

## **Shaylynn Green**

Mechanical Engineering

**Hometown:** Dayton, OH

**Student organization:**

- National Society of Black Engineers (NSBE)

**Career after graduation:** Graduate School at Case Western

**Why did you choose UA engineering?**

I love the culture of UA! There is a group for any interest, an event on any day, and the campus is just the perfect size to provide a family atmosphere.

**The most valuable thing at UA?**

I was selected to be the discussion leader for Engineering Learning Communities. Working with freshman students and sharing my UA experiences are very rewarding. There are so many valuable opportunities at UA, such as engineering co-ops, student design teams, leadership development, etc.
