## Department of Engineering and Science Technology

College of Applied Science and Technology

# SURVEYING AND MAPPING

The professional surveyor solves modern land boundary, location, and mapping problems by applying knowledge and skills in mathematics, law, local land history, map design, and business, using advanced technology. The art and science of land surveying and mapping has a rich heritage, most recently being a vital part of the settlement and building of America.

## DEGREES AND CERTIFICATES

- Bachelor of Science in Surveying and Mapping\*
- Associate of Applied Science in Land Surveying\*
- Certificate in Surveying Technology
- Certificate in Surveying for Civil Engineers
- Certificate in Geographic and Land Information Systems

## EMPLOYMENT OPPORTUNITIES

As surveying and mapping functions become more complex and technology-based, including the use of drones, the demand for highly- trained technicians and professional surveyors continues to grow. Career opportunities in today's construction environment are exciting.

\* This program is accredited by the Applied and Natural Science Accreditation Commission of ABET, <http://www.abet.org>.
