How to Request Accommodations

Log into STARS and navigate to the Accommodation Requests section on your Dashboard.

Select the plus sign or Add Requests to begin to select your accommodations. Select the checkbox beside each course, for which you would like to request accommodations. Then select Continue to Next Step.

If any courses are non-lecture, confirm that you do wish to proceed with requesting accommodations and select Continue to Next Step.

Select accommodations is only for accommodations that require pre-semester coordination. Please note that only accommodations for which you are eligible and need coordination, will show under Select Accommodations. For each course, select any clickable accommodations and then submit your accommodation request by selecting Submit Request under Final Step.
