

**NextStep Arthropedix** is a division of the Akron-based Theken Companies, LLC. In collaboration with design surgeons, our team is focused on the design and development of total joint implants and surgical instruments, combining successful industry experience with exceptional innovation. Utilizing new manufacturing technologies, including 3D printing, we are dedicated to creating revolutionary products and improving the quality of life for patients.

NSA is comprised of both fresh and seasoned talent and offers the unique environment of growing startups for those with great engineering achievement, advanced-materials knowledge, 3D manufacturing, and strong work ethic,  
Take your NextStep with us.
