Tropical Field Biology
in the Bahamas
Spring 2020: 3100 421 or 521 (4 credits)

• Explore coral reefs, seagrass beds, & subtropical forests during Spring Break!
• Design & carry out a research project using data you collect in San Salvador, Bahamas.
• Course meets 1.5 hrs/week throughout the semester. Prior or concurrent enrollment in General Ecology is highly recommended.

• Enrollment by permission, only (14 spots available). If interested, please attend one of the information sessions:
  • Fri, Oct 25: 10:30-11:30am (ASEC B201)
  • Wed, Oct 30, 12-1pm (ASEC B201)

Cost: ~$1,500 (includes flights, food & housing, course fee)
