#### NET PRICE

## AVERAGE NET PRICE FOR FULL-TIME BEGINNING STUDENTS

Full-time beginning undergraduate students who paid the in-state or in-district tuition rate and were awarded grant or scholarship aid from federal, state or local governments, or the institution.

	2020-2021	2021-2022	2022-2023
Average net price	\$8,635	\$7,583	\$8,559

Full-time beginning undergraduate students who paid the in-state or in-district tuition rate and were awarded Title IV aid by income.

AVERAGE NET PRICE BY INCOME	2020-2021	2021-2022	2022-2023
\$0 - \$30,000	\$9,415	\$6,811	\$7,557
\$30,001 – \$48,000	\$9,347	\$7,891	\$9,864
\$48,001 – \$75,000	\$11,439	\$7,546	\$8,908
\$75,001 – \$110,000	\$13,536	\$10,681	\$12,779

AVERAGE NET PRICE BY INCOME	2020-2021	2021-2022	2022-2023
\$110,001 and more	\$13,837	\$12,148	\$14,159

- Average net price is generated by subtracting the average amount of federal, state/local government, or institutional grant or scholarship aid from the total cost of attendance. Total cost of attendance is the sum of published tuition and required fees (lower of in-district or in-state), books and supplies, and the weighted average for Food and Housing and other expenses.
- Beginning students are those who are entering postsecondary education for the first time.
- Title IV aid to students includes grant aid, work study aid, and loan aid. These include: Federal Pell Grants, Federal Supplemental Educational Opportunity Grants (FSEOG), Teacher Education Assistance for College and Higher Education (TEACH) Grants, Federal Work-Study, Subsidized Direct Loans, and Unsubsidized Direct Loans. For those Title IV recipients, net price is reported by income category and includes students awarded federal aid even if none of that aid was provided in the form of grants. While Title IV status defines the cohort of student for which the data are reported, the definition of net price remains the same total cost of attendance minus grant aid.

#### **NET PRICE CALCULATOR**

An institution's net price calculator allows current and prospective students, families, and other consumers to estimate the net price of attending that institution for a particular student.

#### RETENTION AND GRADUATION RATES

#### FIRST-TO-SECOND YEAR RETENTION RATES

Retention rates measure the percentage of first-time students who return to the institution to continue their studies the following fall.

#### **RETENTION RATES FOR FIRST-TIME STUDENTS**

Percentage of Students Who Began Their Studies in Fall 2022 and Returned in Fall 2023

## **OVERALL GRADUATION RATE AND TRANSFER-OUT RATE**

The overall graduation rate is also known as the "Student Right to Know" or IPEDS graduation rate. It tracks the progress of students who began their studies as **full-time**, **first-time degree- or certificate-seeking students** to see if they complete a degree or other award such as a certificate within 150% of "normal time" for completing the program in which they are enrolled.

Some institutions also report a transfer-out rate, which is the percentage of the full-time, first-time students who transferred to another institution without completing at the current institution.

Note that not all students at the institution are tracked for these rates. Students who have already attended another postsecondary institution, or who began their studies on a part-time basis, are not tracked for this rate. At this institution, 17 percent of entering students were counted as "full-time, first-time" in 2023.

Percentage of Full-time, First-Time Students Who Graduated or Transferred Out Within 150% of "Normal Time" to Completion for Their Program

Percentage of Full-time, First-time Students Who Began Their Studies in Fall 2020 and Graduated Within 150% of "Normal Time" to Completion for Their Program

#### **OVERALL GRADUATION RATE BY RACE/ETHNICITY**

Percentage of Full-time, First-time Students Who Began Their Studies in Fall 2020 and Graduated Within 150% of "Normal Time" to Completion for Their Program

## **GRADUATION RATES BY TIME TO COMPLETION**

Graduation rates can be measured over different lengths of time. "Normal time" is the typical amount of time it takes full-time students to complete their program. For example, the "normal" amount of time for many associate's degree programs is 2 years. Not all students complete within the normal time, so graduation rates are measured by other lengths of time as well, including "150% of normal time" (e.g., 3 years for a 2-year program) and "200% of normal time," or twice as long as the normal time (e.g., 4 years for a 2-year program).

Percentage of Full-time, First-time Students Who Graduated in the Specified Amount of Time

### OUTCOME MEASURES

Alternative measures of student success are reported by degree-granting institutions to describe the outcomes of degree/certificate-seeking undergraduate students who are not only first-time, full-time students, but also part-time attending and non-first-time (transfer-in) students. These measures are also reported for students receiving Pell grants and those students that do not receive Pell grants. These measures provide the 8-year award-completion rates by award level (certificates, associate's and bachelor degrees) after entering an institution. For students who did not earn any undergraduate award after 8-years of entry, the enrollment statuses are reported as either still enrolled at the institution, or subsequently transferred out of the institution. Unlike the Graduation Rates data, all reporting institutions must report on their transfer outs regardless if the institution has a mission that provides substantial transfer preparation.
