

UA Bierce Library MakerStudio – Academic Poster Printing

The Bierce Library MakerStudio provides some limited poster printing services. This document contains more information about the service.

General Overview

Poster printing services are fully reserved for **academic projects only**. The MakerStudio is **NOT** a print shop. Whether printing free of charge for students or at a fee for non-student UA community members, all poster printing is strictly for academic purposes.

Academic poster printing services are available to students for free with per semester limits (see below). Poster printing services for non-student UA community members will incur a charge and will have less priority than student requests.

Poster printing is completed on a first-come first-served basis via requests the MakerStudio receives from the website request form. **All submissions MUST be made via the website request form.** Failure to fully complete the form with all required information will result in delays. These delays may result in failure to receive your poster on-time. Please be diligent in providing all required submission information.

The MakerStudio requires submissions for poster prints to be submitted a minimum of 3 business days in advance of date of need. If your poster has a hard deadline, we cannot guarantee that the poster can be printed to meet your deadline if you do not submit at least 3 business days in advance.

To check the status of a poster request, please email us (3dprinting@uakron.edu) or stop by the MakerStudio in Bierce Library.
