sociology 4
   - 3850:301 Methods of Social Research I 3
   - 3850:302 Methods of Social Research II 3
   - 3850:403 History of Sociological Thought 3
   - 3850:404 Contemporary Sociological Theories 3
   - Cultural Anthropology 4
   - Physical Anthropology 3
   - New World Prehistory 3
   - Language and Culture 3
   Total 16
   Sociology Electives 14
   Total 30
3. Electives
   A minimum of 2 additional hours of credits to be selected from the following courses.
   - 3870:257 Indians of South America 3
   - 3870:258 Indians of North America 3
   - 3870:357 Magic, Myth and Religion 3
   - 3870:455 Culture and Personality 3
   - Types of Kinship and Social Organization 3
   Total 13

3. Electives

HUMANITIES DIVISION MAJOR
The Humanities Division consists of the Departments of Classics, English, Modern Languages, and Philosophy. The divisional major must include the following, in addition to the General Studies and the second year of a foreign language:
1. At least 48 credits in the division, at least 24 credits of which must be in courses on the Upper College level. The minimum of 48 credits must include at least 6 credits in each of any five of the following: the Classics, English, French, German, Greek, Italian, Latin, Philosophy, Russian and Spanish.
2. At least 6 credits in the Department of History.

NATURAL SCIENCES DIVISION MAJOR
The Natural Sciences Division consists of the Departments of Biology, Chemistry, Geology, Mathematics and Statistics, Physics and Polymer Science. The divisional major must include:
1. The General Studies
2. At least 24 credits from one of the departments of the Natural Sciences Division.
3. At least 16 credits from another of the following disciplines: Biology, Chemistry, Engineering, Geology, Mathematics and/or Statistics, Physics, or Polymer Science.

4. At least 16 credits from a third of these disciplines; or alternatively, at least 8 credits in each of two other of these disciplines.

A foreign language is strongly recommended.

The courses for the Natural Science Division Major must be selected from those courses eligible for inclusion in the major of these disciplines.

For further information please contact the Office of the Dean, Buchtel College of Arts and Sciences, Akron, Ohio 44325.
OBJECTIVES

The purpose of the College of Engineering is to further the objectives of The University of Akron by providing a quality program of engineering education with the following aims:

To offer sound basic instruction in the engineering disciplines.

To develop in students the ability to apply engineering principles to the economic and technological progress of society.

To promote in students a high sense of ethics and professional responsibility, and

To foster in students an appreciation of the need to further the role of the engineering profession in society.

At the undergraduate level the College has coursework leading to the following degrees: Bachelor of Science in Engineering, in Chemical, Civil, Electrical and Mechanical Engineering and the Bachelor of Construction Technology.

At the graduate level the degrees awarded are the Master of Science in Engineering, the Master of Science in Chemical, Civil, Electrical and Mechanical Engineering and the Doctor of Philosophy in Engineering.

The program of study at the undergraduate level is principally the five year Co-Op plan. While this plan is optional, by far the greater number of students elect the Co-Op method of obtaining their bachelor’s degree.

Along with the emphasis on preparation for professional practice within the College, the University policy assures that each student obtains a substantial exposure to the humanities.

Graduates are prepared to either go on to masters and doctoral level study in engineering or to obtain employment in the engineering profession directly upon receipt of the baccalaureate degree.

THE COOPERATIVE PLAN

The optional cooperative plan provides for a coordinate sequence of alternate periods of classroom instruction and industrial employment during the cooperative phase of the five-year course.

The Cooperative plan provides simultaneously for the development of fundamental principles in the classroom and for their application in industrial practice. The student has the opportunity to find the type of work and industrial organization in which he/she can best apply his/her individual ability. He/she gains an appreciation of the problems of labor and management by first-hand experience. He/she develops mature judgement by coping with the everyday problems of the industrial world. The employer of cooperative students has the opportunity to select and train students whose abilities and aptitudes can be adapted to the needs of his/her technical staff requirements.

While students are at work, they are required to obey all rules and regulations prescribed by the employer. In addition, they are subject to all current labor laws and conditions. The students are considered full-time students by the University while in industry assignments.

The University does not guarantee employment, but makes every effort to place students to the best financial advantage that is consistent with the acquisition of sound subprofessional experience.

REQUIREMENTS FOR ADMISSION

In addition to the general requirements for admission to the University, students applying for admission in Engineering must present the following secondary school credits:

- Algebra 1½ units
- Plane Geometry 1 unit
- Solid Geometry or Trigonometry ½ unit
- Chemistry or Physics 1 unit
It is strongly recommended that applicants in Engineering present additional credits in mathematics and physical science.

All beginning students register in the General College. Those admitted in Engineering will be eligible for transfer to the College of Engineering after satisfactory completion of 30 credits of work and the approval of the Dean.

DEGREES

The College of Engineering offers curricula leading to the degrees of Bachelor of Science in Chemical, Civil, Electrical and Mechanical Engineering, Bachelor of Science in Engineering, and Bachelor of Construction Technology.

For the Master’s and Doctor’s degree programs in Engineering, see the Graduate School Section.

REQUIREMENTS FOR GRADUATION

1. Compliance with University requirements, chapter 3, this BULLETIN.
2. All incoming freshmen shall complete the credit requirements listed in the appropriate schedule of required courses.
3. The recommendation of the student’s department.

Any Junior or Senior Engineering student with a quality point ratio of 2.500 over-all and 2.750 Engineering or better may substitute not more than two approved Upper College courses in mathematics, science or engineering for an equal number of certain required engineering courses.

4200: CHEMICAL ENGINEERING

The goal of chemical engineering education is the development of the intellectual capacity and abilities to apply the principles of transport phenomena, equilibria, and kinetics, involving chemical and physical transformations, to the creative resolution of technological problems for the benefit of mankind and his surroundings.

The chemical engineer like all other engineers is trained in mechanics, materials and their properties, economics, systems and their controls, etc. The chemical engineer differs from all other engineers because he alone is responsible for materials separations and the conversion of matter; separations such as air into its components of oxygen, nitrogen, argon, and conversions such as natural gas into plastics, coal into liquid fuel.

Chemical engineers find satisfying and rewarding careers in all walks of life, but mainly in the chemical process industries. Usually they become involved with inorganic and organic chemicals, rubber and plastics, detergents, petroleum products, metals, pharmaceuticals, dyestuffs and food products.

The chemical engineer will usually be employed in one or more of the following activities: research and development, plant design and construction, process control, plant operations, sales and management. In addition to the processing industries, chemical engineers are increasingly in demand in such areas of current interest as water and air pollution, biological engineering and energy engineering.

4300: CIVIL ENGINEERING

The Civil Engineer is dedicated to planning, designing, and building to make our environment more attractive. Civil Engineers work with others to renovate urban areas; to develop new housing systems; to plan community facilities; to build new water storage systems; to design new systems for waste disposal; to expand airport and harbor facilities; to build and maintain local streets and inter-city highways; to design all types of buildings and bridges; to build dams, reservoirs and flood control systems; to build tunnels; and to design foundations.

The Civil Engineering curriculum at The University of Akron is divided into two options: Design and Construction. The Design Option allows specialization in (1) environmental engineering, (2) foundation engineering, (3) hydraulic engineering, (4) structural engineering and (5) transportation engineering. The Construction Option includes introductory work in the five areas above but specializes in the engineering and financial aspects of construction. Each option contains a group of elective courses.

Civil Engineering graduates work for consultants, manufacturers, construction companies, utilities and for government bodies of all levels. More Civil Engineers than any other type own their own businesses.

4400: ELECTRICAL ENGINEERING

The many branches of electrical engineering include: production and distribution of electrical energy; research, development, manufacture, and operation of electrical and electronic products; and systems for instrumentation, automation, tracking and telemetry.

The growth of electronic research and manufacturing has been accelerated by the space age. There is hardly a segment of the American economy which has not been influenced by electronics. The high speed digital computer has found its way into virtually all aspects of modern life. Students wishing to specialize in Computer Science will find a set of appropriate electives available to them.

The wide use of electrical means for measurement, control, and computation has resulted in the need for electrical engineers in all types of industries. Students wishing employment upon graduation will find many varied opportunities.

Students wishing to continue their education in Graduate School or in Law or
Medical School will find specialized programs of preparation are available within the framework of the Electrical Engineering Department.

**BACHELOR OF SCIENCE IN ENGINEERING**

This degree program was established to introduce flexibility into the College of Engineering. Within the 66 credit hours of the Option portion of the program, the student can study business administration, industrial management, environmental, pre-medical, or any other field he/she may choose along with his/her engineering studies. The program of study may be very narrow as in the case of a student wishing to specialize in structural design, foundations and soil mechanics. For another student interested in patent law, the program may be broad, touching on chemical, mechanical and electrical engineering subjects. Each student's program is designed to meet his/her announced goals.

Entrance to this program is restricted. The student requests admission by letter to the Dean of Engineering, outlining in some detail his/her particular objective and how the BSE program may enable him/her to prepare for his/her career goal. The mathematics, physics and chemistry requirements are identical to those of the four departments of the College of Engineering.

Mechanical engineering is concerned with the design and analysis of physical systems. A high level of professional competence in this field can only be achieved through an extensive study of mathematics, mechanics, fluid flow and the thermal sciences. Among the many subtopics included in these major headings are stress analysis, vibrations, compressible and incompressible fluid flow, thermodynamics, energy conversion, environmental control, heat transfer, and automatic controls. The typical mechanical engineering design problem may involve any one or possibly all of these areas in the design of a complex system.

Mechanical engineers are employed in a variety of jobs by a large number of companies. The jobs include management, design, analysis, safety, production, and plant engineering. The types of companies include automotive, petroleum, power, aerospace, tire, consulting, publishing, insurance, and manufacturers in general.

The Curriculum is designed to emphasize fundamentals which will place the graduate in a strong position to pursue further education through either formal or informal channels.
4980: CONSTRUCTION TECHNOLOGY

The curriculum in Construction Technology is designed to produce a graduate with a strong fundamental knowledge of technology, combined with management ability and a familiarity with business, economics and personnel management. The program is designed to provide graduates for positions in field supervision and estimating for the construction industry.

The program is a “two-plus-three” arrangement with one full year of on-the-job experience. All students must complete the Associate Degree Program in Surveying and Construction Technology before entry into this baccalaureate program.* Transfer-ees who have completed other two-year programs where the course content compares favorably will be admitted as candidates for the degree Bachelor of Construction Technology.

The College of Education
H. Kenneth Barker, Ph.D., Dean

OBJECTIVES
The purpose of the College of Education is to further the objectives of The University of Akron by providing quality undergraduate and graduate programs for students of Education and by helping them attain the following:

Special experiences, knowledge, and skills particularly useful for teaching in urban and inner city schools, in keeping with the urban mission of the University.

A knowledge of a major field and related fields of inquiry and the ability to use this knowledge in explaining the realities of life today.

A knowledge of instructional materials and new technology and skill in recognizing and utilizing instructional tools most suitable for specific purposes.

A knowledge of the social issues relevant to education and living in a pluralistic society and the competence to translate implications of changes in society into instructive action as teacher-citizens as well as teacher-scholars.

An understanding of the learner and the learning processes and the ability to translate these into appropriate teaching behaviors in acting and reacting with students. An appreciation of the values and feelings essential for working with young people and with colleagues and the ability to develop empathic relationships in a wide variety of professional and social roles in the school and community.

Skill in the acquisition of inquiry techniques appropriate to generalizing knowledge and choices and practice in using them to inquire into educational problems in rational, defensible ways.

Human relations skills, including an appreciation of the values and feelings essential for working with young people and with colleagues and the ability to develop relationships in a wide variety of professional and social roles in pluralistic schools and communities.

To accomplish these objectives, this Upper College offers a variety of programs for the preparation of elementary and secondary teachers, counselors, school administrators and other educational personnel. The baccalaureate degrees, Bachelor of Arts in Education, Bachelor of Science in Education and Bachelor of Science in Technical Education are offered. Graduate degrees include the Master of Arts in Education, the Master of Science in Education, the Master of Science in Technical Education and the Ph.D. and Ed.D. degrees.

Programs leading to each degree include a balanced offering of a foundation in general education, an intensive study in depth of the teaching and/or administration area, and those professional courses and other learning experiences which attempt to combine theory and practice.

In addition to the regular degree programs, special courses and related services such as institutes and workshops are regularly offered with the planning assistance of public school personnel.

Throughout its history, the College of Education has maintained a close relationship with the Akron Public Schools. Perkins Normal School which was founded by the Akron Board of Education, became the Teachers College of the University in 1921, expanding into the College of Education in 1935. Today, the public school administration of Akron and surrounding school districts cooperate in advisory capacities to the College of Education. Their schools are used widely for observation and for the assignment of student teachers. Approximately one-half of the teachers in the Akron Public Schools are former students of the University.

REQUIREMENTS FOR ADMISSION
To be admitted to the College of Education, the student must be able to meet the following criteria:

1. Completion of at least 30 credits with at least a 2.0 quality point average.*

2. Demonstration of those qualities of character and personality deemed essential for a professional person in education. This determination is made by instructors conducting the education courses in the

*Secondary Education students must have 8 hours in teaching field with a 2.5 average.
general college, by the staff in the Office of Student Services, and if necessary, by measuring performance by means of standardized evaluation instruments.

3. Demonstrated evidence of the ability to attain a 2.5 quality point average in his choice of major fields.

All students preparing for certification may be evaluated by the College of Education Undergraduate Committee, subject to review by the Dean. Such evaluation will occur whenever there is reason to believe the student does not measure up to criteria for professional development established by the faculty of the college. This committee can recommend to the Dean of the College of Education any one of the following actions:

1. That the student's admission to or retention in the program for certification be confirmed with no other action suggested.
2. That the student's admission to or retention in the program for certification be confirmed but that he/she be apprised that he/she has certain weaknesses which must be corrected before he/she will be approved for student teaching.
3. That the student's final admission to or retention in the program for certification be denied because of certain weaknesses which the committee believes are not correctible.

STUDENT ADVISERS

Students should confer with the following persons depending upon the fields in which they expect to teach. Students should also feel free to consult with the Dean or Assistant Dean of the College of Education.

Mr. Sugarman

Graduate
Mr. Adolph, Mr. Bradley, Mr. Esparite, Mr. Birdsell, Mr. Hoedt, Mr. Rich.

REQUIREMENTS FOR BACHELOR'S DEGREE

Students prepare to teach any one of the following areas or fields: Nursery School, Kindergarten-Primary, Elementary; the conventional academic fields found in junior senior high schools; and the special fields of Art, Business, Home Economics, Music, Physical Education, Slow Learners, and Speech and Hearing Therapy; and post-secondary Technical Education. A minimum of 128 credits with a grade point ratio of 2.0 must be completed to qualify for the Bachelor's degree.

The specific subjects required for degrees in certain fields are set forth in subsequent pages. In all cases, the requirements include courses in the general studies, subject matter areas, and professional sequences.

The B.A. in Education degree is granted to those whose major is one of the academic fields or in Speech and Hearing Therapy. The B.S. in Education is granted to those whose major is in the other special fields or in elementary education. The B.S. in Technical Education is awarded to those who complete the requirements of that program.

STUDENT TEACHING

Student teaching is done in the public schools under the direction of supervising teachers and a representative of the College of Education faculty.

In order to qualify for student teaching a student must maintain a 2.5 average in his/her teaching field. Satisfactory work also must be done in other teaching fields and in professional education to warrant recommendation for a teaching certificate.*

*Music majors, before assignment for student teaching, are required to pass the General Musicianship Examination described in the Music section of the College of Fine and Applied Arts. To avoid possible delay in graduation, it is necessary for the student to take the examination six months prior to the anticipated assignment for student teaching.
RECOMMENDATIONS FOR CERTIFICATION

Every teacher in Ohio public schools is required to have a certificate covering the fields in which he/she is teaching. This certificate is issued by the State Department of Education upon recommendation of the Dean of the College of Education. The student must make out an application form which may be obtained in the office of the Dean. This form should be filled out about one month before the student plans to complete all of his/her requirements for teaching.

Students are expected to receive their recommendation for certification from the institution granting the degree. Students who expect to receive degrees from other institutions but who wish to qualify for certification at The University of Akron will be expected to meet all of the certification requirements of The University of Akron.

STUDENTS ENROLLED IN OTHER COLLEGES AT THE UNIVERSITY OF AKRON

Some students who receive degrees from other colleges in the University may also wish to qualify for teaching. They will be recommended for certification after completing their major and minor requirements and the pre-professional and professional courses included in the RECOMMENDED SEQUENCE FOR SECONDARY EDUCATION listed later in this chapter. Such students must be closely advised during the last two years.

Any student in the University who is not enrolled in the College of Education and who wishes to teach should register with the Dean of the College of Education by completing the form "Admission to Teacher Education" at the time of promotion to Upper College or two years prior to the time he/she expects to be eligible to teach.

ELEMENTARY EDUCATION

The Elementary program is for those preparing to teach in grades one to eight inclusive. The requirements for a major in Elementary Education are as follows:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3350:100 Intro. to Geography</td>

</tbody>
</table>

D. Area of Specialization: 12-20

An area of specialization must be selected by the student with approval of his/her advisor. The student is urged to select an area of specialization which he/she believes will contribute to his/her success as a teacher. The number of hours required (12-20) is above and beyond the number of hours required in any other part of the program (A, B, or C above).

E. Electives: 6

Total Credits Required: 128-137

KINDERGARTEN-PRIMARY

The Kindergarten-Primary program is for students preparing to teach in the kindergarten through the third grade. Any elementary certificate will be validated for kindergarten teaching provided the applicant submits evidence of completion of the following 16 hours of course work:

Required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>7400:265 Child Development</td>
<td>3</td>
</tr>
<tr>
<td>5200:330 Early Elementary Educ. I</td>
<td>3</td>
</tr>
<tr>
<td>5200:331 Early Elementary Educ. II</td>
<td>3</td>
</tr>
</tbody>
</table>

*Six hours of science are included in the General Studies requirements. Two of these six hours must be in biological science to meet certification requirements.
Electives (choose 7 hours from the following):
5550:211 First Aid 2
2610:440 Dev. Char.: Excep. Indiv. 3
5100:410 Audio Visual Education 2
5200:497 Independent Study 1-3
3750:130 Developmental Psychology 4

By taking the following courses, students in the Elementary program may also receive University recommendations as Director of Teaching in Nursery Schools:
Required:
7400:285 Child Development 3
5200:310 Intro. to Early Childhood Educ. 2
5200:311 Curr. Preschool Learning Ctrs. 2
5200:360 Nursery School Laboratory 3
Electives (choose 6 hours from the following):
7400:460 O & S Child Care Ctrs. 3
5550:211 First Aid 2
7400:401 Fam. Life: Econ. Deprived 2
5200:497 Independent Study 1-3
5610:440 Dev. Char.: Excep. Indiv. 3
7400:275 Play & Creative Exp. 4
5100:410 Audio Visual Education 2
3750:130 Developmental Psychology 4
7400:290 Admin. Child Care Ctrs. 3

OTHER AREAS OF SPECIALIZATION

Elementary majors may choose other areas of specialization from an approved list developed by the department. Included are mathematics, reading, inner city education, music, geography, learning disorders, special education, science, physical education, visual arts, world of work, and others.

Students are urged to consult department advisors for details and requirements.

CERTIFICATION FOR TEACHING FOREIGN LANGUAGE IN THE ELEMENTARY SCHOOL

Persons desiring certification to teach modern foreign language on the elementary level must meet the regular requirements for certification on the secondary level, plus these Ohio State requirements:
A. Child Psychology or Human Growth and Development.
B. Purposes and Practices of Elementary Education, or equivalent.
C. Methods of Teaching the Modern Foreign Language.

PROGRAM FOR CERTIFICATION OF NON-PROFESSIONAL DEGREE HOLDERS FOR ELEMENTARY SCHOOL

To qualify for a Provisional Elementary Certificate, the holder of a baccalaureate degree in fields other than Education should complete a program of course work equivalent to that required for a major in Elementary Education.

Requirements
I. Pre-Professional Education and General Studies: A student may be required to take courses from the Pre-Professional Education and General Studies sections if previous transcripts reveal an insufficient background in those areas or in courses listed under Elementary Education.

II. Professional Education
A. Basic
5100:150 Intro. Professional Education 3
5100:250 Hu. Dev. & Lrng. 3
5100:350 Ed. Meas. & Eval. 2
5100:450 Problems in Education 2

B. Elementary Education
5200:141 Handicrafts 2
5200:286 Children’s Literature 3
5200:300 Student Participation 1
5200:321 Art for the Grades 2
5200:333 Science for Elem. Grades 3
5200:335 Teaching of Language Arts 5
5200:338 Teaching of Reading 3
5200:339 Teaching of Math 3
5200:342 Teaching Social Studies 3
5200:344 Teaching of Science 3
5200:365 Comp. Mus. Elem. Teachers 4
5200:403 Seminar in Student Teaching 1
5200:485 Student Teaching 8
5550:334 Games & Rhythms 2
5570:101 Personal Health 2

III. If certification for teaching Kindergarten is desired, the following courses must be scheduled:
5200:330 Early Elementary Educ. I 3
5200:331 Early Elementary Educ. II 3

*If a time period of four (4) years has lapsed since taking this course, or its equivalent, a basic mathematics or mathematics education course must be completed.

RETRAINING FROM SECONDARY TO ELEMENTARY CERTIFICATE

The holder of a Provisional, Professional, or Permanent High School or Special Certificate may obtain a Provisional Elementary Certificate valid for elementary teaching (grades 1-8) upon submitting evidence of the satisfactory completion of the following credits:

<table>
<thead>
<tr>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>5200:451 Elementary Education</td>
</tr>
<tr>
<td>5200:337 Teaching of Reading</td>
</tr>
<tr>
<td>5200:336 Tchg. Elem. School Math</td>
</tr>
<tr>
<td>5100:250 Hum. Dev. &amp; Lrng.</td>
</tr>
</tbody>
</table>
Such a certificate shall be designated as a RETRAINING certificate and shall be made standard upon evidence of the completion of the following course work in elementary education:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>5200:141</td>
<td>Handcrafts</td>
<td>2</td>
</tr>
<tr>
<td>5200:286</td>
<td>Children's Literature</td>
<td>3</td>
</tr>
<tr>
<td>5200:300</td>
<td>Student Participation</td>
<td>1</td>
</tr>
<tr>
<td>5200:321</td>
<td>Art for the Grades</td>
<td>2</td>
</tr>
<tr>
<td>5200:333</td>
<td>Science for Elem. Grades</td>
<td>3</td>
</tr>
<tr>
<td>5200:335</td>
<td>Teaching of Language Arts</td>
<td>5</td>
</tr>
<tr>
<td>5200:336</td>
<td>Teaching of Social Studies</td>
<td>3</td>
</tr>
<tr>
<td>5200:339</td>
<td>Prin. Diag. Tchg. of Reading</td>
<td>3</td>
</tr>
<tr>
<td>5200:365</td>
<td>Comp. Mus. Elem. Teachers</td>
<td>4</td>
</tr>
<tr>
<td>5550:334</td>
<td>Games &amp; Rythms</td>
<td>2</td>
</tr>
<tr>
<td>5570:101</td>
<td>Personal Health</td>
<td>2</td>
</tr>
</tbody>
</table>

If additional hours are needed in the Social Sciences, a choice should be made from the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>3700:100</td>
<td>Gov. &amp; Pol. in the U.S.</td>
<td>3</td>
</tr>
<tr>
<td>3400:201</td>
<td>U.S. History to Civil War</td>
<td>4</td>
</tr>
<tr>
<td>3400:202</td>
<td>U.S. History since Civil War</td>
<td>4</td>
</tr>
<tr>
<td>3350:100</td>
<td>Intro. to Geography</td>
<td>3</td>
</tr>
</tbody>
</table>

If the student desires certification for teaching Kindergarten, the following six credit hours must be scheduled:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>5200:330</td>
<td>Early Elementary Education I</td>
<td>3</td>
</tr>
<tr>
<td>5200:331</td>
<td>Early Elementary Education II</td>
<td>3</td>
</tr>
</tbody>
</table>

Student teaching is required in this program if evidence of teaching experience under the original certificate is lacking or it is deemed advisable by the Dean of the College of Education, the Director of Student Teaching, and the Head of the Department of Elementary Education. A 2.5 grade point average in professional course work is required to enroll in student teaching.

Completion of the above credits does not necessarily constitute qualification for the B.S. degree in Elementary Education at The University of Akron. To qualify for the degree, certain additional requirements must be met.

CERTIFICATION FOR TEACHING MUSIC* IN THE ELEMENTARY SCHOOL

Any student who completes a regular four-year program qualifying him for a Four-Year Provisional Elementary Certificate may have that certificate validated for teaching music in the elementary school by completing the following courses.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>7500:151</td>
<td>Music Theory I, II (3 each)</td>
<td>6</td>
</tr>
<tr>
<td>7500:154</td>
<td>Music Lit. I, II (2 each)</td>
<td>4</td>
</tr>
<tr>
<td>7500:161</td>
<td>Sight Singing I</td>
<td>2</td>
</tr>
</tbody>
</table>

DUAL CERTIFICATION PROGRAM ELEMENTARY AND SECONDARY

This curriculum prepares teachers for both elementary and secondary schools. Students completing this curriculum will receive the four-year provisional certificate to teach in the secondary school and a certificate which will qualify them to teach in grades 1 through 8 of the elementary school.

Students in this program must meet the requirements for Elementary Education; must complete 5300:310, Principles of Secondary Education (3 credits), and 5300:311, Instructional Techniques in Secondary Schools (3 credits); and must meet the requirements in the field or fields of teaching at the secondary level in which certification is requested*. For advisement in this area, contact the Head of the Department of Elementary Education.

SECONDARY EDUCATION

The secondary program is for students preparing to teach in junior and senior high schools. A list of the specific requirements for the various teaching fields will be provided for the student by his/her College of Education advisor or by the Head of the Department of Secondary Education.

The general requirements for a major in Secondary Education are as follows:

1. General Studies Courses: 39
2. General Professional and Pre-Professional Courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

<td>1-2</td>
</tr>
<tr>
<td>5100:350</td>
<td>Educational Measurements &amp; Evaluation</td>
<td>2</td>
</tr>
</tbody>
</table>
TEACHING FIELDS

Each student preparing for secondary school teaching must have at least two academic teaching fields. One field shall be at least six credits more than the minimum required by the State Department of Education, except where the state requirement in the teaching field is 30 credits or more. However, if a student chooses one of the special teaching fields, as listed below, he/she will not be required to prepare in a second field.

For selection of required courses for a teaching field and the recommended sequence for his/her secondary education program, a student should consult the Head of the Department of Secondary Education who will appoint an advisor.

SPECIAL EDUCATION

Comprehensive Special Education Major

This program provides an in-depth preparation in the areas of mental retardation, learning disabilities, and orthopedically handicapped. The course of study incorporates vital courses from the areas of Secondary Education, Elementary Education, Counseling and Educational Foundations. The program components include the General Studies, General Professional Education, Special Education Studies (the major field) including full-time student teaching and related competency studies. Completion of this program enables one to be certified in Special Education at both Elementary and Secondary levels for each of the areas of preparation.
COMPREHENSIVE PROGRAMS IN SPECIAL EDUCATION—GUIDELINES FOR STUDY

PLAN “A”: Dual Certification - Learning Disabilities and Educable Retarded
PLAN “B”: Dual Certification - Educable and Moderately-Severely-Profoundly Retarded
PLAN “C”: Dual Certification - Educable Retarded and Orthopedically Handicapped

General Studies (Required 40 hrs.)
See General College for specific course requirement and alternatives.

Professional Education Studies
Plan “A” (Eliminate OH Teaching area) - 31 hours.
Plan “B” (Eliminate LD and OH Teaching area) - 23 hours.
Plan “C” (Eliminate LD Teaching area) - 31 hours

*5610:445 Developmental Characteristics of Orthopedically Handicapped Individuals (Plan C) 3
5610:446 Developmental Characteristics of Behaviorally Disordered Individuals (Plan A) 3
5610:450 Educational Adjustment: Preschool and Primary Level Exceptional Individuals 3
5610:451 Educational Adjustment: Intermediate Level Exceptional Individuals 3
5610:452 Educational Adjustment: Secondary Level Exceptional Individuals 3
5610:456 Classroom Behavior Management Exceptional Individuals 2
*5610:457 Clinical Teaching Practicum Children with Learning Problems 3

*Final course before student teaching, advanced permission required

Electives
Plan “A” (5 hours)
Plan “B” (16 hours)
Plan “C” (5 hours)

Student will choose electives in consultation with a Special Education advisor.

COMBINATION SPECIAL EDUCATION—ELEMENTARY EDUCATION PROGRAM

The addition of 18 to 33 special education credit hours, including student teaching, to the standard elementary education program in lieu of elementary education elective hours will provide the student a special area of preparation in the form of a non-certification minor, or certification minor in the areas of mental retardation, learning and/or behavioral disorders or in the area of teaching orthopedically handicapped children. Completion of any of these latter minors in the elementary program will lead to a teaching certificate valid in the regular and in a specified special classroom.

SPECIAL EDUCATION AS A SECONDARY TEACHING FIELD

The addition of a 31-36 Special Education credit hours, including student teaching, to the professional education courses required of secondary teachers may comprise a second teaching field in mental retardation, learning disabilities or orthopedically handicapped.

Specific program details for either of the above combinations with Elementary or Secondary can be obtained from the Department of Counseling and Special Education.
SPEECH AND HEARING THERAPY

A baccalaureate degree certification program in the area of Speech and Hearing Therapy is available to the student desiring to function in this capacity in the public schools. Specific program detail can be obtained from the Department of Counseling and Special Education and/or the Department of Speech Pathology and Audiology.

TECHNICAL EDUCATION

The undergraduate program in Technical Education is designed to prepare instructors and other educational personnel for post-secondary educational institutions, industry, and public and private agencies engaged in the education and training of technicians. The program is divided into the following major classifications: Business Technologies, Engineering Technologies, Health Technologies, Natural Science Technologies and Public Service Technologies. The baccalaureate program is intended to produce instructors primarily for teaching subjects within a technical specialty and is not intended to produce post high school mathematics, physics, chemistry, English or instructors for other general education offerings. Graduates of this program would be awarded the degree of Bachelor of Science in Technical Education.

Students may elect other areas so long as the courses are available and their advisors approve.

The Technical Education program includes work in four areas: General Studies; the technical specialty; Professional Education; and occupational experience. Specific course requirements may be secured from the Department of Secondary Education or from the advisors in Technical Education.

Requirements for graduation. In addition to the general requirements of the College of Education, a student in Technical Education must obtain at least a 2.0 average in (A) all major departmental professional courses (5400), (B) all professional education courses, and (C) a 2.5 average in all technical courses directly related to the student’s teaching field.
The College of Business Administration
James W. Dunlap, Ph.D. Dean

The College of Business Administration is a professional College of the University that is dedicated to teaching, business research and public service. The College, a member of the American Assembly of Collegiate Schools of Business, the national accrediting agency for colleges of business administration, offers undergraduate and graduate degree programs during the day and evening.

OBJECTIVES

The purpose of the College of Business Administration is to further the objectives of The University of Akron by providing a quality program of collegiate education in business to prepare students for professional careers in commerce, industry and government. Specific objectives of the College in terms of student achievement include the following:

- Competence in the basic functional areas of business enterprise;
- Analytical ability and balanced judgment in the solution of business problems;
- Understanding of human behavior and the impact of social, political and economic forces in the decision-making process;
- Facility in the use of management tools of accounting, quantitative techniques and communications;
- Development of a business code of ethics; and,
- Desire to continue the pursuit of knowledge and the achievement of excellence in the area of administration.

Additional objectives of the College of Business Administration are: to act as a service division by offering courses to students in other colleges; to serve the business community of the state and region by sponsoring conferences, short courses and management development programs; to foster and encourage research in business; to offer graduate instruction and opportunities for research to students at the master's level; to prepare students for entering law school; and to prepare students for advanced research and study in business and economics.

The College of Business Administration, organized on a departmental basis, offers programs of study in accounting, finance, management, marketing and international business. Three baccalaureate degrees are offered: the Bachelor of Science in Accounting, the Bachelor of Science in Business Administration and the Bachelor of Science in Industrial Management.

The College of Business Administration offers, through Graduate School, advanced professional business study leading to the degree of Master of Business Administration with concentrations in Accounting, Finance, Management, Marketing, and International Business. In addition, the Master of Science in Accounting and the Master of Science in Management are offered.

At The University of Akron there has been a long and eventful history of education relating to the field of commerce and industry. Beginning in 1919 courses were offered in the Department of Commerce. Eventually the department became the nucleus of the College of Business Administration, which was established in 1953.

Since its inception, the College curriculum has been designed with equal emphasis on broad basic principles as well as immediate practices. Classroom knowledge is consistently made more significant by field trips and inspection tours to witness business operations.

Similarly, the College maintains a sound balance between education in the arts, humanities and sciences and professional business courses. Half of the courses of study at the undergraduate level are in the areas of liberal arts, and sciences; the remaining courses are divided between general business subjects and the student's indicated area of specialization.

REQUIREMENTS FOR ADMISSION

The College will accept students who have completed sufficient course work to indicate possession of the necessary ability and desire to earn a Business Administration degree. The number of credits to have been completed will vary from student to student, but will be at least 45 credits at the time of acceptance.

*Enrollment in upper college business courses is limited to students who have:
1. Applied for promotion or transfer
2. Successfully completed at least 90 credits.
3. Earned at least a 2.0 inclusive grade average and at least a 2.0 grade average in Business Administration and Economics courses.

*Exceptions to any or all of these may be granted by the Dean.

TRANSFER OF COURSES AND ADVANCED STANDING

In order for courses taken outside of the General College or the College of Business Administration to be accepted as part of an approved program of study in lieu of College and departmental requirements, the courses to be transferred must be of an equivalent level. The College of Business Administration will consider the following in granting credit: the content, complexity and grading standards of courses taken elsewhere; and the suitability of courses taken elsewhere for the program of study chosen here. Subject matter reserved for junior and senior level courses in this College will not be transferable through courses taken in any two-year institution. All work transferred may be subject to examination to validate credits.

REQUIREMENTS FOR GRADUATION

1. A minimum of 128 semester credits, including the work in the General College. Not more than one credit of physical education activities may be included.
2. Other requirements, including the residence requirement, listed in this Bulletin.
3. At least 2.0 quality point average in (a) all major departmental courses, (b) all business and economics courses, and (c) all courses undertaken here and elsewhere.
4. Recommendation of the student's department head.

To receive an undergraduate degree from the College of Business Administration, a student must successfully complete the following, or approved equivalents:

1. The General Studies, except 1100:211, Numbers Communication.
3. Economics 201 and 202.*
4. Accounting 201 and 202.*
5. Behavioral Science (Psychology or Sociology) — two sequential courses in one discipline.*
6. The upper-college Core courses required:

(a) A law course (6400:320 or 321)**
(b) Business Finance, 6400:371
(c) Management: Principles and Concepts, 6500:301
(d) Quantitative Business Analysis I and II, 6500:321 and 322.
(e) A computer course (6500:323 or 6200:355)**
(f) Marketing Principles, 6600:300
(g) Business Policy, 6500:409

*These are pre-Business Administration requirements.
**Accounting majors must take 6200:355 and 6400:321; other majors take 6500:323 and 6400:320

DEPARTMENTS OF INSTRUCTION

6200: ACCOUNTING

The functions of accounting are essential to the decision-making process in commerce, industry and government. Because of the important role it plays in economic affairs, accounting has attained the professional status of law and medicine.

Three major fields of employment for accountants are public, private and governmental accounting. Regardless of the areas of concentration, standards, ethics and the mastery of accounting concepts and procedures are essential to all three. Accounting graduates who choose public accounting may become seniors, managers, principals or partners in public accounting firms. A student who chooses an accounting career in private industry may hold the position of accountant, cost accountant, senior accountant, budget director, internal auditor, treasurer or controller. Federal, state and local governments provide a wide variety of job opportunities at the professional level for well-educated accountants. There are exceptional opportunities for professional advancement regardless of the type of institution graduates may choose.

The accounting curriculum is designed to prepare the student for professional service, including sitting for the uniform certified public accounting examination and to prepare the student to undertake advanced study leading to the Master's degree. In recognition of the fact that both public and private accounting rest on the same foundation, to receive the Bachelor of Science in Accounting degree, a student must complete the College requirements and the following departmental requirements:

6200:301 Cost Accounting
6200:317, 318 Intermediate Accounting I & II
6200:430 Taxation I
6200:440 Auditing
In addition to the accounting courses required in the above program, students preparing for a career in public accounting are advised to take 6200:420 (Advanced Accounting) and 6200:431 (Taxation II). Majors preparing for careers in industrial accounting should take elective courses in Management.

Because of the increasing demand for accountants with a knowledge of computer theory and practice, majors are advised to elect 6200:454 (Accounting Systems). Courses in mathematics beyond finite mathematics are also strongly recommended.

6400: FINANCE

The Department of Finance offers demanding courses which try to develop a student's ability to gather, organize, analyze and utilize financial data. This requires that the student be familiar with the institutional setting in which firms operate and, within this framework, they must understand the present state of financial theory, its uses and limitations. When a student majors in Finance, the goal is not a specific entry job but rather a state of readiness to provide flexible response to new areas of opportunities in the financial area.

Career opportunities exist in three major fields. The Financial Management of Non-Financial Institutions Area offers employment in Profit as well as non-profit firms where the emphasis is on the uses and sources of financial funds. The area of Management of Financial Institutions offers opportunities to those who choose careers in commercial banking and other credit-granting institutions. Those interested in Investments Management find opportunities with brokerage firms and specialized departments in many financial as well as non-financial organizations. In most cases it is not possible to select direct entry at a level one desires into some of these areas, but on-the-job training is required in allied fields. It is for this reason our suggested preparation is broad in scope.

To receive a Bachelor of Science in Business Administration with a major in Finance, a student must complete the College requirements and the following departmental requirements:

6200:460  Controllership Problems
6400:322  Business Law II
3250:380  Money and Banking
OR
6400:338  Financial Intermediaries

6200:301  Cost Accounting
6200:317, 318  Intermediate Accounting I & II
6400:338  Financial Intermediaries
6400:343  Investments
6400:479  Problems in Finance
3250:400  Macro-Economics
OR
3250:410  Micro-Economics

Two Finance Department electives selected from:

6400:314  Credits & Collections
6400:318  Risk Management & Insurance
6400:436  Commercial Bank Management
6400:447  Security Analysis

Electives should be considered especially by those students who aim for careers in Financial Management from the following four courses:

<table>

</tr>
<tr>
<td>6400:320</td>
<td>4</td>
</tr>
</tbody>
</table>

6500: MANAGEMENT

The University of Akron was one of the first institutions of higher learning to establish an Industrial Management curriculum. Important factors in the decision to establish such a program were the location of the University in a major industrial area and the recognition of an emerging educational need.

The emphasis on education for management is the result of several factors. First, managers are becoming increasingly aware that a professional approach to management requires understanding of quantitative methods and the behavioral sciences. Second, the management task is becoming much more complex in terms of the number of activities, volume of work, and the broader impact of management decisions. Third, the practice of management in any setting requires a measure of specific preparation and qualification.

Events of the past several years have brought about a rapid and sweeping change in the business and industry of our society. The major in industrial management recognizes the unique directional problems of the firm involved in manufacturing producers goods.

The graduate with an Industrial Management degree finds many employment opportunities with industrial firms; in
staff, supervisory, and other management positions. He/she possesses, in addition, the required basic understanding for effectively managing facilities, equipment and personnel in a variety of activities such as transportation, warehousing, research or institutional management. Also, the graduate has the fundamental preparation to undertake advanced study leading to a master's degree.

Departmental philosophy decrees that the student entering the field of management will have a solid basic liberal background within the framework of the Management curriculum.

To receive the Bachelor of Science in Industrial Management with a major in Management, a student must complete the College requirements, the common departmental requirements; and a concentration. The common departmental requirements are as follows:

6500:331 Production & Systems Management
6500:332 Production & Operations Management
6500:341 Personnel Management
6500:408 Management Problems*

There are two concentrations: Production or Personnel

The Production concentration requirements are:

6500:433 Business Operational Planning
6500:434 Production Planning & Control

The Personnel concentration requirements are:

6500:342 Personnel Relations
6500:443 Advanced Personnel Management

*The student's "problem" will be related to his area of concentration -- Production or Personnel

INDUSTRIAL ACCOUNTING EMPHASIS

The Industrial Accounting emphasis jointly administered by the Accounting Department and the Management Department is designed to benefit the student who may wish to pursue a career in the field of accounting, but who does not wish to become a C.P.A. The courses selected are those which will furnish the student with a background in the operational management of production activities as well as in the accounting and budgeting procedures utilized in the control of these activities. The curriculum leads to the degree, Bachelor of Science in Industrial Management.

The student selecting the Industrial Accounting emphasis must successfully complete the College requirements and the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>6200:301</td>
<td>Cost Accounting</td>

<td>3</td>
</tr>
</tbody>
</table>

Recommended electives:

6200:317 Intermediate Accounting 4
6200:318 Intermediate Accounting 4

6600: MARKETING

The chief marketing executive in the firm is responsible for sustaining customer acceptance of his/her firm's products and services, and for finding new opportunities for his/her firm through the development of new and improved products and services; effective advertising and other communications programs; efficient physical distribution of the firm's products and services so that they are accessible to present and prospective users; and pricing of the firm's offerings. He/she is also responsible for organizing the various functions involved in the marketing effort. He/she attempts to allocate the resources of his/her firm for maximum impact in the markets which he/she feels are most profitable in order to provide the firm with a high and continuing flow of money income.

The Marketing curriculum is designed to provide the student with a clear understanding of the nature and uses of marketing techniques and their varying combinations in a total marketing plan. The student is also given a sound basis for further scholarly research in such areas as consumer and buyer behavior, operational and symbolic aspects of products and services, the communications techniques and theory, and organizational behavior as these relate to the objectives of the firm. Thus, the student becomes aware of current practices in the marketing discipline as well as the latest theoretical developments.
To receive a Bachelor of Science in Business Administration degree with a major in Marketing, a student must complete the College requirements and the following departmental requirements:

6600:460 Marketing Research
6600:480 Marketing Cases and Problems

Three advanced Marketing courses selected from 6600: courses beyond the College requirement for 6600:300 Marketing Principles.

The following courses are recommended as electives:

<table>

OBJECTIVES

The purpose of the College of Fine and Applied Arts is to further the objectives of The University of Akron by providing a quality program of undergraduate and graduate education in the artistic, technological, clinical and studio experience in speech, the dramatic arts, music, the visual arts and the family life arts, and

To maintain curricula for the preparation of student majors in these areas.

To prepare such students for graduate study and career opportunities on the level of professional competence.

To provide instruction designed to meet specific curricular needs of all the Colleges of the University.

To serve the elective interests of students seeking diversity and enrichment in their academic programs,

To encourage the development of technical knowledge and professional skills which underlie the communicative functions of human expression, and

To nurture and expand, through this congregation of the arts, not only a knowledge of man's creative and cultural heritage but also a perceptual and aesthetic awareness of direct sensory experience through creation and performance.

The College recommends each student for the appropriate bachelor's or master's degree in accordance with his level of accomplishment.

REQUIREMENTS FOR ADMISSION

To be admitted to the College of Fine and Applied Arts the student must have completed satisfactorily at least 30 credits of work with at least a 2.0 G.P.A. and have the approval of the Dean. Students transferring to the University's Art Department from another institution must submit a portfolio of their work for approval prior to admission. Students transferring from another college or institution into the Music Department must submit to a departmental placement examination.

REQUIREMENTS FOR BACCALAUREATE DEGREES

1. Electives included in the 128 credits of total work required for the degree may consist of any courses offered for credit in the University's four-year degree programs, provided that the prerequisites as set forth in this Bulletin are met, and further provided that not more than two credits of physical education activities, eight of applied music, or four of music organizations are included. (Credit limitations on applied music and music organizations do not apply to the Bachelor of Music degree.) While credits from another institution or college may be accepted, their application toward graduation will depend upon the nature of the student's intended program of study.

2. The recommendation of the Head of the student's major department.

3. All candidates for a Bachelor of Arts degree in the College of Fine and Applied Arts must have demonstrated their ability to use English and one other language.

4. Other requirements as set forth in the section on "Requirements for Graduation" in Chapter 3 and on the following pages.

DEGREES

The following baccalaureate degrees are granted in the College of Fine and Applied Arts:

Bachelor of Arts
Bachelor of Arts in Dietetics
Bachelor of Arts in Foods and Nutrition
Bachelor of Arts in Textiles and Clothing
Bachelor of Arts in Family and Child Development
Bachelor of Arts in Speech Pathology and Audiology
Bachelor of Arts in General Speech
Bachelor of Arts in Theatre Arts
Bachelor of Arts in Mass Media Communication
Bachelor of Arts in Communication/Rhetoric
Bachelor of Arts in Ballet
Bachelor of Music
Bachelor of Fine Arts
THE MAJOR FIELD

To qualify for graduation, a student must concentrate or earn a major in the work of a department of the college. The major will consist of from 24 to 62 credits in addition to the required General Studies and, in the case of the Bachelor of Arts degree, foreign language courses. Part or all of these credits may be taken in specifically required courses depending upon the major chosen. The longer and more professionally-oriented majors should be started during the first or second year when the student is still under the guidance of the Office of Student Services.

A student will select a department in which to earn a major. The exact requirements for each such major will be found on the following pages in the section headed "Departments of Instruction." Some departments offer more than one type of major. No minor is required, but in some cases the major includes certain courses in other departments. When a student has selected his/her major, he/she should consult with the head of that department. As soon as the student is transferred to the College, the head of his/her major department becomes his/her adviser.

DEPARTMENTS OF INSTRUCTION

7100: ART

Requirements for a Bachelor of Arts degree with emphasis in either Studio Art or History of Art are:
- General Studies requirements.
- Completion of a second year of an approved foreign language.
- Completion of requirements in either Studio Art Emphasis or History of Art Emphasis.

23-25 hours of open electives bringing total to 128 credit hours for graduation.

Studio Art Emphasis: A minimum of 41 credits in Studio Art coursework including one course in each of six different areas of emphasis; i.e., Printmaking, Sculpture, etc. Survey of History of Art I and II (7100:100, 101) plus one additional advanced level art history course.

History of Art Emphasis: Survey of History of Art I and II (7100:100, 101): a minimum of 38 credits in the History of Art. A minimum of one History of Art Seminar, one Special Problems in History of Art course, and one Special Topics in History of Art course. A minimum of 12 credits in Studio Art coursework to include at least four different areas of emphasis; i.e., Painting, Photography, etc. (7100:275 recommended).

Requirements for a Bachelor of Fine Arts Degree are:
- General Studies requirements.
- A portfolio review for admission to the B.F.A. program after completion of 3 semesters of regular work and prior to the completion of 36 semester credits in studio art.
- Minimum of 21 hours in at least one area of major emphasis (except in Graphic Design emphasis).
- Minimum total of 56 credits in Art Studio (except in Graphic Design emphasis).

Survey of History of Art I and II plus two additional advanced level art history courses (except in Graphic Design emphasis).

16-21 hours of open electives bringing total to 128 credit hours for graduation.

Senior Exhibition.

Note: Students whose major program is Graphic Design may:
1. Substitute 7100:284, Introduction to Graphic Design wherever 7100:144, Two-Dimensional Design is indicated as a prerequisite.
2. Waive 7100:100, Survey of History of Art I as a prerequisite to either 7100:275, Photography I, or 7100:231, Drawing II.
HONORS PROGRAM

As a participant in the honors program, the student must complete a minimum of twelve credits of honors work, to be divided in such a way that not more than eight credits are received in either course work (7100:499) or research project 7100:405, 409, 490. Thus, the maximum number of credits possible would be sixteen.

The student must complete some written or studio project, and earn an average grade of B or better in all honors work attempted.

ART EDUCATION

Students wishing to earn a B.F.A. or a B.A. degree and be certified to teach art should contact the Art Department for certification requirements and curriculum outlines. General requirements are as follows:

For a B.F.A. with an emphasis in all areas except Graphic Design:

<table>
<thead>
<tr>
<th>General College Courses</th>
<th>39 credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Professional Education Courses</td>
<td>29 credits</td>
</tr>
<tr>
<td>Art Courses for Major and Certification</td>
<td>66-68 credits</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>134-136 credits</strong></td>
</tr>
</tbody>
</table>

For a B.F.A. with an emphasis in Graphic Design:

<table>
<thead>
<tr>
<th>General College Courses</th>
<th>39 credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Professional Education Courses</td>
<td>29 credits</td>
</tr>
<tr>
<td>Art Courses for Major and Certification</td>
<td>72-79 credits</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>140-142 credits</strong></td>
</tr>
</tbody>
</table>

For a B.A.:

<table>
<thead>
<tr>
<th>General College Courses</th>
<th>39 credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Foreign Language</td>
<td>14 credits</td>
</tr>
<tr>
<td>Professional Education Courses</td>
<td>29 credits</td>
</tr>
<tr>
<td>Art Courses for Major and Certification</td>
<td>49-50 credits</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>131-132 credits</strong></td>
</tr>
</tbody>
</table>

Students wishing to earn a B.S. in Education degree with a major in art should contact either the Art Department or the College of Education for certification requirements and curriculum outlines.

7400: HOME ECONOMICS AND FAMILY ECOLOGY

The following are requirements for all majors in Home Economics and Family Ecology:

**The General Studies**

The second year of a foreign language (an optional requirement for the Bachelor of Arts in Dietetics) 7400: 147, 201, 265, 301, and 362. Additional requirements for specific degrees are as follows:

**For the Bachelor of Arts in Textiles and Clothing; Business Option**

Art: 7100:191
Business Management Technology: 2420:170 or Sales and Merchandising: 2520:211
Accounting: 6200:201 or Business Management Tech: 2420:211
Marketing: 6600:300 or Business Management Tech: 2420:101
Marketing: 6600:340 or Sales and Merchandising: 2520:202
Marketing: 6600:350 or Sales and Merchandising: 2520:103

**Communication Option**

Art: 7100:191
Mass Media-Communication: 190, 181, 282, 283, 288
Home Economics and Family Ecology: (Same as Business Option)

**For the Bachelor of Arts in Family and Child Development**

Psychology: 3750:100, 130
Elementary Education: 5200:360
Social Work: 7750:276
Workshops or Seminars: Drug Education, Family Life and Sex Education
Emphasis with appropriate courses in education meets requirements toward Family Life Education Certification.

**For emphasis in Child Development and Child Care Programming add:**

Home Economics and Family Ecology: 7400:275, 295, 400/560
This option meets requirements for Child Care administration and teaching.

**For the Bachelor of Arts in Dietetics:**

Both the Coordinated Undergraduate Program (CUP) in General Dietetics and the Traditional Program in General Dietetics lead to a bachelor of arts degree.

The Traditional Program requires an approved internship following graduation (or an advanced degree) to become eligible for membership in the American-Dietetic Association (ADA) and for the registration examination. The Coordinated Program (CUP) integrates clinical experiences within
the junior and senior years, allowing ADA membership and registration after graduation from the 4 year program.

The following options meet accreditation requirements:

**CUP Option**
- Biology: 3100:130, 265
- Chemistry: 3150:129, 130, 202
- Economics: 3250:100
- Psychology: 3750:100
- Sociology: 3850:191

**Traditional Dietetics Option:**
- Food Service Management: 2280:135, 236, 243
- Data Processing: 2440:120
- Psychology: 3750:100
- Management: 6500:341
- Marketing: 6600:300

**For the Bachelor of Arts in Foods and Nutrition:**
- Food Service Management: 2280:236, 243
- Data Processing: 2440:120
- Psychology: 3750:100
- Management: 6500:341
- Marketing: 6600:300, 340
- Mass Media-Communication: 7600:203, 281, 282, 283, 288

**Home Economics Education:**
Requirements for majors in Home Economics Education leading to a B.S. Degree in Education may be obtained through the College of Education. The following options are available:

**Home Economics Non-Vocational Education**
- Home Economics-Vocational Consumer-Homemaking
- Home Economics-Vocational Job Training
  1. Child Care Services
  2. Community and Home Services
  3. Fabric Services
  4. Food Service

Certification requirements and curriculum outlines for all options are available in the College of Education and in the Department of Home Economics and Family Ecology.

**7500: MUSIC**
A written and aural/oral examination in the fundamentals of music and an audition in a performance area is administered prior to entrance to the University to those students who intend to follow a musical degree program. Students must contact the office of the Department of Music to arrange for the examination.

**CORE CURRICULUM IN MUSIC**

Vocal and Keyboard majors must take:
7500:350 Student Teaching 25
7500:355 String Organization (12 semesters) 138
7500:360 Choral Conducting 2
5300:326 Field Experience in Inst. Music 2
6. Electives 2
7. 1/2 recital during 12 months prior to graduation but not during the semester of Student Teaching
8. Minimum vocal, keyboard and conducting proficiencies must be attained before assignment to Student Teaching

++Passage to the 300 level in the primary applied area is required before graduation.

Departmental electives for music education majors include: 7500:255, 305, 306, 362, 460, 461, 462, 463, 464, and such other courses agreed upon in consultation with the Coordinator of Music Education (Department of Music).

For details of the above Music degree requirements and minimum standards of achievement please see the Music Department Handbook available from the Music Department, Guzzetta Hall.

7600: MASS MEDIA/COMMUNICATION

Requirements for the Bachelor of Arts degree:

1. The General Studies
2. The second year of a foreign language
3. The Departmental "Core" Curriculum (12 credits)
4. The requirements of one area of concentration, either General Speech; Mass Media/Communication; or Communication and Rhetoric.

Requirements for the Bachelor of Music in General Speech; the Bachelor of Arts in Mass Media/Communication; the Bachelor of Arts in Communication and Rhetoric:

1. The General Studies
2. The Departmental "Core" Curriculum (12 credits)
3. The requirements of one area of concentration, either General Speech; Mass Media/Communication; or Communication and Rhetoric.
4. A related sequence of 14 additional credits, either from among Departmental offerings or offerings of other departments, approved by the student's advisor.
The "Core" Curriculum

The following "Core" curriculum is required of all majors in the Department of Mass Media/Communication:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>7600:202</td>
<td>Introduction to Journalism</td>
<td>3</td>

<td>Interpersonal Communication</td>
<td>3</td>
</tr>
<tr>
<td>7600:351</td>
<td>Survey of Speech Comm.</td>
<td>3</td>
</tr>
</tbody>
</table>

Areas of Concentration:

GENERAL SPEECH

This program is designed for the student who wishes to become a speech communication "generalist," or who wants to pursue a secondary school teaching career, or who is initially uncertain about a more specialized concentration.

In addition to the "Core" curriculum (12 credits), the student must complete a minimum of twenty-six (26) credits in a speech distribution requirement. At least six (6) of those credits must be earned in each of the following three areas: (1) the Departmental concentration in Communication and Rhetoric, (2) the Departmental concentration in Mass Media/Communication, (3) the Department of Theatre Arts and Dance.

MASS MEDIA/COMMUNICATION

This program introduces students both to the theory and to the production techniques and capabilities they will need to pursue careers in radio or television broadcasting, film, or print or electronic journalism. The skills learned may be applied to a number of related fields, including especially an emphasis within the Department on organizational communication.

In addition to the "Core" curriculum (12 credits), the students must complete a minimum of twenty-four (24) credits within the Department. All mass Media/Communication majors should take 7600:281, 282, 283, 288, and 301. Other recommended courses include 7600: 384, 392, 481, 483, and 484. Electives should include at least 12 hours in a related field.

COMMUNICATION AND RHETORIC

This program provides training in all aspects of the theory and practice of oral communication. Course work is available in communication theory, group dynamics, interpersonal communication, persuasion and propaganda analysis, classical through contemporary rhetoric, argumentation, the history of public discourse, and public address. Many majors are preparing for careers in teaching, public administration, public relations, politics, law, business, or industrial/organizational communication.

In addition to the "Core" curriculum (12 credits), the student must complete twenty-six (26) credits from among Departmental offerings. The courses must include: 7600:190, 245 or 344, 252 or 393, and 392. Other courses recommended for the major include: 7600:310, 384, 385-6, 410, 445, 454, 470, and 484. Electives should be selected in consultation with the advisors.

7700: SPEECH PATHOLOGY AND AUDIOLOGY

Requirements for the Bachelor of Arts degree:

1. Completion on the General Studies requirements*
2. Completion of the second year of a foreign language

Requirements for the Bachelor of Arts in Speech Pathology and Audiology degree: (Tagged)

1. Completion of the General Studies requirements*
2. Completion of a core of courses in psychology and related disciplines (see your advisor for specific courses)

Students planning to obtain a Certificate from the State Department of Education with a degree from the College of Fine and Applied Arts should consult with his advisor about those requirements.

*Courses in the Biology Department are required to fulfill the Natural Science requirement. (see your advisor for specific courses)

7750: SOCIAL WORK

Requirements for Bachelor of Arts Degree with a Major in Social Work (45-46 credits)

1. Completion of all the General College and College of Fine and Applied Arts requirements. In meeting the General Studies requirements the student must complete 3850:100 Introduction to Sociology as part of the Social Science requirement.
and 1100:221 Natural Science: Biology or some other human biology course as part of the Natural Science requirement.

2. Completion of the following courses:

Social Work

7750:276 Introduction to Social Welfare 4
7750:270 Poverty in the United States 3
7750:401 Social Work Practice I 3
7750:402 Social Work Practice II 3
7750:403 Community Organization 3
7750:495 Field Experience: Social Agency (2 semesters) total 6
7750:421 Field Experience Seminar (2 semesters) total 2
7750: Elective in Social Work 3
7750: Elective in Social Work 3

Courses in Other Departments
Research/statistics requirement may be met by completing one of the following or sets:

3850:301 Methods of Social Research I 3
3750:110 Quantitative Methods in Psychology 3
3470: (Three of the modular courses) 3

Racial and Intergroup Relations requirement may be met by completing one of the following:

3859:421 Racial and Cultural Intergroup Relations 3
3400:413 Black Social and Intellectual History 3
3700:342 Minority Group Politics 3
2020:245 The Black American 2

And the following:

3850:404 Contemporary Sociological Theories 3
3750:130 Developmental Psychology 4
3750:420 Abnormal Psychology 3

7800: THEATRE ARTS AND DANCE

Requirements for the Bachelor of Arts Degree:
1. The General Studies
2. The second year of a foreign language
3. The Departmental "Core" Curriculum (10 credits)
4. The requirements of one area of concentration, either Theatre Arts or Ballet

Requirements for the Bachelor of Arts in Theatre Arts or the Bachelor of Arts in Ballet
1. The General Studies
2. The Departmental "Core" Curriculum (10 credits)
3. The requirements of one area of concentration, either Theatre Arts or Ballet
4. A related sequence of 14 additional credits, either from among Departmental offerings or offerings of other departments, approved by the student's adviser.

The "Core" Curriculum
The following "Core" curriculum is required of all majors in the Department of Theatre Arts and Dance.

Introduction to Theatre (7800:261) 3 credits
Introduction to Ballet (7800:124) 2 credits
Oral Interpretation I (7800:175) 3 credits
Acting I (7800:371) 2 credits

Areas of Concentration:

BALLET

The Ballet Major is designed for the student who wishes to continue professional training in dance with the added security of the Bachelor of Arts degree. Upon completion of the degree, it is expected that the student will be able to work as a performer or teacher on a professional level.

Admission to the program is by audition only. Every student must pass a sophomore jury in Ballet technique at the end of two years study in order to be admitted to upper division standing in the Ballet Area. All students are required to study Ballet technique every quarter they are enrolled and to successfully complete two semesters of Ballet Technique IV for graduation.

Upon entering the program, the student is placed at that level of Ballet Technique the faculty feels will ensure progress. In some cases a student may be required to audit the level below the one in which he is placed in order to do remedial work on those aspects of basic technique that need attention.

The ballet area also offers courses for students with little or no previous dance experience who intend to major in other fields. Introduction to Ballet, 7800:124, and Fundamental Ballet Technique, 7800:224, give the student enough training to enter the Ballet program on a diminished level. The following is a suggested four-year schedule. It is understood that depending on progress and previous training the time needed to complete the degree may be longer or shorter. Please see the area director of Ballet for further explanation.

Four-Year Course Outline in Ballet

Majors should attempt to earn a minimum of 63 hours in the first two years. The following courses should be completed by the end of the sophomore year.

Major Area Requirements Credits
7800:122, 222 Ballet Technique I and II 20
7800:126 Choreography Improvisation 2
Fine and Applied Arts

Credits

7800:127 Choreography: Established Forms 2
7800:226, 227 Choreography: Sound and Movement I and II 4
7800:116, 117 Ballet Analysis I and II 4
7800:229 Contemporary Dance Techniques 4
Subtotal 36

General Studies Requirements
1100:105 Introduction to Public Speaking 3
or
1100:106 Effective Oral Communication 3
1100:111-112 English Composition and Type of Literature 8
1100:115-116 Institutions 6
1100:120-185 Physical Education 1
1100:211 Numbers Communication 3
1100:221-224 Natural Science 6
Subtotal 27
Total 63

Sophomore jury taken by all majors at the end of two years study.
In addition to the lower division courses, these must be completed for graduation:

Major Area Requirements
7800:322-422 Ballet Technique III and IV 20
7800:320 Dance Notation 2
7800:423 History of the Dance 2
7800:424 20th Century Dance 2
7800:425 Development of Ballet 2
7800:426-427 Techniques of Teaching Ballet I and II 4
Subtotal 32

General Studies and Other Requirements
1100:320-321 Western Cultural Traditions 8
Subtotal 27
Total 65

THEATRE ARTS

The Theatre Arts concentration is designed to prepare the student for competency in all areas of theatre — acting and directing, theatre history and criticism, and technical theatre — in order that he/she can acquire the skills to teach theatre courses, to undertake graduate work in theatre or to undertake professional post-baccalaureate work in the hope of entering the professional theatre.

In addition to the “Core” of 10 credits, the student must complete 47 credits* from Departmental offerings. The courses must include 367 and 368. Electives** should be selected in consultation with the student’s academic advisor.

Through consultation with his/her advisor, the student may wish to follow a program in Acting/Directing, Technical Theatre, or History/Criticism.

*If the student elects the B.A. in Theatre Arts, 14 additional hours must be taken in lieu of a foreign language.

**A total of 18 credits.

Credits

7500:301-302 Music Appreciation 4
1100:330-335 Eastern Civilizations 4
Electives 7
Departmental “Core” Curriculum 10
Subtotal 33
Total 65
Grand Total Minimum Requirement for Graduation 128
PHILOSOPHY

The College of Nursing, an integral part of The University of Akron, accepts the responsibility for promoting the general mission of the University, which is the dissemination and pursuit of knowledge, the nurturing of intellectual curiosity, the search for truth and a conscious effort to serve the (nursing) student in the urban community.

The College of Nursing faculty believe that the primary focus of professional nursing is man: a complex holistic being having psychological, psychosocial, spiritual and cultural dimensions, and that man is a unique, thinking, interacting, adapting, valuing being who is constantly in the process of becoming and whose goal is self-actualization. Man is an ecological being who effects and is effected by the total environment. The individual is a part of a diverse and dynamic society which possesses structure. As such, man functions as a facilitator of thoughts, values, beliefs, attitudes and actions which effect the health care system.

Health is viewed as a purposeful adaptive response to internal and external stimuli in order to maintain stability. Diminished health is viewed as a disturbed adaptive response which results in disequilibrium and inability to utilize effectively the usual health promoting resources. Health and the various degrees of health are viewed as a continuum. Quality health care is the right of individuals, families, groups and communities. Consumers of health care are participants in the decisions which affect their status on the health/diminished health continuum.

The goal of the professional nurse is to assist individuals, families, groups and communities to attain, maintain and/or regain an optimal level of health and to be supportive when optimal levels of health can no longer be achieved. Professional nursing practice is germane to any setting where health maintenance or support is a goal.

The professional practitioner utilizes the nursing process defined as a series of progressive interdependent steps which unite nursing action with critical thinking, integration of knowledge and decision-making. This process is a dynamic methodology which is scientifically based and goal-directed with feedback mechanisms in the form of continuous evaluation and modification. The professional nurse utilizes research findings in each step of the nursing process: assessment, nursing diagnosis, planning, intervention and evaluation. The ever expanding role of the professional practitioner implies the exercise of social responsibility and increasing visibility in decision-making processes which affect the delivery of health care. The professional nurse is directly accountable to clients and colleagues in the health professions and must accept responsibility for maintaining quality nursing care.

The Faculty defines education as a lifelong process which implies that the concept of learning is an essential part of the educational process. The student and faculty work in concert to achieve learning goals. The student is self-directed in meeting learning goals. Both faculty and students have a responsibility to collaborate in the planning, implementation and evaluation of the educational program.

It is the Faculty's responsibility to facilitate an environment conducive to learning. Students have varied experiences and needs, therefore, the educational program must make provisions for the learner's individuality which includes variable progression and opportunities to practice new behaviors. The Faculty recognizes that positive reinforcement motivates learning and, therefore endeavors to design experiences with expectations for success.

CHARACTERISTICS OF THE GRADUATE

The graduate of the program will be able to function in any setting and will be able to do the following:

1. Assess health status and health potential of clients involving them in the nursing process designed to achieve an optimal level of health.

2. Utilize nursing actions to maintain stability, restore equilibrium, provide health promoting resources, and be supportive when optimal levels of health cannot be achieved.

3. Utilize decision-making processes in defining client needs and appropriate interventions for achieving an optimal level of health.
4. Initiate and/or adapt to changes affecting the health care system.

5. Accept responsibility for own nursing interventions and be accountable to clients and colleagues in the health professions for nursing practice.

6. Develop self through the internalization of the belief that learning is a lifelong process.

7. Utilize relevant nursing theories and concepts from the physical, biologic, social, and behavioral sciences in the application of the nursing process.

8. Demonstrate awareness of the political, social and cultural processes.

9. Utilize research findings in practice of nursing and promote extension of nursing research.

10. Develop competence in the leadership role for the advancement of professional nursing and health care.

11. Share in the responsibility for optimal health care of clients by collaborating, consulting and coordinating with other members of the health team.

12. Clarify own values in relation to nursing practice.

REQUIREMENTS FOR ADMISSION AND CONTINUATION IN THE PROGRAM

1. Applicants are expected to meet the general University admissions requirements.

2. ADMISSION TO THE PROGRAM IN NURSING DOES NOT GUARANTEE THE STUDENT'S PLACEMENT IN THE NURSING COURSES AT THE TIME THEY MAY WISH TO PURSUE THEM. The College reserves the right to approve admission to those individuals whose abilities, attitudes, and character promise satisfactory achievement of the College objectives.

3. Transfer students may receive credit for quality work earned in approved colleges. Enrollment of transfer students is contingent upon University facilities.

4. Registered nurses who received their preparation in hospital or associate degree programs are evaluated individually. RN students are expected to meet the same course requirements as the generic student and those of The University of Akron. It is expected that the registered nurse will want to challenge by examination and receive credit for selected nursing courses.

5. In order to be tentatively enrolled for the Summer session in Nursing Theories and Concepts, 8200:200 (for the Summer session between the sophomore and junior year), a student in the track of nursing must have completed a minimum of 61 semester hours of credit during the freshman and sophomore year with an cumulative grade point average of 2.5 for the freshman and sophomore year.

At the time of programming for the junior year, the advisors in the Counseling and Advising Division will prepare a request for inter-college transfer for qualified students who are tentatively enrolled in Nursing Theories and Concepts, 8200:200. When Fall semester grades are available for these students, their transcripts containing their academic performance for the three semesters during their freshman and sophomore year will be forwarded along with the intercollege transfer to the College of Nursing. Action on these intercollege transfers will take place by the College of Nursing during the Spring semester and final acceptance in the Nursing Theories and Concepts course for the summer session will be contingent upon acceptance by the College of Nursing of the intercollege transfer request.

6. Students must achieve a grade point average of 2.5 or higher on a 4.0 scale in the nursing major (8200: course numbers).

7. Acceptance of the student in the College of Nursing is the responsibility of the Dean in consultation with the Dean of the General College and the Admission Committee of the College of Nursing.

8. Students are responsible for their transportation to and from the institutions and agencies used for education experiences. A valid driver's license and the use of an automobile are essential during the Senior nursing courses.

9. The College of Nursing reserves the right to revise the curriculum to meet the changes in a changing health oriented society.

REQUIREMENTS FOR GRADUATION

A candidate for a baccalaureate degree in nursing is required to:

1. File an application with the Registrar in the final academic year. (Refer to the current Schedule of Classes Bulletin for date.)

2. Complete a minimum of 131 credits toward the degree and earn a minimum of 2.5 grade point average in the nursing major, and a 2.0 grade point average for all collegiate work attempted at The University of Akron.
3. Obtain approval of appropriate college faculty, University Council, and the Board of Trustees.

4. Complete the last 33 credits in the baccalaureate program at The University of Akron.

5. Discharge all other obligations (financial, academic, etc.) to the University.

6. Complete all requirements which were in effect at the time of transfer to the College of Nursing.

7. Participate in Commencement exercises (unless excused by the University).

AGENCIES

The agencies cooperating in providing the laboratory experiences in the courses in nursing are:

Akron City Hospital
Akron General Medical Center
Barberton Citizens Hospital
Fallsvlew Mental Health Center
Green Cross General Hospital
Portage Path Community Mental Health Center
The Children's Hospital of Akron
The City of Akron, Department of Public Health
Visiting Nurse Service of Akron
University Honors Program

Arno K. Lepke, Ph. D., Master

The University of Akron's Honors Program had been designed to recognize and to support highly motivated and achievement-oriented students in any major program. Emphasizing close student-faculty relationships, honors work offers unique learning experiences which should help each participant to discover his/her own potential, capabilities and sense of direction.

The major features and provisions of the honors program include:

Scholarships: Honors students who maintain a minimum 3.25 cumulative grade point average are eligible for substantial honors scholarships which are annually renewable.

Exemptions from Requirements: Honors students are not subject to the General Studies requirements except for Physical Education. Instead, each student completes an individualized distribution requirement which includes a balanced amount of diversified course work in the humanities, the social sciences, and the natural sciences. The major objective of this requirement is to expose the student to a broad spectrum of knowledge which is both reasonable and appropriate to his/her major field. The student and his/her preceptor plan the components of this requirement which is subject to the approval of the Honors Council.

Acceleration: To meet degree requirements, honors students may use credits awarded for satisfactory achievement on Advanced Placement high school tests, the College Level Examination Program (CLEP), and/or other approved placement procedures — including bypassed credits — to a maximum of 20 credits. Credits may also be earned through "credit by examination" when approved by the department in which the examination is to be administered.

Major Requirements: Honors students complete all requirements for a departmental or divisional major. If honors work exists in the major department, at least one of the contributing honors courses must be completed.

Advising: Faculty preceptors serve as special advisers for honors students in each department. They assist in the development of the student's major program, the selection of courses which are appropriate for the distribution requirement, and in all other aspects of academic and professional planning.

Open Classroom: Honors students may attend undergraduate classes or lectures for which they are not formally enrolled. They have free access to all courses and programs.

Access to Graduate Courses: With the permission of the student's preceptor and the instructor, honors students may be enrolled in graduate courses for either undergraduate or graduate credit. This provision applies especially to graduate courses which may be of immediate benefit to the completion of the Senior Honors Project and/or the specific requirements for a given research paper.

Credit/Non-credit Option: Upon completion of one-half of all degree requirements, honors students may enroll in one course per semester on a credit/non-credit basis. All elective credits thus earned are not considered in calculating grade point average, but they count as hours completed toward graduation requirements.

Colloquia: Beginning at the sophomore level, all honors students attend one colloquium per year, one in the humanities, another in the social sciences and the third in the natural sciences. These one-semester, two-credit lecture and discussion sessions are interdisciplinary in scope. They provide an opportunity for all honors students to meet together and to explore the breadth and the interrelations of academic studies. The intent of these colloquia is to provide significant insights, especially in areas which lie outside the student's major field and may have been excluded from his/her previous sphere of intellectual curiosity.
Senior Honors Project: Every honors student is expected to complete a Senior Honors Thesis or an original or creative work which reflects his/her area of interests in the major field. This senior project may well become the basis for the future Master's thesis in graduate school. In the accomplishment of this requirement, study abroad or field experience may be recognized as part of the project.

Recognition of Honors Students: The citation "University Scholar" will appear on the diplomas and the transcripts of all students completing the University Honors Program. At Commencement exercises, they will be properly recognized as University Scholars.

University Honors Council: Seven (7) faculty members representing the degree-granting colleges and two (2) honors students serve on the University Honors Council which regularly reviews existing policies and introduces such additional and/or innovative options as may be desirable in response to manifest needs.

Advanced Degrees: Satisfactory completion of an accredited University Honors Program significantly enhances the student's candidacy for admission to a representative graduate school. Participation in all requirements of the University Honors Program guarantees an excellent preparation for graduate level work which will lead to advanced degrees.
Interdisciplinary and Certificate Programs of Study
(Non-Degree)

In order to add to the dimensions of the traditional disciplines, the University has established nine interdisciplinary and interdepartmental programs of study. In addition to his major the student may elect to pursue one of these programs which will add a dimension of depth through concentrated work focusing on Afro-American Studies, Cartographic Specialization, Environmental Studies, Peace Studies, Planning, Latin American Studies, Soviet Area Studies, Computer Science or Real Estate.

Although these programs do not lead to the award of a degree, successful completion is recognized by awarding a certificate at graduation and/or the inclusion of a statement of completion on the student's Academic Record.

Further information may be obtained from the following:
- Dr. Lascelles F. Anderson, Director of Afro-American Studies.
- Dr. William Beyer, Head, Department of Mathematics and Statistics (regarding Computer Science).
- Dr. James Jackson, Assistant Professor of Geology, Director of Environmental Studies.
- Dr. Warren Kuehl, Director of the Center for Peace Studies.
- Dr. Theodore Mackiw, Program Coordinator of Soviet Area Studies.
- Dr. Donald Metzger, Program Coordinator of Latin American Studies.
- Mr. James Nolte, Coordinator of Real Estate Program.
- Dr. Allen Noble, Head of the Department of Geography (regarding both Cartographic Specialization and Planning Programs).

CERTIFICATE PROGRAM IN AFRO-AMERICAN STUDIES

CERTIFICATE REQUIREMENTS
To satisfy the requirements for the Certificate in Afro-American Studies a regularly enrolled student at The University of Akron must complete at least 11 semester credits and at least four courses successfully (2.0 grade point average or better) from the list of courses published as acceptable and from other courses identified by the Director of Afro-American Studies as appropriate to the subject, among which four courses must be 3400:220 History of the Black People of the United States and 1810:401 General Seminar in Afro-American Studies in which a research paper in Afro-American Studies will be written. The Certificate in Afro-American Studies will be awarded at the time a student earns a baccalaureate degree.

RESEARCH PAPER
The research paper will be written under the direction of a faculty member most suitable to the area of concern of the student's research interest, and shall be one semester in duration, and shall be approved by that faculty member. The Director of Afro-American Studies in consultation with the faculty member will approve the topic for the research paper.

CONSULTATION WITH THE DIRECTOR
Students undertaking the Afro-American Studies Certificate Program must have prior consultation with the Director of Afro-American Studies.

ACCEPTABLE COURSES
The following is a list of courses acceptable for the Certificate in Afro-American Studies:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

STUDENT'S MAJOR
The student will major in one of the traditional disciplines, but the area concentration is meant to add a further dimension of depth through concentrated work focusing on the Afro-American experience.

CERTIFICATE PROGRAM IN CARTOGRAPHIC SPECIALIZATION
This specialized program of professional and scientific education is intended to enhance cartographic training in data handling, analysis, and graphic communication of simple and complex geographic data and information. The program is not limited to geography majors, and is designed to introduce automated and tradi-
tional cartographic skills to students in a wide spectrum of disciplines.

The University of Akron through its Laboratory for Cartographic and Spatial Analysis housed in the Department of Geography offers training opportunities for specialized study in the rapidly changing and significant area of cartography as a method of graphic communication. The program is designed to include flexibility to meet the varied backgrounds and interests of the individual student.

In addition to cartographic courses in the Department of Geography, many courses useful to such a specialized program are found in other departments. The curriculum leading to a certificate in Cartographic Specialization is designed to permit the student to combine interesting and useful elements of art, science and technology. Cartography has a very long and rich history and while it is eminently practical, it has a strong component of theory. For this reason a student may elect to take cartographic courses simply because they are focused on an interesting and exciting liberal arts subject. Other students choose cartography courses with the thought of increasing their potential of finding a position subsequent to their graduation. There is a well documented need for persons trained in cartographic awareness and skills in business, industry and government, as well as the academic community.

PROGRAM REQUIREMENTS:
Requirements for candidacy and course requirements in the certificate program are proposed by the faculty of the Department of Geography in accordance with the educational policies of The University of Akron. The requirements are:
I. Completion of Core Courses.
II. Completion of Elective Courses.
III. Internship in an agency, firm or office engaged in related graphic and cartographic work; or an Internship in the University's Laboratory for Cartographic and Spatial Analysis.
IV. Successful completion of an Oral Defense of Student's Cartographic Work—judged by Department Committee.

CORE COURSE REQUIREMENTS FOR THE CERTIFICATE
All participants are required to complete successfully at least five of the following basic courses:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

ELECTIVE COURSES
In addition to the five core courses, each student's program, with regards to the student's background and career interests and subject to the approval of the Program's Director, is to include at least 7 credit hours taken from the following professional, technical and research offerings. In consultation with the Program's Director, elective courses will be selected from the current University offerings from the list below. Similar courses completed at other universities, up to five years prior to admission to candidacy, may be approved by the Director.

The intent of the elective requirements is to facilitate the development of a diverse cartographic skill and prospective which is significant and useful for a person who will be or is already engaged in work with duties such as data systems management, urban planning and environmental impact studies. To be truly effective and comprehensive in his or her chosen career, the program candidate must have academic acquaintance with a variety of professional and technical approaches which can be used for graphic communication in order to cope with social, economic, political, geographical, physical design, and governmental problems. Selection of courses which duplicate or continue topical interests already well established in a particular student's background will be discouraged.

FINAL EXAMINATION AND DEFENSE OF CARTOGRAPHIC WORKS

After the completion of all course work associated with the program, each student will arrange a time for an oral defense of samples of his/her cartography. The examination would be conducted by two members of the Department and one from the elective area. The student will be asked questions on his/her specific projects and any topics covered in the course work completed specifically for the program. One week before the scheduled examination, the student will submit samples of what he/she considers to be his/her best cartographic work. The works must be judged acceptable by the examination committee and reduced photographic copies will be kept for permanent record in the Laboratory's file. After passing the oral examination and the acceptance of the samples of cartography, the student is considered to have completed the program.

QUALITY OF STUDENT WORK

A minimum grade of "C" is required in all elective courses taken as part of the certificate program. In the five core courses and average grade of "B" is required.

CERTIFICATE AWARDS

The certificate will be awarded by The University of Akron upon successful completion of the program's requirements and a baccalaureate degree.

COMPUTER SCIENCE CERTIFICATE PROGRAM

I. Entrance Requirements

To qualify for the computer science certificate program, a student must be in good academic standing in his/her major department, must have completed three credits of mathematics in the Department of Mathematics and Statistics, and must submit to the Director of the Computer Science Certificate Program a written request for admission to the program. The request will outline the student's reasons and goals for enrolling in the program. Students undertaking the program must have prior consultation with the Director. The student will major in one of the traditional academic disciplines, but the area of concentration is meant to add a further dimension of depth in both mathematics and computer science. Although this program does not lead to the award of a degree, successful completion is recognized by awarding a certificate at graduation and the inclusion of a statement of completion on the student's Academic Record.

II. Curriculum Requirements

The undergraduate student will have the opportunity to enroll in the science-oriented program or the information systems-oriented program. The student will take the mathematics and computer science core courses, as indicated below, with a selection of certain courses being permitted in order to attain his/her individual goals and objectives. The student's plan of study for the certificate will be developed in consultation with his/her Computer Science Adviser and will be approved by the Director.

An interdisciplinary computer science practicum is required of all students in the program.

### Certificate Program in Environmental Studies

**Entrance Requirements**

To qualify for the Certificate Program, a student must be in good academic standing with his major department and submit to the director a written request for admission to the program. The request will outline the student's reasons and goals for enrolling in the program.
pected that he/she will select courses from at least two disciplines.

The student's plan of study for this certificate will be developed in consultation with his/her Environmental Studies Adviser and if the adviser is other than the Environmental Studies Director, will be approved by the Director.

An interdisciplinary research paper or project is required of all students in the program. The paper or project will be undertaken in conjunction with the Environmental Seminar.

### LATIN AMERICAN STUDIES PROGRAM

Students in the Latin American Studies Program will major in their respective disciplines (economics, geography, history, political science, sociology and Spanish).

In addition to the requirements of their major, they will take 12 credits in three separate disciplines with a concentration in the area of Latin American Studies.

They will also study three years of Spanish or the equivalent.

At the completion of the program there will be recorded on the student's permanent record a statement that he has a concentration in the area of Latin American Studies.

The Certificate in Latin American Studies will be awarded at the time the student earns a baccalaureate degree.

### CERTIFICATE PROGRAM IN PEACE STUDIES UNIVERSEY OF AKRON

#### CERTIFICATE REQUIREMENTS

To satisfy the requirements for a Certificate in Peace Studies, a regularly enrolled undergraduate student at The University of Akron must complete at least 15 credits from the list of courses approved as acceptable. These must be distributed so that work will be included from three separate departments. The courses 3400:340 Peace, War and Mankind and 1060:301 Value Concepts on Peace and War are required for everyone in the program. Where specialized training is relevant to a particular student's interest, alternatives to those on the list of acceptable courses may be approved by the Director.

#### RESEARCH PAPER OR PROJECT

A paper or project is to be completed. This will be done in conjunction with one of the 300 or 400 level courses chosen and in consultation with the instructor involved.

#### CONSULTATION WITH THE DIRECTOR

Students undertaking the Peace Studies Certificate Program must have prior consultation with the Director of the Center for Peace Studies.
ACCEPTABLE COURSES

The following courses are acceptable for the certificate in Peace Studies:

<table>

STUDENT'S MAJOR

The student will major in one of the traditional disciplines, but the area concentration is meant to add a further dimension of depth through concentrated work focusing on Peace Studies.

CERTIFICATE PROGRAM IN PLANNING WITH AN EMPHASIS ON CITY OR REGIONAL RESOURCE STUDIES

This specialized program of professional education is intended to enhance understanding of the planning function and to increase research and analytical abilities of persons who are preparing for work in, or who are currently engaged in, city, urban, regional, environmental, and resource planning. The program is open to undergraduates, as well as persons with baccalaureate degrees, employed in local agencies doing related work, e.g., Model Cities, Urban Renewal, community redevelopment, community action environmental protection, and private industry. Persons with degrees could enroll as post-baccalaureate or special students in order to participate in the program. The certificate program consists of five core courses, a number of elective courses covering aspects of planning technology, theory, conceptualization, and practice, and the required planning seminar.

ADMISSION PROCEDURES

The requirements are:

1. Employment or internship in a planning agency or in an office engaged in related work; or a sincere intention to pursue a professional career in some aspect of government work or planning after graduation.

2. A statement by the applicant giving his or her reason for wishing to participate in the planning certificate program.

CORE COURSE REQUIREMENTS FOR THE CERTIFICATE

Five of the following courses listed below are required:

<table>

<td>2</td>
</tr>
</tbody>
</table>

ELECTIVE COURSES

In addition to the five core courses, each student's program, subject to the Program Director's approval, is to include six elective courses distributed between professional, technical, and research offerings. (Three courses will be from the professional listing and three from the technical-research listing.) In consultation with the Program's Director, elective courses will be selected from The University of Akron offerings either in the city planning or regional resource planning emphasis areas. Similar courses completed at other universities, up to five years prior to admission to candidacy, may be approved by the Director.

The intent of the elective requirements is to facilitate the development of a diverse prospective which is significant for a person who will be or is already engaged in planning for present and changing future urban, regional, environmental, resource, energy, and societal needs. The truly comprehensive planner must have academic acquaintance with a variety of professional and technical approaches in order to cope with social, geographical, physical design, economical, and governmental problems. Selection of courses which duplicate or continue interests already well established in a student's background will be discouraged.
SEMINAR IN PLANNING

Upon completion of the core and elective course requirements, the student will take 3350:385 Planning Seminar (1 credit). In this seminar, the student will produce a final paper covering a city or regional resource planning topic chosen by the student and approved by the Director of the Program. Each project will be presented to the seminar class and critically analyzed.

TIME LIMIT

Participants who wish to apply for candidacy after completion of one or more core courses must apply within two years of completing the first course in order for that course to be applicable toward the certificate.

QUALITY OF STUDENT WORK

A grade of "C" or better is required in all courses undertaken as part of the certificate program. In the five core courses an average grade of "B" is required.

CERTIFICATE AWARDS

The certificate will be awarded by the University of Akron upon successful completion of the program’s requirements and a baccalaureate degree. The certificate will indicate the area of specialization — City Planning or Regional Resource Planning.

CERTIFICATE PROGRAM IN REAL ESTATE

The Certificate Program in Real Estate augments the Business Management Technology (Real Estate) associate degree program. It is a professional education program designed to enhance the student’s understanding of real estate as a product, a process, and a profession. The Certificate Program is open to persons actively engaged in the real estate profession as well as to graduates and undergraduates at the University of Akron or other accredited institutions.

PROGRAM REQUIREMENTS

To satisfy the requirements for a Certificate in Real Estate, a regularly enrolled student at The University of Akron must complete the following requirements:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>2420:115</td>
<td>Housing Design and Construction</td>
<td>2</td>

<td>2</td>
</tr>
<tr>
<td>2420:299</td>
<td>Special Topics in Real Estate</td>
<td>2</td>
</tr>
</tbody>
</table>

Up on completion of the Core and Elective Course requirements, the student will take 2420:275, Special Project in Real Estate, 2 credits.

QUALITY OF STUDENT WORK

A grade of "C" or better is required in all courses undertaken as part of the Certificate Program.

AWARD OF CERTIFICATE

The Certificate will be awarded by The University of Akron upon successful completion of the program’s requirements.

SOVIET AREA STUDIES PROGRAM

Students in the Soviet Area Studies Program will major in their respective disciplines (economics, geography, history, philosophy, political science and Russian). In addition to the requirements of their major, they will take 12 credits in three or more separate disciplines with a concentration in the area of Soviet Studies.

<table>

They will also study 3 years of Russian or the equivalent.

At the completion of the program there will be recorded on the student’s permanent record a statement that he/she has a concentration in the area of Soviet Studies. The Certificate in Soviet Area Studies will be awarded at the time a student earns a baccalaureate degree.
The Evening College

Caesar A. Carrino, Ph.D., Dean
Assistants to the Dean: Richard K. Bonnell, Gordon A. Hagerman

The University of Akron has a rich and historic tradition of service to those students who attend classes after 5 p.m. Evening class offerings run the full range from Community and Technical College through the Ph.D. level. Through Evening and Saturday credit courses, the Evening College and the Weekend College keep their doors open throughout the year.

The Evening College is a continuation of daytime college campus life. Credit courses taken in the evening have the same high academic value and most full-time faculty members teach and are available to students in the evening. Additional part-time faculty are engaged to augment the full-time faculty; these part-time teachers represent a complete array of academic backgrounds and practical experiences to enrich the quality of their course work.

One significant factor that may determine the success or failure of an evening academic program is the attitude of the President and his top level administrators and collegiate deans. The University of Akron administration is vitally concerned and supportive of our effort to serve the needs of the evening students, some 7,500 strong.

Evening Student Council coordinates the extracurricular activities of the Evening College, which are similar to those of the day college and sometimes are part of the daytime activities. Organizations established for Evening College students include Alpha Sigma Lambda, Scholastic Honorary; Gamma Beta, Evening College Social Sorority; Chi Sigma Nu, Evening College Social Fraternity; Alpha Epsilon, a service honorary dedicated to giving recognition to evening students who have made significant contributions to campus and community; A.W.A.R.E. (Association of Women for Awareness, Recognition, and Enterprise); and Nite Life, the official monthly publication of the Evening Student Council.

The Summer Sessions

Caesar A. Carrino, Ph.D., Dean
Assistants to the Dean: Richard K. Bonnell, Gordon A. Hagerman

The Summer Sessions reemphasizes the urban nature and mission of The University of Akron and the total involvement with our community. Curricular patterns reflect the vibrant interaction between “Town and Gown.”

Summer study satisfies a myriad of student appetites and needs: recent high school graduates, transfer students from other institutions of higher learning, older persons with life-long learning interests, part-time students and, equally important, those who rejuvenate their intellectual energies in summer study only.

Summer Sessions serve over 14,000 students, young and old, local and commuting, at all stages from non-credit avocational courses to the professional and Ph.D. levels. Faculty, students, administration and the community each contribute talents and resources to further the dynamics of the academic and cultural process.

Department Of Developmental Programs

Caesar A. Carrino, Ph.D., Dean
Martin M. McKoski, Ph.D., Director

The Department of Developmental Programs provides academic support for all University students, especially those who wish to strengthen their educational preparation in specific areas or who have been out of school for a number of years and feel the need for remediation. Through developmental courses, individual tutoring, and work in the Writing and Reading Laboratories, such students can develop the skills necessary for acceptable performance at the college level.
Qualified students who have completed their baccalaureate programs with sufficiently high standings may continue their studies through the University's Graduate School in programs leading to the Master's degree as well as to the Doctor's degree. Undergraduate students who qualify may enroll in certain graduate level classes and apply the credits earned to the total required for the baccalaureate degree. To receive Graduate credit for the courses, however, students must be admitted to the Graduate School.
The Graduate School

Joseph M. Walton, Ph.D.,
Associate Dean of Graduate Studies and Research
Robert G. Corbett, Ph.D.
Coordinator of Research

OBJECTIVES

The purpose of the Graduate School is to further the objectives of The University of Akron by providing a quality program of graduate education and to pursue the following aims:

To offer advanced courses in various fields of knowledge beyond the baccalaureate level.

To offer students opportunities to develop and apply research techniques and to use the resources appropriate to their graduate programs.

To contribute to the advancement of knowledge for the benefit of mankind through the efforts of its faculty and students.

The Graduate Faculty recommends students who have been nominated by the student's college faculty for the appropriate master's or doctor's degree.

HISTORY OF THE GRADUATE SCHOOL

Graduate study at The University of Akron began a few years after Buchtel College opened its doors, and the first earned Master's Degree was conferred in 1882. The College of Education awarded its first Master's Degree in 1924, and the Colleges of Engineering and Business Administration in 1959. The first earned Doctor's Degrees were also conferred in 1959. Professor Charles Bulger was appointed first Dean of Graduate Work in 1933, and he continued in that capacity until 1950. Professor Ernest H. Cherrington, Jr., served as Director of Graduate Studies from 1955 to 1960 and as Dean of the Graduate Division from its establishment in 1960 to 1967. Dr. Arthur K. Brintnall was appointed Dean of Graduate Studies and Research in 1967, being succeeded in 1968 by Dr. Edwin L. Lively. Dr. Claibourne E. Griffin succeeded Dr. Lively in 1974 and served in that capacity until 1977. Currently, Dr. Joseph M. Walton serves as Associate Dean of Graduate Studies and Research.

The Graduate School offers programs of advanced study leading to the degree of Doctor of Philosophy in Chemistry, History, Polymer Science, Psychology, Sociology, Education (Elementary, Secondary, and Guidance and Counseling), and Engineering. The Doctor of Education degree is offered in Educational Administration. The Doctor of Philosophy program in Sociology is a joint program with Kent State University.

The Graduate School also offers programs of study leading to the Master's Degree with majors in the following areas: Accounting, Biology, Business Administration (Accounting, Finance, International Business, Management, and Marketing), Chemical Engineering, Chemistry, Civil Engineering, Earth Science, Economics, Education (Elementary, Secondary, Elementary or Secondary School Principal, School Supervisor, Local Superintendent, Counseling, Special Education, Visiting Teacher, Reading Specialist, School Psychology, and Teaching the Culturally Disadvantaged), Electrical Engineering, Engineering, English, French, Geography, History, Home Economics and Family Ecology, Management, Mass Media-Communication, Mathematics, Mechanical Engineering, Music, Nursing, Philosophy, Physics, Political Science, Polymer Science, Psychology, Sociology, Spanish, Speech, Speech Pathology and Audiology, Statistics, Technical Education, Theatre Arts, and Urban Studies. In addition, the College of Education provides a sixth year program offering a year of study beyond the Master's degree in the area of School Superintendent.

Several other departments offer a limited amount of work which may be taken on the graduate level. Such courses may supplement the major program of study and may constitute the minor subject for students who do not devote their entire attention to one field.

The administrative functions of the Graduate School include establishment of suitable entrance requirements, admission of qualified students, maintenance of high-quality instruction, and provision of minimum requirements for advanced degrees.
GRADUATE FACULTY

The Graduate Faculty is comprised of those members of the faculty who hold full-time appointments at the rank of assistant professor or above and teach graduate courses, supervise theses and dissertations, and are generally responsible for the graduate program in the University. They are appointed by the Dean of Graduate Studies and Research after recommendation by the Department, College Dean, and Graduate Council. Guidelines for recommendation and appointment include:

a. Quality and experience in upper-level and graduate-level teaching.
b. Possession of terminal degree in field.
c. Scholarly publication record.
d. Activity in research.
e. Activity in profession or discipline.

The purpose of the Graduate Faculty is to encourage and contribute to the advancement of knowledge through instruction and research of highest quality, and to foster a spirit of inquiry and a high value on the scholarship throughout the University.

THE GRADUATE COUNCIL

Academic programs and policies of the University's Graduate School are recommended by the Graduate Council which is elected by the Graduate Faculty. Membership in the Council presently includes two members from the College of Engineering, two members from the College of Business Administration, two members from the College of Education, four members from the Buchtel College of Arts and Sciences, and two members from the College of Fine and Applied Arts. Members serve three-year terms and may not succeed themselves. The Dean of Graduate Studies and Research serves as Chairman of both the Graduate Faculty and the Graduate Council.

The functions of the Council include examination of proposed graduate programs and course offerings, recommendation of policy for all phases of graduate education, recommendation of persons for membership in the Graduate Faculty and advising and counseling the Dean in administrative matters.

THE NATURE OF GRADUATE EDUCATION

The Graduate School provides properly qualified students with the graduate education which they may require for the full development of their scholarly and professional capacities, subject to the criteria developed by graduate departments.

Graduate education involves the extension of knowledge. However, it is by no means a mere continuation of undergraduate study. At its best, graduate education is characterized by able and enthusiastic advanced students who join faculty leaders to form a community of scholars dedicated to the common pursuit of truth. Critical analysis, independence of thought, originality of method, intensity of purpose, freedom from bias, thoroughness of inquiry, keenness of perception, and vital creativity combine to produce in the successful student both the professional competence and the breadth of understanding essential to leadership in many areas of human endeavor.

GRADUATE SCHOOL REGULATIONS

A student assumes full responsibility for knowing the regulations and pertinent procedures of the Graduate School as set forth in this Bulletin. Normally, the degree requirements in effect at the time a student is admitted to a program will apply through graduation. However, if existing programs are revised, the student has the option of pursuing the revised program as long as all requirements in the revised program are met. Additional information pertaining to programs can be obtained from the appropriate department head.

ADMISSION

Applications for Admission to the Graduate School should be filed in the office of the Dean at least six weeks before registration. Each application must be accompanied by an application fee of $20.00 (unless previously paid). This fee is not refundable under any circumstances. Payment should be made by check or money order payable to The University of Akron.

An official transcript from each college or university attended must also be received by the Graduate School before the application will be processed. This applies to the complete academic record, both undergraduate and graduate. Transcripts should be sent from the institutions attended directly to the Graduate School. The applicant is responsible for seeing that the above conditions are met by the deadlines for filing of application. No follow-up procedures are undertaken by the Graduate School.

All records, including academic records from other institutions, become part of the official file and cannot be returned for any purpose. A student should obtain an additional copy of his official credentials to
keep for advisory purposes and other personal requirements.

An offer of admission will normally be made to an applicant who meets all admission requirements. However, it must be recognized that staff, facilities, and other resources are limited so the number of students accepted will vary among departments and from term to term. Accepted applicants may begin graduate work in the fall, spring, or summer semester. The offer of admission is void, however, if the applicant does not register for courses within two years from the time of admission. An individual whose offer of admission has lapsed must submit a new application and transcript(s) to be reconsidered for admission.

Students are admitted only for the purpose or objective stated on the application for admission. A new request for admission must be filed when the original objective has been attained or when the student wishes to change objectives. The admitted status terminates when the time limits have been exceeded or other conditions for continued admitted status have not been met.

Every person who desires to enroll in or audit any graduate course or receive graduate credit must be admitted or approved by the Graduate School. The graduate status of the student is continued at the discretion of the major professor, the department or program director, and the Graduate School. No student will be admitted without approval and acceptance into a department within the University. Admission to a department does not necessarily imply admission to or candidacy for any graduate degree program in that department. Admission for graduate study in any program can only be granted by the Dean of Graduate Studies and Research and his staff.

CLASSIFICATION

Students are identified by the Graduate School as being in one of the following categories. Any change must be arranged through the Graduate School.

Full Admission may be given to any applicant who desires to pursue a graduate degree and has a baccalaureate degree from an accredited college or university with an overall grade-point average of 2.75 or better or 3.0 for the last two years (64 semester credits or equivalent) or; holds an advanced degree from an accredited college or university in or appropriate to the intended field, or; holds a baccalaureate or master's degree from a foreign college or university with First Class standing or its equivalent, plus satisfactory evidence of competence in English, or; has Special Admission and has completed at least 12 semester credits at The University of Akron at the graduate level with a grade-point average of 3.00 or better in the intended major field, or; has been Deferred and has completed a specified program in the intended major at the post-baccalaureate level with a 3.00 or better grade-point average.

Special Admission may be given to persons who do not qualify for full admission under the criteria above but for whom there is reason to believe they can successfully complete a graduate program. Department Heads may recommend persons for special admission by attaching a statement to their recommendation elaborating their reasons. Persons admitted as Special Students must reapply for change in status and must be judged in accordance with the requirements for a new status.

Special Non-Degree Admission may be given to persons seeking to take particular courses but not working toward a degree. Each request for this category shall be judged on an individual basis. If a person accumulates 10 semester credits while in this category, his/her record must be reevaluated and recommendation provided by the admitting department for each additional course or program. Persons admitted as Special Non-degree Students must reapply for any other status and be judged in accordance with the requirements for that status.

Special Workshop status is for persons permitted to take workshops for graduate credit without being admitted to Graduate School. Such permission is granted by the Workshop Director upon receipt of a signed statement of possession of a baccalaureate degree by the applicant, and terminates upon completion of this workshop. Students admitted to Special Workshop status must apply through regular channels for any other category. A limited number of workshop credits may be applied to degree work at a later date if the applicant is given full admission to the Graduate School.

Transient Status may be given to persons who are regularly enrolled graduate students in good standing in a degree program at another accredited university and have written permission to enroll at The University of Akron. Such permission is valid only for the courses and quarter specified, with a maximum of 10 semester credits allowable, and is subject to the ap-
approval of the Instructor, Department Head, and Graduate School. Transient students are subject to the same rules and regulations as regularly enrolled students of The University of Akron.

Undergraduate. This status is for an undergraduate student at The University of Akron who may be granted permission to take one or more graduate level courses if all the following conditions are met:

1. Senior standing.
2. Overall grade-point average of 2.75 or better through preceding quarter. (If a student does not have a 3.0 or better in his major field, special justification will be required).
3. Written approval is given by the instructor of the course and the student's adviser.

These courses may later be applied to a degree program if not used to satisfy baccalaureate degree requirements.

Post-Doctoral. This status is divided into three categories:

1. Fellows are those persons holding an earned doctorate who are engaged in advanced research. They shall be considered guests of the University and provided space and use of facilities within limits of practical need of the undergraduates and graduate programs. Tuition and fees shall be collected if allowed under sponsoring contract for any courses the Fellow may choose to take.

2. Specials are those persons holding an earned Doctor's Degree who desire an additional graduate degree. They may be admitted to any program upon submission of matriculation and application forms, application fee (if new student) and an official transcript from the institution awarding their doctorate. This student will be treated as a regular student subject to registration, fees, and degree requirements for his/her program.

3. Guests are those persons holding an earned doctorate who desire to attend courses and seminars relevant to their work or interests without registering or receiving grades. A written application should be submitted to the Dean of Graduate Studies and Research for each course taken, and approval of the instructor, Department Head and College Dean shall be obtained. Guests are welcome to any course or seminar provided space is available. Normally space and facilities for research cannot be provided for Post-Doctoral Guests but special requests will be considered. Requests should be submitted, in writing to the Dean of Graduate Studies and Research who will review such requests with the appropriate College Dean and Department Head.

STANDARDS

INTERNATIONAL STUDENTS

Entrance: International students are normally admitted only in the fall and all credentials must be received by the Graduate School by June 1. Inasmuch as The University of Akron, as a State institution, has an obligation to the residents of Ohio, only the best qualified International applicants can be admitted. International students seeking admission should not plan to leave their country until they have received notice of admission from the Graduate School.

English Proficiency: Entering graduate students from countries other than the United States and those in which English is the major language in daily life are required to demonstrate high-level competence in the use of the English language, including reading, writing, speaking, and listening. This competence can best be established by achieving a score of at least 550 on the TOEFL (The Test of English as a Foreign Language) and submitting it by June 1 for September admission. Because the TOEFL is given only four times a year in various parts of the world, applicants should make arrangements to take the test as soon as they contemplate study at The University of Akron. (TOEFL is administered by Educational Testing Service, Box 899, Princeton, New Jersey 08540, U.S.A.). If the TOEFL is not available, the applicant should contact the International Student Adviser, The University of Akron, for other arrangements. Personal letters certifying English competence are not acceptable as substitutes for test scores.

International students coming to The University of Akron in good standing from an accredited American College or university may have this requirement waived upon written request.

NON-ACCRREDITED AMERICAN SCHOOL GRADUATES

Students holding a baccalaureate degree from a non-accredited American college or university, if otherwise qualified, are normally required to complete at least 10 semester credits of post-baccalaureate work at a 3.0 level before they can be admitted to the Graduate School. The accreditation status of the school at the time of the student's graduation shall apply. Students should consult with the Department Head in their major field to develop a post-baccalaureate program.
GRADES
A student admitted to graduate study under any status at The University of Akron is expected to maintain a minimum of a 3.0 average (4.0—A) at all times. A grade-point average of 3.0 or better is required for graduation. Any student whose average falls below 3.0 is no longer in good standing in the Graduate School and considered on probation. In computing cumulative averages, “D” grades are treated as “F” grades. The Dean of Graduate Studies and Research, with the approval of the Department Head, may dismiss any student who fails to make satisfactory progress toward his/her declared goals or who accumulates 6 semester hours of “C” or below. The accumulation of 4 semester hours of “F” will result in mandatory dismissal. Students dismissed from the Graduate School for academic reasons may not be readmitted for one calendar year, and then only if evidence to support reasons for expecting improved performance is submitted and found acceptable.

The grade of I (Incomplete) may be given when work required in a course cannot be completed within the semester and there is a good reason for such failure. An Incomplete must be completed during the next semester a student is enrolled or it is converted to an F grade.

The grade of IP (In Progress) normally given in research and thesis courses where the work is of a satisfactory level and is on a continuing basis. At the time work is completed, a single grade is given for all courses taken as IP.

TRANSFER STUDENTS
A graduate student matriculated in the Graduate School of another college or university who wishes to transfer to The University of Akron to continue his graduate education must be in good standing at the other school.

COURSE LOAD
A full load of course work at the graduate level is normally 9-15 semester credits including Audit. Students who are employed in addition to their graduate courses work should reduce their academic load in proportion to the extent and obligations of such employment.

REGISTRATION
The responsibility for being properly registered lies with the student. For each registration, the student should consult with the assigned adviser in preparing a program of courses and/or research. A schedule of courses, hours, class location, and registration procedures is obtainable from the Registrar.

ENTRANCE QUALIFYING EXAMINATIONS
The use of examinations to determine admissibility to enter a graduate program or eligibility to continue in one is the prerogative of the departments offering graduate programs. The department has the right to select the examination and minimum acceptable performance. Information and procedure may be obtained from the head of the appropriate department.

GRADUATE FEES
(All fees are subject to change without notice.)
Application Fee
This fee is not refundable under any circumstances $20.00
Tuition Fees
Resident student per credit 38.00
Non-resident student per credit 53.00
(Auditors pay same fees)
Other Fees
General Service
9 or more credits per quarter 24.00
8 1/2 or fewer credits per quarter 10.00
Late Registration Fee 20.00
Parking Permit Fee
9 or more credits per semester $30.00
8 1/2 or fewer credits per semester 15.00
One Summer Session 10.00
Workshop participants up to 8.00
Graduation Fees
Each Degree 12.00
In Absentia (additional) 2.00
Late Application Charge 5.00
Thesis and Binding
(Payable at time of application for Degree.) Binding per volume 7.00
Microfilming (Ph.D. only)
(Payable at time of application for Degree.) 31.00
Change of Schedule Fee 4.00
Transcripts 2.00

REFUNDS
Regulations regarding refunds are the same as for undergraduate students.

COMMENCEMENT
Students earning graduate degrees are expected to participate in the Commence-
ment exercises. Degree candidates who have legitimate reasons for graduating “In Absentia” should make a written request to the Registrar within the established dates and pay the designated fee.

FINANCIAL ASSISTANCE

The University annually awards a number of Graduate Assistantships to qualified students. These assistantships provide a stipend of $2,750 to $4,000, plus remission of tuition and fees, and are available in all departments with graduate degree programs. Graduate Assistants render service to the University through teaching, research, and other duties and are expected to carry a reduced academic load. For information and/or applications, contact the head of the department.

A number of Fellowships sponsored by industry and government agencies are available in some departments. Stipends range up to $4,500. For information, contact the head of the department.

Information about Student Loans can be obtained from the Student Financial Aids Office.

Master’s Degree Requirements

The following Master’s degrees are conferred by The University of Akron: Master of Arts, Master of Science, Master of Science in Engineering, Master of Science in Chemical Engineering, Master of Science in Civil Engineering, Master of Science in Electrical Engineering, Master of Science in Mechanical Engineering, Master of Arts in Education, Master of Science in Education, Master of Science in Nursing, Master of Science in Technical Education, Master of Business Administration, Master of Science in Accounting, Master of Science in Management, and Master of Music.

ADMISSION

A student may meet the degree requirements of the Graduate School and the department through either full or part-time study. After a student is admitted to graduate study, he/she should confer with the head of his/her major department concerning the appointment of an adviser. A student who is academically qualified in general but deficient in course preparation may be required to make up the deficiencies at the post-baccalaureate level. This may be recommended prior to beginning graduate work, or in some cases, can be done simultaneously.

GRADE-POINT AVERAGE

A minimum grade-point average of 3.00 is required for graduation of all Master’s degree candidates. (See Section on Standards.)

RESIDENCE REQUIREMENTS

There are no formal residence requirements for the master’s degree.

TIME LIMIT

All requirements must be completed within six years after beginning graduate level course work at The University of Akron or elsewhere. Extension up to one year may be granted in unusual circumstances by the Dean of Graduate Studies and Research upon written request by the student and recommendation by the adviser and Department Head.

CREDITS

A minimum of 30 semester credits of graduate work is required in all master’s degree programs. This includes thesis credit. Some departments require more (See Section on Department Requirements). A minimum of 66 2/3 percent of the total graduate credits required in any master’s program must be completed at The University of Akron.

It should be noted that the requirements listed by department elsewhere in this section refer to the minimum necessary for a degree. It is entirely within the prerogatives of the department to assign additional credits of coursework or other requirements in the interest of graduating fully qualified students.

No graduate credit may be received for courses taken by examination or for 500-numbered courses previously taken as an undergraduate. No graduate credit may be received for courses taken in extension unless approved in advance by the Department Head and Dean of Graduate Studies and Research.

TRANSFER

Up to 33 1/3 percent of the total graduate credits required may be transferred from an accredited college or university. All transfer credit must be at the “A” or “B” level in graduate courses. They must be relevant to the student’s program and fall within the six-year time limit. Students already admitted to The University of Akron must receive prior approval to take courses elsewhere for transfer into their program.
Students seeking to transfer credits must have full admission and be in good standing at The University of Akron and the school in which the credits were achieved. Transfer credit shall not be recorded until a student has completed 12 semester credits at The University of Akron with a grade-point average of 3.0 or better.

