

## Buchtel College of Arts and Sciences

### Geology (3370)

#### Certificate: Environmental Studies (337004C)

To qualify for the certificate program, students must request admission to the program by completing the certificate application form. If currently enrolled in a degree program, they must be in good academic standing with their major department. A plan of study will be developed in consultation with the director of the certificate program, and must be approved by the director. To satisfy the requirements, a student must complete the core courses and 11 credits from the list of elective courses or other courses identified as acceptable by the director. Elective courses will be selected from outside the student's academic major.

The awarding of this certificate is not contingent on enrollment in, or completion of, a degree program.

|  |                                | Credits |
|--|--------------------------------|---------|
| <b>Core:</b>                             |                                |         |
| 3370:211                                 | Intro to Environmental Science | 3       |
| 3370:480                                 | Sem: Environmental Studies     | 2       |
| <b>Electives (minimum of 11 credits)</b> |                                |         |

| <b>Distribution Requirements</b>   |
|--|
| This curriculum guide is a recommended plan of study. Students with questions about requirements should contact an academic advisor.   |
| Contact the Director of the <a href="#">Center for Environmental Studies</a> to develop a program including the core requirements to fulfill remaining electives. Electives must be from a minimum of three departments and be approved by the Director. |
| The following credit hour requirements apply to this certificate: 16 credits.  |
