Our inactive count of 81 non-renewals includes 49 new members from 2017-2018 cohort and 31 non-renewals from previous years.

Franks reports that he has issued 7 mailings for this academic year which includes the first 2 mailings by email and the remainder by US mail.

Frank also noted that our Foundation donations as of November totaled $4,199.

Frank also continues to provide the Florida weather report with each winter report he provides, however the Board prefers it be omitted from the minutes.

E. Faculty Senate. Ali Hajjafar provided the following Faculty Senate report for the December 6th meeting:

Chair Saliga called the meeting to order. In her remarks, she asked the committees to submit their reports on time which should be at least one week prior to the senate meeting.

President Green did not attend the meeting that day. He was getting ready to go to California to support The University’s Soccer team.
Provost Ramsier in his remarks reported on a new and improved program review process. He said the plan for this process begins with meetings with Deans and Department Chairs. He said the number of applicants for Fall 2019 is good. We have received 1300 more application in comparison with the same date as last year. 144 students have confirmed. He invited Marnie Sanders and Joe Wilder to present an outline for the new program review. After their presentation there were a lot of questions and answers. One important change from previous the program review procedure was the inclusion of the opinion of the Senate Curriculum Review Committee (CRC). Another was to include external reviews from off campus.

In committee reports, CRC reported on a new curriculum proposal system. For this new system, they requested some changes in the process of reviewing the proposals (for example elimination of DLRC and URC from the process). The requests received approval of the Senate.

Senate approved a recommendation from APC that Faculty Senate vote to formally object to the procedures used in the recent academic program cuts on the grounds that the administration did not share governance in the final decision-making phase of the process. Specifically, administration did not:
1) Use appropriate and available mechanisms to ensure that information used to make decisions was factually correct,
2) Allow the University community the opportunity to respond before supposedly irreversible actions were taken,
3) Allow individual programs to address items unique to their programs that would have resulted in better-informed decisions, or
4) Act in accordance with its own numerous verbal assertions that no cuts would be made on the basis of the outcomes of this process.

Also the Senate approved the following admission policy changes for ELI and other international students
1) International students who wish to enroll at UA for an undergraduate degree will no longer be required to present an ACT/SAT score to be considered for admission, but will be recommended. Admission acceptance or denial would be based on high school performance (according to each country’s equivalency of a high-school diploma) and other valid and predictive indicators of potential for academic success.
2) International students who need help with English proficiency would be permitted to enroll in UA’s English Language Institute (ELI) regardless of nonimmigrant status (as long as their status does not prohibit study), and independent of whether or not they intend to pursue an undergraduate or graduate degree at UA.

F. University & Community Service/Website. Dan Sheffer reported that he will upload the corrected minutes from October and the December minutes shortly.

G. Scholarship. Carl Lieberman reported that current values of our endowment will not be available until March.
