

AAS LAND SURVEYING PROGRAM EDUCATIONAL OBJECTIVES

Program educational objectives are broad statements that describe what graduates are expected to attain within a few years after graduation. Program educational objectives are based on the needs of the program's constituencies. The educational objectives for graduates of the Land Surveying program are to attain:

1. The skills and knowledge to successfully manage increased responsibility as a surveying technician.
2. Competence in an expanding variety of geospatial data in the field and office.
3. An increasingly higher level of interaction within a project team environment.
4. The ability to progress towards higher education and professional licensure.
5. A broader understanding of professional ethics
