*Presentation of candidates are in the order of college founding date.
The pageantry of commencement is rooted in traditions that are centuries old. The following information is designed to assist you in understanding the significance of these ceremonial rites.

**Processional**
The academic processional is an official prelude to the commencement ceremony. The University marshal leads the procession, bearing the University Mace, which represents the authority of both the University and of the state. Following the University marshal are the members of the platform party, including trustees, recipient(s) of honorary degrees, and the president of the University, who wears a medallion with inscriptions representing the history of the state and the University. Next come the members of the faculty followed by the degree candidates.

The marching order of candidates customarily reflects the historical order in which the various colleges or schools of the University were established. Led by marshals, the candidates for degrees march in with their respective colleges.

**Academic Attire**
The academic regalia worn at commencement is of medieval origin. The scholars of Bologna, Paris, Oxford, Cambridge, and Heidelberg dressed in a manner to distinguish themselves from the merchants and other townsmen. When the universities first came into being in the 11th century, “learned clerks” robed themselves in gowns, caps, and hoods, thus signifying the distinction between “town” and “gown.” As additional universities came into being, their faculties adopted distinctive forms of the gown and hood for bachelor's, masters’, and doctors.

These customs are reflected in today’s academic attire. In Europe, a professor generally wears the type of garment customary in the university where he or she is lecturing. In the United States, however, professors wear the gown and hood of the university where they earned their highest degree.

**Hoods**
A triangular fold of cloth worn over the back of the gown, the hood is faced with colors which denote the field of study represented by the wearer’s degree. The colors of the lining indicate the college or academic discipline in which the degree is granted. Recipients of the doctor of philosophy degree wear royal blue hoods, and their caps feature golden tassels. Those who have earned the doctor of education degree wear light blue hoods and tassels.

**Colors**
The various colleges and academic disciplines of The University of Akron are represented by the following hood and tassel colors:

- White: Arts and Sciences
- Drab: Business
- Silver: Summit College, Associate’s
- Black: Summit College, Bachelor’s
- Light Blue: Education
- Orange: Engineering
- Dark Brown: Fine and Applied Arts
- Purple: Law
- Peach: Nursing
- Gold: Polymer Science and Polymer Engineering
**Banners**

The impressive backdrop for the ceremony consists of the banners of the eleven colleges and the Graduate School. Each banner bears the name, founding date, and traditional colors of the college it represents. Banners were first instituted at The University of Akron in the spring of 1995.

**The University Seal and the Presidential Medallion**

A seal serves to confirm, ratify, or secure an emblem, symbol, or word that is used to certify a signature or authenticate a document. The use of official seals dates back to the Norman Conquest in 1066. During the next century, seals were used throughout England to authenticate documents. Persons of rank had unique seals befitting their status. Most seals were circular or oval-shaped and bore heraldic designs embossed on their faces.

The use of seals became part of academic tradition in the medieval university and continued to the present. The University of Akron, for example, displays its seal on diplomas presented to its graduates.

The coat of arms shown on the University’s seal includes an open book and quill, representative of the University’s original liberal arts curriculum. A lamp of learning shown against a city skyline depicts the University’s metropolitan setting. Three diagonal bars represent the private, municipal, and state stages of the University’s history. The phoenix, a mythical bird that is consumed by fire and rises from its ashes to achieve greater glory, is a tribute to the University’s rebirth following the devastating fire of 1899. The seal also displays the original Buchtel College motto, *Fiat Lux* (Let there be light).

The University’s current Presidential Medallion, as designed in the year 2000 by renowned artist Don Drumm, consists of the University seal, set in a necklace of pewter. Originally, the Presidential Medallion was presented by the Alumni Association in 1970, commemorating the University’s centennial. The medallion is a symbol of the authority of the president, as bestowed by the Board of Trustees, that traditionally is worn by the president on important ceremonial occasions.

**The Ceremonial Mace**

The Ceremonial Mace was presented to The University of Akron by the Alumni Association on Founders Day 1970, in recognition of the University’s founding 100 years earlier as Buchtel College.

Since ancient times, maces have been symbols of authority for many academic and governmental bodies. The University of Akron’s Ceremonial Mace is carried by the University marshal at all formal academic occasions.

The most distinguishing feature of the Ceremonial Mace is the rising phoenix. A mythical bird that rose anew from its ashes to achieve even greater glory, the phoenix is a fitting symbol for the University whose predecessor, Buchtel College, suffered a disastrous fire in 1899 and was rebuilt through the generous support of alumni and the community.

Mrs. Diane C. Fisher will receive the Honorary Doctor of Humane Letters.

