If I Uploaded the Wrong Artifact, Can I Delete It?

From the Home page click on the Artifacts tab. Click on Browse in the left column. Make sure you are in the All Artifacts view. Click in box next to the file you wish to delete.

Then press Delete . A dialog box will appear confirming it is OK to Delete this Artifact.

If you select OK, the Artifact will be permanently deleted.

If you select Cancel, the dialog box will disappear and you will remain in the Artifacts screen.
