## Summer Session I

First 5-and 8-Week Sessions Begin
Mon.. June 15
*independence Day Fri, July 3
First 5-Week Session Ends Fri., July 17

## Inquiries

Address inquiries concerning:
Admissions information, campus tours and housing, transfer of credits to the Office of Admissions, 166 Fir Hill (216) 375-7100

Financial aids, scholarships, loans and student employment to the Office of Student Financial Aid and Employment, Spicer Hall, (216) 375-7032.

Athletics to the Athletic Director, James A. Rhodes Health and Physical Education Building, (216) 375-7080.

Registration, scheduling, residency requirements and veteran's affairs to the Office of the Registrar, Spicer Hall, (216) 375-7844

Continuing education and noncredit programs to Buckingham Center for Continuing Education, (216) 375-7826.

Graduate study to the Graduate School, Buchtel Hall, (216) 375-7663.
The University switchboard number is (216) 375-7111

Section 1

## Background

## HISTORY

The self-conscious connection between The University of Akron and its surrounding community has been a recurring theme from the institution's founding as a small denominational college in 1870 to its current standing as a major metropolitan state university. It is significant that the efforts, energy and financial support of an Akron manufacturer of farm equipment, John R. Buchtel, were instrumental in persuading the Ohio Universalist Convention to build its college on a hill overlooking the town stretched along the Ohio Canal. The grateful trustees responded by naming the school Buchte! College. It is also significant that during its first four decades, the struggling institution was repeatedly aided in its efforts to survive by various local entrepreneurs who pioneered and prospered in such industries as cereals, clay products, matches and rubber. Buchtel College's emphasis on iocal rather than denominational interests became increasingly clear, and by 1913 those strong ties and the school's financial situation caused its trustees to transfer the institution and its assets to the city. For the next 50 years, the Municipal University of Akron received its principle support from city tax funds and swelled from an enrollment of 198 to nearly 10,000 .
The growth of the college paralleled the remarkable expansion of the community itself. From 1910 to 1920 Akron was the fastest-growing city in the country, evolving from a thriving cana! town of 70,000 to a major manufacturing center of 208,000, thanks in large part to a boom in local factories that bore names such as Goodyear, Firestone, Goodrich and others. The age of the automobile - and the demand for inflatable rubber tires - changed the complexion of Akron forever.
And changes within the Municipal University's curriculum reflected the strong interrelationship of town and gown. in 1914 a College of Engineering began instruction, and other professional schools followed: education (1921), business administration (1953), law (1959), the Community and Technical College (1964), fine and applied arts (1967) and nursing (1967). Still another response to the community's needs was a comprehensive evening session, initiated in 1915 to make courses availabie to a broad cross-section of citizens; currently almost 8,000 Evening College students pursue undergraduate and graduate degrees in all majors offered by the University.
Considering the institution's location in the heart of the burgeoning rubber industry, it seemed only appropriate that the world's first courses in rubber chemistry would be offered at Buchtel College in 1909. From those first classes in Professor Charles W. Knight's laboratory would evolve the prestigious Institute of Polymer Science, a world leader in polymer research. In the 1930s and 1940s, with the establishment in Akron of the Guggenheim Airship Institute, UA scientists studied the structure and design of zeppelins, and during Worid War il University of Akron researchers helped fili a critical need in the U.S. war effort by contributing to the development of synthetic rubber.
But research, innovation and creative activity take many forms at the University, in the sciences and in the arts and humanities as well. Today UA faculty members study ways of matching workers with jobs to maximize performance; they devise more effective methods of extracting oil from shale; they write and produce plays, pen poetry, choreograph dance works; they design valves for artificial hearts and explore improved methods of tumor detection; they evaluate the quality of water in northeast Ohio; they draft new maps to meet specialized needs of local businesses and industries, and they study laws of taxation and their effects on commerce. UA's continuing and central commitment to the liberal arts is signified by the perpetuation of the institution's original name in the Buchtel College of Arts and Sciences.
And the University has maintained an openness to innovation in other ways. As eariy as the 1880 s Buchtel College was liberalizing its curriculum by allowing students to choose free electives within their courses of
study. The University later adopted and developed the general education concept, which represents an attempt to prepare students for both their personal and their professional lives by providing a balance between courses that teach them how to make a living and courses that teach them about life as we know it in Western civilization.
The University's first doctoral degree was, appropriately enough, awarded in polymer chemistry in 1959, but master's degrees were granted as early as 1882 . Doctoral work has now expanded to programs ieading to the highest academic degree in 14 different fields of study.
In 1963 the receipt of state tax monies made UA a state-assisted municipai university, and on July 1, 1957, The University of Akron officialiy became a state university. Today some 26,500 students from 34 states and 83 foreign countries are enroiled in its nine colleges, making it the third largest university in Ohio, and 52nd largest in the nation. Its 50,000 alumni are world wide. The 150-acre campus with its 70 modern buildings is within walking distance of downtown Akron and its shopping, restaurants, entertainment and cultural centers. The northeast Ohio metropolitan area, with its 1.5 million population, provides numerous opportunities in recreation, major collegiate, amateur and professional sports, concerts, culturai events and commerce, all within easy driving distance and many accessible via public transportation.
For over a century, the college on the hill has been an integral part of the city whose name it bears, an active participant in Akron's renaissance of commercial and artistic endeavor, a leader in the city's intellectual and professional advancement, a center for internationally lauded research efforts, a source of enrichment, education and vitality both for itself and for its community. Our history is a long and proud one - but at The University of Akron, our eyes are on the future, for our students, our faculty and staff, our community, our world.

## MISSION AND GOALS

The University of Akron's mission is influenced by its location, its heritage, its teaching and research objectives and its responsibility to serve the local, national and international communities.

These infiuences, combined with the University's commitment to provide the highest quality educational opportunity possible to each person regardiess of race, creed, color, sex, age, national origin or handicapping condition, shape this institution's distinctive character.

The foremost goals of The University of Akron are to create and maintain the highest standards of excellence in its curriculum, its teaching/learning process, its development of students, its research and its service to the public. Existing and proposed programs alike are evaluated in terms of their contributions to these goals

The historically strong interrelationship between The University of Akron and the surrounding community confirms UA's responsibility to serve the community in ways that will reflect the needs of both the institution and the region of which it is a part. The University will continue to serve those pursuing a traditional educational program as well as those seeking a nontraditional program for a career change, for professional development or for self-enrichment.

## Mission

The University of Akron maintains a commitment to.

- Provide learning opportunities for the full spectrum of students
- Create and discover knowledge through basic and applied research
- Create a learning environment that emphasizes a full collegiate experience for each student, leading to opportunities for cognitive, social and personal developrnent
- Provide a forum for the examination of ideas and concepts and the generation of scholarly dialogue within the established principles of academic freedom.
- Encourage opportunities ior interdisciplinary study and research.
- Strive for continued improvement of the teaching and learning environment
- Prepare career-oriented persons for professional leadership roles in regional. national and international organizations and institutions
- Offer appropriate educational and protessional services to its various pubiics within available resources and established continuirig education and outreach philosophies
- Maintatn its firmily established tradition of concern for the higher educational and cultural needs of our area.

## Goals

The following goals provide further definition of the University's mission and serve as the bases upon which the colleges, departments and service units of the University establish program objectives.

## GOALI

The University will plan, develop, implement and evaluate its efforts in light of its major goal of teaching, and will provide optimal learning opportunities for students of various ages, diverse backgrounds and different needs.
GOALII
The University will promote the discovery and creation of new knowledge through continued support of faculty in their research, publication and creative activities by providing ample resources for basic and applied research and by encouraging professional and intellectual development

## GOAL III

The University will enhance students' abilities to participate effectively in a complex society by designing programs that will not only fulfill educational needs but will also provide opportunities for intellectual, personal, cultural and social development.

## GOALIV

The University will provide public service through its traditional and continuing education programs, its faculty, its students and its facilities, and it will encourage the development of outreach and cooperative education efforts in all colleges, departments and service units.

## GOAL V

The University will coordinate the growth and emphasis of its programs with the long-range plans and needs of the local area, the region, nation and, where appropriate, the international community

GOAL VI
The University will contribute, in cooperation with local and regional institutions, to the development of improved quality of life for the future of the region, the nation and the world

## ACCREDITATION

Accreditation assures that degrees are recognized and approved by select regional and national education associations, societies and councils. The University of Akron has been approved by the North Central Association of Colleges and Schoo's since 1914 and was recently reaccredited at the highest level as a comprehensive doctoral degree-granting institution. This recognition illustrates the high aca-
demic standards maintained at the University and assures a student taking pre-professional courses leading to advanced study in such fields as medicine, dentistry, law and theology that he is receiving sound preparation for acceptance at other graduate and professional schools. Accreditation also provides the security of knowing that the University will honor most credits earned at a similarly accredited college or university. Degrees earned at the University are respected and sought after by prospective employers.
In addition to the recognized regional accreditations, special accreditation tor particular programs has been awarded as follows:
Accreditation Board for Engineering and Technology
American Assembly of Collegiate Schools of Business
American Chemical Society
American Dietetic Association
American Speech-Language-Hearing Association
Committee on Allied Health Education and Accreditation of American Medical Association

Council for the Accreditation of Counseling and Related Educational Programs (provisional)
Council for Professional Development of the American Home Economics Association
Council on Social Work Education
National Accrediting Agency for Clinical Laboratory Sciences
National Association of Schools of Art and Design
National Association of Schools of Music
National Council for Accreditation of Teacher Education
National League for Nursing
North Central Association of Colieges and Schools
Ohio Board of Nursing Education and Nurse Registration
Ohio State Department of Public Instruction
The University also holds membership in the following educational organizations:
American Association of Colleges for Teacher Education
American Association of Community and Junior Colleges
Arnerican Association of State Colleges and Universities
American Council on Education
American Society for Engineering Education
American Society for Training and Development
Association for Continuing Higher Education
Department of Baccalaureate and Higher Degree Programs (National League for Nursing)
International Council on Education for Teaching (associate)
National Association of Summer Sessions
Ohio College Association
Ohio Council on Continuing Higher Education
United States Association of Evening Students
University Council on Education for Public Responsibility
The School of Law is accredited by:
American Bar Association
Association of American Law Schools
League of Ohio Law Schools
Council of the North Carolina State Bar
State of New York Court of Appeals
The American Association of University Women grants membership to women graduates with approved baccalaureate degrees from The University of Akron.

## Academics

The University of Akron covers a broad academic spectrum. Programs are available leading to the associate (two-year), bachelor's (four-year), master's (graduate) and doctoral (graduate or professional) degrees. A student may study in the College of Business Administration, Buchtel College of Arts and Sciences, Community and Technical College, College of Education, College of Engineering, College of Fine and Applied Arts, University College, School of Law or College of Nursing.

## ASSOCIATE PROGRAMS

In this fast-paced age of technological development, a need has grown for a person trained specifically for work in the semi-professional, technical and highly skilled professions. Most critically needed are laboratory technictans, health technicians, engineering assistants, sales people, supervisors, secretaries and management assistants. The following is a list of associate degree programs

## Arts

Business Management Technology Accounting

Construction
Surveying
Transportation
Airline/Travel Industry
Commercial Avialion

## BACCALAUREATE PROGRAMS

The University of Akron believes that the student should master basic courses in the humanities, social sciences and physical sciences and thus supports the idea of the University College concept. A student seeking a baccalaureate degree and having attained iess than 30 college semester credits studies in the University College before transferring to a degree-granting college. Study in the University College develops the student's ability to understand and express ideas effectively and to comprehend the processes involved in accurate thinking. After completing the general studies phase the student is admitted to a degree-granting college, where he then concentrates courses in his specific academic interest.

Programs are offered in:

Accounting
Art
Art History
Ceramics
Cratts
Drawing
Graphic Design
Metalsmithing
Painting
Photography
Printmaking

## University Honors Program

The University of Akron's Honors Program has been designed to recognize and support highly motivated and achievement-oriented students in any major program. Participants are eligible for substantial honors scholarships. Honors students complete all requirements for a departmental or divisional major and attend interdisciplinary colloquia in the humanities, social sciences and natural sciences. These colloquia examine the interrelations of academic studies while exploring significant contemporary issues. During the senior year, all honors students write a senior honors thesis that focuses on a topic of interest in the major area of study. Study abroad or field experience may count as part of the project

## Distinguished Student Program

The Distinguished Student Program for associate degree students in the Community and Technical College encourages and assists exceptionally talented students to achieve academic excellence. It supports the college's attempt to provide worthwhile career programs that enable students to prepare for their occupational goals and also exposes these students to the total offerings of the University.

The program of study consists, for the most part, of courses within the major. The Distinguished Student Colloquium (taken the first semester of the second year) and the Honors Colloquium (taken the second sernester of the second year) provide an opportunity for these students to meet to explore the breadth and interrelationships of various academic disciplines.

## Cooperative Education Program

This program combines classroom learning with paid work experience. Qualified students are placed in career-related pre-protessional work assignments in industrial, commercial, professional, governmental or service organizations. The program can enhance a student's education and career preparation by integrating classroom theory with on-the-job performance; providing an understanding of work environments and professional requirements; testing career and professional goals; developing confidence, maturity and skills in human relations; and establishing professional contacts and interests.

Students are typically eligible for work assignments if they are in good academic standing, have completed halt of their academic requirements, attend an orientation program and are accepted by the cooperative education coordinator in their respective tields. Additional standards may be required by some departments or employers. Final hiring decisions are made by the employers.

Students and employers participating in cooperative education are subject to all federal, state and local labor laws. Additionally, students on a work assignment must abide by all the rules and regulations of the participating employer and of cooperative education.

## Certificate Programs

A student may add a dimension of depth to his education beyond his chosen major by pursuing one of the University's interdisciplinary or interdepartmental programs, which provide concentrated work in the following areas.

Afro-American Studies
Aging Services
Alcohol Services Aide
Cartographic Specialization
Child-Care Worker
Composition
Computer Physics
Computer Science
Criminal Justice
Criminal Justice/Security Emphasis
Environmental Health

## SCHOOL OF LAW

The School of Law provides legal education through day and evening classes leading to the Juris Doctor degree. An applicant must have an undergraduate degree from an accredited college or university in an appropriate field of study

## EVENING COLLEGE AND SUMMER SESSIONS

The University Evening College and Summer Sessions provides educational opportunities for the student who wishes to attend college classes during the evening or over the summer. The Evening College and Summer Sessions includes work toward associate, baccalaureate and advanced degrees as well as additional education in students' chosen protessions Courses in the evening program are fully accredited and are conducted throughout the year

## OFF-CAMPUS PROGRAMS

As a metropolitan institution of higher learning, the University clearly identifies and supports its public service role through a variety of offcampus programs. The University offers special institutes, workshops and courses to professional groups through the academic departments, through continuing education and through Developmental Programs.

## WAYNE GENERAL AND TECHNICAL COLLEGE

To meet the needs of citizens in Wayne, Holmes and Medina counties, the Wayne General and Technical College opened its doors in 1972 as a branch campus of The University of Akron. Six technical programs as well as the first two years of a traditional four-year liberal arts program are offered leading to one of the following degrees: Associate in Applied Science in business management technology, mechanical technology, retail management technology, secretarial science or social services technology.

## The Campus

During recent years, the University campus has undergone many major changes. In 1951, the University's 13 acres encompassed only 10 buildings. Currently, the campus covers 160 acres, and includes 70 buildings, with plans to renovate and build additional academic, recreational and parking facilities. The campus is illuminated at night and security personnel patrol the area hourly.

## LOCATION

The University is situated in a large metropolitan area. The campus, although centrally located within the city, is set apart from the downtown area. Students have easy access to retail outlets, transportation and churches. Akron is easily reached by automobile from major national east-west routes (Interstates 80, 90, 76 and the Ohio Turnpike), and north-south routes (Interstates 71 and 77), all of which link Akron to the surrounding states and regions. The University itself is located between East Buchtel Avenue and Carroll Street in the downtown area. For bus travelers, the Greyhound station is a short walk from the campus. For airline passengers, limousine service from the Cleveland-Hopkins International Airport and the Akron-Canton Airport, south of Akron, is available.

## BUILDINGS

Many of the buildings on campus bear the names of prominent persons who are recognized for their contributions in administration, education. business science or University service. Major buildings include:
Admissions Building. This office is located at 166 Fir Hill and East Buchtel Avenue. The Office of Admissions assists students with applications, requirements and procedures for undergraduate, postbaccalaureate, transient, transfer, auditing or special student status.
Art Building. This recently remodeled building at 150 East Exchange Street provides modern, well-equipped art facilities in one location. Studios are available for graphic arts, photography, drawing, painting, metalsmithing, ceramics and weaving. The Davis Art Gallery is also located in the facility

Auburn Science and Engineering Center. Named for Norman P. Auburn, 10th president of the University, this complex is one of the largest academic buildings in the state. The center houses the College of Engineering, the Department of Biology, the Institute of Polymer Science (research activities), the scientific and engineering ho'dings of the University Library and the Library for the Division of Rubber Chemistry-American Chemical Society.
Ayer Hall. Named for the first dean of the College of Engineering, Frederic E. Ayer, Ayer Hall provides classrooms and offices for the mathematics and physics departments

Ballet Center. This center, located at 354 East Market Street, houses dance studios, a choreography laboratory, faculty offices, studios and offices for the Ohio Ballet and the Dance Institute.
Bierce Library. Named for Gen. Lucius V. Berce, an Akron mayor, lawyer, historian, state senator, philosopher, investor, philanthropist and soldier, the building was constructed at a cost of $\$ 8$ million. Opened in spring 1973, the University Library has total holdings here and at several other locations of more than 1.8 million items. The facility also houses the University Archives, Media Services, Instructional Media Distribution Center, a microfilm department, a map room and the American History Research Center.

Buchtel Hall. Originally built in 1870, this structure was destroyed by fire in 1899 and rebuilt in 1901 (Buchtel Hall II). The administrative center of the campus, Buchtel Hall (III) was completely restored in 1973 following a devastating fire in 1971. It is the University's link with Buchtel College. It provides office space for numerous administrative officials of the University.

Buckingham Center for Continuing Education. The center was renovated in 1979 at a cost of $\$ 2.8$ million. The building houses offices tor the executive dean of Continuing Education and Public Services, the Adult Resource Center, the Office of Cooperative Education, the Office for Noncredit Courses, the Nursing Home Training Center, the Law School Clinical Program, as weli as a lecture hall and generai classrooms.
Carroll Hall. Adjacent to the Gardner Student Center, Carroll Hall houses classrooms, laboratories and offices for the departments of counseling and special education, geography, developmental programs and com-puter-based education, as well as the University's media services, electronic systems and the Learning Resources Center.
Central Services Building. This building, at 185 South Forge Street, houses the administrative service departments of central stores, duplicating and the mail room.
Computer Center. Purchased and renovated in 1981 for $\$ 1.3$ million, this building at 185 Carroll Street houses the University's computer center offices, main computer and workrooms, as well as student and faculty keypunch areas and time-sharing terminals.
Crouse Hall. Crouse Hall houses the Department of Geology, Center for Environmental Studies, classrooms and some offices for the College of Education.
East Hall. Located on South Union Street, the hall houses the University nursery school, International Students Center, Black Cultural Center and University Honors Program.
Exchange Building. This recently acquired building at 222 East Exchange Street houses the Center for Fire and Hazardous Materials Research as well as the Department of Social Work and the Outreach/ Human Services offices.
Firestone Conservatory. On the first floor of Guzzetta Hall, this facility provides classrooms, practice rooms and offices for music.
Gallucci Hatl. This building at 200 East Exchange Street, formerly a Holiday Inn, is primarily a men's dormitory. The north wing houses the Department of Urban Studies, the Center for Urban Studies and the Department of Hospitality Management.

Gardner Student Center. This complex was named for Donfred H. Gardner, who was appointed dean of men in 1926, named the University's first dean of students in 1937, in 1955 named the University's first dean of administration and later, in 1959, promoted to vice president. He retired in
1962. This facility, which serves as a unifying force in the life of the institution, houses nearly 80 percent of all nonacademic activities on campus. It provides bowling alleys, meeting rooms, lounges, student activity and publication offices and workrooms, a game and billiard room, a bookstore, bank facilities, the Perkins Art Gallery, cooperative education offices, the Gardner Theatre, a cafeteria and other dining facilities.
Gladwin Hall. Housing the College of Nursing, allied health and biology laboratories, this building was named in honor of distinguished alumna Mary E. Gladwin (1887), who rendered unparalleled service as a war nurse. A $\$ 10$ million complex opened in 1979, adjacent to Knight Chemical Laboratory, the facility includes a multipurpose nursing laboratory, a simulated six-bed hospital containing surgical-labor delivery suite, a nursery suite and a well-patient clinic.
Guzzetta Hall. Complementing the Edwin J. Thomas Performing Arts Hall, this facility was constructed directly across from Thomas Hall on Hill Street. The $\$ 5.5$ million structure dedicated in October 1976 houses the office of the dean of the College of Fine and Applied Arts, and the departments of communication, and music, theatre and dance. In addition to providing more than 40 student practice rooms, the complex houses radio and television studios, WAUP-FM, a small experimental theatre and a 300-seat recital hall.

James A. Rhodes Health and Physical Education Building (JAR). This recently completed structure on Carroll Street is connected to Memorial Hall by a pedestrian bridge over Brown Street and contains an intercollegiate basketball facility seating 7,000, an indoor jogging track, physical education laboratories, classrooms, the athletic director's office, the sports information office, athletic offices and a ticket office.

Hower House. Located on Fir Hill, the century-old mansion has been designated as a Historic Place by the National Park Service.

Knight Chemical Laboratory. This new $\$ 10$ million complex is named in honor of Dr. Charles M. Knight, who taught the first courses in rubber chemistry in Buchtel College as early as 1909. Opened in 1979, the building features numerous innovative laboratories with the latest, most sophisticated safety equipment along with classrooms and faculty and administrative offices.

Kolbe Hall. Identified by its colonnade arch, this complex was named for the first president of the Municipal University of Akron, Parke R. Kolbe. It houses the University Theatre, the Center for Community and Public Television, the office of the dean of the Coilege of Business Administration as well as classrooms and offices for the College of Business Administration.

Leigh Hall. Named in honor of Warren W. Leigh, first dean of the College of Business Administration, the facility on East Buchtel Avenue houses the College of Business Administration. John S. Knight Auditorium, located on the street level, is the site of many programs open to both campus and community

McDowell Law Center. Named for C. Blake McDowell, prominent local attorney, alumnus and benefactor of the University, the center houses the School of Law. Opened in 1973 at a cost of $\$ 2.5$ million, it provides space for the 160,000 -volume law library, classrooms, moot courtroom, appellate-review office, seminar rooms and faculty offices. A planned $\$ 3.5$ million expansion will provide additional library and support space. The center stands at the corner of East Center Street and Grant Street.

Memorial Hall. Dedicated to the memory of Summit County men and women who died in World War II, this is the companion building to the recently completed Health and Physical Education Building. It contains offices of the Department of Physical Education, a large gymnasium, a swimming pool, intramural sports office and classrooms. A current remodeling project will provide physiology, bio-mechanics and rehabilitation laboratories.

North Hall. Located on South Forge Street, this facility houses the administrative service departments of University communications, purchasing, staff personnel and benefits office.
Ocasek Natatorium. The six-million dollar natatorium, currently under construction, is scheduled for completion in fall 1987. The 64,000 gross square foot structure will house an Olympic-size swimming pool with adjacent spectator seating area, and will have locker rooms and showers. The center will also house nine racquetball courts as well as weight room facilities. The natatorium is named for Ohio State Senator Oliver Ocasek.
Olin Hall. Named in honor of Professor Oscar E. Olin and Mr. Charles Olin, this facility was completed in May 1975. The hall houses the dean of Buchtel College of Arts and Sciences and the following departments and institutes: classics, economics, English, general studies, history, modern languages, political science, philosophy, sociology, Center for Peace Studies and Afro-American Studies and English Language Institute. The complex is at the corner of East Buchtel Avenue and South Union Street.
Edwin J. Thomas Performing Arts Hall. Named for Edwin J. Thomas, prominent industrialist and dedicated member of the University Board of Trustees from 1952 to 1975, this cultural center, which cost more than $\$ 13.9$ million, was formally opened in 1973. Designed to accommodate concerts, opera, ballet and theatre productions, the hall is a masterpiece in architecture, acoustics and creative mechanisms. It stands at the corner of East Center and Hill Streets.

Physical Plant Operations Center. This building at 146 Hill Street is adjacent to E. J. Thomas Hall and houses physical plant operations, as well as security, safety, custodial, building and equipment repair and heat and energy distribution.
Research Center. This remodeled warehouse on Forge Street houses the Department and Institute of Biomedical Engineering and the Department of Polymer Engineering.
Robertson Dining Hall. This building, iocated at 248 James Street, has a cafeteria and dining room for dormitory students as well as the campus infirmary, which provides health services for the University.

Rubber Bowl. This off-campus stadium at 800 George Washington Boulevard, just four miles from the campus, features an artiticial turf playing field, seating for 35,000 , locker rooms, concessions and a press box.
Schrank Hall. Named for Harry P. Schrank, long-time member and chairman of UA's Board of Trustees, this complex, which adjoins Auburn Science and Engineering Center, is composed of two academic structures and a parking deck. Schrank Hall North contains offices and classroom space. Schrank Hall South provides facilities for the Department of Home Economics and Family Ecology, the divisions of Engineering and Science Technology and Associate Studies, and the Army and Air Force ROTC units
Simmons Hall. Named for Hezzleton Simmons, University president from 1933 to 1951, this hall houses the University Counseling and Testing Center, the Department of Psychology and Public Services Technology offices and laboratories. The Institute for Life-Span Development and Gerontology and the History of American Psychology Archives also occupy a portion of the building. A student interested in employment counseling and assistance will find the Office of Career Planning and Placement in this facility.
Spicer Hall. This major student contact building, renovated in 1975, houses the Registrar's Office, Academic Advising Services, the Office of Student Financial Aids and Employment, University College, the Evening College and Summer Sessions, the Parking Systems Office and offices for the University auditor, controller, cashier, accounts payable and receivable and the state examiner.
Student Mailroom. Located on central campus, adjacent to the Gardner Student Center, this building contains mailboxes for all students.
The University Club of Akron. Property of The University of Akron's Development Foundation, the club at 105 Fir Hill is operated by a private corporation for the use of its members and guests. Two dining rooms and four meeting rooms make the club an ideal location for social, cultural and intellectual activities. The Office of Alumni Relations and the Department of Development as well as offices for the division of Institutional Advancement are located on the upper floors of the building.
West Hail. This renovated structure on the corner of East Buchtel Avenue and Grant Street houses the Department of Communicative Disorders and the outpatient Speech and Hearing Cliric as well as classrooms and law school offices.
Whitby Hall. Named for G. Stafford Whitby, a pioneer in the development of polymer science, this addition to the institute of Polymer Science (IPS) was opened in fall 1975 . Housing the academic portion of IPS, the hall was purchased, renovated and equipped at a cost of $\$ 3.2$ million. The institute's research activities continue in Auburn Science and Engineering Center.
Zook Hall. Named to honor George F. Zook, president of the University from 1925 to 1933, this Buchtel Avenue facility houses the College of Education and provides a lecture room that seats 260, general classrooms, a handicrafts room, a teaching demonstration classroom, a microteaching laboratory, the Center for Economic Education and the Student Teaching Office.

## FACILITIES AND EQUIPMENT

The University's addition of modern teaching aids demonstrates its recognition of the need, in this technological age, of up-to-date facilities and equipment. Some of these facilities are as follows.

## Buchtel College of Arts and Sciences

The Depariment of Biology houses modern laboratories and equipment, including advanced light microscopes (phase interference contrast, fluo-
rescence), electron microscope (scanning and transmission), scintillation counters and physiographs; vehicles and boats are available for field work.

The Department of Chemistry is located in Knight Chemical Laboratories. The department offers outstanding instrumentation, such as nuclear magnetic resonance spectrometers, research grade gas chromatographs, infrared and ultraviolet spectrophotometers and other modern research tools for identification and characterization of their compcunds. The University's Chemical Stores facility is located in the Department of Chemistry and maintains an inventory of more than 2,500 items including chemicals, glassware and apparatus.
The Department of English shares with the humanities and social sciences departments a bank of 19 IBM computer terminals in Oiin Hall. This facilitiy is used extensively for courses in creative, expository and professional writing. Additionally, these terminals, along with terminals linked to the University mainframe, are used in computerized analysis of style.

The Department of Geography houses a modern cartographic drawing laboratory, with adjoining darkroom and major equipment rooms, a remote sensing laboratory and a selected map. air photo and periodicals research collection. Major equipment includes stereo and digital plotters, ERTS satellite transferscope, overhead map enlarger, field plotters, threedimensional Perspektomat, headliner and varityper, industrial camera, vacuum frame and map scale changers. A laboratory for cartographic and spatial analysis equipped with a remote computer terminal operates as a part of the department.
The Department of Geology has modern instrumentation for fieid and laboratory studies. Among the equipment are an automated electron microprobe, automated x-ray diffraction system, atomic absorption spectrometer, ion chromatograph, coal and sulfur analyzers, oxygen bomb calorimeter, gravimeter, resistivity gear, refraction seismograph, magnetometers, image analyzer, cathodoluminoscope, microcomputer laboratory with printers, plotters, and a digitizer, core lacoratory research microscopes, a well-equipped darkroom, rock saws, thin section equipment, portable rock corer and three four-wheel-drive vehicles.

The Department of History in Otin Hall is housed in a modern office suite with space for graduate assistants as well as professors. The Clara G. Roe Seminar Room is used for graduate seminars. The history department shares its office space with the Department of General Studies and the Center for Peace Studies.

The Department of Mathematical Sciences is located in Ayer Hall adjacent to the Science and Technology Library. Students often make use of closed-circuit television located throughout the campus, and the Learning Resource Center which is housed in Carroll Hall.

The Liniversity has a sophisticated Computer Center which is equipped with a number of computers. Computers available to the entire University community are an IBM 3033 $\rfloor$ and an IBM 370/156. A Prime 650 computer is dedicated to the Engineering College for support of computer graphics. There is also an IEM 4361 dedicated to class instruction and faculty research by the Department of Mathematical Sciences. Access to these facilities is available at various locations on campus via remote computer terminals. Off-campus access via phone connections is also available on selected equipment. The University is connected electronically to other sites worldwide via BITNET.
Housed in the Department of Mathematical Sciences are 25 IBM PCs acting as independent work stations or as terminals tied to the IBM 4361. The department also has a laboratory equipped with Apple II microcomputers. Microcomputer laboratories at various locations on campus are also avallable for student use. All the popular computer programming languages are supported on one or more machines; examples include FORTRAN, Pascal, COBOL, PL/1, RPG, BAL, C, BASIC, SPSS, SAS, GPSS, APL and LISP, as well as some iesser known ianguages. Many software packages that run on mainframe, minis or micros are also supported. Plans for the immediate future include the establishment of another laboratory in Ayer Hall connected to a $\operatorname{VAX} 11 / 785$.
A. most important resource of The Department of Modern Languages is the language laboratory in Olin Hall. The language laboratory schedules working sessions for ali beginning and some advanced language courses
as an integral part of the course, as well as for individual and voluntary student study time.
The Department of Physics is housed in Ayer Hall with space and facilities for research and instruction. The laboratories include experimental facilities for electron tunneling spectroscopy, pulsed, continuous wave and high resolution NMR, and Mossbauer spectroscopy; magnetic susceptibility and Shubnikhov-deHaas measurements. The experimental projects in progress include studies in surface physics and thin films, diffusion measurements and high resolution NMR in polymers, molecular spectroscopy, solid state physics and computer-assisted instruction. Theoretical projects in progress include critical phenomena and phase transitions, renormalization group, supersymmetry, polymer physics and solid state physics. Studies of physical properties of polymeric materiais utifize the extensive facilities of the Department of Polymer Science and the Institute of Polymer Science
The Depariment of Political Science supervises a computer-assisted telephone interviewing laboratory available to the campus research community. The laboratory consists of 18 IBM PC microcomputers connected via a network to two IBM PC / AT system servers. Each interviewer station is acoustically insulated from other stations and has specialized telephone and automatic dialing equipment. The survey facility is used for grant and contract research covering both the local community and the state. When not required for survey projects, the computer network is used for a variety of classroom exercises and student research projects.
The Department of Polymer Science and the Institute of Polymer Science have extensive facilities for synthesizing, characterizing and investigating the physical properties of polymers. In addition, excellent facilities for studies on polymer processing are available. The total value of major instrumentation and equipment housed in the department and institute laboratories exceeds $\$ 3.5$ million.
The Department of Psychology laboratory resources include undergraduate laboratories and advanced computer controlled laboratories for the study of human information processing (e.g., signal detection, automobile driving, motion sickness, attention, concept formation, perceptual style, laterality differences and memory). Research areas for the study of small-group behavior and a psychology clinic complete with videotape capabilities for the study of counseling process and outcome are also available. The department owns several BM -XT PCs for on-line collection of data and control of experiments; the perceptual laboratory includes a $G$ \& W eye scan and eye track apparatus. The department is associated with the Institute for Life-Span Development and Gerontology, including emphasis in adult development, gerontology and women's studies.
The Department of Sociology facilities include a five-room research and teaching laboratory equipped with audio and video equipment used for teaching demonstrations and small-group research projects. The department houses a number of computer terminals and printers. In addition, a compuier-assisted telephone interviewing (CATI) system laboratory is used for student training in an annual Akron area survey. The anthropology iaboratories contain hominid fossil casts, archaeological collections and a variety of equipment used in archaeological research.

The Department of Urban Studies has a microcomputer laboratory equipped with five IBM personal computers networked to a central PC equipped with a 30 megabyte hard disk. Both color graphics and letterquality printers are available. Students are trained in software useful for public administration and urban planning administration, as well as statistical software packages such as SPSS-X PC. The statistics laboratory is housed with the microcomputer lab. Modems connect with the PCs to the IBM mainframe providing a full range of maintrame computer applications.

## Community and Technical College

The Medical Technology program and Allied Health division use facilities in Gladwin Hall. See College of Nursing in this section for a full description of facilities and equipment.

The Business Technology program has extensive laboratory facilities. These include four typing laboratories, a shorthand laboratory equipped with a tape dictation system, a business machines laboratory, an information management laboratory and a word processing laboratory in the Office Administration program. A new computer laboratory with an IBM System I computer with 16 terminals is maintained for the Data Processing program. All business technologies are served with a 32 -unit IBM PC laboratory
The Hospitality Management program has excellent facilities in Gallucci Hall. A complete restaurant kitchen and a dining room seating 120 provide facilities for food service management and culinary arts. A block of hotel rooms operated by students provides experience in hotel/ motel management.

The Engineering and Science Technologies are served with a HewlittPackard laboratory to provide hands-on programming and computerassisted dratting experiences. The Drafting Technology program maintains a technical computation laboratory which provides all students in the Engineering and Science technologies the opportunity to develop basic computer programming skills.

The Electronic Technology program provides a circuitslaboratory, electronics laboratory, control system laboratory, digital circuits and system laboratory equipped with IBM personal computers and a facility for fabricating printed circuit boards.

The Mechanical Technology program maintains four drafting laboratories, a fluids and therma! laboratory, a machine shop for machine tooi fabrication and a numerically controlled milling machine.

A Manufacturing Technology laboratory includes equipment for precision inspection and the study of robotics. A variety of surveying instruments including new electronic instruments is available for use in the Surveying program. In addition, the division has laboratories for physics courses in mechanics, electricity and heat, iight and sound. A specialized laboratory for the study of chemical analysis arid instrumentation methods is also available.

## College of Education

The offices, laboratories and other facilities of the College of Education are located in Zook Hall. Carroll Hall, Crouse Hall, the James A. Rhodes Health and Physical Education Building, Mernorial Hall and East Hall.
The Department of Educational Foundations is responsible for the core curriculum of social. philosophical and historical foundations of both the undergraduate and the graduate education programs of ali departments. Within this department is the Educational Media Laboratory, which serves as a resource in teaching education students the selection, production, use and evaluation of audiovisual materials, media and microcomputer technology.
The Department of Health and Physical Education prepares students for careers in teaching, coaching, related recreational fields and related health tields. Within the department, the Human Performance Laboratory is equipped as a teaching and learning center for preservice personnel studying areas such as cardiovascular functions, stress, nutrition and sports medicine. The James A. Rhodes Health and Physical Education Building and Memorial Hall house a gymnasium, weightlifting room and several laboratories for education in physical skills.
The Department of Secondary Education houses the Microteaching Laboratory, which is managed by department faculty The laboratory offers several rooms for simulated teaching with videotaping and feedback to facilitate students' self-assessment of teaching behaviors. The facility serves all departments in the college
The Center for Economic Education serves as an instrüctional site for preservice teachers. college faculty and area schools. Workshops, seminars materials, and visiting experts provide in-service training in economic issues. An extensive inventory of educational media includes
books, periodicals, lesson outlines, games, films, videotapes, and computer software which address economic education.

The Department of Counseling and Special Education operates the Materials Resources Center, which serves as a repository of curricular aids for both the preservice teacher and those in the classrooms. Kvam's Kinder Camp, located several miles trom the campus, provides an instructional opportunity for teacher education students while serving the needs of handicapped children in the Akron area during the summer. The Clinic for Child Study and Family Therapy, housed in this department, offers support and therapy for the public while providing a clinical teaching and research setting for University students and faculty. Several therapy and counseling rooms offer viewing from an adjoining room for practicum students' supervision and feedback.
The Department of Educational Administration operates the Center for the Study of Higher Education, which provides support for those seeking advanced study. The department hosts biannual conferences for northeast Ohio educational administrators and houses the regional office for the Ohio School Boards Association.

The Department of Elementary Education uses those strategies appropriate for the $K-8$ child in the teaching-learning situation as the basis for its broad offering of courses in the disciplines of reading. mathematics, social studies, science and art. A reading center, mathematics lab and art lab facilitate the instruction of preservice teachers. The University Nursery Center, directed by department faculty, provides day care for children while serving as an experiential learning site for teacher education students

## College of Engineering

The Department of Chemical Engineering possesses a variety of modern research equipment. The Particle and Catalyst Characterization Laboratory has a Micromeritics surface area analyzer, a flow BET unit, a temperature programmed chemisorption and desorption unit, and a mercury intrusion porosimeter. There is also a particle shape and image analyzer by Shape Technology

The Chemica! Reaction Engineering laboratories have a continuous high pressure catalytic reactor which is controlled by an on-line computer working in a real-time, multitasking mode to evaluate results. A slurryreactor, micro-pilot plant operates in a three-phase catalytic mode and is ideal for carrying out various fundamental and engineering studies on three-phase catalytic reactions. A gas chromatograph/mass spectrometer is avalable for product stream analysis.
The Applied Colloid and Surface Science Laboratory has a state-of-theart laser light scattering facility including a Lexel argon-ion laser, a vibration isolated optical bench, a Brookhaven correlation and probability analyzer, and an IBM PC-based data acquisition system.

The focal point of the undergraduate laboratories is the Corning Glassplant six-inch distillation unit which includes a 12-plate bubble-cap column and an eight-foot high packed-bed column. The unit is 24 feet high. There is also a pilot plant with a five-gallon agitated reactor and a packedcolumn stripping facility
The Department of Civil Engineering staffs four major laboratories. In the environmental engineering laboratory, a student learns to analyze water and wastewater and assess its quality. Laboratory equipment includes analytical balances, incubators, UV-visible spectrophotometers, and a total organic carbon analyzer. Water/wastewater analytical kits and pH and dissolved oxygen meters are also available for field studies.
In the hydraulics laboratory a tilting flume enables the student to visualize water flow in streams and rivers. Models of bridges and dams can be studied; the wave tank enables a student to study the effect of waves on lakeshore erosion, harbors, breakwaters and off-shore structures; the mobile bed tank is used to demonstrate erosion and sediment deposition patterns around bridges, piers and culvert and storm drain outlets.
In the soil mechanics and foundation engineering lab, a student learns how to analyze soil by triaxial cells, airect shear machines and com-
pression machines to determine shear strength characteristics, and seismic and electrical resistivity equipment for geophysical exploration of soil and rock deposits.
In the structural materials laboratory the opportunity to observe experimental verifications of earlier training on the behavior of structural members subjected to tension, compression, bending and torsion is accomplished with the use of three universal testing machines, an MTS closed-loop system which has a loading capacity to 100,000 pounds and two Instron dynamic testing machines which can be used in either uniaxial or torsional loading.
The Department of Electrical Engineering maintains a broad range of measurement, electronics, control/robotics computer, digital electronics, signal processing, microwave/transmission line, optics and machinery laboratories.

Measurement and Electronics Laboratories: Students learn to do basic electrical measurement and to design simple electronic circuits and instruments. The equipment includes oscilloscopes, transistor curve tracers, and an assortment of voltmeters, ammeters and wattmeters.
Control/Robotics Laboratories: There are analog computers for control system simulation and programming, and digital computers for interfacing with the controlled systems. A variety of robolic devices and systems are also available for robotic control and robotic vision study.
Computer Laboratory: A number of personal computers are available for instructional and research purposes
Digital Electronics Laboratory: We have several Intel and HewlettPackard microcomputer development systems for digital prototype design, emulation and debugging work.
Signal Processing Laboratory: There are computer systems with digitizing, computing and signal reconstruction capabilities. An anechoic chamber and a key digital sonograph are also available for signal recording and analysis.
Microwave/Transmission Line Laboratory: Students perform the experiments on the basics of wave guide, transmission line property and wave progagation.
Optics Laboratory: There is an optics table, laser and holograph apparatus.

Machine Laboratory: Students learn the operating principles of generator and motors, and perform motion control experiments; the laboratory is equipped with an assortment of motors, generators and motor starters.
The Department of Mechanical Engineering maintains taboratories in the Auburn Science and Engineering Center and in Simmons Hall for both undergraduate and graduate instruction and research. These laboratories include a thermal and fluid science laboratory with internal combustion and gas turbine engines, a supersonic wind tunnel and a subsonic wind tunnel; a heat transfer laboratory with thermal conductivity, radiation and temperature measurement systems, a gas laser and various heat exchangers; a measurements laboratory with a full complement of transducers, calibration standards, signal conditioners, analog recording devices and microprocess-based digital data aquisition systems; a mechanical laboratory with a new Instron uniaxial testing machine with computer control, several hardness testers, photoelastic strain measuring equipment and a full range of strain gage instrumentation for static and dynamic measurements, a mechanical design laboratory with major software packages for computer-aided design and with computer graphics terminals connected to the College's Prime 850 computer; a systems and controls laboratory with microprocessor, analog computers, and digital control equipment for process control and robotics; and a vibration and acoustics laboratory with electro-mechanical shakers, sound pressure leve! instrumentation and frequency spectrum analyzers for modal analysis.
The Department of Polymer Engineering laboratories maintain a broadbased range of processing, structural and rheological characterization facilities. These include apparatus for mixing, extrusion and fabrication of fiber, film and (screw injection) molded products. Characterization facilities include (Fourier Transformi) infrared, small angle light scattering: polarized light microscopy, optical benches and a refractometer. Rheo-
logical/mechanical testing facilities include capillary, elongational and sandwich rheometers, mechanical testing machines and an oscillating disk rheometer.

## College of Fine and Applied Arts

The Department of Art provides students with a solid background in art history supported by a collection of over 60,000 slides and an auditorium classroom setting. The department's studios and classrooms are housed in a contemporary 67,000 square foot building which features a ceramics studio with pottery wheels and kilns; a metalsmithing/jewelry laboratory offering casting and fabricating equipment; photographic tools and darkrooms; weaving looms; a printmaking workshop; and a sculpture shop with equipment for construction with wood, metal, clay, plaster, stone and foundry work including bronze and aluminum. The graphic design/commercial art program has student labs complete with traditional metal type, state-of-the-art computer typesetting systems, Art-O-Graph enlargers, typositors, plate makers, black-and-white and color stat cameras, advertising photo studio and iaboratories, color prool systems and two offset lithography presses. The computer graphics area utilizes two turn-key graphic systems with video input and still fiim recorders plus Apple il computers set up for graphic use to keep current with new trends in the art field. Emily Davis Gallery, Perkins Gallery and the Guzzetta Hall Atrium Gallery display staff-curated national and regional exhibitions, as well as student and faculty work, on a continuous basis. On occasion, the galleries also host traveling exhibitions. The art gallery maintains a program of catalog publications.
The Department of Communication features a television classroom/ studio equipped with color cameras, lights, audio and video control boards, slide and film chain, video and audio tape recorders and character/title generator. Portable video and audio equipment is available for location use. A multitrack audio recording facility is located in Guzzetta Recital Hall. Radio facilities, located in WAUP-FM, include control boards, turntables, tape machines, mikes, studios and newsrooms. A multimedia production/editing laboratory-classroom supports class instruction. News and other writing classes have access to a typing lab and a computer text editing/VDT system.

The Department of Communicative Disorders provides pre-professional and professional training to students who wish to become speechlanguage pathologists and/or audiologists. The department houses the Speech and Hearing Center, which functions as a practicum training arm as well as a service agency for persons in the Akron community who have speech, language or hearing problems.
The Department of Home Economics and Family Ecology has food and nutrition laboratories, an executive dining room and textile conservation and clothing laboratories and a human resource center. Within the department is a multipurpose lecture/laboratory area designed for demonstration and study in the areas of home management, equipment, home computers, home nursing, consumer education, housing, interiors, home furnishings and community involvement.
The Department of Music, Theatre and Dance utilizes Guzzetta Recital Hall which houses a 45 -stop Mohier pipe organ. The University has available for student use a number of wind, string and percussion instruments. $\$ 50,000$ worth of equipment is available to complement instrumentation for the marching and symphony bands and the University Orchestra. The department also owns two harpsichords, a harp, a nine-stop tracker organ, a Mohler practice organ, a computer-based instructional laboratory of 10 Apple computers with scund synthesizers, an electronic piano laboratory and 11 Baldwin concert grand pianos for the recital hall, classrooms, teaching studios and 40 practice rooms (acoustical sound modules).
The areas of theatre and dance utilize three different performing spaces to present their annual season of eight to ten productions. Home base is in

Guzzetta Hall, which houses the versatile "black box" experimental theatre as well as rehearsal, teaching and shop facilities. Kolbe Hall is the site of the 244-seat University Theatre, complete with support facilities. This conventional proscenium theatre is the home of both theatre productions and dance performances, as is the multipurpose E.J. Thomas Performing Arts Hall where two departmental productions are presented each year. The Ballet Center, formerly the Firestone Conservatory, houses extensive studios for the dance program.

The Department of Social Work offers professional training to social work students by linking them to a variety of health and human services community agencies and organizations in this area. The strong commitment and interaction with a network of agencies in the community serves as a laboratory for our students

## College of Nursing

The Callege of Nursing, housed in Mary Giadwin Hall, has a multipurpose Learning Resource Laboratory where nursing practice is simulated through organized and independent activities. Typical equipment found in hospitals, health agencies and the home are available for students to practice simple and complex nursing techniques. The laboratory features a hospital setting, study carreis, computers, a graduate research room and the Center for Nursing, which is the research, education and practice arm for the study of Family-Health Nursing.
Students in the Coliege of Nursing have their clinical experience in hospltals, health departments, visiting nurse services and many local healthcare agencies. The entire community thus becomes an interactive learning center for the College of Nursing.

## Computer Center

The Computer Center is at the west end of campus and provides computational support to those academic efforts of research and instruction where such support is feasible, and administrative data processing to assist in the conduct of the business of the University.

The center is equipped with two IBM computers, a 3033 U and a 370/158, tor general computing. The $370 / 158$ is scheduled to be replaced by an IBM 3090/200 computer in January 1987. A variety of peripheral equipment is attached to these computers including magnetic tape drives, disk drives and remote terminals. A DEC VAX $11 / 785$ has recently been installed to aid research conducted in the computer science and engineering fields. An IBM 4361 computer in a VM/CMS environment supports the computer courses. There is also a PRIME 850 computer which is dedicated for support of the College of Engineering Graphics Laboratory. An IBM 3881 Mark Sense Reader creates computer-readable tapes from specially marked forms providing fast and reliable data entry for test scoring services and surveys.

The center also has widely used computer languages (e.g., FORTRAN C, COBOL, PL/1, RPG, BAL, BASIC, PASCAL, GPSS, SAS, SPSS, APL, ADEPT, as weil as some lesser known, e.g., SNOBOL, FORMAC, WATFIV, ASSIST, XPL, ALGOL, PHOENIX, SIMSCRIPT).

Plotting may be done using either a Gould electrostatic plotter or a 30 -inch CalComp plotting machine. Other types of equipment available for general use by qualified faculty and students include a digitizer, Tektronics graphics terminal and a variety of general purpose terminals which interact with the computer under the VSPC online system
The Academic Systems Section assists the student and faculty member in making effective use of the Computer Center. It provides consultation and help in preparing usable computer programs and in analysis and solution of problems where the use of the computer is indicated. It will also acquire and install prepackaged programs for specific departments.

Stuclent Services and Activitioe

Section 2

## Student Services

The Office of Student Services exists to provide whatever help a student needs to develop academically, personally and socially. Special services are also available to the nontraditional adult student who wishes to return to or continue studies in higher education. Several facilities provide various forms of help to students.

## STUDENT DEVELOPMENT

This office provides a wide range of resources, programs and professional counseling to assist the student with individual growth through involvement in campus organizations. The office provides leadership and skillbuilding workshops for all students throughout the year. These workshops enhance the student's ability to participate effectively within and accept responsibility for group activities.

The office maintains current information about all campus organizations and their activities and will help a student explore the wide range of opportunities that can enrich both his University experience and his individual development.

## STUDENT FINANCIAL AID AND EMPLOYMENT

This office serves students who may need financial assistance to attend the University. Six professional staff members provide information on available aid programs.
A detailed statement regarding all financial assistance programs can be found in Section 3 of this Bulletin.

## CAREER PLANNING AND PLACEMENT

Career placement assistance in business, industry, government, private agencies and education is provided to students by this office, located in Simmons Hall.

For the graduating student, on-campus interviews with representatives of businesses, industries, branches of the government and military services, and elementary and secondary education can be scheduled through this office. Information on administration or teaching careers in higher education is also available. Other services to registrants include direct job referrals, the maintenance and distribution of students' credential files, the availability of company literature, and counseling in career planning.
Both students and alumni may take advantage of the facilities and services of this office, and more than 400 interviewers come to the University each fail and spring to interview degree candidates
Additionally, the Career Planning and Placement Office is part of a cooperative effort with the Counseling and Testing Center to provide for the comprehensive career development needs of students. These programs and services are described below under Career Development Service.

## Career Development Service

The Career Development Service is a cooperative effort of the Counseling and Testing Center and the Career Planning and Placement Office.

## Major Objectives

- To provide specialized services for students to help them:
explore, clarify and assess their interests, values, needs, abilities and personality characteristics;
- understand broad career areas and specific occupations;
- decide on a career direction and an appropriate educational program; and,
- develop lifelong decision-making skills.
- To provide services to students who have made a tentative decision regarding their career direction to help them:
- reassess their interests, aptitudes, needs, educational and experiential backgrounds as well as their desired life style to clarify, re-evaluate or reinforce their choice.
- sharpen decision-making skills:
- apply this knowledge to the realities of the world of work; and,
- develop lifelong job skills.

## Services

- Individual counseling for career and life planning.

This individualized approach provides a systematic, in-depth exploration of self and the identification of possible career alternatives.

- Interest, aptitude, personality and values testing for career and lite planning. A wide range of vocational and psychological tests and inventories are available for self-assessment in individual and group counseling.
- Career and life planning groups. Groups usually meet for three or four one-hour sessions using the selfassessment career planning approach.
- "Puzzling Your Career" workshops.

This is a well-developed and flexible approach to career planning especially useful for the nontraditional student.

- S|G| - a computerized system of interactive guidance and information. SIGI is a computer program designed specifically to help college students make rational and informed career decisions.
- OCIS - computerized Ohio Career information System

OCIS is a computer-based information system designed to provide remote, instantaneous access to state and nationai data regarding occupations, educational institutions and financial aid.

- Career library.

In addition to standard references. general and specific information is available about career opportunities with hundreds of companies, government agencies and school systems in Ohio and throughout the country.

- Career advisement and consultation.

Information and consultation is available about various career fields and their requirements, as well as about job outlooks, salaries, job hunting skills and University of Akron alumni follow-ups.

- Workshops on interviewing skills, resume writing and job hunting skills. These are practical how-to sessions that deal with a topic in a clear, concise. informative manner.
- Interviews witn employers

Campus interviews with representatives from business, industry, government and private organizations are scheduled throughout the year

- Contacts.

Names of people to contact within organizations and addresses and locations for all types of employment are available.

- Current job opportunities

Employers regularly notify the Career Planning and Placement Office of current positions available.

- Computerized job matching.

A computerized system matching jobs to students registered in the CPPO is in operation. This will facilitate information-flow between employers and potential candidates for employment.

You are invited to contact the Career Development Service to take advantage of any of the services described. This contact may be made through the Counseling and Testing Center, Simmons Hall 163, 375-7082 or the Career Planning and Placement Office, Simmons Hall 178, 375-7747

## COUNSELING AND TESTING

In addition to participating with the Career Planning and Placement Office in the Career Development Service, the Counseling and Testing Center, in Simmons Hali, provides a wide range of psychological counseling, therapy, testing and consulting services to the University community.

## Counseling Service

The center's counseling service offers assistance in the following areas:

- Career counseling involves discovering one's interests, needs. values, aptitudes, abilities and goals; relating these to the world of work; exploring appropriate major subjects and career fields. A library of occupational information materials is available for use in connection with career exploration, as weil as two computerized guidance and information programs.
- Personal-emotional counseling deals with feelings of Ioneliness, inadequacy, guilt, anxiety and depression; harmful involvement with alcohol and drugs; interpersonal relationships, especially with the immediate family, dating partners and roommates; personality development, identity and self-esteem.
- Educational counseling relates to educational goals, motivation, attitudes, abilities and the development of effective study habits and skills.
- Group educational programs concentrate on such areas as increasing selfawareness and personal growth, improving grades, improving relations with others, developing communications and listening skills, adjusting to midife career change and understanding and accepting an individual's sexuality.
- Consulting services deal with concerns of nontraditional students; understanding individual and group behavior; problem-solving and decision-making skills; communication and human relations skills; referral for social, psychological and medical services; and counseling psychclogy theory and technique

## Testing Service

The center's testing service offers a variety of testing programs such as the American College Test, the Admissions Testing Program of the College Entrance Examination Board, mathematics and foreign language placement test, Graduate Record Examination, Miller Analogies Test, Law School Admissions Test and the College Level Examination Program (successful completion of CLEP tesis can be substituted for certain course requirements of the University College).
Individual psychological and vocational testing is offered in conjunction with counseling. Such tests cover such areas as vocational interests, aptitudes, achievement, personality and assessment of learning disabilities.

## STUDENT HEALTH SERVICES

Health service facilities are immediately adjacent to the residence halls First aid services and limited medical care are available in the health
services and an infirmary area is provided for 12 inpatients. A registered nurse is on duty 24 hours a day, except vacations and holidays.

A residence hall student receives bed care for up 1072 hours without charge. Students requiring extended bed care will be charged the daily rate which is that charged by local hospitals for similar services
The student who becomes seriously ill or suffers a serious injury on campus should be taken to an emergency ward of one of the local hospitals without delay. Those persons present in this kind of emergency should call Security or an ambulance immediately. The University assumes no legal responsibility or obligation for the expenses of such transportation or for medical services at the hospital.
The University constructs every facility with high safety standards and carries out this principle of maintaining physical security for its students by following stringent accident prevention measures. However, the University assumes no responsibility for student accidents incurred while attending or participating in classroom, gymnasium or laboratory work.
Student health and accident insurance designed specifically for a student is required of all residence hall students and all international students except those who present proof of similar coverage. Other students may purchase this insurance at the annual individual rate. The student insurance provides coverage for such items as hospitalization, surgica! benefits and in-hospital medical benefits.
To identify existing or potential health problerns, a Health History Profile form is included in the packet containing other admission forms and information. Explanations for completion and mailing of this form are included. Completion of this form is essential.
The completed health form and other health-related records are treated as confidential and are kept in the Student Health Services offices.

## UNIVERSITY LIBRARY AND LEARNING RESOURCES

## Library

Library facilities are found in three separate locations: the main library in the Bierce Library building on East Buchtel Avenue; the Science and Technology Department in Auburn Science and Engineering Center 104; and the Psychology Archives in Simmons Hall 10.
Library services are grouped into three divisions: Information Services Access Services and Archival Services. In both the main library and the Science and Technology Department, Information Services provides reference and research assistance, user education and bibliographic instruction, computer-based information searching and library materials and resource development. Access Services operates circulation services for materials that can be borrowed from the main library facility and for interlibrary lending and borrowing from other libraries around the country. This division also functions as the processing unit for ordering. receiving and cataloging all library materials. Archival Services collects and makes available materials such as correspondence, photographs and newspapers which have historical or other research interest and which relate primarily to The University of Akron, to an eight-county region in northeast Ohio or to American psychology.
The University library's collection contains more than 1.8 million items books, periodicals, government documents, curricular materials, microforms, maps, records, manuscripts and other archival materials. The library receives more than 5,000 magazines, journals, newspapers and other serial publications, such as annual reports, proceedings of conferences and society publications.
Through the library's memberships in the Center for Research Libraries, the Northeast Ohio Major Academic Libraries consortium, the Online Computer Library Center (OCLC) and the Ohio Network of American History Research Centers, access to vast resources is greatly increased for University students, faculty and staff.

University identification cards function as library cards. Photocopy services and equipment for use in making paper copies from microforms are available in the main library and the sciences and technology department. A machine for making a duplicate microfiche copy is available in the main library, where group study rooms and typing facilities are also available.

## Learning Resources

Learning Resources Services are grouped into three units: Media Services, the Computer-Based Education Center, and the Center for Community and Public Television (CCPTV). Learning resources facilities have several locations on campus. The media services administrative offices, classroom services unit and film-ordering and scheduling section are in the Bierce Library. The photographic, audio and television production activities, along with the AVS IMAGiNE photographic sales store, are in Carroll Hall 50 and 57. Satellite stations for equipment distribution are in Guzzetta Hall 127; Mary Gladwin Hall 207; Olin Hall 116; Schrank Hall South 238; and Gardner Student Center on the second floor. The production center for Community and Public Television is in Kolbe Hall 101. The Computer-Based Education Center, both its administrative unit and terminal site location, is in Carroll Hall 308 and 325B.

Media Services maintains an extensive centralized collection of media hardware and audio-visual resources and materials in the Bierce Library building for student and faculty use It also has a collection of instructional materials in various media formats (filmstrips, slides, etc.) that can supplement University professors' lectures.
Media Services has a materials production unit which prepares original artwork and photographic materials for use by professors to accent course content and to augment learning principles. This division prepares non-broadcast, educational videotapes that support classroom instruction and provide general information, along with films, slide/sound sequences, audiotapes and muiti-image presentations. It also produces campus-wide telecourses and videotapes for individual classes. Annually, an estimated seven thousand students receive part of their instruction by television.

Through use of its broadcast-quality and on-location equipment, the CCPTV produces cultural, public affairs and sports programs. Many of these programs are produced in cooperation with Kent State University and Youngstown State University as part of the consortium, Northeastern Educational Television of Ohio, Inc, which operates television channels 45 and 49. A collection of CCPTV programs is housed in the Kolbe Hall production complex.

The Center for Computer-Based Education serves the University in the design development validation and delivery of computer-based educa. tion course ware. The division also provides consultation on educational projects. The CBE Center supplies course ware for both on-campus and off-campus users. For over a decade, the center has supported a CBE network that provides course ware to area schools and other local agencies.

The Learning Resources Center (LRC) is in Carroll Hall 200. The LRC is equipped with 36 active learning carrels and 24 table study stations. The center operates for an average of 50 hours weekly. Equipment available includes a wide assortment of slide, film and film-strip projectors: audio-cassette-headphone equipped playback units; two- and three-dimensional biological and geological models; maps, charts; and mineralogical specimens available for "hands-on" experiences. Study units are also avalable in elementary statistics for mathematics; phonetics for speech pathology; financial management for the Community and Technical College student, and calculus of functions of a single variable and partial derivatives.

## RESIDENCE HALLS

The Office of Residence Halls has the responsibility for providing comfortafe and healthful living accommodations for the non-commuting t. The residence hall program is committed to providing a living
experience that contributes to the educational, social and personal development of each resident student.

The University residence hall program is administered from the Office of Residence Halls on the first floor of Bulger Residence Hall. Currently the dorm system includes 16 facilities housing approximately 2,200 students from 17 states and several foreign countries.

Living in each hall is a trained hall director and selected returning students who serve as resident assistants. Most of the halls are fully air-conditioned and feature semi-private rooms with bathroom facilities on each floor. Recently acquired residence halls that were formerly apartments house more students per unit and include private bathroom facilities. Rooms are furnished with beds, desks, chairs, bookshelves. closets, storage space, lamps, wastebaskets, drapes and pillows. A student is not permitted to bring pets.
The residence halls have coin-operated washers and dryers as well as lounge and study areas. A resident may have a car on campus but must purchase and display a student parking permit There are open parking lots adjacent to the halls as well as a deck below the Robertson Dining Hall

## Robertson Dining Hall

A student who lives in the residence halls must participate in the board plan. A residence hall occupant receives a meal ticket, which is not transferable, entitling the holder to 20 meals per week in the dining hall. Meals are served cafeteria style with an "unlimited seconds" policy. Meals are planned under the supervision of a professional dietician.

## Cost: Room and Board

The current rate for housing accommodations and food service is $\$ 2.652$ per year (\$1,326 per semester).
Housing is also available during the summer on a limited basis. The charges are: per night, $\$ 6.50$; per session, $\$ 208$; and for the entire summer school period, $\$ 416$. These prices reflect the cost of rooms only. A student is responsible for meals.
In the event surplus space becomes available in University residence halls, the University shall enforce a rule requiring occupancy of facilities by students attending the University.

## Residence Hall Program Board (RHPB)

RHPB is a student-operated programming organization that provides a variety of social activities for residence hall students. RHPB's seven standing committees - major events, musical entertainment, telecom, media, publicity, technical and special features - sponsor an array of activities such as Freshman Orientation, Little Sibs Weekend, Dorm Week, dances, mini-concerts, contests, talent shows, movies, Spring Break Florida trips and trips to sports events.

## Residence Hall Radio Station (WRHA)

WRHA (590 AM) is the residence hall radio station. The station is staffed entirely by students and participation is open to all University students.

## Residence Hall Student Council Government

Residence Hall Council (RHC) is the major governmental body for residence hall students. The purpose of RHC is to facilitate communication among students faculty and administration; to provide services for the residence hall community; and to planeducational and recreational activitres to enhance residence hall living
RHC consists of executive officers and representatives from each individual residence hall. Each residence hall has its own hall government responsible for supporting and enriching hall environment and sponsoring group activities for its residents.

## HOURLY PRE-SCHOOL

The University of Akron Nursery Center provides a variety of child-care programs, all of them open to the general public as well as to students, faculty and staff. The curriculum covers planned, spontaneous and facili-
tated experiences for children and is supervised by trained teachers and aides. Opportunities are provided for youngsters to engage in arts, language arts, table toys, socio-dramatic play, rug toys, science exploration, sandbox and water play. Field trips provide real-life experiences. Resource people from the community are invited to the school to share their talents and vocations. The program emphasizes positive self-image, racial awareness and anthropological differences among people.
The Nursery Center, which is open between 7:40 a.m. and $6 \mathrm{p} . \mathrm{m}$. Monday through Friday during the fall and spring semesters, offers an hourly pre-school for children three to five years old. The center also offers haif-day pre-school sessions, which run from 8 a.m. until noon or from noon until 4 p.m. Full-day sessions are available for up to 45 hours of child care per week during the center's normai operating hours.
A summer program is also offered for school-aged children from three to 12 years old during the center's summer hours, from $6: 45 \mathrm{a} . \mathrm{m}$. until $6 \mathrm{p} . \mathrm{m}$. Hourly, half-day and full-day care can be provided.

Fees for the Nursery Center services are the same during both the academic year and the summer session. Hourly pre-school care is $\$ 1.90$ per hour; for half-day sessions, $\$ 35$ per week; and for the full-day program, $\$ 60$ for up to 45 hours of child care Parents who have enrolled one child in the full-time program may enroll a second child for haif the regular fee. Registration is handled on a per-semester basis for all parents, and space is allotted on a "first-come" basis.

## ECUMENICAL CAMPUS MINISTRY

The Ecumenical Campus Ministry is a cooperative enterprise supported by many Protestant and Roman Catholic churches, working together to proclaim the Christian gospel to and within the academic community. The church cooperates with the University in shaping values, in creating awareness of self-identity and in providing intellectual preparedness for tasks relating to God and His children. Thus the campus ministry programs focus on all facets of the academic community-faculty, students, staff-through discussion groups, worship celebrations, retreats, social projects, personal counseling and reflection.

A student is invited to share in this ministry through participation in any of its programs and services. The Catholic campus ministers are available at the Newman Center, 143 South Union Street (north of Olin Hali): and the Protestant minister is available at the AGAPE Center, 263 East Mill Street.

A priest is available to all of the Eastern Orthodox faith at the Greek Orthodox Church of the Annunciation adjacent to the campus at 129 South Union Street
There are synagogues in the city tor the student of orthodox, conservative and reformed Jewish faith. The Akron Jewish Center, located on the west side of the city, provides cultural opportunities for all students and residents of the city.
Many of the extracurricular groups have a faith as a focal point of the organization. These are listed in the student handbook, the A-book.

## THE BLACK CULTURAL CENTER (BCC)

The Black Cultural Center develops, coordinates and implements noncredit instructional and educational programs and activities on the total black experience for The University of Akron. The center serves as a coordinating agency for all black student groups on campus although each group maintains its autonomy. The BCC sponsors a Black Freshmen/Parent Orientation Week annually and provides other limited auxiliary services to minority students in pursuit of academic and cultural excellence. Also, the center provides limited outreach service to the black community of Greater Akron.

## Co-curricular Activities

Experiences obtained through social life and extracurricular activities add an important dimension of learning to formal course work

Eligibility for participation in an officially registered extracurricular activity is based on the student's eligibility to continue in the University. Participants in certain selected activities, e.g., honor societies, recognition societies, varsity athletics, etc., must also satisfy requirements for eligibility as specified by the national and/or conference organizations governing such activities.

Co-curricular offerings range from athletics to communications and publications, from recognition societies and honoraries to personal interest groups, from performing arts groups to religious organizations, and from academic department interest clubs to social fraternities and sororities. Participation in these activities provides an opportunity to make new acquaintances and contacts with various people in the University and community; they also provide the chance to broaden classroom learning experiences, develop skills that will be marketable in the search for a career position, introduce the student to additional interests and teach him leadership and human relations skills.

Listed here are some of the most popular activities. A complete listing may be found in the student handbook, the A-book.

## PERFORMING ARTS

Opportunities are abundant for students to develop the ability to face the public through such live audience performances as plays, debates, recitals and dance, as well as media presentations through radio, television and film.

A student who aspires to act, write or produce in theatre is encouraged to attend auditions and to apply for technical positions. The experimental theatre in Guzzetta Hall is one of the most flexible theatre designs to date. The University Theatre in Kolbe Hall, with its intimate proscenium stage, is the scene for many University productions.
Those interested in mass media communication will find that Guzzetta Hall contains fully equipped television and radio stations. A student may
participate in the operation and broadcast of public radio station, WAUP (88.1 FM). Also available is experience at the residence hall station, WRHA (590 AM). In addition to speaking and broadcasting opportunities, forensic and debate teams compete locally and nationally.
A University student interested in music may audition for membership in the famous 200-piece Marching Band, the Concert Choir, the Vocal Jazz Ensemble, the award-winning Jazz Ensemble, the University Orchestra, the Concert Band, the Symphony Band, the outstanding Opera Theatre, the Evening Chorus, which performs regularly with the Akron Symphony Orchestra, or any number of other small or specialized musical ensembles or clubs.

A final opportunity in the area of performing arts is offered in ballet, in the form of the Experimental Dance Ensemble, which is intimately associated with the world-renowned Ohio Ballet.

## SPORTS

The University aims to provide a diversified program in intramural and intercollegiate club sports. The student, regardless of athletic success or experience, is urged to participate.

A wide variety of intramurals ranging from flag football to tennis is offered. On the intercollegiate level, the University participates in 15 sports during the three major athletic seasons. Fall includes football, soccer, men's and women's cross country and women's volleyball. Winter offers men's and women's basketball and riflery. Spring intramurals are men's and women's track, baseball, golf, men's and women's tennis and women's softball.

Athletic clubs, among others, include the nationally acclaimed Karate Club and the Ski Club.

## DEPARTMENTAL ORGANIZATIONS

To enhance and expand classroom learning, many academic departments sponsor organizations that provide social and educational programs in a particular field of study. Guest speakers, mock interviews, community service projects and career nights are a few of the activities offered.

## PERSONAL INTEREST ORGANIZATIONS

From political groups to chess tournaments, the personal interest organizations cover a wide range of activities and interests.
Some of the most prominent, broadly appealing groups are: Associated Student Government (ASG), the representative government for the day undergraduate which provides student input into University governance and recommends budget allocations to campus organizations; Black United Students, which offers enrichment for the black student supplemented through Black History Month, orientation programs for the black student, African Awareness Week and other cultural programs; the Residence Hall Program Board, which schedules entertaining activities such as coffeehouses, dances, films and video entertainment in order to fill resident students leisure time.

Students at The University of Akron have the opportunity to hold positions on the all-campus activities board, the University Program Board. UPB is open to interested students and is actively involved in the selection, promotion and presentation of concerts, films, evening and afternoon entertainment, dances, lectures, recreational activities, festivals and many other special events for the University community.

## STUDENT PUBLICATIONS

The Buchtelite is a student newspaper issued twice weekly during the regular academic year. This is the campus "voice" with news, columns and photographs concerning campus events. Copies of each edition are distributed to students free of charge at various locations on campus.

The Tel-Buch is a yearbook with comprehensive editorial and photographic coverage of student life at the University. This impressive publication of approximately 300 pages is free to students in attendance during the school year that the yearbook summarizes.

ARETE is composed of journals and newsletters produced by law students to advance the goals of the profession, present opinions of contemporary issues related to law and to facilitate communication among law students.

## Admiesione, Requirroments, Procedures and Costs

## Admissions

Admission is necessarily limited by the University's capacity to provide for the student's educational objectives. The University reserves the right to approve admission only to those whose ability, attitude and character promise satisfactory achievement of University objectives.

## RECOMMENDED HIGH SCHOOL COURSES

Students should pursue the following college preparatory curriculum:

## 4 units of English

3 units of mathematics
3 units of science
3 units of social science
2 units of a foreign language
Applicants intending to major in business, computer science, engineering, natural science or statistics should take a fourth year of high school mathematics. Appropriate preparation for natural science or engineering includes biology, chemistry, physics and a fourth year of science if available. It is strongly recommended that students interested in nursing compiete additional credits in mathematics and science

The high school courses mentioned above are recommendations, not requirements. Variations in degree requirements for different majors may cause variations in recommended high school courses. Students may obtain specific high school course recommendations by major area of study from the Office of Admissions.
Students whose preparation differs from that recommended by the University or those who show a deficiency in English or mathematics will be required to take developmental courses in those areas. Developmental courses do not count as degree credit; however, they do count toward full-time status.

## CLASSIFICATION OF STUDENTS

The University of Akron classifies its 26,000 students according to their needs, goals and abilities. Classifications include:

- Undergraduate - A student who has not earned the baccalaureate degree and is eligible to enroll in undergraduate-level credit courses.
- Postbaccalaureate - A student who holds the baccalaureate degree from an accredited institution, who is eligible to enroll in credit courses on the undergraduate level and who has not been admitted to the Graduate School. A postbaccalaureate student applies for admission to the college (arts and sciences, education, etc.) where undergraduate credit is to be earned.
- Graduate -- A student who holds the baccalaureate degree from an accredited institution, has been admitted to the Graduate Schoot and is eligible to enroll in graduate-level credit courses.
- Professional - A student who holds the baccalaureate degree from an accredited institution and has been admifted to the School of Law
- Special Student - A student who does not meet the regular admissions requirement but qualifies by certain abilities or maturity and is admitted by the dean after special petition.
- Auditor - A student who wishes to enroll in a course without obtaining a grade-point value ("A-F") or a grade of noncredit or credit. A student must indicate that he is an auditor at the time of registration. Audit status may be denied if space is not available. An auditor is expected to do ail prescribed course work except the writing of examinations.
- Transient - (trom another institution) A student who is regularly enrolled and eligible to continue at another institution, and who desires to enroll at The University of Akron for specified courses.
- (from The University of Akron) A student enrolled at The University of Akron who must obtain written permission from the dean of the student's college before enrolling (transient student status) for credit work at another institution. Credit for such work may be granted at the discretion of the dean.

## ADMISSION PROCEDURE

The University of Akron operates under a policy of rolling admissions, which means an applicant receives a letter of admission as soon as all credentials are processed. There is no set date for notification of admission; it is an ongoing process. However, it is advisable for a prospective student to submit ail credentials as early as possible to be assured the best selection of classes and/or a room in the residence halls.

Admission procedures vary slightly for different types of students. The various admissions categories include: recent high school graduate, adult student, transfer student, postbaccalaureate student, special student, transient student and international student. For information on admission to the Graduate School, see Section 7 of this Bulletin.

## Recent High School Graduates

A recent high school graduate should apply for admission as follows:

- Obtain an application form from the Office of Admissions, either by cailing (216) $375-7100$ or writing the Office of Admissions. The University of Akron, Akron, OH 44325. Fill it out and return it as soon as possible with the nonrefundable application fee (a one-time charge). All checks should be made payable to The University of Akron, and shouid specify what fees and for which student the payment is being made.
- Send a student transcript to the Office of Admissions at the time of application This record must be received before any admission action can be taken by the University.
- Take entrance tests. Arrangements may be made through the student's high school to take the ACT or SAT. (The University's Counseling and Testing Center also serves as a testing site for the ACT test.) Test scores must be submitted before an applicant can be formally admitted to the University.
- The University requires enrollment in basic mathematics and/or English if the student's academic adviser determines that deficiencies exist in one or both of these areas. This recommendation will be based on the following: work completed at a previous institution in mathematics and/or English, high schoot academic record (if available), standardized test results (ACT or SAT if available), and University mathematics and/or placement test results. If a mathematics or En-
glish placement test is deemed necessary to comply with this policy, the student must take the appropriate placement test(s) by the completion of the first term of attendance. To arrange for the mathematics test, contact the Testing Bureau, Simmons Hall 161 , at 375-7084. The English test can be taken by contacting the Department of Developmental Programs, Carroll Hall 210, at 375-7087. Have test score(s) interpreted by contacting the dean of the University College, Spicer Hall 214, at 375-7066 two days after taking the appropriate test(s). Please note that failure to take the required test(s) prohibits enroliment in college-level mathematics and /or English courses.
- A health record will be sent from the Office of Admissions after the student has been admitted. Please complete the form and return it. This provides the University with the information necessary for a complete health record on every student.
- In the letter of admission to the University, directions for academic counseling will be explained. All freshmen receive academic advising through Academic Advising Services of the University College. The evening student at the same level will be advised by the Evening College
- It the student is under 25 years of age, the student must request a transcript from his high school. This official record must be received and evaluated before admission action can be taken.
- If the student is under 21 years of age the student must submit results of either the ACT or SAT. (The University of Akron's Counseling and Testing Center serves as a testing center for the ACT test.) These test scores are needed before an applicant is formally admitted to the University.

## Adult Students

An adult student who has graduated from a regionally accredited Ohio secondary school or completes the GED test is eligible to enroll.
The following application procedures should be followed

- Obtain an application form from the Office of Admissions, either by calling (216) 375-7100 or by writing the Office of Admissions, The University of Akron, Akron, OH 44325 . Fill it out and return it as soon as possible with the nonrefundable application fee (a one-time charge). Ali checks should be made payable to The University of Akron, and should specify what fees and for which student the payment is being made.
- If the student is under 25 years of age, the student must request a transcript from his high school. This official record must be received and evaluated before admission action can be taken.
- If the student is under 21 years of age, the student must submit results of either the ACT or SAT. (The University of Akron's Counseling and Testing Center serves as a testing center for the ACT test.) These test scores are needed before an applicant is formally admitted to the University.
- A health record will be sent from the Office of Admissions after the student has been admitted. Please complete the form and return it. This provides the University with the information necessary for a complete health record on every student.
- In the letter of admission to the University, the student will receive directions concerning academic counseling. All freshmen receive academic advising through Academic Advising Services of the University College. Evening students at the same level will be advised by the Evening College.

## Transfer Students

A student applying for admission who has formerly attended another institution of higher learning is eligible to transfer to The University of Akron if the student can re-enter the institution from which transfer is desired. Also, the student must present scholastic records judged to be satisfactory by University of Akron officials. The assessment of scholastic records may include consideration of prior courses, grade-point average, credit value and other such factors which the University or individual colleges use in evaluating, ranking or otherwise determining admissibility to the University or to specific programs.

## A transfer student should apply as follows:

- Obtain an application form from the Office of Admissions, either by calling (216) $375-7100$ or writing the Office of Admissions, The University of Akron, Akron, OH 44325. Fill it out and return it as soon as possible with the nonrefundable application fee (a one-time charge). All checks should be made payable to The University of Akron, and should specify what fees and for which student the payment is being made.
- A transfer applicant must request the official transcripts from the records office of all institutions previously attended. They should be mailed to the Office of Admissions.
- A student under 25 years of age and with fewer than 12 credits of accredited transfer work must submit a high school transcript or GED scores along with the college transcript(s). A student under 21 years of age and having fewer than 12 transfer credits must submit results from the ACT or SAT test in addition to a high school transcript or GED scores. If it appears necessary to validate the transfer credits of a student with more than 12 credits, the appropriate admitting officer may also require the ACT battery. These documents must be received and evaluated before any admission action can be taken by the University
- The University requires enrollment in basic mathematics and/or English if the student's academic adviser determines that deficiencies exist in one or both of these areas. This recommendation will be based on the following: work completed at a previous institution in mathematics and/or English; high school academic record (if available); standardized test results, ACT or SAT (if available); and university mathematics and/or English placement test results if a mathematics or English placement test is deemed necessary to comply with this policy, the student must: take the appropriate placement test(s) by the completion of first term of attendance. Arrange for the mathematics test by contacting the Testing Service (Simmons 161, 375-7084); arrange for the English test by contacting the Department of Developmental Programs (Carroll 210, 375-7087); and, have test score(s) interpreted by contacting the dean of the University College two days after taking the appropriate test(s).
Please note that failure to take the required iest(s) prohibits enfoliment in collegelevel mathematics and/or English courses.
- A health record will be sent from the Office of Admissions after the student has been admitted. Please complete the form and return it. This provides the University with the information necessary for a complete health record on every student.
- In the letter of admission, the student will receive directions concerning academic counseling. University College freshmen and some sophomore day students receive academic advisement through Academic Advising Services of the University College. A student in the Community and Technical College or a degreegranting college will be advised by a faculty member in the appropriate department.

## Postbaccalaureate Students

A student who holds the baccalaureate degree from an accredited college and wishes to continue educationally but has not been admitted to the Graduate School, should apply as a postbaccalaureate student through the Office of Admissions.
This procedure should be followed:

- Obtain an application form from the Office of Admissions, either by calling (216) 375-7100 or writing the Office of Admissions, The University of Akron, Akron, OH 44325. Fill it out and return it as soon as possible with the nonrefundable application fee (a one-time charge). All checks should be made payable to The University of Akron, and should specify what fees and for which student the payment is being made.
- A postbaccalaureate student must request the registrar of the institution(s) from which he graduated to send an official and complete transcript. These documents must be received and evaluated before any admission action can be taken by the University.
- A health record will be sent from the Office of Admissions after the student has been admitted. Please complete the form and return it. This provides the University with the information necessary for a complete health record on every student.
- In the letter of admission, the student will receive information on registration and instructions for academic counseling by a faculty member in the appropriate department.

## Special Students and the High School/College Program

A special student is one who does not qualify for regular admission to the University or who is participating in a special short-term academic program.

A special student may not take more than 15 credits unless official status as a regular student is gained.

## This procedure should be followed:

- Obtain a special student application from the Office of Admissions.
- A student presently enrolled in high school must also submit written permission from either the high school principal or guidance counselor to participate.
- Information regarding registration for classes and academic advising will be forthcoming in the letter of admission to the special student program.

## Transient Students <br> (Non-University of Akron Students)

An undergraduate transient student must apply to the Office of Admissions. A graduate student must apply through the dean's office of the Graduate School

A transient student may not, as a general rule, attempt more than 16 credits in any semester or session and is subject to all rules and regulations of The University of Akron.
The following procedures should be followed when applying to the University as a transient student:

- Obtain a transient student application from the Otfice of Admissions, The University of Akron, Akron, OH 44325. Complete it and return it with the nonrefundable application tee (a one-time charge).
- Receive advice and written approval by the home institution of the course work for which the student plans to enroll.
- After admittance, information regarding registration will be sent to the student. The admissions officers act as transient student counselors, and one day of open registration is set apart for transient students to register for classes.

## INTERNATIONAL STUDENT PROGRAM

The University of Akron welcomes qualified students from other countries and seeks to make their educational experiences pleasant and meaningful. During the 1985-86 academic year, approximately 700 students with citizenship other than the United States attended the University. These students represent 87 countries and are pursuing studies in a number of major fields.

## Admission Procedures

Applicants can be admitted to the University only in September, the beginning of the academic year. All admission requirements should therefore be completed by July 1 preceding the September in which the student desires to enroll.

The following application procedures should be followed

- Obtain an international student application form from the Office of Admissions. If your request is by mal, use this address: Office of Admissions, The University of Akron. Akron, OH 44325 USA. Fill it out and return it with the nonrefundable application fee (a one-time charge)
- Submit official transcripts from ali secondary or middle schools and all universities attended previously. Origina! records in languages other than English must be accompanied by exact English translations
- International students must also include an autobiographical essay with the application. This essay should cover any significant personal, occupational and educational experiences
- Proof of English language proficiency. The University requires each student for whom English is not the native language to participate in the Test of English as a Foreign Language (TOEFL). This test is administered throughout the world in major cities. Applications may be obtained from bi-national agencies, USIS offices or by applying directly to Educational Testing Service, Princeton. NJ 08540 Because it normally takes six to eight weeks for the University to receive the results of the TOEFL, the student is encouraged to take the examination in October or January. The University cannot guarantee the student who takes the examination in March that the records will be processed completely before the July 1 application deadiine. The English Language Institute at the University also offers a program in English for the student who has not reached the level of proficiency required for full admission. A student who has not yet taken or passed the TOEFL can still enroll in the English Language Institute
- Proot of adequate financial support. An international student is requested to submit a Declaration and Cerification of Finances showing that the student has sufficient funds to cover the cost of the student's education while attending the University and that these funds will be available to the student in this country. It is estimated that an international student will need a minimum of $\$ 8,100$ per year for undergraduate study for tuition and living expenses while attending. Immigration regulations prevent a student trom earning any substantial portion of this amount There are virtually no scholarships available to an undergraduate from abroad, although a graduate student may request and often receive financial aid through fellowships and graduate assistantships. A graduate student interested ir applying tor this aid should request the necessary forms at the time of application for admission to the Graduate School. Each international student will be held responsible for obtaining and maintaining appropriate health and accident insurance coverage while enrolled at this institution.

## Orientation

The international student is required to attend a special orientation program which begins two weeks before classes. The schedule for orientation will be mailed with the Certificate of Eligibility (1-20) from the international student adviser. During orientation, the international student is given an English language placement examination in addition to the proficiency examination overseas. The student may be required to participate in noncredit English classes if the results of his placement examination warrant such action.

## English Language Institute

The University offers an intensive English Language Institute for the international student whose command of the English language has not reached a level of proficiency to enable the student to begin fuil-time course work. The English Language Institute operates on a schedule of two 15 -week semesters and a summer session. An applicant is required to pass a language proficiency test before he can be admitted

## Special Note

The University has a director of International Programs, full-time international graduate and undergraduate student advisers and instructors of English as a second language. If an international applicant has questions about housing, climate or immigration regulations, he is encouraged to contact the international student adviser directly
The University is a member of The National Association for Foreign Student Affairs

## Special International Education Programs

The University sends students to different parts of the world as part of its continuing program, Classrooms Around the World. This program, offered for graduate or undergraduate credit, began in 1960.

## Procedures and Requirements

## ORIENTATION

The first major contact the newly admitted student has with the University comes during an orientation period, held prior to the beginning of each semester, which provides the student a great deal of information about the University and what is expected from the student. The student will meet many of the University's administrative officers and faculty members and discuss specific problems with an upper-college student. Thus, the student has an opportunity to become acquainted with the University and clear up many of the questions which arise when embarking on a new enterprise

## COUNSELING

During orientation and in each term thereafter, a student meets individually with a counselor to discuss progress, to review the areas of success as well as the problems which have been encountered in previous terms and to determine what courses the student's academic record calls for in future terms. The two then plan a schedule of courses to be taken during the next term

## REGISTRATION

Each term it is necessary for a student to select courses, complete required forms and pay the appropriate fees to register officially for classes.
The student may elect to register by mail or in person. Details about these options are described in the Schedule of Classes published every academic period and available upon request from the student's advising agency: the Office of Academic Advising Services, the Evening College or the degree-granting college. A nonrefundable late registration tee is as. sessed students enrolling after the official open registration period.

## CLASS ATTENDANCE

A student is expected to attend all meetings of a class for which he is registered. A student may be dropped from a course by the dean if absence is repeated and the instructor recommends this action; a student can gain readmission only with permission of both dean and instructor. A student dropped from a course receives an " $F$ " which counts as work attempted whenever grade-point ratio calculations are made.

## STUDENT SCHEDULES

## Modification of Student Schedules

A student must register for a course before the end of the first week of the term. Alterations in the student's official schedule may be made only with the permission of the dean or the dean's designate.
A day student in the University College and a first-term student in the Community and Technical College should make all changes through an adviser in the Office of Academic Advising Services, Spicer Halt; an evening student in these colleges should contact the Evening College Office, Spicer Hall.

## Withdrawal Policy

A student may withdraw from a course up to the midpoint of the course with the signature of his adviser. After the midpoint of a course, a student must have the written approval of both the course instructor and the adviser. Such approval must be dated and processed through the offices of the Registrar and the Cashier prior to the final examination period. Shouid the instructor or adviser refuse to sign the withdrawal form, the student may appeal to the dean of the student's college, who shall make the final decision after consultation with the instructor and adviser who declined to approve the withdrawal.
An approved withdrawal will be indicated on the University official academic record by a ' $W$." A student who leaves a course without going through the withdrawal procedure will be given an " $F$ " in the course.

## Transfer Credit

Course work taken at an institution of higher education in the United States which is fully accredited or has been granted candidacy status by Middle States Association of Colleges and Schools/Commission on Higher Education (MSA/CHE); New England Association of Schools and Colieges (NEASC); North Central Association of Colleges and Schools (NCA); Northwest Association of Schools and Colleges (NASC); Southern Association of Colleges and Schools - Commission on Colleges (SACS); Western Association of Schools and Colleges - Accrediting Commission for Senior Colleges (WASC-Sr.); Western Association of Schools and Colleges - Accrediting Commission for Community and Junior Colleges (WASC-Jr.) as designated in Accredited Institutions of Postsecondary Education - Programs/Candidates as published for The Council on Postsecondary Accreditation (COPA) by the American Council on Education will be listed on The University of Akron official academic record. Each course will reflect the course number, title, grade and credit value; no grade-point value will appear on the record and no grade-point average will be calculated for the course work listed; however, grade-point average may be considered for purposes of evaluating, ranking or otherwise determining admissibility to the University or to specific programs. In addition, the name of the institution as well as the time period during which the courses were taken, will be listed on The University of Akron official academic record.
For courses that have been taken at an institution of higher education noted in the reference document above, the dean of the college in which the student intends to obtain a degree will specify which courses listed, other than general studies, will apply toward the degree requirements at the University. This specification will be made at the time the student enters the degree-granting college. The dean of the University College will specify which courses listed will apply toward the general studies requirements when the student enters the University

## Transient Student - <br> (University of Akron Students)

A University of Akron student may take course work at another institution of higher education as a transient student. For all courses other than general studies, the student must obtain prior written permission from the dean of the college in which the student is enrolled; for general studies courses, prior written permission must be obtained from the dean of the University College. These courses will be listed on the University official academic record. Each course will reflect the course number, title, grade and credit value; no grade-point value will appear on the record and no grade-point average will be calculated for the course work listed. The name of the institution will be listed on the University official academic record as well as the date that the course work was taken

## Credit by Examination

A student interested in earning credits by special examination may do so with the permission of the dean of the student's college and the dean of the college in which a particular course is offered and by payment of a special examination fee. The grade obtained in such an examination is recorded on the student's permanent record. Credit by examination is not permitted in the semester before graduation. Credit by examination may not be used to repeat for change of grade

## Bypassed Credit

Certain courses designated in this Bulletin by each department enable a student to earn "bypassed" credit. A student who completes such a course with a grade of " C " or better is entitled to credit for designated prerequisite courses which carry the same departmental code number. Credit for such bypassed prerequisites shall be included in the total credits earned but shall not count in the quality point ratio. class standing or hours required for graduation with honors. Bypassed credit is not awarded on the basis of completing a course either credit-by-examination or credit/noncredit.

## GRADE POLICIES

## Credit/Noncredit Option (undergraduate and postbaccalaureate only)

A student who takes a course on a "credit" or "noncredit" ("CR/NC") basis, and who earns a grade equivalent of "A" through "C-," shall receive credit ("CR") for the course and have the grade, "CR," placed on the permanent record; a grade equivalent of " $D+$ " through " $F$ " will be recorded with the noncredit grade, "NC.'

A student who has completed 50 percent of the number of credits required for a degree with a grade-point average of at least 2.30 , shall be allowed, with the consent of an adviser, to take one free elective (not in major field)* course per term on a "CR/NC" basis.

[^1]With the consent of the student's adviser, the first or second year of foreign languages may be taken on a "CR/NC" basis at any time the student is registered, regardless of the grade-point average.

No more than 16 credits of non-language courses and no more than 20 credits in total, including language courses, may be taken on a "CR/NC" basis (for an associate degree, hall this number is permitted).
The election to take a course on a "CR/NC" basis can be made only at the time of registration for that course. A student who elects to take a course on a "CR/NO" basis cannot withdraw and register to take that course for a letter grace after the first week of that term. The registrar will notify the instructor by means of the final class list of students who have elected to utilize the "CR/NC" option.
Courses for which "CR" is awarded will be counted as hours completed only; courses for which "NC" is awarded shall not be counted as hours attempted; in neither case shall "CR" or "NC" be considered in calculating grade-point average, but in both instances the course shall be entered on the student's official academic record.
A student may repeat a course for credit ("CR"), or a grade ("A-F") after receiving a grade of "NC."
A college may, due to a closed class problem, designate in the printed schedule, on an annual basis, a course as not available to be taken on a "CR/NC" basis
A student taking a course on a noncredit basis is expected to meet the full requirements of the course as required by the instructor

## Re-Examination

A student may not request re-examination in order to raise a grade.

## Repeating Courses

Any course may be repeated as many times as necessary by an undergraduate student subject to the following conditions:

- To secure a grade ("A-F") or a grade of "NC." "CR" or "AUD," a student may repeat a course in which the previously received grade was "C-," "D+," "D," "D-," "F," "AUD" or "NC." Registrations under the "CR/NC" option are subject to the restrictions in the "CR/NC" policy.
- The student must repeat the same course within 12 months of the completion of the prior attempl. With the dean's permission, a sludent may extend this period or substitute another course if the previous course is no longer offered. Courses must be repeated at The University of Akron.
- Grades for all attempts at a course will appear on the student's official academic record
- Only the grade for the last attempt will be used in the grade-point average.
- Ali grades for attempts at a course will be used in grade-point calculation for the purpose of determining graduation with honors and class standing
- For purposes of this section, credit for this course or its equivalent will apply only once toward meeting degree requirements.

## Academic Reassessment

An undergraduate student who has not attended The University of Akron for at least three calendar years and re-enrolls and maintains a gradepoint average of 2.50 or better for the first 24 credits may petition the dean to delete from the grade-point average the grades attained under his previous University of Akron enrollment.
This policy is to apply only to the grade-point average. All grades will remain on the student's official academic record. A student may utilize this academic reassessment policy only once
in the determination of graduation with honors and class standing, all grades oblained at the University shall be used in the calculations.

## Discipline

Continuation as a student of the University is dependent on the maintenance of satisfactory grades and conformity to the rules of the institution.

## Grades and the Grading System

A student will receive grades on various types of classroom performance during the process of most courses and a final grade at the end of the term. At the end of the term, the Office of the Registrar mails grade reports to a student's home address; summer grade reports are mailed for both summer sessions at the end of the second summer session.

Individuai tests are usually graded with percentage or letter marks, but official academic records are maintained with a grade-point system.

This method of recording grades is as follows:

| Grade | Grade Points <br> Per Credit |
| :--- | :---: |
| A | 4.00 |
| A- | 3.70 |
| B+ | 3.30 |
| B | 3.00 |
| B- | 2.70 |
| C+ | 2.30 |
| C | 2.00 |
| C- | 1.70 |
| D+ | 1.30 |
| D | 1.00 |
| D- | 0.70 |
| F | 0.00 |
| AUD (Audit) | 0.00 |
| CR (Credit) | 0.00 |
| NC (Noncredit) | 0.00 |

The following grades may also appear on the term grade reports or on the official academic record. There are no grade points associated with these grades.
I - Incomplete: Indicates that the student has done passing work in the course but that some part of the work is, for good and acceplable reason, not complete at the end of the term. Failure to make up the omitted work satisfactorily by the end of the following term, not including summer sessions, converts the " F " to an " F ". When the work is satistactorily completed within the allotted time the " $!$ " is converted to whatever grade the student has earned. *
IP - In Progress: Indicates that the student has not completed the scheduled course work during the term because the nature of the course does not permit completion within a single term, such as work toward a thesis.
PI - Permanent Incomplete: Indicates that the student's instructor and the instructor's dean have for special reason authorized the change of an incomplete ("I') to a permanent incomplete ("PI").
W - Withdraw: Indicates that the student registered for the course but withdrew officially sometime after the second week of the term.
NGR -- No Grade Reported: Indicates that, at the time grades were processed for the current issue of the record, no grade had been reported by the instructor.
INV - Invalid: Indicates the grade reported by the instructor for the course was improperly noted and thus unacceptable for proper processing.

## Importance of Grades

Grades determine whether a student is either eligible or ineligible to remain at the University. A student who maintains specified levels of scholastic achievement receives privileges to participate in extracurricular activities.

On the basis of grades, a student receives opportunities to take additional courses to accelerate academic progress.
A student should transfer from the University College to a degree-granting college upon meeting the grade and credit hour requirements of that college. Acceptance is dependent on the approval of the dean of the college which the student chooses to enter and on academic performance to date
"If insituctors wish to exterid the "I" grade beyond the following term for which the student is registered, prior to the end of the term they must notify the Office of the Registrar in writing of the extension and indicate the date of its termination. It is the responsibitity of the student to make arrangements to make up the incomplete work. The facully member should submit the new grade to the Office of the Registrar in writing.

To receive a degree, each student must have attained a grade-point average of at least 2.00 for all work taken at The University of Akron.

Finally, high grades are essential for a student who intends to go on to graduate work.

## Probation-Dismissal

A student who fails to maintain a grade-point average of 2.00 ("C") is placed on academic probation and may be subject to a change of courses, suspension or some other form of discipline. Academic discipline is determined by the dean of the college in which the student is enrolled. Reinstatement of a student is determined by the dean of the college from which the student was dismissed.

Once dismissed from the University, a student is not eligible to register for credit courses unti/ readmitted

## Graduation with Honors

For a student who entered the University after December 1981 who is being awarded an initial baccalaureate degree and who has completed 60 or more credits at the University, the degree

For a student who entered the University after December 1981 who is being awarded an initial associate degree and who has completed 30 or more credits at the University, the degree

| will be designated | if the overall grade-point average is |
| :---: | :---: |
| with highest distinction | 3.80 or higner |
| with high distinction. | 3.60 and 3.79 |
| with distinction | 340 and 3.59 |

For a student who entered the University prior to January 1982 and is being awarded an initial baccalaureate degree and who has completed 60 or more credits at the University, the degree

For a student who entered the University prior to January 1982 and is being awarded an initial associate degree and who has completed 30 or more credits at the University, the degree

```
will be
designated
with cistinction
```

$\qquad$

``` the overall grade point average is
with oistinction 3.25 or nigher
```

## GRADUATION

## Requirements for Baccalaureate and Associate Degrees

A candidate for the baccalaureate or the associate degree must:

- File an application for graduation with the registrar. If the candidate plans to complete degree requirements at the end of fall semester, submit an application
by or before May 15 . If the plan is to complete degree requirements at the end of spring semester. submit an application by or before September 15
- Earn a minimum 2.00 grade-point average as computed by the Office of the Registrar for work attempted at the University consistent with the Repeating Courses policy. The grade-point average achieved at the time of completion of requirements for a degree will be used to calculate rank in class and honors.
- Meet all degree requirements which are in force at the time a transter is made to a degree-granting college. If the student should transfer to another major, then the requirements should be those in effect at the time of the transter. For a student enroiled in an associate degree program in the Community and Technical College, the requirements shall be those in effect upon entrance into the program.
- Beapproved for graduation by appropriate college facuity, University Council and Board of Trustees
- Complete the requirements for a degree in not more than five calendar years from the date of transfer, as defined below. In the event the student fails to complete the degree requirements within five calendar years from the date of transfer, the University reserves the right to make changes in the number of credits and/or courses required for a degree
- The date of transter for a student in a baccalaureate program will be the date that the student is accepted by the degree-granting coliege. For a student enrolled in an associate degree program in the Community and Technical College, the date of transfer refers to the date of entrance into the program.
- Earn the last 32 credits in the baccalaureate degree total or 16 credits in the associate degree total in residence at The University of Akron unless excused in writing by the dean of the coilege in which the student is enrolled
- If a student who has iransferred from another institution wishes to present for the student's major fewer than 14 credits earned at The University of Akron, written permission of both the dean and head of the department concerned is required
- Discharge all other obligations at the University.

## Requirements for Additional Baccalaureate and Associate Degrees

- Meet requirements given in Section 3, Requirements for Baccalaureate and Associate Degrees.
- Earn a minimum of 32 credits which have not counted toward the first baccalaureate degree or 16 credits which have not counted toward the first associate degree
- Earn the above credits in residence at the University.

## Change of Requirements

To accomplish its objectives better, the University reserves the right to alter, amend or revoke any rule or regulation. The policy of the University is to give advance notice of such change, whenever feasible.

Unless the change in a rule or regulation specifies otherwise. it shall become effective immediately with respect to the student who subsequently enters the University, whatever the date of matriculation

Without limiting the generality of its power to alter, amend or revoke rules and regulations, the University reserves the right to make changes in degree requirements of the student enrolied prior to the change by

- Altering the number of credits and/or courses required in a major field of study.
- Deleting courses.
- Amending courses by increasing or decreasing the credits of specific courses, or by varying the content of specific courses.
- Offering substitute courses in same/or cognate fields

The dean of the college, in consultation with the department or division head of the student's major field of study, may grant waivers in writing if a change in rules affecting degree requirements is unduly hard on a student enrolled before the change was effective. The action of the dean of the college in granting or refusing a waiver must be reviewed by the senior vice president and provost on his own motion, or at the request of the dean of the college of the student affected or at the request of the student affected.

## Credit and Grade-Point Requirements for Graduation Listed by College and Degrees Granted

|  |  | Min. Grade- <br> Point Avge |
| :--- | :---: | :---: |
| Req. |  |  |

Each course at the University has two numbers. One designates the college and department of which it is a part; one specifies the subject matter of the particular course. For instance:

## 3300:220 English Literature

In the above example, the first four digits of the number (3300) indicate the college and department. In this case, 3000 represents the Buchtel College of Arts and Sciences; 300 refers to the Department of English. The second set of digits (220) following the colon, indicates exactly which course in the Department of English is being specified. The course number also indicates the level at which the course is being taught and the point at which the student is ready to take the course
An explanation of that numbering system follows:
100-199 First-year-level courses
200-299 Second-year-level courses
300-399 Third-year-level courses
400-499 Fourth-year-level courses
500-699 Master's-tevel courses
600-799 J.D.-level courses
700-899 Doctoral-fevel courses
When approved 400-level undergraduate courses are taken for graduate credit, they become 500-level courses. A student must apply for and be admitted to the Graduate School to receive graduate credit

## Fees and Expenses

## Fees subject to change without notice.

Despite the willingness of taxpayers and generous friends of the University to help support higher education, some portion of this total expense must be borne by the student. Typical costs for one year (September through May) based on an average academic load of 32 credits for the two semesters are as follows:

|  | Commuting Residents of Ohio | Residents of Ohio Living on Campus | Non-Ohio Residents |
| :---: | :---: | :---: | :---: |
| Undergraduate Tuition and Fees (regular load) | \$1.783.60 | \$1.783.60 | \$4.364.00 |
| Books (average costs) | 300.00 | 300.00 | 300.00 |
| Room and Board | - | 2.652 .00 | $\underline{2,652.00}$ |
|  | \$2,083.60 | \$4,735.60 | \$7,316.00 |

Following are comprehensively outlined tees for the student at the University who is studying for credit and noncredit in all areas of instruction. Included also are the additional expenses required for special academic services available to a student such as private music lessons, thesisbinding, etc.
It is the responsibility of the student to know the correct amount of all fees including the non-Ohio resident surcharge.
In any question concerning fees, surcharge or residence, it is the responsibility of the student, parents or court appointed guardian, to furnish such proof as may be required by The University of Akron. A student who is in doubt about residency status should consult with the University registrar.
It is the responsibility of the registrar to assess fees and surcharges at the time of registration; information given by the student at that time is used in the assessment. Each registration is later audited by the University auditor, and appropriate additional charges or refunds will be made.
All fees and surcharges are due at the time of registration or on the specified fee payment deadline. The status of the student as of the opening day of the semester or session for which registered, will determine the final, correct amount of fees and surcharges.

## Fees

- Instructional Fee (all students):

Undergraduate
$1-13$ credits
13-16 credits
Over 16 credits
Graduate and Professional (Law) One or more credits
$\$ 54.60$ per credit $\$ 709.80$ per semester $\$ 70980+\$ 54.60$ per credit
$\$ 73.60$ per credit

- Tuition Surcharge:
(Nonresidents of Ohio pay the surcharge in addition to the instructional fee)
Undergraduate
One or more credits
$\$ 70.40$ per credit
Gracuate and Professional (Law)
One or more credits
$\$ 59$ per credit
- General Fee:

Undergraduate
$\$ 14$ per credit to a maximum of $\$ 182$ per semester
(Maximum general fee for two combined summer sessions is \$169)
Graduate and Protessional (Law)
1-14 credits
$\$ 6.50$ per credit
14 credits and over

- Course Fees

For the following courses, the fee noted will be assessed to cover the cost of instructional materials distributed by the instructor:

## Room and Board

Residence hall facilities are available for the housing of a limited number of undergraduate students. The current totai cost of housing accommodations and food service is $\$ 1,326$ per semester or $\$ 2,652$ per year. All students who live in the residence halls must participate in the provided 20 meals per week board plan.

A student living off campus may participate in the residence hall board program, the current rate being $\$ 530$ per sernester.

## Veterans Expenses

A disabled veteran who is eligible for admission to the University may register for courses without payment of fees if the disabled veteran has been authorized for training by the V.A. If the disabled veteran has not been authorized, payment of all fees is required. However, the University will return to the veteran the payment made when the official authorization is received

A non-disabled veteran must pay fees at the time of registration. The non-disabled veteran will receive direct payment from the V.A. after enrollment has been cerlified under the provision of USC Title 38

An Ohio Veterans Bonus Commission recipient may arrange with the Accounts Receivable Office to have the Ohio Bonus Commission billed directly for tuition charges only.
Dependents of a veteran covered under other provisions of USC Titte 38 must pay fees at the time of registration. The V A. will make direct payment to the payee.

## Auditors

The fees for an auditor in any course or group of courses are the same as if taken for credit.

## Student Health and Accident Insurance

Student health and accident insurance designed specifically for a student of The University of Akron is required of all residence hall students and all international students except those who present proof that they already have similar coverage. Other day students carrying nine or more credits, graduate students carrying six or more credits may purchase this insurance, at the same annual individual rate, through the Student Health Services Office.

## THE UNIVERSITY OF AKRON RESIDENCY REQUIREMENTS

Payment of nonresident tuition surcharge is required of any student who does not qualify as a permanent resident of Ohio as defined by one or more of the following sections:
3333-1-10 Ohio student residency for state subsidy and tuition surcharge purposes.

## A. Intent and Authority

1. It is the intent of the Ohio board of regents in promulgating this rule to exclude from treatment as residents, as that term is applied here,
$\dagger \$ 2.50$ per week or $\$ .50$ per day
those persons who are present in the state of Ohio primarily for the purpose of receiving the benefit of a state-supported education.
2. This rule is adopted pursuant to Chapter 119 of the Revised Code, and under the authority conferred upon the Ohio board of regents by Section 3333.31 of the Revised Code. Effective date: September 1, 1984.
B. Definitions

For purposes of this rule:

1. A "resident of Ohio for all other legal purposes" shall mean any person who maintains a 12 -month place or places of residence in Ohio, who is qualified as a resident to vote in Ohio and receive state welfare benefits, and who may be subjected to tax liability under Section 5747.02 of the Revised Code, provided such person has not, within the time prescribed by this ruie, declared himself or herself to be or allowed himself or herself to remain a resident of any other state or nation for any of these or other purposes.
2. "Financial support" as used in this rule. shall not include grants, scholarships and awards from persons or entities which are not related to the recipient.
3. An "institution of higher education" as used in this rule shall mean any university, community college, technical institute or college, general and technical college, medical college or private medical or dental college which receives a direct subsidy from the state of Ohio.
4. For the purpose of determining residency for tuition surcharge purposes at Ohio's state-assisted colleges and universities, "domicile" is a person's permanent place of abode; there must exist a demonstrated intent to live permanently in Ohio, and a legal ability under Federal and state law to reside permanently in the state. For the purpose of this policy, only one (1) domicile may be maintained at a given time.
5. For the purpose of determining residency for tuition surcharge purposes at Ohio's state-assisted colleges and universities, an individual's immigration status will not preclude an individual from obtaining resident status if that individual has the current legal status to remain permanently in the United States.

## C. Residency for subsidy and tuition surcharge purposes

The following persons shall be classified as residents of the state of Ohio for subsidy and tuition surcharge purposes:

1. A dependent student, al least one of whose parents or legal guardian has been a resident of the state of Ohio for all other legal purposes tor 12 consecutive months or more immediately preceding the enrollment of such student in an institution of higher education.
2. A person who has been a resident of Ohio for the purpose of this section for at least 12 consecutive months immediately preceding his or her enrollment in an institution of higher education and who is not receiving, and has not directly or indirectly received in the preceding 12 consecutive months, financial support from persons or entities who are not residents of Ohio for all other legal purposes.
D. Additional criteria which may be considered in determining residency tor the purpose may include but are not limited to the following:
3. Criteria evidencing residency:
a. if a person is subject to tax liability under Section 5747.02 of the Revised Code;
b. If a person qualifies to vote in Ohio;
c. if a person is eligible to receive state welfare benefits:
d. it a person has an Ohio driver's license and/or car registration.
4. Criteria evidencing lack of residency:
a. if a person is a resident of or intends to be a resident of another state or nation for the purposes of tax liability, voting, receipt of welfare benefits, or student loan benefits (if the loan program is only available to residents of that state or nation);
b. If a person is a resident or intends to be a resident of another state or nation for any purpose other than tax liability, voting, or receipt of welfare benefits.

## E. Exceptions to the general rule of residency for subsidy and tuition purposes.

1. A person who is living and is gainfully employed on a full-time or part-time and self-sustaining basis in Ohio and who is pursuing a part-time program of instruction at an institution of higher education.
2. A person who enters and currently remains upon active duty status in the United States military service while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile.
3. A person on active duty status in the United States military service who is stationed and resides in Ohio and his or her dependents shall be considered residents of Ohio for these purposes.
4. A person who is transterred by his employer beyond the territorial limits of the fifty states of the United States and the District of Columbia while a resident of Ohio for all other legal purposes and his or her dependents shall be considered residents of Ohio for these purposes as long as Ohio remains the state of such person's domicile as long as such person has fuffilled his or her tax liability to the state of Ohio for at least the tax year preceding enrollment.
5. A person who has been employed as a migrant worker in the state of Ohio and his or her dependents shall be considered a resident for these purposes provided such person has worked in Ohio at least four months during each of the three years preceding the proposed enrollment.

## F. Procedures

1. A dependent person classified as a resident of Ohio tor these purposes and who is enrolled in an institution of higher education when his or her parents or legai guardian removes their residency from the State of Ohio shall continue to be considered a resident during continuous full-time enrollment and until his or her completion of any one academic degree program.
2. In considering residency, removal of the student or the student's parents or legal guardian from Ohio shall not, during a period of 12 months following such removal, constitute relinquishment of Ohio residency status otherwise established under paragraphs C . 1. or C. 2. of this rule.
3. Any person once classified as a nonresident, upon the completion of 12 consecutive months of residency, must apply to the institution he or she attends for reclassification as a resident of Ohio for these purposes if such person in fact wants to be reclassified as a resident. Should such person present clear and convincing proof that no part of his or her financial support is or in the preceding 12 consecutive months has been provided directly or indirectly by persons or entities who are not residents of Ohio for all other legal purposes, such person shall be reclassified as a resident. Evidentiary determinations under this rule shall be made by the institution which may require, among other things, the submission of documentation regarding the sources of a student's actual financial support.
4. Any reclassification of a person who was once classified as a nonresident for these purposes shall have prospective application only from the date of such reclassification.
5. Any institution of higher education charged with reporting student enrollment to the Ohio board of regents for state subsidy purposes and assessing the tuition surcharge shall provide individual students with a fair and adequate opportunity to present proof of his or her Ohio residency for purposes of this rule. Such an institution may require the submission of affidavits and other documentary evidence which it may deem necessary to a full and complete determination under this rule.

## Regulations Regarding RefundsCredit/Noncredit

Registration does not automatically carry with it the right of a refund or reduction of indebtedness in cases of failure or inability to attend class or in cases of withdrawal. The student assumes the risk of all changes in business or personal affairs.

## Fees Subject to Refund-Credit

Certain fees are subject to refund.

- insiructional and nonresident surcharge.
- General fee
- Parking (only if permit is returned).
- Student teaching.
- Laboratory breakage and late service deposit
- Residence hall fees (note: subject to special policy).

## Amount of Refund-Credit

Amount of refund is to be determined in accordance with the following regulations:

- in full
-- if the University cancels the course,
-- if the University does not permit the student to enroll or continue:
.-. if the student dies before or during the term or is drafted into military service by the United States; or if the student enlisted in the National Guard or Reserve pror to the beginning of the term called to active duty, presents notice of induction or orders to Active Duty. A student who enlists voluntarily for active duty should see "in part" below.
- Ir part
-- less $\$ 5$ per enrolled credit to a maximum of $\$ 50$ if the student requests in writing to the dean or designate official withdrawal from all credit courses on or before the second day of the enrolled term.
- if the student requests in writing to the dean or designate official withdrawal atter the second day of the fall or spring semesters, the following refund percentages apply:

| 3 through 12 calendar days* | $70 \%$ |
| :---: | :---: |
| i3 through 24 calendar days** | $50 \%$ |
| 25 through 33 calendar days* | $30 \%$ |

dar days 30\%

## inereater

- if the student requests in writing to the dean or designate official withdrawal after the second day of any Summer Session the following refund percentages apply:
$\begin{array}{ll}3 \text { through } 7 \text { calendar days* } & 60 \% \\ 8 \text { through } 15 \text { calendar days } & \end{array}$
8 through 15 calendar days*
Thereafter
0\%
- Refunds for course sections which have not been scheduled consistent with either the standard 15 -week fall/spring semester or the five-week summer term scheduling pattern will be handled on a pro rata basis according to the number o days the section (class, institute or workshop) has been attended compared to the number of days said section has been scheduled to meet
- Refunds will be determined as of the date of formal withdrawal unless proof is submitted that circumstances beyond control of the student prevented the filing of the formal withdrawal earlier, in which case the refund will be determined as of the last day of attendance. The student assumes responsibility for filing for a refund
- Refunds will be mailed as soon as possible. Refund checks are subject to deduction for any amount owed to The University of Akron by the student.
- No refund will be granted to a student dismissed or suspended for disciplinary reasons.

## Amount of Refund-Noncredit

- In full less \$5
- upon written request of the student who is officially withdrawn from any course before the first class meeting.
- In part

Courses of 6 to 11 weeks.
After the first class meeting $60 \%$
After the second class meeting $30 \%$
After the third class meeting 0\%
Courses of 12 weeks or more:
After the first class meeting $60 \%$
Atter the second class meeting $45 \%$
After the third class meeting 30\%
After the fourth class meeting 0\%

- No refund on courses of less than six weeks.

Refunds will be determined by the date (postmark of written request) of formal withdrawal, unless proof is submitted that circumstances beyond the control of the student prevented filing of the formal withdrawal earlier. In this case, the refund will be determined from the date of the last attendance in class. Refunds will be mailed within six weeks after the beginning of the session.

The University reserves the right to cancel a course should there be insufficient enrollment. A full refund will be mailed to the student within four to six weeks when a course is cancelled.

[^2]RESIDENCE HALL REFUNDS

## Refund/Release and Forfeiture Policy

A contract for housing accommodations and food services at The University of Akron upon being breached by the student or otherwise terminated by The University of Akron is subject to the following refund provisions:

- A fuli refund of any prepaid fees and release of other financial liability therefore under the following circumstances: graduation of the student from The University of Akron; academic dismissal of the student from The University of Akron; nonattendance or complete withdrawal by the student from The University of Akron prior to the start of the contract term (except the advance rental payment oi $\$ 100$ which shall be forfeited): or, in the event of mandatory or recommended participation in academic programs of The University of Akron requiring the student to commute regularly beyond the Akron metropolitan area (e.g., student teaching or co-op engineering assignments)
- A partial refund of prepaid tees according to the refund schedule below, and release of financial liability for subsequent semesters covered by the contract term, in the event the student completely withdraws from The University of Akron after the start of the contractterm. In such instances, the student shall not be liable for further forfeiture.
- A partial refund of prepaid fees according to the refund schedule below: First, in the event the University, in its sole discretion, terminates the contract for reasons related to the orderly operation of the residence halls, or for reasons relating to the health, physical, or emotional safety and well-being of the student, or property of other students, faculty, staff, or University property. In such instances, the student shall not be liable for further forfeitures and shall be released of further financial liability beyond the date of termination. Second, in the event the student breaches the contract for any reason, except when under dismissal or suspension, prior to the end of the terms thereof but continues to be enrolled as a student at The University of Akron. In addition, if the student has contracted for any subsequent semester beyond that semester in which the contract is terminated, the student shall pay as forfeiture for breach of the term of the contract an additional amount of $\$ 200$. Last, in the event that the student is dismissed or suspended from The University of Akron for disciplinary reasons in accordance with laws or rules and regulations of the Board of Trustees; or, if the student is placed on terms of disciplinary probation in accordance with law or rules and regulations of the Board of Trustees, whereby such terms of probation prohibit the student from residing in University housing accommodations

These conditions do not release the student from financial liability for any fees which are due not later than the effective date of such termination, dismissal, suspension or probation

## Refund Schedule

Beginning with the first day of the fall and spring semesters, the following refund percentages shall apply for all contracts for housing accommodations and food services:

Inclusive Dates
1-12 calendar days
13-24 calendar days
25-36 calendar days
Refund Applicable

- $-50 \%$

Thereafter
50\%
$30 \%$
0\%

## Notice Requirements

All notices of intent to break this contract must be submitted in writing to the Office of Residence Halls. If the student is a minor (under the age of 18 years), the written notification of termination must be co-signed by the student's parent or legal guardian.

## Financial Aid

Financial aid programs were developed by the federal and state governments as well as by institutions of post-secondary education to assist students from families with limited resources to meet educational expenses. The primary purpose of tinancial aid is to ensure that no one is denied the opportunity of a college education because of financial need.
When applying for financial aid at The University of Akron, the Office of Student Financial Aid and Employment determines a budget that best suits the needs of the student. The budget includes direct costs that must be paid to the University (instructional and general fees and room and board in the residence halls) and variable expenses such as transportation and personal expenses.

Generally, financial aid is provided in three forms: gift aid, loans and work. It is not unusual for a student to have all three forms of aid. This is called a "financial aid package." If a person receives a proper financial aid package, it is assumed that the family will not be expected to contribute more than is reasonable for a family member's education. The word "family" is crucial because the financial aid system assumes that the family will work together to assist a family member meet college expenses.

## Sources of Aid

To meet the needs of the financial aid applicant there are a number of sources from which aid can be received. The following programs represent those sources of aid for which The University of Akron selects recipients and/or distributes the funds. The application(s) for these programs can be obtained at the Office of Student Financial Aid and Employment.

## Federal Programs

## Pell Grant

The Pell Grant is the foundation of student tinancial aid. The grant is awarded to the student by the federal governmient. After applying for the grant, the student will receive a Student Aid Report (SAR) which must be taken to the schooi which the student will attend. The office will then calculate the amount of the grant that will be received. The grant amount is based on the costs of the school the student attends.

## Supplemental Educational Opportunity Grant

The Supplemental Educational Opporturity Grant (SEOG) is a federal grant that is awarded by the school the student attends. The amount of the grant is determined by the school attended, and is based on the need and the costs at that school. Entering freshmen and continuing students must have a 2.00 grade-point average to be eligible for the SEOG.

## College Work-Study Program

The College Work-Study Program (CWSP) is a program that provides an eligible student with a job on campus or in a nonprotit oft-campus agency. Eiigiblity for CWSP is determined on the basis of need. The office determines the amount of money that car be earned and places the student in a suitable job. The student and job supervisor adapt working hours to meet the student's ciass schedule. Students must have a 2.00 grace-point average to be eligible

## National Direct Student Loan

The National Direct Student Loan (NDSL) Programioffers low interest. Iong-term loans for an eligible student. Eligibility and loan amounts are determined by the office on the basis of need. This ioan must be repaid. beginning six months after ceasing to be at least a half-time student. Interest at five percent is calculated at the time repaymerit of the loan begins. If the student is teaching in certain fields or locations after graduation, eligibility for canceliation of all or part of the amount that was borrowed is possible. Entering freshmen and continuing students must have a 2.00 grade-point average to be eligible for the NDSL

## Guaranteed Student Loan/Federally Insured Student Loan

This program offers low-interest, long-term loans to an eligible student. In Ohio, it is called the Ohio Student Loan. Application for the loan can be made at a bank, savings and loan or credit union. This loanmust be repaid to the lender beginning six months after ceasing to be at least a half-time student. The interest on the loan is eight percent for new borrowers, and it is paid by the federai government while the student is in school.

## Nursing Student Loan

Low interest loans are avallable to an eligible student who is pursuing the Bachelor of Science in Nursing. These are based on need, and the amounts are determined by the Office of Student Financial Aid. These programs are generally reserved for a student who has been accepted by the College of Nursing.

## Army Reserve Otficers' Training Corps Scholarship

The Army Reserve Officers' Training Corps has competitive four-year scholarships available to high school seniors. Additionally, competitive three- and two-year scholarships are availabie to students who are attending the University, whether or not the student is enrolled in Reserve Officers' Training Corps when applying for the scholarship. These scholarships provide full tuition, laboratory and incidental fees, a Hat-rate payment for textbooks, and $\$ 100$ per month (tax tree) aliowance for up to 10 months of the school year for each year of the scholarship.

## State Programs

## Ohio Instructional Grant (OIG)

The OIG is available to an eligible student who is an Ohio resident and is attending college in Ohio or Pennsyivania. Eligibility is based on family income. The grant is awarded by the Ohio Board of Regents. If eigible, the student will receive an award certiticate which is taken to the school that the student will attend.

## Ohio Academic Scholarship

The state of Ohio awards scholarships each year to a graduating senior from each nigh schooi in Ohio. The scholarship must be used at a college in Ohio. The amount is $\$ 1,000$ and is renewable for four years.

## Ohio National Guard Scholarship

This scholarship is avalable to the student who enists in the Ohio National Guard. Contact a local recruiter for information.

## Ohio War Orphans Scholarship

Scholarships are avaliable to a student whose father or mother was a veteran from Ohio and has been disabled or deceased. For information contact the Ohio Board of Regents

## University Programs

## Scholarships

The University offers scholarships to the student with nigh academic achievement. Academic scholarships are awarded to the continuing student as well as the outstanding high school student who plans to eriroll. These academic scholarships are renewable each year based on continued high academic performance. A University Financial Aid/ Scnolarship Application must be submitted, but a need analysis form is not required. The majority of awards for the $1984 / 85$ academic year ranged from $\$ 300$ to $\$ 500$.

The Presidential Scholarship Program was initiated for the 1975/76 academic year. Currently, approximately 25 to 35 scholarships are awarded each year to new freshmen.
The Honors Program at the University awards a number of scholarships each year to new freshmen. An application for the Honors Program must be obtained from the Office of Admissions.

## Loans

The University offers short-term loans to the student who needs temporary help in paying tuition. These loans must be repaid in full before the end of the term for which the money was borrowed. Information and applications are available at the Student Financial Aid and Employment Loan Office (Spicer 115).
Special long-term loans are availabie to selected students in certain fields who need partial help.

## Application for Financial Aid

- To apply for the Pell Grant, National Direct Student Loan, Nursing Student Loan and the College Work-Study Program, the student must complete and submit the Financial Aid Form (FAF) to the College Scholarship Service. In addition, the student must complete a Financial Aid Scholarship Application.
- To apply for the Ohio Instructional Grant, a student must complete and submit the Ohio Instructional Grant application to the Onio Board of Regents.
- The Guaranteed Student Lcan application is secured through lending institutions such as the local bank, savings and loan associations or credit unions.
- The information sent to the College Scholarship Service through the Financial Aid Form is used to determine eligibility for: Pell Grant, National Drect Student Loan, Nursing Student Loan, Supplemental Educational Opportunity Grant, and College Work-Study Program.

## Computation of Financial Aid

The College Scholarship Service determines what the family may be able to contribute toward the student's education; this amount is called the family contribution. Some of the key factors involved in computing the family contribution are as follows:

- Family income
- Family assets.
- Family size
- Number of family members in college
- Medical bills
- Unusual expenses

The difference between the cost of education and the family contribution is called the unmet need. The unmet need is the amount the Office of Student Financial Aid attempts to cover through various financial aid programs to assist a student in meeting educational costs.

## Independent Students

An independent student is one who:

- Has not been or will not be claimed as an exemption for federal income tax purposes by either of the student's parent(s) or adoptive parent(s) for the school year in which aid is received as well as the prior calendar year
- Has not or will not live with one orboth parents or adoptive parent(s) for more than six weeks in the calendar year in which aid is received as well as the prior calendar year.
- Has not or will not receive financial support or more than $\$ 750$ from one or both of the student's parents or adoptive parent(s) in the calendar year in which aid is received as well as the prior calendar year.

The University requires that the independent student (and spouse if applicable) complete the student section of the Financial Aid Form (FAF). In addition to completing the FAF, if the independent student is 22 years of age or under, the student's parent(s) must sign an Independent Student Status Certification to document the student's self-supporting status. The Independent Student Status Certification may be obtained through the Office of Student Financial Aid. This form must be completed each year for which financial aid is desired.

## Notification of Award

A student will be notified of the aid package by a Financial Aid Proposa which will be mailed home. If accepting the proposal, the student must sign the proposal and return it to the Office of Student Financial Aid as soon as possible.

If questions arise regarding your Financia/ Aid Proposal, either call or write the office for clarification.

If denied aid, (the family contribution exceeds the cost of education), the student will be informed by mail. Advisement as to alternatives such as the Guaranteed Student Loan and/or short-term loans, will be made.

## Distribution of Aid

Financial aid is disbursed by vouchers. The vouchers are based on full-time enrollment ( 12 semester credits). If the student is not taking at least 12 credits, contact the Office of Student Financial Aid and Employment so that financial aid may be adjusted

The student is awarded aid for the entire academic year; however, the aid is disbursed proportionately each semester. A student receives a voucher for fall semester by mail during July. For spring semester, a student must pick up the voucher in the office after mid-November.

The voucher is used to assist in paying for the invoice for instructional fees; if the aid is substantial, the student can apply it toward the residence hall bill.

If the student's aid exceeds the direct costs, the difference is refunded to the student during the semester to assist with other educational expenses such as transportation, housing, etc.

A student may request a bookstore voucher to assist in purchasing textbooks. This voucher is an advance on the expense check. It is available one week before classes begin.

The remainder of the expense money is issued to a student during the fourth week of the semester. The expense check is picked up in the office. The student must maintain satisfactory enrollment status to be eligible for the expense check.

## Revision of Awards

After receipt of the financial aid award, situations may arise which may necessitate a revision in the aid package. A revision may result from receipt of an outside scholarship; a dramatic change in the family income such as unemployment of a parent or a divorce, etc

If family circumstances alter, contact the Office of Financial Aid and Employment so the aid package may be reviewed.

## Eligibility for Aid as it Applies to Certain Classifications of Students

## Transfer Students

A student transferring to The University of Akron at the beginnirig of fall semester must have the previous college complete a inandia aid transcript and send it to the Office of Student Financial Aid and Employment.
If a student is transferring to the University during the academic year and has received a Peli Grant and, or OIG the previcus session, the student must

- Have a dupicate Stucent Ad Report for the Fol Giant nailed to the oftice. This Sudeni Aud Report must be received betore any funds can be disbursed to the stucent instructions for receivirg a duplicate Student Aid Report can De obtaned from the office.
- Have the former Financial Ard Office provide a transter of remaining funds request to have the OIG transtered to The University of Akron

National Direct Student Loans. College Work-Study Programs, Supplementai Educational Opportunity Grants and scholarships do not automaiically transier. The student must reapply for these programs at The University of Akron.

## Graduate Students, Law Students and Postbaccalaureate Students

A stident who has already received a bachelor's degree can make application for the National Direct Student Loan and/or the College Work-Study Program. The Pell Grant, Ohio Instructiona: Grant and Supplemental Educational Opportunity Grant may not be received

A graduate assistantship is available through varigus graduate departments. A graduate fellowship and other graduate awards are distributed by the Graduate School: therefore, a separate application is required.

## Transient Students

A transient student is not pursuing a degree at The University of Akron and is not eligible for financial aid through the University

## International Students

A student in the United States on a student or other temporary visa is not eligible for any state or federal financial aid. Application for schoiarships, short-term ioans and some types of employment may be made.

## Veterans

A veteran may be eligible to receive eaucational benetits through the Veterans Administration and should contact the Veterans Office at the University for details.

## Student Rights and Responsibilities

A student who applies for student financial aid has the right to expect confidentiality regarding al! personal information. After submitting applications, the student should expect to receive a reply in a reasonable amount of time.

It is the student's responsibility to notify the Office of Student Financial Aid. of any changes in name, address, graduation plans, etc. A student must also report any outside scholarships received. It is the student's responsibility to be aware of the types and amounts of aid received

## Standards of Satisfactory Progress

To receive or maintain eligibility for federal financial aid, the student must meet the requirements outined in the "Standaros of Satisfactory Progress" policy. The policy states that a student must make progress toward a degree. This rule applies to each potential financial aid recipient, whether a previous aid recipient or not A copy of this policy is available in the Office of Student Financiai Ald

## Inquiries

Since the process of applying for financial aid may at first seem complicated it is suggested that families contact a high school counselor or a University financia! aid officer for additional information. Direct inquiries to:

[^3]
## Undergraduate Academic Programs

# Community and Technical College 

Frederick J. Sturm, Ed.D., Acting Dean

Rosie C. Mickey, Ed.D., Assistant to the Dean
Holly C. Slack, M.Ed., Assistant to the Dean

## OBJECTIVES

The Community and Technical College helps to further the goals and purposes of the University by emphasizing the following objectives:

- Consistent with the philosophy of learning as a life-fong experience, the college provides educational opportunities for the student no matter the age, background and need; full- or part-time, day or evening.
- The college provides for industry, business, government agencies, health-care establishments and human service occupations; the pre-service and in-service manpower training for entry-level positions or advancement in employment.
- The college serves the student by providing the means to examine academic and career opportunities considering interests, abilities and achievements.
- The college provides quality instruction with the qualified and experienced teacher who is encouraged to use the community as a "laboratory" for achieving educational goals.
The college recommends each student for the appropriate degree in accordance with the level of accomplishment.
The college offers both pre-service and in-service training; pre-service for the recent high school graduate who can receive an associate degree upon the satisfactory completion of two years of full-time studies; and in-service through the Evening College where employed persons may pursue the same degrees while working full time. To provide information about potential careers, the Office for Career Planning has been established in the college.

## COLLEGE REQUIREMENTS

## Baccalaureate Degrees

The baccalaureate-level programs in engineering technology are intended to fill the widening gap in modern industry between the professional engineer and the engineering technician. The graduate of a program works in close support of engineers, translating conceptual ideas into functioning systems and providing supervisory direction for the implementation of these ideas by technicians and craftsmen.
These programs are designed as transfer programs to permit the qualified engineering technology student to continue education to the baccalaureate degree. During the first and second years, a student follows an associate degree program in the corresponding engineering technology. The third and fourth years provide the additional study required for the baccalaureate degree. Emphasis is placed on advanced training in the student's field of specialization, broadened knowledge of related technical fields, extended general education and basic management training.
The programs are available in electronic technology and mechanical technology. It is intended that a graduate will find employment in manutacturing, technical sales and service, application engineering, inspection and testing and the more standardized aspects of engineering design.
The requirements for the Bachelor of Science in Electronic Technology degree or the Bachelor of Technology in Mechanical Technology degree are as follows:

- Compliance with the general University requirements for a baccalaureate degree as listed in this Bulletin.
- Compliance with the requirements of the general studies program as outined in this Bulletin.
- Completion of the requirements for the associate degree in a related engineering technology at The University of Akron or other accredited institution.
- Successful completion of a minimum of 135 credits including associate degree program, general studies courses and the following course requirements.

## Bachelor of Science in Electronic Technology

(Accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology)
For the first- and second-year requirements, see associate degree program in 2860: Electronic Technology.

Third- and fourth-year requirements: Credits
$1100: 106$ Effective Oral Communication
1100:112 English Composition
1100320 Western Cultural Traditions
1100:321 Western Cultural Traditions
1100- Eastern Civilizations
1100:- Eastern Civilizations
2020334 Mathematics for Technical Applications
2840.101 Introductory Chemistry

2860:350 Advanced Circuts
2860:351 Industrial Electrical Systems
2860:352 Digital Systems
2860:353 Control Systerns
$2860.400 \quad$ Data Analysis
2860:406 Communications Systerns
2860:410 Technology Project
2920:310 Economics of Technology
3470:251 Descriptive Statistics and Probabilities
3470:252 Distributions
4100:206 FORTRAN (Science and Engineering)
6500301 Management Principles and Concepts
6500:331 Production and Systems Management Computer Programming Electives* Technical Electives
Prior to enrolling in the program and to taking 2860:350 Advanced Circuits, a student must have completed at least 45 credits of a two-year electronic technology associate degree program; maintained a grade-point ratio of 2.00 or higher in major courses (Mathematical Analysis or equivalent, Basic Physics or equivalent. and technical courses in the 2860 or 2900 series or equivalent): and maintained a minimum overall grade-point ratio of 2.00 .

