

## Mary Teague

Corrosion Engineering  
Minor in Business

**Hometown:** Sugarcreek, OH

### **Professional/Student Organizations:**

- Tau Beta Pi (President)
- UA Ambassador
- Honors Delegates
- American Institute of Chemical Engineers
- Alpha Phi Omega
- Engineering Student Council
- Honors Advisory Student Council member,
- The Corrosion Squad
- The University of Akron Emerging Leaders Program

### **Why UA College of Engineering?**

Great program with the nationally unique corrosion engineering major. UA was so inviting and warm on the day I visited. I couldn't imagine going anywhere else. No regrets with the choice to attend here!

### **Why did you choose your major?**

Unique and growing industry with applications in nearly all corners of the world. It has a heavy focus on chemistry and science, which I love!
