

Applied Medical Technology, Inc. (AMT) is the leader in the design and manufacturing of innovative enteral feeding devices and surgical products which improve patient experience outcomes.

AMT is more than just a manufacturing facility; we are committed to the highest level of quality, safety, and patient care. We are interested in the whole person, not just the device they use.

We are dedicated to bringing products to the market that improve the quality of patients' and caregivers' lives. We are able to accomplish this by bridging the gap between the medical device industry and the patient population, through various relations and partnerships. AMT works with professional clinicians, caregivers, patients and their family members to better understand the needs of the enteral nutrition community.

AMT is a global leader and manufacturer of enteral feeding devices and accessories, upholding the highest standard for performance and quality assurance for over 30 years.