## Bachelor of Mechanical Technology

For first- and second-year requirements, see associate degree program in mechanical technology.

| Third- and fourth-year requirements |  | Credits |
| :---: | :---: | :---: |
| 1100.112 | English Composition | 4 |

| 6500.321 | Ouantitative Business Analysis । | 3 |
|  | Technical Electives | 6 |

Prior to enrolling in the program. a student must have completed at least 45 credits of the wo-year program with a grade-point ratio of 2.00 or higher in Mathematics Analysis, Basic Physics and technical courses (2920 and 2980 series) in the two-year program; and a minimum overall grade-point ratio of 2.00 .

[^4]
## Associate Degrees

Specialized technical programs are offered in the following divisions of the college

Allied Health Technoiogy
Associate Studies
Business Technology
Engineering and Science Technology
Public Service Technology
These programs lead to the Associate in Applied Science or Associate in Applied Business degree (carrying a designation of the specific program). In addition, a program in liberal arts leading to the Associate of Arts degree and programs lcading to the: Associate of Labor Studies and Associate of Individualized Studies degrees are offered in the Associate Studies Division.

## Requirements for Graduation

Candidates for the associate degree must have the following.

- Complete the requrred courses listed in the program
- Complete as a mminume the mumer of credits listed for each program.
- Eamáminnurn gradu polit average of 200 in all work taken at The University of Akron.
- Be recommendod by the facully.
- Spend the last somester in residence (carning a minimum of 16 credits) at the Uriversily unless excused by the dean of the college.
- Completes other University requirements as in "Requirements for Graduation. Section 3 in ins Bulielin
A student who expects to receve a second associate degree must earn a minimum of 16 credits in residence which have not counted toward the student's first aegree

## Cooperative Education

Minmum requirements for cooperative education students include the tollowing:

- Enroilment in a program of study offered by the Community and Technical College wherom cooperativo oducation has been cstablished
- Minimumgrado point average ot 2.00 for all University of Akron course work and a minimum of 200 tor all course work applicable to program of study.
- Complation of specific coursos and/or credits for a particular program as approved by the college faculty.

## Minor Areas of Study

For an explanation of minor areas of study in the Community and Technical College. see Section 5 of this Bulletin.

## PROGRAMS OF INSTRUCTION

## Allied Health

## 2730: Histologic Technology*

A histologic technician prepares sections of body tissue for microscopic examination by a pathologist. The technician specializes in techniques involving the use of the electron microscope and special studies which determine a patient's diagnosis

## 2760: Radiologic Technology

This program prepares graduates to perform radiologic examinations under a physician's direction for diagnosis and treatment of physical diseases and injuries. Although the University is authorized to offer the associate degree in radiologic technology, this degree program is not fully operational on campus at this time but is offered in conjunction with area hospital schools of radiology. A student who satisfactorily completes an accredited program in radiologic technology at a hospital school having an atfiliation with the University may earn the associate degree by completing additional courses at the University. The student will then receive a block of credit for the hospital program that is applicable only to the associate degree in radiologic technology.
The degree requirements for the student are as follows:

| 1100:- | Physical Education | 1 |
| :---: | :---: | :---: |
| 1100.106 | Effective Oral Communication | 3 |
| 2020:121 | English | 4 |

Radiology schools at the following hospitals are affiliated with the University: Akron City Hospita
Children's Hospital Medical Center of Akron
Akron General Medical Center
Barberton Citizens Hospital
St Thomas Hospital Medical Center (Akron)
Robinson Memorial Hospital (Ravenna)
Applications for admission to these programs should be made directly to the hospital school

## 2770: Surgical Assisting Technology*

This program trains people to prepare equipment and assist the physician and other members of the surgical team with patient care and related services in the hospital operating room.

## 2880: Manufacturing Technology

Through the study of basic technical subjects and through concentration on work measurement, safely procedures, plant layout and quality control, this program educates the student in the areas of analysis, design and management of the resources, facilities and people involved in industrial processes.

# Wayne General and Technical College 

Tyrone M. Turning, Ed.D., Dean
Robert L. McElwee, M.A., Associate Dean

## HISTORY

The Wayne General and Technical College of The University of Akron is on 163 acres one mile northwest of Orville, Ohio. The College was founded in 1972, culminating 10 years of effort on the part of citizens to establish locally a permanent facility for a branch campus of a major state university, and is authorized by the state of Ohio through the Ohio State Board of Regents to offer general studies, including baccalaureateoriented preparation; technical education programs; and continuing education experiences for those who live in Medina, Wayne and Holmes counties.

## MISSION AND GOALS

Wayne General is a public two-year branch campus of The University of Akron serving the citizens of Wayne, Holmes and Medina counties. Authorized by the Ohic General Assembly and the Ohio Board of Regents and governed by the Board of Trustees of The University of Akron. Wayne College operates under an open admission policy which provides broad access to educational opportunities.
Serving a predominantly rural and small city area, Wayne College has a diverse student population representing a wide range of ages. gcals and needs. To meet the varied needs of the students, the College provides placement testing, career information, academic advising and convenient scheduling to assist students in planning and pursuing their academic and career futures
Wayne College provides a general studies transfer program integral to a variety of professional and pre-protessional majors. This program can lead to the degree of Associate of Arts or Associate of Science. In addition, technical preparation and occupational training for a variety of careers cummating in the degree of Associate of Applied Science or Associate of Applied Business and/or one-year certificates are other dimensions of the credit program.

The College is committed to intellectual and personal growth; it provides opportunities through which students can improve essential communication skills, acquire a body of knowledge and methodology, and develop critical decision-making abilities.
Students at Wayne College are provided an educational program that accommodates individual differences of background, age and need by providing accessible scheduling of programs, student services, academic support functions and a developmental program for those requiring skill remediation.
Wayne College contributes to the educational, cultural and social development of the community by sponsoring activities and events tor the citizens of the college's service area as well as continuing education noncredit programs, workshops, seminars and courses.
The following goals provide further definition of the college's mission and serve as a basis upon which the college may establish program objectives:

## Goal 1

Wayne College is committed to quality teaching which will provide optimal learning opportunities for all students.

## Goal 2

The College will assist students to develop openness to new ideas and new ways of thinking, to undertake self-directed learning, to make a commitment to life-long learning, and to evaluate fairly and critically current values and practices in our society

## Goal 3

The College will maintain an appropriate balance in its transfer, career and continuing education programs.

## Goal 4

The College will continue to provide public service to the rural community which it serves through its programs, activities, faculty and students.

## Goal 5

The College will coordinate the growth and development of programs with the long-range plans and needs of the community.

## Goal 6

The College will establish itself in the community as an intellectually exciting and stimulating place.

## ADMISSION

Admission applications are available at the Office of Admissions on the main campus of The University of Akron or at Wayne College in Orrville (375-7356). The student enrolled at Wayne College may also take courses at the main campus of The University of Akron while attending Wayne. Likewise, a student enrolled on the main campus also may take courses at Wayne College concurrent with campus courses. Wayne General and Technical Coliege is accredited at the associate degree level by the North Central Association of Colleges and Schools. Additional information regarding the college may be secured from the current Wayne College Bulletin.

# University College 

Marion A. Ruebel. Ph.D., Dean<br>Thomas Vukovich. Ph D., Assistant Dean<br>Martin McKoski, Ph.D., Director, Developmental Programs<br>David C. Riede, Ph.D., Head, Department of General Studies

## OBJECTIVES

The purpose of the University College is to further the objectives of The University of Akron by providing a quatity program of general collegiate education and to pursue the following aims:

- To otfer the studert a basic program of generai studies and the prerequisite courses for advancement to the degree-granting colleges.
- Tocounsel the student with respect to adjustment to the collegiate environment and to acedomic personal and occupational objectives
- To direct the stucent to the proper curricula so that the student wili enter the degree-grartiricolleges prepared to undertake advanced work

The college recommiends the student for advancement to the degreegranting coileges upon satisfactory completion of the appropriate requirements

## 1100: GENERAL STUDIES

The Department of General Studies of the University College provides a student with courses aimed at developing ability to understand and express ideas effectively, to comprehend the processes involved in accurate thinking and to learn the responsibilities of an educated member of society. Also, these courses help a student gain knowledge which helps to develop intelligent behavior patterns, self-understanding and the recognition of individual abilities.

The General Studies program provides a wide foundation of general knowledge to serve as the structural basis for the development of the student's intellectual abilities to their cultural or professional rieight. This foundation includes English composition, literature. speech, mathematics. natural science. social science. Western Cultural Traditions, Eastern Civilizations and physical education. The Generai Studies program as it is now presented is the fruit of a half century of planning, revision and deveioping.
A student, well grounded in the General Studies, is academically prepared to continue into reaims of higher education; this curriculum has proved the most advantageous starting point for a student, no matter the student's eventual scholastic goal. It is equally valuable to the enrollee who is indecisive about a professional future and to the enrollee who arrives at the University convinced of what the enrollee wishes to become
A student who completes 30 semester credits and achieves a grade-point average of 2.00 ("C") or better is eligible for transfer to a degree-granting colleoe. A student should always check with the adviser to determine specific requirements for transfer to the programs of the student's choice.
Acceptance of a student in a degree-granting college is the responsibility of the respective collegiate dean, the dean of the University College and heads of departments concerned.

## ACADEMIC ADVISING SERVICES

This office is responsible for the academic counseling and advising of all freshman- and sophomore-ievel students. The advisers are protessionally trained counselors and are prepared to help a student through academic and personal counseling on an appointment or walk-in basis.
Academic counseling helps the student adjust to the requirements of the curriculum and utilize course offerings that will better prepare the student for the future. Sensible course loads, proper choice of subjects, scholastic achievement, study habits, outside work loads and other circumstances have an effect on successful work and can all be matters for concern in this kind of counseling

Personai counseling is the type of counseling which aids when problems of a personal nature seem to be obstructing academic careers or personal lives.

## DEVELOPMENTAL PROGRAMS

The Department of Developmental Frograms provides academic support for all University students especially those who wish to strengthen their educational preparation in specific areas or who have been out of school for a number of years and feel the need for remediation. Through devel-

[^11]opmental courses, individual tutoring and work in the writing and reading laboratories, such a student can develop the skills necessary for acceptable performance at the college level.
Developmental courses are offered in English, reading, college reading and study skills, mathematics and chemistry. Classes are small to provide maximum time for individual help. Peer-futoring is provided for most subjects taught in the first two years and is free
The writing and reading laboratories are open to all undergraduate stu dents without charge and provide professional diagnosis and remedy of weaknesses in these vital skills

## DIPLOMA NURSING PROGRAM

The University, in cooperation with the hospital schools of nursing at Akron City Hospitai and St. Thomas Hospital Medical Center in Akron,
provides a program of studies basic to a diploma in nursing
Nursing students must meet the University entrance requirements and are enrolled in regular credit courses.

Applications for this program are handled through the hospital schools of nursing which award the diploma

The programs for the two schools of nursing differ sligntly in regard to courses taken and their sequence
The following courses are offered:

| $3100: 130$ | Microbiology | Credits |
| :--- | :--- | :---: |
| $3100: 206$ | Anatomy and Priysiology | 3 |
| $3100: 207$ | Anatomy ane Physiology | 4 |
| $3150: 124$ | Chemistry | 4 |
| $3750: 100$ | Introduction to Psychology | 3 |
| $3750: 130$ | Developmental Psychology | 3 |
| $3850: 100$ | Introductionto Sociology | 4 |
| $7400: 133$ | Nutrition Fundamentals | 4 |
|  |  | 3 |

## Reserve Officers' Training Corps (ROTC)

## 1500: AEROSPACE STUDIES

The Department of Aerospace Studies provides the student with the opportunity to pursue a commission in the United States Air Force while qualitying for graduation from The University of Akron. The United States Air Force has been in the forefront of contributions to flight, research and development, effective management of resources and people and education largely because of the existence of a well-educated versatile and professional officer corps. The primary source of these officers is the Air Force ROTC.
The program is designed to prepare the student to become an officer who is dedicated and responsible; critical and creative in thinking: able to communicate clearly; and skilled in effective management

Both the four-and two-year programs are open to the fuli-time male and female student who will have completed at least one course in mathematical reasoning and a baccalaureate degree at commissioning.

## Programs

## Four-Year Program

Full-time students of The University of Akron may pursue the four-year program. Enroliment procedures for the first two years of Air Force ROTC known as the general military course (GMC), are the same as for any other University courses. The GMC consists of one hour of classroom work and one hour of Aerospace Studies Laboratory (Leadership Laboratory) each week and provides 1.5 semester credits.
Portions of the GMC may be accredited for completion of two or more years of high school junior ROTC, participation in Civil Air Patrol, military school training or prior service in any branch of the United States Armed Forces.
GMC cadets who wish to compete for the last two years of the AFROTC program, the Professional Officer Course (POC), must meet the additional qualifications.

## Two-Year Program

The basic requirement for entry into the two-year program is to have two academic years remaining, either at the undergraduate or the graduate level, or a combination of the two. Entry into the POC is competitive in nature. A two-vear program applicant must meet the qualifications described below. A student in the POC receives a non-taxable monthly subsistence allowance of $\$ 100$. Applications for the two-year program shouid be made as early in the academic year as possible so that all requisites may be completed in time for summer field training. The POC consists of three hours of classroom work and one hour of Aerospace Studies Laboratory (Leadership Laboratory) each week, and provides three semester credits.

## Supplemental Courses

All GMC scholarship cadets are required, and nonscholarship cadets encouraged, to demonstrate proficiency or successfully complete a course in English composition. One year of college instruction in a major Indo-European or Asian language is also required for all scholarship cadets. All POC cadets must demonstrate proficiency or complete a course in mathematical reasoning.

## Field Training

In the summer prior to entering the POC , all tour-year program AFROTC cadets and student applicants for the two-year programmust attend tield training at an Air Force base where they will learn and make use of training and leadership techniques in close contact with other cadets
The four-year program student spends four weeks at an encampment, while field training tor the two-year program applicant lasts six weeks. The additional two weeks for the two-year program applicant are used to cover the academic work taken by the cadet who completed the General Military Course (GMC) Uniforms, lodging and meals are provided without charge and travel pay is authorized to and from the individual's home or school. The cadet and applicant receive pay at approximately half the rate of a second lieutenent

## Flight Training

Pilot-qualified students must either possess a private pilot's license or successtully complete the Flight Screening Program (FSP). The FSF is held in conjunction with field training. In addition to participation in a ground school covering aircraft systems, navigation, and regulations pertaining to flying, cadets will receive flight instruction from qualified civilian or Air Force instructors

## Base Visits

Classroom instruction is made more meaningful for the cadet through visits to Air Force bases. To bring the scope of Aur Force operations into a clearer perspective. Air Force ROTC strives to enable every cadet to make at least one such visit each year. Many cadets have the opportunity to make more.

## Requirements for Admission

## General Qualifications

- Be a citizen of the United States or applicant for naturalization
- Be a full-time student.
- Be in sound physical condition.
- Be of gooa moral character
- Meet age requirements as follows:

AFROTC four-year scholarship recipients must be at icast 17 years of age and able to complete commissioning requirements prior to age 25.

- If not on scholarship status, bu designated for pilot or navigator traning. be able to complete all commissioning requrements pror to age $26 \%$
- It not on scholarship status and not qualifed for flying training. be able to complete commissioning requirements prior to age 30

## Additional Qualifications for Professional Officer Course

- Be at ieast 17 years of age
- For the four-year program cadet, conplete the Genera! Mlatary Course or roceive credt for junor ROTC, Civil Air Patroi, military schoó traning or prior service.
- For the two-year student applicant, comblete the six-week fieid traning course.
- Recenve a satistactory score on the Air Force Officer Qualifying Tes! (AFOOT)
- Pass an Aar Force physical examination
- Be interviewed and seiected by a board of Air Force Officers.
- Eniist in the Air Force Reserve pror to entry into the Protessiona: Officer Course.

## Requirements for Commissioning

- Complete the POC and field training.
- Eam at least a baccataureate degree
- Agree to accept, if offered a cummission in the Unted States Air Farce.
- Agree to serve for a perlod of not less than four years on active duty after comimissioning or, it accepted for a tlyng training programi, agren to serve for five years after navigator training or six years atter piot trenng.

## Scholarships

Air Force ROTC college scholarships are available to a qualified applicant in both the two-and four-year AFROTC programs covering periods of four three and two years. Each scholarship provides full tuition, laboratory and incidental fees and $\$ 114$ per semester for textbooks. In addition, all scholarship cadets receive $\$ 100$ monthly non-taxable subsistence allowance.
Four-year scholarships are available for an applicant in scientific/engireering and some nontechrical fieids. An applicant will be evaluated on the basis of:

- CEEB Scholastic Aptitude Test(SAT) or the American College Test(ACT) results
- Higr school academic record.
- Extracurricular arid athietic activities
- Interview
- Passing an Ar Force medical examination.

Ali three-ano two-year scholarships are awarded on a competitive basis and an applicant is evaluated on:

- Air Force Officer Quaityng Test
- Collegiate grade-pont averages.
- Extracurricular and athletic activities
- Screening and nomination board rating.
- Acacemic major and potential active duty career.

Scholarship information may be obtained by contacting the Department of Aerospace Studies.

## Financial Allowances

A cacet enroled ir the POC will receive a non-taxable suosistence allowance of $\$ 100$ per month.

## Uniforms and Textbooks

All AFROTC uniforms and textbooks are provided by the Air Force both for on-campus courses and at field training

## 1600: MILITARY SCIENCE

The University s Army Reserve Officer Training Corps (ROTC) was established in 1919, making it one of the oldest in the country. The maingoal of the Army program is to provide both the active Army and Army Reserve and National Guard with commissioned maie and female officers whose civilian education and attitudes contribute to the development of a military defense structure which reflects as well as defends our society The graduate perpeluates and strengthens the tradition of our nation's citizen soldier concept.
A student enrolied in Army ROTC has an unusual opportunity to study and participate in leadership and management experiences which are unique to the college curriculum. Leadership. self-discipline, responsibility and physical stamina are stressed as the student learns to plan, organize, motivate and iead others. Program goals are to develop decision-making capabilities through detalled examination of leadership factors; expand oral and written communication arts; provide some technical training in basic military skills, and develop an understarding of the relationship between the student's basic degree field and its application in one of 47 management fields in the United States Army.

## Programs

## Four-Year Program

A full-time student enrolled in The University of Akron or Wayne General and Technical College may enroll in the Army four-year program. Freshmen and sophomores enroll in the basic military course Military Science I and II (MS I, MS II) of the four-year program for two credits per semester. MSI and It classes are held three hours each week, to include a mandatory one-hour leadership laboratory, and cover studies in: marksmanship. leadership fundamentals, rappelling, cross-country skiing. small unit operations, Leadership Assessment Program, and Army organization. Enrollment in MS I or MS li constitutes no obligation to military service or continuance into the advanced course and the credits received can be applied to ward elective requirements. A student who completes the basic course (MSI and MS II) is eligible for and may apply for enrollment into the advanced course, which may lead to a commission. Advanced course studies are held four hours per week, to include a mandatory one-hour leadership laboratory, for three semester credits. The material includes: advanced leadership, application of tactics, ethics and professionalism, methods of instruction, resource management, military history, and the responsibilities of an officer. The advanced course includes a six-week paid summer camp attended usually between the junior and senior year. A student in the advanced course is paid $\$ 100$ per month, or approximately $\$ 1,000$ per school year Upon commissioning. the student will serve either with the Reserves, the National Guard or on active duty.

## Two-Year Program

A student can also enter the advanced course by attending a basic military skills summer camp at Fort Knox, Kentucky just prior to or after the MS 111 year, or by having prior military service or training. This equals the basic course of the four-year program, and makes the student eligible to enter the advanced course as described under the four-year program.

## Cadet Activities

The Department of Military Science offers numerous activities to enrich classroom instruction; provide a better understanding of the military and military life; and improve technical skills. These include the following:

- Military post orientation visits (at least one per year).
- Adventure training marksmanship, rappelling, backpacking, cross-country sking and survival training.
- Social organizations
- Fraternal organizations.

## Requirements for Admission

Basic Course: None<br>Advanced Course:<br>- Completion of basic course, basic summer camp or prior service.<br>- Qualify on the Army physical evaluation.<br>- Permission of the professor of military science.<br>- Be in good academic standing with the University.

## Requirements for Commissioning

- Completion of a baccalaurete or advanced degree.
- Completion of the advanced ROTC course (MS $I / 1$ and $N$ ).
- Completion of advanced summer camp
- Agree to tulfill a service obligation as follows:

## ROTC

Serve as a commissioned ofticer on active duty. Advanced Course in the Army Reserve or in the Army National Guard. Basic Course No obligation.

## Scholarships

The Army ROTC has four-year scholarships available to high school seniors. Additionally, there are three- and two-year scholarships available on a competitive basis to students attending the University, whether or not they are enrolled in ROTC when applying for the schoiarship. These scholarships provide tuition, fees, a flat rate for texts, and $\$ 100$ per month allowance to the student for up to 10 months of the school year. Scholarship students must agree to spend two to four years on active duty.

## Uniforms and Textbooks

Textbooks for all courses and equipment for adventure training are provided free by the Department of Military Science. Uniforms are issued free to all students while enrolled in the program.

## Financial Allowances

An advanced course cadet and scholarship students are paid a nontaxable allowance of $\$ 100$ per month for up to 10 months of the school year. A student attending basic summer camp or advanced camp is paid for travel expenses, meals, housing and a salary.

## SPECIAL RESERVE AND NATIONAL GUARD PROGRAMS

## Reserve and National Guard Early Commissioning Program

The student who enters the advanced program may be commissioned in the Reserve or National Guard upon completion of advanced ROTC and prior to receiving a baccalaureate degree. Upon completion of a baccalaureate degree the officer may apply for active duty.

## Simultaneous Membership Program (SMP)

A member of the Reserves or National Guard, who is enroiled full-time in the University, may enroll in advanced ROTC if he applies for SMP membership through his unit, is accepted by the professor of military science, and meets all other admission requirements for the advanced course (MS II and MSIV). Commissioning may occur upon completion of the advanced ROTC course, and the member will serve as an officer in the Reserves or National Guard. An SMP member receives $\$ 100$ tax-free per month while in ROTC, is promoted to an E-5 officer trainee in the reserve/ guard unit and receives E-5 pay.

# Buchtel College of Arts and Sciences 

Glaibourne E. Griffin, Ph.D., Dean
Paul S. Wingard, Ph.D., Associate Dean
William A. Francis, Ph.D. Assistant Dean

## Natural Sciences Division

It is the most professionally oriented division in this coliege, with the highest number of graduates continuing their education in specitic areas of advanced study. In undergraduate years, a natural sciences student has a course of study with a strong emphasis in biology, chemistry computer science, geology, mathematics, physics or statistics.

## Social Sciences Division

It stresses intelligent participation in community affairs through education in economics, geography, history, political science, psychology and sociology.

## COLLEGE REQUIREMENTS

## Admission

To be admitted to the college the student miust have completed 30 credits of work and have the approval of the dean of the college

## Degrees Awarded

Humanities Division: Bachelor of Arts.
Natural Sciences Division: Bachelor of Arts, Bachelor of Science. Bachelor of Science in Cytotechnology, Bachelor of Science in Medical Technology.
Social Sciences Division: Bachelor of Arts, Bachelor of Science in Geography/Cartography, Bachelor of Science in Labor Economics, Bachefor of Science in Poltical Science/ Criminal Justice, Bachelor of Science in Political Science/ Public Policy Management.

## Baccalaureate Degrees

A student transierring into the college must have completed the equivalent of, or taken, 1100:111,2 English Composition, three credits of Modern University Mathematics and the remainder of the lower-division General Studies program
Requirements for the bachelor's degree include

- Completion of the General Studies program
- A minimum of 47 credirs consisting of either:
- 300/400-level courses both in and outside the student's major.
- any courses outside major department as specified in and approved by the student's major adviser and the department or division head (permission shculd be obtained prior to enroliment), except General Studies courses.
- Demonstration of ability to use English and another language:
- for English, this ability will be shown by the completion of the General Studies sequence of 1100:111,2 English Composition;
- for the otner language. this ability will be shown by the completion of a second year of a foreign language on the University level or by demonstrating equivalent competence through a test approved by the Department of Modern Languages.
- Completion of requirements in a major field of stuay (see Programs of Instruction) and the recommendation of the student's major department.
- Attaining a minimum grade point average of 200 in all work attempted in the major fieid at The University of Akron
- Attaining a minimum grade-point average of 2.00 in all work in the major field, including transfer credits
- Fultilling the University requirements for a baccalaureate degiee set forth in Section 3 of this Bulletin.

Any student who wishes to receive a second baccalaureate degree must complete 32 credits of course work in addition to the credits necessary for the first degree; 16 of these credits must be 300/400-level courses or other approved courses.

## Major Field

To qualify for graduation, a student must concentrate or major in the work of either a department or a division of the college. Part or all of these credits may be taken in specifically required courses depending upon the major chosen. The longer and more professionally oriented majors should be started during the first year when the student is still under the guidance of the Office of Academic Advising Services.

Ordinarily a student will select a department in which to major. The exact requirements for each major will be found on the following pages. Some departments offer more than one type of major. No minor is required; but in some cases, the major includes certain courses in other departments. As soon as the student is transferred to the college, the head of the student's major department or designate becomes the academic adviser.

A student who desires a broader education than the departmental major offers may elect a divisional major and qualify in the general area of the humanities, natural sciences or social sciences. The exact requirements for these majors will be found on the following pages. As soon as the student contemplating a divisional major is transferred to the college, the chairman of the student's major division becomes the academic adviser.

## Preparation for High School Teaching

A student interested in a teaching career on the high school level may qualify for secondary school certification by the Ohio State Department of Education while enrolled in the Buchtel College of Arts and Sciences. Generally the arts and sciences major subject will also constitute a teaching major, although a second teaching field usually is required. The education and psychology courses required for the secondary school teaching certificate may be taken as electives toward the arts and sciences degrees. Additional elective credits will generally enable the student to meet the requirement of a second teaching tield, without exceeding the credits necessary for graduation.
The number of credits in a teaching field required for certification can be determined by referring to "Teaching Fields," College of Education, Section 4 of this Bulletin.

In addition to meeting the requirements in a teaching field, a student must also take the following courses:

| $5100: 150$ | Introduction to Professional Education |
| :--- | :--- |
| $5100: 250$ | Human Development and Learning |
| $5100: 350$ | Educationai Measurement and Evaluation |
| $5100: 450$ | Problems in Education |
| $5300: 265$ | introduction to Secondary Education |
| $5300: 275$ | Exploratory Experience |
| $5300: 310$ | Principles of Teaching in the Secondary School |
| $5300: 325$ | Content Reading in Secondary School |
| $5300: 345$ | Human Relations in Secondary Education |
| $5300: 355$ | Managing Classroom Behavior at the Secondary Level |
| $5300: 375$ | Exploratory Experience |
| $5300: 411$ | Instructional Techniques Secondary Education |
| $5300: 445$ | Minicomputer Appications in Secondary Classroom |
| $5300: 455$ | $\quad$ Career Options in Secondary Education |
| $5300: 403$ | Student Teaching Seminar |
| $5300: 495$ | Student Teaching |

| $3100: 445$ | Plant Morphology | 4 |
| $3100: 464$ | General and Comparative Physiology | 4 |

## Bachelor of Science in Medical Technology

- See Bachelor of Science for additional requirements.

A toreign language and Eastern Civilizations are not required

| $3100: 206.7$ | Anatomy and Physiology | 8 |
| :--- | :--- | :--- |
| $3100: 331.2$ | Microbiology | 8 |
| $3100: 355$ | Parasitology | 4 |

| $3100: 383$ | Laboratory Techniques and Instrumentation | 2 |
| :--- | :--- | :--- |
| $3100: 384$ | Techniques and Instrumentation Laboratory | 1 |
| $3100: 437$ | Immunology | 4 |
| $3150: 335,6$ | Anatytical Chemistry tor Laboratory Technicians | 8 |

The first three years of instruction are given in the University. The senior year consists of a minimum of 32 credits of course work in the 3120 series. These courses will be available only to the student selected for the clinical experience portion of the B.S.M.T. program in a CAHEA approved hospital school; normal tuition will be charged. The University is affiliated with the following hospital schools: Akron City Hospital, Akron General Medical Center, Canton Auliman Hospital, Cleveland Clinic Foundation, Cleveland Metropolitan General Hospital, Mt. Sinai Hospital in Cieveland, Northern Columbiana County Community Hospital, St Alexis Hospital (Cleveland), St. Thomas Hospital Medical Center and the Children's Hospital Medical Center of Akron. The student must apply to a hospital school for separate admission. The University cannot guarartee placement. A student may train at other approved schools after obtaining special permission from the head of the Department of Biology
The University grants the B.S. in medical technology after receipt of evidence of satisfactory completion of the hospital instructional program.
A minimum of 36 credits in biology is necessary to qualify for a Bachelor of Science degree. Additional courses in biology or other sciences are usually necessary to satisfy the admission requirements of graduate and professional schools for advanced work and professional studies.
All majors for a Bachelor of Science in Biology take the sequence of courses listed above which will provide an understanding of the fundamentals of modern biology. During the first year, a student intending to major in biology should consult a member of the biology faculty.

## Bachelor of Science in Cytotechnology

- See Bachelor of Science for additional requirements.

A foremn language is not required.
The first three years of instruction are given in the University. The senior year consists of a maximum of 32 credits in the 3130 series.
These courses are available only to the student selected for the clinical experience portion of the B.S.C.T. program in a CAHEA approved school. Normal tuition will be charged. The student must apply with a separate admission to an approved school. The University will assist in the process but cannot guarantee admission.
The University will grant the B.S. in cytotechnology after receipt of satisfactory completion of the hospital instructional program.

- The following credits are required in addition to core requirements:

| $3100: 206,7$ | Anatomy and Physiology | 8 |
| :--- | :--- | :--- |
| $3100: 331$ | Microbiology | 4 |
| $3100: 365,6$ | Histology I and II | 6 |
| $3100: 383,4$ | Laboratory Techniques and Insitumentation in Biology | 3 |
| $3100: 437$ | Immunology | 4 |

## Bachelor of Arts

- The General Studies and the second year of a foreign language
- At least 17 credits in the humanities or social sciences, including at least two of the following:

| $3400: 477$ | Western Science to 1800 | 3 |
| :--- | :--- | :--- |
| $3400: 478$ | Western Science since 1800 | 3 |
| $3400: 479$ | Western Technology | 3 |
| $3600: 464$ | Philosophy of Science | 3 |
| At least 24 | credits in the biological sciences which must include: |  |
| $3100: 111,2$ | Principles of Biology |  |
| $3100: 211$ | General Genetics | 8 |
| 3100.217 | General Ecology | 3 |
| $3100: 311$ | Cell Biology | 3 |
| $3100: 130$ | Principles of Microbiology (with permission) | 3 |
| $3100: 316$ | Evolutionary Biology | 3 |

- At least one year of chemistry, including. preferably, some biological chemistry (3150:129,30 General Chemistry is suggested).

## 3150: Chemistry

Bachelor of Science (A.C.S. certified)

- The General Studies and the second year of a foreign language.
- At least 45 departmental credits including:

| $3150: 132$ | Principles of Chemistry I |
| :--- | :--- |
| $3150: 133$ | Principles of Chemisiry II |
| $3150: 134$ | Qualitative Analysis |
| $3150: 263$ | Organic Chemistry Lecture I |
| $3150: 264$ | Organic Chemistry Lecture II |
| $3150: 265$ | Organic Chemisiry Laboratory I |
| $3150: 266$ | Organic Chemistry Laboratory II |
| $3150: 313$ | Physical Chemistry Lecture I |
| $3150: 314$ | Physical Chemistry Lecture II |
| $3150: 315$ | Physical Chemistry Laboratory I |
| $3150: 316$ | Physical Chemistry Laboratory II |
| $3150: 423$ | Quantitative Analysis |
| $3150: 425$ | Quantitative Analysis L_aboratory |
| $3150: 427$ | Analytical Chemistry Leclure |
| $3150: 428$ | Analytical Chernistry Laboratory |
| $3150: 472$ | Advanced Inorganic Chemisiry |

- At least two advanced courses:

| $3150: 401$ | Biochemistry Lecture I |
| :--- | :--- |
| $3150: 402$ | Biochemistry Lecture II |
| $3150: 405$ | Biochemistry Laboratory |
| $3150: 415$ | Chemical Instrumentation |
| $3150: 416$ | Instrumental Methods of Analysis |
| $3150: 421$ | Qualitative Organic Analysis |
| $3150: 463$ | Advanced Organic Chemistry |
| $3150: 499$ | Research Problems |
| $3650: 481$ | Methods of Mathematical Physics I |
| $3940: 407$ | Polymer Science |
| - Mathematics: |  |
| 3450:235 | Differential Equations |
| - Physics: |  |
| 3650:291,2 | Elementary Classical Physics I and II |
| - Recommended: |  |

## Bachelor of Arts

- The General Studies and the second year of a foreign language.
- Chemisiry:

| $3150: 132$ | Principles of Chemstry I |
| :--- | :--- |
| $3150: 133$ | Principles of Chemistry II |
| $3150: 134$ | Qualitative Analysis |
| $3150: 263$ | Organic Chemistry Lecture I |
| $3150: 264$ | Organic Chemistry Lecture II |
| $3150: 265$ | Organic Chemistry Laboratory I |
| $3150: 266$ | Organic Chemistry Laboratory II |
| $3150: 303$ | Elementary Physical Chemistry I |
|  | $\quad$ or |
| $3150: 313$ | Physical Chemistry Lecture I |
| $3150: 304$ | Elementary Physical Chemistry II |
|  | $\quad$ or |
| $3150: 314$ | Physical Chemistry Lecture II |
| $3150: 423$ | Quantitative Analysis |
| $3150: 425$ | Quantitative Analysis Laboratory |
| $3150: 427$ | Analytical Chemistry Lecture |

$\begin{array}{lll}3150: 134 & \text { Principles of Chemistry li } & 2\end{array}$
3150:263 Organic Cnemistry Lecture I
$3150: 264 \quad$ Organic Chemistry Lecture II
$3150: 265 \quad$ Organic Chemistry Laboratory 1
3150:303 Elementary Physical Chemistry I or
3150:313 Physical Chemistry Lecture I

3150:314 Physical Chemistry Lecture II
3150:423 Quantitative Analysis
3150:427 Analytical Chemistry Lecture

- At least two courses from the following:
$3150: 315 \quad$ Physical Chemistry Laboratory 1
3150:316 Physical Chemistry Laboratory II
3150:401 Biochemistry Lecture I
$3150.401 \quad$ Biochemistry Lecture I
3150.402 Biochemistry Lecture II
$3150: 405 \quad$ Biochemistry Laboratory
$3150: 415 \quad$ Chemical Instrumentation
$3150: 416 \quad$ Instrumental Methods of Analysis
3150:421 Qualitative Organic Analysis
3150:428 Analytical Chemistry Laboratory
3150:463 Advanced Organic Chemistry
3150:472 Advanced Inarganic Chemistry
3150:499 Research Problems
3940:301 Introduction to Elastomers
3940:302 Introduction to Plastics
3940.407 Polymer Science

3940:411 Molecular Structure and Physical Properties of Polymers I
3940:412 Molecular Structure and Physical Properties of Polymers II
3940:413 Molecular Structure and Physical Properties of Polymers !!

- Physics:
$\begin{array}{lll}3650.291 .2 & \text { Elementary Classical Physics I and II } & 8\end{array}$
$3650: 261,2 \quad$ Physics tor the Life Sciences I and II 8
$\begin{array}{lll}3650: 231,2 & \text { Concepts of Physics I and II } & 8\end{array}$
- Mathematics:

| $3450: 149$ | Precalculus Mathematics | 4 |
| :--- | :--- | :--- |
| $3450: 221,2$ | Analytic Geometry-Catculus I and il | 8 |

- Recommended:

4100206 FORTRAN (Science and Engineering) 2

## Cooperative Education Program - Chemistry

## Qualifications

Arrangements for student entry into the program are on an individual basis, and are initiated by the student during the second year of undergraduate study. The cooperative education program is an optional program available to all full-time B.S. chemistry majors at the University who have met the following requirements:

- satisfactory completion of 60 credits with a grade-point average of at least 2.00 (" C ") in the major requirements;
- be on schedule in the student's curriculum;
- received acceptance by a cooperative education coordinator or director following a series of interviews.
A transter student may also be considered for the cooperative education program if his background is equivalent to the minimum requirements for a University of Akron student. At least one semester of full-time study at The University of Akron is required before a transfer student can be eligible for the Cooperative Education Program.
A part-time student, having completed 60 credits with a " $C$ " average and on schedule in the curriculum, is also eligible for the program. However, once having entered, the student is expected to be a full-time student while not on his co-op job.
It should be noted that placement in an industrial or other position is not guaranteed, and that the foreign student should recognize that many companies require United States citizenship or possession of a permanent visa. In any case, final acceptance for any position is, of course, the decision of the employer.

## Schedule

The work-study schedule for a student in the co-op program is as follows:

| Year | Fall | Spring | Summer |
| :---: | :--- | :--- | :--- |
| 1 | School | School | Vacation/School |
| 2 | School | Schoo! | Vacation/School/Work |
| 3 | School | Work | School |
| 4 | Work | School | Work |
| 5 | School | School |  |

## Registration

While no academic credits are assigned, each student must register for cooperative work periods in the same manner that a student registers for any other course. The course is:
3000.301 Cooperative Education (may be repeated) 0

A certificate is awarded upon completion of the program. Course required for certification is 3000:301 and is optional.

A registration fee for each work period is charged to cover partially the expenses of administering the program. Upon completion of a work period, a statement will appear on each student's official transcript listing the course number, titie and name of the employer. in the place of a grade, "credit" or "no credit" will be given, depending upon the student's satisfactory or unsatisfactory completion of the following:

- Work performance as evaluated by the employer.
- A written work report and its approval by the department head and the cooperative education staff.
- Cooperative Work Period Summary form.

## 3200: Classics

3200: Classics; 3210. Greek; 3220: Latin

## Bachelor of Arts

## Classics

- The Generai Studies.
- At least 39 departmental credits including four semesters of 3210303/304 Advanced Greek or four semesters of 3220:303/304 Advanced Latin. 3210:497/ 498 Greek Reading and Research or 3220:497/498 Latin Reading and Research may be substituted with the approval of the department adviser - 12 credits.

| 3200.189 | Mythology |
| :--- | :--- |
| 3200.313 | Archaecology of Greece |
| 3200.314 | Archaeology o R Rome |
| 3200.361 | Literature of Greece |

3

$$
\begin{array}{ll}
3200: 314 & \text { Archaeology of Rome } \\
3200: 361 & \text { Literature of Greece }
\end{array}
$$

- Two of the following courses:

| $3400: 304$ | The Ancient Near East |
| :--- | :--- |
| 3400.305 | Greece |
| $3400: 306$ | Rome |
| $3400: 307$ | The Eastern Roman Empire (324-1453) |
|  | Eiectives in Classics |

- Language courses must be above the 200 level in order to be included in the total of 39 credits. In the case of a Latin major, three credits in this language (preferably in Latin grammar and idiom) must be taken during the senior year.
- The student wishing to be certified for public school teaching with Latin as the principal teaching field must complete 26 credits in that language In addition, the required credits in a second academic teaching field must be completed. See "Teaching Fields," College of Education. Section 4 of this Bulletin.

## Classical Civilization

- The General Studies and the second year of a foreign language.

| $3200: 189$ | Mythology |
| :--- | :--- |
| $3200: 313$ | Archaeology of Greece |
| 3200.314 | Archaeology of Rome |
| $3200: 361$ | Literature of Greece |
| $3200: 362$ | Literature of Rome |
| $3870: 151$ | Physical Anthropology |
| $3600: 211$ | History of Ancient Philosophy |

- Three of the following courses:

| 3400304 | The Ancient Near East | 3 |
| :--- | :--- | :--- |
| 3400305 | Greece | 3 |
| $3400: 306$ | Rome | 3 |
| $3400: 307$ | The Eastern Roman Empire (324-1453) | 3 |
|  | Electives in Classics | 6 |

It is strongly recommended that a major in classical civilization fulfill the foreign language requirement by taking $3210: 121 / 122 / 223 / 224$ or $3220: 121 / 122 /$ $223 / 224$.

## 3250: Economics

## Bachelor of Arts

- The General Studies and the second year of a foreign language.
- At least 30 departmental credits including

| 3250201 | Principles of Macroeconomics | 3 |
| :---: | :---: | :---: |
| 3250:202 | Principles of Microeconomics | 3 |
| 3250:400 | Macroeconomics | 3 |
| 3250.410 | Nicroeconomics | 3 |
| 3250.420 | Mathematical Economics I | 3 |
| - Electives -- 15 credits. |  |  |
| - Mathematics: |  |  |
| 3450:149 | Precalculus Mathematics | 4 |
| 3450:147.8 | Elementary Functions 1. If or equivalent | 6 |
| - Statistics (one of the following): |  |  |
| 6500.321.2 | Quantitative Business Analysis I and II or | 6 |
| 3470251 | Descriptive Statistics and Problems | 1 |
| 3470.252 | Distributians | 1 |
| 3470:253 | Hypothesis Testing | 1 |

| 3470.255 | Regression and Correlation | 1 |
| :--- | :--- | :--- |
| 3470.256 | Experimental Design | 1 |
| 3470.257 | Time Series and incex Numbers | 1 |
| 3470.461 | Applied Statistics | 4 |
| Electives $-30-32$ credits. |  |  |

## Bachelor of Science in Labor Economics

- The General Studies.
- At least 30 departmental credits including

| 3250:201 | Principles of Macroeconomics | 3 |
| :---: | :---: | :---: |
| 3250202 | Principles of Microeconomics | 3 |
| 32503330 | Labor Problems | 3 |
| 3250.410 | Microeconomics | 3 |
| 3250.420 | Mathematical Economics I | 3 |
| Two of the following |  |  |
| 3250:333 | Labor Economics | 3 |
| $3250: 430$ | Human Resource Policy | 3 |
| 3250:431 | Labor and the Government | 3 |
| 3250:432 | Collective Bargaining | 3 |
| - Electives. |  | 9 |
| - Mathematics: |  |  |
| 3450149 | Precalculus Mathematics | 4 |
|  | or |  |
| 3450:147,8 | Eiementary Functions I, II, or equivalent | 6 |
| - Statistics (one of the following): |  |  |
| 6500:321? | Quantitative Business Aralysis I and II | 6 |
|  | or |  |
| 3470:251 | Descriptive Statistics and Problems | 1 |
| 3470.252 | Distributions | 1 |
| 3470253 | Hypothesis Testing | 1 |
| 3470.255 | Regression and Correlation | 1 |
| 3470256 | Experimental Design | 1 |
| 3470:257 | Time Series and Index Numbers | 1 |
|  | or |  |
| 3470.461 | Applied Statistics | 4 |

- At least eight credits in 300/400-level courses geography, history, political science, psychology or sociology
- Electives - 45-47 credits.

Note: $3250: 100$ introduction to Economics cannot be used to satisty the requirements for a major or minor in economics.

## 3300: English

## Bachelor of Arts

- The General Studies and the second year of a foreign language.
- At least 35 credits in the department including the foliowing course and disiribution requirements:

| Required courses: | Credits |  |
| :--- | :--- | :---: |
| $3300: 301$ | English Literature i | 4 |
| $3300: 302$ | Enghsh Literature II | 4 |
| $3300: 316$ | Shakespeare: The Mature Piays | 3 |
| $3300: 341$ | American Literature I | 3 |
| $3300: 342$ | American Literature II | 3 |

Distribution of requirements:
One linguistics or English ianguage course. A minimum of tour 400 -level courses.
Of the total number of courses taken for the major, at least two must be in literature written betore 1800 and two after; $3300: 301,2,316,341$ and 342 may not be used to meet this requirement Courses which satisfy the language requirement and the literature before and after 1800 requirements are identified in the course descriptions.
Recommendeo:
3300:280 Poetry Appreciation 3
3300:- an advanced course in composition 3

- Electives - 40 credits.

## 3350: Geography

## Bachelor of Arts

- The General Studies and the second year of a foreign language
- At least 26 departmental credits incluaing the following

3350310 Physical aro Environmental Geography
3350.320 Economic Geography
$3350330 \quad$ Ruial and Urban Settlement
3350:340 Cartograpny
335034 : Maps and Map Reading
3350.481 Geographic Research Methods

3350:483 Spatial Analysis
3350:496 Freid Researon Methods
Geography Electives
3
3
$\square$3
$\square$3
$\square$

At least one course from the following:

| 3350.350 | Anglo-America |
| :--- | :--- |
| 3350.353 | Latin America |
| 3350.356 | Europe |
| 3350368 | USSR |
| 3350.360 | Asia |
| 3350.363 | Arrica South of the Sahara |

3350.353 Latin America
350.356 Europe
$3350: 360$ Asia
5350.363 Alrica South of the Sahara

- Electives - 49 credits.

## Bachelor of Science in Geography/Cartography*

- Compietion in the Community and Technical College of the surveying option in the associat $\varepsilon$ degree program in surveying and construction technology or the associate degree program in drafting technology.
- Completion of General Studies requirements.
- Completion of at least 47 credits of 300/400-levei courses in addition to the General Studies requirement.
- At least nine credits of course work which will introduce students to a foreign culture. Such courses shall be selected by the student with the approval of the adviser in the Department of Geography. Such courses may be chosen from those foreign culture courses offered in any of the following departments: anthropology, classics, mon-U.S history and modern ianguages. Foreign language is strongly recommended.
- At least 30 credits in geography inciuding the following.**

| 3350.442 | Thematic Cartugraphy |
| :--- | :--- |
| $3350: 444$ | Map Compilation and Reproduction |
| 3350.447 | Introduction to Remote Sensing |
| 3350.448 | Automated Computer Mapping |
| 3350.479 | Acvanced Remote Sensing |
| $3350.48:$ | Introuction to Geographic Research |
| 3350.483 | Introuction to Spatial Anaiysis |
| 3350.496 | Fiela Research Methods |

## 3370: Geology

## Bachelor of Science

## Engineering Geology

- The General Studies and the second year of a foreign language.
- At least 39 departmental credits including the following:

| 3370:101 | Introductory Physical Geotogy | 4 |
| :---: | :---: | :---: |
| 3370.102 . | introductory Historicai Geology | 4 |
| 3370230 | Crystallography and Non-Silicate Mineraiogy | 3 |
| 3370231 | Silicate Mineralogy and Petrology | 3 |
| 3370.324 | Sedimentation and Stratigraphy | 3 |
| 3370350 | Structural Geology | 4 |
| 3370.446 | Exploration Geophysics ${ }^{+-}$ | 3 |
| 3370.496 | Geology Field Camp | 6 |
|  | Geology Electives from List | 9 |
| - Non-Geoiogy Required Courses. |  |  |
| 3150:132.133 | Principles of Chemistry ! and \# | 7 |
| 3450.221 .222. | Analytical Geometry and |  |
| 223 | Calcuius I, II. and III | 12 |
| 3450.235 | Differential Equations | 3 |
| 3650.291 .292 | Eiementary Classical Physics I and II | 8 |
| 4300201 | Statics | 3 |
| 4300202 | Introduction to Mechanics of Solids | 3 |
| 4300313 | Soil Mechanics | 3 |
| 4300:314 | Geotechnical Engineering | 3 |
| 4300:341 | Hydraulic Engineering | 2 |
| 4300:414 | Design of Earth Structure | 3 |

[^12]$4600310 \quad$ Fluid Mechanics 3

- Geology Elective List:
3370.210 Geomorphology 3

3370:436 Coal Geology 3
3370.437 Economic Geology 3
$3370470 \quad$ Geochemistry
3370.474 Groundwater Hydrology
$3370.435 \quad$ Optical and X-ray Methods $\quad 3$

- Non-Geology Elective List: 3460201 Introduction to FORTRAN Programming or equivalent $\quad 2$ 4300230 Surveying 4600:305 Thermal Science

## Geology

- The General Studies and the second year of a foreign language.
- At least 47 departmental credits incluaing:
3370:101 Inirocuctory Physical Geoiogy a
$3370: 102$ introouctory Historica Geoogy 4
3370210 Ceomorphology
$3370.230 \quad$ Crystaliography and Non-Silicate Vineralogy
$3370.23^{-} \quad$ Silicate Mineralogy and Petrology
3370.324 Sedimentation and Stratigraphy
$3370350 \quad$ Structurai Geoiogy
3370.360 Introductory Invertebrate Paicontology
$3370: 395 \quad$ Field Methods in Geology
3370:432 Optical and X-Ray Methoos
3370.433 Petrography
3370.496 Geology Field Camp

400-level courses

- Non-geology courses required for majors
$3150: 1323$ Principles of Chemisiry I and II 7
3450:221.2 Analytic Geometry-Caiculus I and II 8
3650291.2 Elementary Classical Physics I and li+ 8
- Electives:

Acditional work in a supporing science. mathematics or engreeering is strongly recommendec During the first year, a stuoent intencing to major in geology shouio consult a member of the geology taculty.

## Geophysics

- The General Studies and the second year of a foreign language
- At least 30 departmental credits including the following:

| $3370: 101$ | introductory Physical Geology |
| :--- | :--- |
| $3370: 102$ | Introductory Historical Geology |
| $3370: 350$ | Structural Geology |
| $3370: 44 i$ | Fundamentals of Geophysics |
| $3370: 446$ | Exploration Geophysics |
| $3370: 496$ | Geology Field Camp |
|  | Geology Electives (as approved by geophysics adviser) |

3370:350 Structural Geology
3370.446 Exploration Geophysics
$3370: 496 \quad$ Geology Field Camp
Geology Electives (as approved by geophysics adviser)

- Non-geology required courses:

3150:132.3 Principles of Chemistry I and II 7
$3450221,2,3$ Analytic Geometry-Calculus I, II and III 12
$3450: 235$ Differential Equations 3
3650291.2 Elementary Classical Physics I and 1

3650:431 Mechanics
3650.436 Electricity and Magnetism

## Bachelor of Arts

- The General Studies and the second year of a foreign language.
- At ieast 44 departmental credits including the following:
3370101 introductory Physicai Geology 4

3370:102 Introductory Historical Geology 4
$3370.23^{1} \quad$ Silicate Mineralogy and Petrotogy
$3570350 \quad$ Structural Geology
3370360 introductory invertebrate Pateontology
3370.496 Geology Field Camp
eight credits at the $300 / 400$ ievel ?

```
Geology Field Camp
Eiective geciogy courses (minimum
```

            eight credits at the 300/400 ievel)
    - Non-geology courses required for majors:

| 3150132 | Principles of Chemistry I |
| :--- | :--- |
| $3450: 148$ | Elementary Functions il (or equivalent) |

Elementary Functions il (or equivalent) 3

- At least seven credits from the following:
$3100111.2 \quad$ Principles of Biology for equivalent)
3150133 Principles of Chemistry il (or equivalent)
365029.2 Elementary Classical Physics I and IIt

## 3400: History

## Bachelor of Arts

- The General Studies and the second year of a foreign language (French. German or Russian suggested).
- A minimum of 32 credits in history, but up to six credits in cognate fields may be substituted with the adviser's approval. These credits must include some distribution of United States and European or non-United States history; and 3400:405 Historical Methods (taken in the sophomore or junior year). The minimum shall be 16 credits in 300/400-level history courses.

## 3450: Mathematics

## Bachelor of Science Bachelor of Arts

- The General Studies and the second year of a foreign language.
- At ieast 40 departmental credits inciuding. *

| $3450: 221,2,3$ | Analytic Geometry-Caiculus I, II and III | 12 |
| :--- | :--- | ---: |
| $3450: 235$ | Differential Equations | 3 |
| $3450: 311$ | Abstract Algebra | 3 |
| $3450: 312$ | Linear Algebra | 3 |
| $3450: 421,2$ | Advanced Calculus I and II | 6 |
| $3450: 445$ | Introduction Io Topology | 3 |
|  | Mathematics Electives | 10 |

(Elective credits must be approved 300/400-hevel courses in the department.)

- For the Bachelor of Science degree: complete 18 credits of course work outside the major and beyond the General Studies in a suitable area of concentration as approved by the department.
- For the Bachelor of Arts degree, complete 18 credits of humanities or social sciences beyond the General Studies. The 18 credits are to be from more than one department.
- Electives - 17 credits.

## Applied Mathematics

- The General Studies and the second year of a foreign language.
- At least 40 departmental credits including:*

| $3450: 221.2 .3$ | Analytic Geometry-Calculus i. II and III | 12 |
| :--- | :--- | ---: |
| $3450: 235$ | Differential Equations | 3 |
| $3450: 312$ | Linear Algebra | 3 |
| $3450 \cdot 421.2$ | Advanced Calculus I and II | 6 |
| $3450: 427$ | tntroduction to Numerical Analys is | 3 |
| $3450: 436$ | Maihematical Models | 3 |
| $3450: 451$ | Theoretical Statistics i | 3 |
|  | Mathematics Electives | 7 |

(Elective credits must be in approved 300/400-ievel courses in the department.)

- For the Bachelor of Science degree: compiete 18 credits of course work outside the major and beyond the General Studies in a suitable area of concentration as approved by the department.
For the Bachelor of Arts degree: complete 18 credits in the humanities and social sciences beyond the General Studies. These 18 credits are to be from more than one department.
- Electives - 17 credits.

## Cooperative Education Program - <br> Mathematical Sciences

## Schedule

The work-study schedule for a student participating in the Cooperative Education Program is as follows:

| Year | Fall | Spring | Summer |
| :---: | :--- | :--- | :--- |
| 1 | School | Schcol | Vacation/School |
| 2 | School | Schooi | Vacation/School |
| 3 | School | Work | School |
| 4 | Work | School | Work |
| 5 | School | School |  |

[^13]
## Admission

Arrangements for student entry into the program are on an individual basis, and must be initiated by the student during the second year of undergraduate study. The Cooperative Education Program is an optional program availabie only to all full-time mathematical sciences students at The University of Akron who have satisfactorily met the following requirements:

- Sixty credits with a grade-point average of at least 2.00 out of a possible 4.00 in the program of mathematical sciences curriculum and be on schedule in the curriculum.
- Acceptance by a cooperative education coordinator or director following interviews.
- A transfer student must complete 16 credits of academic work at The University of Akron with a grade-point average of at least 2.00 out of a possible 4.00 . Be on schedule in the mathematical sciences curriculum.

A student who desires to participate in the program will fill out a Personal Dala form and submit it to the department head. The student will then meet with a member of the cooperative education staff to discuss the availability of prospective employers. During this interview, the student will be asked to sign a Cooperative Educational Agreement and a grade release form which will become effective upon employment. Employment must be coordinated or have approval of the department and the cooperative education director. The University does not guarantee employment for the student. The student will be expected to remain with the employer for all cooperative work periods in order to provide a progression of experience and responsibility.

## Registration

While no academic credits are assigned, each student must register for 3000:301 Cooperative Education in the same manner that a student registers for any other University course. See department adviser betore enrolling for this course
A cooperative program fee for each work period is charged. Upon completion of a work period, a statement will appear on each student's official transcript listing the course number, title and name of the employer. In the place of a grade, "credit" or "no credit" will be given, depending upon the student's satisfactory or unsatisfactory completion of the following

- Work performance as evaluated by the employer
- Written work report as approved by department head and cooperative education staff.
- Cooperative Work Perioa Summary form

Usually, work progresses satisfactorily on the job and a grade of "credit" is assigned at the end of the semester. If all the above conditions are not met, a change of grade to "no credit" will be submitted.

## 3460: Computer Science

## Bachelor of Science

- The General Studies and the second year of a foreign language.
- Core curriculum:

| $3460: 209$ | Computer Progiamming I |
| :--- | :--- |
| $3460: 210$ | Computer Programming ! |
| $3460: 306$ | Assembly Langtage Programming |
| $3460: 307$ | Applied Systems Frogramming |
| $3460: 316$ | Introduction to Data Structures |
| 3460.418 | Introduction to Discrete Structures |
| 3460.420 | Structured Programming |
| $3460: 426$ | Operating Systems |

$3460: 210 \quad$ Computer Programming !!
Assembly Language Programming
$3460: 316$ Introduction to Data Structures
Introduction to Discrete Structures 3460:426 Operating Systems

## Options

## Mathematics

- Other required courses

| $3450: 221$ | Analytic Geometry-Catculus I |
| :--- | :--- |
| $3450: 222$ | Analytic Geometry-Calculus II |
| 3450.223 | Analytic Geometry-Calculus III |
| 3450.427 | Introduction to Numerical Analysis |
| 3460.201 | Introduction to FORTRAN Programming |
| 3470.461 | Applied Statistics | 3450:222 Analytic Geometry-Calculus II $3450: 223$ Analytic Geometry-Calculus III 3460.201 Introduction to FORTRAN Programmin 3470.461 Applied Statistics

$$
3
$$

Select one of the following two courses:
$3450.312 \quad$ Linear Algebra

3450.428 $\quad$| Numericai Linear Algeora |
| :--- |

## Business

- Other required courses:
3250201 Principles of Macroeconomics 3 $3250202 \quad$ Principles of Microeconomics 3
$3450215 \quad$ Concepts of Calculas
3450216 Concepts of Calculus i:
3450115 Linear Programming
3460:302 Programming Applications with COBOL
$3460.475 \quad$ Data Base Management
$3470.461 \quad$ Appled Statistics
6200201 Accounting I
6200:202 Accounting II
*Select two of the foilowing three courses
6400:371 Business Finance
6500301 Management: Principles and Concepts $\quad 3$
6600:300 Marketing Principies 3
- Electives - approved upper-level computer science courses - six credits.

## 3470: Statistics

## Bachelor of Arts <br> Bachelor of Science

- The General Studies and the second year of a foreign language.
- At least 40 departmental credits including:

| 3450:221,2,3 | Analytic Geometry-Calculus !, II and II! |
| :---: | :---: |
| 3450.235 | Differential Equations |
| 3450.312 | Linear Algebra |
| 3450:421,2 | Advanced Calculus 1.11 |
| 3470.451,2 | Theoretical Statistics I. II |
| 3470:461 | Applied Statistics |
| $3470: 463$ | Experimentai Design |
|  | Mathematics Electives |
|  | (Elective course must be an approved 300/400-level course in the department.) |

- For the Bachelor of Science degree: complete 18 credits of course work outside the major and beyond the General Studies in a suitable area of concentration as approved by the department.
For the Bacheior of Arts degree: complete 18 credits of humanities or social sciences beyond the General Studies. The 18 credits are to be from more than one department.
- Electives - 17 credits.

## 3500: Modern Languages

3520: French; 3530: German; 3550: Italian; 3570: Russian; 3580: Spanish

## Bachelor of Arts

- The General Studies.
- Completion of 24 credits above the second year (200 level): six credits in literature, six credits in cuiture. six credits of electives in the major language and six credits in composition and conversation.**

[^14]
## 3600: Philosophy

## Bachelor of Arts

- The General Studies and the second year of a foreign language.
- A minimum of 30 departmental credits including:

| $3600: 101$ | Introduction to Philosophy | 3 |
| :--- | :--- | :--- |
| $3600: 120$ | Introduction to Ethics | 3 |
| $3600: 170$ | Introduction to Logic | 3 |
| $3600: 211$ | History of Ancient Philosophy | 3 |
| $3600: 312$ | History of Medieval Phiosophy | 3 |
| $3600: 313$ | History of Modern Philosophy | 3 |

- Electives (selected concentration) - $12 \cdot 16$ credits
- Electives - 29-33 credits.

## 3650: Physics

## Bachelor of Science

This degree is intended for the student seeking the most detailed and quantitative preparation in physics available in an undergraduate curriculum.

- The General Studies and the second year of a foreign language.
- Physics: $\dagger$
A minimum of 40 credits at 200 level or higher. including: $\ddagger$
$3650: 291.2 \quad$ Elementary Classical Physics I and II
3650:301 Elementary Modern Physics 3
3650:322,3 Intermediate Laboratory I, It 4
3650:340 Thermai Physics 3
3650.431 Mechanics i 3
3650:436 Electromagnetism I 3
3650.441 Quantum Physics 1
Highly recommended courses for all students
3650.432 Mechanics II
3650.437 Electromagnetism II
3650.442 Quantum Physics 11
3650:457.2 Advanced Laboratory I, ll 4
$\begin{array}{llr}\text { 3650:481,2 Methods of Mathematical Physics ! II } & 6 \\ & \text { Physics electives } & 13\end{array}$
- Mathematics:
3450.235 Differential Equations 3
3450.221.2.3 Analytic Geometiy-Calculus !. II and III 12
- Chemistry
3150:132,3 Principles of Chemistry I, II 7
- Computer Science:
4100205 FORTRAN (Science and Engineering)
- Electives - 20 credits

## Bachelor of Arts

This degree is primarily for the student desiring a useful background in physics, but whose professional objectives may not require graduate study in physics or a related physical science.

- The General Studies program and the second year of a foreign language.
- Physics:

A minimum of 24 credits including: $\ddagger \ddagger$

| $3650: 591,2$ | Elementary Classical Physics I and II | 8 |
| :--- | :--- | ---: |
| 3650.310 | Electronics | 3 |
| $3650: 322$ | Intermediate Laboratory I | 2 |
|  | Physics Flectives | 11 |

[^15]- Mathematics

3450:221.2.3 Analytic Geometry-Calculus I. II and III

- Electives - 48 credits

## Areas of Specialization

## Applied Physics/Engineering Physics

(Bachelor of Science degree recommended)
A suggested program of 32 credits including the following:

| 3650.321 | Physics Ladoratory Techniques | 2 |
| :--- | :--- | :--- |
| 3650.438 | Nethods of Apdied Physics | 3 |
| $4200: 305$ | Materials Science | 2 |
| 4300.202 | Introduction to Mechanics of Solids | 3 |
| 4400.231 .2 | Circuits I. II | 6 |
| 4400.333 .4 | Circuits II.IV | 6 |
| 4600.125 | Engineering Graphics | 2 |
| $4600: 310$ | Fiuid Mechanics | 3 |

## Biophysics

(Bachelor of Science or Bachelor of Arts degree)
A suggested program of 27 credits to include the following:
3100:111.2 Principles of Biology
$3100211 \quad$ General Genetics
$3100: 214 \quad$ Organic Evolution
$3100311 \quad$ Cell Biclogy
$3100.480 \quad$ Raciation Biology
$3150263.4 \quad$ Organic Chemistry

## Chemical Physics

(Bachelor of Arts or Bachelor of Science degree)
A suggested program of 20 credits to include the following:

| $3150: 263.4$ | Organic Chemistry |
| :--- | :--- |
| $3150: 313.4$ | Physical Chemistry Lecture I, II |
| 3150.315 .6 | Physical Chemistry Laboratory i, If |
| $3650: 471$ | NMR Spectroscopy I |

## Computer Physics

(Bachelor of Science degree recommended) A suggested program of 21 credits to include the following:

| 4400.231.2 | Circuits I, II |
| :--- | :--- |
| $4400: 333.4$ | Cirruits II. IV |
| $4450: 306$ | Assembler Programming |
| $4450: 407$ | Systerns Programming |
| $4450: 410$ | Computer Methods |

## Geophysics

(Bachelor oi Science or Bachelor of Arts degree)
A suggested program of 18 credits to include the following:

| $3370: 101$ | Introduction to Physical Geology |
| :--- | :--- |
| $3370: 102$ | Introductory Historical Geology |
| $3370: 350$ | Structural Geology |
| $3370: 441$ | Fundamentals of Geophysics |
| $3370: 446$ | Exploration Geopnysics |

3370:446 Exploration Geopnysics

## Polymer Physics

(Bachelor of Science degree recommended)
A suggested program of 24 credits to include the following:

| $3150: 263.4$ | Organic Chemistry |
| :--- | :--- |
| $3150: 313.4$ | Physical Chemistry |

$3150.313 .4 \quad$ Physical Chemistry Lecture I, II
3940.401 Introduction to Elastomers

3940:402 Introduction to Plastics
394041 1.2.3 Molecular Struclure and Physica!
Properties of Polymers I. II. III
Physics/Astrophysics/Astronomy Pre-Graduate School
(Bachelor of Science degree recommended)
A suggested program of 34 credits to include the following:
3650:321 Physics Laboratory Techniques
3650:331.2 Astrophysics I. II
3650:404 Energy and the Environment
3650:320 Optics
3650:432 Mechanics :
3650:437 Electromagnetism II
3650:438 Metrods of Applied Physics
3650:481,2 Methods of Mathematical Pnysics I. II
3650.393 Undergraduate Fesearch

The preceding requirements specify the minimum curriculum tor the B.S. and B.A. degrees with a major in physics. The student expecting to specialize in a particular professional area should consider utilizing part or all elective courses toward one of the important program areas of specialization listed above. These programs are intended to be illustrative only; considerable flexibility is possible, depending upon the needs and interests of the individual student.

The physics student may consider it important in the bachelor's degree programs to prepare in greater depth in other science areas (besides physics and mathematics) than may usually be possible within the traditional four-year departmental degree curricula. This student may therefore prefer to work toward the Bachelor of Science in Naiural Science degree. For further information, refer to Buchtel College of Arts and Sciences, "Natural Sciences Division Major," in this section or contact the Department of Physics.

## Cooperative Industrial Employment Plan

For the academically qualified undergraduate student majoring in physics, an optional cooperative plan is available which provides a scheduled sequence of professionally oriented industrial employment (totaling a full calendar year) alternating with periods of on-campus classroom instruction. This cooperative plan requires a five-year period for the completion of the bachelor's degree program in physics, with the spring term of the third year plus the fall and summer terms of the fourth year typically spent off campus with a participating industrial employer.
Arrangements are made on an individual basis and must be initiated by the student during the second year of undergraduate study. For further information, contact the department.

## 3700: Political Science

## Bachelor of Arts

- The General Studies and the second year of a foreign language.
- At least 30 credits in the department including:
$3700: 100 \quad$ Government and Politics in the United States 4
3700:200 Comparative Politics
3700:201 Introduction to Polifical Science
3700:303 Introduction to Political Thought
$3700: 310$ International Politics and Institutions
3700:461 The Supreme Court and Constitutional Law
Political Science Electives

$$
\text { (Electives must include at least one } 400 \text {-level }
$$

$$
\begin{aligned}
& \text { (Electives must include at lea } \\
& \text { course in political science.) }
\end{aligned}
$$

- Electives - 45 credits.

## Bachelor of Science in Political Science/ Criminal Justice

- Completion of all requirements for the associate degree in criminal justice technology established by the Commurity and Technical College.
- Completion of General Studies requirements.
- Completion of 47 credits of $300 / 400$-level courses.
- At least six credits of course work which will introduce the student to a foreign culture. Such courses shall be selected by the student with the approval of the adviser in the Department of Political Science. Courses may be chosen from any of the following departments: classics, modern languages, history, political science, anthropology and geography.
- At leasi 30 departmental credits including:

| 3700:100 | Government and Politics in the United States | 4 |
| :---: | :---: | :---: |
| 3700:210 | State and Local Government and Politics | 3 |
| 3700.341 | The American Congress | 4 |
| 3700:360 | The Judicial Process | 3 |
| 3700:370 | The American Bureaucracy | 4 |
| 3700380 | Urban Politics and Policies | 4 |
| 3700.461 | The Supreme Court and Constitutional Law | 4 |
| 3700:480 | Policy Problems | 3 |
| 3700:395 | Internship in Goverrment and Politics or | 2-3 |
| 3000:301 | Cooperative Education and | 0 |
| 3700:- | 300/400-level political science course | 3 |

[^16]
## Bachelor of Science in Political Science/ Public Policy Management

- The Generai Studies and the second year of a foreign language.
- Political Science:

| $3700: 100$ | Government and Politics in the United States | 4 |
| :--- | :--- | :--- |
| $3700: 201$ | Introduction to Politicai Science | 3 |
| $3700: 370$ | The American Bureaucracy | 4 |
| $3700: 395$ | Internship: Government and Politics | 3 |
|  | Co-op Collegewide Level |  |
| 3700.441 | Policy Process | 3 |
| $3700: 442$ | Methods of Policy Analysis | 3 |
| 3700.480 | Policy Problems | 3 |

The student will take an additional nine credits in either of the foliowing two areas:
Domestic Public Policy.
$3700: 210 \quad$ State and Local Government and Politics 3
3700:340 American Political Parties
3700:341 The American Congress
3700:342 Minority Group Politics
3700:350 American Presidency
$3700.380 \quad$ Urban Politics and Policies
$370038: \quad$ State Politics
3700:382 Intergovernmental Relations
3700.402 Politics and the Media

3700:440 Public Opinion and Political Eenavior
3700:461 Supreme Court and Constitutional Law
3700:370 The American Bureaucracy
3700:395 Internship: Government and Politics
$\begin{array}{lll}3700.441 & \text { Policy Process } & 3 \\ 3700.442 & \text { Methods of Policy Analysis } & 3\end{array}$
$3700480 \quad$ Policy Problerns

International Policy:
3700:- Area of Study (to be selected from curfent regional course offerings)
$3700200 \quad$ Comparative Politics
3700:310 International Politics and Institutions
3700.325 Comparative Public Policy

3700:326 Politics of Developing Nations
$3700: 415 \quad$ Comparative Foreign Policy
3700:420 Issues and Approaches to Comparative Politios

- Statistics:

3470:251,2,3,5 Introduction to Statistics

- Computer Science:

3460.209
- Accounting.
6200:201 Accounting I

6200:470 Governmental and institutional Accounting

- Economics:

3250:202 Principles of Microeconomics
3250:405 Public Finance

- Psychology

3750:100 introduction to Psycnoiogy

- Management:

| 6500301 | Management. Principles and Concepts |
| :--- | :--- |
| 6500324 | Data Management for Information Systems |
| 6500341 | Personnel Management |

## Special Curricular Tracks in Political Science

The department offers three special tracks for the student interested in pre-law, the international service or national, state or local government service. in addition to the requirements tor the major, each of these tracks incluces electives appropriate for preparation for careers in law, government service or international service.
Information about these curricular tracks may be obtained from the head of the department.

## 3750: Psychology

## Bachelor of Arts

- The Generai Studies and the second year of a foreign language.
- At least 30 credits in the department including:

| $3750: 100$ | Introduction to Psychology | 3 |
| :--- | :--- | ---: |
| 3750110 | Quantitative Methods in Psychulogy | 3 |
| $3750: 120$ | Introduction 1o Expermental Psychology | 4 |
|  | Psychology Electives | 20 |
|  | Electives -45 credits. |  |

The student should consult with a faculty adviser to plan a program of psychology electives geared to the student's educational objectives.

## 3850: Sociology

(3850: Sociology; 3870: Anthropology)

## Bachelor of Arts

## Sociology

- The General Studies and the second year of a foreign language.
- A minimum of 30 credits in sociology including:

| $3850: 100$ | Introduction to Sociology | 4 |
| :--- | :--- | ---: |
| $3850: 301,2$ | Methods of Social Research I and II | 6 |
| $3850: 403$ | History of Sociological Thought | 3 |
| $3850: 404$ | Conternporary Sociological Theories | 3 |
|  | Sociology Electives | 14 |
|  | (3870.150 Cultural Anthropology can be counted |  |
|  | as part of these credits) |  |
|  |  |  |

The student should consult with a departmental adviser about using electives to enhance the specialty area, e.g., academic sociology, deviance and corrections, family, agency and life cycle, urban planning and social research.

## Sociology/Anthropology

- The General Studies and the second year of a foreign language.
- A minimum of 31 credits in the department including:

| $3850: 100$ | Introduction to Sociology | 4 |
| :--- | :--- | :--- |
| $3850: 301.2$ | Methods of Social Fesearch I and li | 6 |
| $3850: 403$ | History of Sociological Thought | 3 |
| $3850: 404$ | Contemporary Sociological Theories | 3 |
| $3870: 150$ | Cultural Anthiopology | 4 |
| $3870: 151$ | Evolution of Man and Culture | 3 |
| 3870.356 | Archaeology of the Americas | 3 |
| $3870: 461$ | Language and Culture | 3 |
| A mirimum of two additional credits: |  |  |
| $3870: 355$ | Indiaris of South America | 3 |
| $3870: 357$ | Magic, Myth and Religion | 3 |
| $3870: 358$ | Indians of North America | 3 |
| $3870: 455$ | Culture anc Personaity | 3 |
| $3870: 463$ | Social Anthropology | 3 |

- Electives - 44 credits

## Sociology/Law Enforcement

- The General Studies and the second year of a foreign language.
- A minimum of 33 credits in the department including:

| $3850: 100$ | Introduction to Sociology | 4 |
| :--- | :--- | :--- |
| $3850: 301.2$ | Methods of Social Research l. il | 6 |
| 3850.320 | Social linequality | 3 |
| $3850: 330$ | Criminology | 3 |
| $3850: 403$ | History of Sociological Thought | 3 |
| $3850: 404$ | Contemporary Sociological Theories | 3 |
| $3850: 430$ | Juvenile Delinquency | 3 |
| $3850: 433$ | Sociology of Deviant Behavior | 3 |
| $3850: 44 i$ | Sociology of Law | 3 |
| $3850: 495$ | Research Internship | 2 |

- Electives - 42 credits

Students who enter the Sociology/Law Enforcement program from the University College. or by transter, must complete course work in the Criminal Justice Technology program. This may be done in one of two ways: (1) complete the program requirements for an A.S. degree in criminal justice; or. (2) complete 18 credits of crimina! justice technology course work, plus 2250:260 Administration and Supervision in the Public Service. The appropriate course work will be determined by the student's sociology/law enforcement adviser in consultation with the coordinator of the Criminal Justice Technology program.

## Sociology/Corrections

- The General Studies and the second year of a foreign ianguage.
- A minimum of 33 credits in sociology including:

3850:100 Introduction to Sociology 4
3850:301.2 Methods of Social Research I. II
3850330 Criminology
3850:403 History of Sociological Thought
3850:404 Contemporary Sociological Theories
3850.412 Sociatization: Child to Adult
3850.430 Juvenile Delinquency
3850.431 Corrections
3850.432 Probation and Parole

3850 495 Research Intemship
Electives - 42 credits
Students who enter the Sociology/Corrections program from the University College, or by transfer, must complete course work in the Criminai Justice Technology program. This may be done in one of two ways: (1) complete the program requirements for an A.S. degree in criminal justice; or, (2) complete 18 credits of criminal justice technology course work, pius 2250:260 Administration and Supervision in the Public Service. The appropriate course work will be determined by the student's sociology/ corrections adviser in consultation with the coordinator of the Criminal Justice Technology program.

## Division Majors

## Humanities

The humanities division consists of the departments of classics, English, modern languages and philosophy. The disciplines of history and the creative and dramatic arts (art, music, theatre arts) are included. The divisional major must include the following:

- The General Studies and the second year of a foreign language
- A minimum of 54 credits, at least 24 of which must be in courses at the 300/400 level. The 54 credits must include 18 credits in each of any three of the following six fields: classics, English, history, modern, languages, philosophy and the creative and dramatic arts
- The first two years of any language in either classics or modern languages will not be included in the 18 -credit requirement for those disciplines. By field, the 18 -credit requirement must include:
- Classics $\begin{array}{lll}3200: 161,2 & \text { Comparative Literature } & 6 \\ 3200.189 & \text { Classical Mythology } & \mathbf{3}\end{array}$
- English:
$300 / 400$ level, including at least two courses at the 400 level (minimum)
- History:
$300 / 400$ level (minimum)
- Modern Languages:
Composition and Conversation
Literature
Any combination of linguistics and culture-civilization

Literature
Any cembination of linguistics and culture-civilization

- Philosophy:

3600:101 Introduction to Philosophy
3600.120 Introduction to Ethics

3600170 Introduction to Logic

- Creative and Dramatic Arts:

> Non-performance courses in ar1 (7100), music
> $(7500)$ and theatre arts $(7800)$

Courses for the humanities division major must be selected with the approval of the division adviser. For further information, please contact the Office of the Dean, Buchtel College of Arts and Sciences.

## Natural Sciences

The divisional major provides for a broad background in science with concentration in selected areas. It is an appropriate major for those preparing for admission to professional programs in medicine, dentistry or
veterinary science or for those desiring a Liberal Arts degree with a general emphasis in science. Additional course work is often necessary for those planning graduate studies in a particular science discipline. The natural sciences division consists of the departments of biology, chemistry, geology, mathematical sciences, physics and polymer science. The divisional major must include:

- The General Studies.
- A minimum of 64 credits in the division and/or engineering, at least 27 of which must be in divisicnal courses at the 300/400 level.
- At least 27 credits from one of the departments of the natural sciences division.
- At least 16 credits with at least two credits at the $300 / 400$ level from another ot the following disciplines: biology, chemistry, engineering, geology, mathematics or computer science or statistics, physics, polymer science.
- At least 16 credits from a third of these disciptines; or aliernatively, at least eight credits in each of two other of these disciplines.
- A foreign language is strongly recommended.

The courses for the natural sciences division major must be selected from those courses approved by the department offering the course. In general, only courses availabie toward the major are acceptable. For further information, please contact the Office of the Dean, Buchtel College of Arts and Sciences.

## Social Sciences

The social sciences division consists of the departments of economics, geography, history, political science, psychology, sociology and urban studies (graduate program only). The divisional major must include the following:

- The General Studies and the second year of a foreign language
- A minimum of 54 credits, at least 24 of which must be in courses at the 300/400 level. The 54 credits must inciude a minimum of 15 credits in each of any three of the following sixfields: economics, geography, history, political science, psychology and sociology-anthropology.
By field, the 15 -credit requirement must include:
- Economics:

Any except 3250:100 Introduction to Economics*
(must include 3250:201 Principles of Macroeconomics and 3250.202 Principles of Microeconomics)

- Geography. 15
- History:

Minimum of seven credits at the 300/400 level

- Political Science:

At least seven credits at the 300/400 level
3700:100 Government and Politics in the United States
3700201 Introduction to Political Science
15

- Each student shali take at least one course in two of the four areas (American government and politics, comparative politics, international politics and political theory) shown below:
American Government and Politics:
3700:210 State and Local Government and Politics 3
3700:340 American Political Parties and Interest Groups 3
$3700: 341$ An Congress
3700:342 Minority Group Politics
3700:350 The American Presidericy
3700:360 The Judicial Process
3700:370 The American Bureaucracy
3700:380 Urban Politics and Policies
3700:381 State Politics
3700.402 Politics and the Media
3700.440 Fublic Opinion and Political Behavior 3
itical Behavior
3700.441 The Policy Process

3700:480 The Supreme Court and Constitutional Law
Comparative Politics:
3700200 Comparative Politics 4
3700:320 Britain and the Commonwealth 3
$370032.1 \quad$ Westein European Politics
3700:322 Soviet and East European Politics
3700:323 Politics of China and Japan

[^17]

Courses for the social sciences division major must be selected with the approval of the divisional adviser. For further information, please contact the Office of the Dean, Buchtel College of Arts and Sciences.

## Bachelor of Science/Doctor of Medicine Degree (B.S./M.D. Program)*

## Introduction

The Northeastern Ohio Universities College of Medicine (NEOUCOM) is a consortium composed of The University of Akron, Kent State University, Youngstown State University and the College of Medicine offering a six-year B.S./M.D. program in which students obtain a baccalaureate degree in two years, summers included, and are then directly promoted to NEOUCOM's medical school for a final four years, obtaining a Doctor of Medicine degree.
The University of Akron admits a restricted number of carefully selected students into its B.S./M.D. program. These students usually pursue a

[^18]natural science divisional major in the Buchtel College of Arts and Sciences, although other majors may be elected. Upon successful completion of the baccalaureate degree requirements, and with favorable faculty recommendations, satisfactory grade-point average and MCAT scores, students are promoted to NEOUCOM's Rootstown campus as medical students. A few students may need to complete their baccalaureate degree program on the University of Akron campus during the summers of the third through fifth years.

## Requirements

- The General Studies.**
- Courses to meet the natural sciences divisional major requirements:

| 3100:111,2 | Principles of Biology | 8 |
| :---: | :---: | :---: |
| 3100:211 | General Genetics | 3 |
| 3100:365 | Histology ' | 3 |
| 3100:466.7 | Developmental Anatomy | 8 |
| 3150:132.3 | Principles of Chemistry I, II | 7 |
| 3150:134 | Quatitative Analysis | 2 |
| 3150:263,4 | Organic Chemistry Lecture I, II | 6 |
| 3150:265 | Organic Chemistry Laboratory I | 2 |
| 3150:401,2 | Biochemistry Lecture I, il | 6 |
| 3450:211,2 | Calculus for Life Sciences I, il | 6 |
| 3470:251,2,3,5 | Statistics modules | 4 |
| 3650:261.2 | Physics for Life Sciences, i. II | 8 |
| $3650.267,8$ | Computations (optional but recommended) | 2 |
| Plus sufficient elective credits to reach distribution requirements of the natural sciences major Some work may de transferred tater from NEOUCOM with priar permission of the divisiona major advisor and the Dean of Buchtel College of Arts and Sciences. |  |  |
|  |  |  |
| Additional courses: |  |  |
| 1880:201 | Medical Seminar and Practicum I | 3 |
| 2780:290 | Special Topics | 1 |
| 3100:190.1 | Health-Care Delivery Systems | 2 |
| 3100:290,1 | Health-Care Delivery Systems | 2 |
| 3750:100 | Introduction to Psychology | 3 |

- Humanities distribution requirement:

16 credits of approved humanities as approved by the Humanities in Medical Education Committee.
Additional credits as required to make a minimum of 128 credits.
**Some students elect, with prior permission of their adviser and the Dean of the University Coliege alternative courses in lieu of the Western Cultural Traditions and Eastern Civilizations Genera Studies requirements to make a minimum of 12 credits

# College of Engineering 

Louis A. Hill, Jr., P.E., Ph.D., Dean
Glenn A. Atwood, P.E., Ph.D., Assistant Dean

## OBJECTIVES

The purpose of the College of Engineering is to further the objectives of the University by providing a quality program of engineering education with the following aims

- To offer sound basic instruction in engineering.
- To develop the ability to apply engineering principles to economic and technological progress of society.
- To promote in the student a high sense of ethics and professional responsibility.
- To foster an appreciation of the need to further the role of the engineering profession in society.

The college ofters programs leading to the Bachelor of Science, Master of Science and Doctor of Philosophy degrees.

At the undergraduate level the college has a four-year noncooperative program and a five-year cooperative educational program. The majority of the students elect the cooperative program.
The emphasis in both undergraduate programs is on the preparation of students for professional practice, and University policy assures that each student obtains a substantial exposure to the humanities.

A graduate is prepared for employment in the engineering profession or graduate studies in engineering upon receipt of the baccalaureate degree.

## COLLEGE REQUIREMENTS

## Cooperative Plan

The optional cooperative plan provides for a coordinated sequence of alternate periods of classroom instruction and industrial employment during the cooperative phase of the five-year course

The cooperative plan simultaneously provides for the development of fundamental principles in the classroom and for their application in industrial practice. The student has the opportunity to find the type of work and industrial organization in which the student can best apply individual ability. The student gains an appreciation of the problems of labor and management by first-hand experience. The student develops mature judgment by coping with the everyday problems of the industrial world. The employer of a cooperative student has the ability to train and select a student whose abilities and aptitudes can be adapted to the needs of technical staff requirements.
While a student is at work, all rules and regulations prescribed by the employer must be obeyed. In addition, the student is subject to all current labor laws and conditions. The student is considered a full-time student by the University while in industrial assignments.
The University does not guarantee employment, but makes every effort to place a student to the best financial advantage that is consistent with the acquisition of sound subprofessional experience.

## Requirements for Admission

In addition to the general requirements for admission to the University, a student must present the following secondary school credits:
 from this rule.

## Degrees

The college offers curricula leading to the degrees of B.S. in chemical, civil, electrical and mechanical engineering; Bachelor of Science in Engineering; and Construction Technology.

## Requirements for Graduation

- Compliance with University requirements, Section 3, of this Bulletin.
- Completion of the requirements in the appropriate list of courses and a minimum of 136 credits of course work.
- Recommendation of the student's department.
- Any junior or senior engineering student with a grade-point average of 2.50 overall and 2.75 or better in engineering may substitute not more than two approved upper-division courses in mathematics. science or engineering for an equal number of certain required engineering courses

## PROGRAMS OF INSTRUCTION

## 4200: Chemical Engineering

The goal of chemical engineering education is the development of the student's intellectual capacity and ability to apply the principles of transport phenomena, equilibria and kinetics, involving chemical and physical transformations, to the creative resolution of technological problems.
The chemical engineer, like all other engineers, is trained in mechanics, materials and their properties, economics, systems and their controls. The chemical engineer differs from all other engineers because the chemical engineer is responsible for materials separations and the conversion of matter - separations such as air into components of oxygen, nitrogen, argon and conversions such as natural gas into plastics and coal into liquid fuel.

The chemical engineer finds careers mainly in the chemical process industries, usually becoming involved with inorganic and organic chemicals, rubber and plastics, detergents, petroleum products, metals, pharmaceuticals, dyestuffs and food products.
The chemical engineer will usually be employed in one or more of the following activities: research and development, plant design and construction, process control, plant operations, sales and management. In
addition to the processing industries, the chemical engineer is increasingly in demand in such areas of current interest as water and air poliution, biological engineering and energy engineering.

## 4300: Civil Engineering

The civil engineer is dedicated to planning, designing and building to make our environment more desirable. Civil engineers help renovate urban areas; develop new housing systems; plan community facilities; build new water storage systems; design new systems for waste disposal; expand airport and harbor facilities; build and maintain local streets and inter-city highways: design all types of buildings and bridges; build dams, reservoirs and flood control sytems; build tunnels: and design foundations.
The civil engineering curriculum at the University allows specialization in environmental engineering, foundation engineering, hydraulic engineering, structural engineering and transportation engineering.
The civil engineering graduate works for consultants, manufacturers, construction companies, utilities and for government bodies of all leveis. Many civil engineers own their own businesses.

## 4400: Electrical Engineering

The many branches of electrical engineering include: production and distribution of electrical energy; research, development, manufacture and operation of electrical and electronic products, and systems for instrumentation, automation, tracking and telemetry.
The growth of electronic research and manufacturing has been accelerated by the space age. There is hardly a segment of the economy which has not been influenced by electronics. The high speed digital computer has found its way into virtually all aspects of modern life. A sludent wishing to specialize in computer engineering will find appropriate electives available.
The wide use of electrical means for measurement, control and computation has resulted in the need for electrical engineers in all types of industries. Varied employment opportunities are avallable.

A student wishing to continue education in graduate school, law school or medical school will find specialized programs of preparation are available within the framework of the Department of Electrical Engineering.

## 4600: Mechanical Engineering

The mechanical engineer designs and analyzes physical systems. A high level of protessional competence in this field can only be achieved through an extensive study of mathematics, mechanics, fluid flow and the thermal sciences. Among the many subtopics included in these major headings are stress analysis, vibrations, compressible and incompressible fluid flow, thermodynamics, energy conversion, en vironmental control, heat transfer and automatic controls. The typical mechanical engineering design problems may invoive any one or possibly all of these areas in the design of a complex system.
The mechanical engineer is employed in a variety of industries in different capacities. Specific positions include management, design, analysis, safety, production and plant engineering. The types of companies include automotive, petroleum, energy generation, aerospace, tire, consulting, publishing, insurance and manufacturers in general.

The curriculum is designed to emphasize fundamentals which will place the graduate in a strong position either to pursue further education, formally or informally, or to begin a career in government or industry.

## 4980: Construction Technology

The curriculum in construction technology is designed to produce a graduate with a strong fundamental knowledge of technology, combined with management ability and a familiarity with business, economics and personnel management. The program is designed to provide graduates for employment at all levels of the construction industry and allied support industries.

The program is a "two-plus-three" arrangement with the Community and Technical College and includes one full year of on-the-job experience. All students must meet the requirements of both the associate and baccalaureate programs. Transferees from other programs where the course content compares favorably may be admitted to the program.

## Bachelor of Science in Engineering

This degree program was established to introduce flexibility into the College of Engineering. Within the 66 credits of the cption portion of the program, a student can pursue courses in business administration, industrial management, environmental science, pre-medicine or any other field along with engineering studies. The program of study may be very narrow as in the case of a student wishing to specialize in structural design, foundations and soil mechanics. For another student interested in patent law, the program may be broad, touching on chemical, mechanical and electrical engineering subjects. The individual's program is designed to meet each student's announced goals.
Entrance to this program is restricted. A student requests admission by letter to the dean of the College of Engineering, outlining in some detail the particular objective and how the B.S.E. program may enable the student to prepare for career goals. The mathematics, physics and chemistry requirements are identical to those of the four departments of the college.

# College of Education 

Constance Cooper, Ed.D., Dean<br>Don Birdsell, Ph.D., Associate Dean<br>Walter Yoder, Ed.D., Assistant to the Dean

## OBJECTIVES

The purpose of the College of Education is to further the objectives of the University by providing quality programs for the student of education and by helping the student attain the following:

- Special experiences, knowledge and skills particularly useful for teaching in urban and inner-city educational institutions, in keeping with the urban mission of the University.
- A knowledge of a major field and related fields of inquiry and the ability to use this knowledge in explaining the realities of life today.
- A knowledge of instructional materials and new technology and skill in recognizing and utilizing instructional tools most suitable for specific purposes.
- A knowledge of the social issues relevant to education and fiving in a pluralistic society and the competence to translate implications of changes in society into instructive action as teacher-citizens as well as teacher-scholars
- An understanding of the learner and the learning processes and the ability to translate these into appropriate teaching behaviors in acting and reacting with students.
- Skill in the acquistion of inquiry techniques appropriate to generalizing knowledge and choices, and practice in using them to inquire into educational problems in rational, defensible ways
- Human relations skills, including an appreciation of the values and feelings essential for working with young people and with adults, and the ability to develop relationships in a wide variety of professional and social roles in an educational or community setting.
To accomplish these objectives, this college offers programs for the preparation of elementary and secondary teachers, counselors, school administrators and other educational personnel. The Bachelor of Arts in Education, Bachelor of Science in Education, Bachelor of Science in Technical Education, Master of Arts in Education, Master of Science in Education, Master of Science in Technical Education and Ph.D. and Ed.D. degrees are offered.
Programs include a balanced offering of a foundation in general education, an intensive study in depth of the teaching and/or administration area and those professional courses and other learning experiences which attempt to combine theory and practice.
In addition to the regular degree programs, special courses and related services such as institutes and workshops are regularly offered with the planning assistance of school personnel.
Educators in surrounding school districts cooperate in advisory capacities with the college. Their schools are used widely for observation and for the assignment of student teachers. Approximately one-half of the teachers in the Akron Public Schools are former students of the University.

## COLLEGE REQUIREMENTS

## Admission

To be admitted to the College of Education, the student must be able to meet the following criteria:

- Completion of at least 30 credits with a minimum overall grade-point average of 2.00,'
- Demonstration of those qualities of character and personality deemed essential for a professional person in education. This determination is made by instructors conducting the education courses in the University College, by the staff in Academic Advising Services, and if necessary, by measuring performance through standardized evaluation instruments.
- Demonstrated evidence of the ability to attain a 2.50 grade-point average in a choice of major fields.
All students preparing for certification may be evaluated by the college undergraduate committee, subject to review by the dean. Such evaluation will occur whenever there is reason to believe the student does not measure up to criteria for professional development established by the faculty of the college. This committee can recommend to the dean of the college any one of the following actions:
- That the student's admission to or retention in the program for certification be confirmed with no other action suggested.
- That the student's admission to or retention in the program for certification be confirmed but that the student be apprised that certain weaknesses must be corrected before student teaching is approved.
- That the student's final admission to or retention in the program for certification be denied because of certain weaknesses which the committee believes are not correctable.

## Bachelor's Degrees

A student prepares to teach any one of the following areas or fields: nursery school, kindergarten-primary, elementary; the conventional academic fields found in middle, junior and senior high schools; the special fields of art, business, home economics, music, physical education, slow learners, and speech and hearing therapy; and post-secondary technical education. A minimum of 128 credits with a grade-point average of 2.00 must be completed to qualify for the bachelor's degree.
The specific subjects required for degrees in certain fields are set forth in subsequent pages. In all cases, the requirements include courses in the General Studies, subject matter areas and professional sequences.
The Bachelor of Arts in Education degree is granted to those whose major is one of the academic fields or speech and hearing therapy. The Bachelor of Science in Education is granted to those whose major is in the other special fields or in elementary education. The Bachelor of Science in Technical Education is awarded to those who complete the requirements of that program.

## Clinical and Field-Based Experiences

Each teacher education student is required to participate satisfactorily in clinical and field-based experiences for a minimum of 600 hours prior to recommendation for certification for teaching in Ohio. The total hours will be accounted on the EDATA-I system.
Through clinical experiences under the direction, evaluation and supervision of faculty, the student shall be involved in the use of diagnostic testing instruments and observational techniques to enable an analysis of pupillearning progress or difficulties on both an individual and group basis, and prescriptions of instructional strategies, educational media and materials to maximize pupil-learning outcomes.
Field-based experiences are a series of planned, supervised and evaluated off-campus activities for which specific learning objectives have been set to assure increasing proficiency in performing the various teaching responsibilities under actual school conditions. Field-based experiences shall be completed under a variety of urban and suburban or rural settings. The clinical and field-based experiences are components to the developmental course programs.
Clinical and field-based hours are listed under the College of Education in "Courses of Instruction," Section 9 of this Bulletin.

[^19]
## Student Teaching

Student teaching is done in the public schools under the direction of cooperating teachers and a representative of the College of Education facuity.

All students must complete a speech and hearing test prior to approval of the student teaching experience.

Each student must have his/her education adviser's recommendation prior to approval of the student teaching experience.
To qualify for student teaching, students must maintain a 2.50 average in methods courses (as defined by departments), foundations courses, and in their teaching field(s). Satisfactory completion of at least 300 hours of field and clinical experiences is also required before student teaching. Students identified as not meeting these requirements will be evaluated by their department and a recommendation made to the director of student teaching.*

## Certification

Every teacher in Ohio public schools is required to have a certificate covering the fields in which teaching is being done. This certificate is issued by the Ohio State Department of Education upon recommendation of the dean of the college. The student rnust fill out an application form obtained in the office of the dearl. This form should be completed about one month before the student plans to finish all requirements for teaching
The student is expected to receive recommendations for certification from the institution granting the degree. A student who expects to receive degrees from other institutions but who wishes to qualify for certification at The University of Akron will be expected to meet all the certification requirements of the University.

## Students Enrolled in Other Colleges at The University of Akron

A student who receives degrees from other colleges in the University also may wish to qualify for teaching. They will be recommended for certification after completing respective major and minor requirements and the pre-professional and professional courses in the appropriate department. Such students must be closely advised during the last two years.
Any student not enrolled in the college who wishes to teach should register with the dean by completing the form, Admission to Teacher Education at the time of transter to a degree-granting college or two years prior to eligibility to teach.

## PROGRAMS OF INSTRUCTION

## 5200: Elementary Education

## Elementary

The elementary program is for those preparing to teach in grades one through eight inclusive. The requirements for a major in elementary education are as follows:

[^20]- General Studies - 39 credits.**
- Pre-professional education:
3350:100 Introduction to Geography

3350:350 Angio-America $\quad 3$
3750:100 introduction to Psychology 3
7100.191 Design 2

One of the following three courses:
3400:201 United States History to Civil War 4
3400:202 United States History since Civil War 4
3700:100 Government and Politics in the United States 4

- Professional education:

Basic:
$5100: 150 \quad$ Introduction to Frofessional Education 3
$5100250 \quad$ Human Development and Learning 3
5100:310 Educational Media and Technology
Educationai Measurement and Evaluation 2
Elementary education: $\dagger$
S200.141 Handicrafts 2
5200:286 Children's Literature 3
$5200: 321$ Art tor the Grades 2
5200:333 Science Elementary Gradest $\dagger$ 2
$5200: 335$ Teaching of Language Arts 5
$5200336 \quad$ Teaching Elementary School Nathematics $\dagger+\quad 3$
$5200337 \quad$ Teaching of Reading $+\dagger$

52004 Student Teaching
6

- Area of specialization - 8-15 credits.

Selected by the student with approval of the adviser, the student is urged to select an area of specialization that will contribute to successful teaching. The number of credits required (8-15) is above and beyond the number of credits required in any other part of the program.

## Kindergarten-Primary

With the addition of certain courses, the student in the elementary program electing this specialization can receive additional certification.

- Required:

| $5200: 330$ | Early Elementary Education I | 3 |
| :--- | :--- | :---: |
| $5200: 331$ | Early Elementary Education II | 3 |
| $5200: 340$ | Early Elementary Education I-Laboratory $\dagger \dagger$ | 1 |
| $5200: 341$ | Early Elementary Education II-Laboratory $\dagger \dagger$ | 1 |
| $7400: 265$ | Child Development | 3 |

- Electives - five credits

## Nursery Schools

The student in the elementary program may also receive University recommendation as director of teaching in rursery schools by taking the following courses:

- Required

5200:310 Introduction to Early Childhood Education 2
5200:311 Curriculum for Preschool Learning Centers 2
5200:312
$5200 \cdot 313$
Introduction to Early Childhood Education-Laboratoryt $\dagger$
Curriculum for Preschool Learning Centers-Laboratoryt+ 1

[^21]5200:360 Nursery School-Laboratory 3
7400:265 Child Development 3

- Electives - four credits.

## Certification for Teaching Foreign Language in the Elementary School

A person desiring certification to teach modern foreign language on the elementary level must meet the regular requirements for certification on the secondary level, plus these Ohio requirements:

- Child psychology or human growth and development.
- Purpose and practices of elementary education or equivalent.
- Methods of teaching the modern foreign language.

## Certification of Non-Professional Degree Holders for Elementary School

To qualify for a Provisional Elementary Certificate, the holder of a baccalaureate degree in fieids other than education should complete the course work equivaient to that required for a major in elementary education.

- Pre-professional education and General Studies:

A student may be required to take courses from the pre-professional education and General Studies sections if previous transcripts reveal an insufficient background in those areas or in courses listed under elementary education.

- Professional education:

Basic:
$5100: 150$ introduction to Protessional Education 3
5100:250 Human Development and Learning
5100:310 Educational Media and Technology
5100:350 Educational Measurement and Evaluation
5100:450 Problems in Education
5200:451 Elementary Education
Elementary Education:
5200:141 Handicratts
5200.286 Children's Literature

5200:300 Student Participation
5200:321 Art for the Grades
5200:333 Science for Elementary Grades
5200:335 Teaching of Language Arts
5200:336 Teaching Elementary School Mathematics**
5200:337 Teaching of Reading
5200:338 Teaching of Social Studies
5200.339 Principles of Diagnostic Teaching of Reading
$5200: 343 \quad$ Science for Elementary Grades-Laboraiory $\dagger$
$5200346 \quad$ Teaching Elementary School Mathematics--Laboratory $\dagger$
5200:347 Teaching of Reading-Laboratory $\dagger$
5200.348 Teaching of Social Studies-Laboratory $\dagger$
$5200.349 \quad$ Principles of Diagnostic Teaching of Reading-Laboratory $\dagger$
5200:350 Multicuitural Education: Concepts, Programs and Practices
5200:365 Comprehensive Musicianship for the Elementary
Classroom Teacher
5200:495 Student Teaching
5200:496 Student Teaching
5550:334 Games and Rhythms-Eiementary Grades
5570:101 Personal Heath

- If certification for teaching kindergarten is desired, the following courses must be scheduled as follows:

| $5200: 330$ | Early Elementary Education I |
| :--- | :--- |
| $5200: 331$ | Early Elementary Education II |
| $5200: 340$ | Early Elementary Education I-Laboratory $\dagger$ |
| $5200: 341$ | Early Eiementary Education II-Laboratory $\dagger$ |

## Retraining from Secondary to Elementary Certificate

- The holder of a provisional, protessional, permanent high school or special certificate may obtain a Provisional Elementary Certificate valid for elementary teaching (grades one through eight) upon submitting evidence of the satisfactory completion of the following credits:
Basic:
5100250
5200:336
Human Development and Learning
3
$5200: 336$ Teaching Eiementary School Mathematics 3

[^22]| 5200:337 | Teaching of Reading | 3 |
| :--- | :--- | :--- |
| 5200:346 | Teaching Elementary School Mathematics-Laboratory $\dagger$ | 1 |
| 5200:347 | Teaching of Reading-Laboratory $\dagger$ | 1 |
| $5200: 451$ | Elementary Education | 3 |

- Such a certificate shall be designated as a "retraining" certificate and shall be made standard upon evidence of the completion of the following course work in elementary education:

| 5200:141 | Handicrafts | 2 |
| :--- | :--- | :--- |
| 5200:286 | Children's Literature | 3 |
| 5200:300 | Student Participation | 1 |
| 5200:321 | Ar for the Grades | 2 |
| 5200:333 | Science tor Elementary Grades | 3 |
| 5200:335 | Teaching of Language Ars | 5 |
| 5200:338 | Teaching of Social Studies | 3 |
| 5200:339 | Principles of Diagnostic Teaching of Reading | 3 |
| 5200:343 | Science for Elementary Grades-Laboratory $\dagger$ | 1 |
| 5200:348 | Teaching of Social Studies--Laboratory $\dagger$ | 1 |
| 520:049 | Principies of Diagnostic Teaching of Reading--Laboratory $\dagger$ | 1 |
| 5200:350 | Muticultural Education: Concepts, Programs and Practices | 3 |
| 5200:365 | Comprehensive Musicianship tor the Elementary |  |
|  | Classroom Teacher | 3 |
| 5550:334 | Games and Rhythms--Elementary Grades | 2 |
| $5570: 101$ | Personal Health | 2 |

- If additional credits are needed in the social sciences, a choice should be made from the following
3350:100 Introduction to Geography 3
3400:201
3400:202
$3700 \cdot 100$
- If the student desires certification for teaching kindergarten, eight credits must be scheduled as follows:
5200:330 Eariy Elementary Education : 3
5200:331 Early Elementary Education II 3
5200:340 Early Elementary Education I-Laboratory $\dagger$ 1
$5200: 341 \quad$ Early Elementary Education 11 -Laboratory $\dagger$
- Student teaching is required in this program if evidence of teaching experience under the original certificate is lacking or it is deemed advisable by the dean of the college, the director of student teaching and the head of the Department of Elementary Education. A 2.50 grade-point average in professional course work is required to enroll.
- Completion of the above credits does not necessarily constitute qualification for the Bachelor of Science in Elementary Education at The University of Akron. To qualify for the degree, certain additional requirements must be met.

## Certification for Teaching Music

 in the Elementary SchoolAny student who completes a regular four-year program qualifying him for a Four-Year Provisional Elementary Certificate $\ddagger$ may have that certificate validated for teaching music in the elementary school by completing the following courses:

| 7500:497 | Independent Study (Music Student Teaching) | 2 |
| :---: | :---: | :---: |
| 7500:107 | Class Voice | 2 |
|  | or |  |
| 7520:124 | Applied Voice | 2 |
| 7500:151,2 | Music Theory I and If | 6 |
| 7500:154,5 | Music Literature i and II | 4 |
| 7500:261 | Keyboard Harmony I | 2 |
| 7500:340 | General Music | 3 |
| 7500:341 | Wind-Percussion Instrument Techniques | 3 |
| 7500:356 | Music: Teaching Handicapped | 2 |
| 7500:110 | Class Guitar | 2 |
| 7500:497 | Independent Study | 2 |
| 7510:- | Music Organization | 2 |

## Dual Certification Program <br> Elementary and Secondary

This curriculum prepares teachers for both elementary and secondary school. A student completing this curriculum will receive the Four-Year Provisional Certificate to teach in the secondary school and a certificate which will qualify the holder to teach in grades one through eight in the elementary school.

[^23] tion for details.

A student in this program must meet the requirements for elementary education; must complete 5300:310 Principles of Secondary Education and 5200:311 Instructiona/ Techniques in Secondary Schools; and must meet the requirements in the field or fields of teaching at the secondary level in which certification is requested. For advisement in this area contact the head of the department.*

A combination elementary and special education program is offered; see "5610: Special Education."

## 5630: Bilingual Multicultural Education

This program provides education majors with the knowledge, skills and attitudes necessary to teach bilingual students. The program incorporates course work in the history and philosophy of bilingual multicultural education, linguistics, English as a second language instruction, culture and theories and practices for teaching bilingual students language arts reading, mathematics, social studies and science. Students may become certified in bilingual multicultural education at either the undergraduate or graduate levels in conjunction with certification in eiementary education, secondary education, special education or physical education. Students must demonstrate proficiency in English and a language other than English in order to meet the certification requirements of the Ohio State Department of Education
Requirements:

| $3300: 489$ | Serninar in English: Introduction to Bilingual Linguistics |
| :--- | :--- |
| $5630: 482$ | Characteristics of Culturally Different Youth <br> $5630: 484$ <br> Principles of Bilingual Multicultural Education <br> Field experience of bilingual classiooms/settings |
| $5630: 485$ | Teaching Reading and Language Ars to Bilingual Students <br> or |
| $5630: 486$ | Teaching Mathematics, Social Studies, and Science <br> to Bilingual Students |
| $5630: 487$ | Techniques for Teaching English as a Second <br> Language in the Bilingual Classroom |.

## 5300: Secondary Education

The secondary program is for the student preparing to teach in middle, junior and senior high schools. A list of the specific requirements for the various teaching fields will be provided for the student by the college adviser or by the head of the Department of Secondary Education. For information regarding employment in non-school settings which capitalize on a teacher's skills, see the department head

A student must have completed at least eight semester credits in the teaching fields before transterring to the upper college and must have at least a "C" grade in English Composition or its equivalent.

The general requirements for a major in secondary education are as follows:

- General Studies - 39 credits
- Professional courses (courses must be taken in sequence)

| $5100: 150$ | Introduction to Professional Education | 3 |
| :--- | :--- | :--- |
| $5100: 250$ | Human Development and Learning | 3 |
| $5100: 310$ | Educational Media and Technology | 3 |

## Teaching Fields

Each student preparing for secondary school teaching must have at least two academic teaching fields. One field shall be at least six credits more than the minimum required by the Ohio State Department of Education except where the state requirement in the teaching field is 30 credits or more. However, it a student chooses one of the comprehensive or special teaching fields, as listed below, preparation in a second field will not be required.

## Minimum Number of Credits Required for Approval in Various Teaching Fields $\dagger$

intended to produce post-high school teachers in mathematics, physics, chemistry, English or other general education offerings. Graduates of this program would be awarded the degree of Bachelor of Science in Technical Education.
A student may elect other areas when the courses are available and the adviser approves.
The technical education program includes work in four areas: General Studies; the technical specialty; professional education; and occupationa! experience. Specific course requirements may be secured from the Department of Secondary Education or from the advisers in technical education.

## Requirements for Graduation

In addition to the general requirements of the College of Education, a student in technical education must obtain at least a 2.00 average in all major departmental professional courses (5400), all professional education courses and a 2.50 average in all technical courses directly related to the student's teaching field.

## 5550: Physical Education

## 5550: Physical Education*; 5560: Outdoor Education**;

 and 5570: Health Education*.Physical education prepares students for careers in teaching, coaching and related recreation fields, and health education prepares students for careers in teaching and related health fields. Laboratory experiences are provided in local schools, and special programs are provided at the University. Specific experiences include: learning disabilities, movement education, outdoor education, handicapped education, elementary, secondary school education and adult leisure. In addition, the department offers students the opportunities for courses and experiences in athletic training, outdoor education and recreation. All health and physical education programs are applicable to governmental and business recreational situations, but certification is not required for these areas.

## Outdoor Education

The outdoor education program is designed for students in elementary or secondary education, biology, environmental studies, heaith, physical education or recreation. Students may become involved with existing outdoor education programs in the public schools, metropolitan, state and national park programs or private and public agencies which conduct outdoor/environmental education programs.

## 5610: Special Education

This program involves in-depth preparation in the areas of mental retardation, learning disabilities and orthopedically handicapped. The program incorporates courses from secondary education, elementary education, counseling and educational toundations. Components include the General Studies, general professional education, special education studies (the major field), student teaching and related competency studies. Completion of this program enables one to be certified in special education at both elementary and secondary levels for each of the areas of preparation.

## Comprehensive Programs

Three plans for preparation in special education:
Plan A: Dual Certification -- learning disabilities and educable retarded.

| $5610: 201$ | Student Participation: EMR/LD |  |
| :--- | :--- | ---: |
| $5610: 446$ | Developmental Characteristics of Behaviorally |  |
|  | $\quad$ Disordered Individuals | 1 |
| $5610: 495$ | Student Teaching | 3 |
|  | Electivest | $4-8$ |
|  |  | 5 |

Plan B: Dual Certification - educable and moderately-severely-profoundly retarded.

| $5610: 203$ | Student Participation: EMR/TMR |  |
| :--- | :--- | :--- |
| $5610: 454$ | Educational Adjustment for Moderate, Severe |  |
|  | $\quad$ and Protound Mentally Retarded Individuals | 3 |
| $5610: 458$ | Interdisciplinary Programming for MSPR | 3 |
| 5610.460 | Working with Parents of MSPR Individuals | 3 |
| $5610: 495$ | Student Teaching | 8 |
|  | Electivest | i |

Plan C: Dual Certification - educable retarded and orthopedically handicapped.

| $5610: 202$ | Student Participation: EMR/OH | 1 |
| :--- | :--- | :--- |
| $5610: 445$ | Developmenta! Characteristics of Onhopedicaliy |  |
|  | $\quad$ Handicapped Individuals | 3 |
| $5610: 495$ | Student Teaching | 8 |
|  | Electivest | 5 |

In addition, the student must complete the following:

- General Studies - 39 credits.
- Professional education:
$5100: 150 \quad$ Introduction to Professional Education 3
$5100250 \quad$ Human Development and Learning 3
ing
5100:350 Educational Measurements and Evaluation

| 5610:452 | Educational Adjustment for Secondary-Level Exceptional Children | 3 |
| 5610:456 | Classroom Behavior Management for Exceptional Children | 3 |
| 5610:457 | Clinical Teaching Practicum: Children with Learning Problems $\dagger$ | 3 |

[^26]In addition, the student must complete the following

## Combination Special Education - <br> Elementary Education Program

The addition of 18 to 33 special education credits, including student teaching, to the standard elementary education program in lieu of elementary education elective credits will provide the student a special area of preparation in the form of a non-certification minor, or certification minor in the areas of mental retardation, learning and/or behavioral disorders, or in the area of teaching orthopedically handicapped children. Completion of any of these latter minors in the elementary program will lead to a teaching certificate valid in the regular and in a specified special classroom.

## Special Education as a Secondary Teaching Field

The addition of 31 to 36 special education credits, including student teaching, to the professional education courses required of secondary teachers may comprise a second teaching field in mental retardation, learning disabilities or orthopedically handicapped.

Specific program details for the above combinations with elementary or secondary can be obtained from the Department of Counseling and Special Education.

## Speech and Hearing Therapy

A baccalaureate degree certification program in the area of speech and hearing therapy is available to students enrolled in the program prior to fall semester 1983.

Students who entered the program during fall semester 1983, can complete a certification program only as part of a master's degree. Specific program details can be obtained from the Department of Counseling and Special Education and/or the Department of Communicative Disorders.

# College of Business Administration 

James W. Dunlap, Ph.D., Dean<br>Kenneth E. Mast, D.B.A., Assistant Dean<br>E. Lee Wilson, M.B.A./C.M.A., Assistant to the Dean

## OBJECTIVES

The College of Business Administration is a professional college of the University that is dedicated to teaching, business research and public service. The college, a member of the American Assembly of Collegiate Schools of Business, the national accrediting agency for colleges of business administration, offers undergraduate and graduate degree programs during the day and evening.

The purpose of the College of Business Administration is to further the objectives of The University of Akron by providing a quality program of collegiate education in business to prepare the student for a protessional career in commerce, industry and government. This is to be secured with the following aims:

- To instill in the student competence in the basic functional areas of business enterprise.
- To develop in the student an analyticat ability and balanced judgment in the solution of business problems.
- To promote in the student an understanding of human behavior and the impact of social, political and economic forces in the decision-making process.
- Tocultivate in the student a facility for the use of management tools of accounting, quantitative techniques and communications.
- To encourage in the student the development of a business code of ethics.
- To foster in the student a desire to continue the pursuit of knowledge and the achievement of excellence in the area of administration.

Additional objectives of the college are: to act as a service division by offering courses in another college; to serve the business community of the state and region by sponsoring conferences, short courses and management development programs; to foster and encourage research in business; to offer graduate instruction and opportunities for research to the student at the master's level; to prepare the student for entering law school; and to prepare the student for advanced research and study in business and economics.
At The University of Akron there has been a long and eventfui history of education relating to the field of commerce and industry. Beginning in 1919, courses were offered in the Department of Commerce. Eventually the department became the nucleus of the College of Business Administration, which was established in 1953.

Since its inception, the college curriculum has been designed with equal emphasis on broad basic principles as well as immediate practices. Classroom knowledge is consistently made more significant by field trips and inspection tours to witness business operations

Similarly, the college maintains a sound balance between education in the arts, hurnanities and sciences and professional business courses. Half of the courses of study at the undergraduate level are in the areas of liberal arts and sciences; the remaining courses are divided between general business subjects and the student's indicated area of specialization.

## COLLEGE REQUIREMENTS

#### Abstract

Requirements for Admission The college will accept the student who has completed sufficient course work to indicate possession of the necessary ability and desire to earn a business administration degree. The number of credits to have been completed will vary from student to student, but will be at least 45 credits with a 2.30 overall grade-point average at the time of acceptance. Enrollment in upper-college business courses is limited to a student who has done the following:* - Applied for transter to the college. - Successfully compieted at least 60 credits. - Earned at least a 2.30 overall grade-point average required tor acceptance and at least a 2.00 grade-point average in business administration and economics courses.

## Cooperative Education Program

A student may voluntarily participate in the University-wide Cooperative Education Program.
The requirements are as follows:

- Attain college admissions status.
- Complete 3250:201,2 and 6200:201.2 with at least a 2.00 grade-point average.
- Apply for participation in the program through the University's director of Cooperative Education.

Three employment experiences are required, with no more than one work period in a summer. The work experience must relate to the business administration area.

## Transfer of Courses and Advanced Standing

For courses taken outside of the University College or the College of Business Administration to be accepted as part of an approved program of study in lieu of coliege and departmental requirements, the courses to be transferred must be of an equivalent level. The College of Business Administration will consider the following in granting credit: the content, complexity and grading standards of courses taken elsewhere and the suitability of courses taken elsewhere for the program of study chosen here. A grade of at least " $C$ " must have been earned in pre-business accounting and economics course work for transter consideration. Subject matter reserved for junior- and senior-level courses in this college will not be transferable through courses taken in any two-year institution. All work transferred may be subject to examination to validate credits.

## Degrees

The College of Business Administration, organized on a departmental basis, offers programs of study in accounting, finance, management and marketing. Five baccalaureate degrees are offered: the Bachelor of Science in Accounting, Bachelor of Science in Business Administration, Bachelor of Science in Industrial Management, Bachelor of Science in Business Administration/Finance, the Bachelor of Science in Business Administration/Marketing, and the Bachelor of Science in Business Administration/Advertising.

[^27]
## Requirements for Graduation

To receive a baccalaureate degree from the College of Business Administration, a student must meet the following requirements

- Complete a minimurn of 128 semester credits with a minimum 2.00 grade-point average. Not more than one credit of physical education may be included.
- Obtair at least a 200 gָrade-point average ir all courses in the major as well as in all courses in business administration and economics.
- Obtain the recommendation of the department head.
- Complete other University requirements listed in Section 3 of this Bulletn
- General Studies - 36 credits. ${ }^{*}$
- Complete the following courses:

| $3250.20^{*}$ | Princicies of Macroeconomics | 3 |
| :---: | :---: | :---: |
| 3250:202 | Principles of Microeconomics | 3 |

## Minor Areas of Study

For an explanation of minor areas of study in the College of Business Administration, see Section 5 of this Bullefin.

## PROGRAMS OF INSTRUCTION

## 6200: Accounting

The functions of accounting are essential to the decision-making process in commerce, industry and government. Because of the important role it plays in economic affairs, accounting has attained the professional status of law and medicine.

[^28]The three major fields of employment for accountants are public, private and governmental accounting. Regardiess of the areas of concentration, standards, ethics and the mastery of accounting concepts and procedures are essential. An accounting graduate who chooses public accounting may become a senior, manager, principal or partner in public accounting firms. A student who chooses an accounting career in private industry may hold the position of accountant, cost accountant, senior accountant, budget director, internal auditor, treasurer or controller. Federal, state and local governments provide a wide variety of job opportunities at the professional level for well-educated accountants. There are exceptional opportunities for professional advancement regardless of the type of institution a graduate may choose.

The accounting curriculum is designed to prepare the student for professional service, including sitting for the uniform certified public accounting examination and other professional accounting examinations and to prepare the student to undertake advanced study. To receive the Bachelor of Science in Accounting degree, a student must complete the college requirements and the following departmental requirements:

|  |  | Credits |
| :--- | :--- | :---: |
| $6200: 301$ | Cost Accounting | 3 |
| $6200: 317$ | Intermediate Accounting I | 4 |
| $6200: 318$ | Intermediate Accounting II | 4 |
| $6200: 430$ | Taxation I | 4 |
| $6200: 440$ | Auditing | 3 |
| $6200: 454$ | Information Systems | 3 |
| Six aqcitional credit of courses in accounting (6200), moluding at least three credits from |  |  |
| the following: |  |  |
| $6200: 420$ | Advanced Accounting | 3 |
| 6200.431 | Taxation II | 3 |
| $6200: 460$ | Controllership Problems | 3 |
| And at least three credits from: |  |  |
| $6200: 420$ | Advanced Accounting | 3 |
| $6200: 425$ | Current Developments in Accounting | 3 |
| 6200.431 | Taxation II | 3 |
| 6200.460 | Controllership Problems | 3 |
| $6200: 470$ | Governmental and Institutional Accounting | 3 |

Communication skills are vital, so a major is urged to take 3300:275, Specialized Writing in Business, and to participate in the Student Toastmasters organization. Because of the increasing demand for accountants with a knowledge of computer usage, additional courses in mathematics and computer science are strongly recommended. A major preparing for an industrial accounting career should take electives in management.

## 6400: Finance

Courses in the Department of Finance are designed to develop a stu dent's ability to gather, organize, analyze and utilize financial data. This requires that the student be familiar with the institutional setting in which firms operate, and, within this framework, they must understand the present state of financial theory, its uses and limitations. When a student majors in finance, the goal is not a specific entry job but rather a state of readiness to provide flexible response to new areas of opportunities in the financial area

Career opportunities exist in three major fields. The financial management of non-financial institutions area offers employment in profit as well as nonprofit firms where the emphasis is on the uses and sources of financial funds. The area of management of financial institutions offers opportunities to those who choose careers in commercial banking and other credit-granting institutions. Those interested in investments management find opportunities with brokerage firms and specialized departments in many financial as well as non-financial organizations. In most cases it is not possible to select direct entry at a level one desires; on-the-job training is required in allied fields. It is for this reason our suggested preparation is broad in scope.

The finance major must complete four required major courses with a minimum grade of " $C$ " (2.00) in each required course:

| Core: |  |  |
| :--- | :--- | :--- |
| $6400: 338$ | Financial Intermediaries | 3 |
| 6400.343 | Investments | 3 |
| $6400: 479$ | Advanced Business Finance | 3 |
| $6400: 373$ | Financial Statement Analysis | 3 |
| $6200: 317$ | or |  |
|  | Intermediate Accounting 1. | 4 |

The finance major must also select at least four elective courses (two must be 6400 courses) totaling at least 12 credits from the following list:

| $6400: 400$ | Real Estate Principles: A Value Approach | 3 |
| :--- | :--- | ---: |
| $6400: 401$ | Real Estate Investment | 3 |
| $6400: 402$ | Income Property Appraisal | 3 |
| $6400: 403$ | Real Estate Finance | 3 |
| $6400: 318$ | Risk Management and Insurance | 3 |
| $6400: 351$ | Financial Decision Making | 3 |
| $6400: 417$ | Lite and Health Insurance | 3 |
| $6400: 419$ | Property and Liability Insurance | 3 |
| $6400: 432$ | Personal Financial Planning | 3 |
| $6400: 436$ | Commercial Bank Management | 3 |
| $6400: 447$ | Security Analysis | 3 |
| $6400: 475$ | Commercial and Consumer Credit Management | 3 |
| $6400: 481$ | International Business Finance | 3 |
| 6400.497 | Honors Project | $1-3$ |
| $6200: 301$ | Cost Accounting | 3 |
| $6200: 318$ | Intermeliate Accounting II | 4 |
| $6200: 460$ | Controllership Problems | 3 |
| $6200: 340$ | Taxation I | 3 |

Total credits for a finance major - eight courses with 24 to 27 credit hours minimum depending on how many four credit courses taken.

## 6500: Management

The University of Akron was one of the first institutions of higher learning to establish an industrial management curriculum. Important factors in the decision to establish such a program were the location of the University in a major industrial area and the recognition of an emerging educational need.

The emphasis on education for management is the result of several factors. First, managers are becoming increasingly aware that a professional approach to management requires understanding of quantitative methods and the behavioral sciences. Second, the management task is becoming much more complex in terms of the number of activities, volume of work and the broader impact of managerial decisions. Third, the practice of management in any setting requires a measure of specific preparation and qualification.
Events of the past several years have brought about a rapid and sweeping change in the business and industry of our society. The major in industrial management recognizes the unique directional problems of the firm involved in manufacturing producers' goods.
The graduate with an industrial management degree finds many employment opportunities with industrial firms in staff, supervisory and other management positions. The graduate possesses, in addition, the required basic understanding for effectively managing facilities, equipment and personnel in a variety of activities such as transportation, warehousing, research or institutional management. Also, the graduate has the fundamental preparation to undertake advanced study leading to a master's degree.

Departmental philosophy decrees that the student entering the field of management will have a solid basic liberal background within the framework of the management curriculum.
To receive the Bachelor of Science in Industrial Management with a major in management, a student must complete the college requirements and an option. The common departmental requirements are as follows:

| $6500: 331$ | Production and Systems Management | 3 |
| :--- | :--- | :--- |
| $6500: 332$ | Production and Operational Management | 3 |
| $6500: 341$ | Personnel Management | 3 |

[^29]| And one of the following: |  |  |
| :--- | :--- | :--- |
| $6500: 471$ | Management Problems | 3 |
| $6500: 472$ | Management Problems-Production | 3 |
| $6500: 473$ | Management Problems-Personnel | 3 |

The student, then, must select one of the options listed beiow:

## Production Option

6500:433 Business Operational Planning 3
$6500.434 \quad$ Production Planning and Contro

## Personnel Option

6500:342 Fersonnel Relations 3

6500:443 Advanced Personnel Management 3

## Industrial Accounting Emphasis

The industrial accounting emphasis jointly administered by the Department of Accounting and the Department of Management is designed to benefit the student who may wish to pursue a career in the field of accounting but does not wish to become a CPA. The courses selected are those which will furnish the student with a background in the operational management of production activities as well as in the accounting and budgeting procedures utilized in the control of these activities. The curriculum leads to the Bachelor of Science in Industrial Management degree.
The student selecting the industrial accounting emphasis must successfully complete the college requirements and the following courses:

| $6200: 301$ | Cost Accounting | 3 |
| :--- | :--- | :--- |
| $6200: 355$ | Accounting Information Processing | 3 |
| or |  |  |
| $6500: 323$ | Introduction to Computer Applications for Business | 3 |
| $6200: 460$ | Controllership Problems | 3 |
| $6500: 331$ | Production and Systems Management | 3 |
| $6500: 332$ | Production and Operational Management | 3 |
| $6500: 34:$ | Personnel Management | 3 |
| $6500: 433$ | Business Operational Planning | 3 |
| $6500: 434$ | Production Planning and Control | 3 |
| Recommenceo electives: |  |  |
| 6200.317 | Intermediate Accounting I | 4 |
| $6200: 318$ | Intermediate Accounting II | 4 |

## 6600: Marketing

The chief marketing executive in the firm is responsible for sustaining customer acceptance of the firm's products and services, and for finding new opportunities for the firm through the development of new and improved products and services; effective advertising and other communications programs; efficient physical distribution of the firm's products and services so that they are accessible to present and prospective users: and pricing of the firm's offerings. The marketing executive is also responsible for organizing the various functions involved in the marketing effort. The executive attempts to allocate the resources of the firm for maximum impact in the markets which the executive feels are most profitable in order to provide the firm with a high and continuing flow of money income.

The marketing curriculum is designed to provide the student with the basic understanding and insight required for the successful performance and management of the marketing activities of either profit-making or nonprofit organizations. It is also organized to provide the student who has an interest in a specific area of marketing study with alternative approaches to marketing knowledge by means of five specific marketing tracks and one general marketing studies option. The marketing tracks are:

```
Industrial Marketing }\quad\mathrm{ Marketing Communications
Retail Marketing Physical Distribution
```

International Marketing

The general marketing studies option allows the student to tailor the curriculum to individual needs, to engage in an exploratory study which will provide the basis for future studies, to facilitate access to a wider range of entry-level employment opportunities or to enable the student to relate the curriculum to the needs of a small or family business.
To receive a Bachelor of Science in Business Administration/Marketing the student must successfully complete 18 credits in one of the five marketing tracks or the general marketing option as follows:

| Industrial Marketing Track |  |
| :--- | :--- |
| Required: |  |
| $6600: 360$ | Industrial Marketing |
| $6600: 370$ | Purchasing |
| $6600: 380$ | Sales Management |
| $6600: 460$ | Marketirig Fesearch |
| Electives. |  |
| 6600:320 | Physical Distribution |
| $6600: 390$ | Management of Marketing Channels |
| $6600: 440$ | Proauct Plarining |
| $6600: 465$ | Forecasting and Quantitative Methods in Marketing |

## Retail Marketing Track

Required:
6600310 Buyer Eehavior
6600340 Retail Management
6600:460 Marketirg Research
Electives:*
62.00 .301

6600350
6600380
6600390
6600465
Advertising and Marketing Communications
Sales Managemen
Management of Marketing Channels
Forecasting and Quantitative Methods in Marketing

International Marketing Track
Required
6600385 International Marketing 3
6600:460 Marketing Research
6800405 Multinatınal Corporations
Electives:'
3250:450 Comparative Economic Systems

6600:340
$6600: 380$
6600440
6600465
Buyer Behavior
Advertising and Marketing Communications
Promotional Campaigns
Marketing Research

Retail Management
Sales Managernent
Product Planning
Forecasting and Quantitative Methods in Marketing

## Physical Distribution Track

Required:
6600 .320 Physical Distribution
6600:420 Logistics Systems Analysis
6600:460 Marketing Research
Electives'
6200.301

Industrial Marketing
Purchasing
Management of Marketing Channes
6600.465 Forecasting and Quantitative Methoos in Marketing

## General Marketing Studies Option

Any 18 credits from the 6600 listings, including one departmental requirement of 6600:460 Marketing Research will complete the general marketing studies option.

To further guide the student, the department has available a brochure detailing the program, career opportunities and electives from other colleges and departments recommended for and tailored to each of the tracks.

In addition. three credits of 6600:490 Workshop in Marketing, 6600:495 Internship in Marketing $6600: 497$ Honors Project or 6600.499 independent Study in Marketirg may be substituted for any one option with the permission of the department head

## Bachelor of Science Degree in Business Administration/ Advertising

This degree shali consist of a minimum of 37 semester credit hours of General Studies courses, 29 semester credit hours of Pre-Business courses (seven credit hours from General Studies are double counted in Pre-Business), 29 semester credit hours in the College of Business Administration Core, 18 semester credit hours of the Advertising Major Core, 12 semester credit hours trom the advertising major electives, plus free electives needed to complete the minimum 128 semester credit hours necessary for graduation from the University,
Advertisting majors must satisfy the Universily Social Science requirements and the College of Business Administration Behavioral Science requirements as follows:

| 3250:201 | Principles of Macroeconomics | 3 |
| :---: | :---: | :---: |
| 3870:150 | Cultural Anthropology or | 4 |
| 3850:100 | Introduction to Sociblogy and | 4 |
| 6600:310 | Buyer Behavior | 3 |
| Core for Advertising Majors consists of 18 hours as follows: |  |  |
| 6600:350 | Advertising and Marketing Communications | 3 |
| 7100:180 | Fundamentals of Graphic Design | 3 |
| 7600:405 | Media Copywriting | 3 |
| 7600.280 | Media Production Techniques | 3 |
| 6600.425 | Advertising Research and Evaluation | 3 |
| 6600.430 | Promotional Campaigns | 3 |

In addition to the 18 semester credit hours in the advertising major core, the student must take an additional 12 credit hours to be selected by the student from a list of prescribed electives.
The grouping of electives suggests that the student may pursue some specific area of interest. However, courses in the form of specific tracks are not required.

| Graphic Electives: |  |  |
| :---: | :---: | :---: |
| 7100.286 | Commercial Design Theory | 3 |
| 7100:288 | Letterform and Typography | 3 |
| 7100:387 | Advertising Layoul Design | 3 |
| 7100:388 | Advertising Production Design | 3 |
| Writing Electives: |  |  |
| 3300.279 | Scripl Writing | 3 |
| 3300:390 | Protessional Writing | 3 |

6800:405 Multinational Corporations

# College of Fine and Applied Arts 

Kelvie C. Comer, Ed.D., Acting Dean John D. Bee, Ph.D., Acting Assistant Dean

## OBJECTIVES

The purpose of the College of Fine and Applied Arts is to further the objectives of the University by providing a quality program of undergraduate and graduate education in the artistic, technological, clinical and studio experience in speech, the dramatic arts, music, social welfare, the visual arts and the family-life arts, as well as:

- To maintain curricula for the preparation of a student majoring in these areas
- To prepare a student for graduate study and career opportunities on a profession al competence level
- To provide instruction designed to meet specitic curricular needs of all the colleges of the University.
- To serve the elective interests of the student seeking diversity enrichment in academic programs.
- To encourage the development of technical knowiedge and professional skills which underiie the communicative functions of human expression.
- To nurture and expand, through this congregation of the arts, not only a knowledge of man's creative and culturai heritage but also a perceptual and aesthetic awareness of direct sensory experience through creation and performance

The college recommends each student for the appropriate bachelor's or master's degree in accordance with the student's specialization.

## COLLEGE REQUIREMENTS

## Requirements for Admission

To be admitted to the College of Fine and Applied Arts, the student must have completed at least 30 credits of work with at least a 2.00 grade-point average or above and have the approval of the dean. A student transterring to the Department of Art from another institution must submit a portfolio of work for approval before admission. A student transferring from another college or institution into the music program must submit to a placement exarnination. The longer and more professionatly oriented majors should be started during the first or second year when the student is still under the guidance of the Office of Academic Advising. The shorter majors need not be declared before the student is ready for transfer to the college.