OPTIONAL DEPARTMENT REQUIREMENTS

Each department may determine its requirements with regard to Entrance Examinations, Qualifying Examinations, Foreign Language, Required Courses, and Thesis. Details are available from the head of the major department.

ADVANCEMENT TO CANDIDACY

A student should apply for Advancement to Candidacy after he/she has completed one-half of the credits required for the degree in his/her program, but no later than January 15 for the June Commencement. Advancement to Candidacy forms are available in the Graduate School Office or from the department head. Advancement to Candidacy will not be granted to a student who is not in good standing.

GRADUATION

To be cleared for graduation, a candidate must have completed course work with a minimum average of 3.0; have been Advanced to Candidacy; filed an Application for Graduation with the Registrar; paid all applicable fees; and met any other department and university requirements applicable.

If a thesis is required, two copies, properly prepared, are due in the Graduate School Office two weeks prior to commencement. These copies are final and must be signed by the adviser, faculty reader, department head, and college dean. Mimeographed information is contained in “Guidelines For Writing a Master’s Thesis” available in the Graduate School Office.

Doctoral Degree Requirements

The following doctoral degrees are conferred by The University of Akron: Doctor of Philosophy in Chemistry, History, Polymer Science, Psychology, Sociology, Elementary Education, Secondary Education, Guidance and Counseling, Engineering, and Doctor of Education in School Administration.

A master’s degree is not a prerequisite for the doctorate, however, the first year of study after the baccalaureate will be substantially the same for both the master's and doctoral student. No specific number or sequence of courses completed constitutes a doctoral program or assures attainment of the degree. Formal degree programs consist of a combination of courses, seminars, and individual study and research that meet the minimum requirements of the Graduate School and those of the committee for each individual student.

ADMISSION

A doctoral student may meet the degree requirements of the Graduate School and his/her department by full-time study or a combination of full-and part-time study.

Normally a student is not officially considered as a doctoral student until (a) he/she has completed a master's program or its equivalent, and (b) has been approved for further graduate study. Departments offering doctor's degree programs review each candidate intensively before recommending admission.

GRADE-POINT AVERAGE

A minimum grade-point average of 3.0 is required for graduation of candidates for all doctoral degrees.

RESIDENCE REQUIREMENTS

The minimum residence requirement for doctoral candidates in all programs is at least two consecutive semesters of full-time study and involvement in departmental activities. Full-time study is defined as 9-15 semester credits, except for graduate teaching and research assistants for whom full-time study is specified by the assistantship agreements. No student holding a full-time job is considered as fulfilling the residence requirement. The summer sessions may count as one semester, provided that the candidate is enrolled for a minimum of ten consecutive weeks of full-time study and for a minimum of six semester credits per five week session. Programs vary in their requirements beyond the minimum, e.g., credits or courses to be completed, proper time to fulfill the residence requirement, and acceptability of part-time employment.
Before a doctoral student begins residency, the student's advisor and the student shall prepare a statement indicating the manner in which the University residence requirement will be met. Any special conditions must be described in detail and will require the approval of the student's committee. The Dean of Graduate Studies and the Dean of Graduate Studies and Research.

TIME LIMIT

All doctoral requirements must be completed within ten years of starting course work at The University of Akron or elsewhere. This refers to graduate work after receipt of a master's degree or the completion of 30 semester credits. Extensions of up to one year may be granted by the Dean of Graduate Studies and Research under unusual circumstances.

CREDITS

A doctorate is conferred in recognition of high attainment and productive scholarship in some special field of learning as evidenced by (1) the satisfactory completion of a prescribed period of study and research, (2) the preparation of a dissertation based on independent research, and (3) the successful passing of examinations covering the special field of study and the general field of which this subject is a part. Consequently, the emphasis is on mastery of the subject rather than a set number of credits. Doctoral programs generally encompass the equivalent of at least three years of full-time study at the graduate level. A minimum of 50 percent of the total credits above the baccalaureate required in each student's doctoral program must be completed at The University of Akron.

Graduate credit may not be received for courses taken by examination or for 500-numbered courses previously taken as an undergraduate. Graduate credit may not be received for courses taken in extension unless approved in advance by the Department Head and the Dean of Graduate Studies and Research.

TRANSFER

Up to 50 percent of the total graduate credits above the baccalaureate required in a doctoral program may be transferred from an accredited college or university. All transfer credit must be at the A or B level in graduate courses. The course must be relevant to the student's program and fall within the ten-year limit if beyond the master's level. Students already admitted to The University of Akron must receive prior approval to take courses elsewhere for transfer into their programs.

Students admitted with a master's degree or equivalent will have their work evaluated in relation to their programs to determine transfer credit. Credits transferable for master's degree holders may be up to 30 semester credits.

Students seeking to transfer credits must have full admission and be in good standing at The University of Akron and the school in which the credits were achieved. Transfer credit shall not be recorded until a student has completed 12 semester credits at The University of Akron with a grade point average of 3.0 or better.

LANGUAGE REQUIREMENTS

The Foreign Language Requirement in all Ph.D. programs may be fulfilled by either of the following:

Plan A. Reading knowledge, with aid of a dictionary, of two approved foreign languages. At the discretion of the major department (1) an average of "B" in the second year of a college level course in a language will be accepted as evidence of proficiency in reading knowledge for that language; (2) English may be considered as one of the approved foreign languages for students, whose first language is not English; and (3) demonstrated competence in a research technique (e.g., statistics and/or computers) may be substituted for one of the two foreign languages. Under option (3), each department should define competence and publicize.

Plan B: Comprehensive knowledge of one approved foreign language, including reading without the aid of a dictionary and such additional requirements as the department may impose.

In certain doctoral programs (Counseling and Guidance, Elementary Education, Engineering, Psychology, Secondary Education) the demonstration of competence in appropriate research skills may serve as a substitute for the Foreign Language Requirements.

OPTIONAL DEPARTMENT REQUIREMENTS

Each department may determine requirements for doctoral students with regard to Entrance Examinations, Qualifying Examinations, Preliminary or Comprehensive Examinations, and Course Sequences.
ADVANCEMENT TO CANDIDACY

A student must apply for Advancement to Candidacy by January 15 for the June Commencement. Applications for Advancement to Candidacy will not be accepted by the Dean of Graduate Studies and Research until a substantial portion of the degree requirements have been completed. A student must be in good standing to be advanced to candidacy.

DISSERTATION AND ORAL DEFENSE

The ability to do independent research and demonstrate competence in scholarly exposition must be demonstrated by the preparation of a dissertation on some topic related to major subject. It should represent a significant contribution to knowledge, be presented in a scholarly manner, reveal candidate's ability to do independent research, and indicate experience in research techniques.

A doctoral dissertation committee supervises and approves the dissertation and administers an oral examination upon the dissertation and related areas of study. The final examination is open to the Graduate Faculty. The dissertation and oral examination must be approved by the committee before the student is recommended to the Graduate School by presenting two copies of the dissertation to the Dean of Graduate Studies and Research. These copies must conform to "Guidelines For Writing a Doctoral Dissertation" and be signed by director, reader, department head and college dean.

GRADUATION

To be cleared for graduation, a candidate must have completed his/her academic program with a grade-point average of at least 3.0; have been advanced to Candidacy; submitted an approved dissertation and passed an oral examination; filed an Application for Graduation with the Registrar; paid all applicable fees; and met any other department and University requirements applicable.
The following programs leading to the Doctor of Philosophy Degrees are offered in the Buchtel College of Arts and Sciences: The Doctor of Philosophy Degree in Chemistry, the Doctor of Philosophy Degree in History, the Doctor of Philosophy Degree in Psychology, and Doctor of Philosophy Degree in Polymer Science. The Doctor of Philosophy Degree in Sociology is offered jointly with Kent State University.

DOCTOR OF PHILOSOPHY IN CHEMISTRY

In addition to satisfying the general requirements of the Graduate School, students working toward the Doctor of Philosophy Degree in Chemistry must meet the following requirements:

1. Must take proficiency exams in Organic, Inorganic, Physical and Analytical Chemistry. Results of these exams will be used by the department for diagnostic purposes.

2. Satisfactory completion of a course of study designed and accepted by the student's advisory committee. This course of study shall consist of a program deemed suitable to prepare the student in his/her designated area of chemistry, and shall consist of a minimum of 24 credits in graduate courses. Eight credits a quarter shall be considered a normal load. At least 12 credits of graduate work, and all dissertation credits, must be completed at The University of Akron.

3. Earn credit for a dissertation, to be established by enrollment in 3150:899, such that course credits plus dissertation credits total at least 84 credits (exclusive of M.S. dissertation credit).

4. Pass cumulative examinations given approximately monthly. The candidate is urged to begin to take these examinations early in his/her graduate program, and must pass seven cumulative exams, six written and one oral, for the degree requirement.

5. Pass an oral examination upon completion of the research dissertation.

6. Pass the general requirements for the Doctor of Philosophy degree.

DOCTOR OF PHILOSOPHY IN HISTORY

The Doctor of Philosophy degree in History is granted primarily for high scholarly achievement in four fields of study selected by the student and for demonstrated ability to pursue independent research. Each student must

1. Fulfill the admission requirements of the Graduate School.

Admission will not usually be considered unless the applicant has a Master's degree, or the equivalent, with a grade point average of B from an accredited institution. Those holding Master's degrees from The University of Akron or other accredited institutions should not assume automatic permission to pursue doctoral studies. Prior to admission to the doctoral program, the applicant must present evidence of the likelihood of success in advanced study. A personal letter from the applicant and three letters of recommendation from former professors are required to support an application for admission to the doctoral program. Special admissions examinations may also be required.

Also prior to admission to doctoral study, applicants must present evidence of a reading knowledge of one relevant foreign language, or knowledge of another research skill such as statistics or computer techniques. Those whose native tongue is not English must demonstrate proficiency in the English language.

After advancement to qualified status, the student, in consultation with the Director of Doctoral Studies in History, will reach a final decision upon the fields he/she wishes to offer for the comprehensive examinations and any additional research skills which may be needed. At this point he/she will be assigned a major professor who shall direct his/her dissertation. His/her doctoral committee, to be chaired by the major professor, will also be appointed.

2. Satisfactorily complete a course of study selected by the student in consultation with an advisory committee. This will include (a) completion of 60 credits beyond M.A. degree requirements, including dissertation credit; (b) demonstration of competency in four fields of study selected from the following areas: Ancient, Medieval, Modern Europe to 1815, Modern Europe Since 1789, England and the Empire, U.S. to 1865, U.S. Since 1865, Latin
America, Far East, (one of the four fields may be in a cognate area outside of History); (c) satisfactory performance in written and oral comprehensive examinations; (d) defense of the dissertation in an oral examination.

3. A reading knowledge of two languages will be required, normally French and German. At the discretion of the student's doctoral committee, he/she may substitute for French or German either another language or computer techniques and statistics as outlined in the Graduate School requirements. An instructor may require specific language proficiencies before permitting a graduate student to enroll in any course for which credit is to be granted. An instructor may require additional languages before permitting a candidate to write a dissertation under his/her supervision.

4. Complete all general requirements for the Doctor of Philosophy degree.

DOCTOR OF PHILOSOPHY
IN POLYMER SCIENCE

An Interdisciplinary Program leading to the Doctor of Philosophy in Polymer Science is administered by the Department in Polymer Science. Graduates from the three main disciplines (Chemistry, Physics and Engineering) are guided into the appropriate courses of study and research under the supervision of a departmental staff member in their own field. Research facilities of the Institute of Polymer Science are available for thesis research.

In addition to satisfying the general requirements of the graduate School, students working toward the Doctor of Philosophy Degree in Polymer Science must meet the following requirements:

1. Satisfactory completion of a course of study prescribed by the student's advisory committee, based on their judgment of his/her background, and on the result of any special examinations that they might impose. This course of study will consist of a minimum of, but usually more than, 36 credits in graduate courses, as outlined below, or their equivalent. At least 12 credits of graduate course work, and all dissertation credits must be completed at The University of Akron.

2. Credit for a dissertation, to be established by enrollment in 3940:891, such that course credits plus dissertation credits total 84 credits (exclusive of M.S. thesis credit).

3. Pass eight cumulative examinations which are given at intervals during the academic year. The candidate is urged to begin these examinations early in his graduate program.

4. The passing of an oral examination upon completion of the research dissertation.

5. Pass the general requirements for the Doctor of Philosophy degree.

DOCTOR OF PHILOSOPHY
IN PSYCHOLOGY

The Department of Psychology offers a Ph.D. degree in Psychology with specialization in Industrial/Organizational Psychology or Experimental/Developmental Psychology.

Degrees will be awarded to students who, besides fulfilling the general requirements, have met the following specific requirements:

1. ENTRANCE REQUIREMENTS

   1. Fulfill admission requirements of the Graduate School and Psychology Department requirements.

      a. Completion of Master's Degree including 30 graduate credits.

      b. Completion of Master's core courses or equivalent.

      c. 3.25 Graduate GPA.

      d. GRE Exam. Verbal, Quantitative and Advanced Psychology Test.

      e. Miller Analogies Test (MAT).

      f. Three letters of recommendation.

      g. Successful performance on Psychology Department Ph.D. Qualifying Examination.

II. Ph.D. COURSE REQUIREMENTS

   1. 90 minimum total graduate credits including 30 credit master's program. A student may be required to complete additional credits beyond the 90 minimum credit requirement.

   2. Completion of Ph.D. core courses in either Industrial/Organizational Psychology or Ph.D. core courses in Experimental/Developmental Psychology. Core courses are specified in the Psychology Department Graduate Student Manual. Students are required to maintain at least a 3.00 GPA average in core courses.

   3. Completion of additional required and elective courses to be planned in conjunction with the student's faculty advisor and subject to approval by the Department
Industrial/Organizational Ph.D. Committee or the Experimental/Developmental Ph.D. Committee.

III. WRITTEN COMPREHENSIVE EXAMINATIONS
1. Satisfactory performance on Ph.D. written and oral comprehensive examinations in the major area of either Industrial/Organizational Psychology or Experimental/Developmental Psychology. (Refer to Psychology Department Graduate Student Manual).

IV. DISSERTATION RESEARCH
2. Satisfactory performance on final oral examination and defense of dissertation research.

V. OTHER REQUIREMENTS.
1. Refer to the Department of Psychology Graduate Student Manual for other requirements or guidelines.
2. Complete and fulfill general Doctoral degree requirements of Graduate School.

DOCTOR OF PHILOSOPHY
IN SOCIOLOGY
AKRON-KENT JOINT PH.D. PROGRAM
IN SOCIOLOGY

The University of Akron and Kent State University Departments of Sociology offer at joint program leading to the Ph.D. degree. Faculty and students engaged in the joint Ph.D. program are for all intents and purposes regarded as one single graduate department. Course work is offered at both campuses and faculty and students interchange freely.

The general objective of the Akron-Kent Ph.D. program is to train Sociologists whose specialty includes a strong emphasis on urban processes.

Admission to the program:
1. Applying with a completed Master's degree or equivalent, or
2. Applying to the Ph.D. program after at least one year of full-time course work or equivalent (18 hours) in the Sociology M.A. program at Akron. The course work must include the M.A. core sequence. This type of admission is limited to students whose records clearly indicate both scholarly and research potential to do doctoral level work.

Degree requirements for students admitted with the Master's degree or equivalent
In addition to meeting the general requirements of the Graduate School, students working toward the Doctor of Philosophy degree in Sociology must meet the following requirements:
1. The Seminar in Urban Sociology (3850:647) 3 credits
2. Two doctoral level courses in Theory. These courses are to be selected from the predetermined group of courses (see Department of Sociology Graduate Student Handbook)
3. Two doctoral level courses in Methods/Statistics. These courses are to be selected from the predetermined group of courses (see Department of Sociology Graduate Student Handbook)
4. Complete a substantive specialty of at least 15 credits
5. Complete a minimum total of 30 credits (semester) in course work.
6. Pass the doctoral comprehensive examination. This examination is given in the specialty area and will include an evaluation of methodology, theory and urban process relevant to the specialty area.
7. Fulfill residency requirement of the Graduate School.
8. Complete foreign language requirement by one of four sequences as detailed in the Department of Sociology Graduate Student Handbook:
   Foreign language
   Computer science
   Statistics
   Philosophy
9. Register for a minimum of 30 hours of dissertation credit, complete a dissertation and successfully defend it in an oral examination.

Degree requirements for students admitted without the Master's degree
In addition to meeting the requirements for students admitted with the Master's degree, he/she must:
1. Satisfactory completion of the M.A. core course work.
2. Satisfactory completion of a research practicum (3 credits). This may be waived for students who already have sufficient research experience.
3. Complete a minimum total of 60 credits of graduate level (600 or higher) course work beyond the Bachelor's degree.
THE MASTER'S DEGREE

Programs of advanced study leading to the Master's degree are offered by the Departments of Biology, Chemistry, Economics, English, Geography, Geology (Earth Science), History, Mathematics and Statistics, Modern Languages (French and Spanish), Philosophy, Physics, Political Science, Polymer Science, Psychology, Sociology, and Urban Studies. Before undertaking such a program the student must show that he/she has:

1. Met the general requirements for admission to the Graduate School.
2. Met the standard requirements for an undergraduate major in the area of the proposed graduate specialty or that he/she has performed work which the department approves as equivalent to an undergraduate major.

BIOLOGY

Requirements for the Master of Science degree:

Two options are available:
1. Research option: This program is designed primarily for students who will pursue a research career, including those who intend to enter a doctoral program in the biological sciences. Research and thesis, nine credits. A minimum of 24 credits total course work approved by the student's advisory committee is required. A minor may be taken in approved graduate courses including education. Participation in seminars and demonstration, prior to last quarter of enrollment, of reading proficiency in a foreign language appropriate to the field of study are required. Summer study at a biological station is recommended.
2. Non-thesis option: The curriculum is oriented to the needs of students for whom the M.S. degree will probably be terminal scientific degree and who do not need extensive research experience.

The requirements are the same as option 1, except that no thesis and research is undertaken, but a total of 36 credits of approved course work is required.

For additional details concerning selection of options, refer to Department of Biology, Graduate Student Guidelines.

CHEMISTRY

Requirements for the Master of Science degree:

Research and Thesis, six credits. A minimum of 24 credits of course work as approved by the student's advisory committee is required. With permission of the student's advisory committee a maximum of 12 credits may be taken in mathematics or physics. Attendance and participation in seminar-type discussions scheduled by the department are required. Demonstration, prior to the last quarter of enrollment, of reading proficiency in a foreign language appropriate to the field of study is required.

ECONOMICS

Requirements for the Master of Arts Degree:

Option I: A minimum of 30 credits of course work including a thesis equivalent to 6 credits of the 30 credits.
Option II: A minimum of 30 credits of course work with no thesis required.

At least 21 of the 30 credits under each option must be at the 600-level in economics. The following courses are required: 3250:520-526-602-611, plus a specialization, a list of which is available from the department. 3250:520-526 may be waived for students who can demonstrate in a qualifying exam that they have adequate preparation in mathematics and statistics. Exceptional departures from these requirements may be approved with the permission of the graduate faculty and department head. A comprehensive examination is intended to test the candidate's knowledge of economic theory and his/her field of specialization.

ENGLISH

Requirements for the Master of Arts Degree:

Thirty credits of course work are required, with at least 16 on the 600 level. The program will include the following courses, unless previously taken:
3300:506 (Chaucer)
3300:570 (History of the English Language) or
3300:670 (Modern Linguistics)
3300:615 (Shakespeare Drama)
3300:691 (Bibliography and Literary Research)

A thesis (330-699) or two thesis essays are required. Before enrolling in the final semester, a student must demonstrate reading proficiency in a foreign language appropriate to English studies. However, the completion of one junior- or senior-level course in a foreign language will exempt the student from examination, provided that course was taken no more than
five years before the student began graduate work.

FRENCH

Requirements for the Master of Arts Degree:

I. CORE REQUIREMENTS

32 semester credits of graduate work, which may include a thesis amounting to 4 credits:

- 16 credits in literature
- 8 credits in culture
- 8 credits in linguistics

II. ADDITIONAL REQUIREMENTS

A. Admission Requirement: Proficiency level of listening comprehension, speaking, reading and writing French.

B. Second Language Requirement: The candidate will be required to demonstrate a reading knowledge of a modern foreign language other than French. Choice of the second language will be left to the student in consultation with his/her adviser.

C. Final Comprehensive Examinations: The candidate will be required to pass both a written and oral final examination covering all areas of study included in his/her program.

GEOGRAPHY

Requirements for the Master of Arts Degree:

1. Completion of a minimum of 30 credits of which at least 24 must be course work and of which 16 credits (exclusive of research) must be in Geography courses and must include: 3350:581, 583, and 687. A minimum of 12 credit hours at the 600 level will be required, exclusive of thesis.

2. Courses taken outside the department must be approved by the department.

3. Completion of 8 credits of graduate level statistics courses approved by the department.

4. Successful completion of a comprehensive examination administered by the departmental committee.

Students who have undergraduate deficiencies in cartography, geographic research techniques and spatial analysis will be expected to remedy these by taking appropriate courses with the advice of the head of the department.

GEOLOGY: EARTH SCIENCE

Requirements for a Master of Science degree:

1. The student must take a proficiency examination at the beginning of the program. The examination will test competencies in the following areas: a. The Solid Earth, b. Earth History, c. The Atmosphere and Hydrosphere, and d. Earth-Space Relationships. The student who demonstrates a lack of basic knowledge in one or more of these areas will be required to successfully complete appropriate undergraduate courses. The student’s program, including all elective course work, must be approved by an adviser appointed by the department head at the beginning of the program.

2. The program of the student must include thesis (3370:699), geology field camp (3370:496/596), seminar (3370:680), and a minimum of one graduate course in each of the four areas listed under Item 1 above. At least one-third of the minimum degree credits shall be at the 600 level.

Courses that are appropriate to the four areas include:

- b. Earth History—3370:511, 525, 563, 660.
- c. The Atmosphere and Hydrosphere—3100:524, 526; 3350:595; 3370:570, 574.

3. The student must successfully pass a written comprehensive examination after the completion of 18 graduate credits. The
written comprehensive examination may be attempted two times only.

4. The student must complete, present, and orally defend a thesis (3370:699) of 6 credits. The thesis will be supervised by a minimum three-member committee appointed by the department head as recommended by the student and adviser.

5. Normally, a student will have completed one year each of Chemistry, Physics, and Biology and at least one course in Calculus at the undergraduate level. For the areas of specialization within the degree and cited under Number 6 which follows, specialization in Engineering Geology or Geophysics does not require the year sequence in Biology. specialization in Environmental Geology or Earth Science requires the completion of a minimum of one of the course sequences. Deficiencies in undergraduate preparation can be satisfied by appropriate courses taken concurrently with graduate studies.

6. Areas of Specialization:
   a. Geology—specific requirements are:
      1) Completion of a minimum of 6 credits from each of the following groups of courses:
         a) Solid Earth Group
            3370:510 Regional Geomorphology
            3370:537 Economic Geology
            3370:550 Advanced Structural Geology
            3370:570 Geochemistry
            3370:614 Clay Mineralogy
         b) Earth History Group
            3370:525 Stratigraphy
            3370:563 Micropaleontology
            3370:623 Sedimentary Petrology
            3370:660 Evolution and The Fossil Record
      b. Engineering Geology—for the graduate Engineer and Geologist who wish to broaden their expertise in the other's field. Entering students may have some deficiencies in either Engineering or Geology and must therefore satisfy several undergraduate "ramp" courses while proceeding with graduate studies. Specific requirements are:
         1) Completion of required "ramp" courses:
            3370:101 Introductory Physical Geology
            3370:210 Geomorphology
            3370:350 Structural Geology
            3450:221-23 Analytical Geometry-Calculus I, II, III
            4300:201 Statics
            4300:202 Introduction to Mechanics of Solids
            4300:311 Geotechnical Engineering
            4600:310 Fluid Mechanics
         2) Completion of required graduate courses:
            3370:631 Rocks and Minerals
            4300:611 Fundamentals of Soil Behavior
   b. Geophysics—specific requirements are:
      1) Completion of the following courses:
         3370:574 Ground Water Hydrology
         3370:541 Fundamentals of Geophysics
         3370:570 Geochemistry
         3370:631 Rocks and Minerals
         3370:678 Urban Geology
      2) From 6 to 8 credits or courses may be selected from Biology, Geography, and/or Engineering with the approval of an adviser.
   c. Environmental Geology—specific requirements are:
      1) Completion of the following courses:
         3370:541 Fundamentals of Geophysics
         3370:546 Exploration Geophysics
         4300:518 Soil and Rock Exploration
   d. Earth Science—specific requirements are:
      1) Attainment of a balanced knowledge of all four basic areas as determined by the adviser and demonstrated by the student's comprehensive examination.
      2) The program of the student who will become a teacher of earth science must also include a minimum of three credits in Seminar in Secondary Education: Earth Science (5300:780).

HISTORY

Requirements for the Master of Arts degree in History:

I. Entrance Requirements:
   Must have had at least 15 semester or 22 quarter credits in undergraduate history courses. Persons who have not taken Historical Methods or its equivalent must complete this course in addition to the 30 credit hour degree requirements.

II. Foreign Language Requirement:
   Students who plan to do Ph.D. work must demonstrate a reading knowledge of one foreign language within the first year of residency or on completion of 18 hours. The thesis advisor, or the Director of Master's Studies, or both, may require a student to have a reading knowledge of a specific language or mastery of a particular research skill if pertinent to the student's field of study. In other cases, a reading knowledge of one foreign language is desirable but not mandatory.

III. Programs:
   Option A. A minimum of 30 credits which must include a research seminar, a
satisfactory thesis, and field examinations. A board of at least three faculty members will conduct a final oral examination which will include a defense of the thesis and the relationship of the thesis to the major field.

Option B. A minimum of 30 credits which must include a research seminar, at least two pro seminars, and field examinations. The seminar paper must be read, approved, and awarded no less than a grade of B by the seminar advisor and at least one other faculty member to be designated by the Director of Master's Studies.

IV. Fields of Study:
In consultation with the advisor, students select three fields of study from the following: Ancient; Medieval; Europe, Renaissance to 1815; Europe 1815 to present; England and the Empire; United States to 1865; United States since 1865; Latin America; Far East and History of Science. A third field may be selected from a cognate discipline such as Political Science or Economics. If all three fields are taken in History, one of the fields must be unrelated to the first two. Credit hours will be distributed among the three fields according to each person's needs. At least 11 of the minimum 30 hours must be at the 600 level, excluding individual reading.

V. Examinations:
Comprehensive written examinations, appropriate to the level of scholarship expected in major and minor fields are required. If the student does not pass these examinations unconditionally, the examining faculty may reexamine the student orally or require him/her to retake a written examination or examinations after a lapse of three months.

VI. Other Requirements:
If the candidate has not had a course in Historiography it must be included in his/her minimum program of 30 credits.

MATHEMATICS AND STATISTICS

Requirements for the Master of Science Degree: In Mathematics

Option I: 30 credits of graduate work, no thesis required.

Option II: 30 credits of graduate work, including a thesis equivalent to 4 credits of the 30 required.

1. Core Requirements
The following courses are required:

3450:611 Algebraic Theories I
3450:612 Algebraic Theories II
3450:621 Functions of a Real Var. I
3450:622 Functions of a Real Var. II
3450:698 Mathematics and Statistics Seminar

Plus 6 graduate credits of additional courses in a single approved area of concentration in mathematics or statistics.

2. Electives
Option I: 10 additional credits in 500-level or 600-level Mathematics and Statistics courses.

Option II: 8 additional credits in 500-level or 600-level Mathematics or Statistics courses, and 2 credits in 3450:699.

With the consent of the Department of Mathematics and Statistics, up to 6 credits of approved graduate level electives outside the department may be submitted in Option I or Option II.

3. Additional Requirements
A comprehensive exam, taking the form suggested by the department, will be required.

Requirements for the Master of Science degree: In Statistics

Option I: 30 credits of graduate work, no thesis required.

Option II: 30 credits of graduate work, including a thesis equivalent to 4 credits of the 30 credits required.

1. Core Requirements
The following courses are required:

3450:610 Matrix Algebra
3450:698 Mathematics and Statistics Seminar
3470:564 Experimental Design II
3470:650 Advanced Probability
3470:651 Mathematical Statistics I
3470:652 Mathematical Statistics II
3470:665 Regression & Correlation
3470:655 Linear Models

2. Electives
Option I: 8 additional credits in 500-level or 600-level Mathematics or Statistics courses.

Option II: 6 additional credits in 500-level or 600-level Mathematics or Statistics courses, and 2 credits in 3450:699.

With the consent of the Department of Mathematics and Statistics up to 6 credits of approved graduate level electives outside the department may be substituted in Option I or Option II.

3. Additional Requirements
A comprehensive exam, taking the form suggested by the department, will be required.
Requirements for a Master of Science Degree: In Mathematics with an option in Applied Mathematics:

Option I: 30 credits of graduate work, no thesis required.

Option II: 30 credits of graduate work, including a thesis equivalent to 4 credits of the 30 credits required.

- 3450:610 Matrix Algebra
- 3450:621 Functions of a Real Var. I
- 3450:625 Anal. Function Theory
  Either:
  - 3450:633 Continuous Systems I
  - 3450:634 Continuous Systems II
  Or:
  - 3450:635 Discrete Systems I
  - 3450:636 Discrete Systems II
- 3450:696 Mathematics & Statistics Seminar
- 3470:552* Theoretical Statistics II
*Or equivalent statistics courses as determined by the Department of Mathematics and Statistics.

Electives:

Option I: 7 additional credits in 500-level or 600-level Mathematics or Statistics Courses.

Option II: 5 additional credits in 500-level or 600-level Mathematics or Statistics Courses and 2 credits in 3450:699.

With the consent of the Department of Mathematics and Statistics, 6 credits of approved graduate level electives in single area of concentration outside the department may be substituted in Option I or Option II.

Additional Requirements:

A comprehensive exam taking the form suggested by the department will be required.

PHILOSOPHY

Requirements for the Master of Arts Degree:

General Requirements:
1. Baccalaureate Degree
2. Minimum 2.75 average in college work (based on C 2)
3. Minimum 2.75 average in the major area
4. GRE, or MAT, and three letters of recommendation

Department requirements:
1. At least 4 quarter courses or 4 semester courses in undergraduate philosophy or a major in some related area. (Students with inadequate background in philosophy will be expected to make up the deficiency.)
2. Complete at least 30 semester hours with a B average.
3. Complete at least 3 seminars in 3600-615 (Seminar in the History of Philosophy) or equivalents, one course in Value Theory and one in Logic, on the graduate level.

Pass a comprehensive examination in the History of Philosophy and two others from the following fields:
1. Logic, Philosophy of Science, and Methodology.
2. Value Theory, including Ethics, Aesthetics, and Social and Political Philosophy.
3. Epistemology and Metaphysics.

In addition to English, demonstrate mastery of another language by written translation.

Complete a thesis under departmental supervision after passing the comprehensive examination.

PHYSICS

Requirements for the Master of Science Degree:

The following courses should normally be included in the graduate program: 3650:601-602 and 651-652, and 681.

A comprehensive examination, taking the form suggested by the department, must be passed; the fields covered will include classical mechanics, quantum mechanics, electricity and magnetism, atomic and nuclear physics, thermodynamics, and optics.

Graduate research participation is strongly encouraged. Up to five credits may be earned in 3650:697 upon the satisfactory completion of a graduate research project. One additional credit may, upon approval by the department, be permitted in 3650:699 for the completion of a master's thesis based on such research. A successful thesis may thus account for up to six of the total of 30 graduate credits required.

POLITICAL SCIENCE

Requirements for the Master of Arts Degree:

Option I: 30 credits of Graduate Work, at least 18 credits of which (including Thesis) must be at the 600-level in Political Science. Six credits for thesis. Thesis topic and completed thesis must be approved by student's thesis committee.

Option II: 30 credits of Graduate Work, at least 18 credits of which must be at the 600-level in Political Science. Each student must submit two high-quality seminar papers for approval by a Departmental
Committee of three persons chosen by the Department Head.

Additional requirements:
A. Each candidate must pass a comprehensive examination covering two fields to be determined in conjunction with a departmental adviser.

B. Each student will be required to take 3700:640 and at least one graduate seminar in each of the following areas:
   (1) American Government and Politics (one of the following courses)
   3700:630 Seminar in National Politics
   3700:641 Seminar in Intergovernmental Relations
   3700:660 Seminar in Civil Liberties and the Judicial Process
   3700:690 Seminar in Urban and Regional Politics
   3700:670 Seminar in the Administrative Process
   (2) Comparative Politics (one of the following courses)
   3700:620 Seminar in Comparative Politics
   3700:626 Seminar in the Politics of Developing Nations
   (3) International Politics
   3700:610 Seminar in International Politics
   (4) Political Theory
   3700:600 Seminar in Political Theory

   In exceptional cases, with the approval of the Graduate Advisor and the Head of the Department, the student may be permitted to omit a graduate seminar in one of these areas and to substitute another graduate level course in its place.

   C. In certain cases, at the discretion of the Department Head candidates may be asked to take undergraduate courses to overcome serious deficiencies.

POLYMER SCIENCE

Requirements for the Master of Science degree:

A minimum of 24 credits in appropriate courses in Biology, Chemistry, Mathematics, Physics, Polymer Science, and Engineering as prescribed by the student's advisory committee. The research project (enrollment in 3940:699) and resulting thesis provide the 6 additional credits required for the degree. Attendance at and participation in seminar-type discussions scheduled by the Department are required.

PSYCHOLOGY

Requirements for the Master of Arts degree:

Option I: Completion of a minimum of 30 credits of graduate work. Thesis required.

Option II: Completion of a minimum of 30 credits of graduate work with no thesis required. Completion of course work, practicum and examinations in either Personnel Psychology, Clinical-Counseling Psychology, or Developmental Psychology.

I. Entrance Requirements:

   1. Fulfill admission requirements of the Graduate School and the following departmental requirements:
      a. Equivalent of psychology undergraduate major including a General or Introductory course. Statistics course and Experimental psychology course.
      b. 3.00 GPA in psychology courses.
      c. Graduate Record Examination (GRE) Verbal, Quantitative Advanced Psychology Test.
      d. Miller Analogies Test (MAT).
      e. Two letters of recommendation

II. Course Requirements:

   1. Completion of a minimum of 30 credits graduate psychology courses including M.A. core courses or equivalents, M.A. required courses and electives as specified in Psychology Department Graduate Student Manual.
   2. Students are required to maintain at least a 3.00 GPA in M.A. core courses, as well as a 3.00 GPA overall.

III. M.A. Examination:

   Option I: Qualifying Examination covering core course subject areas.
   Option II: Written and oral Comprehensive Examinations in the specialty area.

VI. Other Requirements:

   1. Refer to Psychology Department Graduate Student Manual for additional guidelines and details.
   2. Complete and fulfill general master's degree requirements of Graduate School.

SOCIOLOGY

Requirements for the Master of Arts Degree:

Option I: This degree option is intended for students who either plan on eventually pursuing a Ph.D. degree, or whose work will require the ability to conduct research.

Satisfactory completion of 32 semester credits of which at least 21 must be at the 600 level in Sociology or Anthropology (excluding Thesis, 3850:699; and Readings, 3850:697). In meeting these requirements, the student must:

   1. Complete three required core courses with at least a 3.0 average:
      3850:603 Sociological Research Methods. 3 credits.
      3850:604 Social Research Design. 3 credits.
      3850:617 Sociological Theory. 3 credits.
2. Complete at least 6 hours of Thesis work (3850:699) (no more than 6 credits will count toward the degree).

Option II: This degree option is intended for students who want intensive and substantive training in a specialized area.

Satisfactory completion of 32 credits (semester) of graduate level work. No more than 6 credits can be taken at the 500 level. In meeting these requirements, the student must:

1. Complete three required core courses with at least a 3.0 average:
   - 3850:603 Sociological Research Methods. 3 credits.
   - 3850:604 Social Research Design. 3 credits.
   - 3850:617 Sociological Theory. 3 credits.
2. Satisfactorily complete at least 15 credits (semester) in a contracted specialty area. This specialty area must be defined in consultation with the student's advisor and approved by the Graduate Studies Committee. Courses from other departments may be taken to meet the specialty requirement.
3. Pass a two-hour oral examination on the specialty area.

SPANISH

Requirements for the Master of Arts degree:

I. Core Requirements
   - 32 semester credits of graduate work, which may include a thesis amounting to 4 credits:
     - 16 credits in literature
     - 8 credits in culture
     - 8 credits in linguistics

II. Additional Requirements
   A. Admission Requirement: Proficiency level in listening comprehension, speaking, reading and writing Spanish.
   B. Second Language Requirement: The candidate will be required to demonstrate a reading knowledge of a modern foreign language other than Spanish. Choice of the second language will be left to the student in consultation with his/her advisor.
   C. Final Comprehensive Examinations: The candidate will be required to pass both a written and oral final examination covering all areas of study included in his/her program.

URBAN STUDIES

Requirements for the Master of Arts Degree:

Completion of 34 credits, which must include the following:

1. Urban Studies Core 18 credits: 3980:600, 601, 602, and 690 required. Credits taken in an academic department other than Urban Studies may, if approved by the Department of Urban Studies, be used in meeting the core requirement.
2. Urban Related Courses (16 credits): This requirement may be fulfilled by taking urban related courses in a specific department, several academic departments, or by taking additional urban studies core courses. Courses taken outside the Department of Urban Studies for the purpose of fulfilling either the core or Urban Related requirements must be approved by the Department prior to registration.

Urban Studies — Public Administration:

1. 40 credit hours of course work plus internship where applicable.
2. Complete all requirements for the M.A. in Urban Studies.
3. A minimum of 27 credits in Core Curriculum with the balance of course work to be taken from Recommended Courses.
4. 1 to 3 credits of Internship for students without professional public employment experience.

A required study program will be planned by the student and his/her advisor upon admission to the program.

Urban Studies — Urban Planning

1. 48 credit hours of course work plus internship where applicable.
2. Complete all requirements for the M.A. in Urban Studies.
3. A minimum of 29 credits in Core Curriculum with the balance of course work to be taken from Recommended Courses.
4. 1 to 3 credits of Internship for all students without professional planning experience.

A required study design that will be developed by the student and his/her advisor upon admission to the program.
In addition to the general requirements for admission to the Graduate School, an applicant for graduate study in Engineering must either (1) hold a bachelor's degree in a curriculum accredited by the Engineers' Council for Professional Development at the time of his graduation, or (2) provide evidence of an equivalent academic background* to the satisfaction of the Dean of the College of Engineering and the Department Head. An applicant must have completed the equivalent of Differential Equations, Elementary Classical Physics, Principles of Chemistry, and demonstrate proficiency at the undergraduate levels in courses related to the area of intended study.

THE DOCTOR OF PHILOSOPHY IN ENGINEERING

Interdisciplinary programs in environmental engineering, materials science, mechanics, systems engineering, and transport processes are offered through the College of Engineering. In addition to the general requirements of the Graduate School, a student must:

1. Successfully complete a qualifying examination before completing either 10 credits of course work after admission in the program or within two quarters after admission into the program. The examination shall cover graduate courses that the student has completed and basic undergraduate topics.

2. Complete courses in the plan of study developed on the basis of the qualifying examination by the student advisory committee. A minimum of 90 credits of graduate work, generally 60 for course work and 30 for dissertation, must be earned.

3. Pass a candidacy examination which may be taken after ninety percent of the course work specified in the plan of study has been completed.

4. Register for dissertation credits according to the schedule available from the Dean of Engineering.

The student advisory committee shall specify the student's language requirements. The appropriate language is selected on the basis of the student's area of specialization and intended research. A foreign language is not required for all students.

A copy of the Ph.D., in Engineering Program Procedures is available from the Dean of Engineering.

*Students without a B.S. in Engineering but with a baccalaureate degree in a related field may be accepted for graduate studies but the student will be required to make up the undergraduate deficiencies for which the student will not receive graduate credit.

THE MASTER'S DEGREE

The degrees Master of Science in Chemical Engineering, Master of Science in Civil Engineering, Master of Science in Electrical Engineering, Master of Science in Mechanical Engineering and Master of Science in Engineering are offered.

Requirements

Chemical Engineering

The candidate for a Master of Science in Chemical Engineering degree must successfully complete the graduate course work and other criteria which is outlined below:

<table>
<thead>
<tr>
<th>Thesis Option Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>4200:604 Transport Phenomena 3</td>
</tr>
<tr>
<td>4200:610 Classical Thermodynamics 3</td>
</tr>
<tr>

Students are expected to attend and participate in the Department of Chemical Engineering seminars.

# The College of Engineering

The College of Engineering
At the beginning of their program, students are required to take a comprehensive proficiency examination on six undergraduate topics covering circuit theory, circuit applications, electronics, electromagnetic fields, machines and power, and controls. Students who demonstrate a lack of knowledge in one or more of these areas will be required to successfully complete appropriate undergraduate courses. Topic outlines are available from the department office.

The Miller Analogies Test is required of all students seeking admission to graduate programs in the Department of Secondary Education, Physical Education, Elementary Education, and Counseling and Special Education. Students seeking admission to the graduate program in Educational Administration must take the Bernreuter Scale, Watson Glaser, and Guilford-Zimmerman examinations. (Students seeking admission to Elementary and Secondary School Principal programs must take the Millers Analogies.) It is the applicant's responsibility to make arrangements with the Testing and Counseling Bureau to take the appropriate examination or examinations.

THE DOCTOR OF PHILOSOPHY DEGREE

Programs leading to the Doctor of Philosophy Degree in Elementary Education, Secondary Education, and Guidance and Counseling are offered through the College of Education. The degree will be awarded to students who, besides filling the general requirements of the Graduate School, have met the following specific requirements:

1. A minimum of 90 graduate credits (including a 30-credit Master's program where applicable), including the doctoral dissertation. Students considered deficient in any area may be required to take additional courses.
2. The completion of a foundation studies program designed to prepare the student generally before he/she begins to specialize.
3. The completion of preliminary examinations on the foundation studies areas and the major field of concentration.
4. Successful completion of an examination in a language judged not to be the student's native tongue.
   a. Students in the Department of Counseling and Special Education may elect to develop appropriate research skills prescribed by their advisor in lieu of the foreign language requirement.
   b. Students in the Department of Elementary Education may elect to develop appropriate alternative research skills prescribed by their advisor, subject to review by the department head, depending upon the career goal of the student, and upon the academic and/or scientific requirement of
   his/her dissertation in lieu of the foreign language requirement.
   c. Students in the Department of Secondary Education may elect to develop appropriate research skills prescribed by their advisor, subject to review by the department head in lieu of the foreign language requirement.
4. The completion of at least 12 credits beyond the Master's degree level in a cognate area.
5. The completion of final written and oral examinations in the student's major field of concentration.
6. The completion of a dissertation comprising not more than 20 credits. The oral examining committee must be constituted of at least five full-time staff members, one of whom must be from outside the College of Education.
7. Pass the general requirements for the Doctor of Philosophy degree.
8. The Ph.D. program in counseling has been approved by the Ohio State Board of Psychology "as being a doctoral program equivalent to one in Psychology." Candidates completing the program, as approved by the Board of Psychology, may after an appropriate period of supervised experience qualify to take the psychologist license examination.

THE DOCTOR OF EDUCATION DEGREE

A program leading to the Doctor of Education degree in School Administration is also available.

The admission procedures and requirements for this degree are the same as outlined above in the Doctor of Philosophy degree program, except the language requirement is waived.

Information regarding specific course requirements in each of the major areas of concentration may be obtained in the office of the College of Education.

*Required in most Master's Degree programs.
**Required in Doctoral Degree programs.

THE MASTER'S DEGREE

Programs of advanced study leading to the degree of Master of Arts in Education, Master of Science in Education, and Master of Science in Technical Education are offered.

Students who expect to earn the Master's Degree for advancement in the field of teaching must have met the general requirements for admission to the Graduate School and must be qualified to hold a standard teaching certificate. Exceptions to this latter requirement will be made for qualified students who do not wish to teach or perform duties in the public schools provided they present or acquire an appropriate background of study or experience. Students who expect to earn the Master's Degree in guidance and administration also should have had successful teaching experience. A physical examination may be required if and when indicated. Any student who exhibits a deficiency in English or other skills may be required to correct it before recommendation for an advanced degree.

ELEMENTARY EDUCATION

Objectives:
A. Knowledge
1. The nature of the elementary school
2. The organization of the elementary school and its curriculum
3. The application of theory

B. Skills
1. Ability to assess curricular needs
2. Ability to select appropriate materials
3. Ability to develop appropriate learning activities

C. Attitudes and Values
1. Belief in the humanistic approach to education
2. Awareness and concern for the welfare of one another
3. Ability to accept those that are different

Required: Credits
Foundation Studies Courses 9
5200:630 Elementary School Curriculum and Instruction 2
*5200:780 Seminar: Elementary Education 4-8
5200:699 Research in Education 2

Electives: Total Credits for Degree 30
17-21
*Two seminars are required

Electives may be any combination of courses to meet the minimum of 30 credits which may include up to 12 credits in pertinent course offerings outside the College of Education. Elective courses should be planned with the graduate adviser.

This program is intended primarily for the student who expects to progress as a teacher in elementary schools.

SECONDARY EDUCATION

I. Educational Foundations: Select a minimum of one in the Humanistic Studies and one in the Behavioral Studies and one in the Research and Evaluation area. All course selection must be approved by the advisor.

A. Humanistic Studies (suggested courses):

<table>
<thead>
<tr>

<td>3</td>
</tr>
<tr>
<td>3400:689 Historiography</td>
<td>3</td>
</tr>
</tbody>
</table>

II. Secondary Education:
A. Required:
B. Select 10 semester hrs. for the following graduate courses:

- 5300:519 Secondary Curriculum & Instruction 2
- 5300:721 Supervision of Instruction 2
- 5300:525 Reading Programs in Secondary Education 2
- *5300:780 Seminar: Secondary Education 2
  - Topics: Senior High
  - Junior High
  - Computer Assisted Instruction
  - Individualized Instruction

- 5300:619 Secondary Curriculum & Instruction 2
- 5300:721 Supervision of Instruction 2
- 5300:525 Reading Programs in Secondary Education 2
- *5300:780 Seminar: Secondary Education 2
  - Topics: Senior High
  - Junior High
  - Computer Assisted Instruction
  - Individualized Instruction

- 5300:695 Field Experience 1.6
- 5400:505 Vocational Education for Youth and Adults 2
- 5300:699 Masters Problem or Thesis 1.4

* Only two seminars in this option may be counted towards the degree.

III. Area of Concentration(s):
A. Select 10 semester hours of courses of 500 level or above.

IV. Electives:
A. Select one elective graduate course.

This program is intended to prepare the teacher of grades seven through twelve for the following areas: master teacher, department head, supervisor, and resource teacher. (Students planning to major in physical education should consult their advisors for alternate course requirements.) This program may also serve as preliminary preparation for those who wish to apply for the Doctor of Philosophy Degree in Secondary Education.

ELEMENTARY SCHOOL PRINCIPAL

Objectives

The Master's Program in Elementary Administration seeks to:
1. Provide students with an understanding of the elementary school and its history, its present purpose and its future potential.
2. Assist prospective administrators in perceiving the role of the elementary principal and determining whether it appeals to them as a career choice.
3. Provide students with the opportunity to experiment with alternate leadership styles in order to determine how they might best lead.
4. Coordinate classroom activities with field experiences in order to exercise student's administrative skills and test their ability to relate their understandings to performance.

SECONDARY SCHOOL PRINCIPAL

Objectives

Included in the objectives of the Master's Degree Program in Secondary School Administration are the following:
1. To enable the student to gain a knowledge of the overall curriculum of the secondary school.
2. To provide the student with an understanding of successful methods of improving instruction in the secondary school.
3. To provide the student with practice in implementing a program to improve instruction in the secondary school.
4. To develop within the individual student the ability to:
   (a) communicate successfully with individuals and groups
   (b) work with individuals and groups successfully to improve the educational program
   (c) implement the technical aspects of secondary education such as:
      (1) student and teacher scheduling
      (2) financial and student accounting
      (3) budget control
      (4) state reporting

### COUNSELING AND SPECIAL EDUCATION

Selected program offerings in the Department of Counseling and Special Education are available to persons with or without a teaching certificate. Interdisciplinary programs offered lead to certification by the Ohio State Department of Education and/or a Master's Degree. Program areas include Counseling, School Psychology, Special Education and Visiting Teacher. Persons who meet program prerequisites and who have earned a Master's Degree may matriculate as non-degree graduate students and pursue programs that lead, in selected areas, to certification.

SPECIAL EDUCATION GRADUATE PROGRAM

A program of studies for the candidate seeking graduate degree status in Special Education will be selected from the following course listings. Students in special education who hold certification prior to enrollment in Graduate School must choose a program focus emphasizing one of the following areas: supervision, clinical practice, early childhood, developmental disabilities, school educational consultant or other focus identified to meet an individual's educational need. Elective options within the graduate program may be utilized to meet state certification requirements for teaching the mentally retarded child, the learning and/or behavioral disordered child or the orthopedically handicapped child. Certification as a Special Education Supervisor may also be pursued in combination with other departments.

**MINIMUM PROGRAM: 35 hours**

At least one-half of the Master's Degree program must be 600 level courses and at least 20 hours must be within Special Education.

The Master's Degree can be completed with or without meeting requirements for Special Education certification depending on program selection.

A certification program as a part of the Master's Degree may require an extended program.

**Foundation Courses: Required of all candidates**

*5100:600 Philosophies of Education 3*

**OR**

5100:604 Topical Seminar in the Cultural Foundations of Education 3

*5100:620 Behavioral Bases of Education 3*

- 5610:600 Seminar in Special Education
- 5610:699 Special Education — Thesis or Problem

**Electives to complete program.**

**Other Foci**
Programs developed to meet individual needs.

**Electives**
Select credits from the following areas in consultation with an advisor:

- Psychology
- Sociology
- Educational Foundations
- Elementary Education
- Secondary Education
- Physical Education
- Counseling
- Special Education
- Inner-City Education
- Educational Administration
- Family Ecology
- Speech Pathology and Audiology

**VISITING TEACHER OR SCHOOL SOCIAL WORKER CERTIFICATION PROGRAM**

An interdisciplinary program leading to a Master’s Degree and certification as a Visiting Teacher is available in the Department of Counseling and Special Education. Inquiry related to program requirements and admission standards should be addressed to the Department of Counseling and Special Education.

**MULTICULTURAL EDUCATION**

The purpose of the program is to provide educators with the knowledge, skills, and attitudes which will enable them to design and implement programs that promote the concept of cultural pluralism. Special attention is given to educational programming for culturally different learners.

**Objectives:**

1. to acquire/extend knowledge of...
   - early, recent and current literature and research on multicultural education and culturally different learners.
   - majority and subculture value systems, family life styles, child rearing practices and language patterns as they relate to educational programming.

2. to strengthen/develop skills that demonstrate ability to...
   - determine appropriate motivational, instructional and management techniques for multicultural populations.
   - construct and adapt materials appropriate to education that is multicultural.

3. to express/demonstrate attitudes that...
   - promote the concepts of cultural pluralism and equality of educational results.
Required Courses: 

5630:581 Multicultural Education in the United States 3
5630:582 Characteristics of Culturally Different Youth 3
5630:686 Seminar: Education of the Culturally Different 2
5300:780 Seminar in Secondary Education 2
5300:790 Seminar in Secondary Education 2
5600:645 Group Testing in Counseling 3
5100:640 Techniques of Research 3
Electives in related special fields in education 17
Total Credits for Degree 35

PHYSICAL EDUCATION

Required:

Foundation Studies Courses 9
5550:699 Research in Education 2
5550:695 Field Experience Master's 2
5550:536 Adapted Physical Education for the Learning Disabled Child 2

Total 10

Secondary Education Option:
5560:450/550 Application of Outdoor Education to the School Curriculum 4
5560:452/552 Methods, Materials, and Resources for Teaching Outdoor Education 3
5560:695 Practicum in Outdoor Education 3
Total 10

In addition to other requirements peculiar to Elementary and Secondary Programs.

TECHNICAL EDUCATION

The major objective of the program in Technical Education is to prepare instructors and other educational personnel for post-secondary educational institutions, industry, and public and private agencies engaged in the education and training of technicians and middle-level workers.

A. Foundation Studies Courses: (9 Credits)
5100:600 Philosophies of Education 3
5100:620 Behavioral Bases of Education 3
5100:640 Techniques of Research 3

B. Professional Technical Education: (9 Credits)
5400:510 The Two-Year College 3
5400:521 Instructional Techniques in Technical Education 4
5400:530 Course Construction in Technical Education 2

For students selecting the Vocational Home Economics Option 5400:511, Vocational Home Economics, 2 credits, may be taken in place of 5400:530. Students selecting this option must also take an additional 2 credits in a course emphasizing the adult in Vocational Education.

C. Field of Specialization: (One option is selected for a total of 8-13 credits)
1. Teaching Option: An approved schedule of technical courses selected from the offerings of The Graduate School. Course selections will be determined on the basis of the student's academic and professional background.
   2. Guidance Option A: (Must be followed in sequence)
   3. Guidance Option B
   4. Curriculum and Supervision Option
   5. Vocational Home Economics Option

Select 8-9 credits from the following courses:
7400:501 Family Life Patterns in the Economically Deprived Home 2
7400:601 Family in Transition 2
7400:602 Family: Lifespan 2
7400:603 Family: Middle and Later Years 2
7400:651 Family Law 2
7400:697 Individual Investigation in Family Life 1-4
6. Vocational Home Economics Option
—Child

Care and Development: (job training specialization)
Select 8-9 credits from the following courses:

D. Teaching Internship:

Students that enter the program without teaching experience are required to take a teaching internship at a cooperating two-year institution.

5400:690 Internship (Application required) 2

Students in the Vocational Home Economics programs without teaching experience must take a teaching internship at a cooperating two-year institution under the Ohio Board of Regents. Students who already hold a four-year provision certificate in Home Economics and who desire certification in Vocational High School Home Economics may select the internship experience in a Vocational High School Program.

E. Electives: 0-4

These hours may support the student's field of specialization, add to the student's general education, or be professional education courses.

F. Total Credits Required: 32

G. Other Requirements:

Work experience in a technical occupation is also required, the number of years being determined by the student's other qualifications.

CERTIFICATION AS A READING SUPERVISOR

To qualify as a reading supervisor, the student must meet the following requirements:

1. Have a minimum of three years of successful teaching experience.
2. Earn a Master's Degree or its equivalent in credits, which includes the following program:

Objectives:

1. The student will develop an understanding of the reading process and its relationship to allied areas of study.
2. The student will evaluate the reading strengths and weaknesses of children by diagnosing and recommending procedures for remediation.
3. The student will write case studies of several different types of reading disabilities in a supervised setting.
4. The student will investigate the organization of remedial programs in the schools and in reading clinics.

The candidate will engage in a period of full-time study for at least one quarter. This requirement may be fulfilled during one full summer session.

*Required of those completing the Master's Degree.
The College of Business Administration

INTRODUCTION

The College of Business Administration (CBA) offers graduate programs which lead to the degrees of Master of Business Administration (MBA), Master of Science in Accounting (MS Accounting) and Master of Science in Management (MS Management). The University of Akron has offered programs of study in business since 1919, initially through the Department of Commerce and since 1953 through the College of Business Administration. In 1958, graduate studies in business were begun. Both the undergraduate and masters programs are accredited by the American Assembly of Collegiate Schools of Business (AACSB).

During its long tradition, the College has sought to fulfill the educational and professional needs of its 450 graduate students, the community and regional business organizations. To meet its urban objectives, the CBA offers graduate courses only in the evening hours between 5:00 and 10:30 p.m. The master's programs are designed to service those who work full-time and wish to pursue a master's program on a part-time basis.

REQUIREMENTS FOR ADMISSION CONSIDERATION

Statement

To be ELIGIBLE FOR GRADUATE ADMISSION CONSIDERATION in the CBA, applicants must meet one of the following eligibility requirements which are the MINIMUMS that are in conformity with the Graduate School and the College's accrediting agency (AACSB):

1. hold a domestic baccalaureate degree from a regionally accredited college or university and have a total index score of 1,000 or more points based upon the overall undergraduate grade (A-4.0) point average (GPA) times 200 plus the Graduate Management Admissions Test (GMAT) score.

or

2. hold a domestic baccalaureate degree from a regionally accredited college or university and have a total index score of 1,050 or more points based on the junior-senior (i.e., last 64 semester of 96 quarter credits) GPA (A-4.0) times 200 plus the GMAT score.

or

3. hold a degree from outside the United States and have an academic standing of first or high second class, satisfactory evidence of competence in English (i.e., TOEFL score of 550 or above) and a score of at least 450 on the GMAT.

Comment

Applicants who have not taken the GMAT will not be considered for admission. Furthermore, EVEN THOUGH AN APPLICANT IS ELIGIBLE FOR CONSIDERATION, AN OFFER OF ADMISSION IS NOT GUARANTEED. It must be recognized that staff, facilities, and resources are limited which means that a determination must be made as to the number of applicants among those eligible who can be adequately served. As a result, OFFERS OF ADMISSION MAY BE LIMITED TO ONLY THE MOST QUALIFIED OF THE ELIGIBLE APPLICANTS as determined by the CBA Graduate Admissions Committee when considering multiple variables such as the following: the difficulty of the applicant's undergraduate program; the length of time and activities since graduation; and the percentile ranking on the GMAT (applicants are expected to score at least the 55th percentile on the GMAT — approximately 480 — in order for an offer of admission to be extended).

Under the regulations of the Graduate School, eligible applicants who have been extended an offer of admission by the CBA Graduate Admissions Committee are recommended to the Dean of the Graduate School for either "Full" or "Special" graduate status. Those admitted with the classification "Special Graduate Status" who have not attained an overall 3.0 GPA upon the completion of 12 graduate credits will be dismissed from the program.

In extremely rare instances applicants who have taken the GMAT but do not meet requirements 1, 2, or 3 may be considered for admission. Also those who have previously been denied admission may, upon presentation of new information, be reconsidered. For consideration to be given, in either case, the applicant must petition, in writing, the CBA Graduate Admissions Committee giving forth those reasons relevant to his or her situation which demonstrate the likelihood of "HIGH PROMISE OF SUCCESS." In all instances the burden of proof is the applicant's and it must be substantial.
ADMISSION PROCEDURE AND NOTIFICATION OF ADMISSION DECISION

In order for consideration to be given for graduate admission to the MBA, MS Accounting, or MS Management programs, the applicant must:

1. file a graduate application with the Dean of the Graduate School, The University of Akron, Akron, OH 44325 (international applicants must have official TOEFL score reports sent to the Graduate School);
2. have all colleges and universities previously attended forward official transcripts directly to the Dean of the Graduate School;
3. take the Graduate Management Admissions Test (GMAT) and have the results sent to the Director of Graduate Programs in Business, College of Business Administration, The University of Akron, Akron, OH 44325 (institution code 1829).
4. after receipt of all necessary documents, all applications are held until the next quarterly meeting of the Graduate Admissions Committee (GAC) at which time all applicants are evaluated simultaneously.

MBA PROGRAM OF STUDY AND COURSE REQUIREMENTS

The Master of Business Administration program is designed to give the student a general knowledge of the functional areas of business and permit the concentration of study in one of the five following areas: Accounting, Finance, Management, Marketing or International Business. There are three phases of coursework which are required. They are the MBA Phase (foundation courses), MBA Phase II (core courses) and MBA Phase III (area of concentration courses). The program consists of 54 graduate semester credits. Those individuals who have had coursework in their undergraduate program equivalent to the graduate courses in Phase I can be awarded advanced standing and have up to 18 Phase I graduate credits waived at the time of admission. The time for completing the MBA degree is six years, and a grade point average of 3.0 or higher for all coursework taken must be attained. The three phases and course requirements are presented below. Course prerequisites are in parentheses. NOTE: PHASE I, II, AND III COURSES CAN BE TAKEN CONCURRENTLY PROVIDED THAT PREREQUISITES HAVE BEEN MET.

MBA PHASE I: MBA FOUNDATION COURSES*

All are required, with the exception that those students who have had equivalent coursework in their undergraduate program can be awarded advanced standing in which case some or all of the Phase I course(s) can be waived at the time of admission.

*Those seeking the MBA-Accounting Concentration degree must also have equivalent preparatory coursework in Intermediate and Cost Accounting.
Business Strategy and Policy (this course is restricted exclusively to those students who will complete their Masters program within two semesters) 13
Elective* Any graduate credits offered by the College of Business but not in the area of concentration chosen 3

MBA Phase II Total Credits 27

MBA PHASE III:
MBA AREA OF CONCENTRATION COURSES

There are five areas of concentration in the MBA program from which the student must select one. Each concentration has a Non-Paper and Master's Report (Paper) Option. Those who elect the paper option are required to register for the seminar course (non-concurrently) twice. Prior to the selection of the Non-paper Option, the student is required to consult with the appropriate department chairman or his/her designate. Generally, those who have a previous Business Administration background will be requested to follow the Paper Option. The required courses and electives for each area of concentration and its Paper Option or Non-paper Option are presented below. Elective selection is at the discretion of the student within the specified restrictions, provided that the course prerequisites have been met.

Note: Phase I graduate credits and graduate workshop course credits cannot be used for Phase II, III electives. Also those students who have taken a 400 numbered course for undergraduate credit at The University of Akron (or an equivalent course elsewhere) are ineligible to register for and earn graduate credit for the corresponding 500 numbered graduate course. Examples are Tax I, Auditing, Marketing Research, etc.

MASTER OF SCIENCE IN ACCOUNTING
PROGRAM OF STUDY AND
COURSE REQUIREMENTS

The Master of Science in Accounting Program is designed to give the student limited exposure to the functional areas of business and a detailed concentration in Accounting. There are three phases of coursework which are required. The MS Accounting Phase I consists of specialized graduate and post baccalaureate (PB) foundation courses. Those who have had coursework in their undergraduate program equivalent to the courses in MS Accounting Phase I can be awarded advanced standing and some or all of the Phase I requirements can be waived at the time of admission.

The MS Accounting Phase II consists of the Accounting Core Courses and are all required. The MS Accounting III consists of electives from which the student can elect the Paper Option or the Non-paper Option. Those desiring to earn the MS in Accounting degree must complete the program within a six-year period and attain a 3.00 grade point average for all coursework taken. The three phases and course requirements are presented below. Course prerequisites are in parentheses. NOTE: PHASE I, II, AND III COURSES CAN BE TAKEN CONCURRENTLY PROVIDED PREREQUISITES HAVE BEEN MET.

MS ACCOUNTING PHASE I
(Foundation Courses)

All are required, with the exception that those students who have had equivalent coursework in their undergraduate program can be awarded advanced standing in which case some or all of the Phase I course(s) can be waived at the time of admission. Those having graduate status can take graduate and post baccalaureate courses concurrently.

Graduate Foundation Courses Credits
3250:600 Foundation of Economic Analysis 3
6200:600 Financial Accounting 3
6400:602 Managerial Finance (6200:601 or equivalent) 3
6500:600 Management Concepts, Practices and Theory 3
6500:601 Quantitative Decision-Making 3
6600:600 Managerial Marketing 3

Post Baccalaureate (PB) Foundation Courses
6200:301 Cost Accounting (3250:600 and 6200:601 or equivalents) 3

MS ACCOUNTING PHASE II
(CORE COURSES)—ALL REQUIRED

MS ACCOUNTING PHASE III
(ELECTIVES)—SELECT OPTION A OR B

Option A or B is required. Before selecting Option B, the student is to consult with the Head of the Accounting Department. Those who elect the paper option are required to register for the seminar course (non-concurrently) twice. Phase I graduate credits and graduate workshop course credits cannot be used for Phase III electives. Also, those students who have taken a 400 numbered course for undergraduate credit at The University of Akron (or an equivalent course elsewhere) are ineligible to register for and earn graduate credit for the corresponding 500 numbered graduate course. Examples are Tax I, Tax II, Auditing, Advanced Accounting, etc.

MASTER OF SCIENCE IN MANAGEMENT
PROGRAM OF STUDY AND
COURSE REQUIREMENTS

The Master of Science in Management program is designed to provide those students with strong quantitative backgrounds an opportunity to pursue advanced study utilizing their previously acquired knowledge; specifically, students with undergraduate training in engineering, mathematics and the physical sciences will have the opportunity to apply their skills to management problem solving and decision making along quantitative lines. There are three phases of coursework which are required. The MS Management Phase I consists of foundation courses. Those who have had coursework in their undergraduate program equivalent to the courses in Phase I can be awarded advanced standing and some or all of the Phase I requirements can be waived at the time of admission. Phase II consists of selected electives and Phase III is comprised of required courses. Those students desiring to earn the MS in Management degree must complete the program within a six-year period and a grade point average of 3.00 or higher for all coursework must be attained. The three phases and course requirements are presented below. Course prerequisites are in parentheses. NOTE: PHASE I, II, AND III COURSES CAN BE TAKEN CONCURRENTLY PROVIDED PREREQUISITES HAVE BEEN MET.

MS MANAGEMENT PHASE I
(PREPARATORY COURSES)

All are required, with the exception that those students who have had equivalent coursework in their undergraduate program can be awarded advanced standing in which case some or all of the Phase I course(s) can be waived.

Phase II and III Total Credits 30
HOME ECONOMICS AND FAMILY ECOLOGY

A program of study leading to the Master of Arts degree in Home Economics and Family Ecology with an emphasis in either Family Development or Child Development. Prior to acceptance in the program, the student must meet the following:

1. the general requirements for admission to the Graduate School.

2. the standard requirements for an undergraduate major in the proposed area of graduate study or preparation which has been accepted as equivalent by the department head and the department graduate faculty.

In addition to the above, the student will be expected to comply with the following requirements:

1. Complete course of study, as outlined below, with a minimum of 32 credit hours.

2. Complete a thesis or an internship. The thesis option involves the design and evaluation of original research in an appropriately related area commensurate with the student's background and area of pursuit. The research may involve a creative, historical or experimental design. The internship option involves the design, development, implementation and evaluation of original and creative programs and/or resource materials pertaining to family and/or child development. Part of the internship experience may take place in a community based agency which serves families and/or children.

3. Complete eight hours in a cognate field outside the major area. These courses, selected in consultation with the student's graduate faculty advisor, must represent a cohesive focus pertaining to the student's area of preparation and professional goals. Suggested cognate areas include counseling and guidance, gerontology, mass media, psychology, sociology and special education.

4. Submit a written proposal for either the thesis or internship option at the completion of approximately twenty hours of graduate study.

5. Pass a written comprehensive examination over both major and minor areas. The examination will be administered by the student's advisor and may be taken after the completion of at least twenty hours of graduate credit.

6. Apply for Advancement to Candidacy upon successful completion of (a) twenty-five hours of graduate study, (b) the written comprehensive examination and (c) an approval prospectus for a thesis or internship.

7. Pass an oral examination covering the thesis or internship report. The examination will be administered by a committee of graduate faculty.

MUSIC

The degree Master of Music is offered by the Department of Music with options for Music Education, Performance, Composition, and Music History and Literature. Entrance requirements for each program are:
1. The standard requirements for an undergraduate major in the area of proposed graduate specialty or that he/she has performed work with the department head approved as equivalent to an undergraduate major, and that he/she has maintained a 2.75 or better grade average or 3.0 for the last two years, and a 3.0 average or better in his/her major field.
2. The Graduate School's general requirements for admission.
3. Consultation with the Coordinator of Graduate Studies in Music for additional information regarding the individual nature of each option.
4. PERFORMANCE OPTION: Requires an audition on the student's major instrument. Please contact the Coordinator of Graduate Studies for an audition time.
5. For the Performance option in Voice, Italian and German are required. If the student has lack of background in any of these language requirements, auditing of undergraduate courses is required.
6. COMPOSITION OPTION: Compositions representing the applicant's composition techniques are required.

After completion of all course work, the student must pass an examination covering the materials of his/her graduate program. This examination is individualized for each candidate's unique program.

Music Education Option

A. Music Core Courses

7500:555 Advanced Conducting 2

Credits
7500:605 Seminar: Music in the Middle Ages and Renaissance 2
7500:606 Seminar: Music in the 17th and 18th Centuries 2
7500:607 Seminar: Music in the 19th and 20th Centuries 2
7510: Ensemble (2 semesters) 0
7520:5 Applied Music 4

B. Major Required Courses
7500:611 Foundations and Principles of Music Education 3
7500:612 Practices and Trends in Music Education 3
7500:614 Measurement and Evaluation in Music 2
7500:648 Masters Thesis (approved by committee) 2
5100:603 Techniques of Research 3
C. Music Electives
7500:502 Workshop in Music 4
7500:551 Introduction to Musicology 2
7500:553 Bibliography and Research 2
7500:560/561/562/563/564 Repertoire and Pedagogy 3
7500:601 Choral Literature 2
7500:604 Development of Opera 2
7500:640 Advanced Problems in Music 1-4
7520:642 Applied Composition 4

D. Cognate Electives

Note: Cognate electives should be satisfied generally with courses selected outside the field of music and may be in Education, Theatre Arts & Dance, or other areas for which the student has adequate prerequisite training or interest.
TOTAL 32

*Elective hours are determined by the student and his/her advisors.

Composition Option

A. Music Core Courses

Credits
7500:555 Advanced Conducting 2
7500:606 Seminar in Music of Middle Ages and Renaissance 2

### D. Cognate Electives

*Elective hours are determined by the student and his/her advisor.

### Speech Pathology and Audiology

A program of study leading to the Master of Arts degree in Speech Pathology and Audiology is offered by the Department. The program may lead to certification by the American Speech and Hearing Association in speech pathology and/or audiology.

Before admission to any of the programs within the department, the student must:

1. Meet the general requirements for admission to the Graduate School.

2. Meet the requirements for an undergraduate major in the area of proposed
graduate specialty or complete undergraduate work within a calendar year of application.

The student must complete a course of study with a minimum of 32 credits, including thesis — or a minimum of 30 credits plus the non-thesis option outlined below.

The student must prepare a written thesis approved by the candidate's committee or select a non-thesis option to consist of eight credits beyond the 30 previously indicated. It may be recommended that this option include up to 16 credits for those students anticipating dual ASHA certification; that is, clinical certification in both the areas of speech pathology and audiology.

Academic requirements within the department include: (1) All students are required to take 7700:611 and either 7700:612 or 7700:694; (2) All students must take four credits of 7700:656, one credit of 7700:650, and an additional two credits from among the following: 7700:651, 7700:652, 7700:653, 7700:654, or 7700:655; (3) Audiology majors must take four credits in speech pathology; and speech pathology majors must take four credits in audiology. It is recommended that speech pathology majors elect 7700:639 as the first of their audiology courses.

LIMITATIONS: (1) Students may apply no more than four hours credit of workshop course toward the completion of degree requirements unless they have the approval of at least two-thirds of the graduate faculty of the department to exceed this limitation; (2) Students may apply no more than six credits of directed study course work toward the completion of degree requirements unless they have the approval of at least two-thirds of the graduate faculty of the department to exceed this limitation. This limitation applies to direct study course work done under "Special Problems" or any other course title; (3) Students may apply no more than six credits of course work taken in disciplines other than speech pathology or audiology toward the completion of degree requirements unless they have the approval of at least two-thirds of the graduate faculty of the department to exceed this limitation.

SPEECH, THEATRE ARTS AND MASS MEDIA/COMMUNICATION

Programs of study leading to the Master of Arts Degree in the following fields are offered by the Department of Theatre Arts and Dance and by the Department of Mass Media/Communication, respectively:
1. Theatre Arts
2. General Speech
3. Communication and Rhetoric
4. Mass Media

Before undertaking any of these programs, the student should consult with the appropriate department. The following are common requirements:
1. The general requirements for admission to the Graduate School;
2. The standard requirements for an undergraduate major in the area of proposed graduate work, or that he has performed work with which the department head approved as equivalent to an undergraduate major.

In addition to the general requirements for the degree listed in the preceding pages, a course of study of a minimum of 30 credits must be completed. Thesis credit, ranging from 2 to 6 credits, must be earned while preparing the Master's thesis. A written thesis (creative, historical, critical, or experimental) must be approved by the candidate's committee.

There is no foreign language required for these Master of Arts degrees. To fulfill the residence requirement, work must be completed within a five-year period from the date of undertaking initial course work. This period will include at least three consecutive quarters in residence.

The student, before he/she applies for advancement to candidacy, must complete a comprehensive written and oral examination on his course work. The student, upon completion of his Master's thesis, must satisfactorily pass an oral examination on that thesis to be administered by his/her graduate committee.

I. General Speech

A. Required Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>7800:600</td>
<td>1</td>
</tr>
<tr>
<td>7600:699</td>
<td>1-6</td>
</tr>
</tbody>
</table>

(Typically, one may expect four quarter hours of credit to be earned in Research and Thesis.)

B. The Remaining courses shall be chosen from among the offerings in the areas of Communication and Rhetoric, Mass Media, and Theater Arts. The candidate and his adviser shall make the following options: (1) a minimum of 18 credit hours from each of the three areas of concentration; (2) more credit hours may be taken about the minimum from any one of the areas that best fits the interests and talents of the candidate; (3) selected cognate courses may be taken at the option of the candidate and his/her adviser.
C. It shall be understood by the prospective candidate in General Speech that 30 semester hours is the minimum that must be earned beyond the required courses cited above.

II. Communication and Rhetoric

An emphasis in Communication and Rhetoric coupled with selected electives will allow the student significant depth and latitude toward vocational pursuit. Among those vocational endeavors may be listed teaching in the high school and university, public relations and advertising, communication consultant work, personnel management, and related business occupations.

Departmental required courses:

<table>
<thead>
<tr>
<th>Credits</th>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>7800:600</td>
<td>Introduction to Graduate Studies</td>
</tr>
<tr>
<td>7600:699</td>
<td>Research and Thesis</td>
</tr>
</tbody>
</table>

(Typically, one may expect four quarter hours to be earned in Research and Thesis.)

The following internal areas of emphasis may be selected by the student commensurate with vocational interest: Educational Theory; Communication Theory and Research Methods; or Criticism.

The student's program in Communication and Rhetoric will consist of courses in the area of emphasis, electives, and required Departmental courses. This combination should equal 35 credit hours.

III. Mass Media

A. Required Courses

<table>
<thead>
<tr>
<th>Credits</th>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>7800:600</td>
<td>Introduction to Graduate Studies</td>
</tr>
<tr>
<td>7600:699</td>
<td>Research and Thesis</td>
</tr>
</tbody>
</table>

(Typically, one may expect four quarter hours of credit to be earned in Research Thesis)

B. The remaining courses shall be chosen by the candidate under the direction of his/her adviser from (1) the Mass Media courses cited in the catalogue descriptions, (2) appropriate Communication and Rhetoric courses, or (3) appropriate Theatre Arts courses. A minimum of 30 credit hours must be earned beyond thesis credit.

C. Cognate field courses from outside the department may be chosen if they are appropriate to the special interest of the candidate and meet the approval of the candidate's adviser.

D. Thesis options (see the general description).

IV. Theatre Arts

A. Required Courses

<table>
<thead>
<tr>
<th>Credits</th>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>7800:600</td>
<td>Introduction to Graduate Studies</td>
</tr>
<tr>
<td>7800:699</td>
<td>Research and Thesis</td>
</tr>
</tbody>
</table>

(The Graduate Faculty will assign the actual number with approval of prospectus. Typically, four credits are earned for a thesis.)

B. A minimum of 26 additional credits shall be earned from the following courses or from approved courses in cognate fields:

- 7800:560 Dramatic Criticism 3
- 7800:566 Advanced Problems in Lighting 2
- 7800:567 Contemporary Theatre Styles 3
- 7800:568 Children's Theatre Workshop 3
- 7800:641 Problems in Directing 3
- 7800:642 Problems in Contemporary Acting 3
- 7800:650 Advanced Technical Theatre 2
- 7800:663 Seminar in American Theatre 2
- 7800:664 Seminar in commedia dell'Arte 2
- 7800:665 Seminar in Theatre Audience 2
- 7800:666 Intro to Arts Mgmt. 2
- 7800:667-69 Studies in Dramatic Practice (2 credits each) 6
- 7800:697* Grad Rsch. in Theatre Arts 1-6

*This course may be used in addition to an approved individual research project, for a group study of a designated, specialized topic, such as a seminar on Brecht, the Irish Theatre, Black Theatre, etcetera.

C. There is no specific number of courses in cognate fields required. Students may elect related graduate courses in the department or in English, psychology, art, or music.
College of Nursing

THE MASTER OF SCIENCE IN NURSING DEGREE PROGRAM

Objectives and Philosophies

The Master of Science in Nursing Degree Program is a joint venture between The University of Akron and Kent State University. The goal of the program is to prepare nurses in a clinical major, e.g., Nursing of the Adult, Psychiatric Mental Health Nursing, or Family Health Nursing. The graduate is prepared either for a teaching, administrative or advanced clinical specialist nursing position.

The focus of the program will be on the advancement of nursing theories by defining the parameters of nursing at the graduate level and by the generation application, and testing of knowledge to promote improved health care through the practices and research of faculty and students within the framework of current and emerging health care systems.

a. Objectives:

1) Expertise in a concentrated area of clinical nursing practice. Clinical majors will be available in: Nursing of the Adult, Psychiatric Mental Health Nursing, Family Health Nursing.

2) Competence in the practice of family and community health nursing within the context of a clinical major.

3) Competence in a functional area: teaching, administration, or advanced clinical specialization.

4) Competence in the use of scientific methods and/or scientific nursing theory to study problems relevant to nursing.

5) Ability to collaborate with consumers and health care providers in planning and implementing care.

6) Ability to be innovative, flexible and individualized in the pursuit of knowledge.

7) Ability to value social consciousness, inquisitiveness, diversity, and the examination of existing norms.

b. Philosophy

The faculty believe that graduate education is predicated on baccalaureate preparation in nursing. Although the primary emphasis of the program is to prepare a practitioner in nursing, it will also provide a basis for doctoral study for those who wish to pursue further graduate work.

The faculty also believe that advanced study in nursing should be designed to promote the capabilities of individuals, families, and populations and to encourage their knowledgeable participation in the management of their own health problems.

The perspective of health care settings is eclectic, pluralistic and complex, and acknowledge the individual, the family, and the community as the focus of care and study. They embrace the ecological approach toward achieving a high level of health for community members whereby each individual must be studied in terms of his/her total environment to assist him/her in sustaining that quality of life which enables him/her to survive and prevail.

The faculty believe that the highest quality of graduate nursing education is that which enables individuals, families, and communities to become self-sustaining through the development of human potential and human environmental resources. This requires that the unit and its individual members maintain a dynamic balance and purposeful direction within the environment wherein they function.

The core content of graduate education would then include theoretical and clinical constructs about man's physiological, psychological, cultural and social responses to life processes, life experiences, and aspirations toward optimal health. Graduate study in nursing would prepare a scholarly, specialized nurse capable of assessing and implementing leadership responsibilities in current and emerging health care systems.

Major Components of the Curriculum

The program is two academic years in length and provides instruction in five major areas: (1) clinical concentration in a speciality area, (2) research, (3) the functional areas of teaching, administration and advanced clinical specialization, (4) cognate courses, and (5) the theoretical basis for nursing practice.

1. Clinical Concentrations

The program provides opportunities for students to develop competence in specialized areas of nursing practice. Students admitted will select their specialization within the framework of one of the following areas: Nursing of the Adult, Psychiatric Mental Health Nursing, or Family Health Nursing.
Each clinical major is implemented through four courses (12 credits) which span both years of the curriculum. Theoretical content and intensive related and supervised clinical experience is provided.

2. Research

The research component fosters inquiry directed toward the solution of clinical nursing problems. This component is comprised of two courses in Clinical Inquiry taught by the Nursing faculty and taken by all students regardless of clinical major and one statistics course (cognate) provided by other selected university departments. Additionally, each student elects a thesis or non-thesis option in the second year.

3. Functional Area

Options are provided for study in a functional area, either teaching, administration or advanced clinical specialization. There are seven credits allocated to the functional option which includes the equivalent of two courses and one practicum in the second year. The clinical specialist functional option includes clinical practice in each of these three courses. In addition, 5-6 credits in related cognates supports this area.

A student may choose to use the 6-7 credits (or more) allocation in the second year to pursue a special area of interest, for example, advanced study in a science related to nursing, further preparation in research or independent clinical study.

4. Cognates

Students select courses (16-18 credits) from natural, behavioral or medical science areas. One of these courses is Statistics, two courses are related to the clinical major, two related to the functional area, and one is an elective.

5. Theoretical Basis for Nursing Practice

Two courses (6 credits) are offered by the nursing faculty in the first year of the curriculum that are taken by all students regardless of clinical major. These courses reflect such widely applicable theoretical constructs as: appraisal of physical, emotional, social, and cultural needs; nursing diagnosis and the decision-making process; growth and development; man’s adaptation to life crises and environmental forces; family and group dynamics, therapeutic communication; cultural needs; health care education through problem-solving for families and individuals to encourage self help; continuity and coordination of nursing care to clients and families; and application of research in clinical practice and use of epidemiologic methods in identifying searchable problems having implications for nursing. These courses will provide the framework for the integration of physiological, psychological, economic, political and cultural theoretical concepts applicable to clinical practice.

A student is required to take the minimum credits in each major component area.

Additional electives in nursing will provide opportunities to individualize and strengthen the clinical nursing major.

Admission Criteria

The following are admissions requirements for graduate program candidates:

1. Eligible for licensure by the State of Ohio Board of Nursing Education and Nurse Registration. (Licensure in the State of Ohio is required before a student begins the clinical practicum in the first semester.)

2. Baccalaureate degree in upper division nursing from an NLN accredited school of nursing.

3. A grade point average of 3.0 on a four point scale from the undergraduate program.

4. Satisfactory completion of an undergraduate statistics course and an elementary course in research methodology or equivalent.

5. Three letters of reference.

6. Three-hundred word essay describing your professional goals and reasons for seeking graduate education.

7. Millers Analogy Test results.

Individuals who do not meet the above criteria will be considered by an admissions committee, which may recommend evaluation by examination, further undergraduate study, or direct admission by waiver of criteria.

Student Advisement

An advisor will assist students in selection of courses and evaluate undergraduate and/or transfer credits. A student will be assigned an advisor at the university to which he/she is admitted.

A student will be expected to select an advisor for the thesis or non-thesis option. Students who elect thesis are required to select a review committee. The thesis committee will be composed of three faculty, two (including the chairperson) from the university in which the student is enrolled and the third from the other university.

**Total Foundations** 18

Each student chooses a clinical major of either Family Health Nursing, Psychiatric Mental Health Nursing or Adult Nursing for a total of 12-13 credits; Cognate electives in support of clinical specialty and functional area 11-13 credits; Nursing Electives, 4 credits; Students will also select a functional role of either Nursing Administration, Nursing Education or Clinical Specialist for a total of 7 credits.

**Total Credits for Degree** 52-56 credits
The School of Law

Stanley A. Samad, J.S.D., Dean
Albert S. Rakas, J.D., Associate Dean

OBJECTIVES

The purpose of the School of Law is to further the objectives of The University of Akron by providing a quality program of university education for Law and to pursue the following aims:

To prepare students for a career in the profession of law by imparting information concerning legal institutions, basic principles of the substantive and procedural law, and jurisprudential thought concerning the role of law in society.

To help to develop in students an active and critical attitude rather than a passive approach toward the rules of law and their social implications.

To develop in students a high sense of professional responsibility in terms of technical competency, appreciation of professional standards and the responsibility of the lawyer to achieve a more nearly perfect system of civil and criminal justice.

The School recommends each student for the Juris Doctor degree upon satisfactory completion of the requirements.

The School of Law was established on September 1, 1959 as the successor to the Akron Law School. Founded in 1921 as an independent evening law school, the Akron Law School produced two generations of successful members of the bench and bar, and leaders in industry and commerce. Recognizing that legal education is best conducted in university-centered programs, and mindful of the need for the continuation of a sound program of legal education in the most densely populated quadrant of the state, The University of Akron accepted an offer of merger, and formed the School of Law.

The School of Law offers a program for the full-time study of law with classes scheduled primarily during the hours of 9:00 a.m. and 4:00 p.m., and a plan of part-time study of law for the working student with classes scheduled during the evening hours, primarily between 6:30 p.m. and 9:30 p.m.

The schedule of courses for full-time students is designed so that the Juris Doctor degree may be earned in three academic years consisting of six semesters. Attendance at the summer sessions is optional.

The schedule of courses for part-time evening students is designed so that the Juris Doctor Degree may be earned in four academic years consisting of eight semesters and three summer sessions. The normal academic load in the evening program is nine credits and the summer sessions are an integral part of the program.

The schedule of courses has been designed by the faculty to provide a logical progression of subject matter, as well as reasonable freedom in the selection of elective courses. Students are encouraged to observe this schedule in planning their programs so that they can continue their advantageous progression of subject matter.

The primary purpose of students enrolling in the School of Law is to acquire fundamental knowledge of law and the role of law in society, interlaced with a grasp of the public responsibilities of the lawyer, enabling them to become attorneys and counsellors at law and leaders in governmental affairs. The ultimate aim of the School is the development of graduates who will serve society not only through the representation of their individual, corporate, or governmental clients, but who will also serve as architects of the future of society.

Students are trained to develop their powers of legal analysis and synthesis, to develop the technical skills of legal advocacy and legal draftsmanship, and to learn practical skills of research and the management of litigation.

PRE-LEGAL EDUCATION

A student expecting to enter the School of Law must hold a baccalaureate degree which has been granted by an accredited institution of higher learning. His/her under-graduate courses should have developed his/her ability in expression and comprehension of the English language, afforded him/her basic information about human institutions and cultivated his/her ability to think creatively and critically, with thoroughness and intellectual curiosity.
Requirements are flexible for undergraduate study preceding legal education. However, it is generally recommended that students have a liberal arts background with majors in any of these fields: English, economics, history, mathematics, philosophy, political science, psychology, sociology or a science. Also, acceptance is granted to students with degrees in areas of business administration, education and engineering.

REQUIREMENTS FOR ADMISSION

An applicant for admission to the School of Law desiring to become a candidate for the degree of Juris Doctor must:

1. Be of good moral character.
2. Show evidence of the award of a baccalaureate degree from a regionally accredited college or university in a field of study deemed appropriate by the faculty of the School of Law, with an academic average substantially better than the minimum average required for such degree.
3. Have taken, prior to admission, the Law School Admission Test and earned a satisfactory score.
4. Register with the Law School Data Assembly Service (LSDAS).

ADMISSION PROCEDURES

The School of Law accepts beginning students only in the fall semester.

The procedures for securing admission are as follows:

1. Obtain an application form from the School of Law. It is recommended that both day and evening applicants apply and complete their applications (with LSAT and LSDAS) as soon as possible after October 1. Students will be admitted until the classes are filled. After that time, acceptable applicants will be placed on a waiting list. The School estimates that the day class will be filled by April 1; the evening class by June 1. Because the School considers each application soon after it is completed, there is no way of knowing whether classes will be closed before or after the above dates. The best policy is to complete one’s application as early as possible.

Admission from the waiting list will begin in late July, should vacancies occur.
2. Submit to the School of Law, The University of Akron, an application fee of $20 if never previously enrolled for credit courses at The University of Akron.
3. Arrange to take the Law School Admission Test (LSAT), which is given at the University and elsewhere, by making application to the Law School Admission Test, Educational Testing Service, Box 944, Princeton, New Jersey 08540.

File with the Law School Data Assembly Service a copy of the transcript of record from each college or university attended. (The LSDAS provides the School of Law an analysis of transcripts and forwards to the School of Law such analysis, copies (unofficial) of transcripts and LSAT scores.)

5. A personal interview with the Associate Dean of the School of Law may be required as a condition of admission; otherwise, the personal interview is optional.

6. IF ACCEPTED FOR ADMISSION TO THE JURIS DOCTOR DEGREE PROGRAM, the student must file with the School of Law a final, official (bears the raised Seal of the institution and the signature of the Registrar) transcript of record showing the award of the baccalaureate degree, mailed from the institution awarding the baccalaureate degree.

A “Certificate of Completion of Degree Requirements” is filed by the student with the School of Law temporarily in lieu of an official transcript for those students satisfactorily completing baccalaureate degree requirements during summer sessions, but the formal award of the degree is conferred after the beginning of the fall term. Such “Certificate” must be executed by an authorized official (usually the Office of the Registrar) of the institution awarding the baccalaureate degree. An official transcript showing award of the baccalaureate degree must be filed by the student with the School of Law at the earliest time such transcript becomes available from the institution awarding the baccalaureate degree.

The official transcript, or, in cases where applicable, the “Certificate,” should be received by the School of Law at least one week prior to the official registration period published in the University Calendar.

Students admitted to the Juris Doctor degree program are requested to file the official transcript only after receiving the
AUTHORIZED, SIGNED ADMISSIONS ADVISEMENT
FORM INDICATING ACTUAL ADMISSION TO JURIS
DOCTOR DEGREE CANDIDACY OF THE SCHOOL OF
LAW.

The unofficial copy of transcript forwarded to the School of Law by the LSDAS does not constitute filing of transcript with the School of Law.

7. The School of Law reserves the right to refuse registration if registration forms are not filed by the announced deadlines as established by the University. A late fee penalty is assessed if an exception is made and late registration permitted.

8. The University of Akron is a non-sectarian, state-supported University. Students qualified for the study of law are admitted without discrimination as to race, sex, religion or national origin.

All inquiries and correspondence pertaining to admission should be sent to:
Associate Dean
School of Law
The University of Akron
Akron, Ohio 44325

ADMISSION TO ADVANCED STANDING

A law student who has completed part of the law course at a school on the approved list of the Section of Legal Education and Admissions to the Bar, American Bar Association, and who is eligible for readmission to the former law school, may be admitted to advanced standing. A student desiring admission to advanced standing shall: (1) obtain from the Dean of the former law school a letter setting forth the fact that the student is eligible for further instruction, and consent to the transfer; (2) submit evidence of meeting the admission requirements of The University of Akron School of Law; (3) present an official transcript of all work completed at the previous law school. Credit to be given for the prior law school work shall be that determined by the Dean of the School of Law.

AUDITORS

Members of the Bar and graduates of law schools who are not yet members of the Bar may, with the permission of the Dean of the School of Law, enroll for a course without credit. The auditor is required to do all the work prescribed for the regular student enrolled for credit except taking examinations. The fee for the auditor is the same as for a regular student.

STANDARDS OF ACADEMIC WORK

The following system of grades is used in recording the quality of a student's academic work:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points Per Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
</tr>
<tr>
<td>C+</td>
<td>2.3</td>
</tr>
<tr>
<td>C</td>
<td>2.0</td>
</tr>
<tr>
<td>C-</td>
<td>1.7</td>
</tr>
<tr>
<td>D+</td>
<td>1.3</td>
</tr>
<tr>
<td>D</td>
<td>1.0</td>
</tr>
<tr>
<td>D-</td>
<td>0.7</td>
</tr>
<tr>
<td>F</td>
<td>0.0</td>
</tr>
<tr>
<td>I</td>
<td>0.0</td>
</tr>
<tr>
<td>IP</td>
<td>0.0</td>
</tr>
<tr>
<td>PI</td>
<td>0.0</td>
</tr>
<tr>
<td>AUD</td>
<td>0.0*</td>
</tr>
<tr>
<td>CR</td>
<td>0.0*</td>
</tr>
<tr>
<td>NCR</td>
<td>0.0</td>
</tr>
</tbody>
</table>

*Not calculated in cumulative average.

Academic averages are computed by dividing the quality points achieved by the hours attempted. When a course is failed and repeated, the hours and the quality points involved each time are included in the computation as if the repeated course were an independent course.

A quality point ratio of less than 2.00 is unsatisfactory. A law student whose scholarship is unsatisfactory may be placed on probation, suspended for a definite period of time or dropped from the School at any time by the Dean. Reinstatement is determined by the Dean of the School of Law to whom a written petition for reinstatement should be addressed.

If a student withdraws from a course with the permission of the Dean, it will not count as work attempted. If a student leaves a course without permission of the Dean or is dropped from any course by the Dean, the student is given a failing grade in the course and it is counted as work attempted.

REQUIREMENTS FOR A DEGREE

The Juris Doctor degree is conferred upon students of good moral character who have been recommended by the Dean and faculty of the School of Law and who have:

1. Completed satisfactorily all required courses, seminars and electives to earn at least 84 credits, the writing requirement, and met residency requirements.
2. Attained at least a 2.00 average for all courses taken and at least a 2.00 average for the senior year.
3. Spent their last year at the University unless excused by the Dean.

FEES AND EXPENSES

Fees are as follows:
- Application fee, nonrefundable: $20.00
- Fees for residents of Ohio, per credit: $24.00
- Fees for nonresidents of Ohio, per credit: $53.00
- Students taking less than nine credits in any semester pay a General Fee of $10.00 for that semester. Students taking nine or more credits pay $24.00.

University Housing is not available for graduate or professional students. However, a meal ticket may be purchased each semester.

Books (new) will cost approximately $200 per year for full-time students and about $125 per year for part-time students.

LOAN FUNDS

University loans by which tuition and maintenance fees may be paid over the semester in periodic installments may be requested through the Cashier's Office. Normally, these loans do not exceed one-half the fees due in a semester.

Law students may apply for the following loans: National Direct Student Loans, the Philip H. Schneider Scholarship Loan Fund, and the Ohio Higher Educational Assistance Commission Loans (available to full-time students who are residents of Ohio).

Application for loans should be obtained from the Student Financial Aids Office, The University of Akron, and completed by April 1.

Loans for emergency purposes will be considered during the academic year.

LIBRARY

The law library is the laboratory of the School of Law and is most important in providing the law student with materials for research and study. The law library contains approximately 125,000 volumes. University libraries comprising more than 875,000 items are available to law students.

ENROLLMENT IN OTHER SCHOOLS

A student who is enrolled in the program leading to the Juris Doctor degree may not take work in any other school, college or course of instruction, unless he/she first obtains the written consent of the Dean. No student may attend a course designed as a review for the bar examination until he/she has completed all course requirements for the Juris Doctor Degree.

BAR ADMISSION REQUIREMENTS

Each student entering the School of Law is encouraged to read Rule I of The Supreme Court Rules For The Government Of The Bar Of Ohio, Admission to the Practice of Law, or the comparable rule of court in the jurisdiction wherein he/she desires to take the bar examination and practice law.

The Supreme Court of Ohio requires that each student entering a law school and who intends to practice law in Ohio shall file within 120 days from the beginning day of the fall semester an application for registration as a law student, evidence of his/her meeting the pre-legal educational requirements established by the Rule, a legible set of fingerprints on a prescribed form and filing fee of $30.00. As a condition for taking the bar examination, the applicant must file an application not less than 90 days prior to the date of the bar examination, a certificate of the School of Law that the student has completed or will complete all courses required by the Rule and a filing fee of $60.00. The Rule requires that a student be tested in the following courses: Business Associations (including Agency, Partnerships and Private Corporations), Commercial Transactions (Commercial Paper, Secured Transactions), Constitutional Law, Contracts (Equity), Criminal Law, Evidence, Federal Taxation, Pleading and Practice, Property (Real and Personal), Torts, Trusts and Wills. Further, the student must be certified as having had instruction in Legal Ethics.

The appropriate forms may be obtained from the School of Law on request. It is the responsibility of the student to initiate a request for, to execute properly, and to file timely, the requisite forms.

THE HONOR SYSTEM

Consistent with the aim of training professionally responsible lawyers, and in recognition of the importance of honor and integrity of the individual lawyer, the faculty has placed the responsibility of honorable conduct on the individual student, and the administration of the honor system on a council of students composed of Student Bar Association officers and class representatives.

One noteworthy feature of the honor system is that each examination is unproctored. Entering students are urged to familiarize themselves with the Honor Code.
The School of Law assists students and Alumni in obtaining legal and law-related positions subsequent to graduation and temporary positions as law clerks after completion of the first year of law school, and provides career counseling and the development of the tools necessary for the job search process.

Membership is maintained in the National Association for Law Placement.

THE AKRON LAW REVIEW ASSOCIATION

A Board of Student Editors prepares and edits, with the advice of the Dean and the faculty, The Akron Law Review, a quarterly legal periodical devoted to legal research and commentary on the law. Membership on the Board is limited to those students of superior academic achievement or of demonstrated writing skill who desire to engage in legal research, analysis, writing, and editorship. Membership on the Board of Student Editors is indicative not only of scholarship, but of uniquely valuable training in skills important to the profession of law.

LAW STUDENT ASSOCIATIONS

ARETE, a student-managed organization, publishes two student legal works. The oldest publication is a monthly news-journal which contains both newsworthy items of importance and professional and student opinion. The Fall, 1973, saw the dedication issue of the second ARETE publication, the ARETE JOURNAL. The JOURNAL is printed quarterly and is designed to be a legal periodical of views and opinion, dedicated to a special area of the law each edition. ARETE is distributed within the School of Law, throughout the Akron area professional community and to law libraries of every law school in the nation. As recipient of the award of "The Outstanding Law School News-Journal of the U.S. Sixth Circuit for 1973-74," ARETE stands as one of the finest law school publications in the nation. ARETE is open to all second and third year law students.

THE BLACK AMERICAN LAW STUDENT ASSOCIATION (BALSAC), accredited as a law student organization in 1974, has as its primary objective increasing the enrollment and retention of minority law students. Akron BALSA, an affiliate of National BALSA, Inc., sponsors community seminars on the law and the legal rights of Black, poor and oppressed people.

BRACTON'S INN, a student-managed organization, conducts an appellate moot court program. BRACTON'S INN has as its purpose the development of skills in legal research, brief writing and oral advocacy before a moot appellate tribunal. Among the activities sponsored by BRACTON'S INN is the Client Counseling Competition which offers students experience of participation in regional and national competition with other law schools in simulated exercises of lawyer-client interviews and consultations. BRACTON'S INN also sponsors the Mock Trial program which gives students an opportunity to serve as counsel in an actual trial setting.

Charter member with 35 law schools, The University of Akron School of Law established in 1970 a national honor society entitled ORDER OF BARRISTERS whose aim is to promote recognition of appellate advocacy. Law students successfully completing the appellate advocacy program of BRACTON'S INN are eligible for consideration to membership in the student-managed ORDER OF BARRISTERS.

THE SEIBERLING SENATE, DELTA THETA PHI LAW FRATERNITY, was chartered in 1973, in honor of Congressman John F. Seiberling. The objective of DELTA THETA PHI is to bring together congenial men and women of good will and common purpose who regard the study and practice of law as activities worthy of the highest human endeavor. Law students in good standing are eligible for membership after their first semester.

THE INTERNATIONAL LAW SOCIETY, a Chapter founded in 1971 as an affiliate of the national Association of Student International Law Societies, is designed to stimulate interest and participation in the field of international law by providing opportunities for student exposure to world affairs through speakers, panels and competitive events, such as the annual Philip C. Jessup International Law Moot Court Competition, and to better prepare law students for related occupational positions subsequent to graduation.

THE LAW WIVES CLUB is primarily an informal, social organization for the wives of all law students. LAW WIVES supports activities which provide funds for student awards and donations toward improvements of the School of Law facilities for the benefit of all law students.

THE STUDENT CHAPTER, NATIONAL LAWYERS GUILD, founded in 1975, unites law students and honorary members in promoting group interaction and sensitivity to the ongoing societal evolution of the
primacy of human rights, liberties and equality of opportunity. To these ends law is viewed as an instrument for protection and not repression of such rights and opportunities, and the lawyer as a catalyst for societal changes and not merely a client-caretaker.

THE GRANT CHAPTER, PHI ALPHA DELTA LAW FRATERNITY, INTERNATIONAL, was established in 1962. Through service to the student, the School and the legal profession, PHI ALPHA DELTA strives to advance not only the attainment of a high standard of scholarship, but also the development of a spirit of good fellowship among its men and women members. Speakers, workshops, parties, luncheons and the annual used-book sale are among some of the activities sponsored by Grant Chapter. “PAD” welcomes all students in good standing after the first semester.

THE STUDENT BAR ASSOCIATION is designed to introduce law students to the professional responsibilities and problems they will face upon admission to the bar, to provide closer integration among the future lawyers and present-day leaders of the legal profession, to promote professional responsibility and to acquaint law students with the opportunities and obligations to improve the administration of justice through the organized bar. In addition, the Student Bar Association provides a form of student government and promotes good fellowship.

SCHOLARSHIPS, HONORS, AND AWARDS

A limited amount of tuition-remission assistance is available to full-time (day) students from disadvantaged groups in need of assistance, and may be renewed in the case of continuing need, and good academic standing, in amounts up to $1,000 per regular academic year (fall and spring semesters). Application for such assistance should be made prior to June 1, through the Office of the Associate Dean, School of Law.

The Akron Bar Association Auxiliary Scholarship, established by the Akron Bar Association Auxiliary, provides an annual scholarship from principal and income not to exceed $1,000 to an entering student in a full-time program of law study. The University Scholarship Committee, on the basis of scholarship, legal aptitude, character and need, and with the advice of the Dean of the School of Law shall make the selection, giving first preference to a resident of Summit County, Ohio. A recipient may apply for an annual renewal of the scholarship.

The Akron National Bank and Trust Company provides an annual award of $200 to the graduating senior who excels in the study of the law of trusts and estates, with the selection to be made by the Dean.

The Anderson Publishing Company awards to the highest ranking graduating student in Corporations each year a copy of Anderson's Ohio Corporation Desk Book, and to the highest ranking graduating student in Wills a copy of Lynn Will Clauses.

The Banks-Baldwin Law Publishing Company awards annually a two-volume work entitled Jacoby's Ohio Civil Practice Under the Rules to the graduating law student displaying scholarship in the study of Code Pleading, as determined by the Dean, School of Law.

The Bracton's Inn Award, established by the Law Wives Club of the School of Law, is presented annually in recognition of superior performance in the Law School's moot court program.

Attorney and Mrs. Evans B. Brewster established in 1964 an annual award in the sum of $200 to assist two deserving law students who rank in the upper half of the class to obtain the use of assigned case and text books, as determined by the Dean, School of Law.

The Bureau of National Affairs, Inc. awards the year's complimentary subscription to THE UNITED STATES LAW WEEK to a graduating student who, in the judgment of the faculty, has made satisfactory progress during the senior year.

The Robert Crafts Memorial Scholarship is a fund established in 1969 by Mrs. Robert Crafts in memory of her husband, Robert Crafts, Esq., of which the income or principal or both will be used to assist worthy students in the School of Law who enter under the Council on Legal Education Opportunity program, and students similarly situated, on the recommendation of the Dean of the School of Law.

The Goodyear Tire & Rubber Company Fund is a fund established in 1969 by the Goodyear Tire & Rubber Company Fund, of
which the principal and income will be used for scholarships and emergency expenses of students admitted to the School of Law under the Legal Education Opportunity program, on the recommendation of the Dean of the School of Law. The fund is administered by The University of Akron Development Foundation.

The Howland Memorial Fund has provided two $500 Frank C. Howland Scholarships to deserving law students of demonstrated scholastic attainment, as nominated by the Dean, School of Law.

The Law Wives Club Award of several cash awards is presented annually to law students, spouses of Club members, on the basis of scholarship and leadership in student affairs, as determined by the Dean of the School of Law.

The Lawyers Co-operative Publishing Company and Bancroft-Whitney Company, joint publishers of AMERICAN JURISPRUDENCE, award to ten ranking students in about twenty-four courses a specially bound copy of the equivalent title from their multi-volume publication, as determined by the instructor(s) in charge.

The Judge W. E. Pardee Memorial Award of $150 (established 1963-64) is presented annually to a participant or team of participants in Bracton's Inn (the Case Club of the School of Law) who best displays advocacy skill and professional decorum, as determined by intramural competition.

The Judge and Mrs. W. E. Pardee Memorial Scholarship in an amount not to exceed $500 is awarded annually to a deserving, full-time law student of demonstrated scholarship.

The Phi Alpha Delta Law Fraternity, International, Grant Chapter, awards annually the Judge Florence E. Allen Memorial Award of a $50 U.S. Savings Bond to a graduating law student predicated upon meritorious achievements in scholastics, community service and P.A.D., as determined by a Committee chaired by the Dean, School of Law.

The Phi Alpha Delta Law Fraternity, International, awards annually seventeen $500 awards, nationally, to seniors who are members of the fraternity. Application should be made through the Faculty Adviser of the Grant Chapter, School of Law. Phi Alpha Delta also awards, nationally, ten $500 scholarships to entering minority students. Application should be made through the Office of the Associate Dean, School of Law.

Prentice-Hall, Inc. provides annually a complimentary subscription to its Federal Tax Guide, Edition "A", to the graduating senior who has excelled in the study of taxation, as determined by the Dean of the School of Law.

The Judge and Mrs. Charles Sacks Scholarship is a fund established in 1969-70, the Centennial Year of the University, in honor of Judge and Mrs. Charles Sacks by their children, Robert and Naomi Christman, Sy and Laurel Fischer and Harvey and Shirley Friedman, of which the income will be used to provide scholarships to deserving students in the School of Law, on the recommendation of the Dean of the School of Law.

The Joseph Thomas Memorial Law Scholarship Fund is a fund established in 1976 by the Firestone Foundation in memory of Joseph Thomas, Esquire, the income from which is used to assist a financially deserving student or students of high academic potential and achievement residing in Summit County, on the recommendation of the Dean, School of Law. The award may be renewed.

The West Publishing Company annually awards four titles of Corpus Juris Secundum to students of all classes who have made the most significant contribution to overall legal scholarship, and, four titles from the Hornbook Series to students with the highest academic average in each of the classes, as determined by the Dean, School of Law.

Other scholarships and grants not specifically earmarked for law students but open to all University students are available. The student should consult the Financial Aids section of The University of Akron General Bulletin, and should apply seasonally through the University Financial Aids Office.

CLINICAL TRAINING AND PUBLIC SERVICE

The Legal Clinical Program emphasizes the day-to-day aspects of practicing law and operates to assist the student in developing skills associated with management of the affairs of a client, as well as developing a critical awareness of the lawyer's responsibility in improving the administration of civil and criminal justice.

An internal program within the School of Law provides opportunity to assist indigents in civil and criminal actions in a law office setting. Students also are detailed to work with community organizations such as the Legal Aid Society, the Public Defender's Office, the City and County Prosecutor's Office and other similar organ-
izations. Students may participate in these programs by enrolling in the Legal Aid courses upon completion of 28 semester credit hours and receiving permission of the Clinical Director.

Students who have completed at least 56 semester credit hours toward the degree of Juris Doctor, are in good academic standing, are enrolled as candidates for the Ohio bar examination and whose academic work is current, may be admitted to the Limited Practice of Law in Ohio as Legal Interns on obtaining approval from the Dean of the School of Law and the Supreme Court of Ohio. As a Legal Intern, the student may serve as counsel in civil cases and criminal misdemeanor cases under the Law School Clinical Program.

The applicable Supreme Court Rule (II) provides:

"The certificate may be revoked prior to its expiration upon revocation of the approval of the Dean or by the Court, sua sponte, either of which may be without notice, hearing or other statement of cause."

THE B. F. GOODRICH COMPANY
CHAIR OF LAW

The B. F. Goodrich Company in 1975 endowed a Professorial Chair of Law in International Transactions and Relations. Professor Hamilton DeSaussure was appointed as Holder of the Goodrich Chair.

Its aim is to assist in the training of law students as counselors in business, government and private practice in international business transactions, and their education in a global awareness of the economic and political problems of other nations, as reflected in their legal systems. With the cooperation of other academic units of the University, a unique opportunity is provided for an interdisciplinary study of subject matter areas such as in business, economics and government vital to counseling in international transactions and relations.

Research Centers and Institutes

In the past, colleges and universities have been thought of as ivy-covered storehouses of knowledge where neatly packed information was dispensed to eager students. But this has never been true, for it is here that much of the new knowledge developed. And with the accelerating tempo of our times, there is an increased call for the universities to provide more new knowledge to enable society to cope.

The University of Akron is alive to this challenge and has sought to develop its research program with an eye to the needs of the society it serves. Here the emphasis is on the work that is relevant, not on mere knowledge for knowledge's sake.
Research

Joseph M. Walton, Ph.D., Associate dean of Graduate Studies and Research
Robert G. Corbett, Ph.D., Coordinator of Research

One consequence of the University's concern with relevant research has been the number of inter-disciplinary teams that have been put together to tackle specific problems. Thus problems in connection with water pollution have used the services of chemists, biologists, chemical, mechanical and civil engineers.