DIANE C. FISHER

Mrs. Diane C. Fisher is a devoted friend and alumna of The University of Akron. She has demonstrated her commitment to excellence in higher education through selfless contributions of her time and abilities on The University of Akron Board of Trustees. In addition, Mrs. Fisher and her late husband, Ronald, generously established two educational resources in the College of Business Administration that have made the University a national leader in the education of sales and sales management professionals.

In 1990, Mr. and Mrs. Fisher funded the construction of the Carl V. and Clyde A. Fisher Sales Laboratory. The state-of-the-art facility is located within the College of Business Administration building, and includes electronic observation and videotape analysis of students as they hone their sales techniques. It is believed to be the first university lab in the U.S. devoted solely to sales education and training.

Just three years later, the Fishers greatly expanded their commitment by establishing the Ronald R. and Diane C. Fisher Institute for Professional Selling. The institute’s mission is to enhance the image of the sales profession; to promote professional selling and sales management as rewarding, lifelong careers; to provide high-quality instruction to University students through sales major, minor, and certificate programs; to provide outstanding training to sales executives; and to conduct research that advances the field of sales.

As a result of these efforts, the University’s program is ranked as one of the six best sales programs in the country, at both the graduate and undergraduate levels, according to Sales and Marketing Management Magazine. The program’s prestige has created significant career opportunities for Akron graduates.

The Fishers’ efforts to support and enhance the profession of selling and sales management earned them a Special Recognition honor at the 33rd Annual National Sales and Marketing Month Awards Program in 2005.

Although Mr. Fisher’s lifetime career in sales made this area a natural focus for the couple’s philanthropic activities, both he and Mrs. Fisher devoted their time and energy to support the University’s overall academic mission. Both served on the University’s Board of Trustees: Mr. Fisher from 1995 until his death in 1997, and Mrs. Fisher from 2000 to 2006.

Mrs. Fisher was an active member of the Board of Trustees, chairing the External Affairs Committee and serving on the Facilities Planning and Oversight; Nominating; Rules; and Strategic Issues, Governance and Compliance committees. She also served as the Board’s representative on the Board of Friends of the Hower House, which oversees policies, operations, and fund raising for the Victorian mansion on the University campus.

A vice president of Ronald R. Fisher Associates, Mrs. Fisher is a longtime resident of Akron, and has four daughters.
Graduation With Distinction

To graduate with distinction, students must have maintained specified levels of academic achievement directly related to quality points earned for all undergraduate courses taken. The maximum quality point ratio possible is 4.00.

To qualify for these honors distinctions, students must be receiving a baccalaureate degree, having earned a minimum of 64 credits at The University of Akron; or an associate degree, having completed a minimum of 32 credits at The University of Akron.

The honors levels for each group are described as follows.

<table>
<thead>
<tr>
<th>Baccalaureate Honors Designation</th>
<th>Cum Laude</th>
<th>quality point ratio of 3.40 to 3.59</th>

Excellence Scholars

Excellence Scholars have completed the graduation requirements of their baccalaureate majors with cumulative quality point ratios of at least 3.50. Representing the highest scoring applicants when they entered the University as freshmen, Excellence Scholars have maintained at least that quality point ratio throughout their undergraduate careers.

Polymer Science
B Tech, Indian Institute of Technology Delhi
Dissertation: “Self-Assembled Polystyrene-Block-Poly (Edylene Oxide) (PS-b-PEO) Micelle Morphologies in Solution”
Adviser: Dr. Stephen Z. Cheng

Sphurti Bhargava
Polymer Science
BE, University of Mumbai, India; MTD, University of Twente, Netherlands
Dissertation: “Submicron Size Structures, Electrospinning and Filters”
Adviser: Dr. Darrell H. Reneker

Tae-Eun Chang
Polymer Science
BS, MS, Hanyang University, Korea
Dissertation: “Microscopic Mechanism of Reinforcement and Conductivity in Polymer Nanocomposite Materials”
Adviser: Dr. Alexei P. Sokolov

Pratyush Dayal
Polymer Science
B Tech, Banaras Hindu University, India
Dissertation: “Dynamics and Morphology Development in Electrospinning of Polymer Solutions”
Adviser: Dr. Thein Kyu

Fatih M. Erguney
Polymer Science
BS, Bogazici University, Turkey
Dissertation: “Coarse-Grained MC Simulations of Polymer Nanocomposites”
Adviser: Dr. Wayne L. Mattice