## Requirements for <br> Baccalaureate Degrees

- Compliance with University requirements, Section $\mathbf{3}$ of this Bulletin.
- Electives consisting of courses offered for credit in the University's four-year degree programs, provided that the prerequisites as set forth in this Bulletin are met, and further provided that not more than two credits of physical education activities, eight credits of applied music or four credits of music organizations are included. (Credit limitations on appled music and music organizations do not apply to the Bachelor of Music degree.) While creaits from another institution or college mav be accepted. application toward graduation will depend upon the nature of the student's program of study.
- The recommengation of the head of the studentis major department
- Demonstrated ability to use English. One other language depending upon the degree program

## Degrees

The following baccalaureate degrees are granted in the College of Fine and Applied Arts

## Bacheror of Arts

Bachnor of Arts a Eusiness ared Organizational Comenuricat:m
Bachelor of Arts in Commumication and Pheloric
Bacnelor of Arts in Communicative Disoruers
Bachelor of Arts in Fannily ano Child Development
Bachelor of Arts in Foods and Nutrition
Bacheior of Arts in Gencral Speech
Bacheior u: Ats in Nass Medta Communication
Bachelor of Arts in Textiles and Clotning
Bachelor of Arts in Theatre Arts
Bacheior of Arts. Social Work
Bachelo: of Fine Arts
Brohedor of Music
Bacheior if: Scuence in Dietetics

## Graduation Requirements

A student must earn a major in a department of the college. A major consists of 24 to 62 credits in addition to the required Generai Studies and. in the case of the Bachelor of Arts degree, foreign language courses. Part or all of these credits may be taken in specifically required courses depending upon the major. The exact requirements for each major will be found on the following pages in the section headed "Programs of Instruction." At the time of admission to the college. the student is assigned an adviser by the department head.

## Minor Areas of Study

For an explanation of minor areas of study in the College of Fine and Applied Arts, see Section 5 of this Bulletin.

## PROGRAMS OF INSTRUCTION

## 7100: Art

## Bachelor of Arts

- General Studies and completion of a second year of a foreign language - 53 credits.
- Completion of studio art or history of art option
- Electives - 23-25 credits

## Studio Art Option

- Studio ari course work inciuding one course in each of six different areas of emphasis: eg. printmaking. sculpture -41 credits.
- Survey of His/ory of Art $/$ and $/ /(7100: 100.1)$ plus cne additional advanced-level art history course - 11 credits

## History of Art Option

- History of art including one history of art semmar, one special problems in history of art course and one special topics iri history of art course 7100.100 .1 Survey of History of Art (eight credits) included -. 38 credits
- Studio art course work to include at least four different areas of emphasis: e.g painting. photography ( $7100: 275$ recommended) -12 credits.

Bachelor of Fine Arts

- General Studies - 39 credits.
- Foundations Curriculum in Art

## Bachelor of Science in Dietetics

Both the Coordinated Undergraduate Program (CUP) and the traditional program in general dietetics lead to a Bachelor of Arts degree. The Coordinated Undergraduate Program integrates clinical experiences within the junior and senior years, allowing American Dietetic Association membership and eligibility to take the registration examination after graduation from the four-year program. The traditional program requires an approved internship following graduation (or an advanced degree) to become eligible for membership in the American Dietetic Association and to take the registration examination.

## Basic American Dietetic Association Requirements for Coordinated Undergraduate and Traditional Dietetics Programs

| $2420: 211$ | Basic Accounting I |
| :--- | :--- |
| $6200: 201$ | Accounting । |
| $3100: 130$ | Principles of Microbiology |

| $7700: 450$ | Introduction to Speech and Hearing Diagnostics | 3 |
| $7700: 451$ | Clinical Practicum: Hearing Diagnosis | 1 |

- Electives - 22 credits.

More than forty percent of the practicing therapists in the field of Communicative Disorders are working in public school settings. A therapist must be certified by the Ohio State Department of Education in order to work in the public schools. Therefore it is recommended that undergraduate students complete the requirements for educational certification, except for student teaching which can only be taken at the graduate level. These requirements can be taken as electives. Each student should consult with an adviser about this option. Students enrolling in clinical practicum must have a grade point average of at least 2.50 in major field course work plus grades of " C " or better in specific prerequisite classes for each practicum.

## 7750: Social Work

## Program Description

The social work curriculum is an accredited undergraduate program preparing students for entry-level professional practice in health, mental health, mental retardation, family service, public welfare, corrections, juvenile justice, child welfare, aging and in alcohol and drug abuse, community action and development, and human relations.
Programs can be designed for the student wishing to prepare specifically for practice in the above-mentioned areas. Students will also be prepared for entry into graduate schools of social work for completion of the Master of Social Work Degree.

The Bachelor of Arts degree with a major in social work requires completion of two years of a foreign language (Spanish is recommended). The Bachelor of Arts in Social Work degree does not require a language. It requires some additional course work in social work and the social sciences.
Curricula have been developed so that students completing the two-year associate degree programs in Community Services Technology ( $C \& T$ ) and Social Services Technology (WGTC) with social services emphasis programs can complete either the BA or BA/SW four-year curriculum in social work with two additional years of course work. Similarly, curricula have been developed so that students completing the two-year associate degree program in criminal justice technology can complete either the BA or BA/SW four-year curriculum in social work in the two additional years' course work.

[^32]Certificate programs can be designed in Afro-American Studies, LifeSpan Development: Adulthood and Aging; Gender Identity and Roles.

## Bachelor of Arts

- Completion of the General Studies and the second year of a foreign language -53 credits.*
- Social Work courses:

## 7900: Dance

## Bachelor of Fine Arts**

The dance major is designed for the student who wishes to pursue professional training in dance for the Bachelor of Aris degree. It is expected that the student will be able to work as a performer or teacher on a professional level upon completion of the degree.
Admission to the program is by audition only.
Every student must pass a sophomore jury in ballet technique at the completion of two years of study to be admitted to upper-division standing in the dance area. All students are required to study ballet technique every semester they are enrolled and to complete two semesters of Ballet Technique $I V$ for graduation.

- General Studies program and second year of a foreign language --53 credits.
- Required dance courses:

| 7900:116.7 | Dance Analysis I, il | 4 |
| :---: | :---: | :---: |
| 7900122.222 | Ballet Technique I, II | 20 |
| 7900:229 | Contemporary Technique 1 | 6 |
| 7900:316.7 | Choreography I, If | 4 |
| 7900:320 | Dance Notation | 2 |
| 7900:322,422 | Bailet Technique If, IV | 20 |
| 7900:329 | Contemporary Dance Technique | 6 |
| 7900:416 | Choreography Ilf | 2 |

| 7900.424 | 20th Century Dance | 2 |
| 7900.425 | Development of Ballet | 2 |
| 7900:426.7 | Techniques of Teaching Ballet 1,11 | 4 |

- Sophomore Jury taken by all majors at the completion of two years' study.
- Electives (with approval of adviser) -- 15 credits.
- All candidates for the B.A. degree will be required to earn at least tive credits of 7910: Dance Organization.
${ }^{* *}$ The student in B.A. in theatre and B.A. in dance program substitutes a related sequence of 14 additional credits either from departmental offerings or offerings of other departments. approved by adviser for the second year of a foreign language

# College of Nursing 

Lillian J. DeYoung, R.N., Ph.D., Dean<br>Phyllis A. Fitzgerald, R.N., Ph.D., Assistant Dean,<br>Undergraduate Programs<br>A. Jeanne Hoffer, R.N., Ed.D., Assistant Dean, Graduate Programs<br>Barbara E. Brown, R.N., Ed.D., Assistant Dean, Continuing Education

## PHILOSOPHY

The College of Nursing,* an integral part of The University of Akron, accepts the responsibility for promoting the general mission of the University, which is the dissemination and pursuit of knowledge, the nurturing of intellectual curiosity, the search for truth and a conscious effort to serve the (nursing) student in the urban community.
The primary focus of professional nursing is man; a complex. holistic being having physiological, psychosocial, spiritual and cultural dimensions. Man is unique and universal. Man is further defined as a thinking, interacting, adapting, valuing being constantly in the process of becoming and whose goal is self-actualization. Man is an ecological being who affects and is affected by the total environment. The individual is a part of a diverse and dynamic society which possesses structure. As such, man functions as a facilitator of thoughts, values beliefs, attitudes and actions which affect the health-care system.
Health is viewed as a purposeful adaptive response to internal and external stimuli in order to maintain stability. Diminished healih is viewed as a disturbed adaptive response which results in disequilibrium and inability to utilize effectively the usual health-promoting resources. Health and the various degrees of health are viewed as a continuum Quality health care is the right of individuals, families, groups and communities. Consumers of health care are participants in the decisions which affect their status on the health/diminished health continuum

The goal of the professional nurse is to assist individuals, families, groups and communities to attain, maintain and/or regain an optimal level of health and to be supportive when optimal levels of health can no longer be achieved. Professional nursing practice is germane to any setting where health maintenance or support is a goai
The professional practitioner utilizes the nursing process as a series of progressive steps which unite nursing action with critical thinking, integration of knowledge and decision making. This process is a dynamic methodology which is scientifically based and goai-directed with feedback mechanisms in the form of continuous evaluation and modification. The professional nurse utilizes theories and research from nursing and other disciplines to add to the body of nursing knowledge and to improve health-care services to clients. The professional nurse is accountable to clients and colleagues in the health professions and accepts responsibility for quality nursing care in any environment.
The emerging role of the professional nurse includes the exercise of social responsibility and independence in decision-making processes which affect the delivery of rursing care within the existing and changing social system. An important dimension of the emerging role of the professional nurse is to support the client who assumes the responsibility for making those decisions necessary for optimal health.
The faculty views general education at the baccalaureate level as the base for rational thinking, which provides the student with an inquiring approach to life and self with an opportunity to become a contributing member of the community.

[^35]Baccalaureate nursing education provides opportunities for a student to apply concepts, knowledge and skills from the biologic, social, behavioral sciences and nursing science to professional practice. This education prepares a generalist who is capable of practicing in any environment and provides a foundation for research, continued study and leadership. Research is viewed as a quest for new knowledge pertinent to an identified area of interest through the application of the scientific process. Leadership is viewed as the ability to facilitate the movement of a person, group, family or community toward the establishment and attainment of a goal.
The faculty defines education as a life-long process which implies that the concept of learning is an essential part of the educational process. The student and faculty work in concert to achieve learning goals. The student is self-directed in meeting learning goals. Both faculty and students have a responsibility to collaborate in the planning, implementation and evaluation of the education program.
It is the faculty's responsibility to facilitate an environment conducive to learning. A student has varied experiences and needs, therefore, the educational program must make provisions for the learner's individuality which includes variable progression and opportunities to practice new behaviors. The faculty recognizes that positive reinforcement motivates learning and, therefore, endeavors to design experiences with expectaions for success.

## OBJECTIVES

The undergraduate program in nursing is designed to prepare the graduate to do the following:

- Utilize the nursing process to move the client toward a higher level of functioning. to maintain stability, to restore equilibrium and/or to be supportive when optimal levels of health cannot be achieved.
- Initiate and/or adapt to changes affecting the health-care system.
- Accept responsibility for own nursing interventions and be accountable to clients and colleagues in the health professions for nursing practice.
- Demonstrate personal growth by participating in self-directed learning activities.
- Utilize relevant nursing theories and concepts from the physical, biological, social and behavioral sciences in the application of the nursing process.
- Utilize political, cultural and social processes to affect the heath of man and the environment.
- Utilize research findings to promote the practice of nursing and to extend nursing research
- Uthize leadership skills tor the advancement of professional nursing and heaith care.
- Share in the responsibility for optimal health care of clients by collaborating. consulting and coordinating with clients and members of the health team.
- Clarify own values in relation to nursing practice.
- Utifize concepts from human ecology in the practice of nursing.

## REOUIREMENTS

## Admission

Four ciassifications of students will be considered for admission to the college: a) the generic student (entering freshman), b) the registered nurse, c) the postbaccalaureate student and d) the transfer student from other colleges and universities. A transfer student may receive credit for quality work earned in approved colleges. Enroliment of a transfer student is contingent upon availability of University facilities and an assessment of the sufficiency of prior academic work. Transfer course grades shall be taken into account in placing students in rank order for admission purposes.
A registered nurse (RN) who receives preparation in hospital or associate degree programs is evaluated individually. An RN student is expected to
meet the same course requirements as the generic student ana those of The University of Akron. In addition, anatomy and physiology and microbiology must have been completed within the past 10 years at the time of admission to the College of Nursing. This 10 year limit applies to all students.

A student who wishes to be considered for admission must meet the following requirements:

- Complete all University College requirements and College of Nursing prerequisites by the end of spring semester of the sophomore year.
- Have a 2.50 grade-point average or higher.
- All grades of transfer work will be combined with those earned at The University of Akron in the computation of a GPA for admission ranking purposes to the Coliege of Nursing

All applicants will be considered at once and will be selected each spring. Generic student applicants will be ranked in order from the highest gradepoint average (GPA) to 2.50. Transfer student applicants with a combined GPA of 2.75 or above (University of Akron grades plus transter grades) will be ranked in order along with generic students. Transfer student applicants with a combined GPA between 2.50 and 2.7499 will be admitted if openings still exist. Having a GPA of 2.50 will not guarantee admission to the college. A student will be notified of provisional admission to the College of Nursing prior to fall scheduling requirements and will be given final approval at the end of spring semester.
Of students selected, one half will begin in the summer with the other half beginning in the fall. The program consists of four academic years and one semester. Students admitted to the college in the summer would complete the program (five semesters) for graduation in May, and those entering fall semester would complete the program (five semesters) for graduation in December. An active alternate list of students will be selected to take the place of students who choose not to continue.
Applications for the college are only effective for the current academic year.
Acceptance of the student into the college is the responsibility of the dean in consultation with the dean of the University College and the Admissions Committee of the College of Nursing. Admission to the program in nursing does not guarantee the student's placement in the nursing courses at the time the student may wish to pursue them. The college reserves the right to approve admission to those individuals whose abilities, attitudes and character promise satisfactory achievement to the college objectives.

## Continuation in the Baccalaureate Program

A student must achieve a grade-point average of 2.30 or higher on a 4.00 scale in the nursing major. A student receiving a "D+" or "F" in any nursing course will be required to repeat the course. The student may repeat the course only once.

The following policies must be adhered to by all students once they are admitted to the baccalaureate program:

- Obtain a two-year liability insurance policy prior to July 15 and maintain the policy throughout the program.
- If a licensed nurse, provide a copy of valid Ohio nurse's license.
- Complete necessary immunization requirements prior to July 15 .
- Complete CPR (cardiopulmonary resuscitation) certification prior to or concurrent with 8200:300 (if registered nurse 8200:305).
- Maintain a current CPR certification throughout the program.

Evidence of completion of these requirements will be submitted to the records coordinator prior to July 15 , otherwise course registration will be closed.

## Reapplying to the College of Nursing

Students seeking re-enrollment must submit their request by mid-term prior to the semester desired by writing to the Student Admissions, Pro-
gression and Graduation Committee. The letter must include the student's social security number, the reasons for withdrawal and the date of desired re-entry. The committee will evaluate the situation and communicate the decision to the student by letter.

## Probation and Retention

A student must achieve and maintain a grade-point average of 2.30 or higher on a 4.00 scale in the nursing major. A student who fails to maintain the 2.30 average will be placed on probation. Failure to raise the average to 2.30 in a period of one semester or one 10 -week summer session will result in dismissal from the program.
A student receiving a " $D$ " or " $F$ " in any clinical nursing course (theory and/or practice) will be required to repeat the course. A student may repeat the course only once.

Upon completion of the repeated course, the student shall withdraw from the college if a grade of 2.30 is not attained. The student may not apply for readmission for at least one semester.

A student may be on probation only once in the College of Nursing, and the academic probation period is to be no longer than one semester, or one 10 -week summer session.

## Requirements for Graduation

- Complete all University requirements as listed in Section 3 of this Bulletin.
- Complete a minimum of 131 semester credits for the degree and earn a minimum of 2.30 grade-point average in the nursing major and a 2.00 grade-point average for all collegiate work attempted at The University of Akron.
- Complete all courses required in the Program of Study for Nursing Students.
- Complete the last 32 credits in the baccalaureate program at The University of Akron.
- Complete all requirements which were in effect at the time of transfer to the College of Nursing.

# Northeastern Ohio Universities College of Medicine 

## HISTORY AND PURPOSE OF THE COLLEGE OF MEDICINE

The Northeastern Ohio Universities Coilege of Medicine was created by an act of the 110 th General Assembly of Ohio and was officially established as a new public institution of higher learning on November 23, 1973. The college is governed by a board of trustees appointed by the boards of trustees of The University of Akron, Kent State University and Youngstown State University. All three universities are accredited by the North Central Association of Colleges and Secondary Schools. The coliege is presently classified as a "Medical College of Development" by the Association of American Medical Colleges and the Council on Medical Education of the American Medical Association. The college was established to provide new opportunities in medical education by preparing well-qualified physicians who are oriented to the practice of medicine at the community level, especially primary care and family medicine.

## ADMISSION

High school seniors and recent high school graduates, having demonstrated appropriate academic competence and motivation toward a career in medicine, will be considered for admission into year one of the program. These students, who have not attended college, should write to the Otfice of Admissions, The University of Akron, Akron, OH 44325 for application forms. Complete application indicating interest in the Phase 1 , BS/MD Program and return prior to December 31
Other applicants with a conventional college background, including premedical requirements and at least three years of college-level work, will be considered by the college for admission to Phase ll (year three of the program). These students should contact the Coliege of Medicine, Rootstown, OH 44272, for application to Phase II, or year three of the six-year progiam. Applicants to Phase II should have taken the new MCAT test by May.

## PROGRAM

The curiculum* requires that the student be enrolled for 11 monihs in each of six academic years. The first two years (Phase l) are spent on one of the university campuses. The course work during this period focuses chiefly on studies in the humanities and basic premedical sciences but will also include orientation to clinical medicine. Progress through Phase I will be based on acadernic pertormance and deveiopment of personai maturity appropriate to assumption of professional responsibility. The Phase I Academic Review and Promotion Committee, including University and college faculty, will assess these factors and will recommend the Phase I student for promotion and formal admission to Phase II, or the third year of the program.

The third year of study is devoted primarily to the basic medical sciences, e.g., anatomy, physiology, microbiology, etc., and will be conducted at the campus in Rootstown
In years four, five and six, the student will develop competence in the clinical aspects of medicine through instruction provided principally at one or more of the associated community hospitals. The student will return to the University campus for part of one term in each of these last three years to complete the requirements for the Bachelor of Science degree at that university by enrolling in courses in the humanities and social sciences.

Successful completion of the six-year program leads to the award of the Bachelor of Science degree by one of the universities and the Doctor of Medicine degree by the College of Medicine.

## COST

Normal undergraduate fees will be assessed for years one and two. Fees for years three through six are set by the College of Medicine Board of Trustees and are commensurate with those at publicly supported medical schools elsewhere in this state

## LOCATION

[^38][^39]
# University Honors Program 

Arno K. Lepke, Ph.D., Master

## INTRODUCTION

The University of Akron's Honors Program is designed to recognize and to support the highly motivated and achievement-oriented student in any major program. To help the participant discover potential capabilities and sense of direction this unique learning experience emphasizes a close student-faculty relationship.

## ADMISSION

The requirements for admission to the University Honors Program are as follows:

- A high school grade-point average of 3.50 or better.
- Scores on the Schoiastic Aptitude Test (SAT) or American College Test (ACT) which place the applicant in the 90th percentlle or higher of freshman college norms in the field of interest.
- An interview with a member of the University Honors Council.
- Enrollment in a baccalaureate degree program.

For information on the annual deadline for applications cail (216) 3757423 or the Office of Admissions (216) 375-7100.

## PROGRAM

## General Studies

An honors student is not required to complete the General Studies except for physical education. Instead, each student completes an individualized distribution requirement which includes a balanced amount of diversified course work in the humanities, the social sciences and the natural sciences. The major objective of this requirement is to expose the student to a broad spectrum of knowledge which is both reasonable and appropriate to the student's major field. The student and preceptor plan the components of this requirement which is subject to the approval of the Honors Council.

## Colloquia

Beginning at the sophomore ievel, an honors student attends one colloquium per year: one in the humanities; another in the social sciences; the third in the natural sciences. These one semester, two-credit lecture and discussion sessions are interdisciplinary in scope. They provide an opportunity for all honors students to meet and explore the breadth and the interrelations of academic studies. The intent of these colloquia is to provide significant insights, especially in areas which lie outside the student's major field and may have been excluded from the previous sphere of intellectual curiosity.

## Major Requirements

An honors student completes all requirements for a departmental or divisional major. If honors work exists in the major department, at least one of the contributing honors courses must be completed.
A faculty preceptor serves as a special adviser for the student in each department. The preceptor assists in the development of the student's major program, the selection of courses which are appropriate for the distribution requirement and in all other aspects of academic and professional planning.

## Senior Honors Project

The honors student is expected to complete a senior honors thesis, an original or creative work which reflects the student's area of interest in the major field. This senior project may well become the basis for a future master's thesis in graduate school. Study abroad or field experience may be recognized as part of the project.
The citation "University Scholar" will appear on the diplomas and the transcripts of the students who complete the University Honors Program. At commencement exercises, they will be properly recognized as University Scholars.

## OTHER FEATURES

## Scholarships

An honors student who maintains a minimum 3.40 cumulative grade-point average is eligible for substantial honors scholarships which are renewable annually.

## Acceleration

To meet degree requirements, an ronors student may use credits awarded for satisfactory achievement on Advanced Placement high school tests (AP), the Coliege Level Examination Program (CLEP) and /or other approved placement procedures - including bypassed credits -to a maximum of 20 credits. Credits may also be earned through "credit by examination" when approved by the department in which the examination is to be administered.

## Open Classroom

An honors student may attend undergraduate classes or lectures for which the student is not formally enrolled. Free access is available.

## Access to Graduate Courses

With the permission of the student's preceptor and the instructor, an honors student may be enrolled in graduate courses for either undergraduate or graduate credit. This provision applies especially to graduate courses which may be of immediate benefit to the completion of the senior honors project and/or the specific requirements for a given research paper.

## Credit/Noncredit Option

Upon completion of one-half of all degree requirements, an honors student may enroll in one course per semester on a credit/noncredit basis. All elective credits thus earned are not considered in calculating grade-point average, but count as credits completed toward graduation requirements.

## University Honors Council

Seven faculty members representing the degree-granting colleges and two honors students serve on the University Honors Council which regularly reviews existing policies and introduces such additional and/or innovative options as may be desirable in response to manifest needs.

## Distinguished Student Program for Associate Degree Students

## PURPOSE

The purpose of the Distinguished Student Program shall be to encourage and assist exceptionally talented students who are enrolled in associate degree programs to achieve excellence in their academic work. The program is also intended to expose these students to the total offerings of this University. Every attempt will be made to make available to students the broad expanse of knowledge available on this campus.

## ADMISSION

Students shall be admitted to the program based on their academic achievement and potential for scholarship. These persons shall be identified at the time of admission to The University of Akron. The requirement for admission to the program shall include: (1) high school grade-point average of 3.50 or higher on a 4.00 scale; (2) scores on the Scholastic Aptitude Test (SAT) or American College Test (ACT) which places the student in the 90th percentile or higher of treshman college norms; (3) rank in the top 10 percent or higher of the high school class; (4) recommendations from high school principal, teachers or counselors; and, (5) approval of the council. In exceptional circumsiances where an applicant is able to demonstrate extraordinary academic promise, the high schooi grade-point average, ciass rank, and the SAT or ACT requirement may be waived by the Distinguished Student Council. Students desiring to enter the program after they have been enrolled at The University of Akron may make application to the council.

## PROGRAM

A distinguished student's program of study shail consist of, for the most part, courses within the major. The Distinguished Student Colloquium (taken the first semester of the second year) and the Honors Colloquium (taken the second semester of the second year) shall provide an opportunity for all distinguished students to meet and explore the breadth and interrelationships of the various academic disciplines. These onesemester, two-credit colloquia shall be suitably scheduled over the span of the academic year. The coordinator, with the assistance of the Distinguished Student Council, shall determine the sequence in which these colioquia shall be offered and also approve the course content of the Distinguished Student Colloquia. Distinguished students may be permitted to attend classes or lectures within the Community and Technical College for which they are not formally enrolled

The designation Distinguished Student will appear on the academic recpord of all students who have met all graduation requirements. At commencement exercises, the students will be properly recognized as such.

## Graduation Requirements

The distinguished student shall earn the minimum total credits required for a particular degree and for a program major. Progress toward completing the degree requirements may be accelerated by credit by examination. bypassed credit and credit awarded for satisfactory achievement on high school advanced placement examinations in accordance with University policies.

## Colloquia

Beginning at the sophomore level, all distinguished students attend one colloquium per semester. The first will be in the fall semester and be restricted to distinguished students. The second will be in the spring semester and will be oftered through the University Honors Program if possible. These one-semester, two-credit lecture and discussion sessions are interdisciplinary in scope. They provide an opportunity for students to meet and expiore the breadth and the interrelations of academic studies. A major objective of the colloquia is to provide significant insights, especially in areas which lie outside the student's major field and may have been excluded from a previous sphere of intellectual curiosity.

## ADVISEMENT

Immediately upon admission to the program, the student shall be assigned a program adviser. The adviser shail assist in the selection of courses which are appropriate for the distribution requirement and the formulation of an integrated major program.
The coordinator consults with the adviser in all matters relating to the student's academic performance and the completion of requirements for graduation as a distinguished student. The college advising staff shall be available for assistance in all matters pertaining to the program.
A distinguished student who does not immediately choose a major shall be assigned to the Community and Technical College advising staff. The distinguished student shall be admitted to the college immediately upon being admitted to the program

## RETENTION

A distinguished student must maintain a minimum grade-point average which would qualify the student for graduation With Distinction. The Distinguished Student Council shall review each distinguished student's record at the end of each semester.

Students who achieve a 3.25 to a 3.39 accumulative grade-point average their first semester of attendance shall be placed on probation. If they raise their accumulative grade-point average to the required 3.40 by the end of their second semester of attendance, they will be permitted to continue in the Distinguished Student Program.. Any student whose accumulative grade-point average falis belo‥ a 3.25 overall shall be withdrawn from the programs. Students may ve readmitted to the program at a later date it they raise their acrumulative grade-point average to at least 3.40.

A student who transfers to a baccalaureate program will no longer be eligible to, the Distinguished Student Program but may apply to the University Honors Program for admission.

## OTHER FEATURES

## Scholarships

Distinguished students who meet the requirements for retention in the program are eligible for scholarships renewable each semester.

## Library Privileges

Alt distinguished students receive a special borrower's card which entitles them to:

- Unlimited renewal of regularly circulating library materials, it no one has requested their return All materials must be presented to the library for renewal
- Privilege of using closed carrels.
- Privilege of borrowing materials on interlibrary loan.

The special borrower's card is renewable annually. Library handbooks are issued to all entering distinguished students

## Open Classrooms

Distinguished students may attend undergraduate classes or lectures for which they are not formally enroiled. Access to all courses and academic programs will be for a linited time with the approval of their adviser and in accordance with University policy.

# Evening College and Summer Sessions 

Caesar A. Carrino, Ph.D., Dean
Elmore J. Houston, M.A., Assistant Dean

## EVENING COLLEGE

The University of Akron has a rich and historic tradition of service to the student who attends classes after 5 p.m. Evening class offerings run the fuli range from the Community and Technical College through the Ph.D. level. Through evering and Saturday credit courses, the Evening College keeps its doors open throughout the year
The Evening College is a continuation of daytime college campus life. Credit courses taken in the evening have the same high academic value and full-time faculty members teach and are available to the student in the evening. Part-time faculty are engaged to augment the full-time faculty; these part-time teachers represent a complete array of academic backgrounds and practical experiences to enrich the quality of course work.
The president and his top-level administrators and the collegiate deans are vitally concerned and supportive of our effort to serve the needs of the evening student - all 7,500 of them

Evening Student Council coordinates the extracurricular activities of the Evening College, which are similar to those of the day college and sometimes are part of the daytime activities. Organizations established for the Evening College student include Alpha Sigma Lambda, Scholastic Honorary; Gamma Beta, Evening College Social Sorority, Chi Sigma Nu, Evening College Social Fraternity, Alpha Epsiion, a service honorary dedicated to giving recognition to evening students who have made significant contributions to campus and community; AWARE (Association of Women for Awareness, Recognition and Enterprise); and Nite Life, the publication of the Evening Student Council.

## SUMMER SESSIONS

The Summer Sessions re-emphasizes the urban nature and mission of The University of Akron and the total involvement with our community, Curricular patterns reflect the vibrant interaction between "Town and Gown."

Summer study satisfies a myriad of student appetites and needs: the regular full-time student accelerating a program, a recent high school graduate, a transfer student from other institutions of higher learning, an older person with life-long learning interests, the part-time student and, equally important, those who rejuvenate their intellectual energies in summer study only.
Summer Sessions serve more than 18,000 students, young and old, loca! and commuting, at all stages from noncredit avocational courses to the professional and Ph.D. levels. Faculty, students, administration and the community contribute talents and resources to further the dynamics of the academic and cultural process

Minor Arass of Study

Saction 5

## Minor Areas of Study

Art

- Core need not be completed.
- Frerequisites must be honored.
- Student may compiete any department courses except 7100:191

## Ceramics

| $7100: 254$ | Introduction to Ceramics | 3 |
| :--- | :--- | :--- |
| $7100: 354$ | Ceramics II | 3 |
| $7100: 454$ | Advanced Ceramics.* | 3 |

## Crafts

- Prerequisites must be honored.
- Students must complete courses in two of these three areas: ceramics, metal smithing/enamefing or weaving.

3

## REQUIREMENTS

The University of Akron has approved minor fields of study that may be placed on a student's record when all requirements have been completed The following rules apply to all minors:

- The student must complete at ieast 18 credits
- At least six of the 18 credits must be at the $300 / 400$ level except where the department does not offer 300/400-level courses
- A minimum grade-poin! average of 2.00 in each minor is required.
- A minor may be designated at any time during the student's career up to and including the time the degree clearance is processed.
- A minor will be placed on the student's record only at the time the student receives a degree and only on application.
- Courses for a minor may not be takencredit/noncredit. All credits must be earned (bypassed credit may not be used).

## ADVISEMENT

Although not required to do so, students are advised to contact faculty in the department(s) in which they may wish to earn minors early in their undergraduate programs

## SPECIFIC PROGRAM REQUIREMENTS*

## Anthropology

| $3870: 150$ | Cuitural Anthropology |
| :--- | :--- |
| $3870: 151$ | Physical Anthropology |
| 3870.356 | New World Prehistory |
| $3870: 461$ | Language and Culture |

## Credits

- A minimum of six additional credits of anthropology courses
- Nineteen total credits are required.

## Art

## Chemistry

- Total credits required tor a minor in chemistry: 19-22
- Core comprised of one of the following options

| 3150.132 .3 | Principles of Chemistry I, II | 7 |
| :--- | :--- | :--- |
| 3150.263 .4 | Organic Chemistry Lecture I, II | 6 |
| 3150.129 .30 | Or |  |
| $3150: 201.2$ | Organic Chemistry and Biochemistry I, II | 8 |

- An additional six credits from 300/400-level courses. For example, a pre-med or biology student might take 3150.401 .2 Biochemistry (three credits each). An engineer or physics major might select 3150:313.4 Physical Chemistry (three credits each). Analytical or instrumental courses might be attractive to others.
- Medical technology students automatically have a chemistry minof
- Chemical engineering majors also fultill the requirements for a minor in chemistry
- Students who intend to minor in chemistry may seek advice about the 300/400level courses that would be most relevant to their interests.

## Classics

- Total credits required for a minor in classics: 21 credits.

| $3200: 189$ | Mythology | 3 |
| :--- | :--- | :--- |
| $3200.313 / 14$ | Archaeology ot Greece and Rome | 6 |
| $3200: 361 / 2$ | or | 6 |
| $3210: 303 / 4$ | Aderature of Greece and Forme | 6 |
|  | or Greek | 6 |
| $3220.303 / 4$ | Advanced Latin | 6 |

- It is strongly recommended that a minor in classics take at least three credits of 3400:304.5,6,7 Survey in Ancient History.

## Classical Civilization

| $3200: 189$ | Mythology | 3 |
| :--- | :--- | :--- |
| $3200.304,5,6,7$ | Ancient History (select one) | 3 |
| $3200313 / 14$ | Archaeology of Greece and Rome | 6 |
| 3200361.2 | Literature of Greece and Rome | 6 |
|  | Electives in Classics | 3 |

- It is strongly recommended that a minor in classical civilization fulfil the language requirement by taking $3220: 121,2,223,4$ or $3210: 121,2,223,4$.

## Communicative Disorders

- Required core courses:
$7700: 110 \quad$ Introduction to Disorders of Communication 3
$7700.120 \quad$ Introduction to Audiology/Aural Rehabiitation 3
1700:130 Bases and Structure of Languges
$7700 \cdot 211$
$\begin{array}{lll}7700.430 & \text { Aspects of Normal Language Development } & 3\end{array}$
- Select at least four hours from the following:

7700:460 Speech-Language Hearing Disorders in the Public Schoois 2
$7700.480 \quad$ Seminar in Communicative Disorders 2
$7700.481 \quad$ Special Projects Communicative Disorders $\quad 1-3$
7700483 Communication Disorders: Geriatric Population 3

## Community Services Technology

## $2020: 240$

$2280.261 \quad$ Baking and Classical Desserls
2280:262 Classical Cuisine
2280:263 International Fcods

## Hotel/Motel Management

| $2280: 150$ | Front Office Procedures | 3 |
| :--- | :--- | :--- |
| $2280: 152$ | Maintenance and Engineering Management | 3 |
| $2280: 153$ | Principles of Fire Protection ard Life Safety | 3 |
| $2280: 240$ | System Management and Personnel | 3 |
| $2280: 256$ | Hospitality Law | 3 |
| $2280: 255$ | Hotel/Motel Sales Promotion | 3 |
| $2280: 254$ | Hotel/Motel Housing Management | 3 |

| Interpreting for the Deaf |  |  |
| :--- | :--- | ---: |
|  |  |  |
| $2210: 100$ | Introduction to Interpreting for the Deaf | 4 |
| $2210: 104$ | Sign Language, Gesture and Mime | 3 |
| $2210: 110$ | Specialized Interpreting I | 3 |
| $22.10: 150$ | Handicapped Service Practicum | $\mathbf{1 - 4}$ |
|  | (must be repeated to eight credits) | 3 |
| $2210: 200$ | Reverse Interpreting | 3 |
| $2210: 230$ | Specialized Interpreting II | 5 |
| $7700: 100$ | Manual Communication I | 3 |
| $7700: 120$ | Introduction to Audiology/Aural Rehabilitation | 4 |
| $7700: 150$ | Manual Communication II | 4 |
| $7700: 200$ | Manual Communication III | 2 |
| $7700: 222$ | Introduction to Deaf Culture and Its Origin | 3 |
| $7700: 271$ | Language of Signs I |  |

## Library

- Courses are offered in alternate years
- Students are encouraged to take typing before taking hibrary courses.

| $2900: 100$ | Introduction to Libary Technology |
| :---: | :---: |
| 2200801 | Cataloging. Classitying and Processing Materials |
| 2200202 | Organizirg and Operating Library/Media Centers |
| $2200: 203$ | Materials Selection |
| $2200: 804$ | Reference Procedure |
| 2200.05 | Information Retrieval Syslems in L.ibrary Technology |
| 2200297 | Independent Study (Student pursues a project in major area of study utilizing lihrary skills.) |

## Mathematical Sciences

- Total credits required for minors in mathematical sciences -24 .

| Mathematics | /Applied Mathematics |  |
| :--- | :--- | ---: |
| $3450.221,2.3$ | Analytic Geomerry-Calculus $1,11,111$ | 12 |
| 3450235 | Difterential Equations | 3 |
| 3450.312 | Linear Algebra | 3 |

- Approved 300/400-level mathematical sciences electives (at least three credits in 3450 courses).

## Statistics

| $3450: 221,2$ | Analytic Geometry-Calculus i. II | 8 |
| :--- | :--- | :--- |
| $3450: 312$ | Linear Algebra | 3 |
| $3450: 461$ | Applied Slatistics | 4 |

$3450: 463$ Experimental Design: 3

- Approved 300/400-level mathematical sciences electives.

## Computer Science

## Modern Languages

## French, German, Spanish, Russian or Italian

- A minimuni of 18 credits is required.
- The student must have at least 12 credits beyond the second year excluding courses which are not counted for credit toward a major.

## Music, Theatre and Dance

Jazz Studies

| $7500: 210$ | Jazz improvisation ! | 2 |
| :--- | :--- | :--- |
| $7500: 211$ | Jazz Improvisation II | 2 |
| $7500: 212$ | Music Industry Survey | 2 |
| $7500: 307$ | Technique of State Band Performance and Direction | 2 |
| $7500: 308$ | Jazz History and Literature | 3 |
| $7500: 497$ | Elective in Jazz | 2 |
| $7510: 115$ | Jazz Ensemble | 4 |
| $7520:-$ | Applied Jazz Study | 8 |

Theatre Arts
(Requires a minimum of 24 credits.)

| $7800: 100$ | Introduction to Theatre | 3 |
| :--- | :--- | :--- |
| $7800: 102$ | introduction to Technical Theatre | 3 |

Thirteen additional credits are required: three credits from each of the following areas, four credits of theatre electives, plus two credits of practical theatre experience.

Design/Technology

| $7800: 106$ | Introduction to Stage Design | 3 |
| :---: | :--- | :---: |
| $7800: 265$ | Basic Stagecraft I | 3 |
| $7800: 464$ | Stage Lighting | 3 |
|  |  |  |
| Acting $/$ Directing | 3 |  |
| $7800: 171$ | Acting i | 3 |

Musical Theatre

| 7800.421 | Music Theatre Production | 3 |
| :--- | :--- | :--- |
| 7800.475 | Acting tor the Musical Theatre | 3 |

History / Dramatic Literature

| $7800: 370$ | The American Theatre | 3 |
| :--- | :--- | :--- |
| 7800.467 | Contemporary Theatre Styles | 3 |

Theatre Production/Performance
7810 - Production/Performance
Theatre Electives

- Additional courses for general secretariai area
2540.171,3,274
or 276 Shorthand/Transcription $\quad 8$
2540.141 Iniormation Management 3

2540:121 Office Problems 3

- Addifional courses for word processing area:

| $2540: 241$ | Information Managemeni | 3 |
| :--- | :--- | :--- |
| $2540: 280$ | Word Processing Concepts | 2 |
| $2540: 281$ | Machine Transcription | 2 |
| $2540: 286$ | Keyboarding of Word Processing Equipment | 3 |

- Additional courses for information management area:

| $2420: 211$ | Accounting ! |
| :--- | :--- |
| $2540: 121$ | Office Problems |
| $2540: 241$ | Information Management |
| $2540: 281$ | Machine Transcription |

2540121 Ofice Problems
$2540: 281 \quad$ Machine Transcription

## Philosophy

## Requirements

- A total of 18 semester credits in philosophy including: $\{\mathbf{a})$ at least three semester credits at the introductory level (introduction to philosophy. logic or ethics) and (b) at least six semester credits at the $300 / 400$ level.
- Students may select a minor related to their major area of study.

## Minors

| Major Area | Philosophy Minor |
| :--- | :--- |
| Arts | philosophy of art |
| Humanities | philosophy |
| Natural sciences | philosophy of science |
| Computer sciences/mathematics | philosophy of mathematics |
| Law | philosophy of law |
| Business | philosophy of management |
| Teaching | philosophy of education |
| Theology | philosophy of religion |
| Political science | political philosophy |
| Communication/journalism | philosophy of communication |
| Sociai work | sociai philosophy |
| Health professions | biomedical philosophy |
| Technical writing | philosophy of language |
| Engineering | philosophy of technology |

- Other minors in philosophy may be designed with the approval of the Depariment of Philosophy.
- Students should consult with the Department of Philosophy for courses appropriate to their minors.

## Examples

- Examples of courses avaitable for students majoring in arts, humanities and natura! sciences foliow
Arts (philosophy of art)
3600:120. 223 Ethics
3600:350 Philosophy of Art
3600:211, 312,13 History of Philosophy
3600:481/581 Philosophy of Language
3600:232 Philosophy of Religion
3600:424/524 Existentialism
3600:426/526 Phenomenology
Humanities (philosophy)
3600:120, 223 Ethics
3600:170, 374 Logic
3600:211, 312,13 History of Philosophy
3600:350 Philosophy of Art
3600.462/562 Theory of Knowledge

3600:481/581 Philosophy of Language
3600:424/524 Existentialism
3600:426/526 Phenomenology
3600:471/57 Metaphysics
Natural Sciences (philosophy of science)
3600:120. 223 Ethics
3600:170, 374 Logic
3600:464/564 Philosophy of Science
3600:418/518 Analytic Philosophy
3600:471/571 Metaphysics
3600:426/526 Phenomenology
3600:462/562 Theory of Knowledge
3600:211 History of Ancient Philosophy

## Physics

- Requirements for a minor in physics include: 3650 291,2 Elementary Classical Physics /, /l - eight credits; and, physics electives at the 300/400 level -- 10 credits. Note: $3650: 261$, 2, Physics tor the Life Sciences, may be substituted for 3650:291.2, in whote or in part.
Recommended physics electives: most students should elect $3650: 301$. Unless a student has already acquired considerable expertise in electronics, courses $3650: 310,322$ and 323 should prove valuable. Finally, $3650: 320$ provides an important background in optics, useful to engineers, geophysicists and others.

## Political Science

- Each student shal complete at least nine of the required courses in 300/400level course work in political science.
- A sludent may select a minor concentration from one of the five following course sequences.

## American Politics

| 3700:100 | Government and Politics in the U'nited States | 4 |
| :---: | :---: | :---: |
| Fourteen credits from the following: |  |  |
| 3700.210 | State and Local Govermment and Politics | 3 |
| 3700.302 | American Poltical Ideas | 3 |
| 3700340 | American Political Parties and Interest Groups | 3 |
| $3700 \cdot 341$ | The American Congress | 3 |
| $3700: 342$ | Minority Group Politics | 3 |
| 3700350 | The American Presidency | 3 |
| 3700360 | The Judic:al Process | 3 |
| 3700370 | The American Bureaucracy | 4 |
| 3700.380 | Urban Politics and Poircies | 4 |
| 3700:381 | State Politics | 3 |
| 3700.382 | Intergovernmental Relations | 3 |
| 3700:402 | Politics and the Media | 3 |
| 3700440 | Public Opinion and Political Bohavior | 4 |

## Comparative Politics

| $3700: 200$ | Comparative Politics |
| :--- | :--- |
| Founteen credits from the following: |  |
| $3700: 304$ | Modern Political Thought |
| $3700: 320$ | Sritan and the Commonwealth |
| 3700321 | Western European Politics |
| 3700.322 | Sovel and Easi European Politics |
| $3700: 323$ | Politics of China and Japan |
| 3700325 | Comparative Public Policy |
| 3700.325 | Politics of Ceveloping Nations |
| $3700: 327$ | Atrican Politics |
| $3700: 330$ | Canadian Politics |
| 3700.405 | Politics in the Midale East |
| 3700.420 | Issues and Approaches in Comparative Polics |
| 3700.425 | Latin American Politics |

Fourteen credits from the following
— 3

3700321 Western European Politics
Sovel and East Eurcpean Politios
3100325 Comparative Public Poligy
3100.325 Poltics ot Developig Nation
$3700.327 \quad$ Atrican Politics
$3700.405 \quad$ Politics in the Midale East
3700.420 Issues and Approaches in Comparative Politics
3700.425 Latin American Politics

## International Politics

| $3700: 100$ | Government and Politics in the United States | 4 |
| :--- | :--- | :--- |
| 3700.310 | intemational Pelitics and institutions | 4 |

$3700310 \quad$ International Pelitics and institutions 4
3700:415 Comparative Foreign Policy 3
Severi credits from the following:
$3700: 200$ Comparative Politics
3700220 American Foreign Policy
3700304 Modern Political Thought
$3700.320 \quad$ Britain and the Commonwealth
3700.321 Western European Politics

3700:322 Soviet and East European Politics
3700.323 Politics of China and Japan

3700:325 Comparative Public Policy
$3700326 \quad$ Politios of Developing Nations
$3700.327 \quad$ African Politios
$3700: 330 \quad$ Canadian Politics
$3700.405 \quad$ Folitics in the Midde East
3700:425 Latin Aterican Politics

## Public Policy Analysis

| $3700: 100$ | Government and Folitics in the United States | 4 |
| :--- | :--- | :--- |
| $3700.20:$ | introcuction to Folitical Science | 3 |
| $3700: 441$ | The Folicy Process | 3 |
| $3700: 442$ | Methods of Policy Analysis | 3 |
| $3700: 480$ | Policy Problems | 3 |
| Two credits from the following: |  |  |
| $3700: 325$ | Comparative Public Policy | 3 |
| 3700.370 | The American Bureaucracy | 4 |
| 3700.382 | Intergovernmental Relations | 3 |
| 3700.402 | Poltics and the Media | 3 |

$3700.402 \quad$ Politics and the Media

## Pre-Law

3700:100
3700:360
3700.461 The Judicial Process $\quad$ The Supre Court and Constitutional Law

| Seven credits from the following: |  |  |
| :--- | :--- | ---: |
| $3700: 210$ | State and Local Government and Politics | 3 |
| $3700: 302$ | American Political ldeas | 3 |
| $3700: 341$ | The American Congress | 3 |
| $3700: 381$ | State Politics | 3 |
| $3700: 392$ | Special Topic: Criminal Law and Procedures | $1-3$ |

## Psychology

- Required for ali students:

3750:100 Introduction to Psychology
3

- At least one course from each of the following three groups (two of which must be on the 300/400 level):
Group 1
3750:120
Introduction to Experimental Psychology
(Prerequisites are by permission of instructor for non-psychology majors only.)
$3750: 310$
3750320
3750:330
3750:450
Group 11
3750:140
3750:470
3750.400

3750:410
lo Industria ano Organizatonal Psyolog
Advanced industrial and Organizational Psychology
Personality
Tests and Measures
(Prerequisites are by permission of instructor for non-psychology majors only.)
3750:420
3750:430
3750:440
Group III
3750:130
3750:340
3750:350
3750:360
3750.460

Abnormal Psychology
Psychological Disorders of Children 4
Introduction to Clinical Method 3

Developmental Psychology 4
Sacial Psychology
The Psychology of Smail Group Behavior
Cross Cultural Psychology
History of Psychology

- Up to tour credits of 3750:480 Special Topics or 3750:497 Independent Reading and Research can be included in all minors. Prior approval required
- Students may select a minor related to their major or may setect a minor in psychology relevant to any of the following areas: natural sciences, humanities, social sciences, business, pre-law, education, sociology/social work.

## Sociology

- Nineteen total credits are required.
- Required for all students

3850:100 introcuction to Sociology

- A minimum of 15 additional credits of sociology courses at the $300 / 400$ level are required. Students may wish to select courses which relate to a particular interest area (e.g., tamily, health and illness, sex roles, urban life, gerontology). These areas are outlined in materials available in the Department of Sociology. Students with such interest should see an adviser in the Department of Sociology for assistance in course selection for the minor program.

## Transportation

- Core:
$2560.110 \quad$ Transportation Economic Policy 3
2560:118 Transportation Rate Systems 3

2560:221 Transportation Principles and Practices
2560:224 Transportation Regulation 4

- Five credits from the following:
2560:15 Motor Transportation 3

2560116 Air Transportation
2560:117 Water Transportation $\quad 2$
2560:220 Terminal Management and Safety 2
2560:227 Transportation of Hazard Materiais and Wastes 2
2560.228 Introduction to Travel 2

Section 6

## Interdisciplinary and Certificate Programs of Study

## OVERVIEW

To add to the dimensions of the traditional disciplines, the University has established interdisciplinary and interdepartmental programs of study. In addition to a major, the student may elect to pursue one of these programs.

Upon completion of any of these programs, a statement will be placed or the student's permanent record indicating the area of concentration. The certificate indicating the area of concentration will be awarded when the student completes requirements for a degree unless otherwise specified.

## AFRO-AMERICAN STUDIES

Mr. N. Holmes, assistant director

## Requirements

To satisty the requirements for the certificate, a student must complete at least 11 semester credits and four courses with a minimum 2.00 GPA from the list of acceptable courses or other courses identified by the director The requirements are as follows:

## Credits

> 1810.401 General Seminar in Airo-American Studies (A research paper in Afro-American Studies will be written in this course)
$3400: 220$
Black People of the United States

## Acceptable Courses

1100:335 Eastern Civilizations - Africa 2
1810.401 General Seminar in Atro-American Studies 3
$2020254 \quad$ The Black American
$3250486 \quad$ Ghetto Economic Development
3300:350 Black American Literature
3300:389 United States Dialects: Black and White
3350.363 Atrica South of the Sahara
$3400220 \quad$ Black People of the United States
3400413 Black Social and intellectual History
3700327 African Politics
3850.421 Racial and Cultural Intergroup Relations
$7750270 \quad$ Poverty in the United States
7750276 Introduction to Social Welfare
7750:410 Minority Issues in Social Work

## Research Paper

The research paper will be written under the direction of a faculty member most suitable to the area of concern of the student's research interest; shall be one semester in duration; and shall be approved by that faculty member. The director of Afro-American Studies, in consultation with the faculty member, will approve the topic for the research paper.
A student undertaking the Afro-American Studies Certificate Program must have prior consultation with the director of Afro-American Studies.

## AGING SERVICES

Mr. John Mumper, coordinator

## Requirements*

| 2020.121 | English | 4 |
| :--- | :--- | :--- |
| 2020.222 | Technicai Report Writing | 3 |
| 2260.150 | Introduction to Gerontological Services | 3 |
| 2260.251 | Senior Ctizen Services | 3 |
| $2260: 278$ | Techniques of Cormimunity Work | 4 |
| 2260.279 | Techical Experience Community and Social Services | 5 |
| Any two of the tollowing four courses: |  |  |
| 2020.240 | Human Relations | 3 |
| 2020.290 | Death and Dying | 2 |
| 2260.252 | Resident Activity Cooroination | 3 |
| 2260.290 | Special Topics The World of Retirement | 3 |

## ALCOHOL SERVICES AIDE

Mr. John Mumper, coordinator

## Requirements*

2020:121
Technical Reporl Writing
2260250 Aiconol Use and Abuse
2260.261 Alconol Treatment

2260278 Techniques of Community Work
2260262 Basic Helping Skills in Alcohol Problems
2260.263 Group Principies in Alcoholism
2260.279 Technical Experience Communily ana Social Services

4

# CARTOGRAPHIC SPECIALIZATION 

Dr. A. Noble, department head

## Requirements

This program of professional and scientific education is intended to enhance cartographic training in data handling, analysis and graphic communication of simple and complex geographic data and information. The program is not limited to geography majors and is designed to introduce automated and traditional cartographic skills to the student in a wide spectrum of disciplines offered through the laboratory for cartographic and spatial analysis housed in the Department of Geography. These training opportunities provide for specialized study in the rapidly changing and significant area of cartography as a method of graphic communication. The program is flexible to meet the varied backgrounds and interests of the individual student.

In addition to cartographic courses in the Department of Geography, many useful courses are found in other departments. The program is designed to permit the student to combine interesting and useful eiements of ant science and technology.

[^41]Cartography has a very long and rich history and, while it is eminently practical, has a strong component of theory. For this reason, a student may elect to take cartographic courses simply because they are focused on an interesting and exciting liberai arts subject. Other students choose cartography courses with the thought of increasing their potential of finding a position subsequent to graduation. There is a well-documented need for persons trained in cartographic awareness and skills in business, industry and government, as well as the academic community.

## Core

Complete five of the following basic courses:
Credis
$3350: 240$
3350:340
3350.442

Map Compilation and Reproduction
Introduction to Remote Sensing
$3350.448 \quad$ Automatic Computer Mapping
3350449
Maps and Map Reading
Cartography
Thematic Cartography
Map Compilation and Reproduction
Introduction to Remote Sensing
Automatic Computer Mapping
Advanced Remote Sensing

## Electives

Each student must complete at least seven credits distributed between professional, technical and research offerings in departments other than the Department of Geography. These courses will be selected in consultation with the program's director. Similar courses completed at other universities, up to five years prior to admission to candidacy, may be approved by the director.

The electives help develop a diverse cartographic skill and perspective which is significant and useful for persons working with data systems management, urban planning and environmental impact studies. To be truly effective and comprehensive in a career, the student must know a variety of professional and technical approaches to cope with social, economic, political, geographical, physical design and governmental problems. Selecting courses that duplicate or continue topical interests already well established in a particular student's background will be discouraged.

## Internship

Internship in an agency, firm or office engaged in related graphic and cartographic work; or an internship in the University's Laboratory for Cartographic and Spatial Analysis.

## Final Examination and

## Defense of Cartographic Works

After the completion of course work each student undergoes an oral examination covering samples of the student's cartography, conducted by two members of the department and one from the elective area. Questions cover the specific projects and topics covered in the course work completed specifically for the program. One week before the scheduled examination, the student submits samples of cartographic work.

The works must be acceptable by the examination committee and reduced photographic copies will be kept for permanent record in the laboratory's file. After passing the oral examination and the acceptance of the samples of cartography, the student is considered to have completed the program.
A minimum grade of " $C$ " is required in all elective courses taken as part of the certificate program. In the five core courses, an average grade of " B " is required.

## CHILD CARE WORKER

Mrs. Harriet K. Herskowitz, coordinator

[^42]
## Requirements

The establishment of this certificate program provides basic vocational training for child-care practitioners. The course of study is a means of meeting the short range goals of students interested in acquiring skills for immediate job placement.

| $2200: 245$ | Infant/Toddier Day-Care Programs | 3 |
| :--- | :--- | :--- |
| $2200: 250$ | Obseiving and Recording Cnildren's Behavior | 3 |
| 5200360 | Nursery School Laboratory | 3 |
| $5850 \cdot 295$ | Educational Techinoiogy Field Experience | 5 |
| $7400: 132$ | Early Childhood Nutrition | 2 |
| 7400265 | Child Devetopment | 3 |
| 7400275 | Play and Creative Expression Activities | 4 |
| 7400290 | Administration of Child-Care Centers | 3 |

# COMPUTER PHYSICS CERTIFICATE 

Dr. E. VonMeerwall, director

## Requirements

To qualify for the certificate program, a student must be in good academic standing in the major department and must submit a written request for admission to the director of the program. This course of study adds a component of both physics and computer science to a major in a traditional area of science. The physics courses, beyond Elementary Classical Physics, emphasize computer applications, including interfacing and data acquisition, data analysis and use of computers to solve physical problems.

## Physics

3650.291 .2 Elementary Classical Physics 1,11 8 $3650: 325 \quad$ Laboraiory Data A.nalys s $\quad 3$
3650350
3650.468

Computational Physics
Digital Data Acquistion

## Mathematics

$3450: 2212$
Analytic Geometry-Calculus I. II

## Computer Science

| 3460209 | Computer Programming ! | 3 |
| :--- | :--- | :--- |
| 3460210 | Computer Programming II | 3 |

The certificate program has been structured to be accessible to most students working toward an undergraduate degree in a traditional area of science. The certificate may be combined with a minor in physics for studerits who wish to obtain a background in physics which emphasizes applications and uses of computers to collect and analyze data and to solve physical problems.

## COMPOSITION

Dr. Martin McKoski, director

## Requirements

To be eligible for the certificate in composition, a person must be admitted to the University as a graduate student ( with either regular graduate status or special non-degree status). An eligible person interested in the program should contact the program director. Five courses in composition and linguistics are required. Other appropriate English courses in composition or linguistics may be substituted as optional courses with the permission of the director.

## Required Courses:

```
3300576 Semmar: Thecry and Teachung of Basco Connposition
3300.673
3300675
```

```
Theores of Composition
```

Theores of Composition
Seminar: Researon Metnocologies in Compositon

```
Seminar: Researon Metnocologies in Compositon
```

## Optional Courses

3300:570 History of the English Language3300571 U.S. Diatects: Black anic White
3300589 Girarmatical Structures of Modern English
3300575 Theory of Rhetoric
3300589 Seminar Socioinguisics
$3300.670 \quad$ Mocem Limgustics
3300689 Seminar. Styistics
$3300.689 \quad$ Seminar Contextual Linguistics

## COMPUTER SCIENCE

Dr. William C. Beyer, department head

## Requirements

## Entrance

To qualify for the Computer Science Certificate Program, a student must be in good academic standing in the major department, must have completed four credits of mathematics in the Department of Mathematical Sciences and must submit to the department head a written request for admission to the program. The request will outine the student's reasons and goals for enrolling in the program. The area of concentration adds a further dimension of both mathematics and computer science to the student's major in one of the traditional academic disciplines. A minimum grade-point average of 2.00 in the certificate is required.

## Requirements*

The program specified is designed to provide background, proficiency and updating in the criminal justice area. In the immediate geographic area there are approximaiely 2,200 police officers and support personne in police departments. While many of these police officers have completed a degree, many more would benefit by this type of approach. The designed program would provide a measure of recognition for those students enrolled and completing the program. The program would be continually' monitored and has been included in many localities as an incentive for promotion, pay increases and lateral movement with in the police agency.

## CRIMINAL JUSTICE/ SECURITY EMPHASIS

Mr. Kenneth L. McCormick, cocrdinator

## Requirements*

The program specified is designed as an integrated approach to provide proficiency and updating in the security field. The security field is one of the fastest growing areas of business today. There are approximately 750,000 individuals in the United States dealing with security problems. In the state of Ohio, there are approximately 70,000 and in the local area. 2.500 security personnel. The field is upgrading very rapidly by accepted state training and there is a move now for more education to be provided at the college level.

## ENVIRONMENTAL HEALTH

Dr. Walter Sheppe, Coordinator

Students majoring in any department may earn the certificate in environmental health by completing a program agreed on in advance by the coordinator and the major adviser, to include at least 21 credits in approved core and elective courses. Students must also complete a course in statistics approved by the Environmental Health Committee. The certificate program is designed to supplement the student's major and therefore the certificate will be awarded only upon completion of the bachelor's degree.

## Core Courses

| $1890: 300$ | Introduction to Environmertal Health | 3 |
| :--- | :--- | :---: |
| 1890.410 | Epidemiotogy | 3 |
| 1890.437 | Individual Stucies or Internship iri Environmentar Health |  |
|  | or Approved Equivatent | 13 |

[^43]
## Electives

Students will complete courses in at least two departments in the natural sciences and two in the social sciences, not to include the major department, from the following list or others approved by the Environmental Healih Cornmittee.

| Environmental Health |  |
| :---: | :---: |
| 1890:450 | Seminar in Environmental Health |

| :--- | :--- |
| 7750.452 | Social Work: Mental Health |
| 7750.456 | Social Work in Health Services |

## Requirements

To qualify for the certificate program, a student must be in good academic standing with the major department and request admission to the program. The request will outline the student's reasons and goals for enrolling in the program.
The student will take a minimum of six courses from a list approved by the committee on environmental studies. Two of these courses will be

| $1830: 201$ | Man and the Environment | 2 |
| :--- | :--- | :--- |
| $1830: 401$ | Seminar in Environmental Studies | 2 |

The student will be required to select courses from areas other than the major since the purpose of the program is to broaden the student's background.

The student's pian of study for this certificate will be developed in consuttation with the director of the Center for Environmental Studies.

## Courses

| 1830:201 | Man and the Environment | 2 |
| :---: | :---: | :---: |

## FIRE PROTECTION TECHNOLOGY

Mr. David H. Hoover, coordinator

## Requirements*

Although fire continues to be a growing problem in Ohio with more than 72,000 fires in 1981 causing 223 fatalities and 2,381 injuries, many municipalities are filiancially unable to provide a full-time fire department and instead must depend upon the dedicated volunteer firefighter. As this trend continues, the need for the well-educated volunteers will be even more critical as these citizens assume responsible officer positions.

The Fire Protection Technology certificate will assist the student in acquiring the skills and knowledge to function effectively as a volunteer/paid on-call firefighter or officer in addition to receiving a certificate of completion and accomplishment.

## HIGHER EDUCATION

Dr. Don Birdseil, Acting Director

## Requirements*

This certificate program in higher education requires a minimum of 15 credits. The program of studies has been designed to serve the practicing or prospective college or university administrator or instructor.

## Admission

All applicants to the program should have previously earned a master's degree. Special admission for concurrent studies toward a master's degree and the higher education certificate may be allowed for persons currently employed in higher education. Students interested in this admission category should first meet with the director of the Center for the Study of Higher Education. The person wishing to pursue a doctorate in an academic department may concurrently undertake the certificate program as a cognate or minor. Such students must apply to the Graduate School for admission to the academic department and also apply for admission to the Center for the Study of Higher Education and must be admitted to both programs. Applicants wishing to pursue only the certificate program must apply to the Graduate School for admission as a special non-degree student.

## Program

Courses and internships in higher education are directed toward the study of administrative and academic operations of coileges and universities. Specific program options include: administration, student services, curriculum and instruction. Each of the options requires an internship. In the case of the curriculum and instruction option, a higher education teaching internship developed in conjunction with the student's major academic adviser and the center staff may be anticipated. internships may be completed at the University or at one of several cooperating institutions. Required

| 5100703 | Seminar: History and Philosophy of Higher Education | 3 |
| :--- | :--- | :--- |
| 5900700 | Introductory Aoministrative Colloquium in Higher Education | 1 |
| $5900: 800$ | Advanced Administrative Cotioquium in Higher Education | 1 |
| $5900: 801,2$ | Internship and Internship Seminar | 2 |
|  | Independent Study or course work to support concentration |  |
|  | and bring total hours to a minimum of 15. | 8 |

## Options

A student may select all three courses listed as " $A$ " and omit " $B$ " or may select an area of concentration and take one cour se from "A" under I, ll or Ilf and the supporting course from " $B$ " from the same heading.

he awarding of this certificate is not contingent upon completion of degree program.

## INTERIOR DESIGN

Mrs. Carolyn Albanese, assistant professor

## Requirements

This certificate program represents a concentration of study in interior design emphasizing an interdisciplinary approach between the Department of Home Economics and Family Ecology and the Department of Art. The program is designed to add another dimension to the four-year baccalaureate degree in clothing and textiles and the four-year baccalaureate degree in graphic design. The certificate program is open to undergraduates in other disciplines as well as persons with baccalaureate degrees from the University or other accredited institutions. The certificate must be issued simultaneously with a baccalaureate degree or to those already holding a baccalaureate degree. The following require.. ments must be met:*

| $7100: 124$ | Three-Dimensional Design | 3 |
| :--- | :--- | :--- |
| $7100: 244$ | Coior Concepts | 3 |
| $7100: 282$ | Architectural Presentations | 3 |
| $7400: 331$ | Appiied Home Furnishings | 3 |
| $7400: 433$ | interior Design I | 3 |
| 7400.434 | Interior Design II | 3 |
| $7400: 435$ | Principles and Practices of Interior Design | 3 |

## LATIN AMERICAN STUDIES

Dr. Hugo Lijeron, coordinator

## Requirements

The student in the Latin American Studies Certificate Program will major in the respective disciplines (economics, geography, history, political science, sociology and Spanish).
In addition, the student will take 12 credits in the three separate disciplines chosen from the following list:

| Political Science |  |
| :---: | :---: |
| 3700:425 Latin American Politics | 3 |
| History |  |
| 3400:415 Latin America: National Origins | 3 |
| 3400:416 Latin America: 20th Century | 3 |
| 3400:417 United States, Latin America and Imperialism | 3 |
| 3400:418 Mexico | 3 |
| Geography |  |
| 3350:353 Latin America | 3 |
| Sociology/Anthropology |  |
| 3870.257 Indians of South America | 3 |
| 3870:356 New World Prehistory | 3 |

[^46] graphic design.

## Economics

The student is also required to study three years of Spanish or the equivalent.

## LIFE-SPAN DEVELOPMENT: ADULTHOOD AND AGING

Dr. Harvey Sterns, director

## Requirements

This certificate represents a concentration of study involving current knowledge and research in adulthood and aging. It adds another dimension to the knowledge and skills a student is able to offer in the many professions that are becoming specialized in adapling the student's training, research and service to the needs of adults and older adults. This program coordinates the training of personnel in adult development and aging and helps to meet the critical shortage of trained manpower in the field of gerontology,
The graduate curriculum committee of the institute will oversee this certificate program and certify through the director of the institute that all requirements for the certificate have been completed.

## Admission

To participate in the program, a student should:

- Be formally admitted to The University of Akron as an associate, undergraduate, postbaccalaureate or graduate student.
- Receive permission from the faculty adviser.
- Have an interview with a designated graduate faculty member of the Institute for Life-Span Development and Gerontology
- Make formal application to the program.

## Program

## Graduate

## LIFE-SPAN DEVELOPMENT: WOMEN'S STUDIES

Dr. Harvey Sterns, director
Mrs. Faye Dambrot, administrative assistant

## Requirements

The program provides interdisciplinary study of women to enable women and men to examine such topics as sex roles, sex differences and concepts of masculinity and femininity; women's social and cultural roles and their implications for mern's roles; gender-based distribution of power, work and resources; and the significance of feminine and masculine imagery.

## Admission

To participate in the program, the student must:

- Be formally admitted to The University of Akron as an undergraduate seeking a baccalaureate degree or a postbaccalaureate student or as special admission for a free-standing certificate.
- Make written application to the program countersigned by the student's major academic advisor
- Receive written notification of admission from the Director of the Women's Studies Program
- Consult with the Director of the Womeri's Studies Program to formulate a program of study.

# MID-CAREERS PROGRAM IN URBAN STUDIES 

Dr. James Richardson, department head

## Requirements

The program will require the completion of 16 graduate credits in a single area or in several areas in the urban field. Upon the completion of the program, a certificate will be granted.

## Admission

A student must satisfy the requirements for entrance in graduate programs or have a bachelor's degree and the equivalent of five years: experience in a professional, administrative or leadership position, in which case the student shall be admitted as a special non-degree student. A student may wish to pursue additional electives. However, a student admitted to this program will be limited to 20 credits. If the student wishes to pursue more than 20 credits, the student must be admitted to the N.A. program in urban studies.

## Program

The Mid-Careers Certificate Program in Urban Studies will require the successful completion of a plan of study which must include a minimum of 16 credits of work in existing courses offered by the Department of Urban Studies. The core program and areas of study are listed below. Electives will be chosen in consultation with the adviser from the approved list of courses. Courses offered by other departments will be accepted if they are urban related and will specifically contribute to the student's objectives.

## Core

## OFFICE ADIMINISTRATION

Mrs. Virginia J. Watkins, coordinator

## Administrative Secretarial

## Requirements

The administrative secretarial program provides intensive administrative secretarial training in two 15 -week semesters. It is designed for the individual who has completed at least two years of college and who wishes to add administrative secretarial skills to enhance career opportunities. Training is provided to type at 50-65 net words-a-minute and to transcribe accurately business correspondence dictated at 70-90 net words-a-minute. The student will develop effective letter writing ability, use new office machines and correlate secretarial skills and administrative ability.
To enroll in this option, a student must have completed at least two years of college

## Word Processing

## Requirements

The word processing option is designed to enable the student who has some beginning typing skills to prepare for an entry-level job in word processing. The program is a study of the applied use of word processing procedures and equipment in a simulated word processing office environment. The total work flow of office communications will be covered from input through output. Using automated typewriting equipment, the student will produce office documents from machine transcription, handwritten copy and typewritten copy. All courses taken may be applied toward an associate degree in secretarial science.

## PEACE STUDIES

## Requirements*

To satisty the requirements for a certificate in peace studies, an undergraduate student at The University of Akron must complete at least 15 credits from the list of acceptable courses. These must be distributed so that work will be included from three separate departments. The student will major in one of the traditional disciplines, but the area concentration is meant to add a further dimension of depth through concentrated work focusing on peace studies. Where specialized training is relevant to a particular student's interest, alternatives to those on the list of acceptable courses may be approved by the director. A paper or project is to be completed in conjunction with one of the 300/400-level courses chosen and in consuiftation with the instructor involved. The student undertaking the Peace Studies Certificate Program must have prior consultation with the director of the Center for Peace Studies.
The following two courses are required for everyone in the program:

| 1860301 | Value Concepts on Peace and War | 3 |
| :--- | :--- | :--- |
| 3400340 | Peace. War and Mankind | 3 |

> PLANNING WITH AN EMPHASIS ON CITY OR REGIONAL RESOURCE STUDIES

Dr. Alan Noble, department head

[^49]
## Requirements

This program is intended to enhance understanding of the planning function and to increase the research and analytical abilities of the person preparing for work in, or who is currently engaged in city, urban, regional, environmental and resource planning. The program is open to the undergraduate, as well as a person with a baccalaureate degree, employed in local agencies doing related work, e.g., urban renewal, community redevelopment, community action, environmental protection and private industry. The person with a degree can enroll as a postbaccalaureate or special student.

## Program

- Employment or internship in a planning agency or in an office engaged in related work; or a sincere intention to pursue a professional career in some aspect of government work or pianning after graduation.
- A statement by the applicant giving reasons for wishing to participate in the planning certificate program.

## Courses

## Core

Complete five of the following
$3250: 244$ Introduction to Economic Analysis 3
$3350: 220$ Economic Geography
3350:433 Urban Regional and Resource Planning
3350:438 World Metropocitan Areas
3400:436 The American City
3700:380 Metropolitan Politics
3850:425 Sociology of Urban Life
4300:450 Urban Planning

## Electives

Each student's program (subject to the program director's approval) is to include six elective courses distributed between professional, technical and research offerings. Three courses will be from the professional listing and three from the technical-research listing. in consultation with the program director, elective courses will be selected from University offerings either in the city planning or regional resource planning emphasis areas. Similar courses completed at other universities, up to five years prior to admission to candidacy, may be approved by the director.

The intent of the elective requirements is to facilitate the development of a diverse perspective which is significant for a person who will be or is already engaged in planning for present and changing future urban, regional, environmental, resource, energy and societal needs. The truly comprehensive planner must have academic acquaintance with a variety of professional and technical approaches to cope with social, geographical, physical design, economical and governmental problems. Selecting courses that duplicate or continue interests already well established in a student's background will be discouraged.

## Project

Upon completion of the core and elective course requirements, the student will take 3350:385 Planning Seminar (one credit). In this seminar the student will produce a final paper covering a city or regional resource planning topic chosen by the student and approved by the director of the program. Each project will be presented to the seminar class and critically analyzed.
A grade of " C " or better is required in all courses undertaken as part of the certificate program. In the five core courses an average grade of " $B$ " is required.

## Requirements

The program will help meet our technological society's growing need for educated people who can develop sophisticated strategies for effective communication of business and technical information. People in the business community increasingly depend on communication to solve complex management, sales and information processing problems. The communication demands of business and industry are significant, and in many ways, different from those dealt with in traditional courses and majors. Undergraduates in various fields and those who already possess a baccalaureate degree will wish to study specifically to meet communication demands. A formal certificate will recognize their preparation for handling the communication needs of business and industry.

## Program

| $3300: 390$ | Professional Writing 1 | 3 |
| :--- | :--- | :--- |
| $3300: 391$ | Protessional Writing II | 3 |
| $7600: 309$ | Publications Production | 3 |
| $7600: 345$ | Business and Professional Speaking | 3 |

The two 3300 courses listed cannot count toward the 35 credits in English required of English majors

## PUBLIC POLICY

Dr. Carl Lieberman, chairman coordinating committee

## Program

This program will assist the person in understanding, formulating and implementing decisions in the public realm. A person who is interested in government service, administration of publicly supported institutions and the teaching of government at the college level should find such an interdisciplinary program to be of great value

## Admission

Persons are eligible for admission to the graduate Certificate in Public Policy Program if they have been admitted to graduate study as special, non-degree students in the departments of economics, political science or sociology, or are pursuing a master's or doctoral degree in one of those three departments. Students who are pursuing a graduate degree in other departments at the University may be admitted upon the recommendation of the head of the department in which they are enrolled

## Requirements

## Core

Each student enrolled in the program shall complete three of the following courses - one from the Department of Economics, one from the Department of Political Science and one from the Department of Sociology.

## Economics

| $3250: 530$ | Human Resource Policy | 3 |
| :--- | :--- | :--- |
| $3250: 606$ | Public Finance | 3 |
| $3250: 665$ | Seminar on Ecconomin Planning | 3 |

## Political Science

| $3700: 541$ | The Policy Process | 3 |
| :--- | :--- | :--- |
| $3700: 542$ | Nethods of Policy Anaiysis | 3 |
| $3700: 668$ | Seminar in Public Policy Agendas and Decisions | 3 |
| $3700: 670$ | Seminar in the Administrative Process | 3 |

## Sociology

3850:613
3850679
Sociology of Frogram Evaluation and Program Improvement Political Sociology

In addition to the courses listed above, each student, after receiving the approval of his or her adviser, shall complete two courses related to public policy.
Each student shall complete a scholarly paper dealing with public policy under the direction of a graduate faculty member in the departments of economics, political science or sociology. The student shall enroll for three credits in one of the following courses: 3250:697/698 Reading in Advanced Economics, 3700:697 Independent Research and Readings or 3850:697 Readings in Contemporary Sociological Literature. The student's paper shall be evaluated by an interdisciplinary committee consisting of graduate facuity from at least two of the previously mentioned departments.
All persons enrolled in the Graduate Certificate Program in Public Policy must successtully complete 3700:695 Internship in Political Science, a course which will permit a student to gain experience working with public officiais, government agencies, political parties or interest groups. A student will normally enroll in this course after having completed at least 12 semester credits of work relating to public policy. A person with extensive administrative or governmental experience may be permitted, with the approval of the student's adviser, to substitute another course dealing with public policy in place of the Internship in Political Scierice.
At least two-thirds of the credits earned for this certificate must be in 600 - or 700 -level courses. No more than three courses in which the student enrolls, of the seven required for the Graduate Certificate in Public Policy, may also apply toward meeting requirements for a graduate degree at The University of Akron.
The student must maintain at least a " $B$ " $(3.00)$ average in course work for the certificate.

## Administration of the Program

The departments of economics, political science and sociology shall each annually sefect a representative for a coordinating committee from among those members of the graduate facuity who have special knowedge or expertise in the area of public policy. The committee shali each year elect one of its members as chairperson. The chairperson shall be responsible for disseminating information about the certificate, certifying that a student has met requirements for the completion of the program and convening members of the coordinating committee whenever appropriaie.

## SMALL BUSINESS MANAGEMENT

Mr. Jack D. Huggins, coordinator

| $2420: 211$ | Basic Accounting i | 3 |
| :--- | :--- | :--- |
| $2420: 170$ | Business Mathematics | 3 |
| $2420: 280$ | Essentials of Law | 3 |
| $2540: 119$ | Susiness English | 3 |

| 2420.227 | Entrepreneurship Projects | 4 |
| $2440: 120$ | Introduction to Information Processing | 2 |

The awarding of this certificate is not contingent upon completion of a degree program.

## SOVIET AREA STUDIES

Dr. Barbara Clements, coordinator

## Requirements

To obtain a certificate in Soviet Area Studies, the undergraduate will satisfy the requirements for a baccalaureate major in the field of study of his or her choice. In addition the student will complete two years of Russian language ( 14 credits) and will also complete 12 additional credits in courses dealing with the study of the U.S.S.R. These courses may be selected from the following list:

## Economics

3250.450/550 Comparative Economic Systems

## TEACHING ENGLISH AS A SECOND LANGUAGE* $\dagger$

Dr. Kenneth J. Pakenham, director

## Requirements

This program is intended for those who seek training in the teaching of English as a second language at the elementary or high school level or who wish to obtain an initial qualification in teaching ESL in order to teach in settings other than the Ohio public school system.
The program is designed to introduce the student to the central issues in the theory and practice of teaching English to non-native speakers through courses in modern and applied linguistics, in second language pedagogy and in related disciplines.
Students who do not have English as a native language must demonstrate adequate proficiency in English with a valid TOEFL score of at least 550

# Graduate School 

Joseph M. Walton Ph.D., Acting Dean of Graduate Studies and Research
Brian F. Pendleton, Ph.D., Acting Assistant Dean of Graduate Studies and Research
John E. Mulhauser, M.A., J.D., Director of Research Services and Sponsored Programs

## OBJECTIVES

The purpose of the Graduate School is to provide a quality program of education by the following means:

- Advanced courses in various fields of knowledge beyond the baccalaureate level.
- Opporturities to develop and apply research techniques and to use the resources appropriate 10 various graduate programs.
- Advancement of student's knowledge for the benefit of mankind through the efforts of its faculty and students.

## Nature of Graduate Education

The Graduate School provides a qualified student with education which may be required for the full development of scholarly and professional capacities, subject to the criteria developed by graduate departments.
Graduate education involves the extension of knowledge. However, it is by no means a mere continuation of undergraduate study. At its best, graduate education is characterized by an able and enthusiastic advanced student who joins faculty leaders to form a community of scholars dedicated to the common pursuit of truth. Critical analysis, independence of thought, originality of method, intensity of purpose, freedom from bias, thoroughness of inquiry, keenness of perception and vital creativity combine to produce in the successful student both the professional competence and the breadth of understanding essential to leadership in many areas of human endeavor

## History of the Graduate School

Graduate study began a few years after Buchtel College opened its doors, and the first earned master's degree was conferred in 1882. The Coilege of Education awarded its first master's degree in 1924, the Colleges of Engineering and Business Administration in 1959, the College of Fine and Appilied Arts in 1967 and the College of Nursing in 1979. The Department of Communicative Disorders (previously the Department of Speech), now housed in the College of Fine and Applied Arts, was formerly a part of the Buchtel College and conferred a master's degree in 1963. The first earned doctoral degrees were conferred in 1959. Professor Charies Bulger was appointed first dean of graduate work in 1933, and he continued in that capacity until 1950 . Professor Ernest H. Cherrington, Jr. served as director of graduate studies from 1955 to 1960 and as dean of the Graduate Division from its establishment in 1960 to 1967. Dr. ArthurK. Brintnall was appointed dean of Graduate Studies and Research in 1967, being succeeded in 1968 by Dr. EdwinL. Lively. Dr. Claibourne E. Griffin succeeded Dr. Lively in 1974 and served in that capacity untii 1977. Dr. Joseph M. Walton, associate dean of Graduate Studies and Research, was administrative head of the Graduate School during the 1977-78 academic year. Dr. Alan N. Gent was appointed dean of Graduate Studies and Research in 1978 and served in that capacity until 1986. Dr. Joseph M. Walton is now acting dean of Graduate Studies and Research.

The administrative functions of the Graduate School include establishment of suitable entrance requirements, admission of qualified students, maintenance of high-quality instruction and approval of graduation requirements for advanced degrees.

## Graduate Programs

A qualified student who has completed the baccalaureate program with sufficiently high grades may continue studies through the University's Graduate School in a program leading to the master's degree as well as to the doctoral degree. An undergraduate student who qualifies may enroll in certain graduate-level classes and apply the credits earned to the total required for the baccalaureate degree. To receive graduate credit for the courses, however, the student must first be admitted to the Graduate School.
The Graduate School offers programs of advanced study leading to the degree of Doctor of Philosophy in chemistry, history, polymer science, psychology, sociology, urban studies, education (elementary, secondary and guidance and counseling) and engineering. The Doctor of Education degree is offered in educational administration. The Doctor of Philosophy program in sociology is a joint program with Kent State University. The Doctor of Philosophy program in urban studies is a joint program with Cleveland State University.

The school also offers programs of study leading to the master's degree with majors in the following areas: accounting, biology, business administration (accounting, finance, international business, management, marketing and taxation), chemical engineering, chemistry, civil engineering, communicative disorders, earth science, economics, education (educational foundations, elementary, secondary, multicultural education, physical education, elementary or secondary school principal, school supervisor, local superintendent, counseling, special education, visiting teacher, reading specialist and school psychology), electrical engineering, engineering, English, French, geography, history, home economics and family ecology, management, communication, mathematics, mechanical engineering, music, nursing, philosophy, physics, political science, polymer science, psychology, sociology, Spanish, speech, statistics, technical education, theatre arts and urban studies. In addition, the College of Education provides a year of study beyond the master's degree in the area of school superintendent.
Several departments offer a limited amount of work which may be taken on the graduate level. Such courses may supplement the major program of study for the student who does not wish to devote his entire attention to one field.

## Graduate Faculty and the Graduate Council*

The graduate facully is comprised of those members of the faculty who hold appointments at the rank of assistant professor or above and teach graduate courses, supervise theses and dissertations and are generally responsible for the graduate program in the University. They are appointed by the dean of Graduate Studies and Research after recommendation by the department, college dean and Graduate Council. Guidelines for recommendation and appointment include the following:

- Quality and experienice in upper-level and graduate-level teaching.
- Possession of terminal degree in field.
- Scholarly publication recoro.
- Activity in research
- Activity in protession or discipline.

The purpose of the graduate facully is to encourage and contribute to the advancement of knowledge through instruction and research of highest quality, and to foster a spirit of inquiry and a high value on the scholarship throughout the University.

[^53]The graduate faculty recommends a student who has been nominated by the student's college faculty for the appropriate master's or doctoral degree.
Graduate Council is elected by the graduate faculty. Membership in the council presently includes two members from the College of Engineering, two members from the College of Business Administration, two members from the Coilege of Education, four members from the Buchtel College of Arts and Sciences, two members from the College of Fine and Applied Arts, one member from the College of Nursing and one student member elected yearly by the Graduate Student Council. Members serve threeyear terms and may not succeed themselves. The dean of Graduate Studies and Research serves as chairman of both the graduate faculty and the Graduate Council.

The functions of the council include examination of proposed graduate programs and course offerings, recommendation of policy for all phases of graduate education, recommendation of persons for membership in the graduate faculty and advising and counseling the dean in administrative matters.

## REGULATIONS

## Student Responsibility

A student assumes full responsibility for knowing the regulations and pertinent procedures of the Graduate School as set forth in this Bulletin. Normally, the degree requirements in effect at the time a student is admitted to a program will apply through graduation. However, if existing programs are revised, the student has the option of pursuing the revised program as long as all requirements in the revised program are met Additional information pertaining to programs can be obtained from the appropriate department head.

## Admission

Every person who desires to enroll in or audit any graduate credit course must be first admitted or approved by the Graduate School.

Applications for admission to the Graduate School should be filed in the Office of the Dean of Graduate Studies and Research at least six weeks before registration (except for applications to the nursing and school psychologist programs, which must be submitted at earlier dates. These two programs have restricted admission; the department heads should be consulted for further information). Each application must be accompanied by an application fee of $\$ 25$ (unless previously paid). This fee is not refundable under any circumstances. Payment should be made by check or money order to The University of Akron.

An official transcript from each college or university attended must aiso be received by the Graduate School before the application will be processed This applies to the complete academic record, both undergraduate and graduate. Transcripts should be sent from the institutions attended directly to the Graduate School. The applicant is responsible for seeing that the above conditions are met by the deadlines for filing of application.
All records, including academic records from other institutions, become part of the official file and cannot be returned for any purpose.

An offer of admission will normally be made to an applicant who meets all admission requirements. However, it must be recognized that staff, facilities and other resources are limited, so the number of students accepted will vary among departments and from term to term. An accepted applicant may begin graduate work in the fall, spring or summer semester. The offer of admission is void, however, if the applicant does not register for courses within two years from the time of admission. An individual whose offer of admission has lapsed must submit a new application to be reconsidered.

The student is admitted only for the purpose or objective stated on the application for admission. A new request for admission musi be filed when the original objective has been attained or when the student wishes to change objectives. The admitted status terminates when the time limits have been exceeded or other conditions for continued admitted status have not been met.

No student will be admitted without approval and acceptance by a department within the University, but admission to a department does not necessarily imply admission to or candidacy for any graduate degree program in that department. Admission for graduate study in any program can only be granted by the dean of Graduate Studies and Research and staff.

## Classification

A student is identified by the Graduate School as being in one of the following categories. Any change must be arranged through the Graduate School.

- Full Admission may be given to any applicant who desires to pursue a graduate degree and has a baccalaureate degree from an accredited college or university with an overall grade-point average of 2.75 or better or 3.00 for the last two years (64 semester credits or equivalent); or holds an advanced degree from an accred ited college or university in or appropriate to the intended field; or holds a baccalaureate or master's degree from a foreign college or university with firstclass standing or its equivalent, plus satisfactory evidence of competence in English. Full admission may also be granted to applicants to the College of Business Administration who meet the college's admission requirements
- Specia/Non-Degree Admission may begranted to a person who has not met all of the requirements for full admission, or to a person who wishes to take particular courses but who is not working toward a graduate degree. This admission status permits a student to take up to 15 semester credits of graduate course work. In some cases, it is limited to one semester. Graduate courses taken under this admission status may be applied later to a graduate degree program but only when the requirements for full admission have been met.
- Specia/Workshop status is for a person permitted to take workshops for graduate credit without being admitted to Graduate School. Such permission is granted by the workshop director upon receipt of a signed statement of possession of a baccalaureate degree by the applicant, and terminates upon completion of this workshop. A student admitted to special workshop status must apply through regular channels for any other category. A maximum of six workshop credits may be applied to degree work at a later date if the applicant is given full admission to the Graduate Schoo'.
- Transient status may be given to a person who is a regularly enrolled graduate student in good standing in a degree program at another accredited university and has written permission to enroil at The University of Akron. Such permission is valid only for the courses and semester specified, with a maximum of 10 semester credits allowable, and is subject to the approval of the instructor, depariment head and Graduate School. A transient student is subject to the same rules and regulations as a regularly enrolled student of the University
- Undergraduate status is for an undergraduate student at the University who may be granted permission to take one or more graduate-level courses if all the foliowing conditions are met
-- senior standing;
- overall grade-point average of 275 or better through preceding term fif a student does not have a 3.00 or better in the major field, special justification will be required);
- written approval is given by the instructor of the course and the student's adviser.

These courses may later be applied to a degree program if not used to satisty baccalaureate degree requirements. The maximum number of graduate credits that may be taken by an undergraduate and applied later toward a graduate degree is 12 .

- Postdoctoral status is divided into three categories
- a Fellow is a person holding an earned doctorate who is engaged in advanced research. A fellow shall be considered a guest of the University and provided space and use of facilities within limits of practical need of the undergraduate and graduate programs. Tuition and fees shall be collected if allowed under sponsoring contract tor any courses the fellow may choose to take,
- a Specia/ is a person holding an earned doctorate who desires an additional graduate degree. A special may be admitted to any program upon submission of application forms, application fee (if new student) and an official transcript from the institution awarding the doctorate. This student will be treated as a regular student subject to registration fees and program degree requirements;
- a Guest is a person holding an earned doctorate who desires to attend courses and seminars relevant to individual work or interests without registering or receiving grades. A written application should be submitted to the dean of Graduate Studies and Research for each course taken, and approval of the instructor, department head and college dean shall be obtained. A guest is welcome to any course or seminar provided space is available. Normaliy, space and facilities for research cannot be provided for a postcoctoral guest but special requests will be considered. Requests should be submitted, in writing, to the dean of Graduate Studies and Research who will review such requests with the appropriate college dean and department head

## Standards: International Students

An international student is normally admitted only in the fall, and all credentials should be received by the Graduate School by April 1. Inasmuch as The University of Akron, as a state institution, has an obligation to the residents of Ohio. only the best-qualified international applicants can be admitted. An international student seeking admission should not plan to leave the home country until notice of admission has been received from the Graduate School

Applicants from countries other than the United States in which English is not the major language in daily life are required to demonstrate high-level competence in the use of the English language, including reading, writing, speaking and listening, prior to admission. This competence can best be established by achieving a score of at least 550 on the TOEFL (the Test of English as a Foreign Language). The TOEFL is administered by Educational Testing Service, Box 899, Princeton, NJ 08540, USA. Applicants shouid make arrangements to take the test as soon as study at The University of Akron is anticipated and should request ETS to forward the official test score directly to the Graduate School, The University of Akron, Akron. OH 44325. The official score should be received in the Graduate School by June 1 for fall admission. Unofficial copies of the TOEFL cannot be accepted. If the TOEFL is not available, the applicant should contact the international student adviser at The University of Akron for other arrangements. Personal letters certifying English competence are not acceptable as substitutes for test scores.

The completion of an English placement test after admittance will aiso be required. Based on the results of this test, a student may be required to take an English language course for credit.
An international student, coming to The University of Akron in good standing from an accredited American college or university, may have the English proficiency requirement waived upon written request.

## Non-Accredited American School Graduates

A student holding a baccalaureate degree from a non-accredited American college or university, if otherwise qualitied, is normally required to complete at least 10 semester credits of postbaccalaureate work at a 3.00 level before being considered for admission to the Graduate School. The accreditation status of the school at the time of the student's graduation shall apply. A student should consult with the department head in the major field to develop a postbaccalaureate program.

## Grades

A student admitted to graduate study under any status at The University of Akron is expected to maintain a minimum 3.00 average ( $4.00=$ " A ") at all times. A grade-point average of 3.00 or better is required for graduation. Any student whose average falls below 3.00 is nolonger in good standing in the Graduate School and considered on probation. No more than six semester credits of "C" grades may be counted toward the degree. In computing cumulative averages, "D" grades are treated as "F" grades. The dean of Graduate Studies and Research, with the approval of the
department head, may dismiss anyone who fails to make satisfactory progress toward declared goals or who accumulates six semester credits of "C+" or below. The accumulation of six semester credits of " F " will result in mandatory dismissal. A student dismissed from the Graduate School for academic reasons may not be readmitted for one calendar year, and then only if evidence for expecting improved performance is submitted and found acceptable.
Official academic records are maintained with a grade-point system as follows:

| Grade | Quality <br> Points |
| :---: | :---: |
| A | 4.0 |
| A- | 3.7 |
| B+ | 3.3 |
| B | 3.0 |
| B- | 2.7 |
| C+ | 2.3 |
| C | 2.0 |
| C- | 1.7 |
| D+ | 1.3 |
| D+ | 0.0 |
| D | 1.0 |
| D | 0.0 |
| D- | 0.7 |
| D- | 0.0 |
| F | 0.0 |

Graduate Course Only
Graduate Course Only
Graduate Course Only
Failure
The following grades may aiso appear on the term grade reports or on the official academic record. There are no grade points associated with these grades.
I -- Incomplete indicates that the student has done passing work in the course out that some part of the work is, for good and acceptable reason, not complete at the end of the term. Failure to make up the omitted work satisfactorily by the end of the following term, not including summer sessions, converts the " 1 " to an " $F$." When the work is satisfactorily completed within the ailotted time the "i" is converted to whatever grade the student has earned.*
IP - In Progress: Indicates that the student has not completed the scheduled course work during the term because the nature of the course does not permit completion within a single term, such as work toward a thesis.
P! - Permanent incomplete: Indicates that the student's instructor and the instructor's dean have for special reason authorized the change of an incomplete ("I") to a permanent incomplete ("Pl").
W - Withdraw: Indicates that the student registered for the course but withdrew officially sometime after the second week of the term.
NGR - No Grade Reported: Indicates that, at the time grades were processed for the present issue of the record, no grade had been reported by the instructor.
INV - Invalid: indicates the grade reported by the instructor for the course was improperiy noted and thus unacceptable for proper processing.

## Repeating Courses

Any graduate course may be repeated once for credit. However, the degree requirements shall be increased by the credit hour value of each course repeated. The hours and grades of both the original and the repeated section shall be used in computing the grade-point average. Required courses in which a "D" or "F" was received must be repeated.

## Transfer Students

A graduate student matriculated in the Graduate School of another college or university who wishes to transfer to The University of Akron to continue graduate education must be in good standing at the other school.

## Course Load

A full load of course work at the graduate level is normally $9-15$ semester credits including audit.

[^54]
## Colloquia, Seminars and Workshops

Colloquium (credit/noncredit grading)
A course that normally involves guests, faculty or graduate students as speakers. The intent of the course is to introduce a broad range of topics using resource personnel Normally, assignments are limited to class participation.

## Seminar (letter grades)

A course that normally involves group discussion or other activities based on assigned material. Grades are awarded based on a combination of assigrments, tests and class participation.
Workshop (credit/noncredit grading)
A course that normally operates over a shorter period than a semester or a summer session. Workshops focus on a particular aspect or aspects of a field of study, require a combination of assignments, tests and class participation, and may or may not be permitted to satisfy degree requirements.

## Registration

The responsibility for being properly registered lies with the student, who should consult with the assigned adviser in preparing a program of courses and/or research. A schedule of courses, hours, class location and registration procedures is obtainable from the registrar.

## Entrance Qualifying Examinations

The use of examinations to determine admissibility to enter a graduate program or eligibility to continue in one is the prerogative of the departments offering graduate programs. The department has the right to select the examination and minimum acceptable level of performance. Information and procedure may be obtained from the head of the appropriate department.

## Fees

All fees reflect charges in 1986-87 and are subject to change without notice.

| Application Fee |  |
| :---: | :---: |
| This fee is not refundable under any circumstances | \$25 |
| Tuition Fees |  |
| Resident student per credit | \$73.60 |
| Nonresident student per credit (auditors pay same tees) | \$132.60 |
| General Fee |  |
| 1-14 credits per semester | \$6.50 per credit |
| 14 credils and over per semester | \$84.50 per semester |
| Parking Permit Fee |  |
| 9 or more credits per semester | $\$ 35$ |
| $81 / 2$ or fewer credits per semester | \$17.50 |
| One summer session | \$12 |
| Workshop participants | \$12 |
| Graduation Fees |  |
| Each degree | \$30 |
| Other Fees |  |
| Thesis and binding (payable at lime of application for degree) binding per volume | 9.50 |
| Microtilming (Ph.D. only) (payable at time of application for degree) |  |
| Course schedule change fee (for each schedule change form processed) | $\$ 54.50$ $\$ 5$ |
| Transcripts (if more than one transcript of a student's academic record is ordered by a student at one time, the fee shall be $\$ 4$ for the first transcript and $\$ 2$ for each additional one.) | \$4 |
| Delayed Registration Fee | $\$ 10$ |
| Late Registration Fee | \$25 |

## Refunds

Registration does not automatically carry with it the right of a refund or reduction of indebtedness in cases of failure or inability to attend ciass or in cases of withdrawal. The student assumes the risk of all changes in business or personal affairs.

## Fees Subject to Refund

- Instructional and nonresident surcharge
- General fee
- Parking (only if permit is returned).
- Student teaching.
- Laboratory breakage and late service deposit

## Amount of Refund

Amount of refund is to be determined in accordance with the following regulations:

- In full
- it the University cancels the course:
- if the University does not permit the student to enroll or continue.
-- If the student dies betore or during the term or is drafted into military service by the United States: or if the student enlisted in the National Guard or Reserves prior to the beginning of the term called to active duty, presents notice of induction or orders to active duty. A student who enlists voluntarily for active duty should see "in part" below.
- In part
- less $\$ 5$ per enrolled credit to a maximum of $\$ 50$ if the student requests in writing to the dean or designated official withdrawal from all credit courses on or before the second day of the term.
-- if the student requests in writing to the dean or designated official withdrawal after the second day of the fall or spring semesters. the following retund percentages apply:
3 through 12 caiendar days* $70 \%$ 13 through 24 calendar days* $\quad 50 \%$ 25 through 33 calendar days* $30 \%$ Thereafter $0 \%$
- if the student requests in writing to the dean or designated ofticial withdrawal after the second day of any summer session the following retund percentages apply:
$\begin{array}{ll}3 \text { through } 7 \text { calendar days* } & 60 \% \\ 8 \text { through } 15 \text { calendar days* } & 40 \%\end{array}$ 15 calendar days* $40 \%$
Thereatter 0\%
- Refunds for course sections which have not been scheduled consistent with either the standard 15 week fall/spring semester or the tive-week summer term scheduling pattern will be handled on a pro rata basis according to the number of days the section (class, institute or workshop) has been attended compared to the number of days said section has been scheduled to meet.
- Refunds will be determined as of the date of formai withdrawal unless proot is submitted that circumstances beyond control of the student prevented the filing of the formal withdrawal earlier, in which case the refund will be determine as of the last day of attendance. The student assumes responsibility for filing for a refund
- Refunds will be mailed as soon as possible. Refund checks are subject to deduction for any amount owed to The University of Akron by the siudent.
- No refund will be granted to a student dismissed or suspended for disciplinary reasons.

## Commencement

A student eaming a graduate degree is expected to participate in the commencement exercises. A degree candidate who has legitimate reasons for graduating "In Absentia" should make a written request to the registrar within the established dates and pay the designated tee.

[^55]
## Financial Assistance

The University awards a number of graduate assistantships to qualified students. Assistantships are normally awarded for up to two years of master's study and up to four years of doctoral degree study. These assistantships provide a stipend of $\$ 4,800$ to $\$ 7,300$ plus remission of tuition and fees and are available in all departments with graduate degree programs. A graduate assistant renders service to the University through teaching, research and other duties. For information and/or applications, contact the head of the department.

A number of fellowships sponsored by industry and government agencies are available in some departments. Stipends range up to $\$ 13,000$. For information, contact the head of the department.
Information about student loans can be obtained from the Office of Student Financial Aid

## MASTER'S DEGREE REQUIREMENTS

#### Abstract

Admission When a student is admitted to graduate study, an adviser is appointed by the head of the major department. A student who is academically qualified in general but deficient in course preparation may be required to make up the deficiencies at the postbaccalaureate level. This may be recommended prior to beginning graduate work, or in some cases, can be done simultaneously.

## Residence Requirements

There are no formal residence requirements for the master's degree. A student may meet the degree requirements of the Graduate School and the department through either fulf- or part-time study

## Time Limit

All requirements must be completed within six years after beginning graduate-level course work at The University of Akron or elsewhere. Extension by up to one year maybe granted in unusual circumstances by the dean of Graduate Studies and Research upon written request by the student and recommendation by the adviser and department head.

## Credits

A minimum of 30 semester credits of graduate work is required in all master's degree programs. This includes thesis credit. Some departments require more (see departmental requirements). A minimum of two-thirds of the total graduate credits required in any master's program must be completed at the University. A maximum of six workshop credits may be applied to a master's degree. Such credits must be relevant to the degree program, recommended by the student's adviser and approved by the dean of Graduate Studies and Research.

It should be noted that the requirements listed by department elsewhere in this section refer to the minimum necessary for a degree. It is entirely within the prerogative of the department to assign additional credits of course work or other requirements in the interest of graduating a fully qualified student

No graduate credit may be received for courses taken by examination or for 500 -numbered courses previously taken at the 400 -number course level as an undergraduate without advance approval from the dean of Graduate Studies and Research.

## Transfer

Up to one-third of the total graduate credits required may be transferred from an accredited college or university. All transter credit must be at the "A" or "B" level in graduate courses. The credits must be relevant to the student's program and fall within the six-year time limit. A University of Akron student must receive prior approval for transfer courses taken elsewhere.

A student seeking to transfer credits must have full admission and be in good standing at The University of Akron and the school in which the credits were achieved. Transfer credit shall not be recorded untila student has compieted 12 semester credits at The University of Akron with a grade-point average of 3.00 or better.

## Optional Department Requirements

Each department may set special requirements with regard to entrance exarninations, qualifying examinations, foreign language, required courses and thesis. Details are available from the head of the major department.

## Advancement to Candidacy

A student should apply for advancement to candidacy after completion of one-half of the credits required for the degree in his or her program. A student must be in good standing to be advanced to candidacy
Advancement to Candidacy forms must be submitted no later than May 15 for the January commencement and no later than September 15 for the May commencement. These forms are avaiiable in the office of the Dean of Graduate Studies and Research or in the academic department.

## Graduation

To be cleared for graduation, a candidate must have completed course work with a minimum average of 3.00 ; have been advanced to candidacy; filed an application for graduation with the registrar; paid all applicable fees; and met any other department and University requirements applicable

If a thesis is required, two copies, properly prepared, are due in the Graduate School at least two weeks prior to commencement. These copies must be signed by the adviser, faculty reader, department head and college dean prior to submission to the dean of Graduate Studies and Research. A manual entitled Preparing a Thesis or Dissertation is available in the Graduate School and all copies of the thesis must conform to these instructions.

## DOCTORAL DEGREE REQUIREMENTS*

A master's degree is not a prerequisite for the doctorate; however, the first year of study after the baccalaureate will be substantially the same for both the master's and doctoral student. No specific number or sequence of courses constitutes a doctoral program or assures attainment of the degree. A formal degree program consists of a combination of courses, seminars and individual study and research that meet the minimum requirements of the Graduate School and those of the committee for each individual student.

## Admission

Usually, a student is not officially considered as a doctoral student until completion of a master's program or its equivalent and approval for further study. Departments offering doctoral degree programs review each candidate carefully before recommending admission.
A minimum grade-point average of 3.00 is required for graduation of a candidate for all doctoral degrees.

## Residence Requirements

A doctoral student may meet the degree requirements of the Graduate School and department by full-time study or a combination of full- and part-time study.
The minimum residence requirement for a doctoral candidate in all programs is at least two consecutive semesters of full-time study and involvement in departmentai activities. Full-time study is defined as 9-15 semester credits, except for graduate teaching and research assistants for whom full-time study is specified by the assistaniship agreements. No student holding a full-time job is considered as fulfilling the residence requirement. The summer sessions may count as one semester, provided that the candidate is enrolled for a minimum of 10 consecutive weeks of full-time study and for a minimum of six semester credits per five-week session. Programs vary in their requirements beyond the minimum, e.g.. credits or courses to be completed, proper time to fulfill the residence requirement and acceptability of part-time employment.
Before a doctoral student begins residency, the student's adviser and the student shall prepare a statement indicating the manner in which the residence requirement wili be met. Any special conditions must be detailed and will require the approval of the student's committee, the departmental faculty members approved to direct doctoral dissertations, the collegiate dean and the dean of Graduate Studies and Research.

## Time Limit

All doctoral requirements must be completed within 10 years of starting course work at The University of Akron or elsewhere. This reters to graduate work after receipt of a master's degree or the completion of 30 semester credits. Extensions of up to one year may be granted by the dean of Graduate Studies and Research under unusual circumstances.

## Credits

A doctorate is conferred in recognition of high attainment and productive scholarship in some special field of learning as evidenced by the satisfactory completion of a prescribed program of study and research; the preparation of a dissertation based on independent research; and the successful passing of examinations covering the special field of study and the general

[^56]fieid of which this subject is a part. Consequently, the emphasis is on mastery of the subject rather than a set number of credits. Doctoral programs generally encompass the equivalent of at least three years of full-time study at the graduate level A minimum of 50 percent of the total credits above the baccalaureate required in each student's doctoral program must be completed at The University of Akron. A maximum of six workshop credits may be applied to a doctoral degree. Such credits must be relevant to the degree program, recommended by the student's adviser and approved by the dean of Graduate Studies and Research.
No graduate credit may be received for courses taken by examination or for 500 -numbered courses previously taken at the 400 -number course level as an undergraduate without advance approval from the dean of Graduate Studies and Research.

## Transfer Credits

Up to 50 percent of the total graduate credits above the baccalaureate required in a docioral program may be transferred from an accredited college or university. All transter credit must be at the " $A$ " or " $B$ " level in graduate courses. The course must be relevant to the student's program and fall within the 10 -year limit if beyond the master's level. A student already admitted to The University of Akron must receive prior approval for transfer courses taken eisewhere.
A student admitted with a master's degree or equivalent will have work evaluated in relation to the student's programi to determine transfer credit. Thirty semester credits are transferable from a master's degree.
A student seeking to transfer credits must have full admission and be in good standing at the University and the school in which the credits were achieved. Transfer credit shail not be recorded until a student has completed 12 semester credits at The University of Akron with a grade-point average of 3.00 or better.

## Language Requirements

There is no University-wide foreign language requirement for the Ph.D. The student is required to demonstrate one of the following skilis depending upon the particular program.

- Plan A: Reading knowiedge, with the aid of a dictionary, of two approved foreign languages. At the discretion of the major department an average of " $B$ " in the second year of a coilege-level course in a language will be accepted as evidence of proficiency in reading knowledge for that language, English may be considered as one of the approved foreign languages for a student whose first language is not English: and demonstrated competence in a research technique (e.g., statistics and/or computers) may be substituted tor one of the two foreign languages. Under the last option. each department should define competence and publicize.
- Plan B: Comprehensive knowledge of one approved foreign language, including reading without the aid of a dictionary and such additional requirements as the department may impose.
- Pian C. In certain doctorai programs (counseling and guidance, elementary education, engineering, psychology, secondary education) the demonstration of competence in appropriate research skills may serve as a substitute for the foreign language requirements.

## Optional Department Requirements

Each department may determine requirements for a doctoral student with regard to entrance examinations, qualifying examinations, preliminary or comprehensive examinations and course sequences.

## Advancement to Candidacy

A student should apply for advancement to candidacy after completion of one-half of the credits required for the degree in his or her program. A student must be in good standing to be advanced to candidacy.

Advancement to Candidacy forms must be submitted no later than May 15 for the January commencement and no later than September 15 for the May commencement. These forms are available in the office of the Dean of Graduate Studies and Research or in the academic department.

## Dissertation and Oral Defense

The ability to do independent research and demonstrate competence in scholarly exposition must be demonstrated by the preparation of a dissertation on some topic related to the major subject. It should represent a significant contribution to knowledge, be presented in a scholarly manner, reveal the candidate's ability to do independent research and indicate experience in research techniques.
A doctoral dissertation committee supervises and approves the dissertation and administers an oral examination upon the dissertation and related areas of study. This examination is open to the graduate faculty. The dissertation and oral examination must be approved by the committee
before the dissertation is submitted to the Graduate School. Two copies of the dissertation are due in the Graduate School at least two weeks prior to commencement. These copies must be signed by the adviser, faculty reader, department head and college dean prior to submission to the dean of Graduate Studies and Research. A manual titled Guidelines for Preparing a Thesis or Dissertation is available in the Graduate School and all copies of the dissertation must conform to these instructions

## Graduation

To be cleared for graduation, a candidate must have completed the academic program with a grade-point average of at least 3.00; have been advanced to candidacy; submitted an approved dissertation and passed an oral examination; filed an application for graduation with the registrar; paid a!l applicable fees; and met any other department and University requirements.

# Buchtel College of Arts and Sciences 

Claibourne E. Griffin, Ph.D., Dean
Paul S. Wingard, Ph.D., Associate Dean
William A. Francis. Ph.D., Assistant Dean

## DOCTOR OF PHILOSOPHY DEGREE

The following programs leading to the Doctor of Philosophy degrees are offered in the Buchtel College of Arts and Sciences: the Doctor of Philosophy in Chemistry, the Doctor of Philosophy in Counseling Psychology, the Doctor of Philosophy in History, the Doctor of Philosophy in Psychology and Doctor of Philosophy in Polymer Science. The Doctor of Philosophy in Sociology is offered jointly with Kent State University and the Doctor of Philosophy in Urban Studies with Cleveland State University.

## Doctor of Philosophy in Chemistry

In addition to satisfying the general requirements of the Graduate School, a student working toward the Doctor of Philosophy in Chemistry must meet the following requirements:

- Take proficiency exams in organic, inorganic, physical and analytical chemistry Results of these exams will be used for diagnostic purposes.
- Complete a course of study designed and accepted by the student's advisory committee. This course of study shall consist of a program deemed suitable to prepare the student in a designated area of chemistry and shall consist of a minimum of 24 credits in graduate courses. Eight credits per semester shall be considered a normal load. At least 12 credits of graduate course work and all dissertation credits must be completed at the University.
- Earn credit for a dissertation, to be established by enrollment in 3150.899, such that course credits plus dissertation credits total at ieast 84 credits (exclusive of master of science thesis credit).
- Pass cumulative examinations given approximately monthly. The candidate is urged to begin to take these examinations early in the graduate program and must pass seven cumulative exams, six written and one oral to meet the degree requirement.
- Pass an oral examination upon completion of the research dissertation.
- Pass the general requirements for the Doctor of Philosophy degree.

## Doctor of Philosophy in Counseling Psychology

The University of Akron ofters a doctoral program in counseling psychoiogy. The program ailows the student a choice of emphases--a scientistpractitioner model through the Buchtel College of Arts and Sciences or a practitioner-scientist model through the College of Education. Students in both emphases are expected to attain a level of broad scientific competence in the core areas of psychology: the biological, social, cognitiveaffective and individual bases of human behavior. Practica and internship experiences are also required of students in both emphases and range from skill building in basic psychological assessment and counseling, to actual work with clients, to a year-long, full-time internship in an applied service setting. Pertinent information regarding differences in emphasis
orientation and course work is included below. Students receive exposure to both colleges through shared course work and faculty involvement with dissertations but must choose a specialization in one emphasis. The program in counseling psychology has been constructed so as to lead to APA approval in coming years.
The Department of Psychology offers a five-year counseling psychology program leading to a doctoral degree and, in general, is geared toward students who hold a B.A. in psychology. Program emphasis is strongly placed on a scientist-practitioner model of training. Beyond the basic core areas of psychology, students are expected to establish specitic competencies in the areas of theory, research and practice of counseling psychology. Academic preparation includes theories of personality and psychotherapy, psychodiagnostics, vocational development theory, intelligence testing, research and statistics, and professionalissues. Research and publication are highly encouraged. Graduates typically seek out academic teaching, research and training and positions, as well as positions in counseling centers and other mental health agencies.
Admission to the Joint Program in Counseling Psychology will be handied through the department associated with the student's chosen emphasis. Departures from the above program may be made only with the approval of the counseling psychology program faculty

## Scientist-Practitioner Program Rationale and Track

The current curriculum reflects the new joint program in counseling psychology. The additional courses taken in counseling and special education will broaden the knowledge and skill bases of the students who choose the scientist-practitioner emphasis. Electives and other classes to be planned along with student's adviser.

## Credts

- Requited courses include.
- core (I. il, III, iV):
- statistics sequence (1. Ii, Muitivariate, Nonparametrics, Regression and Correiation, Factor Analysis);

16

- practica sequenice (P, C, A, Advanced!, il);
- counseling psychology courses (Advanced Tests and Measures, Theories of Psychotherapy, Vocational Behavior, Survey of Projectives, Psychodiagnostics, 10 Testing, Advanced Counseling, Personality, Functional Analysis);
- practitioner-scientist track classes (Group Processes, Introduction to Marriage and Family, electives):
- inesis credits;
dissertation credits.
- Practicum-each conducted in own department and evaluated there.
- internship-2,000 hours post-master's with 1,600 hours in no more than two years.
- Psychology core-3750:610, 620.630,640.
- Couriseling psychology joint core:
- scientist-practitioner track--15 credits required incluaing group (5600.633) and introduction to marriage and family (5600:655) with others to be decioed upon with adviser.
- practitioner-scientist track-12 credits required including advanced counseiing (3750:706) with other counseling psychology courses to be decided upon with adviser.
- Other course requirements for each track are up to faculty of the track
- Comprehensive examinations-separate writien exams but shared crals.
- Dissertation-at least one faculty member from each track on the student's committee.
- In the scientist-practitioner emphasis, students must perform at an acceptable level on the qualifying exam over the basic area of psychology to determine eligibility for M.A.-Ph.D. standing in that program. In the practitioner-scientist emphasis, M.A. students must take the preliminary exam to appraise their current competency leve!. These exams will be administered by the facuity specific to the studerit's chosen emphasis.
- Language and residency requirements - these will be completed in accordance with guidelines from the Graduate School and the appropriate department.

## Doctor of Philosophy in History

The Doctor of Philosophy in History is granted primarily for high scholariy achievement in four fields of study selected by the student and for demonstrated ability to pursue independent research. Each student must:

- Fultill admission requirements of the School

Admission will not usually be conisidered unless the applicant has a master's degree, or the equivaient, with a grade-point average of " $B$ " from an accredited instifution. Those holding master's degrees from The University of Akron or other accredited institutions should not assume automatic permission to pursue doctoral studies. Prior to admission to the doctoral program, the applicant must present evidence of the likelihood of success in advanced study. A personal letter from the applicant and three letters of recommendation from former professors are required to support an application for admission to the doctoral program. Special admissions examinations may also be required
Prior to admission to doctoral study, the applicant inust present evidence of a reading knowledge of one relevant foreign language, or knowledge of another research skill such as statistics or computer techniques. Those whose native tongue is not English must demonstrate proticiency in English.
After a student has completed at least 12 credits beyond the master's degree at the University, the student must apply to the Department of History for qualified status provided that the student's grade-point average in all graduate work is better than "B." If any doubt exists about the student's ability at this time. the department may require an examination.
After advancement to qualified status, the student, in consultation with the director of doctoral studies in history, will reach a final decision upen the tieids the student wishes to offer for the comprehensive examinations and any additional research skills needed. At this point assignment of a major professor who shall direct the student's dissertation shall be made. The student's doctoral committee, to be chaired by the major protessor, will also be appointed.

- Complete studies seiected by the student in consultation with an advisory com mittee, including:
- completion of 60 credits beyond master's degree requirements, including dissertation credit;
-- demonstration of competency in four fields of study selected from the following areas ancient, medieval. modern Europe to 1815. modern Europe since 1789. England and the Empire. United States 10 1865. United States since 1865 . Latin America, Far East. (one of the four fields may be in the cognate area outside of history):
- satisfactory performance in written and oral comprehensive examinations:
-- classroom teaching experience;
-- defense of the dissertation in an oral examination
- A reading knowledge of two languages will be required. normally French and German. At the discretion of the student's doctoral committee. another language or computer techniques and statistics may be substituted for either language as outined in the Graduate School requirements. An instructor may require specific language proficiencies betore permitting a graduate student to enroll in any course for which credit is to be granted. An instructor may require additional languages before permitting a candidate to write a dissertation under the instructor's supervision.
- Complete all genefal requirements for the Doctor of Philosophy degree.
- Each Ph.D. candidate will have classroom teaching experience as a part of the program

## Doctor of Philosophy in Polymer Science

An interdisciplinary program leading to the Doctor of Philosophy in Polymer Science is administered by the Department of Polymer Science. Graduates from the three main disciplines (chemistry, physics and engineering) are guided into the appropriate courses of study and research in that field under the supervision of a staff member. Research faclities of the Institute of Polymer Science are available for thesis research.
In addition to satisfying the general requirements of the Graduate School, a student working toward the Doctor of Philosophy in Polymer Science must meet the following requirements:

- Complete a course of study prescribed by the student's advisory committee, based on the committee's judgment of the student's background and on the result of any special examinations they might impose. This course will consist of a minimum of, but usually more than, 36 credits in graduate courses, as outined below. or their equivalent. At least 12 credits of graduate course work and all dissertation credits must be completed at the University.
- Credit for a dissertation, to be established by enrollment in 3940:899 such that course creaits plus dissertation credits total 84 credits (exclusive of Master of Science thesis credit).
- Pass eight cumulative examinations which are given at intervals during the academic year. The candidate is urged to begin these examinations early in the graduate program.
- Pass an oral examination upon completion of the research dissertation.
- Pass the general requirements for the Doctor of Philosophy degree.

## Doctor of Philosophy in Psychology

The Department of Psychology offers a doctoral degree in psychology with specialization in either industrial/organizational psychology, applied developmental psychology, industrial gerontological psychology.
A degree will be awarded to a student who, besides fultilling the general requirements, has met the following specific requirements:

- Fulfill admission requirements of the Graduate School and department requirements as iollows:
-- completion of master's degree inciuding 30 graduate credits:
- completion of master's core courses or equivalent.
- attanment of a graduate grade point average (GPA) of 3.25:
- completion of Graduate Record Examination Aptitude and Advanced Psy. chology Test:
- compietion of Miller Analogies Test (MAT):
- securing of three letters of recommendation:
- successful performance on Department of Psychology first-year examination.
- Major tield
-- a minimum of 90 graduate credits including a 30 -credit master's program. A student may be required to complete additional credits beyond the 90 min imum credit requirement:
- completion of Ph.D. core courses in the student's specialty area industrial /organizational, developmental, industrial gerontologicai psychology. Core courses are specified in the Department of Psychology Graduate Student Manual. The student is required to maintain at least a 300 GPA in core courses and overall courses:
- completion of additional required and elective courses to be planned in conjunction with the student's faculty adviser and subject to approva! by the department industrial/organizational, developmental industrial gerontological commitiees.
- Writter comprehensive exammations:
- satistactory performance on doctoral written and oral comprehensive examinations in the student's major area of industrial/organizational psychology. developmental osychology, industriai gerontological psychology (refer to the department's graduate siudent manual).
- Dissertation research:
- completion of 3750:899 Dissertation Research;
- satisfactory performance on final oral examination and defense of dissertation research.
- Other requirements:
- reter to the depariment's graduate student manual for other requirements or guidelines:
- compiete and fulfill generai doctoral degree requirements of Graduate School

Doctoral ianguage requirements or appropriate alternative research skills and techniques may be prescribed by the student's advisory committee, depending upon the career plans of the student and upon the academic and / or scientific requirements of the dissertation.

## Doctor of Philosophy in Sociology Akron-Kent Joint Ph.D. Program

The University of Akron and Kent State University departments of sociology offer a joint program ieading to the Ph.D. degree. Faculty and students engaged in the joint doctoral program are for all intents and purposes involved in a single graduate program. Course work is offered at both campuses and faculty and students interchange treely.
The general objective of the Akron-Kent Ph.D. program is to train sociologists whose specialty also includes emphasis on urban processes.

## Admission to the Program

A student may apply with a completed master's degree or equivalent or after at least one year of full-time course work or equivalent ( 18 credits) in
the sociology master of arts program at The University of Akron. The course work must include the master of arts core sequence. Scores from either the Miller Analogies Test (MAT) or the aptitude portion of the Graduate Record Examination (GRE) are required as part of the doctoral application. Admission is limited to students whose records cleariy indicate both scholarly and research potential.

## Degree Requirements (for a student admitted with the master's degree or equivalent)

In addition to meeting the general requirements of the Graduate School, a student working toward the Doctor of Philosophy in Sociotogy must meet the following requirements:

- Take 3850:747 Urban Sociology.
- Take two doctoral-level courses in theory. These courses are to be selected from the predetermined group of courses (see Department of Sociology Graduate Student Handbook).
- Complete two doctoral-level courses in methods/statistics. These courses are to be seiected from the predetermined group of courses (see the department's graduate student handbook).
- Complete a specialty of at least 15 credits.
- Complete a minimum total of 30 credits (semester) in course work.
- Pass the doctoral comprehensive examination. This examination is given in the specialty area and will include an evaluation of metnodology, theory and urban process relevant to the specialty area
- Fulill residency requirement of the Graduate School
- Complete foreign language requirement by one of four sequences as detailed in the department's graduate student handbook:
- foreign ianguage:
- computer science;
- statistics;
- philosophy.
- Register for a minimum of 30 credits of dissertation credit, complete a dissertation and successfully defend it in an oral examination.

## Degree Requirements (for a student admitted without the master's degree)

In addition to meeting the requirements for a student admitted with the master's degree, the student must meet the following requirements:

- Completion of the M.A. core course work
- Completion of a research practicum (three credits). This may be waived for the student who aiready has sufficient research experience.
- Completion of a minimum of 60 credits of graduate-level ( 600 or higher) course work beyond the bachelor's degree.

## Doctor of Philosophy in Urban Studies

The departments of urban studies of The University of Akron and Cleveland State University jointly offer a program leading to the Ph.D. in urban studies. Students admitted to the program may take courses at either campus and all committees contain members from both universities.
The purpose of the program is to train senior-level persons in urban public management, planning and policy analysis research.

## Admission

Admission to the Graduate School of The University of Akron requires a master's degree in an appropriate area. In some instances persons holding a master's degree may be asked to take additional specified master'slevel courses before beginning Ph.D. courses.

## Degree Requirements

The program has a required core of eight courses, including: two courses in advanced quantitative methods and program evaluation; five courses in policy development, analysis, planning and management.

Each student will also complete an area of specialization through a combination of tutorials ( 12 credits) and elective courses ( 12 credits). The
tutorial rests upon a close working relationship between students and individual faculty members in particular areas where faculty members are actively engaged in research.
Students must pass written and orai comprehensive examinations on both the core and their specialization.
The capstone of the program is the dissertation where students must present the results of their research and successfully defend their dissertations in an oral examination.

A minimum of 63 credits beyond the master's degree is required.

## MASTER'S DEGREE

Programs of advanced study leading to the master's degree are offered by the departments of biology, chemistry, economics, English, geography, geology (earth science), history, mathematical sciences, modern languages (French and Spanish), philosophy, physics, political science, polymer science, psychology, sociology and urban studies. Before undertaking such a program, the student must show that the general requirements for admission to the Graduate School have been met; and the standard requirements for an undergraduate major in the area of the proposed graduate specialty have been met or that the student has performed work which the department approves as equivalent to an undergraduate major.

## Biology

## Master of Science

## Thesis Option

The program is primarily for the student who will pursue a research career, including the student who intends to enter a doctoral program in the biological sciences

- Course work in addition to the master's research and seminars (must be approved by the student's advisory committee) - 24 credits.
- Research and thesis - minimum of six credits.
- Participation in seminars - two credits.
- The student's advisory committee may require the demonstration of reading proficiency in a foreign language appropriate to the field of study
A minor may be taken in approved graduate courses including education. Summer study at a biological station is available.

## Non-thesis Option

The curriculum is oriented to the needs of the student for whom the M.S. degree will probably be the terminal scientific degree and who does not need extensive research experience.

The requirements are the same as the research option except that no thesis and research is undertaken, but a total of 38 credits of approved course work (including two credits for seminar participation) is required.
For additional details concerning admission standards, degree requirements and selection of options, refer to the Department of Biology Graduate Student Guide.

## Chemistry

## Master of Science

- Chemistry course work -- with the approval of the adviser, up 1012 credits may be taken in related areas -2.4 credits.
- Research and inesis - six credits.
- Participation ir departmental seminars
- Demonstration of reading proficiency in a foreign language appropriate to the fieid of study prior to the last semester of enroliment.

## Economics

## Master of Arts

## Thesis Option

A minimum of 30 credits of course work including a thesis equivalent to six credits of the 30 is required. If elected. a thesis must be written in an area of specialization in which the individual has taken at least two courses. Students who elect the thesis option will not have to take departmenta! comprehensive examinations, provided they have completed all core courses with grades of " B " or better

## Non-thesis Option

A minimum of 30 credits of course work is required.
In addition to a specialization (a list of which is available from the department), at least 21 credits under each option must be at the 600 level in economics. The following courses are required:

```
3250.602 Nacroeconomic Anaiysis I
32506!1 MVicroeconomic Theory 
32.50:620 Appications of Mathematical Mocels to Economics.
3250.526 Stalistics for Foconombrrics*
```

Exceptional departures from these requirements may be approved with the permission of the graduate faculty and department head. A comprehensive examination is intended to test the candidate's knowledge of economic theory and the chosen field of specialization.

Labor and Industrial Relations Option**

- Core

3250:5.30 Human Resource Policy 3
$32506: 0$ Framework ot Economics Analysis 3
3250.626 Statistics for Econometrics

3250:633 Theory of Wages and Employment
3250624 Colective Eargaining 1
3250635
Laboi Law 1
Industrial Relations Track (for an individual interested in a career in industrial relations)

3250:635
Colective Bargaining II
3250:63?
Labor Lawil

3
3250606 Public Finance
3250.615 Irdustrial Organization
320.616 Anitrust Policy
$3250.517 \quad$ Economics of Regulation
3250.639 Public Employee Bargaining
3760.610 Inciustrial Psychology
$3850.649 \quad$ Sociology of Work
$\square$
3
3

 ing and writing French.

- Second language requirement: the candidate will be required to demonstrate a reading knowledge of a modern foreign language other than French. Choice of the second language will be left to the student in consultation with an adviser.
- Final comprehensive examinations: the candidate will be required to pass both a written and oral final examination covering all areas of study included in the canaidate's program.

## Geography

## Master of Arts <br> Master of Science

- Complete a minimum of 30 crecitstt (exclusive of research) of which 16 must be in geography courses. A minimum of 12 credits (exclusive of thesis) must be at the 600 level. The 30 credits miust include the following:

| $3350.58:$ | Geographic Research Methods | 3 |
| :--- | :--- | :--- |
| 3350.583 | Spatial Analysis | 3 |
| 3350.687 | History of Geegraphic Thought | 3 |

- Thesis (M.A only) -- four to six credits.
- Statistics (M.S. only) - eight credits.
- Successful completion of a comprehensive examination administered by the departmental committee.
The student who has undergraduate deficiencies in cartography, geographic research techniques and spatial analysis will be expected to remedy these by taking appropriate courses with the advice of the head of the department.
Courses taken outside the department must be approved by the department prior to enroliment.

## Geology

## Master of Science

- Complete a minimum of 30 credits of which at least 10 credits shall be at the 600 level and no more than two in research problems and six in thesis research. take the toliownig courses:

| 3250201 | Principles of Macroeconomics | 3 |
| :--- | :--- | :--- |
| 3250202 | Prinoples of Microeconomics | 3 |
| $3250: 330$ | LaDor Problems | 3 |
| $6500.32 .1 . ?$ | Quantitative Bus. Aralysis 1,11 | 6 |

| 3300506 | Chaucer ${ }^{+}$ | 3 |
| :---: | :---: | :---: |
| 3300570 | History of the Engl:sh Languaget or | 3 |
| 3300.670 | Modern Linguistics $\dagger$ | 3 |
| 3300615 | Snakespearean Drama $\dagger$ | 3 |
| 3300:691 | Eiblography ano Literary Research | 2 |
| 3300699 | Thesis | -6 |

## French

## Master of Arts

- Thirty-two credits of graduate work, which may include a thesis amounting to four credits.
- Core
- literature - 16 credits;
- Culture - eight credits.
-- Inguistics - eight credits.
- A total of 30 credits is required for the degree

Courses taken outside the department mus! be approved (in writing) by the student's adviser prior to enroliment.

## English

## Master of Arls

A minimum of 32 credits is required. of which 17 (exclusive of thesis) must be at the 600 level. Of these 17 credits, 12 must be in literature or literary theory.
6.500 .32 .2 Quantitative Bus. Aralysis I , 11

[^57]- Proficiency examination at the beginning of program to determine weaknesses in undergraduate preparation. The student who demonstrates a lack of basicknowtedge will be required to take appropriate undergraduate courses. Field camp can be taken for graduate credit, however, it will not count toward the 30 credits tor the M.S. in the geology or geophysics options.
- Core requirements.

| $3370: 680$ | Seminar in Geology | 2 |
| :--- | :--- | :--- |
| $3370: 699$ | Thesis Research | 6 |

- Pass comprehensive examination after completion of 18 credits. Examination may be attempted iwice
- Oral presentation and detense of thesis.

## Degree Specialization

The program of each individual will be adapted to his/her career objectives.

## Geology

Equivalents of the geology. cognate science and mathematics requirements for the University's B.S. in geology are required.

## Earth Science

Equivalents of the geology courses for the University's B. A. in geology are required. Course program will be selected to provide the student with a well-rounded background in lithosphere, hydrosphere and atmosphere Those who will be teachers must take 5300:780 Seminar in Secondary Education: Earth Science or equivalent.

## Geophysics

Equivalents of the geology, cognate science and mathematics requirements for the University's B.S. in geophysics are required.

## Engineering Geology

This program is for the graduate engineer and geologist who wishes to broaden expertise in the other field. The entering student who has some deficiencies in either engineering or geology may have to satisfy one or more of the following requirements while proceeding with graduate studies.

| $3370: 101$ | Introduclory Physical Geology | 4 |
| :--- | :--- | ---: |
| $3370: 210$ | Geomorphology | 3 |
| $3370: 350$ | Structural Geology | 4 |
| $3450: 221.2,3$ | Analytical Geometry Calculus I, 41, !l | 12 |
| $4300: 201$ | Statics | 3 |
| $4300: 202$ | Inioduction to Mechanics of Solids | 3 |
| $4300: 311$ | Geotechnical Engineering | 5 |
| Required courses: |  |  |
| 3370:631 | Rocks and Minerals | 4 |
| $4300: 611$ | Fundamentals of Soil Behavior | 2 |
| $4300: 614.5$ | Foundation Engineering !, II | 6 |

## Environmental Geology

Equivalents of the science and mathematics requirements for the University B.S. in geology are required. As many as eight credits may be selected from engineering, biology and/or geography with the approval of a geology adviser.

## History

## Master of Arts

- Admission to the program requires completion of at least 15 semester or 22 quarter credits in history as an undergraduate. Historical Methods or an equivalent should be part of the entering student's preparation. If it is not, this course must be taken at the earliest opportunity but will not be counted toward fulfillment of the graduate credit requirement.
- Satisfactory completion of a minimum of 30 credits of graduate study in history, of which six may be in individual reading courses.
- Three fields of study, one of which must be unrelated to the other two, and two of which must be chosen from among the following fields:

```
Ancient
Medieval
Europe, Renaissance to 1815
Europe, 1815 to the Present
```

England and the Empire

America to 1865
United Slates Since 1865
Latin America
Far East
History of Science

The third field may be chosen from the above history fields or from an approved cognate discipline.

The student must pass an appropriate written examination in two of the three fields. The third field requirement will be met by at least seven credits of work at the graduate level. If the student does not pass an examination unconditionally, the examining faculty may re-examine the student orally or require the student to take another written examination after a lapse of three months. No written examination may be repeated more than once.

- A course in historiography (may be waived it such a course has been taken on the undergraduate level).
- An appropriate foreign language or other research skill shall be required by the student's master's commitee if it is necessary to a student's program of study. A reading knowledge of a foreign language is desirable and may be necessary for admission to a doctoral program.
- At least 16 hours of 600 -level work, exclusive of historiography and individual reading. May be fulfilled in one of the following ways:*

## Option I

Three reading seminars and one writing seminar, with the writing seminar paper read and approved by two faculty members.

## Option II

Two reading and two writing seminar sequences under different professors with the writing seminar paper of the student's choice read and approved by two faculty members.

## Option III

Two reading seminars, one writing seminar and a thesis read and approved by two faculty members.

## Special Summer Program

The department offers a special three-summer M.A. program. Designed primarily for public school teachers, this program makes it possible to schedule the requirement for an M.A. (Option I or Option li) over three summers and the two intervening years.

## Mathematical Sciences

## Master of Science - Mathematics

- Core:

| $3450: 611$ | Algebraic Theories I |
| :--- | :--- |
| 3450.612 | Algebraic Theories it |
| 3450.621 | Functions of a Real Variable ! |
| 3450.622 | Functions o a Real Variable II |
| 3450.692 | Mathematics and Statistics Seminar |
|  | In addition. six credits in a single approved area <br> of concentration in mathematics or siatistics <br> must be completed. |

$3450612 \quad$ Algebraic Theories it 3
3450:621 Functions of a Real Variable 1
$3450.622 \quad$ Functions of a Rea! Variable li

In addition. six credits in a single approved area of concentration in mathematics or siatistics
must be completed.

## Thesis Option (30 credits)

In addition to the core requirements, six to eight credits of 500/600-level mathematical sciences courses and two to four credits in 3450:699 Thesis Research must be completed.

- With the consent of the department, up to six credits of approved graduate-level electives outside the department may be substituted in the thesis or non-thesis option.
- A comprehensive examination, taking the form suggested by the department, must be completed in the thesis or non-thesis option

## Non-thesis Option ( 33 credits)

In addition to the core requirements, 13 credits in 500/600-level mathematical sciences courses must be completed.

[^58]
## Master of Science - Statistics

- Entrance into the program will require the initial completion of the following prerequisites.