All of this benefits the student. While the planning and organization of a research project is usually carried out by or with the assistance of a faculty member, both graduate and undergraduate students have the opportunity to participate, depending on the nature of the project and the skills and knowledge required.

Additionally the student is assured of a skilled, knowledgeable faculty, not cloistered in an ivory tower, but alert to the latest developments in the various disciplines. It also makes it easier for the student to bridge the gap between the knowledge of the past that he is obtaining from his books and lectures, and the up-to-date activities of the worlds of commerce, industry, education and technology. All of the research activities on campus are coordinated by the University Research Council which also serves as the policy making body for research. The Council consists of the Coordinator of Research and the Directors of the four Research Institutes, the Institute of Polymer Science, the Institute of Business and Economic Research and the Institute of Science and Engineering Research.

INSTITUTE OF POLYMER SCIENCE — The oldest of the research institutes, this was originally known as the Institute of Rubber Research. This institute has a staff of seventeen faculty members who direct the work of its pre-doctoral and post-doctoral students in a wide range of studies in the chemistry, physics and engineering aspects of polymers. The Institute is equipped with an extensive array of instrumentation and specialized research equipment appropriate to its activities.

INSTITUTE OF CIVIC AND EDUCATIONAL RESEARCH — Concerned with the increasingly complex human problems facing our society today, this Institute is carrying out a number of studies designed to assist government and industry meet the challenges of the times. In addition to studies whose concern is with how to improve the educational process, there are a number of programs which aim to improve governmental service, both by devising new solutions to problems and by bringing together experts in various fields to share their expertise with others.

INSTITUTE OF BUSINESS AND ECONOMIC RESEARCH — The work of this institute is carried out principally by members of the department of Economics and the College of Business Administration. Most of the work in this Institute is not of a project nature but rather is the nature of a consultation. The specific problem of a specific client is handled rather than large-scale, long-range theoretical studies.

INSTITUTE OF SCIENCE ENGINEERING RESEARCH — The studies conducted in this Institute are what most people think of when the word research is used, for it is this Institute that deals with the natural sciences. Here are the chemists and physicists and engineers, with the test tubes, spectrophotometers, nuclear reactors and all of the varied paraphernalia of modern science. As a result, this Institute possesses a large number of specialized laboratories and many unusual pieces of equipment.

Institute of Polymer Science

Maurice Morton, Ph.D., Director

The INSTITUTE OF POLYMER SCIENCE was originally established as the Institute of Rubber Research in 1956, in order to prosecute its main functions: basic and applied research in polymer science and the graduate training of polymer scientists and engineers.

Because of its location in the heart of the world's largest concentration of rubber industries, The University of Akron has always maintained a special interest in the science of rubber, dating back to the establishment in 1908 of the world's first course in rubber chemistry by the late Dr. C. M.
Knight. During World War II, the research activities were expanded under the impetus of the U.S. Government Synthetic Rubber Program.

After the war, it soon became apparent that the phenomenal rise of the giant synthetic rubber industry had brought the whole science and technology of rubber into the broader field of polymer science, and the need for polymer scientists was fast outstripping the meager supply. Hence the establishment of the Institute of Rubber Research was accompanied by the inauguration, in 1956, of the University's Ph.D. program in polymer chemistry, the first of its doctoral programs.

Because polymer science and technology seeks ultimately to relate the molecular structure of macromolecules to their physical behavior, it requires the combined efforts of chemists, physicists and engineers. Hence the best trained polymer scientist or engineer is one who has a broad understanding of this material science, including areas outside his own specialty. To fill this need, The University of Akron, in 1964, broadened its original polymer chemistry program into an interdisciplinary program in polymer science, available to chemists, physicists and engineers, and leading to M.S. and Ph.D. degrees in Polymer Science. This program is administered by the Department of Polymer Science, the academic arm of the Institute. Its faculty also hold appointments in other science and engineering departments. This enables the graduate student, while pursuing his individual field of science or engineering, to obtain both a broad and a specialized training in polymer science.

The Institute occupies the North Tower of the Auburn Science and Engineering Center and the adjacent Whitby Hall. It includes both chemical and physical laboratories, the latter devoted to physical measurements on polymers and elastomers. These facilities enable a wide scope of research to be carried out, including organic reactions, polymerization studies, characterization of macromolecules, and physical behavior and testing of polymers and elastomers. The well-equipped laboratories, together with the large interdisciplinary group of faculty, staff and graduate students, make the Institute a unique facility in this field. It is now comprised of thirteen full-time faculty members, holding ranks ranging from Professor to Asst. Professor in various disciplines, a combined technical and non-technical staff of 10, and 65 full-time graduate students, mainly pursuing doctoral degrees. Thus the Institute is now undoubtedly the largest academic facility of its kind in the United States.

The basic research work at the Institute is performed by graduate degree candidates under the supervision of faculty members. The fundamental character of this research makes it suitable for use in the graduate dissertation required of each student. The Institute also operates an Applied Research Section which undertakes projects as a service for government and industry, performed by a special staff of investigators.

Center for International Programs

H. Kenneth Barker, Ph.D., Dean
International Programs

Arno K. Lepke, Ph.D., Director
International Studies

The University of Akron serves a community that is very much on the international scene. The world's major rubber industries that are located here have plants in every part of the globe, as do many of the city's smaller industries. Our student population includes 225 foreign students. The faculty of this University has wide interests and has traveled extensively to various parts of the world.

The various colleges of the University have developed programs to give students an awareness of the global nature of knowledge. There are numerous courses in Non-Western studies, area concentrations, programs in international business and various opportunities for students and alumni to travel overseas.

Through its Advisory Committee, composed of faculty and students of the various
colleges, the Center for International Programs attempts to find ways of committing the University to programs that produce students who will be more knowledgeable about the total world in which we find ourselves. Hopefully, this can be done by increasing the international content of our various courses and finding ways to expose students and faculty to the various cultures of the world.

Center For Peace Studies
Warren F. Kuehl, Ph.D., Director

The Center for Peace Studies at The University of Akron has been established to study the subject of international peace within the threefold framework of the University's goal of education, research, and public service. A Peace Studies certificate program is available for students who wish to pursue this course of study and the Center sponsors special campus programs, a film series, and an international newsletter. It is engaged in research projects and cooperates with organizations in the community interest in peace and with institutes and peace centers on other campuses.

Center For Urban Studies
Frank J. Costa, Ph.D., Director

One of the greatest challenges facing the urban university is that of effectively using its many resources in urban analysis. The Center for Urban Studies at The University of Akron was established in 1965 in response to this challenge and is the focus around which the University applies available knowledge to urban problem solution. The Center seeks to organize and develop programs and research areas which use and stimulate faculty participation in urban area analysis. The Center's objectives are to apply new methods and to experiment with new approaches in solving urban problems. Thus, it strives to stimulate, within the University, creative solutions to urban problems by coordinating the urban perspectives of the various disciplines and professions.

The Center for Urban Studies provides advisory and research expertise in a wide range of areas to both public and private agencies on the local, state and federal levels. While most of the advisory and research work of the Center is carried out under contract with various agencies, significant projects have been undertaken without remuneration in an attempt to develop new approaches and new knowledge. Center research covers such areas as urban and regional planning, administrative organization, cost-benefit analysis, community development, housing, intergovernmental relations, urban employment, criminal justice planning, recreation, social services planning and urban education.

The Center for Urban Studies represents a multidisciplinary approach to the analysis of the urban region. It augments its research capabilities by drawing upon the expertise of the faculties in the various colleges within the University. Through its programs in Research, Data Accumulation and Extension the Center provides the setting and facilities through which interested faculty and graduate students can become involved in urban research or public service activities.
Continuing Education

Since 1968, The University of Akron has offered special institutes, workshops, and courses to professional groups. The University, through its academic departments, Institute for Civic Education, Department of Special Programs, Developmental Programs and its Institutes and Centers will continue to provide "outreach" programs, whenever practical.

As an urban institution of higher learning, the University clearly identifies and supports its Public Service role. Off-campus programs have been developed throughout the calendar year.

For further information, please call the office of the Executive Dean for Continuing Education and Public Services, 375-7028.
PHILOSOPHY

The three basic missions of universities are teaching, research and public service. Time and location dictates the varying manner by which institutions of higher education administer and achieve these missions.

Since man's knowledge has grown, the rate has accelerated at a staggering pace in the past three decades. There now exists a need for continued education. The universities’ dual, traditional mission to educate 18 to 22-year-olds and reproduce its own replacements in the Ph.D. format is too limiting a role for the urban institution. A society that supports urban public higher education expects the university to play a wider role and to intersect with almost all segments of its population.

Some have observed that for the first time in America's history, Americans are members of a learning society in addition to the working one.

If an urban institution of higher learning is to fulfill its non-traditional role, different administrative structures within the institution are necessary to provide a proper balance among teaching, research and service.

Within the content of Continuing Education and Public Services, at The University of Akron are located a variety of units dedicated to the support of the urban commitment.

PRIMARY OBJECTIVES

The primary objective is to provide university-level continuing education; programs for those beyond college age and other educational programs for adults interested in non-degree oriented activities.

Congruent with the primary objective, in relation to the urban commitment, is the establishment and maintenance of an effective liaison with all Akron area agencies responsible for formal and informal post-secondary education.

MORE SPECIFIC OBJECTIVES ARE:

1. To develop an Akron area higher education council embracing all post-secondary agencies. Council to function as a primary market research agency responsible for facilitating more effective utilization of efforts.
2. To offer meaningful learning opportunities (for which the university has talents) to those engaged in the various professions.
3. To offer assistance to industry, business, labor, public officials and community leaders in developing staff personnel and programs that will help them function more effectively.
4. To offer university-level assistance and joint community assistance to local, specialized organizations, agencies and other community groups to help them achieve their educational goals.
5. To offer a variety of opportunities to adults who wish to increase their personal awareness and insights as individual members of a larger society.

To accomplish these objectives, Continuing Education and Public Service will:

1. Maintain a climate and organization which will elicit a high level of cooperation from all segments of the faculty.
2. Cooperate with all campus offices in the development of proposals that will attract funds to help the University better serve its many audiences.
3. Serve as a coordinating body for all Akron area higher education activities. (Higher education is identified by post-secondary activity.)
4. Support and conduct research directed toward the identification of innovative approaches to continuing education and public service.
5. Provide training programs for off-
Continuing education in today's age of specialization is a necessity for many persons wishing to improve work skills. For others, it is a leisure-time avocation for personal enrichment. Since 1937 The University of Akron, through the Department of Special Programs' year-round sessions of informal courses, has offerings in both categories, for adults who do not require academic credit.

More than 175 classes, based upon the educational needs of the community, are offered each quarter. There are no requirements for admission to informal courses and any educational background is acceptable. Interest in learning in a relaxed and non-competitive environment is the only consideration.

Permanent student records are kept for all persons enrolled. Homework and exami-
nations may be given, however, certificates of satisfactory completion are awarded based solely on attendance.

Following is a representative though partial listing of types of subjects taught in informal classes:

**COMMUNICATIONS SKILLS, VERBAL & WRITTEN** — Creative Writing, Effective Oral Communications, English as a Second Language — Verbal, English Grammar, English Review for the College Bound, Practical Journalism, Reading Improvement, Skills in Listening, Speed Reading, Vocabulary Improvement.

**ELECTRONICS** — Basic Electronics, Fundamentals of AC-DC Circuitry.

**HUMANITIES AND FINE ARTS** — Antiques, Glass Blowing, Interior Decorating, Judaism, Motion Picture Production, Photography.

**MATHEMATICS** — Algebra, Math for Everyday Use, Plane Geometry, Trigonometry.

**METALLURY** — Metal Casting.

**MODERN LANGUAGES AND CULTURE** — Arabic, Chinese, French, German, Greek, Italian, Polish, Romanian, Russian, Serbo-Croatian, Spanish, Swahili.

**PHYSICAL EDUCATION AND RECREATION** — Korean Karate, Physical Fitness for Men, Women, and Scuba and Skin Diving, Swimming for Women, Self-Defense for Women, Yoga.

**SCIENCE** — Air Pollution, Engineering Refresher, German, Russian for Polymer Scientists.

**SECRETARIAL SKILLS** — Business Machines, Certified Professional Secretaries Review Seminar, Gregg Shorthand, Office Receptionist, Typewriting.

Institute for Life-Span Development and Gerontology

Harvey L. Sterns, Ph.D., Institute Director
Robert Deitchman, Ph.D., Edgewood Director

The Institute for Life-Span Development and Gerontology was formally established at The University of Akron in February 1976. The statement of purpose of the Institute for Life-Span Development and Gerontology is to bring together disciplines and activities of the University — in training, in research, and in public service — so that, in the broad application, we may evolve education programs which will improve the quality of life for the young, the middle aged, and the elderly of our community. More specifically, the application is toward understanding ourselves and others during the later years of life. Thus, through interdisciplinary involvement, the Institute is concerned with research and training in the areas of child and adult development as well as with response to the needs and wants of older adults.

On campus, the institute is located on the second floor of Simmons Hall, room 273. Among the objectives of the Institute are: to coordinate a multidisciplinary program in life-span development and gerontology for the entire University with undergraduate and graduate certificate programs to be received with associate, baccalaureate, or graduate degrees in existing academic programs; to provide student placement experience which involves children and older adults at The University of Akron/Akron Metropolitan Housing Authority Edgewood Community Services Center and in other community agencies and facilities.

The Edgewood Center is located about three miles off campus at Wooster Avenue and Edgewood Avenue. Robert Deitchman, Ph.D., assistant professor of psychology, is
director of the Edgewood Center, where five days each week a nutrition site and activities program is offered to older adults and where a day care center for preschool aged children is held. Edgewood serves not only as a community facility but also as a training and research center for faculty and students of the University and for professional and paraprofessional people of the community.

**Northeastern Ohio Universities College of Medicine**

**HISTORY OF THE COLLEGE OF MEDICINE**

The Northeastern Ohio Universities College of Medicine was created by an Act of the 110th General Assembly of Ohio and was officially established as a new public institution of higher learning on November 23, 1973. The College of Medicine is governed by a Board of Trustees appointed by the Boards of Trustees of The University of Akron, Kent State University, and Youngstown State University. All three universities are accredited by the North Central Association of Colleges and Secondary Schools. The College of Medicine is presently classified as a "Medical College of Development" by the Association of American Medical Colleges and the Council on Medical Education of the American Medical Association.

**EDUCATIONAL PURPOSE OF THE COLLEGE OF MEDICINE**

The College was established to provide new opportunities in medical education by preparing well qualified physicians who are oriented to the practice of medicine at the community level, especially primary care and family medicine.

**DESCRIPTION OF THE PROGRAM**

The curriculum, as planned, will require that students be enrolled for 11 months in each of six academic years. The first two years (Phase I) is spent on one of the university campuses. The course work during this period focuses chiefly on studies in the humanities and basic premedical sciences but will also include orientation to clinical medicine.

The Third Year of study is devoted primarily to the basic medical sciences, e.g., anatomy, physiology, microbiology, etc., and will be conducted at the Basic Medical Sciences Campus presently being developed in Rootstown.

In Years Four, Five, and Six, the student will develop competence in the clinical aspects of medicine through instruction provided principally at one or more of the associated community hospitals. The student will return to the university campus for one quarter in each of these last three years to complete the requirements for the B.S. degree at that university by enrolling in courses in the humanities and social sciences.

Successful completion of the six-year program leads to the award of the B.S. degree by one of the universities and the M.D. degree by the College of Medicine.

**INTEGRATED CURRICULUM**

**ELIGIBILITY**

**PHASE I**

High school seniors and recent high school graduates, having demonstrated appropriate academic competence and motivation toward a career in medicine, will be considered for admission into year one of the program.

**PHASE II**

Other applicants with a conventional college background, including pre-medical requirements and at least three years of college level work, will be considered by the College of Medicine for admission to Phase II (year three of the program).

**ADMISSION PROCEDURE**

**PHASE I**

High school seniors and recent high school graduates (who have not attended college) should write to the Admissions Office, The University of Akron, Akron, Ohio 44325, for application forms. Complete application indicating interest in the Phase I, BS/MD Program and return prior to December 31.
PHASE II

Conventional pre-medical students with three years or more of college should contact the College of Medicine, Rootstown, Ohio 44272, for application to Phase II, or year three of the six-year program. Applicants to Phase II should have taken the New MCAT test by May.

PROMOTION TO PHASE II

Progress through the first two years of this program (Phase I) will be based on academic performance and development of personal maturity appropriate to assumption of professional responsibility. The Phase I Academic Review and Promotion Committee, including University and College of Medicine faculty, will assess these factors and will recommend Phase I students for promotion and formal admission to Phase II, or the third year of the program.

COST

Normal undergraduate fees will be assessed for years one and two. Fees for years three through six, set by the College of Medicine Board of Trustees, will be $1,995 for three terms, which Ohio residents now pay to attend publicly supported medical schools elsewhere in this state.

LOCATION

The Northeastern Ohio Universities Basic Medical Sciences building is located on S.R. 44 in Rootstown just south of the I-76 intersection, across from the Rootstown High School.

1020: DEVELOPMENTAL PROGRAMS

1020:041 DEVELOPMENTAL ENGLISH
Provides basic instruction in composition skills: grammar, sentence structure, sentence combining, and punctuation. Develops the skills necessary to enable the student to write expository paragraphs.

1020:042 DEVELOPMENTAL ENGLISH
Reviews the essential areas of sentence structure, sentence combining, and punctuation necessary for composition writing but concentrates on writing expository paragraphs.

1020:051-052 DEVELOPMENTAL MATHEMATICS
Designed to review and strengthen the skills needed for credit mathematics courses. Study focuses upon arithmetical operations and elementary algebra. Students may enroll for a second semester.

1020:061 DEVELOPMENTAL READING
The purpose of this course is to develop the students' general reading abilities. Emphasis is given to increasing vocabulary, and understanding and remembering written material. Lectures, discussion and individual study.

1020:062 COLLEGE READING AND STUDY SKILLS
The purpose of this course is to develop the students' ability to understand and remember information in textbooks, and to use effective study techniques. Lectures, discussion and individual study.

1020:071-072 DEVELOPMENTAL NATURAL SCIENCE—CHEMISTRY
A review of mathematics as applied in chemistry; fundamental principles in the scientific approach to solving problems; basic principles of General Chemistry. Students may enroll for a second semester.

1020:299 SPECIAL TOPICS IN DEVELOPMENTAL PROGRAMS
Selected topics and subject areas of interest in Developmental Education.
The General College

1100: GENERAL STUDIES

1100:105 INTRODUCTION TO PUBLIC SPEAKING
3 credits
Students are introduced to the principles and practice of speaking by reading examples of speeches, studying the techniques and methods employed and applying them in a variety of speaking situations.

1100:106 EFFECTIVE ORAL COMMUNICATION
3 credits
Students learn the principles of communication in speaker-audience, group, and informal settings and apply the principles in speeches, group discussions and other oral and written assignments.

1100:111 ENGLISH COMPOSITION 4 credits

1100:112 ENGLISH COMPOSITION 4 credits
Prerequisites: 111. Must be taken in sequence. Courses 111 and 112 are intended to enable students to obtain proficiency in reading and writing of English. The reading materials used will be literary works of our Western tradition.

1100:115-116 INSTITUTIONS IN THE U.S.
3 credits each
Non-sequential. A descriptive and comparative study of how modern American institutions developed. The course covers various aspects of the growth and elaboration of American governmental, social and economic institutions.

1100:120-190 PHYSICAL EDUCATION 1 credit each
Minimum 1 credit. Participation in individual and group sports, in which each individual can acquire knowledge and skill in activities which may be of value and satisfaction to him throughout his life. Two periods each week.

1100:160 TENNIS-BOWLING
1100:161 TENNIS-FITNESS
1100:162 TENNIS-MODERN DANCE
1100:163 TENNIS-SOCCER
1100:164 TENNIS-SQUARE & FOLK DANCE
1100:165 TENNIS-SWIMMING (INTERMEDIATE)
1100:166 TENNIS-WRESTLING
1100:167 VOLLEYBALL-BADMINTON
1100:168 VOLLEYBALL-GOLF
1100:169 VOLLEYBALL-SQUARE & FOLK DANCE
1100:170 WATER POLO-SOCCER
1100:171 WATER POLO-SWIMMING (ADVANCED)
1100:172 WRESTLING-BOWLING
1100:173 SELF DEFENSE
1100:174 KARATE
1100:175 SKIN & SCUBA DIVING
1100:176 VARSITY BASEBALL
1100:177 VARSITY BASKETBALL
1100:178 VARSITY CROSS COUNTRY
1100:179 VARSITY FOOTBALL
1100:180 VARSITY GOLF
1100:181 VARSITY SOCCER
1100:182 VARSITY TENNIS
1100:183 VARSITY TRACK
1100:184 VARSITY WRESTLING
1100:185 VARSITY SWIMMING
1100:186 VARSITY INDOOR TRACK
1100:187 VARSITY VOLLEYBALL (WOMENS)
1100:188 VARSITY SOFTBALL (WOMENS)
1100:189 VARSITY BASKETBALL (WOMENS)
1100:190 VARSITY TENNIS (WOMENS)
1100:211 NUMBERS COMMUNICATION 3 credits
Students learn to use the language of quantitative relationships, to receive and express ideas in mathematical symbols, methods of mathematical reasoning, and creative understanding about quantitative aspects of the world.

1100:221 NATURAL SCIENCE-BIOLOGY 3 credits
Designed for non-science majors to illustrate the fundamental concepts of living organisms with emphasis on man's position in, and influence on, the environment.

1100:222 NATURAL SCIENCE-CHEMISTRY 3 credits
Designed for non-science majors. An introduction to the chemical principles at work in man and in his environment.

1100:223 NATURAL SCIENCE-GEOLGY 3 credits
A study of the basic principles and investigative techniques in various fields of geology with emphasis on the relationship of geological processes to society.

1100:224 NATURAL SCIENCE-PHYSICS 3 credits
An introduction to, and commentary upon, some of the most significant principles, perspectives and developments in contemporary physics. Intended for non-science majors.

1100:320-321 WESTERN CULTURAL TRADITIONS 4 credits each
Prerequisites: 64 credits or permission; Sequential. Students are introduced to human experiences of the past as manifested in the ideas, music and visual arts of Western Civilization, the Greeks to the present. Two lectures/two discussions per week.

1100:330 EASTERN CIVILIZATION: CHINA 2 credits
Prerequisites: 64 credits.

1100:331 EASTERN CIVILIZATIONS: JAPAN 2 credits
Prerequisites: 64 credits.

1100:332 EASTERN CIVILIZATIONS: SOUTHEAST ASIA 2 credits
Prerequisites: 64 credits.

1100:333 EASTERN CIVILIZATIONS: INDIA 2 credits
Prerequisites: 64 credits.

1100:334 EASTERN CIVILIZATIONS: NEAR EAST 2 credits
Prerequisites: 64 credits.

1100:335 EASTERN CIVILIZATIONS: AFRICA 2 credits

1100:336 EASTERN CIVILIZATIONS: LATIN AMERICA 2 credits
Prerequisites: 64 credits. The purpose of these courses is to give the student a basic knowledge of past human experiences and an understanding of current events in some key areas of the non-Western world.
U.S. Air Force R.O.T.C.

1500: AEROSPACE STUDIES

1500:113-114. FIRST YEAR AEROSPACE STUDIES
1 1/2 credits each
(AS100), General Military Course (GMC).
Doctrine. The mission and organization of the Air Force and current events are discussed to show how U.S. military forces contribute to national defense. The weekly Leadership Lab experience is designed to provide a working environment for the practice of military customs and courtesies and to develop a student's leadership skills.

1500:253-254. SECOND YEAR AEROSPACE STUDIES
1 1/2 credits each
(AS200), General Military Course (GMC).
The emphasis in this course is on the history of air power. Many vintage films are used in the class as well as class discussion. The politico-military environment in which the Armed Forces operate will be presented. The weekly Leadership Lab provides practical leadership experiences in basic military and leader activities.

1500:303-304. THIRD YEAR AEROSPACE STUDIES
3 credits each
(AS300), Professional Officer Course (POC).
Prerequisite: Completion of the GMC and/or competitive selection by the Professor of Aerospace Studies. Focuses attention on the military profession, civil-military interactions and the framework and formulation of defense policy and strategy. Communicative skills are developed. Leadership Lab provides advanced leadership experiences in a practical leadership environment.

1500:453-454. FOURTH YEAR AEROSPACE STUDIES
3 credits each
(AS400), Professional Officer Course (POC).
A study of basic management concepts as they apply to the Air Force environment. Also includes the study of the military justice systems; leadership theory, functions and practices; professionalism; and professional responsibilities of the junior officer. Within this study, attention is devoted to developing communication skills. Leadership Lab consists of advanced leadership experiences and detailed preparation for active duty.
U.S. Army R.O.T.C.

1600: MILITARY SCIENCE

MILITARY SCIENCE I

1600:100 INTRODUCTION TO MILITARY SCIENCE
1.5 credits
Orientation and overview of the Army ROTC program and career opportunities for ROTC graduates. Familiarization with the organization and capabilities of the Army and its missions. Significance of military courtesy and discipline; customs and traditions of the service; development of leadership fundamentals. Mountaineering techniques; marksmanship; combat weapons.

1600:101 MAP READING AND ORIENTEERING
1.5 credits
Fundamentals of map reading and orienteering to include topographic analysis, navigation techniques and applicatory work in the use of maps, aerial photographs, and competitive orienteering. Student will select two modules for practical exercise lab—one from academic and one from military skills module list.

MILITARY SCIENCE II

1600:200 SMALL UNIT OPERATIONS
1.5 credits
Fundamentals and techniques of tactics and small unit operations to include analysis of associated leadership and management problems. Discussion and application of the problem solving process. Student will select two modules for practical exercise lab—one from academic and one from military skills module list.

1600:201 BASIC MILITARY LEADERSHIP
1.5 credits
A study of functions, duties, and responsibilities of junior leaders. Operations of the basic military teams. Study of leadership techniques in community, business, and academic environment through interview and seminar. Emphasis on communicative skills. Special attention will be given to the development of leadership potential through practical exercise. Student will select two modules for practical exercise lab—one from academic and one from military skills module list.

MILITARY SCIENCE III

1600:300 ADVANCED LEADERSHIP I
3 credits
Prerequisite: Meet requirements for enrollment and/or instructor's permission. Development of an understanding of the leadership process to include applicatory work emphasizing officer leadership duties and responsibilities. Methods and techniques of military instruction. Familiarization with branches of the Army.

1600:301 ADVANCED LEADERSHIP II
3 credits
Prerequisite: Same as 300. Review of the fundamentals and principles of small unit leadership and tactics stressing application and problem solving processes. Familiarization with weapons, communications equipment and review of the fundamentals of map reading. Orientation for advanced camp. Includes 48-hour field training exercise to provide practical exercise in leadership and problem solving.

*Requirements for enrollment: Completion of three years of high school ROTC or two years of college ROTC (Army, Navy, or Air Force), or at least one year active service or the active Reserve service, or by successful completion of basic camp or campus summer program between sophomore and junior years.

MILITARY SCIENCE IV

1600:400 MILITARY MANAGEMENT I
3 credits
Prerequisite: 300-301; and/or instructor's permission. Principles and practices of administrative and operational staff executives, their roles and responsibilities in support of the manager. The study of formal and informal organizations, communication, job satisfaction, authority and leadership. Training and development of organizational leaders and managers by role playing, conflict resolution and situation studies.

1600:401 MILITARY MANAGEMENT II
3 credits
Prerequisite: Same as 400. Concepts and implications of the military judicial system for the executive decision maker. Analysis of decision making process under a high stress condition, including planning, organizing, directing, and controlling functions of the manager. Familiarization with the historical growth and development of the Army with emphasis on changes in organization, tactics and weaponry. Analysis of the nature and causes of warfare with respect to significant errors and misjudgments.
Interdisciplinary Programs

1810: AFRO-AMERICAN STUDIES
1810:401 GENERAL SEMINAR IN AFRO-AMERICAN STUDIES 3 credits
Prerequisite: 3400:220 or permission. The exploration and intensive examination of a variety of issues related to role and minority group relations which normally stand outside the compass of any one subject matter area.

1830: ENVIRONMENTAL STUDIES
1830:201 MAN AND THE ENVIRONMENT 2 credits
A study of man's relationship with nature, his dependence upon his environment, and his control over it. An interdisciplinary approach, with lectures from various University departments, government, and industry describing their approaches to the environment. This course will not apply toward the major.

1830:401. SEMINAR IN ENVIRONMENTAL STUDIES 2 credits
The Seminar will cover a specific environmental topic or topics from an interdisciplinary viewpoint each quarter. The topics selected will be of current interest and will be studied from varying viewpoints. The Environmental Studies Director will coordinate the course and resource persons will be drawn from the University and the surrounding community.

1860: PEACE STUDIES
1860:300 TOPICS IN PEACE STUDIES 1-3 credits
Interdisciplinary topics related to peace studies. May be repeated to a total of 3 credits.

1860:301 VALUE CONCEPTS ON PEACE AND WAR 3 credits
An interdisciplinary study of attitudes, concepts, and realities regarding war and peace issues.

1860:350 INDEPENDENT STUDY 1-3 credits
Detailed study on selected topics related to peace. May be repeated for a total of 3 credits.

1870: HONORS PROGRAM
1870:250-255-450 HONORS COLLOQUIUM — HUMANITIES 2 credits each
Prerequisites: Admission to University Honors Program. An interdisciplinary colloquium on important issues in the Humanities.

1870:260-265-460 HONORS COLLOQUIUM—SOCIAL SCIENCES 2 credits each
Prerequisite: Admission to University Honors Program. An interdisciplinary colloquium on important issues in the Social Sciences.

1870:270-275-470 HONORS COLLOQUIUM—NATURAL SCIENCES 2 credits each
Prerequisite: Admission to University Honors Program. An interdisciplinary colloquium on important issues in the Natural Sciences.

1880: MEDICAL STUDIES
1880:201 MEDICAL SEMINAR AND PRACTICUM I 3 credits
Prerequisite: 3100:191 and permission. Description: Provides field experiences in health care delivery in the geographic area served by the Northeastern Ohio Universities College of Medicine, and The University of Akron. Students are directed in supervised roles of the professional and paraprofessional in meeting the health care needs of the community. Open to first year students in the Phase I of the BS/MD program, others by permission.

1880:301 MEDICAL SEMINAR AND PRACTICUM II 3 credits
Prerequisite: 201 and permission. Description: A continuation of course 201 and offered at a more advanced level of professional involvement. Open to second year students in the Phase I of the BS/MD program, others by permission.

1880:310 SEMINAR ON HUMANITIES IN MEDICAL EDUCATION 3 credits
Prerequisite: Junior standing in the BS/MD program; other students involved in health care delivery programs eligible by permission. An introduction to the Humanities as they bear upon the history and practice of medicine. The Seminar will draw upon lectures from the University and community, and will include performances, field trips, films and tapes appropriate to the topics discussed.
The Community and Technical College

2020: ASSOCIATE STUDIES

2020:121 ENGLISH 4 credits
Employs various techniques, including art, films, personal journals, and critical reading, leading from pre-writing to development of structured expository essays.

2020:131 MATHEMATICAL ANALYSIS I 4 credits
Prerequisite: Two units of high school mathematics. Fundamental algebraic concepts, ratio, proportion and variation, graphing equations, right triangle trigonometry, linear systems, factoring and algebraic fractions, quadratic equations, trigonometric functions, oblique triangles.

2020:132 MATHEMATICS ANALYSIS II 3 credits
Prerequisite: 131 or equivalent. Exponents and radicals, exponential equations, logarithms, vectors, graphs of trigonometric formulas and identities, complex numbers.

2020:135 MATHEMATICS FOR DATA PROCESSING 3 credits
Prerequisite: 131 or equivalent. Sets and logic, basic probability and statistics, matrix algebra, and business applications.

2020:222 TECHNICAL REPORT WRITING 3 credits
Prerequisite: 121 or equivalent. Prepares the student to write the types of reports most often required of engineers, scientists, and technicians. Contents include types of reports memoranda, letters, techniques of research, documentation, and writing of reports.

2020:233 MATHEMATICAL ANALYSIS III 3 credits
Prerequisite: 132. Analytic geometry of the conics, introduction to differentiation, the derivative, application of the derivative, integration, differentiation and integration of transcendental functions.

2020:240 HUMAN RELATIONS 3 credits
An examination of the principles and methods which aid in understanding the individual’s response to his society and the relationship between society and the individual.

2020:241 MAN AND TECHNOLOGY 2 credits
An examination of this impact of scientific and technical change upon man, his values and his institution arrangements. Topics include biomedical technology, automation, economic growth, the natural environment, and Technology and the quality of life.

2020:242 AMERICAN URBAN SOCIETY 3 credits
This course is a multi-disciplinary treatment of urban processes and problems. It concerns itself with the historical, political, social, economic and other environmental forces which impact upon the individual in an urban setting.

2020:247 SURVEY OF BASIC ECONOMICS 3 credits
An introduction to economic analysis and issues designed for those students taking only one course in economics. Coverage includes: economic systems, exchange, money and banking, national income, employment, fiscal policy, and current domestic economic problems.

2020:251 WORK RELATIONSHIPS 2 credits
An examination of the relationship between man and the work organization. Emphasis is upon involvement, sense of job satisfaction, supervision, and goals of the organization.

2020:254 THE BLACK AMERICAN 2 credits
An examination of Black American, including origins, historical achievements and the present striving to achieve first class citizenship in American society. Emphasis is placed on analysis of the forces in American society that create racial separation.

2020:250 SPECIAL TOPICS IN ASSOCIATE STUDIES 1-4 credits
(May be repeated with a change in topic.) Prerequisite: Permission. Selected topics on subject areas of interest in Associate Studies.

2020:334 MATH FOR TECHNICAL APPLICATIONS 3 credits
Prerequisite: 222. Applications of integration, methods of integration, series (including Fourier), numerical methods of approximation, introduction to differential equations, second order differential equations, Laplace transforms.

2200: EDUCATIONAL TECHNOLOGY

2200:201 CATALOGING, CLASSIFYING AND PROCESSING MATERIALS 3 credits
Study of the principles of descriptive cataloging, the Dewey decimal, Library of Congress classifications and subject headings. Problems and practice in each area such as typing catalog cards and filing.

2200:202 ORGANIZING AND OPERATING LIBRARY/MEDIA CENTERS 3 credits
Includes functional aspects of facility, ordering and processing materials, circulation procedures and other control systems. The operational functions include program development and implementation, services of library/media centers and public relations.

2200:203 MATERIALS SELECTION 2 credits
Introduction to tools used in selecting print and non-print materials for libraries/media centers. Problems of censorship, intellectual freedom and academic freedom are discussed as they relate to the evaluation selection process.

2200:204 REFERENCE PROCEDURES 3 credits
Introduction to the study and use of basic information tools including almanacs, encyclopedias, dictionaries, bibliographies, yearbooks and specialized reference tools. Actual reference practices and procedure will be used.

2200:250 SPECIAL TOPICS IN EDUCATIONAL TECHNOLOGY 1-2 credits
(May be repeated for a total of 4 credits.) Prerequisite: Permission. Selected topics or subject areas of interest in Educational Technology.

2220: CRIMINAL JUSTICE TECHNOLOGY

2220:100 INTRODUCTION TO CRIMINAL JUSTICE 3 credits
An overview of the Criminal Justice system its history, development and evolution within the U.S. Subsystems: Police, Courts, Corrections-constitutional limitations. Current Criminal Justice practices i.e. human relations, professionalization, prevention, etc.
2220:104 CONCEPTS OF CRIMINAL LAW AND LEGAL PROCEDURE 5 credits
Prerequisite: 100. Historical development and philosophy of law, including definitions, constitutional provisions and classifications of crime-case law, legal research. Types of evidence, Court procedures and Ohio Criminal Code.

2220:106 JUVENILE JUSTICE PROCESS 2 credits
Prerequisite: 100. An examination of the Juvenile Justice process, functions of the various components: adolescent subculture, delinquency prevention and treatment methodologies.

2220:110 SOCIAL VALUES AND THE CRIMINAL JUSTICE PROCESS 3 credits
Prerequisites: 100. An in-depth exploration stressing the philosophy that social values and ethics are basic principles of a sound criminal justice process and the roles of administration of justice practitioners in relation to the public they serve.

2220:150 CRIMINAL JUSTICE ADMINISTRATION AND SUPERVISION 3 credits
Prerequisites: 100, 150. An in-depth examination of Criminal Justice administrative problems in the areas of Personnel Selection, Training, Advancement, Personnel Utilization, Consolidation and cooperation between agencies. Advanced concepts for change within the Criminal Justice system.

2220:200 CRIMINAL JUSTICE THEORY AND PRACTICE 3 credits
Prerequisites: 100, 150. An in-depth examination of Criminal Justice administrative problems in the areas of Personnel Selection, Training, Advancement, Personnel Utilization, Consolidation and cooperation between agencies. Advanced concepts for change within the Criminal Justice system.

2220:210 JUVENILE JUSTICE INTERNSHIP EVALUATION 1 credit
Prerequisites: 100, 30 semester hours of credit, and permission. Corequisite: 295. An analysis by the student and the instructor of internship experience. A sharing of knowledge gained by students during their internships.

2220:295 CRIMINAL JUSTICE INTERNSHIP 3 credits
Prerequisite: 100 and 30 semester hours of credit, permission. A supervised work experience in a criminal justice agency for the purpose of increasing student understanding of the criminal justice process.

2230: FIRE SCIENCE TECHNOLOGY

2230:100 INTRODUCTION TO FIRE SCIENCE 2 credits
History and philosophy of fire protection; introduction to agencies involved in fire protection; current legislative developments; discussion of current related problems, expanding future of fire protection and career orientation.

2230:102 FIRE PREVENTION AND BUILDING CONSTRUCTION 2 credits
Exploration of building construction and design with emphasis on fire protection concerns; review of related statutory and suggested guidelines; local, state and national in scope.

2230:104 FIRE INVESTIGATION METHODS 2 credits
The history of fire investigation; gathering of evidence and development of technical reports; fundamentals of arson investigation; processing of criminal evidence and procedures related to local and state statutes.

2230:200 FIRE DETECTION AND SUPPRESSION SYSTEMS 2 credits
Study of protection systems: automatic sprinklers and special extinguishing systems; analysis of various automatic detection and signaling systems.

2230:202 FIRE-FIGHTING TACTICS AND STRATEGY 2 credits
Efficient and effective utilization of manpower, equipment and apparatus. Emphasis on preplanning, fireground organization problem solving related to fireground decision making and attack tactics and strategy.

2230:204 FIRE PREVENTION PRACTICES 2 credits
Study of fire prevention bureau: recognition and correction of fire hazards, public relations and code enforcement.

2230:240 FIRE DEPARTMENT ADMINISTRATION AND SUPERVISION 2 credits
A study of methods and principles of fire department organization, both formal and informal: line and staff; emphasis on supervisory responsibilities and functions.

2230:250 HAZARDOUS MATERIALS 2 credits
Study of chemical characteristics and reactions related to storage, transportation and handling of hazardous materials; emphasis on emergency situations, fire fighting, and control.

2230:252 FIRE HYDRAULICS AND EQUIPMENT 2 credits
Basic hydraulics as used in fire service.

2230:254 LEGAL ASPECTS OF FIRE PROTECTION 2 credits
A study of legal rights and duties, liabilities, responsibility of the fire department organizations while carrying out their duties.

2230:256 FIRE SAFETY CODES (OSHA) 2 credits
A history and development of codes with emphasis on the nature and scope of legal statutes and related codes in fire protection control.

2230:290 SPECIAL TOPICS IN FIRE SCIENCE TECHNOLOGY 1-2 credits
2240: COMMERCIAL ART

2240:124 DESIGN IN COMMERCIAL ART 3 credits
Projects in visual design fundamentals. An analysis of the design/research process applied to advertising layout and composition. Design constructions in pattern and self-contained forms.

2240:140 TYPOGRAPHY & LETTERING 3 credits
Prerequisite: 124. Letter symbols studied in terms of communication and aesthetic design. History of letter forms, type indication, cospfitting and type specification for commercial application. Analysis of contemporary type faces.

2240:222 ADVERTISING PHOTOGRAPHY 2 credits
Prerequisite: 7100:275. Creative commercial use of photographic materials and equipment. Photography is studied for its use in advertising and creative photography. Student must own or have use of a camera with controllable shutter, lens diaphragm and focus.

2240:242 ADVERTISING LAYOUT DESIGN 3 credits
Prerequisite: 140. Problems in commercial graphic design, analysis, research, visual experimentation and finished art. Emphasis on visual problem solving in advertising and communications.

2240:243 PUBLICATION DESIGN 3 credits
Prerequisites: 242 & 7100:275. The study of publications, and the design of promotional brochures, annual reports, and other multi-paged communication devices. Emphasis on total design systems from concept to camera ready art. Portfolio development.

2240:245 DESIGNING FOR PRODUCTION 3 credits
Prerequisite: 140. An analysis of the design process as applied to commercial printing processes. Design projects are taken to camera ready art. Color separation systems, key-line, mechanicals, and preparation of finished art procedures.

2240:247 PACKAGING DESIGN 3 credits
Prerequisites: 242 & 245. Visual design and development of protective devices for packaging, shipment and display of consumer products. Analysis of products marketing potential and point of purchase advertising.

2240:290 SPECIAL TOPICS IN COMMERCIAL ART 1-2 credits
Prerequisite: Instructor's Approval. Selected topics or subject areas of interest in Commercial Art.

2260: COMMUNITY SERVICES TECHNOLOGY

2260:260 ALCOHOL USE AND ABUSE 3 credits
A survey of the use and abuse of alcohol in our society with particular emphasis on replacing common stereotypes, myths and attitudes with improved understanding.

2260:261 ALCOHOLISM RESOURCES 2 credits
Prerequisites: 260. Survey of theory and practices in the treatment and prevention of alcohol problems with special emphasis on being able to discriminate as to applicability and effectiveness of different approaches.

2260:278 TECHNIQUES OF COMMUNITY WORK 4 credits
For those intending to work at community organization and outreach assignments in inner city and other poverty areas in the United States and for others desiring an understanding of these newly developing technical community service roles.

2260:279 TECHNICAL EXPERIENCE IN COMMUNITY AND SOCIAL SERVICES 2-4 credits
Prerequisites: 278 or permission. Individual placement in selected community and social service agencies for educationally supervised experience in a community and social services technician position. Does not substitute for 3860:476 or 477.

2260:290 SPECIAL TOPICS IN COMMUNITY SERVICES TECHNOLOGY 1-3 credits
Prerequisites: Permission. Selected topics or subject areas of interest in Community Services Technology.

2260: FOOD SERVICE MANAGEMENT

2280:121 FUNDAMENTALS OF FOOD PREPARATION 4 credits
To develop skills and a working knowledge of food preparation in a laboratory situation. Also involves merchandising and evaluation of food products and instills positive attitudes in Food Sanitation.

2280:135 FOOD PURCHASING 3 credits
Food Purchasing for various types of food services: storing and handling. Emphasis on specification requirements and selection for major foods purchased for food services.

2280:233 QUANTITY FOOD SERVICE 4 credits
An introduction to large quantity food service procedures with emphasis on sound principles of food handling and sanitation in large quantity operations. Gourmet meals are served in a simulated restaurant atmosphere.

2280:236 MENU PLANNING & COST CONTROLS 3 credits
Menu planning for various types of commercial, industrial, school, and institutional food services: basic factors influencing planning, merchandising techniques. Special emphasis on catering and vending services. Food cost control.

2280:237 FOOD SERVICE INTERNSHIP 2 credits
A continuation of 233. Food Service experience under commercial operating conditions.

2280:240 FOOD SERVICE MANAGEMENT 3 credits
Introduction to management principles pertinent to the organization and administration of food service systems. Supervisory development, personnel selection and training, labor relations, cost control structures, and evaluation of current procedures.

2280:245 FOOD EQUIPMENT & PLANT OPERATIONS 3 credits
A course to acquaint the student with available food service equipment, its selection, use and care. Field trips will be taken to wholesale outlets and food service establishments to see food service equipment demonstrated and in operation.

2280:290 SPECIAL TOPICS IN FOOD SERVICE MANAGEMENT 1-2 credits
(May be repeated for a total of 4 credits) Prerequisite: Permission. Selected topics or subject areas of interest in Food Service Management.
2420: BUSINESS MANAGEMENT TECHNOLOGY

2420:101 ELEMENTS OF DISTRIBUTION 2 credits
Principles and methods in distribution. Functions, institutions and general commodities in the marketing process. Overview of agricultural, consumer, and industrial goods distribution including brand, product and channels of distribution policies.

2420:102 PERSONNEL PRACTICES 3 credits
Provides information necessary to develop policies and programs that attract, retain and motivate employees. Includes: Staffing, Human Resources Development, Compensation Plans, Labor and Management Relations, Appraisal Systems and Career Planning.

2420:103 THE ROLE OF SUPERVISION IN MANAGEMENT 3 credits
Presentation of basic management techniques: motivation, planning, organizing, leading, and controlling. Elements of group behavior, communication, and employee compensation.

2420:104 INTRODUCTION TO BUSINESS 3 credits
Survey course of business in its entirety including production, distribution, finance, control, and personnel functions. Emphasis on descriptive materials, technical vocabulary, and career opportunities and responsibilities in various business fields.

2420:105 REAL ESTATE PRINCIPLES 2 credits
Introduction to real estate as a profession, process, product and the measurement of its productivity. Students are responsible for reading and discussions relative to real estate and the American system.

2420:111 PUBLIC RELATIONS 2 credits
The study of philosophy, techniques, and ethics of the management function known as public relations. Defines the variety of publics and the methods of communication.

2420:115 ELEMENTS OF HOUSING DESIGN AND CONSTRUCTION 2 credits
Prerequisites: 105, 185. Included are discussions and readings on neighborhoods and sites, details of the interior and exterior of homes, mechanical systems and house construction which help the professional discharge his agency responsibilities.

2420:121 ADMINISTRATIVE OFFICE SUPERVISION 2 credits
Aids the student in developing supervisory leadership skills and includes the basic concepts of the function of office work, management of information, control of office services, and work simplification.

2420:125 ELEMENTS OF LAND AND REAL ESTATE DEVELOPMENT 2 credits
Prerequisites: 105, 185. A course that requires the student to learn and apply the step-by-step processes that are needed by the professional developer in producing real estate for consumption.

2420:170 BUSINESS MATHEMATICS 2 credits
Review of fundamentals of math applicable to business, interest and discount, stocks and bond yields, payrolls, elementary statistics, retail math, consumer math, checking accounts reconciliations, and depreciation methods.

2420:180 ESSENTIALS OF LAW 3 credits
A brief history of the law and the judicial system, study of contracts with emphasis on sales, agency, commercial paper and bailments.

2420:185 REAL ESTATE LAW 2 credits
Prerequisite: 105. A study of the contents of contemporary real estate law. Students are responsible for readings covering units on estates, property rights, license laws, contracts, deeds, mortgages, civil rights and zoning.

2420:205 INTRODUCTION TO REAL ESTATE MANAGEMENT 3 credits
Prerequisites: 105, 185. A survey course focusing upon the application of the management process to the specialized field and product of real estate. Discussion and research topics include property analysis marketing and administration.

2420:211 BASIC ACCOUNTING I 4 credits
Accounting for sole proprietorships and partnerships. Service and merchandising concerns. Journals, ledgers, work sheets and financial statements. Includes handling of cash, accounts receivable, notes, inventories, plant and equipment, and payroll.

2420:212 BASIC ACCOUNTING II 2 credits
Prerequisite: 211. Study of accounting principles as applied to the corporate form of business and a study of manufacturing accounting for job order and process costing, budgeting, and standard costs.

2420:215 ESSENTIALS OF REAL ESTATE ECONOMICS 2 credits
Prerequisites: 105, 185. The student will learn and apply the techniques of analysis found in economics to the local real estate market and to parcels of real estate found within the market.

2420:225 INDUSTRIAL REAL ESTATE 2 credits
Prerequisites: 105, 185. An elements course focusing on the functions of the industrial real estate broker. Topics of discussion and research include site selection, development, marketing and financing the transfer of industrial property.

2420:235 COMMERCIAL REAL ESTATE 2 credits
Prerequisites: 105, 185. An elements course focusing on the functions of the commercial real estate broker. Topics of discussion and research include site selection, development, marketing and financing the transfer of commercial paper.

2420:243 SURVEY IN FINANCE 3 credits
Prerequisites: three credits of Economics and three credits of Accounting. A survey of the field including instruments, procedures, practices and institutions. Emphasis on basic principles.

2420:245 REAL ESTATE FINANCE 2 credits
Prerequisites: 105, 185. A study of the contents of contemporary real estate finance. Units on reading and discussion include mortgage instruments, financial institutions, the mortgage market, governmental influence on finance and risk analysis and mortgage lending.

2420:255 VALUATION OF RESIDENTIAL PROPERTY 2 credits
Prerequisites: 105, 185. A study of methods used to estimate value in residential property including the cost of reproduction, market data, and income approach. The student prepares an appraisal on a residential property.

2420:265 REAL ESTATE BROKERAGE 2 credits
Prerequisites: 105, 185. A study of the application of
the management functions of planning, organizing, directing, controlling, and staffing to the real estate brokerage office. Student activities include reading, discussion and research.

2420:275 SPECIAL PROJECT IN REAL ESTATE 2 credits
Prerequisites: 105, 185. The student must demonstrate his knowledge of real estate by preparing a written report covering the brokerage process as it relates to a parcel of property.

2420:285 APPLIED REAL ESTATE MATHEMATICS 2 credits
Prerequisites: 105, 185. The student will learn and apply the mathematics necessary to the profession of calculations. Appraising math, mortgage math and closing statements.

2420:290 SPECIAL TOPICS IN BUSINESS MANAGEMENT TECHNOLOGY 1-2 credits
(may be repeated for a total of 4 credits)
Prerequisite: Permission. Selected topics or subject areas of interest in Business Management Technology.

2440: DATA PROCESSING

2440:120 INTRO. TO INFO. PROCESSING 2 credits
This course is designed to give a general overview of data processing techniques, and provide the fundamentals necessary for subsequent computer oriented courses.

2440:131 INTRODUCTION TO PROGRAMMING 2 credits
Prerequisite: 120. This course is designed to illustrate the basic function of a computer and provide specific information about third generation computers, including programming in actual and assembly language.*

2440:132 ASSEMBLER PROGRAMMING AND JCL 4 credits
Prerequisite: 131. This course involves an indepth coverage of basic assembler language including linkage conventions and macro construction. The fixed-point and decimal instruction set are included.*

2440:133 COBOL PROGRAMMING 2 credits
Prerequisite: 131. This course is an introduction to COBOL with specific orientation toward the IBM system/370.*

2440:234 ADVANCED COBOL PROGRAMMING 2 credits
Prerequisite: 133. This course is a continuation of COBOL Programming including detailed applications in areas such as payroll and inventory. Disk concepts will be emphasized.*

*Student programming included.

2440:235 CURRENT PROGRAMMING TOPICS 2 credits
Prerequisites: 234. This course emphasizes topics which are varied to fit the needs of the students at the time. Such topics as APL programming, Teleprocessing and PL/I programming may be included.*

2440:239 RPG II PROGRAMMING 1 credit
Prerequisite: 233. Study of Report Program Generator II (RPG II) programming. Includes training in RPG II coding and logical debugging as well as a discussion of applications which lend themselves to the use of RPG II.*

2440:241 DATA PROCESSING SYSTEMS 3 credits
Prerequisite: 132. This course is designed to cover all phases of business systems analysis, design, development and implementation. Such principles as system and program flowcharting, and file and document design are emphasized.

2440:251 DATA PROCESSING PROJECTS 5 credits
Prerequisite: 131. This course provides a workshop for an accomplished student to thoroughly apply what he has learned. Projects involve systems design and implementation using COBOL.*

2440:290 SPEC. TOPICS: DATA PROCESSING 1-3 credits
Prerequisite: permission. Seminar in topics of current interest in Data Processing or special individual student projects in Data Processing.

*Student programming included.

2520: SALES AND MERCHANDISING

2520:103 PRINCIPLES OF ADVERTISING 3 credits
A review of the basic principles and functions of current advertising practice. Also included is an overview of related distributive institutions, media types, and economic functions of advertising.

2520:104 VISUAL MERCHANDISING 2 credits
A basic studio course in retail display techniques. Includes window, interior, and point-of-purchase display categories.

2520:105 SALES PROMOTION 3 credits
Prerequisites: 104. Principles of design as applied to commercial art. Function in visual design, elements of design, color theory, lettering, printing processes, layout to camera-ready art. No credit toward Commercial Art major.

2520:201 PRINCIPLES OF WHOLESALING 2 credits
An examination of the wholesaler and the wholesaling function. Attention is given to the buying process and the relationship of the ultimate consumer to the wholesaler.

2520:202 RETAILING FUNDAMENTALS 4 credits
Provides basic principles and practices of retailing operations, including site selection, buying, pricing, and promotion practices. Use is made of extensive projects, and investigations and actual retail operations.

2520:210 CONSUMER SERVICE FUNDAMENTALS 2 credits
Prerequisite: 101. A discussion of the problems facing business today created by the social issues in our society. Emphasis is placed on understanding the viewpoints of all groups involved.

2520:211 MATHEMATICS OF RETAIL DISTRIBUTION 3 credits
Prerequisite: 170. A basic skills course dealing with merchandising mathematics. This includes an understanding of the types of markups, the retail method of inventory, sales and stock planning, and open-to-buy computations.

2520:212 PRINCIPLES OF SALESMANSHIP 4 credits
A study of the basic principles of selling, emphasizing individual demonstrations and sales projects. Includes a review of the sales function as an integral part of the marketing process.

2520:290 SPECIAL TOPICS IN SALES AND MERCHANDISING 1-2 credits
(May be repeated for a total of 4 credits.)
Prerequisite: Permission. Selected topics or subject areas of interest in Sales and Merchandising.
2540: SECRETARIAL SCIENCE

2540:119 BUSINESS ENGLISH 3 credits
Fundamentals of the English language with emphasis on grammatical correctness, acceptable usage, spelling, and punctuation. Limited writing primarily involves choice of precise words and effective sentence structure with some attention to paragraph development.

2540:121 OFFICE PROBLEMS 3 credits
Introduction to concepts regarding role of the office worker, human relations, communications, productivity, reference materials, technological advances in processing information, and employment opportunities.

2540:125 BUSINESS MACHINICES 2 credits
Basic operations of 10-key electronic calculators. Applied business problems in depreciation, retailing, payroll, interest, taxes, metrics, proration, expense reports, percentages, inventories, and basic statistics.

2540:150 BEGINNING TYPEWRITING 3 credits
(2 hours laboratory required)
For beginning students or those who desire a review of fundamentals. Includes basic keyboard, letters, tables, and manuscripts. Minimum requirement: 30 wpm with a maximum of 5 errors for 3 minutes.

2540:151 INTERMEDIATE TYPEWRITING 3 credits
Prerequisites: 150 or equivalent. For further development of typing skill. Includes advanced letter styles, forms, reports, and shortcuts. Minimum requirement: 40 wpm with a maximum of 5 errors for 5 minutes.

2540:171 SHORTHAND PRINCIPLES 4 credits
Gregg shorthand theory is taught. Minimum attainment: reading from notes at 110 wpm and taking dictation from new material at 50 wpm for 3 minutes. Credit not allowed if taken after 172.

2540:172 SHORTHAND REFRESHER & TRANSCRIPTION 4 credits
An accelerated review of Gregg shorthand theory. Minimum attainments: reading from notes at 110 wpm and taking dictation from new material at 60 wpm for 5 minutes. Credit allowed if taken after 2540-171.

2540:173 SHORTHAND AND TRANSCRIPTION 3 credits
Prerequisite: 171 or equivalent. Typewriting prerequisite or corequisite: 151 or equivalent. Emphasis on developing skill in taking shorthand dictation and transcribing at typewriter. Minimum speed attainment of 70 wpm for 5 minutes on new material required.

2540:241 INFORMATION MANAGEMENT 3 credits
Prerequisite: 150 or equivalent. (two-hour lab required.) A study of the creation, classification, encoding, transmission, storage, retention, transfer, and disposition of information. Emphasis on written, oral, and machine language communication media used in business information systems.

2540:253 ADVANCED TYPEWRITING 3 credits
Prerequisites: 151 or equivalent. To increase students' ability to do office-style production typewriting with minimal supervision. Minimum requirement: 55 wpm with a maximum of 5 errors for 5 minutes.

2540:254 LEGAL TYPEWRITING 2 credits
Prerequisite: 151. A course to develop skill in typing of legal documents and printed legal forms from rough draft materials as well as from straight-copy material.

2540:257 SECRETARIAL MACHINES 3 credits
Prerequisites: 253. (2-hour lab required.) Demonstration and laboratory practice in machines used to process data in the modern office, including machines used in transcription, duplicating, automated typing, and statistical typing.

2540:263 BUSINESS COMMUNICATIONS 3 credits
Prerequisites: 119 or 2020:120 or equivalent. Business writing with emphasis on communicating in typical business situations and expressing ideas effectively to achieve specific purposes. Includes business letters, memos, application letters, reports, and a business report.

2540:274 ADVANCED DICTATION AND TRANSCRIPTION 4 credits
Prerequisite: 274. A course to develop shorthand and transcription skill of legal correspondence, basic pleadings, legal papers, reports and rules of practice. Minimum speed attainment: 90 wpm for 5 minutes.

2540:276 EXECUTIVE DICTATION & TRANSCRIPTION 4 credits
Prerequisite: 274. Final shorthand course in Executive Secretarial program. Development of skills to level of employability in the business office. Emphasis on vocabulary building in specialized areas of modern business and technology. Speed range 100-140 wpm.

2540:277 LEGAL DICTATION & TRANSCRIPTION 4 credits
Prerequisite: 274. A course to develop shorthand and transcription skill of legal correspondence, basic pleadings, legal papers, reports and rules of practice. Minimum speed attainment: 100 wpm.

2540:279 LEGAL OFFICE PROCEDURES 3 credits
Prerequisite or corequisite: 277 or equivalent. Introduction of the most common legal situations students will face on the job. Simulated office situations with cassette material, work papers, and projects in noncourt and court documents and actions.

2540:280 SPECIAL TOPICS IN SECRETARIAL SCIENCE 1-2 credits
Prerequisite: Permission (may be repeated for a total of 4 credits). Selected topics or subject areas of interest in Secretarial Science.

2560: TRANSPORTATION

2560:110 TRANSPORTATION ECONOMIC POLICY 3 credits
Analysis of the role of transportation in the nation's economic development. A survey course of the early development of the economical aspects of rail, highway, water, air and pipeline.

2560:115 TRANSPORTATION: COMMERCIAL MOTOR 3 credits
A study of the economic characteristics of the commercial motor industry with emphasis on the problems, practices, rates, regulations, fares, tariffs, operations, equipment and financial aspects.

2560:116 TRANSPORTATION: COMMERCIAL AIR 2 credits
An analysis of the economic characteristics of the commercial air industry. A study of its problems, practices, regulations, rates, fares, tariffs, and their services.

2560:117 TRANSPORTATION: COMMERCIAL WATER
2 credits
Analysis of theories, practices and regulations of the inland and ocean-going water transportation including classification, rates, practices and tariffs.

2560:118 TRANSPORTATION: FREIGHT RATES
3 credits
Analysis of freight rates, tariffs and classifications with particular attention to their application in the motor transport field and an extensive study through progressive problem solving.

2560:220 TRANSPORTATION: TERMINAL MANAGEMENT & SAFETY OPERATIONS
2 credits
Study of the management problems, practices and decision-making as pertains to location of facilities, personnel programs, operations, organization and control. Attention directed to the safety aspects of transportation operations.

2560:221 TRANSPORTATION TRAFFIC PRINCIPLES AND PRACTICES
3 credits
Principles and practices applicable to industrial traffic management and factors affecting transportation decisions. Operations, services, warehousing, privileges and documentation are some of the items to be analyzed.

2560:225 TRANSPORTATION INTERSTATE REGULATION I
3 credits
A thorough review of the Interstate Commerce Commission; Interstate Commerce Act; their functions with emphasis on their application to each mode of transportation.

2560:226 TRANSPORTATION INTERSTATE REGULATION II
3 credits
Prerequisite: 225. A continuing analysis of Interstate Commerce Commission regulations, related acts, and practitioner procedure. State regulations, case studies and transportation code of ethics will be included.

2560:290 SPECIAL TOPICS IN TRANSPORTATION
1-2 credits
(May be repeated for a total of 4 credits) Prerequisite: Permission. Selected topics or subject areas of interest in Transportation.

2740: MEDICAL ASSISTING

2740:120 MEDICAL TERMINOLOGY
3 credits
Prerequisites: 3100:147 and 148; 2840:101. This course is designed for the novice entering the medical assisting field. Emphasis on vocabulary and medical terms: prefixes, stems, suffixes, combining forms, abbreviations, pronunciation, spelling and application of these terms.

2740:130 OFFICE NURSING TECHNIQUES I
2 credits
Prerequisites: 3100:147 and 148; 2840:101, 283. This course provides theory and practice in nursing duties most often performed in a physician's office: vital signs, examinations, procedures, care of instruments and methods of sterilization; orientation to disease.

2740:231 OFFICE NURSING TECHNIQUES II
2 credits
Prerequisites: 130. This course deals with laboratory techniques; orientation to urinalysis, hematology, roentgen rays, electrocardiograms, dentology terms; principles of medication, the metric system and the administration of injections.

2740:232 OFFICE NURSING TECHNIQUES III
2 credits
Prerequisite: 231. Theory and practice in taking vital signs, giving parenteral injections, and orientation to pharmacology and the metric system.

2740:240 MEDICAL MACHINE TRANSCRIPTIONS
2 credits
Prerequisites: 3100:147 and 148; 2840:101, 283, 284, 285, & 257. This course is designed to correlate the medical terminology with the secretarial skills and includes practice in the various machines used in dictation and transcription found in the medical office.

2740:250 MEDICAL ASSISTING
3 credits
Prerequisites: 231, graduate of the program, or special permission. Provides student with more precise knowledge in the field of medical specialties.

2740:290 SPECIAL TOPICS: MEDICAL ASSISTING
1-2 credits
Prerequisite: permission. Selected topics or workshops of interest in Medical Assisting Technology.

2770: SURGICAL ASSISTING

2770:100 INTRODUCTION TO SURGICAL ASSISTING TECHNOLOGY
4 credits
Prerequisite: admission to the program. Study of basic principles which underlie patient care in the operating room. Role of operating room technician and legal and ethical responsibilities are defined.

2770:121 SURGICAL ASSISTING PROCEDURES I
4 credits
Prerequisite: 100. Didactic and laboratory practice in principles and practices of surgical asepsis, the surgical patient, surgical procedures, care and maintenance of equipment and materials, immediate post-operative responsibilities, and emergency situations in the operating room.

2770:131 CLINICAL APPLICATION I
3 credits
Prerequisite: permission. Application of learned skills in the care of patients in the operating room of an affiliated hospital.

2770:232 SURGICAL ASSISTING PROCEDURES II
4 credits
Prerequisite: 121. Continuation of course 2770:121.

2770:233 CLINICAL APPLICATION II
3 credits
Prerequisite: 131. Application of learned skills in the care of patients in the operating room of an affiliated hospital.

2770:234 CLINICAL APPLICATION III
3 credits
Prerequisite: 232. Application of learned skills in the care of patients in the operating room of an affiliated hospital.

2770:290 SPECIAL TOPICS: SURGICAL ASSISTING
1-2 credits
Prerequisite: permission. Selected topics or workshops of interest in Surgical Assisting Technology.
2780: ALLIED HEALTH
2780:101 INTRODUCTION TO PHYSICAL THERAPY 2 credits
Prerequisite: History of Physical Therapy and survey of treatment procedures. Role and rationale for the Physical Therapist Assistant. Legal and ethical responsibilities.

2780:161 BASIC PHYSICAL SCIENCE FOR RADIOLOGY TECHNOLOGY I 2 credits
Prerequisite: 201:131 and permission. Description: Introduction to systems of measurement. Matter, force, motion, work, energy, basic electricity and magnetism.

2780:165-166 RADIOGRAPHIC PRINCIPLES, I, II 3 credits, 2 credits
Prerequisite: 161. Description: Sequential. Elementary principles of ionizing radiation and their application in the medical setting. Radiographic accessories and chemical processing of the exposed X-ray film.

2780:261 PHYSICAL SCIENCE FOR RADIOLOGIC TECHNOLOGY I 3 credits
Prerequisite: 161. Description: Fundamentals of electricity and radiation physics. Principles of X-ray equipment and other radiation sources used in the medical setting.

2780:290 SP. TOP.: ALLIED HEALTH 1-3 credits
Prerequisite: Permission.

2790: RESPIRATORY THERAPY
2790:121 INTRODUCTION TO RESPIRATORY THERAPY TECHNOLOGY 3 credits
Prerequisite: Admission to program or permission of instructor. Description: Basic science and laws governing gases as well as appliances to administer & monitor oxygen. Covers equipment used to generate and give aerosol therapy, including I.P.P.B. therapy. Lecture/Lab.

2790:122 PATIENT CARE IN RESPIRATORY THERAPY 3 credits
Prerequisite: 121. Description: Covers basic hospital practices in sterile technique, suctioning, C.P.R., postural drainage, dealing with patient records & sick patients. Lecture/Lab.

2790:123 PULMONARY FUNCTION & VENTILATORS 3 credits
Description: The student will be exposed to basic pulmonary function studies and their interpretation. They will also be introduced to different brands of ventilators and their functions. Lecture/Lab.

2790:131 CLINICAL APPLICATION I 3 credits
Prerequisite: Admission to the program or permission. Description: This course is intended to introduce the student to work in a hospital and provide hands on experience for equipment he will use there. Lab.

2790:132 CLINICAL APPLICATIONS II 2 credits
Prerequisite: Admission to program or permission. Description: This will be the first of several rotations through hospitals. Speciality area of each hospital will be covered at that hospital. Lab.

2790:133 CLINICAL APPLICATIONS III 5 credits
Prerequisite: Admission to program or permission. Description: The semester will be broken into three, five-week rotations, one at each hospital to cover the specialty area for that site. Lab.

2790:134 CLINICAL APPLICATIONS IV 5 credits
Prerequisite: Admission to program or permission. Description: This semester will have three, five-week sessions. The first two will be spent at different clinical sites working on their specialty areas. The last one will give students experience working as technicians and experience working different shifts. Lab.

2790:141 PHARMACOLOGY 2 credits
Prerequisite: Admission to program or permission. Description: This course deals with the drugs which are administered by Respiratory Therapy & their effect & route of action in the body. Lecture.

2790:142 PATHOLOGY FOR RESPIRATORY THERAPY 2 credits
Prerequisite: 201. Description: This discusses the disease processes and diseases of the lung, heart, and kidney and their effect on the field of Respiratory Therapy.

2790:201 ANATOMY AND PHYSIOLOGY OF CARDIOPULMONARY SYSTEMS 3 credits
Prerequisite: Anatomy & Physiology and admission to the program. Description: This unit deals with the normal anatomy & physiology of the heart and lungs. Includes E.K.G.'s and interpretation of arterial blood gases. Laboratory.

2790:223 ADVANCED RESPIRATORY THERAPY 3 credits
Description: This unit covers blood gas analysis, and machines, intubation, drawing arterial gases, problems with artificial airways, pulmonary functions research studies, and radio-active pulmonary function studies. Lecture/Lab.

2790:224 PULMONARY REHABILITATION & DEPARTMENT 2 credits
DEPARTMENT 2 credits
Description: This covers the area of pulmonary rehabilitation of the chronic lunges. It also includes the essentials of how to set up your own Respiratory Therapy Department. Lecture.

2840: CHEMICAL TECHNOLOGY
2840:100 BASIC CHEMISTRY 3 credits (2-1)
Elementary treatment of facts and principles of chemistry emphasizing biological application. Elements and compounds important in everyday life, biological processes, and medicine. Introduction to laboratory techniques. Primarily for Medical Assistant, Criminal Justice and Allied Health students. Laboratory.

2840:101 INTRODUCTORY CHEMISTRY 3 credits (2-1)
Facts and theories of general chemistry. Elements and compounds and their uses. Elementary treatment of atomic structure, gaseous state, periodic table, water, solutions. For Chemical Technology and Bachelor of Technology students. Laboratory.

2840:102 INTRODUCTORY AND ANALYTICAL CHEMISTRY 3 credits (2-1)
Prerequisite: 101 or permission. Chemical equilibria, ionization, radioactivity. Properties of selected metals and nonmetals. Introduction to Organic Chemistry. Basic concepts of qualitative analysis. Identifications of cations and anions. Laboratory.

2840:103 CHEMICAL CALCULATIONS 2 credits (2-0)
Prerequisite: Permission. Review of mathematics as applied to problems in introductory chemistry and
other science courses. Topics include unit conversions, percentages, concentrations, pH, gas laws, chemical equilibria, solubility products. Suitable as a refresher course.

2840:121 ORGANIC PRINCIPLES 4 credits (3-1)
Structure, nomenclature and classification of simple organic compounds. Further, their physical and chemical properties, methods of separation, analysis and synthesis. Laboratory.

2840:151 BASIC PHYSICS: MECHANICS 3 credits (2-1)
Corequisite: 200:131. Principles of mechanics. Topics include force and motion, work and energy, properties of fluids and gases, and introduction to atomic physics. Laboratory.

2840:152 BASIC PHYSICS: ELECTRICITY AND MAGNETISM 2 credits (1-1)
Prerequisite: 151 and 200:131. Principles of electricity and magnetism. Topics include electrostatics, basic direct current circuits, magnetism and electromagnetism, alternating currents and basic a-c circuits. Laboratory.

2840:153 BASIC PHYSICS: HEAT, LIGHT AND SOUND 2 credits (1-1)
Prerequisite: 151 and 200:131. Principles of heat, light and sound. Topics include thermal behavior of matter, wave motion, sound waves, light and illumination, reflection and refraction, mirrors and lenses, interference and diffraction. Laboratory.

2840:201 QUANTITATIVE ANALYSIS 4 credits (3-1)
Prerequisite: 102. Theory of quantitative analytical chemistry including gravimetric, volumetric and electrochemical procedures. Laboratory.

2840:202 INSTRUMENTAL METHODS 4 credits (3-1)
Prerequisite: 201 and one year of physics; or permission. Instrumentation employed in qualitative and quantitative analysis. Theory and practice in chromatographic, spectrophotometric and other instrumental methods. Laboratory.

2840:210 SCIENTIFIC GLASS BLOWING 1 credit (0-1)
Laboratory instruction in the art of glass blowing. Fabrication and blowing of scientific glassware and chemical apparatus.

2840:250 ELEMENTS OF PHYSICAL CHEMISTRY 3 credits (2-1)
Prerequisite: 102, 153, 200:132. Physical principles governing behavior of chemical systems, introductory thermodynamics, solution properties, chemical equilibrium, phase rule, chemical kinetics and structure of matter. Laboratory.

2840:255 LITERATURE OF SCIENCE AND TECHNOLOGY 1 credit (1-0)
Prerequisite: Permission. The literature of science and technology as used to gather technical information. Techniques of abstracting and the computer search.

2840:260 COMPOUNDING METHODS 2 credits (1-1)
Prerequisite: 102, 121, or permission. Principles and methods of selecting and compounding rubber for specific end uses. The compounder's art. Processing and testing of basic elastomers and products. Laboratory.

2840:270 NATURAL AND SYNTHETIC ORGANIC POLYMERS 4 credits (3-1)
Prerequisite: 121 or permission. Structure and properties of macromolecules with particular reference to carbohydrates, proteins, nucleic acids, rubber and further, synthetic thermoplastic, thermosetting and elastomeric polymers.

2840:290 SPECIAL TOPICS IN CHEMICAL TECHNOLOGY 1-2 credits
Prerequisite: Permission. (May be repeated for a total of 4 credits.) Selected topics or subject areas of interest in Chemical Technology.

2860: ELECTRONIC TECHNOLOGY

2860:120 DC CIRCUITS 4 credits

2860:122 AC CIRCUITS 3 credits
Prerequisite: 120, Corequisite: 200:132. Sinusoidal voltages and currents, reactance and impedance, methods of AC circuit analysis, AC power, transformers, resonance, polyphase circuits.

2860:123 ELECTRONICS I 4 credits
Prerequisite: 122. Physical theory characteristics, operational parameters and icircuit consideration of solid state electronic devices.

2860:225 ELECTRONICS II 4 credits
Prerequisite: 123. Study of application of active devices. Topics include power amplifiers, heat sinks, transistor interfacing, differential amplifiers, DC power supplies, time delay circuits, feedback circuits, and operational amplifiers.

2860:227 MEASUREMENTS 3 credits
Prerequisite: 225 or 211. Principles and use of electrical and electronic instruments including moving coil instruments, bridges, oscilloscopes and signal generators. Analysis of measurement errors.

2860:237 DIGITAL CIRCUITS I 3 credits
Prerequisites: 123 or 211. An introduction to devices and techniques used in the design of combinational logic circuits. Topics include number systems, binary arithmetic, codes, Boolean algebra, Karnaugh mapping and integrated circuits.

2860:238 DIGITAL CIRCUITS II 3 credits
Prerequisite: 237. A continuation of combinational logic design plus introduction to sequential logic design and the microcomputer. Integrated circuit information is continually presented and is extended into MOS and CMOS devices. A survey of microprocessors is included.

2860:242 MACHINERY AND CONTROLS 3 credits
Prerequisites: 122 and 123 or 211. Principles, characteristics and applications of DC and AC generators and motors. Control circuits for rotating machinery. Principles of industrial electronic devices used in machinery control such as unjunctions, SCR's and Tracs.

2860:251 COMMUNICATIONS CIRCUITS 3 credits

2860:255 ELECTRONIC DESIGN AND CONSTRUCTION 2 credits
**2860:250 ELECTRONIC PROJECT** 2 credits  
Prerequisites: Final semester or permission and 255. Design, construction and test by the student of an electronic circuit of his choice. Progress Reports, oral and written reports are required. Discussion of electronic design and fabrication techniques.

**2860:270 SURVEY OF ELECTRONICS I** 3 credits  

**2860:271 SURVEY OF ELECTRONICS II** 2 credits  
Prerequisite: 210 and Corequisite: 2020:132. Survey of the most commonly used solid state circuit components including typical applications. For non-electronic technology majors.

**2860:290 SPECIAL TOPICS: ELECTRONIC TECHNOLOGY** 1-2 credits  
Prerequisite: Permission.

**2860:350 ADVANCED CIRCUITS** 3 credits  
Prerequisites: 124, 242 and 2020:334. Analysis of linear circuits in frequency and time domain. Loop analysis by matrix methods, Fourier analysis of non-sinusoidal wave forms, LaPlace transformations, Power and power-Factor correction, polyphase systems and mutual inductance.

**2860:351 INDUSTRIAL ELECTRICAL SYSTEMS** 3 credits  
Prerequisites: 350 and 4450:206. Power system single-phase and three-phase analysis, balanced and unbalanced systems, fault calculations, symmetrical components with industrial applications.

**2860:352 DIGITAL SYSTEMS** 3 credits  
Prerequisites: 230 and 350. Detailed study of several digital computing systems including topics in architecture, software, and I/O. Specific systems studied include the PDP-8 minicomputer and the 6100 and 8080 based micro-computers. A survey and comparison of microprocessors is included.

**2860:353 CONTROL SYSTEMS** 3 credits  

**2860:400 DATA ANALYSIS** 3 credits  

**2860:402 INSPECTION TRIPS** 1 credit  
Prerequisite: Senior standing or permission. Guided tours through area industrial plants and technical facilities, with emphasis on their electrical/electronic aspects. Class size limited to 15 students.

**2860:406 COMMUNICATION SYSTEMS** 3 credits  
Prerequisites: 351 and 350. Antennas, transmission lines, matching networks, modulation systems, propagation, noise, radar and microwaves. Problems encountered in communication systems.

**2860:410 TECHNOLOGY PROJECT** 1 credit  
Prerequisite: Senior Standing. A detailed study of a problem selected by the student. Includes problem definition, literature search, comparison of solutions, and formal report.

---

**2880:  INDUSTRIAL TECHNOLOGY**

**2880:100 INTRODUCTION TO MANUFACTURING MANAGEMENT** 2 credits (3-0)  
An introduction to the functions of the major sections of a manufacturing concern. Departmental purposes are identified and sequential relationships are studied. Students introduced to topics pursued in depth in later courses.

**2880:130 WORK MEASUREMENT PROCEDURES I** 2 credits (1-1)  
Prerequisite: 100. This course familiarizes student with procedures for handwork and techniques for choosing the “best method” for accomplishing such tasks.

**2880:141 SAFETY PROCEDURES** 3 credits (3-0)  

**2880:200 MANUFACTURING PROFITABILITY** 3 credits (3-0)  
Prerequisite: 100 & 2420:211. Profit is defined. Cost analysis and control are studied. Control of price and profit within market limitations are discussed.

**2880:210 CONTROLLING AND SCHEDULING PRODUCTION** 2 credits (2-0)  
Prerequisite: 100. The production order is followed from the sales order through requisitioning, plant loading, expediting, scheduling and shipping. Also covers material control and inventory record keeping. Critical path, linear programming, and EDP techniques are discussed.

**2880:231 PLANT LAYOUT** 3 credits (3-0)  
Prerequisite: 100. Solution of the activities for a production facility. Optimum arrangements of the factors of production: manpower, materials, and equipment.

**2880:232 LABOR MANAGEMENT RELATIONS** 3 credits (3-0)  
Prerequisite: 100. Studies of the historical background of the labor movement, management view points, legal framework for modern labor organization, and the collective bargaining process.

**2880:235 WORK MEASUREMENT PROCEDURES II** 2 credits (1-1)  
Prerequisite: 130. Continuation of 130. Work measurement techniques and establishment of production standards for optimization of lowered costs.

**2880:241 QUALITY CONTROL PROCEDURES** 3 credits (1-2)  
Theory and practice of inspection and sampling techniques for measurement of quality. QC charts, sampling plans, mill specs, checking machine capabilities, and setting tolerances.

**2880:290 SPECIAL TOPICS IN INDUSTRIAL TECHNOLOGY** 1-2 credits  
(May be repeated for a total of 4 credits.)  
Prerequisite: Permission. Selected topics or subject areas of interest in Industrial Technology.
2900: INSTRUMENTATION TECHNOLOGY

2900:121 FUNDAMENTALS OF INSTRUMENTATION 4 credits
Prerequisites: 2840:151 and 2860:210. A study of variables encountered in process instrumentation, the indicating and recording devices, and applications of the physical principles effecting measurement and control.

2900:231 CONTROL PRINCIPLES 4 credits

2900:232 PROCESS CONTROL 3 credits
Prerequisite: 231. A study of the analysis and design of process control systems with emphasis on the techniques and instrumentation used in process control. Digital control fundamentals are introduced.

2900:239 PULSE CIRCUIT TESTING 3 credits
Prerequisite: 2860:237. A study of the analysis and design of process control systems with emphasis on the techniques and instrumentation used in process control. Digital control fundamentals are introduced.

2900:240 CALIBRATION AND STANDARDIZATION 1 credit
Prerequisite: 211. A laboratory experience in the calibration and standardization of electrical, electronic, and mechanical systems. Instrument theory, maintenance, trouble-shooting, specifications, performance, and safe working practices are included.

2900:241 INSTRUMENTATION PROJECT 2 credits
Prerequisite: Final semester or permission. Design construction and testing of an approved instrumentation project by an individual student, promoting independent study, initiative, assumption of responsibility, and application of the skills attained in related courses.

2900:290 SPECIAL TOPICS: INSTRUMENTATION TECHNOLOGY 1-2 credits
Prerequisite: Permission.

2920: MECHANICAL TECHNOLOGY

2920:121 TECHNICAL DRAWING I 3 credits (1-2)

2920:122 TECHNICAL DRAWING II 3 credits (1-2)

2920:242 DESIGN MATERIALS 3 credits (2-1)

2920:243 KINEMATICS 3 credits (1-1)
Prerequisites: 122, 2020:132. 2860:125. The study of rigid-body motions of simple linkages, cams, gears, and gear trains. Graphical vector solutions are emphasized. Industrial applications are presented.

2920:244 DYNAMICS 2 credits (1-1)
Prerequisite: Permission.

2920:245 MECHANICAL DESIGN I 5 credits (3-2)

2920:247 SHOP METHODS AND PRACTICES 3 credits (1-2)

2920:249 APPLIED THERMAL ENERGY 2 credits (2-0)

2920:251 FLUID POWER 2 credits (2-0)

2920:252 THERMO-FLUIDS LABORATORY 1 credit (0-1)
Prerequisite: 249. Corequisite: 251. Laboratory experiments in applied thermal energy and fluid power.

2920:258 SPECIAL TOPICS IN MECHANICAL TECHNOLOGY 1-3 credits
(May be repeated for a total of 4 credits.) Prerequisite: Permission. Selected topics or subject areas of interest in Mechanical Technology.

2920:316 ECONOMICS OF TECHNOLOGY 3 credits (3-0)
Prerequisite: 64 credits or permission. Principles economics as they pertain to technology. Equivalence, alternatives, costs, depreciation, valuation. Project studies.

2920:346 MECHANICAL DESIGN II 3 credits (3-0)

2920:347 PRODUCTION MACHINERY & PROCESSES 3 credits (3-0)

2920:348 INTRODUCTION TO NUMERICAL CONTROL 3 credits (3-0)
Prerequisites: 121, 2020:132. Introduction to numerical control (N/C) of the operation of machine tools and other processing machines. Includes programming, types of N/C systems, economic evaluation.

2920:495 INSPECTION TOURS 1 credit (0-1)
Prerequisite: Senior Standing. Trips through area industrial plants and technical facilities.

2980: SURVEYING AND CONSTRUCTION TECHNOLOGY

2980:122 BASIC SURVEYING 3 credits
Basic tools and computations for surveying, measurement, trouble-shooting, specifications, performance, inspection tours.
ments of distance, elevations, and angles, traverse surveys. Field practice.

2980:123 SURVEYING FIELD PRACTICE 2 credits
Prerequisite: 122. Practical experience in the use of surveying equipment and methods of surveying. Provides student with responsibility for making decisions and planning and directing complete project.

2980:125 STATICS 3 credits

2980:133 CONSTRUCTION ADMINISTRATION
2 credits

2980:222 CONSTRUCTION SURVEYING 3 credits
Prerequisite: 122. Methods and procedures for establishing line and grade for construction. Circular, spiral and parabolic curves. Cross-sectioning methods and earth work. Field practice.

2980:224 LAND SURVEYING 3 credits
Prerequisites: 122 or permission. Historical development of boundaries, rectangular system of public land surveys, systems used to describe property, working and interpretation of deed descriptions, surveyor's rights, duties and responsibilities.

2980:225 ADVANCED SURVEYING 2 credits
Prerequisite: 122. Introductory to theory of errors, precise leveling, baseline measurements, triangulation, trilateration, and bearings from celestial observation. Photogrammetry. Field Practice.

2980:226 SUBDIVISION DESIGN 2 credits
Prerequisite: 222; Corerequisite: 224. Site analysis, land use controls and plotting procedures. Laboratory includes the preparation of various types of projects leading to a complete subdivision.

2980:231 BUILDING CONSTRUCTION 2 credits
Materials and types of construction used in heavy construction. Encompasses buildings constructed with heavy timber, steel, concrete or a combination of these materials.

2980:232 CONSTRUCTION 3 credits
Prerequisite: 222 or permission. Planning of construction operations. Construction equipment and selection for typical jobs. Emphasis on heavy construction.

2980:234 ELEMENTS OF STRUCTURES 3 credits

2980:237 MATERIALS TESTING I 2 credits
Laboratory testing of soils with emphasis on the physical properties of soil. Laboratory and field procedures used for quality control. Testing of concrete mixes.

2980:238 MATERIALS TESTING II 2 credits
Corerequisite: 241. Mix design of concrete. Laboratory testing of ferrous and nonferrous metals, woods, and concrete. Experiments demonstrate the physical properties as they relate to design.

2980:241 STRENGTH OF MATERIALS 3 credits
Prerequisite: 125. Stress, strain, and stress-strain relationships. Tension, compression, torsion, beams. Shear and moment diagrams.

2980:245 COST ANALYSIS AND ESTIMATING 3 credits
Quantity surveys in construction. Elements of cost in construction, determination of unit costs, analysis of cost records.

2980:250 STRUCTURAL DRAFTING 2 credits
Prerequisite: 2920:121. Duties of the structural draftsman in the preparation of detailed working drawings for steel, concrete and wood members. Emphasis on the portrayal, dimensions, and notes on a working drawing.

2980:290 SPECIAL TOPICS IN SURVEYING AND CONSTRUCTION TECHNOLOGY 1-2 credits
Prerequisite: Permission. Selected topics or subject areas of interest in surveying and construction technology.
Buchtel College of Arts and Sciences

3100: BIOLOGY

3100:100 NATURE STUDY PLANTS 3 credits
Description: Identication and biology of common plants of this region. Recommended for teachers of nature study. Not available for credit towards a degree in biology. Laboratory.

3100:101 NATURE STUDY ANIMALS 3 credits
Description: Identication and biology of common animals of this region. Recommended for teachers of nature study. Not available for credit towards a degree in biology. Laboratory.

3100:103 INTRODUCTION TO MICROBIOLOGY 3 credits
Description: Basic microbiology; destruction, removal and inhibition of microorganisms; immunity and allergy; common pathogens. Not available for credit toward a degree in biology. Laboratory.

3100:105 ECOLOGY AND BIOLOGICAL RESOURCES 2 credits
Description: Basic principles governing the structure and function of natural ecosystems. Various options for managing natural resources, human populations, biotic communities, and industrial technologies at the global level will be emphasized. Not available for credit toward a major in biology.

3100:106-107 ANATOMY AND PHYSIOLOGY 3 credits each
Description: Sequential structure and function of human body with emphasis on physiological processes. Background of high school chemistry or equivalent strongly recommended. Not open to biology or B.S.M.T. majors. Laboratory.

3100:111 PRINCIPLES OF BIOLOGY 4 credits
Description: The molecular and cellular basis of life; energy transformations and metabolism; nutrient procurement, gas exchange, internal transport, homeostatic mechanisms, and control systems in plants and animals. Laboratory.

3100:112 PRINCIPLES OF BIOLOGY 4 credits
Description: Cell reproduction, genetics, development, evolution, classification, behavior, and ecology of plants and animals. (111-2 constitute an integrated course designed for majors in biology and related fields.) Laboratory.

3100:130 PRINCIPLES OF MICROBIOLOGY 3 credits
Description: Basic principles and terminology of microbiology; cultivation and control of microorganisms; relationships of microorganisms to man and his environment; medical microbiology. Laboratory.

3100:190-191 HEALTH CARE DELIVERY SYSTEMS 1 credit each
Description: Health care principles and practices. Restricted to students in NEOUCOM, 6 year BS/MD program. Graded credit/no credit. Not available toward credit as major in biological sciences.

3100:211 GENERAL GENETICS 3 credits
Prerequisite: 112. Description: Principles of heredity, fundamental principles of genetics.

3100:212 GENETICS LABORATORY 1 credit
Prerequisite or corequisite: 211. Description: Fundamental principles of genetics illustrated by experiments with Drosophila and other organisms.

3100:214 ORGANIC EVOLUTION 3 credits
Prerequisite: 112 or permission. Description: Early Concepts of evolution; Darwinian Theory and supporting evidence; the mechanisms of evolution; molecular evolution; evolutionary trends in plants and animals.

3100:215 ORGANIC EVOLUTION DISCUSSION 1 credit
Corequisite: 214. Description: Informal discussions of various aspects of organic evolution of general or special interest.

3100:217 GENERAL ECOLOGY 3 credits
Prerequisite: 112 or permission. Description: A study of the interrelationships between organisms and environment.

3100:264 ANATOMY & PHYSIOLOGY OF SPEECH AND HEARING 3 credits
Description: A study of the anatomy and physiology of organs directly and indirectly responsible for sound perception and the production of speech. Laboratory.

3100:268 INTRODUCTORY HUMAN PHYSIOLOGY 4 credits
Description: A study of physiological processes in the human body particularly at the organ systems level. Not open to preprofessional majors. Laboratory.

3100:311 CELL BIOLOGY 2 credits
Prerequisite: 112 and Org. Bio. Chem. (The laboratory 384 is a corequisite). Description: A study of the structure and functions of cells using microbial and animal cells for demonstration of common tenets.

3100:312 MICROBIOLOGY 4 credits
Prerequisite: 331 or equivalent. Description: Basic elements of microbial genetics, and temporary variation in the bacteria. Classification and identification of major groups of bacteria. Laboratory.

3100:341 FLORA AND TAXONOMY I 3 credits
Prerequisite: 112. Description: Collection-identification of autumn-flowering plants, their family characteristics and discussion of methods used to determine their relationships. Plants used by man will be discussed and plant collection required. Laboratory.

3100:342 FLORA AND TAXONOMY II 3 credits
Prerequisite: 112. Description: Classification systems, the international rules governing application of names and collection-identification of spring flowering plants. Family characteristics are discussed and plant collection is required. Laboratory.

3100:351 INVERTEBRATE ZOOLOGY 4 credits
Prerequisite: 112. Description: Invertebrate groups, their classification, anatomy and life history of representative forms. Laboratory.

3100:353 GENERAL ENTOMOLOGY 4 credits
Prerequisite: 112. Description: Structure, physiology, life cycles, and economic importance of insects: survey of orders and major families. An insect collection is made. Laboratory

3100:355 PARASITOLOGY 4 credits
Prerequisite: 112. Description: Principles of parasitism; survey of the more important human and veterinary parasitic diseases. Laboratory.

3100:358 ORNITHOLOGY 3 credits
Prerequisite: 112. Description: An introduction to the
biology of birds: classification, anatomy, physiology, behavior, ecology, evolution, natural history, and field identification. Laboratory.

3100:361-362 HUMAN ANATOMY AND PHYSIOLOGY 3 credits each
Prerequisite: College Chemistry (Sequential). Description: A study of the structure and function of the human body. Laboratory.

3100:365 HISTOLOGY I 3 credits
Prerequisite: 311. Description: The microscopic study of animal tissue preparations and histochemical stains; emphasis on functional differences. Laboratory.

3100:366 HISTOLOGY II 3 credits
Prerequisite: 365. Description: Study of cellular structure of organs in relation to their functional activity, life history and comparative development. Laboratory.

3100:381 HUMAN GENETICS 2 credits
Prerequisite: 112 or 362. Description: Principle of genetics in the human, immunogenetics, mutation, genetics of population, selection and eugenics. Not open to students.

3100:383 LABORATORY TECHNIQUES AND INSTRUMENTATION IN BIOLOGY 2 credits
Prerequisite: 112. (The laboratory 384 is a corequisite). Instruction in techniques and instrumentation used in biological laboratories.

3100:384 TECHNIQUES AND INSTRUMENTATION IN BIOLOGY 1 credit
Corequisite: 311 or 383. Description: Application of biological techniques and instrumentation with emphasis on isolation and identification of cellular components and metabolites; also includes enzymology, use of radioisotopes and light and electron microscopy.

3100:422/522 CONSERVATION OF BIOLOGICAL RESOURCES 4 credits
Prerequisite: 217 or permission. Description: Basic principles for the management of plant and animal resources and natural areas. Political, economic, and social aspects of resource management. Laboratory with field trips.

3100:424/524 LIMNOLOGY 3 credits
Prerequisite: 217. Description: Field and laboratory study of lake ecosystems. Species composition of selected biotic communities, community energetics, and nutrient cycling emphasized. A limnological survey of a local lake is made. Laboratory.

3100:426/526 APPLIED AQUATIC ECOLOGY 3 credits
Prerequisite: Permission. Description: Biological methods for assessing the quality of natural waterways. Emphasis given to the use of benthic invertebrates as indices of water quality. Laboratory.

3100:428/528 BIOLOGY OF BEHAVIOR 2 credits
Prerequisite: 14 credit hours in Biology and/or Psychology. Description: The biological basis of behavior: Ethological theory; the function, causation, significance, evolution, and adaptiveness of behavior.

3100:431/531 BACTERIAL PHYSIOLOGY 3 credits
Prerequisite: 332 and Org. and Biochemistry. Description: Biochemical activities in the bacterial cell, emphasizing enzymatic mechanisms of metabolic transformations. Energy relationships in catabolic and biosynthetic pathways are stressed.

3100:433/533 PATHOGENIC BACTERIOLOGY 4 credits
Prerequisite: 332. Description: Study of the major groups of bacteria which produce infections in man. The biochemical properties of microorganisms which engender virulence, and the nature of host resistance. Laboratory.

3100:435/535 VIROLOGY 4 credits
Prerequisite: 332. Description: Physical, chemical and biological properties of viruses including mechanisms of infection, genetics and tumor formation; methods of cultivation and identification. Laboratory.

3100:437/537 IMMUNOLOGY 4 credits
Prerequisites: 332 - 433 recommended. Description: The nature of antigens, the antibody response, and antigen-antibody reactions. The site and mechanism of antibody formations, hypersensitivity, immunologic tolerance, and the immune diseases will also be considered. Laboratory.

3100:441/541 PLANT DEVELOPMENT 4 credits
Prerequisites: 112 and 1 year of Org. Chemistry. Description: Embryology and morphogenesis of plants in relation to physical, chemical, genetic, and spatial factors. Laboratory.

3100:442/542 PLANT ANATOMY 3 credits
Prerequisite: 112. Description: Structure and development of cells, tissues, organs and organ systems of seed plants. Laboratory.

3100:444/544 BIOLOGY OF THE THALLOPHYTES 4 credits
Prerequisite: 311. Description: Designed to give insight into the phylogeny, taxonomy, morphology, and ecology of the major groups of the fungi and algae. To include field and laboratory study of the vegetative and reproductive structures of the local flora. Laboratory.

3100:445/545 PLANT MORPHOLOGY 4 credits
Prerequisite: 112. Description: The structure, reproduction, life cycles, ecology, evolution, and economic significance of land plants including bryophytes, clubmosses, whisk ferns, horsetails, ferns, and seed plants. Laboratory.

3100:447/547 PLANT PHYSIOLOGY 3 credits
Prerequisite: 112 and 1 year of Org. Chemistry. Description: Water, soil and mineral requirements of plants, and their metabolism, growth, and their response to internal and external stimuli. Laboratory.

3100:449/549 PLANT BIOSYSTEMATICS 2 credits
Prerequisite: 4 hours botany at 400 level. Description: Current research methods and theories in plant phylogeny and taxonomy. Includes study of original publications, discussion of experimental methods and the use of the herbarium in research.

3100:458/558 VERTEBRATE ZOOLOGY 4 credits
Prerequisite: 217 or permission. Description: Biology of the vertebrates, except birds — evolution, ecology, behavior, systematics, and anatomy. Laboratory with field trips.

3100:461-462/561-562 HUMAN PHYSIOLOGY 4 credits each
Prerequisite: Senior or Graduate standing. Description: A detailed study of function of the human body with special emphasis on neuromuscular, cardiovascular, respiratory, renal, and endocrine physiology. Laboratory.

3100:464/564 GENERAL AND COMPARATIVE PHYSIOLOGY 4 credits
Prerequisites: 112 and 1 year Organic Chemistry. Description: A study of cellular, osmoregulatory, respiratory, cardiovascular, endocrine and neural mechanisms involved in understanding the physiology of a variety of invertebrate and vertebrate animals. Laboratory.
3100:466-467/566-567 DEVELOPMENTAL ANATOMY 4 credits each
Prerequisite: 112. Description: A sequence designed to introduce the process of vertebrate development. Lecture and laboratory work include descriptive and experimental embryology, phylogenetic development of the major vertebrate orders, and individual student research. Laboratory.

3100:480/580 RADIATION BIOLOGY 3 credits
Prerequisite: Permission. Description: Principles of radioactivity, interaction with matter, particularly affects on biological systems. Detection devices, radiation safety and dosimetry, use of radiolabeled compounds in the laboratory. Laboratory.

3100:481/581 ADVANCED GENETICS 3 credits
Prerequisite: 211. Description: The nature of the gene; genetic codes; hereditary determinants; mutagenesis and genes in population. Lecture and seminar.

3100:485/585 LABORATORY ANIMAL MANAGEMENT 3 credits
Prerequisite: 112 and permission. Description: The principles involved in maintaining laboratory animals. Emphasis is placed on selection of animal models, proper care, nutrition and legal aspects of animal use. Laboratory.

3100:485 SPECIAL TOPICS IN BIOLOGY 1-3 credits
(May be repeated for a maximum of 4 hrs.)
Prerequisite: Permission. Description: Special courses which are offered once or only occasionally in areas where no formal course exists.

3100:497-498/597-598 PROBLEMS 1-2 credits each
Prerequisite: Permission. Description: Honors level work, usually consisting of laboratory investigations.

GRADUATE COURSES

3100:631 EXPERIMENTAL BACTERIAL PHYSIOLOGY 4 credits
Prerequisite: 531 or permission of instructor. Description: The basic techniques peculiar to the study of microbial physiology and modification of selected biochemical techniques for application to microbial systems. Laboratory.

3100:660 ENVIRONMENTAL PHYSIOLOGY 3 credits
Prerequisites: 561-562. Description: A study of the physiological reactions of healthy mammals to natural changes or extremes of the physical environment.

3100:667 EXPERIMENTAL EMBRYOLOGY 3 credits
Prerequisite: Permission. Description: The principles and experimental methods of developmental biology. Practical application to oncology, drug interaction, and inductive mechanisms. Laboratory.

3100:681 CYTOLOGY 3 credits
Prerequisite: 311
Description: The structure and functional organization of cells at the ultrastructural level. Three lecture hours a week and one report due.

3100:685 ANIMAL TISSUE CULTURE 3 credits
Prerequisite: 332
Description: Tissue culture techniques; biology and physiology of animal cells and tissues under in vitro conditions; application of these techniques to radiobiology, cancer chemotherapy and animal cell genetics. Laboratory.

3100:695 SPECIAL TOPICS IN BIOLOGY 1-3 credits
Prerequisite: Permission may be repeated for a maximum of 4 hrs.
Description: Special courses which are offered once or only occasionally in areas where no formal course exists.

3100:697-698 SEMINAR IN BIOLOGY 1 credit each
Prerequisite: Permission.
Description: Limited to graduate students in the thesis option who present a seminar on their research.

3100:699 MASTERS RESEARCH 1-6 credits
(May be repeated for a maximum of 6 hrs.)

3150: CHEMISTRY

3150:121-122 INORGANIC CHEMISTRY I, II.
3 credits each
Sequential. Designed especially for students in Medical Technology. Fundamental laws and theories of chemistry, the more important elements and their components. Laboratory.

3150:124 CHEMISTRY 3 credits
Fundamentals of organic, inorganic and physiological chemistry. Discussion.

3150:129-136 GENERAL CHEMISTRY I, II. 4 credits each
Sequential. Introduction to the principles of chemistry and fundamentals of inorganic, organic, and biochemistry. Structure and chemistry of carbohydrates, lipids, proteins, bio-chemistry of enzymes, metabolism, body fluids, and radiation effects.

3150:132 PRINCIPLES OF CHEMISTRY I. 4 credits
Introduction to basic facts and principles of chemistry, including atomic and molecular structure, states of matter, and thermodynamics. For chemistry majors, premedical students, and most other science majors. Laboratory.

3150:133 PRINCIPLES OF CHEMISTRY II. 3 credits
Prerequisite. 132. Continuation of 132, including aqueous solution theory, chemical kinetics, equilibrium, electrochemistry, and nuclear chemistry. For chemistry majors, pre-medical students and most other science majors.

3150:134 QUALITATIVE ANALYSIS. 2 credits
Corequisite, 133. A laboratory course applying the principles of chemical equilibrium to inorganic qualitative analysis.

3150:201-202 ORGANIC CHEMISTRY AND BIOCHEMISTRY I, II. 3 credits each
Sequential. Prerequisite, 122. Designed especially for students in Medical Technology. Principles of organic chemistry with emphasis on biological systems. Laboratory.

3150:263-264 ORGANIC CHEMISTRY LECTURE I, II. 3 credits each
Structure and reactions of organic compounds, mechanism of reactions.

3150:265-266 ORGANIC CHEMISTRY LABORATORY I, II. 2 credits each
Sequential. Corequisite, 263, 264. Laboratory experiments to develop techniques in organic chemistry and illustrate principles.

3150:313-314 PHYSICAL CHEMISTRY LECTURE I, II. 3 credits each
Sequential. Prerequisites, 265, 3450:236, 3650:293, or permission of instructor. Gases, thermodynamics, thermochemistry, solutions, dilute solutions, chemical equilibrium, phase rule, chemical kinetics, electrochemistry, electrolytic equilibria, atomic and molecular structure.
3150:315-316 PHYSICAL CHEMISTRY LABORATORY I, II. 2 credits each
Sequential. Corequisites, 313, 314. Laboratory designed for illustrating techniques and equipment used in physical chemical investigations.

3150:335-336 ANALYTICAL CHEMISTRY FOR LABORATORY TECHNICIANS I, II. 4 credits each
Sequential. Prerequisite, 133 and 134 or 122. Intended primarily for students preparing to become laboratory or hospital technicians. Theory and calculations in qualitative and quantitative analysis, laboratory, methods used in hospital laboratories.

3150:401/501 BIOCHEMISTRY LECTURE I. 3 credits
Sequential. Prerequisite, 264. Biochemistry of amino acids and proteins, enzymes and their role as biocatalysts, structure and biochemistry of nucleotides, nucleic acids, carbohydrates and lipids, energy storage and utilization.

3150:402/502 BIOCHEMISTRY LECTURE II. 3 credits
Sequential. Prerequisite, 401/501. Biochemistry of amino acids and proteins, enzyme, nucleotide and nucleic acid biosynthesis, and gene function.

3150:404/504 BIOCHEMISTRY LABORATORY I. 1 credit

3150:405/505 BIOCHEMISTRY LABORATORY II. 1 credit
Sequential. Corequisite, 402/502. Biological synthesis and degradation, the role of enzymes, their characteristics and utilization of energy released during oxidation of biological compounds.

3150:408/508 THE PROFESSIONAL CHEMIST IN INDUSTRY 2 credits
Prerequisite, senior year or degree in chemistry or chemical engineering or permission. The business, legal, societal, economic, and other non-chemical aspects of a chemist’s profession.

3150:411/511 PHYSICAL CHEMISTRY FOR BIOLOGY MAJORS 3 credits
Prerequisites, 266 and 3450:116 and permission. Gases, thermodynamics, electrochemistry, chemical kinetics, macromolecules and colloids, special topics in biochemistry, biophysics and molecular biology.

3150:415/515 CHEMICAL INSTRUMENTATION 3 credits
Prerequisites, 424, 426 or permission. Principles and applications of electrical and electronic devices and various transducers for chemical analysis. Laboratory.

3150:416/516 INSTRUMENTAL METHODS OF ANALYSIS 3 credits
Prerequisite, 415/515. Principles and applications of analytical chemical techniques based on physical measurements. Laboratory.

3150:421/521 QUALITATIVE ORGANIC ANALYSIS 4 credits
Sequential. Prerequisites, 266 and 426 or permission. Identification and characterization of organic substances, separation and identification of components of organic mixtures. Laboratory.

3150:423-424 ANALYTICAL CHEMISTRY LECTURE I, II 3 credits each
Prerequisite, 264 or 133 and permission. Theoretical principles of quantitative analysis. Techniques and calculations, gravimetric and volumetric methods. Instrumental analysis with emphasis on newer analytical tools and methods.

3150:425-426 ANALYTICAL CHEMISTRY LABORATORY I, II 2 credits each
Sequential. Corequisites, 423, 424. Laboratory techniques employed in gravimetric, volumetric, and instrumental analysis.

3150:443/543 ADVANCE ORGANIC CHEMISTRY 3 credits
Prerequisite, 264. Introduction to the study of mechanisms of organic reactions.

3150:472/572 ADVANCED INORGANIC CHEMISTRY 3 credits

3150:498 SPECIAL TOPICS 1-3 credits

3150:499 RESEARCH PROBLEMS 2 credits
May be repeated to a total of 12 credits. Prerequisite, permission. An assignment of special problems to the student, designed as an introduction to research problems.

GRADUATE COURSES

3150:601-602 CHEMISTRY OF POLYMERS I, II. 4 credits each

3150:604-605 CHEMISTRY OF POLYMERS LABORATORY I, II. 2 credits each
Sequential. Prerequisites, 264, 266. Preparation and identification of polymers to illustrate the method of polymerization discussed in 601, 602, and 649.

3150:609 MICRO-QUANTITATIVE ORGANIC ANALYSIS. 2 credits
Prerequisites, 266, 428 and permission. Micro-quantitative analytical methods for determination of carbon, hydrogen, nitrogen, sulfur, and halogens in organic substances. Laboratory.

3150:610 BASIC QUANTUM CHEMISTRY. 2 credits
Prerequisite, 314. A discussion of quantum mechanics with applications to molecular systems. Topics include angular momentum, molecular Hamiltonians, variation and perturbation methods, and molecular orbital theories.

3150:611 CHEMICAL BONDING AND SPECTROSCOPY. 2 credits
Prerequisite, 610. Application of quantum chemistry to the elucidation of chemical bonding, structure, and the interpretation of molecular spectra.

3150:613 SYNTHETIC METHODS OF ORGANIC CHEMISTRY. 2 credits
Prerequisite, 264. A discussion of synthetic organic chemistry. Standard syntheses of organic compounds as well as newer techniques.

3150:621-622 ADVANCED PREPARATIONS I, II. 1-2 credit each
Prerequisite, permission. Methods for preparing and purifying organic and inorganic compounds. Laboratory.

3150:625 COLLOID CHEMISTRY. 2 credits
3150:629-630 THEORETICAL INORGANIC CHEMISTRY 2 credits each
Sequential. Prerequisites, 314, 472 or permission. Detailed treatment of the chemistry of transition elements. Group theoretical applications, ligand field theory, kinetics and mechanism, magnetism, electronic spectra, molecular orbital theory.

3150:635 THERMODYNAMICS, STATISTICAL THERMODYNAMICS, AND KINETICS I II 2 credits
Prerequisites, 313, 314. A rigorous treatment of the laws of thermodynamics and their application to selected chemical systems (gases, solutions, and surfaces). The fundamentals of statistical thermodynamics.

3150:636 THERMODYNAMICS, STATISTICAL THERMODYNAMICS, AND KINETICS II 2 credits
Prerequisite, 635. Applications of statistical thermodynamics to chemical systems in equilibrium. Theories of Rate Processes. Fundamentals of chemical kinetics: methods of investigation and interpretation of data.

3150:638-639 ADVANCED PHYSICAL CHEMISTRY LABORATORY I II 1 credit each
Prerequisite, permission. Laboratory experiments in physical chemistry.

3150:649 CHEMISTRY OF ELASTOMERS 2 credits
Prerequisites, 264, 266 or permission. A study of the molecular structure and chemical reaction and properties of natural and synthetic rubbers, polymerization processes in the formation of the synthetic elastomers.

3150:651-652 QUANTUM CHEMISTRY I II 3 credits each
Sequential. Prerequisite, 3450:236, or permission. Wave mechanics: exactly soluble problems and approximation methods in many-particle systems; structure, properties, symmetry and spectroscopy of molecules; self-consistent field techniques.

3150:660 BIO-ORGANIC REACTIONS 2 credits
Prerequisites, 264, 313, 314, 402 or permission. Bio-organic mechanisms, including nucleophile displacement on carbonyl and phosphorus; hydration and reduction reactions; chemistry of cofactors, enzyme catalysis and models.

3150:665 BIOENERGETICS 2 credits
Prerequisites, 313, 314, 402 or permission. Energy production and utilization in living systems including historical aspects, thermodynamics, glycolysis, phosphorylation, citric acid cycle, respiratory chain, electron transport, metabolic control, active transport and muscle contraction.

3150:667 ADVANCED BIOCHEMISTRY TECHNIQUES 2 credits
Prerequisites, 402, 405, 426 or permission. An advanced analytical course in Biochemistry laboratory: purification and characterization of DNA, RNA and chromatin; study of metabolic pathways in bacteria using advanced biochemistry techniques.

