- Society of Women Engineers

Why UA College of Engineering?

Wonderful faculty, good holistic education to prepare you for large variety of employment opportunities

UA has one of the best track and field programs in the nation that has provided me with opportunities a lot of people only dream of. The engineering department is also very supportive of my athletics and have helped me greatly in balancing school and sports.

Why did you choose Biomedical Engineering?

To differentiate myself when applying for Physician Assistant graduate programs, co-op opportunities, to enhance my logical thinking and problem solving skills
