President’s Remarks

Discussion

President Wilson thanked members for their service to University Council. He asked members to look at issues/ideas with shared responsibility and to be flexible, creative, and innovative. Doing things for the sake of tradition may not be the best route.

He talked about a Japanese company he worked for that challenged employees to find something within their division/department to improve upon – this is the mentality he would like everyone to have. He encouraged members to think about:

- What best serves our students
- What can we do to make something better
- How can we be more efficient

He is happy to be part of the UC and looks forward to working with everyone to better the institution.
Provost Ramsier discussed the Higher Learning Commission (HLC) visit scheduled for mid-February (Valentine’s Day). The campus community (including undergraduate and graduate students) has been asked to submit evidence from their own experience that demonstrates that we meet one or more of the HLC’s criteria. He stressed the importance of campus participation and asked members to complete the survey. He also asked USG and GSG leadership to encourage students to participate.

The UC Bylaws were approved by the Board of Trustees in June 2016. Now, we must prove to the HLC team that University Council is functioning effectively.

There are UC members on the HLC writing teams. A draft of the HLC report will be posted online for a 10-day public comment period in November and the final report will be submitted to HLC in mid-December. During the HLC site visit, there will be an open forum for students, faculty and staff.

1. Nathan Mortimer and Shiva Sastry presented the attached FY16-FY18 Budget Conversation PowerPoint.

   The following is a summary of the discussion:
   - The FY16 financial metrics for higher education were discussed. Nathan will share the FY17 metrics with the Budget and Finance Committee in November.
   - $18 million of university reserves will be used to stabilize the FY17 budget. We will manage the budget through position control.
   - Ernst & Young will provide a snapshot of UA’s financial situation and help us find ways to save money and generate revenue.
   - Ohio put a freeze on tuition. The Legislature may put a cap on fees. The Senate has challenged Universities to develop a plan to reduce the cost of attendance by 5%.
   - The Budget and Finance Committee will bring the FY18 budget proposal to the UC.

2. The following motion was made regarding IDC funds:
   WHEREAS, the University Council Budget and Finance Committee finds that there is approximately $1.8 million in 270 accounts accumulated over the years that comprise the current faculty component of Indirect Cost Recovery (IDC) distribution; and

   WHEREAS, the members of the Budget and Finance Committee believe that the release of these said funds is important for supporting research of the individual investigators; and
WHEREAS, the members of the Budget and Finance Committee believe that releasing these funds to the individual Principal Investigators will not cause excessive burden on the finances of the University of Akron; and

WHEREAS, the members of the Budget and Finance Committee recognize that it would be better to delay the creation of policies governing the finances of the institution until the upcoming review of the finances has been completed by the externally engaged party Ernst and Young; and

WHEREAS, the members of the Budget and Finance Committee, after due consideration, find that the release of these said funds will help to improve the morale among faculty; Now, Therefore,

BE IT RESOLVED, that the University Council Budget and Finance Committee unanimously recommends the release of said $1.8 million in 270 individual accounts to the respective individual Principal Investigators for use in accordance with the policies established for expenditure of IDC funds; and

BE IT FURTHER RESOLVED, that the University Council recommends that released IDC be expended in a manner which facilitates the PI’s research activities and research portfolio and, it is expended prudently as it is University Council’s desire for the released funds to remain available for PI expenditures should the funds remain unexpended on June 30, 2017; and

BE IT FURTHER RESOLVED, that the University Council Budget and Finance Committee recognizes this resolution as a tactical fiscal decision and not as an enduring permanent policy. The University Council further recommends that a broader institutional policy be pursued and implemented regarding the intended purpose of IDC and its collection, allocation, and expenditures.

The motion carried by a secret ballot vote of 18 in favor and 2 opposed.

3:45 – 4:50