3150:670 CHEMICAL MICROSCOPY AND MICROCHEMICAL ANALYSIS 2 credits
Prerequisite, 426 and permission. Microscale titrations and physical measurements, phase studies, identifications, microchemical procedures.

3150:671 THERMOANALYTICAL TECHNIQUES 2 credits
Prerequisite, Permission. The methods of differential thermal analysis, thermogravimetry and related techniques and methods of programming, recording, data treatment and effects of atmosphere and sample parameters are described with applications.
CHEMISTRY
of topical subjects of current interest. Chemistry of physical chemistry aspects, and including laboratory work where applicable.

3150:715 SPECIAL TOPICS IN BIOCHEMISTRY
1-2 credits
(May be repeated) A consideration of topics in biochemistry such as: isoenzymes and disease, genetic engineering, membrane structure and functions, and recent developments in the field.

3150:785-784 PHYSICAL ORGANIC CHEMISTRY I, II
3 credits each
Prerequisites, 264 and 314 completed recently, or instructor’s permission. Corequisite for 783: 610. Consideration of physical-chemical principles that determine the course of an organic chemical reaction; discussion of reactive intermediates.

3150:786 THEORETICAL ORGANIC CHEMISTRY
2 credits
Prerequisite, 784. The application of modern quantum chemistry and thermodynamics to problems of organic chemistry.

3150:899 DOCTORAL RESEARCH CHEMISTRY
1-2 credits
Research in the field. Required of majors.

3200: CLASSICS
3200:161-162 COMPARATIVE LITERATURE
3 credits each
Major writers of Greece and Rome; their influence on later European literature. No foreign language necessary. Required of majors.

3200:189 CLASSICAL MYTHOLOGY 3 credits
Myths, legends and folklore of Greece and Rome; some attention to the history of religion. No foreign language necessary.

3200:213-214 CLASSICAL ARCHAEOLOGY
3 credits each
The ruins and monuments of Greece and Rome; history reconstructed by examination of the material remains. No foreign language necessary. Required of majors.

3200:401-404/501-504 EGYPTOLOGY 3 credits each
Prerequisite: permission of instructor. Classical Egyptian (standard hieroglyphic of the 18th Dynasty); the history and antiquities of Egypt as far as the Roman occupation.

3200:405/505 ASSYRIOLOGY 3 credits each
Prerequisite: permission of instructor. The Akkadian language; history and antiquities of Mesopotamia. May be repeated for credit with another cuneiform language.

3200:407-408/507-508 ANCIENT NEAR EASTERN ARCHAEOLOGY 3 credits each
Prerequisite: permission of instructor. Palestine, Mesopotamia, Asia Minor and adjacent lands; the Old Testament reviewed in the light of material evidence. May be repeated for credit with change of subject.

3210: GREEK
3210:121-122 ELEMENTARY GREEK 4 credits each
Sequential. The standard language of Hellenistic times with some attention to Modern Greek.

3210:223-224 SECOND YEAR GREEK 3 credits each
Prerequisite: 121-122 or equivalent. Xenophon or New Testament.

3210:497-498/597-598 GREEK READING AND RESEARCH 3 credits each
Prerequisite: permission of instructor. Homer, Sophocles, Plato or the like. May be repeated for credit with change of subject.

3220: LATIN
3220:121-122 ELEMENTARY LATIN 4 credits each
Sequential. Some attention to the development of the Romance languages, especially Italian.

3220:243-244 SECOND YEAR LATIN 3 credits each
Prerequisite: 121-122 or equivalent. Selections from Virgil, Pliny, Nepos, or other material.

3220:303-304 ADVANCED LATIN 3 credits each
Prerequisite: 243-244 or equivalent. Sequence by semesters: Satirists, Dramatists, Historians, Philosophical and Religious Writers, Mediaeval Writers, Lyric and Elegiac Poets, Novelists. May be repeated for credit with change of subject.

3220:497-498/597-598 LATIN READING AND RESEARCH 3 credits each
Prerequisite: permission of instructor. Generally Latin Epigraphy, Prose Composition, or Philology; Numismatics or certain other archaeological topics may be offered. May be repeated for credit with change of subject.

3250: ECONOMICS
3250:100 INTRODUCTION TO ECONOMICS 3 credits
May not be substituted for 201, 202, 244. In this course economics will be primarily considered in a broad social science context. Adequate amount of basic theory will be introduced.

3250:201-202 PRINCIPLES OF ECONOMICS 3 credits
Sequential. Economic activity in modern industrial society; preparation for responsible participation in process of shaping public policy. No credit to students who have received credit in 244.

3250:244 INTRODUCTION TO ECONOMIC ANALYSIS 3 credits
For engineering majors. Intensive introduction to the analysis of modern industrial society and the formulation of economic policy. The structure of economic theory and its relation to economic reality. (No credit for persons having completed 201, 202).

3250:248 CONSUMER ECONOMICS 3 credits
Spending habits of American consumers, influences affecting their spending decisions, personal finance, budget planning, saving programs, installment buying, insurance, investments, housing finance.

3250:330 LABOR PROBLEMS 3 credits
Prerequisite, 202. Labor economics, principles, and public policy. Study of the structure of the labor market and the impact unions have on labor management relations.
3250:333 LABOR ECONOMICS 3 credits
Prerequisite, 330. Theoretical tools used in the analysis of the problems of labor in any modern economic system. Emphasis is given to the examination of the determinants of the demand for and the supply of labor.

3250:360 INDUSTRIAL ORGANIZATION AND PUBLIC POLICY 3 credits
Prerequisite, 201-202. The role of industrial structure and firm conduct in the performance of industry and the way in which antitrust policy is designed to provide remedies where performance is unsatisfactory.

3250:380 MONEY AND BANKING 3 credits
Prerequisite, 202. Institutions of money, banking and credit, monetary expansion and contraction, public policies affecting this process, development of our money and banking system.

3250:385 ECONOMICS OF NATURAL RESOURCES AND THE ENVIRONMENT 3 credits
Prerequisites, 200, 202, 244 or permission. An introduction to the economic analysis of the use of natural resources and economics of the environment. Problems of water and air pollution, natural environments, natural resource scarcity, conservation, economic growth.

3250:400 MACRO-ECONOMICS 3 credits
Prerequisite, 201, 202, recommended 6500:348-49. Changes in the national income, production, employment, price levels, long-range economic growth, short-term fluctuations of economic activity.

3250:405 PUBLIC FINANCE 3 credits
Prerequisite, 201, 202. Tax systems and other sources of revenue of federal, state, and local governments; changing patterns of public expenditures; fiscal policy and debt management; economic effects of public policy.

3250:410 MICRO-ECONOMICS 3 credits
Prerequisite, 201, 202. Advanced analysis of consumer demand, production costs, market structures, determinants of factor income.

3250:420/520 MATHEMATICAL ECONOMICS I 3 credits
Prerequisites: 201, 3450-140, 195 or permission. Mathematical treatment of economic theory in the framework of comparative statics. Emphasis will be placed on the theory of the firm, theory of consumer behavior, general equilibrium analysis and welfare analysis.

3250:421/521 MATHEMATICAL ECONOMICS II 3 credits
Prerequisites, 420 or permission. Use of calculus and linear algebra to dynamic economic analysis; solution techniques; and some significant dynamic models from the literature.

3250:426/526 STATISTICAL APPLICATIONS IN ECONOMICS 3 credits
Prerequisites, 201, 202, 6500:348-49, or permission. The techniques of making forecasts as basis for decisions in business and government as well as for the verification of hypotheses.

3250:431/531 LABOR AND THE GOVERNMENT 3 credits
Prerequisites, 201, 202, 330. Development of public policy for control of industrial relations, from judicial control of 18th century to statutory and administrative controls of World War II and post-war periods.

3250:432 THE ECONOMICS AND PRACTICE OF COLLECTIVE BARGAINING 3 credits
Prerequisites, 201, 202, 330. Principles and organization of collective bargaining, collective bargaining agreements, issues presented in labor disputes and settlements, union status and security, wage scales, technological change, production standards, etc.

3250:440/540 SPECIAL TOPICS IN ECONOMICS 3 credits
Prerequisite, permission. Opportunity for students to study special topics and current issues in economics.

3250:450 COMPARATIVE ECONOMIC SYSTEMS 3 credits
Prerequisite, 201, 202. Systems of economic organization, ranging from the theoretical extremes of unregulated private enterprise to that of Marxist communism.

3250:460/560 ECONOMIC DEVELOPMENT AND PLANNING FOR UNDERDEVELOPED COUNTRIES 3 credits
Prerequisite, 201, 202, 6500:348-49. Basic problems in economic development. Theories of development, Government planning for development, Trade and development of underdeveloped countries. No credit for graduate majors in economics.

3250:461 PRINCIPLES OF INTERNATIONAL ECONOMICS 3 credits
Prerequisite, 201, 202. Theory of international trade and foreign exchange, policies of free and controlled trade, international monetary problems.

3250:475/575 DEVELOPMENT OF ECONOMIC THOUGHT 3 credits
Prerequisite, 201, 202. Evolution of theory and methods of economics to contemporary conditions.

3250:481/581 MONETARY AND BANKING POLICY 3 credits
Prerequisites, 380, 400. Control over currency and credit, policies of control by central banks and governments, U.S. Treasury and Federal Reserve System.

3250:486 Ghetto Economic Development 3 credits
Prerequisite, 201, 202. This course will stress careful study of the question of economic planning and development at the urban level, in response to the pervasive phenomena of urban ghetto structures.

3250:487 URBAN ECONOMICS: THEORY AND POLICY 3 credits
Prerequisite, 410. Theoretical and empirical analyses of allocation, growth, and structure in the urban economy. Urban problems. Special attention will be given to resource allocation in the urban public sector.

GRADUATE COURSES

3250:600. FOUNDATIONS OF ECONOMIC ANALYSIS. 3 credits
Prerequisite, graduate standing. Determination of national income, employment and price level; aggregate consumption, investment, and asset holding; also, decision problems faced by the household and the firm. Partial equilibrium analysis of competition and monopoly and general equilibrium analysis. May not be substituted for 602, 603, 611 or toward the 30 hours of graduate credit required for M.A. in Economics.

3250:602. MACRO-ECONOMIC ANALYSIS I 3 credits
The construction of static macro-economic models. The analysis is predominantly in terms of comparative statics with only relatively brief mention of dynamic models.

3250:603. MACRO-ECONOMIC ANALYSIS II 3 credits
Prerequisite, 602. Macroeconomic economics and stabil-
ity analysis of the closed and open Keynesian system. Inclusive coverage of the post-Keynesian theories of economic growth.

3250:666 PUBLIC FINANCE 3 credits

3250:611 MICROECONOMIC THEORY I 3 credits

3250:612 MICROECONOMIC THEORY II 3 credits
Prerequisite, 611. This course is a continuation of Microeconomics I and will cover multi-market equilibrium, general equilibrium, and welfare economic theory, and applications in public choice and applied welfare theory.

3250:615 INDUSTRIAL ORGANIZATION 3 credits
Examines link between market structure, firm conduct, and economic performance. Measurement and effects of monopoly power, industrial concentration, and their changes over time.

3250:616 ANTITRUST AND REGULATION 3 credits
Prerequisite, 611 and 615 recommended or consent of instructor. Antitrust policy, public utility regulation, and regulation by independent commission. Government policy with respect to such problems as monopoly, monopolization, restraints of trade, price discrimination, rate regulation, and the economic appraisal of policy alternatives.

3250:627 ECONOMETRICS 3 credits
Prerequisite, 626 or equivalent. Formulation of functional relations among economic variables suitable for statistical estimation from observational data and construction of multiequation econometric models and methods of estimation.

3250:633 THEORY OF WAGES AND EMPLOYMENT 3 credits
Analytical approach to the integration of economic theory with observed labor market phenomena. Discussion of wage and employment theories, effects of unions, collective bargaining theories, and the effects of government regulation.

3250:634 COLLECTIVE BARGAINING 3 credits
The economic issues and implications involved in hours of work, employment and unemployment, and the impact of trade unions upon the basic institutions of a free private enterprise economy.

3250:635 LABOR LAW 3 credits
The evaluation of labor relations laws. Public policy affecting both public and private worker organizations, collective bargaining, strikes, and picketing.

3250:664 SEMINAR ON ECONOMIC GROWTH AND DEVELOPMENT 3 credits
Main theories of economic growth since the age of classical economics are reviewed. Problems in the development of emerging countries. Aggregate macro models of capital formation, investment, technology and external trade are discussed.

3250:665 SEMINAR ON ECONOMIC PLANNING 3 credits
Types, methods, and applications of planning. Planning for growth. Application of Input-Output, linear programming, computer simulations, and other statistical and mathematical methods in planometrics.

3250:666 SEMINAR ON REGIONAL ECONOMIC ANALYSIS AND DEVELOPMENT 3 credits
The study of a particular national or international regional development. Any one or a combination of the following regions may be considered. The Middle East, North Africa, areas within Latin America, Southern Europe, South East Asia or Eastern Europe.

3250:670 INTERNATIONAL MONETARY ECONOMICS 3 credits
International financial relations. The foreign exchange market and exchange rate adjustments. Balance of payments adjustment policies. The international monetary system.

3250:671 INTERNATIONAL TRADE 3 credits
The traditional trade theory. Recent developments in trade theory and their policy implications in trade relations among developed and developing economies.

3250:683 MONETARY ECONOMICS 3 credits
An intensive study of the important areas of Monetary Theory. Emphasis will be placed on the integration of money and value theory among other areas, plus some pressing policy issues.

3250:687-689 READING IN ADVANCED ECONOMICS 1-4 credits each
(A maximum of 6 credits may be applied toward the master's degree in economics.) Intensive investigation of selected problem area in advanced economics under supervision of the instructor. Since the subject matter is decided upon in each case, the course may be taken repeatedly for credit.

3250:699 RESEARCH AND THESIS 3 credits
May be retaken for credits up to 6 hours.

3300: ENGLISH

3300:150-155 FRESHMAN ENGLISH 4 credits each
A sequence of courses in Freshman English with special emphasis on writing. The sequence, taken by special arrangement, will count in lieu of the General College requirements, 1100:111-112.

3300:219 ENGLISH LITERATURE 4 credits
Readings in major and minor writers in English Literature from Old English to 1860, emphasizing specific representative works and the cultural and intellectual backgrounds which produced them.

3300:220 ENGLISH LITERATURE 4 credits
Readings in major and minor writers from 1860 to the present, emphasizing cultural backgrounds which produced them.

3300:249 REPRESENTATIVE AMERICAN WRITERS BEFORE 1865 3 credits
The study of major American writers to 1865 including selected readings in Cooper, Poe, Emerson, Thoreau, Hawthorne, Melville, and Whitman.

3300:250 REPRESENTATIVE AMERICAN WRITERS 1865 TO PRESENT 3 credits
The development of American literature from 1865 to the present, including readings in Twain, James, Dickinson, Crane, Dreiser, Hemingway, Fitzgerald, Frost, and Faulkner.

3300:370 INTRODUCTION TO LINGUISTICS 3 credits
A broad range of topics on language and an introduction to its scientific study. Topics include: language origins and history, dialects, sound-systems, syntax, semantics, animal language, writing systems, language universals.
3300:275 SPECIALIZED WRITING 3 credits
Principles and practice of style, structure and purpose in writing, with special applications to the writing demands of a specific career area. May be repeated for different topics, with permission.

3300:277 INTRODUCTION TO POETRY WRITING 3 credits
Practice in writing poems. Study of various techniques in poetry, using contemporary poems as models. Class discussion of student work. Individual conferences with instructor to direct student's reading and writing.

3300:278 INTRODUCTION TO FICTION WRITING 3 credits
Practice in writing short stories. Study of various techniques in fiction, using contemporary stories as models. Class discussion of student work. Individual conferences with instructor to direct student's reading and writing.

3300:279 INTRODUCTION TO SCRIPT WRITING 3 credits
Practice in writing scripts. The study of various techniques in script writing, using contemporary models for study. Class discussion of student work. Individual conferences with instructor to direct student's reading and writing.

3300:280 APPRECIATION OF POETRY 3 credits
Close reading of a wide selection of British and American poems with emphasis on Dramatic Situation, Description, Tone, Analogical Language, Theme and Meaning.

3300:281 FICTION APPRECIATION 2 credits
The course will focus on some modern masters of the short story and novel: Conrad, Faulkner, Joyce, Lawrence, Malamud, Bellow, and Barth, approaching fiction as experience and as art.

3300:282. DRAMA APPRECIATION 2 credits
The course explores dramatic material in terms of theme, characterization, and style. Offered either as a text course or as film appreciation. Both may be taken for separate credit.

3300:289. STUDIES IN LITERATURE 3 credits
Concentrated, in-depth study of thematically-grouped fiction, drama, poetry and/or exposition. May be repeated for credit, with permission, as different topics are offered, but not for credit toward an English major.

3300:315 SHAKESPEARE: THE EARLY PLAYS 3 credits
An introduction to the early drama of Shakespeare with a close reading of 8 to 10 plays including tragedies, histories and comedies. The course will include explanatory lectures of both the plays and their backgrounds.

3300:316 SHAKESPEARE: THE MATURE PLAYS 3 credits
A study of eight to ten of Shakespeare's plays after 1598, beginning with the mature comedies. Concentration on the major tragedies and the romances.

3300:319. ENGLISH DRAMA TO 1642 3 credits
The development of non-Shakespearean drama from the earliest Mystery plays to the death of Queen Elizabeth, 1603.

3300:320. ENGLISH DRAMA: 1600-1800 3 credits
A study of major dramatic works from the reopening of the English theatre in 1660 to the end of the eighteenth century.

3300:329 THE ENGLISH NOVEL BEFORE 1830 3 credits
The development of the English novel before 1830. The course will focus on the works of Defoe, Richardson, Fielding, Smollett, Sterne, Austen, and Scott.

3300:330 THE ENGLISH NOVEL, 1830-1900 3 credits
At least five major novels of the Victorian era, of varying length, are read, by Emily Bronte, Dickens, Eliot, Thackeray, and Hardy. Characterization, theme, and attitude toward life are emphasized.

3300:350 BLACK AMERICAN LITERATURE 3 credits
A survey of representative Black American writers from the nineteenth century to the present, with particular attention to historical and social backgrounds.

3300:351 THE OLD TESTAMENT AS LITERATURE 3 credits
The history of the Hebrews to 586 B.C., as revealed through epic, fiction, saga and poetry, will be viewed against the background of the Oriental World.

3300:356 THE NEW TESTAMENT AND APOCRYPHA AS LITERATURE 3 credits
These two bodies of literature are read with emphasis upon the form of gospel and epistle, and the concept of apocalypse. Both are viewed against their historical and social backgrounds.

3300:365 CONTINENTAL DRAMA 3 credits
A study of masterpieces of European drama emphasizing the evolution of dramatic forms, styles, and subjects from Greek, Roman, Italian, Spanish, French, German, Scandinavian, and Russian Playwrights.

3300:366 EUROPEAN BACKGROUNDS OF ENGLISH LITERATURE 3 credits
Representative French, German, Italian, and Spanish works from the Middle Ages, the Renaissance, the Enlightenment, and the Romantic Period, read in translation.

3300:367 MODERN EUROPEAN LITERATURE 3 credits
Representative European writers from about 1850 to the present. In translation, the course will focus on the fiction of such writers as Zola, Tolstoy, Dostoyevsky, Mann, Proust, Kafka, and Solzhenitsyn.

3300:370 INTERMEDIATE LINGUISTICS 3 credits
Prerequisite: 270 or permission. In-depth scientific look at language structure, especially the relation of sentences and their meanings. The variety of the English language's methods for constructing complex sentences from simple ideas is investigated.

3300:377 ADVANCED POETRY WRITING 3 credits
Prerequisite: 277 or permission. Advanced practice in writing poems, with an emphasis on shaping publishable works. Survey of poetry market. Class discussion of student poems; individual conference with instructor.

3300:378 ADVANCED FICTION WRITING 3 credits
Prerequisite: 278 or permission. Advanced practice in writing short stories, with an emphasis on shaping publishable works. Survey of fiction market. Class discussion of student stories; individual conferences with instructor.

3300:389 SPECIAL TOPICS IN LITERATURE AND LANGUAGES 3 credits
Prerequisite: 110 or 112. Traditional and non-traditional topics in English literature and language, supplementing courses listed in the University Bulletin, generally constructed around theme, genre, and language study. The
A close study of Chaucer's major works — The Canterbury Tales and Troilus and Cressyde in Middle English.

The poetry and prose of the later nineteenth century, including Beowulf.

The first half of this course examines satire as a major mode in the work of Butler, Dryden, Pope, Swift among others. The second half emphasizes Johnson and Boswell.

The literary, philosophical, psychological, and social revolutions of the Romantic Period as reflected in the works of such major writers as Wordsworth, Byron, and Keats.

A concentrated study of the major poems of Veats, Eliot and Auden, whith attention also to Hardy, Rouman, Spender, C. Day Lewis, Dyan Thomas, and others.

A study of important British novelists since 1925, excluding Lawrence, Joyce and Woolf. Attention also to the development of the British short story from 1925 to the present.

A study of the major British dramatists, principally those post-World War II Shaw, Galsworthy, O'Casey, Osborne, Arden, Pinter — these are the focal figures.

A study of non-fictional writing including the journals, notebooks, autobiographical writings, biographies, and essays of major American Writers.

An examination of early American fiction, tracing its genesis, its romantic period, and its germinal movements toward realism. Writers discussed include Cooper, Poe, Hawthorne, Melville and Twain.

An examination of American writers of realistic and naturalistic fiction (e.g., Howells, James, Crane, Dreiser), tracing developments in American fiction against the background of cultural and historical change.

A study of significant American short and long fiction from Sherwood Anderson to Kurt Vonnegut.

An overview of major authors of the earlier seventeenth century, especially Bacon, Donne, Bunyan, Jonson, and several fiction writers. The course involves genre study, historical and cultural perspectives, and new Critical analyses.

Emphasis is placed upon Milton's major poems and prose works: Paradise Lost, Paradise Regained, Areopagitica, the divorce tracts, and the poems of the 1645 edition. Students become acquainted with Milton the man and Milton the artist.

The poetry and prose from the early Tudor period to the later Elizabethan period, excluding drama. The literature will be studied in the context of the general intellectual and artistic movements of the age.

A study of the major British novelists since 1925, excluding fiction, with an emphasis upon historical, critical and intellectual trends toward realism. Writers discussed include O'Neill, Miller, Williams, Albee and Rabe.

The development of the English language from its genesis, its romantic period, and its germinal movements toward realism. Writers discussed include Cooper, Poe, Hawthorne, Melville and Twain.

A study of non-fictional writing including the journals, notebooks, autobiographical writings, biographies, and essays of major American Writers.
The writings of John Keats, studied against the background of romantic poetic theory and the poetry of Keats' contemporaries.

3300:632 VICTORIAN POETS 3 credits
A study of major poems of Tennyson, Browning, Arnold and Hopkins, in light of Victorian intellectual currents and theories of poetry. Brief attention to Swinburne, D. G. Rossetti and later Victorian poets.

3300:629 THEORY AND PRACTICE OF MODERN POETRY 3 credits
A study of modern prosody, critical theories of modern poetry, and the relation between a writer's theory and his practice, with particular attention to Frost, Stevens, Yeats, Eliot.

3350:645 AMERICAN ROMANTIC FICTION 3 credits
An intensive exploration of American romantic fiction, focusing especially on the writings of Poe, Hawthorne, and Melville.

3300:649 REALISM AND NATURALISM IN AMERICAN FICTION 3 credits
Analysis of the relevant works of J.W. DeForest, Stephen Crane, Theodore Dreiser, W.D. Howells, Frank Norris, and selected writers of local color and native honor.

3300:655 LITERARY CRITICISM. 3 credits
An inquiry into the nature and value of literature and the problems of practical criticism as represented in major statements of ancient and modern critics.

3300:670 MODERN LINGUISTICS. 3 credits
Introductory examination of methods and results of modern grammatical research in syntax, semantics, phonology, and dialects. Goals include understanding of language variation and background preparation for linguistic studies of literature.

3300:679 SCHOLARLY WRITING. 2 credits
A study of theories of good and bad writing styles and the forms of scholarly writing, with special attention to thesis and dissertation writing and the scholarly essay, and to the special requirement of journal articles. Class discussion and demonstration, drawn from scholarly and dissertation writing and from the students' own writing.

3300:689 SEMINAR IN ENGLISH. 2-3 credits
Special topics within the general field of literature and language, usually focusing on major figures or themes. Can be repeated as different topics are offered.

3300:691 BIBLIOGRAPHY AND LITERARY RESEARCH. 2 credits
Examine choosing research topics, typical problems in literary scholarship, abstracting of scholarly material, and bibliographic sources for literary research. Bibliographic exercises are done and models of literary scholarship read.

3300:598 INDIVIDUAL READING IN ENGLISH. 1-2 credits
Individual study under the guidance of a professor who will direct and coordinate the student's reading and research.

3300:599 RESEARCH ENGLISH: THESIS. 3 credits
Original work in the field of literature and language and the completion of the graduate student's required thesis.

3350: GEOGRAPHY

3350:100 INTRODUCTION TO GEOGRAPHY 3 credits
Analysis of world patterns of population characteristics, economic activities, settlement features, landforms, and climate as an interrelated complex.

3350:210 PHYSICAL AND ENVIRONMENTAL GEOGRAPHY 3 credits
Landforms, weather and climate, soils and vegetation, and natural hazards. The nature and distribution of these environmental elements and their significance to man. Laboratory.

3350:220 ECONOMIC GEOGRAPHY 3 credits
The geographical basis for production, exchange, and consumption of goods. The effect of economic patterns on man's cultural and political relationships.

3350:230 RURAL AND URBAN SETTLEMENT 3 credits
The origin, function and rationale of settlements. Includes analysis of rural settlement landscape as well as fundamentals of urban geography.

3350:240 MAPS AND MAP READING 3 credits
Interpretation and use of various map materials. Study of basic map elements, symbolism, and methods of creating maps. Historical aspects associated with these developments also considered. Laboratory.

3350:314 CLIMATOLOGY 3 credits
Prerequisite: 210 or permission. Analysis and classification of climates, with emphasis on regional distribution. Basic techniques in handling climatic data.

3350:326 ENERGY AND ECOLOGY 3 credits
Prerequisite: 220 or permission. The traditional fossil fuels and recently developed alternative sources of energy are studied along with electricity production. Production and consumption patterns, effects of conservation and environmental damage, and energy policy are considered.

3350:335 RECREATION RESOURCE PLANNING 3 credits
Prerequisite: 230 or permission. The effect of the physical and economic environment on recreational patterns. Case studies of important recreational activities and areas in which tourism contributes significantly to the area economy.

3350:340 CARTOGRAPHY 3 credits
Use of graphic/cartographic principles and techniques as a means of presenting information.

3350:350 ANGLO AMERICA 3 credits
Prerequisite: 100 or permission. A regional and topical study of the U.S. and Canada, with emphasis on environmental, economic, and cultural patterns and their interrelationships.

3350:353 LATIN AMERICA 3 credits
Prerequisite: 100 or permission. An analysis of the relationship of cultural and economic patterns to physical environment in Mexico, Central America, the Caribbean, and South America.

3350:356 EUROPE 3 credits
Prerequisite: 100 or permission. Regional and topical analysis of cultural, economic, and environmental patterns, excluding the U.S.S.R.

3350:358 U.S.S.R. 3 credits
Prerequisite: 100 or permission. Regional and topical analysis of cultural, economic, and environmental patterns, with comparison to other major world regions.

3350:360 ASIA 3 credits
Prerequisite: 100 or permission. Environmental, cultural, and economic geography of East, Southeast, South Asia, and the Middle East with emphasis on the contemporary.
3350:363 AFRICA SOUTH OF THE SAHARA 3 credits
Prerequisite: 100 or permission. Environmental and human bases of regional contrasts. Emphasis on tropical environmental systems and changing patterns of resource utilization.

3350:385 PLANNING SEMINAR 1 credit
Prerequisite: permission of instructor. Development of planning studies including completion of a paper covering a planning topic in depth. Projects are presented by students and critically analyzed.

3350:397 SPECIAL PROBLEMS 1-3 credits
Prerequisite: permission of instructor. Directed reading and research in special field of interest. May be repeated to a total of five hours.

3350:423/528 INDUSTRIAL AND COMMERCIAL SITE LOCATION 3 credits
Prerequisite: 220 or permission. Relationship between land, resources, population, transportation and the industrial and commercial location process.

3350:423/533 URBAN, REGIONAL AND RESOURCE PLANNING 3 credits
Prerequisite: 230 or permission. The role of geographic investigation in city, regional, and resource planning.

3350:436/536 URBAN LAND USE ANALYSIS 3 credits
Prerequisite: 230 or permission. Land use classification systems and their spatial variation in urban areas. Land use data are collected by students by field workers and analyzed to identify the associations and structure of sub-regions.

3350:438/538 WORLD METROPOLITAN AREAS 3 credits
Prerequisite: 230 or permission. Comparative analysis of selected metropolitan regions of the world. Urbanism, land use, housing, transportation, population, and the role of cities in economic development in different cultures.

3350:442/542 THEMATIC CARTOGRAPHY 3 credits
Prerequisite: 240 or permission. Principles and techniques used in thematic mapping. Stresses use of maps to indicate certain characteristics of classes of information both qualitative and quantitative.

3350:444/544 MAP COMPI lATION AND REPRODUCTION 3 credits
Prerequisite: 240 or permission. Production of new/improved maps from existing maps, aerial photographs, surveys, new data, and other sources. Includes special cartographic considerations for photography, lithography, and printing.

3350:447/547 INTRODUCTION TO REMOTE SENSING 3 credits
Prerequisite: 240 or permission. Study of aerial photography and non-photographic imagery developed by radar, thermal, multi-spectral and satellite scanners. Emphasis on use in geographical, geological, biological and engineering research.

3350:448/548 AUTOMATED COMPUTER MAPPING 3 credits
Prerequisite: 240 or permission. Study of computer assisted map compilation and execution. Emphasis is placed upon integration of computer and cartographic skills and techniques. Problems adapted to specialized interests of students.

3350:449/549 ADVANCED REMOTE SENSING 3 credits
Prerequisite: 447/547 or permission. Current research in remote sensing. Applications in the study of man's cultural and bio-physical environment. Practice in planning, design, execution, and interpretation of remote sensing studies.

3350:481/581 INTRODUCTION TO GEOGRAPHIC RESEARCH 2 credits
Prerequisite: 12 hours of Geography courses. The techniques and source materials used in geographic research. Library resources and techniques of professional writing are stressed.

3350:483/583 INTRODUCTION TO SPATIAL ANALYSIS 2 credits
Prerequisite: 481/581 or permission. Analysis of mapped statistical surfaces (assumptions, properties, appropriate uses). Principles for the use of the map as a model for statistical evidence, prediction, and hypothesis testing.

3350:490/590 WORKSHOP IN GEOGRAPHY 1-3 credits
Group studies of special topics in Geography. May be repeated to a total of six hours.

3350:495/595 SOIL AND WATER FIELD STUDIES 3 credits
Prerequisite: 210 or permission. Properties, origins, and uses of major soil and water regime landscapes. Stresses relationships between soil and the hydrological cycle, urbanization, suburbanization and agriculture. Field trips required.

3350:496/596 FIELD RESEARCH METHODS 3 credits
Prerequisite: 481/581 or permission. Field work enabling the student to become competent in the collecting, organizing, and analysis of the data while carrying out field research projects.

GRADUATE COURSES

3350:600-601-602 SEMINAR 3 credits each
Prerequisite: permission. Investigation and analysis of selected topics in particular fields of geography. Specialization indicated by second portion of title. Each may be repeated for a maximum of 6 credits.

3350:680 ADVANCED SPATIAL ANALYSIS 4 credits
Prerequisite: 483/583 or permission. Advanced concepts and methodologies in geographical research. Emphasis on the quantitative revolution in geographical analysis including multivariate procedures as factor, discriminant, and economical analysis, and multidimensional scaling.

3350:685 PLANNING—FIELD EXPERIENCE 2 credits
Prerequisite: permission. Individual experience in selected planning agencies for supervised performance in professional planning work.

3350:687 HISTORY OF GEOGRAPHIC THOUGHT 3 credits
Prerequisite: 481/581 or permission. A critical review of the major developments in geographic concepts from ancient times to the present.

3350:698 INDIVIDUAL READING AND RESEARCH 1-3 credits
Prerequisite: permission of the instructor. Intensive investigation of selected topics under the guidance of a faculty member. May be repeated to a total of five hours.

3350:699 THESIS RESEARCH 2 credits
Prerequisite: permission of Department Head. Supervised original research.
3370: GEOLGY

3370:100 EARTH SCIENCE 3 credits
Introduction to earth science for non-science majors. Survey of the earth in relation to its physical, composi-
tion, structure history, atmosphere, oceans, and relation to solar system and universe.

3370:101 INTRODUCTORY PHYSICAL GEOLOGY 4 credits
Comprehensive survey of the minerals, rocks, structures, geologic processes of the solid earth. Laboratory.

3370:102 INTRODUCTORY HISTORICAL GEOLOGY 4 credits
Prerequisite: 101. Geologic history of the earth and succession of major groups of plants and animals as interpreted from rocks and fossils. Laboratory.

3370:200 ENVIRONMENTAL GEOLOGY 3 credits
Analysis of the geologic aspects of man's environment with emphasis on geologic hazards of the environmen-
tal impact of society's demand for water, minerals and energy.

3370:201 EXERCISES IN ENVIRONMENTAL GEOLOGY 1 credit
Recognition and evaluation of environmental problems related to geologic setting through field and laboratory exercises and demonstrations which apply concepts from Environmental Geology.

3370:202 GEOLOGY OF THE NATIONAL PARKS 2 credits
Prerequisites: 100 or 101. The geologic setting of major national parks, interpreted in terms of those geologic principles and processes which have shaped them in the past and/or currently affect them, including the rock cycle, evolution of landscapes, and plate tectonics. No laboratory.

3370:210 GEOMORPHOLOGY 3 credits
Prerequisites: 101. Landforms of the earth. Emphasis on origins, geologic processes, and distributions. Labo-

3370:230 MINERALOGY 3 credits
Prerequisites: 101 and 3150:132. Study of morphologi-
cal crystallography and general mineralogy. Laboratory emphasis on mineral recognition. Concen-
tration will be in either: "A" Crystallography or "B" Physical-Chemical-Descriptive Mineralogy. Student may earn credit for both "A" and "B", a maximum of 6 credits. Laboratory.

3370:232 PETROLOGY 2 credits
Prerequisite: 230. Megascopic identification, classification, and concepts of origin of igneous, sedimentary, and metamorphic rocks. Laboratory.

3370:271 OCEANOGRAPHY 3 credits
Prerequisite: 101. Introduction to the physical pro-
cesses, geologic history, and development of marine areas.

3370:324 SEDIMENTATION AND STRATIGRAPHY 3 credits
Prerequisite: 102. Introduction to the processes and environments of sedimentation and stratigraphic principles employed in the examination of sedimentary strata. Hand specimens and sequences of sedimentary strata will be studied. Laboratory.

3370:350 STRUCTURAL GEOLOGY 4 credits
Prerequisite: 101 or permission. Origins and characteristics of folds, faults, joints, and rock cleavage. Structural features of sedimentary, igneous, and metamorphic rocks. Laboratory.

3370:360 INTRODUCTORY INVERTEBRATE PALEONTOLOGY 4 credits
Prerequisite: 102 or permission. An introductory course emphasizing morphology and evolution of the major invertebrate groups with consideration of practical applications of paleontology. Laboratory.

3370:395 FIELD METHODS IN GEOLOGY 2 credits
Prerequisites: 101 and 102 or permission. Use of geologic field equipment including Brunton compasses, altitudes and plane tables, stereoscopes, and aerial photographs.

3370:404/504 ASTROGEOLOGY 3 credits
Prerequisites: 433; 3150:134; 3650:233 or 263 or 269; or permission. Relations of planet earth to the solar system and universe. Analysis and implications of data from lunar and space probes.

3370:410/510 REGIONAL GEOMORPHOLOGY OF NORTH AMERICA 3 credits
Prerequisites: 101, 102, 210, or permission. Recommended, 250. Examination of physiographic provinces of North America emphasizing structure, tectonic setting, stratigraphy and processes responsible for landforms in each province. Laboratory.

3370:411/511 GLACIAL GEOLOGY 2 credits
Prerequisite: 210 or permission. Causes and effects of the Pleistocene expansion of polar ice masses with emphasis on glacial deposits and world climatic changes.

3370:425/525 STRATIGRAPHY 3 credits
Prerequisites or corequisites: 360; 324 or permission. Principles of nomenclature; sedimentary facies; fossils in subdivision of the rock record and correlation; geologic time, time-rock, and rock units. Field studies.

3370:432/532 OPTICAL MINERALOGY 3 credits
Prerequisite: 231 or equivalent. Introduction to the petrographic microscope. Optical properties and iden-
tification of minerals in thin section and as crushed fragments. Laboratory.

3370:433/533 PETROGRAPHY 3 credits
Prerequisite: 3450:235, 3650:298. Origin and petrogenesis of igneous, metamorphic, and sedimentary rocks as determined by microscopic studies of textures and mineral assemblages in thin section.

3370:435/535 PETROLEUM GEOLOGY 3 credits
Prerequisite: 250 or permission, recommended, 324. Natural occurrences of petroleum. Characteristics, origin, entrapment, and exploration methods.

3370:437/537 ECONOMIC GEOLOGY 3 credits
Prerequisites: 250 and 433. Study of metallic and nonmetallic mineral deposits emphasizing paragenesis and exploration. Laboratory.

3370:441/541 FUNDAMENTALS OF GEOPHYSICS 3 credits
Prerequisites: 3450:235 or permission and 3650:293. Fundamental concepts in solid earth geophysics, plan-
tary physics, geodesy, and geomagnetism. Contributions of geophysics to recent major developments in geoscience.

3370:446/546 EXPLORATION GEOPHYSICS 3 credits
Prerequisites, 3450:235, 3650:298. Basic principles and techniques of geophysical exploration with emphasis on gravimetric, magnetic, seismic, and electrical methods and application to geological problems. Laboratory.

3370:450/550 ADVANCED STRUCTURAL GEOLOGY 2 credits
Prerequisite, 215 or permission. Fundamental and advanced concepts of structural geology with emphasis on current and developing concepts.
3370:453/563 MICROPALAEONTOLOGY 3 credits
Prerequisite, 3370 or permission. Introduction to the techniques of micropalaeontology evolution and paleoecology of selected microfossil groups.

3370:470/570 GEOCHEMISTRY 3 credits
Prerequisites: minimum of 12 credits in chemistry and geology or permission. Chemical systems of the earth, both open and closed, with emphasis on mineral-water relationships. Laboratory.

3370:474/574 GROUND-WATER HYDROLOGY 3 credits
Prerequisite: 101. Origin, occurrence, regimes, and utilization of ground-water. Qualitative and quantitative presentation of the geological and geochemical aspects of ground-water hydrology. Laboratory.

3370:490/590 WORKSHOP I-3 credits
Group studies of special topics in geology. May not be used to meet undergraduate or graduate major requirements in geology. May be used for elective credit only. May be repeated.

3370:495 FIELD STUDIES IN GEOLOGICAL STRUCTURES AND PROCESSES 1 credit
(May be repeated for a total of 4 credits.) Prerequisite, permission. Field trip course emphasizing phases of geology not readily studied in Ohio. Includes pretrip preparation and post trip examination. Students will bear trip expenses.

3370:496/596 GEOLOGY FIELD CAMP 6 credits
Prerequisites: 215 and permission; recommended, 217, 313, 323. Emphasis on collection, recording, and interpretation of field data; detailed structural and stratigraphic field study.

3370:499 RESEARCH PROBLEMS 1 credit
(May be repeated for a total of 4 credits.) Prerequisite, permission. Directed reading and research in an aspect of geology chosen by student in consultation with an instructor.

GRADUATE COURSES

3370:608 REMOTE SENSING IN GEOLOGY 3 credits
Prerequisites: 3350:447/547, or equivalent. Techniques for analysis and processing of remotely sensed data from conventional and satellite sensing systems. Applications to local, regional and global geologic and environmental geology problems. Laboratory.

3370:610 APPLIED QUANTITATIVE GEOMORPHOLOGY 3 credits
Prerequisite: 210. Quantification of geomorphic processes and associated landforms. Application of statistical methods and evaluation of the validity of these methods. Examination of these methods in practical problems: Lecture and Laboratory.

3370:623 SEDIMENTARY PETROLOGY 3 credits
Prerequisite: 324 and 432/532 or permission. Detailed hand specimen and thin section examination of selected sedimentary suites, particularly with respect to mineralogy and texture. Laboratory.

3370:631 ROCKS AND MINERALS 4 credits
Prerequisite: 101 and permission. Intensive course integrating crystallography, mineralogy, and petrology for science teachers and graduate students from disciplines other than geology. Laboratory.

3370:632 IGNEOUS PETROLOGY 3 credits
Prerequisite: 435/533. Origin and paragenesis of igneous rocks. Theory, petrochemistry, and occurrences of the major igneous rock types. Selected rock suites will be studied. Laboratory.

3370:633 METAMORPHIC PETROLOGY 3 credits
Prerequisite: 433/533. Textures, chemistry of metamorphic reactions, phase diagrams, and the occurrences of metamorphic rocks. Selected rock suites will be studied. Laboratory.

3370:634 CLAY MINERALOGY 3 credits
Prerequisite: 432/532. The classification, identification, and genesis of clay minerals and clay rocks, their use and exploitation. Laboratory will stress methods of identification of clay minerals and the analysis and petrogenetic interpretation of clay materials in suites of samples from the rock record.

3370:636 COAL GEOLOGY 3 credits
Prerequisites: 101, 102, suggested, 324. Origin, composition, and occurrence of coal with emphasis on depositional environments, coalification processes, exploration, evaluation, and exploitation. Laboratory.

3370:638 ORE MICROSCOPY 3 credits
Prerequisites: 432/532, 437/537. Identification and study of ore minerals and their textures using the reflected-light microscope. Discussion of diagnostic physical and optical properties of opaque minerals.

3370:643 GEOSTATISTICS 3 credits
Prerequisites: 101, 481/581, or an equivalent course in statistics. Application of statistical methods to geology and geophysics, including tests of hypotheses, trend surface analysis, analysis of variance, nonparametric statistics and time series analysis.

3370:645 TERRESTRIAL HEAT FLOW 3 credits

3370:656 GLOBAL TECTONICS 3 credits
Prerequisites: 350, 441/541, or permission. Theoretical study of the physical forces involved in the formation and deformation of the earth’s crust with emphasis on plate tectonics and associated diastrophic features.

3370:660 EVOLUTION AND THE FOSSIL RECORD 2 credits
Prerequisite 360. Major features of evolution including rates and extinction using selected fossil groups as examples.

3370:674 ADVANCED GROUND WATER HYDROLOGY 3 credits
Prerequisites: 474/574. Study of water table and artesian aquifers under steady and non-steady state conditions. Collection and evaluation of field data with regard to theory. Water well and well field design. Lecture. Laboratory, and Field Work.

3370:675 GEOCHEMICAL METHODS OF PROSPECTING 2 credits
Prerequisites: 9 credits of chemistry, 9 credits of mineralogy and/or petrology, recommended 537 and 570. Application of geochemical methods of analysis and interpretation to the search for ore deposits, emphasis on stability, mobility, and associations of elements in geologic environments. Laboratory.

3370:678 URBAN GEOLOGY. 3 credits
Prerequisites, 210, 217 or permission. Problems of urbanization related to our finite resources and creation of wastes. Geologic hazards. Case histories demonstrate the application of geologic data to urban development.

3370:680 SEMINAR IN GEOLOGY. 2 credits
(may be repeated for a total of 9 credits). Selected topics for discussion, reference material from original published literature.
3370:684 SELECTED TOPICS IN GEOLOGY. 1-3 credits
(may be repeated for a total of 8 credits). Prerequisite, permission. Topics not regularly offered as formal courses, generally of classic or current importance. Entails lectures, readings, discussions, and/or guided laboratory work.

3370:685 ADVANCED FIELD STUDIES. 1 credit
(may be repeated for a total of 4 credits). Prerequisite, permission. Field trip course emphasizing phases of geology not readily studied in Ohio. Includes pretrip preparation, field observations and data gathering, post trip examination and/or written report. Students will bear trip expenses.

3370:698 GRADUATE RESEARCH PROBLEMS. 1 credit
(may be repeated for a total of 6 credits). Prerequisite: 3370:698 Graduate Research Problems. Directed reading and research in an aspect of geology chosen by student in consultation with an instructor.

3370:699 THESIS RESEARCH. 1-6 credits
Embodying an independent and original investigation. Must be successfully completed, report written and defended before a thesis committee.

3400: HISTORY

3400:201 U. S. HISTORY TO THE CIVIL WAR 4 credits
A survey of American history from the age of discovery through colonization, and nation building to the civil war era.

3400:202 U. S. HISTORY SINCE THE CIVIL WAR 4 credits
A survey of U. S. history from the civil war era to the present.

3400:207 EUROPE: RENAISSANCE THROUGH THE 18TH CENTURY 4 credits
A survey of European history from the renaissance and reformation; development of nation states, religious wars, the age of Louis XIV and the enlightenment.

3400:208 EUROPE: 19TH AND 20TH CENTURIES 4 credits
A survey of European history from the French Revolution and Napoleon; 19th century "isms", the formation of Germany and Italy, the two World Wars, totalitarian dictatorship, and the postwar age.

3400:220 BLACK PEOPLE OF THE UNITED STATES 3 credits
A survey of the social, economic, political and cultural history of Afro-Americans from the 17th century to the present.

3400:304 THE ANCIENT NEAR EAST 3 credits
Mesopotamia and Egypt; Israel and her neighbors to the time of the Persian Empire.

3400:305 GREECE 3 credits
The Minoans and Mycenaeans; classical Greece to the triumph of Macedon.

3400:306 ROME 3 credits
Rome and the Hellenistic East to the end of classical times.

3400:307 THE EASTERN ROMAN EMPIRE (324-1453) 3 credits
Byzantine culture and history from 324 to the fall in 1453.

3400:334 U. S. SOCIAL-CULTURAL HISTORY TO 1877 3 credits
Selected concepts and attitudes considered in their social, cultural, framework. Emphasis on population growth, rural and urban life, religion, education, literature, the arts, reform and impact of the civil war.

3400:335 U. S. SOCIAL-CULTURAL HISTORY SINCE 1877 3 credits
Selected concepts and attitudes; emphasis on business, agrarianism, self-made man cult, revolt against formalism, progressivism; impact of world wars, social-economic planning, trends in religion, education, literature and art.

3400:407/507 UNITED STATES DIPLOMACY TO 1919 3 credits
Establishment of basic policies, diplomacy of expansion, and emergence of a world power.

3400:408/508 UNITED STATES DIPLOMACY SINCE 1914 3 credits
Responses of government and the public to the challenges of war, peacemaking, and power politics.

3400:413 BLACK SOCIAL AND INTELLECTUAL HISTORY 3 credits
Examination of Black thought and activities reflective of Afro-American culture, conditions facing Black people within America and efforts toward coordinated Black activity.

3400:415/515 LATIN AMERICA: ORIGINS OF NATIONALITY 3 credits
Pre-Columbian civilizations, discovery and conquests; colonialism, struggle for independence, and the formation of new societies.

3400:416/516 LATIN AMERICA: THE TWENTIETH CENTURY 3 credits
Social revolution, political ideology and contemporary problems.

3400:337 THE WEST IN THE DEVELOPMENT OF THE UNITED STATES 3 credits
Examination of the westward movement from the revolution to the closing of the frontier; types of frontiers; the impact of the west as a section on the nation's development.

3400:338 WOMEN IN THE UNITED STATES 3 credits
Changing roles, status, self-images and activities of women in the context of American social, economic, political and intellectual movements.

3400:339 AMERICAN IMMIGRATION 3 credits
An examination of European migrants to the American colonies and the United States, their reasons for leaving Europe and coming to America, and their experience after arrival.

3400:340 PEACE, WAR AND MANKIND 3 credits
An historical examination of theories of war and peace, including a study of leaders, groups, and ideas for peace.

3400:350 SELECTED TOPICS IN HISTORY 3 credits
Includes experimental offerings such as those crossing subject or chronological lines, and subjects not listed in the catalogue. See departmental office for current subject.

3400:397 INDIVIDUAL STUDY OR RESEARCH IN HISTORY 1-3 credits
May be repeated for a maximum of 4 credits.) Prerequisite: Permission. For individual study or research in history, including special projects, and summer study tours, or specialized training.

3400:401 HONORS SEMINAR 3 credits
Prerequisite: Permission of chairman and instructor. Selected readings; the writing of a research paper; for students seeking to graduate with honors in history and for students in the University Honors Program.

3400:405/505 HISTORICAL METHODS 2 credits
Practice in historical research and writing. Required for history majors, and for graduate majors who have not taken equivalent course elsewhere but does not count for graduate hour requirements.
3400:417/517 THE U.S., LATIN AMERICA, AND IMPERIALISM 3 credits
Inter-American relations, militarism, dependency, Marxism, and recent international and ideological trends.

3400:418/518 MEXICO 3 credits
History of Mexico from Indian civilizations to the present with emphasis on relations with the United States; social and political ramifications of the 20th century Mexican revolution.

3400:420/520 COLONIAL AMERICA 3 credits
Establishment of European colonies in North America with special emphasis on English settlements and the evolution of the first British Empire to 1713.

3400:421/521 AMERICAN COLONIES FROM EMPIRE TO INDEPENDENCE 3 credits
Colonial life between the Glorious Revolution and the War of Independence. Anglo-French struggle for control of North America, the development of British colonial institutions and of American Independence.

3400:422/522 FOUNDING OF THE UNITED STATES 3 credits
The revolution and struggle for independence; creating a new nation from the Confederation to the Constitution and Federalist Era.

3400:424/524 NEW NATION AND THE JACKSONIAN ERA, 1801-1846 3 credits
Party formation and Jeffersonian politics; War of 1812 and the era of good feelings; westward expansion; Jacksonian democracy; Whigs and the age of reform.

3400:425/525 THE CIVIL WAR 3 credits
Slavery and causes of the Civil War; politics and the conduct of the war.

3400:426/526 THE CIVIL WAR AND RECONSTRUCTION 3 credits
Politics and the conduct of the war. Reconstruction and the roots of Jim Crow mentality: the emergence of an industrialized society.

3400:428/528 THE ORIGINS OF MODERN AMERICA 3 credits
The United States from the Reconstruction era to World War I (1877-1920); emphasis on political responses to the rise of an industrialized-urbanized society, the populist and progressive movements.

3400:429/529 THE UNITED STATES BETWEEN THE WORLD WARS 3 credits
World War I and Versailles; the 1920's, the great depression and the New Deal; World War II.

3400:430/530 RECENT AMERICA: THE UNITED STATES SINCE WORLD WAR II 3 credits
The nuclear age, cold war, foreign policy and domestic affairs to the present. Social, political, constitutional, diplomatic, cultural and economic changes since 1945.

3400:432/532 AMERICAN ECONOMY TO 1900 3 credits
A survey of economic developments from the colonial era to 1900, including agriculture, commerce and labor. Special emphasis on business and labor.

3400:433/533 AMERICAN ECONOMY SINCE 1900 3 credits
A survey of economic developments since 1900; topics include agriculture, business and labor. Special emphasis on the role of big business and the evolution of monetary and fiscal policy.

3400:435/535 OHIO 3 credits
The political, social, economic and intellectual history of Ohio, with special emphasis upon Ohio's relationship to the Old Northwest and to the nation.

3400:436/536 THE AMERICAN CITY 3 credits
Development of urbanization and its consequences from the colonial period to the present.

3400:442/542 EUROPE IN THE BAROQUE ERA 3 credits
The constitutional, diplomatic, cultural, intellectual and social developments of 17th century Europe.

3400:444/544 EUROPE IN THE FRENCH REVOLUTIONARY ERA 3 credits
Development of French Revolution; Napoleon's regime and satellite kingdoms.

3400:445/545 MEDIEVAL EUROPE, 400-1200 3 credits
The migration of peoples, Carolingian revival, renewed invasions; social, economic, and intellectual stirrings leading to the "birth of Europe."

3400:446/546 MEDIEVAL EUROPE, 1200-1500 3 credits
The middle ages and the middle class; economic and political change, international wars, social unrest, and religious cross-currents.

3400:449/549 THE RENAISSANCE 3 credits
The European renaissance (1350-1600). Economic and political trends with special emphasis on intellectual and artistic developments.

3400:450/550 THE REFORMATION 3 credits
Europe in the 16th century: its religious, cultural, political and diplomatic development, with special emphasis upon the Protestant, Anglican and Catholic reformations.

3400:451/551 NINETEENTH CENTURY EUROPE, 1815-1871 3 credits
Europe in the century of change; revolution, romanticism, industrialization, democratization, the first wars of the industrial age.

3400:452/552 NINETEENTH CENTURY EUROPE, 1871-1914 3 credits
Socialism, imperialism, nationalism and the great war. The belle epoque and contemporary artistic and intellectual currents.

3400:454/554 TWENTIETH CENTURY EUROPE, 1914-1939 3 credits
Europe between world wars; Russian revolution, fascism and national socialism; the plight of the democracies.

3400:455/555 TWENTIETH CENTURY EUROPE SINCE 1939 3 credits
Europe in World War II, the cold war, and attempts at unity.

3400:458/558 RUSSIA TO 1801 3 credits
A survey of Russian history from the Kievan period to the death of Paul I, emphasizing the development of autocratic government, Russia culture, the reigns of Peter and Catherine.

3400:459/559 RUSSIA SINCE 1801 3 credits
A survey of the 19th and 20th centuries. Special emphasis on problems of modernization. The revolution and the development of communism.

3400:470/570 ANGLO-SAXON AND MEDIEVAL ENGLAND 3 credits
Anglo-Saxon life, thought and institutions; the Norman conquest; medieval life, thought and institutions to 1471.

3400:471/571 EARLY MODERN ENGLAND TO 1640 3 credits
Yorkists and Tudors. transition from medieval to early
modern times; Elizabeth and the early Stuarts.

3400:473/P72 EARLY MODERN ENGLAND, 1640-1783 3 credits
Conflict under the Stuarts and civil war; the restoration, the sensible revolution and early Hanoverians. Politics, religion and society in the age of aristocracy.

3400:473/P73 ENGLAND SINCE 1783 3 credits
The agricultural and first industrial revolution; politics of reform and transition; the welfare state, society and war.

3400:477/P72 WESTERN SCIENCE AND TECHNOLOGY TO 1800 4 credits
Science and technology in Greek, Roman, Islamic and European societies. Scientific, technological developments related to one another and to the cultures of these societies; scientific and industrial revolutions.

3400:477/P78 WESTERN SCIENCE AND TECHNOLOGY SINCE 1800 4 credits
Continuing development of physical and biological sciences and technology in Western European and American societies. Second industrial revolution, atomic physics and weapons, evolution, genetics, and the chemical basis of life.

3400:480/P80 TRADITIONAL CHINA 3 credits
A selective study of institutional, intellectual, political and artistic developments in Chinese civilization from antiquity to the 18th century emphasis upon general features of traditional Chinese culture.

3400:481/P81 MODERN CHINA 3 credits
A survey of China since the 18th century with focus on the process of modernization. Background of the contemporary scene is stressed.

3400:485/P85 JAPAN 3 credits
A survey of the history of Japan from antiquity to the present; emphasis on developments since 1600, the impact of the west and the modernization process.

GRADUATE COURSES

3400:622 PROSEMINAR IN ANCIENT HISTORY 4 credits
Study of historical literature, sources of materials, and major interpretations of ancient history, especially Greek and Roman periods.

3400:623 SEMINAR IN ANCIENT HISTORY 4 credits
Prerequisite: 622. Research and writing in selected topics of ancient history, particularly Greek and Roman eras.

3400:625 PROSEMINAR IN MEDIEVAL HISTORY 4 credits
Study of historical literature, sources of materials, and major interpretations of medieval European history.

3400:628 SEMINAR IN MEDIEVAL HISTORY 4 credits
Prerequisite: 625. Research and writing in selected topics of European medieval history from the barbarian invasions through the later middle ages.

3400:631 PROSEMINAR IN MODERN EUROPEAN HISTORY TO 1815 4 credits
Study of historical literature, sources of materials, and major interpretations of early modern European history from the renaissance to the Napoleonic era.

3400:632 SEMINAR IN MODERN EUROPEAN HISTORY TO 1815 4 credits
Prerequisite: 631. Research and writing in selected topics of early modern European history, occasionally including social, economic and intellectual subjects.

3400:634 PROSEMINAR IN MODERN EUROPEAN HISTORY SINCE 1815 4 credits
Study of historical literature, sources of materials, and major interpretations of modern European history since the early 19th century.

3400:635 SEMINAR IN MODERN EUROPEAN HISTORY SINCE 1815 4 credits
Prerequisite: 634. Research and writing in selected topics of modern European history, occasionally including social, economic and intellectual subjects.

3400:651 PROSEMINAR IN THE HISTORY OF ENGLAND AND THE EMPIRE 4 credits
Study of historical literature, sources of materials and major interpretations, of English and British imperial history.

3400:652 SEMINAR IN THE HISTORY OF ENGLAND AND THE EMPIRE 4 credits
Prerequisite: 651. Research and writing in selected topics of English and British imperial history.

3400:666 PROSEMINAR IN AMERICAN HISTORY TO 1865 4 credits
Study of historical literature, sources of materials, and major interpretations of American colonial and U.S. history to the civil war.

3400:667 SEMINAR IN AMERICAN HISTORY TO 1865 4 credits
Prerequisite: 666. Research and writing in selected topics of American history from the colonial period to the civil war.

3400:669 PROSEMINAR IN AMERICAN HISTORY SINCE 1865 4 credits
Study of historical literature, sources of materials, and major interpretations of U.S. history since the civil war.

3400:670 SEMINAR IN AMERICAN HISTORY SINCE 1865 4 credits
Prerequisite: 669. Research and writing in selected topics of U. S. history since the civil war.

3400:677 PROSEMINAR IN LATIN AMERICAN HISTORY 4 credits
Prerequisite: two courses in Latin American studies, or permission of the instructor. Study of historical literature, sources of materials, and major interpretations of Latin American history.

3400:678 SEMINAR IN LATIN AMERICAN HISTORY 4 credits
Prerequisite: 677. Research and writing in selected topics in social, cultural, diplomatic, intellectual and political history of Latin America.

3400:689 HISTORIOGRAPHY 3 credits
A study of historians, historical writings and interpretations through the ages. Required for master's degree if candidate has not had equivalent undergraduate or graduate course elsewhere.

3400:694 THESIS RESEARCH 3 credits
Research for Master of Arts degree thesis.

3400:697-698 INDIVIDUAL READING FOR M.A. STUDENTS 1-3 credits each
Directed reading to fit individual student programs. May be repeated for a maximum of 6 credits total. Written permission of the instructor required.

3400:699 THESIS WRITING 3 credits
Prerequisite: 694. Writing of Master of Arts degree thesis.

3400:797-798 INDIVIDUAL READING FOR PH.D. STUDENTS 1-4 credits each
Directed reading to fit individual student programs. May be repeated for a maximum of 12 credits total. Written permission of the instructor required.

3400:889 DISSERTATION RESEARCH 1-12 credits
Research for the Doctor of Philosophy degree dissertation.

3400:889 DISSERTATION WRITING 1-12 credits
Prerequisite: 888. Writing of the Doctor of Philosophy degree dissertation.

3450: MATHEMATICS

3450:101 ELEMENTARY ALGEBRA 1 credit
Prerequisites: permission of instructor. Real numbers, review of arithmetic operations, symbolism, word problems, linear and quadratic equations.

3450:111 ALGEBRA 1 credit
Prerequisites: one year of high school algebra or equivalent. Sets, signed numbers, algebraic expressions, factoring, exponents, radicals, binomial theorem.

3450:112 ALGEBRAIC FUNCTIONS & GRAPHING 1 credit
Prerequisites: 111. Linear and quadratic functions and equations, complex numbers, inequalities, absolute value, ratio and proportions, graphing functions and inequalities.

3450:113 COMBINATORICS AND PROBABILITY 1 credit
Prerequisites: 112. Permutations, combinations, sample spaces, events, simple, compound, and conditional probability; Bernoulli trials, expectation and odds.

3450:114 MATRICES 1 credit
Prerequisites: 112. Nomenclature, operations, inverse, solution of linear equations in variables using elementary row operations.

3450:115 LINEAR PROGRAMMING 1 credit
Prerequisites: 114. Minimizing and/or maximizing a linear function subject to a system of linear inequalities (geometrically) and simplex method: introduction to game theory.

3450:117 INTRODUCTION TO TRIGONOMETRY 1 credit
Prerequisites: 112. Definitions of the trigonometric functions, identities, solving right triangles, applications.

3450:118 TRIGONOMETRIC FUNCTIONS & GRAPHING 1 credit
Prerequisites: 117. Graphing, identities, solving triangles, applications.

3450:121 ANALYTIC GEOMETRY 1 credit
Prerequisites: 112. Cartesian coordinate system; rational, logarithmic and exponential functions; sequences and series, limits and definition of series.

3450:122 DIFFERENTIAL CALCULUS 1 credit
Prerequisites: 121. Differentiation of algebraic, logarithmic and exponential functions, higher derivatives, partial derivatives, applications.

3450:123 INTEGRAL CALCULUS 1 credit
Prerequisites: 122. Indefinite and definite integral, differentials, change of variable, numerical integration, improper integrals, double integral.

3450:124 CALCULUS WITH TRIGONOMETRY 1 credit
Prerequisites: 118, 123. Differentiation and integration of trigonometric functions, trigonometric substitution, applications.

3450:131 NUMBER SYSTEMS 1 credit
Prerequisites: 112. Ancient number systems, number bases, Euclidean algorithm, modular arithmetic.

3450:132 ELEMENTARY GEOMETRY 1 credit
Prerequisites: 112. Definitions and measure of line segments, angles and triangles in Euclidean plane geometry, Hilbert's axioms.

3450:136 SYSTEMS OF MEASUREMENT 1 credit
Prerequisites: no. English and metric systems of weights and measures. Troy, avoirdupois and apothecaries' systems.

3450:138 MATHEMATICS OF FINANCE 1 credit
Prerequisites: 112. Simple and compound interest; bank discount, ordinary annuities (present value, amount & rate), amortization, annuities, perpetuities.

3450:147 ELEMENTARY FUNCTIONS I 2 credits
Prerequisites: High school algebra and trigonometry. Real numbers, equations and inequalities, radicals, absolute value, relations and functions, linear and quadratic functions, system of equations, matrices and determinants, complex numbers.

3450:148 ELEMENTARY FUNCTIONS II 2 credits
Prerequisites: High school algebra and trigonometry. Exponential and logarithmic functions, exponential and logarithmic equations, trigonometric functions, reduction formulas; trigonometric identities, arithmetic and geometric sequences and series, mathematical induction.

3450:149 PRE-CALCULUS MATHEMATICS 3 credits
Prerequisites: 3 years of high school mathematics. Sets, number systems, absolute value, relations, functions, polynomial functions, determinants, systems of equations and inequalities, trigonometric functions, trigonometric identities, exponential and logarithmic functions, complex numbers, infinite sequences, binomial theorem, mathematical induction.

3450:221 ANALYTIC GEOMETRY-CALCULUS I 4 credits
Prerequisites: 148 or 149. Real numbers, analytic geometry, limits, continuity, derivatives of algebraic functions, tangent and normal lines, extrema of functions, Rolle's theorem, mean value theorem, related rates, antiderivatives, definite integrals, areas, volumes, arc length.

3450:222 ANALYTIC GEOMETRY-CALCULUS II 4 credits
Prerequisites: 221. Derivatives of exponential, logarithmic trigonometric, inverse trigonometric, hyperbolic and inverse hyperbolic functions; methods of integration, moments, centroids, indeterminate forms, polar coordinates, vector algebra, cylindrical and spherical coordinates, vector valued functions, curvature.

3450:223 ANALYTIC GEOMETRY-CALCULUS III 4 credits
Prerequisites: 222. Sequences, series, power series, Taylor and Maclaurin series, binomial series, functions of several variables, limit, continuity, partial derivatives, differentials, directional derivatives, maxima and minima, double and triple integrals, surface area.

3450:235 DIFFERENTIAL EQUATIONS 3 credits
Prerequisites: 223. Methods of forming and solving important types of differential equations. The analysis of models involving differential equations of the first order and simple equations of the second order.

3450:301 HISTORY OF MATHEMATICS 2 credits
Prerequisites: 222. Origin and development of mathematical ideas.
3450:311 ABSTRACT ALGEBRA 3 credits
Prerequisites: 221. Introduction to groups, rings, integral domains; axiomatic foundation of the natural, integer, rational, real, and complex number systems.

3450:312 LINEAR ALGEBRA 3 credits
Prerequisites: 222. A study of vector spaces, linear transformations, matrices, determinants, inner products, the eigenvalue problem, quadratic forms, and canonical forms.

3450:313/THEORY OF NUMBERS 3 credits
Prerequisites: 222 or consent. Euclidean algorithm, unique factorization theorem, congruences, primitive roots, indices, quadratic residues, number-theoretic functions, Gaussian integers, and continued fractions.

3450:414/VARIABLE AND TENSOR ANALYSIS 3 credits
Prerequisites: 223. Vector algebra, calculus of scalar-vector, vector-vector-scalar, and vector-vector functions; integral theorems; coordinate transformations; cartesian, contravariant, covariant vectors and tensors; fundamental operations with tensors; differentiation of tensors; applications.

3450:415/COMBINATORICS AND GRAPH THEORY 3 credits
Prerequisites: 222 or consent. An introduction to the basic ideas and techniques of mathematical counting; properties of the structure of systems.

3450:416/COMPUTATIONAL LINEAR ALGEBRA 3 credits
Prerequisites: 312 or equivalent. Computational techniques related to linear algebra. Topics include direct and iterative methods for solving eigenvalue problems and consideration of questions concerning stability of solutions.

3450:421-422/ADVANCED CALCULUS I, II 3 credits each
Prerequisites: 235. Sequential. Real number system, sequences, series, set theory, continuity, differentiation, integration, partial derivatives, multiple integration, maxima and minima, convergence and uniform convergence, power series, improper integrals, transformations, line and surface integrals.

3450:425/COMPLEX VARIABLES 3 credits
Prerequisites: 225. Complex variables; elementary functions, differentiation and analytic functions; integration and Cauchy's Theorem; power series and Laurent series; the residue theorem; applications such as conformal mappings, inversion of integral transform.

3450:427-428/NUMERICAL ANALYSIS I, II 3 credits each

3450:431/SPECIAL FUNCTIONS AND OPERATIONAL CALCULUS 3 credits
Prerequisites: 235. Series solutions to differential equations; Bessel functions; orthogonal polynomials; self-adjoint boundary value problems and Fourier Series; Laplace transforms; Fourier Transforms.

3450:432/PARTIAL DIFFERENTIAL EQUATIONS 3 credits
Prerequisites: 235. First order linear and quasi-linear equations; the classical problems of mathematical physics; the uniqueness of solutions; methods of solution using Fourier series and integral transforms.

3450:435/INTERMEDIATE DIFFERENTIAL EQUATIONS 3 credits
Prerequisites: 235. The analysis and solution of systems of equations, both linear and nonlinear. Topics include stability theory, perturbation methods, asymptotic methods and applications from the physical and social sciences.

3450:436/MATHEMATICAL MODELS 3 credits
Prerequisites: 235. Formulation and analysis of mathematical models in the social and physical sciences. Analysis of deterministic and stochastic models. Topics may include stochastic processes, linear programming, graph theory, theory of measurement.

3450:441/CONCEPTS IN GEOMETRY 4 credits
Prerequisites: 222 or consent of instructor. An axiomatic treatment of both Euclidean and non-Euclidean geometries. Other concepts included are finite geometry, transformations, constructions, and inversions.

3450:442/PROJECTIVE GEOMETRY 3 credits
Prerequisites: 222 or consent. Complex projective planes, duality, homogeneous coordinates, 1-1 correspondence, cross ratios, harmonic ranges, conics, quadrilaterals, quadrangles, applications to Euclidean geometry, quadratic surfaces.

3450:445/INTRODUCTION TO TOPOLOGY 3 credits
Prerequisites: 312 or permission. Introduction to topological spaces and topologies, mappings, cardinality, homeomorphisms, connected spaces, metric spaces.

3450:481/NUMERICAL METHODS FOR SCIENTIFIC COMPUTATION 3 credits
Prerequisites: 235, 4450:206. Mathematical techniques for representing functions, approximating integrals, and solving ordinary differential equations are presented and implemented for the computer.

3450:498/TOPOLOGY 3 credits
Prerequisites: permission of instructor. May be repeated for a total of six credits. Selected topics in mathematics and applied mathematics at an advanced level.

3450:499/WORKSHOP IN MATHEMATICS 1-3 credits
Group studies of special topics in Mathematics and Statistics. May not be used to meet undergraduate or graduate major requirements in Mathematics and Statistics. May be used for elective credit only. May be repeated.

3450:497/INDIVIDUAL READING 1-2 credits
Prerequisite, Senior standing and permission. Mathematics majors only. Directed studies designed as an introduction to research problems, under the guidance of a selected faculty member.

3450:610/MATRIX ALGEBRA 3 credits
Prerequisites: 235. Study of matrix theory and techniques concerning inverses, linear systems of equations, vector spaces, transformations, quadratic forms, the problem, and canonical forms.

3450:611-612/ALGEBRAIC THEORIES I, II 3 credits each
Prerequisites: 311, 312 or 610. Sequential. An in-depth analysis of algebraic theory—monoids, groups, rings, modules, vector spaces, lattices, and algebras.

3450:621-622/FUNCTIONS OF A REAL VARIABLE I, II 3 credits each
Prerequisites: 422/522. Sequential. Real number sys-
tem, sets, limit theorems, continuous and semi-continuous functions, derivatives of functions, Borel sets and Baire functions, measure, measurable sets, measurable functions. Riemann and Lebesgue integration, multiple integration.

3450:625 ANALYTIC FUNCTION THEORY 3 credits
Prerequisites: 422/522. The complex number system, holomorphic functions, continuity, differentiability, power series complex integration, residue theory, singularities, analytic continuation, asymptotic expansion.

3450:627-628 ADVANCED NUMERICAL ANALYSIS I, II 3 credits each

3450:631 CALCULUS OF VARIATIONS 3 credits
Prerequisites: 235. Problems with fixed and moveable end points, problems with constraints, generalization to several variables, the maximum principle, linear time-optimal problems, the connecting between classical theory and the maximality principle.

3450:632 ADVANCED PARTIAL DIFFERENTIAL EQUATIONS 3 credits
Prerequisites: 422/522 or permission. Existence, uniqueness, and stability of solutions to general classes of partial differential equations. Methods for solving these classes are introduced, emphasizing both analytical and numerical techniques.

3450:633-634 CONTINUOUS SYSTEMS I, II 3 credits each
Prerequisite: 422/522 or permission of instructor. Sequential. Boundary value problems formulated as ordinary differential equations, partial differential equations, and integral equations are analyzed as linear differential equations using the theorems of generalized functions, Green's functions, and spectral theory. Particular attention is paid to Evolution and Potential equations as well as variational methods.

3450:635-636 DISCRETE SYSTEMS I, II 3 credits each
Prerequisite: 422/522 or permission of instructor. Mathematical programming, combinatorics, and stochastic processes are presented and applied to problems in the social and management sciences.

3450:642 DIFFERENTIAL GEOMETRY 3 credits
Prerequisites: 422/522. Analytic representation of space curves and surfaces, intrinsic geometry of a surface and geometry of surfaces in the large.

3450:645 TOPOLOGY 3 credits
Prerequisites: 422/522. Set theory, ordinal and cardinal numbers, topological spaces, filters and nets, separation, covering, metric spaces, homotopy, related topics.

3450:690 ADVANCED TOPICS IN MATHEMATICS 3 credits
Prerequisites: permission of instructor. May be repeated for six credits. Topics within the research interest of faculty members in Mathematics and Applied Mathematics.

3450:692 MATHEMATICS & STATISTICS SEMINAR 2 credits
For properly qualified candidates for the Master's degree in mathematics and statistics. Seminar type discussions involving special topics, complex number system, matrices, related problems. A supervised research project will be included in this course.

3450:699 RESEARCH & THESIS 2 credits
Prerequisites: permission. May be repeated for 4 credits. Properly qualified candidates for the Master's degree may obtain 4 credits for research experience which culminates in the presentation of a faculty-supervised thesis.

3470: STATISTICS

3470:251-257 INTRODUCTION TO STATISTICS
An introduction to the fundamental ideas of statistics at a pre-calculus level which includes topics from the following:

- 3470:251 DESCRIPTIVE STATISTICS AND PROBABILITY 1 credit
  Prerequisites: one semester of college algebra or equivalent.

- 3470:252 DISTRIBUTIONS 1 credit
  Prerequisites: 251

3470:253 HYPOTHESIS TESTING (PARAMETRIC) 1 credit
Prerequisites: 252

3470:254 HYPOTHESIS TESTING (NON-PARAMETRIC) 1 credit
Prerequisites: 253

3470:255 REGRESSION AND CORRELATION 1 credit
Prerequisites: 253

3470:256 EXPERIMENTAL DESIGN 1 credit
Prerequisites: 253

3470:257 TIME SERIES AND INDEX NUMBERS 1 credit
Prerequisites: 255

3470:450/550 PROBABILITY 3 credits
Prerequisites: 221. An introduction to probability, random variables and probability distributions, expected values, sums of random variables, Markov processes.

3470:451-452/551-552 THEORETICAL STATISTICS I, II 3 credits each
Prerequisites: 3450:223 and one semester course in calculus. Axiomatic approach to probability theory, stochastic processes, random variables, and probability distributions. Other selected topics.

3470:461/561 APPLIED STATISTICS 4 credits
Prerequisites: 345:223. Applications of statistical theory to the natural and physical sciences and engineering, including regression, correlation, analysis of variance, non-parametric statistics, sampling, quality control, and other selected topics.

3470:463/563 EXPERIMENTAL DESIGN I 3 credits
Prerequisites: 451 or 461. Fundamental principles of analysis of variance, crossed and nested designs, multiple comparisons, power considerations, randomized blocks, repeated measure designs, applications.

3470:464/564 EXPERIMENTAL DESIGN II 2 credits
Prerequisites: 461/563. Principles of confounding, latin squares, fractional designs, analysis of covariance, split plot designs, applications to problems in applied fields.

3470:480/580 STATISTICAL COMPUTER APPLICATIONS 3 credits
Prerequisites: 420/520 and one semester course in statistics or permission. Translation of statistical operations into computer languages, iterative procedures, generating data, Monte Carlo techniques, use of statistical packages.
3470:489/589 TOPICS IN STATISTICS 3 credits
Prerequisites: permission. May be repeated for a total of six credits. Selected topics in advanced statistics, including quality control, reliability, sampling techniques, decision theory, advanced inference, stochastic processes and others.

GRADUATE COURSES
3470:650 ADVANCED PROBABILITY 3 credits
Prerequisite: 652. Random walk, distributions, unlimited sequence of trials, laws of large numbers, convolutions, branching processes, renewal theory, Markov chains, time-dependent stochastic processes.

3470:651-652 MATHEMATICAL STATISTICS, I, II 3 credits each
Prerequisites: 3450:422/522. Sequential Probability theory, random variables, probability distributions, expectation, limit theorems, large and small sample theory, theory of tests of hypotheses, point and interval estimation, non-parametric, statistics theory, regression and correlation.

3470:655 LINEAR MODELS 3 credits
Prerequisite: 652. The general linear model in matrix notation, general linear hypothesis, regression models, experimental design models, analysis of variance and covariance, variance components.

3470:661-662 ADVANCED BEHAVIORAL STATISTICS I, II 3 credits each
Prerequisites: college level algebra or equivalent. Sequential. Descriptive statistics, probability, distributions, hypothesis testing, estimation, non-parametric statistics, correlation, simple and multiple regression, experimental designs, factorial experiments, comparisons, nested designs, repeat-measure designs, randomized blocks, analysis of covariance, applications.

3470:666 NON-PARAMETRIC STATISTICS-METHODS 2 credits
Prerequisite: 652. Sequential. Probability theory, random variables, probability distributions, hypothesis testing, estimation, non-parametric statistics, correlation, simple and multiple regression, experimental designs, factorial experiments, comparisons, nested designs, repeat-measure designs, randomized blocks, analysis of covariance, applications.

3470:668 MULTIVARIATE STATISTICAL METHODS 3 credits
Prerequisites: 662, 463/563. Multivariate techniques including distance concept, Hotelling's T², multivariate ANOVA, regression and correlation, linear contrasts, factorial experiments, nested and repeat measure designs, Bonferroni T² tests, linear discrimination analysis, canonical correlation, application.

3470:689 ADVANCED TOPICS IN STATISTICS 3 credits
Prerequisite: 652. May be repeated for a total of six credits. Selected topics in statistics including concepts in order, statistics, advanced inference, sequential analysis, stochastic processes, reliability theory, Bayesian statistics, and regression.

3500: MODERN LANGUAGE

3500:101-102 BEGINNING MODERN LANGUAGE, I, II 4 credits each
Sequential. Reading, speaking, writing and listening comprehension: intensive drill in pronunciation, short stories, outside reading and supplementary work in the Language Laboratory. May be repeated for a different language.

3500:201-202 INTERMEDIATE MODERN LANGUAGE, I, II 3 credits each
Sequential. Prerequisite: 102 (or equivalent). Grammar review, practice in reading, writing, speaking and listening comprehension: short stories, plays, novels on an intermediate level. May be repeated for a different language.

3500:490/590 WORKSHOP 2 credits
Group studies of special topics in Modern Languages. May be repeated.

3500:498 SENIOR HONORS PROJECT IN MODERN LANGUAGES 1-3 credits (May be repeated for a total of 6 credits.)
Prerequisite, senior standing in the University Honors Program and approval of Honors Preceptor. Open only to language majors who are enrolled in the University Honors Program. Independent study leading to the completion of a Senior Honors Thesis or other original work meeting high standards of research and scholarship.

3520: FRENCH

3520:101-102 BEGINNING FRENCH I, II 4 credits each
Sequential. A thorough study of the sound system and basic structural patterns of the French language, including oral practice and the reading of simple prose. A placement test is required.

3520:201-202 INTERMEDIATE FRENCH I, II 3 credits each
Audio-oral sections. Sequential; prerequisite, 102 or equivalent. Practice in reading, writing, speaking and listening comprehension. Grammar review, short stories, plays and novels on an intermediate level. A placement test is required.

3520:207-208 INTERMEDIATE FRENCH I, II READING OPTION 3 credits each
Sequential; prerequisite, 102 or equivalent. Reading and translation of texts dealing with contrasting French and American customs, values, and attitudes.

3520:301-302 FRENCH COMPOSITION AND CONVERSATION 3 credits each
Prerequisite, 202 or equivalent. Free composition, special attention to vocabulary and idioms, development of oral expression and conversational ability.

3520:305-306 INTRODUCTION TO FRENCH LITERATURE 3 credits each
Prerequisite, 202 or equivalent. Survey of French literature from its origins to the present, with lectures, readings and class discussion of representative works.
CIVILIZATION

Study

Prerequisite, literature and civilization as characterized in movies. Presentation with class discussions of the French

MOVIES

3520:312

Conducted in French.

Prerequisite:

3520:401

Discussion of the most representative works of the

dent's accent, emphasis on articulation, intonation and

Prerequisite,

3520:427/527 20TH CENTURY

Methods of French literary history.

Prerequisite:

3520:415/515

Discussion of selected works pertaining to the

nary works.

Prerequisite:

3520:641 SEMINAR: FRANCOPHONE LITERATURE, CULTURE, AND CIVILIZATION 2 credits

Study of various aspects of culture, civilization and literature of French expression outside of France.

3520:642 SEMINAR: THE IMAGE OF THE WOMAN IN FRENCH LITERATURE 2 credits

Study of the woman as characterized in French literature from the Middle Ages to the present.

3520:661 FRENCH TEACHING PRACTICUM 2 credits

Orientation and practice of particular aspects of teaching language and culture. Periodical review and evaluation. Credits may not be applied toward degree requirement.

3520:697-698 INDIVIDUAL READING AND RESEARCH SEMINAR 1-4 credits each

Permission. Independent study and research in specific areas. Considerable reading and writing required.

3520:699 THESIS WRITING 4 credits

GERMAN

3530:101-102 BEGINNING GERMAN I, II.

4 credits each.

Sequential. Reading, speaking, writing and listening comprehension, intensive drill in pronunciation, short stories, outside reading and supplementary work in the Language Laboratory.

3530:201-202 INTERMEDIATE GERMAN I, II.

3 credits each.

Sequential; prerequisite, 102 or equivalent. Grammar review, reading, writing, speaking, listening comprehension; short stories, plays, novels on intermediate level, outside reading and supplementary work in the Language Laboratory.

3530:207-208 INTERMEDIATE GERMAN I, II.

READING OPTIONS. 3 credits each

Sequential; Prerequisite, 102 or equivalent and permission. Reading of German texts in culture and civilization, discussion in English, translation and grammatical analysis where appropriate. Not open to majors.

3530:250 20TH CENTURY GERMAN LITERATURE IN TRANSLATION 2 credits.
Readings and discussion of the works of Mann, Rilke, Hesse, Kafka, Benn, Brecht, Frisch, Durrenmatt, Borchert and Grass. May not be taken for credit toward the major in German.

3530:251 19TH CENTURY GERMAN LITERATURE IN TRANSLATION. 2 credits. Readings and discussion of the works of Kleist, Heine, Hebbel, Keller, Storm, Meyer, and Hauptmann. May not be taken for credit toward the German major.

3530:252 AGE OF GOETHE IN TRANSLATION. 2 credits. Readings and discussions of representative drama, prose and poetry of Lessing, Goethe and Schiller. May not be taken for credit toward the German major.

3530:301-302 GERMAN CONVERSATION AND COMPOSITION. 3 credits each. Prerequisite, 202 or equivalent. Advanced composition using German models, special attention to words and idioms, development of oral expression and conversational ability.

3530:305-306 INTRODUCTION TO GERMAN LITERATURE. 3 credits each. Prerequisite, 202 or equivalent. Introduction to the study of German literature. Readings and class discussions in German of representative works. Conducted in German.

3530:351-352 TRANSLATION GERMAN. 3 credits each.

3530:403-404 ADVANCED GERMAN CONVERSATION AND COMPOSITION. 3 credits each. Prerequisite, 302 or equivalent. A thorough analysis of syntax, morphology, phonetic principles and grammatical structure.

3530:406-407 GERMAN CULTURE AND CIVILIZATION 3 credits each. Prerequisite: 302 or 306 or equivalent. Particular emphasis on the customs, traditions, literary trends, and artistic tendencies that constitute Germany's contribution to Western Civilization.

3530:419/519 THE AGE OF GOETHE I 3 credits. Prerequisite: 302 or 306 or permission. Enlightenment and the generation of Sturmi und Drang, including the works of Wieland, Lessing, Klopstock, Herder the young Goethe, and others. Conducted in German.

3530:420/520 THE AGE OF GOETHE II 3 credits. Prerequisite: 420 or 520 or permission. Faust, selections from parts I and II. Ballads of Goethe and Schiller. Conducted in German.

3530:431/531 200 YEARS OF GERMAN DRAMA 3 credits. Prerequisite: 302 or 306 or permission. Representative works of the major classical dramatists, Buchner, Hebbel, Hauptmann and Wedekind. Conducted in German.

3530:432/532 200 YEARS OF GERMAN DRAMA 3 credits. Prerequisite: 302 or 306 or permission. Representative works of the major dramatists, Buchner, Hebbel, Hauptmann and Wedekind. Conducted in German.

3530:435/535 GERMAN SHORT STORY 3 credits. Prerequisite: 302 or 306 or permission. Reading and discussion of representative works of German Romanticism, including those of Tieck, Kleist, E.T.A. Hoffmann, Brentano, Eichendorff. Conducted in German.

3530:436/536 GERMAN SHORT STORY 3 credits. Prerequisite: 302 or 306 or permission. Reading and discussion of works representative of the period, including those of Droste-Hülshoff, Siller, Keller, Meyer, Storm. Conducted in German.

3530:439/539 20TH CENTURY GERMAN LITERATURE I-3 credits. Prerequisite: 302 or 306 or permission. The clash of the old and the new at the turn of the century. The works of T. Mann, Hauptmann, Kaiser, Hofmannsthal, Rilke, Wedekind, and others. Conducted in German.

3530:440/540 20TH CENTURY GERMAN LITERATURE II. 3 credits. Prerequisite: 302 or 306 or permission. The impact of modernity. Readings and discussions of the writings of Hesse, Kafka, Doblin, Werfel, and others. Conducted in German.

3530:471/571 GERMAN LANGUAGE READING PROFICIENCY 4 credits. The course is designed to develop proficiency in reading comprehension.

3530:497-498 INDIVIDUAL READING IN GERMAN 1-3 credits each. Prerequisite: permission.

3550: ITALIAN

3550:101-102 BEGINNING ITALIAN I, II 4 credits each. Sequential. Reading, speaking, writing and listening comprehension; intensive drill in pronunciation, short stories, outside reading and supplementary work in the language Laboratory.

3550:201-202 INTERMEDIATE ITALIAN I, II 3 credits each. Sequential. Prerequisite: 101 or equivalent. Grammar review, practice in reading, writing speaking and listening comprehension; short stories, plays, novels on intermediate level, outside reading and supplementary work in the Language Laboratory.

3550:207-208 INTERMEDIATE ITALIAN I, II, READING OPTION 3 credits each. Sequential. Prerequisite: 102 or equivalent. The readings will cover various aspects of Italian culture through the centuries, with particular emphasis on history, literature, art and the contemporary Italian way of life as compared with the American one.

3550:250 GENIUS OF ITALIAN LITERATURE IN TRANSLATION 2 credits. Reading and discussion of works of Dante, Petrarca, Boccaccio, Ariosto, Macchiavelli, Cellini, Tasso, Bruno, Pirandello De Filippo.

3550:301-302 ITALIAN COMPOSITION AND CONVERSATION 3 credits each. Prerequisite: 202 or equivalent. Italian composition using Italian models, special attention to words and idioms, and development of oral expression and conversational ability.

3550:305-306 INTRODUCTION TO LITERATURE 3 credits each. Prerequisite: 202 or equivalent. Introduction to the study of Italian literature. Readings and class discussions in Italian of representative works.

3570: RUSSIAN

3570:101-102 BEGINNING RUSSIAN I, II 4 credits each. Reading, speaking, writing, and understanding; intensive drill in pronunciation and supplementary work in the Language Laboratory.
3570:201-202 INTERMEDIATE RUSSIAN I, II
3 credits each
Prerequisites: 102 or equivalent. Grammar review, practice in reading, writing, speaking, short stories, novels on intermediate level, outside reading and supplementary work in the Language Laboratory.

3570:207-208 INTERMEDIATE RUSSIAN I, II, READING OPTION 3 credits each
Sequential. Prerequisite: 102 (or equivalent). Reading of texts in Russian dealing with the culture of Russian-speaking people. Discussion of the content of these texts in English along with a review of grammar to the extent necessary for an accurate understanding of the texts. Not open to majors.

3570:301-302 RUSSIAN COMPOSITION AND CONVERSATION 3 credits each
Prerequisite: 202 or equivalent. Advanced composition using Russian models, special attention to words and idioms; development of oral expression and conversation ability.

3570:305-306 INTRODUCTION TO RUSSIAN LITERATURE 3 credits each
Prerequisite: 202 or equivalent. Readings and class discussions in Russian of representative works.

3570:309-310 RUSSIAN CIVILIZATION AND CULTURE 3 credits each
Prerequisite: 202 or equivalent. Readings and discussion of Russian texts relating to important developments in Russian civilization and culture.

3570:351-352 TRANSLATION—RUSSIAN 3 credits each

3570:403-404 ADVANCED RUSSIAN COMPOSITION AND CONVERSATION 3 credits each
Prerequisite: 302 or equivalent. A thorough analysis of syntax, morphology, phonetic principles and grammatical structure.

3570:411-412 SCIENTIFIC RUSSIAN 3 credits each
Prerequisite: 202 or equivalent. Intensive reading of scientific articles in chemistry, physics, mathematics, biology and medicine.

3570:420-421 RUSSIAN LITERATURE OF THE NINETEENTH CENTURY: ROMANTICISM AND REALISM 3 credits each
Prerequisites: 301 or 302 or permission. Readings from representative authors such as Pushkin, Lermontov, Gogol, Turgenev, Dostoyevsky, Tolstoy, Goncharov, and others.

3570:427-428 RUSSIAN LITERATURE OF THE TWENTIETH CENTURY 3 credits each
Prerequisite: 202 or equivalent. Reading and discussion of selected literary works from Gorky to Solzhenitsyn.

3570:439 ADVANCED RUSSIAN SYNTAX, GRAMMAR AND CONVERSATION 3 credits
Prerequisite: 404 (or equivalent). Advanced work in composition, translation into Russian, and idiomatic use of the spoken language.

3570:487-498 INDIVIDUAL READING IN RUSSIAN 3-4 credits each
Prerequisite: permission.

3580: BEGINNING SPANISH I, II
4 credits each
Sequential. Reading, speaking, writing and listening comprehension: Intensive drill in pronunciation, short stories, outside reading and supplementary work in the Language Laboratory.

3580:201-202 INTERMEDIATE SPANISH I, II 3 credits each
Sequential. Prerequisite: 102 (or equivalent). Grammar review, practice in reading, writing, speaking and listening comprehension; short stories, plays novels on intermediate level, outside reading and supplementary work in the Language Laboratory.

3580:207-208 INTERMEDIATE SPANISH I, II, READING OPTION 3 credits each
Sequential. Prerequisite: 102 (or equivalent). By permission only. Reading of texts in Spanish dealing with the culture of Spanish-speaking people. Not open to majors.

3580:251 CONTEMPORARY SPANISH LITERATURE IN TRANSLATION 3 credits
Reading and discussion of representative works from Spain and Spanish America's leading novelists, dramatists and thinkers. May not be taken for credit toward the Spanish major.

3580:301-302 SPANISH COMPOSITION AND CONVERSATION 3 credits each
Prerequisite: 202 (or equivalent). Advanced composition using Spanish models, special attention to words and idioms; development of oral expression and conversational ability.

3580:305-306 INTRODUCTION TO SPANISH AND SPANISH-AMERICAN LITERATURE 3 credits each
Prerequisite: 202 (or equivalent). Direct reading and discussion, in Spanish, of novels, short stories and drama in the modern idiom of Spain, Puerto Rico and the 17 Spanish-American republics.

3580:311 SPANISH-SPANISH AMERICAN CULTURAL EXPERIENCE 1-2 credits
Prerequisite: permission. A student's residence and/or independent study in a Spanish speaking country which results in demonstrable assimilation of the country's culture may earn a maximum of two hours credit.

3580:351-352 TRANSLATION—SPANISH 3 credits each

3580:403-404 ADVANCED GRAMMAR AND COMPOSITION 3 credits each
Prerequisite: 302 or equivalent. A thorough analysis of syntax, morphology, phonetic principles and grammatical structure.

3580:407/507 MEDIEVAL AND RENAISSANCE SPANISH LITERATURE 4 credits
Prerequisites: 302 or 306 or permission. Reading and discussion of representative works that mark the beginnings of Spanish literature in poetry, prose, and drama, with emphasis given to the major works: Cantar de Mio Cid, El Libro de Buen Amor, La Celestina, and the ballads. Conducted in Spanish.

3580:409-410 LINGUISTICS 3 credits each
Prerequisite: 302 or permission. Introduction to linguistics focusing on Spanish; includes phonetics, comparative and historical linguistics, traditional, structuralist and transformationalist theories of grammar, together with practical applications for Spanish majors.

3580:411/511 SPANISH LITERATURE OF THE GOLDEN AGE 4 credits
Prerequisite: 302 or permission. Reading and discussion of representative novels and short stories with special emphasis on the works of Miguel de Cervantes. Drama, poetry and essays of the sixteenth and seventeenth centuries will be studied. Conducted in Spanish.
3580:415/515 XVII AND XIX CENTURIES SPANISH LITERATURE 4 credits
Prerequisites: 302 or 306 or permission. Reading, discussion and lectures. Study of Neoklassismo, Romanticismo, Realismo, Naturalismo, ie generacion de 1908. Conducted in Spanish.

3580:419/519 XX CENTURY SPANISH LITERATURE 4 credits
Prerequisites: 302 or 306 or permission. Reading and discussion of the most representative writers of twentieth century Spain. Representative poetry, drama, novels and short stories will be studied. Conducted in Spanish.

3580:422/522 SPECIAL TOPICS IN HISPANIC CULTURE 4 credits
Reading and discussion of significant works in literature or culture in Spain and Latin America that are not studied in other courses. May be repeated.

3580:423/523 SPANISH-AMERICAN LITERATURE 4 credits
Prerequisites: 302 or 306 or permission. Reading and discussion of representative Spanish-American Literature from discovery to the present time. Oral and written reports. Conducted in Spanish.

3580:427/428, 527/528 SPANISH AND SPANISH-AMERICAN CULTURE & CIVILIZATION 3 credits each
Prerequisites: 302 or 306 or permission. Emphasis on the customs, traditions, literary trends, and artistic tendencies that constitute Spain’s specific contribution to Western Civilization. Study of the Spanish-speaking world. Conducted in Spanish.

3580:471/571 SPANISH LANGUAGE READING PROFICIENCY 4 credits
Course is designed to develop proficiency in reading comprehension.

3580:497 INDIVIDUAL READING IN SPANISH 1-3 credits
Prerequisite: permission.

GRADUATE COURSES

3580:601 SEMINAR ON MEDIEVAL SPANISH LITERATURE 4 credits.
Reading and discussion of the monumental medieval literary works of Spain such as Poema de Mio Cid, El Conde Lucanor, El Libro de Buen Amor. Conducted in Spanish.

3580:605-606 SEMINAR IN HISPANIC LINGUISTICS 4 credits each.
Advanced topics in comparative, historical and descriptive Hispanic linguistics studied from contemporary theoretical perspectives; includes practical applications.

3580:609-610 SEMINAR ON SPANISH LITERATURE OF THE GOLDEN AGE; SEMINAR ON XVII AND XIX CENTURIES SPANISH LIT. 4 credits each.
Reading and discussion of representative writers from the Renaissance to the late Baroque period. Studies in the essay, the novel, the theater, the poetry and the philosophical writings. Conducted in Spanish.

3580:613 SEMINAR ON SPANISH-AMERICAN LITERATURE 4 credits.
Studies in representative writers preceding the "Boom." Reading and discussion of various genres and authors representing significant literary developments. Conducted in Spanish.

3580:617 SEMINAR ON XX CENTURY SPANISH-AMERICAN LITERATURE 4 credits.
Reading and discussion of contemporary writers with emphasis on the theater, the novel and the short story. Conducted in Spanish.

3580:621 SEMINAR ON XX CENTURY SPANISH LITERATURE 4 credits.
Studies in representative present-day writers with analyses and discussions of the novel, the theater, poetry and short stories. Conducted in Spanish.

3580:661 SPANISH TEACHING PRACTICUM. 2 credits.
Prerequisite, Teaching Assistantship or permission. Orientation and practice of particular aspects of teaching Spanish language and culture. Student teaching experiences are periodically reviewed and evaluated. These credits may not be applied toward degree requirements.

3580:697-698 INDIVIDUAL READINGS IN SPANISH. 1-4 credits each.
The content of given individual Reading program would be taken from course contents approved for graduate work in Spanish.

3580:699 THESISWRITING. 4 credits.

3600: PHILOSOPHY

3600:101 INTRODUCTION TO PHILOSOPHY 3 credits.
An introduction to philosophic problems and attitudes through acquaintance with the thought of some of the leading thinkers of the Western tradition.

3600:129 INTRODUCTION TO ETHICS 3 credits.
Prerequisite, 101. An introduction to the problems of moral conduct through readings from the tradition and class discussions: Nature of "good," "right," "ought," and "freedom."

3600:131 COMPARATIVE RELIGIONS I: EASTERN 3 credits.
An introduction to Hinduism, Buddhism, Jainism, Confucianism, Taoism and Shinto.

3600:132 COMPARATIVE RELIGIONS II: MAJOR WESTERN RELIGIONS 3 credits.
An introduction to Zoroastrianism, Judaism, Christianity and Islam.

3600:170 INTRODUCTION TO LOGIC 3 credits.
An introduction to logic and critical thinking. Includes such topics as meaning, informal fallacies, propositional logic, predicate and syllogistic logic, and the nature of induction.

3600:211 HISTORY OF ANCIENT PHILOSOPHY 3 credits.
The history and development of ancient Greek philosophy from Pre-Socratics to Aristotle. Readings of primary sources in translation.

3600:212 HISTORY OF MEDIEVAL PHILOSOPHY 3 credits.
History of Western philosophy from end of Roman Empire to Renaissance. Major philosophers studied include St. Augustine, St. Anselm, Peter Abelard, St. Thomas Aquinas, Duns Scotus, and William of Ockham. Readings from primary sources.

3600:216 AMERICAN PHILOSOPHY 3 credits.
Prerequisite: one course in philosophy or permission of instructor. The movement of ideas in America from Royce to the present.

3600:223 VALUE THEORY 3 credits.
An inquiry into man as an evaluator. A study of some principles and theories of value and their implications.
3600:224 SOCIAL AND POLITICAL PHILOSOPHY  3 credits
Prerequisite, one course in philosophy or permission of instructor. An examination of the images of man implied in the major social and political philosophies in Western History. Special attention is devoted to the epistemological, methodological, ontological and axiological assumptions and consequences of these theories.

3600:232 PHILOSOPHY OF RELIGION  3 credits
Prerequisite, two courses in philosophy. Discussion and analysis of the problems of theology and the nature of the religious experience; God's nature and existence; immortality, sin, faith, and reason, the holy revelation and redemption.

3600:250 PHILOSOPHY OF ART  3 credits
Prerequisite, 101 or permission. An introduction to the major theories of the nature of art and the art object with readings and discussions of examples. Such thinkers as Plato, Aristotle, Schopenhauer, Lessing, Pater and Freud are examined.

3600:313 HISTORY OF MODERN PHILOSOPHY  3 credits
An analysis of the major philosophical issues of the 17th and 18th centuries from Descartes through Kant. Readings of primary sources in translation.

3600:314 19TH CENTURY PHILOSOPHY  3 credits
Prerequisite, one course in philosophy or permission of instructor. An inquiry into the philosophically significant ideas of Hegel, Marx, Schopenhauer, Mill, Kierkegaard, and Nietzsche.

3600:332 DIALECTICAL MATERIALISM  3 credits
Prerequisite, 224 or permission of instructor. Includes attention to Hegelian and other origins as well as its development in the writings of Marx, Engels, Lenin, and contemporary writers. Focus on metaphysics, social philosophy, philosophy of history, the nature of man, ethics, and aesthetics.

3600:374 SYMBOLIC LOGIC  3 credits
Prerequisite, 170 or permission of instructor. A detailed consideration of propositional and first-order predicate logic. An introduction to classical logic, modal logic, and axiomatics.

3600:411/511 LATER DIALOGUES OF PLATO  5 credits
Prerequisites, one introductory course and 211 or permission of instructor. Readings of Platonic dialogues in translation, commencing with Theatetus and including Parmenides, Sophist, Statesman, Philebus.

3600:418/518 ANALYTIC PHILOSOPHY.  3 credits
Prerequisites, 211, 312, and 313, or permission of instructor. Study of ideal and ordinary language movements in 20th century British and American philosophy. Includes such figures as Russell, Carnap, Ayer, Moore, Wittgenstein, Ryle, and Austin.

3600:419/519 BRITISH EMPIRICISM.  3 credits
Prerequisites, one introductory course and 213 or permission of instructor. An intensive analysis of selected major writings of Locke, Berkeley, and Hume.

3600:421/521 PHILOSOPHY OF LAW.  3 credits
Prerequisite, one course in philosophy or permission of instructor. A philosophical inquiry into the nature of law and legal institutions.

3600:422/522 CONTINENTAL RATIONALISM.  3 credits
Prerequisites, one introductory course and 213 or permission of instructor. An intensive analysis of selected major writings of Descartes, Spinoza, and Leibniz.

3600:424/524 EXISTENTIALISM.  3 credits
Prerequisite, one introductory course in philosophy, 314, or permission of instructor. An in-depth inquiry into the thought of Kierkegaard, Jaspers, Heidegger, Sartre, Tillich, and other existentialists with their concern for man and his human condition.

3600:426/526 PHENOMENOLOGY.  3 credits
Prerequisites, one introductory course, 314, or permission of instructor. An inquiry into the methodology of Husserl and Heidegger and their influence upon Western European and American thought.

3600:432/532 ARISTOTLE.  3 credits
Prerequisites, 211, 212 and 213, or permission of instructor. A detailed study of Aristotle's metaphysics, philosophy of nature, philosophy of man, and ethics. Taught in alternate years.

3600:434/534 KANT.  3 credits
Prerequisite, 213 or permission of instructor. A study of Kantian system of thought and its relation to the history of philosophy. Includes a thorough investigation of one or more of Kant's philosophic works.

3600:444/544 PROBLEMS IN PHILOSOPHY.  3 credits
Prerequisites, two courses in philosophy or permission of instructor. A thorough, critical examination of one major philosophical problem.

3600:462/562 THEORY OF KNOWLEDGE.  3 credits
Prerequisite, three courses in philosophy. An examination of the nature of knowledge; theories of perception, conception and truth, the problem of induction, and the relation of language to knowledge.

3600:464/564 PHILOSOPHY OF SCIENCE.  3 credits
Prerequisites, 101, 170, or permission of instructor. The nature of scientific inquiry, types of explanation, laws and causality, theoretical concepts and reality. Also considers critics of the hypothetical-deductive view of science, e.g., Hanson and Feyerabend.

3600:471/571 METAPHYSICS.  3 credits
Prerequisites, 211, 212, and 213, or permission of instructor. Theories about the ultimate nature and ultimate explanation of reality. Uses readings from classical and contemporary sources.

3600:480/580 SEMINAR.  3 credits
Prerequisite, permission of instructor. May be repeated.

3600:481/581 PHILOSOPHY OF LANGUAGE.  3 credits
Prerequisites, 101 and 170, or permission of instructor. Contemporary philosophies about the nature of language and its relation to reality and human thinking. Includes discussion of the views of linguists such as Chomsky.

3600:497/597 INDIVIDUAL STUDY.  1-3 credits
Prerequisite, completion of required courses for philosophy major or permission of instructor and department head. Directed independent study of a philosopher, a philosophy or a philosophical problem under the guidance of a selected faculty member. Subject matter will be determined by the selected faculty member in consultation with the student. Graduate credit will require significant additional work which may include an additional research paper.

GRADUATE COURSES

3600:615 SEMINAR: HISTORY OF PHILOSOPHY  3 credits
(May be repeated for a total of 12 credits.) A study in the philosophical works of one major philosopher. Open only with consent of instructor.
3600:628 ETHICAL THEORY 3 credits
An examination of the problems related to human conduct and decision-making in the light of the Western tradition as well as the contemporary insights of positivism, phenomenology, existentialism, logical analysis, naturalism and pragmatism.

3600:676 LOGICAL THEORY 3 credits
Advanced topics in logic such as modal logics and axiomatics. Recommended for law students, as the logic of normative systems is treated. It is suggested that graduate students be familiar with the material covered in a course like 374 before taking this course.

3600:680 SEMINAR 3 credits
(May be repeated for a total of 9 credits.)

3600:689 SEMINAR: THESIS SUPERVISION I 2 credits
May be repeated.

3650: PHYSICS

3650:130 DESCRIPTIVE ASTRONOMY 3 credits
A qualitative and non-mathematical introduction to the subjects of astronomy and astrophysics, intended primarily as a first science course for students not majoring in physical science.

3650:133 MUSIC, SOUND & PHYSICS 2 credits
A qualitative introduction to sound production and perception, with emphasis on music.

3650:137 LIGHT: COLORS, CAMERAS & PERCEPTION 3 credits
An introductory, qualitative course dealing with the nature of light, and the interaction of light with material objects to produce common visual effects.

3650:138 PROPERTIES OF LIGHT LABORATORY 1 credit
Prerequisite or corequisite: 137 or permission. An introductory laboratory, which deals qualitatively and quantitatively with the properties of light and the interaction of light with material objects.

3650:141 PHYSICS, ENERGY & MAN 3 credits
An introductory, qualitative course dealing with the nature of energy, including its availability, conservation and utilization. Energy resources; conversion efficiencies; environmental effects of energy production; recent developments.

3650:231 CONCEPTS OF PHYSICS I 4 credits
Prerequisites: High-school algebra and trigonometry, or 3450:149 as corequisite. General Physics; emphasizing unifying concepts of physics such as conservation laws and symmetry principles. Newtonian mechanics, oscillations, waves.

3650:232 CONCEPTS OF PHYSICS II 4 credits
Prerequisite: 231 (continuation) Electricity and magnetism; interference and diffraction of waves; the nature of heat; space and time in the theory of relativity; quantum mechanics of atomic phenomena; recent developments in the study of elementary particles.

3650:261 PHYSICS FOR THE LIFE SCIENCES I 4 credits
Prerequisite: High-school algebra and trigonometry or 3450:149 as corequisite, or permission. Introductory course to prepare for professional work in biology and the health professions and services. Emphasizes life science applications. Mechanics: laws of motion, force, torque, work, energy, power; properties of matter: gases, liquids, solids, fluid mechanics.

3650:262 PHYSICS FOR THE LIFE SCIENCES II 4 credits
Prerequisite: 261 (continuation). Laws of thermodynamics, Kinetic theory. Wave phenomena: sound, light, optics; electricity and magnetism; atomic and nuclear physics; radioactivity.

3650:267-268 LIFE SCIENCE PHYSICS COMPUTATIONS I, II 1 each
Corequisites: 261 (with 267); 262 (with 268). Optional companion courses to 261-262 to provide additional computational experience in applications of physics to the life sciences, emphasizing use of algebra and trigonometry. Particularly recommended for students with modest mathematical preparation.

3650:291 ELEMENTARY CLASSICAL PHYSICS I 4 credits
Corequisite: 3450:221. Introductory physics for students of science and engineering. Classical statics, kinematics and dynamics, as they relate to contemporary physics. Oscillations, waves; fluid mechanics. Vectors and some calculus are introduced as needed.

3650:292 ELEMENTARY CLASSICAL PHYSICS II 4 credits
Prerequisite: 291 (continuation). Thermodynamics from the atomic point of view; basic laws of electromagnetism; mechanical and electromagnetic waves; interference and diffraction; coherence; geometrical and physical optics.

3650:293-294 PHYSICS COMPUTATIONS I, II 1 credit each
Corequisites: 291 (with 297); 292 (with 298). Optional companion courses to 291-292 intended to provide experience in problem-solving, and to elaborate the application of calculus to simple physical phenomena. Particularly recommended for freshmen, and for students with modest preparation in mathematics or physical sciences.

3650:301 ELEMENTARY MODERN PHYSICS 3 credits
Prerequisite: Permission of instructor. Special relativity, introduction to quantum physics, hydrogen atom and complex atoms, atomic spectra, topics in nuclear and solid state physics.

3650:321 PHYSICS LABORATORY TECHNIQUES 2 credits
Prerequisite: Permission of instructor. Design and fabrication of simple mechanical systems, photography in data collection, electronic chassis construction, printed circuit techniques optical measuring instruments.

3650:321-332 ASTROPHYSICS I, II 3 credits each
Prerequisite: 232, 262 or 292. A one-year comprehensive, qualitative course recommended for students majoring in physics or natural science, and for secondary school teachers and others desiring a comprehensive survey of astronomy and astrophysics at the intermediate level.

3650:399 UNDERGRADUATE RESEARCH 1-6 credits
Prerequisite: Permission of instructor. Participation in a current research project in the department under the supervision of a faculty member. May be repeated.

3650:400/500 HISTORY OF PHYSICS 3 credits
Prerequisite: 232, 262 or 292. A study of the origin and evolution of the major principle; and concepts that characterize contemporary physics.

