

Hello my name is Pamela L Woodall Caine

I am currently a Secretary at the University, working with the Office of Leadership & Development, Associated Student Government and the Department of Student Life. I've been at the University for the past 18 years, and have seen remarkable changes occur, over those years. I've always been actively involved in working with a great many students who attend the University, across many disciplines.

I've also had the opportunity to work with a great many coworkers at the University, within and outside of my department, I believe at every level of the University, and have always taken the opportunity to put a name with the faces of those coworkers, by introducing myself and being willing to assist them in any capacity that I can. I believe I've built a great many positive relationships within our University community. I am an Akron Native, married with 3 adult children and 4 lovely granddaughters. My best hobby would be watching movies, and traveling. I enjoy being with my families and friends.

Lastly, my desire to be part of SEAC falls within the uncanny knack that I have in helping people. I have had great opportunities to support the friends and coworkers that I have served with at the University, as well as students, as a mentor, a friend and coworker. I believe that we should act on being a part of the University, outside of the scope of our jobs and support each other wherever we can and with whatever talents and abilities that we have, so I try to offer my support as much as I can and to meet the needs that our University, coworkers and students may have, by providing support, answers and assistance as needed. Thank you for supporting the opportunity for me to continue to be a valuable asset to you – The University of Akron.