3470:561 Applied Statistics, four credits: OR 3470:661 Advanced Behaviorat Statistics, three credits: OR equivalent.
3450:601 Introduction to Analysis, four credits; OR equivalent (may not pe used to meet degree requirements for mathematical sciences majors).
3470:620 Applications of Matrices to Statistics, three credits; OR equivalent.
(May be taken concurrently with 3470.651 Probability and Statistics, four credits.)

- Core requirements:

| 3470.651 | Probability and Statistics |
| :--- | :--- |
| 3470.563 | Experimentai Design |
| 3470.665 | Regression and Cortelation |
| 3450632 | Mathematics and Statistics Seminar |

### 3470.563 Experimentai Design

3450692 Mathematics and Statistics Seminar
Thesis Option (30 credits of graduate work)
In addition to the core requirements. 13 to 15 credits in 500/600-level mathematical sciences courses and two to four credits in 3450 .699 Thesis Research must be completed. at least 10 credits of which must be from the 3470 designation.

Non-thesis Option (33 credits of graduate work)
In addition to the core requirements, 20 credits in $500 / 600$-level mathematical sciences courses must be completed, at least 10 credits of which must be from the 3470 designation.

- A comprehensive examination, taking the form suggested by the department. must be completed in the thesis or non-thesis option
- With the consent of the department. up to six credits of approved graduate level electives outside the department may be substituted in the thesis or non-thesis option.

## Master of Science - Applied Mathematics

- Core:

| 3450610 | Matrix Algebra |
| :---: | :---: |
| 3450621 | Functions of a Real Variable 1 |
| 3450.627 | Advanced Numerica! Analysis I |
| 3450.692 | Nathematics and Statistics Semmar |
| 3470:651 | Probability and Statistics gither |
| $3450: 625$ | Analytic Function Theory |
| 3450633.4 | Continuous Systerts : and ! |
|  | or |
| 3450:635 | Optimizatron |
| 3450.636 | Advanced Combinatorics anc Graph Theory |
| 3470650 | Advanced Probability and Stochastic Processes |

    Advanced Numerica! Analysis I
    Nathematics and Statistics Sominar
        either
    3450:625 Analytic Funclion Theory
3450.633 .4 Continuous Systerns tand lit 6
3450:635 Optimization
$3470650 \quad$ Agvanced Probability and Stochastic Processes 3

## Thes is Option ( $\mathbf{3 0}$ credits)

In addition to the core requirements, three to tive credits in 500/600-level mathematical sciences courses and two to four credits in 3450:699 Thesis Research must be completed.

- With the consent of the department, up to six credits of approved graduate-level work outside the department may be substituted for elective courses in the thesis or non-thesis option.
- A comprehensive examination, taking the form suggested by the department, must be completed in the thesis or non-thesis option.

## Non-thesis Option (33 credits)

in addition to the core requirements, 10 credits in 500/600-level mathematical sciences courses must be completed.

## Philosophy

## Master of Arts

- Attain a minimum of 2.75 grade-point average in undergraduate work, a minımum 2.75 grade-point average in major area, complete the Graduate Record Examinàtion or Miller Analogies Test and secure three letters of recommendation.
- Have completed at least four quarter or semester courses in undergraduate philosophy or a major in some related area. A student swith inadequatc background will be expected to make up the deficiency.
- Complete at least 30 semester credits with a 3.00 cumulative grade-point average
- Complete

3600615 Seminar in the History of Fnilosophy
3 credis) or equivalent in study of
three different philosophers
Value Theory
One course
Logic
One course

- Pass a comprehensive examination in the history of philosophy and two others from the tollowing fields.
- logic. philosophy of science and methocology:
- value theory, including ethics, aesthetics and social and political philosophy;
-- epistemology and metaphysics.
- Demonstrate mastery of a second language by written translation.
- Complete a thesis under departmental supervision atter passing the comprehensive examination.

## Physics

## Master of Science

- Complete a minimum of 30 graduate credits of approved courses in physics. Up to six credits of graduate-level electives outside the department may be included in the program. There is no foreign language requirement for this degree.
- A cumulative grade-point average of 3.00 or better for ail graduate-level credits applicable toward the degree.
- Complete an approved program of courses which includes the following required courses
3650.615 Electromagnetic Theory 1 3

3650625 Ouantum Mechanics 1
3550641 iagrangian Mechanics
3650.66: Statistical Mochanics

3650:551.2 Aavanced Laboratory I, II 4
A student preparing for further graduate work in a physical science of for academic or industrial employment, should include the following courses in the graduate program:

| $3650: 581.2$ | Methods of Nathematical Physics I. II | 6 |
| :--- | :--- | :--- |
| 3650.616 | Electromagnetic Theory "1 | 3 |
| 3650.626 | Quantum Mechanics II | 3 |

A student preparing for teaching secondary school science should include the following courses in the graduate programs:

| $3650: 500$ | History of Physics | 3 |
| :--- | :--- | :--- |
| 3650.504 | Energy aric Environment | 3 |
| 3650.568 | Digitai Data Acquisition | 2 |
| 3650.590 | Workshops (maximum credit) | 6 |

A student must pass a comprehensive examination of a form suggested by the department. This exam consists of two parts, as tollows:
Part I: The basic exam must be passed by all degree candidates. This is a written examination covering the fields of mechanics, electricity and magnetism, optics. thermodynamics and modern physics at the undergraduate level.
Part I!: Completion of at least one of the following options:
Option A: An advanced written examination covering the fieids of quantum physics electricity and magnetism, atomic and nuclear physics, mechanics and experimental physics at the beginning-graduate level.
Option B: A formal report, based upon an original research project, submitted in a form suitable for publication and approved by a physics faculty committee.
Option C: A master's thesis.

- Graduate research participation is strongly encouraged. Up to five credits may be earned in $3650: 697$ Graduate Research, upon the completion of a graduate research project One additional credit may, upon approval by the depariment, be permitted in 3650:699 Master's Thesis Research for the completion of a master's thesis based on such research. A successtulthesis may thus account for up to six of the total of 30 graduate credits required.

## Political Science

## Master of Arts

- Complete 30 credits of graduate work, including 18 credits at the 600 tevel
- As a part of the above, complete a minimum of 15 graduate hours at the 600 level in politicai science, consisting of the following
Five required core courses:

| $3700: 600$ | Scope and Theories of Political Science | 3 |
| :--- | :--- | :--- |
| $3700: 601$ | Research Methods in Political Science | 3 |

Three additional graduate seminars. Neither Independent Research, Thesis, nor Internship is considered a graduate seminar

- Pass a comprehensive examination covering one field to be determined in conjunction with a departmental adviser.
- Complete either of the following

A master's thesis, including six hours of thesis credit (3700:699) in preparation These credits may be presented as part of the overall 30 -credit requirement. Thesis topic and completed thesis must be approved by student's thesis committee.
A non-thesis option, which shall consist of two seminar papers approved by a department committee of three persons chosen by the department head.

## Polymer Science

## Master of Science

- A minimum of 24 credits in appropriate courses in biology, chemistry, mathematics, physics, polymer science and engineering as prescribed by the student's advisory committee
- Completion of a research project (3940:699) and the resulting thesis -six credits.
- Attendance at and participation in seminar-type discussions scheduled by the department.

## Psychology

## Master of Arts

- Fulfill admission requirements of the Graduate School and the following departmental requirements:
- equivalent of psychology undergraduate major including a generat or introductory course, statistics course and experimental psychology course;
- GPA of 3.00 in psychology courses:
- Graduate Record Examination, Aplitude and Advanced Psychology Test;
- two letters of recommendation.
- Course requirements:
- completion of a minimum of 30 credits of graduate psychology courses including the M.A. core courses or equivalents, specialty area required courses and electives as specified in the department's graduate student manual;
- a student is required to maintain at least a 3.00 grade-point average in M.A core courses as well as overall.
- Master of Arts examination (first year):
- thesis option: first year examination covering core course subject area;
- non-1hesis option: written and oral comprehensive examinations in the specialty areas:
- Other requirements
-- reter to the Department of Psychology Graduate Student Manual for additional guidelines:
- complete and fuifill general master's degree requirements of the Graduate School.

## Thesis Option

Completion of a minimum of 30 credits of graduate work including thesis in industrial/organizational, counseling or developmental psychology.

## Non-thesis Option

Completion of a minimum of 30 credits of graduate work with no thesis required. Completion of course work, practicum and examinations in either personnel, counseling or developmental psychology.

## Sociology

## Master of Arts

- Complete three required core courses with at least a 3.00 grade-point average:

| $3850: 603$ | Sociological Research Methods | 3 |
| :--- | :--- | :--- |
| $3850: 604$ | Sociat Research Design | 3 |
| $3850: 617$ | Sociological Theory | 3 |

$3850: 617$
Sociological Theory

$$
3
$$

## Thesis Option

Satisfactory completion of 32 semester credits of which at least 21 must be at the 600 level or higher in sociology or anthropology (excluding $3850: 699 ; 3850: 697$ and $3850: 698$ ). In meeting these requirements the student must:

- Complete five required core courses with at least a 300 grade-point average
3850:603 Sociological Research Metnods 3

3850:604 Social Research Design 3
3850.617 Sociological Theory 3
$3850: 631$ Social Psychology 3
Social Psychology
or
Social Organization 3
3850:706 Multivariate Techniques in Sociology 3

- Complete at least six hours of thesis work (3850.699). No more than six credits witl count toward the degree.
- Compietion of master's thesis and successful oral defense of thesis

## Non-thesis Option I

This degree is intended for the student who wants intensive substantive training in a specialized area
Completion of 32 credits of graduate work with no more than six credits taken at the 500 level. In meeting these requirements the student must:

- Complete four required core courses with at least a 3.00 grade-point average
3850.603 Sociological Research Methods 3

3850:604 Social Research Design 3 3850617 Sociological Thecry 3 3850:631 Social Psychology 3 3850:645 Social Organization 3

- Completion of at least 15 credits in a contracted specialiy area. This area must be defined in consultation with the student's adviser and approved by the Graduate Studies Committee. Courses from other departments may be taken to meet the specialty requirement.
- Pass an oral examination on the specialty area.

## Non-thesis Option /I

This degree is intended for the student who needs rigorous training in the methodologies and techniques of social research. Students pursuing this degree will select one of three options: general research techniques, survey research techniques or evaluation research techniques. Upon completion of this program, students will have a greater exposure to research strategies, techniques and issues than many Ph.D. students experience.
Completion of 32 semester credits of graduate-level course work which must include the following:

- Complete the following required courses with at least a 3.00 average

| $3850: 603$ | Sociological Research Methods | 3 |
| :--- | :--- | :--- |
| $3850: 604$ | Social Research Designs | 3 |
| $3850: 617$ | Sociological Theory | 3 |
| $3850: 631$ | Social Psychology | 3 |
|  | or |  |
| $3850: 645$ | Social Organization | 3 |
| $3850: 706$ | Multivariate Techniques in Sociology | 3 |
| $3850: 711$ | Survey Research Methods | 3 |

- Complete two courses (six hours) under one of the tollowing options:

General research methodology

| 3850.707 | Measurement in Sociology | 3 |
| :--- | :--- | ---: |
| 3850.708 | Advanced Techniques in Research | $1-3$ |
| 3850.709 | Analysis of Sociological Data | 3 |
| 3850710 | Social Sampling | 3 |
| 3850.712 | Experimental and Quasi-Experimental Rescarch | 3 |
| 3850714 | Oualitative Methodology | 3 |
| Survey research methodology |  |  |
| 3850.710 | Social Sampling | 3 |
| 3850.750 | Research: Akron Area Survey | 3 |
| Evaluation research methodology | 3 |  |
| 3850.613 | Sociology of Program Evaiuaton and Program Improvement | 3 |
| 3850.712 | Experimental and Quasi-Experimental Research |  |

- Complete five credits of elective course work.
- Complete a! least three credits of 3850:698 Directed Research culminating in a research paper on a topic approprtate to the student's research methodology option (eg general, survey or evaluation). No more than three credits will count toward the degree. Guidelines for the content of the paper and for selecting the student's research adviser available in the department.
- Pass a two-hour defense of the research paper written for 3850.698 Directed Research.

## Anthropology

There is no graduate degree in anthropology. However, there are many graduate courses available. A student interested in taking such courses for graduate credit must be admitted to the Graduate School through an existing graduate program, or they may apply for special non-degree status through the Department of Sociology. The student should enroll in graduate courses only for specific professional preparation or enhancement and with the permission of the instructor. Inquiries should be directed to the graduate director in the Department of Sociology.

## Spanish

## Master of Arts

- Thirty-two semester credits of graduate work which may include a thesis amounting to four credits.
- Requirement: proficiency level in listening comprehension, speaking, reading and writing Spanish.
- Second language requirement: completion of 202 with a grade of at least $B$ in another language; or a translation from another language. Choice of the second language will be left to the student in consultation with an adviser
- Final comprehensive examinations: the candidate will be required to submit two graduate essays each of which subject to an oral exam.

## Urban Studies

## Masier of Arts

Courses may be taken outside the Department of Urban Studies for the purpose of fulfilling any of the requirements listed below but must be approved by the department prior to registration

Each student will, upon entering the program and in consultation with a faculty adviser. pian a complete course of study.

- Core

3980600
3980.601 Advanced Research and Statistical Methods
3980.602 American Urban Development
3980.690 Urban Studies Seminar

## Basic Program

Complete 34 credits of course work as follows:

- Core - 12 credits.
- Selection of recommended courses - six credits.
- Urban related courses - 16 credits

## Options

## Public Administration

Forty credits of course work (plus internship where applicable) as follows:

- Core - 12 credits
- Other urban studies required courses in public administration -15 credits.
- Selection of recommended courses -- 13 credits.
- Internsnip for the student without professional public employment experience -one to three credits.

## Urban Planning

Forty-eight credits of course work (plus internship where applicable) as follows:

- Core requirements:
$3980600 \quad$ Basic Analytical Research 3

3980:601 Advanced Research and Statistical Methods 3
3980602 American Urban Development 3
$3980690 \quad$ Urban Stuoies Seminar 3

- Planning requirements:
$3350.536 \quad$ Urban Land Use Analysis 3

3980:630 Introduction to Planning Practice and Theory 3
3980.63 t Urban Fachlites Flanning 3
3981.632

Land Use Contro

- Field Methods in Urban and Regional Planning

3980:638 Field Methoos in Urban and Regional Planning Laboratory
Planning Research
Electives.
Four elective courses totaling 12 credits or more should be selected in consultation with the faculty adviser.

- Internship:
3980.695 Required tor students who do not have protessional planning experience

## Joint Programs

Joint Degree Programs in Law and Urban Planning and Law and Public Administration.

The University of Akron offers joint J.D. and Urban Planning and J.D. and Public Administration programs. The titles are: J.D./M.A. Urban Planning and J.D. M A. Public Administration.

To become accepted into the program, a student must meet the admission requirement of the School of Law, the Graduate School and the Department of Urban Studies.

## J.D./M.A. Urban Planning Degree Requirements

Seventy-six credits in law and 33 credits in urban planning.
Under this program, a student must take 43 credits of required law courses, 32 credits of law electives and 33 credits of required urban planning courses plus urban studies internship of one to three credits. (Internship is required of any student without professional planning experience.)

## J.D./M.A. Public Administration Degree Requirements

Seventy-six credits in law and 27 credits in public administration.
Under this program a student must take 43 credits of required law courses, 32 credits of law electives and 27 credits of required public administration courses plus urban studies internship of one to three credits. (Internship is required of any student without professional administrative experience.)

These programs reduce the total existing credit hours of Law School and Urban Studies as follows:

## J.D./M.A. Urban Planning

The law requirements are reduced by nine credit hours from 85 to 76 while urban planning requirements are reduced by 12 credit hours from 45 to 33.

## J.D./M.A. Public Administration

The law requirements are reduced by nine credit hours from 85 to 76 , while public administration requirements are reduced by 13 credit hours from 40 to 27.

# College of Engineering 

Louis A. Hill, Jr., P.E., Ph.D., Dean
Glenn A. Atwood, P.E., Ph.D., Assistant Dean

## DOCTOR OF PHILOSOPHY IN ENGINEERING

Areas of study offered through the College of Engineering include civil, chemical, electrical and mechanical engineering in addition to interdisciplinary programs in biomedical engineering, environmental engineering, materials science, mechanics, polymer engineering, systems engineering and transport processes. In addition to the general requirements of the Graduate School, a student must hold a bachelor's degree in a curriculum accredited by the Accreditation Board for Engineering and Technology at the time of graduation, or provide evidence of an equivalent academic background* to the satisfaction of the dean of the College of Engineering and the department head. An applicant must have completed the equivalent of differential equations, elementary classical physics, principles of chemistry and demonstrate proficiency at the undergraduate level in courses related to the area of intended study. The student must also:

- Successfully complete a qualifying examination before completing either 10 credits of course work after admission in the program or within two semesters after admission into the program. The examination shall cover graduate courses that the student has completed and basic undergraduate topics
- Complete courses in the plan of study deveioped by the student advisory commit tee on the basis of the qualifying examination. A minimum of 90 credits of graduate work. generally 60 for course work and 30 for dissertation, must be earned.
- Pass a candidacy examination which may be taken after 90 percent of the course work specified in the plan of study has been completed
- Register for dissertation credits according to the schedule available from the dean of engineering
- Pass an oral examination in defense of the dissertation.

The student advisory committee shali specify the student's language requirements. The appropriate language is selected on the basis of the student's area of specialization and intended research. A foreign language is not required for all students.
A copy of the Ph.D. in Engineering Program Procedures is available from the dean of engineering.

## JOINT PROGRAM

#### Abstract

Coordination for the M.D. and Ph.D. Degrees Between the Department of Biomedical Engineering, University of Akron and the Northeastern Ohio Universities College of Medicine.

[^59]
## I. Introduction and Purpose

The Department of Biomedical Engineering of The University of Akron and NEOUCOM agree to cooperate to provide a coordinated program for those desiring both the M.D and Ph.D. degrees. It is recognized that such cooperation is to the benefit of both instititions

This coordinated program does not change in any way the requirements for either the M.D. at NEOUCOM or the Pr.D. at The University of Akron. The program allows for the timing of requirements to be met in such a manner that a shorter total time would be required for completion of both degrees than if the degrees were completed separately and individually. This program will also help integrate the knowledge and skills acquired by the student in each of the programs.

## II. Routes of Admission

1. Entry from undergraduate (or master's level) programs in engineering, biology, chemistry, or other pre-medicine into both the M.D. and Ph.D. programs.
2. Entry for the B.S./M.D. Biomedical Engineering program into the M.D and Ph.D. programs.
All students will be required to have completed the following minimum courses and to have taken the MCAT prior to admission into the coordinated M.D. and Ph.D. programs.
M.D. Principles of Chemistry I and II
M.D. Organic Chemistry I and II
M.D. Principles of Biology I and II
M.D.Ph.D. Classical Physics I and II

Ph.D. Statics
Ph.D. Dynamics
Ph.D. Strength of Materials (or Material Science)
Ph.D. Basic Electrical Engineering (or Circuits I \& II)
Ph.D. Calculus I.II,II and Differential Equations.

## III. Structure of Degree Programs

Each individual coordinated degree program will be tailored to suit the background and research interests of the student.
Additional information may be obtained from the Department of Biomedical Engineering at The University of Akron or at NEOUCOM.

## MASTER'S DEGREE

The degrees Master of Science in Chemical Engineering, Master of Science in Civil Engineering, Master of Science in Electrical Engineering, Master of Science in Mechanical Engineering and Master of Science in Engineering are offered.

## Master of Science in <br> Chemical Engineering

## Thesis Option

| 4200600 | Transport Phenomena | 3 |
| :---: | :---: | :---: |
| 4200.605 | Chenical Reaction Engineorng | 3 |
| 4200.610 | Classical Thermodynamics | 3 |
|  | Chemical Engineering Electives** | $\varepsilon$ |
|  | Approved Elecilives | $\varepsilon$ |
|  | Approved Mathematics | 3 |
|  | Thesis | 6 |

[^60]
## Non-thesis Option

| 4200.600 | Transport Phenomena | 3 |
| :--- | :--- | ---: |
| 4200.605 | Chemical Reaction Engineering | 3 |
| 4200.610 | Classical Thermodynamics | 3 |
|  | Chemical Engineering Electives** | 6 |
|  | Approved Electives | 18 |
|  | Approved Mathematics | 3 |

The student must pass a comprehensive examination and is expected to attend and participate in the department seminars.

## Master of Science in Civil Engineering

Areas of study in the department include: structural mechanics, geotechnical, hydraulic and environmental engineering.

## Thesis Option

| Civil Engineering Course Work | 15 |
| :--- | ---: |
| Approved Mathematics or Science | 3 |
| Approved Electives | 6 |
| Thesis | 6 |

The thesis must be satisfactorily defended in an oral examination.

## Non-thesis Option

| Civil Engineering Course Work | 15 |
| :--- | ---: |
| Approved Mathematics or Science | 3 |
| Approved Electives | 12 |
| Special Problem | 2 |

## Master of Science in Electrical Engineering

Areas of study in the department include: computer engineering, control system engineering, power system engineering and related areas

## Thesis Option

| Electrical Engineering Course Work* | 15 |
| :--- | ---: |
| Approved Mathematics | 6 |
| Approved Electives | 3 |
| Thesis | 6 |

The thesis must be defended in an oral examination.

## Non-thesis Option**

Electrical Engineering Course Work* 18
Approved Mathematics 6
Approved Electives
A student must pass a graduate-level oral comprehensive examination which may be taken after 24 credits have been completed

[^61] credits of 500-level courses

- The 36 credits requirement of the non-thesis option will be effective with the new incoming students.
**The elective chemical engineering courses may not include more than three credits of 500 -level courses.

## Master of Science in Mechanical Engineering

There are three main areas of graduate study in mechanical engineering: systems and controls, engineering mechanics and thermal-fluid sciences. Every student in the department will be encouraged to take at least one mechanical engineering course outside the main area of interest. It is the purpose of this course to develop some breadth in graduate education.

The basic requirements are as follows:

## Thesis Option

| Mechanical Engineering Course Workt | 15 |
| :--- | ---: |
| Approved Mathematics | 3 |
| Approved Electivest | 6 |
| Thesis | 6 |

The thesis must be defended in an oral examination.

## Non-thesis Option

Mechanical Engineering Course Workt is
Approved Mathematics 3
Approved Electives** 12
Special Problems

## Master of Science in Engineering

This program is intended for the student whose educational objectives cannot be met by the chemical, civil, electrical or mechanical departmental programs or those who wish to specialize in biomedical or polymer engineering

## Thesis Option

$$
\begin{array}{lr}
\text { Engineering Course Work } & 12 \\
\text { Approved Mathernatics or Science } & 3 \\
\text { Approved Electives } & 9 \\
\text { Thesis } & 6
\end{array}
$$

The thesis must be defended in an oral examination.

## Non-thesis Option

Engineering Course Work 18
Approved Mathematics or Science 3
Approved Electives
3

Appover
2
The overall program is administered by the dean. A student should declare to the dean the intention to study toward the Master of Science in Engineering degree before the completion of 10 graduate credits. Later admission to the program may be granted upon petition to the dean.

Upon admission, the dean will appoint an advisory committee consisting of at least two faculty members selected from the interdisciplinary divisions of the college. The committee members will be from at least two departments. The special problem section and final report must receive the approval of the advisory committee.
Polymer engineering specialization - see Doctor of Philosophy in Engineering.

Don Birdsell, Ph.D., Associate Dean
Walter Yoder, Ed. D. Assistant to the Dean

## DOCTOR OF PHILOSOPHY DEGREE

Programs leading to the Doctor of Philosophy degree in elementary education, secondary education counseling psychology, and guidance and counseling are offered through the Coliege of Education. The degree will be awarded to the student who, in addition to filling the general requirements of the Graduate School, has met the following specific requirements:

- Completion of the Miller Analogies Test.
- A minimum of 90 graduate credits (including a 30 -credit master's program where applicable), including the doctoral dissertation. A student considered deficient in any area may be required to take additional courses
- Completion of a foundation studies program designed to prepare the student before specialization.
- Completion of preliminary examinations on foundation studies and the major field of concentration
- Successful completion of a test in a language judged not to be the student's native tongue:
- a student in the Department of Counseling and Special Education may elect to develop appropriate research skills prescribed by the adviser in lieu of the foreign language requirements,
- a student in the Department of Elementary Education may elect to develop appropriate alternative research skills prescribed by the adviser, subject to review by the department head, depending upon the career goal of the student and upon the academic and/or scientific requirement of the dissertation in lieu of the foreign language requirement;
- a student in the Department of Secondary Education may elect to develop appropriate research skills prescribed by the adviser. subject to review by the department head in lieu of the foreign language requirement
- Completion of at least eight credits in cognate area.
- Completion of final written and oral examinations in the student's major field of concentration.
- Completion of a dissertation comprising not more than 20 credits. The oral examining committee must be constituted of at least five full-time staff members, one of whom must be from outside the College.
- Pass the general requirements for the Doctor of Philosophy degree

## DOCTOR OF PHILOSOPHY IN COUNSELING PSYCHOLOGY

The University of Akron offers a doctoral program in counseling psychology. The program allows the student a choice of emphases-a practi-tioner-scientist model through the College of Education or a scientistpractitioner model through the Buchtel College of Arts and Sciences. Students in both emphases are expected to attain a level of broad scientific competence in the core areas of psychology: the biological, social, cognitive-affective and individual bases of human behavior. Practica and internship experiences are also required of students in both emphases and range from skill building in basic psychological assessment and counseling, to actual work with clients, to a year-long, full-time internship
in an applied service setting. Pertinent information regarding differences in emphasis orientation and course work is included below. Students receive exposure to both colleges through shared course work and facully involvement with dissertations but must choose a specialization in one emphasis. The program in counseling psychology has been constructed so as to lead to APA approval in coming years.

The program is designed for students who hold a master's degree in counseling, psychology or a related field. The practitioner-scientist emphasis provides students with a foundation in substantive areas of psychological theory and research, as well as extensive academic training in counseling specialty areas such as assessment, individual and group counseling, marriage and family therapy, career development and supervision and consultation in counseling psychology. A preventive, developmental and situation crisis orientation to training and professional practice is maintained. Graduates are employed in counseling testing centers in higher education, community and private mental heaith agencies, and other educational and health settings.

Admission to the Joint Program in Counseling Psychology will be handled through the department associated with the student's chosen emphasis.

Departures from the above program may be made only with the approval of the counseling psychology program faculty.

- Practicum-each conducted in own department and evaluated there.
- Internship-2,000 hours post-master's with 1,600 hours over no more than two years
- Psychology Core-3750:610, 620, 630, 640.
- Counseling Psychology Joint Core:
- scientist-practitioner track - 15 credits required including group (5600:653) and introduction to marriage and family ( $5600: 655$ ) with others to be decided upon with adviser.
- practitioner-scientist track - 12 credits required including advanced counseling ( $3750: 706$ ) with other counseling psychology courses to be decided upon with adviser.
- Other course requirements for each track are up to taculty of the track.
- Comprehensive examinations-separate written exams, but shared orals.
- Dissertation-at least one faculty member from each track on the student's committee.
- In the scientist-practitioner emphasis, students must perform at an acceptable level on the qualifying exam over the basic areas of psychology to determine eligibility for M.A.-Ph.D. standing in that program. In the practitioner-scientist emphasis, M.A. students must take the preliminary exam to appraise their current competency level. These exams will be administered by the faculty specific to the student's chosen emphasis.
- Language and residency requirements - these will be completed in accordance with guidelines trom the Graduate School and the appropriate department.

## Counseling Psychology

## Practitioner-Scientist Track

Students may be considered for admission to the practitioner-scientist emphasis in counseling psychology if they have a master's degree in counseling, guidance and counseling, psychology, school psychology or a related field.

- Core requirements ( $P / S-S / P$ Tracks):

3750:612 Psychology Core I 4
3750:620 Psychology Core II
3750:630 Psychology Core III
3750:640 Psychology Core IV
3750/5600:653 Group Counseling
3750/5600:707 Supervision in Counseling Psychology I

- 3

3750/5600:710 Theories of Counseling and Psychotherapy
3750/5600:711 Vocational Behavior
3750/5600:712 Principles and Practice of Intelligence Testing
3750:5600:713 Advanced Seminar in Counseling Psychology
3750/5600:714 Objective Personality Evaluation
3750/5600:715 Research Design in Counseling :
3750/5600:796 Counseling Psychology Practicum Electives (permission of adviser required)
5600:896 Dissertation (minimum)

## DOCTOR OF EDUCATION DEGREE

The Department of Educational Administration offers a program leading to the Doctor of Education degree. This program is designed for persons in public and private educational and quasi-educational organizations. The Ohio City Superintendent Certificate is obtainable.

The Higher Education Administration program is offered by the department and this is designed for persons who wish to pursue a career in college, university or other post-secondary administrative positions. The program addresses such major institutional functions as: administration, academic, student services, finance, planning, development and public relations. A student will have the opportunity to direct studies toward a particular career goal.

## Foundation Studies Education Doctoral Program Requirements*

| Behavioral | Studies |  |
| :---: | :--- | :---: |
| $5100: 620$ | Behavioral Bases of Education | 3 |
|  | or |  |
| $5100: 624$ | Seminar in Educational Psychology | 3 |

| $5-899$ | Dissertation | $10-20$ |

## MASTER'S DEGREE

Programs leading to the degree of M.A. in education, M.S. in education and M.S. in technical education are offered.

The student who expects to earn the master's degree for advancement in the field of teaching must meet the general requirements for admission to the Graduate School and must be qualified to hold a standard teaching certificate. Exceptions to this latter requirement will be made tor the qualified student who does not wish to teach or perform duties in the public schools provided the student presents or acquires an appropriate background of study or experience. The student who expects to earn the master's degree in guidance and administration also should have had successful teaching experience A physical examination may be required if and when indicated. Any student who exhibits a deficiency in English or other skills may be required to correct it before recommendation for an advanced degree.
No more than six credits of workshops or institutes can be used to satisty degree requirements.
The student must complete a minimum of nine credits in foundation studies in education**:

```
5100600 Philosophies of Education 3
5100:602 Comparative and International Education 3
        or
5100:604 Seminar in Cultural Foundations of Education 3
5100:620 Behavioral Bases of Education 3
    or
5100:624 Seminar in Educational Psyonology 3
5100:640 Techmques of Research 3
```

## PROGRAMS

## Counseling and Special Education

Selected program offerings in the Department of Counseling and Special Education are available to a person with or without a teaching certificate. Interdisciplinary programs offered lead to certification by the Ohio State Department of Education and/or a master's degree Program areas include counseling, school psychology and special education. The person who meets program prerequisites and who has earned a master's degree may matriculate as a non-degree graduate student and pursue a program that leads, in selected areas, to certification.

## Classroom Guidance for Teachers

- Foundation Studies courses - nine credits.
- Guidance courses:

$\begin{array}{lll}5600526 & \text { Career Equcation } & 2 \\ 5600.639 & \text { Elementary School Guioance } & 3\end{array}$
5600.633 Secondary School Guidance 3
$5600645 \quad$ Group Testing in Counseliny 3
5600.661 Seminar in Guidance
$5600611 \quad$ Counseling Clinic. Test Iriterpretation
Students in some psychology programs may choose other options. see adviser.
-Must be taken concurrently witn 661

| $5610: 540$ | Developmental Characteristics of Exceptional Individuals <br> or |
| :---: | :---: |
| $5610: 604$ | Education and Management Strategies for Parents of |
| Exceptional Individual |  |

Education and Management Strategies for Parents of Exceptional Individual

- Area of concentration:

A minimum of eight credits may be selected from one of the following (the student may, with adviser approval, propose an area of concentration not listed). The courses in the area of concentration must be selected with, and approved by an adviser.
Middle School Education
Early Childhood Education
School and Community Relations
Curriculum and Instruction
Physical Fitness and Well-Being
Special Education
Computers in Education
Family Ecology
Communicative Disorders
Outdoor Education

## Community Counseling

- Foundation Studies courses - nine credits. (See department handbook for options.)
- Required courses:

| $5600: 600$ | Seminar in Counseling |
| :--- | :--- |
| $5600: 620$ | Topical Seminar: Substance Abuse and Sexuality |
| $5600: 635$ | Community Counseling |

## Elementary Education

## Bilingual Multicultural Education

The major purpose of this program is to provide education majors with the knowledge, skills and attitudes necessary to teach bilingual students

Students may become certified in bilingual multicultural education at either the undergraduate or graduate level. The certification requires that a person also become certified in one of the following areas: elementary education, secondary education. special education or physical education

At the end of the program, the student must demonstrate proticiency in English and a language other than English in order to meet the certification requirements of the Ohio State Department of Education.

Graduate students wishing a master's degree in addition to bilingual multicultural certification may earn a master's degree in multiculturai education by taking additional course work.

The program incorporates course work in the history and philosophy of bilingual multicultural education; linguistics; English as a second language instruction; culture and theories, and practices for teaching bilingual students language arts, reading, mathematics, social studies and science.

- Program requirements:

| 3300.589 | Seminar in English Introduction to Eilingual Lingustics | 3 |
| :---: | :---: | :---: |
| 5630.582 | Characteristics of Culturally Different Youth | 3 |

With the approval of the adviser, the student will select additional courses and/or workshops related to the graduate program.

## Physical Education

Graduate programs in physical education may be designed for students interested in general physical education and teacher preparation. Specialized graduate programs may be designed in cooperation with the student's adviser, and the approval of the dean of Graduate Studies. Such areas of specialization include, but are not limited to, industrial fitness, cardiac rehabilitation, exercise physiology of the adult and aging, exercise sciences and gerontology and heaith promotion/enhancement. The program, totaling 30 credits, is designed to meet the needs of the student relative to graduate study and future employment.

Program

- Foundation Studies -- nine credits
- Required courses:
5550:536 Adapted Physical Education for the Learning
Disabled Child

Administration of Health, Physical Education.
Recreation and Athletics
Curriculum Planning in Heaith and Physical Foucation
Physiclogy of Muscular Activity and Exercise
Measurement and Evaiuation in Physical Education
Supervision of Physical Education
Motivational Aspects of Physical Activity
Field Experience - Master's
or
Master's Problem
or
5550.699 Thesis Research
5550.601 Administration of Health, Physical Education
5550.603

5550605
5550:506
5550:608
5550609
$5550: 695$
$5550: 698$
4-6

- Electives agreed on by the adviser to meet special student needs

## Secondary Education

## Bilingual Multicultural Education

The major purpose of this program is to provide education majors with the knowledge, skilis and attitudes necessary to teach bilingual students.
Students may become certified in bilingual multicultural education at either the undergraduate or graduate level. The certification requires that a person also become certified in one of the following areas: elementary education, secondary education, special education or physical education.
At the end of the program, the student must demonstrate proficiency in English and a language other than English to meet the certification requirements of the Ohio State Department of Education.

Graduate students wishing a master's degree in addition to bilingual multicultural certification may earn a master's degree in multiculturai education by taking additional course work.
The program incorporates course work in the history and philosophy of bilingual multicultural education, linguistics, Engiish as a second language instruction, culture and theories and practices for teaching bilingual students language arts, reading, mathematics, social studies and science.

- Program requirements:

3300:589 Seminar in English: Introduction to Bilingual Linguistics 3
5630:582 Characteristics of Culturatly Different Youth 3
5630:584 Principles of Bilingual Multicultural Education 3
5630587 Techniques for Teaching English as a Second
Language in the Bilingual Classroom
Field experience in bilingual classrooms/settings 3
Select one of the following:
$5630.585 \quad$ Teaching Reading and Language Arts to Bilingual Stuaenis 4
$5630.586 \quad$ Teaching Mathematics, Social Studies and Science
to Bilingual Students
3

## Middle School Education

For elementary and secondary certified teachers, these courses comprise a major area of study within the master's programs in the elementary and secondary education departments. They deal with the middle-grade learner, curriculum and programs. The student should seek advisement within the appropriate department for other requirements peculiar to the elementary and secondary programs.

## Program

- Required courses:

| $5100: 604$ | Cultural Foundations of Education |
| :--- | :--- |
| $5100: 624$ | Psychology of Earty Adolescence |
| 5200.780 | Curriculum Development in Middle School |
| $5300: 625$ | Reading Programs in Secondary School |
| $5300: 780$ | Phitosophy and Organization of Midcle School |
| $5600: 526$ | Career Education/Guidance in Midcle School |

$5100: 624$ Psychology of Early Adolescence
5200.780 Curniculum Development in Miadle School

5300:780 Phitosophy and Organization of Middle School
5600:526 Career Education/Guidance in Midsle Schooi

## Multicultural Education

The purpose of this program is to provide knowledge, skills and attitudes which will enable the educator to design and implement programs that promote the concept of cultural pluralism. Special attention is given to educational programming for the culturally different learner.

## Program

- Required courses

| $5100: 640$ | Techniques of Research |
| :--- | :--- |
| $5300: 780$ | Seminar in Secondary Education* |
| $5600: 645$ | Group Testing in Counseling |
| $5630: 581$ | Multicultural Education in the United States |
| $5630: 582$ | Characteristics of Culturally Different Youth |
| $5630: 686$ | Seminar: Education of the Culturally Different |
|  |  |

## Secondary Education

## Objectives

This program is for middle and junior high school, high school and postsecondary school teachers. Preparation is for the master teacher, department head, supervisor and resource teacher (the physical education major should see an adviser for alternate course requirements). This program also serves the holder of a baccalaureate degree who seeks a teaching certificate

## Program

- Foundation Studies - nine credits
- Secondary education course:

5300:780 | Seminar in Secondary Education: Improvement of |
| :---: |
| Instruction in the area of concentration |

- Ten credits from the following:

| $5300: 619$ | Secondary Curriculum and Instruction | 2 |
| :--- | :--- | ---: |
| $5300: 625$ | Reading Programs in Secondary Education | 3 |
| $5300: 695$ | Field Experience | $1-6$ |
| $5300: 698$ | Master's Problem | $2-4$ |
|  | or |  |
| $5300: 699$ | Thesis Research | $4-6$ |
| $5300: 721$ | Supervision of Instruction | 2 |
| $5300: 780$ | Seminar: Secondary Education | 2 |

Topics: Senior High
Middle and Junior High School
Computer-Based Education
Individualized Instruction
5400:505 Vocational Education for Youth and Adult

- Area of concentration ( 500 level or above) - 10 credits

Course selections are made by student and adviser in accord with the student's professional interests. Possible areas of concentration include:

Subject Matter Specialist (mathematics, English)
Middle school education
Reading specia/ist (certification program)
Economic education
Mini-computer applications
Business education supervisor (certification program)

- Electives - two to four credits.

## Technical Education

The major objective of the technical education program is to prepare the instructor and other educational personnel for post-secondary educational institutions, industry and public and private agencies engaged in the education and training of technicians and middle-level workers. The major requires completion of 32 credits.

## Program

- Foundation Studies - nine credits.
- Professional technical education courses:

| $5400: 510$ | The Two-Year College <br> or | 3 |
| :--- | :--- | :--- |
| $5400: 505$ | Vocational Education for Youth and Adults | 3 |
| $5400: 521$ | Instructional Techniques in Technical Education | 4 |
| $5400: 530$ | Course Construction in Technical Education | 2 |

- Teaching internship:

The stucent entering the program without teaching experience is required to take a teaching internship at a cooperating two-year institution.
S400:690 Internship: Teaching Vocational Education
nternship: Teaching Technical Education or
5400:691 Internship: Teaching Technical Education
5400:692 Internship: Post-Secondary Education

- Elective credits may support the field of specialization, add to general education or be professional education courses - zero to four credits.
- A comprehensive examination is required.

Options (Select one for a total of 8-13 credits.)

## Teaching

An approved schedule of technical courses selected from the Graduate School offerings. Course selections will be determined by the student's academic and professional background.

Guidance Oplion A (must be followed in sequence)

| $5600: 643$ | Counseling: Theory and Philosophy | 3 |
| :--- | :--- | :--- |
| $5600: 651$ | Techniques of Counseling | 3 |
| $5600: 653$ | Group Counseling | 3 |

5600:675

Guidance Option B

| $5600: 635$ | Community Counseling | 3 |
| :--- | :--- | :--- |
| $5600: 647$ | Career Counseling: Theory and Practice | 3 |
| $5600: 645$ | Group Testing in Counseling | 3 |
| Select one of the following: |  |  |
| $5600: 649$ | Counseling and Personnel Services in Higher Education | 3 |
| $5600: 526$ | Career Education | 2 |
| $5600: 610$ | Counseling Skills for Teachers | 3 |

## Curriculum and Supervision

| $5700: 609$ | Principles of Curriculum Development | 3 |
| :--- | :--- | :--- |
| $5700: 610$ | Principles of Educational Supervision | 3 |
|  | Elective in Curriculum or Supervision | 2 |

Vocational Home Economics - Family Life (eight to nine credits)
Vocational Home Economics - Child Care and Development (Job Training Specialization) (eight to nine credits)

# College of Business Administration 

James W. Dunlap, Ph.D., Dean

Kenneth E. Mast, D. B.A... Assistant Dean
E. Lee Wilson, M. B.A./C.M. A., Assistant to the Dean

## MASTER'S DEGREE

The College of Business Administration (CBA) affers graduate programs which lead to the degrees of Master of Business Administration. Master of Science in Accounting. Master of Science in Management and Master of Taxation in Accounting. The University has offered programs of study in business since 1919, initially through the Department of Commerce and since 1953 through the College of Business Administration. In 1958 , graduate studies in business were begun. Both the undergraduate and master's programs are accredited by the American Assembly of Coliegiate Schools of Business (AACSB).
During its long tradition, the college has sought to fulfill the educational and professional needs of its 450 graduate students, the community and regional business organizations. To meet its urbanobjectives, the college offers graduate courses only between $5: 00 \mathrm{p} . \mathrm{m}$. and 10:30 p.m. The master's programs are designed to service those who work full-time and wish to pursue a master's program on a part-time basis.

## Admission

## Policy

The applicant must meet one (1) of the following eligibility requirements which are in conformity with the Graduate School and the college's accreaiting agency (AACSB)

- Hiold a domestic baccalaureate degree from a regionally accredited college or university and have a total index score of 1,000 or more points based upon the overall undergraduate grade-point average (GPA) ( $\mathrm{A}=4.0$ ) times 200 plus the Graduate Management Admissions Test (GMAT) score.
- Hold a domestic baccalaureate degree trom a regionally accredited college or university and have a total index score of 1.050 or more points based on the junior-senior (i.e., last 64 semester or 96 quarter credits) GPA ( $\mathrm{A}=4.0$ ) times 200 pius the GMAT score in rare instances, the applicant who has taken the GMAT but does not meet requirements may be considered for admission. Also, those who have previously been denied admission may. upon presentation of new information, be reconsidered In either case, the applicant must petition, in writing, the CBA Graduate Admissions Committee giving those reasons relevant to the situation which demonstrate the likelihood of success --the burden of proof is on the applicant.
- Hold a degree from outside the United States and have an academic standing of first or high second class, satisfactory evidence of competence in English (i.e., TOEFL score of 550 or above) and a score of at least 450 on the GMAT.

## Procedure

GMAT scores should be sent to the director of Graduate Programs in Business, College of Business Administration, The University of Akron, Akron, OH 44325 (institution code 1829). Since the GMAT test is administered worid-wide only four times per year, the applicant should register for it sufficiently in advance to the filing of the graduate application, so evaluation for admission will not be delayed. GMAT registration bulletins can be obtained from the Graduate Programs in Business Office or the

Educational Testing Service, Box 966-R, Princeton, NJ 08540. Those who have taken the GMAT (formerly calied the ATGSB) more than five years ago are required to retake it.
Even though an applicant is eligible for consideration, an offer of admission is not guaranteed Since staff, facilities and resources are limited, a determination must be made as to the number of applicants who can be adequately serviced among those eligible. As a result, offers of admission may be limited to only the most qualified of the eligible applicants as determined by the CBA Graduate Admissions Committee. The committee will consider the following in making decisions: the difficulty of the applicant's undergraduate program; the length of time and activities since graduation; the percentile ranking on the GMAT. Applicants are expected to score at least in the 55th percentile on the GMAT - approximately 480 -- in order for an offer of admission to be extended.
All applications and accompanying documentation are evaluated simultaneously by the Graduate Admissions Committee (GAC). The GAC meets only four times, approximately four weeks atter each GMAT date. The applicant will be informed in writing of the GAC's decision after approximately one week
Under the regulations of the Graduate School, eligible applicants who have been extended an offer of admission by the CBA Graduate Admissions Committee are recommended to the dean of the Graduate School for either "full" or "special" graduate status. Those admitted with the classification "special graduate status" who have not attained an overall 3.00 GPA upon the completion of 12 graduate credits will be dismissed from the program

## Requirements

To De awarded any master's degree from the College of Business Administration, a student must

- Meet the time and grade-point requirements of the Graduate School
- Complete the minimum credits in each of the degree descriptions.
- Complete all course requirements of applicable master's program.

## Master of Business Administration

## Joint Programs

The School of Law and the College of Business Administration (CBA) offer a joint program in legal and administrative studies (J.D./M.B.A.) and a joint program in legal and taxation studies (J.D./M.Tax.). These combinations are open to the student preparing for a career in such areas as corporate law, tax accounting or legal practice in government. The amount of time required to complete a joint degree program is shorter than the time required to complete both programs independently. To pursue either cooperative program, the student must apply to and be accepted by both the School of Law and the Graduate School of the CBA. The student should contact each school independently for information covering admission criteria and procedures (for further information on School of Law admissions, write: Director of Admissions, School of Law, The University of Akron, Akron, OH 44325). A baccalaureate degree is required.

## Degree Requirements

A student is required to fulfill the requirements of the School of Law (75 credits plus 10 credits transferred from the CBA. The requirements of the CBA may be met by fuffilling the requirements previously listed which include the common body of knowledge (Phasel) courses (18-27 credits unless waived because of prior undergraduate credits earned) and 24 credits for M.Tax. or 30 credits for M.B.A. of advanced courses in the CBA plus six credits transferred from the School of Law. The reciprocal acceptance of course credits by each school is the essence of the joint programs. All law courses used to fulfill CBA requirements must be approved by the director of Graduate Business Programs prior to completion. To earn both degrees, a total of 99 (J.D./M.Tax.) or 105 (J.D./M.B.A.) credits is required, depending on the master's program pursued. More credits may be required for the master's degree if courses (Phasel) are required.
Upon the approval of the director of Graduate Programs in Business, 10 credits of School of Law courses may be applied toward the Masters of Taxation degree. No more than six credits from the School of Law may be in non-tax courses. The other four credits taken in the School of Law must be in tax courses which substitute for equivalent tax courses in the CBA.

## MASTER'S DEGREE

## Home Economics and Family Ecology

A program of study is offered leading to the Master of Arts in Home Economics and Family Ecology degree with an emphasis in either family deveiopment or child development. Prior to acceptance in the program, the student must meet the following conditions:

- The general requirements for admission to the Graduate School.
- The standard requirements for an undergraduate major in the proposed area of graduate study or preparation which has been accepted as equivalent by the department head and the department graduate faculty.

In addition to the above, the student will be expected to comply with the following requirements:

- Compiete the course of study in one of the two options: child development or family development with a minimum of 40 credits. These credits will include:
- toundation courses to prepare the student for research in home economics and tamily ecology as a discipline;
- core courses in the area of specialty;
- eiectives selected from within the department or from another discipline to strengithen student's professional goals. These courses will be selected in consultation with and approval from the student's graduate faculty adviser.
- Complete a thesis or an internship. The thesis option involves the design and evaluation of original research in an appropriately related area commensurate with the student's backgrcund and area of pursuit. The research may involve a creative. historical or experimental design. The internship option involves the design, development. implementation and evaluation of original and creative programs and/or resource materials pertaining to family and/or child development. Part of the internship experience may take place in a community-based agency which serves families and/or children. A written proposal for the thesis or internship option must be submitted at the completion of approximately 20 credits of graduate study.
- Fass a written comprehensive examination over major and minor areas atter the completion of at least 24 credits of graduate work.
- Apply for advancement to candidacy upon successful completion of 25 credits of graduate study, the written comprehensive examination and an approval prospectus for a thesis or internship.
- Pass an oral examination covering the thesis or internship report.

## Foundation Courses

|  |  | Credits |
| :---: | :---: | :---: |
| $7400: 600$ | Evaluation of Home Economics Literature | 3 |
| 7400675 | Conceptual Frameworks in Family Ecology | 3 |

- One graduate-level research course to be approved by the adviser.

## Suggested courses include:

3850.604 Social Research Design 3
$3980600 \quad$ Basic Analytical Research
3
3
$5100: 640$ Techniques of Research 3

- Internship or Thesis (select one)
$7400695 \quad$ Internship-student must have $7400: 395$
Community Involvement or equivalent Community Involvement or equivalent 5
7400699 Thesis

## Child Development Option

- Core courses:

Select 16 credits from the following courses:*
7400:504 Aaolescence in the Family Context 3
7400:560 Organization and Supervision of Chila-Care Centers
$\begin{array}{ll}7400: 596 & \text { Parenting Skills } \\ 7400: 605 & \text { Deveiopmental Parent-Child interactions }\end{array}$
$7400610 \quad$ Chid Development Theories
7400:616 Infant and Child Nuirition
7400.660 Programming for Chitd-Care Centers

7400:665 Development in infancy and Early Chitdhood

- Electives - - nine credits. ${ }^{* *}$

## Family Development Option

- Core courses:
$7400.602 \quad$ Family: Life-Span Perspective 2
$7400605 \quad$ Develoumental Parent-Chita Relations 3
$7400607 \quad$ Farnily Dynamics
$7400651 \quad$ Family and Consumer Law 3
- Electives -- 15 credits.**

## Music

The degree Master of Music is offered by the Department of Music with options in music education, performance, composition, theory, music history and iiterature, and accompanying. Entrance requirements for each program are as follows:

- The standard requirements for an undergraduate major in the area of proposed graduate specialty or pertormance which the department head approves as equivalent to an undergraduate major.
- The Graduate Schooi's requirements for admission
- The performance and accompanying options require an audition on the stuoent's major instrument/voice. Please contact the coordinator of Graduate Studies for an audition time.
- For the composition option, compositions representing the applicant's techniques are required.
- The options in music education, music theory, and music history and iterature require an interview with the coordinator of Graduate Studies and faculty in the appropriate area
The student should consult with the coordinator of Graduate Studies in Music for additional information regarding the individualized nature of each option.
For the Performance Option in Voice a proficiency equal to two semesters each of Italian, German and French are required for completion of the Master of Music Degree in Voice Performance. If the student lacks background in any of these languages, auditing of undergraduate courses is required.
After completion of all course work, the student must pass an examination covering the graduate program. This examination is individualized for each candidate's unique prograrm.

## Composition Option

- Music core courses - eight credits (to be selected):

| $7500: 555$ | Advanced Conducting: Instrumentai | 2 |
| :--- | :--- | :---: |
| 7500.556 | Advanced Conducting Choral | 2 |
| 7500.615 | Musical Styles and Aralysis I (Chant through Paiestrina) | 2 |
| 7500.616 | Musical Styles and Analysis il (Baroque through |  |
|  | early Beethoven) | 2 |
| $7500: 517$ | Musical Styles and Analysis Ili (Late Beethoven |  |
| $7500: 619$ | through Mahler/Strauss) | 2 |
|  | Theory Pedagogy | 2 |

[^74]- Major required courses -- 21-23 credits

| 7500601 | Choral Literature | 2 |
| :--- | :--- | ---: |
| 7500.618 | Musical Styles and Analysis IV (20th Century) | 2 |
| 7500624 | Historical Survey Music of the 20th Century | 2 |
| 7500647 | Masters Chamber Recital | 1 |
| 7500699 | Thesis Research/Recital Document | $4-6$ |
| $75106-2$ | Ensemble (participation in two ensembles required) | 2 |
| 7520642 | Appiea Composition | 8 |

- Additional music courses - zero to two credits.

Graduate-level (music) courses, workshops. applied lessons (other than in composition) and/or advanced problems to be selected by the siudent and adviser

- Electives - three credils.

To be selected by student and adviser. Areas include graduate-level courses in other discipliries, such as theatre arts, for which the student meets requirements and permission of instructor, or 7520.6742 Applied Composition. Degree total: $34-36$ credits.

## Music Education Option

- Thesis option - 32 credits.

Appropriate courses in music, music education, advanced probtems. workshops, applied music and electives as determined by student's advisary committee
Thesis

- Non-thesis option - 34 credits.

Appropriate courses in music. music education, advanced problems. workshops applied music and electives as determined by student's advisory committee.

## Music History and Literature Option

- Music core courses - eight credits (to be selected):

| 7500.555 | Advanced Conducting: Instrumental |
| :--- | :--- |
| $7500.55 n$ | Advanced Conducting: Choral |
| 7500.618 | Nusical Styles and Analysis iV (20th Century) |
| $7510.6-$ | Ensemble (participation required in two ensembles) |
| 7500.697 | Advaniced Probiems in Music |

7500.55 . Advanced Conducting: Choral
7500.618 Musical Styles and Analysis iV (20th Century)

7500:697 Advanced Probiems in Music

## Performance Option in Winds, String and Percussion

- Music core courses: eight credits (to be selected):

| 7500:555 | Advanced Conducting: Instrumental |  |
| :---: | :---: | :---: |
| 7500:556 | Advanced Conducting Choral | 2 |
| 7500:615 | Musical Styles and Analysis I (Chant through Palestrina) |  |
| 7500:616 | Musical Styles and Analysis II (Baroque through early Beetrover) |  |
| 7500:617 | Musicat Styles and Analysis ill (Late Beethoven through Mahler/Sirauss) |  |
| 7500:621 | Historical Survey: Music of the Middle Ages and Renaissance |  |
| 7500:622 | Historical Survey: Music of the Baroque |  |
| 7500:623 | Historical Survey: Music of the Classic and Romantic Eras |  |
| 7500:624 | Historical Survey: Music of the 20th Century |  |
| - Major required courses - 16-18 credits: |  |  |
| 7500:618 | Musical Styles and Analysis iV (20th Century) | 2 |
| 7510:6- | Ensembie (participation in two ensembles required). | - 4 |
| 7520:6-- | Applied Music (select appropriate instrument) |  |
| - Select one of the following as appropriate to major instrument: |  |  |
| 7500:630 | Teaching and Literature: Brass mintruments | 2 |
| 7500:631 | Teaching and Literature: Woodwind Instruments | 2 |
| 7500.632 | Teaching and Literature: Percussion Instruments | 2 |
| 7500:634 | Teaching and Literature: String instruments | 2 |
| 7500:698 | Graduate Recital | 2 |

- Additional music courses - six credits.*

Graduate-level (music) workshops, applied lessons, advanced problems and/or courses to be selected by student and adviser.

- Electives - four credits.*

Areas may include graduate-level courses in other disciplines, such as theatre arts, in which the student obtains permission of instructor, or additional music courses, as determined by the student and his adviser
Degree total: 34-36 credits.
Note: No more than a total of 16 credits of 7520 courses may be applied to the degree.

[^75]158 The University of Akron

## Performance Option in Voice

- Music core courses: eight credits (to be selected):

| 7500:555 | Advanced Conducting: Instrumenta |
| :---: | :---: |
| 7500:556 | Advanced Conducting: Chora! |
| 7500:615 | Musical Styles and Analysis I (Chant inrough Palestrina) |
| 7500.616 | Musical Styles and Analysis ! (Baroque through early Beethoven) |
| 7500617 | Musical Styles and Analysis ItI (Late Beethoven itrough Mahler/Strauss) |
| 7500:621 | Historical Survey: Music of the Middle Ages and Renaissance |
| 7500:622 | Historical Survey: Music of the Baroque |
| 7500:623 | Historical Survey: Music of the Classic and Romantic Eras |
| 7500:624 | Historical Survey Music of the 20th Century |2

7500:556 Advanced Conducting: Chora!2
$7500.616 \quad$ Musical Styles and Analysis II (Baroque through early Beethoven)

Musical Styles and Aralysis it! (Late Beethoven through
7500:621 Historical Survey: Music of the Middle Ages and Renaissance
2
$7500: 623$ Historical Survey: Music of the Classic and Romantic Eras
7500:624 Historical Survey: Music of the 20th Century

- Major required courses - 20-22 credits:

7500:618 Musical Styles and Analysis IV (20th Century)
7500:665 Vocal Pedagogy
7500:666 Advanced Song Literature
7500:698 Graduate Recital
7510:6-- Ensemble (participation in two ensembles required)*
7520:624 Applied Voice

- Additional music courses - two credits (suggested minimum).

Graduate-level(music) courses, workshops, advanced problems and/or applied lessons, to be selected by student and adviser.

- Electives - four credits.

Areas may include graduate-level courses in other disciplines, such as theatre arts, in which the student obtains permission of instructor, or additional music courses, as determined by the student and adviser
Degree total: 34-36 credits.

## Performance Option in Keyboard

- Music core courses. eight credits (to be selected):

| $7500: 555$ | Advanced Conducting: Instrumental | 2 |
| :--- | :--- | :--- |
| 7500.556 | Advanced Conducting: Corai | 2 |
| 7500.615 | Musical Styles and Analysis I (Chant through Palestrina) | 2 |
| 7500.616 | Musical Styles and Analysis I (Baroque through early Beethoven) | 2 |
| $7500: 617$ | Musical Styles and Analysis III (Late Beethoven through |  |
| 7500.621 | Mahler/Strauss) | 2 |
| $7500: 622$ | Historical Survey: Music of the Middle Ages and Renaissance | 2 |
| 7500.623 | Historical Survey: Music of the Baroque | 2 |
| 7500.624 | Historical Survey Music of the Classic and Romantic Eras | 2 |
|  | Historical Survey: Music of the 20th Century |  |

- Major required courses - 18-21 credits:

| 7500618 | Musical Styles and Analysis IV (201h Century) | 2 |
| :---: | :---: | :---: |
| Select either 7500:562 or 7500:633 |  |  |
| 7500:562 | Repertoire and Pedagogy: Organ or | 3 |
| 7500:633 | Teaching and Literature: Piano and Harpsichord | 2 |
| 7500697 | Advanced Problems in Music | 2 |
| 7500:698 | Graduate Recital | 2 |
| 7510:614 | Keyboard Ensemble (participation in two ensembles required)* | 2-4 |
| 7520:6-- | Applied Music (piano, organ and/or harpsichord) | 8 |

- Additional music courses - three to four credits

Graduate-level (music) courses, advanced problems, workshops and/or applied lessons, to be selected by the student and adviser.

- Electives - four credits.

Areas may include graduate-ievel courses in other disciplines, such as theatre arts, for which the student obtains permission of insiructor. or additional music courses, as determined by the student and adviser.
Degree total: $34-36$ credits.

[^76]
## Theory Option

- Music core courses - six credits (to be selected)
7500.553 Bibliography and Fesearch 2
$7500: 555 \quad$ Advanced Conducting: Instrumentai 2
7500.556 Advanced Conducting: Choral
7500.621 Historical Survey: Music of the Middle Ages and Renaissance

7500:622 Historical Survey: Music of the Baroque
2
7500.624 Historical Survey: Music of the Classic and Romantic Eras

- Major required courses - 26-28 credits:
$7500.615 \quad$ Musical Styles and Analysis I(Chant through Palestrina) 2
$7500.616 \quad$ Musical Styles and Analysis il (Baroque through early Beethoven) 2
$7500617 \quad$ Musical Styles and Analysis III (Late Beethoven through
7500618 Musical Styles and Analysis IV (20th Century)
7500619 Theory Pedagogy
$7500697 \quad$ Advanced Froblems in Music
$7500.099 \quad$ Advanced Problems in Music 2
7500:699 Thesis Research/Recital Document 4-6
7510:6-- Ensemble (participation in two ensembles required) 2
7520:642 Applied Composition 2
- Additional music courses - zero to two credits.

Graduate-level (music) workshops, applied music (other than composition), advanced problems, and/ or courses to be selected by student and adviser.
Electives - zero to two credits.
To be selected by student and adviser. Areas include graduate-level courses in other disciplines in which student obtains permission of instructor or 7520:642 Applied Composition.
Degree total: 34-36 credits.

## Communication

The Department of Communication offers the Master of Arts degree in a coordinated program of commurication arts. The program is as follows:

- Meet the general requirements for admission to the Graduate School.
- Have undergraduate course work required for a major in the chosen area of concentration. Complete a thesis, project/production. The student may enroll for thesis credit only after passing all parts of the written comprenensive examination and completing an acceptable thesis prospectus.
- Complete a written qualifying examination over departmental course work taken before advancement to candidacy. At the completion of 24 credits of work, the student should contact the director of graduate studies to arrange the examination.
- Earn a minimum of 32 semester crecits plus one to four credits for the thesis, project/production.
The program is as follows:
- Core:

7600600 Introduction to Graduate Study in Mass Media-Communication 6
$7600: 603$ Empirical Research in Mass Media-Communication 3
7600:624 Survey of Communication Theory 3
7600625 or $\quad$ O
Theories of Mass Communication 3
7600:670 Communication Criticism 4

- Thesis/Project/Production:

Each student, atter passing comprenensive examinations, must register for four credits of Thesis/Project/Production. The requirement is designed to be the culmination of the student's acadermic program and involves the conception, design and execution of an academic problem in a manner which requires a high level of substantive, methodological and writing skills. These skills may be demonstrated in any of three types of activity, depending on the student's background and orientation.

- Departmental electives - 10 credits.
- Electives - six credits.

## Theatre

The following will qualify the student in the field of theatre.

- Complete the general requirements for admission to the Graduate School.
- Complete an undergraduate major in the area of proposed graduate work or equivalent work as approved by the coordinator of the graduate theatre program.
- Complete a minimum of 36 credits, including 7800:600 and 7800:699, from the following courses or approved courses in the cognate field.

| 7800:562 | Playwriting | 2 |
| :---: | :---: | :---: |
| 7800:567 | Contemporary Theatre Styles | 3 |
| 7800:568 | Children's Theatre | 3 |
| 7800:590 | Workshop in Theatre Arts (may be repeated to eight credits) | $1-3$ |
| 7800:600 | Introduction to Graduate Studies in Theatre Arts (required) | 1 |
| 7800:603 | Special Topics in Theatre Ars/Dance | 2 |
| 7800:641 | Froblems in Directing | 3 |
| 7800:642 | Problems in Contemporary Acting | 3 |
| 7800:658 | History of Technical Production | 3 |
| 7800:659 | History and Theory of Stage Lighting | 3 |
| 7800:660 | Advanced Technical Theatre | 2 |
| 7800:661 | Seminar in Stage Costume Design | 3 |
| 7800:662 | Seminar in Scene Design | 3 |
| 7800:663 | Seminar in American Theatre | 2 |
| 7800:665 | Audience for Arts: Research/Analysis | 2 |
| 7800:666 | Introduction to Arts Management | 2 |
| 7800:667.8 | Studies in Dramatic Practice I, 11 | 6 |
| 7800.690 | Graduate Research/Readings | 1-9 |
| 7800699 | Thesis Research/Production Document | 4-6 |
| 7810:601 | Production Practicum/Design/Technology (may be repeated to four credits) | 1-2 |
| 7810:605 | Performance Practicum (may be repeated for a total of 12 credits) | 1-2 |

- Complete an oral defense of the thesis.

## Arts Management Option

- Complete a minimum of 36 credits.
- Required theatre courses:

| $7800: 600$ | Introduction to Graduate Studies in Theatre Arts | 1 |
| :--- | :--- | ---: |
| $7800: 665$ | Audiences for the Arts: Research/Analysis | 2 |
| $7800: 666$ | Introduction to Arts Management | 2 |
| $7800: 691$ | Seminar: The Role of Arts Administrator | 3 |
| $7800: 692$ | Legal Regulations and the Arts | 2 |
| $7800: 698$ | Arts Management Internship | $1-3$ |
| $7800: 699$ | Thesis Research/Production Document | $4-6$ |

| - Electives in Dusiness: |  |
| :--- | :--- |
| $6200: 601$ | Financial Accounting |
| $6400: 602$ | Managerial Finance |
| $6500: 600$ | Management Concepts, Practices and Theory |
| $6500: 652$ | Organizational Behavior |
| $6600: 600$ | Managerial Marketing |
| $6600: 620$ | Strategic Marketing Management |
| $6600: 640$ | Marketing Information Systems and Research |
| $6600: 655$ | Marketing Communications |
| Electives in urban studies: | 3 |
| $3980: 610$ | Urban Politics |
| $3980: 611$ | Urban Administration |
| $3980: 640$ | Fiscal Analysis |
| $3980: 680,1$ | Topics (such areas as culturat policy and |
|  | 3 |
| $3980: 695$ | personnel management) |

- Related fields:

Options here include work in computer science. grantsmanship and advertising/promotion.

- Complete an oral defense of the thesis project.

See the coordinator of Theatre Area Graduate Program regarding the M.A. in theatre.

## Communicative Disorders

This program, leading to the M.A. in communicative disorders, is designed to lead to professional certification by the American Speech-LanguageHearing Association (ASHA) in speech pathology and/or audiology. To enter the program:

- Complete requirements for admission to the Graduate School.
- Hold an undergraduate major in the area of proposed graduate specialty or complete undergraduate work within one calendar year of application.
- Complete department requirements for admission which include submission of three letters of recommendation and Graduate Record Examination Aptitude Test results.
- Declare intent to major in either speech pathology or audiology.

Speech pathology majors are accepted upon meeting requirements. Audiology majors are limited to the number who can be adequately serviced with existing faculty, facilities, equipment and practicum sites. Applications will be ranked and offers of admission made to the most qualified. Audiology majors will only be admitted during the fall semester. Deadline for applications is March 1 of the preceding academic year.

## Degree Requirements

- Complete a course of study with a minimum of 34 credits, including thesis - or with a minimum of 38 credits in the non-thesis option. The student anticipating dual ASHA certification in speech pathology and audiology may need to complete eight or more credits in the non-thesis option. Academic requirements within the department include:

| 7700.611 | Research Methods in Communicative Disorders I | 3 |
| :---: | :---: | :---: |
| 7700:612 | Research Methods in Communicalive Disorders II or | 2 |
| 7700:699 | Research and Thesis | 4-6 |
| 7700:650 | Advanced Clinical Practicum: Differentiai Diagnosis | 1 |
| Two credits must be taxen from the following: |  |  |
| 7700:651 | Advanced Clinical Practicum: Voice | 1 |
| 7700:652 | Advanced Clinical Practicum: Fluency | 1 |
| 7700.654 | Advanced Clinical Practicum: Diagnostic Audiology | 1 |
| 7700:655 | Advanced Clinical Practicum: Articulation | 1 |
| 7700:656 | Advanced Clinical Practicum: Language | 1 |
| 7700:657 | Advanced Clinical Practicum: Rehabilitative Audiology | 1 |

The student must take four credits of 7700:695 Externship: Speech Pathology and Audiology. The audiology major must take four credits in speech pathology. The speech pathology major must take four credits in audiology. It is recommended that the speech pathology major elect 7700:639 Advanced Clinical Testing as the first of the audiology courses.

- The following limitations on work toward the degree may be exceeded only with approval of two-thirds of the department's graduate faculty:
- no more than four credits of workshop courses;
- no more than six credits of directed study course work (including 7700:697); and
- no more than six credits taken in disciplines other than communicative disorders.
- Only seven credits of clinical practicum credit (four credits of externship plus three credits of in-house practicum) may be applied toward completion of degree requirements, although the student may wish, or be required, to repeat one or more of these practicums. Students must be registered for at least one credit of clinical practicum during any academic period in which they are involved in in-house practicum.

## Social Work

There is no graduate degree in social work. A student interested in course work may enroll if admitted to Graduate School through other programs or may apply for special non-degree status through the Department of Social Work. A student should enroll in graduate courses only for specific professional preparation and with the permission of the instructor. Courses presume a background in social welfare institutions, social work practice, social welfare policy and history. Inquiries should be directed to the head of the department.

## MASTER OF SCIENCE IN NURSING

## Philosophy

The philosophy of graduate education in nursing evolves from the undergraduate philosophy. Undergraduate education's primary focus is man, the individual within the family. The undergraduate program prepares a nurse generalist who provides health care to individuals, families and groups in any setting. The focus of graduate education is the family unit comprised of individuals viewed as enfamilied selves. In undergraduate education health is viewed on a continuum of health/diminished health and as a purposeful interaction with ecological variables which seeks to maintain a state of well-being. In graduate education health is viewed as an evolving process which occurs throughout the life span of entamilied selves in interrelationship with the ecosystem. Family health is perceived as expansion of consciousness of enfamilied selves.

Undergraduate education prepares a generalist who is capable of practicing in any environment and provides a foundation for research, continued study and leadership. Graduate education prepares a family-health nurse specialist who impiements the role of family-health nurse by assisting families to experience health in any environment and who generates family-health nursing knowledge through research. This educational process provides the foundation for doctoral study in nursing. Graduate education prepares this specialist for leadership in administration, education and/or direct care with families. Undergraduate education focuses on man's interaction with ecological variables whereas graduate education focuses on the family as a unit within an ecological-phenomenologica! perspective.

Assumptions from theories of ecology and phenomenology provide an ecological-phenomenological perspective. The ecological-phenomenological perspective provides the framework for graduate education to prepare family-health nurses to assist families in sustaining that quality of life which enables them to survive and prevail From an ecologicalphenomenological perspective the faculty views families within a macroecosystem, a meta-ecosystem and a micro-ecosystem; and perceives the phenomena of the family ecosystem in terms of the intentionality of consciousness of enfamilied selves as reported by family members.

The faculty believes that family-health nurses, using an ecologicalphenomenological perspective, evolve a dialectical process of family health. Using an ecological-phenomenological perspective the faculty perceives family health as an expansion of consciousness. Consciousness is viewed as five domains of living: valuing, thinking, feeling, acting and intuiting. Expansion of consciousness is viewed as a dialectical process which encompasses thesis of being, antithesis of doing and synthesis of becoming. Intentionality is viewed as those motives and goals that lead to expansions of consciousness. Intentionality signifies that enfamilied selves encounter a wortd that is meaningfully structured. Forms of intentionality include the "we" relationship, a reciprocity of
perspectives, and a dynamic of time, space and motion. The faculty believes the family unit is a single entity regarded as a whole and is comprised of kinship ties which act as support system for one or more enfamilied selves. The enfamilied self is viewed as an individual family member who is given personal identity and validation within the family ecosystem. The family unit is perceived as a finite province of meaning.
The faculty believes that family-health nursing is a process whereby the nurse and the family co-create a climate for experiencing a dialectical process of health. Family-health nurses, using an ecological-phenomenological perspective and evolving a dialectical process of health, view families as a unit and components of families as enfamilied selves. Family-health nurses, with families and enfamilied selves, experience the dialectical process of health, through health appraisal, anticipatory dynamics, stress management, health learning and enfamilied self-care. Leadership in education and direct care with families is a process whereby the family-health nurse in interrelationship with others co-constitutes an ecosystem to enable others to sustain a sense of seif.

## Characteristics of the Graduate

Graduates of the program shall be able to:

- Value the ecological-phenomenological perspective. the dialectical process and the concepts health, family, family health, enfamilied self and leadership.
- Evaluate health with families and enfamilied selves through health appraisal. anticipatory dynamics, stress management, health learning and enfamilied self-care.
- Actualize the leadership role in administration, education and/or direct care with families
- Generate family-health nursing knowledge through research.
- Pursue doctoral study.

## Admission

## Admission Policies

The applicants for admission to the graduate program must:

- hold a current Onio state license as a registered nurse
- have a baccalaureate degree in upper-division nursing from an NLN accredited school of nursing, or hold an advanced degree from an accredited university, or hold a nursing baccalaureate or master's degree from a foreign university which is recognized by The University of Akron;
- hold a grade-point average of 3.00 on a 4.00 scale or the equivalent from the undergraduate program. An advanced degree will take priority over undergraduate GPA;
- have satisfactorily completed Statistics for the Health Sciences course, an elementary course in research methodology or equivalent, and a basic physical assessment course;
- Have three letters of reference in relation to professional competence, personal adjustment and commitment to the nursing protession from:
a. a recent employer.
b. a member of the nursing profession who can attest to the applicant's scholarly abilities,
c. a former college or school faculty member;
- Write a 300 -word essay describing protessional goals, nursing research interests and reasons for seeking Family-Health Nursing education at The University of Akron:
A registered nurse who has a baccalaureate degree in a discipline other than nursing, and a registered nurse with a baccalaureate degree in nursing from a non-accredited baccalaureate program, as well as other persons who do not meet the above criteria will be considered for admission on an individual basis.
The admissions committee may consider certain applicants at its discretion to be enrolled in the program based upon prior arrangement made between the department and prior applicants admitted as special non-degree students prior to 1985.

## Grade-Point Average

- An applicant with a grade-point average of 3.00 or better in an undergraduate program will be granted Full Admission.
- An applicant with an undergraduate grade-point average of 2.75-2.99 will be admitted as special non-degree as detined in the Graduate Bulletin.

## Admission Procedures

The student secures application for Graduate School from the Office of the Dean of Graduate School, The University of Akron. Criteria for admission, forms for references, etc. may be secured from the director of the graduate program, the Cofiege of Nursing. The director of the graduate program along with the administrative assistant will review all applications for completion.

An admissions committee will meet and review all applications and make recommendations to the director regarding the status accorded the student.

The director will send recommendation first to the dean of the college, then to the dean of the Graduate School who will notify the student.

The completed application must be in the office of the College of Nursing by March 1 or October 1. The student will be notified of status by April 1 or November 1

## Instructional Program

The Family-Health Nursing program is one and one-half academic years and provides instruction in direct care with families, research and a leadership role.

## Nursing Core

Alf students receive instruction in the theoretical base from within the ecological-phenomenological perspective. The core consists of 14 credits which span both years of the curriculum. All students will take 8200:603 Theoretical Basis for Family-Health Nursing; 8200:619 Family-Health Appraisal, and 8200:621,2 Family-Health Nursing I and II.

## Nursing Research

All students will enroll in a research core for a total of seven credits: 8200:613 Nursing Inquiry; and 8200:699 Thesis Research taken over the one and one-half years serve as a basis for understanding of research throughout the program. Statistics for the Health Sciences is a prerequisite for Nursing Inquiry.

## Leadership Role

Options are provided for study in a leadership role, education, administration or direct care with families.

Eleven credits are allocated to the leadership role which include: seminar, practicum, colloquium and two support courses.

## Electives

One elective is provided in the curriculum. Students will choose a minimum of three credits of free electives. A student is required to take a minimum 37 credits in the total program. Additional credits will provide the opportunity to individualize and strengthen the major. A four-hour statistics course is a prerequisite to Nursing Inquiry.
The following courses are required of all students

| 8200.603 | Theoretical Basis for Family Health Nursing | Credits |
| :--- | :--- | :---: |
| 8200.613 | Nursing Inquiry | 3 |
| $8200: 619$ | Family-Health Appraisal | 3 |
| $8200: 622$ | Family-Health Nursing I | 3 |
| $8200: 623$ | Family-Health Nursing II | 4 |
| $8200: 689$ | Colloquium | 4 |
|  |  | 1 |

Select one of the following three areas:

- Direct Care:
$\left.\begin{array}{lll}8200: 680 & \text { Family -Heaith Nursing Leadership Seminar: } \\ \text { Direct Care With Families }\end{array}\right]$
Direct Care With Families 3

Two of the following
8200:624 Nursing of Families with Children 3
8200:626 Nursing of Families with Adult Members 3
8200.628 Health Perspectives of the Expanding Family 3

8200:671 Nursing of Families with Older Members 3
8200:675 Culture, Ethnicity and Health Care 3
200.699 Elective

- Educational

8200:685 Family-Health Nursing Leadership Seminar: Education 3
8200:686 Family-Health Nursing Leadership Practicum: Education 3

$5100600 \quad$ Philosophies of Education 3
$5100642 \quad$ Topical Seminar in Management and Evaluation 3
$8200.625 \quad$ Teaching Strategies in Nursing Education 3
$8200699 \quad$ Thesis Research $\quad 1-4$

- Administration:

8200629 Financial Management for Nursing Administration 3
$8200.630 \quad 3$
$8200.687 \quad$ Family-Health Nursing Leadership Seminar: Administration 3
8200:688 Family-Health Nursing Leadership Practicum: Administration 3
$\begin{array}{lll}8200: 699 & \text { Thesis Research } & 3 \\ & \text { Elective }\end{array}$

## Cooperative Statement

This program is in cooperation with Kent State University, School of Nursing, where a student has the option to take cognate or nursing electives and utilize library facilities.

# School of Law 

Donald M. Jenkins, B.A., J.D., L.L.M., Dean<br>Richard L. Aynes, J.D., Associate Dean<br>Robert C. Sullivan, M.Ed., Assistant Dean for Placement and Internal Functions<br>Constance L. Leistiko, J.D., Assistant Dean For External Programs

## HISTORY

The School of Law was established on September 1, 1959, as the successor to the Akron Law School. Founded in 1921 as an independent evening law school, the Akron Law School produced two generations of successful members of the bench and bar, as well as leaders in industry and commerce. Recognizing that legal education is best conducted in university-centered programs, and mindful of the need for the continuation of a sound program of legal education in the most densely populated quadrant of the state, The University of Akron accepted an offer of merger and formed the School of Law.

The School of Law, housed in the C. Blake McDowell Law Center on the University campus, has access to resources in state and federal courts, local law enforcement agencies and corporate headquarters. An integral part of a distinguished University founded in 1870, the School of Law benefits from the nine major divisions of the University, the Graduate School and the more than 24,000 students.
Enrollment in the School of Law is approximately 640. Thus, the opportunity for active student participation in the classroom, consultation with faculty members and extracurricular participation is facilitated.
In addition to being a member of the Association of American Law Schools, The University of Akron School of Law is fully accredited by the American Bar Association, the State of New York Court of Appeals, the Council of the North Carolina State Bar and holds a charter membership in the League of Ohio Law Schools.
The School of Law offers a day program for the study of law with classes scheduled during the hours of 8:30 a.m. and 4:30 p.m.; an evening plan of the study of law for the working student with classes scheduled primarily between 6:30 p.m. and 9:30 p.m.
The schedule of courses for the day division is designed so that the degree of Juris Doctor may be earned in three academic years consisting of six semesters. Attendance at summer sessions is optional.
The schedule of courses for the evening division is designed so that the degree of Juris Doctor may be earned in four academic years consisting of eight semesters and three summer sessions.
Each student is recommended for the degree of Juris Doctor upon satisfactory completion of the requirements.

## OBJECTIVES

The purpose of the School of Law is to further the goals of The University of Akron by providing a quality program of university education for law and to pursue the following aims:

- To prepare the student for a career in the profession of law by imparting information concerning legal institutions, basic principles of the substantive and procedurat law and jurisprudential thought concerning the role of law in society.
- To help to develop in the student an active and critical attitude rather than a passive approach toward the rules of law and their social implications.
- To develop in the student a high sense of professional responsibility in terms of technical competency, appreciation of professional standards and the responsibility of the lawyer to achieve a more nearly perfect system of civil and criminal justice.

The primary purpose of the student enrolling in the School of Law is to obtain a fundamental knowledge of law and the role of law in society, interlaced with a grasp of the public responsibilities of the lawyer. This course of study will enable them to become attorneys- and counselors-atlaw and leaders in governmental affairs. The ultimate aim of the school is the development of graduates who will serve society not only through the representation of their individual, corporate or governmental clients, but who will also serve as architects of society's future.
The student is trained to develop powers of legal analysis and synthesis, to develop the technical skills of legal advocacy and legal draftsmanship and to learn practical skills of research and management of litigation.

## C. BLAKE McDOWELL LAW CENTER

The C. Blake McDowell Law Center is a modern, attractive law school building on the University campus. The law center is designed to facilitate the study of law both academically and clinically by its proximity to state and federal courts, law enforcement agencies and corporate headquarters.
The law center is named in recognition of Mr. C. Blake McDowell, a practicing attorney and 1911 alumnus of the University. Through his great leadership and interest, Mr. McDowell worked unflaggingly toward the creation of a law school at the University which resulted in the merger of the Akron Law School with the University in 1959.

## ADMISSIONS INFORMATION

## Pre-legal Education

A student expecting to enter the School of Law must hold a baccalaureate degree granted by an accredited institution of higher learning. Requirements are flexible for undergraduate study preceding legal education. However, the student's college record and Law School Admission Test score must demonstrate that he is highly qualified for law study.
A student entering law school must have completed a course of study encompassing a broad cultural background aiso including intensive work in a selected field of study. The prelaw student must demonstrate the ability to communicate easily, to understand people and institutions; to gather and weigh facts; and to solve problems and think creatively. A mastery of the English language is essential and the entering student should be able to read with comprehension and be able to express clearly and concisely in both oral and in written fashion.

## Requirements

An applicant for admission desiring to become a candidate for the degree of Juris Doctor must be of good moral character. A baccalaureate degree from a regionally accredited college or university in a field of study deemed appropriate by the faculty of the School of Law, with an academic average substantially better than the minimum average required for such a degree, must have been earned prior to the time the applicant begins work in the law school.
The school, through an Admissions Committee, is seeking law students of demonstrated academic ability as evidenced in part by LSAT scores and the undergraduate grade-point average (GPA). The school will be looking beyond the LSAT and GPA for special qualities in its applicants for 100 day-division openings and 100 evening-division openings.

The law school seeks law students with diverse backgrounds. In this regard, consideration is given to ethnic and economic factors, advanced degrees, significant work experience and extracurricular and cotmmunity activities during and after the college years. The growth and maturity of the applicants and their commitment to law study are significant concerns.

## Procedures

Applicants for both day and evening should apply and complete applications as soon as possible after October 1 in the year preceding the start of fall classes. Review of completed files will begin in January and students will be admitted until the classes are filled. After that time, acceptable applicants will be placed on a waiting list. The school estimates the day class will be filled by April 1 ; the evening class by June 1 . Because the school considers each application soon after it is completed, there is no way of knowing whether the classes will be closed before or after the above dates. The best policy is to complete one's application as early as possible. Admission from the waiting list will begin in late July, should vacancies occur.

In cases where specific questions on an application arise, a personal interview with the associate dean may be necessary or may be requested by the applicant.

Letters of recommendation are not necessary. However, if points relevant to academic or personal background are not addressed in the application material, they may be added to the applicant's file for review.

## Application Procedures

Submit to the School of Law:

- Application for Admission form (available upon request from the Law School).
- A nonrefundable application fee of $\$ 25$ if never previously enroiled for credit courses at The University of Akron (check or money order payable to The University of Akron)
- A Law School Application Matching form obtainea with LSAT/LSDAS materia

Submit to Law School Admission Services, Newtown, PA

- Application to take tne Law School Admission Test (LSAT).
- Application tor the Law School Data Assembly Services (LSDAS). The application for LSAT/LSDAS is available upon request from LSAS, Box 2000, Newtown, PA 18940
- Applicants are urged to take the LSAT as early as possible and preferably October or December for day applicants; October, December or February ior evening applicants.
If accepted for admission a student must file with the School of Law: a final, official transcript, mailed from the institution awarding the baccalaureate degree

A Certificate of Completion of Degree Requirements is filed by the student with the School of Law temporarily in lieu of an official transcript for the student satisfactorily completing baccalaureate degree requirements during summer sessions, but the formal award of the degree is conferred after the beginning of the fall term. Such certificate must be executed by an authorized official (usually the office of the registrar) of the institution awarding the baccalaureate degree. An official transcript showing award of the baccalaureate degree must be filed by the student with the school at the earliest time such transcript becomes available from the institution awarding the baccalaureate degree.
The official transcript, or, in cases where applicable, the certificate, should be received by the School of Law at least one week prior to the official registration period published in the University calendar.
A student admitted to the Juris Doctor degree program is requested to file the officiai transcript only after receiving written notice of admission to Juris Doctor degree candidacy of the School of Law.

The unofficial copy of transcript forwarded to the School of Law by the LSDAS does not constitute filing of transcript with the School of Law.

All inquiries and correspondence pertaining to admission should be sent to:

Associate Dean
School of Law
The University of Akron
Akron, OH 44325
Phone: (216) 375-7331

## Reapplication

Applicants who have previously applied for law school and have not attended must comply with all the above procedures. The LSAT does not need to be repeated but depending on the test results, you may want to retake the test. In addition to the application and the $\$ 25$ nonrefundable fee, a current LSDAS report must be sent to the School of Law.

## Advanced Standing

A law student who has completed part of the law course at a school on the approved list of the Section of Legal Education and Admissions to the Bar of the American Bar Association, and who is eligible for readmission to the former law school, may be admitted to advanced standing. A student desiring admission to advanced standing shall: (1) obtain from the dean of the former law school a letter setting forth the fact that the student is eligible for further instruction, and consent to the trarisfer; (2) submit evidence of meeting the admission requirements (including LSAT/LSDAS) of The University of Akron School of Law; (3) present an official transcript of all work completed at the previous law school; (4) submit a nonrefundable fee if never previously enrolled for credit courses at The University of Akron. Credit to be given tor the prior law school work shali be determined by the dean of the School of Law.

## Auditing

Members of the bar and graduates of law schools who are not yet members of the Bar may, with the permission of the dean of the School of Law, enroll for a course without credit. The auditor is required to do all the work prescribed for the regular student enrolled for credit except taking examinations. The fee for the auditor is the same as for a regular student.

## Transient Students

A law student who is currently enrolled at a School of Law on the approved list of the Section of Legal Education and Admissions to the Bar, American Bar Association, may enroll for specitied courses in the School of Law upon receipt of a completed Transient Application form (which requires written permission of the applicant's dean) and application tee (if applicable) subject to availability of space in specified classes.

## Joint Degree Programs

To pursue the J.D./M.B.A. or the J.D./M.Tax. programs, the student must apply to and be accepted by both the School of Law and the Graduate School of the College of Business Administration. The applicant is also required to take both the LSAT and the GMAT. Individuals with baccalaureate degrees in any field of study are eligible to apply for a joint program.

A brochure describing the program in more detail and an application form are avalable from the School of Law or from the College of Business Administration. A more detailed description of the program can be found in the College of Business Administration, Graduate School in this Bulletin.

## ACADEMIC INFORMATION

## Requirements

## Requirements for the Degree Juris Doctor

The School of Law offers two programs leading to the degree Juris Doctor. The curricufum for a day student is designed so that the degree may be earned in three academic years consisting of six semesters. Attendance at the Summer Sessions is optional.

The curriculum for the evening student is designed so that the degree of Juris Doctor may be earned in four academic years consisting of eight semesters and three summer sessions. The Summer Sessions are an integral part of the evening program.

Except in certain exceptional cases, the day student is not permitted to take evening class, likewise an evening student is not permitted to enroll in day class without the permission of the dean.
In addition, in exceptional cases the dean may authorize a student to take a reduced course load under either curriculum and stretch studies over the time prescribed for each program.

A new student is admitted at the beginning of the fall semester only.

## Joint Degree Programs

The School of Law and the College of Business Administration offer a joint degree program in legal and administrative studies (J.D./M.B.A.) and a joint program in legal and taxation studies (J.D./M.Tax.). These combinations are of interest to a student preparing for a career in such areas as private practice, corporate law, tax accounting and government. The total amount of time required to complete a joint degree program is less than the time required to complete both programs independently since certain courses in one college fill course requirements in the other college.

## Degree Requirements

The degree of Juris Doctor is conterred upon a student of good moral character who has been recommended by the dean and faculty of the School of Law and who has:

- Completed satisfactorily all required courses, seminars and electives to earn at teast 87 credits.
- Completion of a program involving extensive research and legal writing.
- Met the residency requirement of 96 weeks for the day division or 144 weeks for the evening division.
- Attained at least a 2.00 average for all courses taken and additionally, at least a 2.00 average for the senior year.
- Spent their last year at the University unless excused by a dean

## Library

The primary tool of the attorney is the written word. Thus, books take on an added importance when one undertakes a study of the law. The incoming student will soon discover that an essential portion of time and energy will be expended within the law school library.
The library has a fine collection of more than 142,000 volumes in an attractive and pleasant reading room. The library has all the basic legal materials for conducting legal research in all 50 states and in tederal practice. Extensive materials are available for research in many subject areas of the law. The library subscribes to the series of records and briefs of the Ohio Supreme Court and the United States Supreme Court. Audio tapes, video tapes and microforms are also available for use in many related areas of study.
The library is a federal government depository giving the student access to law-related publications of the federal government. The latest addition to the library is an online computer terminal for accessing legal data bases. This tool of the law office of the future is available now.

Five professional librarians (two with both a law degree and a master's degree in library science), five staff and a dozen assistants are available.
To supplement the collection are the University libraries with more than one million volumes freely available to all students and a computer terminal linking the law library to 2,300 other libraries with more than seven million titles which may be borrowed

## Curriculum

The curriculum* includes foundation courses of common law origin, public law and those of a procedural nature, as well as perspective and planning courses. Law is studied by the case, problem, seminar and clinical methods. Clinical training is achieved through basic and advanced seminars which involve student participation in the work of the various legal aid, public defender, prosecutor's offices, as well as other agencies. The aim of this program of study, in addition to developing social awareness, is to train the student for technical competency, professional responsibility and for the practice of law in any common law jurisdiction.
The Law School faculty, to assist the student in planning a course selection that may be used to meet individual professional objectives while attending Law School here, adopted a suggested track system. In addition, the primary purpose of the suggested tracks is to identify when courses will be offered in the future. Tracks have been developed for the following: required and bar courses, business, litigation and tax.

## Writing Program

The tools of the practicing lawyer are oral and writing skills. As an incoming law student, experience will be gained in using and improving these skills. All first-year students take a course in legal research and advocacy During the year the student learns to use the specialized research mate-

[^77]rials of the law, gains experience using the latest computerized legal data bases, is supervised in a writing experience and has a chance to present written and oral arguments before a mock court

A second year student is enrolled in the appellate advocacy courses. There, a student reads a transcript, identifies and briefs the issues and presents oral argument. This exercise closely simulates a true appellate experience. In the final year, the student takes an intensive, advanced legal writing course which concentrates on drafting of statutes, pleadings and other legal documents.

Subsequent experiences in writing are met through seminar, paper assignments for courses, individual studies, moot court briefs, law review or clinical experience. Opportunities are provided to exercise verbal skills thus enabling the student to become a successful advocate.

## The Akron Law Review

A board of student editors prepares and edits, with the advice of the dean and faculty, The Akron Law Review, a quarterly legal periodical devoted to legal research and commentary on the law. Membership on the board is limited to the student of superior academic achievement or of demonstrated writing skill who desires to engage in legal research, analysis, writing and editorship. Membership on the board of student editors is indicative not only of scholarship, but of valuable training in skills important to the profession of law.

## Standards of Academic Work

## Grades

The following system of grading is used in recording the quality of a student's academic work:

| Grade |  | Grade Points Per Credit |
| :---: | :---: | :---: |
| A | Excelient............ | 4.00 |
| A- |  | 3.70 |
| B+ |  | 3.30 |
| B |  | 3.00 |
| B- |  | 2.70 |
| C+ |  | 2.30 |
| C |  | 2.00 |
| C- |  | 1.70 |
| D+ |  | 1.30 |
| D | Poor | 1.00 |
| D- |  | 0.70 |
| F | Failed. | 0.00 |
| 1 | Incomplete | 0.00 |
| P | in Progress | 0.00 |
| PI | Permanent incomplete | 0.00 |
| AUD | Audit | 0.00 |
| CR* | Credit. | 0.00 |
| NCR | Noncredit | 0.00 |
| W | Withdrawal | 0.00 |

Academic averages are computed by dividing the grade points achieved by the credits attempted. When a course is failed and repeated, the credits and the grade points involved each time are included in the computation as if the repeated course were an independent course.

A grade-point ratio of less than 2.00 is unsatisfactory. After the first year, a law student whose scholarship is unsatisfactory will be either placed on probation, suspended for a definite period of time or dropped from the school at any time by the dean. Reinstatement is determined by the dean of the School of Law with advice of the Faculty Academic Committee. Written petition for reinstatement should be addressed to the dean.
if a student withdraws from a course with the permission of the dean, it will not count as work attempted. If a student leaves a course without the

[^78]permission of the dean or is dropped from any course by the dean, the student is given a failing grade in the course and it is counted as work attempted.

## Graduation with Honors

The School of Law awards Juris Doctor degrees with distinction in conformity with the present grade-point average standards for the University. The following standards are applicable to students who entered the School of Law prior to January 1982.

| will be designated | if the overall grade-point average is |
| :---: | :---: |
| Summa Cum Laude | 3.75 or higher |
| Magna Cum Laude | 3.50 through 3.74 |
| Cum Laude | 3.25 through 3.49 |

By University Council action of December 3, 1981, new criteria were established for graduation with honors. The new criteria are applicable to students entering the University (School of Law) January 1982 and thereafter. The criteria are:

| will be designated | if the overall grade-point average is |
| :---: | :---: |
| Summa Cum Laude | 3.80 or higher |
| Magna Cum Laude | 3.60 through 3.79 |
| Cum Laude | 3.40 through 3.59 |

## Withdrawal From a Course

A student may withdraw from a course for any reason up to the midpoint of a semester or summer session with the signature of a dean.

After the midpoint of a semester or a summer session, but prior to the last week of classes, a student must have the written approval of both instructor and dean. Should either refuse to sign the withdrawal form, the student may appeal to the dean of the School of Law who shall make the final decision. For compiete withdrawal from the law school, a student must have written permission from a dean.
An approved withdrawal will be indicated on The University of Akron official academic record by a "W." A student who leaves a course without going through the withdrawal procedure will be given an " $F$ " in the course.

## Honor System

Consistent with the aim of training professionally responsible lawyers, and in recognition of the importance of honor and integrity of the individual lawyer, the faculty has placed the responsibility of honorable conduct on the individual student and the administration of the honor system on a council of students composed of Student Bar Association officers and class representatives. The entering students will receive a copy of the Honor Code.

## Faculty Research Assistance

The student showing scholarship is given the opportunity to work with faculty members who are conducting research. This experience improves writing and research skills, gives the student the opportunity to be involved in research on the leading edge of legal knowledge and fosters learning in a non-classroom environment.

## Enrollment in Courses in Other Colleges of the University

A student interested in taking courses in other colleges of the University may do so upon written consent of the dean . The study of law is considered a fuli-time pursuit, so each request is considered on an individual basis and in no case may a student use more than six credits earned outside of the law school for Juris Doctorate degree requirements.

## Clinical Training and Public Services

The University of Akron School of Law, in recognition of the need to prepare adequately the student tor future roles as an attorney, has created an urban clinical program, as described below.

## Appellate Review Office

The vast butk of the student-oriented, public service activities offered by the School of Law emanate from the Appellate Review Office. It is staffed by attorneys and six to eight student staff members. The student becomes eligible to work in the office after completion of the first year and receives either an hourly wage or academic credit

As the office name implies, most of the work done involves postconviction representation. The office staff has perfected appeals in the State Courts of Appeal, the Supreme Court of Ohio, all of the Ohio Federal Courts and the United States Supreme Court.

One unique characteristic of the office is the substantial responsibility each student has for assigned cases. The student is responsible for doing the research. preparing drafts, compiling the final briefs and corresponding with the courts and other attorneys. The school has established this program with the goal of giving the conscientious student the opportunity to experience the practice of law in a supervised environment.

In addition to the Appellate Review Office, there are other associated activities where a student may experience the full gamut of legal problems.

## Domestic Relations

Under supervision of a staff attorney, the law student with a legal intern certificate represents indigent persons with domestic relation problems (e.g., dissolutions, divorces, child custody and support). The student has primary responsibility for the gathering of information, drafting of pleadings and court representation of the client.

## Landlord-Tenant

Many people are becoming enlightened about their rights as tenants, and the need for quick and effective legal representation in this field affords the student the opportunity to represent clients at the inception of the case. The student has primary responsibility for fact gathering, which may entail on-site investigation, counseling and strategy planning.

## Inmate Assistant Project

This is a student-run program unique in the state of Ohio, participants travel to and conduct interviews with prison inmates attempting to resolve their criminal and civil law problems. The student is encouraged to participate in this program from the beginning of law school. Participation involves travel to either the reformatory for men or women, interviewing of inmates and follow-up on legal problems.

## Clinical Seminar

The student interested in experiencing the operations of public agencies may sign up to work in outside agencies for credit. The student is assigned to various agencies, such as the County and City Prosecutor's Offices. County Public Defender's Office and the County Legal Aid Office. At placement, the student is able to see the inner workings of these otfices while gaining a rich variety of knowledge. In coordination with this clinic, a course is taught which emphasizes the learning of interviewing and clientcounseling techniques.

## Moot Court Programs

To develop the dual skills of advocacy; oral prowess and brief writing, the student is encouraged to participate in the several moot court programs within and outside of the school. These programs enable the student to learn and polish the skills of legal writing and orat advocacy through the vehicle of "moot" or academic problems. The student is encouraged to participate in any of the following programs.

## National Moot Court

During the first year of studies, the student is given bids to try out for the law school's National Moot Court Team, based on that person's performance in the legal writing and research courses. A student is selected to represent the school in the national and regional competitions during the second and third academic year on the basis of a presentation in an intramural competition.

## Voluntary Moot Court

For the student who does not participate in the National Moot Court Program, Voluntary Mcot Court is available in the spring of each year. In this activity the student is given a "moot" problem, asked to prepare briefs and present oral argument against fellow students. The highlight comes in the final round when the competitors are evaluated by judges from the State Court of Appeals.

## Jessup International Law Moot Court Competition

The student interested in exploring international law on an appellate level competes on a national scale in this competition. Problems are always relevant and timely.

## Bar Admission

Each student entering the School of Law is encouraged to read the rules for bar admission for the state in which the student intends to practice law. This information is available from the various state supreme courts. In addition, the information is on file in the library.
For the student interested in practicing in the state of Ohio, the Supreme Court of Ohio requires that each student entering a law school who intends to practice law in Ohio file within 120 days from the beginning day of the fall term after initiating studies:

- An application for registration as a law student.
- Evidence of meeting the pre-legal educational requirements established by the Rule.
- A legible set of fingerprints on a prescribed form.
- A filing fee of $\$ 30$

As a condition for taking the bar examination, the applicant must:

- File an application not less than 90 days prior to the date of the bar examination.
- Present a certificate from the School of Law stating that the student has completed or will complete all courses required by the Rule.
- A filing fee of $\$ 60$

The appropriate Ohio forms may be obtained from the School of Law on request.
It is the responsibility of the student to initiate a request for, execute properly and file timely, the requisite forms to the state in which the student intends to practice law.

## Enrichment Programs

The school is firmly committed to the belief that the quality of legal education, both within the school and in the legal community as a whole, is enhanced by the free exchange of ideas on matters of contemporary importance.

## Law Day Speaker Program

The law school has sought to bring in individuals who may have particular insight into issues facing the legal community.
The longest running program is the Law Day Speaker, in which the Student Bar Association and the Akron Bar Association, jointly bring to campus a speaker of national stature to present a public address on an issue of concern to those involved in the study and practice of law.

## Annual International Law Symposium

Each year since 1972 the school and the International Law Society have sponsored a two-day International Law Symposium. Participants in the program are internationally known experts within the field. The proceedings are published each year in a subsequent edition of the Akron Law Review.

## Special Seminars

In addition, the Student Bar Association has conducted special seminar programs throughout the year. These programs have included:

- American Civil Liberties Union's involvement in Skokie, llinois' march by the American Nazi Party - its tirst amendment implications and other topics.
- Prisoners' Rights Seminar.
- Evidence Seminar - hearsay rule, and the art of cross-examination
- Proposed revisions of the Federal Criminal Code.

The Student Bar Association has also sponsored visits by distinguished lecturers on various political, social and legal aspects of our society.

## The BFGoodrich Company Chair of Law

The BFGoodrich Company endowed a Professorial Chair of Law in International Transactions and Relations.

Its aim is to assist in the training of a law student as a counselor in business, government and private practice in international business transactions, and education in a global awareness of the economic and political problems of other nations, as reflected in their legal systems. With the cooperation of other academic units of the University, a unique opportunity is provided for an interdisciplinary study of subject matter areas such as in business, economics and government vital to counseling in international transactions and relations. Professor Hamilton DeSaussure is the holder of the BFGoodrich Company Chair of Law.

## Honors and Awards

The Akron National Bank provides an annual award of $\$ 200$ to the graduating senior who excels in the study of the law of trusts and estates, with the selection to be made by the dean.

The Anderson Publishing Company awards to the highest ranking graduating student in Corporations each year a copy of Anderson's Ohio Corporation Desk Book, and to the highest ranking graduating student in Wills a copy of Lynn Will Clauses.

The Banks-Baldwin Law Publishing Company awards annually a twovolume work entitled Jacoby's Ohio Civil Practice Under the Rules to the graduating law student displaying scholarship in the study of Code Pleading, as determined by the dean, School of Law.

The Bracton's Inn Award, established by the Law Wives Club of the School of Law, is presented annually in recognition of superior performance in the law school's moot court program.
The Bureau of National Affairs, Inc. awards a one year complimentary subscription of The United States Law Week to a graduating student who, in the judgment of the faculty, has made the most satisfactory progress during the senior year.

The Client Counseling Competition, sponsored by Bracton's Inn and the Student Bar Association, offers an annual prize of a $\$ 25$ United States Savings Bond and a certificate to the winners of a simulated exercise in lawyer-client consultation and accompanying office memoranda, and an opportunity to compete in regional and national competition.

The Dennis and Company Incorporated Law Book publishers award is presented annually in recognition of superior performance in the Law School's Moot Court program.
The Lawyers Co-operative Publishing Company and Bancroft-Whitney Company, joint publishers of American Jurisprudence, award to top ranking students in about 24 courses a specially bound copy of the equivalent title from their multi-volume publication, as determined by the instructor(s) in charge.

The Judge W. E. Pardee Memorial A ward of \$300 (established 1963-64) is presented annually to a participant (or team of participants) in Bracton's Inn (the Case Club of the School of Law) who best displays (display) advocatory skill and protessional decorum, as determined by intramural competition.

The Phi Alpha Delta Law Fraternity, International, Grant Chapter, awards annually the Judge Florence E. Allen Memorial Award of a $\$ 50$ United States Savings Bond to a graduating law student predicated upon meritorius achievements in scholastics, community service and PAD, as determined by a committee chaired by the dean, School of Law.

Prentice-Hall, Inc. provides annually a complimentary subscription to its Federal Tax Guide, edition "A," to the graduate who has excelled in the study of taxation, as determined by the dean, School of Law.

The West Publishing Company annually awards four titles of Corpus Juris Secundum to students of all classes who have made the most significant contribution to overall legal scholarship, and four titles from the Hornbook Series to students with the highest academic average in each of the classes, as determined by the dean, School of Law.

## Scholarships

The Akron Bar Association Auxiliary Scholarship, established by the Akron Bar Association Auxiliary, provides an annual scholarship not to exceed $\$ 1,000$ to a student in the full-time program of law study. The Akron Bar Association University Scholarship Committee, on the basis of scholarship, legal aptitude, character and need and with the advice of the dean, School of Law, shall make the selection giving first preference to a resident of Summit County, Ohio. A recipient may apply for an annual renewal of the scholarship.

The Professor Hollis P. Allan Memorial Book Fund was established in 1980 in memory of a beloved law professor and is awarded as determined by the dean, School of Law.

The Evan B. Brewster Book and Scholarship Award is funded by income from an endowment fund established in 1978 by Attorney Evan B. Brewster and is awarded to deserving law students, as determined by the dean, School of Law.

The Briner, Catanzarite and Rakas University of Akron School of Law Taxation Scholarship, established in 1978, is awarded annually in the amount of $\$ 1,000$ to an entering student in the full-time program of law study, on the basis of merit, who was the outstanding graduate of The University of Akron College of Business Administration, from the finance or accounting department, as determined by the dean, School of Law, upon recommendations submitted by the dean, College of Business Administration. The scholarship is not renewable to the recipient.
The Goodyear Tire \& Rubber Company Fund is a fund established in 1969 by the Goodyear Tire \& Rubber Company Fund, of which the principal and income will be used for scholarships and emergency expenses of students admitted to the School of Law under the Legal Education Opportunity Program, on the recommendation of the dean, School of Law. The fund is administered by the University Development Foundation.
The Howland Memorial Fund provides Frank C. Howland Scholarships to deserving law students of demonstrated scholastic attainment, as nominated by the dean, School of Law.

The Judge and Mrs. W. E. Pardee Memorial Scholarship in an amount not to exceed $\$ 500$ is awarded annually to a deserving, full-time law student of demonstrated scholarship.
The Judge James G. France Scholarship is a fund established in 1979 by Mrs. France in memory of her husband James France, who gave the School of Law 22 years of distinguished service. The scholarship is awarded to a deserving law student demonstrating scholastic attainment as determined by the dean, School of Law.

The Lee Ferbstein Scholarship Fund established by the Akron Education Association (AEA) in 1979 as a tribute to Lee Ferbstein, for more than 30 years AEA legal counsel and a former member of the University's Board of

Directors. The scholarship covers tuition, books, fees, room and board, all or in part, for a student enrolled in the School of Law, with primary interest in the field of labor law. The student should be a resident of Akron, Ohio, and a third-year law student; otherwise there are no restrictions as to race, creed, color, sex or national origin. Selection of the recipient is determined by the dean of the School of Law, with assistance by the University Relations Committee of the AEA.
The Herman Muehlstein Foundation of New York established a fund to provide scholarships to qualified students from the New York City area, as nominated by the dean, School of Law.

The Matthew 25:31-46 Scholarship Fund is an endowed scholarship fund established in 1981 to provide tuition assistance for nuns enrolled in the School of Law preparing for service as poverty lawyers. Selection of the recipient and the amount of financial assistance is determined by the School of Law.

The Ohio Law Opportunity Fund is provided by members of the Bench and Bar in Ohio to assist Ohio residents from disadvantaged backgrounds as nominated by the dean, School of Law.

The Phi Alpha Delta Law Fraternity, International, annually makes available nationally $21 \$ 50$ awards, and loans up to $\$ 1,000$, to senior students who are members of the fraternity. Application should be made through the faculty adviser of the Grant Chapter, School of Law.

The Judge and Mrs. Charles Sacks Scholarship is a fund established in 1969-70, the Centennial Year of the University, in honor of Judge and Mrs. Charles Sacks by their children, Robert and Naomi Christman, Sy and Laurel Fischer and Harvey and Shirley Friedman, of which the income will be used to provide scholarships to deserving students in the School of Law, on the recommendation of the dean, School of Law.
The Fully R. Spain, Jr., Memorial Fund was established in 1980 by family and friends in loving memory of Fully R. Spain, Jr., a 1973 School of Law graduate. This scholarship provides $\$ 1,000$ annually for a student enrolled in the Schoot of Law, as determined by the dean.
The Joseph Thomas Memorial Law Scholarship Fund is a fund established in 1976 by the Firestone Foundation in memory of Joseph Thomas, Esquire, the income from which is used to assist a financially deserving student or students of high academic potential and achievement residing in Summit County, on the recommendation of the dean, School of Law. The award may be renewed.
The University Board of Trustees Tuition Remission Scholarships are available for entering and continuing law students on the basis of scholarship and/or need as determined by the dean, School of Law.

For additional information and application forms for the above scholarships, contact the associate dean at the School of Law (216) 375-7331.

## Activities and Organizations

ARETE, a student-managed publication, publishes a monthly newsletter intended to serve as a forum for law students, faculty and outside opinions on a wide range of contemporary issues related to law and the School of Law. ARETE is open to students after the first year.

The Black American Law Student Association (BALSA) was accredited as a law student organization in 1974 and is an affiliate of National BALSA, Inc. Dedicated to the twin objectives of increasing minority enrollment and retention, BALSA sponsors seminars on subjects such as legal rights of blacks, poor and oppressed people.
Bracton's Inn, styled after the old English inns at Court, is a student-run group having primary responsibility for developing student brief writing and oral advocacy programs. A student may become a member of the inn by engaging in any of the various oral advocacy programs offered during the school year. Among the activities sponsored by the inn are client counseling competition, high school mock trial, voluntary mock trial, and Order of Barristers.
The Delta Theta Phi Law Fraternity, Seiberling Senate, was chartered in 1973, in honor of Congressman John F. Seiberling. The objective of Delta Theta Phi is to bring together congenial men and women of good will and common purpose who regard the study and practice of law as activities worthy of the highest human endeavor. A law student in good standing is eligible for membership after the first semester.
The Law School Alumni Association was formed in 1974 and has since supported activities and programs which enhance the quality of education at the School of Law. The association operates in conjunction with the Law Placement Office and assists students and graduates in their placement efforts. Members in the association provide support for various school activities and receive a newsletter, alumni directory and other benefits

Founded in 1971, the International Law Society emphasizes the study of and active participation in international law. Interested students are encouraged to join to work toward the development of programming, panel discussions and competitive events highlighting this growing and exciting field of law. The International Law Society co-sponsors the annual International Law Symposium.
The Phi Alpha Delta Law Fraternity, International, Grant Chapter, was established in 1962. Through service to the student, the school and the legal profession, Phi Alpha Delta strives to advance not only the attainment of a high standard of scholarship, but also the development of a spirit of good fellowship among its members. Speakers, workshops, parties, luncheons and the annual used-book sale are among some of the activities sponsored by Grant Chapter. The fraternity welcomes all students in good standing after the first semester.

The Student Bar Association develops innovative educational programming, maintains ties with the legal community through joint ventures and plans the various student social and legal activities throughout the school year. Membership is open to all law school students. The student desiring an opportunity to direct actively the course of student law school involvement is encouraged to seek election to this body.

Law Association Ior Women's Rights is concerned with the evolving role of the woman attorney within our legal system, as well as the changing rights of women in the community. This association is of local origin, nonaligned with any national organization. Its membership is comprised of male and female law students and members of the local bar. The group has a multi-faceted approach to achieving its goals, which include providing undergraduate women with law school information, heightening community awareness of women's rights and problems, and providing topical discussion groups.

Section 8

# Research Centers and Institutes 

Joseph M. Walton, Ph.D., Acting Dean, Graduate Studies and Research<br>Brian F. Pendleton, Ph.D., Acting Associate Dean, Graduate Studies and Research<br>John E. Mulhauser, MA., J.D., Director of Research Services and Sponsored Programs

In the past, colleges and universities have been thought of as ivy-covered storehouses of knowledge where neatly packed information was dispensed to eager students. But this has never been true, for it is here that much of the new knowledge developed. And with the accelerating tempo of our times, there is an increased call for the universities to provide more new knowledge to enable society to cope.
The University of Akron is alive to this challenge and has sought to develop its research program with an eye to the needs of the society it serves. Here the emphasis is on work that is relevant, not on mere knowledge for knowledge's sake. One consequence of the University's concern with relevant research has been the number of interdisciplinary teams that have been put together to tackle specific problems. For instance, problems in connection with water pollution have used the services of chemists, biologists and chemical, mechanical and civil engineers. While the planning and organization of a research project is usuaily carried out by or with the assistance of a faculty member, both graduate and undergraduate students have the opportunity to participate, depending on the nature of the project and the skills and knowledge required.
Sponsored research activities on campus are coordinated by the Research Council founded in 1962; it also serves as the policy-making body for research. The council consists of the dean of graduate studies and research, the director of research services and sponsored programs and the directors of the various research institutes.

## $\overline{\text { Ray C. Bliss Institute of Applied Politics }}$

## The Honorable Vernon F. Cook, Director

The Ray C. Bliss Institute of Applied Politics is a public education and research adjunct of The University of Akron and its Department of Political Science. The broad purposes of the institute, in keeping with the career of its namesake and the respect that he gained over many years in the political world, are: to give all citizens, and particularly young people, an opportunity to learn how to become active and competent in political life; to help maintain a tradition of ethical public service in politics; to foster useful relationships between applied politics and political science; to promote public comprehension of political organizations and the requirements for their effectiveness; to improve understanding of continuity and change in American political institutions; and to provide advanced experience in practical politics to students with primary career goals in political science.

## Institute for Biomedical <br> Engineering Research

Karen Mudry, Ph.D., Director
This institute was established in 1979 to promote interdisciplinary studies in the rapidly growing areas of knowledge which overlap the fields of biology and medicine, on the one hand, and engineering and the physical sciences, on the other. It conducts seminars, courses and degree pro-
grams in biomedical engineering in association with the College of Engineering and individual departments.
In addition to its research and educational functions, the institute provides a research service to local hospitals and industry. as well as to private and government agencies. The premise for this program is that the combined resources of the University, Northeastern Ohio Universities College of Medicine and affiliated organizations will often permit more cost-effective solutions than would be possible by an individual or group doing the research independently.
The work of the institute is carried out by faculty of the Department of Biomedical Engineering in association with "members" selected from the faculties of The University of Akron and Northeastern Ohio Universities College of Medicine, as well as from the ranks of area physicians, engineers and scientists. The institute and the department occupy the third floor of the Engineering Research Center on the north edge of the campus.

## Center for Economic Education

## Fred M. Carr, Ph.D., Director

The center exists to improve the economic literacy of individuals to help them function competently as citizens, producers and consumers.
The center conducts workshops, seminars and economic programs for teachers, students and interested groups. It provides consulting services in the area of economic education and acts as a clearinghouse for the gathering and dissemination of economic education materials and programs. It also fosters an understanding and appreciation of the American economic system.

## Center for Environmental Studies

Jim L. Jackson, Ph.D., Director

The Center for Environmental Studies matches the expertise of 95 affiliates in 33 disciplines with the needs of a student seeking study and research opportunities in complex environmental issues. Since its founding in 1970, the center has sponsored, or in other ways supported, activities appropriate to the goal of attaining a quality environment for mankind.
The center coordinates special forums, workshops and seminars that address major issues. Examples include the National Energy Forum, the World Food Forum, and the Application of Geologic and Soils Information; workshops on energy, natural history and environmental studies in England also emphasize the interdisciplinary approach to the resolution of issues.

The center provides programs of environmental studies in the Cuyahoga Valley National Recreation Area (CVNRA). These programs are operated through the University's Oak Hill Center for Environmental Studies in the CVNRA. Expertise provided by the Oak Hill Center has benefited thousands of youngsters.

## Center for Fire and Hazardous Materials Research

Paul D. Garn, Ph.D., Director
David H. Hoover, B.S.Tech. Ed., Associate Director
One of the oldest problems facing mankind is safety from fire and hazardous materials. Inadequate resources are being devoted to this international problem even as technological advances increase both our hazards and our awareness of hazards in the environment. In the United States, the fire incidence rate per capita is the highest in the world; the fire death rate per capita is almost twice the international average. Many immediate and long-range hazards to health and environment are a!ready recognized, but there are still many suspect materials.

In a unique approach to this problem, the Center for Fire and Hazardous Materials Research brings together University, government and industry in one comprehensive regional center to integrate research, educational programs, fire and hazardous materials training and other applications of technology. The presence on a single campus of all the elements-strong scientific and engineering programs and research, special expertise in polymers, a fire protection technology degree program of high repute, highly skilled media people and an active continuing education pro-gram-enables communication of research results not only to the firefighting community but also to the fire safety and design communities.
The principal paths of center activity are threefold:

- Research, conducted through research fellows appointed to the center from University and visiting faculty.
- Education, through the associate degree program in fire protection technology, through a certificate program, and through media preparation
- Fire and hazardous materials training, through short courses and seminars, in some cases under contract with various municipalities, ind ustries and agencies.

## Institute for Futures Studies and Research

Gary Gappert, Ph.D., Director

The Institute for Futures Studies and Research was established in 1978 to provide a focal point, function as a catalyst and assist in establishing curricula, studies and cross-disciplinary activities dealing with the future. Because of its very nature, the institute encourages involvement and cooperation of faculty and students from a variety of disciplines.
Among its major activities, the institute will work with faculty, administration and the University's standing Commission on Institutional Planning and Development to facilitate integration of futures research and awareness with academic programming, planning and decision making.
The institute also plans to involve local business, industry and government in futures studies by establishing a local chapter of the World Future Society to encourage interest in forecasting, trends and ideas about the future.

## Center for International Programs

Laurence J. C. Ma, Pn.D., Director

The University of Akron serves a community that is very much on the international scene. The world's major rubber industries that are located here have plants in every part of the globe, as do many of the city's smailer industries. Our student population includes more than 400 foreign students. The University faculty has wide interests and has traveled extensively to various parts of the world. The various colleges of the University have developed programs to give the student an awareness of the giobal nature of knowledge. There are numerous courses in non-Western studies, area concentrations, programs in international business and various opportunities for students and alumni to travel overseas.
Through its advisory committee, composed of faculty and students of the various colleges, the Center for International Programs attempts to find ways of committing the University to programs that produce a student who will be more knowledgeable about the total world. Hopefully, this can be done by increasing the international content of our various courses and finding ways to expose students and faculty to the various cultures of the world.

## Institute for Life-Span Development and Gerontology*

Harvey L. Sterns, Ph.D., Director

## Center for Organizational Development

Joseph C. Latona, Ph.D., Director

The Center for Organizational Development in the College of Business Administration is an outgrowth of the Institute of Business and Economic Research which was one of the four facets of the Research Council established in September 1962 by the University Board of Trustees. The institute was renamed in 1975 as its functions had been expanding to fill a community need. The general goal of the center is to update the organizational skills of area managers in all types of organizations and at all levels. The center cooperates with business, government, protessional and service groups in evaluating and analyzing their specific needs, designing programs and coordinating programs to meet the particular needs of these groups.

## Center for Peace Studies

The Center for Peace Studies has been established to study the subject of international peace within the threefold framework of the University's goal of education, research and public service. A peace studies certificate program is available for the student who wishes to pursue this course of study, and the center sponsors special campus programs, a film series and an international newsletter. It is engaged in research projects and cooperates with organizations in the community interested in peace and with institutes and peace centers on other campuses.

## Center for Polymer Engineering

## James L. White, Ph.D., Director

The Center for Polymer Engineering carries out fundamental and applied research in polymer processing, engineering performance and associated characterization.
The center, founded in 1983, seeks to be a major intellectual and research resource in northeast Ohio. The center maintains up-to-date and futuristic processing and characterization laboratories, with continued interest in development investigation of new process technology and new materials. Its activities also include organization of scientific symposia and various seminars reiated to polymer processing and engineering.

## Institute of Polymer Science

Frank N. Kelley, Ph.D., Director

The institute is concerned with basic and applied research in polymers. It was established in 1956 as the Institute of Rubber Research and in 1964 became the interdisciplinary Institute of Polymer Science. The University's first Ph.D. program in polymer chemistry was started in 1956 and was administered by the institute until a separate Depariment of Polymer Science was established in 1967. The institute maintains extensive laboratory faciities and is the principal organization responsible for external funding of research projects and graduate fellowships in polymer science.

[^79]
## Small Business Institute

## Joseph C. Latona, Ph.D., Director

The Small Business Institute was established in 1973 and was the first Small Business Institute funded in Northern Ohio. The Small Business institute's objective is to offer management assistance counseling to area organizations through the utilization of senior students in the College of Business Administration, working as advisers under the supervision of College of Business Administration faculty. Nearly 300 firms have been serviced by the institute since its founding. It is an integral part of the Akron/Summit Industrial Incubator project.

## Institute for Technological Assistance

Andrew L. Simon, Ph.D., Executive Director

The institute coordinates public service functions of the University that cut across departmental and college boundaries and facilitates the performance of unconventional projects defined by contracts or protocols with foreign or domestic clients. Some of the typical projects in the past included the complete design of curricula and physical facilities of severat colleges in the Middle East and the coordination and organization of American educational visits of South American educators. In a typical current project. the institute coordinates the activities of engineering students who help the National Park Service develop facilities in the Cuyahoga Valley National Recreation Area.

## Center for Urban Studies

James L. Shanahan, Ph.D., Director

One of the greatest challenges facing the urban university is that of effectively using its many resources in urban analysis. The Center for Urban Studies was established in 1965 in response to this challenge and is the focus around which the University applies available knowledge to urban problem solution. The center seeks to organize and develop programs and research areas which use and stimulate faculty participation in urban area analysis. The center's objectives are to apply new methods and to experiment with new approaches in solving urban problems. Thus, it strives to stimulate, within the University, creative solutions to urban problems by coordinating the urban perspectives of the various disciplines and protessions
The center provides advisory and research expertise in a wide range of areas to both public and private agencies on all levels. Research covers such areas as urban and regional planning, administrative organization, cost-benefit analysis, community development, housing, intergovernmental relations, urban employment, criminal justice planning, recreation, social services planning and urban education.
The center represents a multidisciplinary approach to the analysis of the urban region. It augments its research capabilities by drawing upon the expertise of the faculties in the various colleges within the University. Through its programs in research, data accumulation and extension, the center provides the setting and facilities through which interested faculty and graduate students can become involved in urban research or public service activities.

# Continuing Education and Public Services 

William T. Nichois, Ed.D., Assistant Dean

## BACKGROUND

Continuing Education and Public Services is a catalyst, bringing together the skilis and expertise of University personnel and community members to focus on the issues and problems of the urban society.
Learners from all walks of life can improve or maintain their professional competence, meet the demands of a changing career and prepare to use new skills to improve both personal and protessional goals. Through instruction and research, individuais are trained to become specialists in aduit development.
The Center for Continuing Education, located in the Lisle M. Buckingham Center for Continuing Education, features courses, conferences and career/life planning services in tune with today's economic, social and heaith issues.

## HISTORY

The University of Akron has a rich history of educating adults. In 1872, Buchtel College's first class was composed of 46 regular college freshmen and 164 preparatory noncredit students, including Civil War veterans. Within a year, Buchtel College enrolled noncredit students in business courses as an outreach venture in Barberton. Adult noncredit education and outreach to the community have remained part of the University basic fabric through the years.

## DEFINITION

In 1983, the Ohio Board of Regents defined noncredit Continuing Education as an institutionally sponsored offering which carries no credit toward a degree, e.g., associate, baccalaureate or higher degree. Noncredit does include, however, offerings providing Continuing Education Units (CEUs) or similar certification or diploma. Curriculum categories include:

- Skill Training and Development -- Entry Level.
- Professional Updating and Inservice Programs.
- Intellectual Development of the individual.
- Family Living and Management.
- Society. Behavior and Culture.
- Recreation, Health and Fitness of the individual.

Continuing education is a necessity for many persons wishing to improve work skills. For others, it is a leisure-time avocation for personal enrichment. Since 1872, year-round sessions have offered courses in both categories for adults and youth who do not prefer academic credit.

## CONTINUING EDUCATION

## Department of Noncredit Courses

Sandra B. Edwards, M.A., Director

Noncredit courses complement the credit offerings of The University of Akron by providing noncredit courses for a broad spectrum of adult and youthful learners. The department provides learning opportunities in the areas of: professional continuing education; skiil development; personal and intellectual development; personal and family living; society and community awareness; and cultural and avocational activities. Courses are offered on campus as well as on-site for business and at off-campus community locations. More than 600 classes based on the educational needs of the community are enrolled each year by adults.

Noncredit course offerings provide a forum for examination of ideas and concepts and provide educational programs which lead to the awarding of Continuing Education Units (CEUs). The noncredit department meets community and regionai commitments which expand educational opportunities for area adults and youth.

## On-Site Training

Continuing education brings workshops and courses to local and regional business and service organizations to help them make more efficient use of training dollars. One hundred classes are held off campus on-site in business and industry. Program consultants visit the site, discuss the particular work situation, analyze needs and develop a customized training program.
The high-quality training and educational programs can be conducted on-site and are designed specifically to meet the requirements of the organization, so costs are always kept under control. Scheduling is done at the organization's convenience, and the instructors are coordinated through The University of Akron.

## Continuing Education Units

All courses, seminars and conferences offered through Continuing Education awards Continuing Education Units (CEUs). A CEU is defined as " 10 contact hours of participation in an organized continuing education experience under responsible sponsorship, capable direction and qualified instruction."
The availability of these useful permanent records and official recognition makes the pursuit of knowledge through continuing education more attractive and satisfying as a way of personal and professional development. A record of CEUs provides a framework with in which individuals can develop and tailor their own learning programs.

Progress towards such goals, at the individual's own pace and possibly planned over a number of years, can be demonstrated and documented in terms of the record of CEUs earned.
The department strives to help the University meet the learning needs of those persons who desire credit-free learning opportunities. Homework and examinations may be given; however, certificates of satisfactory completion are awarded based on attendance. Permanent student records are kept for all persons enrolled.
Following is a representative, though partial, listing of types of subjects taught in classes:

- Fine Arts - acting, ballet, children's piano, drawing for realism, fashion illustration, jazz dancing, music reading, music theory, oil painting, piano playing, preparatory music, private music lessons, watercolor painting.
- Languages - Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Slovak, Spanish, Turkish.
- Mathematics and Test Taking Skiils - Algebra, ACT, GED. GMAT. GRE. LSAT, SAT, PSAT preparation, mathematics skills.
- Nursing and Community Services - Fund raising for nonprofit organizations, Greater Akron Community Cardiovascular Program, LPN pharmacology, medica! terminology, understanding clinical laboratory tests and results.
- Photography - Darkroom techniques, elementary photography, videotape workshop, 35 MM photography.
- Business and Industry - Blueprint reading, bookkeeping for small business, direct mail marketing, federal income taxation, tood service certification, human relations, quality control, robotics, selling, small business management, steam plant operation, supervision, technical drawing, tire mechanics.
- Communication Skills - Creative writing, effective speaking, English grammar, practical journalism, reading for better comprehension, sign language.
- Secretarial Skills - Certified Professional Secretaries review, legal secretaria! skills, shorthand, typewriting.
- Computer Skillis - BASIC, COBOL, computer graphics, FORTRAN. introduction to computers. word processing.
- Culinary Skills - Chinese cooking, microwave cooking, natural foods cooking, nutrition and diet.
- Electronics - Basic electronics, national electrical code, trouble-shooting techniques.
- Physical Fitness and Recreation - Aerobic exercise, golf, Korean karate, sailing. scuba diving, self-deferise for women, skiing, swimming, tennis, yoga.

## Department of Conferences and Seminars

William T. Nichols, Ed.D., Assistant Dean<br>Marvin E. Phillips, M.A.

The staff conducts ongoing professional education seminars and conferences and assists in program planning for University and community organizations. This department offers deveiopment of on-site training for business, industry, government, education and nonprofit organizations.

## On-Site Training

Continuing education brings workshops and courses to local and regional business and service organizations to help them make more efficient use of training dollars. One hundred classes are held off campus on-site in business and industry. Program consultants visit the site, discuss the particular work situation, analyze needs and develop a customized training program.
The high quality training and educational programs can be conducted on-site and are designed specifically to meet the requirements of the organization, so costs are always kept under control. Scheduling is done at the organization's convenience, and the instructors are coordinated through The University of Akron.

## Teleconferencing

Teleconferencing would make outreach programming available on academic seminars, facuity development, continuing education and research briefings: promoting the University to national/international audiences and obtaining programming world wide.
The present facilities available include: CPT's uplink; Electronic Engineering's downlink; GSC's conference rooms; IPS' television production; and ISS' AV equipment.
Facilifies to be acquired include: coaxial cable to iink studio, set and satellite; telephone lines with long distance toll numbers and amplification; and cameras, monitors, microphones, and sound systems for two-way audio and two-way video.

## Career Path Development

The career path development program is to develop and administer a training and career development program for support staff and general faculty personnel. The scope of these activities will range from basic information topics to technical or advanced subjects, as well as skillis training.

## PUBLIC SERVICES/ OUTREACH COORDINATION

Marvin E. Phillips, M.A. Director, Public Services

The role of Public Services and Outreach Coordination is to expand education to those needing services and educational opportunities for both the personal and professionai development over an extended life span. Individuals responding to organizational and social change have a need to continue to learn. Learning is the key to productive adult development in the context of changing work and home life.
This urban institution is a contributing member of its local, state and national communities.
Some activities include the Community Ambassador Program, Weekly Current issues Forum and radio broadcasts. Akron Film Society, academic conferences, hearings and public lectures.
Current knowledge and research are shared by developing partnerships with the public and private sectors of these communities. This interchange results in future opportunities which contribute to organizational and individual growth. These collaborative efforts of public service lead to new research, education and prototype programs applicable to a changing community.
This University meets its public service commitment through consultation, helping services, educational programming and research.

## Education and Research in Adult Development

Harvey L. Sterns, Ph.D., Director

The institute for Life-Span Develcoment and Gerontology, founded in 1976, coordinates multidisciplinary credit certificate programs in LifeSpan Development: Adulthood and Aging at the undergraduate and graduate levels and Life-Span Development: Gender Identity and Roles at the undergraduate level. Faculty fellows at the institute representing 15 University departments conduct research, provide special courses, workshops and seminars as well as participate in community research and demonstration projects. Students in the certificate programs carry out field placements at numerous community service settings including the Adult Resource Center.
Examples of outreach activities include the Elderhostel program, offered each summer for older adults who participate in a week-long residential learning experience and the Ohio Senior Olympics.
The institute is a member of the Northeasterin Ohio Consortium on Geriatric Medicine and Gerontology, Joining together with the Office of Geriatric Medicine and Gerontology, Northeastern Ohio Universities College of Medicine: Gerontology Center, Kent State University; and, Gerontology Committee, Youngstown State University.

## Life and Work Planning Services

Pauline A. Russell, B.A., Director

Lici Calderon, B.A., Assistant Director
The Adult Resource Center (ARC) offers life and work planning services to individuais and organizations. Through workshops and individual assistance 500 people monthly learn to make the most of their skills, abilities and interests. ARC helps individuals set personal, career and educational goals and makes referrals to a vast network of education, training and social services in a 10-county area.

ARC offers life- and work-planning services to business and industry. These services are designed to help employees continue to grow, to perform better on the job and to set educational goals; to help employees take charge of their own lives; and, to help organizations and employees match their interests with abilities.

All of ARC's services, based on more than a decade of research, heip people take more responsibility for their own lives.

Established in 1978, the center was cited in 1982 by the American Association of State Colleges and Universities as one of the most innovative and successfully implemented programs in American higher education.

## Training in the Field of Long-Term Health Care

Genevieve A. Gipson, M.S.E., Director

Nursing Home Training Center programming emphasizes the wellness concept for older adults by improving services in home-based and institutionat health care. Serving a 15-county area, this model personnel training program is delivered in 368 long-term care facilities to administrators, staff, patients and family members. Those in training represent administrative and direct care givers for nursing homes, home health, adult day care and other long-term care facilities.

## University College

## GENERAL STUDIES

## 1100:

105 INTRODUCTION TO PUBLIC SPEAKING
3 credits
introduction to principles and practice of speaking by reading examples of speeches, study ing techniques and methods employed and applying them in a variety of speaking situations.

106 EFFECTIVE ORAL COMMUNICATION

## 3 credits

Principles of communication in speaker-audience, group and informal settings, and applica-
tion of the principles in speeches, group discussions and other oral and written assignments.
111,2 ENGLISH COMPOSITION 4 credits each
Sequential. Proficiency in reading and writing of English is obtained. Reading materials used are literary works of our Western tradition.

115,6 INSTITUTIONS IN THE UNITED STATES
3 credits each
Nonsequential. Descriptive and comparative study of development of modern American institutions. Covers various aspects of growth and elaboration of American governmental, social and economic institutions.

120-81 PHYSICAL EDUCATION
1/p credit each
Participation in individual and group sports. Individual can acquire knowledge and skill in
activities which may be of value and satisfaction throughout life. One-half credit courses are
offered one-half semester. Permission of coach necessary for enrollment in varsity sports (170-181)."*

[^80]221 NATURAL SCIENCE: BIOLOGY
3 credils
Designed for non-science majors to illustrate fundamental concepts of living organisms with emphasis on man's position in, and influence on, the environment.

