

Academic Program Assessment Plan
 Fire Protection Technology (2230)
 Fall 2020- Spring 2021

Program Learning Outcomes	Assessments	Summary of Results*	Actions*
<p>1. Students will be knowledgeable of basic terms, concepts, principles and theories of the disciplines and professions that comprise Fire Protection Agencies.</p>	<p>Learning outcomes are assessed at the course level by individual faculty members and can include one or more of the following: Comprehensive Exams ,Oral Presentation Capstone Course, Rubrics/Rating Scale,</p> <p><u>Courses Assessed:</u></p> <p><i>A. Introduction to Fire Protection , Fire Investigations, Fire Safety in Building Design and Construction,</i></p> <p><u>Measurement Method:</u> Exams and quizzes Individual Oral presentation Rubrics Scale (1-5).</p> <p><u>Expectations:</u> Satisfactory course grade of 70% or above.</p> <p><i>Oral presentation score 75% or above.</i></p>	<p>77% of students achieved a final course grade of 70% or better in Intro to Fire Protection, Fire Investigations, Fire Safety in Building Design and Construction.</p> <p>77% of students achieved an oral presentation or class project grade of 75% or better in Intro to Fire Protection, Fire Investigations, Fire Safety in Building Design and Construction.</p> <p>Data will be collected and examined after semesters 1 and 2 of students first academic year.</p> <p>Sample size – Total students assessed- 48</p> <p>The results of this study were disseminated to and reviewed by the Fire Protection full time faculty. The Fire Protection faculty recommended 3 actions: Identify, remediate and continue to evaluate the at risk students in the 2022-2023 academic year.</p>	<p>1. Identify and support students at risk early in the semester.</p> <p>2. Remediation for at risk students-Students scoring less than 70% on any exam given during the semester, will be encouraged to receive tutoring. work in teams with other (not at risk) students, do extra credit work if offered and complete the exercises and quizzes from the text’s on-line learning center.</p> <p>3. Continue to collect and monitor data and re-evaluate data in 2022-2023 academic year .</p>

The Fire Protection Advisory Board whose members are the local region fire chiefs has assisted the program with curriculum development. Our rigorous curriculum, and the ability to complete EMT and Firefighter certifications qualifies our students to immediately compete for careers within the fire service. Students in the program have been hired at local fire departments, ambulance companies, hospitals, and other fire protection companies. Graduates of the program have gone on to pursue their bachelor's degree to enhance their opportunities for promotion and career advancement.