3650:404/504 ENERGY AND THE ENVIRONMENT 3 credits
Prerequisite: 232, 262 or 292. The physics of macroscopic energy sources and the techniques of their use, with emphasis on their thermodynamic efficiencies; storage, transport, side effects, and prospective availability.
3650:406/506 WAVES 3 credits
Prerequisite: 232, 262 or 292. Analysis of phenomena common to all waves, including free oscillations, forced oscillations, traveling waves, reflection, polarization, interference and diffraction. Water, sound, electromagnetic, seismological and deBroglie waves will be examined.

3650:407/507 QUANTUM PHYSICS 3 credits
Prerequisite: 232, 262 or 292. Quantum physics at the intermediate level. Energy levels, photons, material particles, the Uncertainty Principle, Schrodinger wave mechanics, theory of stationary states and elementary particles.

3650:410/510 ELECTRONICS 3 credits
Prerequisite: 232, 262 or 292. Electron tubes, semiconductors, and their utilization in circuits. Introduction to the mathematical analysis of these circuits.

3650:411/511-512 INTERMEDIATE LABORATORY I, II 2 credits each

3650:420/520 OPTICS 3 credits
Prerequisite: 232, 262 or 392 and 3450:223. Reflection, refraction; prisms, thin lenses, thick lenses, mirrors; waves and their propagation; interference and diffraction; diffraction gratings; polarization; emission of light; velocity of light; photometry; lasers.

3650:421/521 APPLIED PHYSICS LABORATORY 2 credits
Prerequisite: 411 or consent of instructor. A laboratory course stressing measurement and evaluation techniques as performed in industry and research. Mechanical, optical, thermal, electric and electronic measurements are done, experimental design, calibration, and reporting are emphasized.

3650:430/530 STATISTICAL PHYSICS 3 credits
Prerequisite: 232, 262 or 292. Kinetic theory of gases, temperature; thermodynamic systems; work; ideal gases; real gases; laws of thermodynamics; entropy; reversibility and irreversibility; Carnot cycle; Kelvin temperature scale; change of phase.

3650:431/531 MECHANICS 3 credits
Prerequisite: 292. Newtonian mechanics, conservation laws, planar statics and dynamics, motion of a particle or rigid body, universal gravitation, planetary orbits, Kepler's laws, orbit perturbations, vibrational motions, moving frames of reference.

3650:436/536 ELECTRICITY AND MAGNETISM 3 credits
Prerequisite: 292 or permission of instructor. Electricity and magnetism at the intermediate level. Electric and magnetic fields, electric potential, vector potential. Gauss's Law, divergence theorem, Stokes' theorem, introductory vector analysis. Development of Maxwell's Equations.

3650:438/538 METHODS OF APPLIED PHYSICS 3 credits
Prerequisite or corequisite: 421. Topics in the design, performance, interpretation and reporting of physical measurements: the scientific method, measurements and their uncertainties, principles of experimentation, measurement devices, data resolution and analysis, inference.

3650:445/545 THEORETICAL MECHANICS 4 credits
Prerequisite: 431. Introductory vector analysis, motion of a system of particles, mechanics of continuous media, Lagrange's equations, Hamilton's equations, inertia and stress tensors, rigid body rotation. Euler's equations, small vibration theory.

3650:446/546 ELECTROMAGNETIC THEORY 4 credits
Prerequisite: 436. Electromagnetic theory at the advanced level, including; electrostatic fields, dielectrics, magnetic fields of steady currents, induction, magnetic energy, Maxwell's equations, electromagnetic waves, electromagnetic fields of moving charges, radiation.

3650:451-452/551-552 ADVANCED LABORATORY I, II 2 credits each
Prerequisite: 412 or permission of instructor. Applications of electronic and solid state devices and techniques to research-type projects in contemporary physics. Introduction to resonance techniques; nuclear magnetic resonance, electron spin resonance, nuclear quadrupole resonance. Scintillation spectroscopy. Alpha and beta ray spectroscopy.

3650:470/570 INTRODUCTION TO SOLID STATE PHYSICS 3 credits
Prerequisite: 407 or permission of instructor. An account of the basic physical processes which occur in solids, with emphasis on the fundamental relation between these processes and the periodicity of the crystalline lattice.

3650:471/472/571-572 NMR SPECTROSCOPY I, II 2 credits each
Prerequisite: 292 or permission of instructor. The theoretical basis and experimental techniques of Nuclear Magnetic Resonance (NMR) spectroscopy. Classical concepts and quantum mechanical treatments of NMR. The Bloch equations; spin-spin and spin-lattice relaxation times. Steady state and transient phenomena. General features of broadline and high-resolution NMR spectra. NMR instrumentation and operating principles. The theory and analysis of high resolution NMR spectra. Discussion of the qualitative applications of broadline and high-resolution NMR spectra and the determination of physical and chemical structures.

3650:481/482/581-582 METHODS OF MATHEMATICAL PHYSICS I, II 3 credits each
Prerequisite: 292; 3450:226 and senior or graduate standing in a physical science or engineering. A consideration of many mathematical methods useful in science and engineering. Elliptic integrals, perturbation theory, conformal mapping, variational methods, potential equation; diffusion equation, wave equation, Fourier transform, eigenfunctions and eigenvalues, solution of boundary value problems using Green's function, inertia tensor. Emphasis on applications to physics and engineering.

3650:487/587 LABORATORY PROJECTS 1-3 credits
Prerequisite: permission. Design of laboratory apparatus experiments, techniques or demonstrations. May be repeated.

3650:488/588 SELECTED TOPICS 1-4 credits
Prerequisite: permission. Consideration of selected topics, procedures, techniques, materials or apparatus of current interest in physics. May be repeated.

3650:490/590 WORKSHOP 1-4 credits
Group studies of special topics in Physics. May not be used to meet undergraduate or graduate major requirements in Physics. May be used for elective credit only. May be repeated.

3650:497/597 INDEPENDENT STUDY 1-4 credits
Prerequisite: permission. Further investigations of various selected topics in physics, under the guidance of a faculty member. May be repeated.
GRADUATE COURSES

3650:601 ATOMIC AND NUCLEAR PHYSICS I
3 credits
Prerequisite: 301 or 407 and 3450:235, or permission of instructor. An expository and analytical treatment of the fundamental principles which operate to yield and observed complex behavior of matter. Introductory quantum mechanics, free particle quantum mechanics, the one-electron atom.

3650:602 ATOMIC AND NUCLEAR PHYSICS II
3 credits

3650:605 COMPUTER PHYSICS: NUMERICAL SOLUTIONS TO PHYSICAL PROBLEMS I 2 credits
Prerequisite: 4450:460 or permission. Review of fortran and properties of digital computers. Computer solutions to physical problems, including Newton’s, Schrodinger’s and LaPlace’s equations; Data reduction, curve fitting, plotting.

3650:606 COMPUTER PHYSICS: NUMERICAL SOLUTIONS TO PHYSICAL PROBLEMS II 2 credits
Prerequisite: 4450:460 or permission. Numerical methods are elaborated along with applications; problems are solved on the central computer. The second semester may accommodate scientific problems of individual interest.

3650:611 PHYSICAL PROPERTIES OF MATTER I
3 credits
Prerequisite: 293. Experimental stress-strain relations of real materials, simple stress-strain analysis, brittle and ductile fracture, phenomenological theories for fracture, discussion of mechanical properties in terms of atomic and molecular structure.

3650:612 PHYSICAL PROPERTIES OF MATTER II
3 credits
Prerequisite: 611 or permission. Measurement and analysis of the friction and adhesion of real materials, surface tension of liquids and solids, thermodynamics of spreading and wetting, viscosity.

3650:621 ATOMIC AND MOLECULAR SPECTRA I
3 credits
Prerequisite: 301, 3450:235 or permission of instructor. Elements of atomic theory: line spectra; electron spin and multiplet structure; the building-up principle and the periodic system of the elements; special intensities; hyperfine structure; isotope effect, nuclear spin.

3650:622 ATOMIC AND MOLECULAR SPECTRA II
3 credits
Prerequisite: 621 or permission of instructor. Molecular bands, and development of theory; rotational, vibrational and electronic bands; Raman effect, isotopic effect, intensity of bands; methods of determining the molecular constants from wave number measurements.

3650:631 PHYSICS OF POLYMERS I 2 credits
Prerequisite: 3450:235 or permission of instructor. Polymeric states of matter, crystallinity, rubber elasticity, viscoelasticity, transport and electrical properties, the glassy state, fracture processes. Elasticity at large strains, phenomenological visco-elasticity, dielectric properties, diffusion.

3650:632 PHYSICS OF POLYMERS II 2 credits
Prerequisite: 631 or permission. Phase transitions, temperature dependence of mechanical and electrical properties, crystalline polymers, kinetics of crystallization, fracture, adhesion, wear.

3650:633-636 PHYSICS OF POLYMERS LABORATORY I, II 2 credits each
Prerequisite: 291, corequisite: 631-632. Selected laboratory experiments to illustrate the principles and methods discussed in courses 631-632.

3650:651 THEORETICAL CLASSICAL PHYSICS I
3 credits
Prerequisite: 445 and 446 or permission. Inertial reference frames, generalized coordinates, Lagrange’s equations, theory of small vibrations, Hamilton-Jacobi method and the theory of relativity.

3650:652 THEORETICAL CLASSICAL PHYSICS II
3 credits
Prerequisite: 651. Maxwell’s equations, space-time symmetry of the field equations, field vectors in moving systems, field energy and momentum, electrodynamics, electromagnetic forces on charges and currents.

3650:651 THERMODYNAMICS AND STATISTICAL MECHANICS I 3 credits
Prerequisites: 430 and 3450:235. Introduction to basic statistical concepts. Application of statistical ideas to systems of particles in equilibrium to develop the basic notions of statistical mechanics.

3650:662 THERMODYNAMICS AND STATISTICAL MECHANICS II 3 credits
Prerequisite: 661. Illustration and discussion of macroscopic aspects followed by the same for the microscopic aspects of the theory. Phase transitions and quantum gases. Nonequilibrium situations and transport theory.

3650:681 QUANTUM MECHANICS I 3 credits
Prerequisites: 445, 446, 3450:235 or permission of instructor. Courses 602 and 480 are also recommended but not required. A thorough development of ordinary wave mechanics, matrix formulation and unification in the more abstract Dirac formulation.

3650:682 QUANTUM MECHANICS II 3 credits
Prerequisites: 681. Angular momentum, spin, Pauli matrices, Clebsch-Gordan coefficients, spin-orbit interaction, scattering theory, Born approximation, perturbation theory, time independent and time dependent, sudden and adiabatic approximations.

3650:684 ADVANCED NUCLEAR PHYSICS 3 credits
Prerequisites: 602, 682. Quantum mechanics applied to the nucleus. Interaction of radiation with the nucleus, nuclear scattering, nuclear reactions; energy levels of nuclei.

3650:685 SOLID STATE PHYSICS I 3 credits
Prerequisites: 470, 681 or permission of instructor. Theory of the physics of crystalline solids. Properties of the reciprocal lattice and Bloch’s theorem. Lattice dynamics and specific heat. Electron states; cellular method, tight-binding method, Green’s function method.

3650:686 SOLID STATE PHYSICS II 3 credits

3650:689 SPECIAL PROBLEMS IN THEORETICAL PHYSICS I 1-4 credits
Prerequisite: permission. Intended to facilitate the expansion of particular areas of interest in theoretical physics, by consultation with a faculty member and independent study beyond available course work. May be repeated.
3650:690 SPECIAL PROBLEMS IN EXPERIMENTAL PHYSICS. 1-4 credits
Prerequisite: permission. Intended to encourage the development of experimental techniques in selected areas, under the supervision of a faculty member. May be repeated.

3650:691 SEMINAR IN THEORETICAL PHYSICS 1-3 credits
Prerequisite: permission. May be repeated.

3650:692 SEMINAR IN NMR SPECTROSCOPY 1-3 credits
Prerequisite: permission. May be repeated.

3650:693 SEMINAR IN SOLID STATE PHYSICS 1-3 credits
Prerequisite: permission. May be repeated.

3650:697 GRADUATE RESEARCH 1-5 credits
Prerequisite: permission. Candidates for the M.S. degree may obtain up to 5 credits for faculty supervised research projects. Grades and credit will be received at the completion of such projects.

3650:698 SPECIAL TOPICS IN PHYSICS 1-4 credits
Prerequisite: permission. To enable students who need information in special areas, in which no formal course is offered, to acquire knowledge in these areas.

3650:699 MASTER’S THESIS RESEARCH 1 credit
Prerequisite: permission. With the approval of the department, one credit may be earned by candidates for the M.S. degree upon the satisfactory completion of a Master’s Thesis.

3700: POLITICAL SCIENCE

3700:100 GOVERNMENT AND POLITICS IN THE U.S. 3 credits
An examination of the American political system with emphasis on the fundamental principles, ideas, institutions and processes of modern government. Lecture and discussion sections (day classes only).

3700:110 CIVIL LIBERTIES IN AMERICA. 2 credits
Not open to Political Science majors and cannot be used for credit toward a major in Political Science. A study of civil liberties issues in the U.S.

3700:120 CURRENT POLICY ISSUES. 2 credits
Not open to Political Science majors and cannot be used for credit toward a major in Political Science. Survey of major political issues and problems confronting the nation; the environment in which public policies are formed and executed.

3700:200 COMPARATIVE POLITICS. 4 credits
An introduction to comparative political analysis: description of the political systems of Great Britain, France, Germany and the Soviet Union; the contrast between democracy and totalitarianism.

3700:201 INTRODUCTION TO POLITICAL SCIENCE. 3 credits
Introduction to the use of contemporary approaches and techniques employed in political analysis. Required of Political Science majors and recommended for others with good social science backgrounds.

3700:210 STATE AND LOCAL GOVERNMENT AND POLITICS 3 credits
An examination of institutions, processes and intergovernmental relations at the state and local level.

3700:220 AMERICAN FOREIGN POLICY 3 credits
An examination of American foreign policy-making process; public opinion and other limitations on policy; specific contemporary problems in selected areas.

3700:309 AMERICAN FOREIGN POLICY 3 credits
An examination of American foreign policy-making process; public opinion and other limitations on policy; specific contemporary problems in selected areas.

3700:302 AMERICAN POLITICAL IDEAS. 3 credits
A study of the major thinkers and writers of American political thought.

3700:303 INTRODUCTION TO POLITICAL THOUGHT. 3 credits
A survey of major ideas and concepts of Western political thought from the pre-Socratics through the period of the Enlightenment.

3700:304 MODERN POLITICAL THOUGHT. 3 credits
An examination of central concepts of political thought from the nineteenth century to the present. Modern liberalism, communism, fascism and totalitarianism emphasized.

3700:310 INTERNATIONAL POLITICS AND INSTITUTIONS 4 credits
Relations among nations examined in the political context.

3700:320 BRITAIN AND THE COMMONWEALTH. 3 credits
Description and analysis of the government and politics of Great Britain and the leading nations of the Commonwealth.

3700:321 WESTERN EUROPEAN POLITICS. 3 credits
Description and analysis of the government and politics of France, Germany, Italy and Switzerland, with appropriate references to Scandinavia and the Low Countries.

3700:322 SOVIET AND EAST EUROPEAN POLITICS. 3 credits
Theory and practice of government and politics in the Soviet Union; comparison with selected Communist systems of Eastern Europe.

3700:323 POLITICS OF CHINA AND JAPAN. 3 credits
An examination of the governmental structures and political processes of China and Japan.

3700:326 POLITICS OF DEVELOPING NATIONS 3 credits
A general introduction to the concepts and theories of political development and political institutions, elite recruitment and political processes of selected emerging nations.

3700:327 AFRICAN POLITIC. 3 credits
An examination of the patterns of government and politics of the nations south of the Sahara.

3700:340 AMERICAN POLITICAL PARTIES AND INTEREST GROUPS. 3 credits
Role of the political parties and interest groups in the political process. Development, structure and function of parties; patterns of party allegiance and voting behavior; interest groups and their effect on government.

3700:341 THE AMERICAN CONGRESS. 4 credits
An examination of the structure and function of Congress, with comparative materials on the legislative process on all levels. Presidential and congressional conflict is examined.

3700:342 MINORITY GROUP POLITICS 3 credits
An examination of the political behavior of racial, religious and ethnic minority groups in the United States.

3700:350 THE AMERICAN PRESIDENCY 3 credits
The Presidency as the focal point of politics, policy, and leadership in the American political system.

3700:360 THE JUDICIAL PROCESS 3 credits
Role of police, lawyers, courts, and judges in the context of the American political process. The structure and process of judicial policy-making and limitations on judicial power.
An examination of the problems emerging from urban and regional complexes in the United States. The structure and processes of political decision-making at this level will be analyzed.

An examination of the implementation of public policy. Administrative organization and principles will be stressed.

Latin American problems

Foreign policies of selected nations, with special attention to legislators, administrators, parties, and interest groups.

Political decision-making of the major powers.

Administrative organization and principles will be applied to major in Political Science. Topics of substantial current importance, specialized topics within Political Science, or experiential courses.

Political decision-making in terms of its capacity to deal with a wide range of socio-economic problems. Special emphasis on legislators, administrators, parties, and interest groups.

Political decision-making at all levels will be analyzed.

Analysis of the state political process in terms of its capacity to deal with a wide range of socio-economic problems. Special emphasis on legislators, administrators, parties, and interest groups.

The comparative method in Political Science. The nature and role of public opinion in the political process; historical development, current methods of measurement. The political behavior of the American electorate.

An intensive study of selected problems in urban policy.

Group studies of special topics in Political Science. May not be used to meet undergraduate or graduate requirements in Political Science. Elective credit only. May be repeated.

An intensive study leading to the completion of a Senior Honors Thesis or other original work meeting high standards of scholarship.

Graduate courses

Comparative studies in depth of one or more areas of contemporary significance. Prerequisite: 6 credits of Political Science, or permission. Analysis of current problems in the theory and practice of international politics and organization.

Research on selected topics in Comparative Politics. The comparative method in Political Science.

A graduate level examination of problems resulting from changing relations between levels of government in the U.S.; comparisons with other federal systems.

Civil liberties and the judicial process are viewed in the democratic political process. Special emphasis on judicial policy-making in areas of civil rights and liberties.

Techniques of quantitative research in Political Science; utility of and limitations of quantitative analysis.

Interpretation of U.S. Constitution by Supreme Court; judicial review in the democratic political process. Special emphasis on judicial policy-making in areas of civil rights and liberties.

An intensive study of selected problems in urban policy.

An intensive study leading to the completion of a Senior Honors Thesis or other original work meeting high standards of scholarship.

Graduate courses

Comparative studies in depth of one or more areas of contemporary significance. Prerequisite: 6 credits of Political Science, or permission. Analysis of current problems in the theory and practice of international politics and organization.

Research on selected topics in Comparative Politics. The comparative method in Political Science.

A graduate level examination of problems resulting from changing relations between levels of government in the U.S.; comparisons with other federal systems.

Civil liberties and the judicial process are viewed in the democratic political process. Special emphasis on judicial policy-making in areas of civil rights and liberties.
in the political context. Readings and research on selected topics.

3750:700 SEMINAR IN THE ADMINISTRATIVE PROCESS. 3 credits
Prerequisite: 6 credits of Political Science, or permission. An intensive examination of the administrative implementation of public policies. Readings and research on selected topics.

3750:650 SEMINAR IN URBAN AND REGIONAL POLITICS. 3 credits
Prerequisite: 6 credits of Political Science, or permission. Focuses on the processes of policy formulation and execution in the modern metropolitan community, with emphasis on a structural functional context.

3750:695 INTERNSHIP IN POLITICAL SCIENCE. 3 credits
Prerequisite: Permission of graduate adviser. Field experience in which student will be placed with office holders, government agencies, or political groups for research or practical experience of relevance to student's program.

3750:697 INDEPENDENT RESEARCH AND READINGS. 1-4 credits
(May be taken repeatedly, but no more than 6 credits can be applied toward the Master's degree in Political Science.) Prerequisite: Permission.

3750:699 THESIS. 2-6 credits

3750: PSYCHOLOGY

3750:100 INTRODUCTION TO PSYCHOLOGY 3 credits
Introduction to the scientific study of behavior, survey of physiological basis of behavior, sensation and perception, development, learning and cognition, personality, social interaction and other selected topics.

3750:110 QUANTITATIVE METHODS IN PSYCHOLOGY 3 credits
Prerequisite: 100 (may be taken concurrently). Presentation of data, descriptive statistics, correlation, hypothesis testing and introduction to quantitative methodologies in psychology.

3750:120 INTRODUCTION TO EXPERIMENTAL PSYCHOLOGY 4 credits
Prerequisites: 100 and 110. Lectures plus laboratory experience concerning problems in the scientific bases of psychology such as experimental design, methods and apparatus, collection and analysis of data, and interpretation of results.

3750:130 DEVELOPMENTAL PSYCHOLOGY 4 credits
Prerequisite: 100. The determinants and nature of behavioral changes from conception to death.

3750:140 INTRODUCTION TO INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY 4 credits
Prerequisite: 100. A survey of the applications of psychology in industry, business and government. Emphasis will be on understanding employees and the evaluation of their behavior.

3750:300 ADVANCED EXPERIMENTAL PSYCHOLOGY 4 credits
Prerequisite: 120. Scientific methods and design in the experimental investigation of human and animal behavior. Emphasis is on exposure to and performance on all aspects of a single, in-depth research project in which students apply the lecture information.

3750:310 SENSORY AND PERCEPTUAL EXPERIENCE 4 credits
Prerequisites: 100. A survey of basic sensory and perceptual phenomena covering the physical and psychological bases of each. An overview of the major theoretical treatments and empirical findings will be included, plus discussion of the implications for behavior.

3750:320 PHYSIOLOGICAL PSYCHOLOGY 4 credits
Prerequisite: 100. The relationship between the behavior of organisms and physiological processes mediating the behavior. Brain structure and function, motivation, etc. Biology 3100:191 is desirable as a background.

3750:330 MOTIVATION AND THE DYNAMICS OF BEHAVIOR 3 credits
Prerequisite: 100. A survey of behavioristic, psychodynamic, cognitive and consistency theories to explain the arousal, direction, and persistence of behavior including empirical evidence for achievement, motivation, aggression, and other behaviors.

3750:340 SOCIAL PSYCHOLOGY 4 credits
Prerequisite: 100. An examination of the individual's response to his social environment and the social interaction process. Social perception, attitude formation and change, affiliation and attraction, altruism, group processes, and nonverbal behavior.

3750:350 THE PSYCHOLOGY OF SMALL GROUP BEHAVIOR 3 credits
Prerequisite: 100. Intensive investigation of factors affecting behavior in groups. Course covers joint effects of personality, social structures, task, and situational variables in effecting group behavior.

3750:360 CROSS-CULTURAL PSYCHOLOGY 3 credits
Prerequisite: 100. The influence of culture upon the development of individual psychological processes including functioning, social motives, sex roles and values.

3750:370 RESEARCH DESIGN AND ANALYSIS IN PSYCHOLOGY 3 credits
Prerequisites: 100 and 110 or 3470:251-257 as alternate prerequisite for 110. A review of research design and methodology for psychology covering basic concepts, empirical research designs, internal and external validity and specific analytical techniques as applied to psychology.

3750:400/500 PERSONALITY 3 credits
Prerequisite: 100. Consideration of current conceptualizations of the normal personality with emphasis on methods of measurement, experimental findings, and research techniques.

3750:410/510 PSYCHOLOGICAL TESTS AND MEASUREMENTS 4 credits
Prerequisites: 100, 110 or permission. Consideration of the nature, construction, and use of tests and measurements in industry, government and education. The course will include aptitude and achievement tests, rating scales, attitude and opinion analysis.

3750:420/520 ABNORMAL PSYCHOLOGY 3 credits
Prerequisites: 100 plus 3 credits in psychology. Syndromes, etiology, diagnosis and treatment of the major psychological conditions ranging from transient maladjustments to the psychoses.

3750:430/530 PSYCHOLOGICAL DISORDERS OF CHILDREN 4 credits
Prerequisite: 100 and 130 or permission. A survey of the syndromes, etiologies and treatments of behavioral disorders in children from the standpoint of the developmental psychologist. Behavioral data and treatment approaches will be emphasized.
3750:728 SOCIAL DEVELOPMENTAL PSYCHOLOGY 4 credits
Prerequisite: 620 or permission. An examination of selected theoretical and methodological issues in the study of social psychology from a developmental perspective. Topics will include: attitude formation, sex roles, moral development, altruism, aggression, attribution, and nonverbal behavior and cultural effects.

3750:729 FUNCTIONAL ANALYSIS OF BEHAVIOR 4 credits
Prerequisite: 620 or permission. Behavioral approaches to the treatment of maladaptive behavior. Emphasis is on the application of learning theory to specific topics such as the development of self control, enuresis, and self destructive behavior.

3750:730 THEORIES OF LEARNING 4 credits
Prerequisite: 600 or permission. Topics include a comparative discussion of the major traditional theories of learning, as well as analysis of contemporary issues and developments as reflected in a review of selected areas of recent research.

3750:731 COGNITIVE DEVELOPMENT 4 credits
Prerequisite: 600 or permission. Theory and research concerning the development of cognitive activities including concept formation, problem solving, and thinking. Topics include the major theories, the research paradigms and methods of investigation, and a review of empirical findings.

3750:732 HUMAN MEMORY AND LANGUAGE 4 credits
Prerequisite: 600 or permission. A contemporary review of research and theory in language and memory. A process oriented approach is adopted with an emphasis on developmental issues.

3750:735 DEVELOPMENTAL BIOPSYCHOLOGY 4 credits
Prerequisite: 600. 620 recommended. A survey of behavioral changes over the life span with emphasis on the physical, biological, and physiological correlates of such changes. Topics will include central nervous system, skeletal, and circulatory changes; metabolic and nutritional processes; and endocrine mechanisms.

3750:734 ENVIRONMENTAL PSYCHOLOGY 4 credits
Prerequisite: 600. 620 recommended. A study of major questions concerning with environmental management and control and the relationship of these areas to developmental psychology, motivation, learning, and animal behavior.

3750:735 PERCEPTUAL DEVELOPMENT 4 credits
Prerequisite: 600 or permission. Analysis of the developmental characteristics of perceptual and sensory processes. Topics include the major theories of perception, the methods of investigation used, and a review of the empirical findings.

3750:750 ADVANCED PSYCHOLOGICAL TESTS AND MEASUREMENTS 4 credits
Prerequisite: 610. An analysis of test construction techniques and statistical analyses of tests with a review of published tests and measurement used in industrial/organizational psychology. Students will administer and evaluate actual tests.

3750:751 ORGANIZATIONAL PSYCHOLOGY 4 credits
Prerequisite: 610. The study of the relationships between organizational characteristics and human behavior.

3750:752 PERSONNEL SELECTION AND PERFORMANCE EVALUATION 4 credits
Prerequisite: 610. Review of strategies employed by industrial/organizational psychologists for personnel selection, placement and promotion. In addition, the course will survey objective and subjective criteria used in performance appraisal including test validation and training effectiveness.

3750:753 TRAINING AND ORGANIZATIONAL DEVELOPMENT 4 credits
Prerequisite: 610. A review of industrial training methods and techniques in terms of learning theory, with a consideration of techniques to evaluate these training and organizational development programs.

3750:754 RESEARCH METHODS IN PSYCHOLOGY 4 credits
Prerequisites: 610, 620. The scientific method and its specific application to psychology. Topics include data collection, validity, reliability, the use of the general linear model and its alternatives and power analysis.

3750:755 COMPUTER APPLICATIONS IN PSYCHOLOGICAL RESEARCH 4 credits
Prerequisite: 610. Parcticum in the application of computers to psychological research including data collection, analysis, and interpretation. The course will also cover computer simulation of decision making including the use of different models.

3750:756 ROLE OF ATTITUDES AND VALUES IN INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY 4 credits
Prerequisite: 610. A consideration of the role of attitudes and values on cross-cultural issues of comparative management, selection, training, work motivation and consumer behavior.

3750:757 ORGANIZATIONAL MOTIVATION AND LEADERSHIP 4 credits
Prerequisite: 610. Identification, description, analysis and techniques for implementation of intrinsic and extrinsic incentives during work activity. The leadership process and its relation to motivation and group performance are also analyzed.

3750:758 ENGINEERING PSYCHOLOGY AND JOB DESIGN 4 credits
Prerequisites: 610. A survey of the field of engineering psychology. This course covers such topics as job design, task analysis, man-machine systems analysis, working conditions and accidents.

3750:780 GRADUATE SEMINAR IN PSYCHOLOGY 1-4 credits
Prerequisite: Permission. Special topics in psychology. May be repeated.

3850:707 INDEPENDENT READING AND/OR RESEARCH 1-3 credits
Prerequisite: Permission. Individual readings and/or research on a topic under the supervision of a member of the faculty with whom specific arrangements have been made. May be repeated.

3850:899 DISSERTATION RESEARCH 1-12 credits
Prerequisite: Open to properly qualified students. Required minimum 12 credits. Maximum subject to departmental approval — open to properly qualified students. Supervised research on a topic deemed suitable by the dissertation committee.

3850: SOCIOLOGY

3850:100 INTRODUCTION TO SOCIOLOGY 4 credits
Basic terminology, concepts, and approaches in Sociology, including an introduction to the analysis of social groups, and the application of sociological concepts to the understanding of social systems. Required of majors. Lecture-discussion.
3850:104 SOCIAL PROBLEMS 3 credits
Prerequisite: 100 or permission. Analysis of selected contemporary problems in society; application of sociological concepts and research as tools for understanding sources of such problems. Lecture.

3850:220 SOCIAL ORGANIZATION 3 credits
Prerequisite: 100 or permission. The nature of social organization and social control; organizational typologies; theories of organizational structure and functions; analysis of complex organizations in a social system. Lecture.

3850:301 METHODS OF SOCIAL RESEARCH I 3 credits
Prerequisites: 100 and 3450-140, 145, 150, 155 or permission. A combination lecture and laboratory course requiring at least five laboratory hours per week. Research design, data gathering techniques and statistical procedures. Required of majors. Lecture—lab.

3850:302 METHODS OF SOCIAL RESEARCH II 3 credits
Prerequisite: 301. Continuation of 301. Required of majors. Lecture—lab.

3850:320 SOCIAL STRATIFICATION 3 credits
Prerequisite: 100 or permission. A study of the way social rankings occur in societies and how particular rank-ings affect individual behavior, group relations and social structures. Lecture.

3850:321 POPULATION 3 credits
Prerequisite: 100 or permission. Introduction to theory, methods and trends in birth, death, illness, migration, and selected social characteristics. Also, population growth and distribution in relation to societal and environmental problems. Lecture.

3850:323 SOCIAL CHANGE 3 credits
Prerequisites: 100 or permission. Introduction to theories and processes of social change, dimensions of change in contemporary, traditional and urban-industrial societies; projection and prediction of selected trends and forecasts. Lecture.

3850:324 SOCIAL MOVEMENTS 3 credits
Prerequisite: 100 or permission. Social movements as distinguished from other forms of collective behavior: analysis of social situations which produce social movements; focus upon development of social movements and their role in social change. Lecture.

3850:330 CRIMINOLOGY 3 credits
Prerequisite: 100. The major focus of this course deals with the interrelationships and the analysis of crimes, criminals, criminal justice systems and society. Lecture.

3850:340 THE FAMILY 3 credits
Prerequisite: 100 or permission. Analysis of the family as a social system: historical, comparative and contemporary sociological approaches examined in relation to a family structure and functions. Lecture.

3850:341 POLITICAL SOCIOLOGY 3 credits
Prerequisite: 100 or permission. A survey of theory and empirical research dealing with the relationship between political phenomena and the larger network of social processes in human societies. Lecture.

3850:342 SOCIOLOGY OF HEALTH AND ILLNESS 3 credits
Prerequisite: 100 or permission. General survey of sociological perspectives, concepts, and research on health, illness, and health-care delivery systems. Lecture.

3850:343 THE SOCIOLOGY OF AGING 3 credits
Prerequisite: 100 or permission. An examination of the process of aging from the perspective of behavioral and sociological aspects. Lecture.

3850:355 SPECIAL TOPICS IN SOCIOLOGY 1-3 credits
Prerequisite: Permission.

3850:357 SOCIOLOGICAL READINGS AND RESEARCH 1-3 credits
Prerequisite: Permission. Individual study of a problem area of specific interest to the individual student under guidance of a department member. Preparation of a research paper.

3850:403/503 HISTORY OF SOCIOLOGICAL THOUGHT 3 credits
Prerequisites: 100 or permission. Examination of major scholars in the "classical" sociological tradition. Lecture.

3850:404/504 CONTEMPORARY SOCIOLOGICAL THEORIES 3 credits
Prerequisite: 403 or permission. An examination and critical evaluation of the works of modern sociological theorists, emphasizing current theoretical approaches to the issues of social order and social change. Lecture.

3850:410/510 SOCIAL STRUCTURES AND PERSONALITY 3 credits
Prerequisite: 100 or permission. Examination of the interrelationships between position in society and personality characteristics. Personality will be treated as both a result and a determinant of social structure and process. Lecture.

3850:411/511 SOCIAL INTERACTION 3 credits
Prerequisite: 100 or permission. An intensive study of advanced theory and research in social psychology, particularly how social interaction and self-conception affect one another. Lecture.

3850:412/512 SOCIALIZATION: CHILD TO ADULT 3 credits
Prerequisite: 100 or permission. Theoretical and empirical analyses of the process by which the infant, child, adolescent and adult learn the social and cultural requirements necessary to function in new roles, changing roles and society in general.

3850:421/521 RACIAL AND CULTURAL INTERGROUP RELATIONS 3 credits
Prerequisite: 100 or permission. Analysis of social forces which created and sustain modern "race relations." Macro level emphasis on Marxist analysis of colonialism and imperialism. Micro level: analysis of social psychological processes of dominance/subordination and struggle/liberation. Lecture.

3850:425/525 SOCIOLOGY OF URBANIZATION 3 credits
Prerequisite: 100 or permission. A study of the implications of growing density and nucleation of population on attitudes, social structures and social change. Lecture.

3850:430/530 JUVENILE DELinquency 3 credits
Prerequisite: 100 or permission. Analysis of the social structure and process from which delinquency develops. Emphasis on current and past research. Lecture—discussion.

3850:431/531 CORRECTIONS 3 credits
Prerequisite: 330 or 430. Theories, belief systems, correctional practices and effectiveness as related to offender groups. Lecture.

3850:435/532 PROBATION AND PAROLE 3 credits
Prerequisites: 330 or 430 or permission. Analysis of how probationers and parolees are selected, supervised, and then released into private life. Emphasis on current and past social research. Lecture—discussion.
3850:433/533 SOCIOLOGY OF DEVIANT BEHAVIOR
3 credits
Prerequisites: 100 and at least 6 additional hours of Sociology courses or permission. A survey of theories of deviant behavior and relevant empirical research. Special emphasis will be given to interaction processes and social control. Lecture.

3850:440/540 SOCIOLOGY OF RELIGION 3 credits
Prerequisite: 100 or permission. A study of forms of religion and their social functions with an emphasis on Religion in American Society. Lecture.

3850:441/541 SOCIOLOGY OF LAW 3 credits
Prerequisites: 100 and at least 6 additional hours of Sociology courses, or permission. The social origins and consequences of law and legal processes. Emphasis upon uses of law, social change, and aspects of the legal professions. Lecture.

3850:442/542 SOCIOLOGY OF EDUCATION 3 credits
Prerequisite: 100 or permission. Analysis of education from an organizational and social psychological perspective. Some topics covered include: desegregation; busing; neighborhood schools; impact of family, peers and teachers on learning; school organization. Lecture.

3850:443/543 INDUSTRIAL SOCIOLOGY 3 credits
Prerequisite: 6 hours of Sociology or Industrial Management. Comparison of formal and informal structures in industrial organizations; analysis of work roles and status systems; communication processes; relation of work plant to community and society. Lecture.

3850:494/594 WORKSHOP IN SOCIOLOGY 1-3 credits
Group studies of special topics in sociology. May not be used to meet departmental under-graduate or graduate major requirements. May be used for elective credit only. May be repeated.

3850:495 RESEARCH INTERNSHIP 2-4 credits
Prerequisites: 302, 321; 3.0 average in Sociology and overall; or permission. Placement in selected community organization for supervised experience in all phases of a social research project. Student must receive permission from instructor during the quarter prior to enrollment. May be repeated for credit.

GRADUATE COURSES

3850:600 FUNDAMENTALS OF SOCIOLOGY 3 credits
An accelerated introduction to Sociology for graduate students deficient in sociological background or from other disciplines who intend to take further graduate courses in Sociology. Lecture.

3850:603 SOCIOLOGICAL RESEARCH METHODS 3 credits
Advanced research methods including advanced statistical techniques. (Same as KSU 72211) Lecture—lab.

3850:604 SOCIAL RESEARCH DESIGN 3 credits
An intensive analysis of problems in a research design similar to those which will be encountered in the preparation of a thesis. (Same as KSU 72212) Seminar or dissertation.

3850:605 THEORY AND MEASUREMENT OF SOCIAL ATTITUDES 3 credits
Prerequisites: 603 and 604, or permission. Seminar in theories of social attitudes and techniques for their measurement. (Same as KSU 72213) Seminar.

3850:606 QUANTITATIVE TECHNIQUES 3 credits
Prerequisite: permission. Advanced research methods including advanced statistical techniques. (Same as KSU 72210) Seminar.

3850:607 COMPUTER APPLICATIONS IN SOCIAL SCIENCES 3 credits
Prerequisite: Elementary statistics course or permission of instructor. An introduction to computers and their applications in the social sciences. (Same as KSU 72214) Seminar.

3850:608 ADVANCED TECHNIQUES IN RESEARCH 1-3 credits
Prerequisite: permission. Selected topics in advanced, multivariate statistical analysis and in strategies of sociological research. Emphasis on current trends and innovations in research techniques. (Same as KSU 82119) Seminar.

3850:617 SOCIOLOGICAL THEORY 3 credits
An examination of major theoretical frameworks and concepts that form the foundation of sociological thought. Emphasis placed on contemporary sociological theory and its debt to the classic works. (Same as KSU 72108) Seminar.

3850:618 THEORY CONSTRUCTION 3 credits
Study of rules and methods for constructing scientific theory. Emphasis upon the writings of scientists and philosophers of science and application of these ideas to the development of sociological theories. (Same as KSU 82106) Seminar.

3850:619 ADVANCED CONCEPTUAL ANALYSIS 3 credits
A critical examination of concepts held fundamental in sociological diagnosis. Evaluation of them from logical, semantical and operational perspectives. Assessment of their utility to the development of sociological theories. (Same as KSU 82106) Seminar.

3850:620 GENERAL SYSTEMS THEORY 3 credits
Prerequisite: 618. An analysis of general systems theory as the basis for a model of society and as a heuristic framework for theory and research. (Same as KSU 82107) Seminar.

3850:621 SPECIAL TOPICS IN SOCIOLOGICAL THEORY 1-3 credits
An open course to cover a content area not readily subsumable under other headings. Content of the course to be determined by the instructor. (Same as KSU 82109) Seminar.

3850:631 SOCIAL PSYCHOLOGY 3 credits
An intensive examination of social psychological theory and research, both classic and contemporary. Provides students with a background and working knowledge of the social psychological aspects of social phenomena. (Same as KSU 72430) Seminar.

3850:632 SMALL GROUP THEORY 3 credits
Prerequisite: permission. Theoretical and applied aspects of Small Group Dynamics. Topics: leadership emergence, effective group development and functioning, power, norms, individual behavior, among others. (Same as KSU 72432) Seminar.

3850:633 SMALL GROUP RESEARCH TECHNIQUES 3 credits
Prerequisite: 632. Application and implications of research in small groups. Focus on both laboratory and field studies. Seminar—lab.

3850:634 PERSONALITY AND SOCIAL SYSTEMS 3 credits
Examination of contemporary theory and research on linkages between personality and society. Some applications in studies of modernization, social class and occupations and sex roles. (Same as KSU 72433) Seminar.
3850:635 SOCIOLOGY OF COMMUNICATION
3 credits
Examination of communication media, content, audiences, and impact within a sociological context. (Same as KSU 72434) Seminar.

3850:636 CRITIQUE OF MASS COMMUNICATIONS RESEARCH 3 credits
Prerequisite: permission. The systematic evaluation of theoretical, methodological and empirical aspects of significant studies of mass communication. (Same as KSU 72786) Seminar.

3850:637 CONTEMPORARY TRENDS IN SOCIAL PSYCHOLOGY 1-3 credits
Selected topics on significant contemporary issues, theories and methodological developments in social psychology. (Same as KSU 82439) Seminar.

3850:638 RESEARCH IN SOCIAL PSYCHOLOGY 1 credit
Prerequisite: 631. The design and development of a research project oriented to empirically examining selected concepts in social psychology or to testing selected propositions in social psychology. (Same as KSU 72431) Research.

3850:645 SOCIAL ORGANIZATION 3 credits
A general survey of major theories, concepts, and problems pertaining to the creation, alteration, and dissolution of social organization at various levels of size and complexity. (Same as KSU 72540) Seminar.

3850:646 SOCIAL STRATIFICATION 3 credits
Prerequisite: permission. Seminar dealing with social class and castes with special reference to the American social structure. (Same as KSU 72546) Seminar.

3850:647 URBAN SOCIOLOGY 3 credits
An analysis of the theories of urban process and review of the major contributions to the empirical analysis of urban life. (Same as KSU 72852) Seminar.

3850:648 COMPLEX ORGANIZATIONS 3 credits
Prerequisite: permission. Organizations as social systems; their effect on individuals. Problems of professionals in bureaucracies. (Same as KSU 72545) Seminar.

3850:649 SOCIOLOGY OF WORK 3 credits
An examination of work as a behavioral phenomenon in human societies; contrasts with nonwork and leisure; significance of occupations, professions, and work types in organization of work. (Same as KSU 72542) Seminar.

3850:650 RESEARCH IN COMMUNITY AND AREA PROBLEMS 3 credits
Prerequisite: permission. Special investigation of community, area, or regional problems; design and execution of small projects. (Same as KSU 72855) Seminar.

3850:651 RACE RELATIONS 3 credits
Prerequisite: permission. Analysis of social forces which created and sustain modern "race relations." Macro level: emphasis on Marxist analysis of colonialism and imperialism. Micro level: analysis of social psychological processes of dominance/subordination and struggle/liberation. (Same as KSU 72870) Seminar.

3850:652 CONFLICT 3 credits
Prerequisite: permission. Current conceptions of human conflict. Discussion of vital concepts and principles for understanding conflict phenomena. Power, values, ideology, riots, revolution and war. (Same as KSU 72875) Seminar.

3850:653 SPECIAL TOPICS IN SOCIAL ORGANIZATION 1-3 credits
An open course to cover a content area not readily subsumable under other headings. Content of the course to be determined by the instructor. (Same as KSU 82549) Seminar.

3850:654 ISSUES IN URBAN ANALYSIS 1-3 credits
A special topics seminar dealing with current and special topics in the urban process and its analysis. (Same as KSU 82659) Seminar.

3850:655 RESEARCH IN SOCIAL ORGANIZATION 1 credit
Prerequisite: 645. The design and development of a research project oriented to empirically examining selected concepts in social organization or to testing selected propositions in social organization. (Same as KSU 72541) Research.

3850:663 DIVIANCE AND DISORGANIZATION 3 credits
Prerequisite: permission. Examination of the nature and types of deviance. Problems and issues in theory and research. (Same as KSU 72760) Seminar.

3850:664 SOCIOLOGY OF CRIMINAL BEHAVIOR 3 credits
Analysis of the relations of crime and delinquency to social structure and social processes. Responses by criminal justice agencies. (Same as KSU 72763) Seminar.

3850:666 JUVENILE DELINQUENCY: THEORY AND RESEARCH 3 credits
Prerequisite: Permission. An analysis of theories of delinquency; ecological, class structural, substructural, etc. A review of relevant research also presented. (Same as KSU 72762) Seminar.

3850:667 SOCIAL ORGANIZATION OF CORRECTIONS 3 credits
Prerequisite: Permission. An analysis of the correctional institution as a social system; its formal structure and informal dynamics. Analysis of the present state of corrections research. (Same as KSU 72764) Seminar.

3850:668 SPECIAL TOPICS IN DEVIANCE AND DISORGANIZATION 1-3 credits
Designed to meet the needs of students with interests in selected topics in deviance and disorganization. (Same as KSU 82760) Seminar.

3850:669 RESEARCH IN DEVIANCE AND DISORGANIZATION 1 credit
Prerequisite: 663. This course provides for an analysis of research problems in deviance and disorganization and for the development of a research project in the above area. (Same as KSU 72761) Research.

3850:677 FAMILY ANALYSIS 3 credits
Analysis and evaluation of sociological theory and research in the family. Concentration upon techniques of theory construction and research design in the sociological study of the family. (Same as KSU 72543) Seminar.

3850:678 SOCIAL GERONTOLOGY 3 credits
Prerequisite: Permission. The impact of aging upon individuals and the society. The reactions of individuals and society to aging. (Same as KSU 72877) Seminar.

3850:679 POLITICAL SOCIOLOGY 3 credits
Description, analysis, and interpretation of political behavior through the application of sociological concepts. (Same as KSU 72544) Seminar.

3850:680 SOCIOLOGY OF EDUCATION 3 credits
Selected problems in the sociological analysis of educational systems. Emphasis upon sociological determinants of learning as class, race, family and peer subcultures. (Same as KSU 72547) Seminar.
3850:686 POPULATION 3 credits
An analysis of basic population theory and methods. Trends and differentials in fertility, mortality, migration and selected social demographic variables are also considered. (Same as KSU 72656) Seminar.

3850:687 SOCIAL CHANGE 3 credits
An advanced seminar in the theories of social change. (Same as KSU 72320) Seminar.

3850:688 HUMAN ECOLOGY 3 credits
Selected problems in the analysis of social behavior in relation to the physical environment. Overview of theory, methods and applications of human ecology. (Same as KSU 72650) Seminar.

3850:689 URBAN ECOLOGY 3 credits
Seminar in the theory and measurement of the social ecology of urban areas. Emphasis on trends and differentials in the distribution of social and organizational behavior in urban America. Seminar.

3850:690 CONTEMPORARY ISSUES IN SOCIAL CHANGE 1-3 credits
Prerequisite: 687 or permission. Varying topics focusing on current research and theory in the field of social change. Advanced notice on specific content will be provided by the instructor. (Same as KSU 72325) Seminar.

3850:691 RESEARCH IN SOCIAL CHANGE 1 credit
Prerequisite: 687. A continuation of 687. The student will prepare a major research paper based on the theoretical material covered in 3850:690 and present it for discussion to the seminar. (Same as KSU 72321) Research.

3850:692 RESEARCH IN HUMAN ECOLOGY 1 credit
Prerequisite: 688. Intensive research on a selected aspect of human ecology by individual students with previous training in this area. Topic to be arranged between student and instructor. (Same as KSU 72651) Research.

3850:697 READINGS IN CONTEMPORARY SOCIOLOGICAL LITERATURE 1-3 credits
Prerequisites: 7 hours of Sociology and permission of advisor, instructor, and chairperson of department. Intensive reading and interpretation of written material in the student's chosen field of interest. Regular conferences with instructor.

3850:699 THESIS 2-6 credits
Prerequisite: permission. Supervised thesis writing. (May be repeated for a total of 6 credits.)

3850:700 COLLEGE TEACHING OF SOCIOLOGY 2 credits
Prerequisite: Teaching Assistant or permission. Training and experience in the college teaching of sociology. Not approved as credit toward a degree. Seminar.

3850:797-798 INDIVIDUAL INVESTIGATION 1-3 credits each
Prerequisites: one quarter of graduate work, permission of the instructor, advisor, and chairperson of the department. Readings and/or research supervised by a member of the graduate faculty. (Same as KSU 72896).

3850:899 DISSERTATION 1-10 credits
Dissertation. (Must be repeated for a minimum of 30 credits.) (Same as KSU 82899).

3870: ANTHROPOLOGY

3870:150 CULTURAL ANTHROPOLOGY 4 credits
Introduction to the anthropological study of culture; a cross-cultural view of human adaptation through technology, social organization, and ideology. Lecture.

3870:151 PHYSICAL ANTHROPOLOGY 3 credits
The biological and cultural evolution of Homo sapiens; comparative study of the Primates; human variation; Old World archeology. Lecture.

3870:255 NEW WORLD PREHISTORY 3 credits
Prerequisite: 150 or 3850:100, or permission. A survey of the historic cultures of North, Middle, and South America, beginning with the peopling of the Western Hemisphere and ending with European contact. Lecture.

3870:257 INDIANS OF SOUTH AMERICA 3 credits
Prerequisites: 150 or 3850:100, or permission. A survey of the aboriginal peoples of South America, with emphasis on culture areas and continuity of culture patterns. Lecture.

3870:258 INDIANS OF NORTH AMERICA 3 credits
Prerequisites: 150 or permission. An ethnographic survey of the native cultures of North America, with emphasis on variations in ecological adaptations, social organization, and modern American Indians anthropological perspective. Lecture.

3870:357 MAGIC, MYTH AND RELIGION 3 credits
Prerequisites: 150 or 3850:100. Evolutionary transformations of magic and ritual into science and technology. Examination of animism, totemism, and other forms of preliterate religions. Mana, taboo, and other religious and social symbols. Lecture.

3870:455/555 CULTURE AND PERSONALITY 3 credits
Prerequisites: 150 or permission. An examination of the functional and casual relationships between culture and individual cognition and behavior. Lecture.

3870:461/561 LANGUAGE AND CULTURE 3 credits
Prerequisites: 150 or permission. An examination of language structure and the interaction of language, cognition and culture. Lecture.

3870:463/563 TYPES OF KINSHIP AND SOCIAL ORGANIZATION 3 credits
Prerequisites: 150 or permission. A comparative structural analysis of non-western systems of kinship and social organization in terms of status, role, reciprocal expectation, nomenclature, nuclear and extended households, and other kinship groupings. Lecture.

3870:494/594 WORKSHOP IN ANTHROPOLOGY 1-3 credits
Group studies of special topics in anthropology. May not be used to meet departmental undergraduate or graduate major requirements. May be used for elective credit only. May be repeated.

GRADUATE COURSES

3870:651 SEMINAR IN ANTHROPOLOGICAL THEORIES AND METHODS 3 credits

3940: POLYMER SCIENCE

3940:401 INTRODUCTION TO ELASTOMERS 2 credits
Prerequisites: One year of Organic Chemistry or
Methods utilized for the production of Synthetic Rubbers are outlined. Laboratory experiments include compounding, processing, vulcanization and testing of rubber products.

3940:402 INTRODUCTION TO PLASTICS 2 credits
Prerequisites: 401 or permission. The plastics industry and its manufacturing methods are discussed. Plastics compounding for both thermoplastic and thermosetting materials are discussed with emphasis on processing and testing as illustrated by laboratory experiments.

3940:407 POLYMER SCIENCE 4 credits
Prerequisites: 3150:314 or 3650:301, or permission. Principles of compounding and testing, processing and relationships between molecular structures and physical behavior of polymers. Molecular weight distributions of macromolecules are discussed and methods of determining molecular weights are utilized.

3940:411/511 MOLECULAR STRUCTURE AND PHYSICAL PROPERTIES OF POLYMERS I 2 credits
Prerequisites: 401 or 402 or permission. An interdisciplinary course involving the principles of chemistry and physics are brought to bear on the relationships between the molecular structure and chemical composition of macromolecules and their physical properties.

3940:412/512 MOLECULAR STRUCTURE AND PHYSICAL PROPERTIES OF POLYMERS II 2 credits
Prerequisite: 411/511 or permission. Mechanical characterization of polymeric materials, the Boltzmann superposition principle and fracture. Experimental techniques including stress-strain behavior, stress relaxation, creep, forced and free vibrations are discussed.

3940:413/513 MOLECULAR STRUCTURE AND PHYSICAL PROPERTIES OF POLYMERS III 2 credits
Prerequisites: 412/512 or permission. Deformation of bonded rubbery systems, time-dependent failure, mechanical properties of polymeric foams and design considerations are discussed.

3940:414 SEMINAR IN POLYMER SCIENCE 1 credit
New and unsolved problems of polymer science will be discussed from the interdisciplinary view of material science. Students will prepare at least one formal technical presentation related to the chemical aspects of the field.

3940:415 SEMINAR IN POLYMER SCIENCE 1 credit
Prerequisite: 416 or permission. Continuation of additional topics not covered in 414.

GRADUATE COURSES

3940:604 SPECIAL PROJECTS IN POLYMER SCIENCE 1-3 credits
Prerequisite: Permission. Research projects of a limited nature assigned to students entering the Polymer Science program. These are intended to familiarize the student with typical problems and techniques in this field.

3940:610 INORGANIC POLYMERS 2 credits
Prerequisites: 3150:472/572 or 601 or permission. A survey course that is designed to broaden the outlook of the typical graduate student beyond the chemistry and physics of carbon-chains.

3940:613 POLYMER SCIENCE LABORATORY 2 credits
Prerequisite or co-requisite, 3150:601, 701 or permission of the instructor. Laboratory experiment in the synthesis, characterization, physical properties and processing and testing of polymers.

3940:599 MASTERS RESEARCH 1-6 credits
Prerequisite: Permission. For properly qualified candidates for master's degree. Supervised original research in polymer science, under the direction of a faculty member, followed by a submission of a thesis.

3940:701 POLYMER TECHNOLOGY I 2 credits
Principles of compounding and testing, processing techniques and types of operation, design principles.

3940:702 POLYMER TECHNOLOGY II 2 credits
Prerequisites: 701 or permission of instructor. Lecture-Laboratory (1-1). Rubber industry, rubber compounding and processing, vulcanization methods, physical testing, plastics preparation and compounding, manufacturing processes.

3940:703 POLYMER TECHNOLOGY III 2 credits
Prerequisite: 702 or permission of instructor. Lecture-Laboratory (1-1). Flow properties, extrusion, calendering and millling, molding, mixing, bond operations, engineering properties, rubber springs, viscoelastic analysis design consideration.

3940:708 MACROMOLECULAR CHAIN STRUCTURE 3 credits
Prerequisites: Either 3150:314, 3650:301 or 4200:305 or permission. Chain-like structure of large molecules, fundamental theories of chemical-conformation and statistical mechanics developed to a degree that their applications to polymeric problems can be discussed.

3940:709 MACROMOLECULAR CHAIN STRUCTURE 3 credits
Prerequisite: 708 or permission. Continuation of the topics discussed in 708 including the experimental techniques used in the elucidation of chain structures.

3940:711 SPECIAL TOPICS IN POLYMER SCIENCE 2 credits
Prerequisite: Permission. Study of topical subjects of current interest in Polymer Science, encompassing the chemistry, physics or engineering aspects of macromolecular substances and including laboratory work where applicable.

3940:712 SPECIAL TOPICS IN POLYMER SCIENCE 2 credits
Prerequisite: Permission. Topics of current interest in Polymer Science, encompassing the chemistry, physics or engineering aspects of macromolecular science.

3940:713 CHAIN STRUCTURE LABORATORY 2 credits
Prerequisite or corequisite, 708 or permission of instructor. This laboratory is intended to apply the principles discussed in 708 to the laboratory determination of polymer structure.

3940:899 DOCTORAL RESEARCH IN POLYMER SCIENCE 2-16 credits
Open to properly qualified students accepted as candidates for the Degree of Doctor of Philosophy in Polymer Science, depending on the availability of staff and facilities.

3980: URBAN STUDIES

GRADUATE COURSES

3980:550 WORKSHOP 1-3 credits
Group studies of special topics in Urban Studies. May not be used to meet graduate major requirements in Urban Studies. May be used for elective credit only. May be repeated.

3980:500 BASIC ANALYTICAL RESEARCH 3 credits
Prerequisite, permission. Examines the basic framework of social science research methodologies and the basic complimentary statistical techniques, including probability and sampling, most useful in urban studies.

3980:601 ADVANCED RESEARCH AND STATISTICAL METHODS 3 credits
Prerequisite, 600. Extends the study of social science research methods to include more advanced research methods to include more advanced research designs and multivariant statistical techniques.

3980:602 AMERICAN URBAN DEVELOPMENT 3 credits
An examination of the major literature on the processes of urbanization in the United States, and selected facets of urban institutional development.

3980:610 URBAN POLITICS 4 credits
Prerequisite, permission. An Empirical analysis of urban political structure, and major political problems.

3980:611 URBAN ADMINISTRATION 4 credits
Prerequisite, permission. The organization and management characteristics of various types of governmental units will be examined within the framework of organization and management theory.

3980:612 NATIONAL URBAN POLICY 4 credits
Prerequisite, permission. Major federal policies that relate to urban problems are examined in regard to policymaking processes, implementation, and impact.

3980:620 SOCIAL SERVICES PLANNING 3 credits
Prerequisite, permission. An In-depth analysis of the total social services requirements and the various ways in which the social services planning function is carried out in urban communities.

3980:621 URBAN SOCIETY AND SERVICE SYSTEMS 4 credits
Prerequisite, permission. An analysis of the social bases of urban society and hierarchies, social problems and relationships to planning and public services.

3980:630 PLANNING CONCEPTS AND METHODS 3 credits
Prerequisite, permission. An examination of the types, forms, approaches and nature of planning at various levels and a critical appraisal of the development and redevelopment process.

3980:631 URBAN FACILITIES PLANNING 3 credits
Prerequisite, permission. A study of urban facilities planning—the need, process and limitation.

3980:640 FISCAL ANALYSIS 3 credits
Prerequisite, permission. A study of the revenue and expenditure patterns of the city’s government.

3980:641 URBAN ECONOMIC GROWTH AND DEVELOPMENT 4 credits
Prerequisite, permission. An examination of the urban economic unit and its susceptibility to social, economic, political and physical change.

3980:650 COMPARATIVE URBAN SYSTEMS 3 credits
Prerequisite, permission. Conceptual schemes and methodology for comparative urban analysis among a number of major cities selected from each continent.

3980:670 URBAN RESEARCH DESIGN 3 credits
Prerequisite, 602 or equivalent or permission. This course will emphasize advanced work in problem of definition, conceptual logic of urban research, sampling, questionnaire design, planning report development and writing, and advanced quantitative procedures.

3980:680-681 SELECTED TOPICS IN URBAN STUDIES 1-3 credits each
Prerequisite, permission. Selected topics in specific areas of Urban Planning, in the various developmental processes of cities, or in various urban policy and administrative issues. (A maximum of 27 credits may be earned in 680 and 681.)

3980:690 URBAN STUDIES SEMINAR 3 credits
Prerequisite, 16 hours of Urban Studies Core plus quantitative methods. Urban research methods applied to a specific urban research area. A comprehensive paper is required.

3980:695 INTERNSHIP 1-3 credits
(May be repeated for a total of 3 credits). Prerequisite, permission. A faculty supervised work experience program in which the student participates in policy planning and administrative operations in selected urban, state and federal governments and urban agencies.

3980:697 INDIVIDUAL STUDIES 1-3 credits
(May be repeated for a total of 4 credits). Directed individual readings or research focused on a specific area or topic.
The College of Engineering

4100: GENERAL ENGINEERING

4100:180 ENGINEERING DESIGN 1 Credit (1-0)
Introduction of the freshman engineering student to problem-solving techniques in Engineering design. Required of all entering Engineering freshmen in Evening College.

4100:201 FUNDAMENTALS OF ENVIRONMENTAL ENGINEERING ANALYSIS 2 credits (2-0)
Interactions between energy production, consumption and environment. Case studies. Not for engineering, chemistry or physics majors.

4100:202 ATMOSPHERIC POLLUTION 2 Credits (2-0)

4100:301 COOPERATIVE WORK PERIOD I 0 Credit
For Cooperative Program students only. Practice in industry and comprehensive written reports of this experience.

4100:302 COOPERATIVE WORK PERIOD II 0 Credit
For Cooperative Program students only. Practice in industry and comprehensive written reports of this experience.

4100:403 COOPERATIVE WORK PERIOD III 0 Credit
For Cooperative Program students only. Practice in industry and comprehensive written reports of this experience.

4200: CHEMICAL ENGINEERING

4200:120 ENGINEERING FUNDAMENTALS 1 credit (1-0)
Prerequisite: 3150:132. Introduction to engineering, problem solving and format, computational exercise, dimensions, units, physical measurements.

4200:200 MATERIAL AND ENERGY BALANCES 4 credits (4-0)
Prerequisites: 3450:221 and 3150:134. Introduction to material and energy balance calculations applied to the solution of chemical engineering problems.

4200:305 MATERIALS SCIENCE 2 credits (2-0)
Prerequisites: 3150:133 and 3650:282 and Junior Standing. The structure, processing and properties of metals, ceramics and polymers. Special topics, such as composites, corrosion and wear.

4200:321 FLUID, THERMAL TRANSFER THEORY 3 credits (3-0)
Prerequisite: 320. Constitutive equations for momentum and energy transfer. Development of microscopic and macroscopic momentum and energy equations. Analogy and dimensions correlations. Problems and applications in the unit operations of chemical engineering.

4200:322 THERMAL, MASS TRANSFER THEORY 3 credits (3-0)
Prerequisite: 321. Constitutive equation for mass transfer. Development of microscopic and macroscopic momentum, energy and mass transfer equations for binary systems. Problems and applications in the unit operations of chemical engineering.

4200:325 EQUILIBRIUM THERMODYNAMICS 4 credits (4-0)
Prerequisite: 200. The second law of thermodynamics, entropy, applications, comprehensive treatment of pure and mixed fluids. Phase and chemical equilibria, flow processes, power production and refrigeration processes are covered.

4200:351 FLUID AND THERMAL OPERATIONS 3 credits (3-0)
Prerequisite: 321. Applications of fluid mechanics including piping, pumping, compression, metering, agitation, and separations. Applications of heat transfer by conduction, convection, and radiation to design of process equipment.

4200:352 TRANSPORT LABORATORY 2 credits (0-2)
Prerequisite: 322. Experiments in fluid, heat, and mass transfer. Data collection, analysis, and reporting in various format. Relationships to theory emphasized.

4200:353 MASS TRANSFER OPERATIONS 3 credits (3-0)
Prerequisites: 322, 325. Theory and design of stagex operations including distillation, extraction, absorption. Theory and design of continuous mass transfer devices.

4200:354 OPERATIONS LABORATORY 1 credit (0-1)
Prerequisite: 353. Comprehensive experiments and analysis in combined heat and mass transfer, thermodynamics and reaction kinetics. Comprehensive reports.

4200:408 POLYMER ENGINEERING 3 credits (3-0)
Prerequisite: Permission or Senior Standing. Commercial Polymerization, Materials Selection and Property Modification, Polymer Processing, Applied Rheology, and a Classification of the Polymer Industry.

4200:430 CHEMICAL REACTION ENGINEERING 3 credits (3-0)
Prerequisite: 325. Non-equilibrium processes including chemical reaction mechanisms, rate equations, and ideal reactor design applied to homogeneous and heterogeneous systems.

4200:435 PROCESS ANALYSIS AND CONTROL 3 credits (2-1)
Prerequisites: 353 or 430. Response of simple chemical processes and design of appropriate control equipment.

4200:441 PROCESS ECONOMICS AND DESIGN 4 credits (4-0)
Prerequisite: 353. Economic evaluation of chemical plants including justification, profitability, capital investment, and operating costs. Design of chemical process equipment.

4200:442 PLANT DESIGN 4 credits (3-1)
Prerequisite: 441. Integration of process and equipment design for a total plant including justification, site selection, and plant layout. Culminates with a case study or A.I.Ch.E. Student Contest Problem.

4200:461/561 SOLIDS PROCESSING 3 credits (3-0)
Prerequisites: 321 and 353 or permission. Comprehensive problems in sedimentation, fluidization, drying and other operations involving mechanics of particulate solids in liquid and gas continua.
4200:463/563 POLLUTION CONTROL 3 credits (3-0)
Prerequisite: 353. Air and water pollution sources and problems. Engineering aspects and methodology.

4200:486/586 DIGITIZING DATA AND SIMULATION 3 credits (3-0)
Prerequisite: Permission. Data acquisition and analysis by digital devices, digital control applications, designing using digital computers.

4200:497 HONORS PROJECT 1 to 3 credit hours
Prerequisite: Special Permission. An individual creative project pertinent to chemical engineering culminating in an undergraduate thesis, supervised by a faculty member of the Chemical Engineering Department. This course may be repeated for up to a total of 6 credit hours.

4200:499 RESEARCH PROJECT 1 to 3 credit hours
Prerequisite: Permission. Individual research project pertinent to chemical engineering under faculty supervision. Report required. May be repeated up to a total of 6 credit hours.

GRADUATE COURSES

4200:600 TRANSPORT PHENOMENA 3 credits (3-0)
Systematic presentation of the conservation of momentum, energy, and mass at both the microscopic and macroscopic levels in conjunction with illustrative examples and analogies.

4200:605 CHEMICAL REACTION ENGINEERING 3 credits (3-0)
Prerequisite: 430 or permission. Kinetics of homogeneous and heterogeneous systems. Reactor design for both ideal and non-ideal flow systems.

4200:610 CLASSICAL THERMODYNAMICS 3 credits (3-0)
Prerequisite: 325. Discussion of the laws of thermodynamics and their application. Prediction and correlation of thermodynamic data. Phase and reaction equilibria.

4200:620 CHEMICAL PROCESS DYNAMICS 3 credits (3-0)
Prerequisite: 600. Development and solutions of mathematical models for chemical processes including models based on transport phenomena, principles, population balance methods, and system analysis.

4200:630 ADVANCED POLYMER ENGINEERING 3 credits (3-0)
Prerequisite: 623 or permission. Reactors for polymerization, polymer characterization, polymer processing, polymer rheology.

4200:640 ADVANCED PLANT DESIGN 3 credits (3-0)
Prerequisite: Permission. Topical treatment of process and equipment design, scale-up design, optimization, process syntheses, process economics. Case problems.

4200:698 SPECIAL PROBLEMS 1-4 credits
(May be repeated for a total of 4 credits). Prerequisite: Permission of department head. For qualified candidates for the M.S.Ch.E. degree. This course is designed to allow a student to expand a particular area of interest by consultation with a faculty member and independent study beyond available course work. Credit is dependent upon nature and extent of project as determined by supervisor and department head.

4200:699 MASTERS RESEARCH 1-6 credits
(May be taken more than once). For properly qualified for Master's degree. Supervised original research in a specific area of chemical engineering to be selected on a basis of availability of staff and facilities.

4200:701 ADVANCED TRANSPORT PHENOMENA 2 credits (2-0)
Prerequisite: 600. Advanced theory of transport phenomena such as applied tensor analysis, constitutive equations, multiphase transport and multi-phase transport. Illustrative practical examples are also presented.

4200:706 ADVANCED REACTION ENGINEERING 2 credits (2-0)
Prerequisite: 605. Kinetics of heterogeneous systems, fluidized reactors immobilized enzymes, etc., with additional topics drawn from current literature.

4200:711 NON-EQUILIBRIUM THERMODYNAMICS 2 credits (2-0)
Prerequisite: 610. The thermodynamic-phenomenological theory of irreversible processes and its applications.

4200:715 MOMENTUM TRANSPORT 3 credits (3-0)
Prerequisite: 600. Discussion of boundary layer formation and turbulent flow phenomena for Newtonian fluids.

4200:716 NON-NEWTONIAN FLOW 2 credits (2-0)

4200:720 ENERGY TRANSPORT 3 credits (3-0)
Prerequisite: 600. Conduction natural and forced convection, and radiation heat transfer starting with the equations of continuity, motion and energy.

4200:721 TOPICS IN ENERGY TRANSPORT 2 credits (2-0)
Prerequisite: 720. Advanced analytical and graphical methods for solving complex heat transfer problems found in chemical engineering.

4200:725 MASS TRANSFER 3 credits (3-0)
Prerequisite: 600. Theory of mass transfer with applications to absorption, adsorption, distillation, and heterogeneous catalysis.

4200:727 PROCESS CONTROL 3 credits (3-0)
Prerequisite: 630. Introduction to modern control theory of chemical processes including cascade control, multi-variate control and data sampled control.

4200:730 POLYMER ENGINEERING TOPICS 2 credits (2-0)
Prerequisite: Permission. Selected topics of current interest in polymer engineering, such as modelling of reactors or processes, multi-phase materials, multi-phase flow, artificial fiber engineering, etc.

4200:750 POLLUTION CONTROL ENGINEERING 2 credits (2-0)
Prerequisite: 464 or permission. Advanced waste treatment methods as applied to the chemical process industries.

4200:794 ADVANCED SEMINAR 1-4 credits
Prerequisite: Permission of Department Head. Advanced projects, readings and other studies in various areas of chemical engineering. Intended for students seeking the Ph.D. in Engineering degree. May be repeated up to a maximum of 6 credits.

4200:898 PRELIMINARY RESEARCH 1-15 credits
(May be repeated for a total of 15 credits) Prerequisite: Approval of Advisory Committee. Preliminary investigation of Ph.D. dissertation subject.

4200:899 DOCTORAL DISSERTATION 1-15 credits
Prerequisite: completion of preliminary examination and approval of Advisory Committee. Original re-
search by a Ph.D. candidate. May be taken more than once.

4300: CIVIL ENGINEERING

4300:130 INTRODUCTION TO ENGINEERING 1 credit (3-0)
Prerequisite: None. Introduction to Civil Engineering for the freshman engineering student. Tasks and opportunities of the civil engineer. Introduction to engineering practices and techniques. Required of all Civil Engineering freshmen.

4300:201 STATICS 3 credits (3-0)

4300:202 INTRODUCTION TO MECHANICS OF SOLIDS 3 credits (3-0)
Prerequisite: 201. Axial force, bending moment diagrams, axial stress and deformation; stress-strain diagrams; torsion; flexural stress; flexural shearing stress; compound.

4300:230 SURVEYING 4 credits (3-1)
Prerequisite: None. Principles of route, construction and land surveying. Use of tape, level, transit and electronic surveying equipment. Computation of land areas and earthwork quantities.

4300:306 THEORY OF STRUCTURES 3 credits (3-0)
Prerequisite: 202. Stability and determinacy; statically determinate trusses and frames; approximate frame analysis influence lines; moving loads; virtual work analysis; moment area theorem; theorem of three moments; moment distribution for continuous beams and frames.

4300:311 GEOTECHNICAL ENGINEERING 5 credits (4-1)

4300:323 WATER SUPPLY & WASTEWATER DISPOSAL 3 credits (3-0)

4300:341 HYDRAULICS & HYDROLOGY 4 credits (4-0)

4300:361 TRANSPORTATION ENGINEERING 3 credits (3-0)
Prerequisite: 323 or permission. Laboratory analysis of water and wastewater.

4300:380 ENGINEERING MATERIALS LABORATORY 1 credit (0-1)
Prerequisite: 202. A study of laboratory instrumenta- tion and standard techniques in the testing of engineering materials. Data analysis.

4300:401 STEEL DESIGN 2 credits (2-0)

4300:403 REINFORCED CONCRETE DESIGN 3 credits (3-0)

4300:404 ADVANCED STRUCTURAL DESIGN 3 credits (3-0)

4300:405/505 ADVANCED MECHANICS OF MATERIALS 3 credits (3-0)

4300:407 ADVANCED MECHANICS OF SOLIDS 3 credits (3-0)
Prerequisite: 202. Inelastic torsion analysis twisting of noncircular bars and hollow members; bending of unsymmetrical sections; inelastic beam bending; beams of two materials; curved beams; shear center; strain transformation; yield criteria; skew bending; Castigliano's theorem; conjugate beam.

4300:414 DESIGN OF EARTH STRUCTURES 3 credits (3-0)

4300:418/518 SOIL AND ROCK EXPLORATION 3 credits (3-0)
Prerequisite: 311 or permission. Site exploration criteria and planning. Conventional boring, sampling and in situ testing methods. Theory and application of geophysics and geophysical methods including seismic, electrical resistivity, gravity, magnetic and radioactive measurements. Air photo interpretation.

4300:421 ENVIRONMENTAL ENGINEERING 3 credits (3-0)
Prerequisite: 3150:133. The engineering aspects involved in the control of the environment of the citizen. Includes communicable disease control, air pollution, industrial hygiene, milk and food sanitation, radiological health, solid waste disposal.

4300:424 WATER-WASTEWATER LABORATORY 1 credit (0-1)
Prerequisite: 323 or permission. Laboratory analysis of water and wastewater.

4300:425 ENVIRONMENTAL ENGINEERING LABORATORY 2 credits (2-0)
Selected physical, chemical, and bacteriological analysis of raw and treated water and waste waters.
4300:426/526 ENVIRONMENTAL ENGINEERING DESIGN 2 credits (2-0)
Analysis of various environmental control systems for water and waste water treatment. Economic analysis with the use of computer programming for the evaluation of various regional, metropolitan and urban areas to determine the most economical system for water supply and pollution control.

4300:441 HYDRAULIC DESIGN 3 credits (3-0)
Prerequisite: 341. Collection and critical evaluation of hydraulic data related to an actual design problem selected by the instructor. Development and analysis of design alternatives. Preparation of reports.

4300:443/543 APPLIED HYDRAULICS 3 credits (3-0)
Prerequisite: 341. Review of design principles related to urban hydraulics, stream channel mechanics, sedimentation and coastal engineering.

4300:448 HYDRAULICS LABORATORY 1 credit (0-1)
Introduction to laboratory and field devices for hydraulic measurements. Reduction and presentation of hydraulic data. Individual assignments of model studies of hydraulic structures.

4300:450 URBAN PLANNING 2 credits (2-0)
Historical developments in urban planning; urban planning techniques and patterns; comprehensive master planning studies; planning regulations; design problems; class projects; class project presentation.

4300:451 MATRIX ANALYSIS OF STRUCTURES 3 credits (3-0)

4300:452 STRUCTURAL VIBRATIONS 2 credits (2-0)

4300:463 TRANSPORTATION PLANNING 2 credits (2-0)
Prerequisite: 351. Theory and techniques for development, analysis and evaluation of transportation system plans. Emphasis on understanding and using the tools and professional methods available to solve transportation planning problems, especially in urban areas.

4300:464 HIGHWAY DESIGN 3 credits (3-0)
Prerequisite: 351. A step-by-step study of modern highway design techniques and construction practice.

4300:471 CONSTRUCTION ADMINISTRATION 2 credits (2-0)
Prerequisite: Senior standing or permission. Organization for construction, construction contracts, bidding, bonds and insurance. Construction management and supervision, including introductions to the critical path method.

4300:472 CONSTRUCTION ENGINEERING 3 credits (3-0)
Prerequisite: Senior standing or permission. Construction equipment selection and management. Techniques of various engineering construction operations including blasting, tunneling, concrete framework and dewatering.

4300:473 CONSTRUCTION MATERIALS 2 credits (2-0)
Prerequisites: 300, 305. Composition, structure and mechanical behavior of structural materials such as concrete, wood, masonry, plastics and composite materials. Discussion of applications and principles of evaluating material properties.

4300:474/574 UNDERGROUND CONSTRUCTION 2 credits (2-0)
Prerequisite: 311. Description of practices and techniques of underground construction. Selection of proper method for individual job. Design of underground openings, support systems and linings.

4300:481 CIVIL ENGINEERING SYSTEMS 2 credits (2-0)
Prerequisite: Senior standing. Systems approach to civil engineering problems. Mathematical programming; project planning, scheduling and cost analysis; basic operations research methods; decision analysis. Management of engineering design of complex civil engineering projects.

4300:482 SPECIAL PROJECTS 1-2 credits
Prerequisite: Senior standing and permission. Directed individual or group research or study in the student's field of interest. Topic subject to approval by advisor.

4300:497 HONORS PROJECT 1-3 credits
Prerequisite, senior standing in Honors Program. An individual creative project of design relevant to Civil Engineering, supervised by a faculty member of the Civil Engineering Department. May be repeated for up to a total of 8 credit hours.

GRADUATE COURSES

4300:602 FUNDAMENTALS OF ELASTICITY, PLASTICITY AND VISCOELASTICITY 3 credits (3-0)

4300:603 MATRIX ANALYSIS OF FRAMED STRUCTURES 3 credits (3-0)

4300:604 DYNAMICS OF STRUCTURES 3 credits (3-0)

4300:605 STRUCTURAL STABILITY 3 credits (3-0)

4300:606 ENERGY METHODS AND ELASTICITY 3 credits (3-0)
4300:607 PRESTRESSED CONCRETE 3 credits (3-0)

4300:608 MULTISTORY BUILDING DESIGN 3 credits (3-0)

4300:609 FINITE ELEMENT ANALYSIS I 3 credits (3-0)
Prerequisite: 622. Introductory development of the finite element method as applied to various topics from continuum mechanics. Such areas as: plane, axisymmetric and 3-D stress analysis; condition, fluid mechanics; transient problems and geometric and material nonlinearity will be covered.

4300:610 FUNDAMENTALS OF SOIL BEHAVIOR 2 credits (2-0)
Prerequisite: 311. An in-depth examination of the structure and fundamental physio-chemical and mechanical properties of engineering soils viewed as particulate matter.

4300:612 ADVANCED SOIL MECHANICS 3 credits (3-0)
Prerequisite: 311. Study of mechanics of behavior of soil as a continuum. Principles of stress, strain, deformation, shear strength, and pore water pressure as applied to applied mechanical behavior of soil masses.

4300:614 FOUNDATION ENGINEERING I 3 credits (3-0)
Prerequisite: 311 or permission. Foundation bearing capacity and settlement analysis. Design of shallow and deep foundation systems. Pile driving and load test procedures and analysis. Theory and design of earth retaining structures including retaining walls, tiebacks and bulkheads.

4300:615 FOUNDATION ENGINEERING II 3 credits (3-0)
Prerequisite: 614 or permission. Soil-structure interaction theory and applications to underground structures including conduits, tunnels and shafts. Advanced foundation construction methods and problems including dewatering, soil stabilization, underpinning and cofferdams. Stability analysis.

4300:618 ROUGH MECHANICS 3 credits (3-0)
Prerequisite: 602 or permission. Mechanical nature of rocks: linear elasticity and application to rock problems; inelastic behavior of rocks, time dependence, and the effects of pore pressure; experimental characterization of rock properties; failure theory and crack propagation.

4300:620 SANITARY ENGINEERING PROBLEMS 2 credits (2-0)
Prerequisite: 323. The application of both laboratory methods and theory to the solution of sanitary engineering problems involving water pollution, stream regeneration, special industrial wastes, detergents, and others.

4300:621 INDUSTRIAL WASTE TREATMENT 2 credits (2-0)
Prerequisite: permission. Analysis of problems arising from industrial water pollution. Analysis of methods of treatment with specific applications and the study of cost-effectiveness to meet water quality criteria.

4300:622 WATER TREATMENT PLANT DESIGN 3 credits (3-0)
Prerequisite: permission. Design of water treatment plants for potable, industrial and commercial uses. Development of water sources, treatment methods and financing will be used to design the best practical methods in terms of cost-benefits.

4300:623 WASTEWATER TREATMENT PLANT DESIGN 3 credits (3-0)
Prerequisite: permission. Application of theory and fundamentals to the design of wastewater treatment plants. System design methods will be used for the biological and chemical stabilization of wastewater to meet water quality criteria. Economic analyses will be made to determine best practical designs to be utilized.

4300:624 ENGINEERING MANAGEMENT OF WATER UTILITIES 2 credits (2-0)
Prerequisite: Permission. A comprehensive study of the various functions of the water utility and the engineering management operations pertaining to the intricate and complex processes. The fundamentals of responsibility and the duties are offered to students who seek the engineering fundamentals applicable to water utility systems.

4300:640 ADVANCED FLUID MECHANICS 3 credits (3-0)

4300:644 OPEN CHANNEL HYDRAULICS 3 credits (3-0)
Application of basic principles of fluid mechanics to flow in open channels. Criteria for analysis of uniform, gradually varied and rapidly varied flows. Study of movement and transportation of sediments. Design problems utilizing numerical techniques.

4300:645 APPLIED HYDROLOGY 3 credits (3-0)
Discussion of water cycle such as precipitation, evaporation, stream flows, floods, infiltration. Methods of analysis and their application to studies of water demand, storage, transportation including mathematical modeling of urban runoff and statistical hydrology.

4300:646 COASTAL ENGINEERING 3 credits (3-0)
Characteristics of linear and nonlinear wave theories. Interaction of structures and waves and design analysis of shore and offshore structures. Movement and transportation of sediments in lake shore areas.

4300:681 ADVANCED ENGINEERING MATERIALS 3 credits (3-0)

4300:697 SPECIAL PROBLEMS 1-2 credits
Prerequisite: 697 and permission. Continuation of 697. Individual research should lead to final report of publishable quality.

4300:698 SPECIAL PROBLEMS 1-2 credits
Prerequisite: 697 and permission. Continuation of 697. Individual research should lead to final report of publishable quality.

4300:699 MASTERS THESIS 1-6 credits
Supervised research or research or directed individual study in the student's major field. Topic selected by the student subject to approval by advisor.

4300:701 EARTHQUAKE ENGINEERING 3 credits (3-0)
Prerequisite: 604. Earthquake fundamentals. Earth-

4300:702 PLATES AND SHELLS 3 credits (3-0)

4300:703 APPLICATIONS IN PLASTICITY AND VISCOELASTICITY 3 credits (3-0)
Prerequisite: 602. Formulation of boundary value. Problems in plasticity and viscoelasticity. Correspondence principle. Solution approaches to practical problems, e.g., problems with cylindrical and spherical symmetry, torsional and two-dimensional problems.

4300:704 FINITE ELEMENT ANALYSIS III 3 credits (3-0)

4300:705 FINITE ELEMENT ANALYSIS III 3 credits (3-0)
Prerequisite: 704 and 702 or permission. Static and dynamic contact problems. Tire mechanics. Fracture mechanics problems involving small and large deflections. Shake down analysis. General constitutive models for composite media, thermo-viscoelasticity, fluid turbulence. Fluid-solid interaction analysis.

4300:717 SOIL DYNAMICS 3 credits (3-0)
Prerequisite: 614 or permission. Vibration and wave propagation theory relating to soils, soil-structures and foundations. Dynamic behavior of soils. Design of foundations for dynamic loading impact, pulsating and blast loads.

4300:745 SEEPOAGE 2 credits (2-0)
Discussion of parameters determining the permeability of various soils. Analytical, numerical, and experimental methods to determine two- or three-dimensional movement of groundwater. Unsteady flows.

4300:794 ADVANCED SEMINAR IN CIVIL ENGINEERING 1-3 credits
Prerequisite: permission of department head. Advanced projects, reading and other studies in various areas of civil engineering. Intended for students seeking the Ph.D. in Engineering degree. May be repeated up to a maximum up to 9 credits.

4300:898 PRELIMINARY RESEARCH 1-15 credits
May be repeated for a total of 15 credits. Prerequisite: approval of Advisory Committee. Preliminary Investigation of Ph.D. dissertation subject.

4300:899 DOCTORAL DISSERTATION 1-15 credits
May be repeated for a total of 15 credits. Prerequisite: completion of Preliminary Examination and approval of Advisory Committee. Original research by a Ph.D. Candidate. May be taken more than once for credit.
4400:363 SWITCHING AND LOGIC 3 credits (3-1)
Prerequisite: 345, 351. Analysis of computer circuits. Application of Boolean Algebra and mapping techniques in analyzing switching circuits.

4400:371 CONTROL SYSTEMS I 3 credits (2-1)
Prerequisite: 333, 361; Corequisite, 382. Introduction to servo-mechanisms and feedback. Modeling and response of feedback control systems. Stability of linear systems. Experiments include analog simulation and basic servomechanism.

4400:380 ILLUMINATION 2 credits (2-0)
Fundamentals of illumination and principles underlying specifications and design for adequate electrical lighting.

4400:381 ENERGY CONVERSION I 3 credits (3-0)
Prerequisite, 231, 353. Sources of energy, principles of energy conversion, thermodynamic limitations. Electric energy from fossil fuel, MHD, nuclear energy. Solar energy, hydro, wind and geothermal energy. Transformers.

4400:382 ENERGY CONVERSION II 4 credits (3-1)
Prerequisite: 382. Apparatus and circuits for control of electric motors. Calculation of accelerating and decelerating time and duty cycles. Selection of motors for various applications.

4400:383 APPLICATION OF MOTORS 3 credits (3-0)
Prerequisite: 382. Induction and synchronous machines. Single phase machines.

4400:387 ADVANCED MACHINERY 3 credits (2-1)

4400:391 PROBLEMS 1-3 credits
Prerequisite: permission of department head. Select comprehensive problems, supervised discussions and computation periods. May be taken more than once.

4400:421/521 ENGINEERING ECONOMY 3 credits (3-0)
Prerequisite: 2250:244 and senior standing in Engineering. Presents engineering economics as distinguished from classical economic theory.

4400:445 COMMUNICATION SYSTEMS 3 credits (3-0)
Prerequisites: 333, 353, 362. Communications systems and equipment; noise, modulation; antennas and propagation; electronic communication circuits, frequency standards and generation, communication satellites.

4400:446 ELECTRONIC SYSTEMS 3 credits (3-0)
Prerequisite: 445. The study of specific state-of-the-art electronic systems: primary and secondary radar, telemetry systems, video systems, data communications, navigational systems.

4400:447 RANDOM SIGNALS 3 credits (3-0)
Prerequisite: 333. Applications of set theory, discrete and continuous sample spaces; probability, random variables, distribution functions, density functions, stochastic processes, random signals, system function, power spectrum, and correlation functions.

4400:448 COMMUNICATION THEORY 3 credits (3-0)
Prerequisite: 447. Spectral analysis and Fourier transforms; random variables and processes; amplitude, frequency, and pulse modulation; representations of noise in modulation; threshold in frequency modulation, data transmission; communication system and noise calculations.

4400:452 INTRODUCTION TO LASERS 3 credits (3-0)
Prerequisite: 333, 355. Introduction to the basic concepts of maser (laser) action; emission processes and their roles in laser action; types of lasers: presentation of generalized operating criteria.

4400:454 ELECTROMAGNETIC FIELDS II 3 credits (3-0)
Prerequisite: 353, 359. Dynamic fields, Maxwell's equations and the wave equations. Field analysis of waveguides, microwave components, techniques, and systems.

4400:464 PULSE ELECTRONICS 4 credits (3-1)
Prerequisites: 333, 362. Introduction to industrial power systems. Experiments include hybrid and AC control system, digital computer control. Experiments include hybrid and AC control system, digital computer control.

4400:465/565 COMPUTER CIRCUITS 4 credits (3-1)
Prerequisite, 382. Electronic circuitry considerations in logic circuits, methods of sequential and threshold logic analysis and synthesis, development of computer arithmetic elements, memory and storage devices.

4400:467/567 SOLID STATE DEVICES 2 credits (2-0)
Prerequisite, 362. Static and dynamic behavior of p-n junction and junction transistors. Theory of avalanche and Zener breakdown. FET and Gunn effect oscillator.

4400:469 INDUSTRIAL ELECTRONICS 3 credits (3-0)
Prerequisites, 362, 382. Application of electronic devices at power levels. Intended for those specializing in the "power" area of Electrical Engineering rather than "electronic" areas.

4400:472/572 CONTROL SYSTEMS II 4 credits (3-1)
Prerequisite, 371. The state variable analysis and design of control systems. Discrete system and analysis, digital computer control. Experiments include hybrid and AC control system, digital computer control.

4400:480/580 SYMMETRICAL COMPONENTS 3 credits (3-0)
Prerequisite: 382. Per unit method as applied to power system calculations. Fundamental principles of symmetrical components as applied to the analysis of electrical circuits, and machines.

4400:481 ELECTRICAL POWER SYSTEMS I 3 credits (3-0)
Prerequisite: 382. Introduction to electricity utility load flow, fault analysis, stability, surge protection and relaying.

4400:482 ELECTRICAL POWER SYSTEMS II 3 credits (3-0)
Prerequisite: 382. Introduction to industrial power systems. Local generation, power factor correction, conductor selection code requirements, coordination of protective devices.

4400:497 HONORS PROJECT 1-3 credits
Prerequisite, Senior standing in Honors Program. An individual creative project or design relevant to Electrical Engineering supervised by a faculty member of the Electrical Engineering Department. This course may be repeated for up to a total of 6 credit hours.
GRADUATE COURSES

4400:498/598 TOPICS IN ELECTRICAL ENGINEERING 1-2 credits
Prerequisite: permission of department head. Special topics in Electrical Engineering. May be taken more than once.

4400:631 CIRCUIT ANALYSIS 3 credits (3-0)
Prerequisite: graduate standing. Operational methods, time domain analysis, state variable methods and matrix techniques applied in circuit analysis. Realizability and synthesis of driving point impedance and transfer functions.

4400:641 RANDOM SIGNAL ANALYSIS 3 credits (3-0)
Prerequisite: 447. Analysis, interpretation, and smoothing of engineering data through application of statistical and probability methods.

4400:642 STATISTICAL COMMUNICATIONS 3 credits (3-0)
Prerequisite: 448 or 641. Detection and estimation of signals in communication systems; linear and non-linear systems with random inputs; narrow-band systems, mean squared-error filter, modulation and information theory.

4400:651 ELECTROMAGNETIC FIELDS 3 credits (3-0)

4400:652 ADVANCED ELECTROMAGNETICS 3 credits (3-0)

4400:661 DESIGN OF DIGITAL SYSTEMS 3 credits (3-0)
Prerequisite: 465. Applications of logic circuits in the modern digital electronic computer and in digital communication systems. Computer organization and control, input-output devices and interface standards, advanced topics in computers.

4400:682 TOPICS IN ELECTRONICS 3 credits (3-0)
Prerequisite: permission of department head. Discussions of recent advances in electronics.

4400:671 DISCRETE CONTROL SYSTEMS 3 credits (3-0)
Prerequisite: 472, 572 or permission. Theory and techniques for the analysis and design of discrete control systems. Z-transform technique, stability analysis, frequency response. Optimization. Digital computer control.

4400:674 CONTROL SYSTEM THEORY 3 credits (3-0)
Prerequisite: 472, 572. Advanced modern control theory for linear and nonlinear systems. Controllability and observability, state variable feedback, estimation and control nonlinear system analysis and stability problem.

4400:675 RANDOM PROCESS ANALYSIS 3 credits (3-0)
Prerequisite: 674. Analysis and design of control systems with stochastically defined input. Introduction to estimation filters.

4400:681 POWER SYSTEM ANALYSIS 3 credits (3-0)
Prerequisite: 480. Short circuit and load flow analysis of power systems with emphasis on computer solution. Transient machine analysis.

4400:682 POWER SYSTEM STABILITY 3 credits (3-0)
Prerequisite: 681. Steady state and transient stability of power systems with emphasis on computer solution.

4400:683 ECONOMICS OF POWER SYSTEMS 3 credits (3-0)
Prerequisite: 681. Analysis and operation of power system for economic dispatching using a computer.

4400:684 PROTECTIVE RELAYING 3 credits (3-0)
Prerequisite: 480. The principles and application of relays as applied to the protection of power systems.

4400:685 SURGE PROTECTION 3 credits (3-0)
Prerequisite: 480. The phenomena of lightning and switching surges on electrical systems. The protection of systems and apparatus by line design, the application of protective devices and insulation coordination.

4400:693 SPECIAL PROBLEMS 1-3 credits
Prerequisite: Permission of department head. For qualified graduate students. Supervised research or investigation in student’s major field of training or experience. Credit dependent upon nature and extent of project. May be taken more than once.

4400:699 MASTER’S THESIS 1-6 credits
Prerequisite: Permission of department head. Research and thesis on some suitable topic in Electrical Engineering.

4400:753 TOPICS IN ELECTROMAGNETICS 3 credits (3-0)
Prerequisite: 651. Introduction to advanced techniques in fields. Topics will include application of Green’s functions techniques and related boundary value problems.

4400:776 OPTIMAL CONTROL I 3 credits (3-0)
Prerequisite: 674. Formulation of the optimization problem; application of variational calculus, maximum principle and the optimality principle to the control problems. Computational techniques in optimization.

4400:777 OPTIMAL CONTROL II 3 credits (3-0)
Prerequisite: 776. Sensitivity problem in optimal control, system identification. The implementation and application of adaptive control.

4400:779 ADVANCED TOPICS IN CONTROL 3 credits (3-0)
Prerequisite: 776. Discussions of recent advances in control systems.

4400:794 ADVANCED SEMINAR 1-3 credits
Prerequisite: permission of department head. Advanced level coverage of various specialized topics. Intended for students seeking the Ph.D. in Engineering. May be taken more than once.

4400:898 PRELIMINARY RESEARCH 1-15 credits
Prerequisite: completion of Qualifying Examination and approval of Student Advisory Committee. Preliminary investigation of Ph.D. dissertation subject. May be repeated for credit.

4400:899 DOCTORAL DISSERTATION 1-15 credits
Prerequisite: completion of Candidacy Examination and approval of Student Advisory Committee. Original research by a Ph.D. candidate. May be repeated for credit.

4450: COMPUTER SCIENCE

4450:206 FORTRAN (SCI/ENGR) 2 credits (2-0)
Prerequisites, 3450:221 or 2020:324. Introduction to the use of digital computers in scientific and engineer-
ing applications. For students majoring in engineering or the physical sciences.

4450:207 USER LANGUAGES 2 credits (2-0)
Prerequisites: 206 or equivalent. Comparative study of features of high level computer languages from the standpoint of the user.

4450:306 ASSEMBLER PROGRAMMING 3 credits (3-0)
Prerequisites: 206 or equivalent. Introduction to computer organization and programming at the machine language level. Assembler syntax, sub-routine linkage conventions, the macro language.

4450:407 SYSTEMS PROGRAMMING 3 credits (3-0)
Prerequisite: 306. Introduction to operating systems. Data structures and algorithms in assemblers, macro-processors, loaders and compilers. Process and memory management, procedure and data sharing.

4450:410 COMPUTER METHODS 3 credits (3-0)
Prerequisites: 206 or equivalent in Fortran and 345:236. Numerical methods and techniques in the use of central computer facilities to solve problems in science and engineering. Plotting and other Fortran library routines. Job Control Language. Interactive computing.

4450:432 SYSTEM SIMULATION 3 credits (3-0)
Prerequisite: 410. Principles of modeling and simulation of discrete and continuous time models, using Fortran and S/360 CSMP. Discrete event models and GPSS, SIMSCRIPT.

4450:497/597 TOPICS IN COMPUTER SCIENCE 1-2 credits
Prerequisite: Permission of department head. Special Topics in Computer Engineering. May be taken more than once.

GRADUATE COURSES

4450:610 COMPUTER ALGORITHMS I 3 credits (3-0)
Prerequisites: 206 and 3450:235. Organization of scientific and engineering problems for computer solutions. Analysis of error and convergence properties of algorithms.

4450:611 COMPUTER ALGORITHMS II 3 credits (3-0)
Prerequisites: 610 or permission. Data structures and algorithm design for minimum execution time and memory requirements.

4450:693 SPECIAL PROBLEMS 1-3 credits
Prerequisite: Permission of EE department head. For qualified graduate students. Supervised research or investigation in the students' major field. Credit depends upon nature and extent of project. May be taken more than once.

4450:794 ADVANCED SEMINAR 1-3 credits
Prerequisite: Permission of EE department head. Advanced level coverage of various topics. Intended for students seeking the Ph.D. in Engineering. May be taken more than once.

4600: MECHANICAL ENGINEERING

4600:125 ENGINEERING GRAPHICS 2 credits
Freehand sketching techniques. Orthographic projection and pictorial representation of typical machine elements.

4600:150 ENGINEERING DESIGN: MECHANICAL ENGINEERING 1 credit

Introduction to the engineering profession. Engineering curriculum and programs of study. Basic tools of engineering analysis and design.

4600:300 THERMODYNAMICS I 4 credits
Prerequisites: 3450:221 and 3650:291. Basic concepts of thermodynamics. The pure substance, the system, and the first and second laws of thermodynamics. Entropy, availability, power cycles.

4600:301 THERMODYNAMICS II 3 credits

4600:305 THERMAL SCIENCE 2 credits
Prerequisites: 3450:222 and 3650:291. Credit not allowed for both 300 and 305. Introduction to the first and second laws of thermodynamics, perfect gas relationships, equations of state, cycle analysis. Introduction to conduction, convection and radiation heat transfer.

4600:310 FLUID MECHANICS 3 credits

4600:315 HEAT TRANSFER 3 credits
Prerequisites: 300, 310. Fundamentals of heat transfer by conduction, convection and radiation.

4600:320 DYNAMICS 3 credits
Prerequisite: 4500:201. Kinematics and kinetics of particles and rigid bodies. Principles of work, energy, momentum and impulse.

4600:321 KINEMATICS OF MACHINES 3 credits
Prerequisites: 125, 320. Displacements, velocities, accelerations and introduction to forces in plane motion mechanisms. Introduction to design of gears, gear trains and cams.

4600:336 ANALYSIS OF MECHANICAL COMPONENTS 3 credits

4600:337 DESIGN OF MECHANICAL COMPONENTS 3 credits
Prerequisites: 336, 390. Application of stress analysis to the design of fasteners, welds, springs, ball bearings, and gears. Introduction to journal bearings and lubrication. Component design projects.

4600:350 ENGINEERING ANALYSIS 3 credits
Prerequisite: 3450:235. Analytical and numerical methods of solution of mechanical engineering problems.

4600:380 MECHANICAL METALLURGY 2 credits
Prerequisite: 336. Structures of common metallic materials and the study of their macroscopic mechanical behavior. Phase changes and heat treatment. Theories of failure.

4600:393 INTERNAL COMBUSTION ENGINES LABORATORY 1 credit
Prerequisite: 301. A study of the application and performance of reciprocating and rotary engines.

4600:396 COMPUTER METHODS LABORATORY 1 credit
Prerequisite: 3450:235. Application of digital computers to solution of typical problems in heat transfer, fluid dynamics, machine design, kinematics, strength of materials, elasticity and vibrations and dynamics.
4600:400 THERMAL SYSTEM COMPONENTS 3 credits
Prerequisites: 301, 310, 315. Performance analysis and design of basic components of thermal energy exchange and conversion systems. Components studied include heat exchangers, pumps, compressors, turbines, and expansion engines.

4600:401 DESIGN OF ENERGY SYSTEMS 2 credits
Prerequisites: 400, 460. Analysis and design of systems for energy exchange. Emphasis will be placed on performance of energy system components and their integration into complex practical systems. A design project will be required.

4600:410 HEATING AND AIR CONDITIONING 3 credits
Prerequisites: 301, 315. Thermodynamics of gas mixtures. Design and selection of air conditioning equipment. Control of gas mixtures, heating, cooling and humidity.

4600:411/511 COMPRESSIBLE FLUID MECHANICS 3 credits
Prerequisites: 301, 310. Subsonic and supersonic flow in nozzles, diffusers and ducts. One dimensional reactive gas dynamics. Prandtl-Meyer theory. Applications to design and analysis of compressors, turbines, and propulsion devices.

4600:415/515 ENERGY CONVERSION 3 credits
Prerequisites: 301, 315. Topics from the fields of internal combustion engines, cycle analysis, modern conversion devices.

4600:416/516 HEAT TRANSFER PROCESSES 3 credits

4600:422/522 EXPERIMENTAL STRESS ANALYSIS I 2 credits
Prerequisites: 336 or 4300:202. Experimental methods of determining stress or strain. Use of brittle lacquer, strain gages and photoelasticity.

4600:425/525 ENGINEERING ACOUSTICS I 3 credits
Prerequisites: 431 or permission. Analysis of vibrating systems by complex variable techniques and Fourier's Theorem, phase and impedance concept, propagation, transmission and reflection of plane and spherical waves.

4600:430/530 MACHINE DYNAMICS 3 credits
Prerequisites: 320, 321. Dynamic analysis of components and machines, dynamic forces and reactions. Balancing, rotor dynamics, space kinematics and kinetics of rigid bodies.

4600:431/531 MECHANICAL VIBRATIONS I 3 credits
Prerequisites: 320 and 3450:235. Undamped, damped and forced vibrations of systems having one or two degrees of freedom.

4600:440 CONTROL SYSTEMS 3 credits

4600:441 CONTROL SYSTEM DESIGN 3 credits
Prerequisite: 440. Continuation of Control Systems. Design applications to mechanical engineering control systems.

4600:442/547 INDUSTRIAL AUTOMATIC CONTROL 2 credits
Prerequisite: 440. Theory and operation of basic control mechanisms. Analysis and design of mechanical, hydraulic, pneumatic and fluidic control systems. Practical techniques for optimizing system performance.

4600:449 CONCEPTS OF DESIGN 3 credits
Prerequisite: 337. Co-requisite: 460. The design process. Creativity and inventiveness. The tools of decision-making, engineering economics, reliability, optimization. Case studies.

4600:451 DESIGN OF MECHANICAL SYSTEMS 2 credits
Prerequisites: 321, 431. Detailed mechanical design project and case studies.

4600:462/562 PRESSURE VESSEL DESIGN 3 credits
Prerequisites: 336 or 4300:202. An introduction to modern pressure vessel technology is presented. Topics covered include basic structural considerations, materials and their environment and design-construction features.

4600:483 MECHANICAL ENGINEERING MEASUREMENTS LABORATORY 2 credits
Prerequisites: 300, 310, 320. Development of methods to measure temperature, pressure, flow rate, viscosity, and motion. The course includes both lecture and laboratory experience and emphasizes the calibration and accuracy of the appropriate instruments.

4600:484 MECHANICAL ENGINEERING PROBLEMS 1-2 credits
Prerequisite: Permission. Investigation of a project by individual or small student groups. Detailed formal report required.

4600:496 SPECIAL TOPICS 1-3 credits
Prerequisite: Permission. Brief description of current content to be announced in schedule of classes.

4600:497 HONORS PROJECT 1-2 credits
Prerequisite: Senior standing in Honors Program. An individual creative project in thermal science, mechanics or design relevant to mechanical engineering, supervised by a faculty member of the Mechanical Engineering Department.

4600:498 EXPERIMENTAL INVESTIGATIONS IN MECHANICAL ENGINEERING 1-2 credits
Individual independent laboratory investigations in areas relevant to Mechanical Engineering. Students must suggest their own projects and make appropriate arrangements with a Mechanical Engineering faculty member for supervision.

GRADUATE COURSES

4600:600 GAS DYNAMICS 3 credits

4600:608 THERMODYNAMICS 3 credits
Prerequisites: 301 or permission. Extension and generalization of the basic concepts of thermodynamics. Thermodynamic systems and states. Criteria for equilibrium. Third law. Statistical approaches to thermodynamics.
4600:609 FINITE ELEMENT ANALYSIS I
3 credits (3-0)
Prerequisite: 622. Introductory development of the finite element method as applied to various topics from continuum mechanics, such areas as plane, axisymmetric and 3-D stress analysis; conduction; fluid mechanics; transient problems and geometric and material nonlinearity will be covered.

4600:610 DYNAMICS OF VISCUS FLOW I
3 credits
Prerequisites: 301, 310, or permission. Derivation and solution of equations governing laminar viscous flow. Applications include unsteady flows, slow viscous flows, parallel flows, lubrication theory, and laminar boundary layers.

4600:615 CONDUCTION HEAT TRANSFER
3 credits
Prerequisites: 315 or permission. Study of one-two and three-dimensional heat conduction. Development of analytical techniques for analysis and design.

4600:616 CONVECTION HEAT TRANSFER
3 credits
Heat transfer from laminar and turbulent external and internal flows. Convective heat transfer at high velocities. Heat transfer to liquid metals as well as high Prandtl number fluids.

4600:617 RADIATION HEAT TRANSFER
3 credits
Prerequisites: 315 or permission. Analysis of the governing radiation laws. Black and real systems, geometric factors, gray enclosures, non-gray systems, gaseous radiation, radiation equipment.

4600:620 EXPERIMENTAL STRESS ANALYSIS II
2 credits
Prerequisite: 422/522. Dynamic strain gage methods, transducer design, Moire fringe techniques and topics in photoelasticity.

4600:622 CONTINUUM MECHANICS
3 credits
Prerequisite: Permission. Analysis of stress and deformation at a point. Derivation of the fundamental field equations of fluid and solid mechanics by applying the basic laws of dynamics, conservation of mass, energy and thermodynamics. Development of constitutive laws.

4600:623 APPLIED STRESS ANALYSIS I
3 credits
Prerequisite: 622. Continuation of Continuum Mechanics with specific application to solid mechanics. Development of energy theorems due to Reissner, Washizu and generalized Hamilton's principle. Solutions of static and dynamic problems.

4600:625 ANALYSIS OF MECHANICAL COMPONENTS
3 credits
Prerequisite: Permission. Theories of failure. Determination of strength-static loading, fatigue, creep and stress rupture. Torsional stresses, contact stresses and thermoelastic problems.

4600:629 NON-LINEAR ENGINEERING PROBLEMS
3 credits

4600:630 MECHANICAL VIBRATIONS II
3 credits
Prerequisites: 451/551 or permission. The study of vibrations of multi-degree of freedom systems, including free and forced vibrations, damped and transient response, normal mode vibrations, and matrix iteration techniques. Application to seismic design and shock design.

4600:634 ENGINEERING ACOUSTICS II
3 credits
Prerequisite: 425/525. Beam width and directivity of radiation sources, microphones and speakers. Huygen's principle and diffraction of sound waves, physiology and response criteria of the human ear, Fourier analysis of steady state and transient noise.

4600:642 SYSTEM ANALYSIS AND CONTROL DESIGN
3 credits
Prerequisite: Permission. Uniform methods of modeling and response analysis, controllability and observability, stability theory and analysis of linear and nonlinear engineering processes. Design of feedback controls for optimum performance for multi-variable real-time control application.

4600:650 POLYMER PROCESSING
2 credits
Prerequisite: Permission. Study of process engineering in the polymer conversion industry, emphasizing the analytical treatment of heat transfer, mass flow, mixing, shaping, and molding of polymeric materials.

4600:651 DESIGN OF RUBBER COMPONENTS
2 credits
Prerequisite: Permission. Study of the principles of the design of elastomeric products, emphasizing analytical treatments of the elastic behavior and mechanisms of failure of resilient mountings, springs, seals, bearings, and tires.

4600:657 SPECIAL TOPICS
1-4 credits
Prerequisite: Permission. For qualified candidates for graduate degree. Supervised research in student's major field of training or experience. Credit dependent upon nature and extent of project as determined by supervisor and department head.

4600:699 MASTER'S THESIS
1-4 credits

4600:704 FINITE ELEMENT ANALYSIS II
3 credits (3-0)

4600:705 FINITE ELEMENT ANALYSIS III
3 credits (3-0)

4600:710 DYNAMICS OF VISCOS FLOW II
3 credits
Prerequisite: 610. Introduction to turbulence. Turbulence modeling and turbulent boundary layers. Practical methods of solution of boundary layer problems. Compressible boundary layer theory.

4600:719 ADVANCED HEAT TRANSFER
3 credits
Prerequisites: 615, 616. Topics include nonhomogeneous or nonlinear boundary value problems of heat conduction, heat transfer with melting, solidification and ablation, heat transfer in porous systems and hydrodynamically and thermally unsteady convection.

4600:723 APPLIED STRESS ANALYSIS II
3 credits
Prerequisite: 623. Continuation of Applied Stress Analysis I. Development of approximate solution techniques including finite elements, the method of weighted residuals (Rayleigh Ritz), Galerkin, Trefftz, collocation, least square, etc and finite differences.

4600:725 NON-LINEAR CONTINUM MECHANICS
3 credits
Prerequisite: 622. Finite deformation and strain, stress, constitutive equations, strain energy functions. The solution of finite deformation problems in hyperelasticity, coupled thermoviscoelasticity and plasticity, electroelasticity and micro-polar theories.
4600:730 MECHANICAL VIBRATIONS III 3 credits
Prerequisite: 630. Continuation of 630. Analysis of continuous vibrating systems, using separation of variables, energy, variational, Rayleigh-Ritz and other approximate techniques. Concepts and solutions of integral equations as applied to continuous systems.

4600:731 RANDOM VIBRATIONS 3 credits
Prerequisites: 630 or permission. Stationary random processes and their transmission through linear time-invariant discrete and continuous vibrating systems. Analysis of random data and interaction between mechanisms of failure.

4600:741 OPTIMIZATION THEORY AND APPLICATIONS 2 credits
Prerequisite: Permission. Theory of optimization in engineering systems, development and method of solution of optimization problems for physical processes and large systems. The use of dynamic programming and operational research methods for system optimization and control.

