Construction Engineering Technology
Construction Management Certificate (299104C)

The following information has official approval of The University of Akron's College of Applied Science and Technology but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, and prerequisites, among others.

This program is aimed at developing technical knowledge and skills necessary to supervise a construction project. This certificate may be earned independently of earning a degree, but all coursework can be applied to an A.A.S. degree or the B.S. degree in Construction Engineering.

The following courses constitute a "Certificate in Construction Engineering Technology – Construction Management" and must be completed with a minimum grade point average of 2.0 over-all for the certificate to be noted on the student's record.

✓	Courses		Credits	Prerequisites
	2990:352	Field Management and Scheduling	2	2990:245 or permission
	2990:358	Advanced Estimating	3	2990:245 or permission
	2990:359	Construction Cost Control	3	6200:201 or 2420:211
	2990:453	Legal Aspects of Construction	2	Admission into the BCET program or permission of instructor
	2990:468	Construction Management	3	2990:352 and 2990:358
	2990:479	CPC Seminar	3	Must be senior level status towards a B.S. degree in Construction Engineering Technology or permission of instructor
		Total Credits for Certificate	16	

Because most of the required courses have prerequisites, student should consult with the program director of the Construction Engineering Technology program for a contract before beginning course work.
