Columbus Bar inc Professional Development Center

The current employment market has created an environment of unprecedented significance for new law school graduates. In an attempt to assist new lawyers, the Columbus Bar Association created Columbus Bar inc.

The "inc" is short for "incubator" - a program intended to accelerate the successful development of new lawyers in an environment that provides an array of business support resources. The Columbus Bar Association provides an office

facility, equipment, mentoring, training, and specially designed networking opportunities to help new lawyers build a successful practice based on sound business principles.

In exchange for the services provided by the Columbus Bar, participants agree to accept at least one pro bono case during their one-year term, creating an additional source for serving the unmet legal needs in central Ohio.

The Columbus Bar Association was the first bar association in the country to develop an incubator program for new lawyers interested in establishing a solo law practice. The program has received praise both locally and nationally. Columbus Bar inc Limited

In addition to Columbus Bar inc, the CBA now offers Columbus Bar inc Limited, an abbreviated version of the award-winning incubator program. Columbus Bar inc Limited provides similar support services (mentoring, training, networking opportunities) to attorneys 0-5 years in practice who are hanging a shingle for the first time, or looking to redirect their career.

New York Pro Bono Bar Admission Requirement: The New York Court of Appeals has recently adopted a new rule affecting applicants for bar admission in New York. In his Law Day address in May, 2012, Chief Judge Jonathan Lippman emphasized the need for additional resources to help ease the serious lack of legal services for those unable to pay for legal representation. Thousands of litigants appear pro se each year in New York courts, placing these litigants at a severe disadvantage in the legal system and detrimentally affects the administration of justice. One of Chief Judge Lippman's proposals for addressing this gap in access to justice is directed at encouraging pro bono activities, both by law students and the practicing bar. To improve the assistance available to unrepresented litigants and to ease the burden on legal services providers, Judge Lippman has spearheaded a new initiative that will require applicants for admission to the New York bar to demonstrate that they have performed 50 hours of qualifying pro bono work. Qualifying pro bono work must be law-related and conducted under the supervision of a law school faculty member, an attorney or a judge. The new rule (22 NYCRR 520.16) will take effect on January 1, 2015 so the graduates of the class of 2013 who seek bar admission in New York before the effective date will not need to comply with the new requirement. However, first- and second-year law students interested in practicing law in New York should begin acquiring their pro bono hours since those students will most likely apply for bar admission after the rule takes effect. The 50 hours of pro bono work is not a prerequisite for qualifying to take the New York bar examination, but the 50 hours of qualifying service must be completed before application for admission to the New York bar. The rule aims to instill in law students a greater appreciation of the fundamental responsibility of the legal profession to provide service to others, along with exposing law students to real-life legal issues. It is our hope that this rule will foster future members of the practicing bar who recognize the benefits of volunteering.