222 NATURAL SCIENCE: CHEMISTRY
3 credits
Designed for non-science majors Introduction to chemical principles at work in man and in the environment

223 NATURAL SCIENCE: GEOLOGY
3 credits
Study of basic principles and investigative techniques in various fields of geology with emphasis on relationship of geological processes to society.

224 NATURAL SCIENCE: PHYSICS 3 credits
Introduction to, and commentary upon. some of the most significant principles, perspectives and developments in contemporary physics. Intended for non-science majors.

320,1 WESTERN CULTURAL TRADITIONS
4 credits each
Sequential. Prerequisite: 64 credits or permission. Introduction to human experiences of the past as manitested in the ideas, music and visual arts of Western civilization, the Greeks to the present. Two lectures/two discussions per week.

Courses $330-5$ are designed to give a basic knowledge of past human experiences and an understanding of current events in some key areas of the non-Western world.

## 330 EASTERN CIVILIZATIONS: CHINA

2 credits
Prerequisite 64 credits.
331 EASTERN CIVILIZATIONS: JAPAN
2 credits
Prerequisite: 64 credits.
332 EASTERN CIVILIZATIONS: SOUTHEAST ASIA
2 credits
Prerequisite: 64 credits
333 EASTERN CIVILIZATIONS: INDIA
2 creaits
Prerequisite: 64 credits
334 EASTERN CIVILIZATIONS: NEAR EAST
2 credits
Prerequisite: 64 credits
335 EASTERN CIVILIZATIONS: AFRICA
2 credits
Prerequisite: 64 credits

## Air Force ROTC

## AEROSPACE STUDIES

## 1500:

113,4 FIRST YEAR AEROSPACE STUDIES
1.5 credits each
(AS100). General Military Course
Missions and organizations of Air Force and current events discussed to show how the military contributes to national detense Laboratory develops leadership skills.

## 253,4 SECOND YEAR AEROSPACE STUDIES

1.5 credils each
(AS200), General Military Course
Emphasis on air power history. Films, lectures and class discussions. The politico-military environment is presented. Leadership laboratory.

## 303,4 THIRD YEAR AEROSPACE STUDIES

3 credits each
(AS300), Professional Officer Course.
Management concepts in the military, Leadership theory, functions and practices; profes sionalism; and responsibilities Communicative skills are developed. Leadership laboratory

453,4 FOURTH YEAR AEROSPACE STUDIES
3 credits each
(AS400). Professional Officer Course.
Focuses attention on the military profession, military justice systems, civil-military interactions, and the framework and tormulation of defense policy. Communicative skills are developed. Leadership laboratory

## Army ROTC

## MILITARY SCIENCE

## 1600:

100 INTRODUCTION TO MILITARY SCIENCE I
2 credits
Study of the organization of the Tota! Army to include the Active Army, the Army National Guard, the Army Reserve and the Branches of the Army An introduction to and an application of rappelling, rifle marksmanship, to include hunter sately, and first ard. No military obligation incurred Leadership laboratory required.

101 INTRODUCTION TO MILITARY SCIENCE II
2 creaits
Study and application of the principles and techniques of basic military leadership, land navigation/orienteering, cross-country skiing and first aid. No military obligation incurred Leadership laboratory required.

200 BASIC MILITARY LEADERSHIP
2 credits
Study and application of the leadership assessment program (LAP). Practical experience in rappelling, land navigation/orienteering and tirst aid. No military obligation incurred. Leadership laboratory required.

201 SMALL UNIT OPERATIONS
2 credits
Study and application of the principles of war as they relate to small unit cperations. Practical work with communications equioment and an introduction to writing an operations order. Training in pistol marksmanship. wilderness training and first aid. No military obligation incurred. Leadership laboratory required.

300 ADVANCED LEADERSHIP I
3 credits
Prerequisites: 100,$1 ; 200,1$ and/or permission. Intensive investigation of the leadership process to include applicatory work emphasizing officer ethics, duties and responsibitities. Leadership laboratory required.

301 ADVANCED LEADERSHIP If
3 credits
Prerequisite: 300 and/or permission. Study and analysis of small unit leadership and tactics, stressing application and problem-solving processes. Practical work with communications equipment and land navigation. Leadership laboratory required.

400 MILITARY MANAGEMENT I
3 credits
Prerequisites: 300.1 or permission. Study of the principles of war integrated into a military history program. Study of command and staff functions, briefing techniques and familianzation with the military justice system. Leadership laboratory requifed.

401 MILITARY MANAGEMENT II
3 credits
Prerequistes: 300,1 or permission. Study of Army commana and staft procedures. Examination of officer leaderstip and managerial responsibilities to include planning and organizing. delegation and control. and orat and written communications. Leadership laboratory required.

## Interdisciplinary Programs

## AFRO-AMERICAN STUDIES

## 1810:

401 GENERAL SEMINAR IN AFRO-AMERICAN STUDIES
Prerequisite: $3400: 220$ or permission. Exploration and intensive examnation of variety of issues related to role and minority group relations which mormally stand outside the compass of any one subject matter area.

## ENVIRONMENTAL STUDIES

## 1830:

201 MAN AND THE ENVIRONMENT
2 creaits
Study of man's relationship with nature, his dependence upon his environment and his control over it. An interdisciplinary approach, with lecturers from various University departments. government and industry describing their approaches to the environment.

401 SEMINAR IN ENVIRONMENTAL STUDIES
2 credits
Specific environmental topic or topics from interdisciplinary viewpoint each semester. The director of Environmental Studies coordinates course; resource persons are drawn from the University and surrounding community.

490/590 WORKSHOP IN ENVIRONMENTAL STUDIES
1-4 credits
Prerequisite: varies with topic. Credit in graduate program must have prior approval of adviser. Skills, attitudes and tundamental concepts dealing with timely environmental problems and issues covered. Instruction under direction of University tacully

602 EVALUATION OF ENVIRONMENTAL DATA
3 credits
Prerequisites: graduate standing, one year of chemistry, physics, job experience or course work in chemical engineering. A review of environmental testing techniques in current use: emphasis on interpretation and limitations

661 GRADUATE SEMINAR IN ENVIRONMENTAL STUDIES
3 credits
Prerequisite: graduate standing. Explores topics of current environmental concerns. Em-
phasis on presentation of oral and written reports and subsequent student-faculty dialogue.

## INSTITUTE FOR LIFESPAN DEVELOPMENT AND GERONTOLOGY

## 1850:

300 INTRODUCTION TO WOMEN'S STUDIES
3 credits
An interdisciplinary exploration of research methodology. empirical data. and theories on the history, culture, experience, accomplishments and status of women.

450 INTERDISCIPLINARY SEMINAR IN LIFE-
1 credit
SPAN DEVELOPMENT AND GERONTOLOGY
(May be repeated for a total of two credits)
Prerequisite: a certificate program student only. Guest speakers from various disciptines and services which have lite-span development and gerontological components and from government and community facilities and services. A certificate program student must complete two semesters of this course.

485 SPECIAL TOPICS
$1-3$ credils
Prerequisite: permission of instructor. Specialized topics and curfent issues in life-span development, gerontology or gender. Covers content or issues not currently addressed in other academic courses.

490 WORKSHOP
1.3 credils
(May be repeated)
Group studies of special topics in life-span development and gerontology. May not be used to meet certificate requirements. May be used for elective credit only.

493 INDIVIDUAL STUDIES ON WOMEN 3 credits
Prerequisite: 300, corequisite 499.
495 PRACTICUM IN LIFE-SPAN DEVELOPMENT
1-3 credits
AND GERONTOLOGY
(May be repeated)
Prerequisite: permission. Supervised experience in research or community agency work.
499 SEMINAR IN WOMEN'S STUDIES
1 credit
Prerequisites: 300 and nine elective credits in women's studies or instructor's permission. Selected topics in women's studies to be taken in conjunction with 493

## Graduate Courses

680 INTERDISCIPLINARY SEMINAR IN LIFE-
SPAN DEVELOPMENT AND GERONTOLOGY
Prerequisite: permission. The certificate program stucent only. Explores interdisciplinary
issues in life-span development and gerontology. Guest speakers from various disciplines
and services which have life-span development and gerontological components and from
government and community facilities and services.
685 SPECIAL TOPICS
Prerequisite: permission of instructor. Specialized topics and current issues in life-span
development, gerontology or gender. Emphasis is on original source materials. critical ana-
lyses and syntheses of empirical, theoreticai and applied aspects.

## 690 WORKSHOP

$1-3$ credits
(May be repeated)
Group studies of special topics in lite-span development and gerontology. May be used as elective credit but not as part of cerlificate required courses.

695 PRACTICUM IN LIFE-SPAN DEVELOPMENT 3 credits AND GERONTOLOGY
Prerequisite: permission. Supervised experience in research or community agency work

## PEACE STUDIES

## 1860:

300 TOPICS IN PEACE STUDIES ..... 1.3 credits(May be repeated for a total of three credits)interdisciplinary topics related to peace studies
301 VALUE CONCEPTS ON PEACE AND WAR 3 credits
Interdisciplinary study of attitudes, concepts and realities regarding war and peace issues.
350 INDEPENDENT STUDY$1-3$ credils
(May be repeated for a total of three credits)
Detailed study on selected topics related to peace
360 THE VIETNAM WAR 3 creditsAn examination
378 INTRODUCTION TO HUMAN RIGHTS CONCEPTS3 credits
Interdisciplinary and cross-cultural survey of basic concepts of human rights as recognizedby international law. Limitations and future issues are raised.
390 WORKSHOP IN PEACE STUDIES1-3 credits
(May be repeated for a total of four credits)

## HONORS PROGRAM

## 1870:

250-350-450 HONORS COLLOQUIUM: HUMANITIES 2 credits each Prerequisite: admission to University Honors Program. Interdisciplinary colloquium on important issues in humanities.

260-360-460 HONORS COLLOQUIUM: SOCIAL SCIENCES
2 credits each
Prerequisite admission to University Honors Program, Interdisciplinary colloquium on important issues in social sciences.

270-370-470 HONORS COLLOQUIUM: NATURAL SCIENCES 2 credits each
Prerequisite: admission to University Honors Program. Interdisciplinary colioquium on important issues in natural sciences.

## MEDICAL STUDIES

## 1880:

201 MEDICAL SEMINAR AND PRACTICUM I
Prerequisites: $3100: 191$ and permission. Provides field experiences in health-care delivery in geographic area served by Northeastern Ohio Universities College of Medicine and The University of Akron. Student directed in supervised roles of protessional and paraprofessional in meeting health-care needs of community. Open to first-year student in Phase 1 of B.S./M.D. program. others by permission

301 MEDICAL SEMINAR AND PRACTICUM II
1-3 credits
(May be repeated to a maximum of three credits)
Prerequisites: 201 and permission. Continuation of 201 offered at an advanced level of protessional involvement. Open to second-year sludent in Phase 1 of B.S./M.D program. others by permission

310 SEMINAR ON HUMANITIES IN MEDICAL EDUCATION
3 credits
Prerequisite: junior standing in B.S./M.D. program; others involved in heath-care delivery programs by permission. Introduction to the humanities as they bear upon history and practice of medicine. Seminar draws upon lecturers from the University and community, and includes performances, field trips, films and tapes appropriate to topics discussed.

401/501 SPECIAL TOPICS: MEDICAL EDUCATION
1-3 credits
(May be repeated with a change of topic with a maximum of three credifs count toward graduation)
Prerequisites: upper-college student status and permission. Selected topics on medical education offered by professionals. Intended to provide advanced undergraduate education and continuing education for student and practitioners in the heafth sciences

## ENVIRONMENTAL HEALTH

1890:
300 INTRODUCTION TO ENVIRONMENTAL HEALTH
3 credits
Prerequisite: permission. Introduction to environmental health, public health, industrial hy giene and related fields. The nature of the field, problems dealt with. the legal basis for action and career opportunities.

410 EPIDEMIOLOGY
3 credits
Prerequisite: permission of instructor. Introduction to the study of the distribution and determinants of diseases and injuries in human populations; epidemiological statistics; research models.

437 INDIVIDUAL STUDIES OR INTERNSHIP IN ENVIRONMENTAL HEALTH
$1-3$ credits
(May be repeated for a maximum of six credits)
Prerequisite: permission of instructor An internship with an appropriate employer or approved equivalent.

450 SEMINAR IN ENVIRONMENTAL HEALTH
1 credit
(May be repeated for a maximum of two credits)
Prerequisite permission of instructor. Research reports by faculty, graduate students and invited speakers

480 SPECIAL TOPICS IN ENVIRONMENTAL HEALTH
1.3 credits
(May be repeated for a maximum of six credits)
Prerequisite: permission of instructor. Special courses offered once or occasionally in areas where no formal course exists.

# Community and Technical College 

## COOPERATIVE EDUCATION 2000:

201,301 COOPERATIVE EDUCATION
0 credits
(May be repeated)
Prerequisite: cooperative education students only. Work experience in business, industry or governmental agency. Comprehensive performance evaluation and written report required.

## DISTINGUISHED STUDENT PROGRAM

2015:
150 DISTINGUISHED STUDENT COLLOQUIUM
2 credits
Prerequisite: admission to College Distinguisned Student Program. Interdisciplinary colloquium on topics and issues in the humanities, social sciences and natural sciences.

## ASSOCIATE STUDIES

## 2020:

121 ENGLISH
4 credits
Employs various techniques including art, films, personal journals and critical reading. leading from pre-writing to development of structured expository essays.

130 INTRODUCTION TO TECHNICAL MATHEMATICS
3 credits
Elements of basic algebra; operations on signed numbers and polynomials; solutions and applications of first- and second-degree equations; English and metric systems, various types of graphs with applications, linear systems: trigonometry of right triangle. May not be used to meet General Studies mathematics requirement.

131 MATHEMATICAL ANALYSIS I
4 credits
Prerequisites two units of high school mathematics. Fundamental aigebraic concepts, ratio, proportion and variation, graphing equations, right triargle trigonometry. linear systems. factoring and algebraic fractions, quadratic equations, trigonometric functions, oblique triangles

132 MATHEMATICAL ANALYSIS II
3 credits
Prerequisite: 131 or equivalent. Exponents and radicals, exponential equations, logarithms, vectors. graphs of trigonometric formulas and identities, complex numbers.

141 MATHEMATICS FOR DATA PROCESSING:
4 credits
Prerequisites: two units of high school mathematics, including algebra. Numeration systems,
fundamental algebraic concepts and operations, functions and graphs, systems of linear equations, determinants, matrices, factoring and algebraic fractions and quadratic equations.

142 MATHEMATICS FOR DATA PROCESSING II
3 credits
Prerequisite. 141 or equivalent. Sets, logic, basic probability and statistics and mathematics of finance.

222 TECHNICAL REPORT WRITING
3 credits
Prerequisite. 121 or equivalent. Prepares student to write the types of reporis most otten required of engineers. scientists and technicians. Includes types of reports, memoranda, letters, techniques of research, documentation and oral presentations.

224 WRITING FOR ADVERTISING
4 credits
Prerequisite: 121 or $1100: 111$. Study of language used in advertising, practice in writing advertisements for various media.

233 MATHEMATICAL ANALYSIS III
3 credits
Prerequisite: 132. Analytic gecmetry of the conics, introduction to differentiation, the derivative, application of the derivative, integration, differentiation and integration of franscendental functions.

240 HUMAN RELATIONS
3 credis
Examination of principles and methods which aid in understanding the individuai's response to his society and relationship between society and individual

241 TECHNOLOGY AND HUMAN VALUES
2 credits
Examination of impact of scientific and technical change upon man, his values and his institution arrangements. Topics include biomedical technology, automation. economic growth, natural environment and technology and quality of life.

## 242 AMERICAN URBAN SOCIETY

3 credts
Multidisciplinary treatment of urban processes and problems. Concerns historical, political, social, economic and other environmental forces which impact upon the individual in an urban setting.

244 DEATH AND DYING
2 credits
Understanding of death and dying applied personally and professionally to needs of aduits. children and families with respect io attitudes, feelings and communications skills.

247 SURVEY OF BASIC ECONOMICS
3 credits
Introduction to economic analysis and issues oesigned for the student taking only one course in economics. Coverage includes economic systems, exchange, money and banking, nationai income, employment, fiscal policy and current domestic economic problems.

251 WORK RELATIONSHIPS
3 credits
Examination of relationship between man and the work organization. Emphasis on involvement. sense of job satistaction. supervision and goats of the organization.

254 THE BLACK AMERICAN
2 credits
Examination of the black American including origins, historical achievements and present striving to achieve first-class citizenship in American society. Emphasis on analysis of forces in American society that create racial separation.

290 SPECIAL TOPICS: ASSOCIATE STUDIES
$1-4$ credits
(May be repeated with a change in topic)
Prerequisite: permission. Selected topics on subject areas of interest in associate studies
334 MATHEMATICS FOR TECHNICAL APPLICATIONS
3 credits
Prerequisite: 233. Applications of integration, methods of integration, series (including Fouri-
er), numerical methods of approximation, introduction to differential equations, second-order differential equations, Laplace transforms.

## INDIVIDUALIZED STUDY <br> 2100:

190 INDIVIDUALIZED STUDY EVALUATION
1 credit
Prerequisite: admission to program. Analysis of interests, talents. goals expressed in three assigned papers; first shortly after enrollment in program, second after completing 12 to 16 credits: third after completing 52 credits. Topics include student's background of career and personal activities, effect of current coufse work, opportunities resulting from educational experiences and application of ideas in planning areas of study. Student is required to enroll in this course in first semester.

## EDUCATIONAL TECHNOLOGY <br> 2200:

100 INTRODUCTION TO LIBRARY TECHNOLOGY
3 credits
Introduces student to library technology program and career opportunities available as library technologists. Includes discussions. field observations. guest speakers, !ecturers. readings and extensive practical hands-on experience.

201 CATALOGING, CLASSIFYING AND PROCESSING MATERIALS
3 credits
Study of principles of descriptive cataloging, Dewey decimal system, Library of Congress classifications and subject headings. Problems. practice in typing catalog cards and filing.

202 ORGANIZING AND OPERATING LIBRARY/MEDIA CENTERS
3 credits
Includes tunctional aspects of facility, ordering and processing materials, circulation procedures and other control systems. Operational functions include program development and implementation. services of library/media centers and public relations.

203 MATERIALS SELECTION
2 credits
Introduction to tools used in selecting print and nonprint materials for libraries/media centers.
Problems of censorship, intellectuai freedom and academic freedom discussed as they relate to evaluation selection process

204 REFERENCE PROCEDURES
3 credits
Introduction to study and use of basic information tools including almanacs, encyclopedias. dictionaries, bibliographies, yearbooks and specialized reference tools. Actual reference practices and procedures used

205 INFORMATION RETRIEVAL SYSTEMS IN
3 credits LIBRARY TECHNOLOGY
Prerequisites: 201,4 ; or permission. Practical introduction to information retrieval systems and their application. Emphasis on Ohio College Library Center network and its impact on library technical and public services. Hands-on experience with OCLC and other on-line terminal operations.

245 INFANT/TODDLER DAY-CARE PROGRAMS
3 credits
Survey of infant/toddler development Principles of infant/toddler care giving. Design of environment and curriculum based on child's needs. !ncludes observation of children.

250 OBSERVING AND RECORDING CHILDREN'S BEHAVIOR
3 credits
Prerequisite $7400: 265$ or permission. Develops observing and recording skills using difterent types of records and assesses children's development and behavior. One-half of total hours spent in classroom and one-half on site in field.

290 SPECIAL TOPICS: EDUCATIONAL TECHNOLOGY
$1-2$ creatis
(May be repeated for a total of four credits)
Prerequisite: permission Selected topics on subject areas of interest in educatonal technology.

297 INDEPENDENT STUDY
1-3 credits
(May be repeated for a total of six credits)
Prerequisite: permission. Selected topics and special areas of study under supervision and
evaluation of selected faculty member with whom specific arrangements have been made.

## HANDICAPPED SERVICES

## 2210:

100 INTRODUCTION TO INTERPRETING FOR THE DEAF
4 credits
Prerequisites: 104 and $7700: 271$. Introduction to basic theories, principles and practice of interpreting for the deaf in general and in specialized settings. A survey course intended to familiarize the student with ethics and guidelines appropriate in situational settings. Will also emphasize interpreting/translating processes and skill building
104 SIGN LANGUAGE, GESTURE AND MIME
3 credits
Non-language aspects of communication which form base for communication in American sign language and international sign language. Emphasis on eye training, use of gestures, pantomime, body language.

110 SPECIALIZED INTERPRETINGI
3 credits
Prerequisites: 104, 7700:110. Introduction to interpreting in counseling, mental health, medical and social work settings with an overview and development of specific translations in these areas.

150 HANDICAPPED SERVICES PRACTICUM
$1-4$ credits
(Must be repeated for a total of eight credits)
200 REVERSE INTERPRETING
3 credits
Prerequisites: 104,7700:100. Designed to enhance skills in comprehending the various sign language systems; a continuum from gestural signs to Ames lan to systems based on English Deat speakers, guests and videotapes will be featured to provide situational practice. Principles and problems of reverse interpreting manual, oral and written communications of deaf persons into its proper English equivalent will be covered.
230 SPECIALIZED INTERPRETING II
3 credits
Prerequisite: 7700 :150. Introduction to interpreting in the vocational/technical. legal, educathonal and religrous settings with an overview and development of specific translations in these areas.

290 SPECIAL TOPICS: HANDICAPPED SERVICES
$1-3$ credits
Selected topics or subject areas of interest in handicapped services

## CRIMINAL JUSTICE TECHNOLOGY

## 2220:

100 INTRODUCTION TO CRIMINAL JUSTICE
3 credits
Overview of criminal justice system, its history, development and evolution within United
States including subsystems of police, courts, corrections. Constitutionai limitations, current criminal justice practices - human relations, professionalization, prevention.

101 INTRODUCTION TO SECURITY
4 credils
Overview of functions, problems and strategies of contract and proprietary security agencies. Philosophy of the protection of assets based on risk analysis ano cost effectiveness.
102 CRIMINAL LAW FOR POLICE
3 credits
Prerequisite: 100 . Historical development and philosophy of the law. Thorough study of modern criminal law including Ohio Criminal Code and defenses to particular crimes.

104 EVIDENCE AND CRIMINAL LEGAL PROCESS
3 credts
Prerequisite: 100 . Study of evidence law, constitutional perspectives and law enforcement ofticer's relationship thereto. Court procedures from arrest to incarceration.

## 106 JUVENILE JUSTICE PROCESS

3 credits
Prerequisite: 100 . Examination of fuvenile justice system, functions of its various components. adolescent subculture, legislation, causative factors, prevention and treatment methodologies and programs
110 Social values and the criminal justice process
3 credits
Frerequisite: 100 . In-depth exploration stressing philosophy that social values and ethics are basic principles of a sound criminal justice process. Roles of administration of justice practitioners in relation to public they serve.

200 CRIMINAL JUSTICE THEORY AND PRACTICE
3 credits
Prerequisite 100. Examination of criminal justice administrative problems in personnel selection, training, advancement and personnel utilization. Consolidation and cooperation between agencies. Advanced concepts for change within criminal justice system

240 DYNAMICS OF VICE CRIME AND SUBSTANCE ABUSE
3 credits
Prerequisites: 100 and permission. Introduction to problems of vice crime and narcotics and drug abuse in our society. Provides knowledge concerning issues involved in consensual acts. Impact on society of physicat and psychological results of substance abuse.

250 CRIMINAL CASE MANAGEMENT
6 creaits
Prerequisites: 100,2840:100 and permission. Reconstruction of chronological sequence of a
crime including searching, collection, preserving and evaluation of physical and oral evidence. Scientific approach to criminal investigation.

290 SPECIAL TOPICS: CRIMINAL JUSTICE
1-4 credits
(May be repeated for a total of six credits)
Prerequisite: permission. Workshops and special programs in selected areas of criminal just:ce such as community relations, crime statistics, ethics, survival.

## 294 CRIMINAL JUSTICE INTERNSHIP EVALUATION

1 credit
Prerequisites: 100, 30 credits and permission: corequisite: 295. Analysis by student and instructor of internship experience. A sharing of knowledge gained by student during internships.

295 CRIMINAL JUSTICE INTERNSHIP
3 credits
Prerequis ites: 100,30 credits and permission. Supervised work experience in criminal justice agency for purpose of increasing student understanding of criminal justice process.

## FIRE PROTECTION TECHNOLOGY

## 2230:

## 100 INTRODUCTION TO FIRE PROTECTION

3 credits
History and philosophy of fire protection; introduction to agencies involved; current legislative developments; discussion of current related problems, expanding future of fire protection and career orientation

102 FIRE SAFETY IN BUILDING DESIGN AND CONSTRUCTION
3 credits
Exploration of building construction and design with emphasis on fire protection concerns; review of related statutory and suggested guidelines - local. state and national scope.

104 FIRE INVESTIGATION METHODS
3 credits
History of fire investigation; gathering of evidence and development of technical reports; fundamentals of arson investigation; processing of criminal evidence and procedures related to local and state statutes.

153 PRINCIPLES OF FIRE PROTECTION AND LIFE SAFETY
3 credits
Recognition of specialized fire hazards. Maintenance and utilization of portable and automatic
fire extinguishing devices. Fire prevention methods. code compliance. Organizing fire safely training programs

202 FIRE SUPPRESSION METHODS
3 credils
Efficient and effective utilization of manpower. equipment and apparatus. Emphasis on preplanning, fireground organization problem solving related to fireground decision making and attack tactics and strategy.

204 FIRE HAZARDS RECOGNITION
3 credits
Inspection techniques and procedures; setting up a fire prevention bureau. Recognition and correction of fire hazards. Public relations and code enforcement.

205 FIRE DETECTION AND SUPPRESSION SYSTEMS I
3 credits
Design, installation, maintenance and utilization of portable fire extinguishing appliances and pre-engineered automatic systems; fire detection and alarm signaling systems operational capabilities. requirements.

206 FIRE DETECTION AND SUPPRESSION SYSTEAS II
3 credits
Prerequisite: 205. Design, installation and operation of automatic fire suppression systems. Includes sprinkler, foam, carbon dioxide. dry chemical, halogenated agent systems.

## 250 HAZARDOUS MATERIALS

4 credits
Frerequisite: 2840:100. Study of chemical characteristics and reactions related to storage transportation and handling of hazardous materials. Emphasis on emergency situations, fire fighting and control.

254 FIRE CODES AND STANDARDS
3 credits
Prerequisite: 104 . Study of legal rights and duties, liabilities and respons bilities of fire depart ment organizations.

257 FIRE PROTECTION FOR BUSINESS AND INDUSTRY 3 credits Industrial fire protection problems including specialized nazards, automatic extinguishing systems. codes and standards, fire safety planning, fire brigade organizations.

290 SPECIAL TOPICS: FIRE PROTECTION TECHNOLOGY
1-2 credits
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in fire protection technology.

295 FIRE PROTECTION INTERNSHIP
4 credits
Prerequisites. 30 credits in program and permission of program coordinator. Supervised work experience in fire protection to increase student understanding offire technology analysis by student and instructor of internship experience: sharing of knowiedge gained during internship.

## COMMERCIAL ART

## 2240:

## 124 DESIGN IN COMMERCIAL ART

3 credits
Projects in visual design fundamentals. Analysis of design/research process applied to advertising layout and composition. Design constructions in pattern and self-contained forms.

140 TYPOGRAPHY AND LETTERING
3 credits
Prerequisite: 124. Letter symbols studied in terms of communication and aesthetic design. History of letter forms, type indication, copyfitting and type specification for commercial application. Analysis of contemporary type faces.

## 222 ADVERTISING PHOTOGRAPHY

3 credits
Prerequisite. 7100275 . Creative commercial use of photographic materials and equipment. Photography studied for its use in advertising and creative photo-illustration. Student must own or have use of camera with controllable shutter, lens, diaphragm and focus.

242 ADVERTISING LAYOUT DESIGN
3 credits
Prerequisite: 140. Problems in commercial grapnic design, analysis, research, visual experimentation and frished art Emphasis on visual problem solving in advertising and communications

243 PUBLICATION DESIGN
3 credits
Prerequisites: 242 and $7100: 275$. Study of publications and design of promotional brochures, annual reports and other multi-paged communication devices. Emphasis on total design systems from concept to camera-ready art Portfolio development.

245 DESIGNING FOR PRODUCTION
3 credits
Prerequisite: 140. Analysis of design process as applied to commercial printing processes Design projects taken to camera-ready art. Color separation systems, key-line, mechanicals and preparation of finished-art procedures.

247 PACKAGING DESIGN
3 credits
Prerequisites. 242 and 245 . Visual design and development of protective devices for packag ing, shipment and display of consumer products. Analysis of product marketing potential and point-of-purchase advertising.

290 SPECIAL TOPICS: COMMERCIAL ART
1-3 credits
Prerequisite permission of instructor Seiected topics or subject areas of interest in commercial art.

295 PRACTICUM IN COMMERCIAL ART
1.3 credits (Repeatable for a maximum of nine hours.
Prerequisite: $7100: 231,232,233$. Controlled by portfolio competition or permission of the instructor. Provides experience through an internal design and production studio. Involves responsibilities for the design and production of communication materials Includes organizational, accounting and managerial responsibilities

## PUBLIC SERVICE TECHNOLOGY

## 2250:

260 ADMINISTRATION AND SUPERVISION IN THE PUBLIC SERVICE
3 credits
Prerequisite: 2220:100 or 2230:100. Examination and analysis of basic concepts of administration, supervision, policy formulation as they pertain to public service agencies. Fractical applicatron of supervisory responsibilities, functions of police/tire departments.

## 240 CHEMIGAL DEPENDENCY

3 credits
Basic introduction to drug use and abuse Includes pharmacology, basic helping and crisis intervention skills, motivations, theories of treatment and exploration of some typical drug crisis situations.

251 COMMUNITY SERVICES FOR SENIOR CITIZENS
3 credits
Prerequisite: 150. A study of national and community resources for social service delivery io senior citizens. Specific agencies, program needs and senior citizens and resultant services.

252 RESIDENT ACTIVITY COORDINATION
3 credits
Designed to prepare student to qualify as resident activity coordinator in Ohio nursing homes. General topics include: assessing and understanding the patient, administration of activities program, techniques of program planning.

260 ALCOHOL USE AND ABUSE
3 credits
Survey of use and abuse of alcohol in our society with particular emphasis on replacing common stereotypes. myths and attitudes with improved understanding.

261 ALCOHOLISM TREATMENT
3 credits
Prerequisite: 260. Survey of theory and practices in treatment of alcohol problems. Special emphasis on applicability and effectiveness of various resources and approaches.

262 BASIC HELPING SKILLS IN ALCOHOL PROBLEMS
4 credits Prerequisite. 278. Introduces the student to basic concepis of helping skills; provides opportunity to help; develops ability to give and receive feedback about relevancy and effectiveness of behavior: develops responsibility for their own learning as related to working with alcohol problems

263 GROUP PRINCIPLES IN ALCOHOLISM
4 credits
Prerequisite: 260 or permission. Introduces student to group dynamics: provides opportunity to examine their role as group members; and explores unique factors in alcoholism that influence group treatment. Practical group dyramics sessions.

278 TECHNIQUES OF COMMUNITY WORK
4 credits
For those intending to work at communily organization and outreach assignments in inner city and other poverty areas in United States and for Others desiring ari understanding of these newly developing technical community service roles.

## 279 TECHNICAL EXPERIENCE IN COMMUNITY

5 credits

## AND SOCIAL SERVICES

Prerequisite: 278 or permission. Individual placement in selected community and social service agencies for educationally supervised experience in community and social services technician position. Does not substitute for 7750:421 or 495.

280 FUNDAMENTALS OF VOLUNTEER MANAGEMENT
3 credits
Prerequisite permission For person wishing to increase professional skills in volunteer administration. Includes setting goats, devetoping work plans, evaluating volunteer perfor mance, recruiting volunteers, writing job descriptions. handling human relations problems. developing office procedures, keeping records and evaluating volunteer program

281 RECRUITMENT AND INTERVIEWING OF VOLUNTEERS
3 credits
Prerequisite, 280 or permission. To provide knowledge for recruitment and interviewing of persons seeking volunteer positions. Will cover writing of volunteer job descriptions. methods of recruitment, techniques of interviewing: concentration on interviewing skills.

286 COUNSELOR ASSISTANT INTERNSHIP
4 credits
Prerequisites: 279 and permission of instructor. Integrates counseler assistant experience with fundamental concepts and skills from academic studies. Students required to complete 200 hours of supervised field experience.

290 SPECIAL TOPICS: COMMUNITY SERVICES TECHNOLOGY 1 -3 credits Prerequisite: permission Selected topics or subject areas of interest in community services technology.

297 INDEPENDENT STUDY
1-3 credits
Prerequisite: permission. Setected topics and special areas of study under the supervision arid evaluation of a selected faculty member with whom specific arrangements have been made

## LABOR STUDIES

## 2270:

## 101 INTRODUCTION TO LABOR STUDIES

3 credits
Overview of Trade Unionism in America from 18 th Century to present with emphasis on factors affecting growth of unions. Rise of industrial unionism as alternative to craft unions Trade Union movements in other countries examined for their influence on American unions.

111 COLLECTIVE BARGAINING I
3 credits
Review of collective bargaining dealing with wages, fringes and working conditions. Examinathon of contract content. Development of bargaining proposals. Skills required in negotiations and union/management responsibilities to community in collective bargaining. Strikes and impasse resolution.

122 LEGAL. FRAMEWORK FOR COLLECTIVE BARGAINING
3 credits
Legal framework within which collective bargaining process takes place Rights of emplovees, union, employer under federal and state laws discussed in context of organizing election and bargaining.

123 LABOR LEGISLATION AND ECONOMIC SECURITY
3 credils
Prerequisite: 122 or permission. Federal and state legislation governing employment conditions and standards. Includes minimum wage, heaith and safety, unemployment compensaton, TDI, civil rights and anli-discrimination, social security, labor management reporting and disclosure.

212 COLLECTIVE BARGAINING !I
3 credis
Prerequisite: 111 . Mechanics and skills of formal grievance procedures in industrial, craft and public setting. investigation, record keeping and presentation of grievance, as well as study of arbitration process and preparation and presentation of arbitration cases

221 OCCUPATIONAL HEALTH AND SAFETY STANDARDS
3 credits
Prerequisite: 122. Examination of William/Steiger Occupational Sately and Health Act and rights and responsibilities conferred on unions by this act. Includes not only workings of the law but also hazards recognition study.

224 LABOR LAW IN THE PUBLIC SECTOR
3 credits
Prerequisite: 271 . Provides basic understanding of legal requirements and restraints placed upon parties when bargaining within tederal, state and local sectors as well as postal and educational areas. Legal framework of collective negotiations or contract administration.

231 FAIR PRACTICES AND EQUAL OPPORTUNITY
2 creaits
Prerequisite: 101 . Rights and responsibilities of unions and union members as related to Title VII of the Civil Rights Act, the Voting Rights Act and development of EEOC.
241 UNION LEADERSHIP
2 credits
Prerequisite: 101 . Specific skills related to administration of local unions structure and duties and responsibility of officers.

251 PROBLEMS IN LABOR STUDIES
3 credits
Prerequisite: final semester or permission. Each student required to combine field research and classroom time to identify, explore and propose an approach to a current problem in labor/management relations.

261 Wage administration
3 creaits
Prerequisites: 101,111 or 122 . Wage and salary determination: structure of wages, salaries and fringe benefits and use of merit and incentive plans. Methods of compensation analyzed. impact of federal and state laws governing the payment of wages.

271 PUBLIC SECTOR LABOR RELATIONS
3 credits
Prerequisite: 101. Analyzes current problems, developments and issues in public sector collective bargaining from growth of public employee unions to the nature of bargaining in the public sector. Includes bargaining issues, right-to-strike and use of arbitration in public sector.

290 SPECIAL TOPICS: LABOR STUDIES
1-2 credits
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or workshops in labor studies.

## HOSPITALITY

MANAGEMENT

## 2280:

## 120 SAFETY AND SANITATION

3 credis
Introduction to food service sanitation, satety practices pertinent to hospitality manager. Emphasis on sanitation laws, rules, food microbiology, safe food handling, storage practices, accident prevention.
121 FUNDAMENTALS OF FOOD PREPARATION I
4 credits
Skills and basic knowledge of food preparation procedures in a laboratory situation.
122 FUNDAMENTALS OF FOOD PREPARATION II
4 credits
Prerequisite: 121. Continuation of 121. Advanced tood preparation techniques presented in laboratory situations.

123 MEAT TECHNOLOGY
2 credits
Intensive examination of meat cutting, portioning, determining product yield, and calculating cost.

135 MENU PLANNING AND PURCHASING
3 credits
Principles of food purchasing procedures including policies, writing specitications, recognizing quality standards integrated with marketing techniques, menu merchandising, menu planning.

150 HOTEL/MOTEL FRONT OFFICE PROCEDURES
3 credits
Prepares student for entry-level positions in the hotel/motel indusiry. Basic principles of guest service, standard systems, techniques within hotel/motel industry
152 MAINTENANCE AND ENGINEERING FOR HOTELS AND MOTELS
3 credits
Familiarization with organization, terms, concepts, responsibilities common to engineering and building maintenance.

160 WINe and beverage service
2 credits
Intensive examination of wine as related to nospitality industry. Emphasis on business practices. History and development of viticulture, enology.

232 DINING ROOM SERVICE AND TRAINING
2 credits
In-depth study of the styles of dining service, development of job descriptions, importance of courtesy, customer relations.
233 Restaurant operations and management
4 credits
introduction to large quantity food service procedures with emphasis on sound principles of food handling service and sanitation in large quantity operations. Gourmet meals served in simulated restaurant atmosphere.

236 FOOD AND BEVERAGE COST CONTROL
3 credits
Prerequisite 135 . Principles and procedures of effective fooo beverage control. Adaptations to various types of operations. Control process with emphasis on calculating food costs, estabtishing standards, production planning

237 INTERNSHIP
1 credit
Prerequisite: permission. On/off campus observation/work experience integrated with academic instruction. Concepts applied to practical situations.
240 SYSTEMS MANAGEMENT AND PERSONNEL
3 credits
Identifies systems utilized in successful food service operations. General principles of each system, its interrelationships with total tood service organization explored.

243 FOOD EQUIPMENT AND PLANT OPERATIONS
3 credits
Available food service equipment, its selection, use and care. Field trips taken to wholesale outlets and food service establishments to see food service equipment demonstrated and in operation.

254 HOTEL/MOTEL HOUSING MANAGEMENT
3 credits
Analysis of housekeeping procedures: organization of successful housekeeping department.
255 HOTEL/MOTEL SALES PROMOTION
3 credits
Sales promotion techniques; functioning of sales department; need for sales planning. Sales tools, selling techniques for food and beverage. group business. Advertising, community relations and internal personal and telephone selling.

256 HOSPITALITY LAW
3 credits
Introduction to hotel, restaurant. travel law. Fundamental constitutional, statutory, administrative rules, regulations appicable to hospitality industry. Case study, problem-solving approaches applied to legal problems confronting hospitality executives.

261 BAKING AND CLASSICAL DESSERTS
3 credits
Prerequisite: 122 . Production of basic items in bakeshop; use of equipment, materials, cost control to produce the desired products.

262 CLASSICAL CUISINE
3 creaits
Prerequisites: 122. 123. Lecture-demonstration experience in preparation of traditionat American hotel cuisine. Includes traditional repertoire of toods, spirits. Application of kitchen production controls: menu planning.

263 INTERNATIONAL FOODS
2 credits
Prerequisite: 122. Lecture-demonstration laboratory experience in preparing foods of different nationalities. Demonstration, preparation of select foods by visiting chets. Recipe file developed.

290 SPECIAL TOPICS: HOSPITALITY MANAGEMENT
$1-3$ credits
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in food service management.

## BUSINESS MANAGEMENT TECHNOLOGY

## 2420:

## 101 ELEMENTS OF DISTRIBUTION

3 credits
Study of basic principles and methods in distribution. Presentation of marketing process as it relates to consumer and industrial products. Emphasis on pricing, product, promotion, as well as distribution.

## 103 THE ROLE OF SUPERVISION IN MANAGEMENT

3 credits
Presentation of basic management techniques; motivation, planning, organizing, leading and controlling. Elements of group behavior. communication and employee compensation.

104 INTRODUCTION TO BUSINESS
3 credits
Survey course of business in its entirety including production, distribution, finance, control and personnel functions. Emphasis on descriptive materials, technical vocabulary and career opportunities and responsibilities in various business fields.

105 INTRODUCTION TO CREDIT UNIONS
2 credits
Credit union as financial institution. History, structure, duties of board of directors, advisory
committees, financial counseling, lending and analysis, evaluation of financial statements.

## 111 public relations

2 credits
Study of philosophy. techniques and ethics of the management function known as public relations. Defines variety of publics and methods of communication.

113 INTRODUCTION TO BANKING
2 credits
Covers fundamentals of banking in operational perspective. Emphasis on bank functions, types of accounts. relationship to depositors, loans, investments trust, safe deposit operations. internal and external control, public service obligations.

115 CREDIT UNION OPERATIONS
2 creails
Operations with emphasis on teller transactions, credit principles, services and load policies, financial planning and counseling, delinquency control and collections, credit union law.

## 117 SMALL BUSINESS DEVELOPMENT

3 creaits
Prerequisite: 104. Fundamentals of small business operations, emphasis on small business marketing.
118 SMALL BUSINESS MANAGEMENT AND OPERATIONS
3 credits
Prerequisite: 117. Designed to provide greater insight into the management and financia! aspects of small business operations. Emphasis on small business management.

121 OfFICE MANAGEMENT
Survey of office administration with emphasis on management and interaction of human resources and new office technologies including information collection, processing, storage and retrieval

## 123 FEDERAL REGULATION OF BANKING

2 credits
Prerequisite: 113. Study of agencies regulating banks, bank charters, bank reports and examinations, federal limitations on banking operations and regulation of bank expansion. Supervision of employees to conform with regulation.

## 125 PERSONAL FINANCIAL COUNSELING

3 credits
Family resource management; consumer decision making including consumer credit and family budget decisions, retirement planning, types of insurance, annuities and savings, consumer education, types and techniques of counseling

## 170 BUSINESS MATHEMATICS

3 credits
Review of fundamentals of mathematics applicable to business, trade prices, retail pricing interest and discounts, compound interest and annuities, consumer credit, payroll, income taxes, depreciation methods, financial statements and elementary statistics

202 PERSONNEL PRACTICES
3 credits
Provides information necessary to develop policies and programs that attract, retain and motivate employees. Includes staffing, human resources development, compensation plans, labor and management relations, appraisal systems and career planning.

## 211 BASIC ACCOUNTING I

3 credits
Accounting for sole proprietorships and partnerships. Service and merchandising concerns. Journals, ledgers, work sheets and financial statements. Includes handing of cash, accounts receivable, notes, inventories, plant and equipment and payrolt.

## 212 BASIC ACCOUNTING II

3 credits
Prerequisite: 211. Study of accounting principles as applied to corporate form of business and of manufacturing accounting for job order and process costing, budgeting and standard costs.

## 13 BASIC ACCOUNTING III

3 credits
Prerequisite: 212 . Study of information needs of management. Emphasis on the interpretation and use of accounting data by management in planning and controlling business activities

## 214 ESSENTIALS OF INTERMEDIATE ACCOUNTING

3 credits
Prerequisite: 212. Study of development of financial accounting theory and its application to problems of financial statement generation, account valuation, analysis of working capital and determination of net income.

216 SURVEY OF COST ACCOUNTING
3 credits
Prerequisite: 213. Provides student with conceptual understanding of how accounting information is developed and used for product costing. decision making and managerial planning and control.

## 217 SURVEY OF TAXATION

4 credits
Prerequisite: 212. Survey course of basic tax concepts. preparation of returns, supporting schedules and forms for individuals and businesses. Federal, state and local taxes are discussed. The major emphasis of this course is on business taxes.

221 ADMINISTRATIVE OFFICE SUPERVISION
2 credits
Aids student in developing supervisory leadership skills and includes basic concepts of function of otfice work, management of information, control of office services and work simplification.

225 CREDIT UNION LENDING AND COLLECTIONS
2 credits
Credit and collections including nature and role of credit, types of consumer credit, their management and investigation, along with collection policies, practices, systems.
227 ENTREPRENEURSHIP PROJECTS
4 credits
Prerequisite: 118 . An overview of small business management. A project course during which students create a hypothetical business.

233 INSTALLMENT CREDIT
2 credits
Prerequisite: 113 . Pragmatic course emphasizing evaluation, maintenance of consumer. commercial credit. Covers evaluation, legal aspects, collection, direct and indirect installment lending, leasing and other special situations, credit department management.

243 SURVEY IN FINANCE
3 credits
Prerequisites: three credits of economics and three credits of accounting. Survey of field including instruments, procedures, practices and institutions. Emphasis on basic principles.

245 CREDIT UNION FINANCIAL MANAGEMENT
2 credits
Prerequisite: 211. Credit union accounting, financial statement analysis, budgeting and planning, management of cash and investments, fiquidity, cost of funds, risk.

253 ELEMENTS OF BANK MANAGEMENT
2 credits
Prerequisite: 113. Applied course in bank operation and management. Bank case studies utilized to focus on objectives, planning, structure, control and interrelationship of bank functions and departments.

273 MONETARY SYSTEMS AND THE PAYMENTS MECHANISM
3 credits
Prerequisite: 280 . Structure of banking system. Federal Reserve System policies and operations, Article $\mathbb{V}$ of the 4CC, paperless electronic payments mechanism, bank responsibilities in deposit. collection. dishonor and return, payment of checks.

280 ESSENTIALS OF LAW
3 credits
Briet history of law and judicial system, study of contracts with emphasis on sales, agency. commercial paper and baitments.

290 SPECIAL TOPICS: BUSINESS MANAGEMENT TECHNOLOGY
$1-3$ credits (May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in business management technology.

## REAL ESTATE

## 2430:

105 REAL ESTATE PRINCIPLES
2 credits
Introduction to real estate as a profession, process, product and measurement of its produc ${ }^{-}$ tivity. The student is responsible for reading and discussions relative to real estate and the American system.

115 ELEMENTS OF HOUSING DESIGN AND CONSTRUCTION
2 credits
Prerequisites: 105, 185. Discussions and readings on neighborhoods and sites, detals of the interior and exterior of homes. mechanical systems and house construction which help professionals discharge agency responsibilities.

125 ELEMENTS OF LAND AND REAL ESTATE DEVELOPMENT
2 credits
Prerequisites: 105,185 . Learning and applying step-by-step processes needed by professional developer in producing real estate for consumption.

185 REAL ESTATE LAW
2 credits
Prerequisite: 105 Contents of contemporary real estate law The student is responsible for readings covering units on estates, property rights, license laws, contracts, deeds, mortgages. civil rights and zoning.

205 INTRODUCTION TO REAL ESTATE MANAGEMENT
3 credits
Prerequisites: 105,185 . Survey course focusing on application of management process to the specialized field and product of real estate. Discussion and research topics include property analysis, marketing and administration.

215 ESSENTIALS OF REAL ESTATE ECONOMICS
2 credits
Prerequisites: 105, 185. Student learns and applies techniques of analysis found in economics to local real estate market and to parcels of real estate found within the market.

225 INDUSTRIAL REAL ESTATE
2 credits
Prerequisites: 105, 185. Elements course focusing on functions of industrial real estate broker. Topics of discussion and research include site selection, development, marketing and financing transfer of industrial property.

235 COMMERCIAL REAL ESTATE
2 credits
Prerequisites: 105, 185. Elements course focusing on functions of commercial real estate broker Topics of discussion and research inciude site selection, development. marketing and financing transfer of commercial paper.

245 REAL ESTATE FINANCE
2 credits
Prerequisites: 105, 185. Study of contents of contemporary real estate finance Units on reading and discussion include mortgage instruments, financial institutions, mortgage market, governmental influence on finance and fisk analysis and mortgage lending.

255 VALUATION OF RESIDENTIAL PROPERTY
2 credits
Prerequisites: 105, 185. Methods used to estimate value in residential property including cost of reproduction, market data and income approach. Student prepares an appraisal on a residential property.

265 REAL ESTATE BROKERAGE
2 credits
Prerequisites: 105, 185. Application of management functions of planning, organizing. directing. controlling and staffing to real estate brokerage office. Student activities include reading, discussion and research

275 SPECIAL PROJECT IN REAL ESTATE
2 credits
Prerequisites: 105. 185. Student demonstrates knowledge of real estate by preparing a written report covering brokerage process as it relates to a parcel of property.

## 285 APPLIED REAL ESTATE MATHEMATICS

2 credits
Prerequisites. 105, 185. Student learns and applies mathematics necessary to profession of real estate. Topics include proration of taxes. area calculations, appraising mathematics, mortgage mathematics and closing statements.

290 SPECIAL TOPICS: REAL ESTATE
1-3 credits
Prerequisite: permission. Selected topics or subject areas of interest in real estate.

## DATA PROCESSING

## 2440:

120 INTRODUCTION TO INFORMATION PROCESSING
2 credits
General overview of data processing techniques providing fundamentals necessary for subsequent computer-oriented courses.

121 INTRODUCTION TO PROGRAMMING LOGIC 2 credits
Prerequisite: 120. Introduction to fundamental concepts of problem solving and developing programming logic, with emphasis on effective design of business application programs.

130 BASIC PROGRANMING FOR BUSINESS
3 credits
Prerequisites. two years of high school algebra or equivalent. Introduces the student to the fundamental concepts of computer programming via the BASIC language. Emphasis will be placed on developing computer programs on a microcomputer system. Larger systems utilizing time-sharing also considered.

131 INTRODUCTION TO PROGRAMMING
2 credits
Prerequisite: 120 . Iliustrates basic functions of computers and provides specific information about third generation computers, including programming in actual and assembly language

## 132 ASSEMBLER PROGRAMMING

3 credits
Prerequiste: 131. Continuation of 131 . Emphasis on Basic Assembier Language and practical application programming using BAL.
133 STRUCTURED COBOL PROGRAMMING
2 credis Prerequisites: 121 and 131 . Introduction to COBOL with specific orientation toward the IBM system/370.

234 ADVANCED COBOL PROGRAMMING 3 credits
Prerequisite 133 Continuation of 133 including detailed applications in areas such as payroll and inventory. Disk concepts emphasized.

## 235 CURRENT PROGRAMMING TOPICS

2 credits
Prerequisite: 133. Emphasizes topics varied to fit needs of the student at the time. Such topics as APL programming, teleprocessing and $\mathrm{PL} / 1$ programming may be included.
239 RPG II PROGRAMMING
2 credils
Prerequisite: 121 or permission of coordinator. Report Program Generator (RPGil) programming. Includes RPG coding and debugging with applications which lend themselves to use of RPG II.

241 DATA PROCESSING SYSTEMS
3 credits
Prerequisite: 133. Covers all phases of business systems analysis, design, development and implementation Such principles as system and program flowcharting, and file and document design emphasized.

## 250 BASIC PROGRAMMING APPLICATIONS IN BUSINESS

5 credits
Prerequisite: 130 . Offers intensive training in business applications programming on microcomputer systems including data analysis: text processing: error trapping: sorting, develop ment of menu driven programs; ISAM file creation and upkeep.
251 DATA PROCESSING PROJECTS
5 credits
Prerequisites: 234 and 241. Provides workshop for the accomplished student to thoroughly apply learned material. Projects involve systems design and implementation using COBOL.

252 JOB CONTROL LANGUAGE
1 creait
Prerequisite: 234. Explanation of JOB, EXEC and DD statements and their associated parameters. JCL procedures and overrides.

261 CICS CUSTOMER INFORMATION CONTROL SYSTEM
3 credits
Prerequisite: 234. Basic concepts of CICS; demonstrates particular usefulness of CICS features that application programmers need.
262 COBOL EFFICIENCY
2 credits
Prerequisite: 234. Provides students with opportunity to enhance their knowledge of COBOL language. The development of COBOL , its facility for change and its place in today's businesses.

263 DATA-BASE CONCEPTS
3 credits
Prerequisites: $234,24 \dagger$. Fundamental concepts of three main types of data-base management systems. their similarities and differences. Data-base design project required No programming.

264 PL/1 PROGRAMMING
2 credits
Prefequisite: 133 or permission of coordinator. Basic concepts of PL/i programming and particular usefulness of PL/1 in business applications.

## 265 PROGRAMMING ETHICS AND SECURITY

2 credits
Prerequisite: 133. Legal principles specific to field of data processing: potential for computeroriented crimes and security measures necessary for their prevention.

266 BASIC FOR PROGRAMMERS
3 credits
Prerequisite: 133 or permission of coordinator. To familiarize students with important programming techniques and concepts in BASIC language. Emphasis on complex interactive business applications programs using microcomputers.

290 SPECIAL TOPICS: DATA PROCESSING
$1-3$ credits
Prerequisite: permission. Seminar in topics of curfent interest in data processing or special individual student projects in data processing.

## MARIKETING AND SALES TECHNOLOGY

## 2520:

Review of basic principles and functions of current advertising practice. Includes overview of related distributive institutions, media types and economic functions of advertising.

## 106 VISUAL PROMOTION

4 credits
Studio course in retail display and promotion techniques. Window, interior and point of purchase categories; principles of design as applied to commercial art; function in visual design, elements of design, color theory, lettering, printing process, layout to camera-ready art.

201 PRINCIPLES OF WHOLESALING
2 credits
Examination of wholesaler and wholesaling function. Attention given to buying process and relationship of ultimate consumer to wholesaler.

## 202 RETAILING FUNDAMENTALS

4 credils
Presents basic principles and practices of retailing operations including site selection, buying, pricing and promotion practices. Use is made of extensive projects and investigations and actual retail operations.

203 FUNDAMENTALS OF INDUSTRIAL DISTRIBUTION
3 credits
Prerequisite: 2420:101. An introductory examination of the industrial distribution network and pertinent middlemen involved. Includes wholesalers, service institutions and other channel members.

207 TECHNIQUES OF MERCHANDISING RESEARCH
2 credits
Prerequisite: 2420:101. Introduction to merchandising research. Uses of research for merchandisers, concepts in pianning research. Approaches to research in a non-mathematical approach to analysis. Case histories of small merchandisers.

## 210 CONSUMER SERVICE FUNDAMENTALS

2 credits
Prerequisite: 2420:101. Discussion of problems facing business today created by social issues in society. Emphasis on understanding viewpoints of all groups involved

3 credits
Prerequisite: 2420:170. Basic course dealing with merchandising mathematics. Includes understanding markup types, retail method of inventory, (sales and stock planning) and open-to-buy computations.

## 212 PRINCIPLES OF SALESMANSHIP

4 credits
Study of basic principles of selling, emphasizing individual demonstrations and sales projects. Includes review of sales function as integral part of marketing process.
290 SPECIAL TOPICS: MARKETING AND SALES
1-3 credits
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in sales and merchandising.

## OFFICE ADMINISTRATION

## 2540:

## 119 business english

3 credits
Fundamentals of English language with emphasis on grammatical correciness, acceptable usage, spelling and punctuation Limited writing primarily involves choice of precise words and effective sentence structure with some attention to paragraph development.

121 OFFICE PROBLEMS
3 credits
Introduction to concepts regarding role of office worker, human relations, communications.
productivity, reference materials, technological advances in processing information and employment opportunities.

125 BUSINESS MACHINES
2 credits
Basic operations of 10 -key electronic caiculators. Applied business problems in depreciation retailing, payroll, interest, taxes, metrics, proration, expense reports, percentages, inventories and basis statistics.

130 INTRODUCTION TO INFORMATION MANAGEMENT
3 credits
Corequisite: 150. A study of the creation, classification, encoding, encapsulating, transmission and storage of information. Emphasis on electronic storage and transmission of information.

131 COMPUTERIZED DOCUMENT CONTROL
4 credits
Prerequisite: 130. A study of the planning and controlling of documents from the time of their creation until their final disposition with emphasis on automated storage and retrieval systems.

140 TYPEWRITING FOR NON-SECRETARIAL MAJORS
2 credits
Beginning typewriting for the non-secretarial student. Fundamentals in the operation of the typewriter; application emphasis on individual student needs such as resumes, application letters and forms, term papers, abstracting, etc. Video display terminal instruction. Credit not applicable toward associate degree in ottice administration.

150 BEGINNING TYPEWRITING
3 credis
For the beginning student or one who desires a review of fundamentals. Includes basio: keyboard, letters, tabies and manuscripts. Minimum requirement: 30 wam with a maximum of 5 errors for 3 minutes

151 INTERMEDIATE TYPEWRITING
3 credits
Prerequisite: 150 or equivalent. Further development of typewriting. Advanced letter styles, forms, reports and shortcuts. Minimum requirement: 40 wam with a maximum of 5 errors for 5 minutes.

171 SHORTHAND PRINCIPLES
4 credits
Gregg shorthand theory is taught. Minimum attainments: reading from notes at 100 wam and taking dictation from new material at 50 wam for 3 minutes. Credit not allowed if taken after 172.

172 SHORTHAND REFRESHER AND TRANSCRIPTION
4 credits
Accelerated review of Gregg shorthand theory. Minimurn attainments: reading from notes at 100 wam and taking dictation from new material at 60 wam for 3 minutes. Credit allowec if taken after 171.

173 SHORTHAND AND TRANSCRIPTION
4 credits
Prerequisite: 171; corequisite or prerequisite: 151. Emphasis on developing skill in taking shorthand dictation and transcribing at typewriter. Minimum speed attainment of 70 wam for 5 minutes on nèw material required.

241 INFORMATION MANAGEMENT
3 credits
Prerequisite: 150 or equivalent. Study of creation, classification, encoding, transmission. storage, retention, transfer and disposition of information. Emphasis on written, oral and machine language communication media used in business information systems.

## 243 INTERNSHIP

2 credits
Prerequisite: permission of instructor. Work experience in office environment integrated with instruction on information management systems. Sharing of knowledge gained during internship in on-campus seminars.

247 AUTOMATED OFFICE SYSTEMS
4 credits
Prerequisite: 131. Examination of automated methods of controlling information. Application of office information management techniques.

253 ADVANCED TYPEWRITING
3 credits
Prerequisite: 151 or equivalent. To increase student's ability to do office-style production typewiting with minimal supervision. Minimum requirement: 50 wam with a maximum of 5 errors for 5 minutes.

## 254 LEGAL TYPEWRITING

2 credits
Prerequisite: 151 . Develops skill in typing legal documents and printed legal forms from rough draft materials: from straight-copy material

263 BUSINESS COMMUNICATIONS
3 credits
Prerequisites: 119 and 2020:121 or equivalent. Business writing with emphasis on communicating in typical business situations and expressing ideas effectively to achieve specific purposes. Includes business letters. memoranda. application letters. resumes and a business report.

274 ADVANCED DICTATION AND TRANSCRIPTION
4 credits
Prerequisite: 173 or equivalent. Emphasis on building dictation speeed, producing mailable
transcripts, increasing business and shorthand vocabulary and reviewing theory and expert shortculs. Minimum speed attainment: 90 wam for 5 minutes.

## 276 EXECUTIVE DICTATION AND TRANSCRIPTION

4 credits
Prerequisite: 274. Final shorthand course in Executive Secretarial program. Development of skills to level of employability in business office. Emphasis on vocabulary building in specialized areas of modern business and technology. Speed range: 100-140 wam.

## 277 LEGAL DICTATION AND TRANSCRIPTION

4 creaits
Prerequisite: 274. Develops shorthand and transcription skills of legal correspondence, basic pleadings, legal papers, reports and rules of practice. Minimum speed at end of course is 100 wam.

## 79 LEGAL OFFICE PROCEDURES

4 creaits
Prerequisite: 254; corequisite: $\mathbf{2 7 7}$. Provides an understanding of various facets of the law. when and how to use documents, important legal procedures and typical office routine.

280 WORD PROCESSING CONCEPTS
$2-3$ credits
Modern word processing and administrative management principles and practices in organization, operation and control of office functions. Special emphasis given to secretary's dual role as administrative assistant and corresponding secretary.

## 281 MACHINE TRANSCRIPTION

2 creails
Prerequisite: 151 or permission. Transcription from taped dictation with emphasis on mailable documents. Special techniques for developing accuracy. increasing productivity will be emphasized.

286 KEYBOARDING ON WORD PROCESSING EQUIPMENT
3 credits
Prerequisite: 253 or permission. Demonstration and laboratory practice on various word processing machines used to process data in a modern otlice. Word processors include those with magnetic or electronic storage.

287 WORD PROCESSING APPLICATIONS
3 credits
Prerequisite: 286 . Simulation of word processing center. Students assume various functiona roles to produce real-life work assignments using up-to-date word processing equipment.

290 SPECIAL TOPICS: SECRETARIAL SCIENCE
1-3 credils
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in office administration.

## TRANSPORTATION

## 2560:

## 110 PRINCIPLES OF TRANSPORTATION

3 credits
Analysis of role of transportation in nation's economic development. Survey of histarica development and economic aspects of rail, highway, water. air and pipeline.

115 MOTOR TRANSPORTATION
3 credits
Corequisite: 110 is to be taken in the first semester of the first year of the program. Study of
economic characteristics of commercial motor industry with emphasis on problems, practices, rates, regulations, fares, tariffs, operations, equipment and financial aspects.

## 16 AIR TRANSPORTATION

2 credits
Prerequisite: 110. Analysis of economic characteristics of commercial air industry. Study of its problems, practices, regulations, rates, fares, tariffs and services.

117 WATER TRANSPORTATION
2 credits
Prerequisite: 110. Theories, practices, regulations of inland and ocean-going water transportation including classification, rates, practices and tarifis.

118 TRANSPORTATION RATE SYSTEMS 3 credits Analysis of freight rates, tariffs and classifications with particular attention to their appiication in motor transport field and extensive study through progressive problem solving.

220 TRANSPORTATION: TERMINAL MANAGEMENT
2 credits AND SAFETY OPERATIONS
Prerequisite: 110. Management problems, practices, decision making pertaining to location of facilities, personnel programs, operations, organization and control. Attention directed to safety aspects of transportation operations.

221 TRAFFIC AND DISTRIBUTION MANAGEMENT
3 credits
Prerequisite 110. Principles and practices applicable to industriat traffic management and factors affecting transportation decisions. Some items analyzed are operations, services, warehousing, privileges and documentation.

222 MICROCOMPUTER APPLICATIONS IN TRANSPORTATION
3 credits
Corequisite: 2440120 . Microcomputer solutions to selected transportation problems. Lease vs. buy analysis, moda: selection based on cost, vehicle scheduling, use of transportation algorithms.

224 TRANSPORTATION REGULATION
3 credits
Prerequisite: 110 . Interstate Commerce Act and related acts including leading cases involv
ing interstate commerce. Law of freight loss and damage. Regulatory procedures including practice and procedure before interstate Commerce Commission.

227 TRANSPORTATION OF HAZARDOUS MATERIALS AND WASTES 2 credits
Federal regulations: identification and classification of hazardous materials, handiling, loading and shipping procedures.

228 INTRODUCTION TO TRAVEL
2 credits
Travel geography, overview of passenger transportation systems, role of travel agent, discussion of trends in travel industry.

229 PASSENGER TICKETING
2 credits
Prerequisite: 228. Use and preparation of passenger and group tickets. tour orders, ticket exchange notices. refund notices and internal documents used by travel agent organizations.

## 230 TOUR PLANNING AND PACKAGING

2 credits
Prerequisite 228 . Planning and packaging of independent and escorted tours (domestic and
foreign). Cost estimating, time distribution, itinerary preparation and routing.
290 SPECIAL TOPICS: TRANSPORTATION
1-3 credits
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics, subject areas in transportation.

## HISTOTECHNOLOGY

## 2730:

225 HISTOTECHNOLOGY PRACTICUM 5 credits
Prerequisites: 3100:366 and permission. Instruction and practical experience in a cooperative hospitai, research laooratory.

290 SPECIAL TOPICS IN HISTOTECHNOLOGY
1-2 credits
Prerequisite: permission. Selected topics or subject areas of interest.

## MEDICAL ASSISTING

## 2740:

120 MEDICAL TERMINOLOGY 3 credits
Prerequisites: $3100: 206,2840: 100$. Vocabulary and terms used by medical personnel. Usage and spelling of medical terms.

130 MEDICAL ASSISTING TECHNIQUES I
3 credits
Corequisite: 120. Theory and practice in medical assisting duties most often performed in physician's office. Includes medical ethics and law; microbiology; care of instruments: me thods of steriization; surgical and medical asepsis.

230 PHARMACOLOGY IN MEDICAL ASSISTING
3 credits
Prerequisite: 130. Introduction to history of drugs; standardization; legisfation; principles of action and classification with emphasis on responsibilities of administration; and the metric system.

231 MEDICAL ASSISTING TECHNIQUES II
2 credits
Prerequisite: 130 . Laboratory techniques, orientation to urinalysis. hematology. roentgen rays, electrocardiograms, dentology terms; principles of medication, metric system and adminis tration of injections.

232 MEDICAL ASSISTING TECHNIQUES III
2 credits
Prerequisite: 231. Continuation of 231. Knowledge of diagnoses and disease; special diets; theory and practice in taking vital signs; parenteral injections; and orientation to physical examination.

240 MEDICAL MACHINE TRANSCRIPTION
2 credits
Prerequisites: 231 and 2540:257. Designed to correlate medical terminology with secretarial skills and inctudes practice in various machines used in dictation and transcription found in medical offices.

241 MEDICAL RECORDS
3 credits
Prerequisites: 130 and 2540:150. Preparing and handling medical records and reports used in hospitals and physicians' offices; filing procedures and systems; insurance forms; billing

250 MEDICAL ASSISTING SPECIALTIES
3 credits
Prerequisites: 231, graduate of the program, or special permission. Provides student precise knowledge in medical specialties.

290 SPECIAL TOPICS: MEDICAL ASSISTING
1-2 credits
Prerequisite: permission Selected topics or workshops of interest in medicai assisting technology.

## RADIOLOGIC TECHNOLOGY

## 2760:

101 INTRODUCTION TO RADIOLOGIC TECHNOLOGY
2 credits
Prerequisite: admission to the program. Introduction to field of radiology including history of medicine and radiology. Ethical and professional responsibilities of radiologic technologist. Basic protection and basic skills. Orientation to radiology departments of affiliated hospitals. General patent care

106,7 ANATOMY FOR RADIOLOGIC TECHNOLOGY I, II
3 credits each Prerequisite: admission to the program. Study of human structure and function approached and visualized through a number of imaging techniques and prepared specimens in the laboratory

140 MEDICAL AND SURGICAL DISEASES, RADIOLOGY
3 credits
Prerequisites: 101 and 161. Fundamental principles of disease processes, functional derangements. Background in pathology needed for radiographer wiil be provided by lecture and demonstrations.

161 PhYSICAL SCIENCE FOR RADIOLOGIC TECHNOLOGYI
2 credits
Prerequisites: 2020:131 and permission. Introduction to systems of measurement. Matter, force, motion, work, power, energy, basic electricity and magnetism.

165,6 RADIOGRAPHIC PRINCIPLES I, II
3 credits, 2 credits
Sequential. Prerequisite: 161. Elementary principles of ionizing radiation and their application in medical setting. Radiographic accessories and chemical processing of exposed $x$-ray film.

170 RADIOGRAPHIC POSITIONING I
3 credits
Corequisite: 101. Introductory course in instructing student in basic positioning nomenclature and radiclogic positions. Positioning laboratory experience included.

171 RADIOGRAPHIC POSITIONING II
3 credits
Prerequisite: 170. Continuation of 170. Includes additional positioning and refinement of positioning strategies. Laboratory.

184 CLINICAL APPLICATION I
4 credits
Corequisites: 101 and 170 . Introduction to clinical procedures including clinical experience in hospital radiology departments. Lectures and laboratory experience correlated and clinical experience closely supervised. Film critique stressed. Observation rotation through nuclear medicine, therapy and diagnostic techniques. Largely student observation.

185 CLINICAL APPLICATION II
4 credits
Prerequisite: 184. Continuation of 184 with more involvement by student continuing under close supervision. Special procedures introduced. Student observations and student participation.

230 RADIOGRAPHIC TECHNIQUE AND CONTROL
3 credits
Prerequisite: 261. Technique and control as related to basic positioning procedures for various parts of body. Relationship among electricity, time, distance, films and contrast on radiograph. A student performs experiments to demonstrate effects of these factors. Energized but non-clinical equipment utilized.

261 PHYSICAL SCIENCE FOR RADIOLOGIC TECHNOLOGY II
3 credits
Prerequisite: 161 . Fundamentals of electricity and radiation physics. Principles of $x$-fay equipment and other radiation sources used in medical setting.

272 RADIOGRAPHIC POSITIONING III
3 credits
Prerequisite: 171. Continuation of 171. Includes additionat positioning and refinement of positioning strategies. Laboratory.

273 RADIOGRAPHIC POSITIONING IV
3 credits
Prerequisite: 272 Continuation of 272 utilizing advanced techniques and providing concentration of different age groups in positioning care and special techniques for pediatric and geriatric patients. Laboratory.

286 CLINICAL APPLICATION III
5 credits
Prerequisite: 185 . Summer clinic internship in which student practices all radiographic procedures under supervision. Some independent performance with minimat supervision.

287 CLINICAL APPLICATION IV
4 credits
Prerequisites: 286 and permission. Clinical performance with supervision. Application at an advanced level. Special techniques, nuclear medicine, therapy, medical surgical pathology, film examination and critique. Maintenance of equipment, department administration, ethical, legal and professional responsibilities. Clinical experience in hospital radiology departments.

288 CLINICAL APPLICATION V
4 credits
Prerequisite: 287. Clinical experience and minimally supervised clinical procedures of diagnostic radiography.

289 CLINICAL APPLICATION VI
5 credits
Prerequisite: 288. Continuation of 288; final internship. Terminal course including review, lecture on corre:ation and interpretation of radiologic technology. Prepares student for certification examination.

290 SPECIAL TOPICS: RADIOLOGIC SCIENCE
1-3 credits
(May be repeated with a change in topic)
Prerequisite: permission. More advanced study in one or more topics in radiological sciences. Emphasis and topics vary from year to year but will be in areas where a formal course is not otherwise available.

## SURGICAL ASSISTING

## 2770:

100 INTRODUCTION TO SURGICAL ASSISTING TECHNOLOGY
4 credits
Prerequisite: admission to the program. Study of basic principles which underlie patient care in the operating room. Role of operating room technician and legal and ethical responsibilities defined.

## 121 SURGICAL ASSISTING PROCEDURES I

2 credits
Prerequisite: 100 . Didactic and laboratory practice in principles and practices of surgical asepsis, the surgical patient, surgical procedures, care and maintenance of equipment and materials, immediate postoperative responsibilities and emergency situations in operating room.

131 CLINICAL APPLICATION I
2 credits
Corequisites: 100 and 121. Student assigned to surgical service of affiliated hospitals. Emphasis on aseptic techniques and skills associated with their implementation.

222 SURGICAL ASSISTING PROCEDURES II
4 credits
Prerequisite: 121. Continuation of 121.
232 CLINICAL APPLICATION II 5 creaits
Prerequisite: 131: corequisite: 222 . Student assigned to surgical service of affiliated hospitals. Emphasis on "scrubbing" on general surgery and gynecology procedures.

233 CLINICAL APPLICATION III
5 credits
Prerequisites: 232 and 222 . Student assigned to surgical service of affiliated hospitals. Emphasis on "scrubbing" in the specialty areas.

234 CLINICAL APPLICATION IV
2 credits
Prerequisites: 232 and 242. A student is assigned to surgical services of affiliated hospitals.
Assists in surgery and carries out preoperative and postoperative care procedures as assigned by, and under the supervision of, the surgeon or the resident surgical staff.

## 235 CLINICAL APPLICATION V

3 credits
Prerequisite: 234. A student is assigned to surgical services of affiliated hospitals. Assists in surgery and carries out preoperative and postoperative procedures as assigned by, and under the supervision of, the surgeon or the resident surgical statt.

236 CLINICAL APPLICATION VI
3 credits
Prerequisite: 235. A student is assigned to surgical services of affiliated hospitals. Assists in surgery and carries out preoperative and postoperative care procedures as assigned by and under the supervision of, the surgeon or the resident surgical staff.

241 SURGICAL ANATOMY
3 credits
Prerequisites: 100 and $3100: 206,207$. Surgical anatomy of the human body as it relates to the various surgical specialties.

242 SURGICAL LABORATORY PROCEDURES
2 credits
Prerequisites: 121 and admission to program option; corequisite: 241. Classroom, taboratory instruction in surgical techniques, procedures.
243 INTRODUCTION TO MEDICINE 2 credits
Prerequisites: 241, 242. Pathophysiology, clinical manifestations, therapeutic management of surgically related disorders.

244 MEDICAL HISTORY AND PHYSICAL EVALUATION
2 credits
Prerequisites: 241.242. Introduction to techniques of obtaining medical histories and physical evaluations. Techniques of interviewing and physical diagnosis.

245 ROENTGENOGRAM ASSESSMENT 1 credit
Prerequisite: 242. Roentgenogram assessment and its use as a diagnostic tool. Recognition of gross abnormalities in roentgenograms of the head, neck, chest, abdomen, pelvis and extremities.

246 MEDICAL LABORATORY PROCEDURES
1 credit
Prerequisite: 242. Introduction of coliection, preparation, and analysis of biological ffuids and other substances through standard procedures utilized in medical laboratories to aid the physician in diagnosis, treatment and prevention of disease.

247 PULMONARY ASSESSMENT AND ELECTROCARDIOGRAPHY 2 credits
Prerequisite: 242. Oxygen administration, humidity control, breathing exercises, postural drainage, percussion techniques, intermittent positive pressure breathing, management of ventilators and bedside ventilation measurements. Electrocardiogram recording techniques, interpretation of electrocardiographic abnormalities-arrhythmias.

290 SPECIAL TOPICS: SURGICAL ASSISTING
1-2 credits
Prerequisite: permission. Selected topics or workshops of interest in surgica! assisting technology.

## ALLIED HEALTH

## 2780:

101 INTRODUCTION TO PHYSICAL THERAPY 2 credits
History of physical therapy, survey of treatment procedures. Role and rationale for physical therapist assistant. Legal, ethical responsibilities.
290 SPECIAL TOPICS: ALLIED HEALTH
1-2 credits
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in ailied health.

## RESPIRATORY THERAPY

## 2790:

## 121 INTRODUCTION TO RESPIRATORY THERAPY TECHNOLOGY

3 credits
Prerequisite: admission to program. Basic science and laws governing gases as well as appliances to administer and monitor oxygen. Covers equipment used to generate and give aerosol therapy. Lecture/laboratory.

122 PATIENT CARE IN RESPIRATORY THERAPY
3 credits
Prerequisite: 121 Covers basic hospital practices in sterile technique, suctioning and postural drainage Lecture/laboratory.

123 mechanical ventilators
3 credits
Prerequisite: 122 . Introduction to different brands of ventilators and their functions. Airway and airway complications.

131 CLINICAL APPLICATIONS I
3 credits
Prerequisites: 121 and admission to program introduction to work in hospital and hands-on experience on hospital equipment. Laboratory.
132 CLINICAL APPLICATIONS II
2 credits
Prerequisites: 122, 131. First of several rotations through hospitals. Mechanical ventilation is stressed.

133 CLINICAL APPLICATIONS III
5 credits
Prerequisites: 123, 132, 141, 201. Semester is broken into three, five-week rotations, one at each hospital to cover specialty area for that site. Laboratory.

134 CLINICAL APPLICATIONS IV
5 credits
Prerequisites 133.142.223. Semester has three, five-week sessions. They will be spent at different clinical sites working on their specialty areas. Laboratory.

141 PhARMACOLOGY
2 credils
Prerequisites: 2840:100 and 3100:130. Drugs administered by respiratory therapy and effect. route of action in the body. Lecture.

142 PATHOLOGY FOR RESPIRATORY THERAPY
2 credits
Prerequistes: 201 and $3100: 130$. Discussion of disease processes, diseases of lung and heart. their effect on respiratory inerapy.
201 ANATOMY AND PHYSIOLOGY OF CARDIOPULMONARY SYSTEMS 3 credils
Prerequisite: $3100: 206$; corequisite: $3100: 207$. Study of normal anatomy and physiology of heart and lungs. Lecture.
223 ADVANCED RESPIRATORY THERAPY
3 creails
Prerequisites: 123,141. Covers EKG, Pulmonary functions, research studies and radioactive pulmonary function stucies. Lecture/laboratory.

224 PULMONARY REHABILITATION AND THE RESPIRATORY
2 credits THERAPY DEPARTMENT
Prerequisites: 141,142,223. Covers area of pulmonary rehabilitation. Inc/udes essentials of establishing a respiratory therapy department. Lecture/laboratory.

290 SPECIAL TOPICS: RESPIRATORY THERAPY
1-3 credits
(May be repeated for a maximum of three credits)
Prerequisite: permission. Selected topics or subject areas of interest in respiratory therapy technology

## CHEMICAL TECHNOLOGY

## 2840:

100 BASIC CHEMISTAY
3 credits
Elementary treatment of facts and principles of chemistry emphasizing biological application
Elements and compounds important in everyday life. biological processes and medicine introduction to laboratory techniques. Primarily for medical assistant, criminal justice and allied health students. Laboratory.

101 INTRODUCTORY CHEMISTRY
3 credits
Facts and theories of general chemistry. Elements and compounds and their uses. Elementary treatment of atomic structure, gaseous state, periodic table, water, solutions. For chemical technology and bachelor of technology students. Laboratory.

102 INTRODUCTORY AND ANALYTICAL CHEMISTRY
3 credits
Prerequisite: 101 or permission. Chemical equilibria, ionization, radioactivity. Properties of selected metais and nonmetats. Introduction to organic chemistry. Basic concepts of qualitaselected metais and nonmetals. Introduction to organic chemis
tive analysis. Identifications of cations and anions. Laboratory

105 CHEMICAL CALCULATIONS I
1 credit
Corequisite: 101 or permission of instructor Calculations as applied to introductory chemistry courses. Topics include unit conversions, percentages, graphs, significant figures, moles. Suitable as a refresher course.

106 CHEMICAL CALCULATIONS II
1 credit
Corequisite 102 or permission of instructor Continuation of calculations review for introductory chemistry. Chemical equilibria, concentrations, pH, solubility products, redox reactions, calorimetry.

## 121 ORGANIC PRINCIPLES

4 credits
Structure, nomenclature and classification of simple organic compounds: their physical and chemical properties, methods of separation, analysis and synthesis. Laboratory

## 151 BASIC PHYSICS: MECHANICS

3 credits
Corequisite: 2020:131. Principles of mechanics. Topics include force and motion, work and energy, properties of fluids and gases and introduction to atomic physics. Laboratory.

152 BASIC PHYSICS: ELECTRICITY AND MAGNETISM
2 credits
Prerequisites: 151 and 2020:131. Principles of electricity and magnetism. Electrostatics. basic direct current circuits, magnetism and electromagnetism, aiternating currents, basic AC circuits. Laboratory.

153 BASIC PHYSICS: HEAT, LIGHT AND SOUND
2 credits
Prerequisites: 151 and 2020:131. Principles of heat, light and sound. Topics include thermal behavior of matter, wave motion, sound waves, light and illumination, reflection and refraction mirrors and lenses. interference and diftraction. Laboratory.

## 201 QUANTITATIVE ANALYSIS

4 credits
Prerequisite: 102 Theory of quantitative analytical chemistry including gravimetric, volumetric and electrochemical procedures. Laboratory.

202 INSTRUMENTAL METHODS
4 credits
Prerequisites: 201 and one year of physics; or permission. Instrumentation employed in qualitative and quantitative analysis. Theory and practice in chromatographic, spectrophotometric and other instrumental methods. Laboratory.

210 SCIENTIFIC GLASS BLOWING
1 credit
Laboratory instruction in art of glass blowing. Fabrication and blowing of scientific glassware and chemical apparatus

250 ELEMENTS OF PHYSICAL CHEMISTRY
3 credits
Prerequisites: 102, 153, 2020:132. Physical principles governing behavior of chemical systems. Introductory thermodynamics, solution properties, chemical equilibrium, phase rule, chemical kinetics and structure of matter. Laboratory.

255 LITERATURE OF SCIENCE AND TECHNOLOGY
1 credit
Prerequisite permission. Literature of science and technology as used to gather technical information. Techniques of abstracting and the computer search.

260 COMPOUNDING METHODS
2 credits
Prerequisites: 102,121 or permission. Principles and methods of selecting and compounding rubber for specitic end uses. The compounder's art. Processing and testing of basic elastomers and products. Laboratory

270 NATURAL AND SYNTHETIC ORGANIC POLYMERS
4 credits
Prerequisite: 121 or permission. Structure and properties of macromolecules with particular reference to carbohydrates, proteins. nucleic acids, rubber, syn:hetic thermoplastic, thermosetting and elastomeric polymers.

290 SPECIAL TOPICS: CHEMICAL TECHNOLOGY
1-2 credits
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in chemical technology

## ELECTRONIC TECHNOLOGY 2860:

120 DC CIRCUITS
4 credits
Corequisite: 2020:131. Nature of electricity, current and voltage, Ohm's Law, network analy sis, DC instruments, magnetism, inductance, capacitance, transients and time constants

122 AC CIRCUITS
3 credits
Prerequisite: 120; corequisite: 2020:132 Sinusoidal voltage and currents, reactance and impedance, methods of $A C$ circuit analysis, $A C$ power, transformers, resonance, polyphase circuits.

## 123 ELECTRONICS I

3 credits
Corequisite: 122. Physical theory, characteristics, operational parameters and incircuit consideration of solid-state electronic devices.
225 ELECTRONICS II
3 credits
Prerequisite: 123. Linear devices and/or pertinent applications widely used in electronics Topics inctude amplifier fundamentals. frequency response operational amplifiers special linear integrated circuits and power amplifiers.

227 MEASUREMENTS
2 credits
Prerequisite: 123 or 271 . Principles and use of electrical and electronic instruments including moving coil instruments, bridges, oscilloscopes and signal generators. Analysis of measurement errors.

231 CONTROL PRINCIPLES
3 credits
Prerequisite. 225 or 271, corequisite: 2020:233. Principles and design of control of physical systems. Mathematical and analog computer modeling of physical systems. Principles of closed-loop control systems. Methods of analysis to predict performance. Design of simple servomechanisms

237 DIGITAL CIRCUITS I
4 credits
Prerequisite: 123. Introduction to devices and techniques used in design of combinational logic circuits. Topics include number systems, binary arithmetic, codes, Boolean algebra Karnaugh mapping, and integrated circuit and its application in combinational solutions such as data selection, bridging, symmetrical functions and ROM synthesis.

238 DIGITAL CIRCUITS II
Prerequisite: 237. Continuation of combinational logic design plus introduction to sequential logic design and microcomputer. Integrated circuit information extended into MOS and CMOS devices. Microprocessors application

242 MACHINERY AND CONTROLS
4 credits
Prerequisites 122 and 123 or 271. Principles characteristics and applications of DC and $A C$ generators and motors. Basic control circuils tor rotating machinery. Principles of industrial electronic devices used in machinery control such as unijunctions. SCRs, triacs, diacs. Laboratory practice with industrial machines in practical industrial circuits.

251 COMMUNICATIONS CIRCUITS
3 credits
Prerequisite: 225. Principles of radio-wave propagation, modulation and demodulation. Fundamentals, components and circuits of communication systems. Electric and magnetic fields, antennas and propagation.

255 ELECTRONIC DESIGN AND CONSTRUCTION
2 credits
Prerequisite: 123 . Generaiand electronic dratting fundamentals and techniques with emphasis on printed circuit boards. General shop satety practices. Care and use of hand tools and power tools. Cnassis and sheet metal layout and fabrication; printed circuit board fabrication: metal finishing and packaging techriques. Performance testing and troubleshooting.

## 260 ELECTRONIC PROJECT

2 credits
Prerequisites: final semester or permission and 255 . Design, construction and test by student of an electronic circuit of choice. Progress reports, oral and written reports required. Discussion of electronic design and fabrication techniques.
270 SURVEY OF ELECTRONICS |
3 creatis
Corequisite: 2020:131. Fundamentals of eiectrica! circuits. Surveys of electromechanical devices emphasizing electrical/mechanicalinterface. For non-electronic technology ma;ors.

271 SURVEY OF ELECTRONICS II 3 credits
Prerequisite: 270; corequisite: 2020:132. Survey of most commonly used solid-state circuil components including typical applications. For non-electronic technology majors.

290 SPECIAL TOPICS: ELECTRONIC TECHNOLOGY
1-2 credits
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in electronic technology.
350 ADVANCED CIRCUITS
4 credits
Prerequisites: 123, 242 and 2020:334. Analysis of linear circuits in frequency and time domain. Loop analysis by matrix methods. Fourier analysis of nonsirusoidal waveforms, Laplace transtormations, power and power-tactor correction, polyphase systems and mutual inductance.

351 INDUSTRIAL ELECTRICAL SYSTEMS
3 credits
Prerequisites: 350 and $4100: 206$. Power system single-phase and three-phase analysis, balanced and unbalanced systems, fault calculations, symmetrical components with industrial applications.

352 DIGITAL SYSTEMS 4 credits
Prerequisite: 238; corequisite: 350 . Detailed study of several digital computing systems including topics in architecture, soitware and $/$ O. Specific systems studied include the 8085, 6802, respective support circuits.

353 CONTROL SYSTEMS
4 credits
Prerequisites: 231, 350 . System analysis and design using Laplace Iransform, frequency response. Bode diagram root locus methods of analysis. Analysis and design of control of industrial process variables such as pressure, temperature, flow, liquid level, position. Introduction into $A C$ control systems, discrete control systems, digital control system.

400 DATA ANALYSIS
3 crecils
Prerequisites: $4100: 206$ and 3470:252. Application of statistics to electronic data. Problems include quaity control, tailure estimating and synithesizing equations of dependence. Analysis methods include hypothesis estimation, curve fitting regression, correation and analysis of variance.

406 COMMUNICATION SYSTEMS
3 credits
Prerequisites: 251 and 350. Antennas, transmission lines, matching networks, modulation systems, propagation, noise, radar and microwaves. Problems encountered in communication sys!ems.

410 TECHNOLOGY PROJECT
1 credit
Prerequisite: senior standing. Detaied study of problem selected by student includes problem definition, literature search. comparison of solutions and formal report.

497 SENIOR HONORS PROJECT: ELECTRONIC TECHNOLOGY
$1-3$ credits
(May be repeated for a total of six credits)
Prerequisites: senior standing in Honors Program, permission of department preceptor and major in electronic technology. Independent research leacing to completion of senior honors thesis or other original work.

## MANUFACTURING TECHNOLOGY <br> 2880:

100 INTRODUCTION TO MANUFACTURING MANAGEMENT
3 credits
Introduction to functions of major sections of manufacturing concern. Departmental purposes identified with major emphasis on their sequential relationship with each other. Intended to identify and relate major functions encountered later in individual courses.

101 INTRODUCTION TO COMPUTER-AIDED MANUFACTURING
3 credits
Prerequisite: 100 or permission of instructor. Introduction to use of computer-controlled equipment in solution of manufactur ing related problems. Concepts oi NC machine operation and programming, robotics and computer-assisted parts measurement.

130 WORK MEASUREMENT PROCEDURES I
2 credits
Prerequisite: 100. Familiarizes student with procedures for handwork and techriques for choosing the best method for accomplishing such tasks.

## 141 SAFETY PROCEDURES

3 credits
Sources and causes of accidents. Philosophy of accident prevention. Appraisal of cost of accidents. Elements of an effective safety program. Human factors in satety, satety promotion and enforcement.

200 MANUFACTURING PROFITABILITY
3 credits
Prerequisite: 100 . Profit defined Cost analysis and control studied. Control of price and proft within market limitations discussed.

210 CONTROLLING AND SCHEDULING PRODUCTION
2 credits
Prerequisite: 100. Production order followed from sales order through requisitioning, plant toading, expediting, scheduling and shipping. Also covers material control and inventory record keeping. Critical path, linear programming and EDP techniques discussed.

211 COMPUTERIZED MANUFACTURING I
3 credits
Prerequisite: 100 Processing of production order by computer through requisitioning. plant loading, expediting. scheduling and shipping of product. Creation on computer of material requisitions, plant schedules, sent-to-stocks and shipping orders as by-products of processing production order.

231 PLANT LAYOUT
3 credits
Prerequisite: 100 . Solution of activities for a production facility. Optimum arrangements of factors of production: manpower, materials and equipment.

232 LABOR MANAGEMENT RELATIONS
3 creatis
Prerequisite: 100 Study of hisiorical background of labor movement, managenent viewpoints, legal tramework for modern labor organizations and collective bargaining process.

235 WORK MEASUREMENT PROCEDURES II
2 credits
Prerequisite: 130 . Continuation of 130 . Work measurement techniques and establishment of production standards for optimization of lowered costs.

241 QUALITY CONTROL PROCEDURES
3 credits
Prerequisite: 2020:131. Theory and practice of inspection and sampling techniques for measurement of quality, QC charts, sampling pians, mill specs, checking machine capabilities and setting tolerances.

290 SPECIAL TOPICS: INDUSTRIAL TECHNOLOGY
1-2 credits
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in industrial technology.

## INSTRUMENTATION TECHNOLOGY

## 2900:

121 FUNDAMENTALS OF INSTRUMENTATION
4 credits
Prerequisites: 2840:151 and 2860:123 or 2860:270. Study of variables encountered in process instrumentation, indicating and recording devices and applications of physicai principles affecting measurement and control.

## 232 PROCESS CONTROL

3 credils
Prerequisite: 2860:231. Study of analysis and design of process controi systems with emphasis on techniques and instrumentation used in process control. Digital control fundamentals introduced.

## 239 PULSE CIRCUIT TESTING

3 credits
Prerequisite: 2860:237. General study and analysis of digital circuits and systems. Analog-todigital and digital-to-analog conversion. Digital troubleshooting and analysis of digital interface.

240 CALIBRATION AND STANDARDIZATION
1 credit
Prerequisite 2860:231. Laboratory experience in calibration and standardization of electrical, electronic and mechanical systems. Instrument theory, maintenance, troubleshooting, specifications, performance and safe working practices incluced.

241 INSTRUMENTATION PROJECT
2 credits
Prerequisite: final semester or permission. Design construction and testing of an approved instrumentation project by an individual student, promoting independent study, initiative assumption of responsibility and application of skills attained in related courses.

290 SPECIAL TOPICS: INSTRUMENTATION TECHNOLOGY
1-2 credifs
(May be repeated for a total of four credits)
Prerequisite: permission. Selected topics or subject areas of interest in instrumentation technology.
MECHANICAL
TECHNOLOGY

## 2920:

121 TECHNICAL DRAWING I 3 credits
Lettering and proper use of drawing instruments: freehand sketching: geometric drawing orthographic projection; pictorials; infroduction to basic descriptive geometry.
122 TECHNICAL DRAWING II
Prerequisite: 121. Sections and conventions; dimensioning; allowances and tolerances; threads and fasteners; descriptive geometry; intersections; developments.

242 design materials
3 credits
Prerequisite: 2980:125; corequisite: 2980:241. Fundamental properties of materials. Material testing. Applications of methods to control material properties.

## 243 KINEMATICS

2 credits
Prerequisite: 2980:241. Study of rigid-body motions of simpte linkages, cams, gears and gear trains. Graphical vector solutions emphasized industrial applications presented

## 244 DYNAMICS

2 credits
Prerequisites: 243, 2020:233 and 2980:125 introduction to particle dynamics, displacement, velocity and acceleration of a constrained rigid body in plane motion. Kinetics of particles and rigid bodies: work and energy, mechanical vibrations

## 245 mechanical design I

5 credits
Prerequisites: 122, 2980:241; corequisite: 242 . Design of machine elements: springs, shafts, fasteners, welded joints. Combined stress and fatigue analysis. Design projects. Experimental stress analysis

247 TECHNOLOGY OF MACHINE TOOLS 3 credits
Set up and operation of tool room machines Lathe, drill press, shaper, milling machine and tool grinder Planning operations and layout.

## 249 APPLIED THERMAL ENERGY

2 credits
Prerequisites: 2020:233, 2840 153 Thermodynamic principles. Study of power cycles. Applications in IC. engines, compressors. steam power cycles. retrigeration.

## 251 FLUID POWER

2 credits
Prerequisites: 2020:233, 2840:153. Statics and dynamics of fluids. Viscosity, energy and momentum relationships. Fluid machinery and measurements.

252 THERMO-FLUIDS LABORATORY
1 credit
Prerequisite: 249: corequisite: 251. Laboratory experiments in applied thermal energy and fluid power.

1-3 credits
(May be repeated for a total of tour credits)
Prerequisite: permission. Selected topics or subject areas of interest in mechanical technotogy.

## 310 ECONOMICS OF TECHNOLOGY

3 credits
Prerequisite: 64 credits or permission. Economic principles as they pertain to technology. Equivalence alternatives costs depreciation, valuation. Project studies

335 WELDING, THEORY AND PRACTICE
3 credits
Prerequisite: 242. Design of weldments and welding processes. Welding of ferrous, nonferrous and plastic materials.

## 336 WELDING PROJECTS

1 credt
Prerequisite: 335 . Individual profects containing elements of analysis, design and laboratory implementation

339 ADVANCED TECHNOLOGY OF MACHINE TOOLS
2 credits
Prerequisite: 247; corequisite: 242 . Selected topics dealing with sophisticated metal cutting techniques

346 MECHANICAL DESIGN II
3 credits
Prerequisite: 245. Continuation of design of machine components. Bearings, gears, brakes, clutches. Machine vibrations and dynamic loads.
347 PRODUCTION MACHINERY AND PROCESSES
2 credils
Prerequisites: 247, 2020:334 Study of modern production machines, processes and techniques Casting, forging, rolling. welding, powder metallurgy, plastics molding.

348 INTRODUCTION TO NUMERICAL CONTROL
3 credins
Prerequisites: 121,2020:132. Introduction to numerical control ( $\mathrm{N} / \mathrm{C}$ ) of operation of machine tools and other processing machines. Includes programming, types of $\mathrm{N} / \mathrm{C}$ systems, economic evaluation.

360 FUNDAMENTALS OF AUTOMOTIVE SYSTEMS
3 credits
Prerequisite 249. System function and interaction of various subsystems. Diagnosis of malfunction of important systems and use of instruments such as vacuurn gauge, compression and cylinder leakage test gauges, dwell meter and ignition scope. Laboratory demonstrations with hands-on experience for student dependent on available laboratory time. Field trips to observe operation of computer controlled testing and diagnosis.

365 FUNDAMENTALS OF HEATING AND AIR CONDITIONING 3 credits Prerequisite: 249. Basic design knowledge of heating and air conditioning. Includes basic heat transter concepts, heat loss and gain of buildings, human reactions to conditioned atmosphere, heating and cooting load requirements, and variations in type of performance of heating and cooling equipment.

402 MECHANICAL PROJECTS
1 credit
Prerequisite: senior standing. Individual projects emphasizing creative technicai design.
448 NUMERICAL CONTROL PROGRAMMIR:
3 credits
Prerequisite: 348, Introduction to computer-assisted interactive part programming system Writing of milling and drilling programs.

## 460 MECHANICAL SIMULATION

3 credits
Prerequisite: 4100:206. Structural, thermal and dynamic aspects of mechanical systems simulated using FORTRAN. Performances studied using both deterministic and trial-and
error methods. Responses in both time and frequency domains to various forcing functions. Prediction of tolerances and performance specifications by statistically studying systems produced by simulated production line.

495 INSPECTION TOURS
1 credit
Prerequisite senior standing. Trips through area industrial plants and technical tacilities.

497 SENIOR HONORS PROJECT IN MECHANICAL TECHNOLOGY
$1-3$ credits
(May be repeated for a total of six credits)
Prerequisites: senior standing in Honors Program. permission of area honors preceptor and major in mechanical technology. Independent research leading to completion of senior honors thesis or other original work.

## DRAFTING TECHNOLOGY

2940:
140 SURVEY OF ENGINEERING TECHNOLOGY
3 credits
Prerequisite: 2020:131. Introductory course in basic concepts pertaining to mechanical, civil and electrical technology. A study of technical terminology, applied mathematics and applied physics Graphical solutions will be emphasized

150 DRAFTING DESIGN PROBLEMS
2 credits
Prerequisite: 2020:131; corequisite: 151 . Introductory course in basic concepts in engineering technology computations. A study of technical terminology and applied mathematics.

151 TECHNICAL COMPUTATIONS
1 credit
Pierequisite 2020:131: corequisite for drating technology students only: 150. Use of computer to solve typical problems in engineering technology. Concepts of flow charting, looping. varrables, arrays, subroutines, examined BASIC computer language introduced.

160 MANUFACTURING AND CONSTRUCTION PROCESSES
2 credits
(One hour lecture/three hours laboratory)
Films and field trips in various technologies to familiarize student with manufacturing and construction processes. Written or oral reports will be required after each film or field trip.

## 70 SURVEYING DRAFTING

3 credits
drafting
Prerequisite: 2920:121, Corequisite: 2020:131 Provides basic understanding of drafting procedures, techniques and tools required for the various phases of survey office work. Production of topographic maps, plan and profile drawings, cross-section drawings and earthwork caiculations.

200 ADVANCED DRAFTING
3 credits
(One hour lecture/six hours laboratory)
Prerequisite 2920122. Descriptive geometry and geometric dimensioning. Principles of descriptive geometry applied to practical probtems pertaining to the civil and mechanical fields of technology. Geometric dimensioning.

210 COMPUTER DRAFTING
3 credits
(One hour lecture/six hours laboratory)
Prerequisite: 2920:121; corequisite: 151. Provides understanding of equipment used in computerized drafting and of numerical control ( $\mathrm{N} / \mathrm{C}$ ) concept. Included are definitions of most important terminology and drawing standards relating to $\mathrm{N} / \mathrm{C}$.

230 MECHANICAL SYSTEMS DRAFTING
3 credits
(One hour lecture/six hours laboratory)
Prerequisite 2920 t22 Familiarizes student with terms and drawing layouts for installations of systems concerning plumbing. heating and air conditioning. Also welding. gears, cams and fluid power drawings.

240 ELECTRICAL, ELECTRONIC AND INSTRUMENTATION DRAFTING 3 credits
(One hour lecture/six hours laboratory)
Corequisite: 2920.122 . Familiarizes student with terms and layouts concenning electronic. electrical and instrumentation systems.

## 250 ARCHITECTURAL DRAFTING

3 credits
(One hour lecture/six hours laboratory)
Prerequisite: 2920:121. Fundamentals of architectural drafting, including projection, sectioning, pictorial drawing, perspective, shades, shadows and architectural representation. Emphasis on construction details, interior space use. traffic patterns, exterior materials.

260 DRAFTING TECHNOLOGY PROJECT
3 credits
Prerequisite: last semester or permission Provides opportunity to work on a special drafting project within chosen field of interest.

290 SPECIAL TOPICS: DRAFTING TECHNOLOGY
1-3 credits
(May be repeated for a total of tour credits)
Prerequisite: permission. Selected topics on subject areas of interest in drafting technology.

## SURVEYING AND CONSTRUCTION TECHNOLOGY

## 2980:

122 BASIC SURVEYING
3 credits
Basic tools and compulations for surveying: measurements of distance, elevations and angles: traverse surveys. Field practice.

123 SURVEYING FIELD PRACTICE
2 credits
Prerequisite: 122. Practical experience in use of surveying equipment and methods of surveying. Provides student with responsibility for making decisions and planning and directing complete project.

Prerequisites: 2840:151 and 2020:132. Forces, resultants and couples. Equilibrium of torce systems. Trusses, frames first and second moment of areas, friction

222 CONSTRUCTION SURVEYING 3 credits Prerequisite: 122. Methods and procedures for establishing line and grade for construction Circular, spiral and parabolic curves. Cross-sectioning methods and earthwork. Field practice.

224 LAND SURVEYING
Prerequisite: 122 or permission. Historical development of boundaries, rectanguter system of
public land surveys, systems used to describe property, working and interpretation of deed descriptions, surveyor's rights, duties and responsibilities.

225 ADVANCED SURVEYING 4 credits
Prerequisite: 122 . Introduction to theory of errors, precise leveling, baseline measuremenis. triangulation, trilateration and bearings from celestial observation. Photogrammetry. Field practice.

226 SUBDIVISION DESIGN
Frerequisite: 222 ; corequisite: 224 . Site analysis, tand use controls and piotting procedures.
Laboratory includes preparation of various types of projects leading to a complete subdivision

231 BUILDING CONSTRUCTION 2 credits
Materials arid types of construction used in heavy construction. E.ncompasses buildings constructed with heavy timber, steel, concrete or a combination of these materials.

232 CONSTRUCTION
3 credits
Prerequisite: 222 or permission. Planning of construction operations. Construction equiprnent and selection for typical jobs. Emphasis on heavy construction.

233 CONSTRUCTION ADMINISTRATION
2 credits
Construction specifications. Office organization, preparation of construction documents.
Bidding, bonds. Construction management and supervision. Agreements and contracts
234 ELEMENTS OF STRUCTURES
3 credits
Prerequisite: 241. Principles of stress and structural analysis, members in steel, timber and concrete connections.

237 MATERIALS TESTINGI 2 credits
Laboratory testing of solls with emphasis on physical properties of soin. Laboratory and field procedures used for quality control. Testing of concrete mixes.

## 238 MATERIALS TESTING II

2 credits
Prerequisite: 237 ; corequisite: 241. Mix design of concrete Lahoratory lesting of ferrous and
nonferrous metals, woods and concrete. Experiments dertionstrate physical properties as related to design.

## 241 STRENGTH OF MATERIALS

3 credits
Prerequisite: 125. Stress, strain and stress-strain relationships. Tension, compression, torsion, beams. Shear and moment diagrams.

245 COST ANALYSIS AND ESTIMATING 3 credits
Quantity surveys in construction. Elements of cost in construction. determination of unit costs, analysis of cost records.

## 250 STRUCTURAL DRAFTING

2 credifs
Prerequisite 2920:121. Duties of structural draftsman in preparation of detailed working drawings for steel and concrete. Emphasis on portrayal, dimensions and notes on a working drawing

290 SPECIAL TOPICS: SURVEYING AND $1-2$ credits CONSTRUCTION TECHNOLOGY
Prerequisite: permission. Selected topics or subject areas of interest in surveying and construction technology

# Buchtel College of Arts and Sciences 

## COOPERATIVE EDUCATION 3000:

## 301 COOPERATIVE EDUCATION

0 credits
(May be repeated)
For cooperative education students only. Work experience in business, industry, or governmental agency. Comprehensive performance evaluation and written report required.

## BIOLOGY

## 3100:

## 100 NATURE STUDY. PLANTS

3 credits
Identification and biology of common plants of this region. Recommended for teachers of nature study. Not available for credit toward a degree in biology Laboratory

## 101 NATURE STUDY: ANIMALS <br> 3 credits

Identification and biology of common animats of this region. Recommended for teachers of nature study. Not available for credit toward a degree in biology Laboratory.

## 104 ECOLOGY AND BIOLOGICAL RESOURCES

1 credit
FIELD LABORATORY
Corequisite: 105 . Short field trips and laboratory studies illustrating natural and man-moditied characteristics of selected local ecosystems.

## 105 INTRODUCTION TO ECOLOGY

2 credits
Basic principles governing structure and function of natural ecosystems. Various options tor managing natural resources, human populations, biotic communities and industrial technologies at global level emphasized. Not available for credit toward a degree in biology.

111 PRINCIPLES OF BIOLOGY
4 ciedits
Molecular, cellular basis of life, energy transformations, metabolism; nutrient procurement. gas exchange, internal transport, homeostatic mechanisms. control systems in plants and animals. Laboratory.

112 PRINCIPLES OF BIOLOGY
4 credits
Prerequisite: 11 . Cell reproduction, genetics, development, evolution classification, behavior, ecology of plants and animals (111-112 are an integrated course for majors in biology and related fields.) Laboratory.

## 130 PRINCIPLES OF MICROBIOLOGY

3 credits
Basic principles and teminology of microbiology; cultivation and control of microcrganisms; relationships of microorganisms to man and his environment; medical microbiology Laboratory.

190/191 HEALTH-CARE DELIVERY SYSTEMS*
1 creat each
Health-care principles and practices. Restricted to the student in NEOUCOM, six-year BS/MD program. Graded credit/noncredit. Not available toward credit as major in biological sciences.

192 BIOLOGY OF AGING
3 credits
Prerequisite: 112 or 265 or equivalent. Introduction to anatomical and physiological changes occurring in organ systems of man during aging process: cellular basis for these changes: biological theories of aging.

206/207 HUMAN ANATOMY AND PHYSIOLOGY
4 credits each
Sequential. Siructure and function of the human body presented in a self-paced, audiotutorial format. Laboratory.

## 211 GENERAL GENETICS

3 credits
Prerequisite. 112. Principles of heredity, principles of genetics.

Prerequisite or corequisite: 211 . Fundamental principles of genetics illustrated by experiments with drosophilae and other organisms.

217 GENERAL ECOLOGY
3 credits
Prerequisite: 112 . Study of interrelationships between organisms and environment.
264 ANATOMY AND PHYSIOLOGY OF SPEECH AND HEARING
3 credits
Prerequisite 265. Study of anatomy and physiology of organs directly and indirectly responsible for sound perception and production of speech. Laboratory.

## 265 INTRODUCTORY HUMAN PHYSIOLOGY

4 credils
Study of physiological processes in human body, particularly at organ-systems level. Not open to pre-professional majors. Laboratory

290/291 HEALTH-CARE DELIVERY SYSTEMS
1 credit each
Health-care principles and practices. A continuation of 190,1 for a second year student in
NEOUCOM six-year BS/MD program. Graded credit/noncredit. Not available toward credit as major in biologıcal sciences. Some field trips.

311 CELL BIOLOGY
3 credits
Prerequisites: 112 and $3150: 202$ (organic and biochemistry). Sludy of structure and function of cells using microbial and animal cells for demonstration of common tenets.
315 EVOLUTIONARY BIOLOGY DISCUSSION
1 credit
Prerequisite: 211. Informal discussions of various aspects of organic evolution of general or special interest

316 EVOLUTIONARY BIOLOGY
3 credits
Prerequisite 211 History of evolutionary thought; Darwinian and post-Darwinian concepts, mechanisms of evolution; molecular evolution; evolutionary history of plants and animals.

331 MICROBIOLOGY
4 credits
Prerequisites. 112 and $3150: 202$ or equivalent Survey of protists with emphasis on the bacteria: their morphology, cultivation and chemical characteristics. Relationships of microorganisms to man and his environment. Laboratory.

341 FLORA AND TAXONOMYI*
3 credits
Prerequisite 112 . Collection-identification of autumn-flowering plants, their family characteristics and discussion of methods used to determine their relationships. Plants used by man discussed and plant collection requireo. Laboratory

342 FLORA AND TAXONOMY II*
3 credits
Prerequisite: 112 . Classification systems, international rules governing application of names and collection-identification of spring Flowering plants. Family characteristics. Plant collecfon. Laboratory.

351 INVERTEBRATE ZOOLOGY*
4 credits
Prerequisite: 112 Invertebrate groups, their classification, anatorny and life history of representative forms. Laboratory.

353 GENERAL ENTOMOLOGY*
4 credi's
Prerequisite: 112. Structure, physiology, life cycles and economic importance of insects; survey of orders and major families. An insect collection is made. Laboratory

355 PARASITOLOGY
4 credits
Prerequisite: 112. Frinciples of parasitism: survey of the more important human and veterinary parasitic diseases. Laboratory.

361,2 HUMAN ANATOMY AND PHYSIOLOGY
3 credits each
Sequential. Prerequisite: one year of college chemistry Study of structure and function of the human body Laboratory
365 HISTOLOGYI
3 creails
Prerequisite: 311 . Ceilular structure of organs in relation to their functional activity, life history, comparative development Laboratory

366 HISTOLOGY II
3 credits
Prerequisite: 365 . Microscopic study of animal tissue preparations and histochemical stains;
emphasis on functional differences. Laboratory.
381 HUMAN GENETICS 2 credits
Prerequisite 112 of 362 . Principles of genetics in the human. immunogenetics, mutation, genetics of population, selection and eugenics. Not open to biology majors.

383 LABORATORY TECHNIQUES AND INSTRUMENTATION
2 credits IN BIOLOGY
Prerequisites. 112 and 3150:132,133,134. Instruction in techniques and instrumentation used in biological laboratories.

384 TECHNIQUES AND INSTRUMENTATION LABORATORY
1 credit IN BIOLOGY
Prerequisite or corequisite 383. Application of biological techniques arid instrumentation with emphasis on isolation and identification of celluiar components and metabolites also incluces enzymology, use of radioisotopes and light and electron milcroscopy

## 400/500 FOOD PLANTS

2 credits
Prerequisite. 311 or permission of instructor. A survey of the plants used for human food,
including their history, structure, uses.

422/522 CONSERVATION OF BIOLOGICAL RESOURCES* 4 credits Prerequisite: 217 or permission. Basic principles for management of plant and animal resources and natural areas Political. economic and social aspects of resource management. Laboratory with field trips

424/524 FRESHWATER ECOLOGY*
3 credits
Prerequisite: 217. Field, laboratory study of lake ecosystems. Species composition of selected biotic com:munites community energetics. nutrient cycling Limnological survey of a local lake. Laboratory

425/525 FRESHWATER ECOLOGY FIELD AND LABORATORY STUDIES 3 credits
Prerequisite 217 or permission of instructor. Field and laboratory studies of local lakes, ponds, and reservoirs. Collection, indentification, and ecology of aquatic plants and animais, especially phyioplankton, zooplankton and benthic organisms

426/526 APPLIED AQUATIC ECOLOGY* 3 credits
Prerequisite: permission. Biological methods for assessing qualily of nalural waterways Emphasis given to use of benthic invertebrates as indices of water quality. Laboratory.

428/528 BIOLOGY OF BEHAVIOR 2 credits
Prerequisites: 211,217 and $\$ 16$. Biological basis of behavior ethological theory function, causation, significance. evolution ano adaptiveness of behavior

429/529 BIOLOGY OF BEHAVIOR LABORATORY 2 credis
Prerequisites or corequisites: $428 / 528$ and permission of instructor. Individualized, directed study to provide the student with firsthand experience in observing, describing and interpreting animal behavior.

431/531 BACTERIAL PHYSIOLOGY
3 credits
Prerequisites: 331 and 3150202 . Biochemical activities in bacterial cell, emphasizing enzymatic mechanisms of metabolic transformations. Energy relationships in catabolic and biosynthetic pathways stressed.

432/532 ADVANCED GENERAL BACTERIOLOGY
4 credits
Prerequisite: 331. Study of the groups of bacteria involved in the production of food or chemicals, those tound in soll and water and those involved in microbicl biogenochemical cycles. Laboratory

433/533 PATHOGENIC BACTERIOLOGY
4 credits
Prerequisite. 331 and prerequisite or corequisite 437. Study of major groups of bacteria which produce infections in man. Biochemical properties of microorganisms which engender virulence and nature of host resistance Laboratory.
435/535 VIROLOGY

4 credits

Prerequisite: 331. Physical, chemical and biological properties of viruses including mechanisms of irtection, genetics and tumor formation, methods of cultivation and identification. Laboratory.

437/537 IMMUNOLOGY
4 creatits
Prerequisite: 331, recommended: 433. Nature of antigens, antibody response and antigenantibody reactions. Site and mechanism of antibody formations, hypersensitivity, immunologic tolerance and immune diseases considered. Laboratory.

440/540 MYCOLOGY
Prerequisite 112 Structure, ife history, classification of representative fungi with emphasis on the importance of fungi to man. Laboratory

441/541 PLANT DEVELOPMENT 4 credits
Prerequisites. 112 and one year of organic chemistry. Embryology and morphogenesis of plants in relation to physical, chemical, genetic and spatial factors. Laboratory.

442/542 PLANT ANATOMY
3 credits
Prerequisite: 112 . Structure and development of cells, tissues. organs andergan systems of seed plants Laboratory
443/543 PHYCOLOGY 4 credits
Prerequisite: 112. Examination of the major groups of algae with emphasis on life histories and their relationship to algat form and structure. Laboratory.

445/545 PLANT MORPHOLOGY*
4 credits
Frerequisite: 112 Structure, reproduction, life cycles, ecology, evolution, economic significance of land plants-bryophytes, club-mosses, whisk ferns, horsetails, ferns, seed plants. Laboratory

## 447/547 PLANT PHYSIOLOGY

3 credits
Prerequisites: 112 and one year of organic chemistry. Water, soil and mineral requirements of plants, and their metabolism, growth and response to internal and external stimuii Laboratory.

## 449/549 PLANT BIOSYSTEMATICS

2 credits
Prerequisites tour credits of botany at 400 level. Current research methods and theories in plant phylogeny and taxonomy. Includes study of original publications, discussion of experimental methods and use of herbarium in research.

450/550 ANIMAL PESTS AND VECTORS 3 credits Prerequisite 217 or permission of instructor. Study of the biology and control of disease vectors and urban pests. Laboratory.

## 456/556 ORNITHOLOGY*

3 credits
Pierequisite 112 . Introduction to biology of birds classitication, anatomy, physiology, behavior, ecology, evolution, natural history and field identification. Laboratory.

458/558 VERTEBRATE ZOOLOGY
4 credils
Prerequisite: 316 or permission. Biology of vertebrates, except birds - evolution, ecology behevior, systematics and anatomy. Laboratory with field trips

461,2/561,2 HUMAN PHYSIOLOGY
4 credits each Prerequisite: senior or graduate standing. Detailed study of function of the human body with special emphasis on neuromuscular, cardiovascular, respiratory, renal and endocrine physiology. Laboratcry.

464/564 GENERAL AND COMPARATIVE PHYSIOLOGY
4 credits
Prerequisites: 112 and one year of organic chemistry. Study of cellular, osmoreguiatory. respiratory, cardiovascular, endocrine and neural mechanisms involved in understanding physiology of variety of invertebrate and vertebrate animals. Laboratory.

## 465/565 ADVANCED CARDIOVASCULAR PHYSIOLOGY

3 credits
Prerequisite: 462 or 562 or permission. Study of biological mechanisms involved in heart attack, strokes. fluid balance, hypertension and heart disease. Controversial issues in each area will be examined and current research presented.

466,7/566,7 DEVELOPMENTAL ANATOMY
4 credits each
Prerequisite: 112 Sequence designed to introduce process of vertebrate development Lecture and laboratory work includes descriptive and experimental embryology, phylogenetic development of major vertebrate orders and individual study research. Laboralory.

468/568 THE PHYSIOLOGY OF REPRODUCTION 2 credits
Prerequisite: $462 / 562$ or permission. Study of the physiological mechanisms of reproduction throughout the antimal kingdom with speciai emphasis upon mammalian endocrinological control. Controversial issues in the field will be examined and current research, presented.

480/580 RADIATION BIOLOGY* 3 credits
Prerequisite: permission. Principles of radioactivity, interaction with matter, particuiarly its effects on biological systems. Detection devices, radiation safety and dosimetry, use of radiolabeled compounds in laboratory. Laboratory.

481/581 ADVANCED GENETICS
3 credits
Prerequisite: 211. Nature of the gene; genetic codes; hereditary determinants; mutagenesis and genes in population. Lecture and seminar.

484/584 PHARMACOLOGY
3 credits Prerequisite: 311 , recommended: college-level physiology. Interactions of drugs and living systems with emphasis an molecular and cellular mechanisms of action, orug metabolism and excretion, and selected aspects of environmental toxicology. Clinica! aspects and specific drug therapies not considered in detail

494/594 WORKSHOP IN B!OLOGY
1-3 credits
(May be repeated)
Prerequisite: permission of instructor. Group studies of special topics in biology. May not be used to meet undergraduate or graduate major requirements in bology. May be used ior elective credit only.

495 SPECIAL TOPICS: BIOLOGY
$1-3$ credits
(May be repeated)
Prerequisite: permission. Special courses offered once or only occasionally in areas where no formal course exists. A maximum of six credits may be applied to requirements for a major.

497,8/597,8 BIOLOGICAL PROBLEMS 1-2 credins each
Prerequisite, permission. Honors-level work, usually consisting of laboratory investigations.
499 SENIOR HONORS PROGRAM IN BIOLOGY
$1-3$ credits
(May be repeated for a total of five credits)
Prerequisites: senior standing in Honors Program and approval of honors preceptor. Open only to biology majors in Honors Program. Independent study leading to completion of approved senior honors.

## Graduate Courses

631 EXPERIMENTAL BACTERIAL PHYSIOLOGY 4 credits
Prerequisite: 531 or permission of instructor. Basic techniques pecultar to study of microbial physiology and modification of selected biochemical techniques for application to microbial systems. Laboratory.

660 ENVIRONMENTAL PHYSIOLOGY
3 credits
Prerequisites: 561.562. Study of physiological reactions of nealthy mammals to natura changes or extremes of physical environment.

681 CYTOLOGY 3 credits
Prerequisite 311 . Structure and functional organization of cefls at ultrastructural ievel. Three lecture hours a week.

685 ANIMAL TISSUE CULTURE 3 credits Tissue culture techniques; biology and physiclogy of anmal ceils and tissues under in vitro conditions; application of these techniques to radiobiology, cancer chemotherapy and animal cell genetics. Laboratory.

686,7 RESEARCH IN THE BIOLOGY OF AGING
Sequential. Prerequisite: graduate standing in biology, or by approval in related fields Introduction to research techniques in study of biological aspects of aging and experience in specia! research project in the field.

## 688 PRINCIPLES OF TRANSMISSION ELECTRON MICROSCOPY

3 credits
Prerequisite: 311 or 681 or equivalent Modern cytological methods using transmission electron microscope. Porffolio required to demonstrate proficiency in fixation techniques. use of ultramicrotome, light and electron micrascopes and darkroom techniques.

689 PRINCIPLES OF SCANNING ELECTRON MICROSCOPY
3 credits
Prerequisites: 311.681 or equivalent. An introduction of modern cytological methods using the scanning electron microscope. A portfolio is required to demonstrate proficiency in fixation techniques, the use of supplemental equipment such as the critical point drying apparatus and the sputter-coating apparatus and the efficient use of the scanning electron microscope.

695 SPECIAL TOPICS: BIOLOGY
1-3 credits

## (May be repeated)

Prerequisite: permission. Special courses offered once or only occasionally in areas where no formal course exists.

697,8 BIOLOGY COLLOQUIUM
1 credit each
(May be repeated)
Prerequisite: permission. Attendance at all departmental seminars and presentation of seminar based on original research. Required of all thesis option students who shall present their thesis research

## 699 MASTER'S RESEARCH

1-6 credits
(May be repeated)
A minimum of six credits is required for thesis option student.

## BIOLOGY/NEOUCOM

## 3110:

620 MICROSCOPIC ANATOMY
4 credits
Prerequisites: graduate standing, permission and cell biology; histology suggested. Morphological basis for normal and disturbed functions; structure-function relationships in human microscopic anatomy Lectures, special laboratory, learning techniques using human tissues.

630 HUMAN GROSS ANATOMY AND EMBRYOLOGY
3 credits
Prerequisites: graduate standing and permission. An intensive survey of human macromorphology.

631 HUMAN GROSS ANATOMY AND EMBRYOLOGY LABORATORY
3 credits Corequisite: 630 . An intensive survey of human macromorphology.

641 FUNCTIONAL NEUROANATOMY
6 credits
Prerequisite: permission or graduate standing. Study of structure and function of mammatian nervous system with emphasis on human brain and human behavior. Laboratory.

643 NEUROPHYSIOLOGY
4 credits
Prerequisite: 641. The relation of aspects of the neurosciences to the fundamental properties of nervous tissue, establishing a firm base in experimental neurobiology. Laboratory

580 RADIOISOTOPES IN MEDICINE
1 credit
Prerequisite: permission or graduate standing. A survey of the use of radiosotopes in medicine and research. Successful completion of this course qualifies the student for approval by the Nuclear Regulatory Commission for use of radioisotopes in research. Laboratory.

695 SPECIAL TOPICS: BIOLOGY/NEOUCOM
1-6 credits
Prerequisite: permission of instructor. Advanced topics in medical education covering areas not otherwise available. May be repeated with a change in topic.

## MEDICAL TECHNOLOGY

## 3120:

401 SPECIAL TOPICS LABORATORY:
$1-4$ credits MANAGEMENT, EDUCATION AND SAFETY
Seminars, lectures, workshops in medical technology not included in formal clinical courses. Minimum one credit required for graduation.

410 CLINICAL ANALYSIS OF URINE AND OTHER BODY FLUIDS I
1 credit
Prerequisites. $3100: 361,362$ or equivalent. Physiology of renal system; theory of renal
functions in health and disease states. Theory of other fluid systems in diagnosis of disease.
411 CLINICAL ANALYSIS OF URINE AND OTHER BODY FLUIDS II
1 credit
PRACTICUM
Prerequisites: $3100: 361,362$ or equivalent. Renal function tests to include chemical and microscopic examination of urine. Methods of detection of chemical and cellular elements of other body fluids.

420 CLINICAL CHEMISTRY AND BIOCHEMISTRY I
4 credits
Prerequisites: $3100,383,384$ or equivalent; 3150 201, 202. 335, 336 or equivalent. Concepts of clinical biochemistry; identification and quantification of specitic chemical substances in body fluids in normal and disease states; principles of instrumentation and quality control.

421 CLINICAL CHEMISTRY AND BIOCHEMISTRY II PRACTICUM
4 credits
Prerequisites: $3100: 383,384$ or equivalent; $3150: 201,202,335,336$ or equivalent. Clinical application by various analytical techniques; clinical correlation of results with disease states.

430 CLINICAL HEMATOLOGYI
2 credits
Prerequisites: $3100: 311$ and $3100: 361,362$ or equivalent. Theory of blood cell formation; identitication of blood and bone marrow cells; differentiation of erythrocytes. leukocytes. morphology.

431 CLINICAL HEMATOLOGY II PRACTICUM
2 credits
Prerequisites: $3100: 311$ and $3100: 361$. 362 or equivalent. Clinical application and practice of blood cell mounting procedures using automated and manual techniques.

432 CLINICAL COAGULATION
1 credit
Prerequisites: $3100: 311$ and $3100: 361,362$ or equivalent. Theory of coagulation mechanisms and their relationship to disease states. Emphasis on identification of coagulation deficiencies and abnormalities.

440 CLINICAL IMMUNOHEMATOLOGYI
2 credits
Prerequisites. $3100: 437,211$ or equivalent. Theory of principles of immunology applied to blood grouping, cross matching; blood components; transfusion; blood collection, processing and preservation.

441 CLINICAL IMMUNOHEMATOLOGY II PRACTICUM 2 credits
Prerequisites: $3100: 437$, 211 or equivalent. Clinical application of theory; cross matching; blood donors: blood bank management.

450 CLINICAL IMMUNOLOGYI
1 credit
Prerequisite $3100: 437$ or equivalent. Antigens and antibodies and their interaction in disease states.

451 CLINICAL IMMUNOLOGY II PRACTICUM
1 credit
Prerequisite $3100: 437$ or equivaient. Qualitative and quantitative serological laboratory procedures in immunology.

460 CLINICAL MICROBIOLOGYI 4 credits
Prerequisites: $3100: 331,332$ or equivalent. Theory of diagnosis of medical microbiology with emphasis on pathogenic bacteria and their relationship to disease.

461 CLINICAL MICROBIOLOGY II PRACTICUM
4 credits
Prerequisites: $3100: 331,332$ or equivalent. Isolation and identification of pathogenic bacteria media making, sensitivity and antimicrobial agents, principles of sterilization and asepsis.

462 CLINICAL MYCOLOGY
1 credit
Study of pathogenic fungi, basic methods of cultivation and identification. treatment and safety precautions.

463 CLINICAL PARASITOLOGY
1 credit
Prerequisite: $3100: 355$ or equivalent. Study of parasites common to man. life cycles. and relationship to man, procedure for handling and examining, identification by morphological characteristics.

## CYTOTECHNOLOGY

## 3130:

401 INTRODUCTION TO CYTOLOGY
A brief course in which by means of lecture and demonstration the student becomes familiar with the cytotechnologist's role and with cytology laboratory. Areas covered include historica background of ctinical cytology, microscopy and basic histology

## 410 CYTOPREPARATION

2 credits
Combined lecture and laboratory of different cytologic techniques, stain preparation, staining procedures, mounting and cover slipping of specimens. Also included are pertinent labora tory measurements, record keeping and safety measures for cytopreparation laboratory

411 GYNECOLOGIC CYTOPATHOLOGY
5 credits
Anatomy, histology and cellular morphology of female reproductive system. Study of disease processes and endocrinopathies, inflammation and benign lesions. Stressed are premalignant lesions of cervix and endometrium, as well as malignant neoplasms and their cytologic characteristics. A study of extrauterine and metastatic tumors is included.

412 GENITO-URINARY CYTOPATHOLOGY
3 credits
Study of anatomy, histology, pertinent physiology and cellular morphology of kidneys, ureters. bladder and lower urinary tract Emphasis on recognition of cancer cells and various benign pathologic conditions in the urinary tract by microscopic studies of urine sediment.

413 RESPIRATORY CYTOPATHOLOGY
3 credits
Study of disease processes as related to cytology of respiratory tract. Covers general anatomy. normal histology and cytology, inflammatory and mycotic diseases, benign proliterative disorders and malignant neoplasms with emphasis on their associated cell morphology.

## 414 BODY FLUIDS CYTOPATHOLOGY

Anatomy, histology and clinical aspects of benign and malignant diseases involving body cavities, central nervous system and synovial cavities are presented. Emphasis is placed in cellular morphology of primary and metastic tumors and in different cytodiagnosis.

415 CYTOPATHOLOGY OF THE ALIMENTARY TRACT
3 credits
Anatomy, histology and pertinent physiology of the oral cavity, esophagus. stomach. small and large intestines, rectum and anal canal. The biologic behavior, clinical presentation and celiular morphology of various benign epithelial lesions and malignant tumors emphasized.
416 BREAST SECRETION AND NEEDLE ASPIRATION SMEARS
2 credits
The study of anatomy and histology of body organs subject to needle aspiration biopsy with emphasis on ceilular morphology of both benign and malignant tumors.

## 417 CYTOGENETICS

1 credif
Basic genetic principles are taught to lay toundation for study of chromosomal aberrations and their pathological manifestations. Include techniques of sex chromatin determination, culturing and harvesting of blood cells, preparation of metaphase plate and preparation of karyotypes.

418 CYTOLOGY SEMINARS AND RESEARCH
3 credits
Collections of American Society of Cytology Seminars are presented. Current cytology cases from within department are also utilized. Based on projected sides and pertinent clinical history, a student formulates opinions on each case. Each case presented is discussed in depth by student with faculty moderator. A term paper on an independently selected topic in cytology is to be submitted and presented to the class and faculty

420 CYTOLOGY PRACTICUM
5 credits
Involves five hours of daily prescreening of routine gynecologic and non-gynecologic specimens. Abnormal cases are reviewed with a proctor who is a registered cytotechnologisi or pathoiogist Correlation of clinical data, tollow up of patients and proper reporting is emphasized. The goal is to be abie to screen accurately at least 40 cases ol gynecologic specimens per day.

## CHEMISTRY

## 3150:

121,2 INORGANIC CHEMISTRY I, II
3 credits each
Sequential. Designed primarily for a student in medical technology. Fundamental laws and theories of chemistry, the more important elements and their components. Laboratory.

## 124 CHEMISTRY

3 credits
Fundamentals of organic, inorganic and physiological chemistry. Discussion.
129,130 INTRODUCTION TO GENERAL
4 credits each ORGANIC AND BIOCHEMISTRY I, II
Sequential. Introduction to principles of chemistry and fundamentals of inorganic and biochemistry. Structure and chemistry of carbohydrates, lipids, proteins; biochemistry of enzymes, metabolism, body fluids and radiation effects

132 PRINCIPLES OF CHEMISTRY I
4 credits
Introduction to basic facts and principles of chemistry including atomic and molecuiar structure, states of matter and thermodynamics. For chemistry major, pre-medical student and most other science majors Laboratory.

133 PRINCIPLES OF CHEMISTRY II
3 credits
Prerequisite: 132 . Continuation of 132 , including aqueous solution theory, chemicai kinetics. equilibrium, electrochemistry and nuclear chemistry. For chemistry major, premedical student and most other science majors.
134 QUALITATIVE ANALYSIS
2 credits
Corequisite: 133 . Laboratory course applying principles of chemical equilibrium to inorganic qualitative analysis.

201,2 ORGANIC CHEMISTRY AND BIOCHEMISTRY I, II 4 credits each
Sequential. Prerequisite: 122. Designed especiatly for student in medical technology. Princi-
ples of organic chemistry with emphasis on biological systems. Laboratory
203 NUTRITIONAL BIOCHEMISTRY
3 credits
Prerequisite: 122 or 130 . Catabolic processes for energy procuction and nutritional requirements in liver, heart and skeletal muscle and adipose tissue. Biochemistry of diabetes, heart disease, obesity and atherosclerosis. May not be used to meet undergraduate major requirements in chemistry.

263,4 ORGANIC CHEMISTRY LECTURE I, II
3 credits each
Sequential. Prerequisite: 134 or permission. Structure and reactions of organic compounds. mechanism of reactions.

265,6 ORGANC CHEMISTRY LABORATORY I, II
2 credits each
Sequential. Corequisites: 263,264. Laboratory experiments to develop techniques in organic chemistry and illustrate principles.

303,4 ELEMENTARY PHYSICAL CHEMISTRY I, II
3 credits each
Sequential. Prerequisites: $264,3650,262$ or $292,3450: 222$ or permission of instructor. Chemical thermodynamics and kinetics (I) and molecular structure and spectra (II). Not accepted for credit toward B.S. degree in chemistry or chemical engineering.
313,4 PHYSICAL CHEMISTRY LECTURE I, II
3 credits each
Sequentia!. Prerequisites: 264,3450:235,3650:292 or permission of instructor. Gases, thermodynamics. thermochemistry, solutions, dilute solutions, chemical equilibrium, phase rule, chemical kinetics, electrochemistry, electrolytic equilibria, aiomic and molecular structure.

315,6 PHYSICAL CHEMISTRY LABORATORY I, II
2 credits each
Sequential Corequisite for 315 is 314 . Laboratory designed for illustrating techniques and equipment used in physical chemical investigations.

## 335,6 ANALYTICAL CHEMISTRY FOR

4 credits each LABORATORY TECHNICIANS I, II
Sequential. Prerequisites: 133,134 or 122 Interided primarily for preparing to become a laboratory or hospital techrician. Theory and calculations in qualitative and quantitative analysis, laboratory, methods used in hospital laboratories

401/501 BIOCHEMISTRY LECTURE:
3 credits
Prerequisite: 264 . Biochemistry of amino acids and proteins; enzymes, cole as biocatalysts; structure, biochemistry of nuclectides, nucleic acids, carbohydrates and lipids; energy storage. utilization

402/502 BIOCHEMISTRY LECTURE II
3 credits
Prerequisite: $401 / 501$. Carbohydrate, lipid and amino acid metabolism, protein, nucleotide and nucleic acid biosynthesis and gene function.

## 405/505 BIOCHEMISTRY LABORATORY

2 credits
Prerequisite: 401/501. Nethods for separation and analysis of amino acids, proteins, carbohydrates, lipids, and nucleic acids and their metabolism, Chromatography, electrophoresis. contrifugation. spectrophotometry and use of radioisotopes.

