

## **Linsey Grzeschik**

Corrosion Engineering

**Hometown:** Canton, OH

### **Professional/Student Organizations:**

- Corrosion Squad (President 2017-Current, Vice President 2016-17)
- Northern Area Western Conference Chair, University of Akron Section (2017-Current)
- Learning Assistant, Fundamentals of Aqueous Corrosion and Fundamentals of Corrosion Prevention (Current)
- Dean's Team (2017-Current)
- Tau Beta Pi (2016-Current)
- EUREKA Honor Engineering Club (President 2015-16, Corrosion Chair 2014-16)
- Engineering Student Council (Secretary 2015)

**Co-ops:** BP Fuels North America (BP-Husky Refinery and Cherry Point Refinery)

### **Why UA College of Engineering?**

The scholarship opportunities afforded by the University were unmatched in the area when I was a freshman. To graduate from the only Corrosion Engineering program in the country is something I wanted to be a part of.

### **Why did you choose your major?**

I have always enjoyed chemistry and building. Corrosion engineering is the perfect mix of laboratory and field work. I am facing new and challenging problems every day in the field so it always keeps me on my toes!
