

# YOUR CAREER STARTS **HERE**

**Allied Machine & Engineering** is a leading manufacturer of replaceable-tip drilling, modular boring, thread milling, and reaming systems. Our world headquarters is located in Dover, Ohio.

Allied provides precision hole making technologies with the highest levels of performance for end users worldwide. Our precision engineering and expert application support qualifies us as the best choice for solving complex manufacturing challenges.

Allied devotes our advanced engineering and manufacturing capabilities to creating the widest selection of value-added tooling available to manufacturing industries worldwide. Our tooling solutions deliver the lowest cost-per-hole with a variety of drilling, boring, reaming, and thread milling choices.
