Dental coverage plays an important role in your overall health and well-being. Regular dental check-ups can help in the early detection of other health-related issues. In fact, according to the American Academy of Periodontology, gum and tooth diseases have been linked to a number of major health problems like heart disease, stroke, respiratory disease and diabetes.

Your employer recognizes the significance of good oral health. That is why they chose Dental Blue 200, offering you the flexibility of using your dental benefits in the way that is best for your needs.

Dental Blue 200. More reasons to smile.
Greater Access

Anthem Blue Cross and Blue Shield realizes that it can be difficult to change your dentist or dental plan – that is why we built the Dental Blue PPO network – two network tiers that together represent one of the nation’s largest PPO networks.

There is a strong likelihood that your dentist is in a Dental Blue network tier because we cover 150,000 dental locations nationally. The Dental Blue 200 network tier provides access to 100,000 locations allowing you greater access to more dental providers and increased flexibility in managing your dental benefits.

More Flexibility

Visiting a dentist in your Dental Blue 200 network tier enables you to receive the greatest cost savings. However, if your dentist is in the 300 network tier, you will still have the advantage of the Dental Blue negotiated rates through your out-of-pocket costs may be slightly higher.

Dental Blue 200 - How it Works

The chart below illustrates the cost differences between the Dental Blue 200 and 300 base network tiers – these are only examples and the plan your employer has selected may vary.

Example: Joann is enrolled in Dental Blue 200 and visits her dentist for preventative services (exam, cleaning, x-rays). Joann does not have a deductible for preventative services, which means the plan covers 100% of the cost.

Joann will save the most by visiting a Dental Blue 200 dentist but will still have significant savings if her dentist is in the Dental Blue 300 network tier.

Always – Quality Care

All Dental Blue dentists are credentialed providers. Our contracted specialists – like oral surgeons and periodontists – participate in both Dental Blue network tiers.

Additionally, all Dental Blue plans offer the following important advantages:

> Access to negotiated discounts for non-covered services such as teeth whitening
> Access to negotiated discounts after your annual maximum has been met