4600:763 ADVANCED METHODS IN ENGINEERING ANALYSIS 3 credits
Prerequisite: Permission. Applications of finite difference and finite element methods, variational methods, integral methods, and similarity transforms to engineering problems in heat transfers, fluid mechanics, and vibrations.

4600:790 ADVANCED SEMINAR IN MECHANICAL ENGINEERING 1-4 credits
Prerequisite: Permission of Department Head. Advanced projects and studies in various areas of mechanical engineering. Intended for students seeking the Ph.D. in Engineering degree. May be repeated up to a maximum of 9 credits.

4600:892 PRELIMINARY RESEARCH 1-15 credits
Prerequisite: Approval of Advisory Committee. Preliminary investigation of Ph.D. dissertation subject.

4600:899 DOCTORAL DISSERTATION 1-15 credits
Prerequisite: Approval of Advisory Committee. Original research by a Ph.D. candidate. May be taken more than once for credit.

4980: CONSTRUCTION TECHNOLOGY

4980:351 CONSTRUCTION QUALITY CONTROL 2 credits (2-0)
Prerequisites: 335, 236, 239 or permission. This course is designed for those owners, contractors, or consultant personnel directly concerned with quality control in the construction industry.

4980:352 FIELD MANAGEMENT 2 credits (2-0)
Prerequisites: 2980: 222, 245, 233 or permission. The emphasis of this course is directed to the planning, scheduling, and controlling of the field work within the time and cost constraints.

4980:353 LEGAL ASPECTS OF CONSTRUCTION 2 credits (2-0)
Business relationships, to the business of contracting, liabilities of the parties, in property rights of abutting or adjacent parcels of land incidental to construction.

4980:354 FOUNDATION CONSTRUCTION METHODS 3 credits (3-0)
Prerequisites: 2980:234, 235. Soil mechanics and soils exploration as related to construction. Foundation construction methods and practice in the interest of safety and suitable economy.

4980:451 CONSTRUCTION FORMWORK 3 credits (3-0)
Prerequisites: 2980:234 or permission. Introduction to the design and construction of field structures. Emphasis on design and construction of formwork and temporary wood structures.

4980:452 MECHANICAL SERVICE SYSTEMS 3 credits (3-0)
An introduction to the materials and equipment used in the mechanical heating, ventilating, air conditioning, water and waste systems.

4980:453 ELECTRICAL SERVICE SYSTEMS 3 credits (3-0)
An introduction to materials and equipment in the electrical and acoustical systems of buildings. Including illumination, electrical sources, materials and distribution, acoustical problems and materials.
The College of Education

5100: EDUCATIONAL FOUNDATIONS

5100:150 INTRODUCTION TO PROFESSIONAL EDUCATION 3 credits

5100:250 HUMAN DEVELOPMENT AND LEARNING 3 credits
Prerequisite: 150. A study of the principles underlying the intellectual, emotional, social and physical growth and development of the human organism; and of the learning process with implications for instructional procedures.

5100:258 SMALL GROUP INSTRUCTION 1-3 credits
(May be repeated for a total of 3 credits.) Prerequisites: 250 and 3750:100 or their equivalent and the consent of the instructor. A study of student-centered group leadership skills for facilitating classroom cognitive learning. Students will be exposed to the basic literature related to the student-centered style, trained in appropriate observational techniques and provided practice in leading small instructional groups.

5100:300 LEARNING AND INDIVIDUALIZED INSTRUCTION 2 credits
Prerequisite: 250. A behavioral approach to learning and the management of students. Course will emphasize the design of instructional sequences using a behavioral analysis of objectives in both cognitive and psychomotor domains.

5100:350 EDUCATIONAL MEASUREMENT AND EVALUATION 2 credits
Prerequisite: 250. Methods of measurement and evaluation applied to learning and instruction. Emphasis on the development and coordination of instructional objectives and measurement techniques with instructional procedures.

5100:410 AUDIOVISUAL EDUCATION 2 credits
Acquaints the student with audio-visual equipment and materials and their respective utilization techniques. Course activities include equipment operation, non-print materials evaluation, and media preparation.

5100:412/512 DESIGN AND PRODUCTION OF INSTRUCTIONAL MATERIALS 3 credits
Covers the design, adaptation and preparation of media materials. Students will produce media materials including overhead projection transparencies, audio recordings, slide sequences, and opaque materials. Students are offered project choices.

5100:450 PROBLEMS IN EDUCATION 2 credits
Prerequisite: 350 and senior status. Involves students in analytical and critical approach to problems of education as a social undertaking in the light of history and philosophy of education.

5100:490-491/492/590-591-592 WORKSHOP 1-3 credits each
Opportunity for individual work under staff guidance or curriculum problems, utilization of community resources, planning of curriculum units.

5100:494/594 EDUCATIONAL INSTITUTES 1-4 credits
Special course designed as in-service upgrading program, frequently provided with the support of national foundations.

5100:497 INDEPENDENT STUDY 1-3 credits
(May be repeated for a maximum of 9 credits.) Prerequisite: Consent of Department Head and Instructor. The specific area of study will be determined in accordance with the student's program and professional goals.

GRADUATE COURSES

5100:600 PHILOSOPHIES OF EDUCATION 3 credits
An examination of basic philosophical problems underlying educational questions that confront society. This course provides a foundation for a critical understanding of fundamental questions of modern society and education.

5100:602 COMPARATIVE AND INTERNATIONAL EDUCATION 3 credits
The comparative study of selected national school systems with reference to forces that shape their characteristics. Different theoretical approaches used in the study of comparative education will also be investigated.

5100:604 TOPICAL SEMINAR IN THE CULTURAL FOUNDATIONS OF EDUCATION 3 credits
(May be repeated for a total of 6 credits.) Issues and subjects related to the study of educational institutions, theories and/or ideas. Different topics will be offered from section to section.

5100:616 ADULT EDUCATION 2 credits
Survey course for teachers and administrators. Historical background including influences and their relation to developments in the field. Emphasis placed on the background and social value of current programs.

5100:620 BEHAVIORAL BASES OF EDUCATION 3 credits
Prerequisite: 250 or equivalent. An introduction to the scientific study of learning and development. Students are required to study current theories and research in the following areas: learning, development, motivation and instruction.

5100:624 SEMINAR: EDUCATIONAL PSYCHOLOGY 3 credits
(May be repeated for a total of 6 credits.) Prerequisite: 250 or equivalent. In-depth study of the following areas: learning, development, motivation and instruction.

5100:630 SEMINAR: EDUCATIONAL TECHNOLOGY 3 credits
Practices and trends in educational communications and technology including centers, learners stations, programmed learning, educational television, and computer assisted instruction.

5100:640 TECHNIQUES OF RESEARCH 3 credits
Research methods and techniques commonly used in education and the behavioral sciences; preparation of research reports. Includes library, historical, survey, and experimental research and data analysis.

5100:655 FIELD EXPERIENCE: MASTER'S 1-3 credits
Prerequisite: Consent of Department Head and Instructor. The specific area will be determined in accordance with the student's program and professional goals.

5100:697 INDEPENDENT STUDY 1-3 credits
(May be repeated for a maximum of 6 credits.) Prerequisite: Consent of Department Head and Instructor. The specific area of study will be determined in accordance with the student's program and professional goals.
in accordance with the student's program and professional goals.

5100:699 RESEARCH IN EDUCATION 1-4 credits
Prerequisite: Consent of Department Head and Instructor. An in-depth study of a research problem within Humanistic and Behavioral Foundation of Education.

5100:701 HISTORY OF EDUCATION IN AMERICAN SOCIETY 3 credits
The historical development of education in the American social order, with special emphasis on the social, political, and economic setting.

5100:703 SEMINAR: HISTORY AND PHILOSOPHY OF HIGHER EDUCATION 3 credits
Prerequisite: 600. History and philosophy related to the genesis and development of higher education in the Western World, with special emphasis given to higher education's development in the United States.

5100:705 SEMINAR: SOCIAL-PHILOSOPHICAL FOUNDATIONS OF EDUCATION 3 credits
(May be repeated to a maximum of 6 credits)
Prerequisite: 600 or equivalent. Inquiry into selected ideological social, economic and philosophical factors affecting educational development in the United States and other countries.

5100:721 LEARNING PROCESSES 3 credits
A study of the principles underlying classroom learning processes with particular emphasis upon teaching as the means of modifying pupil behavior: cognitive, motor, social and affective.

5100:723 TEACHER BEHAVIOR AND INSTRUCTION 3 credits
Prerequisite: 600. An intensive survey of theoretical and empirical literature involving teacher and conceptions of instruction. Students report on theory, empirical research, and applications in the areas of their own interests.

5100:741 STATISTICS IN EDUCATION 3 credits
Statistical methods and techniques used in the field of measurement and by research workers in education.

5100:743 ADVANCED EDUCATIONAL STATISTICS 3 credits
Prerequisite: 741. A second course on quantification in the behavioral sciences. Includes testing of statistical hypotheses, experimental design, analysis of variance and non-variance, factor analysis and introduction to non-parametric statistics.

5100:798 RESEARCH PROJECT IN SPECIAL AREAS 1-3 credits
Prerequisite: Consent of Department Head and Instructor. A critical and in-depth study of a specific problem in Educational Foundations.

5100:801 RESEARCH SEMINAR 3 credits
(May be repeated for a total of 6 credits)
Prerequisite: 640 and 741; permission of Department Head and instructor. An intensive study of research methods applicable to education. Emphasis on developing a dissertation proposal.

5100:897 INDEPENDENT STUDY 1-4 credits
(May be repeated for a total of 8 credits)
Prerequisite: consent of Department Head and instructor. The specific area of inquiry within Humanistic and Behavioral Foundations of Education will be determined in advance by the student and the faculty supervisor.

5200: ELEMENTARY EDUCATION

5200:100 STUDENT PARTICIPATION 1 credit
Planned field experience emphasizing tutorial settings in reading and other curricular areas.

5200:141 HANDICRAFTS IN THE ELEMENTARY SCHOOL 2 credits
Prerequisite: 7100:191. A broad range of experiences through the manipulation of various craft medium which will enrich the curriculum of elementary schools.

5200:200 STUDENT PARTICIPATION 1 credit
Prerequisite: 100. Planned field experience specializing in directed experience where students work with small groups in the elementary school classroom.

5200:286 CHILDREN'S LITERATURE 3 credits
A survey of materials for children in prose, poetry and illustrations from early historical periods to modern types; criteria of selection and methods of presentation are critically examined.

5200:300 STUDENT PARTICIPATION 1 credit
Prerequisite: 200. Planned field experience where students work in both small group and large group settings in the elementary school environment.

5200:310 INTRODUCTION TO EARLY CHILDHOOD EDUCATION 2 credits
Prerequisite: 7400:265. A core course for Early Childhood Education. Provides background information, defines roles and goals within the field of Early Childhood Education.

5200:311 CURRICULUM FOR ELEMENTARY LEARNING CENTERS 2 credits
Prerequisite: 310. Curricular and instructional techniques in mathematics, science, language arts, social studies, and music are examined with emphasis on early learning as a foundation for later growth.

5200:321 ART FOR THE GRADES 2 credits
Prerequisite: 141. Art requirements in elementary grades; laboratory work to give teachers a knowledge of materials and mediums and skills in handling them.

5200:330 EARLY AMERICAN EDUCATION 1.5 credits
Prerequisite: 5100:157. The first of two sources designed to introduce the student specifically to the primary-aged child and their learning style.

5200:331 EARLY ELEMENTARY EDUCATION II 3 credits
Prerequisite: 330. Concentrates on the curriculum needs of the primary-aged child.

5200:333 SCIENCE FOR THE ELEMENTARY GRADES 3 credits
Prerequisite: 5100:157. For the prospective teacher of science in the elementary school, development of a point of view toward science teaching and study of methods of presenting science material.

5200:334 TEACHING ART IN THE ELEMENTARY SCHOOL 2 credits
Prerequisite: Art education major, junior standing; elementary education majors, 141 and 321. Visual arts in the elementary school. Art education concepts with a studio orientation including history of art education, developmental stages, curriculum and organization, methods, evaluation and research, and practical participation.

5200:335 TEACHING THE LANGUAGE ARTS 5 credits
Prerequisites: 286 and 5100:157. A course for the ele-
mentary teacher stressing methods and materials for skills development, and trends in the various language arts.

5200:336 TEACHING OF ELEMENTARY SCHOOL MATHEMATICS 3 credits

5200:337 TEACHING OF READING 3 credits
Prerequisites 335 and 5100:157. Reading program for the elementary school, together with modern methods of teaching reading at the various levels.

5200:338 THE TEACHING OF SOCIAL STUDIES 3 credits
Prerequisite: 5100:157. Social studies in the elementary school and varied means of implementing the program.

5200:339 PRINCIPLES OF DIAGNOSTIC TEACHING OF READING 3 credits
Prerequisite: 337. Nature of reading problems in a classroom setting. Methods and materials employed in a corrective reading program by the classroom teacher.

5200:360 NURSERY SCHOOL LABORATORY 3 credits
Prerequisite: 7400:265. Concentrated study and experience in nursery school programming under direction of supervising teachers.

5200:365 COMPREHENSIVE MUSICIANSHIP FOR THE ELEMENTARY CLASSROOM TEACHER 4 credits
Designed to afford prospective classroom teachers the opportunity to develop their individual musical skills in creativity, performance and listening as a means of enhancing their teaching through use of music.

5200:395 FIELD EXPERIENCE 1-3 credits
Prerequisite: Permission of advisor and Department Head. Independent field work in an area selected by the student's advisor and based on the student's needs.

5200:403 STUDENT TEACHING SEMINAR 1 credit
Prerequisite: Senior standing. In conjunction with Student Teaching. Synthesis of contemporary problems encountered during student teaching experience. An exchange of ideas regarding the role of the new teacher entering the profession.

5200:411/511 CREATIVE TECHNIQUES FOR EXPLORING CHILDREN'S LITERATURE 2 credits
Prerequisite: 286. An examination of the techniques for interpretation of children's literature including storytelling, creative dramatics, reader's theater andchoral speaking.

5200:435/535 ACTIVITIES TO INDIVIDUALIZE SOCIAL STUDIES 2 credits
Prerequisite: 336. A development of materials and activities (learning games, simulation games, simulations, learning stations, programmed field trips, and map activities) to provide a teacher with a variety of techniques in order to develop an individualized, student-involved social studies program.

5200:436/536 GEOMETRY AND MEASUREMENT IN ELEMENTARY SCHOOL MATHEMATICS 3 credits
Prerequisite: 336. Trends in geometry and measurement instruction in the elementary school. Procedures for the development of important geometric concepts and measurement skills.

5200:437/537 STRUCTURE OF THE NUMBER SYSTEM IN ELEMENTARY SCHOOL MATHEMATICS 3 credits
Prerequisite: 336. Applied and advanced topics in mathematics education in the elementary school. A thorough investigation of the number system presently being taught in the elementary school.

5200:438/538 MATERIALS AND LABORATORY TECHNIQUES IN ELEMENTARY SCHOOL MATHEMATICS 3 credits
Prerequisite: 336. Applied mathematics in the elementary school. Construction and application of mathematical models. Procedures for the development of important mathematical concepts through the laboratory approach.

5200:439/539 PROPERTIES OF NUMBERS IN ELEMENTARY SCHOOL MATHEMATICS 3 credits
Prerequisite: 336. An investigation of those number properties that help explain how the laws of arithmetic work. Procedures for the development of important arithmetic concepts and computational skills.

5200:440/540 CONTEMPORARY ELEMENTARY SCHOOL SCIENCE PROGRAMS 2 credits
Prerequisite: 333. Contemporary elementary science programs are critically analyzed and their procedures are developed and implemented in the university classroom.

5200:451 ELEMENTARY EDUCATION 3 credits
Evaluation of recent trends and practices in elementary education. Required for those converting from other certificates.

5200:490-491-492-493/590-591-592-593 WORKSHOPS 1-3 credits each
An elective workshop for elementary education majors who would pursue further refinement of their teaching skills. Course emphasizes demonstrations of teaching techniques and development of suitable teaching devices.

5200:494/594 EDUCATIONAL INSTITUTES 1-4 credits
Special courses designed as in-service upgrading programs. Frequently provided with the support of national foundations.

5200:495 STUDENT TEACHING 4-8 credits
Prerequisite: Senior standing and 300. Planned teaching experience (in the elementary school) selected and supervised by the Educational Field Experience office.

5200:497 INDEPENDENT STUDY 1-3 credits
Prerequisite: Permission of advisor and Department Head. Specific area of curriculum investigation pertinent to elementary education as determined by the student's academic needs.

GRADUATE COURSES

5200:630 ELEMENTARY SCHOOL CURRICULUM AND INSTRUCTION 2 credits
Application of the findings of recent research to curriculum building and procedures in teaching.

5200:631 TRENDS IN ELEMENTARY EDUCATION 2 credits
Prerequisites: Graduate standing and 630. An investigation of innovative programs, organizational patterns, and new curricula currently operational in elementary schools including an analysis of use of these innovations in relation to the teaching/learning process.

5200:640 THEORY AND PRACTICE IN ELEMENTARY SCHOOL MATHEMATICS 2 credits
A comparative analysis and evaluation of purposes and procedures of mathematics programs for the elementary schools with application of the findings to instructional methods and materials.

5200:641 DIAGNOSIS AND TREATMENT OF PERFORMANCE DIFFICULTIES IN ELEMENTARY SCHOOL MATHEMATICS 2 credits
An examination of the implications of contemporary
mathematics learning theory on the diagnostic-remedial process.

5200:645 EDUCATION IMPLICATIONS OF ELEMENTARY SCIENCE 2 credits
An examination of the influence of new curricular designs in elementary science. Emphasis shall be placed on inquiry, investigation, and discovery and their impact on the total elementary school curriculum.

5200:650 EDUCATION AND THE YOUNG CHILD 2 credits
Content will be centered on the educational settings of young children from birth through five years old.

5200:695-696-697 FIELD EXPERIENCE: MASTER’S 1-2 credits each
Prerequisite: Permission of advisor and Department Head. On-the-job experience related to the student's course of study.

5200:698 INDEPENDENT STUDY 1-2 credits
Prerequisite: Permission of advisor and Department Head. Selected areas of independent investigation as determined by the advisor and related to the student's academic needs.

5200:699 RESEARCH IN EDUCATION 1-4 credits
Prerequisite: 5000:603 and permission of advisor and Department Head. An in-depth research investigation. Student must be able to demonstrate necessary competencies to deal with research problems in elementary education.

5200:732 SUPERVISION OF INSTRUCTION IN THE ELEMENTARY SCHOOL 2 credits
A study of the supervisory role of the elementary principal and other supervisory personnel.

5200:789 SEMINAR IN ELEMENTARY EDUCATION 2 credits
(May be repeated)
An intensive examination of the following disciplines: Children's Literature, Curriculum Development, Language Arts, Math, Reading, Science, Social Studies, Early Childhood, Critical Analysis of Children's Literature.

5200:781 RESIDENCY SEMINAR 2 credits
A one-hour weekly meeting for those elementary doctoral students in residence.

5200:799 RESEARCH PROJECTS IN ELEMENTARY EDUCATION 1-2 credits
Prerequisite: Permission of advisor and Department Head. An in-depth investigation of a specific problem pertinent to elementary education.

5200:895-896-897 FIELD EXPERIENCE FOR ELEMENTARY DOCTORAL STUDENTS 1-2 credits each
Prerequisite: Permission of advisor and Department Head. Selected areas of independent investigation as determined by the advisor and related to the student's academic needs.

5200:898 INDEPENDENT STUDY 1-3 credits
(May be repeated up to 6 credit hours)
Prerequisite: Permission of advisor and Department Head. Selected areas of independent investigation as determined by the advisor and related to the student's academic needs.

5200:899 DISSERTATION 1-20 credits
Prerequisite: Permission of advisor and Department Head. Thorough study and in-depth analysis of a research problem in elementary education.

5250: READING

5250:330 DEVELOPMENTAL READING IN THE CONTENT AREAS 3 credits
Prerequisite: 5200:337 or 5300:425. Nature of reading skills relating to content subjects. Methods and materials needed to promote reading achievement in content subjects by the classroom teacher.

5250:331 LABORATORY PRACTICUM IN READING 3 credits
Prerequisite: 340 and 5200:339. Laboratory experience with classroom, small groups and individual situations. Students diagnose, implement procedures and follow prescribed reading improvement practices.

5250:411/511 MATERIALS AND ORGANIZATIONS FOR READING INSTRUCTION 3 credits
Prerequisite: 5200:339. Professional problems of selection and evaluation of reading materials and classroom organizations are explored.

GRADUATE COURSES

5250:680 TRENDS IN READING INSTRUCTION 2 credits
Prerequisite: 5200:335 or 5300:425. This is a survey course designed to update the reading background of students who have not had a recent course in reading.

5250:681 DIAGNOSIS AND CORRECTION OF READING PROBLEMS 5 credits
Prerequisite: 680. Relation of growth to reading development and reasons for retardation. Implementation of diagnostic and corrective techniques by developing case studies in a supervised setting.

5250:682 CLINICAL PRACTICES IN READING 5 credits
Prerequisite: 681. The nature and etiology of reading difficulties experienced by selected children. Supervised practices and independent work with children in conjunction with staff from other disciplines.

5250:692 ADVANCED STUDY AND RESEARCH IN READING INSTRUCTION 3 credits
Survey of research, comparison and evaluation of programs, design and development of projects in reading through group individual study.

5250:693 SUPERVISION AND CURRICULUM DEVELOPMENT IN READING INSTRUCTION 2 credits
Study of reading relative to total curriculum, procedures for developing reading program in all curriculum areas; examination of children's literature and related instructional reading by supervisors and consultants.

5300: SECONDARY EDUCATION

5300:285 EXPLORATORY EXPERIENCES IN SECONDARY SCHOOLS 1-2 credits
(May be repeated for a maximum of 2 credits)
Field work with secondary school pupils, teachers and other professional personnel.

5300:310 PRINCIPLES OF SECONDARY EDUCATION 3 credits
Designed to familiarize the pre-service teacher with the nature of secondary education and the act of teaching in the secondary schools.
5300:311 INSTRUCTIONAL TECHNIQUES IN SECONDARY EDUCATION 3 credits
Prerequisite: 310. Techniques of planning, instruction and evaluation in various secondary teaching fields.

5300:316 METHODS IN TEACHING ART 2 credits
Prerequisite: Completion of the required course for art teachers and quality point ratio of 2.00 in the field.
Study of trends and procedure in teaching and in supervision; relation of art to the home, school and community; observation in selected schools is required.

5300:321 JUNIOR HIGH AND MIDDLE SCHOOL EDUCATION 2 credits
Designed to provide students with knowledge and understanding of junior high and middle school education with ability to interpret it to other educators, to parents, and to pupils.

5300:374 PRINCIPLES OF SHORTHAND INSTRUCTION 2 credits
Prerequisite: 2540:173 and a quality point ratio of 2.00 in the field. Methods of presentation in shorthand and transcription. Demonstration and observations required. A theory test in the field must be passed before credit will be given for the course.

5300:395 FIELD EXPERIENCE 1-3 credits
Prerequisite: Upper college standing. Supervised work with young people, individually and in groups in school and/or community settings.

5300:403 STUDENT TEACHING SEMINAR 1 credit
Co-requisite: 495.

5300:425/525 READING PROGRAMS IN SECONDARY SCHOOLS 2 credits
Relationship of reading to human development; materials, class organization and procedures for developing reading improvement programs for high school and college students.

5300:476/576 VOCATIONAL COOPERATIVE OFFICE EDUCATION 2 credits
Principles of program construction, organization, implementation, evaluation, improvement, and development of program guides in cooperative office education.

5300:477/577 INTENSIVE VOCATIONAL OFFICE EDUCATION 2 credits
Principles of program construction, organization, implementation, evaluation and development of program guides.

5300:495 STUDENT TEACHING 4-8 credits
Co-requisite: 403. Prerequisite: 311 or equivalent, also permission of advisor. Directed teaching under supervision of directing teacher and University supervisor.

5300:497 INDEPENDENT STUDY 1-3 credits
Prerequisite: Permission of advisor and supervisor of independent study. Area of study is determined by student’s needs.

5300:490-491-492-493/590-591-592-593 WORKSHOP 1-3 credits each
Opportunity for individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units.

5300:494/594 EDUCATIONAL INSTITUTES 1-4 credits
Special courses designed as in-service upgrading programs, frequently provided with the support of national foundations.

5300:519 SECONDARY SCHOOL CURRICULUM AND INSTRUCTION 2 credits
Application of the findings of recent research to curriculum building and procedures in teaching.

5300:595 FIELD EXPERIENCE: MASTER'S 1-6 credits
(May be repeated for a maximum of 6 credits.)
Prerequisite: Permission of advisor and supervisor of field experience. On-the-job experience related to the student’s program of studies.

5300:697 INDEPENDENT STUDY 1-3 credits
(May be repeated to a maximum of 6 credits.)
Prerequisite: Permission of advisor and supervisor of independent study. Area of study is determined by student’s needs.

5300:699 MASTER'S PROBLEM OR THESIS 1-4 credits
Prerequisite: Permission of advisor. An in-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in secondary education.

5300:721 SUPERVISION OF INSTRUCTION IN THE SECONDARY SCHOOL 2 credits
Definition of the supervisory leadership role in improving instruction at the secondary school level and development of a practical theory of secondary school supervision.

5300:780 SEMINAR IN SECONDARY EDUCATION 2 credits
(May be repeated)
An intensive examination of a particular area of secondary education.

5300:781 RESIDENCY SEMINAR 2 credits
A one-hour weekly meeting for those Secondary doctoral students in residence. Three quarter hours will be earned over a period of three consecutive quarters.

5300:895 FIELD EXPERIENCE: DOCTORAL 1-6 credits
(May be repeated for a maximum of 6 credits.)
Prerequisite: Permission of advisor and director of field experience. An intensive job-related experience pertinent to the student’s needs. Student must be able to demonstrate skills and leadership abilities in and on the job situation.

5300:897 INDEPENDENT STUDY 1-3 credits
(May be repeated to a maximum of 6 credits.)
Prerequisite: Permission of advisor and director of independent study. Area of study is determined by student’s needs.

5300:899 RESEARCH PROJECT IN SPECIAL AREAS 1-2 credits
Prerequisite: Permission of advisor. A critical and in-depth study of a specific problem in secondary education.

5300:899 DISSERTATION 1-20 credits
Prerequisite: Permission of the advisor. A specific research problem that requires the student to apply research skills and techniques pertinent to the problem being studied.

5400: TECHNICAL AND VOCATIONAL EDUCATION

5400:391 OCCUPATIONAL EMPLOYMENT EXPERIENCE AND SEMINAR 1-4 credits
Provides the prospective student with knowledge of
current industrial or business practice at a level minimally commensurate with that associated with the employment expectations of graduates of technical programs.

5400:351 CONSUMER HOMEMAKING METHODS
3 credits
Organization of home economics in secondary schools. Emphasis on methodology, techniques, development of concepts, utilization of audio-visual materials and comprehensive evaluation procedures.

5400:395 FIELD EXPERIENCE 1-3 credits
Prerequisite: Upper college standing. Supervised work with youngsters, individually and in groups in educational institutions, training and/or community settings.

5400:403 TECHNICAL EDUCATION PRACTICUM SEMINAR 2 credits
Corequisite: 403.

5400:405 VOCATIONAL EDUCATION FOR YOUTH AND ADULTS 2 credits
History and operation of current vocational education for youth and adults. Includes study of the social, economic and political influences that stimulate the growth and expansion of vocational education.

5400:410/510 THE TWO-YEAR COLLEGE 3 credits
Designed to introduce the student to the nature, purpose, and philosophy of the two-year college. The course includes an examination of the type of institutions offering two-year programs.

5400:421/521 INSTRUCTIONAL TECHNIQUES IN TECHNICAL EDUCATION 4 credits
Selected topics in instructional techniques appropriate to post-secondary technical education. Emphasis is placed on instructional methods and techniques in the classroom and laboratory including tests and measurements.

5400:430/530 COURSE CONSTRUCTION IN TECHNICAL EDUCATION 2 credits
The procedure of breaking down an occupation to determine the curriculum for the laboratory and the classroom; and developing this content into an organized sequence of instructional units.

5400:440 LIFE-Span AND COMMUNITY EDUCATION 2 credits
A course designed for persons engaged in providing educational services in the community. Included are an examination of the community education concept, and the roles of various personnel and agencies.

5400:451/551 HOME ECONOMICS JOB TRAINING 2 credits
Prerequisite: 351. Concept development in vocational home economics. Emphasis on job training, program development, operational procedures, skill and knowledge identification, training profiles, job description and analysis.

5400:490-491-492/590-591-592 WORKSHOP 1-3 credits each
Opportunity for individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units.

5400:494-594 EDUCATIONAL INSTITUTES 1-4 credits
Special courses designed as in-service upgrading programs, frequently provided with the support of national foundations.

5400:495 TECHNICAL EDUCATION PRACTICUM 1-4 credits
Corequisite: 403. Prerequisite: 410, 421, 430 or equivalent. Also permission of advisor. Directed teaching under supervision of directing teacher and University supervisor.

5400:497 INDEPENDENT STUDY 1-3 credits
Prerequisite: Permission of advisor and supervisor of independent study. Area of study is determined by student's need.

GRADUATE COURSES

5400:610 COMMUNICATION WITH BUSINESS AND INDUSTRY 2 credits
Techniques of establishing better communications between technical education and business and industry. Emphasis is placed on the advisory committee, coordination functions, and working with local professional associations in the community.

5400:661 CURRENT ISSUES IN HIGHER EDUCATION 2 credits
An examination of many of the current problems and issues in institutions of higher education: adult education, technical institutes, community colleges, proprietary schools, under-graduate, graduate and professional education. (May be repeated with change in topic.)

5400:690 INTERNSHIP: TEACHING VOCATIONAL EDUCATION 4 credits
Teaching under supervision from the University and the educational institution. Includes a seminar each week.

5400:695 FIELD EXPERIENCE: MASTER'S 1-6 credits
Prerequisite: Permission of advisor and supervisor of field experience. On-the-job experience related to the student's program of studies.

5400:697 INDEPENDENT STUDY 1-3 credits
(May be repeated to a maximum of 6 credits)
Prerequisite: Permission of advisor and supervisor of field experience. On-the-job experience related to the student's program of studies.

5400:699 MASTER'S PROBLEM OR THESIS 1-4 credits
Prerequisite: Permission of advisor. An in-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in vocational education.

5550: PHYSICAL EDUCATION

5550:101 FUNDAMENTALS OF ARCHERY/BOWLING 1 credit
The acquisition of performance skills, knowledge of rules and strategy, and appreciation of archery and bowling as a means of physical activity in our culture. Two class periods per week.

5550:102 FUNDAMENTALS OF BADMINTON/ VOLLEYBALL 1 credit
The acquisition of performance skills, knowledge of rules and strategy, and appreciation of badminton and volleyball as a means of physical activity in our culture. Two class periods per week.

5550:103 FUNDAMENTALS OF SOCCER/FIELD HOCKEY 1 credit
The acquisition of performance skills, knowledge of rules and strategy, and appreciation of soccer and field
hockey as a means of physical activity. Two class periods per week.

5550:104 FUNDAMENTALS OF TRACK AND FIELD 1 credit
The acquisition of performance skills, knowledge of rules and strategy, and appreciation of track and field as a means of physical activity in our culture. Two class periods per week.

5550:105 RECREATIONAL ACTIVITIES I 1 credit
Acquisition of skills, and knowledge of rules for participation in, and organization of, common indoor and outdoor recreational activities. For physical education and outdoor education students.

5550:106 RECREATIONAL ACTIVITIES FOR THE HANDICAPPED 1 credit
Acquisition of skills, and knowledge of rules for participation in, and organization of, recreational activities for the handicapped. Includes ways of adapting common activities for participation by the handicapped.

5500:115 FUNDAMENTALS OF WRESTLING/RUGBY 1 credit
The acquisition of performance skills, knowledge of rules and strategy, and appreciation of wrestling and rugby as a means of physical activity. Two class periods per week. (For men only.)

5550:120 FUNDAMENTALS OF BASKETBALL 1 credit
The acquisition of performance skills, knowledge of rules and strategy, and appreciation of basketball as a means of physical activity. Two class periods per week. Suggested for women only.

5550:130 PHYSICAL EDUCATION ACTIVITIES FOR ELEMENTARY SCHOOL CHILDREN 2 credits
For physical education majors only. Participation in play activities commonly used in elementary physical education programs. One lecture and two laboratory periods per week.

5550:140 PHYSICAL EDUCATION ACTIVITIES I 3 credits
Acquisition of performance skills and knowledge of rules and techniques of gymnastics and tumbling, team sports and conditioning activities. Six class periods per week.

5550:141 PHYSICAL EDUCATION ACTIVITIES II 3 credits
Acquisition of performance skills and knowledge of techniques and development of dance activities, swimming, and individual lifetime sports. Six class periods per week.

5550:155 ORGANIZATION AND ADMINISTRATION OF RECREATION 2 credits
General administrative procedures common to recreational programs. Analysis, discussion, and visitations of various types of recreational programs.

5550:193 METHODS OF TEACHING PHYSICAL EDUCATION 3 credits
Investigation and application of various methods for teaching elementary and secondary physical education. Preparation of lesson and unit plans, observations made in schools. Two lectures and one laboratory per week.

5550:194 SPORTS OFFICIATING 2 credits
Knowledge of rules for interscholastic sports and officiating techniques. Successful completion of course will permit taking of the state examination for officiating. Two lectures and one laboratory per week.

5550:201 KINESIOLOGY 2 credits
Prerequisite: 3100:147-148-149. The application of principles of anatomy to the movement of the human body.

5550:202 PHYSIOLOGY OF EXERCISE 3 credits
Prerequisite: 3100:147-148-149. A study of the physiological effects of exercise relative to physical education activities and athletics. Two hours lecture, two hours laboratory.

5550:211 FIRST AID 2 credits
Standard American Red Cross course which gives instruction and practice in the immediate and temporary care of injuries and sudden illnesses. In addition to the standard course, C.P.R. is covered.

5550:235 CONCEPTS OF MOTOR DEVELOPMENT AND LEARNING 2 credits
Analysis of concepts which are fundamental to learning motor activities.

5550:245 INSTRUCTIONAL TECHNIQUES IN ELEMENTARY PHYSICAL EDUCATION 2 credits
Prerequisites: 130, 140, 193. Supervised teaching of elementary physical education activities to peers. Four class periods per week.

5550:246 INSTRUCTIONAL TECHNIQUES IN SECONDARY PHYSICAL EDUCATION 2 credits
Prerequisites: 140, 193 and at least one hour of 101 through 120. Supervised teaching of secondary physical education activities to peers. Four class periods per week.

5550:300 PHYSIOLOGY OF EXERCISE FOR THE ADULT AND ELDERLY 2 credits
An analysis of physiological effects of exercise on the elderly. Exercise programs which may be adapted for use by persons working with the elderly.

5550:310 THEORY AND TECHNIQUES OF SOCCER 1 credit
Theory, techniques, and organizational procedures for the coaching of soccer. Two class periods per week.

5550:311 THEORY AND TECHNIQUES OF TRACK AND FIELD 1 credit
Theory, techniques, and organizational procedures for the coaching of track and field. Two class periods per week.

5550:312 THEORY AND TECHNIQUES OF BASKETBALL 1 credit
Theory, techniques, and organizational procedures for the coaching of basketball. Two class periods per week.

5550:313 THEORY AND TECHNIQUES OF BASEBALL/SOFTBALL 1 credit
Theory, techniques and organizational procedures for the coaching of baseball and softball. Two class periods per week.

5550:314 THEORY AND TECHNIQUES OF SWIMMING 2 credits
Theory, techniques and organizational procedures for the coaching of swimming. One hour lecture, two hours laboratory.

5550:315 THEORY AND TECHNIQUES OF TUMBLING AND GYMNASTICS 1 credit
Theory, techniques, and organizational procedures for the coaching of tumbling and gymnastics. Two class periods per week.

5550:320 THEORY AND TECHNIQUES OF VOLLEYBALL 1 credit
Theory, techniques, and organizational procedures for the coaching of volleyball. Two class periods per week.
5550:325 THEORY AND TECHNIQUES OF FOOTBALL 1 credit
Theory, techniques, and organizational procedures for the coaching of football. Two class periods per week.

5550:326 THEORY AND TECHNIQUES OF WRESTLING 1 credit
Theory, techniques, and organizational procedures for the coaching of wrestling. Two class periods per week.

5550:334 GAMES AND RHYTHMS — ELEMENTARY GRADES 2 credits
Not open to physical education majors. Physical education activities which may be used by classroom teachers. Theory of motor development. One hour lecture, two hours laboratory.

5550:345 MOVEMENT EXPERIENCES FOR THE ELEMENTARY GRADES 2 credits
Analysis, theory, and practical application of basic movement experiences for elementary school children. One hour lecture, two hours laboratory.

5550:336 PHYSICAL EDUCATION ACTIVITIES FOR PRE-SCHOOL CHILDREN 2 credits
Investigation of play activities for positive growth and development of the pre-school child. Organization of motor activities in the nursery school and kindergarten curriculums. One hour lecture, two hours laboratory.

5550:340 CARE AND PREVENTION OF ATHLETIC INJURIES 3 credits
Discussion of prevention, immediate care, and rehabilitation of common athletic injuries. Practical application of wrapping and taping procedures for injury prevention and post-injury support.

5550:345 ADAPTED PHYSICAL EDUCATION 2 credits
Prerequisite: 3100:147-148-149. Current theories and practices relating to needs of physically handicapped children. Emphasis is given to underlying philosophies, purposes, and administration.

5550:350 ORGANIZATION AND ADMINISTRATION OF HEALTH AND PHYSICAL EDUCATION 3 credits
Investigation of necessary procedures for the conduct of health education and physical education programs in schools. Includes organizational considerations, curricular patterns, and equipment and supplies.

5550:351 ORGANIZATION AND ADMINISTRATION OF INTRAMURALS AND ATHLETICS 3 credits
Organizational patterns unique to the conduct of intramurals, sport clubs, and interscholastic athletics. Includes considerations of tournament designs, supplies and equipment, and administration. Two hours lecture, two hours laboratory.

5550:395 FIELD EXPERIENCE 1-3 credits
Prerequisite: Permission of the advisor. Practical experience in an area related to physical education under the supervision of a faculty member. Student will work with current physical education programs in the schools.

5550:403 STUDENT TEACHING SEMINAR 1 credit
Prerequisite: Senior status. In conjunction with Student Teaching. Synthesis of contemporary problems encountered during the student teaching experience. An exchange of ideas regarding the role of the new teacher entering the profession.

5550:436/536 ADAPTED PHYSICAL EDUCATION TASKS FOR THE LEARNING DISABLED CHILD 2 credits
Teaching methods and materials necessary to structure developmental tasks for the learning disabled child; designed for persons preparing to teach elementary school physical education and special education.

5550:490-492-493/590-591-592-593 WORKSHOP 1-3 credits each
Practical, intensive, and concentrated involvement with current curricular practices in areas related to physical education.

5550:494/594 EDUCATIONAL INSTITUTIONS AND FOUNDATIONS 1-4 credits
Practical experience with current research or curricular practices involving expert resource persons in physical education, and usually financed by private or public funding.

5550:495 STUDENT TEACHING 4-8 credits
Prerequisite: Senior status, all major courses completed, 2.50 grade point average in major. Supervised teaching experience in a public school for fifteen weeks.

5550:497 INDEPENDENT STUDY 1-2 credits
Prerequisite: Permission of the advisor. Analysis of a specific topic related to a current problem in physical education. May include investigative procedures, research, or concentrated practical experience.

GRADUATE COURSES

5550:601 ADMINISTRATION OF HEALTH, PHYSICAL EDUCATION, ATHLETICS AND RECREATION 3 credits
Techniques of organization, administration, and evaluation of health, physical education and recreation programs. Administrative policies of athletic programs at the elementary, secondary, and collegiate levels.

5550:603 CURRICULUM PLANNING IN HEALTH AND PHYSICAL EDUCATION 2 credits
Analysis of the objectives, procedures and trends in health and physical education curricula and the principles and procedures for developing sound programs.

5550:605 PHYSIOLOGY OF MUSCULAR ACTIVITY AND EXERCISE 2 credits
A study of the functions of body systems and the physiological effects of exercise. Laboratory experiences will accompany lectures and discussions.

5550:606 MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION 3 credits
A critical analysis of existing testing procedures and a discussion and study of measurement and evaluation in terms of program needs.

5550:608 SUPERVISION OF PHYSICAL EDUCATION 2 credits
Principles involved in the supervision of physical education service programs. Procedures and techniques of supervision of service classes at the elementary, junior high, and senior high school levels.

5550:695 FIELD EXPERIENCE: MASTER'S 1-6 credits
Prerequisite: Permission of the advisor. Participation in a work experience related to physical education. The experience may not be part of the current position. Documentation of the project is required.

5550:697 INDEPENDENT STUDY 1-3 credits
Prerequisite: Permission of the advisor. An in-depth analysis of current practices or problems related to physical education. Documentation of the study is required.

5550:699 MASTER'S PROBLEM OR THESIS 1-3 credits
Prerequisite: Permission of the advisor. An in-depth research investigation. Student must be able to demonstrate necessary competencies to deal with a research problem in physical education.
5560: OUTDOOR EDUCATION

5560:450/550 APPLICATION OF OUTDOOR EDUCATION TO THE SCHOOL CURRICULUM 4 credits.
The course provides knowledge, skills and techniques useful in the application of outdoor education to the school curriculum.

5560:452/552 METHODS, MATERIALS AND RESOURCES FOR TEACHING OUTDOOR EDUCATION 3 credits.
Methodologies unique to outdoor education which incorporate a multi-sensory approach to learning. Instructional materials and resources which permit expansion of the curriculum beyond the school building.

5560:454 RESIDENT OUTDOOR EDUCATION 2 credits.
The course emphasizes skills, program considerations, and organizational techniques unique to an extended, overnight, resident outdoor education program. On location for at least five days and four nights.

5560:460 OUTDOOR EDUCATION PRACTICUM 2 credits.
Prerequisite: 452 & 454. Closely supervised practical experience in conjunction with regularly scheduled classroom meetings. The laboratory experience will consist of active participation with an established outdoor education program.

5560:497 INDEPENDENT STUDY 1-3 credits.
Prerequisite: Permission of the advisor and supervisor of independent study. The course provides varied opportunities for students to gain first-hand knowledge and experience with existing outdoor education programs.

GRADUATE COURSES

5560:695 PRACTICUM IN OUTDOOR EDUCATION 3 credits.
Prerequisite: 550 & 552 and permission of the advisor. Supervised practical experience with existing outdoor education programs. In conjunction with practical work the student will meet regularly with a university advisor.

5570: HEALTH EDUCATION

5570:101 PERSONAL HEALTH 2 credits
The application of current scientific principles and facts pertaining to healthful, effective living. Personal health problems and needs of students.

5570:230 COMMUNITY HYGIENE 2 credits
A study of current major public health problems. Organization and administration of official and voluntary agencies and their role in the solution of community health problems.

5570:321 ORGANIZATION AND ADMINISTRATION OF SCHOOL HEALTH 2 credits
Organization of the school health program. With special reference to national, state, and local control. Staff, program, budget, health and safety, facilities, and other phases of administration.

5570:322 METHODS AND MATERIALS IN TEACHING HEALTH EDUCATION 3 credits
Planning and organizing subject matter for elementary and secondary school health instruction. The development of teaching techniques, utilization of instructional media, and evaluation procedures in health education.

5600: EDUCATIONAL GUIDANCE AND COUNSELING

5600:410 PERSONNEL SERVICES IN SCHOOLS 2 credits
Prerequisite: Senior standing. Introduction to background, role and function, techniques, community agencies and issues in the personnel field. Helpful for students considering pupil personnel fields or social work.

5600:426/526 CAREER EDUCATION 2 credits
Prerequisite: Junior, senior or graduate standing. Examination of current career education models and programs with emphasis on infusion of career education activities into elementary and secondary curriculum.

5600:490-491-492/590-591-592 WORKSHOP 1-3 credits each
Special instruction designed as inservice and/ or upgrading individuals on current issues and practices in counseling.

5600:493/593 WORKSHOP 1-4 credits
Special instruction designed as inservice and/ or upgrading individuals on current issues and practices in counseling.

5600:494/594 COUNSELING INSTITUTE 1-4 credits
Inservice programs to meet the needs of counselors and other helping professionals.

GRADUATE COURSES

5600:600 SEMINAR IN COUNSELING 1 credit
Prerequisite: Counseling majors must elect 600 prior to electing 651 and/ or within the first ten hours of 5600 course work. A structured group experience designed to help students assess their selection of counseling as a profession.

5600:602 INTRODUCTION TO COUNSELING 2 credits
Understanding guidance and counseling principles including the organization, operation and evaluation of guidance programs (designed for non-counseling majors).

5600:631 ELEMENTARY SCHOOL GUIDANCE 3 credits
An introductory course which examines guidance and counseling practices.

5600:632 SECONDARY SCHOOL GUIDANCE 3 credits
An introductory course which examines guidance and counseling practices.

5600:635 COMMUNITY AND COLLEGE COUNSELING 3 credits
An overview of community and college personnel services: their evaluation, philosophy, organization and administration.

5600:643 COUNSELING: THEORY AND PHILOSOPHY 3 credits
Examination of major counseling systems including client centered, behavioral and existential theories. Philosophical and theoretical dimension are stressed.

5600:645 GROUP TESTING IN COUNSELING 3 credits
Study of evaluation and measurement procedures in counseling including instrument development, selection and use of aptitude tests, inventories and rating scales.

5600:647 CAREER COUNSELING: THEORY & PRACTICE 3 credits
Prerequisite: 631 or 633 or 635 or permission. Study of career development, career decision making, career options and career counseling program development.

5600:649 COUNSELING AND PERSONNEL SERVICES IN HIGHER EDUCATION 2 credits
Prerequisite: 635 or permission of instructor. Study of counseling services as they are related to the psychological needs and problems of college students.

5600:651 TECHNIQUES OF COUNSELING 3 credits
Prerequisite: 643 or permission. Study and practice of selected counseling techniques and skills with emphasis upon structuring, listening, leading and establishing a counseling relationship.

5600:653 GROUP COUNSELING 3 credits
Prerequisite: 651. Provides the knowledge, understanding and skills necessary for conducting group counseling sessions.

5600:653 FAMILY COUNSELING 3 credits
Prerequisite: 635 or permission. Understanding of principles related to family counseling and the development of related skills.

5600:657 CONSULTANT: COUNSELING 3 credits
Prerequisite: 631, 651 or permission. An examination of consultation models with a focus on process and product.

5600:659 ORGANIZATION AND ADMINISTRATION OF GUIDANCE PROGRAMS 3 credits
Prerequisite: 631 or 633 or permission. Development of a comprehensive articulated guidance and counseling program.

5600:661 SEMINAR: ELEMENTARY SCHOOL COUNSELING 2 credits
Prerequisite: 645, 647, 653 and 67. Examination of primary models for understanding and modifying children's behavior in the classroom including techniques of problem development and review of guidance materials and programs.

5600:663 SEMINAR: SECONDARY SCHOOL COUNSELING 2 credits
Prerequisite: 633, 643, 645 and 647. Study of specific guidance techniques and materials useful to counselors working with secondary school students, teachers and parents.

5600:665 SEMINAR: COMMUNITY AND COLLEGE COUNSELING 3 credits
Prerequisite: 635 or permission. Study of topics of concern to students specializing in community and college counseling. Topics may differ each quarter according to students' needs.

5600:671 COUNSELING CLINIC 1-3 credits
Prerequisite: Permission. Closely supervised application and integration of diagnostic, counseling and consultant skills in a clinical setting.

5600:675 PRACTICUM IN COUNSELING 4 credits
Prerequisite: 653. Supervised counseling experience with individuals and small groups.

5600:695 FIELD EXPERIENCE MASTERS 1-10 credits
Prerequisite: Permission of advisor and department head. Placement in a selected setting for the purpose of acquiring, experiences and/or demonstrating skills related to the student's counseling program.

5600:697 INDEPENDENT STUDY 1-3 credits
(May be repeated to a maximum of 9 credits) Prerequisite: Permission of advisor and department head. The specific area of investigation is determined in accordance with student needs.

5600:699 COUNSELING: THESIS OR PROBLEM 1-3 credits
Prerequisite: Consent of Advisor and department head. In-depth study and analysis of a counseling problem.

5600:702 ADVANCED COUNSELING PRACTICUM 3 credits
Prerequisite: doctoral residency or permission. (May be repeated to a maximum of 9 hours). Examination of theories of individual and group counseling along with supervised counseling experience in selected settings.

5600:703 ADVANCED SEMINAR IN COUNSELING 3 credits
Prerequisite: doctoral residency or permission. An examination of major issues in the field such as the counselor as a professional, the counselor as a person, and issues, problems, and trends in counseling.

5600:704 RESEARCH DESIGN IN COUNSELING I 3 credits
Prerequisite: doctoral residency or permission. Study of research designs, evaluation procedures and review of current research in counseling.

5600:705 RESEARCH DESIGN IN COUNSELING II 3 credits

5600:706-707 INTERNSHIP IN COUNSELING SUPERVISION I AND II 3 credits each
Prerequisite: doctoral residency or permission. Instruction and experience in supervising graduate students in counseling.

5600:895 FIELD EXPERIENCE - DOCTORAL 1-6 credits
Prerequisite: Doctoral candidate status (may be repeated). Placement in a selected setting for the purpose of acquiring experiences and/or developing skills related to the student's doctoral program.

5600:897 INDEPENDENT STUDY 1-3 credits
(May be repeated to a maximum of 9 hours) Prerequisite: Permission of advisor and department head. The specific area of investigation is determined in accordance with student needs.

5600:898 RESEARCH PROJECTS IN SPECIAL AREAS 1-2 credits
Prerequisite: Permission of advisor and department head (may be repeated). Study, analysis and reporting of a counseling problem.

5600:899 DISSERTATION 1-20 credits
Prerequisite: Permission of major doctoral advisor and department head. Study design and analysis of a counseling problem.
5610: SPECIAL EDUCATION

5610:201 STUDENT PARTICIPATION: EDUCABLE MENTALLY RETARDED/LEARNING DISABILITIES 1 credit
Prerequisite: Sophomore standing & permission. A systematic observation and participation in classes for Educable Mentally Retarded and Learning Disabled children for 1/2 semester each. This experience is prerequisite to student teaching in each area.

5610:202 STUDENT PARTICIPATION: EDUCABLE MENTALLY RETARDED/ORTHOPEDICALLY HANDICAPPED 1 credit
Prerequisite: Sophomore standing & permission. A systematic observation and participation in classes for Educable Mentally Retarded children and Orthopedically Handicapped children for 1/2 semester each. This experience is prerequisite to student teaching in each area.

5610:203 STUDENT PARTICIPATION: EDUCABLE MENTALLY RETARDED/TRAINABLE MENTALLY RETARDED 1 credit
Prerequisite: Sophomore standing & permission. A systematic observation and participation in classes for Educable Mentally Retarded and Trainable Mentally Retarded children for 1/2 semester each. Experience is prerequisite to student teaching in each area.

5610:395 FIELD EXPERIENCE: SPECIAL EDUCATION 1-3 credits
Prerequisite: Upper college standing. Supervised work with youngsters, individually and in groups in school and/or community settings.

5610:403 STUDENT TEACHING SEMINAR: SPECIAL EDUCATION 1 credit
Corequisite: 495. A seminar in support of the student teaching experience.

5610:440/540 DEVELOPMENTAL CHARACTERISTICS OF EXCEPTIONAL INDIVIDUALS 3 credits
Prerequisites: 3750:100 & 5100:157. A survey of the etiology, diagnosis, classification, and developmental characteristics of atypical individuals.

5610:441/541 DEVELOPMENTAL CHARACTERISTICS OF MENTALLY RETARDED INDIVIDUALS 4 credits
Prerequisite: 440/540. A study of the etiology, diagnosis, classification and developmental characteristics of educable mentally retarded, trainable mentally retarded, and profoundly retarded individuals.

5610:443/543 DEVELOPMENTAL CHARACTERISTICS OF LEARNING DISABLED INDIVIDUALS 3 credits
Prerequisite: 440/540. A survey of the etiology, diagnosis, classification and developmental characteristics of learning disabled individuals.

5610:444/544 DEVELOPMENTAL CHARACTERISTICS OF INTELLECTUALLY GIFTED INDIVIDUALS 3 credits
Prerequisite: 440/540. A survey of the etiology, diagnosis, classification and developmental characteristics of intellectually gifted individuals.

5610:445/545 DEVELOPMENTAL CHARACTERISTICS OF ORTHOPEDICALLY HANDICAPPED INDIVIDUALS 3 credits
Prerequisite: 441/541. A survey of the etiology, diagnosis, classification and developmental characteristics of orthopedically handicapped individuals.

5610:446/546 DEVELOPMENTAL CHARACTERISTICS OF BEHAVIORALLY DISORDERED INDIVIDUALS 3 credits
Prerequisite: 443/543. A survey of the etiology, diagnosis, classification and developmental characteristics of behaviorally disordered individuals.
5610:490-491/492-493/590-591-592-593 WORKSHOP
1-3 credits each
(May be repeated for a total of 4 credits)
Designed to explore special topics in in-service or pre-service education on a needs basis.

5610:494/594 EDUCATION INSTITUTES: SPECIAL EDUCATION 1-4 credits
Special courses designed as in-service up-grading programs, frequently provided with the support of national foundations.

5610:495 STUDENT TEACHING 4-6 credits
Corequisite: 403. Student Teaching with Educable Mentally Retarded, Learning Disabled, Orthopedically Handicapped or Speech Handicapped children under the supervision of the directing therapist and University supervisor.

5610:497 INDEPENDENT STUDY: SPECIAL EDUCATION 1-3 credits
Prerequisite: Consent of advisor and supervisor of the independent study. The specific area of investigation will be determined in accordance with the student's needs.

GRADUATE COURSES

5610:300 SEMINAR: SPECIAL EDUCATION 3 credits
Prerequisite: 12 credits of graduate study in Special Education. A critical examination of practices and pertinent research in special education. Legislation and court decisions effecting special education programs in Ohio and the nation will be examined.

5610:401 SEMINAR: SPECIAL EDUCATION CURRICULUM PLANNING 3 credits
Prerequisite: Certification in an area of Special Education. A study of curriculum planning practices unique to special education classes and services. Appropriate curriculum objectives for selected areas of instruction as well as effective organizational programs will be examined.

5610:602 SUPERVISION OF INSTRUCTION 3 credits
Prerequisite: Certification in an area of special education. A study of administration and supervisory practices unique to special education classes and services.

5610:603 ASSESSMENT AND EDUCATIONAL PROGRAMMING 3 credits
Prerequisite: Certification in an area of special education or permission of the instructor. Overviews the psycho-diagnostic approach in the assessment of handicapped individuals and examines methods for designing individual programming based on formal and informal assessment. Program management is also examined.

5610:604 EDUCATION AND MANAGEMENT STRATEGIES FOR PARENTS OF EXCEPTIONAL INDIVIDUALS 3 credits
Prerequisite: Certification in an area of special education and/or permission of the instructor. The course stresses methods of working with parents to facilitate effective programs for handicapped individuals. In addition, strategies for providing support and educational services for parents are examined.

5610:605 PROGRAM DEVELOPMENT AND SERVICE DELIVERY SYSTEMS 3 credits
Prerequisite: Certification in an area of special education and/or permission of the instructor. The course provides strategies for community analysis, case findings, funding sources and practices, and the development of program models and service delivery systems to serve handicapped individuals.

5610:695 FIELD EXPERIENCE: MASTER'S 1-4 credits
(May be repeated up to a total of 8 credits)
Designed to provide on-the-job experience in a special education program on an individual basis.

5610:697 INDEPENDENT STUDY 1-3 credits
(May be repeated up to a total of 9 credits)
Prerequisite: Consent of advisor and supervisor of the independent study. The specific area of investigation will be determined in accordance with the student's needs.

5610:699 SPECIAL EDUCATION: PROBLEM OR THESIS 1-3 credits
Thorough study and analysis in depth of an educational problem; field projects in special areas; synthesis of existing knowledge in relationship to a specific topic.

5610:798 RESEARCH PROJECT IN SPECIAL EDUCATION 1-3 credits
Study, analysis and reporting of a special education problem.

5620: SCHOOL PSYCHOLOGY

5620:490/590 WORKSHOP 1-2 credits
Prerequisite: Permission of instructor. An opportune topical experience provided periodically as needed and/or resources become available.

5620:491/591-592 WORKSHOP 1-3 credits each
Prerequisite: Permission of instructor. An opportune topical experience provided periodically as needed and/or resources become available.

5620:494/594 SCHOOL PSYCHOLOGY INSTITUTE 1-4 credits
Prerequisite: Permission of instructor. A specifically designed learning experience for program graduate focusing upon critical topics in school psychology.

GRADUATE COURSES

5620:600 SEMINAR: ROLE AND FUNCTION OF THE SCHOOL PSYCHOLOGIST 3 credits
Prerequisite: Permission of instructor. A seminar on the role and function of the School Psychologist. The course, tailored to meet individual needs of trainees, is a consideration of professional standards of school psychology practice.

5620:601 COGNITIVE FUNCTION MODELS FOR PRESCRIPTIVE EDUCATIONAL PLANNING 3 credits
Prerequisite: Permission of instructor. A consideration of cognitive development theories and their application for educational programming.

5620:610 EDUCATIONAL DIAGNOSIS FOR SCHOOL PSYCHOLOGISTS 4 credits
Prerequisite: Permission of instructor. The clinical study and application of current assessment approaches applicable in the assessment of children's learning problems.

5620:611 PRACTICUM IN SCHOOL PSYCHOLOGY 4 credits
Prerequisite: Permission of instructor. A laboratory experience in the psycho-educational study of individual children who have learning problems in school.

5620:620 INTERNSHIP IN SCHOOL PSYCHOLOGY: FALL 3 credits each
Prerequisite: Permission of instructor. Full-time paid
work assignment under supervision of a qualified school psychologist for an academic year structured according to the provisions of the State Department of Education. Additional readings required.

5620:640 FIELD SEMINAR I: ISSUES & ASSESSMENTS (FALL) 2 credits each
Prerequisite: Permission of instructor. A consideration of pertinent topics in the practice of School Psychology with emphasis upon field-based problems and issues of a practicing school psychologist.

5620:695 FIELD EXPERIENCE: MASTER’S 1-3 credits
Prerequisite: Permission of instructor. Practical school psychology-related experience in a school setting.

5620:696 FIELD EXPERIENCE: MASTER’S 1-3 credits
Prerequisite: Permission of instructor. Practical school psychology-related experience in an appropriate setting other than a school.

5620:697 INDEPENDENT STUDY 1-4 credits
Prerequisite: Permission of advisor and supervisor of the independent study. The documentation of a specific area of investigation. The nature of the inquiry to be determined by student-supervisor agreement.

5620:698 RESEARCH PROJECT IN SPECIAL AREAS 1-3 credits
Prerequisite: Permission of advisor. Study, analysis, and reporting of school psychology problem.

5620:699 SCHOOL PSYCHOLOGY: PROBLEM OR THESIS 1-3 credits
Prerequisite: Permission of instructor. Thorough study, analysis, and reporting in depth of an educational problem; field projects in special areas; synthesis of existing knowledge in relationship to a specific topic.

5630: INNER-CITY EDUCATION

5630:481/581 MULTI-CULTURAL EDUCATION IN UNITED STATES 3 credits
Inquiry into multi-cultural dimensions of American education. Comparisons of urban, suburban, and rural educational settings and with reference to socio-economic differences.

5630:482/582 CHARACTERISTICS OF CULTURALLY DIFFERENT YOUTH 3 credits
A study of characteristics of Culturally Different Youth, with a focus on youth in low-income areas. Emphasis on cultural, social, economic and educational considerations and their implications.

5630:483/583 PREPARATION FOR TEACHING CULTURALLY DIFFERENT YOUTH 3 credits
The course is designed to help prepare trainees to teach culturally different youth from low-income backgrounds. Through the use of multi-media source materials trainees will: gain knowledge of the background and culture of culturally different learners, determine the role of the teacher, explore techniques of discipline and classroom management, survey motivational and instructional techniques and examine, prepare and adapt a variety of instructional materials for individual, small group and large group instruction.

GRADUATE COURSES

5630:686 SEMINAR: EDUCATION OF THE CULTURALLY DIFFERENT 2 credits
A survey of educational considerations for schools populated by low-income culturally different youth. Field experience in the form of visitsations to agencies serving low-income families will be required.

5700: SCHOOL ADMINISTRATION

5700: 490-491-492-493/590-591-592-593 WORKSHOP 1-3 credits each
Opportunity for individual work under staff guidance on curriculum problems, utilization of community resources, planning of curriculum units.

5700:494/594 EDUCATIONAL INSTITUTES 1-4 credits
Special courses designed as in-service upgrading programs, frequently provided with the support of national foundations.

GRADUATE COURSES

5700:601 PRINCIPLES OF EDUCATIONAL ADMINISTRATION 3 credits
Theories and practices in administering schools and school systems, with emphasis on administrative processes, common problems, career opportunities, getting the first job.

5700:604 SCHOOL AND COMMUNITY RELATIONS 2 credits
Basics in maintaining cooperative relationships between educational institutions and their supporting publics. Examination and analysis of institutional environments and the impacts of mass news media on public support.

5700:605 DECISION-MAKING THEORY AND PRACTICE IN EDUCATIONAL ADMINISTRATION 3 credits
Theories underlying the process of decision-making in the philosophy, sociology, economics, and politics of education. Alternative decisions and their respective consequences. Fundamentals of PPBS and other decision-making aids.

5700:606 EVALUATION OF EDUCATIONAL INSTITUTIONS 3 credits
Theories and practices involved in the processes of delineating, obtaining, and providing information for decision-making are introduced and explicated.

5700:607 LEGAL BASIS OF EDUCATION 2 credits
The legal principles underlying education in the U.S. as reflected in statutory provisions, court decisions, and administrative orders are presented. Ohio school statutes are covered in depth.

5700:608 PRINCIPLES OF SCHOOL FINANCE 2 credits
Study of financial operations of school systems including tax and other income, expenditures and budgeting.

5700:610 PRINCIPLES OF EDUCATIONAL SUPERVISION 3 credits
Study of the principles, organizations and techniques of supervision with a view to the improvement of instruction.

5700:611 SUPERVISION OF STUDENT TEACHING 2 credits
Primarily for supervising teachers in the guidance of student teachers. Topics include: readiness for student teaching; directing teacher and college supervisor rela-
tionships, use of the conference, demonstration, and observation.

5700:620 SECONDARY SCHOOL ADMINISTRATION 2 credits
Prerequisite: 601. Problems, procedures and principles of organization and administration in secondary schools.

5700:631 ELEMENTARY SCHOOL ADMINISTRATION 2 credits
Prerequisite: 601. Problems, procedures and principles of organization, administration and supervision in elementary schools.

5700:695 FIELD EXPERIENCE FOR SUPERVISORS 2 credits
Prerequisite: Completion of all course work except research problem. Designed to help students test and develop understandings and skills in supervision. Students will participate in selected task areas which reflect supervisory responsibilities.

5700:696 FIELD EXPERIENCE FOR THE SECONDARY SCHOOL ADMINISTRATOR 1-2 credits
(May be repeated for a total of 2 credits.)
On-the-job experience in a public school system working with administrators and/or supervisors.

5700:697 FIELD EXPERIENCE FOR THE ELEMENTARY ADMINISTRATOR 1-2 credits
(May be repeated for a total of 2 credits.)
On-the-job experience in a public school system working with administrators and/or supervisors.

5700:698 INDEPENDENT STUDY 1-3 credits
(May be repeated to a maximum of 6 credits.)
Prerequisite: Consent of advisor and the supervisor of the independent study. Area of study is determined by student's needs.

5700:699 RESEARCH IN EDUCATION 1-4 credits
Prerequisite: Permission of advisor. An in-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in educational administration.

5700:701 SCHOOL BUILDING AND CONSTRUCTION 2 credits
Theories and practices involved in planning school facilities are discussed. Field explorations of exemplary school buildings are involved.

5700:702 SCHOOL BUSINESS ADMINISTRATION 2 credits
A study of school business administration as a part of the total administrative pattern, and as a creative planning process designed to facilitate instruction.

5700:703 ADMINISTRATION OF STAFF PERSONNEL 2 credits
Guidelines, techniques, and procedures for helping the administrator to become a democratic leader. Duties and responsibilities of the staff as participants in administrative activity.

5700:704 ADMINISTRATIVE ORGANIZATIONS IN EDUCATION 2 credits
A study of organizations, the strengths and weaknesses of the bureaucratic model in administering them. Practical means by which the weaknesses of bureaucracies are offset or lessened in educational institutions.

5700:710 PRINCIPLES OF CURRICULUM DEVELOPMENT 3 credits
An overview of the instructional programs of a school in terms of basic purposes, functions and structures necessary to study and interpret these instructional programs.

5700:715 EDUCATIONAL ORGANIZATIONAL INFORMATION PROCESSING 2 credits
A course designed primarily for the graduate education student majoring in administration. The course will include concepts of modern systems and their educational applications.

5700:730 SEMINAR IN SCHOOL ADMINISTRATION 3 credits
Prerequisite: 601. Focus will be on recent research in administration and educational administration theory.

5700:731 SEMINAR: PROBLEMS OF THE SCHOOL ADMINISTRATOR 2 credits
Current administrative problems in educational institutions as perceived by students and practicing school executives. Emphasis on problem management, amendment, or solution. Field visits or resource persons invited to the classroom.

5700:732 ORGANIZATIONAL COMMUNICATIONS AND THE SCHOOL ADMINISTRATOR 3 credits
Fundamentals in interpersonal communications. Application of these principles to roles of educational administrators. Skill development in written and spoken communications, with attention to non-verbal communications; simulation and role-playing.

5700:733 THE EDUCATIONAL ADMINISTRATOR AND PLANNED CHANGE 2 credits
Prerequisite: 601 & 704. Relationship between technological and social change and needed change in education; theories, principles and mechanisms in planned educational change.

5700:740 THEORIES OF EDUCATIONAL SUPERVISION 3 credits
Prerequisite: 610, 5200:732 or 5300:721. Explanation and examination of various theories of supervision; sample models which implement existing theories.

5700:745 PRACTICUM IN EDUCATIONAL ADMINISTRATION: URBAN SETTING 2 credits
Prerequisite: Completion of three-fourths of the doctoral program courses. Analysis of the uniquenesses of the urban setting, e.g., multi-cultural and pluralistic urban populations. Stress on the administrator's human relation skills.

5700:746 POLITICS, POWER, AND THE SCHOOL ADMINISTRATOR 3 credits
The impacts of formal and informal community power structures and influential persons on educational planning and decision-making. The administrator as an influence on the power structure for educational benefit.

5700:747 PRACTICUM: COMPETING AND COMPLEMENTARY SOCIAL SYSTEMS 3 credits
Designed to bring the educational administrator into direct contact with individuals responsible for other community service: delivery systems e.g., city government. Methods of inter-agency cooperation to provide client services.

5700:785-786 INTERNSHIP IN EDUCATIONAL ADMINISTRATION 2 credits each
(May be repeated for a maximum of 6 credits.) Work under a practicing administrator involving experience in optimum number of administrative tasks. Includes seminars and written work.

5700:787 FIELD EXPERIENCE FOR THE ELEMENTARY ADMINISTRATOR 2 credits
This course will entail supervised, on-the-job, administration experience, in each of the administrative task areas: staff personnel, pupil personnel, curriculum, community relations, finance and physical facilities.
5700:895 FIELD EXPERIENCE FOR THE SUPERINTENDENT
2 credits
Prerequisite: Permission of instructor. A cooperative, field-based experience in a central office of a school district in which the student performs assignments in the administrative task areas.

5700:896 FIELD EXPERIENCE IN SCHOOL PLANT PLANNING
2 credits
Prerequisite: Permission of the instructor. Selected field experiences in the science of planning school plants. Emphasis is placed on analysis of school enrollments, evaluation of school plants, and the financial aspects of plant planning.

5700:897 INDEPENDENT STUDY
1-3 credits
(May be repeated to a maximum of 6 credits.)
Prerequisite: Permission of advisor. An in-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in secondary education.

5700:898 RESEARCH PROJECT IN SPECIAL AREAS
1-2 credits
Prerequisite: Permission of advisor. A specific in-depth study of a problem in educational administration.

5700:899 DISSERTATION
1-20 credits
Prerequisite: Permission of advisor. A specific research problem that requires the student to apply research skills and techniques to the problem being studied.

5800: SPECIAL EDUCATIONAL PROGRAMS

5800:490/590 WORKSHOP IN ECONOMIC EDUCATION OR IN SOCIAL STUDIES
1-3 credits
Opportunity for individual work under staff guidance or curriculum problems; utilization of community resources; planning of curriculum units.

5800:491/591 WORKSHOP IN ARITHMETIC OR IN PHYSICAL SCIENCE
1-3 credits
Opportunity for individual work under staff guidance or curriculum problems; utilization of community resources; planning of curriculum units.

5800:492/592 WORKSHOP IN READING
1-3 credits
Opportunity for individual work under staff guidance or curriculum problems; utilization of community resources; planning of curriculum units.

5800: 493/593 WORKSHOP ON EXCEPTIONAL CHILDREN
1-3 credits
Opportunity for individual work under staff guidance or curriculum problems; utilization of community resources; planning of curriculum units.

5800:494/594 INTERNATIONAL SCHOOL STUDY
3-6 credits
On-the-scene study of education in foreign countries, usually by concentrating on the study of schools in one restricted geographical area.

5800: EDUCATIONAL TECHNOLOGY

5850:100 INTRODUCTION: PUPIL PERSONNEL WORK
2 credits
Prerequisite: none. The purposes, needs, scope and character of pupil personnel services are explored.

5850:201 INFORMATIONAL SERVICES IN GUIDANCE AND SPECIAL EDUCATION
2 credits
Prerequisite: none. Emphasis on the organization and status of informational services as they relate to the activities of the educational technologist.

5850:204 HUMAN RELATIONS IN EDUCATION
3 credits
Prerequisite: none. Study of individual and group relationships in an educational setting including the development of basic interpersonal skills.

5850:207 MECHANICS OF STUDENT APPRAISAL
3 credits
Prerequisite: none. Introduction to group appraisal with major emphasis placed on assisting certificated personnel in group test administration, scoring, organizing and recording test results.

5850:213 ORIENTATION OF THE EDUCATIONAL TECHNICIANS TO THE SECONDARY SCHOOL
2 credits
Designed to provide the student preparing for the role of an educational technician with a framework for understanding secondary education.

5850:260 SPECIAL EDUCATION TECHNOLOGY
2 credits
A survey of selected procedures and materials employed in classrooms especially designed and operated for exceptional children.

5850:295 EDUCATION TECHNICIAN FIELD EXPERIENCE
5 credits
A supervised field experience in the school setting designed for educational technician enrollees only. The course may be repeated once.
6200: ACCOUNTING

6200:201 ACCOUNTING I 4 credits
An introduction to accounting, the language of business. Emphasis is on the basic principles, concepts, and terminology of accounting for assets, liabilities, and proprietorship.

6200:202 ACCOUNTING II 4 credits
Prerequisite: 201. A study of the accounting informational needs of management. Emphasis is on planning and control, including financial statement analysis, funds flow, budgets, cost-volume-profit analysis, and decision-making costs.

6200:301 COST ACCOUNTING 3 credits
Prerequisite: 202. An introduction to product costing, emphasizing the analysis of materials, labor, and factory overhead. Cost control is achieved through the use of flexible budgets, standard costs, and variance analysis.

6200:317 INTERMEDIATE ACCOUNTING I 4 credits
Prerequisites: 202 and 3250:202. An introduction to cost accounting, emphasizing the determination of standards, costs, and variances.

6200:318 INTERMEDIATE ACCOUNTING II 4 credits
Prerequisite: 317. In-depth study of long-term liabilities and investments, capital stock, retained earnings, accounting changes, funds statement, pensions, leases, statement analysis, and price level accounting.

6200:355 ELECTRONIC DATA PROCESSING 3 credits
Prerequisites: 202 and 6500:340. An introduction to automatic data processing systems in an accounting and management environment. Fundamentals of computer programming are presented to the student for execution of basic programs.

6200:360 BUDGETING 3 credits
Prerequisite: 301. A study of the principles and policies of budgeting. Emphasis is on managerial control of expenses, capital expenditures, and related activities.

6200:401 ACCOUNTING SURVEY 3 credits
Prerequisite: permission of instructor. An introductory course for students with no previous accounting background. Essential accounting concepts, techniques, and terminology for a business organization are provided for the student.

6200:402 ADVANCED COST ACCOUNTING 3 credits
Prerequisite: 301. In-depth study of the use of standard cost procedures, job-order costing procedures, and advanced problems in the area of cost accounting.

6200:410 TAXATION FOR THE NON ACCOUNTANT 3 credits
A course designed to provide the non-accountant basic knowledge of federal tax laws as applied to individuals and businesses. Not open to accounting majors.

6200:420/520 ADVANCED ACCOUNTING 3 credits
Prerequisites: 318. An examination of accounting theory emphasizing accounting for business combinations, partnerships, foreign operations, non-profit entities, and consolidated statements.

6200:425 CURRENT DEVELOPMENTS IN ACCOUNTING 3 credits

6200:430/530 TAXATION I 3 credits
Prerequisite: 318. Application of the current federal tax law to individuals and proprietorships. Types of income, deductions, and the structure of the tax return are covered.

6200:431/531 TAXATION II 3 credits
Prerequisite: 430/530. Application of current federal tax law to partnerships, corporations, trusts, estates and gifts. Social security taxes and Ohio income, sales, and personal property taxes are also discussed.

6200:440/540 AUDITING 3 credits
Prerequisites: 301 and 318. Examines auditing standards and procedures, used by the independent auditor in determining whether a firm has fairly represented its financial position.

6200:454 ACCOUNTING SYSTEMS 3 credits
Prerequisites: 301, 318, 355, and permission of instructor. Focus on the development of accounting methods and procedures, installation and improvement of accounting systems, and evaluation of automated data processing systems.

6200:460 CONTROLLERSHIP PROBLEMS 3 credits
Prerequisites: 301, 318. An examination of quantitative accounting methods of planning, control, and decision-making. Standard costing, variable costing, and the contribution approach to decision-making are emphasized.

6200:470/570 GOVERNMENTAL AND INSTITUTIONAL ACCOUNTING 3 credits
Prerequisite: 318. Theory and procedures involved in the application of fund accounting, budgetary control, appropriations, and various accounting systems to governmental units, educational, medical and other non-profit institutions.

6200:480/580 ACCOUNTING PROBLEMS 3 credits
Prerequisite: 318. Independent research on an advanced accounting problem in the student's specific area of interest.

6200:485 CPA PROBLEMS—COMMERCIAL LAW 3 credits
Prerequisite: permission of instructor. This course deals with those general principles of commercial law which appear on the CPA examination.

6200:486 CPA PROBLEMS—ACCOUNTING PRACTICE 3 credits
Prerequisite: permission of instructor. The study of methods for solving the various types of problems which appear on the accounting practice section of the CPA examination.

6200:487 CPA PROBLEMS—TAXATION 1 credit
Prerequisite: permission of instructor. Application of current developments in federal income tax law to the CPA examination.

6200:488/588 CPA PROBLEMS—AUDITING 2 credits
Prerequisites: 440/540 or permission of instructor. A preparation for the auditing section of the CPA examination, focusing on auditing principles, standards and ethics, and situations encountered by the independent auditor.
Prerequisite: permission of instructor. A preparation for the theory section of the CPA examination, focusing on current developments and use of basic accounting theory to solve advanced accounting problems.

6200:491/591 WORKSHOP IN ACCOUNTING 1-3 credits
Prerequisite: permission of instructor. Group study of accounting under faculty guidance. May not be used to meet undergraduate or graduate accounting major requirements, but may be used for elective credit only with permission of the instructor or department. May be repeated.

6200:495 INTERNSHIP IN ACCOUNTING 3 credits
Prerequisite: permission of instructor. On-the-job training for the student in the field of public accounting. Individual assignments are made by the supervising faculty member.

6200:499 INDEPENDENT STUDY IN ACCOUNTING 3 credits
Prerequisite: Permission.

GRADUATE COURSES

6200:501 FINANCIAL ACCOUNTING 3 credits
An introductory course for students with no accounting background. This course examines accounting principles as applied to financial problems of the firm.

6200:510 ACCOUNTING MANAGEMENT AND CONTROL 3 credits
Prerequisite: 301 or equivalent. An investigation of the role of accounting as a management tool in the areas of production, marketing, internal control, and capital budgeting with focus on management planning.

6200:530 TAX RESEARCH AND PLANNING 3 credits
Prerequisite: 431 or equivalent. This course is designed to develop research competence in solving complex tax problems involving federal income, estate trust, and gift tax laws.

6200:637 ADVANCED ACCOUNTING THEORY 3 credits
Prerequisite: 316. An examination of accounting concepts and standards through critical analysis of articles on current trends in the profession. Discussion and outside research are stressed.

6200:640 ADVANCED AUDITING 3 credits
Prerequisite: 440/540. Conceptual foundations and current research on professional and internal auditing. Includes government regulation and litigation, statistics, computer systems as well as current and prospective developments in auditing.

6200:655 INFORMATION SYSTEMS 3 credits
Prerequisites: 355 and 610. An advanced study of accounting information system theory, elements, principles, design, and implementation. Practical data processing and networks to control the flow of information are also discussed.

6200:670 COST CONCEPTS AND CONTROL 3 credits
Prerequisite: 610. Focus on the analysis and control of costs and their uses in decision-making. Determination of cost data and efficiency of decision are also emphasized.

6200:680 INTERNATIONAL ACCOUNTING 3 credits
Prerequisite: 610. An examination of accounting theory and practice from an international perspective with emphasis on multi-national investment, business and auditing activities, and reporting problems.

6200:697 INDEPENDENT STUDY IN ACCOUNTING 1-3 credits
(may be repeated but not to exceed a total of 3 credits for all registrations)
A focus on special topics of study and research in Accounting on an independent basis.

6400:697 INDEPENDENT STUDY IN FINANCE 1-3 credits
(may be repeated but not to exceed a total of 3 credits for all registrations)
A focus on special topics of study and research in Finance on an independent basis.

6500:697 INDEPENDENT STUDY IN MANAGEMENT 1-3 credits
(may be repeated but not to exceed a total of 2 credits for all registrations)
A focus on special topics of study and research in Management on an independent basis.

6600:697 INDEPENDENT STUDY IN MARKETING 1-3 credits
(may be repeated but not to exceed a total of 3 credits for all registrations)
A focus on special topics of study and research in Marketing on an independent basis.

6200:659 SEMINAR IN ACCOUNTING 3 credits
Prerequisite: Permission of instructor. A program of independent research in an accounting area of the student's choice, requiring submission of a finished report within a year. (May be repeated for a total of 6 credits.)

6400: FINANCE

6400:314 CREDITS AND COLLECTIONS 2 credits
Nature and fundamentals of credit investigation and analysis, credit extension, collection operations, collection aids and problems.

6400:318 RISK MANAGEMENT AND INSURANCE 2 credits
The concept of risk and risk management and the principles of insurance are developed in business. Life and health insurance are related to the employee benefit programs.

6400:320 THE LEGAL ENVIRONMENT OF BUSINESS 4 credits
Designed to give the student an understanding of legal reasoning and analysis. Discussions include court and procedures, business organizations, commercial transactions, and the legal aspects of government regulation of business.

6400:321 BUSINESS LAW I 3 credits
Discussions are designed to develop legal reasoning within the substantive areas of contractual obligation, agency relationships, partnerships, corporations, accountant's legal responsibility, federal securities regulation, and antitrust law.

6400:322 BUSINESS LAW II 3 credits
Applications of the Uniform Commercial Code in sales, commercial paper, and secured transactions. Additional discussions include property, wills, estates, trusts, bailments, insurance, suretyship, bankruptcy and labor law.

6400:338 FINANCIAL INTERMEDIARIES 3 credits
Studies the flows of funds. Analyzes major financial intermediaries. Money and capital markets are re-
viewed with emphasis on interest rates and their impact upon the administration of specific financial intermediaries.

6400:343 INVESTMENTS 3 credits
Prerequisite: 371. The range of security investment media is explored, alternative investment programs are considered and the role of securities markets through which goals can be achieved is studied.

6400:371 BUSINESS FINANCE 3 credits
Prerequisite: 6200:201 and 202 (or 401) and 3250:201 and 202. A study of the problems of the business firm from the financial manager's viewpoint. Topics include planning, sources and uses of funds, capital budgeting and optimum financial structure.

6400:400 INVESTING IN REAL ESTATE 3 credits
Prerequisite: 371. A study in the environment and variables of the associated decision-making process, its background, the specialists on decision making, with an emphasis on the purchase and financing decisions.

6400:410 PERSONAL FINANCIAL MANAGEMENT 3 credits
Reviews and analyzes the many personal financing decisions made by individuals. Areas of study include money management, credit acquisition insurance program development, investment analysis, and pension evaluation.

6400:425 BUSINESS AND SOCIETY 3 credits
Prerequisite: Senior standing. A conceptual course which considers the financial, economic, legal and socio-political implications of business in society. Issues related to the economic and legal framework for business decisions are discussed.

6400:436 COMMERCIAL BANK MANAGEMENT 3 credits
Prerequisite: 338. A study of administrative policy determination and decision making within the commercial bank. Analyses of policy making in the areas of liquidity, loan and security investment, and sources of funds.

6400:447 SECURITY ANALYSIS 3 credits
Prerequisite: 343. Application of qualitative and quantitative techniques of analysis to limited income and equity securities. Timing the changes in portfolio composition.

6400:479 PROBLEMS IN FINANCE 3 credits
Prerequisites: 371 and Senior Standing. The case method is utilized, emphasizing the application of analytical techniques from texts and journal readings to the solution of complex problems in financial management.

6400:491/591 WORKSHOP IN FINANCE 1-3 credits
Group studies of special topics in the Department of Finance. Graduate student will be used to meet undergraduate or graduate major requirements in Finance. May be used for elective credit only with permission of instructor or department. May be repeated.

GRADUATE COURSES

6400:662 MANAGERIAL FINANCE 3 credits
Prerequisite: 6200:201 and 202 (or 601) and 3250:201 and 222 (or 600). The emphasis of this course is financial decision making as it relates to the goal of the firm — specifically, the investment decision, the financing decision and the dividend decision.

6400:623 MANAGEMENT OF FINANCIAL INSTITUTIONS 3 credits
Prerequisite: 674. A study of the administration of financial institutions in the U.S. economy. The focal point of study is policy determination and administrative decision making in the individual financial institution.

6400:645 INVESTMENT ANALYSIS 3 credits
Prerequisite: 674. Works on and nature of security markets; development of ability to analyze the operational capability of industrial firms and make rational portfolio selections leading to long-term capital preservation and appreciation.

6400:650 ADMINISTERING COSTS AND PRICES 3 credits
The course provides an understanding of managerial economics. Short and long-run decisions of the firm are analyzed. Analysis includes the impact of costs and prices on business profitability.

6400:655 GOVERNMENT AND BUSINESS 3 credits
Prerequisite: 371. Public policy with regard to business institutions and issues in the U.S. are considered from an economic, legal, and political framework.

6400:665 COMPARATIVE INDUSTRIAL RATIONALE 3 credits
An analytic approach to proper allocation of resources. Consideration given to industrial structure and evaluation made of relationship between structure and total economy. Various economic and political systems are considered.

6400:674 FINANCIAL MANAGEMENT AND POLICY 3 credits
Prerequisite: 674. Working capital management, controlling inventory investments, administering costs and funds, managing investment in plant and equipment, administering business income and forecasting for financial management.

6400:676 MANAGEMENT OF FINANCIAL STRUCTURE 3 credits
Prerequisite: 674. Emphasizes the determination of the volume and composition of the sources of funds. The primary attention is directed to the cost of capital for specific sources of financing.

6400:678 CAPITAL BUDGETING 3 credits
Prerequisite: 674. This course attempts to integrate various theories of capital budgeting into a comprehensive conceptual scheme. Theoretical concepts and practical applications will be blended for a better understanding of capital problems.

6400:681 INTERNATIONAL BUSINESS FINANCE 3 credits
Prerequisite: 371. Financial policies and practices of companies involved in international operations are considered. Management of working capital and permanent assets, return on investment and capital budgeting for the global firm.

6400:699 SEMINAR IN FINANCE 3 credits
Prerequisite: 674 and a total 25 Phase II-III graduate credits. Individual research projects. (May be repeated for a total of 6 credits.)

6500: MANAGEMENT

6500:301 MANAGEMENT: PRINCIPLES & CONCEPTS 3 credits
Prerequisite: 2 courses in Behavioral Science. An introductory study of behavioral and quantitative theory, principles, and practice in the management of human resource; extended illustrations drawn from the management of operations systems. Prerequisite to
all other management courses except the 320's and 407.

6500:302 INTRODUCTION TO ORGANIZATIONAL BEHAVIOR 3 credits
Prerequisite: 2 courses in psychology or sociology. An investigation of the applications of the behavioral and social sciences as they relate to individual and group behavior in organizations.

6500:321 QUANTITATIVE BUSINESS ANALYSIS I 3 credits
Prerequisite: Math Modules. Statistical analysis of business data including coverage of probability theory, probability distributions, sampling, estimation, hypothesis testing, and analysis of variance.

6500:322 QUANTITATIVE BUSINESS ANALYSIS II 3 credits
Prerequisite: 321. Statistical analysis of business data including regression & correlation, time series, index numbers, distribution free statistics, Bayesian decision-making. Includes applications using cases in functional areas of business.

6500:323 COMPUTER APPLICATIONS FOR BUSINESS 3 credits
Prerequisite: Fortran IV programming or its equivalent is recommended. Emphasis is on the use of batch & realtime processing in solving computer-oriented business problems. Topics included are flowcharting, hardware, and the PLOTALL, FORTRAN, APL & GPSS programming languages.

6500:331 PRODUCTION & SYSTEMS MANAGEMENT 3 credits
Prerequisite: 321. Basic course for management majors. Terminal course in production for other students. Emphasis on design and analysis of operating systems, utilizing scientific decision-making methodology. Cases exercises & project.

6500:332 PRODUCTION & OPERATIONS MANAGEMENT 3 credits
Prerequisite: 322, 321, 331, 301. Continuation of 331. Introduces the use of models for production scheduling, materials management, quality control, distribution & project management. Includes linear programming, PERT & simulation. Cases, exercises, problems, and computer analysis.

6500:341 PERSONNEL MANAGEMENT 3 credits
Prerequisite: 2 courses in psychology or sociology. Principles, policies, and practices in administering the functions of recruiting, selecting, training, compensating, and appraising the human resources of organizations.

6500:342 PERSONNEL RELATIONS 3 credits
Prerequisite: 341. Analysis of management, union, and employee objectives, attitudes, and strategy, as they affect the conduct of business and the economy. Stress placed on group assigned readings and reports.

6500:407 INDEPENDENT STUDY IN SMALL BUSINESS MANAGEMENT 3 credits
Prerequisite: Senior standing. Focuses on the problems of organizing and operating a small business. This will be done through case studies and field experiences.

6500:408/508 MANAGEMENT PROBLEMS 3 credits
Prerequisite: Senior standing. The student applies modern management principles, practices and theory to an actual problem in industry.

6500:409 BUSINESS POLICY 4 credits
Prerequisite: Senior standing and all other business core program courses. The course is designed to enable the student to understand informal organization; the philosophy of modern management; evaluation of objectives of management; policy requirements of business and use of various management tools in operating the business firm.

6500:433 BUSINESS OPERATIONAL PLANNING 3 credits
Prerequisites: 322, 332. Application of quantitative techniques for planning overall operations of the firm. Emphasis given to external-internal factors which influence short-run and long-run economic success of the firm.

6500:434 PRODUCTION PLANNING & CONTROL 3 credits
Prerequisite: 323, 322, 332. Forecasting, materials management, production planning, scheduling and control. Integrates previous courses and provides overall framework including use of computers and quantitative methods. Cases and a project in an operating organization.

6500:435 QUALITY CONTROL 3 credits
Prerequisite: 341. Advanced study of current issues and problems in the field of personnel. Emphasis given to current literature and research. Activities may include projects, library research, case studies.

6500:443 ADVANCED PERSONNEL MANAGEMENT 3 credits
Prerequisite: 341. Advanced study of current issues and problems in the field of personnel. Emphasis given to current literature and research. Activities may include projects, library research, case studies.

6500:491 WORKSHOP IN MANAGEMENT 1-2 credits
Group studies of special topics in Management. May not be used to meet undergraduate major requirements in Management. May be used for elective credits only. May be repeated with permission of instructor or department.

6500:499 INDEPENDENT STUDY: MANAGEMENT 1-2 credits
Prerequisite: Senior standing and Department Head permission. This course provides a means for individualized study in management from which the student can derive significant value.

GRADUATE COURSES

6500:600 MANAGEMENT CONCEPTS 3 credits
A quantitative, behavioral, systems approach to introducing the Management Process, emphasizing the production function. This course is designed for those students who have not previously had courses in business.

6500:601 QUANTITATIVE DECISION MAKING 3 credits
Prerequisite: Finite math. This course applies quantitative techniques to business decision making. Topics covered include probability estimation and hypothesis testing, simple and multiple regression, and correlation analysis, analysis of variance and non-parametric statistics.

6500:652 ORGANIZATIONAL BEHAVIOR 3 credits
Prerequisite: 381. A study of factors which influence human behavior in business organizations. Emphasis on theories of individual and group behavior, motivation, leadership and communication in organizations.

6500:653 ORGANIZATIONAL THEORY 3 credits
Prerequisite: 652. Leadership styles explored in organized institutional setting, influence of these styles on individual and group behavior. Organizational goal attainment. Analysis of leader's role in the administrative process.
6500:654 INDUSTRIAL RELATIONS 3 credits
Prerequisite: 600. A study of the rights and duties of management in dealing with labor and the economic consequences of union and management policies and practices.

6500:655 BUS. STRATEGY & POLICY FORMULATION 3 credits
Prerequisite: to be scheduled during the last quarter of the individuals MBA program. This course focuses on the integration of the theoretical and practical knowledge acquired in core discipline courses. The student is required to analyze and evaluate organizational strategy and policy from the administrative viewpoint.

6500:656 MANAGEMENT OF INTERNATIONAL OPERATIONS 3 credits
Prerequisite: 652 or 653. This course deals with the institutional environment of International Business — the parameters of the international business system which hold the system together and which the individual businessman cannot materially alter.

6500:662 QUANTITATIVE METHODS — OPERATIONS MANAGEMENT 3 credits
Prerequisite: 661. A survey of the basic techniques of operations research. The course stresses application to the functional areas of business with particular emphasis given to the production and planning aspects.

6500:663 APPLIED INDUSTRIAL STATISTICS I 3 credits
Prerequisite: 321, 322. Designs for survey sampling and estimation. Simple linear regression analysis, including inferences, aptness of the model and joint confidence intervals.

6500:664 APPLIED INDUSTRIAL STATISTICS II 3 credits
Prerequisite: 663. Applications of multiple regression including determining "best" set of independent variables, correlation models, analysis of variance models including multi-factor models. Experimental designs including randomized block and Latin square designs.

6500:671 ADVANCED OPERATIONS RESEARCH 3 credits
Prerequisite: 661, 662. Designed to present in more depth and breadth, certain topics surveyed in Quantitative Methods for Operations Management, with emphasis placed on the application of these techniques to the student's own business situations.

6500:672 MANAGEMENT & OPERATIONS ANALYSIS 3 credits
Prerequisite: 671. To provide an applications forum where skills gained in other manufacturing — quantitative areas of the curriculum can be empirically utilized and applied.

6500:689 SEMINAR IN HEALTH CARE SYSTEMS MANAGEMENT 3 credits
Prerequisite: permission of instructor. This seminar provides graduate students in business administration with in-depth study of nonprofit health care organizations and the health care delivery system. The organizational structure and management differences between nonprofit health care organizations and traditional business organizations are examined. Study is made of the health care delivery system, its providers (patient care—third party payers), and the role of governmental programs. A major research paper is required.

6500:699 GRADUATE SEMINAR IN MANAGEMENT 3 credits
Prerequisite: Total of 25 Phase II-III graduate credits. A course for Master's degree candidate in management. Independent study and reading. Leads to finished paper which should be completed within one year from time of enrollment of course. (May be repeated for a total of 6 credits.)

6600: MARKETING

6600:300 MARKETING PRINCIPLES 3 credits
Prerequisite: 3250:201-202 or permission. This broad course integrates commodity, institutional, functional and managerial concepts of the marketing process to provide the student with a total framework of economic activity.

6600:320 PHYSICAL DISTRIBUTION 3 credits
Prerequisite: 300. A basic course in the source, movement and storage of goods, including emphasis on the economics of transportation and the requirements of an effective system.

6600:330 INTERNATIONAL MARKETING 3 credits
Prerequisite: 300. Students concentrate on principles of international trade balances, and import and export distribution machinery. The course pinpoints characteristics and potentials of various foreign markets.

6600:340 MERCHANDISING 3 credits
Prerequisite: 300. Presents principles of management that will result in service to consumers at a profit to the retailer. Store location, staffing, planning and control, buying, pricing and promotion are explored.

6600:350 ADVERTISING 3 credits
Prerequisite: 300. Basic principles of a marketing communication system are developed, with emphasis on media selection and feedback requirements. The role of research and trade requirements are stressed.

6600:360 INDUSTRIAL MARKETING 3 credits
Prerequisite: 300. Following principles of modern marketing management, this course focuses on the development of local, regional and national markets. Particular emphasis is placed on problems of industrial goods manufacturers.

6600:370 PURCHASING 3 credits
Prerequisites: 3250:201-202. This course deals with "marketing in reverse" and includes such topics as buying the right quantity, inspection and quality control, and sources and assurance of supply.

6600:430 PROMOTIONAL STRATEGIES 3 credits
Prerequisite: 340 or 350. The examination at length and in depth of a variety of the advertising-public relations-personal selling mix to marketing problems.

6600:460/560 MARKETING RESEARCH 3 credits
Prerequisite: 300. Through lectures, cases, and team projects, students are taught to detect and evaluate actionable forces in the marketplace. Emphasis is placed on investigation appropriate to the economics of the situation.

6600:470/570 SALES ADMINISTRATION 3 credits
Prerequisite: 350 or 360. Advanced consideration of the firm's marketing mix as it is applied to and adjusted to marketing mix as it is applied to and adjusted to marketing objectives and policies and their implementation and control.

6600:480/580 MARKETING CASES AND PROBLEMS 3 credits
Prerequisite: 470 or its equivalent. Detailed case analysis of corporate marketing problems, most of which involve all of the marketing inputs and allied internal and external forces and resources.
6600:490 WORKSHOP IN MARKETING 1-3 credits
Group studies in special topics in Marketing. May not be used to meet undergraduate or graduate major requirements in Marketing. May be used for elective credit only with permission of instructor or department.

6600:499 INDEPENDENT STUDY: MARKETING 1-3 credits
Prerequisite: Permission of the instructor. This course provides a means for individualized in depth study of a marketing problem or problems from which the student can derive significant benefit.

GRADUATE COURSES
6600:600 MANAGERIAL MARKETING 3 credits
Prerequisites: Post baccalaureate status. An assessment of the basic marketing principles involved in business and industry. Required of all non-business undergraduates; may not be selected for Phase III credit.

6600:629 THE INTERNATIONAL BUSINESS ENTERPRISE 3 credits
Prerequisite: 3250:600 or equivalent. This course provides a comprehensive overview of International Business emphasizing the interactions between the multinational environmental setting and the firm's decision making process. Students are assigned specific research topics.

6600:630 INTERNATIONAL MARKETING POLICIES 3 credits
Prerequisite: 600. Within a planning framework, the course explores some of the problems in formulating and implementing multinational marketing strategies emphasizing the resolution of conflict. Students are assigned specific research papers.

6600:650 MARKETING MANAGEMENT AND POLICY 3 credits
Prerequisite: 600. This basic survey stresses company functions in relation to demand and consumer factors, and the cost of operational elements that determine profitable operation. The corporate viewpoint is emphasized.

6600:670 MARKETING PLANNING 3 credits
Prerequisite: 660. In the context of a dynamic domestic marketing environment, students develop extensive marketing plans, both short- and long-run, for a wide variety of businesses, services and institutions.

6600:680 MARKETING THEORY 3 credits
Prerequisite: 600. A course designed to apply those theoretical works from the areas of economics, psychology, sociology and cultural anthropology which have relevance to a general theory of marketing.

6600:690 SEMINAR IN INTERNATIONAL BUSINESS 3 credits
Prerequisites: 629 and a total of 25 Phase II-III graduate credits. This course permits the MBA candidate to independently analyze a significant international business problem culminating in a major paper.

6600:699 SEMINAR IN MARKETING 3 credits
Prerequisite: A total of 25 Phase II-III graduate credits. This cap-stone course permits the MBA candidate to undertake a carefully delineated program of independent study and reading which leads to a finished major paper. (May be repeated for a total of 6 credits.)
7100: ART

7100:100 SURVEY OF HISTORY OF ART I. 4 credits
Architecture, sculpture, painting and the minor arts from Primitive sources through the Gothic time period in Europe.

7100:101 SURVEY OF HISTORY OF ART II. 4 credits
Prerequisite, 100. Architecture, sculpture, painting and the minor arts from the Renaissance through the 1960's, primarily in Western Art. The development of photography and its application as an art form will be integrated into the artistic styles of the Twentieth Century.

7100:105 UNDERSTANDING ART. 3 credits
A study of the uses different societies have found for art and how the social and technological levels of the society have affected the kind of art they make.

7100:121 THREE-DIMENSIONAL DESIGN. 3 credits.
An introduction to the meaning of "design" and the act of designing in real space. A study of naturally occurring form, structure, and process.

7100:131 DRAWING I. 3 credits.
Freehand drawing experience with an orientation to elements and principles of visual organization. Limited media.

7100:144 TWO-DIMENSIONAL DESIGN. 3 credits.
Experimentation with systems for purposeful organization of visual elements on a two-dimensional surface. Study of visual theory including color theory Lecture and studio experience.

7100:191 DESIGN. 2 credits
Basic principles of creative design and color theory. Discussion and studio. No credit toward major or teaching field in art.

7100:213 LITHOGRAPHY 3 credits
Prerequisites, 101, 131, 144, and 231. Use of the lithographic stone and metal plate as printmaking media. Stone and plate preparation, lithographic drawing materials and techniques, paper registration, and the printing press will be covered. Emphasis on aesthetic theory, technique, and related history.

7100:214 SERIGRAPHY. 3 credits
Prerequisites, 101, 131, 144, and 231. Silk screen printmaking. The screen, use of stencil process, positive and negative block-out techniques, photo stencil, registration and printing procedures. Emphasis on aesthetic theory, technique, and related history.

7100:215 RELIEF PRINTING. 3 credits
Prerequisites, 101, 131, 144, and 231. Relief printmaking using found objects, synthetic materials, as well as traditional woodcut and linoleum engraving. Emphasis on aesthetic theory, technique, and related history.

7100:216 INTAGLIO PRINTING. 3 credits
Prerequisites, 101, 131, 144, and 231. Intaglio printmaking using drypoint engraving, aquatint, and soft-ground techniques. Emphasis on aesthetic theory, technique, and related history.

7100:222 INTRODUCTION TO SCULPTURE. 3 credits
Prerequisites, 100, and 124. An introduction to sculpture and its significance as a human endeavor. Exploration of factors influencing a sculptural statement through lecture and studio work.

7100:231 DRAWING II. 3 credits
Prerequisites, 100, and 131. Continuation of Drawing I. In-depth exploration of a wide range of techniques and media. Attention to controlled descriptive drawing and space illusion and their aesthetic applications.

7100:232 INSTRUMENT DRAWING. 3 credits.
The creative uses of mechanical drawing processes for visually descriptive purposes. Proficiency in the use of mechanical drawing instruments is stressed. Both practical and theoretical drawing styles will be undertaken.

7100:233 LIFE DRAWING. 2 credits.
Prerequisite, 131. A study of perceptual problems in drawing from the life model. Study of the skeletal, muscular and mechanical nature of the human figure and the application of this knowledge to the resolution of aesthetic problems.

7100:245 POLYMER ACRYLIC PAINTING. 3 credits.
Prerequisites, 100, 131, and 144. A study of the technical and aesthetic problems involved in polymer acrylic painting. The student will pursue, through lecture and experimentation, the transparent and opaque uses of this water-based paint.

7100:246 WATER COLOR PAINTING. 3 credits.
Prerequisites: 101, 131, and 144. A studio course in the theory and technique of water color painting. A study of traditional transparent water color methods, and experimentation with less conventional approaches to aqueous media.

7100:247 OIL PAINTING. 3 credits.
Prerequisites: 100, 131, and 144. A study of the technical and aesthetic problems involved in oil painting. A painterly orientation toward the plasticity of form as mediated by color.

7100:254 CERAMICS I. 3 credits.
Prerequisites: 100, 121, and 131. A studio/lecture course exploring the potentials of hand building techniques in both sculptural and functional forms. Clay processing, glaze application and practical kiln firing.

7100:266 METALSMITHING I. 3 credits.
Prerequisites: 101, 121, 131, and 144. A studio experience in which the student is introduced to the properties of metals, the processes of silversmithing, and the design and production of jewelry.

7100:268 ENAMELING ON METAL. 3 credits.
Prerequisite: 266. A studio course in which the student investigates the inherent aesthetic qualities of color and texture resulting when molten, colored glass is applied to metal surfaces.

7100:275 PHOTOGRAPHY I. 3 credits
Prerequisites: 100, 131, and (either 144 or 264 or 2240-245). A lecture, studio and laboratory course in which the student studies and experiences fundamental characteristics of photo-sensitive materials, the chemistry of photography, optical systems, and photographic equipment. Photography is studied as an art medium.

7100:283 DRAWING TECHNIQUES. 3 credits.
Prerequisites, 131 and 232. The course includes advanced drawing and presentation techniques commonly used in graphic design. Various presentation and design problems will be encountered stressing the use of selected drawing methods and processes.

The College of Fine and Applied Arts
7100:284 INTRODUCTION TO GRAPHIC DESIGN 3 credits
Prerequisites: 131, and 232. Studio experience in the use of tools and materials of the commercial graphic artist. Elementary design problems in commercial graphic design.

7100:286 COMMERCIAL DESIGN THEORY 3 credits
Prerequisite: 284. A basic course in visual problem solving emphasizing the visual movements in, and the graphic elements of, single as well as multiple images. Equal emphasis is given to existing and created images.

7100:288 LETTER FORM AND TYPOGRAPHY 3 credits
Prerequisite: 286. Letter symbols studied in terms of communication and aesthetic awareness. History of letter forms, hand lettering, alphabet design, contemporary type faces, and reproduction processes.

7100:289 WEAVERING 1 3 credits
Prerequisites: 100, 131, and 144. Warping, threading and manipulation of table and floor looms. Some off-the-loom techniques, yarn dyeing, and experimentation with weights, weights, and colors of yarn.

7100:300 ART SINCE 1945 3 credits
Prerequisites: 101 or permission of the instructor. Consideration of significant developments in visual art forms since World War II in architecture, sculpture, printing, photography, metal, textile, ceramics, printmaking, and graphic design.

7100:302 ART IN EUROPE DURING THE 17TH AND 18TH CENTURIES 3 credits
Prerequisites: 101, or permission of the instructor. An analysis of major European examples of architecture, landscape design, painting, prints and sculpture from the beginning of the 17th century until approximately 1850.

7100:303 RENAISSANCE ART IN ITALY 3 credits
Prerequisites: 101, or permission of the instructor. A study of architecture, painting and sculpture of Italy during the thirteenth through the sixteenth centuries.

7100:304 ART IN EUROPE DURING THE NINETEENTH CENTURY 3 credits
Prerequisite: 101, or permission of the instructor. A study of the significant developments in the visual arts in Europe from 1800 to 1900.

7100:305 ART FROM 1900 TO 1945 3 credits
Prerequisite: 101, or permission of the instructor. A study of the significant developments in the visual arts from approximately 1900 to 1945.

7100:317 PRINTMAKING II 3 credits
Prerequisites: 233, 275, and (either 213 or 214 or 215 or 216 in the appropriate process). A continuation of studio work in printmaking with concentration in one process designated by letter as follows: A. Lithography. B. Serigraphy. C. Relief. D. Intaglio. May be repeated for a total of 12 credits when a different process is indicated.

7100:322 SCULPTURE: MOLDING AND CASTING 3 credits
Prerequisites: 101, 131, 144, and 222. Examination of the relationship of materials and tools to aesthetic decisions. To include studio work with modeling, molding and metal casting. May include other techniques.

7100:323 SCULPTURE: FABRICATION 3 credits
Prerequisites: 101, 131, 144, and 222. Examination of the relationship of materials and tools to aesthetic decisions. To include studio work with wood and metal fabrication. May include other techniques.

7100:331 DRAWING III 3 credits
Prerequisites: 101, 144, 231, and 233. Drawing III continues the concerns of visual organization and technical proficiency with materials begun in Drawing I and II, but places more emphasis upon the use of imagination and development of ideas in drawing.

7100:333 ADVANCED LIFE DRAWING 2 credits
Prerequisites: 231, and 233. Studio course in drawing from the human figure. Individual interpretation of the human figure, using numerous media and drawing techniques. Emphasis upon aesthetic structure and the formal realization of personal intention. May be repeated for a total of 6 credits.

7100:348 PAINTING II 3 credits
Prerequisites: 101, and (either 243 or 246 or 247 in the appropriate medium). A continuation of painting with concentration in one medium designated by letter as follows: A. Polymer Acrylic, B. Water Color, C. Oil. Course may be repeated for a total of 9 credits, but limited to a maximum of 3 credits in a given medium.

7100:354 CERAMICS II 3 credits
Prerequisites: 101, 144, and 254. Wheel throwing of both functional and sculptural form. Experiment in glaze chemistry and firing experience with both gas and electric kilns. Emphasis upon technique, studio procedures, and critical evaluation of each student's progress.

7100:366 METALSMITHING II 2 credits
Prerequisites: 232, and 266. A continuation of experiences presented in the introductory course with a further development of skills and expansion of technical knowledge. May be repeated for a total of 6 credits.

7100:368 ADVANCED ENAMELING 3 credits
Prerequisite: 266. Continuation of enameling on metal. Development of personal aesthetic values. Advanced techniques with metal foils, champleve, cloisonne, limoge, and grisaille processes. May be repeated for a total of 9 credits.

7100:375 PHOTOGRAPHY II 3 credits
Prerequisites: 101, 231, and 275. Projects utilizing photographic media and tools are designed to expand the student's awareness of visual qualities and order, both in the subject and in the photographic image. Student must own or have use of a camera with controllable shutter, lens diaphragm, focus, and exposure meter.

7100:376 PHOTOGRAPHICS 3 credits
Prerequisites: 121, and 375. Photographic media and equipment are used experimentally to produce line conversions, high contrast images, tone separations, shadow reversals and other photo-abstractions.

7100:387 ADS THE MARKETING LAYOUT DESIGN 3 credits
Prerequisites: 275 and 288. Creative exploration of problems in visual merchandising. Projects offer exercises in developing design skills from concept through final comprehensive presentation.

7100:388 ADS PRODUCTION AND DESIGN 3 credits
Prerequisites: 387, and (either 2240:222 or 7100:376). Continuation from Advertising Layout Design. More complex projects with emphasis given to mechanical preparation of finished art for various printing processes.

7100:389 CORPORATE IDENTITY AND GRAPHIC SYSTEMS 3 credits
Prerequisite: 388. Advanced level projects in corporate identity and graphic systems analysis and design. Problem solving for these specific areas of graphic design within mechanical limitations of art reproduction.
7100:350 WEAVING II 3 credits
Prerequisites, 101, 121, 231, and 293. Continuation of Weaving I. Advanced off-the-loom and loom techniques. Spinning. Emphasis on creative and experimental approaches. May be repeated for a total of 9 credits.

