

Community and Industry Graduate Research Assistant Program (CIGA)

The Community and Industry Graduate Research Assistant Program (CIGA) is intended to further graduate education by providing students with opportunities to refine their training in settings where they can also contribute to the quality of work and community life. The Program links graduate students to on-going work in the community through the mechanism of organization sponsored assistantship opportunities.

The CIGA relationship is established by a standard contract between the sponsor and UA. All CIGAs will follow the same guidelines as internal graduate assistantships, with assistantship periods following the dates of the academic terms as shown in the table below. Twelve month CIGAs should start at the beginning of a semester.

Assistantship duties must be consistent with the educational needs of the students as well as providing a benefit to the sponsoring organization. An Academic Project description outlining the experience to be gained by the student is required for all CIGAs and must be signed by the academic advisor.

- **International students are not eligible for the CIGA program unless they are authorized for off-campus employment. It is the department's responsibility to check with the International Center if they are uncertain whether a student is considered "international" for purposes of this policy.**
- **All CIGAs are limited to 20 hours/week.**
- **Students must be registered and eligible for a GA Contract. The student must be registered for at least 9 credits each AY semester and 6 in summer. It is the department's responsibility to verify this before sending a CIGA contract to ORA.**
- **Stipend amounts must meet the minimum standards set by the University for the students' program or degree.**
- **All CIGA agreements must be received by ORA by the established deadline, or the CIGA will be terminated and the student's GA contract cancelled.**

Standard Deadlines:

- Contract to ORA for review - 4 weeks prior to start date
- Signed contract returned to ORA - 2 weeks prior to start date
