

BS Surveying and Mapping Program Educational Objectives

Program educational objectives are broad statements that describe what graduates are expected to attain within a few years after graduation. Program educational objectives are based on the needs of the program's constituencies. The educational objectives for the Surveying and Mapping program are for graduates to attain:

1. The ability to progress toward professional licensure.
2. The ability to manage a growing variety of geospatial data.
3. The ability to provide leadership within a project team environment.
4. Leadership potential in professional organizations.
5. An increasing ability to apply professional ethics in a variety of situations.
