Company Profile

Mission Statement

We Pledge...

To provide each customer with electrical construction and services of proper quality, with highest integrity and workmanship, at a fair price.

We Believe...

- our business is needed and important.
- our customers are people we can help.
- every job must be done "right and complete" because integrity has priority over profit.
- the quality and integrity of our employees is our most important asset.
- our suppliers and subcontractors are valued allies and must be treated fairly.
- the communities in which we live and work deserve our active support.
- a company committed to honesty, integrity, fairness and quality can successfully compete.

Therefore...

We will remain a contributing force in our community and continue to be a sound, growing and respected leader in our industry.

"The second call is more important than the first".

At Hilscher-Clarke, we strive to build relationships, not customers. This is at the core of our philosophy in business and has been very successful for us for over a hundred years. From concept to fruition, once you've given us the opportunity to work with you we will take responsibility from beginning to end.

Proven. Reliable. Sensible.

HILSCHER-CLARKE
Electrical Contractors
and Engineers

Why Choose Hilscher-Clarke?

1. We are able to mobilize hundreds of electricians to get the job done at a competitive price.
2. Not only do we do the job right the first time, but we do it safely. Our safety numbers are far below the national average.
3. We offer an extensive list of services ranging from changing a light fixture in a house to large industrial projects requiring 100+ electricians at once.

It's a work of art when we're done.

Hilscher-Clarke has been an integral part of the communities we service. We provide complete professional expertise and craftsmanship in all areas of the electrical industry. We are expanding our regions and now have become a multi-state presence.

Proven. Reliable. Sensible.