408/508 THE PROFESSIONAL CHEMIST IN INDUSTRY
2 credits
Prerequisite: senior year or degree in chemistry or chemical engineering or permission Business, legal, societal, economic and other non-chemical aspects of a chemist's profession.

411/511 PHYSICAL CHEMISTRY FOR BIOLOGY MAJORS
3 credits
Prerequisites: 266 and $3450: 148$ and permission. Gases, thermodynamics. electrochemistry, chemical kinetics, macromolecules and colloids; special topics in biochemistry, biophysics and molecular biology

415/515 CHEMICAL INSTRUMENTATION 3 credits
Prerequisite: permission. Principles and applications of efectrical and eiectronic devices and various transducers for chemical analysis. Laboratory.
416/516 INSTRUMENTAL METHODS OF ANALYSIS 3 credits
Prerequisite: $415 / 515$. Principles and applications of analytical chemical techniques based on physical measurements. Laboratory

421/521 QUALITATIVE ORGANIC ANALYSIS
4 credits
Prerequisite: 266. Identification and characterization of organic substances, separation and identification of components of organic mixtures. Laboratory.

423 QUANTITATIVE ANALYSIS 3 credits
Prerequisite: 134. Theoretical principles of quantitative analysis. Techniques and calculations, gravimeteric and volumetric methods.

425 QUANTITATIVE ANALYSIS LABORATORY 2 credits
Corequisite: 423. Laboratory techniques employed in gravimetric, volumetric and instrumental analysis.

427 ANALYTICAL CHEMISTRY LECTURE 3 credits
Prerequisites: 304 or 314,316 or permission. Instrumental analysis with emphasis on newer analytical tools and methods.

## 428 ANALYTICAL CHEMISTRY LABORATORY

2 credits
Corequisite: 427. Laboratory techniques employed in gravimetric, volumetric. instrumentai analysis: emphasizes instrumental analysis.

463/563 ADVANCED ORGANIC CHEMISTRY
3 credits
Prerequisites: 264, 304 or 314 or permission Introduction to study of mechanisms of organic reactions.

472/572 ADVANCED INORGANIC CHEMISTRY
3 credits
Prerequisite: 304 or 314 Concepts of atomic structure integrated in systematic classification of elements. Periodic table. Chemistry of the representative elements. Transition elements including coordination compounds, organometalics and metal carbonyls.

490/590 WORKSHOP IN CHEMISTRY
$1-3$ credits
(May be repeated)
Group studies of special topics in chemistry. May not be used to meet undergraduate of graduate major requirements in chemistry.

497 HONORS PROJECT IN CHEMISTRY
2 credits
(May be repeated for a total of eight credits)
Prerequisites: junior or senior standing in Honors Program and permission of department honors preceptor. Independent research leading to completion of honors thesis under guidance of honors project adviser

## 498 SPECIAL TOPICS: CHEMISTRY

$1-3$ credits
499 RESEARCH PROBLEMS
2 credits
(May be repeated for a total of eight credits)
Prerequisite: permission. Assignment of special problems to student, designed as an introduction to research problems.

## Graduate Courses

601,2 CHEMISTRY OF POLYMERS I, II
2 credits each
Sequential. Prerequisites: 264 and 266 or permission of instructor. History, classification and nomenclature: natural polymers. Types and methods of polymerization. Ring vs. chain stability. Natural and synthetic polypeptides, nucleic acids.

604,5 CHEMISTRY OF POLYMERS LABORATORY I, II
2 credits each
Sequential. Prerequisites: 264,266 . Freparation, identification of polymers to illustrate polymerization methods in 601, 602, 649.

610 BASIC QUANTUM CHEMISTRY
2 credits
Prerequisite: 314 Quantum mechanics with applications to molecular systems include angular momentum, molecular hamiltonians, variation and perturbation methods and molecular orbital theories.

198 3150: Chemistry

## 611 CHEMICAL BONDING AND SPECTROSCOPY

2 credits
Prerequisite: 610 . Application of quantum chemistry to efucidation of chemıcal bonding structure and interpretation of molecular spectra.

613 SYNTHETIC METHODS OF ORGANIC CHEMISTRY
2 credits
Prerequisite: 264. Discussion of synthetic organic chemistry. Standard synthesis of organic compounds as well as newer techniques.

621 ADVANCED PREPARATIONS
$1-2$ credits
Frerequisite: permission. Methods for preparing and purtying organic and inorganic compounds Laboratory.

## 629,30 THEORETICAL INORGANIC CHEMISTRY I, II

2 credits each Sequential. Prerequisites: 314,472 or permission. Detailed treatment of chemistry of transition elements. Group theoretical applications, ligand field theory, kinetics and mechanism, magnetism, electronic spectra, molecular orbital theory.
635 THERMODYNAMICS, STATISTICAL
2 credits THERMODYNAMICS AND KINETICS I
Prerequisites: 313,314 Rigorous treatment of laws of thermogynamics and application to selected chemical systems - gases, solutions and surfaces. Fundamentals of statistical thermodynamics.
636 THERMODYNAMICS, STATISTICAL
2 credits THERMODYNAMICS AND KINETICS II
Prerequisite: 635. Applications of statistical thermodynamics to chemical systems in equilibrium. Theories of rate processes. Fundamentals of chemical kinetics; methods of investigation and interpretation of data.

649 CHEMISTRY OF ELASTOMERS
2 credits
Prerequisites: 264, 266 or permission. Stuay of molecular structure and chemical reaction and properties of natural and synthetic rubbers; polymerization processes in formation of synthetic elastomers.

661 ENZYMATIC REACTIONS I
2 credits
Prerequisites: 401, 402 or instructor's permission. General aspects of enzyme catalyzed reactions, enzyme structure, methods of determining reaction mechanisms, kinetics and solvolytic and transfer reactions of phosphorous, glycosyl and acyl groups.

## 662 ENZYMATIC REACTIONS II

2 credits
Prerequisites: 401, 402 or permission of instructor. Specific bio-organic reactions continued, eliminations, oxidation/reductions, isomerizations, rearrangements, cofactors.

663 ADVANCED METABOLISM
2 credits
Prerequisites: 401,402 or permission of instructor. Study of advanced pathways in carbohydrates. lipid and protein metabotism with emphasis placed on metabolic dysfunction.

## 664 MEMBRANE BIOGENESIS

2 credits
Prerequisites: 401/501 and 402/502. Structure, function and biosynthesis of membranes. compartmentation of intracelluiar and secretory proteins. post-transiational modiciation, mitochondrial genetics

666 BIOINORGANIC CHEMISTRY
2 credits
Prerequisites: 401 , 402.472 or permission of instructor. Survey of the structure and properties of metal ion complexes with amino acids, nucleotides, metabolites and macromolecules; metal ion metabolism; metals in medicine.

667 ADVANCED BIOCHEMISTRY TECHNIQUES
2 credits
Prerequisites: 402, 405, 428 or permission. Advanced analytica! course in biochemistry laboratory, purification and characterization of D.N.A., R.N.A. and chromatın; study of metabolic pathways in bacteria using advanced biochemistry techniques.

671 THERMOANALYTICAL TECHNIQUES
2 credits
Prerequisite permission. Methods of differential thermal analysis, thermogravimetry and related techniques and methods of programming. recording, data treatment anc effects of atmosphere and sample parameters described with applications.

672 ADVANCED ANALYTICAL CHEMISTRY
2 credits
(One lecture, one laboratory period)
Prerequisite: 428 or equivalent. Advanced techniques for separation determination ano idenification; classical as well as recent techniques.

673 STEREOCHEMISTRY OF ORGANIC COMPOUNDS 2 credits Prerequisite 264. Stereochemistry and its application to reactions of organic chemistry.
674,5 PHYSICAL CHEMISTRY OF POLYMERS I, II
2 credits each Sequential. Prerequisite: 314 or permission of instructor. Basic statistical ideas Molecular weights distributions, sizes and shapes; kinetics and mechanism of polymerization: copolymerization; degradation; thermodynantics of polymer solutions.

685,6 EXPERIMENTAL PHYSICAL
2 credits for 685 : CHEMISTRY OF POLYMERS I, II $\quad 2-3$ credits tor 686 Sequential. Prerequisites or corequisites: 674, 675, respectiveiy. Laboratory to illustrate methods and principles discussed in 674 and 675.

692 ADVANCED INSTRUMENTATION 2 credits
Prerequsites: 316, 428. Theory and application of instrumental measurements Interpretation of data.
699 MASTER'S RESEARCH CHEMISTRY
1-6 credits
For properly qualifea candidates for master's degree Supervised onginai research in analytical, inorganic, organic, physical or biochemistry.

## 710 SPECIAL TOPICS: ANALYTICAL CHEMISTRY

1-2 creaits
(May be repeated)
Prerequisite permission. Topics in advanced analytical chemistry. Electroanalysis activation analysis atomic absorption spectrometry, mass spectrometry. liquid-liquid. liquid-solid and gas chromatography, ion exchange, thermoanalytical methods, separations, standards, sampling, recent developments.

## 711 SPECIAL TOPICS: INORGANIC CHEMISTRY

$1-2$ credits
(May be repeated)
Prerequisite: permission. Consideration of topics in modern inorganic chemistry such as coordination compounds, chemistry of the solid state, representative elements, rionaqueous solvents, organometailic compounds, homogeneous catalysis.

712 SPECIAL TOPICS: ORGANIC CHEMISTRY $1-2$ credits
(May be repeated)
Prerequisite: permission. Topics in advanced organic chemistry such as natural products. heterocyclic compounds, photochemistry.

713 SPECIAL TOPICS: PHYSICAL CHEMISTRY 1.2 credits
(May be repeated)
Prerequisite permission. Subject from modern physical chemistry.
714 SPECIAL TOPICS: POLYMER CHEMISTRY
$1-2$ credits (May be repeated)
Prerequisites: 264,266,314. 316 or permission. Study of topical subjects of current interest Chemistry of macromolecules encompassing organic, inorganic or physical chemistry aspects and including laboratory work where applicable. Lectures and/or laboratory.

715 SPECIAL TOPICS: BIOCHEMISTRY
1-2 credits
(May be repeated)
Prerequisite: permission. Consideration of topics in biochemistry such as isoenzymes anc disease, genetic engineering, membrane structure and functions and recent developments in field
783.4 PHYSICAL ORGANIC CHEMISTRY I, II

3 credits each
Sequential Corequisite: 610 or permission. Consideration of physical-chemical principles that determine course of an organic chemical reaction; discussion of reactive intermediates.

## 786 THEORETICAL ORGANIC CHEMISTRY

2 credits
Prerequisite 784. Application of modern quantum chemistry and thermodynamics to problems of organic chemistry.

899 DOCTORAL RESEARCH CHEMISTRY
1-16 credits
Open to qualified student accepted as a candidate for Doctor of Phlosophy in Chemistry. Supervised original research undertaken in organic, inorganic, physical, analytical or biochemistry.

## CLASSICS

## 3200:

189 MYTHOLOGY OF ANCIENT GREECE
3 credts
Myth, legend and folktale in Ancient Greece, with some attention to religıon (Olympian deities. Orphism, etc.) and the transmission of Greek myth to Rome and the West. No foreign language necessary.

190 THE MAKING OF ENGLISH WORDS FROM
3 credits LATIN AND GREEK ELEMENTS
The influence of Latin and Greek on English vocabulary with some attention to the use of these languages in the scientific and legal fields. No foreign language is necessary.

313 ARCHAEOLOGY OF GREECE
3 credits
The ruins and monuments of Greece; history reconstructed by examination of the material remains. No foreign language necessary. Required of majors.

314 ARCHAEOLOGY OF ROME 3 credits
The ruins and monuments of Rome; tistory reconstructed by examination of the material remains. No foreign language necessary. Required of majors.

361 THE LITERATURE OF GREECE
3 credits
Major writers of Ancient Greece and their influence on tater European iterature. No foreign language necessary. Required of majors.

362 THE LITERATURE OF ROME
3 credils
Major writers of Ancient Rome and ther influence on later European literature. No foreign language necessary. Required of majors.
401,2/501,2 EGYPTOLOGY
3 credits each
(May be repeated with change of subject)
Prerequisite: permission of instructor. Classical Egyptian (standard hieroglyphic of 18 th Dynasty): history and antiquities of Egypt as far as Romian occupation.

404,5/504,5 ASSYRIOLOGY
3 credits each
(May be repeated for credit with another cuneiform language)
Prerequisite permission of instructor. The Akkadian language: history and antiquities of Mesopotamia.407,8/507,8 ANCIENT NEAR EASTERN ARCHAEOLOGY3 credits each
(May be repeated for credit with change of subject)Prequiste permission of instructor. Pale
450/550 SELECTED TOPICS IN ANCIENT CULTURES ..... 3 credits
(May be repeated with change of subject necessary
497,8/597,8 READING AND RESEARCH IN THE ANCIENT NEAR EAST $1-3$ creditsPrerequisite: permission of instructor. Advanced work in various aspects of Ancient Near
Eastern Studies (Archaeology, Assyriology, Egyptology etc)
499 HONORS PROJECT IN CLASSICS $\quad 1.3$ credils
(May be repeated tor a total of six credits)
Prerequisites: senior standing in Honor's Program and permission. Independent study leading
Prerequisites: senior standing in Honors Program and permission Independent study leading
to completion of a senior honors thesis under the supervision of a member of the Depertment
of Classics

## GREEK

3210:
121,2 ELEMENTARY GREEK
Sequential. Standard language of Hellenistic times with some attention, to Modern Greek.
223,4 INTERMEDIATE GREEK
Prerequisites: 121,122 . A survey of readings of the less difficult authors such as Homer,
certain diatogues of Plato, Herodotus, Xenophon, New Testament or the like.
3 credifs each
303,4 ADVANCED GREEK
(May be repeated with a change of subject)
Tragedy, comedy, philosophy, history. lyric poetry, prose composition or epigraphy.
497,8/597,8 GREEK READING AND RESEARCH
(May be repeated for credit with change of subjecl)
Prerequisite: permission of instructor. Horiner. Sophocles. Flato or the like.

## LATIN <br> 3220:

121,2 ELEMENTARY LATIN 4 credits eachSequential. Some attention to development of Romance languages, especially Italian.
223,4 INTERMEDIATE LATIN 3 credits each
Prerequisites: 121, 122. A survey of readings of the less difficult authors such as Pliny, Caesar,

    Plautus. Cicero's Letters or equivalent material.
    303,4 ADVANCED LATIN 3 credits each
(May be repeated for credit with change of subject)
Prerequisites: 223, 224 or equivalent. Satirists, dramatists, philosophical, religious writers. lyric and elegiac poets, medieval writers
497,8/597,8 LATIN READING AND RESEARCH 3 credits each(May be repeated for credit with change of subject)
Prerequisite: permission of instructor. Generally Latin epigraphy, prose co
ECONOMICS
3250:
100 INTRODUCTION TO ECONOMICS 3 credits
May not be substituted for 201, 202. 244. Economics primarily considered in a broad socialscience context. Adequate amount of basic theory introduced.
201 PRINCIPLES OF MACROECONOMICS 3 credits
Study of the economic factors which affect the price level, national income, employment,economic growth. No credit if 244 already taken.
202 PRINCIPLES OF MICROECONOMICS 3 credits
Analysis of decision making on the part of the firm and househoid, ano the mark
244 INTRODUCTION TO ECONOMIC ANALYSIS3 credits
For engineering majors. Intensive introduction to analysis of modern industrial society andformulation of economic policy. Structure of economic theory and its relation to economicreality. No credit to a student who has completed 201, 202

248 CONSUMER ECONOMICS
3 credits
Spending habits of American consumers; influences affecting their spending decisions, personal finance, budget pianning. saving programs, instalment buying, insurance, invest ments, housing finance

330 LABOR PROBLEMS
3 credits
Prerequisites: 201, 202. Labor economics, principles and public policy. Study of structure of labor market and impact unions have on labor management relations.

333 LABOR ECONOMICS
3 ctedits
Prerequisite: 202. Theoretical tools used in analysis of problems of labor in any modern economic system. Emphasis given to examination of ceterminants of demand for and supply of labor.

360 INDUSTRIAL ORGANIZATION AND PUBLIC POLICY
3 credits
Prerequisites: 201, 202. Role of industrial structure and firm conduct in pertormance of industry and way in which antitrust policy is designed to provide remedies where performance is unsatisfactory.

380 MONEY AND BANKING
3 credits
Prerequisite: 201. Institutions of money, banking and credit, monetary expansion and contraction, public policies affecting this process, development of our money and banking system.

385 ECONOMICS OF NATURAL RESOURCES AND THE ENVIRONMENT
3 credits
Prerequisites: 100,202,244 or permission. Introduction to economic analysis of use of natural resources and economics of environment. Problems of water and air pollution, natural environments, natural resource scarcity, conservation, economic growth

389 ECONOMICS OF ENERGY
3 credils
Prerequisites 201,202 or permission of the instructor. Frame of economic theory is applied to analyze the energy sector. Theoretical issues relating energy with inflation, economic growth and public policy will also be examined.

## 400 MACROECONOMICS

3 credits
Prerequisites: 201, 202. Changes in national income, production, employment, price levels, long-range economic growth, short-term fluctuations of economic activity.

405 PUBLIC FINANCE
3 credits
Prerequisites: 201.202. Tax systems and other sources of revenue of federal, state and local governments: changing patterns of public expenditures; fiscal policy and debl management: economic effects of pubic policy

406/506 STATE AND LOCAL PUBLIC FINANCE
3 credits
Prerequisite: 410 ; recommended: 405 . Examines economic rationale and problems for provision of goods and services by different governmental units. Considers alternative revenue sources and speciai topics

410 MICROECONOMICS
3 credits
Prerequisites: 201, 202. Advanced analysis of consumer demard, production costs, market structures, determinants of factor income

420 MATHEMATICAL ECONOMICS
3 credts
Prerequisites: 201, 3450:147, 148, or 149 or permission of instructor. Mathematical treatinent of economic theory in framework of comparative statics. Emphasis on theory of the firm, theory of consumer behavior, general equilibrium analysis and weffare analysis.

421 MATHEMATICAL ECONOMICS II
3 credits
Prerequisite 420 or permission of instructor. Use of calculus and linear algebra to dynamic economic analysis; solution techniques; some significant dynamic models from literature.

426 ECONOMETRIC METHODS AND APPLICATIONS
3 credits
Prerequisites: 6500:321,322 or the equivalent or permission of the instructor. The study and use of regression and analysis of variance in analyzing economic data. Students will learn to specify and test economic hypotheses and make economic projections. Use of the computer will be extensive.

427/527 ECONOMIC FORECASTING
3 credits
Prerequisite: 6500:322 or permission of instructor. Study of methods ior building, identifying. fitting and checking oynamic economic models and the use of these models for forecasting. Emphasis is on the application of available computer software sysiems.
430/530 HUMAN RESOURCE POLICY
3 credits
Prerequisite: 330 . Comprehensive overview of dmensions of human resource policy; issues in human resource development, allocation, maintenance and utilization.

431 LABOR AND THE GOVERNMENT
3 credits
Prerequisite: 330. Development of public policy for control of industrial relations, from judicial control oi 19 th Century to statutory and administrative controls of World War II and postwar periods.

432 THE ECONOMICS AND PRACTICE OF COLLECTIVE BARGAINING
3 credits
Prerequisite: 202. Principles and organization of collective bargaining, collective bargaining agreements, issues presented in labor disputes and settlements. union status and security. wage scales, technological change, production standards, etc.

435/535 THE DEVELOPMENT OF AMERICAN CORPORATE STRUCTURE 3 credits Traces evolution of American corporate structure from late 19th Century to present. Explains and analyzes changing dimensions of corporate structure and response of government. Case studies analyzed.
$440 / 540$ SPECIAL TOPICS: ECONOMICS
3 credils
Prerequisite: permission. Opportunity to study speciai topics and current issues in economics.
450/550 COMPARATIVE ECONOMIC SYSTEMS 3 credits
Prerequisites: 201,202 or permission of instructor. Systems of economic organization, ranging from the theoretical extreme of a perfectly free market economy to tne socialist varieties. historical evolution of economic systems covering problems in theory and practice.

## 460/560 ECONOMIC DEVELOPMENT AND PLANNING FOR

 UNDERDEVELOPED COUNTRIES3 credits
Prerequisites 201,202. Basic probtems in economic development. Theories of development. Govermment planning for development. Trade and development of underdeveloped countries No credit for graduate majors in economics.

461 PRINCIPLES OF INTERNATIONAL ECONOMICS
3 credits
Prerequisites: 201, 202. International trade and foreign exchange, policies of free and con. frolled trade international monetary problems.

475/575 DEVELOPMENT OF ECONOMIC THOUGHT 3 credits
Prerequisites. 201, 202. Evolution of theory and method, relation of ideas of economists e ontemporary to conditions.

481/581 MONETARY AND BANKING POLICY
3 credtits
Fernuisites 380, 400. Control over currency and credit, policies of controlby central banks and govermments. United States Trasury and Federal Reserve Systern.

487 URBAN ECONOMICS: THEORY AND POLICY
3 credits
Prerequisite: 410. Thenreticat and empirical analyses of allocation, growth and structure in urban economy. Urban problems. Special attention given to resource allocation in urban pubic sector.

490 INDEPENDENT STUDY IN ECONOMICS
13 credils
(May bo repeated for a total of six credits)
Pierequisite permission of instructor. Independent study in economics under supervision and evalisation of selected faculty member.

## 491/591 WORKSHOP IN ECONOMICS

$1-3$ creaits
(May be repeated)
Group sludies of special topics in economics. May not be used to meet undergraduate or graduate major requirements in economics. May be used for elective credit only.

497 HONORS PROJECT
1-3 credits
(May be repeated for a tota! of six credits)
Prerequisite: senior standingmHonors Frogram. Individuat senior honors thesis on a creative project relevant to economics, approved and supervised by faculty member of the department.

## Graduate Courses

600 FOUNDATIONS OF ECONOMIC ANALYSIS
3 credits
Prerequisite: graduate standing. Determination of national income, employment and price level; aggregate consumption, investment and asset holding; decision problems faced by household and firm. Partial equilibrium analysis of competition and monopoly and general equilibrium analysis. May not be substituted for 602. 603.611. or applied toward the 30 graduate credits required for M.A. in economics.

## 602 MACROECONOMIC ANALYSIS I

3 credits
Construction of static macroeconomic models. Analysis predominantly in terms of comparafive statics with only relatively brief mention of dynamic models.

603 MACROECONOMIC ANALYSIS II
3 credis
Prerequisite: 602. Macrodynamic economics and stability analysis of closed and open Keynesian systems Inclusive coverage of post-Keynesian theories of economic growth.

## 606 PUBLIC FINANCE

3 credits
Examination of public sector economies emphasizes public revenues, public expenditures. Develops objectives of taxation, welfare aspects of the public sector, theory of public goods Considers specific taxes, cost-benefit analysis, expenditures analysis, tiscal federalism.

## 610 FRAMEWORK OF ECONOMICS ANALYSIS

3 credits
Prerequisite: graduate standing. Development of theoretical and analytical framework for decision making. Discussion of applications of the framework to situations concerning demand, cost, supply, production, price, employment and wage.

611 MICROECONOMIC THEORY I
3 credits
Modern theory of consumer behavior and of the tirm. Determination of market prices. Optimization models, establishment of criteria for productive, allocative and distributive efficiency.

612 MICROECONOMIC THEORY II
3 credits
Prerequisite: 611. Continuation of 611. Covers multimarket equilibrium, general equilibrium and welfate economic theory, and applications in public choice and applied welfare theory.

615 INDUSTRIAL ORGANIZATION
3 credits
Prerequisite: 611 or permission. Examines ink between market structure, firm conduct and economic performance. Measurement and effects of monopoly power. industrial concentra. tion and changes.

## 616 ANTITRUST ECONOMICS

3 crecits
Prerequisite: 615 or permission of instructor. Economic rationale behind legislative and judiciai decisions affecting mergers, vertical, horizontal restraints, monopolization, collusion price discrimination

617 THE ECONOMICS OF REGULATION
3 creaits
Prerequisite: 615 or permission of instructor. Examines rationale, methods and success of government requiation of public; utility, iransportation and communications industries.
620 APPLICATIONS OF MATHEMATICAL MODELS TO ECONOMICS
3 credts
Perequisites courses in calculus, intermediate microeconomics or permission of the instructor. Review of selected topics of differential and integral calculus and their application to economic analysis. Theory of optimization in production and consumption; static macroeco monir; models. Analysis of growth and stability.

621 APPLICATION OF LINEAR MODELS IN ECONOMIC ANALYSIS
3 credits
Prerequisites: courses in intermediate microeconomics. Review of sslected topics of linear algebra. application to economic theory. Static open and closed input-output tables, dynamic models, consumption technology and theory of demands, linear programming. general equili brium analysis.

626 STATISTICS FOR ECONOMETRICS
3 credits
Prerequisites: courses in efementary differential and integral calculus. 6500:321, 322 or equivalent. A review of statistical theory and its application to research in economics. Emphasis is on estimation and hypothesis testing as a prelude to econometrics.

## 627 ECONOMETRICS

3 credits
Prerequisite: 626 or equivalent Formulation of functional relations among economic variables suitable for statistical estimation from observational data and construction of multiequation econometric models and methods of estimation.

628 SEMINAR IN RESEARCH METHODS
3 credits
Prerequisite: permission of instructor. A seminar in the research use of applied mathematical
economics or econometrics Emphasis is on individual development of a theoretical proposition or research statement. its empirical examination and policy implications.

633 THEORY OF WAGES AND EMPLOYMENT
3 credits
Analytical approach to integration of economic theory with observed labor market phenomena. Discussion of wage and employment theories, effects of unions, collective bargaining theories and effects of government regulation.

## 634 COLLECTIVE BARGAINING

3 credits
Economic issues and implications involved in hours of work, employment and unemployment, and the impact of trade untons upon basic institutions of a free private enterprise economy.

635 LABOR LAW
3 credits
Evaluation of labor relations iaws Public policy affecting public, private worker organizations; collective bargaining: strikes: picketing

## 636 COLLECTIVE BARGAINING II

3 credits
Prerequisite: 635 or permission of instructor. Examination of process of negotiation Course core is an actual contract negotiation. Student decides on issues, positions and tactics, then negotiates contracl.

637 LABOR LAW II
3 credits
Intensive study of selected aspects of current labor legislation affecting employer-employee relationship. Special focus on arbitration law, public sector bargaining law and employment discrimination.

639 PUBLIC EMPLOYEE COLLECTIVE BARGAINING
3 credits
Prerequisite: 635 or permission of instructor. Examination of unique probiem of public employees under collective bargaining agreements. Focus on legal framework, tripartite nature of negotiations and speciai situations facing public employees

664 SEMINAR ON ECONOMIC GROWTH AND DEVELOPMENT
3 credits
Review of main theories of economic growth since age of classical economics. Problems in development of emerging countries. Discussion of aggregative macromodels of capitat formation. invesiment, technology and external trade

665 SEMINAR ON ECONOMIC PLANNING
3 credits
Types. methods and applications of planning. Planning for growth. Application of inpul-output, linear programmirig. computer simulations and other statistical and mathematical methods of planometrics

666 SEMINAR ON REGIONAL ECONOMIC ANALYSIS
3 credits AND DEVELOPMENT
Study of a particular national or international regional development. Any one or a combination of following regions may be considered. Middle East, North Africa, areas within Latin America, Southern Europe, Southeast Asia or Eastern Europe

670 INTERNATIONAL MONETARY ECONOMICS
3 credits
International financial relations Foreign exchange market and exchange rate adjustments. Balance of payments adjustment policies. International monetary system.

671 INTERNATIONAL TRADE
3 credits
Traditional trade theory. Recent developments in trade theory, policy implications ir trade relations among developed and developing economics.
683 MONETARY ECONOMICS 3 credits
Intensive study of important areas of monetary theory. Emphasis on integration of money and value theory among other areas, plus some pressing policy issues.

697,8 READING IN ADVANCED ECONOMICS
1-4 credits each
(A maximum of six credits may be applied toward the master's degree in economics.)
inlensive investigation of selected problem area in advanced economics under supervision of instructor Since the subject mater is decided upon in each case, the course may be taken repeatedly for credit.

699 RESEARCH AND THESIS
3 credils
(May be repeated tor a total of six credits)

## ENGLISH

## 3300:

270 INTRODUCTION TO LINGUISTICS
3 credits
Broad range of topics on language and introduction to its scientific study. Topics include language origins and history dialects, sound systems, syntax, semantics, animal language,
writing systems and language universals.
(May be repeated for different topics, with permission)
Principles and practice of style, structure and purpose in writing, with special applications to writing demands of a specific career area.
277 INTRODUCTION TO POETRY WRITING
3 credits
Practice in writing poems. Study of techniques in poetry, using contemporary poems as models. Class discussion of student work. Individual conterences with instructor to direct student's reading and writing.

278 INTRODUCTION TO FICTION WRITING
3 cedts
Practice in writing short stories. Study of various techniques in fiction. using contemporary stories as models. Class discussion of student work. Individual conferences with instructor to direct student's reading and writing.

279 INTRODUCTION TO SCRIPT WRITING
3 credits
Practice in writing scripts. Study of various techniques in script writing, using contemporary models for study. Class discussion of student work. Individual conterences with instructor to direct student's reading and writing

280 POETRY APPRECIATION 3 credits
Close reading of a wide selection of British and American poems with emphasis on dramatic situation, description, tone, analogical language, theme and meaning.
281 FICTION APPRECIATION
3 credits
Close reading of modern masters of short story and novel.
282 DRAMA APPRECIATION
3 credits
(May be repeated for credit as a text or a film appreciation course)
Ctose reading and analysis of a variety of plays.
283 FILM APPRECIATION
3 creaits
Introduction to dramatic choices made by filmmakers in scripting, directing, editing and pholographing narrative tilms; and qualities of reliable film reviews.

301 ENGLISH LITERATUREI
4 credits
Studies in English fiterature from Old English to 1800 , with emphasis upon specific representative works and upon the cultural and intellectual background which produced them. Literature to be read will include both major and minor poetry, prose and drama

302 ENGLISH LITERATURE $\|$
4 credits
Studies in English literalure from 1800 to present. Emphasis will be given to cultural and intellectual backgrounds and to the development of various modes and genres.
315 SHAKESPEARE: THE EARLY PLAYS
3 credits
Introduction to early drama of Shakespeare with close reading of tragedies, histories and comedies. Includes explanatory lectures of both the plays and their backgrounds.

316 SHAKESPEARE: THE MATURE PLAYS 3 credits
Study of Shakespeare's plays after 1598 , beginning with mature comedies. Concentration on major tragedies and romances.

341 AMERICAN LITERATURE I
3 credits
Historical survey of major and minor American writers to 1865.

These two bodies o: literature read with emphasis on form of gospel and epistle. and concept of apocalypse. Both are viewed against their historical and social backgrounds.

366 EUROPEAN BACKGROUNDS OF ENGLISH LITERATURE
3 credits
Representative continental texts from Homer to Cervantes. selected both for their excellence and for their important influence on English and American IIterature.

## 370 INTERMEDIATE LINGUISTICS

3 credits
Prerequisite: 270 or permission. In-depth scientific look at ianguage structure, especially the relation of sentences and their meanings. The variety of the English language's methods for constructing complex sentences from simple ideas is investigated.
376 LEGAL WRITING
3 credits
Intensive practice in writing for prelaw students through assignments based on actual legai situations and real cases. Particular attention to stating legai issues. writing persuasively applying rules of law, and other topics that will help those preparing for law school and the applying rul
profession.

377 ADVANCED POETRY WRITING
3 credits
Prerequisite. 277 or permission. Advanced practice in writing poems, emphasis on shaping publishable works. Survey of market. Ciess discussion of student poems, individuai confer ence with instructor.

## 378 ADVANCED FICTION WRITING

3 credits
Prerequisite: 278 or permission. Advanced practice in writing short stories. emphasis on shaping publishable works. Survey of market. Class discussion of student stories, individual conference with instructor.

380 FILM CRITICISM
3 credits
Application of literary critical theory to the study of film
386 WOMEN IN MODERN NOVELS
3 credits
Students will read various modern novels to increase their awareness of how these texts reflect, reinforce, bul more often chalienge traditional attitudes towards women, their places and circumstances.

389 SPECIAL TOPICS: LITERATURE AND LANGUAGE
3 credits
(May be repeated for credit as different topics are offered)
Prerequisite: 1100:112. Traditional and nontraditional topics in. English literature and language, supplementing course listed in this General Bulletm, generally constructed around theme, genre and language study.

390 PROFESSIONAL WRITING I
3 credits
Designed to help prepare student for a career as professional business writer Stresses theory and practice of written and oral communication in business organization. Individual and group pefformance, relating to communication theories, concepts of semantics. Functional writing as well as special needs of business are illustrated by actual cases. Adapting style and organization is practiced.

391 PROFESSIONAL WRITING II
3 credits
Designed to help prepare student for a career as a professional technical writer. Covers principles and practices concerning editing company technical communications, such as specifications, annual reporis, promotional brochures for technical products, services, scientific abstracts. proposals. Also treats problems of adapling materials to formats, graphic display of technical information, adaptation of technical material to nontechnical reader.

## 399 THE GOTHIC IMAGINATION

3 credts
A loosely chronological study of major British, American, and European authors in the Gothic tradition from the 18 th Century to the present. Attention will be paid to the literary conventions of Gothic fiction, to the "popular" nature of the literature and to its major themes/motifs.

400/500 ANGLO SAXON
3 credits
Studies in Old English language and Otd English prose and poetry, including Beowult.
403/503 DEVELOPMENT OF THE ARTHURIAN LEGEND 3 credits
Traces evolution of Arthurian materiats from 540 to 1500 and beyond, with emphasis on characters, themes, events and treatments.

406/506 CHAUCER 3 credits
Close study of Chaucer's major works - The Canterbury Tales and Troilus and Criseyde in Middle English.

407/507 MIDDLE ENGLISH LITERATURE
3 credits
Study of genres, topics, styles and writers of the Middle English literary works from 12 th to 15 th Centuries. Readings in Middle English.
$412 / 512$ SPENSER
3 credits
Close reading of major narrative and lyric poems and selections from the minor works, all studied in the context of Elizabethan aesthetic theory, learning and politics.

## 416/516 METAPHYSICAL POETS

3 credits
Selected 17th-Century British poets exclusive of John Donne. The course examines the particular styles and themes of the secutar and sacred poets who wrote in the metaphysical mode. Particular emphasis is placed on Herbert, Crashaw, Vaughan, Traherne, Marvell, Cowley, Cleveland. Southwell and King.

## 418/518 MILTON

3 credits
Emphasis on Milton's major poems and prose works: Paradise Lost, Paradise Regained, Areopagitica, the divorce tracts and poems of the 1645 edition. Student becomes acquainted with Milton the man and Milton the artist.

421/521 SWIFT AND POPE
3 credits
An intensive study of the major satires of Swift and Pope. Concentration on the thetorical strategies of each author within the context of the shifting intellectual and cultural milieu at the end of the 17 th and beginning of the 18 th Centuries

424/524 EARLY ENGLISH FICTION
3 credis
Development of English novel before 1830. Focus on works of Defoe, Richardson, Fieiding Smoliett, Sterne, Austen and Scott.

425/525 STUDIES IN ROMANTICISM
3 credits
Literary, philosophical, psychologicaland socialrevolutions of romantic period as reflected in works of such major writers as Wordsworth, Byron and Keats.

430/530 VICTORIAN POETRY AND PROSE
3 credits
Poetry, prose of the late 19 th Century, excluding fiction, with attention to Tennyson, Browning Arnold. Carlyle, Ruskin and other major writers.
431/531 VICTORIAN FICTION
3 credits
Reading of at least five major novels of Victorian era, of varying length, by Emily Bronte Dickens, Eliot. Thackeray and Hardy. Characterization, theme and attitude toward life emphasized

434/534 CHARLES DICKENS
3 credits
Growth of Dickens as a novelist, with attention to the social and political backgrounds of the novels and changes in their structure and treatment of character

435/535 20TH CENTURY BRITISH POETRY
3 credits
Concentrated study of major poems of Yeats, Eliot and Auden, with attention also to Hardy, Housman, Spender, C. Day Lewis, Dylan Thomas and others.
436/536 BRITISH FICTION: 1900-1925
3 credis
Study of Conrad Joyce, D. H. Lawrence and Virginia Woolt, with attention to their innovations in narrative and style. their psychological realism and symbolism. Brief consideration of other important fiction writers of the period, including Wells. Bennett and Mansfield

437/537 BRITISH FICTION SINCE 1925
3 credits
Study of important British novelists since 1925, excluding Lawrence, Joyce and Woolf. Attention to deveiopment of British short stcry from 1925 to present

439/539 MODERN BRITISH AND IRISH DRAMA
3 credits
Study of major British dramatists, principally those of post-World War II. Focal figures are Shaw, Galsworthy. O'Casey Osborne, Arden and Pinter.

443/543 MELVILLE
3 credits
A study of Herman Melville's life and works. Primary emphasis will $\mathrm{n} \in$ on Melville's major fiction (e g., Moby Dick, The Confidence Man, Billy Budd), but some attention will also be given to his poetry and travel sketches.

446/546 AMERICAN AUTOBIOGRAPHY
3 credils An inquiry into the nature of autobiographical writing, with particular attention to the ontology of the "autobiographical self." Includes such authors as Henry Adams, Sherwood Anderson, Mark Twain, Gertrude Stein, Langston Hughes, Wiliam Carlos Williams, Loren Eiseley and Maya Angeiou

448/548 AMERICAN ROMANTIC FICTION
3 credits Examination of early American fiction, tracing its genesis, romantic period and germinat movements toward realism. Writers discussed include Cooper, Poe. Hawthorne and Melville.

449/549 AMERICAN FICTION: REALISM AND NATURALISM
3 credits
Examination of American writers of realistic and naturalistic fiction (e.g. Howells, James, Crane, Dreiser), tracing developments in American fiction against background of cuitural and historical change

450/550 MODERN AMERICAN FICTION
3 credits
Study of significant American short and long fiction from Worid War I to the present.
451/551 AMERICAN POETRY TO 1900
3 credits
Survey of American poetry of the $17 \mathrm{th}, 18$ th and 19 th Centuries.
452/552 MODERN AMERICAN POETRY
3 credits
Survey of 20th Century American poetry beginning with Edwin Arlington Robinson and ending with coritemporary poets.

453/553 AMERICAN WOMEN POETS
3 credifs
Study of modern poets uses and revisions of tradition, treatment of relationships between women and men and between women, conceptions of art and of the artist-as-woman, and confrontation of the debate between "public" and "private" poetry. Poets to be discussed include Dickinson, Plaih, Brooks, Levertov and Rich.

454/554 20TH CENTURY AMERICAN DRAMA
3 creaits
Examination of major, established playwrights (including O Neill. Miller and Williams) and sampling of new and rising ones.

455/555 THE AMERICAN SHORT STORY
3 credits
A study of the development of the short story as a particularly American genre, from Washington living to the present.

458/558 FAULKNER
3 credits
An in-depth study of William Faulkner's major novels and short stories, primarily those set in the imaginary Yoknapatawpha region.

467/567 MODERN EUROPEAN FICTION
3 credits Representative European writers from about 1850 to present, in translation. Focus on fiction of such writers as Zola, Tolstoy, Dostoyevsky, Mann, Proust, Kafka and Solzhenitsyn.

469/569 EROS AND LOVE IN EARLY WESTERN LITERATURE
3 credits An analysis of the use of sex and love in the literature of the Western World from GrecoRoman times to 1800 , with special emphas is on how sexuality and "romantic" love are used as allegorical, satiric, fantastic or realistic devices.

470/570 HISTORY OF ENGLISH LANGUAGE
3 credits Development of Englishianguage, from its beginnings: sources of its vocabulary its sounds, its rules; semantic change; political and social influences on changes; dialect origins; correctness.

471/571 U.S. DIALECTS: BLACK AND WHITE
3 creaits
Study of differences in pronuriciation, vocabulary and grammar among U S language varieties. Origins, regional and social dimensions are explored. Correctness, focusing on black English and Appalachian speech explored.

473/573 SEMINAR IN TEACHING ESL: THEORY AND METHOD
3 credits Theoretical issues in linguistic description and language acquisition as relevant to learning of a second language. Elaboration of principles for the teaching of English as a second language based on research in linguistics, psycholinguistics and second language pedagogy.

475/575 THEORY OF RHETORIC
2 credits
Ancient ano moderntheories of rhetoric, with attention to classical oration. "topics" of rhetoric and their application to teaching of English.
476/576 THEORY AND TEACHING OF BASIC COMPOSITION
3 credits
Review of current research and exploration of specitic instructional methods for teaching basic composition.

482 SENIOR HONORS PROJECT IN ENGLISH
$1-3$ credits (May be repeated for a total of six credits)
Prerequisites: senior standing in Honors Program and approval ot honors preceptor, open only to English majors enrolled in Honors Program. Independent study leading to completion of senior honors thesis or other original work.

483/583 FANTASY AND SCIENCE FICTION
3 creatits Selected British and American fantasy and science fiction from the 1880 s to the present.

## 489/589 SEMINAR IN ENGLISH

2.3 credils
(May be repeated with different topics.)
Special studies, and methods of literary research, in selected areas of English and American iterature and language.

## 490/590 WORKSHOP IN ENGLISH

1-3 creaits
(May be repeated with different topics)
Group studies of special topics in English. Cannot be used to meet undergraduate or graduate major requirements in English; for elective credit only.

498 INDEPENDENT STUDY
1-3 credits
Prerequisite: permission of instructor. Directed study in a special field of interest chosen by stisdent in consultation with instructor.

## Graduate Courses

600 TEACHING COLLEGE COMPOSITION PRACTICUM
2 credits
Prerequisite: teaching assistantship. Orientation and weekly analysis of teaching rationale and practice, ilmited to teaching assistants in the Department of English.

615 SHAKESPEAREAN DRAMA
3 credits
Concentrated study of several Shakespearean plays with emphasis on historical, critical and dramatic documents pertinent to development of Shakespeare's art.

616 SHAKESPEARE'S CONTEMPORARIES IN ENGLISH DRAMA 3 credits Readings in such playwrights as Lyly, Greene, Marlowe, Jonson, Beaumont. Fletcher, Webster, Middeton and Ford and in contemporary writings relevant to theory and practice of orama.

627 KEATS AND HIS CONTEMPORARIES 3 credits Writings of John Keats, studied against background of romantic poetic theory and poetry of Keats' contemporaries.

639 THEORY AND PRACTICE OF MODERN POETRY
3 credits
Study of modern prosody, critical theories of modern poetry and relation between writer's theory and practice, with particular attention to Frost, Stevens. Yeats and Eliot.

642 SEMINAR IN DICKINSON
3 credits
An in-depth study of Dickinson's poetry, with special attention to her varied poetic identities and their relationships to her lite, and an examination of some of the major critical approaches to her poetry.

643 SEMINAR IN JAMES
3 credits
A sludy of Henry James' ife and works Primary emphasis will be on James' fiction, both long and short, early and late: but some attention will also be given to his literary criticism, travel pieces and plays.

665 LITERARY CRITICISM
3 credits
Inquiry into nature and value of literature and problems of practical criticism as represented in major statements of ancient and modern critics.

670 MODERN LINGUISTICS
3 credits
introductory examination of methods and results of modern grammatical research in syntax, semantics. phonology and diaiects. Goals include understanding of language variation and background preparation for linguistic studies of literature

673 THEORIES OF COMPOSITION
3 credits
Study of composition theories and research, with attention to their implications for writing and witing instruction. Particular focus on such topics as composing processes, invention, form, slyle, modes of writing, language varieties and evaluation of writing. Class sessions inciude discussion of readings and presentations.

674 RESEARCH METHODOLOGIES IN COMPOSITION
3 credits
Research methoociogies in composition and their application. Students will define research areas summarize and evaluate work already done, and propose and complete semester research projects.

675 WRITING FOR MBAS
3 credits
Emphasizes rianagerial writing. Writing tasks are presented as decision-making tools. and students develop strategies for messages to subordinates, analytical reports and messages to outside audiences.

679 SCHOLARLY WRITING
3 credits
Study of composing, analyzing and evaiuating academic arguments. Pactice in specific forms of academic writing such as reviews of research, articles and book reviews.

683 SEMINAR IN SATIRE
3 credits
A study of satire from the rriddle ages through the late 20th Century, with particular attention to techniques of satiric attack, modes of comedy and irony and literary criticism.

689 SEMINAR IN ENGLISH
$2-3$ credits
(May be repeated with change of topics)
Special topics within the general field of literature and language. usuaily focusing on major figures or themes.

691 BIBLIOGRAPHY AND LITERARY RESEARCH
Choosifig research topics, typical problems in literary scholarship, abstracting of scholarly material and bibliographic sources for literary research. Bibliographic exercises done, models of literary scholarship read.

698 INDIVIDUAL READING IN ENGLISH
1-3 credils
Individual study under guidance of professor who directs and coordinates student's reading and research.
699 THESIS
1.6 credits
Original work in the tietd of literature and language and completion of graduate student s required thesis.

## GEOGRAPHY

## 3350:

100 INTRODUCTION TO GEOGRAPHY 3 credits
Analysis of world patterns of population characteristics, economic activities, settlement features, landforms, climate as interrelated.

310 PHYSICAL AND ENVIRONMENTAL GEOGRAPHY
3 credis
Landiorms, weather and climate, soils and vegetation and natural nazards. Nature and distribution of these environmental elements and their signiticance to man. Laboratory.

314 CLIMATOLOGY
3 credits
Prerequisite: 310 or perrission. Analysis and classification of climates, with emphasis on regional distribution. Basic techniques in handling climatic data.

320 ECONOMIC GEOGRAPHY 3 credits
Geographical basis for production, exchange, consumption of goods. Effect of economic patterns en man's culture and politics.
326 ENERGY AND ECOLOGY
3 credits
Prerequisite: 320 or permission. Traditional fossil fuels and recently deveioped alternative sources of energy studied along with electricity production. Production and consumption patterns, effects of conservation and environmental damage and energy policy considered.

330 RURAL AND URBAN SETTLEMENT 3 credits Origin, function and rationale of settiements. Inciudes analysis of rural settlement iandscape as well as fundamentals of urban geography.

335 RECREATION RESOURCE PLANNING 3 credits Prerequisite: 330 or permission. Effect of physical and economic environment on recreational patterns. Case studies of important recreational activities and areas in which tourism contributes significantly to the area economy.
340 CARTOGRAPHY
3 credits
Use of graphic/cartographic principles and techniques as a means of presenting information.
341 MAPS AND MAP READING
3 credits
Interpretation and use of various map materials. Study of basic map eiements, symbolism and methods of creating maps. Historical aspects associated with these developments atso considered. Laboratory.

350 ANGLO AMERICA
3 credits
Prerequisite: 100 or permission. Regional and topical study of United States and Canada, with emphasis on environmentai, economic and cultural patterns and their interrelationships.
351 OHIO: ENVIRONMENT AND SOCIETY
3 credits
Regional and topical analysis of cultural, economic and environmental patterns: also in comparison with other states.

353 LATIN AMERICA
3 credits
Prerequisite: 100 or permission. Analysis of relationship of cultural and economic patterns to physical environment in Mexico. Central America, the Caribbean and South America.
356 EUROPE
3 credits
Prerequisite: 100 or permission. Regional and topical analysis of cultural, economic and environmental patterns, excluding U.S.S.R

358 U.S.S.R. 3 credits
Prerequisite: 100 or permission. Regional and topical anaiysis of cultural, economic and environmenta! patterns, with comparison to other major world regions.

360 ASIA 3 credits
Prerequisite: 100 or permission. Environmental, cultural and economic geography of East. Southeast, South Asia and Middle East with emphasis on the contemporary.
363 AFRICA SOUTH OF THE SAHARA 3 credits
Prerequisite: 100 or permission. Environmental and human bases of regional contrasts. Emphasis on tropical environmentai systerns and changing patterns of resource utilization.

385 PLANNING SEMINAR
1 credit
Prerequiste: permission of instructor Development of planning studies including completion of paper covering a planning topic in depth. Projects are presented by student and critically analyzed

397 SPECIAL PROBLEMS
$1-3$ credits
(May be repeated for a total of tive credits)
Prerequisite: permission of instructor. Directed reading and research in special field of interest.

## 405/505 GEOGRAPHIC INFORMATION SYSTEMS <br> 3 credits

Prerequisites: six credits of advanced geography courses at the 300 level or above, but not including regionai courses; or permission. Requirements and techriques tor using all types of Geographic Intormation Systems (GIS). For students wishing to become applied geographers, physical and social scientists, resource managers, planners, environmental analysts.

## 422/522 TRANSPORTATION SYSTEMS PLANNING

3 credits
Prerequisite: 320 or permission. Study and analysis of transportation systems from a geographic perspective. Emphasis on transportation problems and issues elements of tran sportation planning.

428/528 INDUSTRIAL AND COMMERCIAL SITE LOCATION
3 credits
Prerequisite: 320 or permission. Relationship betweenland, resources, population, transportation and industrial and commercial location process.

433/533 URBAN, REGIONAL AND RESOURCE PLANNING 3 credits Prerequisite: 330 or permission. Fole of geographic investigation in city, regional and resource planning.

436/536 URBAN LAND USE ANALYSIS 3 credits Prerequisite: 330 or permission. Land use classificalion systems and their spatial variation in urban areas. Land use data are collected by student by field work and analyzed to ideritify the associations and structure of subregions.

438/538 WORLD METROPOLITAN AREAS
3 credits
Prerequisite: 330 or permission. Comparative analysis of metropolitan regions. Unbanism, land use housing, transportation, population and role of cities in economic development in different cultures.

442/542 THEMATIC CARTOGRAPHY
3 credits
Prerequisite: 341 or permission. Principles and techniques used in thematic mapping. Stresses use of maps to indicate certain characteristics of classes of information both qualitative and quantitative

444/544 MAP COMPILATION AND REPRODUCTION
3 credits Prerequisite. 341 or permission. Froduction of new/improved maps from existing maps, aerial photographs, surveys. new data and other sources. Incudes special cartographic considerations for photography, lithography and printing.

447/547 INTRODUCTION TO REMOTE SENSING
3 creons
Prerequisite: 341 or permission. Study of aerial photography and non-photographic imagery developed by radar, thermal, mútispectral and satellite scanners. Emphasis on use in geographical, geological, biological and engineering research.

## 448/548 AUTOMATED COMPUTER MAPPING

3 credits
Prerequisite: 341 or permission. Study of computer-assisted map compilation and execution. Emphasis on integration of computer and cartographic skills and techniques. Problems adapled to specialized interests of student.

## 449/549 ADVANCED REMOTE SENSING

3 credits
Prerequisite: $447 / 547$ or permission. Current research in remcle sensing. Applications in study of man's cultural and biophysical environment. Practice in planning, design, execution and interpretation of remote sensing studies

450/550 DEVELOPMENT PLANNING IN THE THIRD WORLD 3 credits A study of planning concepts and techniques for deveioping countries, including growth and development, planning agencies, regional inequities and alternative approaches.

471/571 MEDICAL GEOGRAPHY AND HEALTH PLANNING 3 credits Spatial analysis of diseases; their socioeconomic correlates; diffusion pattern of intectous diseases with particular reference to North America: health-planning processes and spatial analysis of health-care delivery systems.
481/581 GEOGRAPHIC RESEARCH METHODS 3 credits
Prerequisites: 12 credits in geography. Techniques in geographic research. Library resources, techniques of professional writing.
483/583 SPATIAL ANALYSIS
3 credits
Prerequisite: 481/581 or permission. Analysis of mapped statisticał surfaces Principles ior use of map as model for statistical evidence, prediction, nypothesis testing.

## 489/589 SPECIAL TOPICS IN GEOGRAPHY

$1-2$ credits
(May be repeated)
Selected topics of interest in geography.
490/590 WORKSHOP IN GEOGRAPHY
$1-3$ credits
(May be repeated for a total of six credits)
Group studies of special topics in geography.
495/595 SOIL AND WATER FIELD STUDIES
3 credits
Prerequisite: 310 or permission. Properties, origins and uses of major soil and water regime landscapes. Stresses relationships between soil and the hydrological cycle, urbanization, suburbanization and agriculture. Field trips required.

496/596 FIELD RESEARCH METHODS 3 creoits
Prerequisite: $48: / 58:$ or permission. Field work enabling student to become competent in collecting, organizing and analysis of data while carrying out field research projects.
498 HONORS RESEARCH IN GEOGRAPHY
1-3 credits
(May be repeated for a total of six credits)
Prerequisite: permission of department honors preceptor, henors student oniv. Exploration of research topics and issues in contemporary geograpry. Selection of research topic and writing of research paper in proper scholarly form under direction of taculty member.

## Graduate Courses

## 600,1,2 SEMINAR

3 credits each
(May be repeated for a maximum of six credits each)
Prerequisite: permission. Investigation and analysis of selected topics in particular fietds of geography. Specialization indicated by second portion of tille.

## 680 ADVANCED SPATIAL ANALYSIS

3 credits
Prerequisite: $483 / 583$ or permission. Advanced concepts and methodologies in geographic research. Emphasis on quantitative revolution in geographical analysis inciuding multivariate procedures as factor, discriminant and economical analysis, and muttidimensional scaling.

## 685 PLANNING: FIELD EXPERIENCE

2 credits
Prerequisite: permission. Individual experience in selected planning agencies for supervised performance in professional planning work.

687 HISTORY OF GEOGRAPHIC THOUGHT 3 credits
Prerequisite: 481/581 or permission. Critical review of major developments in geographic concepts from ancient times to present.

698 INDIVIDUAL READING AND RESEARCH
1-3 credits
(May be repeated for a total of five credits)
Prerequisite: permission of instructor. Intensive investigation of selected lopics under guidance of faculty member.

## 699 THESIS RESEARCH

2 credits
(May be repeated twice)
Prerequisite: permission of department head. Supervised original research.

## GEOLOGY

## 3370:

## 100 EARTH SCIENCE

3 credits
Introduction to earth science for non-science majors. Survey of earth in relation to its physical composition, structure, history, atmosphere, oceans; and relation to solar system and universe.
101 INTRODUCTORY PHYSICAL GEOLOGY
4 credits
Comprehensive survey of minerals, rocks, structures and geologic processes of solid earth. Laboratory.

102 INTRODUCTORY HISTORICAL GEOLOGY
4 credits
Prerequisite: 101. Geologic history of earth, succession of major groups of plants and animais interpreted from rocks, fossils. Laboratory.

200 ENVIRONMENTAL GEOLOGY
3 credits
Anatysis of geologic aspects of man's environment with emphasis on geologic hazards and environmental impact of society's demand for water, minerals and energy.
201 EXERCISES IN ENVIRONMENTAL GEOLOGY
1 credit
Prerequisite or corequisite: 200 Recognition. evaluation of environmental problems related to geology through field, laboratory exercises and demonstrations which apply concepts grom 200 .

202 GEOLOGY OF THE NATIONAL PARKS
3 credits
Prerequisite: $1100: 223$. or 100 or 101 . Geologic setting of major national parks, interpreted in terms of geological principles and processes which shaped them in past and/or currently affect them, including the rock cycle, evolution of landscapes and plate tectonics.

210 GEOMORPHOLOGY
3 credits
Prerequisite: 101. Landtorms of the earth. Emphasis on origins. geologic processes and distributions. Laboratory

230 CAYSTALLOGRAPHY AND NON-SILICATE MINERALOGY
3 credits
Morphological crystallography and crystal chemistry of minerals, tollowed by physical and chemical properties, crystal structure, occurrence and uses of the common non-silicate minerals. Laboratory.

231 SILICATE MINERALOGY AND PETROLOGY
3 credits
Physical and chemical properties, crystal structure, occurrence, and uses of common silicate minerals, followed by megascopic identification, classification, and petrogenesis. Laboratory.

271 OCEANOGRAPHY
3 credits
Prerequisite: 101. Introduction to physical processes, geologic history and development of marine areas.
324 SEDIMENTATION AND STRATIGRAPHY
3 credits
Prerequisites: 102 and 231. Introduction to processes and environments of sedimentation and stratigraphic principles employed in examination of sedimentarystrata. Hand specimens and stratigraphic orinciples employed in examination of sed
and sequences of sedimentary strata studied. Laboratory.

350 STRUCTURAL GEOLOGY
4 credits
Prerequisite: 101 or permission. Origins and characteristics of folds, faults, joints and rock cleavage. Structural features of sedimentary, igneous and metamorphic rocks Laboratory.

360 INTRODUCTORY INVERTEBRATE PALEONTOLOGY 4 credits Prerequisite: 102 or permission. Introductory course emphasizing morphology and evolution of major invertebrate groups with consideration of practical applications of paleontology. Laboratory.

395 FIELD METHODS IN GEOLOGY
2 credits
Prerequisites: 101 and 102 or permission. Use of geologic field equipment including Brunton compasses, alidades and plane tables, stereoscopes and aerial photographs.

404/504 ASTROGEOLOGY
3 credits
Prerequisites: $3450: 222,3650: 292$ or permission. Relations of planet earth to the solar system and universe. Analysis and implications of data from lunar and space probes.

## 410/510 REGIONAL GEOLOGY OF NORTH AMERICA

3 credits
Prerequisites: 101,102,210 or permission; recommended: 350. Examination of physiographic provinces of North America emphasizing structure, tectonic setting, stratigrapny and processes responsible for landforms in each province. Laboratory.

411/511 GLACIAL GEOLOGY 3 credits Prerequisite: 210 or permission. Causes and effects of Pleistocene expansion of poiar ice masses with emphasis on glacial deposits and world climactic changes.

## 421/521 COASTAL GEOLOGY

3 credits
Prerequisites: 101,324 or permission of instructor. Study of the origins and evolution of coasts and coastal deposits with particular attention paid to the interaction of waves and currents with sediment, and the development of associated sedimentary features.

425/525 STRATIGRAPHY
3 credits
Prerequisites or corequisites: 360,324 or permission. Nomenclature; sedimentary tacies; fossils in subdivision of the rock record and correlation; geologic time, time-rock and rock units. Field studies.

432/532 OPTICAL AND X-RAY METHODS
3 credits
Prerequisites: 230 and 231. Techniques for the study of minerals and rocks using the petrographic microscope and $x$-ray diffraction equipment. Laboratory.

433/533 PETROGRAPHY
3 credits
Prerequisite: $432 / 532$. Origin and petrogenesis of igneous, metamorphic and sedimentary rocks as determined by microscopic studies of textures and mineral assembiages in thin section. Laboratory.

435/535 PETROLEUM GEOLOGY
3 credits
Prerequisite: 350 or permission; recomimended: 324. Natural occurrences of petroleum. Characieristics, origin, entrapment and exploration methods. Laboratory.

436/536 COAL GEOLOGY
3 credits
Prerequisites: 101, 102; recommended: 324. Origin, composition and occurrence of coal with emphasis on depositional environments, coalification processes, exploration, evaluation and exploitation, Laboratory.

437/537 ECONOMIC GEOLOGY
3 credits
Prerequisites: 231 and 350. Study of metallic and nonmetallic mineral deposits emphasizing paragenesis and exploration. Laboratory.

441/541 FUNDAMENTALS OF GEOPHYSICS
3 credits
Prerequisites: $3450: 223$ or permission and $3650: 292$. Fundamental concepts in solid earth geophysics, planetary physics, geodesy, and geomagnetism. Contributions of geophysics to recent major developments in geoscience.

446/548 EXPLORATION GEOPHYSICS
3 credits
Prerequisites: $3450: 223,3650: 292$ or permission. Basic principles and techniques of geophysical exploration withemphasis on gravimetric, magnetic, seismic and electrical methods and application to geological problems. Laboratory.

450/550 ADVANCED STRUCTURAL GEOLOGY
3 credits
Prerequisite: 350 or permission. Fundamental and advanced concepts of structural geology with emphasis on current and developing concepts. Laboratory.

463/563 MICROPALEONTOLOGY 3 credits
Prerequisite: 360 or permission. Introduction to techniques of micropaleontology evolution and paieoecology of selected microfossil groups. Laboratory.

## 470/570 GEOCHEMISTRY

3 credits
Prerequisites: minimum of 12 credits in chemistry and geology or permission. Chemical systems of the earth, both open and closed, with emphasis on mineral-water relationships. Laboratory.

474/574 GROUNDWATER HYDROLOGY
3 credits
Prerequisite: 101. Origin, occurrence, regimen and utilization of groundwater. Oualitative and quantitative presentation of geological and geochemical aspects of groundwater hydrology. Laboratory.

## 490/590 WORKSHOP

1-3 credits
(May be repeated)
Group studies of special topics in geotogy. May not be used to meet undergraduate or graduate major requirements in geology. May be used for elective credit only.

495 FIELD STUDIES IN GEOLOGICAL STRUCTURES AND PROCESSES
1 credit
(May be repeated for a total of four credits)
Prerequisite: permission. Field trip course emphasizing phases of geology not readily studied in Ohio. includes pretrip preparation and post-trip examination. Student will bear trip expenses.

496/596 GEOLOGY FIELD CAMP
6 credits
Prerequisites: 350 and permission; recommended: 231, 324, 395. Emphasis on collection, recording and interpretation of field data; detailed structural and stratigraphic field study.

## 497 SENIOR HONORS PROJECT IN GEOLOGY

$1-3$ credits
(May be repeated for a total of six credits)
Prerequisites: senior standing in Honors Program, permission of department honors preceptor and major in geology or natural science. Independent research leading to completion of senior honors thesis or other original work under guidance of student's honors project adviser.

## 498 SPECIAL TOPICS

$1-3$ credits
Prerequisite: permission of instructor. Special lecture courses offered once or only occasionally in areas where no formal course exists.

## 499 RESEARCH PROBLEMS

1-3 credits
(May be repeated for a total of tour credits)
Prerequisite: permission. Directed reading and research in an aspect of geology chosen by student in consultation with an instructor

## Graduate Courses

608 REMOTE SENSING IN GEOLOGY
3 credits
Prerequisite: $3350: 447 / 547$ or equivalent. Techniques for analysis and processing of remotely sensed data from conventional and satelite sensing systems. Applications to local, regional and global geologic and environmental geoiogy problems. Laboratory.

610 APPLIED QUANTITATIVE GEOMORPHOLOGY
3 credits
Prerequisite: 210 . Quantification of geomorphic processes and associated landforms. Application of statistical methods and evaluation of validity of these methods. Exarnination of these methods in practical problems. Laboratory.

623 SEDIMENTARY PETROLOGY 3 credits
Prerequisites: 324 and 432/532 or permission. Detailed hand specimen and thin section examination of selected sedimentary suites, particularly with respect to mineraiogy and texture. Laboratory.
631 ROCKS AND MINERALS
4 credits
Prerequisites: 101 and pernission. Intensive course integrating crystallography, mineralogy and petrology for the science teacher and graduate student from discipines other than geology, Laboratory.
632 IGNEOUS PETROLOGY
3 credits
Prerequisite: $433 / 533$. Origin and paragenesis of igneous rocks. Theory, petrochemistry and occurrences of major igneous rock types. Selected rock suites studied. Laboratory

633 METAMORPHIC PETROLOGY
3 credits
Prerequisite: $433 / 533$. Textures, chemistry of metamorphic reactions, phase diagrams and occurrences of metamorphic rocks. Selecled rock suites studied. Laboratory.

## 634 CLAY Mineralogy

3 credits
Prerequisite: $432 / 532$. Classification, identification, genesis of clay minerais, clay rocks: use, exploitation. Laboratory stresses methods of identfication of clay minerals, analysis, petrogenetic interpretation of clay materials in suites of samples from the rock record. Laboratory.

638 ORE MICROSCOPY
3 creaits
Prerequisiles: 432/532, 437/537. Identification, study of ore minerais, their textures using refiected-light microscope. Discussion of diagnostic physical, optical properties of opaque minerals. Laboratory.

639 NUCLEAR GEOLOGY
3 credits
(Two hour lecture, three hour laboratory)
Prerequisites: minimum of seven credits in chemistry, eight credits in physics, eight credits in calculus and eight credits in geology or permission. Discusses nature of radioactive and stable isotopes, their applications in geology, radioactive minerals, radioaclive background and disposal of radioactive wastes. Nuclear anaiytical techniques will also be discussed: lecture, laboratory and field study.

643 GEOSTATISTICS
Prerequisites: $101,3470: 461 / 561$ or an equivalent course in statistics. Application of statisti-
cal methods to geology and geophysics including tests of hypotheses, trend surface analysis, analysis of variance, nonparametric statistics and time series analysis.

645 TERRESTRIAL HEAT FLOW
3 credits
Prerequisites: 101 and 3450: 235 or permission. Techniques of measuring terrestrial heat fiow, solutions of heat conduction equation, results of heat flow measurements, geophysicai deductions and future of geothermal energy.
649 BOREHOLE GEOPHYSICS
3 credits
Prerequisite: $446 / 546$ or permission of instructor. Basic principles and techniques of geophysical well logging with emphasis on electrical, radioactive and sonic measures and their quantitative evaluation. Applications in oil, gas and groundwaler expioration. Laboratory.
656 GLOBAL TECTONICS
3 credils
Prerequisites: $350,441 / 541$ or permission. Theoretical study of physical forces involved in formation and deformation of earth's crust with emphasis on plate tectonics and associated diastrophic features.

674 ADVANCED GROUNDWATER HYDROLOGY 3 credits Prerequisite: $474 / 574$. Study of water table and artesian aquifers under steady and nonsteady state conditions. Collection and evaluation of field data with regard to theory. Water well and well field design. Laboratory and field work.

675 GEOCHEMICAL METHODS OF PROSPECTING
2 credits Prerequisites: nine credits of chemistry, nine credits of mineralogy and/or petrology; recommended: 537 and 570 . Application of geochemical methods of analysis and interpretation to search for ore deposits; emphasis on stability, mobility and associations of elements in geologic environments. Laboratery.

3 credits
Prerequisites: 210,230 or permission. Problems of urbanization related to our finite resources and creation of wastes. Geoiogic hazards. Case histories. Application of geotogic data to urban development.
680 SEMINAR IN GEOLOGY
2 credits
(May be repeated for a totai of six credits)
Selected topics with reterence material from original sources.

## 684 SELECTED TOPICS IN GEOLOGY

1-3 credits
(May be repeated for a total of eight credits)
Prerequisite: permission. Topics not regularly offered as formal courses, generally of classic or current importance. Entails leclures, readings, discussions and/or guided laboratory work.

## 995 ADVANCED FIELD STUDIES

1 credit
(May be repeated for a total of fcur credits)
Prerequisite permission. Field trip course emphasizing phases of geology not readily studied in Ohio includes pretrip preparation, field observations and data gathering, post-trip examination and/or written report Student will bear trip expenses.

## 698 GRADUATE RESEARCH PROBLEMS

(May be repeated for a total of six credits)
Prerequisite: permission. Directed reading and research in an aspect of geology chosen by student in consultation with an instructor.

699 THESIS RESEARCH
1-6 credits
Independent and original investigation. Must be successfully completed, report written and defended before a committee.

## HISTORY

## 3400:

201 UNITED STATES HISTORY TO THE CIVIL WAR
4 credits
Survey of American history from Age of Discovery through colonization, and nation building to Civil War Era.

202 UNITED STATES HISTORY SINCE THE CIVIL WAR 4 credits Survey of United States history from Civil War Era to present.

207 EUROPE: RENAISSANCE THROUGH THE
4 credits 18TH CENTURY
Survey from Renaissance, Reformation; development of nation states, religious wars, Age of Louis XIV and Enfightenment.

208 EUROPE: 19TH AND 20TH CENTURIES
4 credits
Survey of European history from French Revolution and Napoleon; 19th Century "isms," formation of Germany and Italy, the two world wars, totalitarian dictatorship and postwar age.

220 BLACK PEOPLE OF THE UNITED STATES 3 credits
Survey of social, economic, political and cultural history of Afro-Americans from 17 th Century to present.
232 EVOLUTION OF AMERICAN BUSINESS
3 credits
An examination of the development of the American business system from the Colonial era to the present.

304 THE ANCIENT NEAR EAST
3 credits
Mesopotamia, Egyot; Israel, her neighbors to Persian Empire.
305 GREECE
3 credits
Minoans and Mycenaeans; classical Greece to triumph of Macedon.
306 ROME
3 credits
Rome and Hellenistic East to end of classical times.
307 THE EASTERN ROMAN EMPIRE (324-1453)
3 credits
Byzantine culture and nistory from 324 to the fall of 1453.
335 SPORTS IN AMERICAN HISTORY SINCE 1865
3 credits An exarnination of the reciprocal relationship between sports and various institutions of society: culture, sefigion, politics, education, economics, race, ethnicity, diplomacy and gender.

336 WOMEN IN MODERN EUROPE
3 credits
A survey of the history of women in Europe since 1500 , with emphasis on their roles and the changes attendant on modernization.
337 THE WEST IN The Development of the United states 3 credits Examination of westward movement from Revolution to closing of frontier; types of frontiers; impact of the West on nation's development.

338 WOMEN IN THE UNITED STATES 3 credits Changing roles, status, self-images and activities of women in context of American social. economic, political and intellectual movements.

339 AMERICAN IMMIGRATION 3 credits Examination of European migrants to American colonies and United States, their reasons tor leaving Europe and coming to America, and their experience atter arrival.
340 PEACE AND WAR: THE HISTORICAL PERSPECTIVE 3 credits Historical examination of theories of war and peace, including study of leaders, groups and ideas for peace.

## 341 SOVIET AND UNITED STATES WOMEN IN THE

3 credits 20TH CENTURY
An historical and comparative study of the status of women in both societies, with special attention to changing conditions, the efforts by women. individually and coliectively, to define and shape role.

## 350 SELECTED TOPICS IN HISTORY

3 credits
Includes experimental otferings such as those crossing subject of chronological lines, and subjects not listed in this General Bulletin. See departmentai office for current subject.
360 THE VIETNAM WAR
3 credits
An examination and evaluation of all aspects of the war in Vietnam, political, military, diplomatic and economic, including its impact domestically then and later.

397 INDIVIDUAL STUDY OR RESEARCH IN HISTORY
1-3 credits
(May de repeated for a total of four credits)
Prerequisite: permission. For individual study or research in history, including special projects. summer study tours or specialized training.

## 401 HONORS SEMINAR

3 credits Prerequisite: permission of department head or instructor. Selected readings: writing of research paper. For student seeking to graduate with honors in history and tor student in Honors Program.

402/502 SPECIAL STUDIES IN HISTORY
3 credits
Includes experimental and interdisciplinary studies, as weli as those subjects that are not listed in this General Bulletin. See departmental office for information on particular offerings.

## 403/503 UNITED STATES SOCIAL-CULTURAL HISTORY TO 1877

3 credits
Concepts and attitudes considered in their social, cultural tramework. Emphasis on population growth, rural and urban life, literature, the arts, famity life, slavery and impactot Civil War

404/504 UNITED STATES SOCIAL-CULTURAL HISTORY SINCE 1877
3 credits
Concepts and atitudes; emphasis on business; agrarianism; self-made man: progressivism: impact of world wars; social-economic planning; trends in literature and art; social structure and change: black Americans; women's movements.

405/505 HISTORICAL METHODS
2 credits
Practice in historical research and writing. Required for history major, and for graduate major who has not taken equivalent course elsewhere but does not count for graduate credit requirements

406/506 THE AMERICAN REVOLUTIONARY ERA: POLITICAL, MILITARY, 3 credits AND CONSTITUTIONAL ASPECTS
The struggle for the rights of Englishmen and independence; the impact of war on American society and the creation of republican institutions.
407/507 UNITED STATES DIPLOMACY TO 19193 credits Establishment of basic policies, diplomacy of expansion and emergence of a worid power.

408/508 UNITED STATES DIPLOMACY SINCE 1914
3 creaits
Responses of government and public to challienges of war, peace making and power poitics.
410/510 HISTORICAL AGENCY ADMINISTRATION
3 credits
Organization and administration of non-academic historical agencies (e.g. societies, museums, libraries, etc.). Some field experience in a local nistorical agency.

411/511 FUNCTIONS OF HISTORICAL AGENCIES 3 credits Prerequisite: $410 / 510$ or permission. The functions and programs of historicai agencies. Student will develop a project that involves participating in an agency function.

413 BLACK SOCIAL AND INTELLECTUAL HISTORY
3 credits
Examination of black thought and activities reflective of Afro-American culture, conditions facing black peoplo within America and effots toward coordinated black activity.
414/514 HISTORY OF CANADA
3 credits
Survey of Canadian history from the age of the explorers to the present. Special emphasis will be placed on the history of French-Canadians, on economic development and on CanadianAmerican relations

415/515 LATIN AMERICA: ORIGINS OF NATIONALITY
3 credits
Pre-Columbian civilizations, discovery and conquests; colonialism. struggle for independence and formation of new societies.

416/516 LATIN AMERICA: THE 20TH CENTURY 3 credits Social revolution, political ideology and contemporary problems.
$417 / 517$ THE UNITED STATES, LATIN AMERICA AND IMPERIALISM
3 credits Inter-American relations, militarism, dependency, Marxism and recent international and ideological trends.

418/518 MEXICO
3 credits
History of Mexico from Indian civilizations to present with emphasis or relations with United States; social and political ramitications of the 20 it Century Mexican revolution.

419/519 CENTRAL AMERICA AND THE CARIBBEAN
3 credits
Selected aspects of the histories of Central American and Caribbean countries with emphasis on populist and peasant movements, political reform, social revolution. economic and underdevelopment, and relations with the United States.

421/521 THE AMERICAN COLONIES IN THE 17TH CENTURY, 1607-1713 3 credits Esiablishment of European colonies in America with special emphasis on English settiements and evolution of the first British Empire to 1713.
$422 / 522$ THE 18TH CENTURY COLONIES AND FOUNDING OF THE
3 credits UNITED STATES, 1713-1800
Colonial ife from the Glorioius Revolution to the founding of the United States. Major movements (wars, reiigious revivals, economic growth) and pofitical controversies.

424/524 AGE OF JEFFERSON AND JACKSON, 1800-1850
3 credits
The evolution of the republic in its formative stages from Jefferson through Jackson to the Compromise of 1850 . Emphasis upon political, social. intellectual and Constitutional deveiopments.
425/525 THE CIVIL WAR AND RECONSTRUCTION, 1850-1877
4 credits
Sectionailsm, slavery and the causes of the Civil War; wartime activities of the Union and Confederacy, leading personalities; problems of reconstruction and the new Union.

428/528 THE ORIGINS OF MODERN AMERICA, 1877-1917
3 credits
United States from Reconstruction Era to World War I (1877-1920); emphasis on politcal responses to rise of an industrialized-urbanized society, the populist and progressive movements.

429/529 AMERICA IN WORLD WARS AND DEPRESSION, 1917-1945
3 credits World War I and Versailles; the 1920s, the Great Depression and the New Deal; World War If.

430/530 RECENT AMERICA: THE UNITED STATES SINCE WORLD WAR II 3 credits Nuclear age, cold war, foreign policy and domestic affairs to present. Social, political, constitutional, diplomatic, cultural and economic changes since 1945.

431/531 HISTORY OF AMERICAN TRANSPORTATION
3 credits A survey of development of major transportation forms, water, road, rail and air. Special emphasis on technological change, social and economics trends, and government support and control.

432/532 AMERICAN ECONOMY TO 1900
3 credits
Survey of economic developments from colonial era; including agriculture, commerce, iabor. Special emphasis on role of big business and evolution of monetary and fiscal policy.

433/533 AMERICAN ECONOMY SINCE 1900
3 credits
Survey of economic developments since 1900; topics include agriculture, business and labor. Special emphasis on role of big business and evolution of monetary and fiscal policy.

434/534 AMERICAN ENVIRONMENTAL HISTORY
3 credits
Utilization, conservation of natural resources from begintings of A merican society to present; combination of economic. technological history of extensive treatment of public policy. environmental issues.

## 435/535 OHIO

3 credits
Political, social, economic and intellectual history of Ohio, with special emphasis on Onio's relationship to OId Northwest and to the nation.

436/536 THE AMERICAN CITY 3 credits Development of urbanization and its consequences from colonial period to present.

437/537 AMERICAN FAMILY HISTORY
3 credits
Evolution of American family, colonial times to present, including developments in structure and roles of family members, and status of the aged. Exploration of methods for historical study of the family.

438/538 BRONZE AGE AND ARCHAIC GREECE (3000-480 BC)
3 credits
An intensive survey of the history of Greece from the Neolithic period to the Persian Wars. Attention will be given to the nature of the source material, ancient historiography, text criticism and the like.

439/539 CLASSICAL AND HELLENISTIC GREECE (480-146 BC)
3 credits
Prerequisite: $438 / 538$. An intensive survey of the history of Greece from 480 B.C. to the Hellenistic Age. Attention will be given to the nature of the source material, ancient historiography, text criticism and the like.

440/540 THE RONAN REPUBLIC 3 credits An intensive survey of the Roman Republic. Attention will be given to the nature of the source material, ancient nistoriography, text criticism and the like.

## 441/541 THE ROMAN EMPIRE

3 creaits
Prerequisite: 440/540. An intensive survey of the Roman Empire Attention will be given to the nature of the source material, ancient historiograpny, text criticism and the like.

442/542 MEDIEVAL EUROPE, 400-1200
3 credits
Migration of peoples, Carolingian revival, renewed invasions; social, economic and inteilectual stirrings leading to "birih of Europe."

443/543 MEDIEVAL EUROPE, 1200-1500 3 credits
Midcie Ages and the middle class; economic and political change, international wars, social unrest and religious crosscurrents.
445/545 THE RENAISSANCE
3 credits
The European Renaissance (1350-1600). Economic and politicaitrends with special emphasis on Protestant, Anglican and Cathotic reformations.

446/546 THE REFORMATION
3 credits
Europe in 16 th Century; its religious, cultural, politica! and diplomatic development, with special emphasis on Protestant, Angiican and Catholic reformations

447/547 EUROPEAN ABSOLUTISM AND THE ENLIGHTENMENT, 3 credits 1648-1789
Constitutional, diplomatic, cultural, intellectual and social deveiopments of 17 th Century Europe.

448/548 EUROPE IN THE FRENCH REVOLUTIONARY ERA, 1789-1815 3 credils Development of Revolution; Napoleon's regime and satelites.

451/551 19TH CENTURY EUROPE, 1815-1871 3 credits
Europe in the century of change; revolution, romanticism, industrialization, democratization, firsi wars of the Industrial Age.
452/552 19TH CENTURY EUROPE, 1871-1914 3 credits
Sociatism, imperialism, nationalism and the great war. The belle epoque and contemporary artistic and inteliectual currents.

454/554 20TH CENTURY EUROPE, 1914-1939 3 credits Europe between world wars; Russian revolution, fascism and national socialism; plight of democracies.

455/555 20TH CENTURY EUROPE SINCE 1939
3 credits
Europe in World War II, the cold war and attempts at unity
458/558 RUSSIA TO 1801
3 credits
Survey of Russian history from Kievan period to death of Paul l, emphasizing development of autocratic government, Russian culfure, reigns of Peter and Catherine

3 credits
Survey of 19 th and 20 th Centuries. Special empnasis on problems of modernization, the revolution and development of communism

460/560 WAR AND WESTERN CIVILIZATION 3 credits War and society in Europe, America and beyond from ancient world to present with special emphasis on period since 1740
470/570 ENGLAND TO $1688 \quad 3$ credits
Survey of English history from the Anglo-Saxon conquest to the Revolution of 1688 . Medieval and early modern institutions. social and cultural hife.
471/571 ENGLAND SINCE $1688 \quad 3$ credits Survey of English history from, 1688 to the present. The reform of English institutions and i.fe. modernization of the economy, the welfare state, society and war.

472/572 TUDOR AND STUART ENGLAND, 1485-1714 3 credits Emphasis on social, economic and cultural topics, including literature, art and architecture.
$477 / 577$ WESTERN SCIENCE TO $1800 \quad 3$ credirs Science in Greek, Roman, Islamic, European societies with special emphas is on the scientific revolution of the 16 th and 17 th Centuries
$478 / 578$ WESTERN SCIENCE SINCE $1800 \quad 3$ credits
Continuing oevelopment of physical, medical, biological sciences in European and American societies. Atomic physics and weapons, evolution, genetics, modern medicine.

479/579 WESTERN TECHNOLOGY
3 credits
Technology in Mesopotamia. Egypt. Greece, Rome, Islam, medievai Europe; first and second industrial revolutions in Europe, America.

480/580 TRADITIONAL CHINA 3 credits Selective study of institutional, intellectual, political and artistic developments in Chinese civilization from antiquity to 18 th Century. Emphasis on general features of traditional Chinese culture.

481/581 MODERN CHINA 3 credits
Survey of China since 18 th Ceniury with focus on process of modernization. Background of contemporary scene stressed.
485/585 JAPAN 3 credits
Survey of history of Japan from antiquity to present; emphasis on developments since 1600 . impact of the West and modernization process.

## 490/590 WORKSHOP IN HISTORY

$1-3$ credils

## (May be repeated)

Group studies of special subjects pertaining to history. May be used for elective credit oniy. May not be used to meet undergraduate or graduate major requirements in history.

## 497 HONORS PROJECT

1-3 credils
(May be repeated for a total of six credits)
Prerequisite: senior standing in Honors Program. An individual research project relevant to history, supervised by a member of the Department of History, culminating in an undergraduate thesis.

## Graduate Courses

622 READING SEMINAR IN ANCIENT HISTORY
4 credits
Study of historical literature sources of materials and inajor interpretations of ancient history. especially Greek and Roman periods.

623 WRITING SEMINAR IN ANCIENT HISTORY 4 credits Prerequisite: 622. Research and writing in selected topics of ancient history, particularly Greek and Roman eras.

625 READING SEMINAR IN MEDIEVAL HISTORY 4 credits Study of nistorical literature, sources of materials and major interpretations oi medieva. European history.
626 WRITING SEMINAR IN MEDIEVAL HISTORY 4 credits
Prerequisite: 625. Research and writing in selected topics of European medieval history from barbarian invasions through later Middle Ages.

631 READING SEMINAR IN MODERN EUROPEAN HISTORY TO 18154 credits Study of historical literature, sources of materiais, maior interpretations of early modern European history to Napoleonic era.

632 WRITING SEMINAR IN MODERN EUROPEAN HISTORY TO 18154 credits
Prerequisite: 631. Research and writing in selected topics of early modern European history, occasionally including social, economic and intellectual subjects.
634 READING SEMINAR IN MODERN EUROPEAN HISTORY SINCE $1815 \quad 4$ credits Study of historical literature, sources of materials and major interpretations of modern European history since early 19 th Century.

635 WRITING SEMINAR IN MODERN EUROPEAN HISTORY SINCE 18154 credits Prerequisite: 634. Research and witing in selected topics of modern European history, occasionally including social, economic and intellectual subjects.
640 READING SEMINAR IN HISTORY OF SCIENCE 4 credits
Study of historical literature, sources of materiais and major interpretations in history of science.

641 WRITING SEMINAR IN HISTORY OF SCIENCE
4 credits Research and writing in selected topics in history of science.

651 READING SEMINAR IN THE HISTORY OF ENGLAND
4 credits AND THE EMPIRE
Study of historical literature, sources of materials and major interpretations of English and British imperial history.

652 WRITING SEMINAR IN THE HISTORY OF ENGLAND
4 credirs AND THE EMPIRE
Prerequisite: 651. Research and writing in selected topics of English and British imperial history.
666 READING SEMINAR IN AMERICAN HISTORY TO 18654 credits
Study of historicai literature, sources of materials and major interpretations of American colonial and United States history to Civil War.

667 WRITING SEMINAR IN AMERICAN HISTORY TO 18654 credits Prerequisite: 666. Research and writing in selected topics of American history from colonial period to Civil War.

669 READING SEMINAR IN AMERICAN HISTORY SINCE 18654 credils Study of historical literature, sources of materials and major interpretations of United States history since Civil Waf.

670 WRITING SEMINAR IN AMERICAN HISTORY SINCE 18654 credits Prerequisite: 669. Research and writing in selected topics of United States history since Civil War.

677 READING SEMINAR IN LATIN AMERICAN HISTORY
4 credits
Prerequisite: two courses in Latin American sludies or permission of instructor. Study of historical literature, sources of materials and major interpretations of Latin American hisiory.
678 WRITING SEMINAR IN LATIN AMERICAN HISTORY 4 cledits
Prerequisite: 677. Research and writing in selected topics in social, cultural, diplomatic, intellectua! and political history of Latin America.

689 HISTORIOGRAPHY
3 credits
Study of historians, historical writings and interpretations through the ages. Required for master's degree if candidate has not had equivalent undergraduate or graduate course elsewhere.

690 HISTORY TEACHING PRACTICUM 3 credis
Prerequisite: graduate assistantship. Required of all graduale assistants each fall sernester. Training and experience in college teaching of history under the supervision of an experienced faculty member. Credits may not be used to meet degree requirements.

694 THESIS RESEARCH
3 credits
Research for Master of Arts degree thesis.
697,8 INDIVIDUAL READING FOR M.A. STUDENT
$1-4$ credits each
(May be repeated for a total of 12 credits)
Directed reading to fit individual student programs. May be repeated, but no more than six credits may count toward the M.A. degree in history. Written permission of the instructor required.

699 THESIS WRITING 3 credits
Prerequisite: 694. Writing of Master of Arts degree thesis.
797,8 INDIVIOUAL READING FOR Ph.D. STUDENT $\quad 1-6$ credits each
(May be repeated, but no more than 12 credits may apply toward the Ph.D. in history) Directed reading to fit individual student programs. Written permissicn of the instructor required

B98 DISSERTATION RESEARCH
1-12 credits
Research for Doctor of Philosophy degree dissertation.
899 DISSERTATION WRITING
$1-12$ creofits
Prerequisite: 898. Writing of Doctor of Philosophy degree dissertation.

## MATHEMATICS

## 3450:

111-38 MODERN UNIVERSITY MATHEMATICS
1 credit each
A series of modules designed primarily for the non-physical science major to be taken after consultation with an adviser.

101 ELEMENTARY ALGEBRA
2 credits
(Does not count toward the University General Studies matnematics requirement)
Prerequisite placement. An introductory course in algebra to prepare the student for entrylevel mathematics courses at the University. Topics include real numbers arithmetic operations, symbolism, word problems, linear equations and inequalities. quadratic equations, radicals, rational expressions and exponents.

## 11 ALGEBRA

1 cledit
Prerequisite: placement. Sets, signed numbers, algebraic expressions, factoring, exponents, radicals, binomial theorem.

112 ALGEBRAIC FUNCTIONS AND GRAPHING
1 credt
Prerequisite: 111. Linear and quadratic functions and equations, complex numbers, inequalities. absoiute value, ratio and proportions. graphing functions and inequalities.

## 113 COMBINATORICS AND PROBABILITY

1 credit
Prerequisite: 112. Permutations, combinations, sample spaces, events; simple, compound and conditional probability, Bernouili trials, expectations and odds.

## 114 MATRICES

1 credit
Prerequisite: 112. Nomenclature, operations, inverse solution of minear equations in $n$ variables using elementary row operations.

115 LINEAR PROGRAMMING
1 credit
Prerequisite: 114 or equivalent. Minimizing and/or maximizing a linear function subject to a system of linear inequalities (geometrically and simplex method), introduction to game theory.

117 INTRODUCTION TO TRIGONOMETRY
1 credit
Prerequisite: 112. Definitions of trigonometric functions, identities, solving right triangles, applications.

118 TRIGONOMETRIC FUNCTIONS AND GRAPHING
1 credit
Prerequisite: 117. Graphing, identities, solving triangles, applications
121 ANALYTIC GEOMETRY
1 credit Prerequisite: 112. Cartesian coordinate system; rational, logarithmic, exponential functions: sequences, series, limits, definition of series.

122 DIFFERENTIAL CALCULUS
1 credit
Prerequisite: 121. Differentiation of algebraic, logaritnmic and exponential fuinctions, higher derivatives, partial derivatives, applications.
123 Integral calculus
1 credit
Prerequisite: 122 . Indefinite and definite integral differentials, change of variable, numerical integration, improper integrals, double integra!.

124 CALCULUS WITH TRIGONOMETRY 1 credit Prerequisites 118, 123. Differentiation and integration of trigonometric functions, trigonometric substitution, applications.

131 NUMBER SYSTEMS 1 credit Prerequisite: 112. Ancient number systems, number bases. Euclidean algorithm, modular arithmetic.

132 ELENENTARY GEOMETRY
1 credit
Prerequisite: 112, Definitions and measure of line segments, angles and triangles in Euclidean plane geometry; Hilbert's axioms.

136 SYSTERS OF MEASUREMENT
1 credit
English and metric systems of weights and measures. Troy, avoirdupois and apothecaries' systems.

138 MATHEMATICS OF FINANCE
1 credil
Prerequisite: 112 or equivalent. Simple and compound interest, bank discount, ordinary annuities (present value. amount and rate), amortization, annuites, perpetuities.
147 ELEMENTARY FUNCTIONS I
3 credits
Prerequisite: placement. Real numbers, equations and inequalities, radicals, absolute value. relations and functions, finear and quadratic functions, system of equations, matrices and relations and functions, inear and
determinants, complex rumbers

148 ELEMENTARY FUNCTIONS II
3 credits
Prerequisite: placement. Exponential and logarithmic functions, exponential and iogarithmic equations, trigonometric functions, reduction formulas; trigonometric identities, arithmetic and geomefric sequences and series, mathematical induction.

149 PRECALCULUS MATHEMATICS
4 credits
Prerequisite: placement. Sets; number systems; absolute value; relations; furictions; polynomial functions; determinants; systems of equations, inequalities; trigonometric functions. identities: exponential, logarithmic functions; complex numbers; infinite sequences; binomial theorem; mathematical induction.

211 CALCULUS FOR THE LIFE SCIENCES I
3 credits
Prerequisite: 149 or equivalent or placement. A calculus course for students majoring in the biological and health sciences. Functions, limits and continuity, differentiation, applications of derivatives, exponential and logarithmic functions, integration.

212 CALCULUS FOR THE LIFE SCIENCES II
3 credits
Prerequisite: 211. A calculus course for students majoring in the biological and heaith sciences. Trigonometric functions, applications of derivatives of differentiation and integration, differential and difference equations, functions of severai variables, infinite series. vectors and matrices.

215 CONCEPTS OF CALCULUS I
4 credits
Prerequisite: 149 or equivalent or placement. Analytic geometry; functions: limits and continuity: differentiation, applications of differentiation, integration; applications of integration, logarithmic and exponential functions. An intensive treatment, designed for computer science business-option maiors and those students who desire the Computer Science Certificate or a computer science minor.
216 CONCEPTS OF CALCULUS II
4 credits
Prerequisite: 215 Trigonometric and inverse trigonometric functions; differentiation and integration, techniques of integration; conic sections; parametric equations; quadric surfaces: cylindrical and spherical coordinates; sequences and series; partial differentiation; multiple integration.

221 ANALYTIC GEOMETRY-CALCULUS I
4 creotts
Prerequisite 149 or equivalent or placement. Real numbers, analylic geometry, limits, contınuity, derivatives of algebraic functions, tangent and normal lines, extrema of functions, Rolie's theorem, mean value theorem. related rates, antiderivatives definite integrais, areas. volumes, arc length.

222 ANALYTIC GEOMETRY-CALCULUS II
4 credils
Prerequisite: 221. Derivatives of exponential, logarithmic trigonometric, inverse trigonometric, hyperbolic and inverse hyperbolic functions; methods of integration, moments, centroids, indeterminate forms polar coordinates, vector algebra cylindrical and spherical coordinates, vector valued functions, curvature.

223 ANALYTIC GEOMETRY-CALCULUS III
4 credits
Prerequisite: 222. Sequences, series, power series, Taylor and Maclaurin series, binomiai series, functions of several variables, limit, continuity, partial derivatives, differentials, directional derivatives, maxima and minima, double and triple integrals, surface area

235 DIFFERENTIAL EOUATIONS
3 credits
Prerequisite: 223. Meihods of forming and solving important types of differential equations Analysis of modeis involving differential equations of tirst order and simple equations of second order.

## 289 SELECTED TOPICS IN MATHEMATICS

$1-3$ credits
Prerequisite permission. Selected topics of interest in mathematics.
301 HISTORY OF MATHEMATICS
2 credits
Prerequisite: 222 . Origin and development of mathematicał ideas.

## 311 ABStRACT ALGEBRA

3 credits
Prerequisite: 222. Introduction to groups, rings, integral domains: aximatic foundation: natural, integer, rational, real, complex number systems.

312 LINEAR ALGEBRA
3 credits
Prerequisite. 222. Study of vector spaces, finear fransformations, matrices, determinants, inner products, the eigenvalue problem, quadratic forms and canonical forms.

413/513 THEORY OF NUMBERS
3 credits
Prerequisite: 222 or permission. Euclidean algorithm, unique factorization theorem, congruences, primitive roots, indices, quadratic residues, number-theoretic functions, Gaussian integers and continued fractions.

414/514 VECTOR AND TENSOR ANALYSIS
3 credits
Prerequisite: 223. Vector aigebra, calculus of scalar-vector, vector-scalar, vector-vector functions; integral theorems; coordinate transtormations; cartesian, contravariant, covariant vectors, tensors; fundamental operaticns with tensors: differentiation of tensors; appications.
$415 / 515$ COMBINATORICS AND GRAPH THEORY
3 credits
Prerequisite: 222 or permission. Introduction to basic ideas and techniques of mathematical counting: properties of structure of sysiems.

421,2/521,2 ADVANCED CALCULUS I AND II
3 credits each
Sequential Prerequisite: 235 Real number system, sequences, series, set theory, continuity, differentiation, integration, partial derivatives, multiple integration, maxima and minima, convergence and unitorm convergence, power series, improper integrals, transformations, line and surface integrais.

425/525 COMPLEX VARIABLES
3 creats
Prerequisite: 235 Complex variables; elementary functions, differentiation and analytic funcfions; integration and Cauchy's theorem; power series and Laurent series; residue theorem: appiications such as conformal mappings, inversion of integral transform.

427/527 INTRODUCTION TO NUMERICAL ANALYSIS
3 credits
Prerequisites: 223 and $3450: 201$ or 4100206 . Mathematical analysis of numerical methods for solving equations, interpolating function values, approximating derivatives and integrals, approximating functions.

428/528 NUMERICAL LINEAR ALGEBRA
3 credits
Prerequisites 223 and $3460: 201$ or 4100:205. Mathematical analysis of numerical methods for solving systems of linear equations, eigenvalue problems, nonlinear systems, unconstrained minimization problems.

429/529 NUMERICAL METHODS IN DIFFERENTIAL EOUATIONS
3 credits
Prerequisites: 427 and 3460.201 or $4100: 206$. Mathematical analysis of numerical methods for solving ordinary differential equations, systems of ordinary differeritial equations. partial differential equations.

431/531 SPECIAL FUNCTIONS AND OPERATIONAL CALCULUS
3 credits
Prerequisite: 235 . Sertes solutions to differential equations; Bessel functions; orthogonal polynomals: self-adjoint boundary value problems and Fourier series; Laplace transforms: Fourier transiorms.

432/532 PARTIAL DIFFERENTIAL EQUATIONS
4 credits
Prerequiste: 235. The classical initial value and boundary value problems of mathematical physics developed and solved using Fourier series and integral transforms.

435/535 SYSTEMS OF ORDINARY DIFFERENTIAL EQUATIONS
3 credits
Prerequisites: 235 and either 312 or 428 or permission. Analysis, solution of systems of equations, linear, nonlinear. Topics: stability theory, perturbation methods, asymptotic methods, applications from physicat. social sciences.

436/536 MATHEMATICAL MODELS
3 credits
Prerequisite: 235. Formulation and analysis of mathematical models in social and physical sciences. Analysis of deterministic and stochastic models. Topics may include stochastic processes, linear programming, graph theory, theory of measurement

438/538 ADVANCED ENGINEERING MATHEMATICS I
3 credils
Prerequisite: 235 Linear algebra, vector analysis, Lapiace iranstorms, systems of differential equations, related numerical methods -- applied to typical engineering problems. Does not satisfy elective requirements for mathematical sciences degree.439/539 ADVANCED ENGINEERING MATHEMATICS 113 credits
Prerequisites $438 / 538$ or both 235 and 312. Complex aralysis, series sotutions to difterentialequations. special furictions. Fourier series transforms, partial differentral equations $\cdots$ ap-plied to engineering probtems. Does not satisty elective requirements for mathematicalsciences degree.
441/541 CONCEPTS IN GEOMETRY 4 credits
Prerequisite: 222 or permission of instructor. Axiomatic treatment of both Euclidean and non-Euchdean geomelries. Other concepts included are finite geomelry, transformations, constructions and inversions.
442/542 PROJECTIVE GEOMETRY 3 creditsPrerequisite: 222 or permission. Complex projective planes. duatity, homogeneous coordi-nates, 1-1 correspondence, cross ratios harmonic ranges, conics, quadriaterals, quad-rangies, applications to Eliclidean geometry, quadric surfaces.
445/545 INTRODUCTION TO TOPOLOGY 3 credits
Prerequisite 312 or permission. Introduction to topological spaces and topologles mappings.cardinality, homeornorphisms, connected spaces metric spaces.
489/589 TOPICS IN MATHEMATICS $1-3$ credits
(May be repeated tor a total of six credits)
Prerequisite: permission of instructor. Selected topics in mathematics and applied mathe- matics at an advanced level
491/591 WORKSHOP IN MATHEMATICS ..... 1.3 credis
(May be repeated)
Group studies of special topics in mathematics and statistics. May not be used to meetundergraduate or graduate major requirements in mathematics and statistics. May be usedfor elective credit only.
497 INDIVIDUAL READING $1-2$ credils
Prerequisites: senior standing and permission. Mathematics majors only. Directed studiesdesigned as an introduction to research problems. under guidance of selecied tacultymember.
498 SENIOR HONORS PROJECT1-3 creditsPrerequisite: 489 (honors) Directed study for senior student in the Honors Program who hascompleted 489 (honors). An introduction to research problems in mathematical sciencesunder the guidance of selected tacuity.
Graduate Courses
601 INTRODUCTION TO ANALYSIS4 creditsPrerequisite: permission. An introduction 10 analysis to include differentiation and integration.maxima and minima. Lagrangian multipliers, transformations. infinite series, IIne and surfaceintegrais, improper integrals. May not be used to meet degree requirements for mathematicalsciences majors.3 credisPrerequisite: 235. Study olmatrix theory and techniques concerning inverses, linear systemsPrerequisite: 235 . Study ol matrix theory and techniques concerning inverses, line ar systems
of equations, vector spaces, transformations, quadratic forms. the eigenvatue problem and
canonical forms.canonical forms.
671,2 ALGEBRAIC THEORIES I AND II 3 credits eachPrerequisites 311 and either 312 or 610 . Sequentia!. In-depth analysis of afgebraic theory -monoids, groups, rings, modules, vector spaces, field extensions. lattices and algebras.
621,2 FUNCTIONS OF A REAL VARIABLE I AND II 3 credits eachSequentiai. Prerequisite: 422/522. Real number system, sets, limit theorems, semi andcontinuous functions, derivatives of functions. Borel sets and Baire functions, measure;measurable sels, measurable functions. Riemann, Lebesgue integration, multiple inlegration.
625 ANALYTIC FUNCTION THEORY3 creditsPrerequisite: $422 / 522$ Comptex number system, holomerphic functions, continuity, differen-tiability, power series complex integration, residue theory, singularities, analytic continuation,asymptotic expansion3 credits each
Sequential. Prerequisite' $422 / 522$. Theoretical anatysis of numerical methods in linear alge-bra, polynomial interpolation and approximation, inlegration and ordinary differential equa-tions.3 credits

Prerequisite: 235. Problems with fixed and movable endpoints. problems with constraints. generatization to several variables, the maximality principle. linear time-optional problems. the connective between classical theory and the maximality principle

632 ADVANCED PARTIAL DIFFERENTIAL EQUATIONS
3 credits
Prerequisite: 432/532 or permission. Existence, uniqueness and slability of solutions to general classes of partial differential equations. Methods for solying these classes introduced, emphasizing both analytical and numerical techniques.

## 633,4 CONTINUOUS SYSTEMS : AND II

3 credits each
Sequential Prerequisite: 422/522 or permission of instructor. Boundary value problems tormulated as ordinary differential equations. partial differential equations and integral equations analyzed as linear operator equations on function spaces using tools of generalized functions, Green's functions and spectral theory. Particular attention paid to evolution and polential equations as well as variational methods.

## 635 OPTIMIZATION

3 credits
Prerequisite: $422 / 522$ or permission. Unconstramed and constrained optimization theory and methods in applied probiems.

636 ADVANCED COMBINATORICS AND GRAPH THEORY 3 credits
Prerequisite: 235. Theory and techniques of combinatorics as applied to network problems and graph theoretic problems

642 DIFFERENTIAL GEOMETRY
3 credils
Prereouiste: $422 / 522$. Analytic representation of space curves surfaces; intrinsic geometry of surface: geometry of suffaces in large

645 TOPOLOGY
3 credits
Prerequisite $422 / 522$. Set theory, ordinal and cardinal rumbers, topological spaces, tilters and nets, separation, coverings melric, spaces, homotopy, related topics

## 689 ADVANCED TOPICS IN MATHEMATICS

1-3 credits
(May be repeated for a totat of six credits)
Frerequiste: permission of instructor. Topics within research interests of taculty members in mathematics and applied mathematics.

692 MATHEMATICS AND STATISTICS SEMINAR
2 credits
(May be repeated for a total of tour credits)
For properly quatified candidate for master's degree in mathematics and statustics. Semmartype discussions involving special problems dealing with mathematics and statistics. Inciudes a supervised research project.

695 PRACTICUM IN MATHEMATICS AND STATISTICS

1. 3 credts

Prerequisite: graduate teaching assistant or permssion Training and experience in college ieaching of mathematical sciences. May not be used to meet degree requirements May be taken only on a credit/noncredia basis.

697 INDIVIDUAL READING
$1-2$ credits
(May be repeated for a total of four ciedits)
Prerequisites gradute standing and permission. Directed studies in mathenatics at graduate level under guidance of selected faculty member.

699 THESIS RESEARCH
2 credits
(May be repeated for a total of four credits)
Prerequisite permission. Properly qualified candidate for master's degree may ohain four credits for research experience which culminates in presentation of faculty-supervised thesis.

## COMPUTER SCIENCE

## 3460:

125 DESCRIPTIVE COMPUTER SCIENCE 1 \%edit
Computer literacy: terminology; methods, media for data representation, inowe, elments of a computing system; data organization.
126 INTRODUCTION TO BASIC PROGRAMMING
$f$ credit
Prerequisite. 3450:112. Introduction to syntax and semantics of BASIC tanguage assignment slatement and arithrnetic, control statements and loops, input/output.

127 COMPUTERS IN TODAY'S WORLD
3 credits
Introduction to nature of computers and their capabilities. Special attention given to topios such as effects of computer on privacy employment and education; ethics in computer community; potential for computer crime. Designed for non-majors

128 ADVANCED BASIC PROGRAMMING
1 credit
Prerequisite: 126 or equivalent. A continuation of 126 to include such topics as arrays. files, graphrs, simulations, subroutines, ton-down programming, control structures and applications. Hands-on experience in the Apple Lab will be scheduled
201-7 INTRODUCTION TO PROGRAMMING LANGUAGES 2 credis each
Introduction to syntax and semantics ol programming languages: assignment statement and arithmetic, control statements and loops, input/output. subprograms.

201 INTRODUCTION TO FORTRAN PROGRAMMING 2 credits
Prerequisites: $3450: 11 \mathrm{t}, 112,114$ or 147 or equivalent. Does nor meet computer science major, minor and/or certificate requirements.

202 INTRODUCTION TO COBOL PROGRAMMING
2 credits
Prerequisites: $3450: 111,112,114$ or equivalent. Does not meet computer science major, minor and/or certificate requirements.
203 INTRODUCTION TO APL PROGRAMMING
2 credis
Prerequisites: $3450: 111,112,114$ or equivalent.
204 INTRODUCTION TO PL/1 PROGRAMMING
2 credits
Prerequisites: programming experience and 3450:111, 112, 114 or 147 or equivalent.
205 INTRODUCTION TO PASCAL PROGRAMMING
2 credits
Prerequisites: programming experience and $3450: 111,112,114$ or 147 or equivalent. Does not meet computer science major, minor and/or certificate requirements.

206 INTRODUCTION TO C PROGRAMMING
2 credits
Prerequisites: programming experience and $3450: 111,112.114$ or 147 or equivalent. Provides the student with additional programming skills allowing access to assembly or highlevel macros.

207 INTRODUCTION TO SAS PROGRAMMING
2 credits
Prerequisites: programming experience and $3450: 111,112,114$ or 147 of equivalent. Programming in the SAS language including SAS procedures to information storage and retrieval. data modification and programming, report witing and file handling.

209 COMPUTER PROGRAMMING I
3 credits
Prerequisite: 3450149 or equivalent An introduction to problem-solving methods and algorithm development. Programming in a high-level language including how to design, code. debug and document programs using techniques of good programming style.

210 COMPUTER PROGRAMMING II
3 credits
Prerequisites: 209 and $3450: 221$ or 3450:215. Method of representation of information on a digitai computer character representation, fixed point-floating point numbers; introduction to computer organization, aigorithms and machine language programming: Boolean algebra, computer circuits.

302 PROGRANMING APPLICATIONS WITH COBOL
3 credits
Frerequisite: 210 . Applications of $\mathrm{COBOL}, \mathrm{JCL}$ and file manipulation; intended to introduce business data processing techniques to the business option computer science major. Does not meet major requirements for mathematics option computer science students.

## 306 ASSEMBLY LANGUAGE PROGRAMMING

3 credits
Prerequisite: 210. Basic computer organization and data representation. Programming in assembly language on a lypical digitai computer Subroutine linkage and macro instructions.

307 APPLIED SYSTEMS PROGRAMMING
3 credits
Prerequisite: 306. introduction to systems programming using OS/370, job Control Language, loaders and compilers, utilities. Stresses actual systems programming.

316 INTRODUCTION TO DATA STRUCTURES
3 credits
Prerequisites: 210 and $3450: 222$ or $3450: 216$ or permission. Standard data structures: stacks, queues, deques, trees, graphs, vectors, arrays, files; searching, sorting

418/518 INTRODUCTION TO DISCRETE STRUCTURES
3 credits
Prerequisite: 210 or permission. Introduction to a number of structures in algebra of particular use to student in computer science. Topics include algorithms and flow chart language, graphs and digraphs, lrees, latlices codes

420/520 STRUCTURED PROGRAMMING
3 ciedits Prerequisite: 316 . Techniques of block programming using a structured programming language, program readabılity, program verification and program design.

425/525 INTRODUCTION TO SOFTWARE SYSTEMS
3 credits
Prerequisite 210 . Introduction to software systems: operating systems, input/output systems, languages and their processors; memory management; soltware engineering principles.

426/526 OPERATING SYSTEMS
3 credits
Prerequisites: 307 and 316 . Introduction to various types of operating systems: batch processing systems, multiprogramming systems and interacting processes; storage management; process and resource control; deadlock problem. Course is independent of any particular operating system.

430/530 THEORY OF PROGRAMMING LANGUAGES
3 credits
Prerequisite: 316. More advanced concepts underlying programming languages and their applications, formal definitions of programming languages, Backus Normal Form, semantics. compiler design.

435/535 ANALYSIS OF ALGORITHMS
3 credits
Prerequisites: 316 and 418. Design and analysis of efficient algor thms for random access machines, derivation of pattern classification aigorithms.

440/540 COMPILER DESIGN
3 credits
Prerequisites: 307 and 316 . Techniques used in writing and modifying compilers including transtation, loading. execution, symbol tables and storage allocation; comoliation of simple expressions and statements. Organization ot a compiler for handing lexical scan, syntax scan, object code generation, error diagnostics and code optimization. Use of compiler writing languages and boot-strapping. The course requires a project involving compiler writing.

455/555 DATA COMMUNICATIONS
3 credits
Prerequisite: 210 . Introduction to data communications, teleprocessing networks: codes. modes of transmission, errors, protocol.

457/557 COMPUTER GRAPHICS
3 credits
Prerequisite: 210 . Topics in vector graphics, scan iine graphics, representations and languages for graphics.

460/560 ARTIFICIAL INTELLIGENCE AND
3 credits HEURISTIC PROGRAMMING
Prefequisite: 316 . Study of various programs which have displayed some intelligent behavior Exploration of level at which computers can display intelligence.

465/565 COMPUTER ORGANIZATION
3 credits
Prerequisite: 306. An introduction to the hardware organization of the computer at the register. processor and systems level. An in-depth study of the architecture of a particular computer systems family.
470/570 AUTOMATA, COMPUTABILITY AND FORMAL LANGUAGES
3 credits
Prerequisite: $4 i 8$. Presentation of theory of formal languages and their relation to automata. Topics include description of languages; regular context-free and context-sensitive grammars; finite, pushdown and linear-bounded automata: turing machines; closure properties: computational complexity, stack automata and decidability.

475/575 DATA-BASE MANAGEMENT
3 credits
Prerequisite: 316. Fundamentals of data-base organization, data manipulations and representation, data integrity, privacy.

489/589 TOPICS IN COMPUTER SCIENCE
1-3 credits
(May be repeated for a total of six credits)
Prerequisite: permission of instructor. Selected fopics in computer science at an advanced level.

491/591 WORKSHOP IN CONPUTER SCIENCE
1-3 credits
Group studies of special topics in computer science. May not be used to meet graduate or undergraduate requirements in mathematics, statistics or computer science.

497/597 INDIVIDUAL READING IN COMPUTER SCIENCE
$1-3$ credits
(May be repeated)
Prerequisite: permission Computer science major only. Directed studies designed as introduction to research problems, under guidance of designated faculty member.

498 SENIOR HONORS PROJECT
$1 \cdot 3$ creoits
Prerequisite: 489 (honors). Directed study for senior student in the Honors Program who has completed 3450:489 (honors). An introduction to research problems in the matheriatical sciences under the guidance of selected faculty.

## STATISTICS

## 3470:

251-7 INTRODUCTION TO STATISTICS
Introduction to fundamental ideas of statistics at precalculus level inchuding topics from the following:

251 DESCRIPTIVE STATISTICS AND PROBABILITY 1 credit
Prerequisite one semester of college aigebra or equivalent.
252 DISTRIBUTIONS
1 credir
Prerequisite: 251
253 HYPOTHESIS TESTING (PARAMETRIC) 1 credit
Pierequisite: 252
254 HYPOTHESIS TESTING (NONPARAMETRIC)
: credif
Prerequisite: 253
255 REGRESSION AND CORRELATION i cred
Prerequisite: 253
256 EXPERIMENTAL DESIGN
1 credit
Prerequisite 253
257 TIME SERIES AND INDEX NUMBERS 1 credit
Prerequisite 255
258 STATISTICAL COMPUTATIONS ON THE MICROCOMPUTER
1 credit
Prerequisites: 254, 255, 256 and 3460:126. The utilization and generation of computer programs in the BASIC language to implement algorithms for the solution of a variety of statistical problems.

259 EXPLORATORY DATA ANALYSIS
1 credit
Prerequisites: 251. 252, 253. 255 Topics to include Stem and Leaf displays; letter-value displays, graphical description of data, resistant line: smoothing data (optional), two-way tables (optional)

450/550 PROBABILITY
3 credits
Prerequisite: 3450:221. Introduction to probability, random variables and probability distributions, expected value, sums of random variables. Markov processes.

451,2/551,2 THEORETICAL STATISTICS I AND H
3 credis each
Sequential. Prerequisite $3450: 223$. Elementary combinatorial probability theory probability distributions, mathematical expectation, functions of random variables, sampling distribu tions, point and interval estimation. tests of hypotheses, regression and correlation, introduction to experimentai designs.

461/561 APPLIED STATISTICS
4 credits
Prerequisite: $3450: 223$ or 216 or permission. Applications of statistical theory to natural and physical sciences and engineering, including hypotheses tests, regression, correlation, analysis of variance, nonparametric statistics, sampling. quality control and other selected topics.

463/563 EXPERIMENTAL DESIGN
4 credits
Prerequisite: $461 / 561$ or 661 or equivalent. Analysis of variance: crossed. nested designs multiple comparisons; power considerations; randomized blocks, repeated measure designs latin squares, random and fixed effects, analysis of covariance, applications.

465/565 DESIGN OF SAMPLE SURVEYS
3 credits
Prerequisite: 251.253 or equivalent. Design and analysis of frequently used sample survey techniques

480/580 STATISTICAL COMPUTER APPLICATIONS
3 credits
Prerequisites. 3450223 and one semester course in statistics or permission. Translation of statistical operations into computer languages, iterative procedures, geneating data. Monte Carlo techniques, use of statistical packages.

489/589 TOPICS IN STATISTICS
1-3 credits
(May be repeated for a total of six credits)
Prerequisite: permission. Selected topics in advanced statistics, including quality control, reliability, sampling techniques, decision theory. advanced inference, stochastic processes and others.

## 491/591 WORKSHOP IN STATISTICS

1-3 credits
(May be repeated with change of topic)
Group studes of special topics in statistics. May rot be used to meet undergraduate of graduate major requirements in mathematics and statistics. May be used for elective credit oniy.

## 997 INDIVIDUAL READING

1-2 credits
(May be repeated for a total of four credits)
Prerequisites: senior standing and permission. Directed studies in statustics designed as introduction to research problems under guidance of selected faculty member

498 SENIOR HONORS PROJECT
1-3 credits
Prerequisite 489 (honors). Directed study for senior slucent in the University Honors Program who has completed $3450: 489$ (honors). An introduction to research problems in the mathematical sciences under the gurdance of selected faculty

## Graduate Courses

620 APPLICATIONS OF MATRICES TO STATISTICS
3 credits
Prerequisite: 461/561 or equivalent. Matrices introduction to multivariate normal distribution. applications of matrices to linear models.

644 ADVANCED EXPERIMENTAL DESIGN
2 credits Prerequisite: $463 / 563$. An extension and continuation of 563 to include topics from confounding, fractional factorial designs, split plot designs, analysis of covariance, unequal subciass frequencies, tests of assumptions, applications

650 ADVANCED PROBABILITY AND STOCHASTIC PROCESSES 3 credits Prerequisite: 651. Random walk, distributions, unlimited sequence of trials, laws of large numbers, convolutions, branching processes, renewal ineory. Markov chains, time-dependent stochastic processes.

651 PROBABILITY AND STATISTICS
4 credits
Prerequisites: 561 or 661 or equivalent and 3450.601 or equivalent. Probability, random variables, moments and generating functions, random vectors, special distributions, limil theorems, sampling, point estimation, hypothesis testing. confidence estimation

652 ADVANCED MATHEMATICAL STATISTICS
2 credits
Prerequisite 651 . Moment generating functions: convergence in distribution, in probability, almost everywhere; estimation properties and criteria; likelihood; test construction; order statistics and nonparametric methods bivariate normal distribution.

655 LINEAR MODELS
3 credits
Prerequisiles: 620 and 651. General linear model in matrix notation, generailinear hypothesis regression models, experimental design models, analysis of variance and covariance, varlance components.

661,2 ADVANCED BEHAVIORAL STATISTICS I AND II
3 credits each
Sequential Prerequisite: college-ievel algebra or equivalent. Descriptive statistics, probability distributions, hypothesis testing, estimation, nonparametric statistics, correlation, simple and multipie regression, experimental designs, tactorial experiments. comparisons, nested designs, repeat-measure designs, randomized blocks, analysis of covariance, applications.

## 664 STATISTICS FOR THE HEALTH SCIENCES

4 credits
(May not be used to meet degree requirements for mathematical sciences majors) Prerequisite: college-level algebra or equivalent. Descriptive statistics, probability and probability distribution, tests of hypotheses and confidence intervals, nonparametric statistics, regression and correlation.

665 REGRESSION AND CORRELATION
3 credits
Prerequisites four credits of sequential statistics courses or equivalent. Analylical theory: least squares -- matrix notation, methodology; multiple regression; orthogonal polynomials correlation; partial correlation; stepwise regression, model building; response surfaces.
666 NONPARAMETRIC STATISTICS-METHODS
2 credits
Prerequisites: 256,662 or permission. Theoretical bases and relationships among various nonparametric techniques compared with parametric ones.

667 FACTOR ANALYSIS
2 credits
Prerequisite: 661 or permission. Theory and techniques in identifying variables through use of factor analysis.

3 credits
Prerequisite: $463 / 563$, or 662 or equivalent. Multivariate techniques including distance concept, Hotelling T2, multivariate ANOVA, regression and correlation, inear contrasts, factoriat experiments, nested and repeat measure designs, Bonferroni $X^{2}$ tests, linear discrimination analysis canonical correlation. application
689 ADVANCED TOPICS IN STATISTICS
$1-3$ credits
(May be repeated for a total of six credits)
Prerequisite 651. Selected topics in statistics including concepts in order, statistics, advanced inference, sequential analysis, stochastic processes, reliability theory. Bayesian statistics and regression

697 INDIVIDUAL READING
1-2 credits
(May be repeated tor a total of four credits)
Prerequisites: graduate slanding and permıssion. Directed studies in statistics under guidance of selected faculty member.

## MODERN LANGUAGES

## 3500:

placement procedures for new student
Student who has taken one year or less of a foreign language in high school should enroll in 101 Those who have taken more than one year of a foreign language in high school should take the placement test (Counseling and Testing, Simmons Hall 461 ). For placement in third-year courses or higner, department permission is required.

101,2 BEGINNING MODERN LANGUAGE I AND II
4 credits each
(May be repeated for a different language)
Sequential. Reading, speaking, writing and listening comprehension: intensive drili in pronun. ciation; short stories, outside reading and supplementary work in language laboratory.

201,2 INTERMEDIATE MODERN LANGUAGE | AND |I
3 creats each
(May be repeated for a different language)
Sequentiat. Prerequisite: 102 or equivalent. Grammar review, practice in reading, writing speaking and listening comprenension; short stories. piays, novels on intermediate !evei.

490/590 WORKSHOP
2 credits
(May de repeated)
Group studies of special lopics in modern languages.
498 SENIOR HONORS PROJECT IN MODERN LANGUAGES
$1-3$ crecits
(May be repeated for a total of six credits)
Frerequisites senior standing in Honlors Program and permission. Open only to language major enrolled in Honors Program. Independent study leading to completion of senior honors thesis or other original work.

## FRENCH

## 3520:

## 101,2 BEGINNING FRENCH I AND II

4 credits each
Sequentiai. Thorough study of sound system and basic structural patterns of French lan guage, incluting oral practice and reading of simple prose. A placement test is required

201,2 INTERMEDIATE FRENCH I AND II
3 credits each
Sequential. Prerequisite. 102 or equivalent. Audio-oral sections. Practice in reading, writing speaking and listening comprehension. Grammar review, short stories, plays and novels on intermediate ievel. A placement iest is required.

207,8 INTERMEDIATE FRENCH I AND II READING OPTION
3 credus each
Sequential. Prerequisite: 102 or equivalent. Reading and translation of texts dealing with contrasting French and American customs, values and attitudes.

301,2 FRENCH COMPOSITION AND CONVERSATION 3 credits each
Prerequisite: 202 or equivalent. Free composition special attention to vocabuiary and idioms development of oral expression and conversational ability.

305,6 INTRODUCTION TO FRENCH LITERATURE
3 credits each
Prerequisite: 202 cr equivaient. Survey of French literature trom its origins to present, with lectures, reading and class discussion of representative works.

309,10 FRENCH CULTURE AND CIVILIZATION
3 credits each
Prerequisite: 302 or 306 or permission. Audio-visual presentation with class discussions of French cultural heritage from its origins to present. Conducted in French.

312 INDIVIDUAL SUMMER STUDY ABROAD 2 credts
Prerequisites: 202 or equivalent and permission of instructor.
313 FRENCH CIVILIZATION AS SEEN IN THE MOVIES
3 credits
Study and discussion of various aspects of French culture ano civilization as characierized in movies.

## 351,2 TRANSLATION: FRENCH

3 credits each
401 FRENCH PHONETICS
3 credits
Prerequisite: 202 or equivalent Intensive drill in pronunciation with correction and improve. ment of Student's accent, emphasis on articulation. intonation and rhythm.
403.4 ADVANCED FRENCH COMPOSITION AND CONVERSATION 3 creaits each Pierequisite: 302 or equivalent. Thorough analysis of syntax, morphology, phonetic princriples and grammatical structure.

407/507 FRENCH LITERATURE OF THE MIDDLE AGES
4 credts AND THE RENAISSANCE
Prerequisite. 302 or 306 or permission. Reading and discussion of selected Medievat ano Renaissance literary works. Conducted in French.

411/511 17TH CENTURY FRENCH LITERATURE 4 oredits Prerequisite: 302 or 306 or permission. Reading and discussion of selected works in poetry drama and novels. Conducted ini French.

415/515 18TH CENTURY FRENCH LITERATURE
4 credits
Prerequisite: 302 or 306 or permission. Reading and discussion of splected authors: erphat sis on the Philosophies. Conducted in French.
419/519 19TH CENTURY FRENCH LITERATURE
Prerequisite: 302 or 306 of permission. Reating and discussion of selected works pertaining
Prerequisite: 302 or 306 or permission. Reading and discussion of selected works pertaining to romantic, realistic and naturalistic movements. Conducted in French.
427/527 20TH CENTURY FRENCH LITERATURE
4 creaits
Prerequisite: 302 or 306 or permission. Reading and discussion of the most representative works of period. Conducted in French.
450 EXPLICATION DE TEXTES
2 credits
Prerequisite: 302 or 306 or permission. Study of traditional French method of literary analysis based on passages of representative authors from selected periods of French literary history.
471/571 FRENCH LANGUAGE READING PROFICIENCY
4 credits
Designed to develop proficiency in reading comprehension.
497,8 INDIVIDUAL READING IN FRENCH
$1-3$ credits each

## Graduate Courses

601 ADVANCED FRENCH GRAMMAR
4 credils
Advanced study of normative French grammar with emphasis on syntax, morphology, grammatical structure and phonetic principles.

603,4 ROMANCE AND APPLIED LINGUISTICS
4 credits each
History of French language from 842 to present. Second semester deals with application of linguistic research to teaching of French.

607,8 SELECTED TOPICS IN THE MOVEMENT OF IDEAS 4 credits each IN FRENCH LITERATURE
Study of ideas instrumental in shaping French thought and culture.

## 619,20 FRENCH CULTURE EXPRESSED N LITERATURE

4 credits each
Anthropological approach emphasizing social and civic institutions, education, music and arts, value systems and national characteristics.

641 SEMINAR: FRANCOPHONE LITERATURE, CULTURE
2 credits AND CIVILIZATION
Study of various aspects of culture, civilization and literature of French expression outside of France.

642 SEminar: the image of the woman in 2 credits FRENCH LITERATURE
Study of the woman as characterized in French literature from Middle Ages to present
661 FRENCH TEACHING PRACTICUM
2 credits
Prerequisite: teaching assistantship or permission. Orientation and practice of particular aspects of teaching language and culture. Periodical review and evaluation. Credils may not be applied toward degree requirement.
697,8 INDIVIDUAL READING AND RESEARCH SEMINAR
1-4 creaits each
Prerequisite: permission. Independent study and research in specific areas. Considerable reading and writing required.

699 THESIS WRITING
4 crediis

## GERMAN

## 3530:

101,2 BEGINNING GERMAN I AND II
4 credits each
Sequentia! Reading, speaking, writing and listening comprehension; intensive drillin pronunciation; short stories, outside reading and supplementary work in language laboratory.

201,2 INTERMEDIATE GERMAN I AND II
3 credits each Sequential. Prerequisite: 102 or equivalent. Grammar review, reading, writing, speaking, listening comprehension; short stories, plays, noveis on intermediate level; outside reading and supplementary work in language laboratory.

207,8 INTERMEDIATE GERMAN I AND II READING OPTIONS
3 credits each Sequential. Prerequisites: 102 or equivalent and permission. Reading of German texts in culture and civilization, discussion in English, translation and grammatical analysis, Not open to majors.
250 20TH CENTURY GERMAN LITERATURE IN TRANSLATION
2 credits Reading and discussion of works of Mann, Rilke. Hesse, Katka, Benn, Brecht. Frisch, Durrenmatt, Borchert and Grass. May not be taken for credtt toward the major in German.

251 IGTH CENTURY GERMAN LITERATURE IN TRANSLATION 2 credits Reading and discussion of works in Kleist, Heine, Hebbel, Keller, Storm, Meyer and Hauplmann. May not be taken for credif toward the German major.
252 AGE OF GOETHE IN TRANSLATION
2 credits
Reading and discussion of representative drama, prose and poetry of Lessing, Goethe and Schiller. May not be taken for credit toward the German major.

301,2 GERMAN CONVERSATION AND COMPOSITION
3 credits each
Frerequisite: 202 or equivalent. Advanced composition using German modeis, special attention to words and idioms, development of oral expression and conversational ability

305,6 INTRODUCTION TO GERMAN LITERATURE
3 credits each
Prerequisite 202 or equivalent. Introduction to study of German literature Reading and class discussion of representative works Conducted in German.

## 351,2 TRANSLA TION: GERMAN

3 credits each
403,4 ADVANCED GERMAN CONVERSATION AND COMPOSITION

## 3 credits each

Prerequisite: 302 or equivalent. Thorough analysis of syntax. morphology, phonetic principles and grammatical structure.
406,7 GERMAN CULTURE AND CIVILIZATION
3 credits each
Prerequisite: 302 or 306 or equivalent. Particular empnasis on customs, traditions, literary rends and artistic tendencies that constitute German's contribution to Western civilization.

419/519 THE AGE OF GOETHE I
3 creoits
Prerequisite: 302 or 306 or permission. Enlightenment and generation of Sturm und Drang, including works of Wieland, Lessing, Kloptock. Herder, the young Goethe and others. Conducted in German.

420/520 THE AGE OF GOETHE ! 3 credits Frerequisites: 302,306 or permission. Faust selections from parts I and II. Ballads of Goethe and Schiller. Conducted in German.

## 431/531 200 YEARS OF GERMAN DRAMA

3 credits
Prerequisite: 302 or 306 or permission Representative works of major ciassical dramatics including Lessing, Goethe, Schiller, Kleist, Griliparzer. Conducted in German.

432/532 200 YEARS OF GERMAN DRAMA
3 credits
Prerequisite: 302 or 306 or permission. Representative works of the major dramatists. Buchner, Hebbel, Hauptmann and Wedekind. Conducted in German.

## 35/535 GERMAN SHORT STORY

3 credits
Prerequisite: 302 or 306 or permissian. Reading and discussion of representative works of German romanticism, including those of Tieck, Kleist, E. T. A. Hoffman, Brentano, Eichendorft. Conducted in German.

436/536 GERMAN SHORT STORY
3 credits
Prerequisite: 302 or 306 or permission. Reading and discussion of works representative of the period, including those of Droste-Hulshoff, Stifter, Keller, Meyer, Storm. Conducted in German.

439/539 20TH CENTURY LITERATURE 1
3 credits
Prerequisite: 302 or 306 or permission. Clash of the old and the new at the turn of the century Works of T. Mann, Hauptmann, Kaiser, Hotmannsthal, Aike, Wedekind and others. Conducted in German.

440/540 20TH CENTURY GERMAN LITERATURE II
3 credits
Prerequisite: 302 or 306 or permission. impact of modernity. Reading and discussion of writings of Hesse, Kafka, Doblin, Werfel and others. Conducted in German.

471/571 GERMAN LANGUAGE READING PROFICIENCY
4 creaits
Designed to develop proficiency in reading comprehension.
497,8 INDIVIDUAL READING IN GERMAN
1-3 credits each
Prerequisite: permission.

## ITALIAN

## 3550:

101,2 BEGINNNING ITALIAN (AND il
Sequential. Reading, speaking, writing and listening comprehension; intensive drill in pronunciation; short stories, outside reading and supplementary work in language laboratory

201,2 INTERMEDIATE ITALIAN I AND If
3 credits each
Sequential. Prerequisite: 102 or equivalent. Grammar review, practice in reading, writing. speaking and listening comprehension, short stories, plays, novels on intermediate level; outside reading and supplementary work in language laboratory.

207,8 INTERMEDIATE ITALIAN I AND II READING OPTION 3 credits each Sequential. Prerequisite: 102 or equivalent. Readings cover various aspects of Italian culture through the centuries, with particular emphasis on history, literature, aft and contemporary Italian way of life as compared with American one
250 GENIUS OF ITALIAN LITERATURE IN TRANSLATION
2 crediis Reading and discussion of works of Dante, Petrarca, Boccaccio. Ariosto. Machiavelli, Ceilini, Tasso, Bruno and Pirandello De Fillippo

301,2 ITALIAN COMPOSITION AND CONVERSATION
3 credits each
Prerequisile: 202 or equivalent. Italian composition using Italian models, special attention to words and idioms and development of oral expression and conversational ability.

305,6 INTRODUCTION TO LITERATURE 3 credils each
Prerequsite: 202 or equivalent. Introduction to study of Italian literature. Reading and class discussion in italian of representative works.

497 INDIVIDUAL READING IN ITALIAN
1-3 credits Prerequisite permission.

## RUSSIAN <br> 3570:

101,2 BEGINNING RUSSIAN I AND II
4 credils each
Reading, speaking, writing, and understanding: intensive drili in pronunciation and supplementary work in language laboratory

201,2 INTERMEDIATE RUSSIAN I AND II 3 credits each Prerequisite: 102 or equivalent. Grammar review, practice in reading, writing, speakirg; short stories, novels on intermediate level; outside reading and supplementary work in language laboratory.

207,8 INTERMEDIATE RUSSIAN I AND II READING OPTION 3 credits each Sequential. Prerequisite: 102 or equivalent. Reading of texis in Russian deating with culture of Russian-speaking people. Discussion of content of these texts in English along with review of grammar to extent necessary for accurate understanding of texts Not open to majors.

301,2 RUSSIAN COMPOSITION AND CONVERSATION 3 credits each
Prerequisite: 202 or equivalent. Advanced composition using Russian models, special attention to words and idioms; development of oral expression and conversational ability.

305,6 INTRODUCTION TO RUSSIAN LITERATURE 3 credils each
Prerequisite: 202 or equivatent. Reading and class discussion in Russian of representative works.

309,10 RUSSIAN CIVILIZATION AND CULTURE 3 credits each Prerequisite: 202 or equivalent. Reading and discussion of Russian texts relating to developments in Russian civilization and culture.
351,2 TRANSLATION: RUSSIAN 3 credits each
403.4 ADVANCED RUSSIAN COMPOSITION AND CONVERSATION 3 credits each

Prerequisite: 302 or equivalent. Thorough analysis of syntax, morphology. phonetic principles and grammatical structure.
411.2 SCIENTIFIC RUSSIAN 3 credits each

Frerequisite: 202 or equivalent. intensive reading of scientific articles in chemistry, physics. mathematics, biology and medicine.

420,1 RUSSIAN LITERATURE OF THE 19TH CENTURY: 3 credits each ROMANTICISM AND REALISM
Prerequisites: 301 or 302 or permission. Readings from representative authors such as Pushkin. Lermontov, Gogo!, Turgenev, Dostoyevsky. Tolstoy, Goncharov and others.