Atanas V. Gagov
Polymer Engineering
BE, Technical University – Sofia, Bulgaria
Dissertation: “Instabilities in Elongation Flows of Polymers at High Deborah Numbers”
Adviser: Dr. Arkady I. Leonov

Founded 1914
Dean George K. Haritos

DOCTOR OF PHILOSOPHY

Wael Moh'd Alkasawneh
Engineering – Civil
BS, Jordan University of Science and Technology; MS, The University of Akron
Adviser: Dr. Ernian Pan

Dingfeng Deng
Engineering – Mechanical
BE, Wuhan University of Hydraulic & Electric Engineering, China
Dissertation: “A Numerical and Experimental Investigation of Taylor Flow Instabilities in Narrow Gaps and Their Relationship to Turbulent Flow in Bearings”
Adviser: Dr. Minel J. Braun

Bilal Mohamad Issam El-Zahab
Engineering – Chemical
BS, Middle East Technical University, Turkey
Dissertation: “Multi-enzyme Biocatalysis Using Nano-structured Materials for Bioprocessing Applications”
Adviser: Dr. Ping Wang

Gridsana Pensomboon
Engineering – Civil
BE, Rangsit University, Thailand; MS, The University of Akron
Dissertation: “Landslide Risk Management and Ohio Database”
Adviser: Dr. Robert Y. Liang

Feng Song
Engineering – Chemical
BE, Tsinghua University, China; MS, West Virginia University
Dissertation: “Water Droplet Movements on Wettability Gradient Surfaces”
Adviser: Dr. Bi-min Zhang Newby

Yiou Wang
Engineering – Mechanical
BE, Zhejiang University, China; MS, The University of Akron
Dissertation: “Numerical Study of Rapid Hybrid Micromixers For Lab-on-a-Chip Applications”
Adviser: Dr. Jiang John Zhe

Zhiqiang Yu
Engineering – Chemical
BE, MS, Zhejiang University, China
Dissertation: “Transient Studies of Ni-, Cu-Based Electrocatalysts in CH, Solid Oxide Fuel Cell”
Adviser: Dr. Steven S. Chuang

Together with all the rights and privileges pertaining thereto.

Wampner

Chairman of the Board of Trustees

Dean

Secretary of the Board

Twelfth day of May, 2007.

A present-day diploma awarded at The University of Akron.

One of oldest known diplomas awarded at The University of Akron.
This statue of John R. Buchtel stands in the middle of the campus he helped found in 1870.
The Alma Mater for The University of Akron was written by the Rev. Augustus B. Church, who was the last Universalist clergy to serve as president of Buchtel College (1901–1912). He also was the first person to assume the board responsibilities of chief executive officer. In fact, Church served both as president and as a trustee of the institution — as well as pastor of the First Universalist Church of Akron. Dr. Church understood the importance of higher education as a means to improve society, and he worked diligently on projects to successfully link the educational efforts of Buchtel College with the needs of a growing city. During his presidency, Buchtel College offered the world’s first courses in rubber chemistry (1909).
The University of Akron’s fight song, “The Akron Blue and Gold,” was written in 1939 by Fred Waring, nationally known composer and leader of the wildly-popular band, “Fred Waring and the Pennsylvanians.” In response to a request from the University’s student newspaper, Waring wrote “a distinctive song” for The University of Akron. “The Akron Blue and Gold” premiered over his NBC hookup on November 17, 1939, and has been used as the University’s fight song ever since.
The Ohio Universalist Convention established a small, liberal arts college in Akron in 1870 and named it for one of the city’s prominent industrialists, John R. Buchtel. It was Buchtel who led a group of 100 individuals and 13 businesses in a fund-raising campaign to build the college. On July 4, 1871, thousands of area citizens turned out to witness the results of that initiative, joining in a great celebration as the cornerstone was laid for a single but impressive structure that constituted Buchtel College. Both a visionary and a pragmatist, Buchtel believed that the vigor of any city is closely tied to the proximity of a high quality institution of higher education. Decades of progress, both for the city and for the college he launched, have proven him right. Today, The University of Akron occupies a campus more than 30 times the size of the old college of the 1800s. With an enrollment of 24,500 students from throughout Ohio, the United States, and 77 foreign countries, the successor of Buchtel College is one of the largest principal campuses in Ohio. Long committed to an academic tradition which stresses excellence, The University of Akron offers more than 300 associate, baccalaureate, and master’s degree programs and options, as well as 17 doctoral degree programs and four law degrees. Since 1914, the University has been accredited by the North Central Association of Colleges and Schools, and it is currently classified at the highest level as a comprehensive, doctoral-degree-granting institution. Today, more than 136,000 of its alumni live and work around the world.