7100:400/500 ART IN THE UNITED STATES BEFORE WORLD WAR II 3 credits
Prerequisite: 101 or permission of the instructor. Consideration of the development of art in the United States from earliest evidences to approximately World War II.

7100:401 SPECIAL TOPICS IN HISTORY OF ART 1 to 3 credits
Prerequisites: 100, and 101, or permission of the instructor. A lecture course in which the subject is specified each time the course is offered. Discussion focuses upon an art movement, time period, the production of a single artist, or a specific art medium. May be repeated for credit when a different subject or level of investigation is indicated.

7100:405/505 HISTORY OF ART SEMINAR 1-3 credits
Prerequisite: Fifteen hours in Art History or permission of the instructor. Lecture, individual research and evaluation, group discussion related to a specific time period or to an artistic problem. May be repeated for credit when a different subject is indicated.

7100:418 ADVANCED PRINTMAKING 3 credits
Prerequisites: 121, either 245 or 246 or 247, 317 in the appropriate process, and 375. Lectures, demonstrations, and experiments with more sophisticated printmaking techniques and applications. Concentration in one process designated by letter as follows: A. Lithography, B. Serigraphy, C. Relief, D. Intaglio. May be repeated for a total of 12 credits.

7100:421 THREE DIMENSIONAL DESIGN APPLICATIONS 3 credits
Prerequisites: 121, 232, advanced standing in art, or permission of the instructor. Application of creative designing principles to problems of utilitarian production in human designed and produced items. May include product design/prototype development, furniture design and construction, display design, etc.

7100:422 ADVANCED SCULPTURE 3 credits
Development of individual points of view and sculptural statements. May be repeated for a total of 9 credits.

7100:431 DRAWING IV 3 credits
Prerequisites, 211, 232, and 331. An in-depth study of drawing for the advanced art student. Emphasis upon interpretive and inventive drawing using the widest possible range of media and techniques. May be repeated for a total of 9 credits.

7100:449 ADVANCED PAINTING 3 credits
Prerequisites: 121, 231, 233, and 345 in the appropriate medium. An advanced level painting course. An opportunity to explore polymer acrylic, or oil, or watercolor painting techniques, and experiment with the aesthetics of color, form, and style. Concentration in one medium designated by letter as follows: A. Polymer Acrylic, B. Water Color, C. Oil. May be repeated for a total of 9 credits.

7100:454 ADVANCED CERAMICS 3 credits
Prerequisites: 231, and 354. Emphasis is on refinement of technique toward personal aesthetic statement in preparation for professional or private studio production. Student may choose a general survey of subject matter or a more concentrated area of study. May be repeated for a total of 15 credits.

7100:455 FIBER, CLAY AND METAL SEMINAR 2 credits
Prerequisite: Permission of the instructor. An open format seminar designed to explore ideas in clay, fiber, and metal art through reading, discussion and production.

7100:466 ADVANCED METALSMITHING 3 credits
Prerequisites, 283, and 366. Investigation in-depth of aesthetic and technical problems of metalsmithing. Student works on individual projects under guidance of instructor. May be repeated for a total of 12 credits.

7100:475 ADVANCED PHOTOGRAPHY 3 credits
Prerequisites: 233, 376, and 365:137. Photographic media, light, and photographic equipment are manipulated experimentally to produce creative graphic images. Student works under the instruction of an advanced individual project. Course may be repeated for a total of 12 credits.

7100:480 ADVANCED GRAPHIC DESIGN 3 credits
Prerequisites: 368, or permission of the instructor. Student works on advanced level individual projects under supervision of instructor. May be repeated for a total of 9 credits.

7100:484 ILLUSTRATION 3 credits
Prerequisites: 283 or permission of the instructor. The application of painting and drawing skills and aesthetic sensitivity to specific commercial illustration and editorial art assignments.

7100:485 ADVANCED ILLUSTRATION 3 credits
Prerequisite: 464, or permission of the instructor. Advanced projects are designed to tune the student's personal aesthetic to communicative imagery. A more individual approach to design. Drawing and painting are emphasized as is experimentation with multimedia. May be repeated for a total of 9 credits.

7100:486 PACKAGING DESIGN 3 credits
Prerequisite: 387, or permission of the instructor. Synthesis of two and three dimensional visual thinking. Research in materials applicable to the packaging of various products. Assignment of projects stressing the development of conventional and experimental package design.

7100:488 PUBLICATION DESIGN 3 credits
Prerequisite: 389. Advanced research and design of promotional brochures, annual reports, and other multi-paged commercial print. Emphasis on total design from concept to camera ready art. The student's individual approach to communicative graphics is stressed. Portfolio development.

7100:489 SPECIAL TOPICS IN STUDIO ART 3 credits
Prerequisite: Advanced standing, or permission of the instructor. Group investigation of a particular phase of art which is not offered by other courses in the curriculum. May be repeated for credit when a different subject or level of investigation is indicated.

7100:490/590 WORKSHOP IN ART 1-4 credits
Prerequisite: Advanced standing in Art or permission of instructor. Group investigation of a particular phase of art which is not offered by other courses in the curriculum. May be repeated for credit when a different subject or level of investigation is indicated (490 to maximum of 8 credits, or 590 to maximum of 12 credits).

7100:497 STUDENT PROBLEMS 3 credits
Prerequisite for art majors, advanced standing in area chosen, and permission of the instructor. Prerequisite for non-art majors, permission of the instructor. Investigation in depth of aesthetic and technical problems within a studio-selected area of specialization. Student
must present in writing a proposed study plan and time schedule for instructor approval. Course may be repeated for credit.

7100:498/598 SPECIAL PROBLEMS IN HISTORY OF ART 1-3 credits
Prerequisite: Twenty hours in Art History and permission of instructor and Department Head. Individual research in art history centered around a limited topic, such as a specific time period, the history of specific techniques, a single artist, or a movement in art history. No more than 10 credits will be counted toward major. May be repeated for credit when a different subject or level of investigation is indicated.

7100:499 HONORS IN ART 3 credits
To be used for research in the honors program established by the student and his advisor(s). May be repeated for a total of 9 credits.

7400: HOME ECONOMICS AND FAMILY ECOLOGY

7400:121 TEXTILES 3 credits
Basic study of natural and man-made fibers. Emphasis upon physical properties, selection and care. Attention given to design and manufacture of textiles. Lecture.

7400:123 CLOTHING CONSTRUCTION 3 credits
Basic theory and methods of garment construction including experience with pattern alterations, diverse fabrics, and special construction techniques. 2 hrs. Lecture, 2 hrs. Lab.

7400:132 EARLY CHILDHOOD NUTRITION 2 credits
Emphasis on nutrition as a component of Early Childhood programs. Nutrition principles are discussed in relation to self and young children. Prenatal and infant nutrition is studied. Food as a learning experience, menu planning, purchasing, sanitation, food labeling, storage and parent involvement are included. For Family and Child and Child Development Option, Educational Technology students.

7400:133 NUTRITION FUNDAMENTALS 3 credits
Study of fundamental concepts of nutrition. Nutrients, their sources, metabolism, physiology and interrelationships are emphasized. Requirements at different stages of growth and development are considered.

7400:141 FOOD FOR THE FAMILY 3 credits
Application of nutrition to meal planning; problems in selecting, budgeting and preparing food; table etiquette, meal service. 3 two-hour Labs.

7400:147 HOME ECONOMICS SURVEY 1 credit
Survey of history and development of home economics with emphasis on professional and career opportunities.

7400:158 HOUSE FURNISHINGS 2 credits
An introduction to home furnishings involving topics such as furniture styles, utilization of space, color, lighting, wall coverings, window treatments, floor coverings, furniture arrangement/selection and accessorizing. Lecture-Lab.

7400:159 FAMILY HOUSING 3 credits
A study of housing alternatives related to stages in the family life cycle. Also an overview of the physical aspects of the house: construction financing, insulation, heating/cooling systems, wire, and kitchen design. Lecture-Lab.

7400:201 RELATIONAL PATTERNS IN MARRIAGE AND FAMILY 3 credits
Study of familial interaction in various lifestyles with emphasis on self concept, changing roles, development, tasks, family life cycles and socio-economic and cultural influence upon the individual and family.

7400:204 SURVEY OF APPLIED HOME ECONOMICS IN THE COMMUNITY 1 credit
Directed study and observation of ongoing community and business programs related to home economics and family ecology. Two hours once a week plus class sessions.

7400:218 FAMILY HEALTH AND HOME NURSING 2 credits
Overview of strategies for the generation of positive physical, mental and emotional health across the individual and family life cycles. Emphasis upon preventative strategies as well as home care procedures.

7400:245 BASIC NUTRITION AND FOODS 5 credits

7400:255 FATHERHOOD: THE PARENT ROLE 2 credits
An overview of the development of stereo typed behavior as it affects the father role and his interactive relationship with other family members. Directives for family life education, research, theory and social policy.

7400:265 CHILD DEVELOPMENT 3 credits
Physical, social, mental and emotional development of the child from prenatal through five. Observation of children in child care and preschool centers.

7400:275 PLAY AND CREATIVE EXPRESSION ACTIVITIES 4 credits
Importance of play in the child's social, emotional, intellectual and physical growth. Encouragement of creativity in adults and children thru planned experiences that provide for individual expression.

7400:290 ADMINISTRATION OF CHILD CARE CENTERS 3 credits
Study of principles, concepts, and procedures involved in working with children in preschool programs. Curriculum innovation and implementation, parent involvement, observation and recording of children's progress.

7400:301 CONSUMER EDUCATION 3 credits
Study of consumer needs, concerns and problems as related to the individual consumer, to consumers in the market economy and to the complex society in which families function.

7400:305 ADVANCED CONSTRUCTION AND TAILORING 3 credits
Prerequisite: 121, 123. Advanced theory and principles in the construction of a couture garment. The construction of a coat or suit jacket utilizing custom cutting techniques. 2 hrs. Lecture, 4 hrs. Lab.

7400:311 CONTEMPORARY NEEDLE ARTS 3 credits
Prerequisite: 123 or permission of instructor. Emphasizes use of appropriate textiles, yarns and needles in the creation of various items for purposes of enhancing leisure time or as earning skills. Lec/Lab.

7400:314 INTRODUCTION TO FOOD SYSTEMS MANAGEMENT 4 credits
CVP students only. Introductory course in food systems management with coordinated experiences to identify initial concepts.

7400:316 NORMAL NUTRITION 5 credits
Prerequisites: 245, 3100:191, 3150:130. Composition, metabolism and physiological functions of food nutri-
ents: requirements and interrelating factors affecting nutritional intake throughout the life cycle; interpretation of research findings.

7400:317 HISTORIC COSTUME 3 credits
Chronological study of costume from ancient to modern times as a source of inspiration for contemporary dress and the theater with consideration of cultural forces that affected the development. Lecture.

7400:328 INTRODUCTION TO NUTRITION IN MEDICAL SCIENCE 5 credits
Prerequisite: 316. CUP students only. Implementation of therapeutic health care concepts. The study of nutritional implications of pathological conditions and the construction of diets for specific disorders: Cardiovascular, Gastrointestinal and Endocrine.

7400:340 MEAL SERVICE 2 credits
Prerequisites: 245, 316, (or 133, 141). Management of resources in relation to marketing, meal preparation and service appropriate forms of service for various types of meals. Preparation of foods from various parts of the world.

7400:362 HOME MANAGEMENT THEORY 3 credits
Introduction to management theories, processes and principles as applied to the utilization of human and material resources in the promotion of individual and family well-being.

7400:381 PROMOTIONAL TECHNIQUES: DIETETICS 4 credits
Prerequisite: 316. Techniques for effective oral and written communication of nutrition information to individuals and groups to meet behavioral objectives; evaluation of literature on nutrition; experiences in community facilities providing nutritional services.

7400:385 COMMUNITY INVOLVEMENT IN HOME ECONOMICS 1-3 credits
Development of managerial expertise through experience with the families. Selected participation sites in business and industry, hospitals, community agencies and with individual families with special managerial problems.

7400:401/501 FAMILY LIFE PATTERNS IN THE ECONOMICALLY DEPRIVED HOME 2 credits
Study of family life orientation and life style patterns among the economically deprived with an emphasis on the impact of socio-economic and psychological deprivation on family members throughout the family life span.

7400:412 INSTITUTIONAL MANAGEMENT 2 credits
Principles of organization and management in the administration of food service systems; problems in the control of labor, time and cost. Limited field experience in food production.

7400:414 FOOD SYSTEM MANAGEMENT 10 credits
Prerequisite: 314; CUP students only. Coordination of clinical experiences with advanced concepts in the management of dietetic service systems relating to the achievement of nutritional care goals; preparation for entry-level staff positions.

7400:415 HOUSEHOLD EQUIPMENT 2 credits
Selection, use and care of modern household equipment. Survey of commercial equipment used in home economics related professions.

7400:416 QUANTITY FOOD PREPARATION 4 credits
Prerequisites: 246, 340 (or 2280:123, 136, 230; 3100-207). Scientific principles and methods of preparation for different types of service of food in quality. Use and care of equipment.

7400:419 CLOTHING COMMUNICATION 3 credits
Study of cultural, social, psychological and economic aspects of clothing. Emphasis on expression and use of clothing in relation to self, society and culture. Lec/Disc.

7400:420 EXPERIMENTAL FOODS 3 credits
Prerequisites: 245, 3100:207, 3150:130. A scientific approach to the study of foods under controlled conditions. Group and individual experimentation.

7400:421 SPECIAL PROBLEMS IN HOME ECONOMICS 1-3 credits
Additional study or apprentice experience in a specialized field or preparation; group and individual experimentation.

7400:422 ADVANCED HOME MANAGEMENT 3 credits.
Theoretical and practical experiences are utilized in the study of management processes and principles as applied to families. Management of human and material resources and decision-making processes are emphasized.

7400:426 THERAPEUTIC NUTRITION 4 credits
Application of principles of normal nutrition to diet in order to meet nutritional needs. Practice in writing therapeutic diets and interviewing hospitalized patients.

7400:428 NUTRITION IN MEDICAL SCIENCE 10 credits
Prerequisite: 328; CUP students only. Overview of major areas of diet therapy not covered previously. Coordinates clinical experience and delivery of therapeutic nutritional services in participating agencies.

7400:430 COMPUTER ASSISTED FOOD SERVICE MANAGEMENT 3 credits
Use of computer programs in the application of management concepts for food service systems.

7400:439 FASHION 3 credits
Prerequisite: Junior standing or permission of the instructor. Overview of the fashion industry including growth, promotion and impact of cultural influences. Review of international and American fashion scene. Lec/Disc.

7400:449 DESIGN AND DRAPING 2 credits
Prerequisite: 305. Theory and experience in clothing design utilizing flat pattern and draping techniques. 2 hrs. Lec. 4 hrs. Lab.

7400:450 DEMONSTRATION TECHNIQUES 2 credits
Majors only. Provides practical experience in the organization and presentation of demonstrations. Emphasis on competencies in the coordination of materials, motion and speech in the presentation.

7400:460/560 ORGANIZATION AND SUPERVISION OF CHILD CARE CENTERS 2 credits
Prerequisite: permission of instructor. Theory and principles involved in establishing and operating centers for infants and young children.

7400:480-481 COMMUNITY NUTRITION I, II 4 credits each
Prerequisites: 381 and 380; CUP students only. Major food and nutrition related problems in the community. Emphasis on policies, legislation, program evaluation and rationales for nutrition services. Field experiences.

7400:485/585 SEMINAR IN HOME ECONOMICS 1-3 credits
Prerequisite: permission of instructor. Exploration and evaluation of current developments in selected areas of Home Economics and Family Ecology.
7400:490/590 WORKSHOP IN HOME ECONOMICS AND FAMILY ECOLOGY 1-3 credits
Prerequisite: at least Junior standing. An investigation on a current issue or topic in selected areas of Home Economics and Family Ecology.

**GRADUATE COURSES**

7400:601 FAMILY IN TRANSITION 2 credits
Overview of the family in historical perspective. Effects of social change upon the family and emerging relational patterns. Review of theory, research and educational strategies.

7400:602 FAMILY IN LIFESPAN PERSPECTIVE 2 credits
Study of individual and family development across the lifespan. Emphasis upon the management of available resources, adjustment patterns and inter personal competence. Implications for education, theory, research and social policy.

7400:605 FAMILY: MIDDLE AND LATER YEARS 2 credits
Study of family patterns and problems during the middle and later years of life with emphasis on psychological and biological changes and economic and social adequacy. Research and trends in gerontology.

7400:616 INFANT AND CHILD NUTRITION 2 credits
Prerequisites: 265 and 133 or 316. Study emphasizes current research trends in physiology of the infant and young child in relation to nutritional requirements and feeding practices.

7400:651 FAMILY LAW 2 credits
Study of laws which control and protect individuals within the family unit. Emphasis on current trends and legal rulings. Course taught by an attorney.

7400:660 PROGRAMMING FOR CHILD CARE CENTERS 2 credits
Prerequisites: 265 or permission. Analysis of research and theoretical frameworks regarding infant development from conception through age four. Implications for guidance and education.

7400:665 DEVELOPMENT IN INFANCY 2 credits
Prerequisite: 265 or permission. Analysis of research and theoretical frameworks regarding infant development from conception through age four. Implications for guidance and education.

7400:697 INTERNSHIP IN FAMILY AND CHILD DEVELOPMENT 3 credits
Prerequisite: Permission of advisor. Community-based experience designed to supplement classroom studies. Students work with agency personnel and clientele in programs designed to meet the needs of children and/or families.

7400:699 THESIS 5 credits
Prerequisite: Permission of advisor. Preparation of a thesis pertaining to a selected research project in the area of family or child development.

**7500: MUSIC**

7500:101 INTRODUCTION TO MUSIC THEORY 2 credits
Credit not applicable toward degree for music majors. Course designed to correct deficiencies in background. Includes notation, scales, meter and key signatures, intervals, chord formation and symbols, performance terms and symbols.

7500:104 CLASS PIANO I 2 credits
Prerequisites: 101 or permission of the instructor. Designed for students with no previous keyboard experience to learn rudimentary keyboard skills such as playing scales, chords, arpeggios and melodic patterns as well as simple music.

7500:105 CLASS PIANO II 2 credits
Prerequisites: 104 or permission of the instructor. A continuation of the work begun in Class Piano I.

7500:107 CLASS VOICE I 2 credits
Prerequisites: 101 or permission of instructor. Minimum memorization and solo singing requirement — seven songs. Vocal literature emphasis — folk songs, ballads, spirituals, sacred songs and easy art songs in English.

7500:108 CLASS VOICE II 2 credits
Prerequisites: 107. Minimum memorization and solo singing requirement — eight songs. Vocal literature emphasis — old Italian and English songs, art songs in English or foreign language if the student is conversant with the language.

7500:151-152 THEORY I, II 3 credits each
Prerequisites: 101 or permission of the instructor. Sequential. Study and creative use of the elements of music; investigation of the music of major composers of the classical and romantic eras; introduction to earlier musical practices and contemporary music.

7500:154-155 MUSIC LITERATURE I, II 2 credits each
Sequential. Familiarization with large body of musical material from all branches of music writing; the vocal, instrumental, symphonic, and choral music literature. Special attention given to style, form, and structural procedures of principal composers.

7500:157 STUDENT RECITAL 0 credits
Required each quarter of all music majors. A forum for students and faculty members providing lectures, recitals and the opportunity for practice of various skills necessary for successful music performance.

7500:161-162 SIGHT-SINGING AND EAR TRAINING I, II 2 credits each
Prerequisites: 101 or permission of the instructor. Vocal mastery of major and minor scales; all intervals convenient to the vocal range, broken chords, problems of rhythm, meter, tempo, dynamics, modulation, and part singing.

7500:201 FUNDAMENTALS OF MUSIC 2 credits
Introduction to the fundamentals of music, including basic notation, elementary music reading, ear-training, sight-singing, creativity, and functional piano (for non-music majors).

7500:251-252 THEORY III, IV 3 credits each
Prerequisite: 152. Sequential. Renaissance vocal counterpoint. Baroque instrumental counterpoint: Form and analysis of music of all eras.
7500:254-255 STRING INSTRUMENT TECHNIQUES I, II 2 credits each
Sequential. Learning the fundamentals of technique, tone production, methods, and materials pertaining to the violin, viola, cello, and bass; culminating in heterogeneous string ensemble activities.

7500:261-262 KEYBOARD HARMONY I, II 2 credits each
Prerequisites: 105 or equivalency and 152. Sequential. The essentials of basic theory and harmony practically applied at the keyboard, accompaniment, improvisation, transposition, modulation and sight reading.

7500:283 SERVICE PLAYING FOR ORGANISTS 2 credits
Prerequisite: 152 and 261. A practical course in the basic keyboard skills needed by an organist to play for religious services in various denominations — hymn playing, anthem accompaniment, and simple improvisation.

7500:301 MUSIC APPRECIATION: MUSIC BEFORE 1800 2 credits
7500:302 MUSIC APPRECIATION: 19TH AND 20TH CENTURIES 2 credits
301 and 302 are designed as electives for the general student (the non-music major) to provide an introductory survey of the art of music.

7500:305 MARCHING BAND ORGANIZATION AND TECHNIQUE I 1 credit
Prerequisites: 104 or permission of instructor. All aspects of the band on the field are discussed. Learn to write a complete half-time show, administer a marching band program, etc.

7500:306 MARCHING BAND ARRANGING 2 credits
Prerequisites: 104, 153 or permission of instructor. Learn to arrange music for the marching band including style, sound projection, etc. Will include discussion of scoring for concert band as it relates to the marching band.

7500:307 TECHNIQUES OF STAGE BAND PERFORMANCE AND DIRECTION 2 credits
Prerequisite: Permission of instructor. Provides for basic experiences relating to conducting, rehearsal techniques, improvisation, performance, repertoire, and other matters pertaining to the organization and direction of stage bands.

7500:340 GENERAL MUSIC 3 credits
(Repeatable to 6 credits). Prerequisites: Upper college standing; 200's level of performance in applied major; 155, 162, 262. Introductory and developmental sequence of studies related to skills, techniques and materials appropriate to nonpublic performance music classes in grades K-12. Clinical and field-based experiences; competency evaluation for all students. (Three hours credit required for all students; 3 additional hours credit required for Voice/Keyboard Majors, elected by all others.)

7500:342 WIND-PERCUSSION INSTRUMENT TECHNIQUES 3 credits
(Repeatable to 6 credits.) Prerequisites: Upper college standing; 200's level of performance in applied major; 155, 252, 262. Basic techniques in teaching woodwind, brass and percussion instruments. Development of knowledge and skills on band instruments applied to ensemble, large group and individualized instruction. Clinical and field-based experiences; competency evaluation for all students. (Three hours credit required for all students; 3 additional hours credit required for Instrumental (keyboard) majors, elected by others.)

7500:351-352 MUSIC HISTORY I, II 3 credits each
Prerequisites: 152 and 155. Sequential. Development of music from ancient to modern times; scores, recordings and live performance as illustrative material.

7500:356 MUSIC IN THE TEACHING OF RETARDED AND HANDICAPPED PEOPLE 2 credits
Prerequisite: Permission of instructor. A study of the application of music to the needs of the special person in the public/private school, clinical settings.

7500:358 FUNCTIONAL CLASS GUITAR 2 credits
Prerequisite: Knowledge of music rudiments and permission of instructor. To provide the student in music education with the basic rudiments of guitar playing as it relates to use in music classrooms.

7500:360 CHORAL TECHNIQUES 2 credits
Prerequisites: 152 and 361. Techniques employed in choral conducting; playing, releases, dynamic and tempo changes, voice classification; methods of securing correct intonation; analysis of choral literature; developing and maintaining a choral organization.

7500:361 CONDUCTING 2 credits
Prerequisite: 152. Technique and practice in conducting, including beat patterns, fermatas, tempo change, attacks and releases, score reading through the use of small and large ensembles.

7500:362 CHORAL ARRANGING 2 credits
Prerequisites: 252, 352, or permission of instructor. Designed to provide the student with an understanding of the principles of choral arranging and composition in all idioms and styles.

7500:371 ANALYTICAL TECHNIQUES I 2 credits
Prerequisite: 252. Techniques for the analysis of musical scores from all eras of western music history, with major emphasis placed upon works of the Baroque, Classical and Romantic periods.

7500:372 ANALYTICAL TECHNIQUES II 2 credits

7500:451/551 INTRODUCTION TO MUSICOLOGY 2 credits
Prerequisites: 352. Comparative musicology; acoustics; psychology and physiology of music; aesthetics; theory of music theory; historical musicology.

7500:452 COMPOSITION 2 credits
Prerequisites: 252. Study and creative use of the major styles and idioms of musical composition of the 20th century.

7500:453/553 BIBLIOGRAPHY AND RESEARCH 2 credits
Prerequisites: 352. Examination of all types of published musical materials and publications related to music: methods of research; field trips to specialized collections; writing of research papers in areas of interest.

7500:454 ORCHESTRATION 2 credits
Prerequisites: 252, 255, 354 and 355. Theory of instrumentation ranging from small ensembles to full band and orchestras.

7500:455/555 ADVANCED CONDUCTING 2 credits
Prerequisites: 361 and 454. Baton technique and problems relating to the practice, reading and preparation of scores; organization of orchestra and band, problems in programming and practice conducting larger instrumental ensembles.

7500:460/560 REPERTOIRE AND PEDAGOGY: VOICE 3 credits
Prerequisites: Permission of Instructor. A study in depth of subjects dealing with the teaching of voice; the physiology of the vocal instrument, principles governing vocal production and their application to vocal pedagogy.

7500:481/581 REPERTOIRE AND PEDAGOGY: PIANO AND HARPSICHORD 3 credits
Prerequisites: Permission of the instructor. Designed for the future keyboard teacher. A study of the standard teaching repertoire and practical teaching methods: some supervised teaching of children and/or adults.

7500:482/582 REPERTOIRE AND PEDAGOGY: ORGAN 3 credits
Prerequisite: Permission of Instructor. A survey of organ literature of all eras and styles, and of methods of teaching organ, applying the principles to the literature.

7500:484/584 REPERTOIRE AND PEDAGOGY: WIND AND PERCUSSION INSTRUMENTS 3 credits
Prerequisite: Permission of Instructor. A survey of wind and percussion instrument literature with representative works from the total repertory for each instrument. Principles and methods of teaching and performance.

7500:471 COUNTERPOINT 2 credits
Prerequisite: Permission of Instructor. Designed to give the student of theory-composition the necessary knowledge and skills for understanding the contrapuntal practices and procedures of the 20th century.

7500:472 ADVANCED ORCHESTRATION 2 credits
Prerequisite: 454. The study of techniques of orchestral style as found in major works from the classical orchestra of Haydn and Mozart through the modern orchestra of Stravinsky, Bartok, Berg, and Schoenberg.

7500:490/590 WORKSHOP IN MUSIC 1-3 credits
Prerequisite: Permission of Instructor. Investigation of topics in Music Education, Theory, Composition, History, or Church Music not offered in regular curriculum. Graduate students must fulfill additional requirements.

7500:497 INDEPENDENT STUDY IN MUSIC 1-2 credits
Prerequisites: Senior standing and permission of the head of the department. (May be repeated to a total of four credits.) Music majors only. Independent study under the supervision of specially selected faculty members in a subject area bearing on the student's own goals.

GRADUATE COURSES

7500:601 CHORAL LITERATURE 2 credits
Prerequisite: Permission of instructor. A study in depth of the style, structure, technical demands, manner of setting the text, and special performance problems found in masterworks by the great choral composers of nine centuries.

7500:604 DEVELOPMENT OF OPERA 2 credits
Prerequisite: Permission of instructor. A course dealing with the growth and development of opera from 1600 to the present. Included will be a detailed examination of stylistic and structural changes as well as performance practices.

7500:605 SEMINAR IN MUSIC OF THE MIDDLE AGES AND RENAISSANCE 2 credits
Prerequisite: Permission of instructor. Historical and stylistic analysis of all aspects of the music of the Middle Ages and Renaissance. Research and writing in areas of special interest.

7500:606 SEMINAR IN MUSIC OF THE 17TH AND 18TH CENTURIES 2 credits
Prerequisite: Permission of instructor. Historical and stylistic analysis of baroque and classic music; study in depth of special examples, from recordings and scores, continuation and synthesis of approaches normal to study of music history and music theory.

7500:607 SEMINAR IN MUSIC OF THE 19TH AND 20TH CENTURIES 2 credits
Prerequisite: Permission of instructor. Historical and stylistic analysis of the music of the 19th and 20th centuries; study in depth of specific examples, from recordings, scores, selected readings, and project papers.

7500:608 SEMINAR IN MUSIC OF THE WESTERN HEMISPHERE 2 credits
Prerequisite: Permission of instructor. Designed to develop understanding of the peoples and cultures of the Western Hemisphere through study of the music of each major area. Research and writing in areas of special interest.

7500:609 TECHNIQUES OF 20TH CENTURY COMPOSITION 3 credits
Prerequisites: Permission of instructor. Study of the principal styles of 20th century music by means of background reading of the foremost composers and their compositions, and analysis of the musical procedures and techniques involved.

7500:611 FOUNDATIONS AND PRINCIPLES OF MUSIC EDUCATION 3 credits
Prerequisite: Permission of Instructor. A study of the basic philosophical, historical, sociological and psychological concepts around which public school music programs function.

7500:612 PRACTICES AND TRENDS IN MUSIC EDUCATION 3 credits
Prerequisite: Permission of Instructor. An in depth exploration of innovative practices and trends in music education. Findings of research and practice are related to prevailing situations in public/private school programs.

7500:614 MEASUREMENT AND EVALUATION IN MUSIC 2 credits
Prerequisites: Permission of Instructor. A study and application of the principles of music aptitude, music achievement, and content evaluation. Elementary statistics for music test interpretation and construction are explored.

7500:647 MASTER'S CHAMBER RECITAL 1 credit
Prerequisites: Permission of Instructor. The Composition student will present a recital of chamber music compositions (at least one-half hour in length) written while in residence at The University of Akron. The student will actively organize and coordinate the recital and will also participate either as performer or conductor.

7500:697 ADVANCED PROBLEMS IN MUSIC 1-3 Credits
Prerequisites: Permission of Graduate Advisor. (May be repeated for 8 credits.) Studies or research projects related to problems in music.

7500:699 MASTER'S THESIS/RECITAL 2 credits
Prerequisites: Completion of at least two quarters of graduate work and permission of student's graduate advisor. Thesis or recital credit is taken as appropriate to each student's major option.
7510: MUSICAL ORGANIZATIONS

No fee is charged for enrollment of qualified students in music organizations. Enrollment may be repeated each semester for credit as indicated.

7510:101 UNIVERSITY SINGERS 1 credit
mixed chorus. Membership by audition. Open to any qualified University student. Previous choral experience and knowledge of music reading essential. Campus, regional, and tour performances. Also annual concerts with Akron Symphony Orchestra and Chorus.

7510:102 UNIVERSITY EVENING CHORUS 1 credit
Membership by audition. Prospective members are advised to contact Music Department two weeks prior to beginning of term. Music reading skills and previous choral experience required. Performs with Akron Symphony Orchestra.

7510:103 UNIVERSITY SYMPHONY ORCHESTRA 1 credit
An organization devoted to the study of orchestral literature, presents three full-length programs as well as appearing for special University functions. Membership through auditions.

7510:104 UNIVERSITY BAND 1 credit
Includes the Marching Band (fall semester only, 20 percent tuition reduction), Symphony Band, Concert Band, Varsity Band. Membership open to all University students through audition with the Director of Bands.

7510:105 CHORAL ENSEMBLE 1 credit
Membership by audition. Study and performance of literature for chamber vocal ensemble from all periods of music history. Frequent public concerts. Designed for personnel with good music reading ability and previous choral experience.

7510:106 BRASS ENSEMBLE 1 credit
Membership by audition. Must be a member of the University Band or Orchestra. Study and performance of literature for brass ensemble from all periods of music history. Frequent public concerts. For advanced brass players.

7510:107 STRING ENSEMBLE 1 credit
Membership by audition. In depth study in the performing of chamber music literature with special emphasis on the string quartet and piano trio.

7510:108 OPERA WORKSHOP 1 credit
Membership by audition. Musical and dramatic group study of excerpts from the operatic repertoire. Includes an annual production of a standard opera and/ or contemporary chamber work with staging, costumes, and scenery.

7510:109 PERCUSSION ENSEMBLE 1 credit
Membership by audition. Must be a member of the University Band or Orchestra. Study and performance of literature for various percussion groups. Develop skill in ensemble performance.

7510:110 WOODWIND ENSEMBLE 1 credit
Membership by audition. Must be a member of a major organization. Study and performance of woodwind literature for various woodwind ensembles from all periods. To develop performance skills and knowledge of woodwind literature.

7510:111 CHAMBER ORCHESTRA 1 credit
Membership by audition. An organization designed to study for performance the substantial repertoire for small orchestra. Open to students of advanced ability.

7510:112 MEN'S GLEE CLUB 1 credit
Prerequisite: Permission of instructor. Designed to perform a variety of music written for male voices in ensemble.

7510:113 WOMEN'S GLEE CLUB 1 credit
Prerequisite: Permission of instructor. Designed to perform a variety of music written for female voices in ensemble.

7510:114 KEYBOARD ENSEMBLE 1 credit
Involves three hours a week of accompanying. Keyboard majors are required to enroll for at least three years. Music education majors may substitute another musical organization for one year.

7510:115 JAZZ ENSEMBLE 1 credit
Membership by audition. This ensemble provides experience in jazz ensemble performance. Students are assumed to have knowledge of the rudiments of music and some experience in jazz performance.

7520: APPLIED MUSIC

2 or 4 credits each quarter.

(Undergraduate or Graduate)

Students must contact the Music Department and consult with the applied music instructor before registering for course work.

All music majors must perform annually before an applied music jury on each instrument which he studies privately for credit. The non-music major studying applied music will appear before a jury at the discretion of his private teacher.

Credit is earned on the basis of two credits per quarter for an thirty-minute lesson per week and ninety minutes practice per day. Enrollment may be repeated each quarter for credit.

7520:021. PERCUSSION.
7520:022. CLASSICAL GUITAR.
7520:023. HARP.
7520:024. VOICE.
7520:025. PIANO.
7520:026. ORGAN.
7520:027. VIOLIN.
7520:028. VIOLA.
7520:029. CELLO.
7520:030. STRING BASS.
7520:031. TRUMPET/CORNET.
7520:032. FRENCH HORN.
7520:033. TROMBONE.
7520:034. BARITONE.
7520:035. TUBA.
7520:036. FLUTE/PICCOLO.
7520:037. OBOE/ENGLISH HORN.
7520:038. CLARINET/BASS CLARINET.
7520:039. BASSOON/CONTRABASSOON.
7520:040. SAXOPHONE.
7520:041. HARP/SICHORD.

The above are applied Music courses for students below the minimum level of performance skills ex-
signed for students with limited background in applied
expected for credit at the 7520:100 level or above. De-
signed for students with limited background in applied

satisfaction and/or elective credit in nonmusic
study, who wish to take lessons for their own pleasure,
major programs of study.

7520:121-221-321-421/521. PERCUSSION.
7520:122-222-322-422/522. CLASSICAL GUITAR.
7520:123-223-323-423/523. HARP.
7520:124-224-324-424/524. VOICE.
7520:125-225-325-425/525. PIANO.
7520:126-226-326-426/526. ORGAN.
7520:127-227-327-427/527. VIOLIN.
7520:128-228-328-428/528. VIOLA.
7520:129-229-329-429/529. CELLO.
7520:130-230-330-430/530. STRING BASS.
7520:131-231-331-431/531. TRUMPET OR CORNET.
7520:132-232-332-432/532. FRENCH HORN.
7520:133-233-333-433/533. TROMBONE.
7520:134-234-334-434/534. BARITONE.
7520:135-235-335-435/535. TUBA.
7520:136-236-336-436/536. FLUTE OR PICCOLO.
7520:137-237-337-437/537. OBOE OR ENGLISH HORN.
7520:138-238-338-438/538. CLARINET OR BASS
CLARINET.
7520:139-239-339-439/539. BASSOON OR
CONTRABASSOON.
7520:140-240-340-440/540. SAXOPHONE.
7520:141-241-341-441/541. HARPSICHORD.
7520:142. PRIVATE LESSONS IN MUSIC
COMPOSITION 2 credits. (May be repeated for a total of 12 credits.)
Prerequisite, 253 and 353. Private instruction in com-
position. Primarily offering the students whose concentra-
tion is in theory composition.

GRADUATE COURSES

7520:642. APPLIED COMPOSITION 2-4 credits.
(May be repeated for a total of 12 credits.)
Prerequisite, undergraduate degree with a major in
music. Private instruction in Composition offered pri-
marily for students majoring in Composition at the
graduate level, and graduate students in other areas of
music (music education, performance, history and lit-
erature, etc.) interested in taking Composition lessons.

7600: MASS MEDIA/
COMMUNICATION

7600:141 INTERCOLLEGIATE DEBATE 1 credit
Study and practice of the techniques of contest speech
and debate, including techniques of research and
presentation. Requires participation in the University’s
forensics program.

7600:190 PUBLIC SPEAKING 2 credits
Study and practice in public address, especially audi-
ence analysis and adaptation in the platform speaking
situation. Includes opportunity for performance, indi-
vidual analysis, and criticism.

7600:201 NEWS WRITING 3 credits
Prerequisite: 1100:112. Writing of news stories;
applying theory through discussions, illustrative ma-
terial, actual writing for publication.

7600:202 INTRODUCTION TO JOURNALISM 3 credits
This course considers the whole field of contemporary
American journalism. It attempts to present and ex-
plain the functions of those agencies through which
news and views reach the general public.

7600:203 RADIO AND TELEVISION NEWS WRITING
2 credits
Prerequisite: 1100:112. Principles and practice in the
preparation of radio/television news and document-
aries. Also the fundamentals of electronic news gath-
ering and writing, practice in news delivery and voice
control.

7600:204 EDITING 2 credits
Prerequisite: 201. Copyreading, headline writing,
proofreading, makeup, type and typography, printing
machines and processes, newspaper methods and sys-
tems.

7600:206 FEATURE WRITING 3 credits
Prerequisite: 1100:112. Short newspaper and magazine
articles, preparation of articles for publication, human
interest situations, extensive writing with class discus-
sion.

7600:245 ARGUMENTATION 3 credits
Study of the process of developing, presenting, and
defending inferences and arguments in the oral com-
munication setting. Includes study and practice of
evidence, reasoning, case construction, refutation and
rebuttal.

7600:252 ETHICAL PERSUASION 3 credits
Emphasis on understanding persuasion theory and prac-
tice. Includes information analysis of motivational
appeals and introduction to propaganda analysis.

7600:281 INTRODUCTION TO RADIO AND
TELEVISION 2 credits
Special projects in message design and development
with practical radio and television production experi-
ence.

7600:282 COMMUNICATION MEDIA: RADIO 2 credits
Prerequisite: 281. A study of the history, nature and
function of educational and commercial broadcasting
with practical production experience.

7600:283 COMMUNICATION MEDIA: TELEVISION
3 credits
Prerequisite: 281 or permission. The function, struc-
ture, and influence of television as a communication
medium with practical production experience in
studio.

7600:288 COMMUNICATION MEDIA: FILM 3 credits
The techniques, limitations and potentials of film
production. Students will learn script writing, direct-
ing, lighting, and makeup; practical production experi-
ence in studios and on location.

7600:301 COMMUNICATION MEDIA: PRINT 3 credits
Prerequisite: 201 or permission. An advanced course
in writing and editing news, features and analysis for
the print media. The course will take a behavioral ap-
proach to communication of information and ideas.

7600:303 PUBLICITY WRITING 2 credits
Prerequisite: 201 or permission. This course will
acquaint the student with the functions of public rela-
tions in our society and will explain the basic theories
and principles involved in publicity writing and place-
ment.
7600:309 PUBLICATIONS PRODUCTION 3 credits
Prerequisite: 201. Fundamental course for persons engaged in production of publications. Consideration of a variety of processes for reproducing the printed work including photo-engraving, lithography, letterpress, rotogravure, mimeographing.

7600:310 INTERCULTURAL COMMUNICATION 2 credits
Study of the effect on the oral communication process of the existence of cultural barriers. Includes study of verbal and non-verbal communication in transracial, international, and diplomatic communicative settings.

7600:344 PUBLIC DISCUSSION 3 credits
The principles of effective group discussion and practices inherent to panel presentations, participation in a group of simulations, and interviews found in a variety of situations.

7600:351 SURVEY OF SPEECH COMMUNICATION 3 credits
This course presents the elements of communication and communication systems, including special stress on language, paralanguage, media, interpersonal and public communication.

7600:380 MASS MEDIA COMMUNICATION INTERNSHIP 1-8 credits
(May be repeated for a total of 8 credits.) Prerequisite: permission. Provides the student with supervised experience and on the job training in mass media communications related organizations on and off campus.

7600:383 THE TELEVISION PRODUCER 3 credits
Prerequisite: permission. In-depth study of the role of the producer in the complexities of developing a television program from inception to completion.

7600:384 SPEECH-COMMUNICATION RESEARCH 1-2 credits
The role of mass media as it relates to modern communication theory. Special projects in research.

7600:385 AMERICAN FILM HISTORY: THE BEGINNING TO 1945 3 credits
The purpose of the course is to acquaint the undergraduate student with the historical developments of film and film concepts. This course ends with the films of 1945.

7600:386 AMERICAN FILM HISTORY: 1945 TO THE PRESENT 3 credits
This course continues the student's survey of film history and film concepts begun in 385.

7600:392 SPEECH IN AMERICA 3 credits
A survey and critical analysis of major speakers, speeches, and speech movements in American history. Examines how style and content of American speaking influenced events, and reflected their times.

7600:393 INTERPERSONAL COMMUNICATION 3 credits
Theory and practice in interpersonal communication. Emphasis on communicator apprehension, interpersonal attitudes, non-verbal communication, and listening. Also an introduction to current research in intrapersonal communication—biofeedback and non-instrument assisted self-communication.

7600:410 ORGANIZATIONAL COMMUNICATION 2 credits
The study of large organizational communication principles and practices. Group projects related to several communication problems inherent to organizations (1) inside communication flow, (2) communication outward, (3) incoming information to the organization.

7600:439 MASS MEDIA/COMMUNICATION PRACTICUM 1-12 credits
(May be repeated for a total of 23 credits.) Prerequisite: permission from a Departmental Committee on Special Projects.

7600:445/545 THEORIES OF ARGUMENT AND FORENSICS 3 credits
Prerequisite: 245. Intended for the advanced student of argument. A survey of major theories of argument, including those of Aristotle, Toulmin, and Perelman. Application of the theory of argument to the forensic model will be presented where appropriate.

7600:454/554 THEORY OF GROUP PROCESSES 3 credits
Group communication theory and conference leadership as applied to individual projects and seminar reports.

7600:470/570 ANALYSIS OF PUBLIC DISCOURSE 3 credits
This course identifies the principle textual and contextual elements of public discourse and presents various theories and models to be applied in studying rhetorical acts.

7600:471/571 THEORIES OF RHETORIC 3 credits
Study of key figures in the history of rhetorical theory, stressing the inter-relationships among theories or rhetorical, intellectual climates and social climates.

7600:483 SURVEY OF BROADCAST STATION DEPARTMENTS 3 credits
Prerequisite: 222, 283, or permissions. This course is designed to give the senior student an understanding of the several departments in a radio/television station.

7600:484 REGULATIONS IN MASS MEDIA 3 credits
Concentration on government regulations and self-regulatory bodies in broadcasting, film and the print media.

7600:488/588 CINEMATOGRAPHY 3 credits
This course is designed to give filming experience to selected students. The point of emphasis is on communication through film, color, and sound; not a technical course in camera maintenance.

7600:490/590 MEDIA WORKSHOP 1-3 credits
(May be repeated for a total of 3 credits.) Prerequisite: Advanced standing and permission. Group study or group projects investigating a particular phase of media which is not covered by other courses in the curriculum.

GRADUATE COURSES

7600:601 INTRODUCTION TO QUANTITATIVE RESEARCH IN SPEECH COMMUNICATION 3 credits
Introduces students to basic concepts of the scientific method applied to the social sciences and their specific application to problems of interest to the field of communication and mass media.

7600:606 COMMUNICATION PROBLEMS IN THE BASIC SPEECH COURSE 1 credit
This course is designed to train graduate students in the methods and materials of the introductory speech course. Required of all teaching graduate assistants.

7600:610 SEMINAR IN COMMUNICATION PROBLEMS 3 credits
(May be repeated for a total of 6 credits.) This variable
content seminar examines such areas of concern in communication theory and practice as organizational communication, psychology of the audience, and cross-cultural communication.

7600:671 SEMINAR: RHETORICAL FORMS 3 credits
The study of various periods, forms and functions of discourse in sustaining social order and mediating social change.

7600:675 SEMINAR IN RHETORICAL CRITICISM 3 credits
(May be repeated for a total of 6 credits.) The course is organized around special problems and methods involved in the analysis of different genres, forms and topics of discourse.

7600:676 SURVEY OF RHETORICAL THEORIES 4 credits
Concentrated study and research of ancient, modern, or contemporary writers or on some specific topic in rhetorical theory.

7600:680 SPECIAL PROBLEMS IN COMMUNICATION AND MASS MEDIA 2 credits
(May be repeated for a total of 4 credits.) Problem analysis, investigation and evaluation of a major interest area related to communication theory, the mass media, or interpersonal communication.

7600:681 THEORY OF INTERPERSONAL COMMUNICATION 3 credits
Prerequisite: permission. Detailed analysis of complex systems in persuasion and propaganda, particularly as related to information control.

7600:683 MASS MEDIA RESEARCH SEMINAR 2 credits
A study of experimental design in mass media, its development and use. Students will study the research literature on experiments in mass media.

7600:684 SURVEY OF COMMUNICATION THEORY 3 credits
A study of the dimensions of the field of communication: information analysis, social interaction and semantic analysis.

7600:685 SCHOOL ADMINISTRATOR: COMMUNICATION DESIGN IN THE MASS MEDIA 2 credits
This course is designed to teach the school administrator communication development for the media in order to take full advantage of the potentialities of radio, TV, and films for message impact.

7600:686 STUDIES IN COMMUNICATION MEDIA: RADIO 3 credits

7600:687 STUDIES IN COMMUNICATION MEDIA: TELEVISION 3 credits

7600:688 STUDIES IN COMMUNICATION MEDIA: FILM 3 credits each
Emphasis on production, message design and impact analysis. These courses are designed to give the students an opportunity to experiment with new production and message concepts.

7600:697 GRADUATE RESEARCH IN MASS MEDIA/COMMUNICATION 1-6 credits
(May be repeated for a total of 5 credits.) Prerequisite: 7600:600 and approval of project prospectus one term prior to undertaking the project. Performance of research on problems found in mass media/communication.

7600:699 RESEARCH AND THESIS 1-6 credits
(May be repeated for a total of 5 credits.) Prerequisite: permission of department head.

7700: SPEECH PATHOLOGY AND AU迪OLOGY

7700:110 INTRODUCTION TO SPEECH DISORDERS 3 credits
An overview of the various types of speech disorders: their incidence, etiology and characteristics. Basic concepts and principles underlying speech pathology.

7700:111 INTRODUCTION TO PHONETICS 2 credits
An introduction to the International Phonetic Alphabet, and an overview of articulatory phonetics.

7700:130 BASES AND STRUCTURE OF LANGUAGES 3 credits
An introduction to the linguistic bases of speech and language: phonological, morphological, syntactical and semantic. Social and psychological variables in the communicative process as they apply to the therapeutic environment will be presented.

7700:140 INTRODUCTION TO AUDIOLOGY 3 credits
Normal anatomy and physiology of the hearing system and the acoustics of hearing. Survey of the field of audiology. The nature of hearing problems.

7700:210 APPLIED PHONETICS 3 credits

7700:211 INTRODUCTION TO SPEECH SCIENCE 2 credits
Study of the anatomical, physiological and physical principles involved in the production, transmission, and reception of the speech signal.

7700:230 SPEECH AND LANGUAGE DEVELOPMENT 3 credits
Prerequisite: 130 or permission. A study of language development including acquisition of comprehension and production of phonology, syntax and semantics. Approaches to the use of language in learning and thinking.

7700:240 AURAL REHABILITATION 4 credits
Prerequisite: 140. Introduction to the philosophy and methods of aural rehabilitation for children and adults. Includes methods of speech reading, auditory training, speech conservation, hearing aid use, and combined visual and auditory approaches.

7700:241 PRINCIPLES OF AUDIOMETRY 3 credits
Prerequisite: 140. Introduction to the psychoacoustic principles which underlie basic audiometric tests; principles of speech audiometry, masking and impedance audiometry.

7700:250 OBSERVATION AND CLINICAL METHODS 1 credit
Prerequisite: 110. Observation of speech and hearing disorders in a variety of clinical settings; introduction to general methods of clinical procedures.

7700:271 LANGUAGE OF SIGNS 1 3 credits
Fundamental expressive and receptive skills in manual communication; introduction to the various sign systems; the philosophy of total communication and orientation to aspects of deafness; conversational sign language and developing speed and comprehension of fingerspelling skills. Laboratory.

7700:321 SPEECH PATHOLOGY I 4 credits
Prerequisites: 110 and 210. Study of disorders of articulation, voice and stuttering including etiology, symptomatology, evaluation and therapeutic procedures.

7700:322 SPEECH PATHOLOGY II 4 credits
Prerequisites: 110 & 3100:260. Study of organically based speech disorders: cleft palate, cerebral palsy, aphasia and dysarthria including etiology, symptomatology, evaluation, and therapeutic procedures.

7700:330 LANGUAGE DISORDERS 4 credits
Prerequisite: 230. Etiology, identification, evaluation, intervention, and resolution of symbolic, cognitive and inter-personal language disorders of children are viewed. Disorders are viewed as correlates or sequelae of central nervous system dysfunction or emotional disturbance.

7700:340 AUDIOLOGIC EVALUATION 2 credits
Prerequisite: 241. The "test battery" approach to audiometry is explored; techniques of case finding and handling of difficult-to-test cases; competency with all tests in the battery is required.

7700:350 CLINICAL PRACTICUM: ARTICULATION 1 credit
Prerequisite: 321. Supervised clinical practicum in Articulation. Emphasis will be upon therapy procedures, diagnostic techniques and preparation of reports.

7700:351 CLINICAL PRACTICUM: LANGUAGE 1 credit
Prerequisite: 331. Supervised clinical practicum in language. Emphasis will be upon therapy procedures, diagnostic techniques, and preparation of reports.

7700:352 CLINICAL PRACTICUM: AURAL REHABILITATION 1 credit
Prerequisite: 240. Supervised clinical practicum in hearing rehabilitation. Emphasis will be upon therapy procedures, diagnostic techniques, and preparation of reports.

7700:370 LANGUAGE OF SIGNS II 1 credit
Prerequisite: 271 or permission of instructor. Advanced work in signs and finger-spelling with emphasis upon additional sign vocabulary acquisition and development of expressive and receptive skills. Stress is on continued skill building in conversing with deaf adults.

7700:430/530 ASPECTS OF NORMAL LANGUAGE DEVELOPMENT 3 credits
Prerequisites: (May not be taken by majors in Speech Pathology and Audiology.) An introduction to the acquisition, and development of comprehension and production of language-phonologically, semantically and syntactically. Course also relates language acquisition to the perceptual development of the child and looks at the function of language in the individual, family, and school.

7700:450 INTRODUCTION TO SPEECH AND HEARING DIAGNOSTICS 3 credits
Prerequisite: Senior Status. A general introductory course devoted to a discussion of the role of the speech and hearing clinician in differential diagnosis. Special emphasis is placed on case history taking, and the administration of standardized and informal procedures in the diagnosis of communicative disorders.

7700:451 CLINICAL PRACTICUM: HEARING DIAGNOSIS 1 credit
Prerequisite: 340. Supervised clinical practicum in hearing diagnostics. Emphasis will be upon diagnostic procedures and preparation of reports.

7700:460/560 SPEECH AND HEARING DISORDERS IN THE PUBLIC SCHOOLS 2 credits
Nature, causes and treatment of speech, hearing, and language disorders in public schools. Special reference to the role of the classroom teacher in identifying and referring students with suspected problems and in working with the school clinician.

7700:461 ORGANIZATION AND ADMINISTRATION: PUBLIC SCHOOL SPEECH AND HEARING PROGRAMS 2 credits
Prerequisite: Senior standing; open to majors in Speech Pathology and Audiology only. This course is designed for the speech and hearing clinician who plans to work in the public school system. It covers the following areas with particular reference to the public school setting: case selection; scheduling, individual and group therapy; in-service training for classroom teachers; parent counseling; and certification and program standards as set up by the Department of Education in the State of Ohio.

7700:480 SEMINAR IN COMMUNICATIVE DISORDERS 2 credits
Prerequisite, senior standing. This course provides a vehicle for detailed study and discussion of the various communicative disorders.

7700:481 SPECIAL PROJECTS 1-3 credits
(May be repeated for a total of 4 credits.) Prerequisite: Permission of the Instructor. Individual or group projects related to any of the problems of communicative disorders.

7700:483/583 COMMUNICATION DISORDERS: GERIATRIC POPULATION 3 credits
An examination of the communication disorders that exist in the geriatric population. Focus will be on etiology, symptomatology, and concomitant rehabilitative procedures. This course is designed for the student interested in the aging population and is not open to majors in speech pathology and audiology.

7700:490/590 WORKSHOP: COMMUNICATIVE DISORDERS 1-3 credits
(May be repeated for a maximum of 10 credits.) Prerequisite: Permission. Group investigation of a particular phase of speech pathology and/or audiology which is not offered by other courses in the curriculum.

7700:495 INTERNSHIP: SPEECH PATHOLOGY AND AUDIOLOGY 3-6 credits
Prerequisite: Permission of Director of the Speech and Hearing Center. This course affords an opportunity for indepth clinical experience in a variety of clinical settings outside The University of Akron Speech and Hearing Center. The student is afforded on-the-job experience with specialized case populations.

GRADUATE COURSES

7700:501 ADMINISTRATION AND SUPERVISION IN SPEECH AND HEARING PROGRAMS 4 credits
Prerequisite: Permission of Instructor. The organization and management of speech and hearing programs in voluntary and official agencies. Philosophy and methodology in the supervision of speech and hearing services.

7700:610 INSTRUMENTATION IN SPEECH PATHOLOGY AND AUDIOLOGY 2 credits
Principles and use of clinical and research instrumentation in speech and hearing.

7700:611 RESEARCH METHODS IN COMMUNICATIVE DISORDERS 1-3 credits
Introduction of experimental design in the field of communicative disorders.

7700:612 RESEARCH METHODS IN COMMUNICATIVE DISORDERS II 2 credits
Prerequisite: 611. Advanced experimental methods; development of a research study.
7700: 620 ARTICULATION 2 credits
Historical background, current theories, and research related to the etiology, diagnosis, and treatment of articulatory disorders.

7700: 621 COMMUNICATIVE DISORDERS IN CLEFT PALATE 2 credits
Historical background, current theories and research related to the etiology, diagnosis and treatment of cleft palate.

7700: 622 COMMUNICATIVE DISORDERS IN MENTAL RETARDATION 2 credits
Historical background, current theories and research related to the etiology, diagnosis, and treatment of cerebral palsy.

7700: 623 COMMUNICATIVE DISORDERS IN CEREBRAL PALSY 2 credits
Historical background, current theories and research related to the etiology, diagnosis and treatment of adult aphasia.

7700: 624 APHASIA 2 credits
Historical background, current theories and research related to the etiology, diagnosis and treatment of adult aphasia.

7700: 625 COMMUNICATIVE DISORDERS OF CHILDREN 2 credits
Oral and aural language deviations; their etiologies, pathologies and remediation.

7700: 626 VOICE PATHOLOGY 2 credits
Prerequisites: Permission of Instructor. Background and current research related to the etiology, diagnosis and therapy for various disorders of voice.

7700: 627 STUTTERING: THEORIES AND THERAPIES 3 credits
Reading and discussion of selected theories and therapies related to stuttering.

7700: 628 TOPICS IN DIFFERENTIAL DIAGNOSIS OF SPEECH AND LANGUAGE DISORDERS. 2 credits
(May be repeated for a total of 4 credits.) Prerequisite: Permission of Director of Speech and Hearing.

7700: 629 TOPICS: SPEECH PATHOLOGY AND AUDIOLOGY 2 credits
Prerequisites: Permission of Instructor. Selected current topics in clinical and/or experimental areas of speech pathology, audiology, or language. Emphasis on review of current and historical literature.

7700: 638. SEMINAR IN LANGUAGE AND SPEECH OF THE HEARING IMPAIRED 2 credits
Study of the development of language and speech in hearing impaired children, emphasizing a psycholinguistic approach, and means of intervention; study of the communicative processes of hearing impaired adults; the effect of conditions of minimum auditory stimulation and acoustic feedback on speech and language; methods of speech conservation.

7700: 639 ADVANCED CLINICAL TESTING 4 credits
Theoretical basis for pure tone, speech tests, masking and acoustic impedance measurements. Review of classical and current literature relative to above tests.

7700: 640 SPECIAL TESTS/MEDICAL AUDIOLOGY 4 credits
Prerequisite: 639 or permission of instructor. Underlying psychoacoustic principles of administration and interpretation of site-of-lesion tests. Relationship between otology and audiology; the application of clinical audiology in a medical environment.

7700: 641 AMPLIFICATION 3 credits
Prerequisite: 639 or permission of instructor. Components of amplification system; methods of evaluating hearing aid performance.

7700: 642 PEDIATRIC AUDIOLOGY 2 credits
Prerequisite: 639 or permission of instructor. Etiology of hearing loss in children; techniques for testing pre-school and school-age children and other difficult to test clients.

7700: 643 INDUSTRIAL AUDIOLOGY 2 credits
Prerequisites: 639 or permission of instructor. Theoretical principles of noise measurement; etiology of noise induced hearing loss and acoustic trauma; industrial hearing conservation programs; Occupational Safety and Health Act (OSHA) Regulations.

7700: 644 AURAL REHABILITATION 4 credits
Prerequisite: Permission of Instructor. Review of current methodologies employed in aural rehabilitation of children and adults, as well as current and potential areas of research.

7700: 647 EXPERIMENTAL AUDIOLOGY 2 credits
Prerequisite: 6 graduate audiology credits or permission of instructor. Principles of psychoacoustics. Review of instrumentation and research techniques. Study of significant literature in the field.

7700: 650 ADVANCED CLINICAL PRACTICUM: DIFFERENTIAL DIAGNOSIS 1 credit
Supervised clinical practicum diagnostic procedures.

7700: 651 ADVANCED CLINICAL PRACTICUM: VOICE 1 credit
Supervised clinical practicum in the rehabilitation of voice disorders.

7700: 652 ADVANCED CLINICAL PRACTICUM: FLUENCY 1 credit
Supervised clinical practicum in the rehabilitation of disorders of fluency.

7700: 653 ADVANCED CLINICAL PRACTICUM: APHASIA 1 credit
Supervised clinical practicum in the rehabilitation of aphasia.

7700: 654 ADVANCED CLINICAL PRACTICUM: AUDIOLOGY 1 credit
Supervised clinical practicum in hearing diagnostics and aural rehabilitation.

7700: 655 EXTERNSHIP: SPEECH PATHOLOGY AND AUDIOLOGY 2-4 credits
(May be repeated for a total of 4 credits.) Clinical practicum in a selected area center.

7700: 657 SPECIAL PROBLEMS: SPEECH PATHOLOGY AND OR AUDIOLOGY 1-3 credits
(May be repeated for a total of 6 credits.) Prerequisite: Permission of Instructor. Guided research or reading in selected topics in speech pathology, audiology or language disorders.

7700: 659 RESEARCH AND THESIS 2 credits
(May be repeated for a total of 6 credits.) Prerequisite: Permission of the Department Head.

7750: SOCIAL WORK

7750: 270 POVERTY IN THE UNITED STATES 3 credits
A survey of the social and personal dimensions of life
in the inner city and other areas of poverty in the United States. For persons wishing to develop an indepth understanding and/or intending to work in such areas.

7750:490/590 SOCIAL WORK WORKSHOP 1-3 credits
A survey of the field of Social Welfare and the place of the Social Work profession within the human services institutions of the U.S. Introduction of basic concepts relating social welfare institutions and social work to our society.

7750:401/501 SOCIAL WORK PRACTICE I 3 credits
Prerequisite: 276 or permission. Basic concepts and methods of Social Work practice, particularly relating to understanding and working with individuals and families.

7750:402/502 SOCIAL WORK PRACTICE II 3 credits
Prerequisite: 276 or permission. Concepts and methods of Social Work practice particularly relating to understanding and working with groups in various settings in our society.

7750:403/503 COMMUNITY ORGANIZATION 3 credits
Prerequisite for 403, 276 or permission; for 503, permission. Development of understanding and practice methods for utilization of Community Organization and Social Planning as a Social Work process in assessing problems and developing program to meet needs.

7750:421 FIELD EXPERIENCE SEMINAR I 1 credit
Corequisite: 496, prerequisite: 401 and permission. Careful examination and integration of academic understanding and professional methodological studies into professional practice. Required in any semester in which a student is enrolled in 420.

7750:450/550 SOCIAL NEEDS AND SERVICES FOR LATER ADULTHOOD AND AGING 3 credits
Prerequisite: 276 or permission. Application of the knowledge and principles of professional Social Work practice to understanding, development and provision of social services to meet needs of aging and later maturity individuals, families and communities and the institutions serving them and their relatives.

7750:451/551 SOCIAL WORK IN CHILD WELFARE 3 credits
Prerequisite: 276 or permission. In-depth exploration of the structure and functioning of social services designed to help children, and of the practice of Social Work in child welfare settings. Consideration of (1) supportive service, (2) supplementary services, and (3) substitutive services.

7750:452/552 SOCIAL WORK IN MENTAL HEALTH 3 credits
Prerequisite: 276 or permission. Issues, organization, development and methodologies of current professional Social Work practice in mental health settings.

7750:480/580 SPECIAL TOPICS IN SOCIAL WORK AND SOCIAL WELFARE 1-3 credits
Prerequisite: 401 and permission of the instructor. Analysis of current Social Work and social welfare theory and policy, settings, innovative interventions and trends in delivery systems in relation to selected areas of concern. Topics and credits variable.

7750:490/590 SOCIAL WORK WORKSHOP 1-4 credits
(May be repeated for a maximum of 6 credits.) Prerequisite: permission of the instructor. Group investigation of a particular phase of Social Work or Social Welfare which is not offered by other courses in the curriculum.

7750:495 FIELD EXPERIENCE IN A SOCIAL AGENCY 2-8 credits
(2 credits minimum and 8 credits maximum total in consecutive semesters only.) Corequisite: 421, prerequisite: 401 and permission. Individual placement in selected community and social service agencies for supervised experience with individuals, groups and communities in family service, health care, corrections, community development, mental health, child welfare, public welfare, and similar social welfare settings. Student must enroll in 421 concurrently. Student must register intent and receive permission to take the course with the course instructor during the early part of the quarter preceding enrollment. For senior majors in Social Work.

7750:497/597 INDIVIDUAL INVESTIGATIONS IN SOCIAL WORK AND SOCIAL WELFARE 1-3 credits
Prerequisite: permission and prearrangement with the instructor. Individual readings, research or projects in an area of interest in social welfare theory or institutional operations or in Social Work practice under the guidance of a Social Work faculty member. Preparation of a report paper appropriate to the nature of the topic. For Social Work majors.

GRADUATE COURSES

7750:673 CONTEMPORARY SOCIAL WORK APPLICATIONS 3 credits
Contemporary Social Work concepts and methods compared and applied in various social welfare, community service, educational and health settings. Particularly useful for Professionals from related fields, and for advanced practitioners.

7800: THEATRE ARTS AND DANCE

7800:116 BALLET ANALYSIS I 3 credits
Required of all Ballet majors in their freshman year. A lecture and laboratory course designed to prepare the dancer to understand his/her body and its function in the technique class, as student and future teacher or performer.

7800:117 BALLET ANALYSIS II 3 credits
Prerequisite: 116 or permission. A continuation of Ballet Analysis I.

7800:122 BALLET TECHNIQUE I 5 credits
(May be repeated for a total of 10 credits.) Prerequisite: permission. The theory and practice of ballet, stressing fundamentals of vocabulary, structure and placement.

7800:124 INTRODUCTION TO BALLET 2 credits
(May be repeated for a total of 4 credits.) Designed for students with little or no previous experience or training. This is a course in the basic exercises of classical ballet with emphasis on body placement, rhythmic and muscular awareness.

7800:126 CHOREOGRAPHY: IMPROVISATION 2 credits
An experiential approach leading to the rediscovery of unstructured movement. The emphasis will be toward inner space and textures as materials for later structures.
7800:127 CHOREOGRAPHY: ESTABLISHED FORMS
2 credits
Prerequisite: 126 or permission. A study and practical application of choreographic principles recorded by earlier masters (Horst, Humphrey, Cunningham, etc.) as they apply to concert dance today.

7800:175 ORAL INTERPRETATION I 3 credits
Oral interpretation of the printed page with special emphasis on individual performance of poetry and prose fiction.

7800:222 BALLET TECHNIQUE II. 5 credits
(May be repeated for a total of 20 credits.)
Prerequisite: 122 or permission. Continuation of Ballet Technique I, expanding upon vocabulary and established patterns of balletic movement.

7800:224 FUNDAMENTAL BALLET TECHNIQUE 3 credits
(May be repeated for a total of 6 credits.)
A continuation of Introduction to Ballet designed as a bridge between that course and Ballet Technique I. Emphasis on perfecting the basic vocabulary of the Barre and developing strength.

7800:226 CHOREOGRAPHY: SOUND AND MOVEMENT I 2 credits
An introduction to music structures and their applicability to dance structure. Emphasis on rhythm (simple music notation and score comprehension) and linear aspects of dance/music as well as texture, contrast and parallelism.

7800:227 CHOREOGRAPHY: SOUND AND MOVEMENT II 2 credits
Prerequisite: 127. A continuation of Choreography: Sound and Movement I.

7800:229 CONTEMPORARY DANCE TECHNIQUE I 2 credits
(May be repeated for a total of 4 credits.)
Prerequisite, Ballet Technique I or permission. An introduction to contemporary movement styles. For Ballet Majors or dancers with equal training.

7800:250 VOICE TRAINING FOR SPEECH AND THEATRE ARTS 1 credit
Prerequisite: permission. The focus of this course will be on the safe and most effective uses of the vocal instrument in its specific application to the stage, the platform, radio, television and films. Laboratory hours required.

7800:261 INTRODUCTION TO THEATRE 3 credits
Section I—Play production, involving projects relative to University Theatre productions. Section II—Theatre, stage, dance, film, television, with frequent attendance at variety of productions. When only one section is offered during any term, the course content will be adapted to the specific needs of the students enrolled.

7800:262 STAGE MAKEUP 2 credits
A study of the basic principles of stage makeup, from character analysis to the execution of a makeup plan. Laboratory hours required.

7800:263 SCENE PAINTING 1 credit
Introduction to basic equipment and techniques of scene painting. No particular artistic skills required of prospective students. Laboratory hours required.

7800:265 BASIC STAGECRAFT 3 credits
Content includes basic aspects of stagecraft in terms of production: the stage and its equipment; construction and handling of scenery; theatrical hardware. Laboratory hours required.

7800:271 DIRECTING I 2 credits
Prerequisite: 261. Emphasized are the fundamentals of play directing, including responsibilities of the director, stage nomenclature, play selection, character analysis and rehearsals. The one-act form is stressed.

7800:275 ORAL INTERPRETATION II 3 credits
Prerequisite 175. Oral interpretation from the printed page, with special emphasis on group performance of literature.

7800:320 DANCE NOTATION 2 credits
A beginning study of the Labanotation Method of recording movement both as reading skill and a means of increasing one's perception of movement per se. The goal would be to prepare the student to the level of passing the beginning examination of the Notation Bureau.

7800:322 BALLET TECHNIQUE III. 5 credits
(May be repeated for a total of 30 credits.)
Prerequisite: 222 and permission. Continuation of Ballet Technique II with an emphasis on development of style and line.

7800:329 CONTEMPORARY DANCE TECHNIQUE II 2 credits
(May be repeated for a total of 4 credits). Prerequisite: Contemporary Dance Technique I or equivalent and Ballet Technique II. An advanced course in Contemporary technique.

7800:362 ADVANCED STAGECRAFT 3 credits
Prerequisites: 265. Content includes backstage organization and management in terms of production staff; three-dimensional scenery construction and rigging problems. Laboratory hours required.

7800:364 INTRODUCTION TO STAGE DESIGN 3 credits
Introduction to basic design principles and drawing techniques for the design of stage scenery. Ability to draw not a prerequisite, but an understanding of basic stagecraft is necessary.

7800:366 ADVANCED STAGE DESIGN 3 credits
Focuses on advanced design problems involving designing multi-set productions, unusual staging methods, and specific historical periods. Understanding of basic design principles necessary. Laboratory hours required.

7800:367 HISTORY OF THEATRE: GREEK-ELIZABETHAN 4 credits
Prerequisite: 261 or permission. Development of theatre in ancient Greece and Rome, the Medieval period, and the Renaissance, with emphasis on the culture of each period, dramatists, plays, stage conventions, and theatre architecture.

7800:368 HISTORY OF THEATRE: RESTORATION TO PRESENT 4 credits
Prerequisite: 7800:261 or permission. Development of theatre from the English Restoration, 18th and 19th Century, to the modern period with emphasis on the culture of each period, dramatists, stage conventions, set designs, and theatre architecture.
7800:370 THE AMERICAN THEATRE: PLAYS, PLAYERS AND PLAYWRIGHTS 3 credits
A study of the American Theatre, from its beginning in the 17th Century to the present, with emphasis on achievements in the 20th Century.

7800:371 DIRECTING II 2 credits
Prerequisite: permission. An advanced course in the principles and techniques of staging plays from past periods, as well as modern plays requiring stylized treatment.

7800:372 ACTING I 2 credits
Prerequisite: 250 and 261. An introduction to the fundamentals of improvisation, mime, and basic stage movement.

7800:373 ACTING II 2 credits
Prerequisites: 372. An extension of acting techniques in Acting I to include stage terminology, analysis of character and structure in one-act forms, with an emphasis on development of short scenes in class.

7800:374 ACTING III 2 credits
Prerequisite: 373 and permission. An introduction to advanced acting techniques required in classic plays and modern dramas. This performance course places special emphasis on stylized acting techniques, as well as on dialects.

7800:376 THEATRE ORGANIZATION AND MANAGEMENT 2 credits
Prerequisite: 261. A study of the successful organization and management of the nonprofessional theatre operation.

7800:377 THEATRE LABORATORY 1 credit
Prerequisite: permission of Director of Theatre. This course is designed to give students credit for practical work done in actual University Theatre productions. Those enrolled will have weekly discussions with the Theatre Staff about their work.

7800:422 BALLET TECHNIQUE IV 5 credits
(May be repeated for a total of 40 credits.)
Prerequisite: 322 and permission. Professional level of ballet technique.

7800:423 HISTORY OF THE DANCE 2 credits
A survey of the most important developments in the dance from prehistory to the Renaissance.

7800:424 TWENTIETH CENTURY DANCE 2 credits
Prerequisite: Ballet Major and permission of Instructor. An investigation of the many different styles and techniques of today's dance and their influence on present-day choreography Diaghileff to now.

7800:425 DEVELOPMENT OF BALLET 2 credits
Ballet origins from Italy to France with various influences through the court of Louis XIV through the Diaghileff era of today. Each student will do a project in a special area and present it for class discussion. The emphasis will be on technical and choreographic evolution with regards for developments in other art forms as well as socioeconomic change. Renaissance to Diaghileff.

7800:426 TECHNIQUES OF TEACHING BALLET I 2 credits
Prerequisite. Ballet Major and permission of Instructor. A lecture course combined with practical work in the classroom, in the basic principles of teaching classical ballet, with emphasis on elementary training.

7800:427 TECHNIQUES OF TEACHING BALLET II 2 credits
Prerequisite: 426. A continuation of 426, with more emphasis on teaching and practical work.

7800:430 CRITICISM OF THE PERFORMING ARTS 2 credits
Prerequisite: 330 and permission. After a preliminary discussion of methodology for written criticism, the student, in cooperation with various critics, actually participates in writing criticisms in several areas of the performing arts.

7800:431 SPEECH AND THEATRE ARTS PRACTICUM 1-12 credits
(May be repeated for a total of 23 credits.)
Prerequisite: Permission from a Departmental Committee on Special Projects.

7800:460/560 DRAMATIC CRITICISM 3 credits
Prerequisites: 367, 368 or permission. Detailed study of the major documents of dramatic criticism with special emphasis on the relevance of criticism today.

7800:462/562 PLAYWRITING 2 credits
Prerequisite: permission. Principles of dramatic construction learned through an analysis of the playwright's art, as well as through the writing of dramatic compositions by the individual student.

7800:464 STAGE LIGHTING 2 credits
Covers history, theory, and practices of stage lighting. Areas studied include: color theory, electricity and electrical safety, and dimming control systems.

7800:466/566 ADVANCED PROBLEMS IN LIGHTING 2 credits
Prerequisite: 464. A study of problems confronting the advanced lighting designer and technician.

7800:467/567 CONTEMPORARY THEATRE STYLES 3 credits
A study of contemporary theatre from the emergence of modern drama in the 19th Century through a reading list of representative plays, with special emphasis on departures from realism.

7800:468/568 CHILDREN'S THEATRE 3 credits
A study of theatre for the child audience. Play selection, set design and construction, acting, directing. A full-length play for children, produced by the class, culminates the course.

7800:490/590 WORKSHOP IN THEATRE ARTS/DANCE 1-3 credits
(May be repeated for a maximum of 8 credits.) Prerequisite: Advanced standing or permission. Group study or group projects investigating a particular phase of theatre arts or dance which is not covered by other courses in the curriculum.

GRADUATE COURSES

7800:600 INTRODUCTION TO GRADUATE STUDIES IN SPEECH AND THEATRE ARTS 1 credit
A study of the basic research methods used in Speech and Theatre Arts. Students will present oral seminar reports and written research papers to indicate competence in the several research methods.

7800:636 SPECIAL PROBLEMS IN ORAL INTERPRETATION 2 credits
Prerequisite: Permission. A theory and performance course centering upon the interpretation of a variety of literary forms both individually and in a group.

7800:641 PROBLEMS IN DIRECTING 3 credits
An advanced directing course, with special emphasis on the staging of complex plays from all periods of drama.
7800:642 PROBLEMS IN CONTEMPORARY ACTING
3 credits
A study of problems confronting the advanced actor in such areas as style, environmental theatre, mixed media, nonverbal productions and participatory theatre.

7800:660 ADVANCED TECHNICAL THEATRE
2 credits
Detailed problems in mounting plays on secondary school, university, and professional stages.

7800:663 SEMINAR: AMERICAN THEATRE
2 credits

7800:664 SEMINAR: COMMEDIA DELL'ART
2 credits

7800:665 SEMINAR: THEATRE AUDIENCES
2 credits

7800:666 INTRODUCTION TO ARTS MANAGEMENT
2 credits
An examination of efficient and practical arts management, with an emphasis on theatre operations. Individual projects and lectures by experts in the field highlight the course.

7800:667-668-669 STUDIES IN DRAMATIC PRACTICE
Detailed and selective studies in the theatre, with emphasis on dramaturgy, social influences on theatre, auditoria and staging areas, technical elements and acting techniques.

7800:667 PRE ELIZABETHAN THEATRE 2 credits

7800:668 THEATRE: ELIZABETHAN THROUGH 18TH CENTURY 2 credits

7800:669 THEATRE: 19TH AND 20TH CENTURIES 2 credits

7800:697 GRADUATE RESEARCH IN THEATRE ARTS
1-6 credits
(May be repeated for a total of 6 credits.)
Prerequisite: 600 and approval of project prospectus one term prior to undertaking the project. Performance of research on problems found in theatre arts.

7800:699 RESEARCH AND THESIS 1-6 credits
(May be repeated for a total of 6 credits.)
Prerequisite: permission of department head.
The College of Nursing

8200: NURSING

8200:100 INTRODUCTION TO NURSING 1 credit
This course is designed to introduce the student to nursing. Emphasis is placed on the historical perspective as a basis for modern trends in the profession of nursing.

8200:200 NURSING THEORIES AND CONCEPTS 5 credits
Prerequisite: 100. This course is designed to demonstrate the relationship of the relevant concepts and theories from the various sciences with man's interaction with the ecosystem. The focus is to relate these theories and concepts to the practice of nursing in the health care system utilizing a scientific research approach.

8200:273 GENERAL NURSING 5 credits
Prerequisites: 3750:141, 3850:100, 3150:129, 130 and permission. The course is designed to assist the student in formulating basic nursing principles and methods into nursing practice. Laboratory.

8200:274 GENERAL NURSING 5 credits
Prerequisites: 273, 3100:130, 361 and permission. Designed to prepare students for further study and practice of nursing science. Laboratory.

8200:276 NURSING PRACTICUM 3 credits
Prerequisites: 273, 274 and permission. Opportunities are provided for the student to make application of theory from 273, 274 in the clinical laboratory. Included is a seminar where the student compares and contrasts basic concepts and applies them to the nursing process. Laboratory.

8200:278 COLLOQUIUM FOR R. N. STUDENTS 3 credits
Prerequisites: Course to be taken before challenging nursing courses. Provides opportunity for discussion and application of concepts, professional identity, accountability and responsibility, wellness-illness continuum, therapeutic communication, and teaching-learning process. Utilizes the nursing practice as a problem-solving methodology for providing health care. The research process integrated through an independent study.

8200:300 NURSING PROCESS APPLIED TO MAN'S ADAPTATION IN HEALTH 12 credits
Prerequisite: 200. This course is designed to focus on healthy man's adaptation throughout man's life cycle. Emphasis will be placed on his interactions within an ecosystem approach. Nursing process is used to view this approach as holistic man's adaptation.

8200:310 CULTURAL DIMENSIONS OF NURSING CARE 2 credits
Prerequisites: 3750:130, or permission. Application of cultural concepts in the delivery of nursing care to individuals, families, and communities. Exploration of attitudes, values and beliefs in relation to health and illness. Transition to health practice in a multicultural society will be the focus.

8200:315 NURSING PATHOPHYSIOLOGY 2 credits
Prerequisites: 274 or permission. A broad overview which develops an understanding of disease as a disturbance of normal physiologic processes. This course is built upon the basic care of nursing and continues to address the five needs of man.

8200:323 NURSING PROCESS APPLIED TO MAN'S MALADAPTATION 12 credits
Prerequisites: 100, 200, 300. This course is designed to focus on man's maladaptation throughout man's life cycle. Emphasis will be placed on his interactions within an ecosystem approach. Nursing process is used to view this approach as holistic man's adaptation.

8200:324 ADULT NURSING THEORY 5 credits
Prerequisites: 273, 274, 276 or permission. 315 must be taken preceding or concurrently. Theory and concepts of Nursing Process as it applies to adult clients. Emphasis is on prevention, acuteness, chronicity and rehabilitation of individuals in health and diminished health situations.

8200:325 ADULT NURSING PRACTICE 3 credits
Prerequisites: 273, 274, 276, 315 prerequisite or co-requisite. Clinical application of theories and concepts of the nursing process in the care of adult individuals. Experience will be provided in the acute settings and visits to prevention, rehabilitation or chronic care facilities. Laboratory.

8200:333 MATERNAL-NEWBORN NURSING THEORY 4 credits
Prerequisites: 276, 3100:381, 3750:130. 315 must be taken preceding or concurrently. Corequisite: 336. The focus of the course is emphasis on the family centered approach. Principles of the nursing process are explored in relation to the ante-partal, intrapartal and post-partal phases of the maternity cycle. Consideration is given changing roles of families in response to contraception. Focus of nursing action is on primary health care including health maintenance and restoration to health.

8200:334 MATERNAL-NEWBORN NURSING PRACTICE 3 credits
Prerequisites: to be taken concurrently with 335. Centers upon application of the theory in 335, and the nursing process, to the care of families during the childbearing cycle. Opportunity is given to develop competency in the use of therapeutic skills and various modes of communication with clients and health team members in a variety of settings. Laboratory.

8200:345 NURSING OF CHILDREN THEORY 5 credits
Prerequisites: 276, 3100:381, 3750:130, 315 must be taken concurrently or proceeding. This is a ten week course focusing upon the nursing process as a means of assisting children and families to attain, maintain and regain health. A problem-solving/decision making approach is utilized in studying health problems of each age group, infancy through adolescence.

8200:346 NURSING OF CHILDREN PRACTICE 3 credits
Prerequisites: 276, 3100:381, 375:130. A ten week course with focus on the application of the theory presented in 345. The Family Centered Approach is utilized in providing learning experiences in a variety of community agencies. Laboratory.

8200:400 NURSING PROCESS IN COMPLEX SITUATIONS 10 credits
Prerequisites: 226. This course is designed to assist the student in applying knowledge and skills in an integrative approach to clinical practice and will assist the student to strengthen application of knowledge to practice within a variety of settings. The student will be assisted to develop his/her roles as leader and
change agent within an interactive teaching/learning process.

8200:420 ADVANCED NURSING PRACTICE II 10 credits
Prerequisites: 320. This course will provide the student with independent practice opportunity. The emphasis would be to provide the student with practice in an area of his/her choice. Guidance and direction will be provided to students as necessary by a preceptor.

8200:441 COMMUNITY NURSING—PSYCHIATRIC ASPECTS 6 credits
Prerequisites: 324, 325, 335, 336; 345, 346, and Senior Standing. Social and community aspects of psychiatry are explored with special attention given to behavioral theories, personality difficulties and clinical application in the care of disturbed patients. Laboratory.

8200:451 COMMUNITY NURSING—HEALTH & WELFARE TEAMS 6 credits
Prerequisites: 324, 325, 335, 336, 345, 346 and Senior Standing. Social and community aspects of psychiatry are explored with special attention given to behavioral theories, personality difficulties and clinical application in the care of disturbed patients. Laboratory.

8200:461 ISSUES IN NURSING 2 credits
Prerequisites: One of the following courses: 441, 451, or 471 and Senior Standing. An orientation to current economic, social and educational trends with their influence on contemporary nursing. Nursing organizations and nursing opportunities, legal and professional relationships with their responsibilities are included.

8200:471 SEMINAR IN NURSING 6 credits
Prerequisites: Senior Standing. Identification and investigation of the major problems in nursing to increase depth in nursing theory and facilitate the application of previous learning experiences. Performance of nursing functions of a beginning position and orientation to the organizational and operational aspects of nursing practice are included. Laboratory.

8200:489/589 SPECIAL TOPICS 1-4 credits
Group studies of special topics in nursing. May not be used to meet requirements for the major in nursing. May be used for elective credit. May be repeated as new topics are presented.

8200:493/593 WORKSHOPS 1-3 credits
Group studies of special topics in Nursing. May not be used to meet undergraduate of graduate major requirements. May be used for elective credit only. May be repeated as new topics are presented.

8200:497 INDEPENDENT STUDY 1-3 credits
Prerequisites: Senior standing and the permission of the instructor. The course provides an opportunity to develop greater depth in an area of nursing through methodology specific to the discipline of nursing.

8200:498/598 SPECIAL READINGS 1-4 credits
Prerequisites: Permission by student's advisor or Dean. Special Readings in an area of concentration may be taken to satisfy elective credit. Special Readings may not be used to satisfy the requirements of the major.

GRADUATE COURSES

8200:601 THEORETICAL BASIS FOR NURSING PRACTICE I 4 credits
Prerequisites: Departmental approval. The purpose of this course is to study concepts and theories common to all specialty areas of nursing. It provides a firm basis for advanced clinical nursing practice.
8200:631 FAMILY HEALTH NURSING I 3 credits
Prerequisites: 601, 610, and 630. A continuation of Family Health Nursing I. Emphasis is given to the normative as compared to the abnormal and the sciences is utilized in assessment, health promotion and management of client problems. The student will begin health assessment and care in the multidisciplinary health care system.

8200:632 FAMILY HEALTH NURSING II 3 credits
Prerequisites: 631, Year I completion, Sociology of the Family, and Pathophysiology. The student will be encouraged toward self direction in the application of the primary care nursing process. Opportunities will be focused on the middle-aged families, the post parenting families, and the families of the aged.

8200:633 FAMILY HEALTH NURSING III 3 credits
Prerequisites: 632, and first year course requirements. Theory and practice focuses on systems of health care delivery involving institutions, neighborhoods, social systems and the political, and economic systems that support them. The clinical experience will include direct intervention with individuals, groups and families in interdisciplinary practice and indirect care opportunities through consultation, program planning, group teaching and evaluation of programs of intervention.

8200:641 NURSING OF THE ADULT I 5 credits
Prerequisites: 600, 3100:581. Theory and practice will be utilized to facilitate the synthesis and implementation of current advanced theories and concepts from the biophysical, behavioral and nursing sciences in the assessment and health promotion of the adult. Acquisition of primary nursing skills with the initiation of health care will be emphasized.

8200:642 NURSING OF THE ADULT II 4 credits
Prerequisites: 601, 610, 640, 3100:562. An analysis of the adult and family experiencing complex alterations resulting from acute episodes of diminished health. Adaptation and coping mechanisms will be studied. Building on Nursing of the Adult I, the clinical experiences will provide an opportunity to develop, implement, and evaluate nursing strategies congruent with the student's own theoretical framework for nursing practice. Provision will be made for additional proficiency in management skills, collaboration with other health care providers and individual and family participation in the management of health problems. Students may focus on a selected clinical area.

8200:643 NURSING OF THE ADULT III 4 credits
Prerequisites: First year course requirements and 641. Theoretical sessions and clinical experiences will encourage the student toward self-direction in the application of the nursing process to adults, as individuals in families, and in groups, who are concerned with long-term alterations from health. Incorporating cognitive and affective concepts and psychomotor skills derived from previous courses, this course will focus on advanced concepts of rehabilitation, the role of the interdisciplinary team, collaboration with consumers of health care, evaluation of a long-term health care setting and the effectuation of change.

8200:670-671 SPECIAL TOPICS 2 credits each
Prerequisites: Completion of all required first year courses. Selected topics and areas of interest to faculty and students will be available as electives.

8200:650 FUNCTIONAL AREA OF THE CLINICAL SPECIALTY I 2 credits
Prerequisites: First year course requirements. Individual planning of practicum in which the student performs in the role of a clinical specialist in a setting selected by the student and his preceptor. Ongoing seminar focuses on the role, position, and function of the clinical specialist as well as current trends and issues regarding specialization in nursing.

8200:651 FUNCTIONAL AREA OF THE CLINICAL SPECIALTY II 2 credits
Prerequisites: 680. Continuation of 680.

8200:652 FUNCTIONAL AREA OF THE CLINICAL SPECIALTY III 3 credits
Prerequisites: 681. Continuation of 681.

8200:650 CURRICULUM AND TEACHING IN NURSING 2 credits
Prerequisites: First year course requirements. Concepts in curriculum development with a focus on educational goals. Theoretical frameworks, and educational goals.

8200:691 TEACHING AND EVALUATION OF NURSING 2 credits
Prerequisites: 690. Concepts of evaluation of educational goals with a focus on student learning opportunities and appraisal of student achievement.

8200:692 PRACTICUM IN TEACHING NURSING 3 credits
Prerequisites: 691. Guided study and practice in the roles and functions of a teacher in a selected clinical nursing field.

8200:693 NURSING ADMINISTRATION I 2 credits
Prerequisites: First year course requirements. A seminar course emphasizing concepts and inquiries as they relate to principles of administrative process and behavior. Use of role theory will be emphasized.

8200:694 NURSING ADMINISTRATION II 2 credits
Prerequisites: First year course requirements. A seminar course emphasizing theory in teaching, learning, and the roles of the administration in a variety of health care settings.

8200:695 PRACTICUM IN NURSING ADMINISTRATION 3 credits
Prerequisites: First year course requirements. Guided study and practice in the roles and functions of a nursing administrator in a selected clinical nursing field.

8200:697 INDIVIDUAL INVESTIGATION 1-3 credits
For the student who desires to choose research as the functional role. Up to 7 semester hours may be taken to pursue a research project. This is over and above thesis or non-thesis study. Project to be approved by faculty advisor.

8200:698 NON-THESIS PROJECT OPTION 3 credits
Prerequisites: Completion of first year of the program. Students must register for a total of 3 semester hours and carry out an applied clinical project which meets the approval of a project committee. A project is a report of the application of research findings in a clinical setting, a critical analysis of the literature directed toward a significant nursing problem or individual projects which meet the approval of a faculty committee.

8200:699 THESIS 3 credits
Prerequisites: Completion of first year of the program. Students must register for a total of 3 semester hours. The thesis is a report of a faculty supervisor, clinical or non-clinical research investigation that is suitable for publication and which meets the approval of a thesis committee.
The School of Law

9200: LAW

9200:601 CIVIL PROCEDURE I 3 credits

9200:602 CIVIL PROCEDURE II 3 credits
Prerequisite: 601. Continuation of 601.

9200:603 CONSTITUTIONAL LAW I 2 credits
Governmental authority and its distribution under the Constitution. Introduction to individual rights and liberties.

9200:604 CONSTITUTIONAL LAW II 2 credits
Prerequisite: 603. Continuation of 603.

9200:605 CONTRACTS I 3 credits

9200:606 CONTRACTS II 2 credits

9200:607 CRIMINAL LAW 3 credits
Nature and source of criminal liability studied in light of modern developments. The act. Mental conditions requisite to criminal responsibility. Specific crimes and defenses thereto.

9200:608 EVIDENCE I 2 credits
Nature of judicial proof; the law of evidence by which the trial and resolution of issues of fact by judicial tribunals are regulated.

9200:609 EVIDENCE II 2 credits
Prerequisite: 608. Continuation of 608.

9200:611 LEGAL PROCESS 2 credits
Law making by private parties, courts, legislatures and administrative agencies. Statutory interpretation. Coordination of law-making techniques.

9200:612 LEGAL PROFESSION 1 credit
Legal profession as an institution. Profession responsibilities of lawyers. Duties and privileges of membership. Professional qualifications.

9200:613 LEGAL RESEARCH AND ADVOCACY 1 credit
Development and integration of skills in legal research, argumentation, writing and advocacy.

9200:614 PROPERTY I 3 credits
Possession, means by which title may be obtained; fixtures; emblements; estates in land; concurrent ownership; the deed; the mortgage, the land contract.

9200:615 PROPERTY II 3 credits
Prerequisites: 614. History of land law; Statute of Frauds; recording; title; registration; covenants for title; adverse possession; landlord-tenant relationship; legislation restricting land use; easements; licenses; private restrictions; water rights.

9200:616 TORTS I 3 credits
Survey of basic tort law and its function; impact of insurance and notions of allocating cost of unintentionally caused harm on tort doctrines keyed to negligence.

9200:617 TORTS II 3 credits
Prerequisites: 616. Continuation of 616.

9200:621 ACCOUNTING FOR LAWYERS 2 credits
Accounting principles in selected areas, including taxation, corporate enterprise and regulation of economic activity. Income determination, measurement and evaluation of business capital. Interpretation of accounting statements.

9200:622 ADMINISTRATION OF CRIMINAL JUSTICE 3 credits
Administration of criminal justice relating processes of criminal law to objectives of criminal correction. Effects of federal constitutional provisions on criminal procedure.

9200:623 ADMINISTRATIVE PROCESS 3 credits
Prerequisites: 604. Traditional politico-legal theories of separation of powers and the administrative process; procedure for rule-making and adjudication; conclusiveness of administrative determination.

9200:624 AIR LAW 3 credits
Law of modern air transportation in international and domestic flight and the emerging area of outer space.

9200:625 ANTITRUST LAW 2 credits
Fundamentals of antitrust; questions of evidence in price fixing and boycotts under the Sherman Act, resale restrictions and tie-ins, scope of antitrust law and certain exemptions.

9200:626 BASIC BUSINESS ASSOCIATIONS 3 credits

9200:627 COMMERCIAL TRANSACTIONS: NEGOTIABLE INSTRUMENTS 3 credits
Commercial paper and bank deposits and collections under Articles 3 and 4 of the Uniform Commercial Code and under prior uniform acts relevant to modern law of commercial paper.

9200:628 COMMERCIAL TRANSACTIONS: SALES 2 credits
Law of sales of personal property under Article 2 of the Uniform Commercial Code and under prior uniform acts relevant to the modern law of sales.

9200:629 COMMERCIAL TRANSACTIONS: SECURED TRANSACTIONS 3 credits
Security interests in personal property emphasizing the Uniform Commercial Code, portions of the Bankruptcy Act affecting the rights of secured parties; problems of priority between security interests and federal tax liens.

9200:630 ADMIRALTY 2 credits
History and jurisdiction of and practice in admiralty; carriage of goods by water and combined transport, collision, salvage and insurance, claims for personal injury and death claims; maritime lien.

9200:631 CONFLICT OF LAWS 1 2 credits
Problems of application of private law in jural relations containing one or more foreign law elements. Jurisdiction and enforcement of foreign judgments.
9200:632 CONFLICT OF LAWS II 2 credits
Prerequisites: 631. Continuation of 631.

9200:633 CORPORATIONS I 2 credits
Conduct of the business enterprise. Control, management, financing, and governmental regulation of corporations, whether publicly owned or closely held. Management benefits and hazards, asset distribution to shareholders, dissolution and reorganization.

9200:634 CORPORATIONS II 2 credits
Prerequisite: 633. Continuation of 633.

9200:635 CREDITORS' RIGHTS 2 credits

9200:636 DEVELOPMENT OF LAW AND LEGAL INSTITUTIONS 2 credits
An historical introduction to the Anglo-American legal system.

9200:637 EQUAL OPPORTUNITY LAW 2 credits
Prerequisite: 604. Legal developments, primarily federal, affecting discrimination in employment, housing and public accommodations.

9200:638 FAMILY LAW 3 credits
Major areas of family law; theories that have influenced its development. Functions performed by various agencies which seek to effect a nonjudicial settlement of domestic problems. Adoption.

9200:639 FEDERAL ESTATE AND GIFT TAXATION 2 credits
Federal estate and gift taxation; relation between federal income tax and federal taxes on gratuitous transfers; the place of federal taxes in estate planning.

9200:640 FEDERAL INCOME TAXATION I 3 credits
Survey of federal income tax law with primary emphasis on individual income. May be taken independently of 642.

9200:641 FEDERAL INCOME TAXATION II 3 credits
Prerequisite: 641. Survey of federal income tax law with primary emphasis on taxation of business units.

9200:642 FEDERAL JURISDICTION AND PROCEDURE 3 credits
Prerequisites: 602. Congress, the federal courts and the Constitution; appellate and collateral review; federal question, diversity and admiralty cases; sovereign immunity, abstention and enjoining state actions; choice of law; federal common law.

9200:643 FINANCING STATE AND LOCAL GOVERNMENT 2 credits
Planning, programming and budgeting; state and federal programs; local taxes; use of public authorities and special districts; property tax limits; debt limits; state supervision of local finance.

9200:645 GOVERNMENT CONTRACTS 3 credits
Prerequisites: 606. Contracting with governmental units, primarily federal, including sovereign power to contract and limitations thereon; contract formation and performance issues and litigation, considering applicable statutes, regulations and executive orders.

9200:646 INJURIES TO RELATIONS 2 credits
Prerequisites: 606 and 617. Theories of liability for invasion of nonpersonal and nonproperty interests arising in three-party situations. Tort remedies available for physical, appropriational, and defamatory harms to trade, family, community and political relations.

9200:647 JUVENILE LAW 2 credits
The study of laws relating to juveniles (neglect, dependency and delinquency).

9200:648 INSURANCE LAW 2 credits
Legal principles of insurance of person and property, including insurable interest, measure of recovery, subrogation, rights of assignees and beneficiaries, warranty, concealment, representation and fraud. Adjustment of claims. Regulation.

9200:649 INTERNATIONAL LAW 3 credits
Nature and breadth of international law; its sources and subjects, and relation to municipal law, to individuals, and to international organizations.

9200:650 LABOR LAW 3 credits

9200:651 LABOR ARBITRATION AND COLLECTIVE BARGAINING 2 credits
Prerequisites: 650. Law and practice of labor arbitration and collective bargaining, including a study of grievance arbitration process pursuant to collective bargaining agreements.

9200:652 LAND USE PLANNING 2 credits
Prerequisites: 615. Assumptions, doctrines and implications of planning law; zoning; legal and administrative problems involved in allocating and developing land located in the metropolitan area.

9200:653 LAW AND SOCIAL CHANGE 2 credits
Examination and study of the influence of law on society and society on law to illuminate contemporary developments in law and social institutions.

9200:654 LAW REVIEW INTERNSHIP I 1 credit
Prerequisite: completion of first year and invitation predicated upon scholarship or demonstrated writing skills. Citations; preparation of casenote or article of publishable quality. May be repeated once. Graded Credit/Non-Credit.

9200:655 LAW REVIEW INTERNSHIP II 1 credit
Prerequisites: 653. Recent case analyses and criticism; correction of casenotes or comments of others ("spading"). Graded Credit/Non-Credit.

9200:656 LAW REVIEW STAFF 1 credit
Prerequisites: 656. Preparation of comment or article of publishable quality. May be repeated once. Graded Credit/Non-Credit.

9200:657 LAW REVIEW, STAFF 1 credit
Prerequisites: 656. Preparation of comment or article of publishable quality. May be repeated once. Graded Credit/Non-Credit.

9200:658 LAW REVIEW, EDITORIAL BOARD 1 credit
Prerequisites: 657 and election to Editorial Board. One credit per term for service on Akron Law Review Editorial Board; total credits for 655, 656, 657 and 658 not to exceed five (5) credits. Graded Credit/Non-Credit.

9200:659 LAWYER AS NEGOTIATOR 2 credits
Prerequisite: 602. The lawyer's role as negotiator in planning negotiations and determination of strategies to effect object, weighing legal, economic, behavioristic, ethical and social factors that condition outcomes.

9200:661 LEGAL CONTROL OF THE ENVIRONMENT 3 credits
Substantive and procedural problems in legal control of air and water pollution, common law precedents:
federal and state statutory law, federal administrative agencies, civil actions, constitutional consideration; federal tax incentives.

9200:682 LEGAL REGULATION OF COMPETITION 2 credits
Regulated and unregulated sectors of industry aside from antitrust law; law of pricing practices; regulation of entry and rates; Robinson-Patman Act.

9200:683 LEGISLATION 2 credits
Legislative process in the context of legislative organization, policy formulation, drafting, statutory construction, constitutional limitations on subject matter and form and judicial interpretation; illustrative drafting problems.

9200:684 LOCAL GOVERNMENT LAW 2 credits

9200:685 MODERN REAL ESTATE TRANSACTIONS 3 credits
Prerequisite: 615. Real estate transactions such as condominiums, cooperatives, sales and leasebacks, high credit leases, lease-hold mortgage, construction lending and syndication, with major emphasis on financing and related tax considerations.

9200:686 Moot Court 1 credit
Credit for participation by brief writing or written argumentation in National Moot Court, Jessup International, or other approved Moot Court Competitions. Not open to First-Year students. Graded Credit/Non-Credit.

9200:687 PATENT, TRADEMARK AND COPYRIGHT LAW 2 credits
Federal protection of patents, trademarks and copyrights, registration procedures, appeals from administrative actions, rights of patentees, trademark owners and copyright holders, grants, licenses and assignments, infringement, plagiarism and unfair competition.

9200:688 REMEDIES I 2 credits
Comparison of relief at law and in equity; actions for damages, for restitution, for specific performance, injunction, rescission, reformation, bill of peace, interpleader, quiet title, and declaratory judgment.

9200:689 REMEDIES II 2 credits
Prerequisites: 688. Continuation of 688.

9200:671 SECURITIES REGULATION 2 credits
Prerequisites: 634. State and federal law and rules of the Securities and Exchange Commission in the issuance and trading of securities; legal and self-regulatory aspects of the securities industry.

9200:672 SEMINAR IN BUSINESS PLANNING 3 credits
Prerequisites: 634 and 642 or permission of instructor. An advanced course using the problem approach in planning business transactions in light of applicable corporate, tax and securities law.

9200:673 SEMINAR IN COMPARATIVE LEGAL SYSTEMS 2 credits
A study of contemporary foreign legal systems by a discussion of basic problems in specific areas on a comparative basis.

9200:674 SEMINAR IN CORRECTIONS AND PRISONERS' REMEDIES 2 credits
A study of theoretical and practical aspects of sentencing, punishment, treatment, release and alternatives thereto; developments in the field of prisoners' rights and remedies.

9200:675 SEMINAR IN ESTATE PLANNING 3 credits
Prerequisites: 641 and 686 or permission of instructor. Relevant tax and nontax problems in planning of estates and examination of dispositive devices in accomplishing the objectives of estate planning.

9200:676 SEMINAR IN INTERNATIONAL TRANSACTIONS AND RELATIONS 3 credits
Legal problems in doing business abroad. Entry, holding, property, economic activity and choice of corporated form; restrictive practices, currency and exchange. European Common Market. Relations being developed and developing countries.

9200:677 SEMINAR IN JUDICIAL ADMINISTRATION 2 credits
Problems and practices in selection, tenure and removal of judges, selection and responsibilities of court administrators, the effect of devices and procedures used to expedite movement of cases through the litigation process; analysis of suggested reforms.

9200:678 SEMINAR IN JURISPRUDENCE 2 credits
Examination and evaluation of principal theories of legal philosophy. Theories are frequently considered in connection with concrete problems and are evaluated in light of various goal values.

9200:679 SEMINAR IN LABOR LAW 2 credits
Prerequisites: 650. Selected issues in labor law and labor relations such as internal union affairs, union democracy, bargaining in the public sector, discrimination in employment and topical affairs.

9200:680 SEMINAR IN PENSION AND PROFIT SHARING 2 credits
Recommended: Completion of 634 and 642. Employee Benefit plans; qualified pension and profit-sharing plans under the Internal Revenue Code. Nonqualified contracts involving individual employees.

9200:681 SEMINAR IN LEGAL PROBLEMS OF THE DISADVANTAGED 2 credits
Selected legal problems of persons disadvantaged by such factors as age, illness, mental incompetency and poverty.

9200:682 SEMINAR IN POLITICAL AND CIVIL RIGHTS 2 credits
Prerequisites: 604. A study of some of the basic problems in the relationship of the individual to government and in the protection of rights of minority groups.

9200:683 SEMINAR IN PRODUCT LIABILITY 2 credits
Prerequisites: 617. Recommended: 628. Liability for defective products and developing legal theories and remedies. Examination of government regulation of dangerous and defective products.

9200:684 SEMINAR IN SELECTED LEGAL PROBLEMS I-3 credits
May be repeated. Analysis of special or current legal problems offering opportunities for legal research, effective integration of legal and relevant non-legal materials, and expository legal writing.

9200:685 WILLS, TRUSTS AND ESTATES I 3 credits
Intestate succession; execution, revocation and revalidation of wills; creation and termination of trusts; gifts to charity; will substitutes; future interests; powers of appointment; and class gifts.

9200:686 WILLS, TRUSTS AND ESTATES II 3 credits
Prerequisite: 685. Continuation of 685.
9200:691 SELECTED PROBLEMS, INTERNATIONAL LAW 2 credits
Prerequisite: 649. Topical international problems and use of international law research materials in dealing with concrete international legal problems; analysis and preparation of short legal opinions.

9200:692 PROBLEMS IN TRIAL ADVOCACY 2 credits
Assigned problems requiring the application of rules and procedures and professional considerations in typical trial contexts.

9200:696 LEGAL AID 2 credits
Prerequisite: Completion of 28 credits, and permission of clinical director. May be repeated once. Application of legal knowledge to practical problems in supervised public law office contexts. Graded Credit/Non-Credit.

9200:698 INDIVIDUAL STUDIES AND RESEARCH 1-3 credits
May be repeated to 6 credits. With permission of Dean, special problems projects, or research may be taken for varying credit under supervision of a member of the faculty.

B.A., University of Michigan; M.A., University of Chicago; Ph.D., University of Michigan, 1943.

CECIL A. ROGERS, University Auditor Emeritus (1932) (Ret. 1969)

CHARLES ROGLER, Professor Emeritus of Sociology (1949) (Ret. 1962)
B.A., M.A., University of Michigan; Ph.D., University of Kansas, 1935.

MRS. MARGARET F. ROGLER, Assistant Professor Emeritus of Marketing (1948) (Ret. 1972)
B.S., University of Nebraska; M.S., University of Denver, 1944.

LOUIS ROSS, Professor Emeritus of Mathematics (February 1946) (Ret. 1977)
B.S., B.A., M.A.Ed., The University of Akron; Ph.D., Case Western Reserve University, 1955.

ROY V. SHERMAN, Professor Emeritus of Political Science (1929) (Ret. 1967)
B.A., M.A., Ph.D. State University of Iowa, 1927.

KENNETH F. SBILA, Professor Emeritus of Electrical Engineering (February 1940) (Ret. 1977)

MARY VERNON SLUSHER, Associate Professor Emeritus of Accounting (1947) (1954) (Ret. 1971)
B.S., M.A., Virginia Polytechnic Institute, 1931; C.P.A. Virginia.

ERNST A. TABLER, Associate Professor Emeritus of Mathematics (1935) (Ret. 1965)
B.S. Kent State University; M.A., Western Reserve University, 1933.

HELEN S. THACKABERRY, Assistant Professor Emeritus of English (1940) (Ret. 1976)
B.A., M.A., State University of Iowa, 1937.

ROBERT E. THACKABERRY, Professor Emeritus of English (1938) (Ret. 1976)
B.A., M.A., Ph.D., State University of Iowa, 1937.

ERNEST R. THACKERAy, Distinguished Professor Emeritus of Physics (1949) (Ret. 1972)
B.A. (Univ. Saskatchewan (Canada); Ph.D. University of Wisconsin, 1948.

EVELYN M. TOVEY, Professor Emeritus of Nursing (1950) (Ret. 1975)
B.S.N., M.S.N., Case Western Reserve University, 1950; R.N., City Hospital of Akron.

MRS. AUDRA TUCKER, Associate Professor Emeritus of Secretarial Science (1925) (Ret. 1970)

PAUL E. TWINING, Professor Emeritus of Psychology (November 1941) (Ret. 1969)
B.S., Ottawa University; M.A., University of Kansas; Ph.D., University of Chicago, 1938.

DONALD S. VARIAN, Associate Professor Emeritus of Speech (1934) (Ret. 1972)
B.A., M.A., University of Wisconsin, 1934.

MILTON WALES, Assistant Professor Emeritus of Mechanical Technology (1966) (Ret. 1977)
B.S., Louisiana State University; M.Ed., Pennsylvania State University, 1966.

MRS. FLORENCE N. WHITNEY, Associate Professor Emeritus of English (1936) (Ret. 1953)
B.A., Dakota Wesleyan University, M.A., Columbia University, 1913.

EARL R. WILSON, Associate Professor Emeritus of Mechanical Engineering (1929) (Ret. 1968)
B.S.E.E., The Ohio State University, 1916; P.E., Ohio.

MARY H. WILSON, Assistant Professor Emeritus of Home Economics (April 1943) (Ret. 1972)
B.S., Iowa State College, 1932.

NOTE: The dates in parentheses indicate the beginning of service at The University of Akron; unless otherwise stated, service began in the month of September.
University Faculty and Administration*

DECEMBER, 1977

FULL-TIME

D. J. GUZZETTA, President of the University and Professor of Higher Education (1954 - March, 1968), (August, 1971)

NORMAN P. AUBURN, Consultant, President Emeritus of the University, and Professor Emeritus of Political Science
(B1951)

B.S., M.S., Boston University, 1964.

Lascelles F. ANDERSON, Associate Professor of Economics and Director of Afro-American Studies (1966)

ALEXIS M. ANKWEFF, Professor of Psychology (1967)
B.A., A.M., University of Michigan; Ph.D., Purdue University, 1949.

FAZAL ABDUL RUSAIY, Associate Professor of Education (1972)
B.A., University of Chicago; M.Ed., University of South Dakota; Ed.D., Indiana University, 1968.

BARBARA N. ARMSTRONG, Professor of Home Economics (1972)
B.S., M.S., West Virginia University; Ph.D., The Ohio State University, 1970.

BRUCE R. ARMSTRONG, Assistant Professor of Art (1971)

WILLIAM J. ARN, Associate Professor of Education (1967)
B.S., Ohio Northern University; M.S., Bowling Green State University; Ph.D.,Kent State University, 1967.

