Eligibility For Student Teaching

According to UA policy, to be eligible to student teach, all coursework, GPA, OAEs, and other criteria as specified by program area and college need to be met **prior** to the first day of the student teaching semester.

Each student teacher is audited by the Office of Student Teaching and Field Experience immediately prior to placement. Any student teacher deemed not eligible by the OSTFE will have his/her placement put on hold and/or cancelled.

Student teachers should schedule an appointment with their faculty advisor and/or their academic advisor to **verify that ALL student teaching eligibility requirements have been met or can be met prior to the first day of your student teaching semester.**

Background Checks

Students are required to complete Bureau of Criminal Investigation and Identification (BCI) and Federal Bureau of Investigation (FBI) background checks and submit the results to authorized personnel at their assigned "school/agency" on or before the first day of their semester in which student teaching will take place. Students are asked to have the background check results mailed to them personally. Students are then asked to keep the original, and provide copies of the results to their placement site.

The University of Akron does not keep copies of background checks in student files. Background checks are good for ONE YEAR from the date they are issued. Information regarding background checks is available on our website at www.uakron.edu/education/student-teaching/.
