Professional/Student Organizations:

- Residence Assistant (RA) University of Akron
Residence Life & Housing
- Faith Family Church Youth Leader
- iCorps Entrepreneurial Program
- Institute of Electrical and Electronic Engineers (IEEE)

Why UA College of Engineering?

I chose the University of Akron's College of Engineering because of their co-op program, accessibility to professors, affordable tuition costs, and for being relatively close to home.

Why did you choose your major?

I chose Electrical Engineering because I wanted to be on the cutting edge of the technology that is currently being developed. I want a career that is diverse and applicable to a multitude of fields as well as challenging and allows me to grow individually.