427,8 RUSSIAN LITERATURE OF THE 20TH CENTURY 3 credits each
Prerequisite: 202 or equivalent. Reading and discussion of selected literary works from Gorky to Solzhenitsyn.

439 ADVANCED RUSSIAN SYNTAX, GRAMMAR AND 3 credits CONVERSATION
Prerequisite: 404 or equivaient. Advanced work in composition, translation into Russian and idiomatic use of the spoken language.

497,6 INDIVIDUAL READING IN RUSSIAN
1-3 credits each
Prerequisite: permission

## SPANISH

## 3580:

101,2 BEGINNING SPANISH I AND II
4 credits each
Sequentiai. Reading, speaking, writing and listening comprehension intensive drill in pronunciation; short stories, outside reading and supplementary work in language laboratory.

201,2 INTERMEDIATE SPANISH I AND II
3 credits each Sequential. Prerequisite: 102 or equivalent. Grammar review. practice in reading, writing. speaking and listening comprehension; short stories, plays novels on intermediate level: outside reading and supplementary work in language laboratory.

207,8 INTERMEDIATE SPANISH I AND II READING OPTION 3 credits each Sequential. Prerequisites: 102 or equivalent and permission. Reading of texts in Spanish dealing with culture of Spanish-speaking pecple. Not open to majors.

301,2 SPANISH COMPOSITION AND CONVERSATION
3 credils each
Prerequisite 202 or equivalent. Advanced composition using Spanish models. special attention to words and idioms, development of oral expression and conversational ability.

305 INTRODUCTION TO HISPANIC LITERATURE 4 credits Prerequisite: 202 or equivalent. Reading and discussion of works written in Spanish with emphasis on the literature ot contemporary authors. Conducted in Spanish.
311 SPANISH/SPANISH-AMERICAN CULTURAL EXPERIENCE $1-2$ credits
Prerequisite: permission. Student's residence and/or independent study in Spanish-speaking country which results in demonstrable assimilation of country's culture may earn a maximum of two credits.

350 CONTEMPORARY LATIN AMERICAN FICTION IN TRANSLATION
3 credits
(May not be taken for credit toward the Spanish major.)
Reading discussion of novels. short siories of major Spanish American and Brazilian writers. Designed as an elective for upper-level students. Texts and discussion in English.

351,2 TRANSLATION: SPANISH
3 credits each
401,2 ADVANCED COMPOSITION AND CONVERSATION
3 credits each
Prerequisites: 202 (or equivalent) and permission. Development of proficiency in speaking and writing Spanish at a level beyond that achieved in 301.2. Conducted in Spanish.

403 ADVANCED GFAMMAR
3 credits
Frerequisite: 302 or equivalent. Thorough analysis of syntax, morphology, phonetic principles and grammatical structure.

407/507 MEDIEVAL AND RENAISSANCE SPANISH LITERATURE
4 credits
Prerequisite: 305 or permission. Reading and discussion of representative works that mark beginnings of Spariish literature in poetry, prose and drama, with emphasis given to the major works: Cantar de Mio Cid, El Libro de Buen Amor, La Celestina and the ballads. Conducted in Spanish.

409,10 LINGUISTICS
3 credits each
Prerequisite: 302 or permission. Introduction to linguistics focusing on Spanish; includes phonetics: comparative and historical iinguistics; traditional, structuralist and transformationalist theories of grammar, together with practical applications for Spanish majors.

411/511 SPANISH LITERATURE OF THE GOLDEN AGE
4 credits
Prerequisite: 305 or permission. Reading and discussion of representative novels and short stories with special emphasis on works of Miguel de Cervantes. Drama, poetry and essays of 16th and 17th Centuries studied. Conducted in Spanish.

412/512 CERVANTES: DON QUIJOTE
4 credits
Prerequisite: 305 or permission of the instructor. Reading and analysis of Don Quijote as the first modern novef in the historical context of Renaissance and Baroque esthetics. Conducted in Spanish.

415/515 18TH AND 19TH CENTURY SPANISH DRAMA ANO POETRY 4 credits Prerequisite: 305 or permission. Reading, discussion and lectures. Study of Neoclasicismo and Romanticismo. Conducted in Spanish
4161516 19TH CENTURY SPANISH PROSE 4 credits Prerequisite: 305 or permission. Reading, discussion and lectures. Study of Realismo, Naturalismo and La Generacion de! 98. Conducted in Spanish.

418/518 20TH CENTURY SPANISH PROSE
4 credits
Prerequisite: 305 or permission of the instructor. Reading and analysis of representative writers of prose fiction with a selection of works that ithustrates maior developments and themes. Conducted in Spanish.

419/519 20TH CENTURY SPANISH DRAMA/POETRY
4 credits
Prerequisite: 305 or permission of the instructor Feading and analysis of representative writers of drama and poetry with a selection of works that illustrates the major developments and themes in both genres. Conducted in Spanish

422/522 SPECIAL TOPICS IN HISPANIC CULTURE
$1-4$ credits
(May be repeated)
Reading and discussion of significant works in literature or cuiture in Spain and Latin America not studied in other courses

423/523 SPANISH-AMERICAN LITERATURE BEFORE 1900
4 credis
Prerequisite: 305 or permission. Reading of representative Spanish-American literature from the discovery to $\$ 900$. Oral and written reports. Conducted in Spanish.
$424 / 524$ 20TH CENTURY SPANISH-AMERICAN LITERATURE
4 credits Prerequisite: 305 or permission. Reading and analysis of selected dramas, essays, poems and short fiction written by outstanding Spanish-American authors of this century. Conducted in Spanish.

425/525 20TH CENTURY SPANISH-AMERICAN NOVEL
4 credits
Prerequisite. 305 or permission. Feading and discussion of representative contemporary Latin American novels Conducted in Spanish.

427,8/527,8 SPANISH AND SPANISH-AMERICAN CULTURE 4 credits each AND CIVILIZATION
Prerequisite: 302 or 306 or permission. Emphasis on customs, traditions, ilterary trends and artistic tendencies ihat constitute Spain's specific contricution to Western civilization. Study of Spanish-speaking world Conducted in Spanish.

430/530 WOMEN IN 20TH CENTURY HISPANIC LITERATURE 4 credils Prerequisite: 305 or permission. Reading and analysis of selected works from the 20 th Century that depict women in Hispanic countries. Methodologies of teminist criticism will be studied Conducted in Spanish.

471/571 SPANISH LANGUAGE READING PROFICIENCY
4 credits
Designed to develop proticiency in reading comprehension.
497 INDIVIDUAL READING IN SPANISH
$1-3$ credits
Prerequisite: permission

## Graduate Courses

601 SEMINAR ON MEDIEVAL SPANISH LITERATURE
4 credits
Reading and discussion of monumental medieval literary works of Spain such as Poema de Mio Cid. El Conde Lucanor, EI Libro de Buen Amor. Conducted in Spanish.

605,6 SEMINAR IN HISPANIC LINGUISTICS
4 credits each
Advanced topics in comparative, historical and descriptive Hispanic linguistics studied from contemporary theoretical perspectives; includes practical applications.

## 609,10 SEMINAR ON SPANISH LITERATURE OF THE GOLDEN AGE: <br> 4 credits each SEMINAR ON 18TH AND 19TH CENTURIES <br> SPANISH LITERATURE <br> Reading and discussion of representative writers from Renaissance to late Baroque period

 Studies in essay, novel, theatre, poetry and philosophic writings. Conducted in Spanish.613 SEMINAR ON SPANISH-AMERICAN LITERATURE
4 credits
Studies in representative writers preceding the "Boom." Reading and discussion of varıous genres and authors representing significant literary developments. Conducted in Spanish.

617 SEMINAR ON 2OTH CENTURY SPANISH-
AMERICAN LITERATURE
Reading and discussion of contemporary writers with emphasis on theatre, novel and short story. Conducted in Spanish.

621 SEMINAR ON 2OTH CENTURY SPANISH LITERATURE
4 credits
Studies in representative present-day writers with analyses and discussions of novel, theatre poetry and short stories. Conducted in Spanish.

661 SPANISH TEACHING PRACTICUM
2 credits
Prerequisite: teaching, assistantship or permission. Orientation and practice of particular aspects of teaching Spanish language and culture. Student teaching experiences are periodcally reviewed and evaluated These credits may not be applied to ward degree requirements

697,8 INDIVIDUAL READINGS IN SPANISH 1.4 credits each

Content of given individual reading program taken from course contents approved for graduate work in Spanish.

699 THESIS WRITING
4 credits

## PHILOSOPHY

## 3600:

## 101 INTRODUCTION TO PHILOSOPHY

3 credits
Introduction to philosophic problems and attitudes through acquaintance with thoughts on some leading thinkers of Western tradition.

120 INTRODUCTION TO ETHICS 3 credits introduction to problems of moral conduct through readings from the tradition and class discussions; nature of "good." "right," "ought" and "freedom."

125 THEORY AND EVIDENCE 3 credits
An investigation of the concept of evidence and the criteria for the evaluation of theories in various areas of study including the natural sciences, the social sciences and philosophy The role of scientific information in the formation and justification of value judgments.

170 INTRODUCTION TO LOGIC
3 creaits
Introduction to logic and critical thinking. Includes such topics as meaning, informal fallacies, propasitional logic predicate and syllogistic logic and nature of induction.

211 HISTORY OF ANCIENT PHILOSOPHY
3 credits
History and development of ancient Greek philosophy from pre-Socrates to Aristotie. Read ings of primary sources in fransiation.

## 216 AMERICAN PHILOSOPHY <br> 3 credits

Prerequisite: one course in philosophy or permission of instructor. Movement of ideas in American from Royce to present.

232 PHILOSOPHY OF RELIGION
3 credits
Prerequisites: two philosophy courses. Discussion, anaiysis of problems of theology, nature of reigious experience, God's nature, existence; immortality, sin, taith, reason; holy revelation, redemption.

280 SOPHOMORE TOPICS IN PHILOSOPHY
1-3 credits (May be repeated for a total of six credits)
Prerequisite: permission of instructor. Selected topics in phitosophy at the sophomore level.

## 312 HISTORY OF MEDIEVAL PHILOSOPHY

3 credils History of Western philosophy from end of Roman Empire to Renaissance. Major philosophers studied include St. Augustine, St. Anselm, Peter Abelard, St. Thomas Aquinas, Duns Scotus and William of Ockham. Readings from primary sources.

## 313 HISTORY OF MODERN PHILOSOPHY

3 credits
Analysis of major philosophical issues of 17 th and 18 th Centuries from Descartes through Kant Readings of primary sources in translation.

## 314 19TH CENTURY PHILOSOPHY

3 credits
Prerequisite: one course in philosophy or permission of instructor Inquiry into philosophically significant ideas of Hegel, Marx, Schopenhauer, Mill, Kierkegaard and Nietzsche.

323 ADVANCED TOPICS IN ETHICS
3 credits
Prerequisite: one course in philosophy or permission of instructor. An examination of selected topics in Ethical Theory such as the Naturalistic Fallacy. Ethical Non-Cognitivism, Prescriptivism, Theories of Rights. Theories of Punishment, Nihilism, Relativism, Moral Skepticism Specific topics will be announced in the course schedule.

324 SOCIAL AND POLITICAL PHILOSOPHY
3 credits
Prerequisite: one course in philosophy or permission of instructor. An examination of the normative justification of social, political institutions and practices. Analyses concepts such as rights, justice, equality, political obligation from historical as well as contemporary points of view. Application to particular social issues covered.

332 DIALECTICAL MATERIALISM
3 credits
Prerequisite: 324 er permission of instructor. Includes Hegelian and other origins as well as its development in writings of Marx, Engels, Lenin and contemporary writers. Focus on metaphysics, social philosophy, philosophy of history, nature of man, ethics, aesthetics.

350 PHILOSOPHY OF ART
3 credits
Prerequisite: One course in philosophy or permission of instructor. An examination of theories of the nature of art and the grounds of aesthetic evaluation. Analysis of such concepis as representation. form, content, expression, institution. convention, meaning, truth as they apply in the context of the arts

371 PHILOSOPHY OF MIND
3 credits
Nature of mind and the relationship between mind and body. Specific topics such as the limits of human reason, personalidentity, the role of human thought in action and whether machines car think are also considered.

374 SYMBOLIC LOGIC
3 credits
Prerequisite: 170 or permission of instructor. Detailed consideration of propositional and first-orger predicate logic. Introduction to class logic, modal logics and axiomatics.

380 JUNIOR TOPICS IN PHILOSOPHY
1-3 credits
(May be repeated for a tolal of six credits)
Prerequisite: permission of instructor. Selected topics in philosophy at the junior level
390 JUNIOR HONORS COLLOQUIUM
3 credits
Prerequisite: junior standing in Honcrs Program or junior honors standing as philosophy major or permission of instructor or nomination by department faculty member. Selected readings, research, writing and defense of one or more philosophical projects. Preparation and founda tion for senior honors project in philosophy

411/511 LATER DIALOGUES OF PLATO
3 credits
Prerequisites: one introductory course and 211 or permission of instructor. Readings of dialogues in translation, commencing with Theatetus inciuding. Parmenides, Sophist Statesman, Philebus

418/518 ANALYTIC PHILOSOPHY
3 credits
Prerequisites: 211, 312 and 313 or permission of instructor. Study of ideal and ordinary language movements in 20th Century British and American philosophy. Deals with such tigures as Russell, Carnap. Ayer, Moore. Wittgenstern, Ryle and Austen.

419/519 BRITISH EMPIRICISM
3 credits
Prerequisites one introductory course and 313 or permission of instructor. Intensive analy sis of selected major writings of Locke. Berkeley and Hume.

421/521 PHILOSOPHY OF LAW
3 credits
Prerequisite: one course in philosophy or permission of instructor. Philosophical inquiry into the nature of law and legal institutions

422/522 CONTINENTAL RATIONALISM 3 credits
Prerequisites: one introductory ccurse and 313 or permission of instructor. Intensive analysis of selected major writings of Descartes, Spinoza and Leibnitz.

424/524 EXISTENTIALISM
3 credits
Prerequisites: one introductory course in philosophy, 314 or permissicn of instructor. In-depth inquiry into the thought of Kierkegaard, Jaspers, Heidegger, Sartre, Tillich and other existentialists with their concern for mar and his human condition.

426/526 PHENOMENOLOGY
3 credits
Prerequisites one introductory course, 314 or permission of instructor. inquiry into methodology of Husserl and Heidegger and their influence upon Western European and American thought.

## 432/532 ARISTOTLE

3 credits
Prerequisites: 211,312 and 313 or permission of instructor. Detailed stugy of Aristolle's metaphysics, philosophy of nature, philosophy of man and ethics. Taught in alternate years

## 434/534 KANT

3 credits
Prerequisite: 313 or permission of instructor. Study of Kantian system of thought and its relation to history of philosophy. Includes thorough investigation of one or more of Kant's philosophic works.

444/544 PROBLEMS IN PHILOSOPHY
3 credits
Prerequisites: two courses in philosophy or permission of instructor. Thorough, critical examination of one major philosophical problem

462/562 THEORY OF KNOWLEDGE
3 credits
Prerequisites: three courses in philosophy. Examination of riature of knowledge, theories of perception, conception and truth problem of induction and relation of language to knowledge.

## 464/564 PHILOSOPHY OF SCIENCE

3 credits
Prerequisites 101, 170 of permission of instructor. Nature of scientific inquiry, types of explanation, laws and causality, theoretical concepts and reality. Also considers critics of hypothetical-deductive view of science. e.g. Hanson and Kuhn.

471/571 METAPHYSICS
3 credits
Prerequisites: 211,312 and 313 or permission of instructor. Theories about ultimate nature and ultimate explanation of reality. Uses readings from classical and contemporary sources

490 SENIOR HONORS PROJECT IN PHILOSOPHY
$1-6$ credits
(May be repeated for a total of six credits)
Prerequisite. 390 or senior standing in Honors Program or senior honors standing as philosophy major or permission of instructor or nomination by department facuity member. Research leading to completion of senior honers thesis involving original work under faculty supervision.

## 497/597 INDIVIDUAL STUDY

1.3 credils
(May be repeated for a total of six credits)
Prerequisites: completion of reauired courses of philosophy major or permission of instructor and department head. Directed independent study of philosopher, phitosophy or philosophicai problem undef guidance of selected faculty member. Subject matter determined by selected faculty member in consultation with student Graduate credit requires significant additional work which may include additionai research paper

## Graduate Courses

## PHYSICS

## 3650:

130 DESCRIPTIVE ASTRONOMY 3 credits
Qualitative and non-mathernatical iniroduction to subjects of astronomy and asirophysics,
intended primarily as a firsi science course for students not majoring in physical science.

133 MUSIC, SOUND AND PHYSICS 3 credits
Qualitative introduction to sound production, perception and reproduction, with emphasis on music.

137 LIGHT 3 credits
Introductory qualitative course dealing with nature of light, and interaction of lighi with material objects to produce common visual effects.

138 PROPERTIES OF LIGHT LABORATORY
1 credit
Prerequisite or corequisite: 137 or permission. Introductcry laboratory dealing qualitatively and quantitatively with properties of light and interaction of light with material objects.

141 PHYSICS, ENERGY AND MAN
3 credits
Intreductory, qualitative course dealing with nature of energy including its availability, conservation and itilization by man. Energy resources; conversion efficiencies; environmental effects of energy production; recent developments.
160 PHYSICS IN SPORTS
3 crectits
An introduction to physics, particularly mechanics. Athletic activities utiized to illustrate principles.

261 PHYSICS FOR THE LIFE SCIENCES I
4 credits
Prerequisites: high school algebra. trigonometry or $3450: 149$ as corequisite or permission. Introductory course for protessional work in biology and health protessions and services. Emphasizes life science applicaticns. Mechanics laws of motion, force, brque, work, energy. power; properties of matter: gases, liquids, solids fluid mechanics.

262 PHYSICS FOR THE LIFE SCIENCES II
4 credits
Prerequisite: 261. Laws of thermodynamics, kinetic theory. Wave phenomena: sound, light. optics; electricity and magnetism; atomic and nuclear physics; radioactivity.

267,8 LIFE SCIENCE PHYSICS COMPUTATIONS I AND II
1 credit each
Corequisites: 261 (with 267), 262 (with 268). Optional companiorl courses to 261,2 provides additional computational experience in applications of physics to life sciences, emphasizing use of aigebra and trigonometry. Particularly recommended for student with modest mathematical preparation.
291 ELEMENTARY CLASSICAL PHYSICS I
4 credits
Corequisite: 3450:221, Introductory physics for student of science and engineering Classical statics, kinematics and dynamics, as related to contemporary physics. Oscillations, waves; fluid mechanics. Vectors and some calculus introduced as needed.

292 ELEMENTARY CLASSICAL PHYSICS I
4 creaits
Prerequisite: 291. Thermodynamics from atomic point of view: basic laws of electromagnetism; mechanical and electromagnetic waves. Interference and diffraction; coherenoe geometrical and physical optics

293,4 PHYSICS COMPUTATIONS I AND II
t credi each
Corequisite: 291 (with 293), 292 (with 294). Optional companion courses to 291,2 provides experience in problem solving and elaborates application of calculus to simple physical phenomena Particularly recommended for a freshman and for student with modest prepara tion in mathematics or physical sciences

301 ELEMENTARY MODERN PHYSICS
3 credits
Prerequisite: 292 or permission of instructor. Special relativity, introduction to quantum physics, hydrogen atom and complex atoms, atomic spectra, topics in nuclear and solid-state physics.

310 ELECTRONICS
3 credits
Prerequisite. 262 or 292 . $A C$ and DC circuit theory, digital integrated logic circuits. ccunters. digitai waveshaping. $A$ to $D$ and $D$ to $A$ conversion and applications.

320 OPTICS
3 credits
Prerequisites: $26 \hat{2}$ or 292 and 3450223 . Geometric optics: reflection. mirrors. refraction. lenses, optical instruments. Physical optics: waves, superposition, coherence, lasers, interference diffraction, absorption and scattering, dispersion, doubie refraction. polarization optical activity.

321 PHYSICS LABORATORY TECHNIQUES
2 credits
Prerequisite permission of instructor. Design and fabrication of simple mechanical systems, photography in data collection, electronic chassis construction, printed circuit techniques, optical measuring instruments.

322,23 INTERMEDIATE LABORATORY $\dagger$ AND II
2 credits each
Prerequisite: 262 or 292 . Laboratory course stressing measurement techniques with contemporary laboratory apparatus. Experiment design, instrument calibration and reporting emphasized. Modern physics experiments and measurement of fundamental natural constants.

325 LABORATORY DATA ANALYSIS
3 credits
Prerequisites 292 and 3460:209. Numerical methods for analysis of laboratory data Computer methods and programs to draw correct inferences and maximize usetuiness of laboratory data.

331,2 ASTROPHYSICS I AND II
3 credits each
Prerequisite: 262 or 292 . One-year comprehensive, qualitative course recommended for student majoring in physics or natural science, and for secondary schoolteachers and others desiring comprehensive survey of astronomy and astrophysics at intermediate kevel.

3 credits
340 THERMAL PHYSICS Preric principles of thermal and statistical physics. Ensembles, !aws of thermodynamics, equiliorium, irreversibility. equipartition thecrem, canonical distribution, Maxwell distribution, phase changes, cyclic processes, transport processes.

350 COMPUTATIONAL PHYSICS
3 credits
Prerequisites 292 , or 262 and 3450.221 , and $3460.201,3460210$, or 4100206 Numerica techniques for computer solutions to physics problems. including mechanics. gravitation. electricily and magnetism, and modern physics.

399 UNDERGRADUATE RESEARCH
1-6 credits
(May be repeaied)
Prerequisite: permission of instructor. Participation in current research project in department under supervision of faculty member.

400/500 HISTORY OF PHYSICS
3 credifs
Prerequisite: 262 or 292 . Study of origin and evolution of maior principles and concepts characterizing contemporary physics.

406/506 WAVES
3 credts
Prerequisite: 262 or 292. Analysis of phenomena common to all waves, including free oscillations, forced oscillations, traveling waves, reflection, polarization, interference and diffraction. Water, sound, electromagnetic, seismic and deBroglie waves examined
431/531 MECHANICS I
3 credits
Prerequisites: 292 and 3450:235. Mechanics at intermediate level Newtonian mechanics motion of a particle in one dimension, central field problem, system of particles, conservation laws, rigid bodies, gravitation

432/532 MECHANICS II
3 credits
Prerequisite: $431 / 531$. Advanced mechanics at the sentor or beginning graduate level moving coordinate systems, mechanics of contimuous media, Lagrange's equations, tensor algebra and stress analysis, rotation or rigid bodies, vibration theory.

436/536 ELECTROMAGNETISM I
3 credits
Prerequisites 292, 3450 :235 or permission of instructor. Electricity and magnetism at intermediate level. Electrostatics and magnetosiatics, electric field, scalar potential, dielectrics. Laplaces and Poisson's equations, currents, magnetic tield, vector potential, magnetic materials, inductance.

## 437/537 ELECTROMAGNETISM II

3 credts
Prerequisite: $436 / 536$. Specia! relativity four vectors, Maxwell's equations in covariant form: propogation, reflection and refraction of electromagnetic waves multipole radiation.
$438 / 538$ METHODS OF APPLIED PHYSICS
3 credits
Topics design performance, interpretation, reporting of physicai measurements: the scientific method measuremsnts. their uncertainties, principles of experimentation. measurement devices, data resolution and analysis, inference.

## 441/541 QUANTUM PHYSICS I

3 credits
Prerequisites: 301 and 3450235 Laboratory course stressing measurement techniques with contemporary laboratory apparatus. Experiment design, instrument catioration and reporting emphasized. Modern physics experiments and measurements of fundamental natural constants.

442/542 QUANTUM PHYSICS II
3 credits
Prerequisite. $441 / 541$. Applications of quantum mechanics to atomic, nuclear and solid state physics. Tunneling and atpha decay, periodic potential. Hydrogen and Helium atoms, interatomic forces, quantum statistics.

451,2/551,2 ADVANCED LABORATORY I AND II
2 credits each
Prerequisite: 323 or permission of instructor. Applications of electronic, solid-state devices, techniques to research-type projects in contemporary physics. Introduction to resonance techniques: nuclear magnetic resonance, election spin resonance nuclear quadrupole resonance. Scintillation spectroscopy. Aipha- and beta-ray spectroscopy
468/568 DIGITAL DATA ACQUISITION
3 credits
Prerequisite: 262 or 292 . Designed to introduce science and mathematics stidents to use of digital techniques of interfacing instruments to microcomputers. Physical measurements and device control are emphasized.

470/570 INTRODUCTION TO SOLID-STATE PHYSICS
3 creaits
Prerequisite: 441 or permission of instructor. Account of basic physical processes occurring in solids, with emphasis on fundamental relation between these processes and periodicity of crystalline lattice.

471,2/571,2 NMR SPECTROSCOPY I AND II
2 credits each Prerequisite: 292 or permission of instructor. Theoretical basis and experimental techniques of NMR spectroscopy. Ciassicai concepts and quantum mechanical treatments of NMR. Bloch equations; spin-spin and spin-lattice relaxation times. Steady state and transient phenomena. General features of broadline and high-resolution NMR spectra. NMR instrumentation ano operating principles. Theory and analysis of high-resolution NMF spectra. Quantitative applications of broadline and high-resolution NMR spectra and determination of physical and chemical struclures.

481,2/581,2 METHODS OF MATHEMATICAL PHYSICS I AND II
3 credils each Prerequisites: 292, 3450:235 and senior or graduate standing in a physical science or engineering Vectors. generalized coordinates, tensors, calculus of variations, vectorspaces, linear transtormations, matrices, eigenvalues. Hilbert space, boundary value problems, transcendental functions, complex variables, analytic functions, Green's functions, integral equations.

## 487/587 LABORATORY PROJECTS

1-3 credits
(May be repeated)
Prerequisite: permission. Design of laboratory apparatus experiments, techniques or demonstrations.

488/588 SELECTED TOPICS: PHYSICS $\quad 1-4$ credits (May de repeated)
Prerequisite: permission Consideration of seiected topics, procedures, techniques, materials or apparatus of current interest in physics.

490/590 WORKSHOP 1.4 credits
(May be repeated)
Group studies of special topics in physics. May not be used to meet undergraduate or graduate major requirements in physics. May be used for elective credit only.

## 497/597 INDEPENDENT STUDY

$1-4$ credils
(May be repeated)
Prerequisite: permission. Further investigations of various selected topics in physics, under guidance of faculty member.

## Graduate Courses

605 COMPUTER PHYSICS: NUMERICAL SOLUTIONS
3 credits TO PHYSICS PROBLEMS I
Prerequisite: permission. Review of FORTRAN and basic topics in computer science. Numerical solutions to physics probiems, including Newton's and Schrodinger's equations. Treatment and reduction of experimental data, plotting, simulation

606 COMPUTER PHYSICS: NUMERICAL SOLUTIONS
3 credits TO PHYSICS PROBLEMS II
Prerequisite: 605 or permission. Data reduction, Calcomp plotting, comparison of theoretical models with data, linear and non-linear least squares curve-fitting May accommodate scientific problems of individual interest.

## 615 ELECTROMAGNETIC THEORY

3 credits Prerequisite $437 / 537$ or permission of instructor. Electrostatics and magnetostatics at advanced level for graduate students, boundary vaiue problems, dielectrics, multipole expansions, time-varying fields, Maxweil's equations and electromagnetic waves, reflection, refraction, wave guides and cavities.

616 ELECTROMAGNEIIC THEORY II
3 credits
Prerequisite: 615. Scattering and diffraction, plasma physics special theory of relativity. dynamics of relativistic particles in fields, collisions of charged particles, radiation from moving charges, bremsstrahiung, multipoie fields.

## 625 QUANTUM MECHANICS

3 creaits
Prerequisites: $441 / 541,481 / 581$ or permission of instructor. Basic concepts of quanturn mechanics, fepresentation theory, particie in a central tield, addition of anguiar momenta and spins. Clebsch-Gordon coefficients, perturbation theory, scattering, transition probabilities.

626 QUANTUM MECHANICS I
3 credifs
Prerequisite: 625 . Foundations of relativistic quantum mechanics. Klein-Gordon and Dirac equations, spin-zero particle and spin- $1 / 2$ particles in electromagnetic field, second quantization of bosons and fermions, superfluidity and superconductivity.

631 PHYSICS OF POLYMERS I
2 credits
Prerequisite: $3450: 235$ or permission of instructor. Polymeric states of matter, crystallinity. rubber elasticity, viscoelasticity, transport and electrical properties, glassy state, fracture processes. Elasticity at large strains, phenomenological viscoelasticity. dielectric properties, diffusion. Introduction to NMR spectroscopy of polymers.

632 PHYSICS OF POLYMERS II
2 credits
Prerequisite: 631 of permission. Phase transitions, fermperature dependence of mechanical and electrical properties, crystalline polymers, kinetics of crystailization, fracture, adhesion. wear. Applications of NMF spectroscopy to polymers.

635,6 PHYSICS OF POLYMERS LABORATORY I ANO II
2 credits each
Prerequisite: 291; corequisites: 631, 632. Selected laboratory experiments illustrating principles and methods discussed in 631, 632.

## 641 LAGRANGIAN MECHANICS

3 credits
Prerequisite: 432/532 or permission of instructor Principle of leasi action and Lagrangian equation of motion, conservation laws. integration or equation of motion, collisions, small oscillations, Hamitton's equations, canonical transformations

661 STATISTICAL MECHANICS
3 credits
Prerequisite: $442 / 542$ or permission of instructor. Fundamental principles of statistical mechanics. Gibbs, Fermi and Bose Statistics, sotids, liquids, gases phase equilibrium, chemical reactions.

## 684 ADVANCED NUCLEAR PHYSICS

3 credits
Prerequisite: 626. Quantum mechanics applied to nucleus. Interaction of radiation with nucleus, nuclear scattering, nuclear reactions; energy levels of nuclei.

## 685 SOLID-STATE PHYSICS !

3 credits
Prerequisites: 470,625 or permission of instructor. Theory of physics of crystalline solids. Properties of reciprocal lattice and Bloch's theorem. Lattice dynamics and specific heat. Electron states; cellular method, tight-binding method. Green's function metnod.

686 SOLID-STATE PHYSICS II
3 credits
Prerequisite: 685 Orthogonalized plane and pseudo potentials. Electron-electron interaction;
screening by impurities. Friedel sum rule and plasma oscillations. Dynamics of electrons, transport properties and Fermi surface.

689 SPECIAL PROBLEMS IN THEORETICAL PHYSICS
$1-4$ credits
(May be repeatea)
Prerequisite: permission. intended to tacilitate expansion of particular areas of interest in theorelical physics, by consultation with faculty member and independent study beyond available course work.

690 SPECIAL PROBLEMS IN EXPERIMENTAL PHYSICS
$1-4$ credits
(May be repeated)
Prerequisite: permission. Intended to encourage development of experimental techniques in selecteri areas, under taculty supervision.

691 SEMINAR IN THEORETICAL PHYSICS
1-3 credits
(May be repeated)
Prerequisite: permission.
692 SEMINAR IN NMR SPECTROSCOPY
$1-3$ credits
(May be repeated)
Prerequisite permission.

## 693 SEMINAR IN SOLID-STATE PHYSICS

1-3 credits
(May be repeated)
Prerequisite: permission.

## 697 GRADUATE RESEARCH

$1-5$ credits
Prerequisite: permission. Candidates for M.S. degree may obtain up to five credits for faculty supervised research projects. Grades and credit received at completion of such projects.

698 SPECIAL TOPICS: PHYSICS
$1-4$ credits
Prerequisite: permission Enables student who needs information in special areas, in which no formal course is offered, to acquire knowledge in these areas.

## 699 MASTER'S THESIS RESEARCH 1 credit

Prerequisite: permission. With approval of department, one credit may be earned by candidate for M.S. degree upon satistactory completion of a master's thesis.

## POLITICAL SCIENCE

## 3700:

100 GOVERNMENT AND POLITICS IN THE UNITED STATES
4 credits
Examination of American political system with emphasis on fundamental principles. ideas, institutions and processes of modern government. Lecture and discussion sections (day classes only).

120 CURRENT POLICY ISSUES
3 credits
Survey of contemporary pubtic policy issues by applying a broad conceptual tramework
Cannot be used for credit toward major in political science.

200 COMPARATIVE POLITICS 4 credils
Introduction to comparative political analysis; description of political systems of Greai Britain, France, Germany and Soviet Union; contrast between democracy and totalitarianism.
201 INTRODUCTION TO POLITICAL RESEARCH
3 credits
Introduction to the research process in political science through an introduction to the logic of social science inquiry and contemporary techniques of analysis.

210 STATE AND LOCAL GOVERNMENT AND POLITICS 3 credils
Examination of institutions, processes and intergovernmental relations at state and local levels.
220 AMERICAN FOREIGN POLICY 3 credits
Examination of American toreign policy-making process; public opinion and other limitations on policy: specific contemporary problems in selected areas.
$\begin{array}{ll}302 \text { AMERICAN POLITICAL IDEAS } \\ \text { Study of major thinkers and writers of American politicai thought. } & 3 \text { credits } \\ 303 \text { INTRODUCTION TO POLITICAL THOUGHT } & 3 \text { credits }\end{array}$
3 credits
Survey of major ideas and concepts of Western political theory from pre-Socrates through period of Enlightenment.
304 MODERN POLITICAL THOUGHT 3 credits
Examination of central concepts of political thought from 19 th Century to present. Modern liberalism. communism, fascism and totalitarianism emphasized.

310 INTERNATIONAL POLITICS AND INSTITUTIONS
Relations among nations examined in political context. $\quad 4$ credits
Description and analysis of government and politics of Great Britain and leading nations of the Commonwealth.

321 WESTERN EUROPEAN POLITICS 3 credits
Description and analysis of government and politics of France, Germany, Italy and Switzerland, with appropriate references to Scandinavia and Low Countries.

322 SOVIET AND EAST EUROPEAN POLITICS 3 credits
Theory and practice of government and politics in Soviet Union; comparison with selected communist systems of Eastern Europe.
323 POLITICS OF CHINA AND JAPAN 3 credits
Examination of governmental structures and political processes of China and Japan.
325 COMPARATIVE PUBLIC POLICY 3 credits
Considers the formulation. decisions, implementation, impact of public poicies in a compara-
tive perspective By examining public policies in a variety of countries the relationship of different economic and political systems to policy outcomes is observed.

326 POLITICS OF DEVELOPING NATIONS 3 credits
General introduction to concepts and theories of political development and political institutions, elite-recruitment and political processes of selected emerging nations.
327 AFRICAN POLITICS 3 credils
Examination of patterns of government and politics of nations south of Sahara.
330 CANADIAN POLITICS
3 credits
An examination of the instructions and processes of Canadian government, a survey of some
of the pressing issues confronting public decision makers in Canada.
340 AMERICAN POLITICAL PARTIES AND INTEREST GROUPS 3 credits
Rote of political parties ard interest groups in political process. Development, structure and function of parties; patterns of party allegiance and voting behavior, interest groups and their effect on government.

341 THE AMERICAN CONGRESS 3 credits
Examination of structure and function of Congress, with comparative materiais on legislative process on all levels. Presidential and congressional conflict examined.

342 MINORITY GROUP POLITICS 3 credits
Examination of politicai behavior of racial, religious and ethnic minority groups in the United States.
350 THE AMERICAN PRESIDENCY 3 credits
The presidency as tocal point of politics, policy and leadership in American political systern.
360 THE JUDICIAL PROCESS 3 credits
Rote of police, lawyers, courts and judges in context of American political process. Structure and process of judicial policy making and limitations on judicial power.
370 THE AMERICAN BUREAUCRACY 4 credits
Examination of implementation of public policy. Administrative organization and princíples stressed.

380 URBAN POLITICS AND POLICIES
4 credits
Examination of problems emerging from urban and regional complexes in the United States.
Structure and processes of political decision making at this level analyzed

## 381 STATE POLITICS

3 credits
Anatysis of the state political process in terms of its capacity to deal with a wide range of socioeconomic problems. Special emphasis on legislators, administrators, parties and interest groups.
382 INTERGOVERNMENTAL RELATIONS
3 credits
An examination of the history, theory, contemporary activities of intergovernmental relations in the United States. Interactions of local, state federal units of government will be considered.

391 HONORS IN POLITICAL SCIENCE
3 credits
Prerequisites: at least 17 credits and a 3.25 average in political science and permission of adviser

392 SELECTED TOPICS in POLItical sCience
1-3 credits
(May be repeated, but no more than three credits can be apptied to major in political science) Topics of substantial current importance, specialized topics within political science or experimental courses.

395 INTERNSHIP IN GOVERNMENT AND POLITICS 2-3 credits
(May be repeated for a total of six credits. No more than four credits may be applied toward major in political science).
Prerequisites two courses in potitical science or permission of instructor. Supervised individual placement with political officeholders, party groups, governmental agencies, interest groups.

397 INDEPENDENT STUDY
1.4 credits
(May be repeated tor a total of four credits)
Prerequisites: senior standing, 3.00 grade-point average and permission of adviser
402 POLITICS AND THE MEDIA 3 credits
Examination of relationships between the press. the news media and political decision makers.

405/505 POLITICS IN THE MIDDLE EAST
3 credits
The rise of the state system in the Middie East after World War 1 ; an analysis of the socio-cultural, ideological forces influencing the political behavior of the peopie of the Middle East. In-depth study of selected political systems.

415/515 COMPARATIVE FOREIGN POLICY 3 credits
Prerequisite: 310 or 220 or permission. Study of foreign policies of selected nations, with special attention to processes and instruments of decision making of the major powers.

420/520 ISSUES AND APPROACHES IN COMPARATIVE POLITICS 3 credits
Prerequisite: 200 or permission of instructor. Detailed examination of approaches to the study of comparative politics, potitical parties, elites and various theories of revolution.
425/525 LATIN AMERICAN POLITICS
3 creaits
Prerequisite: 200 or permission of instructor. Examination of patterns of government and politics in Latin American area.

440/540 PUBLIC OPINION AND POLITICAL BEHAVIOR
4 credits
Prerequisite 100 or 120 or permission. Nalure and role of public opinion in political process; historical development, current methods of measurement. Political behavior of American electorate.

441/541 THE POLICY PROCESS
3 credits
Prerequisites: eight credits in political science. Intensive study of policy-making process, emphasizing roles of various participants in executive and legislative branches as well as private individuals and groups

442/542 METHODS OF POLICY ANALYSIS
3 credits
Prerequisite: 201. Examines variety of methods available for analyzing public poficies. Techniques of cost benefit analysis, evaluation research quasi-experimentation are covered as well as consideration of ethical questions in policy analysis, the practical problems facing policy analysts.
461/561 THE SUPREME COURT AND CONSTITUTIONAL LAW
4 credils
Prerequisite: 100 or 201 or permission. Interpretation of the United States Constitution by Supreme Court; judicial review in democratic political process. Special emphasis on judicial policy making in areas of civil rights and tiberties.

480/580 POLICY PROBLEMS
3 credits
(May be repeated tor a total of six credits)
Prerequisite: 380 or permission. Intensive study of selected problems in public policy

## 490/590 WORKSHOP

$1-3$ credils
(May be repeated)
Group studies of special topics in political science. May not be used to meet undergraduate of graduate requirements in political science. Elective credit only.

497 SENIOR HONORS PROJECT IN POLITICAL SCIENCE
$1-3$ credits
(May be repeated for a total of six credits)
Prerequisites: senior standing in Honors Program and permission. Open only to a political science major in Honors Program. Independent study ieading to completion of senior honors thesis or other original work.

## Graduate Courses

600 SCOPE AND THEORIES OF POLITICAL SCIENCE
3 credits
Prerequisites: six credits of political science or permission of instructor. Emphasis on the nature, scope and content of political theory; theory construction and validation in political science

601 RESEARCH METHODS IN POLITICAL SCIENCE
3 credits
Prerequisites: six credits of political science, including 440 (or a satisfactory equivalent) or
permission of instructor. Techniques of quantitative research methodology in political science; utility and limitations of quantitative analysis.

610 SEMINAR IN INTERNATIONAL POLITICS
3 credits
Prerequisites: six credits of political science or permission. Analysis of current problems in theory and practice of politics and organization.

## 620 SEMINAR IN COMPARATIVE POLITICS

3 credits
Prerequisites: six credits of political science of permission. Research on selected topics in comparative politics. Comparative method

626 SEMINAR IN POLITICS OF DEVELOPING NATIONS 3 credits
Prerequisites: six credits of political science or permission. Seiected topics investigated Emphasis on theories of political development.

630 SEMINAR IN NATIONAL POLITICS
3 credits
Prerequisites: six credits of political science or permission. Reading and research on formulation. development and implementation of national policy in one or more areas of contemporary significance

641 SEMINAR IN INTERGOVERNMENTAL RELATIONS
3 credits
Prerequisites: six credits of political science or permission. Graduaie-level examination of problems resuiting from changing relations between levels of government in the United States, comparisons with other federal systems.

## 660 SEMINAR IN CIVIL LIBERTIES AND THE JUDICIAL PROCESS

3 credits
Prerequisites: six credits of political science or permission. Civilliberties and judicial process viewed in political context. Readings and research on seiected topics.

668 SEMINAR IN PUBLIC POLICY AGENDAS AND DECISIONS
3 credits Prerequisites six credits of political science or permission. Reading and research on the development of public policy issues and modes of decision making used by policy makers

## 670 SEMINAR IN THE ADMINISTRATIVE PROCESS

3 credils
Prerequisites: sixcredits of political science or permission. Intensive examination of administrative implementation of public policies. Readings and research on selected topics.

680 SEMINAR IN URBAN AND REGIONAL POLITICS
3 credits Prerequisites: six credits of political science or permission. Focus on processes of policy formulation and execution in modern metropolitan community, with emphasis on structural functional context.

690 SPECIAL TOPICS IN POLITICAL SCIENCE
1-3 credits
Prerequisites: six credits of political science or permission. Graduate-level examination of selected topics in American politics, comparative politics, international politics or political theory.

695 INTERNSHIP IN POLITICAL SCIENCE
3 credits
Prerequisite: permission of graduate adviser Field experience: student is piaced with officeholders, government agencies or political groups for reseapch or practical experience of relevance to program

697 INDEPENDENT RESEARCH AND READINGS
$1-4$ credits
(May be repeated, but no more than six credits toward the master's degree in political science)
Prerequisite: permission.
699 THESIS
2-6 credits

## PSYCHOLOGY

## 3750:

100 INTRODUCTION TO PSYCHOLOGY
3 credits
Introduction to scientific study of behavior, survey of physiological basis of behavior, sensation and perception. development, learning and cognition, personality, social interaction and other selected topics

110 QUANTITATIVE METHODS IN PSYCHOLOGY
3 credits
Prerequisite or corequisite: 100. Presentation of data, descriptive statistics, correlation, hy pothesis testing and introduction to quanlitative methodologies in psychology.

120 INTRODUCTION TO EXPERIMENTAL PSYCHOLOGY
4 credits Prerequisites: 100 and 110. Lectures plus laboratory experience concerning problems in scientific bases of psychology such as experimental design, methods and apparatus, collection and analysis of data and interpretation of results.

130 DEVELOPMENTAL PSYCHOLOGY
4 credits
Prerequisite: 100 . Determmants and nature of behavioral changes from conception to death
140 INTRODUCTION TO INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY 4 credits Prerequisite: 100. Survey of applications of psychology in incustry, business and government. Emphasis on understanding employees and evaluation of their behavior.

300 ADVANCED EXPERIMENTAL PSYCHOLOGY 4 credits Prerequisite: 120 . Scientific methods and design in experimental investigation of human behavior Emphasis on exposure to and performance on all aspects of a single, in-depth research project in which student applies the lecture information.

310 SENSORY AND PERCEPTUAL EXPERIENCE
4 credits
Prereguisite 100 Survey of basig sensory and perceptual phenomena covering physical and psychological bases of each. Overview of major theoretical treatments and empirical findings included, plus discussion of implications for behavior.

320 PHYSIOLOGICAL PSYCHOLOGY
4 credits
Prerequisite: 100. Relationship between behavior of organisms and physiological processes mediating the behavior. Brain structure and function, motivation, etc, 3100:265 desirable as background.

330 MOTIVATION AND THE DYNAMICS OF BEHAVIOR
3 credits
Prerequisite: 100 . Survey of hehavioristic, psychoanalytic, cognitive and consistency theories to explain arousal, direction and persistence of behavior including empirical evidence for achievement, motivation, aggression and other behaviors.

340 SOCIAL PSYCHOLOGY
4 credits
Prerequisite: 100. Examination of individual's response to social environment and social interaction process. Social perception, attitude formation and change, affiliaion and attraction, altruism, group processes and nonverbal behavior

350 THE PSYCHOLOGY OF SMALL-GROUP BEHAVIOR
3 credits
Prerequisite 100 . Intensive investigation of factors affecting behavior in groups. Covers joint effects of personality, social structures, task and situational variables in affecting group behavior.

360 CROSS-CULTURAL PSYCHOLOGY
3 credits
Prerequisite 100 . Influence of cuiture upon development of individual psychological processes including functioning. social motives, sex roles and values.

370 RESEARCH DESIGN AND ANALYSIS IN PSYCHOLOGY
3 credits Prerequisites: 100 and 110 or $3470: 25$;-257 as alternate prerequisite for 110 . Review of research design and methodology for psycnology covering basic concepts, empirical research designs. internal and external validity and specific analytical techniques as applied to psychology

400/500 PERSONALITY
3 credits
Prerequisite 100 Consideration of current conceptualizations of the normal personality with emphasis on methods of measurement, experimental findings and research techniques

410/510 PSYCHOLOGICAL TESTS AND MEASUREMENTS
4 credits
Prerequisites: 100,110 or permission. Consideration of nature, construction and use of tests and measurements in industry. government and education. Includes aptitude and achievement tests, rating scaies. attitude and opinion analysis

420/520 ABNORMAL PSYCHOLOGY
3 credits
Prerequisites: 100 and three credits in psychology. Survey of syndromes, etiology, diagnosis and treatment of major psychological conditions ranging from transient maladjustments to psychoses

430/530 PSYCHOLOGICAL DISORDERS OF CHILDREN
4 credits
Prerequisites: 100 and 130 or permission. Survey of syndromes, etiologies and treatments of behavioral cisorders in children from standpoint of developmental psychology. Behavioral data and treatment approaches emphasized

440/540 INTRODUCTION TO CLINICAL METHOD
3 credits
Prerequisites. 100 and 420. Review of tests, interviews and personal data in human assessment.

450/550 LEARNING AND COGNITION
4 credits
Prerequisite: 120. Topics include basic conditioning and learning processes, verbal learning memory and transter of training, as well as review of higher-order mental processes such as human conceptual behavior, problem solving and thinking.

460/560 HISTORY OF PSYCHOLOGY
3 credits
Prerequisite: 100 . Psychology in pre-scientific period and details of development of systemat is viewpoints in 19th and 20th Centuries

470 ADVANCED INDUSTRIAL/ORGANIZATIONAL PSYCHOLOGY
4 credits
Prerequisite: 140 or permission. Application of psychology to organizational theory, leadership. management, personnel selection, engineering psychology, person-machine systems and consumer behavior

475 PSYCHOLOGY OF ADULTHOOD AND AGING
4 credits
Prerequisite: 100 Psychological aspects of human development from adolescence to older adulthood including age-related changes in socialization personality intelligence. sensation perception learning. memory and clinical application.

480 SPECIAL TOPICS IN PSYCHOLOGY
1-4 credits
(May be repeated)
Prerequiste 100 or permission Comprehensive survey of contemporary status of specialized topics and issues in psychology. Emphasis on original source materials, critical analysis and synthesis of empirical and theoretical aspects

488,9 HONORS PROJECT IN PSYCHOLOGY
4 credits each
Prerequisites: senior standing. psychology major and permission. 488. Selection of research topic. review of reievant literature, research design and data coilection, 489. Analysis and write up of research project in tournal or thesis style.

490/590 WORKSHOP IN PSYCHOLOGY
1.3 credits
(May be repeated)
Group stucies of special topics in psychology. May not be used to meet undergraduate or graduate major requirements in psychology.

497 INDEPENDENT READING, RESEARCH AND/OR PRACTICUM
$1-3$ credits IN PSYCHOLOGY
(May be repeated)
Prerequisite deparimental permission. Independent reading, research and/or practicum in an area of psychology under supervision and evaluation of selected faculty member.

## Graduate Courses

#### Abstract

610 PSYCHOLOGY CORE I: ORGANIZATIONAL, SOCIAL. AND APPLIED 4 credits Prerequisite: graduate standing in psychology or the joint doctoral program in counseling psychology or permission based on a psychology undergraduate major or an appropriate background for the course as determined by the instructor. Survey of the social bases of behavior. group process. systems theory and motivation; application of industrial/organizational psychology to industry, business and government including organizational theory, differential psychology, personnel selection and training, consumer behavior and engineering psychology, research methodology, applied psychometrics, professional and ethical issues. Topics are considered within an historical perspective.

620 PSYCHOLOGY CORE II: DEVELOPMENTAL, PERCEPTUAL 4 credits AND COGNITIVE
Prerequisite: graduate standing in psychology or the joint doctoral program in counseling psychology or permission based on a psychology undergraduate major or an appropriate background for the course as determined by the instructor. Survey of theoretical, methodoIngical, and empirical aspects of human development perception, learning and memory: cognition and information processing including an historical perspective.

630 PSYCHOLOGY CORE III: COUNSELING, INDIVIDUAL
4 credits AND ABNORMAL
Prerequisite: graduate standing in psychology or the joint docteral program in counseling psychology or permission based on a psychology undergraduate major or an appropriate background for the course as determined by the instructor. Survey of techniques of an approach to the study. evaluation and modification of nermal and abnormal behavior. Includes study of individual differences. personality theories, adaptive and maladaptive behaviors, counseling theories, research methods and professional issues within an historical perspective

## 640 PSYCHOLOGY CORE IV: SENSORY, BIOPSYCHOLOGICAL <br> 4 credits AND EXPERIMENTAL

Prerequisite: graduate standing in psychology or the joint doctoral program in counseling psychology or permission based on a psychology undergraduate major or an appropriate background for the course as determined by the instructor. Survey of the biological foundations of benavior including sensory processes, psychophysics and scaling, perception (from a comparative and evolutionary perspective), animal learning and the evolution of intelligence, behavior genetics, neuroanatomy and neurophysiology, psychopharmacology, and the physiological bases of psychological processes such as emotion, motivation, learning, laterality differences, intelligence and consciousness. Topics are considered within an historical perspective.

653 GROUP COUNSELING
4 credits
Prerequisites: 5600.643 , 045 ; or 3750671,710 ; or permission of instructor. Emphasis is piaced on providing the student with the knowledge and understanding of theory, research and techniques necessary for conducting group counseling sessions.

671 PRE-PRACTICUM IN COUNSELING PSYCHOLOGY
2 creaits
Prerequistes: 630. graduate standing in psychology and permission of insiructor Introduction to and training in skills used in process of counseling and psychotherapy. This course is a preparation for actual client contact in subsequent practica.
672 COUNSELING PRACTICUM
4 credits
Prerequisites: 630,671, graduate standing in psychology and permission of instructor. Extension and development of therapeutic skills and intervention techniques. with supervised training in counseling clients in the Psychology Department Counseling Clinic.

673 COUNSELING ASSESSMENT PRACTICUM
4 credits
Prerequisites: 630,671, 672, graduate standing in psychology and permission of instructor. Instruction and supervised experience with the use of assessment devices as part of a counseling treatment program.

674 PERSONNEL PRACTICUM
1-4 credits
(May be repeated)
Prerequisites: 610, graduate standing in psychology, 14 credits of graduate psychology and departmental permission. Supervised field experience in industrial/organizational psychology in settings including business, government or social organizations. The field experience requires the application of indusirial/organizational psychological theories and techniques.

675 DEVELOPMENTAL PRACTICUM
1.4 credits (May be repeated)
Prerequisites: 610, graduate standing in psycnology, 14 credits of graduate psychology and departmental permission. Supervised field experience and developmental psychology to provide the student with the opportunity to apply skills and knowledge acquired in the academic setting and to oblain knowledge about community programs and agencies which tocus on developmental processes.

699 THESIS RESEARCH
$1-4$ credits
(May be repeated)
Prerequisite: departmental permission. Research analysis of data and preparation of thesis for master's degree.

## 700 SURVEY OF PROJECTIVE TECHNIQUES

4 credits
Prerequisite: 630 or instructor's permission. Introduction to rationale, assumptions and ethics, and research of projective testing. Elementary administration, scoring and interpretation of Rorschach; and survey of other important contemporary projective instruments.

## 701 PSYCHODIAGNOSTICS

4 credits
Prerequisite: 700. Application of psychological testing to problems of diagnosis and evaluation. Practical experience in administration, scoring and interpretation. integration of projective data with other assessment techniques in variety of settings.

704 THEORIES OF PERSONALITY
3 credits
Prerequisite: 630 recommended. Historical consideration of personality. Psychoanalysis and deviations from it. Contemporary theoreticai formulations: personality dynamics, structure and organization.

706 CURRENT ISSUES IN COUNSELING 4 credits
Prerequisite: 630 . Advanced study of the background, theoretical foundations, techniques, research and applications of counseling psychology as a science and protession.

707 SUPERVISION IN COUNSELING PSYCHOLOGYI 3 credits
Prerequisite: doctoral standing or permission. Instruction and experience in supervising graduate students in counseling
710 THEORIES OF COUNSELING PSYCHOLOGY
4 credits
Prerequisite: 630 or departmental permission. Theories of individual psychotherapy including Freudian, Jurigian, Alderian, Rogerian and other major systems. Consideration given to ancillary therapeutic techniques such as group therapy and psychtropic medication. Importantresearch findings are reviewed and contemporary problems in evaluation are ciscussed. Ethics of psychotherapy is also covered.

711 VOCATIONAL BEHAVIOR
4 credils
Prerequisite: 630 or deparimental permission. Theories and research on vocational behavior and vocational counseling. Topics include major theories of vocational behavior, empirical research on these theories applied work in vocational counseling and applieo research.

712 PRINCIPLES AND PRACTICE OF INDIVIDUAL
4 creaits INTELLIGENCE TESTING
Prerequisites: 630 or graduate standing in school psychology, and instructor's permission. History, principles and methodology of intelligence testing, supervised practice in administration, scoring and interpretation of individual intelligence tests for children and adults.

713 ADVANCED SEMINAR IN COUNSELING
4 credits
Prerequisite doctoral standing or permission. A study of legat, ethical and personal and protessional issues in counseling.
714 OBJECTIVE PERSONALITY EVALUATION
4 credits
Prerequisites completion of $3750: 400 / 500,3750: 420 / 520$ and $3750: 750$ or $5600: 645$ : or permission of instructor. Study of the development. administration, and interpretation of objective instruments for personality assessment (MMPI, CPI, MBII, 16 PF and selected additional inventories).

715 RESEARCH DESIGN IN COUNSELING
3 credits
Prerequisite doctoral standing or permission. Study of research designs, statistical models and review of current research in counseling.

725 DEVELOPMENTAL PSYCHOLOGY: PRENATAL, INFANCY AND
4 credits EARLY EXPERIENCE
Prerequisite: 620 or permission. Survey of psychological aspects of prenatal period, infancy and early experience. Emphasis on understanding how early experience structures adult behavior.

726 CHILD PSYCHOLOGY
4 credits
Prerequisite: 620 or permission. Current research in chid psychology covered with some emphasis on cognitive development. Topics include language, memory, intelligence, hyperactivity and selected aspects of social development.

727 PSYCHOLOGY OF ADULTHOOD AND AGING
4 credits
Prerequisite: 620 or permission. Aspects of development, aging with emphasis on life-span methodology and research design including age-related changes in intelligence, personality. sensation, perception, learning, memory ano socialization and intervention approaches.

728 SOCIAL DEVELOPMENTAL PSYCHOLOGY
4 credits
Prerequisite: 620 or permission. Examination of selected theoretical and methodological issues in study of social psychology from developmental perspective. Topics include attitude formation, sex roles, moral development, altruism, aggression, attraction, attribution processes, nonverbal behavior and cultural ettects.

730 THEORIES OF LEARNING
4 credits
Prerequisite: 620 or departmental permission. Contemporary review of research and theory in language and memory. Process-oriented approach adopted with emphasis on developmental issues.

731 COGNTTIVE DEVELOPMENT
4 credits
Prerequisite: 620 or permission Theory and research concerning development of cognitive activities including concept formation, problem solving and thinking. Topics include major theories, research paradigms and methods of investigation and reviews of empirical tindings.

733 DEVELOPMENTAL BIOPSYCHOLOGY
4 credits
Prerequisites: 620, 640 and graduate standing in psychology or permission of instructor. Survey of behavioral changes over life span with emphasis on physical, biological and ohysiological correlates of such change. Topics include central nervous system, skeietal and circulatory changes; metabolic and nutritional processes and endocrine mechanisms.

736 THE PSYCHOLOGY OF MENTAL RETARDATION
4 credits
Prerequisite: 620 or graduate standing in psychology or permission of instructor. Current knowledge about the cognitive and social development of retarded individuals is examined The first half of the course is a broad survey emphasizing methodology and findings about the mentally retarded. The second nalf involves an in-depth exploration of selected applied and basic research topics such as reaction to failure, mainstreaming, sexuality, training, behavioral problems, knowledge and thinking.

737 THE PSYCHOLOGY OF LEARNING DISABILITIES
4 credits
Pre requisite: 620 or graduate standing in psychology or permission ef instructor. Examination of the theories and research regarding learning and reading disabilities. Emphasis is on a critical evaluation of the research which investigates hypothesized process difterences between learning-disabled and normal-achieving children.

738 APPLIED DEVELOPMENTAL PSYCHOLOGY
4 creaits
Prerequisites: 620 and graduate standing in psychology or permission of instructor. Examination of methodologies and research utilized in applied deveiopmental settings Topics include field methodologies, evaluation, child abuse early intervention, day care, kibbutzim. social networks, subcultural variations and nospice/dying

740 INDUSTRIAL GERONTOLOGY
4 credits
Prerequisites: 610 and 620, graduate standing in psychology or departmental permission to students who have completed 610 and 620 . Study of age-related issues in work involving adult and older adult workers. Topics include personnel selection, training, motivating and appraising older employees; health and safety; job design, vocational guidance: and retirement.

741 SURVEY OF COUNSELING METHODS
4 credits
Prerequisites: 620 and 630; graduate standing in psychology or permission of instructor. An experiential survey of treatment methods from a variety of theoretical approaches. Aoproaches include, but are not limited to. behavioral, gestalt, cognitive and psychodynamic methods.

750 advanced psychological tests and measurements
4 credits
Prerequisites: 610 and graduate standing in psychology or departmental permission to students who have completed 610. Ana!ysis of test construction techniques and statistical analyses of tests with a review of published tests and measurements used in psychotogy. Study of psychometric theory and principles.

751 ORGANIZATIONAL PSYCHOLOGY
4 credits
Prerequisites: 610 and graduate standing in psychology or departmental permission for other students who have completed 610 . Applies the general systems theory framework to the study of the relationships between organizational characteristics and human behavior, the internal processes of organizations and the relationships between organizations and their environment.

752 PERSONNEL SELEGTION AND PERFORMANCE EVALUATION
4 credits
Prerequisites: 610 and graduate standing in psychology or permission to students who have completed 610 . Review of strategies empioyed by industrial/organizational psychologists for personnel selection, placement and promotion. Survey of objective and subjective criteria used in peformance appraisal including test vatidation and training effectiveness.

753 TRAINING AND ORGANIZATIONAL DEVELOPMENT
4 credits
Prerequisites: 610 and graduate standing in psychology or permission to students who have completed 610. Review of industrial training methods and techniques in terms of learning theory, with consideration of techniques to evaluate these training and organizational development programs.

754 RESEARCH METHODS IN PSYCHOLOGY
2-4 credits
Prerequisites: 610, 620 and graduate standing in psychology or permission to student. Scientific method and its specific application to psychology. Topics include data collection. validity, reliability, use of general linear model and its atternatives and power analysis.
755 COMPUTER APPLICATIONS IN PSYCHOLOGICAL RESEARCH
4 credits
Prerequisites: 610 and graduate standing in psychology or permission to students who have completed 610. Practicum in application of computers to psychological research including data collection, analysis and interpretation. Also covers computer simulation of decision making including use of different models.

756 ROLE OF ATTITUDES ANO VALUES IN INDUSTRIAL/
4 credits ORGANIZATIONAL PSYCHOLOGY
Prerequisites: 610 and graduate standing in psychology or departmental permission to students who have completed 610. Consideration of the role of attitudes and values in the prediction of behavior including consumer psychology, explaining attilude changes, measurement of attitudes and the use of survey methodology.
757 ORGANIZATIONAL MOTIVATION AND LEADERSHIP
4 credits
Prerequisites: 610 and graduate standing in psychology or departmental permission to students who have completed 610 . Survey of theories of motivation specifying both the intrinsic and extrinsic determinants of worker motivation. The leadership process and its relation to motivation, group performance and attributions is also analyzed.

75 ENGINEERING PSYCHOLOGY AND JOB DESIGN
4 credits
Prerequisites: 610 and graduate standing in psychology or permiss ion to students who have completed 610. Survey of field of engineering psychology. Covers such topics as job design. task analysis, man-machine systerns analysis. working conctions and accidents.

759 JOB EVALUATION AND EQUAL PAY 4 credits
Prerequisite: 610 . Major job evaluation systems will be reviewed and critiqued. Issues such as minimum qualifications for a job will be reviewed. Advantages and disadvantages of various job evaluation systems will be compared. Issues concerning tederal regulation including the Equal Pay Act. comparable worth and other issues will be discussed. Regression approaches to job evaluation and applicable court cases will be reviewed

780 GRADUATE SEMINAR IN PSYCHOLOGY
$1-4$ credits
(May be repeated)
Prerequisites: graduate standing in psychology and permission. Special topics in psychology.
795 ADVANGED COUNSELING PRACTICUM
4 credits
(May be repeated)
Prerequisites: 671, 672, 673 and permission of instructor. This course provides graduate students in counseling with actual client contacts and supervisory experiences under faculty supervision.

796 COUNSELING PSYCHOLOGY PRACTICUM
4 credils

## (May be repeated)

Prerequisite: 795 (eight hours) or 5600:675 (five hours). Advanced counseling psychology students will have supervised training with clients in a variety of settings and will focus on supervised development of specialized theoretical applications.

797 INDEPENDENT READING ANDIOR RESEARCH
1.3 credils
(May be repeated)
Prerequisite: permission. Individual readings and/or research on a topic under supervision of faculty member with whom specific arrangements have been made.

899 DISSERTATION RESEARCH
1-12 credils
Prerequisite: open to a properly qualified student. Required minimum 12 credits; maximum subject to departmental approval. Supervised research on topic deemed suitable by the dissertation comimittee.

## SOCIOLOGY

## 3850:

## 100 INTRODUCTION TO SOCIOLOGY

4 credits
Basic terminology, concepts and approaches in sociology, including introduction to analysis of social groups and application of sociological concepts to the understanding of social systems. Required of majors. Lecture/discussion.

## 104 SOCIAL PROBLEMS

3 credits
Prerequisite: 100 or permission. Analysis of selected contemporary problems in society application of sociological concepts and research as tools for understanding sources of such problems. Lecture

301 METHODS OF SOCIAL RESEARCH 1
3 credits
Prerequisites: 100 and $3450: 111,112.113$ or permission. Combination lecture and a laboratory course requiring at least five laboratory hours per week. Research design, data-gathering techniques and statistical procedures. Required of majors. Lecture/labofatory.

302 METHODS OF SOCIAL RESEARCH II
3 credits
Prerequisite: 301. Continuation of 301. Required of majors Lecture/ laboratory.
315 SOCIOLOGICAL SOCIAL PSYCHOLOGY
3 credits
Prerequisite: 100. The reciprocal influence of individuals and groups. How interpersonal processes produce and affect group structure. How groups aftect the development and behavior of the social person.

320 SOCIAL INEQUALITY
3 credits
Prerequisite: 100 or permission. Study of the way social rankings occur in societies and how particular rankings affect individual hehavior, group relations and social structures. Lecture.

## 321 POPULATION

3 credits
An introduction to world and national population trends, related demographic and social characteristics. Topics include fertility, mortality, morbidity, migration, abortion, birth control, population policy in relation to societal problems. Lecture

## 323 SOCIAL CHANGE

3 credits
Prerequisite: 100 or permission. Introduction to theories and processes of social change. dimensions of change in contemporary, traditional and urban-industrial societies; projection and prediction of selected tiends and forms. Lecture.

324 SOCIAL MOVEMENTS
3 credits
Prerequisite: 100 or permission. Social movements as distinguished from other forms of collective behavior: analysis of social situations which produce social movements; focus on deveiopment of social movements and their role in social change. Lecture.

330 CRIMINOLOGY
3 credits
Prerequisite: 100 . Major focus on interrelationships and analysis of crimes, criminals, crimina justice systems and society. Lecture.

334 SOCIAL ORGANIZATION
3 credits
Prerequisite: 100 or permission. Nature of social organization, social control; organizational typologies; theories of organizational structure, functions; analysis of complex organizations in a social systern. Lecture

335 SOCIAL BEHAVIOR IN ORGANIZATIONS
3 credits
Prerequisite: 100 or permission. Analysis of the structure of such complex organizations as voluntary associations, business organizations and public bureaucracies, in relation to issues including organizational effectiveness, organizational design and change, job satisfaction and quality of work experience. Lecture.

336 SOCIOLOGY OF WORK AND OCCUPATIONS
3 credits
Prerequisite 100 or permission. Survey of theory and empirical research in areas such as the structure of occupations and professions, occupational attainment, work force characteristics, work values and orientations, the nature of work. Lecture.

340 THE FAMILY
3 credits
Prerequisite: 100 or permission. Analysis of family as a social system, historical, comparative and contemporary soctological approaches examined in relatıon to family structure and functions. Lecture.

341 POLITICAL SOCIOLOGY
3 credits
Prerequisite: 100 or permission. Survey of theory and empirical research dealing with relationship between political phenomena and the larger network of social processes in human societies. Lecture

342 SOCIOLOGY OF HEALTH AND ILLNESS
3 credits
Prerequisite: 100 or permission. General survey of sociological perspectives, concepts and research on heaith, illness and health-care delivery systems. Lecture.

343 THE SOCIOLOGY OF AGING
3 credits
Prerequisite: 100 or permission. Examination of process of aging from perspective of behavioral and sociological aspects. Lecture.

344 THE SOCIOLOGY OF SEX ROLES
3 credits
Prerequisite: 100 or permission. Examination of differentiation in roles, behaviors in women, men including theory, evidence on origins and determinants of differences, on stability and change in sex roles.

365 SPECIAL TOPICS IN SOCIOLOGY
$1-3$ credits
(May be repeated)
Prerequisite permission. Special topics of interest to sociology major and non-major not covered in regular course offerings.

397 SOCIOLOGICAL READINGS AND RESEARCH
1-3 creaits
Prerequisite permission. Individual sludy of problem area of specific interest to individual student under guidance of department member. Preparation of a research paper.

403/503 HISTORY OF SOCIOLOGICAL THOUGHT 3 credits Prerequisite: 100 or permission. Examination of major schoiars in the classical sociological tracition. Lecture

404/504 CONTEMPORARY SOCIOLOGICAL THEORIES 3 credits Prerequisite: 403 or permission. Examination and critical evaluation of works of modern sociological theorists, emphasizing current theoretical approaches to issues of social order and social change. Lecture.

## 410/510 SOCIAL STRUCTURES AND PERSONALITY

3 credits
Prerequisite: 100 or permission. Interrelationships between position in society personality characteristics. Personality treated as both result and determinant of social structure and process. Lecture.

411/511 SOCIAL INTERACTION
3 credits
Prerequisite: 100 or permission. Intensive study of advanced theory and research in sociai psychology, particularly how social interaction and self-conception affect one another. Lecture.

412/512 SOCIALIZATION: CHILD TO ADULT
3 credits
Prerequisite: 100 or permission. Theoretical and empirical analyses of process by which infant, child, adolescent and adult learn social and cultural requirements necessary to function in new roles, changing roles and sociely in general.

421/521 RACIAL AND ETHNIC RELATIONS
3 credits Prerequisite: 100 or permission. Analysis of structure and dynamics of race and etnnic relations froma variety of perspectives emphasizing both historical and contemporary issues. Lecture.

## 425/525 SOCIOLOGY OF URBAN LIFE

3 credits
Prerequisite: 100 or permission. Emergence and development of urban society. Examination of urban social structure from neighborhood to metropolis, the problems and prospects. Emphasis on various life styles of urban subcultures. Lecture/discussion.

429/529 PROBATION AND PAROLE
3 credits
Prerequisite: 330 or 430 or permission. Analysis of how probationers and parolees are selected, supervised and then released into private life. Emphasis on current and past sociai research. Lecture/discussion.

430/530 JUVENILE DELINQUENCY
3 credits
Prerequisite: 100 or permission. Analysis of social structure and process from which delinquency develops. Emphasis on current and past research. Lecture/discussion.

431/531 CORRECTIONS 3 credits
Theories, belief systems, correctional practices and effectiveness as related to offender groups. Lecture/discussion/field experience.
433/533 SOCIOLOGY OF DEVIANT BEHAVIOR 3 credils
Prerequisites: 100 and at least six additional credits of sociology courses or permission. Survey of theories of deviant behavior and relevant empiricai research. Special emphasis given io interaction processes and social control. Lecture.

440/540 SOCIOLOGY OF RELIGION
3 credits
Prerequisite: 100 or permission. Study of forms of religion and their social functions with emphasis on religion in American society. Lecture.

441/541 SOCIOLOGY OF LAW
3 credits
Prerequisites: 100 and at least six additional credits of sociology courses or permission. Social origins and consequences of law and legal processes. Emphasis on uses of law, social change and aspects of legal professions. Lecture.
$442 / 542$ SOCIOLOGY OF EDUCATION 3 credits
Prerequisite: 100 or permission. Analysis of education from an organizational and social psychological perspective Topics include: desegregation: busing; neighborhood schools; impact of tamily, peers and teachers on learning; school organization. Lecture.
443/543 INDUSTRIAL SOCIOLOGY
3 credits
Prerequisite: six credits of sociology or industrial management. Comparison of formal and informal structures in industrial organizations; analysis of work roles and status systems; communication processes; relation of work plant to community and society. Lecture.

444/544 SOCIAL ISSUES IN AGING
3 credits
Prerequisite: 100 or permission. A look into the major issues and problems facing older persons. Special attention is given to the unmet needs of the elderly as well as an examination of current societal policy and programs to meet these needs.

450/550 SOCIOLOGY OF MENTAL ILLNESS
3 credils
Prerequisite: 100 or permission. The social history of the mental nospital, theories and epidemiology of mental iliness, community-based Ireatment models, the organization of mental health services, the rote of personal social networks and mutual support groups.
494/594 WORKSHOP IN SOCIOLOGY
1-3 credits
(May be repeated)
Group studies of special topics in sociology. May not be used to meet departmental undergraduate or graduate major requirements. May be used for elective credit only.

## 495 RESEARCH INTERNSHIP

$2-4$ credits
(May be repeated for credit)
Prerequisites: 301, 302 and permission of a faculty supervisor. Placement in selected community organization for supervised experience in all phases of a social research project. Student must receive permission from instructor during semester prior to enroliment.

## 496 SENIOR HONORS PROJECT

$1-3$ credits
(May be repeated for a total of six credits)
Prerequisites enrollment in Honors Program and senior standing. and major in sociology and sociology/anthropology. Thesis or original creative work appropriate to student's area of interest. Requirements and evaluation of project determined by departmental honors preceptor and student's honors project adviser.

## Graduate Courses

600 FUNDAMENTALS OF SOCIOLOGY
3 credits
Accelerated introduction to sociology for the graduate student deficient in sociological background or from cther disciplines who intends to take further graduate courses in sociology. Lecture.

603 SOCIOLOGICAL RESEARCH METHODS
3 credits Advanced research methods including advanced statisticat techniques. (Same as KSU 72211) Lecture/laboratory.

604 SOCIAL RESEARCH DESIGN
3 credils
Intensive analysis of problems in a research design, i.e., those encountered in thesis preparation. (Same as KSU 72212) Seminar or dissertation.

607 COMPUTER APPLICATIONS IN SOCIAL SCIENCES
3 credits
Prerequisite: elementary statistics course or permission of instructor. Introduction to computers and their applications in social sciences. (Same as KSU 72214) Seminar.

613 SOCIOLOGY OF PROGRAM EVALUATION AND
3 credits PROGRAM IMPROVEMENT
Prerequisite permission. Program evaluation as it occurs in different social programs. Topics include history of evaluation, value assumptions, political dimensions, ethical issues, social change, use of experimentation and alternatives and the use for program development. (Same as KSU 821 19) Seminar.

615 EPIDEMIOLOGIC METHODS IN HEALTH RESEARCH
3 credits
Prerequisite: permission. Designed to introduce the student to methods of developing and understanding intormation concerning the distribution of illness and injury in society and evaluations of interventions to reduce the burden.

617 SOCIOLOGICAL THEORY
3 credits
Examination of the classical theoretical statements that form the foundation of sociological theory. Emphasis on classic sociological theory and its contributions to contemporary theory and research. (Same as KSU 72106) Seminar.
620 GENERAL SYSTEMS THEORY
3 credits
Analysis of general systems theory as basis for a model of society and as heuristic framework for theory and research. (Same as KSU 82107) Seminar.

631 SOCIAL PSYCHOLOGY
3 credits
Intensive examination of social psychological theory and research, boih classic and contemporary. Provides student with background and working knowledge of social psychological aspects of social phenomena. (Same as KSU 72430) Seminar.

632 SMALL GROUP THEORY
3 credits
Prerequisite: permission. Theoretical and applied aspects of small group dynamics. Topics include leadership emergence, effective group development and functioning, power, norms and individual behavior, among others. (Same as KSU 72432) Seminar.

634 PERSONALITY AND SOCIAL SYSTEMS 3 credits Examination of contemporary theory and research on linkages between personality and society. Some applications in studies of modernization, social class and occupations and sex roles. (Same as KSU 72433) Seminar.

635 SOCIOLOGY OF COMMUNICATION
3 credits
Examination of communication media, content, audiences and impact within sociological context. (Same as KSU 72434) Seminar.

636 CRITIOUE OF MASS COMMUNICATIONS RESEARCH
3 credits
Prerequisite: permission. Systematic evaluation of theoretical, methodological and empirical aspects of significant studies of mass communication. (Same as KSU 72876) Seminar.

639 SOCIOLOGY OF SEX ROLES
3 credits
Prerequisite: permission. Advanced review of theories and research on origins, characteristics and changes in sex roles. Emphasis on recent empirical research on sex role patterns and processes in Western industrial societies. Seminar.

## 645 SOCIAL ORGANIZATION

3 credits
General survey of major theories, concepts and problems pertaining to creation, alteration and dissolution of social organization at various levels of size and complexity. (Same as KSU 72546) Seminar.

646 SOCIAL STRATIFICATION
3 credits
Prerequisite: permission. Seminar deating with sociai class and castes with special reference to American social structure. (Same as KSU 72546) Seminar.

648 COMPLEX ORGANIZATIONS
3 credits
Prerequisite: permission. Organizations as sociat systems; their effect on individuats. Problems of protessionals in bureaucracies (Same as KSU 72545) Seminar.
649 SOCIOLOGY OF WORK 3 credits
Examination of work as behavioral phenomenon in human societies; contrasts with non-work and leisure, significance of occupations, professions and work types in organization of work (Same as KSU 72542) Seminar.

651 SEMINAR IN RACE RELATIONS
3 credits
Prerequisite permission. Analysis of the structure and dynamics of race and ethnic relations with attention given to both historical and contemporary issues. (Same as KSU 72870) Seminar.

652 CONFLICT
3 credits
Prerequisite permission. Current conceptions of human contlict. Discussion of vital concepts and principles for understanding conflict phenomena. Power, values, ideology, riots, revofution and war. (Same as KSU 72875) Seminar.

## 656 medical sociology

3 credits
Prerequisite: permission of instructor. A general survey of the field of medical sociotogy with special emphasis on application of sociological concepts and methods as tools to aid in the analysis of health and health care in the contemporary urban United States.

657 URBAN HEALTH CARE
3 credits
Prerequisite: permission Relationships between urban social structures and processes and organization and functioning of heal th-care delivery systems in urbanized nations. Seminar.

658 FIELD RESEARCH IN URBAN LIFE STYLES
3 credits
Prerequisite: permission. Examination of various life styles in contemporary urban society. Explores issues of theory and methodology in urban life-styies research through evaluation of both classic and contemporary studies Includes application of concepts and techniques in actual field research. Seminar.

663 DEVIANCE AND DISORGANIZATION
3 credifs
Prerequisite: permission Examination of nature and types of deviance. Problems and issues in theory and research. (Same as KSU 72760) Seminar.
664 SOCIOLOGY OF CRIMINAL BEHAVIOR
3 credits
Analysis of relationship of crime and delinquency to social structure and social processes Responses by criminal justice agencies. (Same as KSU 72763) Semınar

665 JUVENILE DELINQUENCY: THEORY AND RESEARCH
3 credits
Prerequisite: permission. Analysis of theories of delinquency: ecological. class structural. substructural. etc. Review of relevant research also presented. (Same as KSU 72762) Seminar.

666 SOCIOLOGY OF CORRECTIONS
3 credits
Prerequisite: permission. Analysis of correctional institution as social system: its formal structure and informal dynamics. Analysis of present state of corrections research. (Same as KSU 72764) Seminar.

677 FAMILY ANALYSIS
3 credits
Analysis and evaluation of sociological theory and research in the family. Concentration on techniques of theory construction and research design in sociological study of the family. (Same as KSU 72543) Seminar.

678 SOCIAL GERONTOLOGY
3 credits
Prerequisite permission. Impact of aging upon individuals and society. Reactions of individuals and society to aging. (Same as KSU 72877) Seminar.

## 679 POLITICAL SOCIOLOGY

3 credils
Description, analysis and interpretation of political behavior through application of sociological concepts. (Same as KSU 72544) Seminar.

6BO SOCIOLOGY OF EDUCATION
3 credils
Selected problems in sociologicai analysis of educational systems. Emphasis on such social determinants of learning as class. race. family and peer subcultures. (Same as KSU 72547) Seminar.

681 CROSS CULTURAL PERSPECTIVES IN AGING
3 credits
Prerequisite: permission. A comparison of aging in various cultures and societies around the world.

686 POPULATION
3 credits
Analysis of basic population theory and methods. Trends and differentials in fertility, mortality. migration and selected social demographic variables al so considered. (Same as KSU 72656 ) Seminar.

687 SOCIAL CHANGE
3 credits
Aavanced seminar in theories of social change. (Same as KSU 72320) Seminar.
688 HUMAN ECOLOGY
3 credits
Selected problems in analysis of social behavior in relation to physicat environment. Overview of theory, methods and applications of human ecology (Same as KSU 72650) Seminar.

689 URBAN ECOLOGY
3 credits
Seminar in theory and measurement of social ecology of urban areas. Emphasis on trends ano differentials in distribution of social and organizational behavior in urban America. Seminar.

697 READINGS IN CONTEMPORARY SOCIOLOGICAL LITERATURE $1-3$ credits Prerequisites: seven credits of sociology and permission of adviser instructor and head of department. Intensive reading and interpretation of written material in student's chosen field of interest. Regular conterences with instructor.

698 DIRECTED RESEARCH
$1-3$ credits
(May be repeated)
Prerequisite: Permission. Empincal research to be conducted by the student undergraduate faculty supervision.

699 THESIS
2-6 credits
(May be repeated for a total of six credits)
Prerequisite: permission. Supervised thesis writing

## 700 COLLEGE TEACHING OF SOCIOLOGY

2 credits
Prefequisite: teaching assistant or permission. Training and experience in coliege teaching of sociology. Not approved as credit toward a degree. Seminar.

705 THEORY AND MEASUREMENT OF SOCIAL ATTITUDES
3 credits
Prerequisites: 603 and 604, or permission. Seminar in theories of social attitudes and techniques for their measurement. (Same as KSU 72213) Seminar.

706 MULTIVARIATE TECHNIQUES IN SOCIOLOGY
3 credits
Frerequisites: 603 and 604. or permission; a sociology graduate stucent only. Methodological problems using advanced multivariate techniques in analysis of sociological data. Topics include nonexperimental causal analysis such as recursive and nonrecursive path analysis. (Same as KSU 82120)

707 MEASUREMENT IN SOCIOLOGY
3 credits
Prerequisite: 706 or permission. Theory and methods of measurement rellablity and validity in social data Topics include estimating reliability and valicity, scale and item cesign, alternative measurement strategies, measurement models. Seminar.

708 ADVANCED TECHNIQUES IN RESEARCH
1-3 credits
Prerequisite: permission. Selected topics in advanced, multivariate statistica: analysis and in strategies of sociological research. Emphasis on current trends and irnovations in research techniques. (Same as KSU 82219) Seminar.

709 ANALYSIS OF SOCIOLOGICAL DATA
3 credits
Prerequisite: 706 or permission. Critical examination of data analysis technıques having particular relevance to research problems in sociology. (Same as KSU 82121) Seminar.
710 SOCIAL SAMPLING
3 credits
Prerequistes: 603.604 or permission. Theory and methods of sampling in sociology. Topics include sample design, sampling efficiency, nonresponse, mortality in longitudinal designs. urban. organizational. and survey sampling, stratified ano cluster sampling Seminar

711 SURVEY RESEARCH METHODS
3 credits
Prerequisites: 603 and 604, or permission. In-depth study of design and administration of social surveys. (Same as KSU 82123) Seminar.

## 712 EXPERIMENTAL AND OUASI-EXPERIMENTAL

3 credits RESEARCH IN SOCIOLOGY
Prerequisites: 603.604 or permission. Application of experimental and quasi-experimental methods in sociological research with special attention given to appropriate designs, statistical analyses and empirical literature. Seminar.

## 714 QUALITATIVE METHODOLOGY

3 credits
Prerequisites: 603,604 or permission. Theory building and theory testing through the application of such techniques as participant-observation, open-enced interviewing, content analysis, historiograpny (diaries, records from churches, schools, social agencies, and other contemporary sources) and qualitative statistics. (Same as KSU 82122) Seminar.

## 718 THEORY CONSTRUCTION

3 credits
Study of rules and methods for constructing scientific theory. Emphasis on writings of scientists and philosophers of science and application of these ideas to development of sociological theories. (Same as KSU 72107) Seminar
721 SPECIAL TOPICS IN SOCIOLOGICAL THEORY
$1-3$ creatits
Open course to cover content area not readily subsumable under other neadings. Content of course to be cetermined by instructor (Same as KSU 82109) Seminar

722 EARLY SOCIOLOGICAL THOUGHT
3 credits
Prerequisite: 617 or permission. Two to four major sociological thinkers prior to 1930 examined in depth. Specific persons considered will be chosen by instructor but will be anneunced well in advance of beginning of class. (Same as KSU 82110) Seminar.

723 SCHOOLS OF SOCIOLOGICAL THOUGHT
3 credits
(May be repeated once for credit)
Prerequiste: 617 or permission. Two distinct schools of sociological thought wili be selected by the instructor for in-depth reading and comparative analysis. (Same as KSU 82105) Seminar.

733 SMALL GROUP RESEARCH TECHNIQUES 3 credits Prerequisite. 632. Application and implications of research in small groups. Focus on both laboratory and field studies. Seminar/laboratory.
737 CONTEMPORARY TRENDS IN SOCIAL PSYCHOLOGY 7 -3 credits
Selected topics on signiticant contemporary issues, theories and methodological developments in social psychology. (Same as KSU 82439) Seminar

738 RESEARCH IN SOCIAL PSYCHOLOGY
1 crealt
Prerequisite: 631. Design and development of a research project oriented to empirically examining selected concepts in social psychology or to testing selectec propositions in socia! psychology. (Same as KSU 72431) Research.

## 747 URBAN SOCIOLOGY

3 credits
Analysis of theories of urban process and review of major contriputions to empirical analysis of urban life. (Same as KSU 72652) Seminar.

750 RESEARCH IN COMMUNITY AND AREA PROBLEMS
3 credits
Prerequisite: permission. Special investigation of community, area or regional prodems: design and execution of small projects. (Same as KSU 72655) Seminar.

753 SPECIAL TOPICS IN SOCIAL ORGANIZATION
1-3 credits
Open course to cover content area not readily subsumable under other headings. Content of course to be determined by instructor. (Same as KSU 82549) Seminar.

754 ISSUES IN URBAN ANALYSIS 1.3 credits
Special topros seminar dealing with current and special topics in urban process and its analysis. (Same as KSU 82659) Seminar.

755 RESEARCH IN SOCIAL ORGANIZATION
1 creat
Prerequisite: 645. Design and development of a research project oriented to empirically examining selected concepts in social organization or to testing selected propositions in social organization (Same as KSU 72541) Research.

3 credits
Prerequisite: Ph.D. standing in sociology or permission. Critical examination of current research and theory related to urban lite; special emphasis on social change in urban environment. (Same as KSU 82660) Seminar.

767 SPECIAL TOPICS IN DEVIANCE AND DISORGANIZATION
$1-3$ credits
Designed to meet needs of student with interest in selected topics in deviance and disorganization (Same as KSU 82769) Seminar.

768 RESEARCH IN DEVIANCE AND DISORGANIZATION 1 credit
Prerequisite 663. Provides for analysis of research problems in deviance and disorganization and for cevelopment of research project in above area. (Same as KSU 72761) Research.

790 CONTEMPORARY ISSUES IN SOCIAL CHANGE
1-3 creoits
Prerequisite: 687 or permission Varying topics tocusing on current research and theory in field of social change. Advanced notice in specific content will be provided by instructor. (Same as KSU 82329) Seminar

791 RESEARCH IN SOCIAL CHANGE
1 credit
Prerequisite: 687. Continuation of 687. Student prepares a major research paper based on theoretical material covered in 790 and presents it for discussion to the seminar. (Same as KSU 72321) Research

792 RESEARCH IN HUMAN ECOLOGY
1 credit
Prerequisite: 688. Intensive research on selected aspect of human ecology by individuai student with previous training in this area. Topic to be arranged between student and instructor. (Same as KSU 72651) Research

797,8 INDIVIDUAL INVESTIGATION $1-3$ credits each
Prerequisites: one semester of graduate work, permission of instructor, adviser and head of department. Readings and/or research supervised by inember of graduate faculty (Same as KSU 72896)

## 899 DISSERTATION

1-10 credits
(Must be repeated for a minimum of 30 credits)
Dissertation. (Same as KSU 82899)

## ANTHROPOLOGY

## 3870:

150 CULTURAL ANTHROPOLOGY<br>4 credits

Introduction to study of culture; cross-cultural view of human adaptation through technology, sociai organization and ideology Lecture

151 EVOLUTION OF MAN AND CULTURE 3 credits
Biological and cultural evolution of Homo sapiens: comparative study of Primates: human variation; Old World archaeology Lecture.

270 CULTURES OF THE WORLD
3 credits
Prerequisite: 150 or permission of instructor. An examination of diversity in pre-industrial cultures: the ways in which cultures differ and the major processes which produce culturat differences.

## 355 INDIANS OF SOUTH AMERICA

3 credits
Prerequisite: 150 or 3850 100 or permission. Survey of aboriginal peoples of South America, with emphasis on culture areas and continuity of cuiture patterns. Lecture.
356 ARCHAEOLOGY OF THE AMERICAS
3 credits
Prerequisite: 150 or $3850: 100$ or permission. Survey of pretistoric cultures of North. Midale and South America; beginning with peopling of Western Hemispnere and ending with Europear contact Lecture.

357 MAGIC, MYTH AND RELIGION
Prerequisite: 150 or $3850: 100$. Analysis and discussion of the data concerning the origins, Prerequisite: 150 or $3850: 100$. Analysis and discussion of the data concerning the ongins,
roles and functions of magic and religion in a broad range of human societies with emohasis on the non-Western, pre-industrial societies. Examination of belief and ritual systems of such societies.

358 INDIANS OF NORTH AMERICA
3 credits
Prerequisite: 150 or permission. Ethnographic survey of native cultures of North America, with emphasis on variations in ecological adaptations, social organization and modern American Indians in anthropological perspective Lecture.

397 ANTHROPOLOGICAL RESEARCH
1-3 credits
(May be repeated)
Prerequisite: permission. Individual study of problem areas of specific interest to an incividual student under guidance of a faculty member.
455/555 CULTURE AND PERSONALITY
3 credits
Prerequisite: 150 or permission. Examination of functional and causal relationships between culture and individual cognition and behavior Lecture

## 457/557 CULTURE AND MEDICINE

3 credits
Prerequisite: 150 or permission of instructor. Anaiyzes various aspects of Western and non- Western medical systems from an anthropological perspective. Compares tracitional medical systems around the world

Prerequisite: 150 or permission. Examination of language structure and interaction of language, cognition and culture. Lecture.

463/563 SOCIAL ANTHROPOLOGY
3 credits
Prerequisite: 150 or permission. Comparative structural analysis of non-Western systems of kinship and social organization in terms of status, role, reciprocal expectation, nomenclature, nuclear and extended households and other kinship groupings. Lecture

472/572 SPECIAL TOPICS: ANTHROPOLOGY
3 credits
(May be repeated)
Prerequisites: 150 and permission Designed to meet needs of student with interests in selected topics in anthropology. Offered irregularly when resources and opportunities permit. May include archaeological field school, laboratory research or advanced course work not presently offered by department on regular basis.

494/594 WORKSHOP IN ANTHROPOLOGY
$1-3$ credits
(May be repeated)
Group studies of special topics in anthropology. May not be used to meet departmental undergraduate or graduate major requirements. May be used for elective crecit only.

## Graduate Courses

651 SEMINAR IN ANTHROPOLOGICAL THEORIES AND METHODS 3 credits
Major theoretical viewpoints in cultural anthropology. Nature, scope of research problems Survey of methods in field work. Seminar

697 INDIVIDUAL INVESTIGATION
1-3 credits
Prerequisites: permission of instructor and head of department. Intensive reading and/or research in siudent's chosen field of interest. Regular conferences with instructor. Preparation of a research paper

## POLYMER SCIENCE

## 3940:

301 INTRODUCTION TO ELASTOMERS
3 credits
Prerequisite: one year of organic chemislry or permission. History and preparation of natural rubber. Niethods utilized for productian of synthetic rubbers outlined. Laboratory experiments include compounding, processing, vulcanization and testing of rubber products.

302 INTRODUCTION TO PLASTICS
3 creatis
Prerequisite: 301 or permission. Plastics industry and its manufacturing methoas discussed Flastics compounding for both thermoplastic and thermosetting materials discussed with emphasis on processing and testing as illustrated by laboratory experiments.

303 SPECIAL PROJECTS IN POLYMER SCIENCE
1-2 credits
Prerequisite: 302 Research projects of a limited scope for student desiring experience with a professor working in a specific field. The course would be designed to give the student the processes involved in outlining projects, setting up equipment, collecting and recoroing research data in a scientific manner.

407 POLYMER SCIENCE
4 credits
Frerequisite: $3150: 314$ or 3650:301 or permission. Principles of polymerization processes and relationships between molecular structures and physical behavior of polymers. Molecular weight distributions of macromolecules discussed and methods of determining molecular weights utilized.

411/511 MOLECULAR STRUCTURE AND PHYSICAL
3 credits

## PROPERTIES OF POLYMERS I

Prerequisite. 301 or 302 or permission Interdisciplinary course involving the pronciples of chemistry and physics are brought to bear on relationships between molecular structure and chemical composition of macromolecules and their physical properties.

412/512 MOLECULAR STRUCTURE AND PHYSICAL
2 credits PROPERTIES OF POLYMERS II
Prerequisite 411 /511 or permission. Mechanical characterization of poiymeric materials, the Boltzmann superposition principle and fracture. Experimental techniques involving stress strain behavior, stress relaxation, creep, forced and free vibrations discussed.

413/513 MOLECULAR STRUCTURE AND PHYSICAL
2 credits PROPERTIES OF POLYMERS III
Prerequisite. 412/512 or permission. Deformation of bounded rubber units, the corespondence principle, time-dependent failure mechanical properties of polymeric foams and desig. considerations discussed

414 SEMINAR IN POLYMER SCIENCE
1-2 crears
New and unsolved problems of polymer science discussed from interdisciplinary view of material sciences. A student prepares one or more formal technical presentations related to chemical aspects of field.

415 MOLECULAR STRUCTURE AND PHYSICAL
2 credis
PROPERTIES OF POLYMERS LABORATORY
Prerequisite: $\mathbf{4 1 3}$ or permission Laboratory experiments involving the topics covered in the prerequisite course

416 EXTRUSION AND MOLDING
3 credits
Prerequisite: 302 or permission Introduction of extrusion and molding processes for plastics Theory of extrusion and molding processes and their application to the types of materials used, variations in equipment and the processing characteristics invoived. Lecture and aboratory

## 417 ADHESIVES AND COATING

2 credts
Frerequisite: 302 or permission. This course involves the fundamentals of adhesives and coatings technology. The chemical and physical properties of adhesives and coatings will be discussed and will be related to molecular structure. Specitic materials, applications and testing procedures will be discussed and practical experience gained by experimentation in the laboratory.

## 418 COMPOSITES, CELLULAR STRUCTURES AND TIRE TECHNOLOGY

4 credits
Prerequisite: 302 or permission. The importance and science of composite structures will be taught and applied to the technology of foam and tire manufacture. Laboratory experiments will be used to illustrate the principles involved.
490/590 WORKSHOP IN POLYMER SCIENCE
1-3 credits
(May be repeated with permission)
Group studies on selected topics involving polymers. May not be used to meet undergraduate or graduate major requirements in polymer science. May be used for elective credit only.

## Graduate Courses

601 POLYMER CONCEPTS
2 credits
Prerequisites: $3150: 264$ and $3150: 314$ or equivalent courses or permission of instructor Introduction to basic concepts in polymer science, including polymerization, copolymerization processes and naturally occurring polymers. Polymer nomenclature, definitions and classifications. Polymer stereochemistry and structure-property relationships.

602 SYNTHESIS AND CHEMICAL BEHAVIOR OF POLYMERS
2 credits
Prerequisite: 60 t or instructor's permission. Introduction to fundamentals and practical aspects of polymer synthesis and reactions of polymers; general knowledge of laboratory and commercial methods for polymer preparation; practical examples.

604 SPECIAL PROJECTS IN POLYMER SCIENCE
1-3 credits
Prerequisite: permission. Research projects of limited nature assigned to student entering polymer science program. Intended to familiarize student with typical probiems and techniques in this field.

605 POLYMER CHEMISTRY LABORATORY
2 credits
Prerequisites: basic knowledge of organic chemistry and 602 or equivalent. The preparation and identification of polymers to illustrate different methods of polymerization such as step and identification of polymers

607,8 POLYMER SCIENCE SEMINAR I AND II
1 credil each
Prerequisite: limited to first- and second-year resident graduate students. Participants are to present a 25 -minute lecture on some aspect of polymer science and to participate in discussions of lectures presented by other seminar participants.

610 INORGANIC POLYMERS
2 credits
Prerequisite: $3150: 472 / 572$ or 3940 601 or permission. Survey course designed to broaden outlook of typical graduate student beyond chemistry and physics of carbon chains.

613 POLYMER SCIENCE LABORATORY
2 credits
Prerequisites or corequisites: 701, 3150.601 or permission of inslructor Laboratory experiments in synthesis, characterization. physical properties and processing and testing of polymers.
631 PHYSICAL PROPERTIES OF POLYMERS I
2 credits
Prerequisite: permission of instructor. Thermodynamic and molecular basis of rubber elastic behavior; time-dependent mechanical properties of polymeric materials; melt-flow and entanglements; the morphology of crystalline poiymeric materials; fracture of polymers

632 PHYSICAL PROPERTIES OF POLYMERS II
2 credits
Prerequisite: 631 or permission of instructor. Normal-coordinate theories of molecular motion and applications to time-dependent mechanical, electrical, and scattering properties of polymeric systems, time-temperature superposition, free volume. WLF relation; fracture: glass transition.

649 SYNTHESIS AND TECHNOLOGY OF ELASTOMERS
2 credits
Prerequisites: 3150:264 or equivalent; permission of instructor. The preparation of both natural and synthetic elastomers. Emphasis on polymerization methods, polymer structure and methods of vulcanization. The modification of vulcanizates and these effects on physical characteristics of the elastomers cescribed.

674 POLYMER STRUCTURE AND CHARACTERIZATION
2 credits Prerequisites: $3150: 313$ and $3150: 314$ or permission of instructor. Presentation of statistical description of polymer molecular properties including chain polymerization and degradation. characterization of conformation, molecular weight. local structure. crystal structures and ordering.

675 POLYMER THERMODYNAMICS
2 credts
Prerequisite: 674 or permission of instructor. Presentation of the theories and experiments concerning polymer solutions, polymer phase equilibria, and polymeric phase transitions and dilute solution steady-state transport.

676 POLYMER CHARACTERIZATION LABORATORY
2 credits
Prerequisite: 675 or permission of instructor Laboratory analysis of polymers by fractionation osometry, swelling, x-ray diffraction, microscopy, thermal analysis, spectroscopy and chromatography.

680 POLYMER PROCESSING
2 creatis
Prerequisite: permission. Study of process engineering in polymer conversion industry. emphasizing analytical treatment of heat transfer, mass flow, mixing. shaping and molding of polymeric materials.

681 DESIGN OF RUBBER COMPONENTS
2 credits
Prerequisite: 4600:337 or equivalent. Principles of design of elastomeric products, emphasizing analytical treatments of elastic behavior and mechanisms of failure of resilient mountings, springs. seats, bearings and tires.

699 MASTER'S RESEARCH
1-6 credits
Prerequisite: permission. For properly qualified candidate for master's degree. Supervised original research in polymer science, under direction of faculty member, followed by submission of thesis

701 POLYMER TECHNOLOGY I
2 credits
Principles of compounding and testing, processing principles and types of operation, design principles.

702 POLYMER TECHNOLOGY II
2 credits
Prerequisite: 701 or permission of instructor. Rubber industry, rubber compounding and processing, vulcanization methods, physical testing, plastics preparation and compounding. manufacturing processes. Lecture/ laboratory.

## 703 POLYMER TECHNOLOGY III

2 credits
Prerequisite: 702 or permission of instructor. Flow properties, extrusion, calendering and milling, molding, mixing, bond operations, engineering properties, ruboer springs, viscoelastic analysis design consideration. Lecture/laboratory

## 704 CONDENSATION POLYMERIZATION

## 2 credits

Prerequisite: $3150: 463 / 563$ or permission of instructor. Survey of the theory and practice of condensation polymerization. Numerous commercial examples are presented with special emphasis being placed on the properties and applications of polymers prepared by this technique. Structure-property relationships are highlighted for each major polymer class.

705 FREE RADICAL REACTIONS IN POLYMER SCIENCE

## 2 credits

 Prerequisite: $3150: 463 / 563$ or permission of instructor. Covers the kinetics and mechanisms of free radical infiated reactions encountered in polymer science, including polymerization methods, detailed considerations of the initiation, propagation and termination steps in vinyl poiymerizations and copolymerization. preparation of block and graft copolymers by free radical initiated reactions and the mechanisms of free radical induced polymer degradation reactions706 IONIC AND MONOMER INSERTION REACTIONS
2 credits
Prerequisite $3150.463 / 563$ or permission of instructor. Covers the scope, kinetics and mechanisms of polymerizations initiation by anions, carbenium ions and onium ions as well as polymerizations induced by coordination catalysts. Living polymerizations, molecular weights, molecular weight distributions, stereo-chemistry, solvent effects, counter-ion effects, temperature effects, Ziegler-Natta catalysis, oletin metathesis, functionalization of polymers, graft and block copolymer synthesis.
707 KINETICS OF POLYMERIC PROCESSES
2 credils
Prerequisites: 632 and 675 or permission of instructor Principles of kinetic theory and statistical mechanics are applied to apolymer diffusion, polymerization kinelics polymer adsorption, membrane transport, polymeric phase transtormations. gel formation and colloidal destabilization.

708 MACROMOLECULAR CHAIN STRUCTURE
3 credits Prerequisites: either $3150: 314,3650: 301$, or $4200: 305$ or permission. Chain-like structure of large molecules, fundamental theories of chemical conformation and statistical mechanics developed to degree that their applications to polymeric problems can be discussed.

709 MACROMOLECULAR CHAIN STRUCTURE
3 credits
Prerequisite. 708 or permission. Continuation of topics in 708 including experimental techniques used in elucidation of chain structure

711 SPECIAL TOPICS: POLYMER SCIENCE 2 credits Prerequisite: permission. Study of topical subjects of current interest in polymer science, encompassing chemistry, physics or engineering aspects of macromolecular substances and including laboratory work where applicable.
712 SPECIAL TOPICS: POLYMER SCIENCE
2 credits
Prerequisite: permission. Topics of currentinterest in polymer science, encompassing chemistry, physics or engineering aspects of macromolecular science.

713 CHAIN STRUCTURE LABORATORY
2 credits
Prerequisite or corequisite: 708 or permission of instructor. Designed to apply principles discussed in 708 to laboratory determination of polymer structure.

899 DOCTORAL RESEARCH IN POLYMER SCIENCE
2-16 credits
Open to properly qualified student accepted as candidate for of Doctor of Philosophy in Polymer Science, depending on availability of staff and facilities.

## URBAN STUDIES

## 3980:

## Graduate Courses

(May be repeated)
Group studies of special topics in urban studies. May not be used to meet graduate major requirements in urban studies. Nay be used for elective credit only.

## 600 BASIC ANALYTICAL RESEARCH

3 credits
Prerequisite: permission. Examines basic framework of social science research methodologies and basic complementary statistical techniques, including probability and sampirig most useful in urban studies.

601 ADVANCED RESEARCH AND STATISTICAL METHODS
3 credits
Prerequisite 600 Extends study of social science to include more advanced research designs and multivariate statistical techniques.
602 AMERICAN URBAN DEVELOPMENT 3 credits
Examination of major literature on processes of urbanization in United States and selected facets of urban institutional development.

610 URBAN POLITICS 3 credits
Prerequisite: permission. Empirical analysis of urban political structure and major political problems
611 URBAN ADMINISTRATION
3 credits
Prerequisite: permission. Organization and management characteristics of various types of governmental units examined within framework of organization and management theory.

612 NATIONAL URBAN POLICY 4 credits
Prerequisite: permission. Major federal policies that relate to urban problems examined in regard to policy-making processes, implementation and impact.

613 INTERGOVERNMENTAL MANAGEMENT
3 credits
Prerequisite: permission. Examines the field of intergovernmental relations as it applies to urban administration and management.

## 614 ETHICS AND PUBLIC SERVICE

3 credits
Prerequisite permission. Examination of the ethical probiems and implications of decisions and policies made by those whose actions impact on the broad public. Case studies of decision making in both the public (government) and private (business and the professions) spheres are studied in relation to classicat lite rature in ethical theory.
620 SOCIAL SERVICES PLANNING
3 credits
Prerequisite: permission. In-depth analysis of total social services requirements and various ways in which social services planning function is carried out in urban communities.

621 URBAN SOCIETY AND SERVICE SYSTEMS
4 credits
Prerequisite: permission. Analysis of social bases of urban society; hierarchies, social problems, relationships to planning, public services.
630 INTRODUCTION TO PLANNING PRACTICE AND THEORY 3 credils
Introduction to the history, theories and forms of urban planning.
631 FACILITIES PLANNING
3 credits
Study of need, process and limitation of urban facilities planning.
632 LAND-USE CONTROL
3 credits
Prerequisite: permission. Acquaint student with past and present approaches to land use control in the United States and examine the political, economic. social and legal forces which have shaped existing land-use legislation.

636 PARKS AND RECREATION
3 credits
Prerequisite permission. Deals with theory, practice, evaluation of recreational adrninisfration. planning parks planning.

637 FIELD METHODS IN URBAN AND REGIONAL PLANNING
3 credils
Prerequisite: 630 . Taught jointiy with 638 to provide students with extensive experience in applying the quantitative methods and analytic procedures of urban planning to actual public policy issues

638 FIELD METHODS IN URBAN AND REGIONAL PLANNING/LABORATORY 3 credits Prerequisite: 630 . This course is taught jointly with 637 to provide students with extensive experience in applying methods and analytic procedures to urban planning to actual public policy issues.

640 FISCAL ANALYSIS
3 credits
Prerequisite permission Study of revenue and expenditure patterns of the city's government.
641 URBAN ECONOMIC GROWTH AND DEVELOPMENT
4 credits
Prerequisite: permission. Examination of urban economic unit and its susceptibility to social, economic, political and physical change.
642 MUNICIPAL BUDGETING 3 credits
Prerequisite: permission. Theories premises. assumptions, methodologies upon which municipal budgeting are based.

643 URBAN POLICY ANALYSIS
3 credits
Prerequisite permission. Develop and apply conceplual tecnnical capabilities to the emphasis of public policy in American cities. Identification of major policy issues, measurement techniques and analytical modets of public policy, analysis of policy formuiation and choicemaking process, analysis of policy impact, the problems and processes of public implementation

650 COMPARATIVE URBAN SYSTEMS
3 credits
Prerequisite: permission. Conceptual schemes and methodology for comparative urban analysis among a number of major cities seiected from each continent

## 670 RESEARCH FOR FUTURES PLANNING

3 credils
Prerequisites: 600 and 601 and completion of eight credits of core curricuium in urban studies. Anoverview of the techniques associated with the field of futures research and their application to long-term urban planning.

671 PROGRAM EVALUATION IN URBAN STUDIES
3 credits
Prerequisite: 600 or equivalent. Major considerations appropriate for conducting evaluations of a wide variety of human service programs and policies affecting urban and metropolitan areas.

672 ALTERNATIVE URBAN FUTURES
3 credts
Overview of topics and issues associated with alternative urban futures and their implications for planning and public policy in ufbar communities.

680,1 SELECTED TOPICS IN URBAN STUDIES
1-3 credits each
Prerequisite permission. Selected topics in specific areas of urban planning, in various deveiopmental processes of cities, or in various urban policy and administrative issues. (A maximum of 27 credits may be earned in 680 and 681 )

690 URBAN STUDIES SEMINAR
3 credits
Prerequisites. 16 credits of urban studies core plus quantitative methods. Urban research methods applied to specific urban research area. Comprehensive paper required.

## 695 INTERNSHIP

1.3 credits
(May be repeated for a total of three credits)
Prerequisite permission. Facuity-supervised work experience in which student participates in policy planning, administrative operations in selected urban, state and federal governments and urban agencies.

697 INDIVIDUAL STUDIES
1-3 credits
(May be repeated for a total of four credits)
Directed individual readings or research on specific area or topic.
700 ADVANCED RESEARCH METHODS I
3 credits
Prerequisite: master's level satisfied or permission. Introduction to statistical techniques and methodologies in doctoral and postdoctoral research. Emphasis on conceptual and mathematical interrelationships.

701 ADVANCED RESEARCH METHODS II
3 credits
Prerequisite: 700 or equivalent. Continuation of 700 . Emphasis placed upon conceptual and mathematica' interrelationships of multivariate slatistical techriques as well as application of these techniques through computer analysis of urban data sets.

702 URBAN POLICY: THE HISTORICAL PERSPECTIVE
3 credits
Prerequisite: permission, Critical examination of major ideas about the cify from Aristotle to 20th Century and of impact of urbanization on society and public policy.
703 SYSTEMS AND PROCESSES OF POLICY DEVELOPMENT 3 credits
Analysis of administrative process within public organizations, federal, state and local, in United States, emphasis on urban community

704 BUREAUCRACY AND URBAN CONSTITUENCIES
3 credits
Prerequisite: permission. Seminar designed to analyze public bureaucracy and public interest as central phenomena of contemporary public administration in urban America.

705 ECONOMICS OF URBAN POLICY 3 credits
Prerequisite: master's level knowledge of macroeconomics and microeconomics or special permission. Use of research tools of economic analysis in seminar format to examine options available to urban policy makers in operation of public services and economic developrnent of cities.

## 706 PROGRAM EVALUATION

3 credits
Prerequisite permission Provides concepts for student in evaluation of programs, both external and internal, to work settings.

707 URBAN PLANNING AND MANAGEMENT STRATEGIES
3 credits
Prerequisite: permission. Analysis of urban planning policy issues and strategies for implementation in public policy formulation Emphasis on use of planning process as integrative mechanism.

708 URBAN TUTORIAL
3 credis
Prerequisite: permission. Intensive study of a particular approved field or topical area of urban studies with a tutor. Student enroll's in a total of 12 hours of tutorial credit and more than 12 only if tutorial field is changed, as approved by Committee on Doctoral Studies. In no case will a student enroll in more than three credits per term.

899 DISSERTATION RESEARCH
$3-15$ credits
(May be repeated)
Open to properly qualified student accepted as candidate for Doctor of Philosophy degree.
Student must register for at least three credits each semester until dissertation is accepted.
Minimum of 15 credits required.

## College of Engineering

## GENERAL ENGINEERING

## 4100:

180 ENGINEERING DESIGN i credit
Introduction of freshinan engineering student in problem-solving techniques in engineering design. Required of all entering engineering freshmen in Evening College

201 ENERGY AND ENVIRONMENT
2 credits
Interactions between energy production, consumption and environment. Case studies. Not for engineering, chemistry or physics majors.

202 ATMOSPHERIC POLLUTION
2 credits
Causes of atmospheric pollution and technical economic and social problems Technical solutions. Case studies. Not for engineering, chemistry or physics majors.

206 FORTRAN (SCIENCE/ENGINEERING)
2 credits
Prerequisite 2020:334 or 3450:221. Introduction to use ci digital computeis in scientific and engineering applications. For student majoring in engineering or physical sciences. No credit for derson having completed 3460:201

300 COOPERATIVE EDUCATION WORK PERIOD
0 credt
Elective for cooperative education student who has completed sophomore year. Fractice in industry and comprehensive written reports of this experience.

301 COOPERATIVE EDUCATION WORK PERIOD
0 credit
Required for cooperative education student only. Practice in industry ano comprehensive written reports of this experience. Offered spring semester of third year

302 COOPERATIVE EDUCATION WORK PERIOD
0 credit
Required for cooperative education student only. Fractice in industry and comprehensive written reports of this experience. Offered fall semester of fourth year.

403 COOPERATIVE EDUCATION WORK PERIOD
O credif
Required for cooperative education student only. Practice in industry and comprehensive written reports of this experience. Offered summer atter fourth year.

## CHEMICAL ENGINEERING

 4200:120 ENGINEERING FUNDAMENTALS
1 credit
introducion to problein solving and format, computational exercise dimensions, units physical measurements

## 200 MATERIAL AND ENERGY BALANCES

4 credits
Prerequistes: $120,4100: 206,3450: 221$ and $3150: 134$. Introduction to material energy balance calculations applied to solution of chemical problems.

225 EQUILIBRIUM THERMODYNAMICS
4 credits
Prerequisites: 200 and $3450: 222$. Second law of thermodyamics, entropy, applications, comprehensive treatment of pure and mixed tluids. Phase and chemical equilibria, llow processes. power production and refrigeration processes covered

305 MATERIALS SCIENCE
2 credits
Prerequisites: 3150 : 133 and 3650292 and junior standing. Structure processing and properties of metals, ceramics and polymers. Special topics, such as composites, corrosion and wear

321 TRANSPORT PHENOMENA I
3 credits
Prerequisites: 200 and $3450: 222$. Constitutive equations for momentum and energy transter. Development of microscopic and macroscopic momentum and energy equations. Analogy and dimensions correlations. Froblems and applications in unif operations of chemical engineering.

322 TRANSPORT PHENOMENA II
3 credits
Prerequisite: 321 . Constitutive equations for mass transter. Developinent of microscopic and macroscopic momentum, energy and mass transter equations for binary systems. Problems and applications in unit operations of cnemical engineering.
330 CHEMICAL REACTION ENGINEERING
3 credits
Prerequisite: 225. Nonequilibrium processes including chemical reaction mechanisms rate equations and ideal reactor design applied to homogeneous and heterogeneous systems.

351 FLUID AND THERMAL OPERATIONS
3 credits
Prerequisite: 321 . Applications of fluid mechanics including piping, pumping, compression. metering agitation and separations. Applications of heart transfer by conduction, convection and radiation to design of process equipment.

## 352 TRANSPORT LABORATORY

2 credits
Prerequisites: 322 and 351. Experiments in fiuid, heat and miass transfer. Data collection analysis and reporting in various formats. Relationships to theory emphasized.

## 353 MASS TRANSFER OPERATIONS

3 credits
Prerequisites: 225,351 and 322. Theory and design of staged operations including distillation, extraction, absorplion. Theory and design of continuous mass transter devices.

408 POLYMER ENGINEERING
3 credits
Prerequisite permission or senior standing. Commerical polymerization, materials selection and property modification, polymer processing, appiied rheology and classification of polymer industry.

435 PROCESS ANALYSIS AND CONTROL
3 credits
Prerequisites: 330,353 . Response of simple and chemical processes and design of appropriate control systems

441 PROCESS ECONOMICS AND DESIGN
4 credits
Prerequisites: $330,351,353$. Economic evaluation of chemical plants including justification profitability, capital investment and operating costs. Design of chemical process equipment.

442 PLANT DESIGN
4 credits
Prerequisite: 441 . Integration of process and equipment design for a total plant including justification. site selection and plant layout. Culminates with a case study or A.I Ch. E. Student Contest Problem

454 OPERATIONS LABORATORY
1 credit
Prerequisites 352,353 Comprehensive experiments and analysis in combined heat and mass
transfer. thermodynamics and reaction kinetics. Comprehensive reports
461/561 SOLIDS PROCESSING
3 creaits
Prerequisites: 321 and 353 or permission. Comprehensive problems in sedimentation, fluidization, drying and other operations involving mecnanics of particulate solids in liquid and gas continua.

463/563 POLLUTION CONTROL
3 credits
Prerequisite: 353 or permission. Air and water pollution sources and problems. Engineering aspects and methodology.

466/566 DIGITIZED DATA AND SIMULATION
3 credits
Frerequisite permission. Data acquisition and analysis by digital devices, digital control applications and design

470/570 ELECTROCHEMICAL ENGINEERING
3 credits
Prerequisites 322, 330. Chemical engineering principles as applied to the study of electrode processes and to the design of electrochemical reactors Topics include electrochemical thermodynamics, cell polarizations. Faraday's Laws, electrode kinetics, transport processes in electrochemical systems, current distributions reactor design, experimental methods commercial processes, and batteries and fuel cells.

## 496 TOPICS IN CHEMICAL ENGINEERING

1-3 credits
(May be repeated for a total of six credits)
Prerequisite permission. Topics selected from new and developing areas of chemical engineering. such as electrochemical engineering. coal and synthetic fuels processing, bioengineering, simultaneous heat and mass transter phenomena and new separation techniques.

## 497 HONORS PROJECT

1-3 credits
(May be repeated for a total of six credits)
Prerequisite special permission. Individual creative project pertinent to chemical engineering culminating in undergraduate thesis, supervised by faculty member of the department.

## 499 RESEARCH PROJECT

$1-3$ credils
(May be repeated for a total of six credits)
Frerequisite: permission. Individual research project pertinent to chemical engineering under faculty supervision. Report required.

## Graduate Courses

## 600 TRANSPORT PHENOMENA

3 creaits
Prerequisite 322 or permission. Systematic presentation of conservation of momentum. energy and mass at microscopic and macroscopic levels in conjunction with iliustrative examples and analogies

605 CHEMICAL REACTION ENGINEERING
3 credis
Prerequisite: 330 or permission. Kinetics of homogeneous and heterogeneous systems. Reactor design for ideal and non-ideal flow systems.

610 CLASSICAL THERMODYNAMICS 3 credits
Prerequisite 225 Discussion of iaws of thermodynamics and their application. Prediction and correlation of thermodynamic data. Phase and reaction equilibria.

630 CHEMICAL PROCESS DYNAMICS
3 credils
Prerequisite 600 Development and solutions of mathematical models for chemical processes including models based on transport phenomena principles, population balance methoos and systems analysis.

631 CHEMICAL ENGINEERING ANALYSIS
3 credits
Prerequisites. 322, 225.330. Mathematical analysis of problems in transport processes
chemical kinetics and control systems Solution tecnniques for these problems and their practical significances are stressed. Hueristic proofs will be given for necessary theory developments

635 ADVANCED POLYMER ENGINEERING
3 credits
Prerequisite 322 or 600 orpermission. Reactors for polymerization, polymer characterization
polymer processing, polymer rheology

640 ADVANCED PLANT DESIGN 3 creatis
Prerequisite: permission. Topical treatment of process and equipment design, scale-up.
optimization. process syntheses. process economics. Case problems.

## 696 TOPICS IN CHEMICAL ENGINEERING

$1-3$ credits
(May be repeated for a total of six credils)
Prerequisite: permission. Topics seiected from new and developing areas of chemical engineering. such as electrochemical engineering, coal and synthetic fuels processing. bioengineering, simultaneous heat and mass transfer phenomena and new separation techniques.

## 698 SPECIAL PROBLEMS

$1-4$ credits
(May be repeated for a total of four credits)
Prerequisite permission of cepartment head. For the qualitied candidate for M.S.Ch.E. degree. Designed to expand an area of inierest by consultation with a faculty member and indepencent study with a faculty beyond available course work. Credit dependent upon nature and extent of project as determined by faculty member and department head

## 699 MASTER'S THESIS

1-6 credits
(Way be repeated to a maximum of six credits)
For oroperly qualified candidate for master's degree. Supervised original research in specific area of chemical engineering selected on basis of availiability of staff and facilities.

701 ADVANCED TRANSPORT PHENOMENA
3 credils
Prerequisite: 600. Advancea theory of transport phenomena such as applied tensor analysis, constitutive equations, multicomponent reactive transport and multiphase transport. Hustrative practical examples presented

702 MULTIPHASE TRANSPORT PHENOMENA
3 creails
Prerequisite: 600 General transport theorem, kinematics. Cauchy's lemmas and the jump bouncary conditions are developed followed by the theory of volume averaging. The single phase equations are then volume averaged to obtain the multiphase equations of change. The technique for using these equations and their practical significance is alse covered.

## 706 ADVANCED REACTION ENGINEERING

3 credits
Prerequisite: 605 Kinetics of heterogeneous systems, steady and unsteady state mathematical modeling of chemical reactors, fluidization and additional topics drawn from current literature.

711 ADVANCED CHEMICAL ENGINEERING THERMODYNAMICS
3 credits
Prerequisite: 610 Advanced topics in thermodynamics, including phase and reaction equilibria at high pressures, phase equilibrium for muttiphase systerns, reaction equilibria in muttiphase systems, therinodynamics of surfaces, thermodynamics of systems under stress, non-equilibrium thermodynamics and current topics from literature.

## 715 MOMENTUM TRANSPORT

3 credits
Prerequisite: 600 . Discussion of potential flow, boundary layer formation and turbulent flow phenomena for Newfonian fluids.

716 NON-NEWTONIAN FLUID MECHANICS
3 credits
Prerequisite: 600. Tensor and curvilinear coordinates. Newtonian viscometrics. Development of non-Newtonian constitutive equations Special and general flows of various constitutive models.

## 720 ENERGY TRANSPORT

3 credits
Prerequisite: 600. Conduction, natural and forced convection, and radiation heat transler starting with equations of continuity, motion and energy.

## 721 TOPICS IN ENERGY TRANSPORT

3 credits
prerequisite: 720. Advanced analytical and graphical methods for solving complex heat trensfer problems found in chemical engineering

725 MASS TRANSFER
3 credits
Prerequisite. 600. Theory of mass transfer with applications to absorption, adsorption, distillation and heterogeneous catalysis.

731 PROCESS CONTROL 3 credits
Prerequisite: 630. Introduction to modern control theory of chemical processes including cascade control, multivariate control and data sampled control.

736 POLYMER ENGINEERING TOPICS
3 credils
Prerequisite: permission. Selected topics of current interesi in polymer engineering, such as modeling of reactors or processes, multiphase materials, multiphase flow, artificial fiber engineering, etc.

750 POLLUTION CONTROL ENGINEERING
3 credits
Prerequisite. 463 or permission. Advanced waste treatment methods as applied to chemical process industries.

## 794 ADVANCED SEMINAR

1.4 credils
(May be repeated for a total of six credits)
Prerequisite: permission of department head. Advanced projects. readings and other studies in varous areas of chemical engineering. Intended for student seaking Ph. D . in engineering.

## 898 PRELIMINARY RESEARCH

1.15 credits
(May be repeated for a total of 15 credits)
Prerequisite: approval of Advisory Committee. Preliminary investigation of Ph.D dissertation subject.

899 DOCTORAL DISSERTATION
1-15 credits
(May be takeri more than once)
Prerequisites: completion of preliminary examination and approva' of Advisory Committee. Original research by Ph.D. candidate

## CIVIL ENGINEERING

4300:
130 INTRODUCTION TO ENGINEERING
0 credit
Introduction to civil engineering for freshman engineering sludent. Tasks and opportunities of civil engineer. Introduction to engineering problem-solving techniques Required of all civil engineering freshmen.

## 201 STATICS

3 credits
Corequisites: $3450: 222$ and $3650: 291$. Forces, resuliants, couples, equilibrium of force systems; distributed forces, centers of gravity, analysis of simple structures; moments of inertia. kinematics

202 INTRODUCTION TO MECHANICS OF SOLIDS
3 credits
Prerequisite: 201. Axial force, bending moment diagrams, axial stress and detormation; stress-strain diagrams; torsion; flexural stress; flexural shearing stress; cornpound stresses; indeterminate beams: columns.

## 230 SURVEYING

3 credis
Basic tools and computations for surveying measurement of distance elevation and angles: traverse surveys. Laboratory tield practice.

306 THEORY OF STRUCTURES
3 credits
Prerequisite: 202. Stability and determinacy; statically determinate trusses and frames; approximate frame analysis influence lines; moving loads; virtual work analysis: moment area theorem; theorem of three moments: moment distribution for continuous beams and frames.

## 313 SOIL MECHANICS

3 credits
water flow.
Prerequisite: 202 or permission. Physical properties of soils. Soil water and ground water flow. Compaction.

## 314 GEOTECHNICAL ENGINEERING

3 credits
Prerequisite. 31 3. Limiting equilibrium within a soil mass. Design of retaining walls, bulkheads. shallow, deep foundation systems. Slope stability. Laboratory study of soil properties and behavior.

323 WATER SUPPLY AND WASTEWATER DISPOSAL
3 credits
Prerequisites: $3150: 133,4600: 310$. Quality of water supplies. Study of water treatment processes and methoos. Characteristics of wastewater, wastewater treatment, wastewater filtration, sludge treatment and disposal. construction finance, maintenance and operation of treatment tacilities.

3 credits
Flow in pipelines and pipe networks, pumps and pumping stations, seepage, elements of hydrology, flow in open channels, design of hydraulic structures, water resources engineering.

361 TRANSPORTATION ENGINEERTNG
3 credits
Prerequisite junior standing. Introductory survey of transportation topics including transportation planning requirements and techniques, introduction to design of highways, alrports and railroads and introduction to traftic engineering.

## 380 ENGINEERING MATERIALS LABORATORY

2 credits
Prerequisite: 202. Study of laboratory instrumentation and standard techniques in testing of engineering materials. Data analysis.

401 STEEL DESIGN
3 credits
Prerequisite: 306. Tension, compression members; openweb joists; beams; bearing plates; beam-columns: bolted, welded connections.

403 REINFORCED CONCRETE DESIGN
3 credits
Prerequisite: 306. Ultimate strength analysis and design; compression steel diagonal tension: stirrups; deveiopment length; one-way siab. T-beams: two-way slabs; columns; isolated and combined tootings.

404 ADVANCED STRUCTURAL DESIGN
3 credits
Prerequisites: 401, 403 Composite design; plate girders; plastic design; cantiever retaining walls; torsion in $\mathrm{R} / \mathrm{C}$ members; deflection of $\mathrm{R} / \mathrm{C}$ members; continuous girder bridge design.

407 ADVANCED MECHANICS OF SOLIDS
3 credits
Prerequisite: 202. Inelastic torsion analysis twisting of noncircufar bar and hollow members, bending of unsymmetrical sections; inelastic beam bending; beams of two materials; curved beams; shear center; strain transtormation: yield criteria, skew bending: Castigliano's theo rem, conjugate beam.

414 DESIGN OF EARTH STRUCTURES
3 credits
Prerequisite: 314 or permission. Criteria tor design of earth structures: dams, highway tills, cofferdarns, etc. Embankment construction techniques, quaity control. Analysis of embankment, foundation stability. instrumentation for monitoring soil movement, stablity. Stabilizatıon of foundation soils. Seepage analysis, control methods.

418/518 SOIL AND ROCK EXPLORATION
3 credits
Prerequisite: 314 or permission. Site exploration criteria and planning. Conventional bonng sampling and in situ testing methods. Theory and application of geophysics and geophysical methods including seismic, electrical resistivity, gravity, magnetic and radioactive measurements. Air photo interpretation.

## 423/523 WATER POLLUTION PRINCIPLES

4 credits
Prerequisite: 323 . Principles of aquatic chemistry ana microbiology, chemical reaction engineering fundamentals presented with emphasis on applying then to water, wastewater reatment.

## 424 WATER-WASTEWATER LABORATORY

1 credit
Corequisite: 323 or permission. Analysis of water and wastewater
426/526 ENVIRONMENTAL ENGINEERING DESIGN
3 credits Prerequisite: 323 . An introduction to the physical, chemical and biological processes utilized in the treatment of water and wastewater, with design parameters emphasized.

427/527 WATER QUALITY MODELING AND MANAGEMENT
3 credits
Prerequisite: 323 . Analysis and simulation of the physical, chemical and biochemical processes affecting stream quality. Development of management strategies based upon the application of water quality modeling techniques to environmental systems.
$428 / 528$ HAZARDOUS AND SOLID WASTES
3 credits
Prerequisite: senior standing or permission of instructor. Hazardous and solid waste quantities, properties and sources are presented. Handling, processing, storage and disposal methods are discussed with non-technical constraints outlined.

441 HYDRAULIC DESIGN
3 credits
Prerequisite: 341. Collection and critical evaluation of hydraulic data related to actual design problem selected by instructor. Development and analysis of design alternatives. Preparation of reports.

443/543 APPLIED HYDRAULICS
3 credils
Prerequisite: 341 . Review of design principles: urban hydraulics, steam channel mechanics sedimentation, coastal engineering.

445 HYDROLOGY
3 credits
Prerequisite: 341 . Surface water hydrology, water cycle, precipilation, evaporation, stream flow. Principles of hydrotogic systems and their analysis. Hydrologic simuiation. reservoir planning and water supply studies. Analysis of rainfail and flioods

448 hYdraulics Laboratory
1 credil
Prerequisite: 341 . Introduction to laboratory and field devices for hydraulic measurements Reduction and presentation of hydraulic data. Individual assignments of model studies of hydraulic structures.

450 URBAN PLANNING
2 credits
Historical developments in urban planning: urban planning techniques and patterns: comprehensive master planning studies; planning regulations; design problems; class projects: class project presentation.

451/551 MATRIX ANALYSIS OF STRUCTURES 3 credits
Prerequisite: 306 or equivalent. Review of matrix algebra, structural analysis concepts. Stiftness formulation of bars, beams, frames. Soiution of linear algebraic equations. Computer program implementation, application.

452 STRUCTURAL VIBRATIONS AND EARTHQUAKES
3 credits
Prerequisite: 306 . Vibration and dynamic analysis of structural systems with one, iwo, or more degrees of freedom: beams. frames, buildings and bridges. Numerical methods of analysis. Elastic-plastic systems. Earthquake analysis of design. Earthquake codes.

## 453/553 OPTIMUM STRUCTURAL DESIGN

3 credils
Prerequisite: 306 . Basic concepts in slfuctural optimization. Mathematical programming methods including unconstrained minimization, muttidimensionat minimization and constrained minimization.

463/563 TRANSPORTATION PLANNING
3 credits
Prerequisite: 361 . Theory and techniques for development, analysis and evaluation of transportation system plans. Emphasis on understanding and using tools and professional methods available to solve transportation planning problems. especially in urban areas.

464 Highway design
3 credils
Prerequisite: 361 . Step-by-step study of modern highway design techniques and construction practices.

465/565 PAVEMENT ENGINEERING
3 credits
Prerequisite: 361. Theories of elasticity, of viscoelasticity and of layered systems as applied to pavements. Pavement materials characterization; pavement design, pavement restoration for rigid and flexible pavements

## 466/566 TRAFFIC ENGINEERING

3 credits
Prerequisite: 361 . Vehicle and urban travel characteristics, traffic flow theory, traffic studies, accidents and safety, tratfic signs and marking, traffic signal planning, tratic control and transportation administration.

471 CONSTRUCTION ADMINISTRATION
3 credius
Prerequisite: senior standing or permission. Organization for construction, construction contracts. estimating. bidding. bonds and insurance. Construction tinancial management and supervision of construction, scheduling using critical path method.

472 CONSTRUCTION ENGINEERING
3 credits
Prerequisite: senior standing or permission. Construction equipment selection and management. Techniques of various engineering construction operations including blasting, tunnelling, concrete framework and dewatering.

473 CONSTRUCTION MATERIALS
2 credits
Prerequisites: 380,4200 305. Composition, structure and mechanical behavior of structural materials such as concrete, wood masonry, plastics and composite materials. Discussion of applications and principles of evaluating material properties.
474/574 UNDERGROUND CONSTRUCTION
2 credits
Prerequisite: 314. Description of practices and techniques of underground construction Selection of proper method for individual job Design of underground openings: suppon systems and linings.

481 CIVIL ENGINEERING SYSTEMS
2 credits
Prerequisite: senior standing. Systems approach to civil engineering problems. Mathematical programming; project plannirig, scheduling and cost analysis: basic operations research methods; decision analysis. Management of engineering design of complex civil engineering projects.

482 SPECIAL PROJECTS
1-3 credits
Prerequisites: senio; standing and permission. Directed individual or group research or study in sludent's tield of interest. Topic subject 10 approval by adviser.

497 HONORS PROJECT
$1-3$ credits
(May be repeated for a total of six credits)
Prerequisite: senior standing in Honors Program, Individual creative project or design relevant to civil engineering. supervised by faculty member of the department

## Graduate Courses

## 601 ADVANCED MECHANICS OF MATERIALS

3 credits
Prerequisite: 202. Three-dimensional stress states. Strain transformations. Theories of failure Shear center. Unsymmetrical bending. Curved beams. Beams on elastic foundations. Torsion of noncircular sections. Castigliano's theorems. Analytical and numerical solutions to column buckling and beam-column problems.

604 DYNAMICS OF STRUCTURES
3 credits
Prerequisite 306. Approximate, rigorous dynamic analysis of one, two, multiple and infinite degrees of freedom structural systems. Elastoplastic, plastic analysis. Equivalent systems. dynamic hinge concept. Modal analysis. Transfer matrices. Fourier, Laplace transforms.

## 605 STRUCTURAL STABILITY

3 credits
Prerequisite 601 . Buckling of bars, beam-columns and trames. Lateral buckling of beams Double and langent modulus theories Energy methods Compressed rings and curved bars. Torsional buckling. Buckling of plates and shells. Inelastic buckling.