ROBIN DIANE ARNOLD, Assistant Professor of Physical Education (Wayne General and Technical College) (1972)
B.S., University of Maryland; M.A., The Ohio State University, 1966.

NOTE: The dates in parentheses indicate the beginning of service at The University of Akron; unless otherwise stated, service began in the month of September.

* University Faculty and Administration Directory 325
JOANN M. ARRIETTA, Advisor of Students (July 1976)

JOHN H. ASHLEY, Producer/Director for Television Productions (1973)
B.S., Southern Illinois University; M.S., Indiana University, 1973.

GLENN A. ATWOOD, Professor of Chemical Engineering (1965)
B.S.Ch.E., M.S.Ch.E., Iowa State University; Ph.D., University of Washington, 1963 P.E., Ohio

MARY ELLEN ATWOOD, Assistant Professor of Education and of Home Economics, Director of University Nursery School (1969)
B.S., Iowa State College; M.S., The University of Akron, 1968.

RICHARD L. AYNES, Lecturer in Law (1976)
B.S., Miami University; J.D., Cleveland State University, 1974.

ROGER BAIN, Associate Professor of Geology (1970)
B.S., M.S., University of Wisconsin; Ph.D., Brigham Young University, 1968.

DONALD E. BAKER, Assistant Professor of Secretarial Science (Wayne General and Technical College) (1973)

J. WAYNE BAKER, Associate Professor of History (1968)
B.A., Western Baptist Bible College; B.D., Talbot Theological Seminary; B.A., Pepperdine College; M.A., Ph.D., University of Iowa, 1970.

FRANK V. BALDO, Professor of Marketing and Professor of Transportation (1969)
B.B.A., Penn College; B.B.A., Case Western Reserve University; Ph.D., Pennsylvania State University, 1968.

HOWARD R. BALDWIN, Registrar (July 1967)
B.P.S.M., Mount Union College; M.Ed., Kent State University, 1960.

GEORGE W. BALL, Executive Director of University Relations and Development (1957)
B.A., Mount Union College, 1943.

A. FREDERIC BANDA, Professor of Finance (1968)
B.S., City College of New York; M.B.A., New York University, 1954.

JAMES P. BANKS, Development Officer (May 1974)
B.S., Ohio University, 1950.

H. KENNETH BARKER, Dean of the College of Education, Dean of International Programs and Professor of Education (1966)
B.A., M.A., University of Louisville; Ph.D., University of Michigan, 1969.

ANITRA BARKLEY, Assistant Professor of Speech (March 1969)

ANNA P. BARNUM, Assistant Professor in the Community and Technical College (1970)
B.A., Middlebury College; M.A., University of Vermont; J.D., The University of Akron, 1977.

DAVID G. BARR, Associate Professor of Education (1967)
B.S., M.A., Kent State University, 1966.

CHARLES M. BARRESI, Professor of Sociology (1966)

GERALD V. BARRETT, Professor of Psychology (1973)
B.A., Wittenberg University; M.S., Ph.D., Case Western University, 1962.

PHILIP E. BARTLETT, Planning Aide (1971)
B.A., Kent State University, 1963.

WALTER BARZDITIS, JR., Manager of Parking Systems (April 1970)

MARIAN BAUER, Associate Professor of Nursing (1969)
B.A., Marysville College; M.N., Western Reserve University, 1941, R.N.

EDWARD L. BAXTER, Assistant Professor of Business Law (1974)

DONALD E. BECKER, Assistant Professor of Management (1959)

JOHN D. BEE, Associate Professor of MBB Media-Communication (1969)
B.A., Ohio University; M.A., Ph.D., University of Wisconsin, 1972.

JAMES D. BELL, Assistant Professor of Secretarial Science (1970)
B.S., M.Ed., Kent State University; M.S.Ed., The University of Akron, 1975.

JUTTA T. BENDREMER, Instructor in English (1967)
B.A., Hunter College; M.A., Brooklyn College, 1951.

EUGENE MOSS BENEDICT, Assistant Professor in the Community and Technical College (January 1969)

DAVID S. BERNSTEIN, Assistant Professor of Music (1972)
B.M., M.M., Florida State University; D.M., Indiana University, 1974.

DONALD BERQUIST, Associate Professor of Accounting (1968)
B.S.B.A., Youngstown University; M.Acc., The Ohio State University, 1964; C.P.A., Ohio.

SANDRA LEE BERRY, Adviser of Student (July 1971)

CARLA A. BERSANI, Associate Professor of Sociology (1965)

WILLIAM H. BEYER, Professor of Mathematics (1961)
B.S., The University of Akron; M.S., Ph.D., Virginia Polytechnic Institute, 1961.
JERRY J. BURR, Instructor in Dance (1975)

Cleveland College: studied with Robert Joffrey of New York, Audrey De Vos of London, Michele de Lutry and William Millie of Munich.

DONALD R. BURROWBRIDGE, Associate Professor of Coordination and Director of the Cooperative Program, College of Engineering (July 1965)

B.S., University of Wisconsin; M.S., Virginia Polytechnic Institute. 1965.

JUNE K. BURTON, Assistant Professor of History (1971)

B.A., M.A. Stetson University; Ph.D., University of Georgia, 1971.

DOUGLAS R. BUTTURFF, Associate Professor of English (1977)

B.A., University of Pennsylvania; M.A., Georgetown University; Ph.D., University of Illinois, 1968.

ALBERT C. BUXTON, Assistant Professor of Electronic Technology (January 1975)

B.S.E.E., M.S.E.E., Tulane University, 1962.

DENNIS M. BYRNE, Assistant Professor of Economics (1975)

B.S., Villanova University; M.A., Ph.D., University of Notre Dame. 1975.

ALLAN MANUEL CABRAL, Assistant Professor of Accounting (1972)

B.S., American International College; M.S., Kent State University; J.D., The University of Akron, 1975.

LEONARD M. CALABRESE, Instructor in the Community and Technical College (1977)

B.A., John Carroll University; M.A., Northwestern University, 1974.

RICHARD A. CALKINS, Adviser of Students and Instructor in the Community and Technical College (1964)

KAREN S. CALVERT, University Publications Editor (1972)

DOUGLAS E. CAMERON, Associate Professor of Mathematics (1969)

B.A., Miami University; M.S., The University of Akron; Ph.D., Virginia Polytechnic Institute. 1970.

GERALD R. CAMP, Associate Professor of Data Processing (March 1969)

B.A. Case Western Reserve University; M.S., The University of Akron, 1971.

T. ALLEN CAMPBELL, Assistant Professor in Physical Education (August 1968)

MARY CAPOTOSTO, Assistant Professor of Speech (1968)

B.A. The University of Akron; M.A., DePaul University, 1967.

NATHAN F. CARDARELLI, Associate Professor of General Technology (1968)

CATHY CARON, Instructor in Nursing (October 1976)

B.S., M.S., Russell Sage College; M.S.N., Vanderbilt University, 1976.

LESLIE G. CARR, Assistant Professor of Sociology (1973)

B.S., M.A., University of Alabama; Ph.D., University of North Carolina. 1973.

MARIYLN JEAN CARRELL, Director of Placement (October 1972)

B.S., M.S.Ed., The University of Akron, 1972.

CAESAR A. CARRINO, Dean of the Evening College and Summer Sessions and Professor of Education (1967)

B.S., Baldwin-Wallace College; M.S., The University of Akron; Ph.D., Case Western Reserve University, 1985.

ROBERT C. CARSON, Associate Professor of Mathematics (July 1963)

B.S., M.S., Purdue University; Ph.D., University of Wisconsin, 1953.

CAROL A. CARTER, Admissions Officer, Aerospace Studies (1976)

B.A., M.A., University of Arkansas, 1966. Captain. USAF.

VINCENT H. CASSIDY, Professor of History (1964)

DANA F. CASTLE, Assistant to the Dean of the School of Law and Lecturer in Law (March 1974)

STEPHEN S. CASTLE, Professor of Marketing (1967)

B.A., Hillsdale College; M.B.A., University of Michigan; Ph.D., Michigan State University, 1964.

GEORGE F. CELLA, Jr., Assistant Director of Purchasing (July 1973)

TOMASITA M. CHANDLER, Associate Professor of Home Economics (1971)

B.A., New Mexico Highlands University; M.S., Ph.D, Texas Women's University, 1970.

TSE-YUNG CHANG, Associate Professor of Civil Engineering (1970)

B.S.C.E., National Taiwan University; M.S., Ph.D., University of California at Berkeley, 1966.

BARRBARA S. CHASE, Assistant Law Librarian, Public Services (1975)

CHOU-SHIUN CHEN, Associate Professor of Electrical Engineering (1968)

B.S., National Taiwan University; M.S., Ph.D., University of Rochester, 1967; P.E., Ohio.

CHUN-FU CHEN, Associate Professor of Electrical Engineering (February 1968)

B.S., National Taiwan University; M.S., University of Tennessee; Ph.D., Vanderbilt University, 1968; P.E., Ohio.

MARY ELIZABETH CHESROWN, Assistant Director of the Institute for Civic Education (May 1965)

BONNY W. CHIRAYATH, Instructor in Home Economics (1976)

B.S., University of Massachusetts; M.S., Cornell University, 1967.

GERALDINE F. CHITTLY, Assistant Registrar (October 1967)

FRANK L. CHLAD, Administrative Assistant, Department of Chemistry (January 1967)
  B.A.A., Michigan State University, 1956.
YONG H. CHO, Professor of Urban Studies, Professor of Political Science and Associate Director of Center for Urban Studies (1967)
  B.A., Seoul National University (Korea); M.P.A., Ph.D., Syracuse University, 1965.
HUGH GENE CHRISTMAN, Associate Professor of Education (1973)
  B.S., Miami University; M.Ed., Ed.D., Pennsylvania State University, 1970.
ROBERT D. CHRISTMAN, Project Analyst-Administrative, Computer Center (1969)
HARRY CHU, Associate Professor of Physics (1969)
  B.S., Chikung University; M.A., Ph.D., State University of New York at Stony Brook, 1969.
MAMERTO L. CHU, JR., Associate Professor of Mechanical Engineering (1968)
  B.S.M.E., Iloilo City University (Philippines); M.S.M.E., Ph.D., University of Houston, 1967.
BENJAMIN T. CHUNG, Associate Professor of Mechanical Engineering (December 1969)
  B.S.M.E., Taiwan Provincial Cheng-Kung University; M.S.M.E., Kansas State University; M.S. Math., University of Wisconsin; Ph.D., Kansas State University, 1968.
STEPHEN J. CHYLINSKI, Assistant Professor in the Community and Technical College (March 1971)
  B.A., Cleveland State University; M.A., University of Pittsburgh, 1970.
BARBARA CLARK, Instructor in Bibliography and Senior Cataloger in the Library (October 1957)
BLANCHE E. CLEGG, Assistant Professor of Education (1973)
  B.S.Ed., Wayne State University; M.Ed., University of Massachusetts; Ph.D., University of Washington, 1971.
BARBARA E. CLEMENTS, Assistant Professor of History (1971)
  B.A., University of Richmond, M.A., Ph.D., Duke University, 1971.
HELEN K. COLENSHAW, Assistant Professor of Home Economics (1977)
  B.S., Rutgers; M.A., Ph.D., Pennsylvania State University, 1977.
BERNARD J. CLIFFORD, Assistant Professor of Social Work (1969)
  B.A., Western Reserve University; M.S.S.W., University of Wisconsin, 1952.
RUTH CLINEFELTER, Associate Professor of Bibliography and Research Librarian (June 1952)
JOHN R. COCHRAN, Associate Professor of Education (1969)
  B.S.M.E., Ph.D., The Ohio State University, 1968.
JOHN R. COLE, Visiting Instructor in Secretarial Science (1976)
  B.S., M.A., University of Pittsburgh; Ph.D., Kent State University, 1976.
JOANN COLLIER, Assistant Professor of Nursing (1974)
  B.S., Loretto Heights College; M.S., University of Colorado, 1974.
CHRISTOPHER COLLINS, Producer/Director, Instructional TV (August 1975)
  B.S., Miami University; M.S. University of Kentucky, 1974.
ROBERT E. COLLINS, Associate Professor of Secretarial Science (1964)
  B.A., Glenville State Teachers College (W.Va.); M.A., West Virginia University, 1952.
W. HENRY CONE, Associate Professor of Education (1971)
JOHN C. CONLON, Assistant Professor of Mathematics (1977)
  B.A., John Carroll University; M.S., Ph.D., Florida State University, 1977.
MARTHA R. CONRAD, Lecturer in Nursing (1977)
  B.S.N., The Ohio State University, 1975.
VERNON COOK, Associate Professor of Political Science (1965)
  B.A., The Ohio State University, 1951.
MADELINE A. COOKE, Associate Professor of Education (1969)
  B.S., The Ohio State University; M.A., Mexico City College; Ph.D., The Ohio State University, 1969.
DALE E. COONS, Associate Professor of Education and Director of Special Education (1973)
  B.S.Ed., Butler University; M.S.Ed., Ph.D., Indiana University, 1970.
ROBERT G. CORBETT, Coordinator of Research and Professor of Geology (1969)
  B.S., M.S., Ph.D., University of Michigan, 1964.
FRANK J. COSTA, Managing Director of Center for Urban Studies and Assistant Professor of Urban Studies (1972)
  B.S., M.S., Case Western Reserve University; Ph.D., University of Wisconsin, 1974.
DAVID F. COX, Associate Professor of Urban Studies and of Philosophy (1970)
  B.A., Morningside College; S.T.B., Ph.D., Boston University, 1953.
THOMAS J. COYNE, Associate Professor of Business Economics (1969)
  B.A.A., Marshall University; M.B.A., Kent State University; Ph.D., Case Western Reserve University, 1967.
WALDEN BLAIN CRAFTREE, Associate Professor of Education (1968)
  B.A. St. Meinrad College (Indiana); M.S.Ed., Ph.D., Indiana University, 1968.
ROGER B. CREEL, Associate Professor of Physics (1970)
  B.A., Kalamazoo College; Ph.D., Iowa State University, 1969.
JAMES L. CRESS, Assistant Professor of Accounting (1973)
ROBERT J. CROYLE, Assistant Coordinator of the Appellate Review Office and Staff Attorney, College of Law (July 1978)
  B.A., Alfred University; J.D., The University of Akron, 1976.
KENNETH G. CUNNINGHAM, Instructor in Physical Education (April 1976)
B.S., University of Cincinnati; M.Ed., Kent State University, 1966.

FAYE DAMBROT, Assistant Professor of Psychology (1967)

MICHAEL F. D'AMICO, Associate Professor of Marketing (1972)
B.S., Georgetown University; M.B.A., Rutgers University; D.B.A., Texas Technical University, 1975.

SUSAN J. DANIELS, Assistant Professor of Education (1977)
B.A., Marian College; M.A., Ph.D., Ball State University, 1977.

ALEX DARIES, Associate Professor of Psychology (1968)
B.A., Ph.D., Case Western Reserve University, 1961.

STEPHEN DARLING, Associate Professor of Chemistry (1970)
B.S., University of Wisconsin; M.A., Ph.D., Columbia University, 1959.

RALPH FRANK DARR, JR., Associate Professor of Education (1968)
B.S., Southeast Missouri College; M.A., Washington University, Ph.D., Southern Illinois University, 1967.

PATTERICK A. DARRAH, Assistant Director of Placement (August 1976)

PAUL A. DAUM, Associate Professor of Theatre Arts (1965)

ALEXANDER N. DAVIS, Instructor in Theatre Arts (1976)

GEORGE D. DAVIS, Professor of Speech (1974)
B.S. Ed., Kent State University; M.A., Ph.D., Ohio State University, 1968.

KATHLEEN M. DAVIS, Special Instructor in Ballet (1977)

N. F. DAVIS, Professor of Management (1970)
B.S., Lincoln University; M.B.A., Washington University; Ph.D., Indiana University, 1960.

RUSSELL K. DAVIS, III, Assistant Professor of Business Management Technology (1971)

MARY H. K. DEE, Assistant Professor in the Community and Technical College (1970)
B.S., University of the East (Manila); M.A., Central Missouri State College, 1969.

MERY DEHAVEN, Assistant Professor of English (1969)
B.A., University of Wisconsin; M.A., Ph.D., Case Western Reserve University, 1972.

ROBERT DEITCHMAN, Assistant Professor of Psychology (1970)
B.B.A., City College of New York; M.A., Ph.D., University of Tennessee, 1968.

BERNARD A. DEITZER, Professor of Management (January 1967)
B.A., Allegheny College; M.L.I., University of Pittsburgh; Ph.D., The Ohio State University, 1967.

JAMES L. DENNISON, Assistant Professor of Physical Education (July 1965)

HAMILTON DESAUSSEURE, Goodrich Professor of Law in International Transactions (1970)
B.A., Yale University; LL.B., Harvard University; LL.M., McGill Institute of International Air Law, 1953.

IRWIN DEUTSCHER, Professor of Sociology (1975)
A.B., M.A., M.A., Ph.D., University of Missouri, 1959.

LILLIAN J. DERYOUNG, Dean of the College of Nursing and Professor of Nursing (1975)
B.S., M.S., Ph.D., University of Utah, 1975.

ROBERT L. DIAM, Associate Professor of English (1965)
B.S., Central Missouri State College; M.A., Ph.D., University of Missouri, 1963.

RICHARD M. DIENESCH, Instructor in Business Management Technology (Wayne General and Technical College) (1975)

CONSTANTIN DIIMITRIU, Instructor in Classics (May 1970)
Baccalaureate, University of Cluj, Romania; M.A., National University of Bucharest; M.S.L.S., Case Western Reserve University, 1969.

GERALD E. DIXON, Adviser of Students (November, 1977)
B.A., Case Western Reserve University; M.Ed., Kent State University, 1977.

CECIL L. DOBBINS, Director of Special Programs (February 1965)
B.B.A., Cleveland State University, 1952.

DOROTHY M. DOERINDT, Associate Professor of Nursing (1969)
R.N., St. Elizabeth Hospital School of Nursing; B.S. St. Louis University; M.Ed., Columbia University, 1965.

SHIRLEY R. DOHERTY, Assistant Professor of Nursing (1975)
B.S.M., St. Mary's University, M.S.N., Wayne State University, 1963.

DAVID T. DOLAN, Assistant Dean of the Community and Technical College and Associate Professor of Sales and Merchandising (1965)

HELMAH A. DOLWET, Assistant Professor of Biology (January 1970)
B.S., University of Michigan and Technische Hochschule. Munich; M.S., Ph.D., University of California at Riverside, 1969.

JOSEPH J. DONATELLI, JR., Instructor in Modern Languages (1967)
JAMES E. DOVERSPIKE, Professor of Education (1960)  

ROBERT L. DOWDY, Instructor in Physical Education (August 1974)  

WILLIAM M. DOYLE, (November 1973)  
B.S.B.A., Kent State University, 1949.

CLARENCE B. DRENNON, Associate Professor of Civil Engineering (1975)  
B.S., Colorado School of Mines; M.E., Texas A & M, Ph.D., Iowa State University, 1972.

MILAN F. DUBRAVCIĆ, Associate Professor of Chemical Technology (January 1968)  
Ingenieur of Chemistry, University of Zagreb; Ph.D., University of Massachusetts, 1968.

MARGARET M. DUFALA, Senior Academic Programmer/Analyst (January 1975)  

R. WAYNE DUFF, Vice President for Business and Finance (May 1963)  

THEODORE DUKE, Distinguished Professor of Latin and Greek (1946)  
B.A., The University of Akron; M.A., Case Western Reserve University; Ph.D., Johns Hopkins University, 1946.

PAUL H. DUNHAM, Assistant Professor of Industrial Technology (1955)  
B.A., Case Western Reserve University; M.B.A. Kent State University, 1960.

JAMES F. DUNLAP, Professor of Theater Arts (1955)  
B.S.Ed., Wilmington College; M.A., Ph.D., The Ohio State University, 1954.

JAMES W. DUNLAP, Dean of the College of Business Administration and Professor of Finance (1963)  
B.B.A., Memphis State University; M.B.A., Ph.D., University of Arkansas, 1963.

JOSEPH J. DUNN, Director of Special Events — Athletics (March 1976)  
B.S., Kent State University, 1974.

KENNETH A. DUNNING, Associate Professor of Management (1973)  

DAVID R. DURST, Associate Professor of Finance (1968)  
B.S., Kent State University; M.B.A., D.B.A., Georgia State University, 1972.

ASHOK DUTT, Professor of Geography and Professor of Urban Studies (1968)  
B.A., M.A., Ph.D., Patna University (India), 1961.

CHARLES MYRON DYE, Associate Professor of Education (1975)  
A.B., Harris Teachers College; M.A., Ph.D., Washington University, 1971.

JOSEPH A. EDMINISTER, Associate Professor of Electrical Engineering and Assistant to the Dean of the College of Engineering (May 1957)  

JAMES J. EGAN, Associate Professor of English (1971)  
B.A., St. Joseph’s College; M.A., Ph.D., University of Notre Dame, 1971.

JANICE L. ELEY, Instructor in Food Service Management (1976)  
B.A., Manchester College; M.A., Indiana University, 1974.

ROBERT K. ELEY, Assistant Professor of Education (1975)  
B.S.Ed., M.Ed., Ball State University; Ed.D., Indiana University, 1975.

DANIEL L. ELY, Assistant Professor of Biology (1976)  
B.A., M.S., Ph.D., University of Southern California, 1971.

JAMES R. EMORE, Instructor in Accounting (1973)  

ELIZABETH B. ERICKSON, Assistant Professor of Economics (1969)  
B.S., M.S., University of Western Australia; Ph.D., University of Illinois, 1972.

EARL L. ERTMAN, Associate Professor of Art (1967)  
B.S., University of Southern Mississippi; M.A., Case Western Reserve University, 1967.

BERNARD L. ESPORTE, Associate Professor of Education (1970)  

CHARLOTTE ESSNER, Associate Professor of Speech (1965)  

WALTER LEE EVEGE, JR., Assistant Director of Admissions (July 1970)  
B.S., Tougaloo College, 1964.

JUDITH L. EVERETT, University Artist (October 1968)  

FRED W. FANNING, Assistant Professor of Education (1972)  
B.S., M.A., Ph.D., The Ohio State University, 1972.

STEPHEN FARRIA, JR., Instructor in Modern Languages (1967)  
B.A., Harvard University; M.A., Cornell University, 1965.

MICHAEL F. FARONA, Professor of Chemistry (1964)  
B.S., Case Western Reserve University; M.S., Ph.D., The Ohio State University, 1964.

LEONA W. FARRIS, Director of the Community Involvement Component of Home Economics (1969)  
B.S., The Ohio State University; M.A., Kent State University, 1969.

ALI M. FATEMI, Professor of Economics (1965)  
RICHARD M. FAWCETT, Assistant Professor in the Community and Technical College (1969)
JAMES V. FEE, Professor of Mass Media-Communication (1967)
  B.S.Ed., M.S.Ed., Southern Illinois University; Ph.D., The Ohio State University, 1964.
ROBERT E. FERGUSON, Professor of Education (1965)
  B.S.Ed., M.A. Kent State University; Ed.D., Case Western Reserve University, 1965.
D.G. FERTIS, Professor of Civil Engineering (1966)
  B.S., B.S.C.E., M.S.C.E., Michigan State University; Ph.D., Eng., National Technical University (Athens, Greece), 1964.
LEWIS J. FETTERS, Professor of Chemistry and Professor of Polymer Science (1967)
  B.A., College of Wooster; Ph.D., The University of Akron, 1962.
RONALD H. FEWKEES, Assistant Professor Geology (1977)
  B.S., California State College; Ph.D., Washington State University, 1976.
JOHN P. FINAN, Professor of Law (1967)
  B.A., Fordham University; J.D., Columbia University, 1961.
JUDITH L. FITZGERALD, Instructor in Bibliography and Cataloger in the Library (July 1969)
  B.A., West Virginia Wesleyan University; M.S.L.S., Case Western Reserve University, 1976.
CHARLES W. FLAGG, Instructor in Business Management Technology (1977)
  B.A., Ohio University, 1969.
THOMAS M. FLAHERTY, JR., Instructor in Physical Education (February 1974)
ALICE M. FLAKSMAN, Associate Professor Music (1965)
  B.A., Hunter College; M.A., Columbia University, Teachers College; Ph.D., The University of Akron, 1972.
EUGENE FLAUMENHAPFT, Associate Professor of Biology (1963)
  B.A., Adelphi College; M.S., Ph.D., University of Chicago, 1958.
WILLIAM S. FLEMING, Associate Professor in the Community and Technical College (1966)
  B.S., Rutgers University; M.A., University of Pennsylvania; Ph.D., Kent State University, 1970.
LAWRENCE G. FUCHT, Associate Professor of Chemical Engineering (1964)
  B.S. Ch.E. University of Iowa; M.S.Ch.E., Ph.D., Louisiana State University, 1969, P.E., Ohio.
T. HENRY FORSYTH, Associate Professor of Chemical Engineering and Research Associate in the Institute of Polymer Science (1970)
  B.S.C.E., University of Kentucky; M.S., Ph.D., Virginia Polytechnic Institute, 1967. P.E., Ohio.
HAROLD M. FOSTER, Assistant Professor of Education (1976)
  B.A., Indiana University of Pennsylvania; M.A.T., University of Pittsburgh; Ph.D., University of Michigan, 1976.
JAMES G. FRANCE, Professor of Law (1966)
  B.A., Brown University; LL.B., Yale Law School, 1941.
WILLIAM A. C. FRANCIS, Assistant Professor of English (1966)
  B.A., M.A., Duquesne University; Ph.D., Case Western Reserve, 1975.
RICHARD FRANKLIN, Assistant Professor of Political Science (1970)
  B.A., Bryan College; M.A., Michigan State University; Ph.D., University of Kentucky, 1976.
PAUL C. FRANKS, Professor of Geology (1971)
  B.A., Cornell University; M.S., Ph.D., University of Kansas, 1966.
PAULINE FRANKS, Associate Professor of Bibliography and Associate University Librarian (April 1950)
  B.S.Ed., Kent State University; B.S.L.S., Case Western Reserve University, 1940.
J.E. FREDERICK, Associate Professor of Chemistry, Associate Professor of Polymer Science (1966)
  B.S.Ch., Glenville State College; Ph.D., University of Wisconsin, 1964.
LAVERNE M. FRIBERG, Assistant Professor of Geology (March 1976)
  B.S., University of Wisconsin; M.A. Ph.D., Indiana University, 1976.
JOHN L. FROLA, Assistant Professor of Biology (1971)
  B.S., Waynesburg College; M.S., Ph.D., West Virginia University, 1970.
BILL S. FRYE, Associate Professor of Education (1971)
  B.S., M.S., Indiana State University; Ph.D., The Ohio State University, 1971.
STEPHEN N. FUGITA, Assistant Professor of Psychology (1971)
  B.S., The Ohio State University; M.A., Ph.D., University of California at Riverside, 1969.
BARBARA M. FUSZARD, Associate Professor of Nursing (1976)
  B.E., Colorado State University; M.A., Ph.D., University of Iowa, 1973.
DONNA J. GABOURY, Assistant Professor of Home Economics (1977)
  B.A., College of Saint Catherine; M.A., Smith College; Ph.D., University of Massachusetts, 1973.
ROBERT GADELL, Assistant Professor of Classics (1970)
  B.A., M.A., University of Buffalo; Ph.D., University of Cincinnati, 1968.
THOMAS J. GALLAGHER, Associate Director of Physical Plant (July 1977)
  B.A., Saint John's University, 1962.
JULIE ANN GAMMUN, Instructor in Bibliography and Acting Head Library Serials Department (August 1973)
ROBERT N. GANDEE, Assistant Professor of Physical Education (1973)
  B.S., M.S., The University of Akron; Ph.D., Ohio State University, 1972.
JAMES L. GANO, Assistant Professor of Military Science (1976)
  A.B., M.A., Eastern Kentucky University; M.S., University of Southern California, 1975. Captain, Military Intelligence.
REBECCA ANN GANYARD, Adviser of Students (August 1971)

T. NEAL GARLAND, Associate Professor of Sociology (1969)
B.A., M.A., University of North Dakota; Ph.D., Case Western Reserve University, 1971.

ROBERT M. GARLOW, Assistant Professor of Aerospace Studies (August 1974)

PAUL D. GARMIN, Professor of Chemistry (1943)
B.S., M.S., Ph.D., The Ohio State University, 1952.

JANICE M. GARVER, Assistant Director of Student Financial Aids (October 1976)
B.A., Adelphi University, 1976.

Dale J. GAYDOS, Assistant in General Studies Speech Program (January 1976)

ALAN N. GENT, Professor of Polymer Physics and Assistant Director of the Institute of Polymer Science (April 1961)
B.S., (General B.S., (Special Physics), Ph.D., University of London, 1955.

PHILLIP M. GIRARDI, Associate Professor of Mechanical Engineering (1971)
B.S.M.E., Rose Polytechnic Institute; M.S.M.E., Ph.D., University of Illinois, 1971. P.E., Ohio.

DON R. GIERLACH, Professor of History (1962)
B.S.Ed., M.A., Ph.D., University of Nebraska, 1961.

THOMAS E. GETZINGER, University Auditor and Assistant to the Vice President for Business and Finance (1969)
B.S.B.A., The University of Akron, M.B.A., Kent State University, 1966; C.P.A.

C. EDWARD GIBNEY, Associate Professor of Nursing (1970)
St. Agnes School of Nursing; B.S., University of Baltimore; M.S., University of Maryland, 1969; R.N.

RUSSELL N. GIERSCH, Director of the Physical Plant (1969)
B.M.E., Cleveland State University, 1954.

RICHARD J. GIGLIOTTI, Associate Professor of Sociology (1972)
B.A., St. John Fisher College; M.A., Ph.D., Michigan State University, 1972.

KRISTINE GILL, Instructor in Nursing (1976)
B.S.N., St. John College, Cleveland, 1970; R.N.

PETER J. GINGO, Associate Professor of Mathematics (1969)
B.S., The University of Akron; M.A., Ph.D., University of California at Los Angeles, 1966.

BERTHA M. GIRE, Associate Professor of Law, Law Librarian (July 1970)
B.S., LL.B., University of Minnesota; M.S.L.S., University of Michigan, 1970.

ELTON A. GLASER II, Assistant Professor of English (1972)
B.A., M.A., Louisana State University; M.F.A., University of California, 1972.

MARIANNE L. GLAZER, Assistant Professor of Nursing (1971)
B.S., The University of Akron; M.Ed., University of Pittsburgh, 1975; R.N.

WILLIAM M. GLAZIER, Associate Professor of Surveying and Construction Technology (1958) (1967)
B.S.C.E., Michigan Technical University; M.S.C.E., University of Michigan, 1958; P.E., Ohio, Michigan and District of Columbia.

THEODORE L. B. GLOECKLER, Assistant Professor of Education (1972)
B.A., Lycoming College; M.A., University of Northern Colorado; Ph.D., University of Michigan, 1973.

PATRICIA P. GODFREY, Associate Professor of Nursing (January 1989)
B.S., M.A.Ed., Case Western Reserve University, 1964; R.N.

LATHARDUS GOGGINS, Assistant Professor of Geography (1969)
B.A., Central State University; M.A., The Ohio State University; Ph.D., St. John's University, 1973.

CECIL V. GOLDBERG, Assistant Professor of Music (1976)
B.M.E., University of Nebraska, M.M., University of Idaho, 1972.

LAWRENCE G. GOLDEN, Assistant Professor of Sales and Merchandising (1968)
B.S., Case Western Reserve University; M.B.A., Wharton School of Finance and Commerce, 1968.

MARY T. GOLETZ, Instructor in Nursing (1976)
B.S.N., The University of Akron, 1976; R.N.

TOM A. GOOSBY, Assistant Director of the Gardner Student Center (July 1970)

C. PETER GOPLENED, Assistant Professor of Law (1977)
B.A., J.D., University of Kansas, 1974.

DENNIS GORDON, Professor of Accounting (1946)
A.B., M.B.A., University of Chicago, 1938; C.P.A., Ohio.

DAVID A. GOSDEN, Advisor of Students (October 1972)

GEORGE R. GRAHAM, Assistant Head of Electronic Systems Engineering (June 1977)

JANICE E. GRAHAM, Counselor (August 1977)

HERBERT GRANT, Associate Professor of History (1970)
B.A., Simpson College; M.A., Ph.D., University of Missouri, 1970.

RICHARD L. GRANT, Professor of Law (1967)
B.S., University of Pennsylvania; J.D., Stanford University; L.L.M., Georgetown University, 1967.

HOWARD L. GREENE, Professor of Chemical Engineering (1968)
B.Ch.E., M.Ch.E., Ph.D., Cornell University, 1968.
C. FRANK GRIFFIN, Professor of Physics (1967)
B.S., M.S. Texas Technological College; Ph.D., The Ohio State University, 1964.
CLAIBOURNE E. GRIFFIN, Dean of the Buchtel College of Arts and Sciences and Professor of Chemistry (July 1974)
B.A., Princeton University; M.S., Ph.D., University of Virginia, 1955.
NORMAN M. GRIGGS, JR., Associate Professor of Education (1969)
B.A., M.A., DePaul University; Ph.D., The Ohio State University, 1968.
EDNA P. GRIST, Associate Professor of Nursing (January 1968)
B.S.N.Ed., M.S.Ed., University of Akron, 1967, R.N.
RICHARD J. GROSS, Associate Professor of Mechanical Engineering (1967)
B.S.M.E., University of Pittsburgh; M.S.M.E., Ph.D., Carnegie Institute of Technology, 1967, P.E. Ohio.
FRANK J. GRUCcio, JR., Assistant Professor in the Community and Technical College (1966)
ROBERT GRUMBACH, Associate Professor of Electrical Engineering and Assistant to the Director of Cooperative Program in the College of Engineering (1961)
B.S.E.E., Case Western Reserve University; M.S.E.E., West Virginia University, 1951
BARBARA GSELLMAN, Instructor in Mechanical Technology (1967)
VIRGINIA L. GUNN, Assistant Professor of Home Economics (January 1974)
B.S., Kansas State University; M.S., Syracuse University, 1972.
MARGARET B. GUSS, Assistant Professor of Bibliography and Research Librarian (December 1976)
JOHN F. GWINN, Assistant Professor of Biology (1970)
B.A., Manchester College; M.S., Purdue University; Ph.D., Kent State University, 1972.
LISA P. GWTHER, Instructor in Social Work (1977)
B.A., M.S., Case Western Reserve University, 1969.
SCOTT D. HAGEN, Associate Professor of Biology (Wayne General and Technical College) (1966)
B.S., Kansas State University; M.S., Kansas State Teachers College, 1964.
GORDON A. HAGERMAN, Assistant to the Dean of the Evening College and Summer Sessions (July 1941)
B.A., The University of Akron, 1941.
ROBERT D. HAHN, Director of Student Financial Aids (July 1969)
B.S., M.Ed., Kent State University, 1969.
DONALD E. HALL, Assistant Professor of Speech and Director of the Speech and Hearing Center (1974)
B.S.Ed., Indiana University of Pennsylvania; M.Ed., Westminster College; Ph.D., Ohio University, 1971.
DONALD V. HALLOCK, Professor of Military Science (August 1975)
B.S., University of Wisconsin; M.Ed., Eastern University, 1969; Graduate of the U.S. Army Command and General Staff College Lt. Col., Infantry.
RICHARD L. HANSFORD, Vice President and Dean of Student Services-Civilian Coordinator of the Reserve Officers Training Corps (August 1949)
CHARLOTTE M. HANTEN, Assistant Professor of Art (1969)
EDWARD W. HANTEN, Professor of Geography, Professor of Urban Studies, Director, Center for Urban Studies (1963)
B.S., Earlham College; M.A., Ph.D. University of Pittsburgh, 1962.
PHYLLIS HARDENSTEIN, Associate Professor of Theatre Arts (February 1947) (1966)
B.A., The University of Akron; M.A., University of Wisconsin, 1951.
VERN R. HARNAP, Assistant Professor of Geography (1972)
B.S.Ed., Concordia Teachers College; M.S.Ed., University of Pennsylvania; Ph.D., University of Kansas, 1972.
JACK D. HARPOOL, Assistant Professor of Data Processing (March 1970)
ALAN HART, Associate Professor of Philosophy (1970)
B.A., M.A., Syracuse University; Ph.D., University of Pennsylvania, 1965.
DONALD E. HARVEY, Assistant Professor of Art (1973)
B.A., Mankato State College; M.F.A. Temple University, 1971.
H. JAMES HAVARD, Professor of Chemistry and Professor of Polymer Science (October 1959)
B.S., The University of Akron; Ph.D., Yale University, 1956.
JEAN A. HASPESLAGH, Assistant Professor of Nursing (1973)
WADE E. HATCH, Physical Facilities Analyst (October 1966)
B.S.C.E., University of California at Los Angeles, 1949.
MARLENE HATHAWAY, Instructor in English and Assistant to the Dean of the College of Arts and Sciences (1965)
RICHARD H. HAUE, Associate Professor of Psychology (1967)
B.A., Kenyon College; M.S., Ph.D., University of Pittsburgh, 1984.
JESS W. HAYS, Adviser of Students (August 1977)
BARBARA J. HAZARD, Assistant Director of Residence Halls (1972)
B.A., Ohio Wesleyan University; M.A., Bowling Green University, 1972.
JOHN G. HEDRICK, Dean of Wayne General and Technical College (July 1967)
B.S.Ed., Kent State University; M.A., University of Notre Dame, 1958.
JACQUELINE HEGBAR, Instructor in Classics (1967)

WALTER H. HEINTZ, Associate Professor of Physics (1967)
B.S., University of Massachusetts; M.S., Ph.D., The Ohio State University, 1962.

BARBARA HEINZELING, Assistant Professor of Home Economics (1973)
B.S., M.S., Ohio State University, 1963.

MARION R. HEISE, Assistant Professor in the Community and Technical College (1972)

FAITH HELMICK, Assistant to Director of Institutional Research and Academic Personnel (1969)

JOHN B. HENDRICK, Visiting Assistant Professor of History (1977)
B.A., Duke University; Ph.D., University of California at Berkeley, 1977.

WILLIAM S. HENDON, Professor of Urban Studies and Professor of Economics (1968)

PETER N. HENRIKSEN, II, Associate Professor of Physics (1970)
B.S., Berry College; M.A., Ph.D., University of Georgia, 1968.

RICHARD HENRY, Associate Professor of Mechanical Technology (1961)

ALBERTA R. HENSLEY, Assistant to the Executive Director of University Relations and Development (January 1974)

THEODORE T. HERBERT, Associate Professor of Management (1973)

THOMAS P. HERBERT, Associate Professor of Electronic Technology (1968)
B.S.E.E., University of Dayton; M.A., Pennsylvania State University, 1968.

WALTER M. HERIP, Instructor in Art and Instructor in Commercial Art (1974)

JAY R. HERSHEY, Director of Residence Halls (July 1967)

HARRIET K. HERSKOWITZ, Instructor in Educational Technology and in Home Economics (1973)

JAMES R. HEWIT, Visiting Professor of Mechanical Engineering (1977)
B.S., University of Edinburgh; M.S., University of Wales; Ph.D., Loughborough University, 1968.

JACK E. HIBBS, Assistant Professor of Bibliography and Research Librarian (October 1974)

ROBERT W. HIGHAM, Assistant Professor of Criminal Justice (1977)
B.A., Kent State University; J.D., The University of Akron, 1969.

KATHERINE A. HINCKLEY, Assistant Professor of Political Science (1972)
B.J., University of Missouri; M.A., Ph.D., Stanford University, 1971.

JOSEPH C. HINTZ, Assistant Professor of Mathematics (1977)
B.S., Siena College; M.S., Ph.D., Syracuse University, 1975.

JOHN J. HIRSCHBUHL, Associate Professor of Education and Coordinator of CAF (1971)
B.S., M.S., Temple University; Ph.D., Pennsylvania State University, 1971.

ELIZABETH J. HITTLE, Professor of Speech and Director of The Educational Research and Development Center (1950)
B.S.Ed., The University of Akron; M.A., Kent State University; Ed.D., Case Western Reserve University, 1963.

LOREN HOCH, Associate Professor of Education (1969)
B.S., Indiana Central College; M.A., Ball State University; Ed.D., Indiana University, 1968.

JUDY L. HODGSON, Instructor in Home Economics (February 1972)
B.S., The Ohio State University; M.S., The University of Akron, 1976.

KENNETH C. HOEDT, Professor of Education (1962)
B.S., State University of New York, Buffalo; M.S., Ph.D., University of Wisconsin, 1960.

WILLIAM W. HOKMAN, Assistant Professor of Mathematics (1967)

R. BRUCE HOLLAND, Assistant Professor of English (1967)
B.A., University of Rochester; M.A., Ph.D., University of Michigan, 1972.

LORENA HOLSHOY, Assistant Professor of Art (1969)

KATHRYN HOMIEIER, Professor of Nursing (February 1967)
B.S.N.E., Saint Louis University; M.S.Ed., The University of Akron, 1963; R.N.

RICHARD B. HOSKIN, Associate Professor in the Community and Technical College (1967)
B.A., Hiram College; M.E., Kent State University, 1955.

JANICE D. HOUSSER, Instructor in Modern Languages (1965)
B.A., Butler University; M.A., Indiana University, 1964.

JOHN J. HOUSSER, Associate Professor of Chemistry (1965)
B.S., Villanova University; Ph.D., Pennsylvania State University, 1964.

ELMORE HOUSTON, Assistant Professor of Mass Media-Communication (Wayne General and Technical College) (1972)
B.A., Purdue University; M.A., The University of Akron, 1968.

ANTHONY E. HRUMCO, Advisor of Students (1973)
JACK D. HURRIGNS, Assistant Professor of Business Management Technology (1971)

JULIA HULL, Assistant Professor of English (1946)
B.A., The University of Akron; M.A., Case Western Reserve University, 1950.

EDWARD J. HUMEY, Assistant Professor of Music (1977)

J. MICHAEL HUNGERMAN, Counselor and Educational Programs Coordinator in the Testing and Counseling Bureau (1970)
B.A., College of Steubenville; M.Ed., Ph.D., Kent State University, 1970.

CARL L. HUSTON, Instructor in English (Wayne General and Technical College) (1972)
B.S., Bowling Green State University, 1951.

FARLEY K. HUTCHINS, Professor of Music (1957)
M.B., Lawrence Conservatory of Music; S.M.M., S.M.D., School of Sacred Music, Union Theological Seminary, 1951.

JAMES E. INMAN, Associate Professor of Business Law (1966)

SYS S. INMAN, Instructor in Modern Languages (1968)

CHARLES S. INSALAGO, Advisor of Students (August 1974)

JAMES L. IVY, Adviser to International Students (January, 1978)

RICHARD JACKOBOICE, Associate Professor of Music and Director of University Bands (1967)

DALE L. JACKSON, Professor of Biology (1961)
B.S., Ph.D., University of Durham (England), 1959.

DONALD M. JACKSON, Assistant Professor of Marketing (1969)

JIM L. JACKSON, Assistant Professor of Geology and Director of Environmental Studies (1967)
B.S., Kent State University; M.S., Case Western Reserve University; Ph.D., The Ohio State University, 1970.

FRANK C. JACOB, Assistant Professor of Music (1977)

DAVID L. JAMISON, Assistant Professor of Mass Media-Communication (1972)
B.A., Muskingum College; M.A., University of Michigan, 1969.

DONALD M. JENKINS, Professor of Law (1965)
B.A., J.D., The University of Akron; LL.M., Case Western Reserve University, 1970.

DUDLEY C. JOHNSON, JR., Director of Counseling and Advising (July 1961)
B.S., University of Vermont; M.S.Ed., University of Southern California, 1961.

LAURA J. JOHNSTON, Instructor in the Community and Technical College (January 1974)

WILLIAM JOHNSON, Assistant Professor in the Community and Technical College (1969)
A.A., North Park Junior College; B.S., University of Minnesota; M.Ed., Kent State University, 1968.

DAVID P. JOHNSTON, Development Officer (June 1974)
B.A., Hanover College; B.S., Butler University; M.S., Indiana University, 1963.

JEAN JOHNSTON, Associate Professor of Secretarial Science (1965)
B.S., Carnegie Institute of Technology; M.Ed., Ph.D., University of Pittsburgh, 1974.

MIRIAM ANN JOLIAT, Assistant Professor of Bibliography and Systems Librarian (April 1970)
B.S.E., St. John College; M.S., Case Western Reserve University, 1969.

DAVID L. JONES, Associate Professor of English (February 1961)
B.A., M.A., Ph.D., Harvard University, 1958.

JOHN E. JONES, Assistant Director of Admissions (January 1975)
B.S., Ohio State University, 1971.

ROBERT H. JONES, Professor of History (1971)
B.A., M.A., Ph.D., University of Illinois, 1957.

JAMES F. JUNDZILO, Instructor in Transportation (1977)
B.S., The University of Akron; M.B.A., Youngstown State University, 1975.

ROBERT KADERLE, Accountant (December 1975)

SEBASTIAN KANAKANATT, Associate Professor of General Technology (July 1965)
B.S., Madras University (India); M.S., Ph.D., The University of Akron, 1969.

GARY W. KANE, Associate Professor of Education (1972)
A.A., Santa Ana College; B.S., M.Ed. State University College at New Paltz; Ed.D., University of Rochester, 1970.

ARTHUR D. KARLIN, Associate Professor of Accounting (1971)
B.S., New York University; M.S., Ph.D., University of Illinois, J.D., The University of Akron, 1976.

CHAMAN N. KASHKARI, Associate Professor of Electrical Engineering (1960)
B.A., Jammu Kashmir University; B.E., Rajasthan University; M.S.E., University of Detroit; Ph.D., University of Michigan, 1969.
JOLITA E. KAVALIUNAS, Assistant Professor of Modern Languages (1970)
B.A., M.A., Ph.D., Case Western Reserve University, 1972.

AZMI KAYA, Associate Professor of Mechanical Engineering (1970)
Diploma, Technical College for Men (Turkey); M.S.M.E., University of Wisconsin; M.S.E., Ph.D., University of Minnesota, 1970.

GREGORY C. KECK, Instructor in Social Science Technology (Wayne General and Technical College)
(January, 1978)

ORVILLE R. KEISTER, JR., Professor of Accounting (1966)
B.S., M.B.A., The Ohio State University; Ph.D., University of Illinois, 1964.

ROGER F. KELLER, JR., Professor of Biology. Chairman of the Division of Natural Sciences and Chairman of the Division of Allied Health Programs (1954)
B.S., University of New Hampshire; Ph.D., Michigan State University (1953).

JAMES M KELLY, Assistant Professor of Military Service (1977)

MARTIN L. KEMP, Business Manager of Wayne General and Technical College (July 1972)
B.S.Ed., Ashland College; M.S.Ed., Kent State University, 1970.

FRANK J. KENDRICK, Associate Professor of Urban Studies and Associate Professor of Political Science (1971)
B.A., Grinnell College; M.A., University of Wisconsin; M.S.Ed., Clarkston College of Technology; D.B.A., Kent State University, 1969.

LILLIAN KING, Assistant Professor of Education (1968)
B.S.Ed., The University of Akron; M.Ed., Kent State University, 1974.

KEITH A. KLAFEHN, Associate Professor of Management (1970)
B.S., M.S., Clarkson College of Technology; B.B.A., Kent State University, 1973.

DENNIS A. KLEIDON, Assistant Professor of Art and Assistant Professor of Commercial Art (1969)

ROSE A. KLEIDON, Assistant Professor in the Community and Technical College (1970)

MICHAEL KLEIN, Senior Academic Programmer and Analyst in the Computer Center (1964)

GEORGE W. KNEPPER, Professor of History (1948-49), (August, 1954)
B.A., The University of Akron; M.A., Ph.D., University of Michigan, 1954.

BRUCE U. KNIGHT, Assistant Professor of Economics (1977)
B.S., M.S., State University of New York, 1976.

NANCY A. KNIGHT, Assistant Professor of Bibliography and Assistant Librarian for Research Services (1967)
B.A., University of Idaho; M.S.L.S., Louisiana State University, 1966.

KATHRYN E. KOCH, Assistant Professor of Home Economics (1970)
B.S.Ed., M.S., Kent State University, 1970.

WILLIAM G. KOFRON, Professor of Chemistry (1965)
B.S., University of Notre Dame; Ph.D., University of Rochester, 1961.

CHARLES L. KOHL, JR., Assistant Professor of Military Science (1977)
B.A., Valparaiso University; M.B.A., Adelphi University, 1974. Captain, Transportation.

KAREN M. KOHN, Adviser of Students (July 1976)
B.A., Rutgers; M.A., The Ohio State University, 1976.

MARTIN F. KOHN, Program Associate in the Department of Special Programs (1973)
B.S.Ed., The Ohio State University, 1971.

ROSE MARIE KONET, Instructional Programmer-Liaison, CAI Center (July 1976)

MARGERY B. KOOSED, Assistant Professor of Law (1974)
B.S.Ed., Miami University; J.D., Case Western Reserve University, 1974.

DENNIS P. KOPPER, Instructor in Management (1977)

VINCENT P. KOPY, Assistant Professor of Accounting (1975)
ALBERT KORSOK, Associate Professor of Geography (1968)
B.S., Case Western Reserve University; M.A., Northern University; Ph. D., University of Illinois, 1960.

GERALD F. KOWATKA, Associate Professor of Chemistry (1969)
B.S., The Ohio State University; M.S., Ph.D., University of Illinois, 1969.

JANKO P. KRAVECIC, Associate Professor of Education (1969)
B.S. Baylor University, M.A., The University of Akron; Ph.D., Case Western Reserve University, 1970.

MARY K. CRANDAL, Instructor in Nursing (January 1977)
B.S.N., Saint Louis University; M.A., New York University, 1976.

PATRICIA B. KRABOS, Assistant Professor of Speech (1976)

ALAN G. KRICHEL, Assistant Professor of Management (1973)
B.E., University of Florida; M.B.A., Ph.D., Georgia State University, 1977.

ALAN K. KRIFIS, Associate Professor of Chemistry (1966)
B.A., M.A., Columbia University; M.S.Ch., Ph.D., University of Michigan, 1968.

LAWRENCE C. KRUEGER, Associate Director of Residence Halls (July 1971)
B.S., Wisconsin State University, M.S., Indiana University, 1971.

WARREN P. KUEHL, Professor of History and Director of the Center for Peace Studies (1964)
B.A., Rollins College; M.A., Ph.D., Northwestern University, 1954.

ERNEST A. KUEHL, Associate Professor of Mathematics (1955)

MILTON B. KUNITZ, Associate Professor of Electrical Engineering (June 1954)
B.S.E.E., M.S., University of Illinois, 1952; P.E., Illinois, Ohio.

A. W. GERHARD KUNZE, Assistant Professor of Geology (1974)

HENRY A. KUSKA, Associate Professor of Chemistry (1965)
B.A., Merton College; B.A., Cornell College (Iowa); Ph.D., Michigan State University, 1965.

DAVID E. KYVIG, Assistant Professor of History and Director of American History Research Center (1971)
B.A., Kalamazoo College; Ph.D., Northwestern University, 1971.

MARGARET D. LABSON, Instructor in Nursing (1976)
B.S.N. Duquesne University, 1975.

JOSEPH LACAMER, JR., Counselor, Testing and Counseling Bureau (October 1972)

MARCIA F. LADD, Acting Research Librarian and Instructor in Bibliography (1977)
B.A., The University of Akron; M.A., Ohio University; M.L.S., Western Michigan University, 1977.

JOHN A. LAGUIRIDE, Associate Director of Alumni Relations (1970)

LOUIS LANE, Adjunct Professor of Music
B.M., University of Texas; M.M., Eastman School of Music, 1947.

GORDON LABSON, Associate Professor of Physical Education and Director of Athletics (February 1961)
B.S.Ed., M.E., Kent State University, 1954.

RALPH LARSON, Assistant Director of Purchasing (July 1960)
B.S.Ed., M.Ed., Kent State University, 1953.

EDWARD B. LASSY, Assistant Professor of Education (1972)
B.S., State University College at Oneonta; M.S., Ed.S., Indiana University; Ed.D., University of North Dakota, 1971.

ELAINE Z. LASKY, Professor of Speech (1972)
B.A., M.A., Ph.D., Case Western Reserve University, 1971.

JOSEPH C. LATONA, Associate Professor of Management and Director of Bureau of Organizational Development (1961)

DIANE L. LAZAREZI, Adviser of Students (July 1970)

NOEL L. LEATHERS, Vice President and Provost and Professor of History (July 1972)
B.S., M.A., Oklahoma State University; Ph.D., University of Oklahoma, 1963.

NADA LEDKENKO, Professor of Biology (1971)
B.S., The Ohio State University; M.S., Pennsylvania State University; Ph.D., Yale University, 1962.

RICHARD GREGG LEFEVRE, Associate Professor of Urban Studies and Associate Professor of Sociology (1973) B.A., Swarthmore College; M.A., Duke University; Ph.D., University of Pennsylvania, 1962.

WALTER D. LEHRMAN, Assistant Professor of English (1956)
B.S., M.A., Columbia University; Ph.D., Case Western Reserve University, 1972.

JAMES V. LENNART, Assistant Professor of Art (1969)

JOHN P. LENCZYK, Associate Professor of Chemical Engineering (1970)
B.S., M.S., Ph.D., State University of New York at Buffalo, 1970.

JOSEPH R. LENZ, Associate Professor of Criminal Justice (1969)
B.A., State College at Bridgewater (Massachusetts); M.S., The University of Akron, 1971.
JOSEPH F. LESTINGI, Professor of Civil Engineering (1967)

B.C.E., Manhattan College; M.S., Virginia Polytechnic Institute; Ph.D., Yale University, 1966; P.E., Ohio, New Jersey.

GERALD H. LEVIN, Professor of English (1980)

M.A., University of Chicago; Ph.D., University of Michigan, 1956.

RUTH B. LEWIS, Professor of Mass Media-Communication (1966)

B.S., Wittenberg University, M.A., Ph.D., The Ohio State University, 1961.

MARTHA CATHERINE LEYDEN, Associate Professor of Education (1971)

B.S., St. John College; M.Ed., Kent State University; Ed.D., Columbia University, 1971.

ALBERT H. LEVERLE, Assistant Professor of Law (1974)

B.S., The Ohio State University; J.D., Case Western Reserve University, 1960.

ALVIN H. LIEBERMAN, Assistant Professor of Accounting (1969)

CARL LIEBERMAN, Associate Professor of Political Science (1967)

MARTHA LIERHAUS, Assistant Professor of Mathematics (January 1967)

HUGO LIJERON, Professor of Modern Languages and Director of the Latin American Studies Program (1963)

B.A., LaSalle University (Bolivia); LL.D., Universidad San Francisco Xavier de Chuquisaca (Bolivia); M.A., Middlebury College; Ph.D., University of Madrid (Spain), 1965.

LUNG-HO LIN, Assistant Professor of Economics (January 1976)

B.A., M.A., National Chengchi University (Taiwan); M.A., Ph.D., University of Notre Dame, 1974.

JOY S. LINDBECK, Associate Professor of Education (1967)

B.S., Carnegie Institute of Technology; M.S.Ch., M.Ed., Ph.D., University of Pittsburgh, 1964.

SHELDON B. LISS, Professor of History (1987)

B.A., American University; M.A., Duquesne University; Ph.D., American University, 1964.

DALE A. LISTON, Lecturer in Physical Education (March 1977)

MICHAEL P. LITKA, Professor of Business Law (1971)

B.A., Grinnell College; M.A., J.D., University of Iowa, 1958.

MIRIAM G. LITT, Instructor in Home Economics (1974)

B.S., M.P.H.N., Case Western Reserve University, 1953.

EDWIN L. LIVELY, Professor of Sociology (1963)

B.A., M.A., National Chengchi University (Taiwan); M.A., Ph.D., The Ohio State University, 1959.

HELEN P. LIVINGSTON, Assistant Professor of Bibliography and Assistant Librarian for Public Service (February 1970)

B.A., Bishop's University; M.S., Simmons College, 1954.

KRIEMHILDE I. R. LIVINGSTON, Instructor in Modern Language (1968)

Ph.D., Oxford University (Germany); Diploma, Bavarian Interpreter School (Germany), 1947.

ROBERT G. LORD, Assistant Professor of Psychology (1974)

B.A., University of Michigan; M.S., Ph.D., Carnegie-Mellon University, 1975.

MARIAN LOTTH, Associate Professor of Music (1967)

DAVID J. LOUSCHER, Assistant Professor of Political Science (1970)

B.A., Morningside College; M.A., American University; Ph.D., University of Wisconsin, 1972.

DAVID P. LOYD, Associate Professor of Marketing (1977)

B.A., Ashland College; M.B.A., Ph.D., The Ohio State University, 1962.

LLOYD B. LUEPTOW, Professor of Sociology (1967)

B.S., M.S., Ph.D., University of Wisconsin, 1964.

DEBORAH D. LUMLEY, Instructor in Nursing (1976)

B.S.N., M.S.N., The Ohio State University, 1975; R.N.

RICHARD C. LUTZ, Associate Professor of Management (January 1973)

B.S., M.A., Southern Illinois University; B.B.A., Texas Technical University, 1972.

WILLIAM D. LYON, Assistant Professor of Chemistry (1967)

B.S., M.A., The Ohio State University; Ph.D., University of Wisconsin, 1967.

LAURENCE J. C. MA, Associate Professor of Geography (1971)

B.A., National Taiwan University; M.A., George Peabody College; M.A., Kent State University; Ph.D., University of Michigan, 1971.

MARY JO MACCRACKEN, Instructor in Physical Education (1968)

ALICE MACDONALD, instructor in English (1989)

JOHN A. MACDONALD, Professor of Music (1959)

B.M.Ed. Oberlin College; M.A., Ph.D., University of Michigan, 1964.

KENNETH E. MACDONALD, Director of Sports Information (January 1965)

BARBARA J. MACGREGOR, Assistant Professor of Music (January 1970)

B.M., The University of Akron; M.M., Cleveland Institute of Music, 1967.
IAN R. MACGREGOR, Vice President for Planning and Professor of Chemistry and Secretary of the Board of Trustees (1961)
B.A., M.S., Ph.D., University of Cincinnati, 1945.

LAZARUS W. MACIOR, Professor of Biology (1967)
B.A., A.M., Columbia University; Ph.D., University of Wisconsin, 1959.

THEODORE MACKIW, Professor of Modern Languages and Director of the Soviet Area Studies Program (1962)
Ph.D., University of Frankfurt (Germany), 1950.

BOYD A. MACKUS, Instructor in Music (1977)
A.B., Calvin College; M.A., Michigan State University; M.M., University of Illinois, 1977.

JUDITH E. MAFFETT, Assistant Professor of Physical Education (1968)
B.S., M.Ed., Kent State University, 1962.

EUGENE MAIO, Associate Professor of Modern Languages (1970)
B.A., Ph.L., M.A., St. Louis University; Ph.D., University of California at Los Angeles, 1967.

COLEMAN J. MAJOR, Dean of the College of Engineering and Professor of Chemical Engineering (1964)
B.S., University of Illinois; Ph.D., Cornell University, 1944; P.E., Ohio, California.

GEORGE J. MAKAR, Associate Professor in the Community and Technical College (1973)
B.S., Pennsylvania State University; M.Ed., Duquesne University; Ed.D., University of Pittsburgh, 1973.

YOGENDRA K. MALIK, Professor of Political Science (1969)

TED A. MALLO, Director of University Legal Services (July 1969)
B.S., M.S., J.D., The University of Akron, 1972.

ANDREW MALUKE, Associate Professor of Physical Education (February 1946)
B.S.Ed., The University of Akron; A.M., Kent State University, 1949.

EUGENE R. MANCINI, Associate Professor of Music (1967)
B.M., M.M., Cleveland Institute of Music, 1953.

WILLIAM R. MANGUN, Visiting Professor of Urban Studies (1977):
A.B., Syracuse University; B.A., The University of Akron; M.A.P.A., University of Oklahoma; Ph.D., Indiana University, 1977.

GEORGE P. MANOS, Associate Professor of Civil Engineering (1957)
B.Ch.E., The Ohio State University; M.S.E., West Virginia University; Ph.D., University of Cincinnati, 1971; P.E., Ohio.

PHILIP S. MANTHEY, Systems Analyst and Staff Assistant to the Vice President and Provost (November 1965)

JOHN L. MAPLES, Adviser of Students (July 1972)

JOANNE M. MARCHONE, Associate Professor of Nursing (1973)
B.S.N., Case Western Reserve University; M.A., University of Washington; M.A.Ed., University of Santa Clara, 1965.

LAWRENCE J. MARKS, Instructor in Marketing (1977)

JESSE F. MARQUETT, Associate Professor of Political Science (1971)

RONNIE S. MARSHALL, Acting Manager of Academic Systems and Programming (1972)
B.S.B.A., Bowling Green State University, 1965.

SPENCER MARSTON, JR., Assistant Director of Gardner Student Center (November 1972)

LAWRENCE T. MARTIN, Assistant Professor of English (1977)
A.B., Saint Francis Seminary; M.A., Ph.D., University of Wisconsin, 1977.

ROBERTA F. MARTIN, Adviser of Students (July 1968)
B.S., M.A., The Ohio State University, 1968.

JOHN P. MARWITT, Associate Professor of Anthropology (1971)
B.S., Florida State University; Ph.D., University of Utah, 1971.

KENNETH E. MAST, Assistant Professor of Marketing (1970)

WILLIAM MAVRIDES, Assistant Professor of Education and Director, Learning Resources Center (July 1960)

ARMOLENE J. MAXEY, Assistant Professor of Sociology (Wayne General and Technical College) (1972)
B.S., University of Nebraska; M.A., Kent State University, 1967.

MARY E. MAXWELL, Instructional Assistant in the Department of Mathematics (January 1975)
B.S., Ashland College; M.S., The University of Akron, 1974.

THOMAS H. MAXWELL, Associate Professor of Education (1969)

EDWARD P. MAZAK, Professor of Aerospace Studies (July 1974)

SUSAN McBRIDE, Visiting Instructor of Education (1976)

McKee J. McCLENDON, Associate Professor of Sociology (1972)
B.A., M.A., Ph.D., University of Kansas, 1972.
KENNETH L. J. MCCORMICK, Assistant Professor of Criminal Justice (1973)
B.S., Michigan State University; M.A., Central Michigan University, 1972.

EDWARD E. MC DONALD, Assistant Professor of Mechanical Technology (1972)

ROBERT L. McELWEE, Coordinator of Curriculum and Advising and Assistant Professor of Political Science (Wayne General and Technical College) (1972)
B.A., M.A., Kent State University, 1969.

WILLIAM McGUICKEN, Associate Professor of History (1968)
B.S., M.A., Queena University, Belfast (N. Ireland); Ph.D., The University of Pennsylvania, 1968.

ALLAN J. McINTYRE, Associate Professor of Modern Languages (1967) (1969)

DONALD McINTYRE, Professor of Chemistry and Professor of Polymer Science (1966)
B.A. Lafayette College; Ph.D., Cornell University, 1954.

KATHLEEN A. McINTYRE, Coordinator of the Tutorial Program (1977)

REGIS Q. McKNIGHT, Assistant Professor of Education (1972)

MARTIN McKOSKI, Director of Developmental Programs (January 1974)
B.A., Saint Joseph’s College; M.A., The University of Akron; Ph.D., Florida State University, 1972.

JAMES McLAIN, Professor of Economics (1946)
B.A., The University of Akron; M.A., Western Reserve University; Ph.D., The Ohio State University, 1959.

WILLIAM McMATHON, Associate Professor of Philosophy (1969)
B.A. University of Notre Dame; M.A., Brown University; Ph.D., University of Notre Dame, 1970.

ROBERT C. McNEIL, Assistant Professor of Classics (1963)

MARION W. McPHERSON, Associate Professor of Psychology and Associate Director of the Archives of History of American Psychology (1967)
B.A., M.A., University of Maine; Ph.D., Indiana University, 1949.

CLAUDE Y. MEADE, Professor of Modern Languages (1964)
B.A., M.A., University of Minnesota; Ph.D., University of California, 1957.

LAVERNE J. MECONI, Professor of Education (1967)
B.S., West Chester State College (Pennsylvania); M.A., University of Pennsylvania; Ph.D., The Ohio State University, 1966.

GARY E. MEEK, Associate Professor of Management (1971)
B.S., Cleveland State University; Ph.D. Case Western Reserve University, 1970.

DAVID T. MEETING, Instructor in Accounting (1976)

ESHERHARD A. MEINECKE, Professor of Mechanical Engineering and Professor of Polymer Science (October 1983)
Eng., Braunschweig Institute of Technology (Germany) 1960.

WARNER D. MENDENHALL, Associate Professor of Political Science (Wayne General and Technical College) (1972)
B.S., Davidson College; M.A., Duke University, 1960.

STANLEY P. MENGEL, Director, Center for Economic Education, Holder of the Firestone Tire and Rubber Company Chair of Economic Education, and Assistant Professor of Education (January 1975)
B.A., University of Missouri; M.A., Stanford University, 1965.

JACK F. MERCER, Associate Professor in the Community and Technical College (1965)
B.A., Ohio University; M.A., Case Western Reserve University, 1958.

R. PAUL MERRIX, Associate Professor of English (1966)
B.A., M.A., Butler University; Ph.D., University of Cincinnati, 1966.

RUTH MESSENGER, Assistant Professor of English (1968)

DONALD J. METZGER, Associate Professor of Sociology (1968)
B.A., Youngstown University; Ph.D., University of Pennsylvania, 1968.

CHRISTOPHER P. MEYER, Assistant Professor of Art (1972)
B.A., Washington and Lee University; M.F.A., Ohio State University, 1972.

DENNIS MEYER, Assistant Professor of Art (1969)

FRITZ M. MEYER, Instructor in Physical Education (1973)

JOSEPH MIGDEN, Assistant Director of Student Financial Aids (July 1975)

THOMAS T. MILES, Assistant Professor of Mass Media-Communication and Director of Instructional Media (October 1972)
B.S., M.S., Ed A., Indiana State University; Ph.D., University of Iowa, 1973.

ANN LEE MILLER, Adviser of Students (April 1971)

JOHN V. MILLER, JR., Assistant Professor of Bibliography, Director of Archival Services and Associate Curator for the Howser House (July 1972)
TIM W. MILLER, Assistant Director of Alumni Relations (1977)

WILLIAM I. MILLER, Assistant Professor of Modern Languages (1970)
B.A., Wittenberg University; Ph.D., University of Florida, 1970.

JOYCE W. MIRMAN, Instructor in Data Processing (1977)

ALOYSIUS E. MISKO, Professor of Business Management Technology and Director of the Office for Career Planning in the Community and Technical College (1962)

ELIZABETH K. MISKO, Instructor in Nursing (1976)
B.S.N.Ed., Catholic University of America; M.S.Ed., The University of Akron, 1974.

SHIRLEY S. MITCHELL, Counselor (1974)

JOHN B. MONROE, Associate Professor in the Community and Technical College (1966)
B.A., College of Wooster; M.A., Rutgers University, 1963.

BEATRICE MONTGOMERY, Assistant Professor of Bibliography and Head of Library Cataloging (December 1972)
B.A., Randolph Macon Woman's College; B.A.L.S., Emory University; M.S.L.S., University of North Carolina, 1957.

CHARLES K. MOORE, JR., Associate Professor of Accounting (January 1975)

MARVIN M. MOORE, Professor of Law (July 1960)

CHERYL H. MORGAN, Instructor in Nursing (1977)

MAURICE MORTON, Regents' Professor of Polymer Chemistry and Director of the Institute of Polymer Science (October 1948)
B.S., Ph.D., McGill University (Canada), 1945.

DOROTHY C. MOSES, Visiting Instructor in Biology (1977)

RICHARD MOSTARDI, Associate Professor in Biology (1967)
B.S.Ed., M.Ed., Kent State University; Ph.D., The Ohio State University, 1968.

JUDITH MOWERY, Assistant Professor of Bibliography and Research Librarian (May 1967)
B.A., Ohio University; M.S.L.S., Case Western Reserve University; M.A., The University of Akron, 1972.

FREDERICK W. MOYER, Professor of Finance (March 1970)
B.S., M.A., Ph.D., The Ohio State University, 1949.

ROBERT J. MRAVETZ, Associate Professor of Physical Education (1970)
B.S.Ed., Miami University; M.Ed., Ohio University; Ph.D., The Ohio State University, 1970.

SAMUEL A. MUELLER, Associate Professor of Sociology (1973)
B.A., Valparaiso University; M.A., Roosevelt University; Ph.D., Northwestern University, 1970.

BEVERLY MUGRAGE, Assistant Professor of Mathematics (Wayne General and Technical College) (1972)
B.S., Kent State University; M.S., The University of Akron, 1970.

JOHN W. MULHAUSER, Assistant Professor of Geography (1966)

FRED L. MULLEN, Associate Professor of Electronic Technology (1967)
B.S.E.E., Case Western Reserve University; M.S.E. The University of Akron, 1966. P.E., Ohio.

JOSEPH C. MULLIN, Assistant Professor of Criminal Justice (1970)
B.S., Delta State College; M.S.Ed., The University of Akron, 1974.

JOHN MUMPER, Instructor of Community Services Technology (1977)
B.S., The University of Akron, M.S.S.W., University of Louisville, 1975.

MARTIN D. MURPHY, Assistant Professor of Psychology (1975)
B.A. Dartmouth College; M.S., Ph.D., University of Illinois, 1975.

MARGARET A. MURRAY, Assistant Professor of Military Science (1975)

RUTH C. MURRAY, Rubber Division Literature Chemist (July 1970)
B.S., Chatham College, 1944.

JEROME MUSHKAT, Professor of History (1962)

ROBERT H. MYERS, Professor of Education (1966)

THOMAS NASH, Associate Professor of Geography (1967)

RICHARD NEAL, Affirmative Action Officer and Deputy Equal Employment Opportunity Officer (March 1970)

DANIEL NELSON, Professor of History (1976)
B.A., Ohio Wesleyan University; M.A., The Ohio State University; Ph.D., University of Wisconsin, 1967.

WILLIAM E. NEMEC, Assistant Professor of Education (1974)
B.S.S.S., John Carroll University; M.Ed., Ohio University; Ph.D., The Ohio State University, 1974.
HENRY NETTLING, Controller (February 1964)

WILLIAM A. NEUMANN, Associate Professor of Art (1970)

VIRGINIA B. NEWBERRY, Assistant Professor of Nursing (1976)
B.S.N., Old Dominion University, M.P.H., University of North Carolina, Chapel Hill, 1971.

DANIEL M. NEWLAND, Student Development Coordinator (1971)
B.A., Coe College (Iowa), M.S., Indiana University, 1971.

ISADORE NEWMAN, Associate Professor of Education (1971)

KYLE S. NICEWARNER, Assistant Law Librarian, Technical Services (August 1977)
B.A., Capital University; M.L.S., Kent State University, 1977.

DAVID L. NICHOLS, Assistant Professor of Accounting (1971)

ALLEN G. NOBLE, Professor of Geography (1964)
B.A., Syracuse University; M.A., University of Maryland; Ph.D., University of Illinois, 1957.

JUDITH A. NOBLE, Associate Professor of Education (1970)
B.S., M.A., Central Michigan University; Ph.D., Michigan State University, 1971.

KATHLEEN A. NOBLE, Instructor in Secretarial Science (Wayne General and Technical College) (1977)
B.S. The University of Akron, 1974.

RICHARD F. NOKES, Associate Professor of Biology (January 1962)
B.S., D.V.M., Michigan State University, 1958.

WALLACE NOLIN, Professor of Music (1969)
B.S., Muskingum College; M.M.Ed., Kent State University; Ph.D., The Ohio State University, 1969.

JAMES W. NOLTE, Assistant Professor of Business Management Technology (1972)

CLINTON E. NORTON, Managing Director of the E.J. Thomas Performing Arts Hall (July 1973)
B.M., University of Rochester, 1950.

DOROTHY M. NUNN, Associate Professor of Biology (1967)

DAVID J. O'BRIEN, Associate Professor of Sociology (1972)
B.A., Boston College; M.A., University of Notre Dame; Ph.D., Indiana University, 1972.

OLIVER OCAK, Professor of Education (January 1961)
B.S.Ed., M.A., Kent State University, 1950.

ANNE T. O'CONNOR, Instructor in Nursing (1977)

JOHN H. OLIVE, Associate Professor of Biology (1970)
B.S., The Ohio State University; M.A., Ph.D., Kent State University, 1964.

GRACE B. OLMSTEAD, Advisor of Students (October, 1977)
B.A., Wilberforce University; M.Ed., Kent State University, 1972.

MARY O'NEIL, Director of University News Service (February 1971)
B.A., University of Nebraska, 1942.

MICHAEL T. ORAVECZ, Assistant Professor in the Community and Technical College (1968)

F. SCOTT ORCUTT, JR., Assistant Professor of Biology (1971)
B.S., M.S., Ph.D., Cornell University, 1969.

SARAH ORLINOFF, Associate Professor of Education (1963)
B.A., M.A.Ed., The University of Akron; Ph.D., Case Western Reserve University, 1963.

JAMES O. OSWALD, Director of University Publications (1971)
B.S.Ed., Central State University; B.A., Cedarville College, 1967.

DONALD W. PCT, Assistant Professor of Biology (1974)
B.S., Southeastern Louisiana University; Ph.D., University of North Carolina, 1973.

JOHN W. OWEN, Director of Admissions (June 1965)

MARIC C. OZANICH, Assistant Professor of Dance (1973)
A.A., Bakersfield College; B.A., University of California at Santa Barbara; M.A., University of California at Los Angeles, 1968.

JOSEPH PADOVAN, Associate Professor of Mechanical Engineering (1970)
B.S.M.E., M.S.M.E., Ph.D., Polytechnic Institute of Brooklyn, 1969.

ARTHUR L. PALCAS, Assistant Professor of English (1975)
B.A., Harvard University; Ph.D., Indiana University, 1970.

MARY C. PAOLUCCI, Coordinator of Writing Laboratory (1975)

JEFFREY A. PARNASS, Assistant Professor of Law (1976)
B.A., Colby College; J.D., University of Chicago, 1974.

JUDITH PEARCE, Visiting Instructor of Education (1977)
D'ORSAY PEARSON, Associate Professor of English (1966)
B.A., University of North Carolina; M.A., University of Florida; Ph.D., Kent State University, 1969.
JON ROBERT PESKE, Assistant Professor in the Community and Technical College (1969)
B.A., M.A. The University of Akron, 1969.

ISOBEL L. PFEIFFER, Professor of Education (1966)
B.A., Manchester College (Indiana); M.S., Indiana University; Ph.D., Kent State University, 1966.

ALICE PHILLIPS, Coordinator of Developmental Reading (July 1975)

MARVIN E. PHILLIPS, Coordinator of Public Services and Director of the Institute for Civic Education (July 1972)
A.A. Flint Community College; B.A., Albion College; M.A., Michigan State University, 1952.

JOHN S. PHILLIPSON, Associate Professor of English (1961)
B.A., University of Rochester; M.A., University of Wisconsin; Ph.D., The University of Akron, 1960.

FRANK T. PIHIPS, Professor of English (1953)
B.A., M.A., Miami University; Ph.D., The Ohio State University, 1953.

MARIO J. PICCONI, Associate Professor of Finance (1975)
B.S., Iona College; M.B.A., University of Chicago; Ph.D., Rutgers University, 1974.

IRJA PHIRMA, Associate Professor of Polymer Science (1983)
Diploma in Chemistry, Technische Hochschule of Darmstadt (Germany); M.S., Ph.D., The University of Akron, 1969.

ROBIN D. PINKNEY, Project Leader Administrative Systems and Programming, Computer Center (August 1974)

HARRY T. PINNICK, Associate Professor of Physics (1964)
B.A., Southwestern College (Kansas); Ph.D., University of Buffalo, 1955.

JOHN C. PITTS, Associate Director, Student Financial Aids (July 1971)

JOHN C. PIZOR, Assistant Professor in the Community and Technical College (1966)
B.S., Grove City College; M.Ed., University of Pittsburgh, 1946.

ELLEN SUE POLITELLA, Assistant Professor of History (Wayne General and Technical College) (1972)
B.A., Kent State University; M.A., Oberlin College, 1960.

ARTHUR R. POLLOCK, JR., Associate Professor in the Community and Technical College (1967)
B.S.Ed., Indiana University of Pennsylvania; M.A., Case Western Reserve University, 1968.

MARGARET POLOMA, Associate Professor of Sociology (1970)
B.A., Notre Dame College of Ohio; M.A., Ph.D., Case Western Reserve University, 1970.

ROBERT F. POPE, JR., Assistant Professor of English (1977)
B.A., University of California, Berkeley; M.A., California State University, San Diego; M.F.A., University of Iowa, 1976.

JOHN A. POPPLESTONE, Professor of Psychology and Director of the Archives of the History of American Psychology (1961)
B.A., University of Michigan; M.A., Wayne State University; Ph.D., Washington University, 1958.

CHARLES F. POSTON, Professor of Finance and Director of Institutional Research and Academic Personnel (1959)
B.A., Eastern Illinois State College; M.A., University of Illinois; Ph.D., University of North Carolina, 1959.

EFTHIMIOS POURNARAKIS, Professor of Economics (1967)
B.A., Athens Graduate School of Economics and Business Science (Greece); M.A., Ph.D., University of Kansas, 1967.

THOMAS E. PRICE, Assistant Professor of Mathematics (1976)
B.S., M.S., Ph.D., University of Georgia, 1976.

MINNIE C. PRITCHARD, Instructor in Surveying and Construction Technology (1971)

JAMES C. PROGAN, Assistant Professor of Music (1975)
M.M., Catholic University of America; B.S., M.A., The Ohio State University, 1976.

GEORGE E. PROUGH, Assistant Professor of Marketing (1968)

GERALD D. PROVILLE, Associate Professor of Geology, and Associate Professor of Urban Studies (1970)
B.A., Kent State University; M.A., Ph.D. University of Chicago, 1970.

NEAL C. RABER, Assistant Professor of Mathematics (1972)
B.S.Ed., Kent State University; M.S., Ph.D., Ohio State University, 1972.

MALCOM R. RALEY, Associate Professor of Electrical Engineering (1970)
B.S.E.E., M.S.E.E., Ph.D., University of Texas, 1970. P.E., Texas.

ALBERT RAKAS, Associate Dean of the School of Law and Professor of Law (July 1971)

JONATHON S. RAKICH, Professor of Management (1972)
B.A., Oakland University; M.B.A., The University of Michigan; Ph.D., Saint Louis University, 1970.

JOHN H. RAMEY, Associate Professor of Social Work (1969)

D. NICHOLAS RANSON, Assistant Professor of English (1973)
B.A., M.A., Emmanuel College, Ph.D., Case Western Reserve University, 1974.

GEORGE E. RAYMER, Director of Radio and Television Information (August 1961)

JANEANE A. BEAGAN, Instructor in Psychology (Wayne General and Technical College) (1972)

DONNA JEAN RECTOR, Accountant (March 1978)
B.S.B.A., Kent State University, 1962.
TERRY L. HANSEN, Assistant Professor of Psychology and Research Associate in the Institute of Polymer Science (1984)

B.S.Ch.E., Washington University; M.S., Ph.D., University of Iowa, 1962.

RUTH SEMELS ROBERTS, Associate Professor of Education (1971)

B.A., Hunter College; M.Ed., Ph.D., Kent State University, 1975.

DAVID J. ROBINSON, Assistant Professor of Electronic Technology (January 1970)

B.S.E.E., The University of Akron; M.S.E., Case Western Reserve University; J.D., The University of Akron, 1975.

LOUIS D. RODABAUGH, Associate Professor of Mathematics (1964)

B.A., Miami University; M.A., Ph.D., The Ohio State University, 1938.

LINDA J. RODDA, Assistant Professor of Secretarial Science (1967)

LOUIS E. ROEMER, Professor of Electrical Engineering (1968)

B.S., M.S.E.E., Ph.D., University of Delaware, 1967. P.E., Ohio.

WILLIAM A. ROGERS, Executive Dean of Continuing Education and Public Services, Associate Professor Education and Equal Employment Officer (1957)

MICHAEL F. ROLPH, Instructor in Accounting (1974)

WILLIAM ROOT, Professor of Education and Director of Teacher Placement and Educational Field Experience (1968)

B.S., M.A., Ph. D., The Ohio State University, 1958.

HENRY ROSENFELD, Associate Professor of Psychology (1966)

B.S., M.A., Columbia University; Ph. D., Tulane University, 1964.

MARCUS B. ROSS, Assistant Professor of Education (1973)

JACOB ALBERT RUBEL, Dean of the General College and Associate Professor of Education (1970)

B.A., M.A., University of Northern Iowa; Ph. D., Iowa State University, 1969.

HENRY J. RUMINSKI, Associate Professor of Mass Media-Communication (1975)

B.S., M.S., Ph.D., Ohio University, 1972.

HELEN LENORE RYAN, Instructor in Modern Languages (1966)

ROGER N. RYAN, University Architect (May 1976)

B.S., University of Cincinnati, 1958.

RICHARD W. RYMER, Counselor, Testing and Counseling Bureau (August 1970)

B.S., M.A., Kent State University, 1961.

DONALD E. SABATINO, Director of the Gardner Student Center (1963)

ARJAN T. SADHWA, Professor of Accounting (1970)

B.A., B.Com., M.Com., Bombay University; Ph.D., Michigan State University, 1971.

SURINDER K. SAHAI, Assistant Professor of Geology (1977)

B.S., Punjab University, India; M.S., Ph.D., University of Wyoming, 1974.

CHARLES T. SALEM, Assistant Professor in the Community and Technical College (1965)

STANLEY A. SAMAD, Dean of the School of Law and Professor of Law (1959)

B.A., J.D., University of Cincinnati; LL.M., Case Western Reserve University, 1959; LL.M., J.S.D., New York University, 1968.

RAY H. SANDEFUR, Dean of the College of Fine and Applied Arts and Professor of Speech (1950)

B.A., B.S.Ed., Emporia State Teachers College; M.A., University of Colorado; Ph.D., State University of Iowa, 1950.
RAYMOND E. SANDERS, Assistant Professor of Psychology (1969)
EVERETT SANTEE, JR., Manager of the NMR Center and Research Associate in the Institute of Polymer Science (1966)
  B.S., West Virginia State College, 1962.
SIMSEK SARIKELLE, Associate Professor of Civil Engineering (1967)
  B.S., Robert College; M.S., Ph.D., West Virginia University, 1966; P.E., Ohio, West Virginia.
RITA S. SASHAW, Assistant Professor of Education (1975)
  B.S., Western Reserve University; M.A., Ph.D., Case Western Reserve University, 1971.
JOHN M. SCARPITTI, Senior Accountant in Controller's Office (November 1976)
BLIN B. SCATTERDAY, Professor in the Community and Technical College (1964)
RUDOLPH J. SCAVUZZO, JR., Professor of Mechanical Engineering (1973)
  B.S.M.E., Lehigh University; M.S.M.E., Ph.D., University of Pittsburgh, 1962. P.E. Ohio.
BEVERLY L. SCHERBA, Instructor in Bibliography and Cataloger in the Library (August 1970)
PHILLIP H. SCHMIDT, Assistant Professor of Mathematics (1972)
  B.S., M.S., Ph.D., Purdue University, 1972.
ROBERT C. SCHMIDT, Associate Professor of Sociology (1967)
RONALD E. SCHNEIDER, Associate Professor of Physics (1962)
  B.S., The University of Akron; M.S., Polytechnic Institute; M.S., John Carroll University; Ph.D., Case Western Reserve University, 1964.
H. PAUL SCHRANK, JR., Associate Professor of Bibliography, University Librarian and Curator for the Hower House (January 1965)
  B.S., Ohio University, M.S., University of Illinois, 1963.
FREDERICK M. SCHULTZ, Associate Professor of Education (1969)
  B.S., M.S., Ph.D., Indiana University, 1959.
SUSAN SCHUNK, Instructor of Modern Languages (1971)
  B.S.Ed., Indiana University of Pennsylvania; M.A., The Ohio State University, 1968.
HAROLD M. SCHWARZ, Director of Health Services (1977)
  B.S., University of South Carolina; M.D., Saint Louis University, 1950.
MARGARET E. SEENO, Assistant Professor of Nursing (1976)
  B.S.N., University of Pittsburgh; M.A., Kent State University; M.S.N., Case Western Reserve University, 1976.
JOAN G. SEIFERT, Associate Professor of Education (1967)
GARY E. SELKERS, Assistant Professor of Economics (1976)
  B.A., Shippensburg State College; M.A., Ph.D., University of Cincinnati, 1977.
MICHAEL D. SERMERSHEIM, Legal Assistant in the Office of Student Services (December 1976)
GAYLE A. SEYMOUR, Academic Programmer Analyst, Compu ter Center (December 1976)
JAMES SHANAHAN, Assistant Professor of Urban Studies (1970)
  B.S.S., M.A., West Virginia University; Ph.D., Wayne State University, 1972.
DOUGLAS V. SHAW, Assistant Professor of Urban Studies (1972)
  B.A., Lebanon Valley College; M.A., Brown University; Ph.D., University of Rochester, 1972.
ROBERT J. SHERDLARZ, Assistant Professor of Business Law (1972)
WALTER ALVIN SHEPPE, Associate Professor of Biology (1968)
  B.S., College of William and Mary; M.A., Ph.D., University of British Columbia, 1958.
ELDONNA M. SHIELDS, Assistant Professor of Nursing (1977)
  B.S.N., The Ohio State University; M.S.N., Duke University, 1972.
KARL A. SHILLIFF, Professor of Management (1967)
  B.S.Ch.E., Pennsylvania State University; M.B.A., The University of Akron; Ph.D., Pennsylvania State University, 1971.
RICHARD SHIRLEY, Associate Professor of Music (1967)
  B.M., Oberlin College; M.M., University of Illinois, 1965.
MARTIN H. SIEGEL, Assistant Professor of Sales and Merchandising (1972)
KENNETH T. SILOAC, Associate Professor of Speech (1971)
ANDREW L. SIMON, Professor of Civil Engineering and Executive Director of Institute for Technological Assistance (1965)
  C.E. Diploma, Technical University of Budapest; Ph.D., Purdue University, 1962, P.E., Ohio, West Virginia, Indiana.
FRANK L. SIMONETTI, Professor of Management (February 1942)
  B.S., The University of Akron; M.B.A., Boston University; D.B.A., Indiana University, 1954.
PAMELA G. SKORMAN, Instructor in Nursing (1976)
  B.S.N. Boston University, 1974.
ROBERT B. SLANEY, Assistant Professor of Psychology (1977)
RAYMOND SLATTERY, JR., Manager-Plant Engineering (February 1968)
B.S., Case Institute of Technology; M.S.T.E., The University of Akron, 1977; P.E., Ohio.

HOWARD K. SLAUGHTER, Professor of Theatre Arts (1967)
B.A., University of California; M.A., University of Hawaii, Ph.D., University of Pittsburgh, 1966.

SALLY KENNEDY SLOCUM, Associate Professor of English (1966)
B.A., Columbia College; M.A., Ph.D., University of Tennessee, 1968.

DANIEL J. SMITH, Assistant Professor of Chemistry (1977)
B.S., Wisconsin State University, Ph.D., University of California-Berkeley, 1974.

FORREST J. SMITH, Instructor in Biology (Wayne General and Technical College) (January 1975)
B.A., Hiram College; M.S., Purdue University, 1974.

FREDERIK N. SMITH, Associate Professor of English (1976)
B.S., Loyola College; M.A., Ph.D., University of Virginia, 1970.

HENRY P. SMITH, Associate Professor of Music (1947)
B.M., Illinois Wesleyan University; M.A., Carnegie Institute of Technology; Ed.D., Columbia University, Teachers College, 1949.

HERBERT W. SMITH, JR., Professor of Modern Languages (1955)
B.A., Brigham Young University; M.A., Ph.D., University of Wisconsin, 1956.

LARRY D. SNIDER, Assistant Professor of Music (1977)
B.S. Illinois State University; M.M.E., North Texas University, 1971.

GLENN H. SNYDER, Instructor in the Community and Technical College (1973)
B.A.Ed., The University of Akron; M.Ed., Kent State University, 1972.

MARK E. SOPPELAND, Instructor in Art (1976)
B.F.A., University of Colorado; M.F.A., Ohio State University, 1976.

ROBERT SOVCHIK, Assistant Professor of Education (1975)
B.S. Kent State University; M.A., Cleveland State University; Ph.D., Kent State University, 1974.

NORMA L. SPENCER, Assistant Professor of Education (1970)

SAMUEL SPINAK, Assistant Professor of Music (1968)
Licentiate, King's College in Sussex (England), 1929; Fellowship, Trinity College in London.

GARY N. SPONSELLER, Academic Programmer/Analyst (July 1977)

SUSAN J. STEARNS, Assistant Professor of Nursing (1974)
B.S.N., Saint John's College; M.S.N., Catholic University of America, 1963.

RAMON F. STEINEN, Professor of Education (1969)
B.A., M.A., Montclair State College; Ph.D., The Ohio State University, 1966.

JANE M. STEINER, Associate Professor in the Community and Technical College (1968)
B.A., The University of Akron; M.A., Western Reserve University, 1945.

RICHARD J. STEINLE, Editor, University News Service (January 1975)
B.A., University of Notre Dame, 1966.

WILLIAM B. STEIS, Associate Professor of Mass Media-Communication (1971)
B.A., University of Notre Dame; M.A., University of Florida; Ph.D., The Ohio State University, 1969.

HOWARD L. STEPHENS, Professor of Chemistry, Professor of Polymer Science and Manager of Applied Research and Executive Officer in the Institute of Polymer Science (1950)
B.S., M.S., Ph.D., The University of Akron, 1960.

WALLACE STERLING, Associate Professor of Theatre Arts (1966)

HARVEY L. STERNS, Assistant Professor of Psychology (1971)
B.A., Bard College; M.A., State University of New York at Buffalo; Ph.D., West Virginia University, 1971.

DONALD P. STORY, Assistant Professor of Mathematics (1976)

WARREN P. STOUTAMIRE, Associate Professor Biology (1966)
B.S., Roanoke College; M.S., University of Oregon; Ph.D., Indiana University, 1954.

ARCHIE M. STRIMEL, Instructor in Physical Education (July 1974)
B.E., M.E., Miami University, 1972.

MARION STROUD, Assistant Professor of Education (1975)
B.S., The University of Akron; M.A., Ph.D., Kent State University, 1976.

FREDERICK JOHN STURM, Assistant to the Dean of the Community and Technical College and Instructor in the Community and Technical College (August 1968)

PHILLIP STUYVESANT, Assistant Professor of Modern Languages (1966)
B.A., Thiel College; M.A., Ph.D., Western Reserve University, 1970.

LINDA ELLISON SUGARMAN, Assistant Professor of Accounting (1970)

MICHAEL N. SUGARMAN, Associate Professor of Education (1970)

RONALD C. SUICH, Associate Professor of Mathematics (1970)
B.B.A., John Carroll University; M.S., Western Reserve University; Ph.D., Case Western Reserve University, 1968.
DENNIS K. SULLIVAN, Assistant Professor of Industrial Technology (1977)
ROBERT C. SULLIVAN, Assistant Director of Placement (July 1976)
B.S., M.Ed., Kent State University, 1976.
THOMAS SUMNER, Professor of Chemistry and Academic Counselor (1960)
B.S., Ph.D., Yale University, 1951.
LUCI A. SWABB, Editor, University Publications (1973)
L. JOEL SWABB, JR., Associate Professor of Mass Media-Communication (1970)
B.A., Muskingum College; M.A., Ph.D., The Ohio State University, 1971.
JOHN C. SWARTZ, Business Manager, E.J. Thomas Performing Arts Hall (1973)
B.S., College of Steubenville, 1970.
GERARD M. Sweeney, Associate Professor of English (1971)
B.S., Manhattan College; M.A., New York University; Ph.D., University of Wisconsin, 1971.
LEONARD SWEET, Professor of Mathematics (1959)
B.A.Ed., The University of Akron; M.Ed., Kent State University; Ph.D., Case Western Reserve University, 1970.
JAMES D. SWITZER, Assistant Professor in the Community and Technical College (1965)
B.A., College of Wooster; M.A., Kent State University, 1965.
JOHN D. SZABO, Assistant Professor of Geology (1975)
B.S., University of Notre Dame; Ph.D., University of Iowa, 1975.
GEORGE L. SZOKE, Assistant Professor of Mathematics (1963)
B.S.M.E., Polytechnical University of Budapest; M.S.E., The University of Akron, 1963.
JAMES W. TAGGART, Associate Professor of Business Management Technology (1969)
B.S., Youngstown State University; M.B.A., Pennsylvania State University; J.D., The University of Akron, 1974.
JOSEPH A. TAKACS, Assistant Professor of Electronic Technology (1973)
CATHERYN TALLAFERRRO, Assistant Professor of English (October 1961)
B.A., The University of Akron; M.A., Radcliffe College, 1940.
VIRGINIA J. TAPPENDEN, Associate Professor of Home Economics (1969)
JOHN L. TATER, Assistant Professor of Aerospace Studies (April 1978)
B.S.Ed., Miami University; M.B.A., University of Wyoming, 1972. Captain, USAF.
HOWARD L. TAYLOR, Professor of Management (1963)
B.S., The University of Akron; M.S., Ph.D., Iowa State College, 1958.
PATRICIA TAYLOR, Assistant Professor of Physical Education (1962)
B.S.Ed., The University of Akron; M.A., Kent State University, 1972.
RONALD TAYLOR, Associate Professor of Art (1964)
TIMOTHY D. TAYLOR, Assistant Director, Computer Assisted Instruction (1973)
JAMES W. TEETER, Professor of Geology (1965)
B.S., M.S., McMaster University; Ph.D., Rice University, 1966.
STUART M. TERRASS, Assistant to the Director of Institutional Research and Academic Personnel (December 1957)
ROBERT M. TERRY, Professor of Sociology (1971)
EDWIN THALL, Assistant Professor of Chemistry (Wayne General and Technical College) (1974)
B.S., Pratt Institute; M.S., New Mexico Tech; Ph.D., The University of Akron, 1972.
GARY R. THAYER, Visiting Instructor in Economics (1976)
FRANCIS B. THOMAS, Director of Computer Services (1970)
B.S., University of Cincinnati; M.A., Kent State University, 1966.
LINDON C. THOMAS, Associate Professor of Mechanical Engineering (1967)
B.S.M.E., Tulsa University; Ph.D., Kansas State University, 1968.
BONNIE J. THOMAS-MOORE, Assistant Professor of Food Service Management (1969)
B.A., M.A., Kent State University, 1969.
JACK E. THOMPSON, Instructor in Business Management Technology (January 1974)
B.S.B.A., Kent State University; M.S., The University of Akron, 1975.
STEPHEN J. THOMPSON, Assistant Professor of Education (1973)
B.S., University of Wisconsin; M.A., University of Northern Colorado, Ph.D., Syracuse University, 1973.
DONALD C. THORN, Professor of Electrical Engineering (1967)
B.S.E.E., Texas & M College; M.S.E.E., Ph.D., University of Texas, 1958. P.E., New Mexico, Ohio.
DAVID H. TIMMERMAN, Associate Professor of Civil Engineering (1962) (1967)
B.S.C.E., M.S., Ohio University, Ph.D., Michigan State University, 1969.
GENE TISDALE, Accountant in Controller's Office (1969)
B.S.B.A., Kent State University, 1953.
SANDRA K. TOPA, Coordinator of Developmental English (May 1975)

CLASICS
Head: Distinguished Professor Theodore T. Duke; Assistant Professors: Robert E. Gaebel, Robert C. McNeil; Instructors: Constantin Dimitriu, Jacqueline Hegbar.

ECONOMICS
Head: Professor Ali Fatemi, Professors: William S. Hendon, James McLain, Ethimios Pournarakis; Associate Professors: Lascelles F. Anderson, Robert R. Black; Assistant Professors: Dennis M. Byrne, Elizabeth Erick-

ENGLISH

GEOGRAPHY
Head: Professor Allan C. Noble; Professors: Ashok Dutt, Edward W. Hanten; Associate Professors: Albert J. Korosok, Laurence J. C. Ma, Thomas L. Nash, Gerald F. Pyle; Assistant Professors: Lathardus Goggins, Vern R. Hannap, John E. Mulhauser.

GEOLGY
Head: Professor Arthur E. Burford; Professors: Robert C. Corbett, Paul C. Franks, James W. Teeter, Paul S. Wingard; Associate Professor: Roger Bain; Assistant Professors: Ronald H. Fewkes, Laverne M. Friberg, Jim L. Jackson, A. W. Kunze, Surinder K. Sahai, John P. Szabo.

HISTORY

MATHEMATICS AND STATISTICS

MODERN LANGUAGES

PHILOSOPHY
Acting Head: Associate Professor Alan Hart; Professor: Paul J. Uhlinger; Associate Professors: David F. Cox, William McMahon; Assistant Professor: James H. Buchanan.

PHYSICS
Head: Professor Charles W. Wilson, III; Professors: Alan N. Gent, C. Frank Griffin; Associate Professors: Harry T. Chu, Roger B. Creel, Walter H. Heintz, Peter N. Henkisen, II, Harry T. Pinniek, Ronald E. Schneider, Ernst D. von Meerwall.

POLITICAL SCIENCE
Head: Associate Professor Carl Lieberman; Professors: Yong H. Cho, Yogendra Malik, Paul A. Weidner; Associate Professors: Vernon F. Cook, Frank J. Kendrick, Jesse F. Marquette; Assistant Professors: Richard Franklin, Katherine Hinckley, David J. Louscher.

POLYMER SCIENCE

PSYCHOLOGY
Head: Professor Gerald V. Barrett; Professors: Alexis M. Anikeeff, John A. Poppiestone, Edwin E. Wagner; Associate Professors: Alex Darbes, Richard H. Haude, Marion W. McPherson, Henry Rosenquist, Kenneth N. Wexley; Assistant Professors: Ralph Alexander, Faye Dambrout, Robert Deitchman, Stephen S. Fugita, Robert G. Lord, Martin D. Murphy, Raymond Sanders, Robert B. Slaney, Harvey L. Sterns.

SOCIOLGY

URBAN STUDIES
College of Engineering

CHEMICAL ENGINEERING
Acting head: Professor Howard L. Greene; Professors: Glenn A. Atwood, Coilema J. Major, Robert W. Roberts, Max S. Willis, Jr.; Associate Professors: Lawrence G. Focht, T. Henry Forsyth, John P. Lencyzk.

CIVIL ENGINEERING

ELECTRICAL ENGINEERING
Head: Professor Donald C. Thorn; Professor: Louis E. Roemer; Associate Professors: Chiou-Shiun Chen, Chufu Chen, Joseph A. Edmister, Robert S. Grumbach, Chaman N. Kashkari, Milton L. Kult, Malcolm R. Railey, John T. Welch, Jr., Richard A. Williams; Assistant Professor: Victor Burke.

MECHANICAL ENGINEERING

College of Education

COUNSELING AND SPECIAL EDUCATION

EDUCATIONAL ADMINISTRATION
Head: Professor Don Birdsell; Professors: James C. King, Isabel L. Pfeiffer, Dick I. Rich, William Root; Associate Professors: W. Henry Cone, Norman M. Griggs, Jr., William A. Rogers, Charles L. Wood.

EDUCATIONAL FOUNDATIONS

ELEMENTARY EDUCATION
Head: Associate Professor Bernard L. Esporite; Professors: Caesar A. Carrino, Robert E. Ferguson, LaVerne J. McConi, Ramon F. Steinem, Maurice G. Williams; Associate Professors: Walter E. Arms, David G. Barr, Angela R. Bruno, Hugh G. Christman, Loren L. Hoch, Martha C. Leyden, Judith A. Noble, Joan C. Seifer; Assistant Professors: Mary Ellen Atwood, Blanche Clegg, Susan J. Daniels, Regis Q. McKnight, Janet R. Reuter, Robert Sovchik, Norma Spencer; Instructors: June M. Alleman, Susan McBride, Judith Pearce, John W. Wilson.

ACCOUNTING

PHYSICAL EDUCATION

SECONDARY EDUCATION
Head: Associate Professor Larry G. Bradley; Professor: Oliver Ocasek; Associate Professors: Madeline A. Cooke, Bill J. Frye, John J. Hirschbuhl, Joy S. Lindbeck, Marion A. Ruelb, Michael N. Sugarman, Walter; H. Yoder; Assistant Professors: Robert K. Eley, Harold M. Foster, Lillian M. King, Stanley P. Mengel, Stephen J. Thompson.
FINANCE
Acting Head: Professor Arpad F. Banda; Professors: James W. Dunlap, Michael P. Litka, Frederick W. Moyer, Charles F. Poston; Associate Professors: Thomas J. Coyle, David R. Durst, James E. Inman, Mario J. Picconi, John D. Williams; Assistant Professors: Edward L. Baxter, Robert J. Shedlarski.

MANAGEMENT

College of Fine and Applied Arts
ART
Head: Professor Warren A. Wolf; Professor: Irving A. Achorn; Associate Professors: Earl L. Ertman, William A. Neumann, Ronald D. Taylor; Assistant Professors: Bruce R. Armstrong, Charlotte M. Hanten, Donald E. Harvey, Lorena M. Holshoy, Dennis A. Kleidon, James V. Lenavitt, Christopher P. Meyer, Dennis A. Meyer, Thomas D. Webb; Instructors: Walter M. Hens, Kathleen A. Ricks, Mark E. Soppeland.

HOME ECONOMICS AND FAMILY ECOLOGY

MASS MEDIA — COMMUNICATION
Acting Head: Professor Ruth B. Lewis; Professor: James V. Fee; Associate Professors: John D. Bee, William B. Steis, L. Joel Swabb, Jr.; Assistant Professors: David L. Jamison, Thomas T. Miles, Henry J. Ruminski.

MUSIC

THEATRE ARTS AND DANCE
Head: Professor James F. Dunlap; Professors: Elizabeth Hittle, Ray H. Sandefur, Howard K. Slaughter; Associate Professors: Paul A. Daum, Phyllis Hardenstein, Wallace S. Sterling; Assistant Professors: Marc C. Osznich, Instructors: Jerry J. Burr, Alexander N. Davis, Kathleen M. Davis.

College of Nursing

MARKETING
Head: Professor Stephen S. Castle; Professor: Frank V. Baldo; Associate Professors: Michael F. d’Amico, David P. Loyd; Assistant Professors: Donald M. Jackson, Kenneth E. Mast, George E. Prough; Instructor: Lawrence J. Marks.

SPEECH PATHOLOGY AND AUDIOLOGY
Head: Professor George D. Davis; Professor: Elaine Z. Lasky; Associate Professors: Charlotte L. Essner, John H. Ramey, Kenneth T. Siloac; Assistant Professors: Anitra S. Barkley, Patsy B. Blackwell, Mary Capotosto, Bernard J. Clifford, Donald E. Hall, Patricia B. Kricos; Instructors: Gloria J. Bogess, Lisa P. Gwyther, Karen B. Turner, Winifred Watson-Florence.
School of Law

Wayne General and Technical College

University Library

University Librarian: Associate Professor H. P. Schrank, Jr.; Associate Professors: Ruth Clinefelter, Pauline Franks, Anna M. Voorhees; Assistant Professors: Virginia L. Allanson, Margaret B. Guss, Jack E. Hibbs, Jr., Miriam A. Joliat, Nancy A. Knight, Helen Livingston, John V. Miller, Beatrice Montgomery, Judith K. Mowery; Instructors: David R. Brink, Barbara L. Clark, Judith L. Fitzgerald, Julie A. Gammon, Marcia T. Ladd, Beverly L. Scherba.
Reserve Officers’ Training Corps

Richard L. Hansford, Vice President and Dean of Student Services
Civilian Coordinator
December 1977

ARMY
DONALD V. HALLOCK, Professor of Military Science (August 1975)
B.S., University of Wisconsin; M.Ed., Eastern Michigan University, 1969; Graduate of the U.S. Army Command and General Staff College, Lt. Col., Infantry.
JAMES L. GANO, Assistant Professor of Military Science (1976)
A.B., M.A., Eastern Kentucky University; M.S., University of Southern California, 1975, Captain, Military Intelligence.
JAMES M. KELLY, Assistant Professor of Military Science (1977)
B.A., Cameron University, 1974, Major, Artillery.
CHARLES L. KOHL, JR., Assistant Professor of Military Science (1977)
B.A., Valparaiso University, M.B.A., Adelphi University, 1974, Captain, Transportation.
MARGARET A. MURRAY, Assistant Professor of Military Science (1975)
B.S., Virginia State University, 1969, Captain, Signal Corps.
PAUL LEWIS, Chief Enlisted Instructor (1976)
Sergeant Major.
AUGUST BROOKS, Operations NCO (1977)
Sergeant First Class.
EDWIN SHUTTE, Supply Supervisor (1974)
Staff Sergeant.

AIR FORCE

EDWARD P. MAZAK, JR., Professor of Aerospace Studies (June 1974)
CAROL A. CARTER, Admissions Counselor—Northern Ohio (September 1976)
B.A., M.A., University of Arkansas; M.A., Troy State University, 1978, Captain USAF.
ROBERT M. GARLOW, Assistant Professor of Aerospace Studies (August 1974)
B.S., Slippery Rock State College; M. S., Southern Illinois University at Edwardsville, 1974, Major, USAF.
JOHN L. TARTAR, Assistant Professor of Aerospace Studies (April 1976)
B.S., Miami University; M.B.A., University of Wyoming, 1972. Captain, USAF.
FRED W. BEER, NCOIC Cadet Personnel (September 1975)
Technical Sergeant, USAF.
DONALD E. HAZLETT, NCOIC Administration (September 1975)
Technical Sergeant, USAF.
THOMAS E. WHITMYER, Detachment NCOIC (June 1977)
Staff Sergeant, USAF.

Institute of Polymer Science

December 1977

MAURICE MORTON, Director of the Institute of Polymer Science and Regents Professor of Polymer Chemistry (October 1948)
B.S., Ph.D., McGill University, 1945.
ALAN N. GENT, Assistant Director of the Institute of Polymer Science and Professor of Polymer Physics (April 1961)
B.S., Ph.D., University of London, 1955.
LEWIS J. FETTERS, Associate Professor of Polymer Science and Associate Professor of Chemistry (1971)
B.A., College of Wooster; Ph.D., The University of Akron, 1962.
T. HENRY FORSYTH, Research Associate, Associate Professor Chemical Engineering (1970)
B.S.C.E. University of Kentucky; M.S., Ph.D., Virginia Polytechnic Institute, 1967, P.E., Ohio.
JOHN E. FREDERICK, Associate Professor of Polymer Science and Associate Professor of Chemistry (1966)
B.S., Glenville State College; Ph.D., University of Wisconsin, 1964.
H. JAMES HARWOOD, Professor of Polymer Science and Professor of Chemistry (October 1959)
B.S., The University of Akron; Ph.D., Yale University, 1956.

JOSEPH P. KENNEDY, Professor of Polymer Science and Professor of Chemistry (1970)
B.Sc., University of Budapest; Ph.D., University of Vienna; M.B.A., General Business, Rutgers University, 1961.

DONALD MCINTYRE, Professor of Polymer Science and Professor of Chemistry (1966)
B.A., Lafayette College; Ph.D., Cornell University, 1954.

EBERHARD A. MEINECKE, Professor of Polymer Science and Professor of Mechanical Engineering (October 1963)
D. Eng., Institute of Technology (Braunschweig, Germany), 1960.

IRJA PIIRMA, Associate Professor of Polymer Science (December 1952)
Diploma in Chemistry, Technische Hochschule of Darmstadt; M.S., Ph.D., The University of Akron, 1960.

EVERETT SANTEE, JR., Manager of the NMR Center, Research Associate (1966)
B.S., West Virginia State College, 1962.

HOWARD L. STEPHENS, Executive Officer, and Manager of Applied Research, Institute of Polymer Science, Professor of Polymer Science and Professor of Chemistry (1950)
B.S., M.S., Ph.D., The University of Akron, 1960.

CHARLES W. WILSON, III, Research Associate, Professor of Physics and Professor of Polymer Science (1965)
B.S.E., M.S., University of Michigan Ph.D., Washington University, 1952.

DAVID WINKLER, Research Associate (1959)
B.S., Ashland College; M.S., The University of Akron, 1972.
