Construction Engineering Technology
Residential Inspection Certificate (299109C)

The following information has official approval of The University of Akron's College of Applied Science and Technology but is intended only as a guide. Completion of this certificate is contingent upon many factors, including but not limited to class availability, total number of required credits, work schedule, finances, family, course drops/withdrawals, successfully passing courses, and prerequisites, among others.

This certificate program is aimed at developing technical knowledge and skills necessary to conduct residential inspection. This certificate may be earned independently of earning a degree, but all coursework can be applied to an A.A.S. degree or the B.S. degree in Construction Engineering.

The following courses constitute a "Certificate in Construction Engineering Technology – Residential Inspection" and must be completed with a minimum grade point average of 2.0 over-all for the certificate to be noted on the student's record.

✓	Courses		Credits	Prerequisites
	2990:150	Plan Reading	2	2990:131
	2990:131	Building Construction	2	
	2990:310	Residential Building Construction	3	
	2990:312	Neighborhood Revitalization Project	3	
	2990:462	Mechanical Service Systems	3	
	2990:463	Electrical Service Systems	3	
		Total Credits for Certificate	16
