The Movement Project Summer Intensive 2023 Pre-Professional Program Date: July 24th - July 29th

# **ABOUT The Movement Project:**

The Movement Project is a professional non-profit dance company located in Cleveland Ohio. Our mission is to challenge perspectives, evoke social change, and bridge communities through the power of movement. TMP redefines the status quo and questions predetermined notions of what should be. We do so by creating thought-provoking work, providing affordable and accessible dance education and performance to all communities, making space for dance, and providing programming that meets the needs of today's local artists.

## **SUMMER INTENSIVE:**

This summer marks TMP's 9th annual summer intensive for pre-professional artists, welcoming over 40 participants. Our intensive is geared towards the serious-minded dancer interested in furthering themselves as an artist in both technique and performance skills. Our program provides a rigorous daily schedule taught by TMP artistic directors, company members, as well as notable guest artists in the professional dance field. Our curriculum focuses on modern-contemporary dance forms, ballet, improvisation, composition, TMP repertoire, injury prevention, and somatic practices. In addition to movement courses, students will have the opportunity to receive professional dance action shots by our resident photographer.