606 ENERGY METHODS AND ELASTICITY
3 credits
Prerequisite: 202. Work and complementary work. Strain energy and complementary strain energy. Virtual work and Castigliano's theorems. Variational methods. Applications. Formulation of boundary value problems in elasticity. Selected topics in energy methods and elasticity.

607 PRESTRESSED CONCRETE
3 credits
Prerequisile: 404. Basic concepts. Design of double-tee roof girder: shear, development length; column; piles; design of highway bridge girder; pretensioned post-tensioned; continuous girders; corbels; volume-change forces: connections.

3 credils
Prerequisite: 401. Floor systems; staggered truss system; braced frame design; unbraced frame design: driff indices; monocoque (tube and partial tube) systems; earthquake design: fire protection. Analysis by STRUDL.

609 FINITE ELEMENT ANALYSIS 1
3 credits
Prerequisite 601. Introductory development of finite element method as applied to various topics from continuum mechanics. Such areas as plane, axisymmetric and 3-D stress analysis; conduction, fluid mechanics; transient problems and geometric and materiai nonlinearity

610 INTRODUCTION TO COMPOSITE MECHANICS
3 credits
Prerequisite: 601 or equivalent. Fundamental concepts of composites, composite micromechanics. macromechanics and laminate theory are discussed from geometric relationships to laminate analysis for stiffness and strength. The geometric, mechanical, hygral and inermal behavior or composites will be described in terms of corresponding properties of the constituents. Emphasis is placed on the physics of composite behavior, design and analysis of fiber composite laminates subjected to mechanical and environmental loading conditions.

## 611 FUNDAMENTALS OF SOIL BEHAVIOR

2 credits
Prerequisite: 314 . In-depth examination of structure and fundamental physico-chemical and mechanical properties of engineering soils viewed as particulate matter.

612 ADVANCED SOIL MECHANICS
3 crediss
Prerequisite: 314 . Study of mecharics of behavior of soil as continuum. Principles of stress, strain, deformation, shear strength and pore water pressure as applied to mechanicalbehav ior of soil masses.

613 ADVANCED GEOTECHNICAL TESTING
3 credits
Prerequisites: 5i8,612. Theory and practice of static and dynamic in situ and laboratory soil testing. Testing procedures, applicability. limitations. General evaluation of geotechnical parameters for routine and special site conditions. One lecture, two laboratories per week.

614 FOUNDATION ENGINEERING I
3 credits
Prerequisite: 313 or permission. Foundation bearing capacity and settlement analysis. Design of shallow and deep foundation systems. Pile driving and load test procedures and analysis Theory and design of earth-retaining structures including retaining walls, tiebacks and bulkheads.

615 FOUNDATION ENGINEERING II
3 credits
Prerequisite: 614 or permission. Soil-structure interaction theory and applications to underground structures incluaing conduits, tunnels and shafts. Advanced foundation construction methods and problems including dewatering. soil stabilization, underpinning and cofferdams. Siope slability analysis.

618 ROCK MECHANICS
3 credits
Prerequisite 601 or permission. Mecharvica! nature of rocks: linear elasticity and application to rock problems. inelastic behavior of rocks, time dependence and effects of pore pressure experimental characterization of rock properties: failure theory and crack propagation.

620 SANITARY ENGINEERING PROBLEMS
2 credits
Prerequisite: 323. Application of both laboratory methods and theory to solution of sanilary engineering problems involving water poliution, stream regeneration, special industrial wastes, detergents and others.

621 WATER AND WASTEWATER LABORATORY
2 credits
Prerequisite: 426 or permission of instructor. Conduction of laboratory experiments related to the design and operation of water and wastewater treatment processes. Experimental design, data collection, analysis and report preparation

## 622 WATER TREATMENT PLANT DESIGN

3 credits
Prerequisite: permission. Design of water treatment plants for potable, industrial and commercial uses. Development of water sources, treatment methods and financing used to design best practical methods in terms of cost-benefits.

623 WASTEWATER TREATMENT PLANT DESIGN
3 credits Prerequisite permission. Application of theory and fundamentals to design of wastewater treatment plants. System design methods used for biological and chemical stabilization of wastewater to meet water quaity criteria. Economic analyses made to determine best practical designs to be utilized.

624 ENGINEERING MANAGEMENT OF WATER UTILITIES
2 credils Prerequisite: permission. Comprehensive study of various functions of water utility and engineering maragement operations pertaining to intricate and complex processes. Fundamentals of responsibility and duties applicable to water utility systems.

625 WATER AND WASTEWATER PROCESSES 1
3 credits
Prerequisite: 423. Theory, current research associaled with physical/ chemical processes. the impact on cesign-coagulation/flocculation, sedimentation, filtration, absorption processes emphasized.

626 WATER AND WASTEWATER PROCESSES II
3 credits
Prerequisite: 423 Theory, current research associated with biological processes, related physical/chemical processes, the impact on design-activated sludge. fixed film processes. gas transter. sludge stablization, sludge dewatering processes emphasized

640 ADVANCED FLUID MECHANICS
3 credils
Prerequisite: $4600: 310$ or permission. Basic equations. Navier-Stokes equations. Analysis of potential flow, turbulence, hydraulic transients. Solution of typicai fluid mechanics problems. Analysis of water hammer in pipe networks by method of characteristics.

644 OPEN CHANNEL HYDRAULICS
3 creaits
Application of basic principles of fluid mechanics to flow in open channels. Criteria for analysis of unitorm, gradually varied and rapidly varied flows. Study of movement and transportation of sediments. Design problems utilizing numerical techniques.

645 APPLIED HYDROLOGY
3 credits
Discussion of water cycle such as precipitation, evaporation, stream flows, floods, infiltration. Methods of analysis and their application to studies of water demand, storage, transportation including mathematical modeling of urban runoff and statistical hydrology

646 COASTAL ENGINEERING
3 credils
Characteristics of linear and nontinear wave theories Interaction of structures, waves; design analysis of shore, offshore structures. Movement, transportation of sediments in lake shore areas.

681 ADVANCED ENGINEERING MATERIALS
3 credits
Selected topics on principles governing mechanical behavior of materials with respect to elastic. plastic and creep responses, stress rupture, low and high cycle and thermal tatigue. Failure theories and fracture phenomena in brittle and ductile materials. Crack propagation and life prediction of engineering materials.

682 ELASTICITY
3 credits
Prerequisite: 202. Plane stress, plane strain. Two-dimensional problems in rectangular, polar coordinates. Strain-energy methods. Stress, stran in three dimensions. Torsion. Bending. Thermal stresses

683 PLASTICITY AND VISCOELASTICITY
3 credits
Prerequisite: 682 or equivalent. Yieiding of materials. Plastic flow rules. Strain-hardening effect. Formulation of stress-strain laws material characterization. Creep. stress relaxation of engineering materials. Theoretical relationships. Mathematical formulatoon of constitutive relations.

684 ADVANCED REINFORCED CONCRETE DESIGN
3 credils
Pferequisite: 403 Slab systems. Equivalent frame properties. Limit analysis. Yield line theory. Lateral load systems. Shear walls. Footings. Biaxial column action.

685 ADVANCED STEEL DESIGN
3 credits
Prerequisite: 401. Properties of steel, fasteners, bearing, friction joints. Gusset plates, bolts in tension, end plates, weld joints, cyclic loads, fatigue analysis, types of detail, torsion, stability design.

686 EXPERIMENTAL METHODS IN STRUCTURAL MECHANICS
3 credits
Prerequisite 601 Electrohydraulic closed-ion test systems. Methods tor specimen heating. Sirain measurement techniques ior room and elevated temperatures. Design of computer controlled experiments investigating deformation and failure under complex stress states.

697 SPECIAL PROBLEMS
12 credits
Prerequisite permission. Supervised research or directed individual sludy in student's major field. Topic selected by student. subject to approval by adviser.

698 SPECIAL PROBLEMS
$1-2$ credits
Prerequisites: 697 and permission. Continuation of 697 . Individual research should lead to final seport of publishable quality.

699 MASTER'S THESIS
$1-6$ credits
Prerequisite: permission. Research and thesis on some suitable topic in civil engineering as approved by deparment. Defense of thesis is by final examination.

701 EARTHQUAKE ENGINEERING
3 credits
Prerequisite: 604. Earthquake fundamentals. Earthquake response of single-story and multistory butldings. as well as structural components. Modal analysis for earthquake response Inelastic response of multistory structures. Earihquake codes. Stochastic approach.

702 PLATES AND SHELLS
3 credits
Prerequisites: 601 and $3450: 531$. Navier and Levy solutions for rectangular plales. Approximate methods, including finite differences. Forces in middle plant Large deflections. Differential geometry of a sufface Shells of revolution.

703 APPLICATION IN PLASTICITY AND VISCOELASTICITY
3 credits
Prerequisite: 601. Formulation of ooundary value. Problems in plasticity and viscoelasticity. Correspondence principle. Solution approaches to practical problems, e.g. probiems with cylindrical and spherical symmetry. torsionat and two-dimensional problems.

704 FINITE ELEMENT ANALYSIS II
3 credits
Prerequisites. 609 and 702 or permission. Curved, plate, shell brick elements. Quasianalytical elements. Quadrature formulas. Substructuring for static and dynamic analyses. Solution algorithms for tinear and nonlinear static and dynamic analysis. Computer program formulation. Review of large-scale production programs.

710 ADVANCED COMPOSITE MECHANICS
3 credits
Prerequisite: 610 . Analysis of short-fiber composites and statistical behavior, beriding, buck-
ling and vibration of laminated plates and shells. Advanced topics involving stress concentration. residue stress, fatigue, fracture toughness. nonlinear and viscoelastic stress-strain lormulations, solulions of nonlinear problems.

712 DYNAMIC PLASTICITY
3 credits
Prerequisite 683 or 703 Impulsive and rransient loading of siructures and structural elements (beams, plates, sheils, etc.) in which inelastic deformation occurs. Topics include: Iongitudinal and transverse plastic wave propagation in thin rods, propagation of plastic hinges, ratedependent viscopiastic waves. transverse impact on beams and plates, high-rate forming, blast loading, plate pertoration, shock waves in solids.

717 SOIL. DYNAMICS
3 credits
Prerequisite: 614 or permission. Vibration and wave propagation theory retating to soils, soil structures and foundations. Dynamic behavior of soils. Design of foundations for dynamic loading impact, pulsaling and blast loads.

745 SEEPAGE
2 credits
Discussion of parameters determining permeability of various soils. Analyticat. numerical and experimentai methods to determine two- or inree-dimensional movement of groundwater. Unsleady flows

794 ADVANCED SEMINAR IN CIVIL ENGINEERING
$1-3$ credits
(May be repeated for a total of nine credits)
Prerequisite: permission of department head. Advanced projects, reading and other studies in various areas of civil engineering. Inlended for student seeking Ph.D in engineering.

898 PRELIMINARY RESEARCH
$1-15$ credits
(May be repeated for a total of 15 credits)
Prerequisite: approval of Advisory Committee. Preliminary investigation of Ph.D. dissertation subject.

899 DOCTORAL DISSERTATION
$1-15$ credits
(May be taken more than once)
Prerequisifes: completion of preliminary examination and approval of Acvisory Committee.
Original research by Ph.D. candidate

## ELECTRICAL ENGINEERING

## 4400:

101 INTRODUCTION TO ELECTRICAL ENGINEERING 1 credit
Corequisites: $1100: 111$ and $3450: 149$. Introduction of freshman engineering student to
problem-solving techniques. Required of all entering electrical engineering freshmen
231 CIRCUITS I
3 credts
Prerequisite $3650: 291$; corequisite: 3450.223 . Fundamentals of cifcuit analysis including loop and nodal methods, phasor tochniques, resonance, polyphase circuits and magnetic coupand nodal meth
ling in circuits.

232 CIRCUITS II
3 credils
Prerequis ite: 231 ; corequisite: 3450:235. Network theorems Fourier methods. transfer functions Laplace and Fourier transforms and their use in analyzing dynamic operation of circuits.

320 BASIC ELECTRICAL ENGINEERING
4 credits
Prerequisite: junior standing in engineering: corequisite: 3450.235 . Covers fundamental aspects of electrical circuits, electronics and electrical machinery. Not open to an electricai engineering major.

333 CIRCUITS III
3 credits
Prerequisites 232,3450:235.4100:206. Application of Laplace and state variable to frequency and time domain expressions for sleady state and transient responses. Network topology and computer-aided circuit design.

334 ACTIVE CIRCUITS
3 credits
Prerequisite: 333. Applications of operational amplifiers including bilinear transter functions, scaling, cascade design, biquad circuils, lowpass, high pass, bandpass-fiters, Chebyshev response, sensitivity, delay filters, frequency transformations, ladder design, simulated element design, leaptrog smulation and swithed-capacitors.

## 343 ELECTRICAL MEASUREMENTS

4 credits
Prerequisite: 231; corequisite: 232 . Study of DC and AC meters and bridges. Evaluation of errors involved in measurements.

## 344 INSTRUMENTATION

3 credits
Prerequisites: 343. 362 . Analysis and characteristics of transducers, indicating instruments and recorders used in electrical measurements

353 ELECTROMAGNETIC FIELDS I
4 credits
Prerequisite: 3450:223. Static and oynamic fields treated on vector basis with Maxwell's equations in point and integral forms Dynamic electromagnetic fields with applications including particle dynamics and propagation equations

359 TRANSMISSION LINES AND NETWORKS
3 credits
Prerequisites: 333, 362 . Steady state and transient analysis of distributed parameter circuits Low and high frequency applications. Networks for transmissions

362 ELECTRONIC CIRCUITS
4 credits
Prerequisites: 333, 353. Equivaient circuits for electronic devices. Time and frequency domain analysis. Rectification, voltage and power amplification, teedback. oscillators, linea IC's.

363 SWITCHING AND LOGIC
4 credits
Prerequisites: 232, 343. Analysis of computer circuits. introduction to use of Boolean algebra and mapping techniques in aralyzing switching circuits. Sequential circuits.

## 365 MICROPROCESSOR SYSTEM

3 credils
Prerequisite' 363. Consideration of microcomputer hardware and sofiware components Microprocessor and peripheral devices. Instructions set of selected microprocessor Introduction to microcomputer software.

## 371 CONTROL SYSTEMS I

3 credits
Prerequisite: 333. Introduction to servomechanisms and feedback. Modeling and response of teedback controi systems. Stability of linear sy stems. Experiments include analog simulation and basic servomechanism.

## 380 ILLUMINATION

2 credits
Fundamentals of illumination and principles underlying specifications and design for adequate electrical lighting.

## 383 APPLICATION OF MOTORS

3 credits
Prerequisite: 386 . Apparatus and circuits for control of electric motors. Calculation of accelerating and decelerating time and duty cycles. Selection of motors for various applications

384 ENERGY CONVERSION I
3 credits
Prerequisites: 231, 353. Required for all EE students. Magnetic circuits transformers, elec tromagnetic forces and torques, electromechanical energy conversion d.c. and a.c. machine characteristics applications.

385 ENERGY CONVERSION LABORATORY
1 credi
Prerequisite 384 Required for all EE students. A laboratory course to follow 384 . Electromag netic forces and torques, electromechanical energy conversion, ac. and ac. machine characteristics

## 86 ENERGY CONVERSION II

3 credits
Prerequisite 384. Acontinuation of 384 . Synchronous machines single phase motors, motor and load characteristics, machine and transtormer harmonics.

## 387 ADVANCED MACHINERY

3 credits
Prerequisite: 386, d-q transtormation. Reactance of synchronous machines Parallel operation of transformers. Synchronous-induction motors. Machine saturation ana harmonics.

388 MODERN POWER SYSTEMS
3 credits
Prerequisite. 384, corequisite: 371. Power system generation, operation and control
391 PROBLEMS
$1-3$ credits
May be taken more than once)
Prefequisite permission of department head. Select comprehensive problems, supervised discussions and computation periods.

## 21/521 ENGINEERING ECONOMY

2.3 credits

Prerequisites: $3250: 244$ and senior standing in engineering. Presents engineering economics as distinguished from classical economic theory.

445 COMMUNICATION SYSTEMS
3 credits
Prerequisites: $333,353,362$ Communications systems; equipment: noise; modulation; antennas, propagation, electronic communication circuits; frequency standards generation: communication satellites.

446 ELECTRONIC SYSTEMS
3 credits
Study of specific state-ot-the-art elecironic systems: video systerris. magnetic and oplical recording systems, optical communication links, frequency synthesis, írequency and time standards, special eiecironic circuits and systems.

447 RANDOM SIGNALS
3 credils
Prerequisite. 333 Applications of set theory discrete and continuous sample spaces: probability, random variabies, distribution funclions, density functions, stochaslic processes, random signals. system function, power spectrum and correlation functions.

448 COMMUNICATION THEORY
3 credits
Prerequisite: 447. Spectral analysis and Fourier transforms, random variables and processes amplituje frequency and pulse modulation; representations of noise in modulation; threshoid in trequency modulation, data transmission: communication system ano noise calculations.

449/549 ENGINEERING OF DATA COMMUNICATION SYSTEMS
3 credits Prereguisites: 362 . 363, 445. Data commurication systems engineering design and operafion: digital data codes, error-checking and error-correction methods digita! moculation methods and transmission media, data links, protocol models, data networks. monitoring and testing methods

452 INTRODUCTION TO LASERS
3 credits
Prerequisites: 333. 353. Introduction to basic concepts of maser (laser) action emission processes and their roles in laser action; types of lasers; presentation of generalized operat ing criteria.

## 454 ELECTROMAGNETIC FIELDS II

3 credits
Prerequisite: 353 or permission. Advanced field theory including boundary value problems and nonlinear fields. Applications of Maxwell's equations. Antennas.

## 455/555 MICROWAVES

4 credits
Prerequisites: 353, 359 Dynamic fields. Maxwell's equatıon and wave equations. Fiela analy sis of wave guides. microwave components, techniques and systems.

461 PHYSICS OF ELECTRONIC DEVICES
3 credits
Prerequisites: $3650,301,353,362$. Physics of semiconductors. Band ineory, energy distribu tion and electron transport. P-n junctions. BJT and FET devices. Electron emission and ballistics, gaseous discharge, dielectric and magnetic materials. Device modeling.

464 PULSE ELECTRONICS
4 credits
Frerequisites: 333, 352. Waveshaping circuits, nonsinusoidal waveform generation and re laxation circuits. Pulse transformers. Application of pulse and switching circuits.

## 465/565 COMPUTER CIRCUITS

4 credits
Frerequisite: 363 . Electronic circuitry considerations in logic circuits: methods of sequential threshold logic analysis, synthesis; development of computer aithmetic elements: memory storage devices.

467/567 SOLID-STATE DEVICES
2 credths
Prerequisite: 362. Static ano dynamic behavior of $p$-n function and junction transistors. Theory of avalanche and Zener breakdown. FET pnpn diode and Gunn effect oscillator

## 469 INDUSTRIAL ELECTRONICS

3 credits
Prerequisites 362,386 . Application of electronic devices at power levels. Intended for those speciatizing in power area of electrica! engineering rather than electronic areas.

470 MICROPROCESSOR INTERFACING
3 credits
Prerequisites: 362, 363. Microprocessor structure, Bus Interfaco. Digital controlier devices and their relationship to both the microcomputer and physical environment.

472/572 CONTROL SYSTEMS II
4 credits
Prerequisite: 371. State variable analysis. design of control sysiems. Discrete systems, analysis, digital computer control. Experiments include hybrid AC control system, digita computer control.

480/580 SYMMETRICAL COMPONENTS
3 credits
Prerequisite: 386 . Per unit method as applied to power system calculations. Fundamental principles of symmelrical components as applied to analysis of eiectrical circuits and machines.

481 ELECTRICAL POWER SYSTEMS I 3 credits
Prerequisite: 386 . Introduction to electricity utility foad flow, faulty analysis, stability, surge protection and relaying

482 ELECTRICAL POWER SYSTEMS II
3 credits
Prerequisite: 386 . Introduction to industrial power systems. Local generation, power factor correction, conductor selection code requirements, coordination of protective devices.

## 97 HONORS PROJECT

1-3 credis
(May be repeated for a total of six credits)
Prerequisite senior standing in Honors Program. Individual creative project or design felevant to electrical engineering, supervised by faculty member of the department

498/598 TOPICS IN ELECTRICAL ENGINEERING
1-2 credits
(May be taken more than once)
Prerequisite: permission of department head. Speciai topics in electrical engineering.

## Graduate Courses

631 CIRCUIT ANALYSIS
3 credits
Prerequisite: graduate standing. Operational methods, time domain analysis, state variable methods and matrix technigues applied in circuit analysis. Realizability and synthesis of oriving point impedance and transter functions.

641 RANDOM SIGNAL ANALYSIS
3 credits
Prerequisite: 447. Analysis, interpretation and smoothing of engineering data through application of statistical and probability methods

642 STATISTICAL COMMUNICATIONS 3 credits
Prerequisite 448 or 641 . Detection and estimation of signals in comriunication systems liriear and nonlinear systems with randominputs; narrow-band systems mean squared-error tilter. modulation and information theory.

646 DIGITAL SIGNAL PROCESSING
3 credits
Prerequisites: calculus, operational transform techniques Moderi signal processing tech niques including FIR, IIR filter design, spectral estimation (FFi algorithmi and maximumi entropy method).

651 ELECTROMAGNETIC FIELDS 3 credits
Prerequisite: graduate standing in electrical engineering. Introduction to advanced eiectromagnetic concepis at graduate level.

652 ADVANCED ELECTROMAGNETICS 3 credits
Prerequisite: 651 . Application of Maxweil's equations. Propagation equations ano antemna analysis.

## 661 DESIGN OF DIGITAL SYSTEMS

3 credits
Pierecuisite: 465. Applications of logic circuits in modern digital electronic computer and in digital communication systems. Computer organization and control. input-cutput cevices and interlace slandaros, advanced topics in computers.

662 TOPICS IN ELECTRONICS
3 credits
Prerequisite permission of department heac. Discuss:ons of recentadvances in electrorics
671 DISCRETE CONTROL SYSTEMS
3 credifs
Prerequisite $472 / 572$ or permission. Theory techniques for alysis, design of discrete control systems. 2 -transform technique. stability analysis, trequency response Optimization. Digitai computer control.

674 CONTROL SYSTEM THEORY
3 credits
Prerequisite $472 / 572$. Advanced modem control theory for Inear. nonlinear systems. Controilaoility, observability, state variable feedpack. astimation, control nonlinear system analysis. stabilily problem.

## 675 SVSTEM SIMULATION

3 credits
Prerequisite: 472 or permissiun of the instructor. This course is designed to provide the contro engineer with tools necessary to simulate continuous systems on a dightai computer. Topics include linear mulistep methods, noninear methods. stiff systems. optimzation, parallet computing and simuiations languages

676 RANDOM PROCESS ANALYSIS
3 credis
Prerequisite: 674 . Anatysis and design of control systems with stochastically defined input Introduction to estimation filters.

681 POWER SYSTEM ANALYSIS
3 credits
Prerequisite: 480. Short circuit and load fiow analysis of power systems with emphasis on computer soluton. Transient machine anaiysis.

682 POWER SYSTEM STABILITY 3 credits
Prerequisite: 681. Steady state and transien stabiity of power systems with emphasis on computer solution.

683 ECONOMICS OF POWER SYSTEMS
3 creans
Prerequisite 681. Analysis and operation oi power system for economic dispatching using
a computer.
684 Protective relaying
3 credits
Prerequisite: 480 Principles and application of relays as appled io protection of power systems.

685 SURGE PROTECTION
3 creaits
Prerequisite: 480. Phenomena of lightening and switchrig surges on electrical systems. Protection of systems and apparalus by line design, application of protective devices and insulation coordination.

693 SPECIAL PROBLEMS
$1-3$ credits
(May be taken more tnan once)
Prerequisite: permission of department head. For a qualified graduate student. Supervised research or investigation in major field of training or experience. Credit dependent upon nature and extent of project.

699 MASTER'S THESIS
1-6 credits
Frerequisite: permissicn of department head. Research and thesis on some suitable topic in electrical engineering.

753 TOPICS IN ELECTROMAGNETIGS
3 credits
Prerequisite: 651. Introduction to advanced technques in tields. Topics inciude application of
Green's functions techniques and related boundary value problems
776 OPTIMAL CONTROL I
3 credts
Prerequisite: 674 . Formulation of opti:rizational problem, application of variationai ealculus maximum principle and optimality principle to control prodemis. Computational techniques in optimization.

777 OPTIMAL CONTROL II
3 credits
Prerequisite: 776 Sensitivity probleminoptimal comroi systemidentitication implementation and application of adaptive control.

## 78 ADAPTIVE CONTROL

3 credits
Prerequisite: 671 or permission of instructor. This course will provide the advanced graduate student with the techniques requred for the contror of time-varying noninear and stochastio systems. Topics include minimum prediction erfor control least squares estimation, certainty equivalence adaptive control Kalman filtering. minimum variance control, LQG control and stochastic adaptive control.

779 ADVANCED TOPICS IN CONTROL
3 credits
Prerequisite: 776. Discussions of recent advances in control systoms

## 794 ADVANCED SEMINAR

$1-3$ credits
(May be taken more than once)
Prerequisite permission of department head. Advanced tevel coverage of specialized topics For student seeking Ph.C. in engineering.

398 PRELIMINARY RESEARCH
$7-15$ credils
(May be repeated)
Prerequisites: completion of qualitying examination and approval of Student Adviscry Commiltee Preliminary irvestigation of Pn.D. oissertation subject.

899 DOCTORAL DISSERTATION
1.15 credits
(May be repeated)
Prerequisites: completion of candidacy exammation and approval of Student Advisory Committee. Original research by a Ph.D. candidate.

## ENGINEERING COMPUTER SCIENCE 4450:

410 COMPUTER METHODS
3 credits
Prerequisites 4100:206 or equivalent in FORTRAN, and 3450235. Numerical methods and tecmiques in use of central computer facifties to solve problems in science and engineering. Ploting and other FORTRAN Ibrary routines. Job Control language. Interactive computing

420/520 SOFTWARE ENGINEERING
3 credts
Prereduistes: 3460:209 and instructor's permission. Software lifecycle. Specification, desigr and implementation of team projects.

432 SYSTEM SIMULATION
3 credtis
Prerequisite: 410 . Principles of modeling and simulation of discrete and continuous time models, using FORTRAN and S/360 CSMP. Discrete event models arid GPSS. SiMSCRIPT.

470/570 INTEGRATED SYSTEM DESIGN
3 creats
Prerequisite for 470: 4400:465. Prerequisite 1or 570: 4400:565. Introduction to computer structures, design methods and development tools for VLSI systems. nMOS devices and fabrication. Frocessing and control design. Layout methods and tools. Design systems.

497/597 SPECIAL TOPICS: COMPUTER SCIENCE
1-2 credis
(May de taken more than once)
Prerequisite: permission of departrient head Special topics in computer engineering.

## Graduate Courses

606 COMPUTER ARCHITECTURE
3 credits
Prerequisite: $4400: 363$ or equivalent. Historical development of computer architecture De
sign methodotogies. Processor organization and design of instruction sets. Parallei process-
ing. Contral section mplementations. Memory organization. System configurations.
610 COMPUTER ALGORITHMS I
3 credits
Prerequisites: 4100:206 and 3450235. Organization of scientific and engineering problems for computer solutions. Analysis of error and convergence properties of algorithms.

## 611 COMPUTER ALGORITHMS II

3 credits
Prerequisite: 610 or permission. Data structures and algorthm design for minimum execution time and riemory requirements.

693 SPECIAL PROBLEMS
$1-3$ credirs
(May be taken more than once)
Prerequisite: permission of department head for a qualified graduate student. Supervised researcn or investigation in student's major field. Crealt depends upon nature and extent of project.

794 ADVANCED SEMINAR
$1-3$ credits
(May be taken more than once)
Prerequisite: permisston of department head. Advanced level coverage of varicus topics intended for student seeking Ph.D. in engineering.

## MECHANICAL ENGINEERING 4600:

## 25 ENGINEERING GRAPHICS

2 वredis
Freehand sketching techniques Orthographic projection and pictorial representation of typlcal machine eiements.

160 ENGINEERING DESIGN: MECHANICAL ENGINEERING 1 credit
Introauction to engineering protession. Engineering curriculum and programs of study. ntroduction to the use of the digital computer

## 203 DYNAMICS

3 credts
Prerequisite $4300: 201$ kinematics and kinetics of particies and rigid bodies. Principles of work. energy, momentum and impulse.

4 credits
Prerequisites: $3450: 221$ and $3650: 291$. Basic concepts of thermodynamics. The pure sub stance, the system and first and second laws of thermodynamics Eniropy availability, power cycles.

301 THERMODYNAMICS II
3 credits
Prerequisites: 300 and 310 . Thermodynamics of state, gas mixtures and gas-vapor mixtures Combustion. Thermodynamics of gas flow.

305 THERMAL SCIENCE
2 credits
Prerequisites: 3450:222 and 3650:291. Credit not allowed for both 300 and 305 . Introduction to first and second laws of thermodynamics, perfect gas relationships, equations of state. cycle analysis Introduction to conduction, convection and radiation heat transfer.

310 FLUID MECHANICS
3 credils
Prerequisite: 203. Properties and behavior of gases and liquids at rest and in motion. Energy equation. Flow in conduits. Forces on body submerged in moving fluid. Dimensional analysis and similitude.

315 HEAT TRANSFER
3 credits
Prerequisites $160,300,310$, or $4100: 206$. Fundamentals of heat transter by conduction convection and radiation.

321 KINEMATICS OF MACHINES
3 creats
Prerequisites: 125. 203. Displacements. velocities, accelerations and introduction to forces in plan motion mechanisms. Introduction to design of gears, gear trains and cams.

336 ANALYSIS OF MECHANICAL COMPONENTS
3 credits
Prerequisites: 160,4300202 , or 4100206 . Analysis of stress and stran at a point. Mohr's circles, shear centers, elastic instability. Stresses in thick and thin cylinders. Fatigue analysis.

337 DESIGN OF MECHANICAL COMPONENTS
3 credits
Prerequisite: 336. Application of stress analysis to design of fasteners, welds, springs, bal bearings and gears. Introduction to journal bearings and fubrication. Component design projects.

360 ENGINEERING ANALYSIS
3 credits
Prerequisites: 160,3450235 , or $4100: 206$ Analytical and numerical methods of solution of mechanical engireering problems

380 MECHANICAL METALLURGY
2 credits
Prerequisite: 336 Structures of common metalic materials and study of theis macroscopic mechanical behavior. Phase changes and heat treatment. Theories of tailure

393 INTERNAL COMBUSTION ENGINES LABORATORY
1 credit
Prerequisite 301 Study of application and performance in reciprocating and rotary engines.
396 COMPUTER METHODS LABORATORY
1 credit
Prerequisites: $160,3450: 235$. or 4100206 . Application of gigital computers to solution of lypical problems in heat transfer, fluid dynamics, machine design, kinematics, strength of materials, elasticity and vibrations and dynamics

400/500 THERMAL SYSTEM COMPONENTS
3 credits
Prerequisites, $301,310.315$. Performanice analysis and design of basic components of thermal energy exchange and conversion systems. Componenis studied include heat exchangers, pumps, compressors, turbines and expansion engines

401 DESIGN OF ENERGY SYSTEMS
2 credits
Prerequisites: 400, 460. Analysis and design of systems for energy exchange. Ferformance of energy system components and their integration into complex practical systems. Design project required.

110/510 HEATING AND AIR CONDITIONING
3 credits
Prerequisites: 301, 315. Thermodynamics of gas mixtures. Design and seiection of air conditioning equipment. Control of gas mixtures, heating, cooling and humidity

411/511 COMPRESSIBLE FLUID MECHANICS
3 credits
Prerequisites 301,310. Subsonic and supersonic flow in nozzles, diffusers and ducts. Onedimensional reactive gas dynarnics. Prandil-Myer theory. Applications to design and analysis of compressors, turbines and propulsion devices.

## 412/512 FUNDAMENTALS OF FLIGHT

3 credits
Prerequisite: 310 or equivalent or permission of instructor. Introduction to basic aerodynamics, airplane performance, stability and control, astronautics and propulsion. Design considerations are emphasized.

415/515 ENERGY CONVERSION 3 credits
Prerequisites: 301, 315. Topics from fields of internal combustion engines, cycle analysis, modern conversion devices.

416/516 HEAT TRANSFER PROCESSES
3 credits
Prerequisite: 315. Analysis, design of extended surtaces. Natural convective combined modes of heat transter and heat transfer with a change of phase. Heat transfer in magnetohydrodynamic systems

420 INTRODUCTION TO FINITE ELEMENT METHOD
3 credis
Prerequisite 336 . Introduction to matrix and finite elemient methods in mechanicai engineering. Stitfness and fiexibility formulations in both solid mechanics and thermal sciences Basic finite element methods and its implementation. Application of NASTRAN program. Pre- and post-processing using interactive computer graphics

422/522 EXPERIMENTAL STRESS ANALYSIS I
3 credils
Prerequisite: 336 or $4300: 202$. Experimental inethods of determining stress or sirain britte lacquer strain gages, photoelasticity.

## 426/526 INDUSTRIAL NOISE CONTROL

3 credits
Prerequisite: 431 or permission. Theory of propagation, fransmission and reflection of plane waves. Psychological acoustics. Noise control regulations and criteria. Techniques of identi fication, instrumentation and controi of noise sources.

430/530 MACHINE DYNAMICS
3 credils
Prerequisite: 321. Static and dynamic forces in machines, products of inertia, dynamic equivalence. flywheels. Balancing of rotating, reciprocating, cyclic plane motion. Computer sirmulation of transient mechanism dynamics, other topics in advanced dynamics.

431/531 MECHANICAL VIBRATIONS I
3 credits
Prerequisites: 203 and 3450:235. Undamped and forced vibrations of systems having one or wo degrees of freedom.

432/532 VEHICLE DYNAMICS
3 credits
Application of dynamic systems analysis techniques to road vehicles. Newtonian and La grangian methods. Tire/road interface. Ride characteristics, handing and stability. Digital simulation.

440/540 SYSTEM DYNÄMICS AND CONTROL
4 credits
Prerequisites: 315,431 . or permission. Laplace transtorms. Mathematical models of physical systems. Transient response and stability Error anałysis and syslem accuracy. Root locus inethods in design. Frequency analysis and design. Compensation techniques.

442/542 INDUSTRIAL AUTOMATIC CONTROL
3 credits
Prefequisite: $\mathbf{4 4 0}$ or equivalent. Operation of basic control mechanisms. Study of mechanical hydraulic pneumatic. fluidic control systems, including application areas. Tuning of control devices for optimum performance of system. Case studies on control applications from industry. e g. boilers, furnaces process heaters.

443/543 OPTIMIZATION METHODS IN MECHANICAL ENGINEERING
3 credits
Prerequisite 360 . Development and method of solution of optimization problemis in mechanicat engineering. The use of dynamic programming and operational research methods for optimization inciuding computer utilization and applications.

## 460 CONCEPTS OF DESIGN

3 credits
Frerequisite: 337: corequisite: 400. Design process. Creativity and inventiveness. Tools of decision making. engineering economics, reliability, optimization. Case sudies

461 DESIGN OF MECHANICAL SYSTEMS
Prerequisites: 321. 431, 460. Detailed mechanical design project and case studies.
462/562 PRESSURE VESSEL DESIGN
3 credits
Prerequisite: 336 or 4300:202. Introauction to modern pressure vessel technology. Topics include basic structural corisiderations. materials and their environment and design consiruction features.

483 MECHANICAL ENGINEERING MEASUREMENTS LABORATORY 2 credits Prerequisites: 203, 300,310. Development of methods to measure temperaiure, pressure flow rate, viscosity and motion. Includes both lecture and laboratory experience and emphasizes catibration and accuracy of appropriate instruments.

484 MECHANICAL ENGINEERING LABORATORY 2 credifs
Prerequisite 483, corequisites: 315 and 431. Laboratory experiments in area of dvnamics, vibrations. thermodynamics, fluids, heat transfer ano controls.

485 MECHANICAL ENGINEERING PROBLEMS
1-2 credits
Prerequisite: permission Investigation of a project by individual or small student groups Detalled formal report required.

486 SPECIAL TOPICS
$1-3$ credits
Prerequisite: permission. Brief description of current content to be announced in schedule of classes.

497 HONORS PROJECT
1-2 credits
Prerequisite: semiur standing in Honors Program. Individual creative project in thermal science, mechanics or design relevant to mechanical engineering. supervised by..'aculty member of the department

498 EXPERIMENTAL INVESTIGATION IN
$1-2$ credits MECHANICAL ENGINEERING
Individual independent laboratory investigations in areas relevant to mechanical engineering. Student suggests a project and makes appropriate arrangements with facully for supervision

## Graduate Courses

## 600 GAS DYNAMICS

3 credits
Prerequisite: $411 / 511$. Derivation of equations for muiti-dimensional irrotational fiow of a
compressible fluid. Method of smail perturbations. Method of characteristics. Ideal flow theory. Transonic flow. One dimensional unsteady flow.

608 THERMODYNAMICS
3 credits
Prorequisite: 301 or equivaient. Extension and generalization of basic laws of thermody namics with application to a variety of physical and biotogical systems. Introduction to irreversibie thermodynamics, the third law and statistical thermodynamics.

609 FINITE ELEMENT ANALYSIS I
3 credits
Frerequisite: 622. Introductory development of finite element method as applied to various topics from continuumi mechanics. Areas covered include plane: axisymmetric and 3-D stress analysis, conduction; fluid mechanics; transient problems and geometric ard material nonlinearity.

610 DYNAMICS OF VISCOUS FLOW I
3 credits
Prerequisites: 301.310 or equivalent. Derivation and solution of equations governing lamınar viscous flow. Applications include unsteady flows. slow viscous flows, parallel flows, lubrication theory and laminar boundary layers

## 611 COMPUTATIONAL FLUID MECHANICS

3 creaits
Prerequisite: 610 or permission of instructor. Study of numerical methods in fluids; numerical errors and stability, finite differencing, nontinear convection terms. Poisson equations, boundary conditions, turbulence, spectral and finite element techniques.

615 CONDUCTION HEAT TRANSFER
3 creaits
Prerequisite: 315 or equivaient. Study of one-, two and three-dimensional heat conduction. Development of analyticai techniques tor analysis and desigin.

616 CONVECTION HEAT TRANSFER
3 creaits Prerequisite: 315 or equivalent. Heat transfer from laminar, furbuient external, internal flows Convective heat transter at high veiocities. Heat transfer to liquid metals; high Prandil number fluids.

617 RADIATION HEAT TRANSFER
3 credits
Prerequisite: 315 or equivalent: Study of governing radiation laws. Black and real systems, geometric factors, gray enclosures. non-gray systems. gaseous radiation. radiation equipment.
618 BOLLING HEAT TRANSFER AND TWO-PHASE FLOW
3 credits
Prerequisites: 301,315 or equivalent. Current techniques to determine heat transter and pressure drop in components such as boilers, heat exchangers, and steam generators, with boiting. Boiting mechanism. slip ratio, critical heat flux and instabilities in boiling flow systems.

620 EXPERIMENTAL STRESS ANALYSIS II
2 credits
Prerequisite: $422 / 522$. Dynamic slrain gage methods, transducer design. Moire fringe techniques and topics in photoelasticity.

621 INTRODUCTION TO TIRE MECHANICS
3 credits
Prerequisite permission. Topics include tire as venicle component. tire traction and wear. laminated structures, tire stress and strains and advanced tre models.

622 CONtINUUM MECHANICS
3 credits
Presequisite: 336 or permission. Analysis of stress and deformation at a point. Derivation of fundamental field equations of fluid and solid mechanics by applying basic laws o! dynamics. conservation of mass and energy. Development of constitutive laws.

623 APPLIED STRESS ANALYSIS I
3 credits
Prerequisite: 622. Continuation of 622 with specific application to solid mechanics Development of energy theorems due to Reissner. Washizu and generalized Hamilton's principle. Solutions to static and Jynamic problems.

624 FUNDAMENTAL OF FRACTURE MECHANICS
3 creaits
Prerequisite: 622 or permission of instructor. Methods of stress analysis in elastic media containing hoies and cracks. Theories of brittie fracture. Dynamic crack propagation. Fatigue fractures. Finite element approaches to fracture mechanics.
625 ANALYSIS OF MECHANICAL COMPONENTS
3 credits
Prerequisite: 337 or equivalent. Theories of failure and plastic flow. Faligue. creep analysis and introduction to fracture mechanics.

629 NONLINEAR ENGINEERING PROBLEMS
3 ciedis
Prerequisite: 622 . Study of norlinear ordinary and partial differential equations governing phenomena of mechanics. Analysis of phasespace trajectories. singularities and stability. Development of approximate analytical methods.

630 MECHANICAL VIBRATIONS II
3 credits
Prerequisite: $431 / 531$ or equivalent. Study of vibrations of multidegree of freedom systems micluding tree and forced vibrations, damped and transient response, normal mode vibraticns and matrix iteration lechniques. Application to seismic design and shock desizn.

631 Kinematic design
3 credils
Prerequisites 321 and permission of instructor. The geometry of constrained motion. Analysis of relative plane motion using veclors and the digital computer. Curvature theory. Synthesis of inkages and gearing. Introduction to computer-aided design.

632 RELIABILITY IN DESIGN
3 credis
Prerequisites: 337 or equivalent and $3470: 461 / 561$. The reliability delermination of mechanical components and systems and its use in design. Distribution, reliability determination, normal and log-normal theories. Weibuil theory, ife spectrum analysis, renewal theory and contidence limits.

633 MODEL ANALYSIS IN VIBRATION
3 credils
Prerequisite: 630 or equivaient. Modal analysis theory and measurement techniques, digital signat processing concepis, slfuctural dynamics theory, modal parameter estimation with "hands-on" experience in the application of modal measurement melhods in vibration analysis.

635 STRESS WAVES IN SOLIDS AND FLUIDS
3 credits
Prerequisite: 531 or equivalent. The wave equation. Propagation of elastic-plastic stress waves through solid media. Transmission, reflection. absorption and diffraction phenomena Low and high velocity impact. Dynamic fracture. Numerical simulation techniques.

## 642 SYSTEM ANALYSIS AND CONTROL DESIGN

3 credils
Prerequisite: 440 er equivalent. Uniform methods of modeling and response analysis, controllability and observability. stability theory and analysis of linear and norlinear engineering processes. Design of feedback conirols for optimum performance for muttivariable real-time control applicalion.

645 PROCESS IDENTIFICATION AND COMPUTER CONTROL
3 credits
Prerequisite: 440 or equivalent. Obtaining mathematical models of processes from roisy observations. Methods of digital control design. Case studies on computer control of selected processes.

650 TRIBOLOGY
3 credits
Fundamentals of frictiontubrication and wear treated, includes basic theory, advanced topics. applications to bearings, seals, gears, cams. Specific topics include adhesive and abrasive friction/wear, boundary lubrication, flucd tilm lubrication and bearings, rolling element bearings bearing dynamics.

660 ENGINEERING ANALYSIS
3 credis
Prerequisite: B S in engineering. Study of analysis techniques as applied to specific engineering problems. Applications include beam deflections, acoustics, heat conduction and hyorodynamic stability.

697 SPECIAL TOPICS 1.4 credits Frerequisite: permission. For qualified candidate for graduate degroe Supervised research in student's major tield of training or experience. Credit dependent upon nature and extent of project as determined by adviser and department head.

## 699 MASTER'S THESIS

$1-4$ credits
Prerequisite: permission of adviser. Supervised research in a specific area of mechanical engineering.
704 FINITE ELEMENT ANALYSIS II
3 credits
Prerequisites 609. 4300:702. Curved plate, shell, brick elements; quasi-analytical elements. Quadrature formuias Substructuring for static and dynamic analysis. Solution aigorithms for linear and nonlinear static and dynamic analysis. Computer program formulation. Review of large-scale production programs.

705 FINITE ELEMENT ANALYSIS UI
3 credits
Prerequisite: 704. Static and dynamic contact probiems. Tire mechanics. Fracture mechanics. Plasticity problems involving small and large deflections. Shake down analysis General constitutive models for composite media, thermoviscoelasticity, fluid turbulence. Fluid-solid interaction analysis.

710 DYNAMICS OF VISCOUS FLOW II
3 credits
Prerequisite: 610 Introduction to turbulence. Turbulence modeling and turbulent boundary fayers Practical miethods of solution of boundary layer problems Transition process.

## 715 HYDRODYNAMIC STABILITY

3 credits
Prerequisites: 660, 620 or permission. Stability concepts, Stability of Benard convection. Rayleigh-Taylor thow, paraliel shear layers, bondary layers, asymptotic solution of OrrSommerfeld equation, nonparallel stablity.

719 ADVANCED HEAT TRANSFER
3 credits
Prerequisites 615, 616. Topics include nonhonogeneous or nonlinear boundary value problems of heat conduction, heat transfer with melting solidification and ablation, heat transfer in porous systems and hydrodynamicaliy and thermally unsteady convection.

3 credits
Prerequisite 623. Continuation of 623. Deveioprnent of approximate solution techniques including tinite eiements, method of weighted residuals (Rayleigh-Ritz, Galerkin. Trefftz, collocation least squares, etc.) and finite differences.

726 NONLINEAR CONTINUUM MECHANICS
3 credits
Prerequisite: 622. Finie deformation and strain, stress, constitutive equations, strain energy
functions. Solution of finite deformation problems in riypoelasticity, coupled thermoviscoelasticity and plasticity, electroelasticity and micropolar theories.

3 credits
Prerequisite: 630 . Continuation of 630 . Analysis of continuous vibrating systems, using Prerequisite: 630 . Continuation of 630 . Analysis of continuous viorating systems, using
separation of variables, energy, variational, Rayleigh-Ritz and other approximate techniques. Concepts and solutions of integral equations as applied to continuous systems

## 731 RANDOM VIBRATIONS

3 credits
Prerequisite: 630 or equivalent. Stationary random processes and their transmission through linear time-invariant discrete and continuous vibrating systems. Analysis of random daia and interaction between mechanisms of failure

741 OPTIMIZATION THEORY AND APPLICATIONS
3 credits
Prerequisite: permission. Theory of optimization in engineering sysiems, development and method of solution optimization problems for physical processes, large systems. Use of dynamic programming, operational research methods for system optimization, control.

763 ADVANCED METHODS IN ENGINEERING ANALYSIS
3 creats
Prerequisite: $3450: 235$ or equivalent. Applications of finite difference and finite eiement methods, variational methods, integral methods and simitarity transforms to engineering problems in heat transfers, fluid mechanics and vibrations.

## 790 ADVANCED SEMINAR IN MECHANICAL ENGINEERING

1-4 credits
(May be repeated for a iotal of nine credits)
Prerequisite permission of department head. Advanced projects and studies in various areas of mechanical engineering. intended for student seeking Ph.D. in engineering degree.

## 898 PRELIMINARY RESEARCH

1-15 credits
Prerequisite approval of Advisory Committee. Preliminary investigation of Ph. D. dissertation subject.

899 DOCTORAL DISSERTATION
$1-15$ credits
(May be taken more than once)
Prerequisite: approval of Advisory Committee. Original research by Ph D. candidate

## POLYMER ENGINEERING

## 4700:

## 450 MECHANICAL ENGINEERING PROPERTIES AND

3 creoits
PROCESSING OF POLYMERS
Prerequisites $4600: 315,336$ and 380 or permission. Introductory course to engineering properties and processing ol polymers Analysis of mechanical tests of polymers in the glassy, rubbery, and fiuid slates. Product design Concepts of rheology, rheometry and polymer processing.

## Graduate Courses

## 601 POLYMER ENGINEERING SEMINAR

1 credit
Presentations of recent research on topics in polymer engineering by internal and external speakers

611 STRUCTURAL CHARACTERIZATION OF POLYMERS WITH
2 credits
ELECTROMAGNETIC RADIATION
Characterization of orientation, morphology, superstructure in polymers using x-ray. light scattering, birefringence, dichroism. Crystal-hography, unit cell determination.

621 RHEOLOGY AND POLYMER PROCESSING
3 credits
Experimental methods of determination of rheological properties of polymer mells, solutions, elastomers. Structure-flow behavior relationships, viscoelastic fluid theory application to extrusion, fiber, film processing molding Structure development in processing.

622 ANALYSIS AND DESIGN OF POLYMER
3 creaits
PROCESSING OPERATIONSI
Prerequisite: 621. Matnematical modeling and engineering design anaiysis of poiymer processing operations including extrucer screws, injection moids, dies, fibers, film formation.

## 623 ANALYSIS AND DESIGN OF POLYMER

3 credits PROCESSING OPERATIONS II
Prerequisite: permission of instructor. Basic studies of non-isothermal phenomena in polymer engineering emphasizing crystallization, vitrification, frozen-in orientation and residual stresses, applications, including fiber spinning and film extrusion.

## 631 ENGINEERING PROPERTIES OF SOLID POLYMERS

2 credits
Transitions as a function of polymier structure, optical characleristics, mechanical including ultimate properties, viscoelastic behavior of elastomers and plastics, large strain behavioremphasis on experimental methods.

641 POLYMERIC MATERIALS ENGINEERING SCIENCES
2 credits
Physioco-chemical properties of amorphous and crystalline polymers. Glass transitions, crystallization, molecular orientation and morphology of important commercial polymers. fabricated products and composite materials.

642 ENGINEERING ASPECTS OF POLYMER COLLOIDS
2 credits Thermodynamic properties of polymer collods, sol-gel transformation, rheology of polymer solutions, gels. Suspensions and emuisions, phase separation, applications to paints and plastisols technology

651 POLYMER ENGINEERING LABORATORY
2 credits
Laboratory experiments on the rheological characterization of polymer melts fabrication of engineering products, structural investigation of polymeric parts.

661 POLYMERIZATION REACTOR ENGINEERING
3 credits
Polymenzation kinetics, classical reactor design, comparison of polymerization in batch and contirnuous stirred tank reactors, flow patterns around agitators, tubular reactors, reactor stability.
699 MASTER'S THESIS
1.6 credits
(May de repeated)
Supervised original research in specific area of polymer engineering
711 ADVANCED ELECTROMAGNETIC AND OPTICAL PROPERTIES
2 credits

## AND INVESTIGATIONS OF POLYMERS

Maxwell's equations with application to anisotropic dielectrics, birefringence and dichroism and representation of orientation, optical instruments, piezoelectricity, scattering and diffaction of $x$-rays and light, Mie scattering, applications.

712 RHEO-OPTICS OF POLYMERS
2 credits
Applications of rheo-optical methods as means of determining stress telds in polymeric glasses and fluids during deformation, theo-opticat properties of polymers in glassy, rubbery and fluid states. Theory of dynamic birefringence and its application to mechanical relaxa tions of amorphous and semi-crysialline polymers, and recent experimental results

713 RADIATION SCATTERING AND DIFFRACTION BY POLYMERIC MATERIALS 2 credits Princples of scattering and diffraction theory as applied to polymer crystals, giasses and multiphase systems. Wioe angle and small angle $x$-ray, light and neutron scattering, analysis and determination of crystal structures, mathematical description of or iemtation distribution of polymer and determination of orientation factors by WAXD and other methods.

## 716 NON-NEWTONIAN FLOW

2 credits
Prerequisile: 4200:600. Rheological behavior of non-Newtontan fluids. Deveiopment of fluid constituive equations. Viscometric methods.

721 RHEOLOGY AND PROCESSING TWO-PHASE POLYMER SYSTEMS
2 credits
Prerequisite: 622 or equivalent. Particle-particle interactions, mixing devices and design, theoretical tiydrodynamics of suspensions of rigid particles, experimental studies of rheoiogical behavior, phenomenological theories representing suspension behavior, dispersion of droplets to torm an emulsion phase morphology development and rheological properties of blends.

722 ADVANCED MODELLING OF POLYMER PROCESSING
2 credits
Prerequisite: permission of instructor. Modelling of processing operations including extrusion molding, fiber and film processing, computer-aided design.

741 PHASE TRANSFORMATIONS IN POLYMER SCIENCE
2 credis
Prerequisite: permission of insiructor. Thermodynamics, nucleatuon and kinetics of growih of new phases, spinogal decomposition and related mechanisms, crystaltization, crystal-crystal transtormation, stress induced crystallization

745 LIQUID CRYSTALS
2 credits
Prerequisite: permission of instructor. Structure of low molecular weight and polymeric liquid crystals, characterization, physical properties including optical properties, phase transitions, structure-property relationships, processing of polymeric species.

797 ADVANCED TOPICS IN POLYMER ENGINEERING
(May be repeated)
Prerequisite: permission of instructor Advanced special topics intended for Ph.D. students in polymer engneering.
898 PRELIMINARY RESEARCH
1-15 credits
(May be repeated)
Prerequisites: completion of qualifying examination, approval of Sludent Advisory Committee. Preliminary investigation of Ph.D. dissertation subject.

## 899 DOCTORAL DISSERTATION

1-15 crediis (May be repeated)
Prerequisite: completion of candidacy examination of Student Advisory Committee. Original research by a Ph.D. candidate.

## BIOMEDICAL

 ENGINEERING
## 4800:

409 INTRODUCTION TO BIOMEDICAL ENGINEERING RESEARCH
3 credits
Application of engineering principles to local area medical research. Includes biomaterials. orthopedics, artificiai organs, biostereometrics, biometrics, biological signal and image ana!ysis, biomechanics and computers in medicine.

## Graduate Courses

530 BIOMEDICAL INSTRUMENTATION I
4 credits
Prerequisites: $3100.561,562$, and 4400.232 or 4400.320 . Clinical instrumentation to measure and display priysiclogic and anatomic parameters. Basic concepts of instrumentation including design criteria and operational anaiyses. Practical experience gained ihrough the use of instrumenied mammalian modeis.

611 BIOMETRY
3 credits
Statistics and experimental design topics for the biomedical and biomedical engineering disciplines inciuding: distributions, hypothesis testing and estimation, ANOVA, probit analysis and nonparametrics statistics.

613 BIOMATERIALS AND LABORATORY
4 credits
Corequisite Biomaterials Laboratory. Materiaiuses in biological applications. Etfect of physiological environment and sterilization on materials. Controlled and uncontrolled degradation Effect of materials on soft tissue, hard tissue and blood Laboratory experiments using materiais designed for biomedical use and demonstrations of biological/materials interactions.

623 MECHANICS IN PHYSIOLOGY AND MEDICINE
3 credits
Prerequisites: $4600: 310$ and $4300: 202$ or equivalent. Blood rheology, mechanics of microcirculation, finite deformation theory, soft tissue mechanics, mechanics of biood and lymph circulation, kinetics and kinematics of orthopedic joints. Clinical appications.

632 PROCESSING OF BIOMEDICAL SIGNALS
3 credits
Prerequisites graduate standing in the College of Engineering and 611 or equivalent. Concepts for the analy sis of biological continuous signais and point processes including discriminant and principal component analysis, histograms. correlograms and data displays.

633 BIOLOGICAL SIGNAL AND IMAGE PROCESSING
3 credits
Concepts tor the analysis of continuous signais, point processes and biomedical images, including sampling, fitering, time frequency domain analyses, data displays, quantization. enhancement, restoration.

637 IMAGE FORMATION AND PROCESSING IN BIOMEDICINE
3 credits Prerequisite: graduate standing in the College of Engineering or permission of instructor. The formation of medical images inciuding CT, MRI, and ultrasound. data displays, and processing techniques such as quantization, enhancement, restoration and segmentation.

643 BIOMEDICAL COMPUTING
3 credits
Prerequisite $4100: 206$ or equivalent. Computer applications in health care, clinical laboratories, AMHT, medical records, direct order entry, A-D.D-A conversion, patient monitoring, peripherals and interfaces, diagnostic algorithms, automated EEG. ECG systems.

653 TRANSPORT PHENONENA IN BIOLOGY AND MEDICINE
3 credits Prerequisites $4200.321,322$ or 4600310.315 or equivalent. Basic detinitions, cardiovascular mass and momentum transport, compatment modeting mass transter in physiological systems and arlificial kidney and lung devices. Design optimizaton. Analysis of human thermal system.

663 ARTIFICIAL ORGANS

- 3 credits

Prereguisites: gractuate standing in the College of Engineering or permission of instructor. Study of the rationale for the engineering and clinical aspects required for the design and variety of artificial organs, with emphasis on the attificial heart and artificial kidney.

697 SPECIAL TOPICS
$1-4$ credils
(May be repeated)
Prerequisite: permission of instructor. Current topics or supervised study in the area of biomedical engineering. Credit hours depend upon the nature and extent of the course or the project.
$1-6$ credits
Prerequiste: permission of adviser Supervised research in the specific area of biomedical engineering

## 998 PRELIMINARY RESEARCH

- 15 credits
(May be repeated)
Prerequisite approval of Advisory Committee. Preliminary investigation of Ph D. dissertation subject.

## B99 DOCTORAL DISSERTATION

1-15 credits
Prerequisite approval of Advisory Committee. Original research by a Ph.D. candidate.

## CONSTRUCTION TECHNOLOGY

## 4980:

351 CONSTRUCTION QUALITY CONTROL
2 credits
Prerequisites: 2980:237, 238 or permission. Overview of quality control concepts and tech nques as retated to the consiruction industry including the necessary statistical toois; exposes students to civil. mechanical anc electrical inspection requirements.

## 52 FIELD MANAGEMENT

2 credits
Prerequisites: 2980222,245 or permission. Planning. scheduling and controlling of field work
within time and cost constraints
354 FOUNDATION CONSTRUCTION METHODS
3 credits
Prerequisite: $2980: 234$. Soll mechanics and soils exploration as related to construction
Foundation consiruction methods and practice in the interest of sately and suitable economy

## 35 COMPUTER APPLICATIONS IN CONSTRUCTION

3 credits
Prerequisite admission into the BCT program or permission of instructor. Focuses on realtime and batch programming of construction-criented problems. Includes graphics, simulation basic programming, flowcharting, hardware, software and management information ap plications.

356 SAFETY IN CONSTRUCTION
2 credits
The purpose of this course is to explain what creates hazards and why. and to suggest where
to anticipate trouble in each phase of the work as it progresses.
357 CONSTRUCTION ADMINISTRATION
2 credits
Prerequisite: junior standing. Construction specification, oftice organization, preparation of construction documents, biding, bonds. Construction management and supervision. Agreement and contracts.

358 ADVANCED ESTIMATING
3 credits
Prerequisite: 355 or permission of the instructor. This course focuses on estimating and bidding for public and private construction. Includes heavy/highway, industrial and building construction with microcomputers to facilitate bid price

361 CONSTRUCTION FORMWORK
3 credits
Prerequisite: 2980:234 or permission. Introduction to design and construction of field structures. Emiphasis on design and construction of formwork and temporary wood structures

453 LEGAL ASPECTS OF CONSTRUCTION
2 credits
Study of business of contracting and subcontracting and legal problems therein such as oreach, partial pertormance, payment, insolvency, subsurface. Review of AIA standard contracts and construction indusiry rules of arbitration

462 MECHANICAL SERVICE SYSTEMS
3 credits
Introduction to materials and equipment used in mechanical heating, ventilating, air conditioning. water and waste systems

463 ELECTRICAL SERVICE SYSTEMS
3 credits
Introduction to materials and equipment in electrical and acoustical systems of buildings. Includes illumination, eiectrical sources, materiais and distribution, acoustical probiems and materiais.

## 465 HEAVY CONSTRUCTION METHODS

3 credits
Prerequisite: 2980232 or $4300: 472$. Management techniques in planning estimating and directing heavy construction operations.

466 HYDRAULICS
3 credits
Prerequisite: 2020:233. Introduction to hydrology. Flowin closed conduits and open channels, distribution, systems, storage requirements and basic concepts of hydraulic structures. Basic concepts of seepage and working knowledge of pumps.

467 SPECIAL PROJECTS
1-3 credits
Prerequisites: senior standing and permission of instructor Directed individual or group research or study in student's field of interest. Topic subject to approval by adviser.

468 CONSTRUCTION MANAGEMENT
3 credits
Prerequisites: senior-level standing, 352 and 357 . Construction Management takes estab-
lished construction practices, current technological advances anc latest management meth-
ods and makes them into an efficient, smooth working system.
470 ADVANCED CONSTRUCTION GRAPHICS
3 credits
This course focuses on construction graphics through microbased CAD. Topics include microcomputer systems, digitizers, plotters, printers, menus, keyboard and mouse input introduction and advanced techniques

## College of Education

## COOPERATIVE EDUCATION 5000:

301 COOPERATIVE EDUCATION
0 credits
(May be repeated)
For cooperative education students only. Work experience in business, indusiry or governmentai agency. Comprehensive performance evaluation and written report required

## EDUCATIONAL FOUNDATIONS

## 5100:

## 150 INTRODUCTION TO

3 credits (4 clinical hours, i2 fieid hours) professional education
Nature and purpose of education in United States. Emphasis on social, historical and philosophical foundations of public education and on roles of protessional educator.

250 human development and LEARNing
3 credits (15 clinical hours)
Prerequisite: sophomore standing. Sludy of principles uriderlying intellectual, emotional, social and physical growth and development of human organism; and of learning process with implications for instructional procedures.

258 SMALL GROUP INSTRUCTION
1-3 creaits
(May be repeated for a total of three credits)
Prerequisites: 250 and $3750: 100$ or equivalent and permission of instructor. Study of siuderitcentered group leadership skills for facilitating ciassroom cognstive learning Student exposed to basic hiterature reiated to student-centered slyie, trained in appropriate observational lechriques and provided practice in leading smail instructional groups.

310 EDUCATIONAL MEDIA AND TECHNOLOGY
3 credits
Examines media technology inctuding videos, molion pictures, st/1/ pictures, audio materials and computers in instructional settings with emphasis on selection/evaluation, utilization and preparation.

320 LEARNING AND INDIVIDUALIZED INSTRUCTION
2 credils
Prerequisite 250 . Behavioraiapproach to tearning and the management of students. Emphasizes design of instructional sequences using behavioral analysis of objectives in both cognitive and psychomotor domains.
350 EDUCATIONAL MEASUREMENT
2 credits ( 8 ctinical hours) AND EVALUATION
Prerequisite: junior standing. Meihods of measurement and evaluation applied to learning and instruction. Emphasis on development and coordination of instructional objectives and measurement techniques with instructionai procedures.

412/512 DESIGN AND PRODUCTION OF INSTRUCTIONAL MATERIALS
3 credits Covers design, adaptation and preparation and media materials. Student produces media materials including overhead projection transparencies, audio recordings, slide sequences and opaque materials. The student is otfered project choices.

414/514 ORGANIZING AND SUPERVISING EDUCATIONAL
3 credits MEDIA PROGRAMS
Prerequisite: 310 or permission of the instructor. Procedures for planning. organizing and evaluating educationai media programs including media facilities and services.

420/520 INTRODUCTION TO COMPUTER-BASED EDUCATION
3 credits
Prerequisite: graduate or senior standing. Techniques for developing, implementing and evaluating computer-based education. Participants will work with instructional paradigms and instructional computing languages. Both the hardware and software considerations associated with current applications examined.

430 SENIOR HONORS PROJECT: FOUNDATIONS
1-6 credits
(May be repeated for a total of six credits)
Frerequisites: senior standing in Honors Program and permission of student's preceptor. Carefully defined individual study demonstrating originality and sustained inquiry.

450 PROBLENS IN EDUCATION
2 credits (12 held hours)
Prerequisite: senior status. Involves student in analytical and critical approach to problems of education as social undertaking in light of history and philosophy of education.

480 SPECIAL TOPICS: EDUCATIONAL FOUNDATIONS
1.4 credits
(May be repeated with a change in topic)
Prerequisite permission of instructor Group study of special topics of critical, contemporary concern in professional education.

Individual work under staff guidance on curricutum problems, utilization of community resources, planning of curriculum units.
$1-4$ credits
Special course designed as in-service upgrading programs. frequently provided with the support of national foundations.

## 497 INOEPENDENT STUDY

$1-3$ credits
(May be repeated for a total of six credits)
Prerequisites: permission of department head and instructor. Specific area of study determined in accordance with program and professional goals.

## Graduate Courses

600 PHILOSOPHIES OF EDUCATION
3 credits
Examination of basic philosophical problems underlying broad educational questions that confront society. Provides foundation for understanding of questions of modern society and education.

602 COMPARATIVE AND INTERNATIONAL EDUCATION
3 credits
Comparative study of selected national school systems with reference to forces that shape their characteristics. Different theoretical approaches used in study of comparative education also investigated

604 TOPICAL SEMINAR IN THE CULTURAL FOUNDATIONS
3 credits OF EDUCATION
(May be repeated for a totai of six credits)
Issues and subjects related to study of educational institutions, theories and/or idees. Different iopics will be offered from section to section.

616 ADULT EDUCATION
2 credits
Survey course for teachers and administrators. Historical background including influences and their relation to developments in the field. Emphasis on background and social value of current programs.

620 BEHAVIORAL BASES OF EDUCATION
3 credts
Prerequisite: 250 or equivalent. Introduction to scientific study of learning and development Student required to study current theories, research in areas of learning, development. motivation, instruction.

624 SEMINAR: EDUCATIONAL PSYCHOLOGY
3 credits
(May be repeated for a total of six credits)
Prerequisite: 250 or equivalent. In-depth study of research in selected areas of learning. development, evaluation and motivation.

630 TOPICAL SEMINAR IN COMPUTER-BASED EDUCATION
3 credits
(May be repeated for a total of six credits)
Prerequisite: 420/520. Advanced topics related to development, implementation, research and evaluation in C.B.E. Student involvement emphasized, required. Knowledge of programming language.

636 SEMINAR: EDUCATIONAL TECHNOLOGY
3 creaits
Practices and trends in educational commurications and technology including centers. learning stations, programmed learning, educational television and computer-assisted instruction.

640 TECHNIQUES OF RESEARCH
3 credits
Research methods and techniques commonly used in education and behavioral sciences; preparation of research reports. Including library, historical, survey and experimental research and data analysis.

642 TOPICAL SEMINAR IN MEASUREMENT AND EVALUATION
3 credits
(May be repeated for a total of six credits)
Prerequisite 350 or $3750: 410 / 510$. Topics of current interest and need will be emphasized. The student will develop exiended competence with contemporary measurement and evaluation techniques.

695 FIELD EXPERIENCE: MASTER'S
$1-3$ credits
Prerequisites permission of department head and instructor. Area determined in accordance with student's program and professional geals.

697 INDEPENDENT STUDY
1.3 credits
(May be repeated for a total of six credits)
Prerequisites permission of department head and instructor Specific area of study determined in accordance with sludent's program and professional goals.

698 MASTER'S PROBLEM
2.4 creaits

Prerequisite: permission of adviser. In-depth study of a research problem in education., Student must be able to demonstrate critical and analytical skills in dealing with problems in educationai foundations.

## 699 THESIS RESEARCH

$4 \cdot 6$ credits
Prerequisites: permission of department head and instructor. in-depth study of research problem withir humanistic and behavior founcation.

701 HISTORY OF EDUCATION IN AMERICAN SOCIETY
3 credits
Historical development of education in American social order, with special emphasis on social, political and economic setting

703 SEMINAR: HISTORY AND PHILOSOPHY
3 credits

## OF HIGHER EDUCATION

Prerequiste 600 or equivalent. History and philosophy related to genesis and development of higher education in the Western worid, with special emphasis given to higher education's development in United States.

705 SEMINAR: SOCIAL-PHILOSOPHICAL FOUNDATIONS 3 credits OF EDUCATION
(May be repeated for a total of six credits)
Frerequisite: 600 or equivalent. Inquiry into selected ideological social, economic and philosophical factors affecting educational development in United States and other countries

721 LEARNING PROCESSES
3 credils
Sludy of principles underlying classroom learning processes with particuiar emphasis on teaching as means of moditying pupil oehavior, cognitive, motor, social and affective.

723 TEACHER BEHAVIOR AND INSTRUCTION
3 credits
Prerequisite: 600 . Intensive survey of theoretical and empirical literature involving teacher and conceptions of instruction. A student reports on theory, empirical research and applications in areas of incividual interests.
741 STATISTICS IN EDUCATION
3 credits
Statistical methods and techniques used in field of measurement and by research workers in education.

743 ADVANCED EDUCATIONAL STATISTICS
3 credits
Frerequisite 741 . A second course on quantification in behavioral sciences. Includes testing of statistical hypotheses. experimental design, analysis of variance and ronvarance, tactor analysis and introduction to nonparametric statistics.

798 RESEARCH PROJECTIN SPECIAL AREAS
1-3 credits
Prerequisites: permission of department head and instructor. Critical and in-depth study of specific problem in educational toundations.
801 RESEARCH SEMINAR
3 credits
(May be repeated for a total of six credits)
Prerequisites 640 and 741: permission of department head and instructor. Intensive study of research methods applicable to education. Emphasis on developing a dissertation proposal.

897 INDEPENDENT STUDY
1.4 credits
(May be repeated for a total of eight credits)
Prerequisites permission of department head and instructor. Specific area of inquiry within humanistic and behavioral foundations of education determined in advance by student and laculty adviser.

## ELEMENTARY EDUCATION

## 5200:

100 STUDENT PARTICIPATION: 1 credil ( 30 fietd hours) (credil/noncredit)
OBSERVATION
Planned field experience emphasizing tutorial settings in reading and other curncular areas.
$\mathbf{1 4 1}$ HANDICRAFTS IN THE
2 credits ( 15 cinicat hours)

## ELEMENTARY SCHOOL

2 credits ( 15 clinica: hours)
Prerequisite $7100: 191$. Broad range of experiences through manipulation of various craft medium which enriches curriculum.
200 STUDENT PARTICIPATION
1 credt ( 30 field hours) (credit/noncredit)
Prerequisite: 100 . Planned field experience emphasizing field settings where student works with small grouns in classroom.

## 286 CHILDREN'S LITERATURE

3 credits (15 ciinical hours)
Survey of materials for children in prose, poetry and mlustrations from early historical periods to modern types; criteria of seection and methods of presentation critically examined

300 STUDENT PARTICIPATION 1 credit (30 lield hours) (credit/noncredit) Prerequisite: 200. Pianned field experience where student works in both small and large group setfings in elementary school.

310 INTRODUCTION TO EARLY CHILDHOOD EDUCATION 2 credits
Prerequisite 7400265 . Core course for eatly chilchood education. Provides background information, defines roles and goals within field of early childnood education.

311 CURRICULUM FOR PRESCHOOL LEARNING CENTERS 2 credits Prerequisite 310 . Curricular and instructional techniques in mathematics, science, language arts. social studies and music examined with emphasis on early learning as foundation for later growth.

312 INTRODUCTION TO EARLY CHILDHOOD

## EDUCATION - LABORATORY

Corequisite: 310 . Provides an opportunity for teacher education siudent to implement techniques described in accompanying methods course with tearner in the field, learner on campus or to develop materials for use by learner
313 CURRICULUM FOR PRESCHOOL LEARNING
1 credit CENTERS - LABORATORY
Corequisite: 311 . Provides an opportunity for teacher education student to implement techniques described in accompanying methods course with learner in the tield, learner on campus or to deveiop materials tor use by learner.

## 321 ART FOR THE GRADES

2 credits (1.5 cinical hours)
Prerequisite: 141. Art requirements in elementary grades; laboratory work to give teachers knowledge of materials and mediums and skills in handling thern.

## 330 EARLY ELEMENTARY EDUCATION 1

3 credits
Prerequisite: 5100250 . First of two courses designed to introduce student specifically to primary-aged child and his learning style.

331 EARLY ELEMENTARY EDUCATION I
3 credits
Prerequisite 330 Curriculum needs of primary-aged child.
333 SCIENCE FOR THE ELEMENTARY GRADES
3 credits
Prerequisite: $5100: 250$. For a prospective elementary school science teacher. Development of a point of view toward science teaching and study of methoas of presenting science material.

334 TEACHING ART IN THE ELEMENTARY SCHOOL
2 credils
Prerequisites: 141 and 321, ant education major, junior standing; elementary education majors. Visual arts in elementary schools. Art education concepts with studio orientation including history of art education, developmental stages, curriculum and organization, methods. evaluation and research, and praclical participation.

335 TEACHING THE LANGUAGE ARTS
5 credits ( 15 cimical hours)
Prerequisites: 286 and $5100: 250$. Course for elementary teacher stressing methods and materiais for skills development, and trends in various tanguage arts

## 336 TEACHING OF ELEMENTARY SCHOOL MATHEMATICS 3 credits

Prerequisite: 5100250 . Trends in instruction in elementary schoots. Procedures for development of mathematicai concepts and skills.

337 TEACHING OF READING
3 credits
Prerequisites: 335 and $5100: 250$. Elementary reading program, together with modern methods of teaching reading at various levels

338 THE TEACHING OF SOCIAL STUDIES
3 credils
Prerequisite: 5100.250. Social studies in elementary school and varied means of implementing program.

339 PRINCIPLES OF DIAGNOSTIC TEACHING OF READING 3 credits
Prerequisite 337. Nature of reading probiems in classroom setting Methods and materials employed in corrective reading program by classroom teacher.

340 EARLY ELEMENTARY EDUCATION I - LABORATORY
1 credit
Corequisite: 330 . Provides an opportunity tor teacher education student to implement techniques described in accompanying methods course with learner in the field. learner on campus or to develop materials for use by learner.

341 EARLY ELEMENTARY EDUCATION II - LABORATORY
: credil
Corequisite: 331 . Provides an opportunity for teacher education student to implement techmiques described in accompanying methods course with learner in the field. learner on campus or to develop materials for use by leamer.

343 SCIENCE FOR THE ELEMENTARY
1 credit (30 chnical/field hours) GRADES - LABORATORY
Corequisite-333. Provides an opportunity for teacher education student to implement techniques described in accompanying methods course with learner in the field, learner on campus or to develop materiais for use by learner.

344 TEACHING ART IN THE ELEMENTARY
1 credit (30 clinical/field hours) SCHOOL - LABORATORY
Corequisite: 334. Provides an opportunity for art education student to implement techniques described in accompanying methods course with learner in the field, tearner on campus or to develop processes for use by learner.

346 TEACHING ELEMENTARY SCHOOL
1 credit (30 clinical/field hours) MATHEMATICS - LABORATORY
cation student to implement tech-
nigues described in accompanying methods course with learner in field. learner on campus or to develop materials for use by tearner.

347 TEACHING OF READING -
1 credit (30 clinical/field hours) LABORATORY
Corequisite 337. Provides an opportunity for teacher education student to implement fechniques described in accompanying methods course with learner in the field. learner on campus or to develop materials for use by learner

348 TEACHING OF SOCIAL STUDIES -
1 credit (30 cimical/field hours) LABORATORY
Corequisite: 338 . Provides an opportunity for teacher education student to implement techniques described in accompanying methods course with learner in the field, tearner on campus or to develop materials for use by learne:

349 PRINCIPLES OF DIAGNOSTIC TEACHING
1 credil 130 clinical/field hours) OF READING - LABORATORY
Prerequisites: 337 and 347; corequisite: 339 . Provides an opportunity for teacher education student to implement techniques described in accompanying methods course with learner in the field, learner on campus or to develop materials for use by learner.

350 MULTICULTURAL EDUCATION: CONCEPTS,
3 credits (15 clinical hours) PROGRAMS AND PRACTICES
Designed to provide teacher education student with knowledge. skills and attitudes which will enable them to model behavior and implement curricular programs consistent with the concept of cultural pluralism.

360 NURSERY SCHOOL LABORATORY
3 credits
Prerequisite: 7400:265. Concentrated study and experience in nursery school programming under direction of supervising teachers.

365 COMPREHENSIVE MUSICIANSHIP FOR
3 credits ( 25 cimical hours) THE ELEMENTARY CLASSROON TEACHER
Designed to afford a prospective classroom teacher the opportunity to develop individual musical skills in creativity, performance and listening as means of enhancing teaching through use of music.

395 FIELD EXPERIENCE
1-3 credits
Prerequisites: permission of adviser and department head. Independent field work in area selected by student's adviser, based on student's needs.

## 403 STUDENT TEACHING SEMINAR

1 credit (15 clinical hours)
Prerequisite: senior standing. In conjunction with Student Teaching. Synthesis of conternporary problems encountered during student teaching experience. Exchange of ideas regarding role of new teacher entering profession.

411/511 CREATIVE TECHNIQUES FOR EXPLORING
2 credits CHILDREN'S LITERATURE
Prerequisite: 286. Examination of techniques for interpretation of children's literature including storytelling, creative dramatics, reader's theatre and choral speaking.
430 SENIOR HONORS PROJECT: ELEMENTARY
$1-6$ credits
(May be repeated for a total of six credits)
Prerequisites senior standing in Honors Program and permission of student's preceptor. Carefully defined individual study demonstrating originality and sustained inquiry.

435/535 ACTIVITIES TO INDIVIDUALIZE SOCIAL STUDIES
2 credits
Prerequisite: 338 . Development of materials and activities (learning games, simulation games, simulations, learning slations, programmed field trips and map activities) to provide teacher with variety of techniques in order to develop an individualized, student-involved social studies program.

436/536 GEOMETRY AND MEASUREMENT IN ELEMENTARY
3 credits SCHOOL MATHEMATICS
Prerequisite: 336 . Trends in geometry and measurement instruction in elementary school.
Procedures for development of important geometric concepts and measurement skills.
$437 / 537$ STRUCTURE OF THE NUMBER SYSTEM IN
3 credis
ELEMENTARY SCHOOL MATHEMATICS
Prerequisite: 336. Applied and advanced topics in mathematics education in elementary school. Thorough investigation of number system presently being taught in elementary school

438/538 MATERIALS AND LABORATORY TECHNIQUES IN
3 credits ELEMENTARY SCHOOL MATHEMATICS
Prerequisite: 336. Applied mathematics. Construction and application of mathematical models. Frocedures for development of important mathematical concepts through the laboratory approach.
439/539 PROPERTIES OF NUMBERS IN ELEMENTARY
3 credits SCHOOL MATHEMATICS
Prerequisite: 336. Investigation of those number properties that help explain how laws of arithmetic work. Procedures tor development of important arithrnetic concepts and computational skills.

440/540 CONTEMPORARY ELEMENTARY SCHOOL
2 credits SCIENCE PROGRAMS
Prerequisite 333 . Contemporary elementary science programs critically analyzed and their procedure developed and implemented in University classroom.

451 ELEMENTARY EDUCATION
3 credits
Evaluation of recent trends and practices in elementary education. Required for those converting from other certificates.

480 SPECIAL TOPICS: ELEMENTARY EDUCATHON
1.4 credi's
(May be repeated with a change in topic)
Prerequisite: permission of instructor. Group study of speciai topics of critical, contemporary concern in professional education.
490, 1,2,3/590, 1,2,3 WORKSHOP
1-3 credits each
Elective workshop for elementary education major who would pursue further refinement of teaching skills. Emphasizes demonstrations of teaching techniques and development of suitable teaching devices.
494/594 EDUCATIONAL INSTITUTES 1.4 credits Special courses designed as in-service upgrading programs. Frequently provided with the support of nationa! foundations.

495 STUDENT TEACHING
$4-8$ credits ( 322 field hours)
Prerequisites: senior standing and 300 . Planned teaching experience (in elementary school) selected and supervised by Office of Educational Field Experience

## 496 STUDENT TEACHING

1-6 credits
The capstone field experience for elementary education majors. Students will have two classroom experiences-one primary level and one intermediate level.

497 INDEPENDENT STUDY
1-3 credits Prerequisites: permission of aciviser and department head. Specific area of curriculum investigation pertinent to elementary education as determined by student's academic needs.

## Graduate Courses

620 LITERATURE FOR YOUNG CHILDREN
2 aredits
Literature for children ages two through six examined in depth in terms of value and purpose: methoas and techniques for presenting it to children; variety and quality of books available.

630 ELEMENTARY SCHOOL CURRICULUM AND INSTRUCTION 2 credits
Application of findings of recent research to curriculum building and procedures in teaching.
631 TRENOS IN ELEMENTARY EDUCATION
2 credils
Prerequisites: graduate standing and 630 . Investigation of innovative programs, organizational patterns and new curricula currently operational in elementary schools including analysis of use of these innovations in relation to teaching/learning process.

G40 THEORY AND PRACTICE IN ELEMENTARY
2 credits

## SCHOOL MATHEMATICS

Comparative analysis and evaluation of purposes and procedures of mathematics programs for elementary schools with application of findings to instructional methods and materiais.

641 DIAGNOSIS AND TREATMENT OF PERFORMANCE
2 credits DIFFICULTIES IN ELEMENTARY SCHOOL MATHEMATICS
Examination of implications of contemporary mathematics learning theory on diagnosticremedial process

645 PROBLEMS IN ELEMENTARY SCIENCE EDUCATION
2 credits
Examination of inftuence of new curficular designs in elementary science. Emphasis on inquiry, investigation and discovery ana their impact on total elementary school curriculurn.

650 EOUCATION AND THE YOUNG CHILD
2 credits
Content centered on educational settings of young children from brth through five years.
666 INDIVIDUALIZED INSTRUCTION: LEARNING STYLE
3 credits
IDENTIFICATION AND RESOURCE PRESCRIPTION
Prerequisites: permission of instructor and 630. Individua! learning style characteristics. practical approaches in individualization of instruction, multisensory resource development and prescription.

695,6 FIELD EXPERIENCE: MASTER'S
1-2 credits each
Prerequisites: permission of adviser and department head On-the-job experience related to student's course of study.

697 INDEPENDENT STUDY
$1-3$ credits
Prerequisites: permission of adviser and department head. Selected areas of independent investigation as determined by adviser and related to student's academic needs

## 698 MASTER'S PROBLEM

$2-4$ credits
Prerequisite permission of adviser. in-depth study of a research problem in education.
Student must be able to demonstrate critical and analyticai skills in dealing with a problem in
elementary education
699 THESIS RESEARCH
4-6 credits
Prerequisites: $5100: 640$ and permission of adviser and department head In-depth research investigation. Student must be able to demonstrate necessary competencies 10 deal with research problems in elementary education

732 SUPERVISION OF INSTRUCTION IN THE ELEMENTARY SCHOOL
2 credits
Supervisory role of elementary principal and other supervisory personnel
780 SEMINAR IN ELEMENTARY EDUCATION
2 credits
(May be repeated)
Intensive examination of following areas of elementary school instruction: children's litera-
ture, curriculum development, language arts, mathematics, reading, science, social studies. early childhood. critical analysis of children's literature. art, human sexuality computers and middle school.

781 RESIDENCY SEMINAR
2 credits
One-hour weekly meeting for elementary doctoral student in residence.
799 RESEARCH PROJECTS IN ELEMENTARY EDUCATION

1. 2 creats

Prerequisites: permission of adviser and department head. In-depth investigation of specific problem pertinent to elementary education.

895,6,7 FIELD EXPERIENCE FOR ELEMENTARY
1-2 credits each
DOCTORAL STUDENT
Prerequisites: permission of adviser and department head. Designea to help student preparing to teach methods course at college level.

898 INDEPENDENT STUDY $1-3$ credits
(May be repeated for a total of six credits)
Prerequisites: permission of adviser and department nead. Selected areas of independent
investigation as determined by adviser and related to student's academic needs.

## 899 DISSERTATION

1-20 credits
Prerequisites permission of adviser and department head. Study and in depth analysis of a research problem in elementary education.

## READING

## 5250:

341 LABORATORY PRACTICUM IN READING
Prerequisite. 5200 339. Laboratory experience with classroom, small groups and individual sifuations. A student diagnoses, implements procedures and follows prescribed reading improvement practices.

411/511 MATERIALS AND ORGANIZATIONS FOR
3 credits READING INSTRUCTION
Prerequisite: $5200: 339$. Professional problems of selection and evaluation of reading materials and classroom organizations explored.

440/540 DEVELOPMENTAL READING IN THE CONTENT 3 credts AREAS - ELEMENTARY
Prerequisite: 5200 :337 or permission of insiructor Nature of reading skills relating to content subjects. Methods and materials needed to promote reading achievement in content subjects by the elementary classroom teacher

## 441/541 LANGUAGE AND ITS RELATIONSHIP TO READING IN <br> 3 credits

 THE ELEMENTARY SCHOOLPrerequisite: $5200: 337$ or permission of the instructor. An overview of the linguistic field in the teaching of reading in the elementary school. A discussion of major linguistic principles tor classroom application in grades K-8.

442/542 TEACHING READING TO CULTURALLY
3 credits DIFFERENT LEARNERS
Prerequisite: $5200: 337$ or by permission of the instructor. The course is designed to provide a student with knowedge, skils and attitudes which will enable employment of effective methods of teaching reading to culturatly different leamers, and/or learners whose language patterns are nonstandard

480 SPECIAL TOPICS: ELEMENTARY READING INSTRUCTION
1-4 credits
(May be repeated with a change in topic)
Prerequisite: permission of instructor. Group study of speciai topics of critical, contemporary concern in proiessional education.

## Graduate Courses

680 TRENDS IN READING INSTRUCTION
2 credits
Prerequisite: 5200:335 or 5300:425. Survey course designed to update reading background of student who has not had a recent course in reading.

681 DIAGNOSIS AND CORRECTION OF READING PROBLEMS
5 credits
Prerequisite: 680. Relation of growth to reading development and reasons for retardation. Implementation of diagnostic and corrective technques by devetoping case studies in supervised setting

582 CLINICAL PRACTICES IN READING
5 credits
Prerequisite: 681 . Nature and etiology of reading difficulties experienced by selected children. Supervised practices and independent work with children in conjunction with staff from other disciplines.

683 READING DIAGNOSIS FOR SCHOOL PSYCHOLOGISTS
3 credits AND SUPPORT PERSONNEL
Prerequisite: $5200: 630$ or permission of instructor. This course will survey developmental reading and its relationsinip to reading difficulties. Formal and informal procedures for diagnosing disabled readers and a discussion of prescriptive strategies will be included.

692 ADVANCED STUDY AND RESEARCH IN
3 credits READING INSTRUCTION
Survey of research comparison and evaluation of programs, design and development of profects in reading through group individual study
693 SUPERVISION AND CURRICULUM DEVELOPMENT
2 credits IN READING INSTRUCTION
Relative to total curriculum; procedures for developing reading program in all curriculum areas, examination of children's literature and relateo instructional reading by supervisors and consultants.

## SECONDARY EDUCATION 5300:

## 210 PRINCIPLES OF TEACHING IN THE

3 credits ( 30 cinical hours) SECONDARY SCHOOL
Prerequisite: 5100:250; corequisite: 275. Designed to familiarize the preservice teacher with the nature of secondary education and teaching in secondary schools. Microteaching laboratory participation is required

275 EXPLORATORY EXPERIENCES IN
1 credit ( 6 clinical hours, 30 field hours) SECONDARY EDUCATION (SOPHOMORE)
Corequisite: 210. Field work with secondary school pupils. teachers and other protessional personnel.

296 EXPLORATORY EXPERIENCE IN SECONDARY
1-2 credits SCHOOLS/MAINSTREAMING
Field work for the special education major.
311 INSTRUCTIONAL TECHNIQUES IN
4 credits ( 30 clinical hours, 20 field hours) SECONDARY EDUCATION
Prerequisites: 210,325 , and $5100: 350$. Open to student who has completed certitication requirements in afl content fields. Techniques of planning. instruction and evaluation in various secondary teaching fields.

316 METHODS IN TEACHING ART
2 credits
Prerequisites: completion of required course for art teachers and grade-point average of 2.00 in the field. Study of trends and procedures in teaching and supervision; relation of art to home. school and community, observation in selected schools required.

321 JUNIOR HIGH AND MIDDIE SCHOOL EDUCATION 2 credits
Designed to provide student with knowledge and understanding of junior high and middle school education with ability to interpret it to other educators, parents and pupils.

325 CONTENT READING IN SECONDARY SCHOOLS 3 credits ( 30 clinical hours)
Corequisite: 375 . Instructional principles and practices for heiping secondary school youth and adults learn subject matter through application of reading and study skills.

330 TEACHING OF ADOLESCENT LITERATURE
3 credits
Prerequisite: permission of adviser. Student develops skills for selection of ifterature that is well suited for secondary student. Student develops, uses and experiences methods for teaching adolescent literature in secondary schools.

374 PRINCIPLES OF SHORTHAND INSTRUCTION
2 credits
Prerequisites: 2540:173 and grade-point average of 2.00 in the field. Methods of presentation in shorthand and transcription. Demonstration and observations required Theory test in the field must be passed before credit given for course.

375 EXPLORATORY EXPERIENCE IN
1 credit ( 6 clinical hours, 30 field hours) SECONDARY EDUCATION
Prerequisite: 210; corequisite: 325. Field work with secondary school pupils, teachers and other school personnel

395 FIELD EXPERIENCE $\quad 1-3$ credits
Prerequisite upper-college stancing. Supervised work with youngsters, individually and in groups in school and/or community settings.

425/525 ADVANCED MICROCOMPUTER
3 credits ( 30 cinical hours) APPLICATIONS IN THE SECONDARY SCHOOLS
Prerequisite: knowledge of BASIC programming is required. Advanced programming techniques reviewed. applied in program development appropriate for the secondary schoors. Hardware, software, computer potential and limitations, languages, program types will be evaluated according to research findings and criteria applicable to secondary schools.

## 430 SENIOR HONORS PROJECT: SECONDARY

1-6 credits
(May be repeated for a total of six credits)
Prerequisites: senior standing in Honors Program and permission of student's preceptor Carefully detined individual study demonstrating originality and sustained incuiry.

435/535 CONCEPTS AND CURRICULUM DESIGNS
3 credits IN ECONOMIC EDUCATION
Economic education concepts appropriate for grade leveis $\mathrm{K}-12$ and adult education courses. Economic education materials developed to teach the concepts utilized

445 MINICOMPUTER APPLICATIONS
1 credit (10 ctinical hours) IN SECONDARY CLASSROOMS
Prerequisites: 210 and senior status. Provides an orientation to applications of minicomputer in secondary classrooms. A knowledge of BASIC programming is recommended.

445 MICROCOMPUTER LITERACY FOR
2 credits (30 cinical hours) SECONDARY TEACHERS
Prerequisites 210 and senior status. Provides an orientation to applications of various modes of instruction, word processor. color graphics and printer in BASIC programs appropriate for secondary classrooms.

455 CAREER OPTIONS IN
1 credit ( 8 clinical hours. 2 field hours) SECONDARY EDUCATION
Prerequisites: 210 and senior status. Helps prospective teacher prepare for searching for employment in education and to find alternative careers for which an education degree would be a suitable background.
476/576 VOCATIONAL COOPERATIVE OFFICE EDUCATION
2 credits
Principles of program construction, organization, implementation, evaluation, improvement and development of program guides in ccoperative office education.

477/577 INTENSIVE VOCATIONAL OFFICE EDUCATION 2 credits
Principles of program construction, organization, implementation, evalualion and development of program guides.

480 SPECIAL TOPICS: SECONDARY EDUCATION
$1-4$ credits
(May be repeated with a change in topic)
Prerequisite: permission of instructor. Group study of special topics of critical, contemporary concern in professional education.

485 CLASSROON DYNAMICS
2 credits ( 10 clinical/diagnostic.
15 field hours)
Corequisite: 495. Study of issues and behavioral patterns pertinent to successful teacher human relations and classroom management technique.

490,1,2,3/590,1,2,3 WORKSHOP $\quad 1-3$ credits each
Individuai work under staf! guidance on curriculum problems, utilization of community resources, planning of curriculum units

494/594 EDUCATIONAL INSTITUTES 1-4 credt's
Special courses designed as in-service upgrading programs, frequently provided with the support of national foundations.

495 STUDENT TEACHING
4-8 credits ( 322 cinical hours)
Prerequisites: 311 or equivalent and permission of adviser. Directed teaching under supervision of directing teacher and University supervisor.

497 INDEPENDENT STUDY
1-3 credits
Prerequisites: permission of adviser and supervisor of independent study. Area of study determined by student's needs.

## Graduate Courses

619 SECONDARY SCHOOL CURRICULUM AND INSTRUCTION
Appication of findings of recent research to curriculum building and procedures in teaching.

## 625 READING PROGRAMS IN SECONDARY SCHOOLS

3 credits
For all subject teachers both with and without previous study in the teaching of reading Materials, class organization and procedures for developing reading improvement programs for all secondary school and college students.

630 ADVANCED INSTRUCTIONAL TECHNIQUES IN BOOKKEEPING -
3 credits ACCOUNTING AND BASIC BUSINESS SUBJECTS
Intensive examination of teaching-learning strategies for improvement of instruction. Emphasis on teacher coordination of methods, preplanned objectives and evaluation to insure maximurti student competency in subject knowledge and skill.

E32 ADVANCED INSTRUCTIONAL TECHNIQUES IN TYPEWRITING
3 credits AND TYPEWRITING-RELATED SUBJECTS
Intensive examination of teaching-learning strategies for improvement of instruction. Emphasis on teacher coordination of methods. preplanned objectives and evaluation to ensure maximum student competency in subject knowledge and skill.

695 FIELD EXPFRIENCE: MASTER'S
$1-6$ credits
(May be repeated for a total of six credits)
Prerequisites: permission of adviser and supervisor of field experience. On-the-job experience related to student's program of studies.

697 INDEPENDENT STUDY
1-3 creaits
(May be repeated for a total of six credits)
Prerequisites: permission of adviser and supervisor of independent study. Area of study determined by student's needs.

698 MASTER'S PROBLEM
2-4 credits
Prerequisite: permission of adviser. In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in secondary education.

## 699 THESIS RESEARCH

4-6 credits
Prerequisite: permission of adviser. In-depth study of research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in secondary education.

721 SUPERVISION OF INSTRUCTION IN THE SECONDARY SCHOOL
2 credits
Definition of supervisory leadership role in improving instruction at secondary school levei and development of practical theory of secondary school supervision.

780 SEMINAR IN SECONDARY EDUCATION
2 credits
(May be repeated)
Intensive examination of a particular area of secondary education

## 781 RESIDENCY SEMINAR

1 credit
(Must be repeated)
One-hour weekly meeting for secondary education docloral student in residence.

## 782 RESIDENCY SEMINAR

1 credit
(Must be repeated)
One-hour weekly meeting for secondary education doctoral student in residence.
895 FIELD EXPERIENCE: DOCTORAL
$1-6$ credits
(May be repeated for a total of six credits)
Prerequisites: permission of adviser and director of field experience. intensive job-related experience pertinent to student's needs. Student must be able to demonstrate skills and leadership abilities in an on-the-job situation.

897 INDEPENDENT STUDY
$1-3$ credits
(May be repeated for a total of six credits)
Prerequisites: permission of adviser and director of independent study. Area of study determined by student's needs

898 RESEARCH PROJECT IN SPECIAL AREAS
$1-2$ credits
Prerequisite: permission of adviser. Critical and in-depth study of specific problem in secondary education.

899 DISSERTATION
1-20 credits
Prerequisite: permission of adviser. Specific research problem that requires student to apply research skills and techniques pertinent to problem being studied.

## TECHNICAL AND VOCATIONAL EDUCATION

## 5400:

301 OCCUPATIONAL EMPLOYMENT EXPERIENCE
$1-4$ creaits AND SEMINAR
Provides student with knowledge of current industrial or business practice at level minimally commensurate with that associated with employment expectations of graduates of technical programs.

351 CONSUMER HOMEMAKING METHODS
4 credits
Prerequisites: senior standing, enrolled in student teaching. Organization of home economics in secondary schools. Emphasis on methodology. techniques, development of vocational concepts, utilization of audio-visual materials, evaluation procedures.

## 395 FIELD EXPERIENCE

1-3 credifs
Prerequisite: upper-college standing Supervised work with youngsters, individually and in groups in educational institutions, training and/ or community settings.

403 TECHNICAL EDUCATION PRACTICUM SEMINAR
2 credits Corequisite: 495.

## 405/505 VOCATIONAL EDUCATION FOR YOUTH AND ADULTS

3 credits
History and operations of current vocational education for youth and adults. Includes study of social, economic and political influences that stimulate growth and expansion of vocational education.

410/510 THE TWO-YEAR COLLEGE
3 credits Designed to introduce student to nature, purpose and philosophy of the two-year college Includes examination of types of institutions offering two-year programs.

## 415/515 VOCATIONAL AND TECHNICAL TRAINING

3 credits IN BUSINESS AND INDUSTRY
Examines the role and mission of the training function in the modern industrial setting. Provides a foundation for a student planning to become an industrial trainer or training supervisor of technicians and other occupational skill-development levels.

421/521 INSTRUCTIONAL TECHNIQUES IN TECHNICAL EDUCATION 4 credits Selected topics in instructional techniques appropriate to post-secondary technical education. Emphasis on instructional methods, techniques in classroom, taboratory including tests, measurements.

430/530 COURSE CONSTRUCTION IN TECHNICAL EDUCATION
2 credits
Procedure of breaking down an occupation to determine curriculum for laboratory and classroom, developing this content into an organized sequence of instructional units.

440 LIFE-SPAN AND COMMUNITY EDUCATION
2 credits
Designed for a person engaged in providingeducational services in the community. Includes examination of community education concepts and roles of various personnel and agencies.

441/541 EDUCATIONAL GERONTOLOGY SEMINAR
3 credits
Designed for person practicing in field of gerontology or preparing tor a specialization in educational gerontology, inciuding person responsible for development and implementation of courses, seminars, occupational training programs and workshops for older people.
451/551 HOME ECONOMICS JOB TRAINING

## 3 credits

Prerequisite senior standing or permission of instructor. Concept development in vocational home economics. Job training, program development, operational procedures, skill and knowledge identification, training profiles, job description and analysis. Individualized study guides In-school and on-the-job observations.

480 SPECIAL TOPICS: VOCATIONAL EDUCATION
$1-4$ credits
(May be repeated with a change in topic)
Prerequisite permission of instructor. Group study of special topics of critical, contemporary concern in protessional education.

481 SPECIAL TOPICS: TECHNICAL EDUCATION
1.4 credits
(May be repeated with a change in topic)
Prerequisite: permission of instructor. Group study of special topics of critical, contemporary concern in professional education.

490,1,2/590,1,2 WORKSHOP
1-3 credits each Individual work ufider staff guidance on curriculum problems, utilization of community resources, planning of curriculum units

494/594 EDUCATIONAL INSTITUTES
1-4 credils
Special courses designed as in-service upgrading programs, frequently provided with the support of national foundations.

495 TECHNICAL EDUCATION PRACTICUM
1-4 credits
Prerequisites: 410, 421, 430 or equivalent and permission of adviser; corequisite: 403 Directed teaching under supervision of directing teacher and University supervisor.

## 497 INDEPENDENT STUDY

1-3 credits
Prerequisites permission of adviser and supe;visor of independent study. Area of study determined by student's need.

## Graduate Courses

## 610 COMMUNICATION WITH BUSINESS AND INDUSTRY

2 credils
Techniques of establishing better communications between education and business and industry. Emphas is on the advisory committee, coordination functions and working with local professional associations in the community.

661 CURRENT ISSUES IN HIGHER EDUCATION
2 credits
(May be repeated with change in topic)
Examination of many current problems and issues in institutions of higher education; adult education, lechnical institutes, communily colleges, proprietary schools, undergraduate, graduate and professional education

## 690 INTERNSHIP: TEACHING VOCATIONAL EDUCATION

691 INTERNSHIP: TEACHING TECHNICAL EDUCATION
692 INTERNSHIP: POST-SECONDARY EDUCATION 2 credits each
Teaching under supervision from the University and the educational institution. Includes a seminar each week.

695 FIELD EXPERIENCE: MASTER'S
1-6 credits
Prerequisites: permission of adviser and supervisor of field experience. On-the-job experience related to student's program of studies.

## 697 INDEPENDENT STUDY

$1-3$ credits
(May be repeated for a total of six credits)
Prequisites: permission of adviser and supervisor of field experience. On-the-job experience related to student's program of studies.

698 MASTER'S PROBLEM
2-4 credits
Prerequisite permission of adviser. In-depth study of a research problem in education Student must be able to demonstrate critical and analytical skills in dea ling with a problem in technical and vocational education

699 THESIS RESEARCH
4-6 credits
Prerequisite: permission of adviser. In-depih study of research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in vocational education

## PHYSICAL EDUCATION

## 5550:

101 FUNDAMENTALS OF ARCHERY/BOWLING
1 credit
Acquisition of pertormance skills, knowledge of rules and strategy and appreciation of archery and bowling as a means of physical activity in our culture. Two class periods per week.

102 FUNDAMENTALS OF BADMINTON/VOLLEYBALL
1 credit
Acquisition of performance skills, knowledge of rules and strategy and appreciation of badminton and volleyball as a means of physical activity in our culture. Two class periods per week.

103 FUNDAMENTALS OF SOCCER/FIELD HOCKEY
1 credit
Acquisition of performance skills, knowledge of rules and strategy and appreciation of soccer and field hockey as a means of physical activity. Two class periods per week.

104 FUNDAMENTALS OF TRACK AND FIELD
1 credit
Acquisition of performance skills, knowledge of rules and strategy and appreciation of track and fieid as a means of physical activity in our culture. Two class periods per week.

## 05 RECREATIONAL ACTIVITIES

1 credit
Acquisition of skills and knowledge of rules for participation in, and organization of, common indoor and outdoor recreational activities. For the physical education and outdoor education student.

106 RECREATIONAL ACTIVITIES FOR THE HANDICAPPED
1 credit
Acquisition of skills and knowledge of rules for participation in, and organization of, recreational activities for handicapped. Includes ways of adapting common activities for participation by handicapped.

115 FUNDAMENTALS OF WRESTLING/RUGBY
1 credit
Acquisition of performance skills, knowledge of rules and strategy and appreciation of wresting and rugby as a means of physical activity. Two class periods per week. (For men only.)

120 FUNDAMENTALS OF BASKETBALL
1 credit
Acquisition of performance skilis. knowledge of rules and strategy and appreciation of basketball as a means of physical activity. Two class periods per week. Suggested for women only.

130 PHYSICAL EDUCATION ACTIVITIES FOR ELEMENTARY
2 credits SCHOOL CHILDREN
For a physical education major only. Participation in play activities commonly used in elementary physical education programs. One lecture and two laboratory periods per week

140 PHYSICAL EDUCATION ACTIVITIES !
3 credits
Acquisition of performance skills and knowlegge of rules and techniques of gymnastics and tumbing, team sports ano conditioning activities. Six class periods per week.

141 PHYSICAL EDUCATION ACTIVITIES II
3 credits
Acquisition of performance skills and knowledge of techniques and development of dance aclivities, swimming and individual lifetime sports. Six class periods per week.

150 CONCEPTS IN HEALTH AND FITNESS 3 credits
Introduction to basic health and fitness concepts and related topics. Attention will be given to individual fitness programs emphasizing such topics as aerobic and anaerobic exercises, nutrition, diet, stress, and assessment methods and procedures.

155 ORGANIZATION AND ADMINISTRATION OF RECREATION 2 credits General administrative procedures common. Analysis, discussion and visitations of various types of recreational programs.

193 METHODS OF TEACHING PHYSICAL EDUCATION
3 credits
Investigation and application of various melhods for teaching elementary and secondary physical education. Preparation of lesson and unit plans, observations made in schools. Two rectures and one laboratory per week.
194 SPORTS OFFICIATING

2 credils Knowledge of rules for interscholastic sports and officiating techniques. Successful completion of course permits taking of state examination for officiating. Two lectures and one laboratory per week.

201 KINESIOLOGY
2 credits
Prerequisites: $3100: 206,207$. Application of principles of anatomy to movement of human body.

02 PHYSIOLOGY OF EXERCISE
3 credits
Frerequisites: $3100: 206,207$. Study of physiological effects of exercise relative to physical education activities and athletics Two hours lecture, two nours laboratory.

211 FIRST AID
2 credits
Standard American Red Cross gives instruction and practice in immediate and temporary care of injuries and sudden illnesses. In addition to standard course, C.FR is covered.

235 CONCEPTS OF MOTOR DEVELOPMENT AND LEARNING
2 credits
Analysis of concepts fundamental to learning motor activities.
245 INSTRUCTIONAL TECHNIQUES IN ELEMENTARY
2 credits
PHYSICAL EDUCATION
Prerequisites: 130, 140. 193. Supervised teaching of elementary physical education activities to peers. Four class periods per week.

246 INSTRUCTIONAL TECHNIQUES IN SECONDARY
2 credits PHYSICAL EDUCATION
Prerequisites: 140,193 and at least one credit of 101 through 120. Supervised teaching of secondary physical education activities to peer. Four class periods per week.

## 300 PHYSIOLOGY OF EXERCISE FOR THE ADULT AND ELDERLY 2 credits

Anaiysis of physiological effects of exercise on elderly. Exercise programs adaptable for use by persons working with elderly.

310 THEORY AND TECHNIQUES OF SOCCER
1 credit
Theory, techniques and organizational procedures for coaching of soccer. Twe class periods per week.

311 THEORY AND TECHNIQUES OF TRACK AND FIELD 1 credit Theory, techniques and organizational procedures for coaching of track and field. Two class periods per week

312 THEORY AND TECHNIOUES OF BASKETBALL
1 credit
Theory, techniques and organizational procedures for coaching of basketball. Two class periods per week.

313 THEORY AND TECHNIQUES OF BASEBALL/SOFTBALL
1 credit
Theory, lechniques and organizational procedures for coaching of baseball and softball. Two class periods per week.

314 THEORY AND TECHNIQUES OF SWIMMING 2 credits
Theory, techniques and organizational procedures for coaching of swimming. One hour lecture, two hours laboratory.
315 THEORY AND TECHNIQUES OF TUMBLING AND GYMNASTICS 1 credit
Theory, techniques and organizational procedures for coaching of tumbling and gymnastics. Two class periods per week

320 THEORY AND TECHNIQUES OF VOLLEYBALL 1 credit
Theory, techniques and organizational procedures for coaching of volleyball. Two class periods per week.

325 THEORY AND TECHNIQUES OF FOOTBALL 1 credif Theory, lechniques and organizational procedures for coaching of footbali. Two class periods per week.

326 THEORY AND TECHNIQUES OF WRESTLING
1 credit
Theory, techniques and organizational procedures for coaching of wrestling. Two class periods per week.

334 GAMES AND RHYTHMS:
2 credits ( 20 clinical hours) ELEMENTARY GRADES
Not open to a physical education major. Physical education activities which may be used by classroom teachers. Theory of motor development. One hour lecture, two hours laboratory.

335 MOVEMENT EXPERIENCES FOR THE ELEMENTARY GRADES 2 credits
Analysis, theory, practicalapplication of basic movement experiences for children. One hour lecture, two hours laboratory

336 PHYSICAL EDUCATION ACTIVITIES FOR PRESCHOOL CHILDREN 2 credits Investigation of play activities for positive growth and development of preschool child. Organization of motor activities in nursery school and kindergarten curriculum. One hour lecture, two hours laboratory.

340 CARE AND PREVENTION OF ATHLETIC INJURIES
3 credits
Discussion of prevention, immediate care and rehabilitation of common athletic injuries. Practical application of wrapping and taping procedures for injury prevention and post-injury support.

345 ADAPTED PHYSICAL EDUCATION
2 credits
Prerequisites: $3100: 206,207$. Current theories and practices relating to needs of physically handicapped children; emphasis given to underiying philosophy, purposes and adminis tration.

350 ORGANIZATION AND ADMINISTRATION OF HEALTH
AND PHYSICAL EDUCATION
Investigation of necessary procedures for conduct of healit education and physical education programs in schools. Includes organizational considerations, curricular patterns and equipment and supplies

351 ORGANIZATION AND ADMINISTRATION OF
3 credits INTRAMURALS AND ATHLETICS
Organizational patterns unique to coriduct of intramurals, sport clubs and interscholastic athletics. Includes considerations of tournament designs, supplies and equipment and administration. Two hours lecture, two hours laboratory.

## 395 FIELD EXPERIENCE

1. 3 credits

Prerequisite permission of adviser. Practical experience in an area related to physica: education under supervision of faculty member. Student works with current physlcat education programs in schools

403 STUDENT TEACHING SEMINAR
1 credit
Prerequisite senior status In conjunction with Student Teaching Synthesis of contemporary problems encountered during the student teaching experience. Exchange of ideas regarding role of new teacher entering protession.

430 SENIOR HONORS PROJECT: PHYSICAL EDUCATION
1-6 creaits
(May be repeated for a total of six credits)
Prerequisites senior standing in Honors Program and dermission of students preceptor Carefully defined individual study demonstrating originality and sustained inquiry

436/536 ADAPTED PHYSICAL EDUCATION TASKS FOR THE
2 credits

## LEARNING DISABLED CHILD

Teaching methods and materials necessary to structure developmental tasks for learning disabled child; designed for a person preparing to teach elementary school physical education and special education

441/541 ADVANCED ATHLETIC INJURY MANAGEMENT 4 credifs (30 clinical hours) Prerequisites $3100: 206,207$ : suggested sequence, 5550:201, 202,340. Advanced athletic training techniques tor the student dessing to become a certified athletic trainer according to the reguiations of the National Athletic Trainers Association.

442/542 THERAPEUTIC MODALITIES AND EQUIPMENT 3 credis ( 30 clinical hours) IN SPORTS MEDICINE
Purpose is to develop techniques and skills a mong sports medicine personnel in the selection and implementation of therapeutic modalities and the equipment used in the rehabilitation of injuries to athletes.

## 460 PRACTICUM IN PHYSICAL EDUCATION

$3-6$ credits
Prerequistes senior standing and permission of adviser Practical work expenence with certified personnel in a discipine or protession related to physical education. The experience will be a cooperative eftiont of the student's adviser, the student and agency personnel directly irrvolved with the practicum.

## 475 SEMINAR IN HEALTH AND PHYSICAL EDUCATION

3 credits ( 25 clinical hours)
Provide the opportunity to develop mastery of problem-solving and presentation methods in healh and physical education, with experiential learning

480 SPECIAL TOPICS: PHYSICAL EDUCATION
$1-4$ credits
(May be repeated with a change in topic)
Prerequisite: permission of instructor. Group study of special topics of critical, contemporary concern in professional education.

490, 1,2,3/590,1,2,3 WORKSHOP
1-3 credits each
Practicai. intensive and concentrated involvement with curfent curricular practices in areas related to physical education.

494/594 EDUCATIONAL INSTITUTIONS AND FOUNDATIONS
1.4 credits

Practical experience with current research or curricular practices invoiving expert resource person in physical education, ano usually financed by private or public funding.

## 495 STUDENT TEACHING

4.8 credits

Prerequisites: senior status, all major courses completed, 2.50 grade-point average in major.
Supervised teaching experience in a public school tor 15 weeks.
497 INDEPENDENT STUDY
1-2 credits
Prerequisite: permission of adviser. Analysis of spectic topic related to a current problem in physica! education. May include investigative procedures, research or concentrated practical experience

## Graduate Courses

601 ADMINISTRATION OF HEALTH, PHYSICAL EDUCATION,
3 credits
athletics and recreation
Techniques of organization, administration and evaluation of heaith. physical education and recreation programs Administrative policies of athletic programs at elementary, secondary and collegiate levels.

603 CURRICULUM PLANNING IN HEALTH AND
2 credits

## PHYSICAL EDUCATION

Analysis of objectives, procedures ana trenos in curricuia and principles and procedures for developing sound programs.

605 PHYSIOLOGY OF MUSCULAR ACTIVITY AND EXERCISE
2 credits
Functions of body systems and physiological effects of exercise Laboratory experiences. iectures. discussions.

606 MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION
3 credits
Critical analysis of existing testing procedures and discussion and study of measurement and evaluation in terms of program needs.

608 SUPERVISION OF PHYSICAL EDUCATION
2 creatis
Principles involved in supervision of physical education service programs. Procedures and techniques of supervision ot service classes at elementary, junior high and senior high school levels
609 MOTIVATIONAL ASPECTS OF PHYSICAL ACTIVITY
3 credits
Analysis of factors influencing motivation of motor pertormance with emphasis on competi-
tion audience effects, aggression.

680 SPECIAL TOPICS IN HEALTH AND PHYSICAL EDUCATION
$2-4$ credits
(May be redeated)
Prerequisite permission of instructor. Group study of special topics in health and physical education and sports medicine

695 FIELD EXPERIENCE: MASTER'S
$1-6$ credits
Prerequisite permission of adviser. Participation in a work experience related to physical education The experience may not be past of current position. Documentation of project requred.

697 INDEPENDENT STUDY
1-3 credits
Prerequisite: permission of adviser. In-depth analysis of current practices or problems related to physical education. Documentation of the study required

698 MASTER'S PROBLEM
2.4 credits

Prerequiste: permission of adviser In-depth study of a research problem in education Stucent must be able to demonstrate critical and analytical skills in dealing with a problem in physical equcation.

699 THESIS RESEARCH
4-6 credits
Prerequisite: permission of adviser. In-depth research investigation. Student must be able to demonstrate necessary competencies to deal with a research problem in physical education.

## OUTDOOR EDUCATION

## 5560:

## 430 SENIOR HONORS PROJECT: OUTDOOR EDUCATION

1-6 credits
(May be repeated for a total of six credits)
Frerequisites senior standing in Honors Program and permission of student's preceptor Caretully detined individual study demonstrating originality and sustained inquiry.

450/550 APPLICATION OF OUTDOOR EDUCATION
4 credits TO THE SCHOOL CURRICULUM
Provides knowledge. skills and techniques useful in application of outdoor education to school curriculum

452/552 METHOOS, MATERIALS AND RESOURCES
3 credits FOR TEACHING OUTDOOR EDUCATION
Methodologres unique to outdoor education which incorporate a multisensory approach to Iearning Instructional materiais and resources which permit expansion of curriculumbeyond the school bulding.

454 RESIDENT OUTDOOR EDUCATION
2 credils
Fmphasizes skills, program considerations and organizational techniques unique to an extended. overnight, resident outdoor education program. On location for at least five days and four nights.

456/556 OUTDOOR PURSUITS
4 credits
Investigation and patticipation in practical experiences in outdoor pursuits
460 OUTDOOR EDUCATION PRACTICUM
2 credits
Prerequisites 452.454 . Closely supervised practical experience in conjunction with regularly scheduled classroom meetings Laboratory experience consists of active participation with an estabished outcoor education program.

490/590 WORKSHOP: OUTDOOR EDUCATION
1-3 credits Practical application of contemporary ideas, methodologles, knowledge relevant to outdoor equcation. Emphasis participant involvement in educational practices, utilizing the natura! environment.

494/594 EDUCATIONAL INSTITUTES: OUTDOOR EDUCATION 1-4 credits
Practicat experience with current research or curricular practices involving expert resource persons in outcoor education.

497 INDEPENDENT STUDY
1-3 credils
Prerequisites. permission of adviser and supervisor of independent study. Provides varied opportunities for a student to gain first-hand knowledge and experience with existing outdoor education programs.

## Graduate Courses

600 OUTOOOR EDUCATION: RURAL INFLUENCES
3 credits
Prerequisite: 550 or 552 Utilization of resources of rural area as a learning/teaching environment Content and methodology appropriate for teaching school-age children in rural setting.

605 OUTDOOR EDUCATION: SPECIAL TOPICS
$2-4$ credits
(May be repeated with change in topic)
Prerequisite: permission of instructor Group and individual study of special topics of contem porary concern in outdoor education.

690 PRACTICUM IN OUTDOOR EDUCATION
2-4 credits
Prerequisites: 550,552 and permission of adviser. Supervised practical experience with existing outdoor educatian programs. In conjunction with practical work student meets regularly with adviser

695 FIELD EXPERIENCE: MASTER'S
2-6 credils
Prerequiste: permission of adviser. Participation and documentation of practical professional experience related to outdoor education

697 INDEPENDENT STUDY 1.3 credits
Prerequisite: permission of adviser. In-depth analysis oi current practices or probiems related to outaoor edtucation. Documentation of study required
698 MASTERS PROBLEM 24 credits
Prerequisite permission of adviser Intensive research study related to a problem in outdoor education or related discipline.

699 MASTER'S THESIS
4-6 credits
An original comoosition demonstrating independent scholarsinip in a discipline related to outdoor education.

## HEALTH EDUCATION

## 5570:

101 PERSONAL HEALTH
Application of current principles and facts pertaining to healthtul, effective living. Personat
healtn problems and needs of a student.
$\mathbf{2 0 0}$ CURRENT TOPICS IN HEALTH EDUCATION
Designed to give the teacher of health education the knowledge base necessary to deal
factually and comfortably with selected topics in school and community health.

720 TOPICAL SEMINAR: GUIDANCE AND COUNSELING
1-3 credits
Prerequisite: permission of instructor. A topical study with a variety of disciplinary input Staffing will be by department faculty and other protessionais in counseling and related fields A maximum of six credits may be applied to a degree.

796 COUNSELING PSYCHOLOGY PRACTICUM
4 credils
(May be repeated for a total of 12 credits)
Advanced counseling psychology students will have supervised training with clients in a variety of settings and will focus on supervised development of specialized theoretica applications.

797 INDEPENDENT READING AND/OR RESEARCH IN

## COUNSELING PSYCHOLOGY

$1-5$ credis
May be repeated)
Prerequisite: permission of instructor. Independent readings and/or research in an area ol counseling psychology under the direction of a faculty member

395 FIELD EXPERIENCE: DOCTORAL
1-6 credits
(May be repeated)
Prerequisite: doctoral candidate siatus. Placement in selected setting for purpose of acquiring experiences and/or developing skills related to student's doctoral program

## 397 INDEPENDENT STUDY

1-3 creotts
(May be repeated for a total of nine credits)
Prerequisites: permission of adviser and department head. Specific area of investigation determined in accordance with student needs.

898 RESEARCH PROJECTS IN SPECIAL AREAS $1-2$ credits
(May be repeated)
Prerequisites: permission of adviser and department head Study, analysis and reporting of counseling problem.

899 DISSERTATION
$1-20$ credits
Prerequisites: permission of major doctoral adviser and department head. Study. design and analysis of counseling probtem

## SPECIAL EDUCATION

## 5610:

201 STUDENT PARTICIPATION: EDUCABLE MENTALLY RETARDED/LEARNING DISABILITIES
Prerequisites: sophomore standing and permission. Systematic observation and participation in cłasses for educable mentally retarded and learning disabled children for one-half semester each. This experience is prerequisite to student teaching in each area

202 STUDENT PARTICIPATION: EDUCABLE
MENTALLY RETARDED/ORTHOPEDICALLY MANDICAPPED
Frerequisites: sophomore standing and permission. Systematic observation and participation in classes for educable mentally retarded and orthopedically handicapped chidren for one-half semester each. This experience is prerequisite to student teaching in each area.

203 STUDENT PARTICIPATION: EDUCABLE

## MENTALLY RETARDED/TRAINABLE MENTALLY RETARDED

Prerequisites: sophomore standing and permission. Systematic observation and participation in classes for educable mentatly retarded and trainabie mentally retarded children for onehalf semester each. This experience is prerequisite to student teaching in each area.

395 FIELD EXPERIENCE: SPECIAL EDUCATION
Prerequisite: upper-college standing. Supervised work with youngsters, individually and in groups in school and/or community settings.

403 STUDENT TEACHING SEMINAR: SPECIAL EDUCATION
1 credil
Corequisite: 495 . Support seminar for student teaching experience
430 SENIOR HONORS PROJECT: SPECIAL EDUCATION
1-6 credits
(May be repeated tor a total of six credits)
Prerequisites: senior standing in Honors Program and permission of sludent's preceptor
Carefully defined individual study demonstrating originality and sustained inquiry
440/540 DEVELOPMENTAL CHARACTERISTICS OFEXCEPTIONAL INDIVIDUALS
Prerequisites $3750: 100$ and 5100:250. Etiology diagnosis, classification development oh acteristics of the atypical individual.
441/541 DEVELOPMENTAL CHARACTERISTICS OF 4 credits MENTALLY RETARDED INDIVIDUALS
Prerequisite: $440 / 540$. Study of etiology, diagnosis, classification and developmental characteristics of educable mentally retarded, trainable mentally retarded and profoundly retarded teristics of e
individuals.
443/543 DEVELOPMENTAL CHARACTERISTICS OF
3 credits LEARNING DISABLED INDIVIDUALS
Prerequisite: 440/540 Survey of etiology, diagnosis, classification and developmental characleristics of learning disabled individuals.
444/544 DEVELOPMENTAL CHARACTERISTICS OF
3 credits INTELLECTUALLY GIFTED INDIVIDUALS
Prerequisite: 440/540. Survey of etiology. diagnosis, classification and develcpmental characteristics of intellectually gifted individuals.
445/545 DEVELOPMENTAL CHARACTERISTICS OF 3 credits ORTHOPEDICALLY HANDICAPPED INDIVIDUALS
Prerequisite: $441 / 541$. Etiology, diagnosis, classification, developmental characteristics of the orthopedically handicapped.

446/546 DEVELOPMENTAL CHARACTERISTICS OF 3 credits BEHAVIORALLY DISORDERED INDIVIDUALS
Prerequisite: $443 / 543$. Etiology, diagnosis, classification, developmental characteristics of the socially and emotionally maladjusted.
450/550 EDUCATIONAL ADJUSTMENT FOR PRESCHOOL 3 credits AND PRIMARY-LEVEL EXCEPTIONAL INDIVIDUALS
Prerequisites: plans $A$ and $B: 441 / 541$ and $443 / 543$ : Plan C: $443 / 543$ and $445 / 545$; cerificafion minofs: $443 / 543$ and characteristic course in certification focus area. Study of diagnostic prescriptive service delivery systems designed to accommodate developmental patterns of preschool and primary-level exceptional children.
451/551 EDUCATIONAL ADJUSTMENT FOR INTERMEDIATE-
3 credits
LEVEL EXCEPTIONAL CHILDREN
Prerequisite: 450/550 except for secondary centification minors. Diagnostic prescriptive service delivery systems designed to accommodate developmental patterns of intermediatelevel exceptional children.

452/552 EDUCATIONAL ADJUSTMENT FOR SECONDARY-
3 credits LEVEL EXCEPTIONAL CHILDREN
Prerequisite: $45 \uparrow / 551$. Study of diagnostic prescriptive service delivery systems designed to accommodate developmental patterns of secondary-level exceptional children.

453/553 RECREATIONAL PROGRAMS FOR
1 credit
EXCEPTIONAL INDIVIDUALS
Study experience which examines crafts and outdoor recreational programming for exceptional individuals in a field setting.

454/554 EDUCATIONAL ADJUSTMENT FOR MODERATE, SEVERE 3 credits AND PROFOUND MENTALLY RETARDED INDIVIDUALS
Prerequisite: $441 / 541$. Study of programs, services and training techniques designed to accommodate developmental patterns of moderate, severe and profound mentally retarded individuals.

455/555 EDUCATIONAL ADJUSTMENT FOR INTELLECTUALLY
3 credits GIFTED INDIVIDUALS
Prerequisite: $444 / 544$ Study of programs, services and educational experiences designed to accommodate developmental patterns of intellectuatly gitted individuals.
456/556 CLASSROOM BEHAVIOR MANAGEMENT
3 credits FOR EXCEPTIONAL INDIVIDUALS
Prerequisite: 451 / 551 or equivalent. Review, development of behavior management prin. ciples. application models for the exceptional.

457/557 CLINICAL TEACHING PRACTICUM: CHILDREN
3 credits WITH LEARNING PROBLEMS
(May be repeated for a lotal of six credits)
Prerequisite: $450 / 550$ or $451 / 551$ or $452 / 552$. Supervised clinicat teaching experience with individuals or smatl groups of problem learners. Designed to familiarize and give practice in diagnostic and remedial teaching techniques and pupil personnel resources.

458/558 INTERDISCIPLINARY PROGRAMMING
3 credits FOR MSPR INDIVIDUALS
Prerequisite: permission of instructor. A study of the programs, interdisciplinary services. educational techniques designed to accommodate the needs of MSPR multiply handicapped individuals.

459/559 SEMINAR: INVITATIONAL STUDIES IN SPECIAL EDUCATION $\quad 1-2$ credits (May be repeated for a total of four credits)
Topical sludy with a varied array of disciplinary input. Staffing will be invited members of allied and contributing professions active in management of exceptional children.

## 460/560 WORKING WITH PARENTS OF MSPR INDIVIDUALS

3 credits
Prerequisite: permission of instructor Provides student with the competencles to facilitate working with parents to improve school. home adjustment of MSPR individuals.

461/561 TECHNOLOGY AND MATERIALS APPLICATION
3 credits IN SPECIAL EDUCATION
Prerequisite: $5100: 310$ or permission of instructor. Microcomputer operation and programming in special education: operation and use of unique audio or visual tools for handicapped and/or adaptive use of traditional equipment: overview of curficulum materials designed for exceptional learner.

452/562 EDUCATING EXCEPTIONAL CHILDREN IN THE
3 credits REGULAR CLASSROOM
For non-special education majors, teaching and administrative personnel in the field. This course focuses on the skills and competencies needed (by regular educators) in working successiully with mainstreamed exceptional children.

## 490,1,2,3/590,1,2,3 WORKSHOP

1-3 credits each
(May be repeated for a total of four credits)
Designed to explore special topics in in-service or preservice education on a needs basis.
494/594 EDUCATION INSTITUTES: SPECIAL EDUCATION $1-4$ credits
Special courses designed as in-service upgrading programs, frequently provided with the support of national foundations.

495 STUDENT TEACHING
4-8 credits
Corequisite: 403 . Student leaching with educable mentally retarded, learning disabled, orthopedically handicapped, or speech handicapped children under supervision of the directing therapist and supervisor.

497 INDEPENDENT STUDY: SPECIAL EDUCATION
1-3 credits Prerequisites: permission of adviser and supervisor of the independent study. Specific area of investigation determined in accordance with student's needs.

## Graduate Courses

601 SEMINAR: SPECIAL EDUCATION CURRICULUM PLANNING
3 credits
Prerequisite: certification in an area of special education. Study of curriculum planning practices unique to special education ctasses and services. Appropriate curriculum objectives for selected areas of instruction as well as effective organizational programs examined.

602 SUPERVISION OF INSTRUCTION
3 credits
Prerequisite: certification in an area of special education. Study of administration and supervisory practices unique to special education classes and services.

603 ASSESSMENT AND EDUCATIONAL PROGRAMMING
3 credts
Prerequisite: certification in an area of special education or permission of instructor. Overviews psychodiagnostic approach in assessment of handicapped individuals and examines methods for designing individuals programming based on formal and informal assessment Program management also examined.

604 EDUCATION AND MANAGEMENT STRATEGIES
3 credits FOR PARENTS OF EXCEPTIONAL INDIVIDUALS
Prerequisite: certification in an area of special education and/or permission of instructor. Methods of working with parents to facilitate eftective programs for handicapped individuals. Strategies for providing support and educational services tor parents examined.

## 605 PROGRAM DEVELOPMENT AND SERVICE DELIVERY SYSTEMS

3 credits
Prerequisite: certification in special education and/or permission of instructor. Provides strategies for community analysis, case findings, funding sources and practices, and development of program models and service detivery systems to serve the handicapped.

606 RESEARCH DESIGN AND PRACTICE IN SPECIAL EDUCATION
3 credits
Prerequisite 5100,640 . An in-depth examination of qualitative research, single subject design. hypothesis generation and methodological practices unique to individual researchand its application to special populations.

612 SEMINAR: ISSUES IN SPECIAL EDUCATION
3 credits
Prerequisites: 25 hours of graduate study in special education and/or permission of the instructor A cutminating seminar for graduate students in special education designed to study, examine and reflect upon current trends, issues and practices.

694 RESEARCH PROJECT IN SPECIAL AREA (SCHOLARLY PAPER) 3 credits Prerequisite: culminating experience in master's program. An in-depth study of an identified topic in special education, culminating in a scholarly paper.

## 695 FIELD EXPERIENCE: MASTER'S

1.4 credits
(May be repeated tor a total of eight credits)
Designed to provide on the-job experience in a special education program on an individual basis.

697 INDEPENDENT STUDY
1-3 credils
(May be repeated for a total of nine credits)
Prerequisites: permission of adviser and supervisor of the independent study. Specific area of investigation determined in accordance with student's needs.

698 MASTER'S PROBLEM
2.4 credits

Prerequisite: permission of adviser. In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in special education.

## 699 THESIS RESEARCH

4-6 credits
Thorough study and analysis in depth of an educationai problem, field projects in special areas: synthesis of existing knowledge in relationship to a specific topic.

## SCHOOL PSYCHOLOGY

## 5620:

490/590 WORKSHOP
Prerequisite permission of instructor. Opportune topical experience provided periodically as needed and/or resources become available.

## 491,2/591,2 WORKSHOP

- 3 credits each

Prerequisite: permission of instructor. Opportune topical experience provided periodically as needed and/or resources become available.

494/594 SCHOOL PSYCHOLOGY INSTITUTES
$1-4$ credits
Prerequisite: permission of instructor. Specifically designed learning experience for program graduate focusing on critical topics.

## Graduate Courses

600 SEMINAR: ROLE AND FUNCTION OF THE
3 credits SCHOOL PSYCHOLOGIST
Prerequisite: permission of instructor. Seminar on role and function of school psychologist. The course. tailored to meet individual needs of trainees, is a consideration of professional standards of school psychology practice.

601 COGNITIVE FUNCTION MODELS FOR PRESCRIPTIVE
3 credits EDUCATIONAL PLANNING
Prerequisite: permission of instructor. Consideration of cognitive development theories and their application for educational programming.

602 BEHAVIORAL ASSESSMENT
3 credits
Prerequisite: permission of instructor. Overview of behavioral theory and its application focusing upon the role of the school psychologist as an agent of behavior change.

3 credits
Prerequisite: permission of instructor. A consideration of consultant roles in the practice of school psychology as related to consultant process and with school and agency personnel. parents and children.

610 EDUCATIONAL DIAGNOSIS FOR SCHOOL PSYCHOLOGISTS
4 credits
Prerequisite permission of instructor Clinical study and application of current assessment approaches applicable in assessment of children's learning problems.

611 PRACTICUM IN SCHOOL PSYCHOLOGY
4 credits
Prerequisite permission of instructor. Laboratory experience in psycho-educational study of individual children who have learning problems in school.

630, 1 INTERNSHIP IN SCHOOL PSYCHOLOGY: FALL/SPRING
3 credits each Prerequisite: permission of instructor. Full-time paid work assignment under supervision of a qualified school psychologist for an academic year structured according to provisions of State Department of Education. Additional readings required.

640 FIELD SEMINAR I: ISSUES AND ASSESSMENTS (FALL) 2 creonts
641 FIELD SEMINAR II: CLASSROOM
2 credits ENVIRONMENT (SPRING)
Prerequisite: permission of instructor. Consideration of pertinent topics in practice of school psychology with emphasis on tield-based problems and issues of a practicing school psychologist.

694 RESEARCH PROJECT IN SPECIAL AREAS
1-3 credits
Prerequisite permission of adviser Study, analysis and reporting of school psychology problem

695 FIELD EXPERIENCE: MASTER'S
1-3 credns
Prerequisite permission of instructor. Practical school psychology-related experience in school setting.

696 FIELD EXPERIENCE: MASTER'S
1-3 credits
Prerequisite: permission of instructor. Practical school psychology-related experience in appropriate setting other than a school
697 INDEPENDENT STUDY
1-4 credits
Prerequisites: permission of adviser anc supervisor of the independent study. Documentation of specific area of investigation. Nature of the inquiry to be determined by student-supervisor agreement.

698 MASTER'S PROBLEM
2-4 credits
Prerequisite: permission of adviser. In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in dealing with a problem in school psychology

699 THESIS RESEARCH
4-6 credits
Prerequisite permission of instructor Thorough study. analysis ana reporting in depth of an educational problem: field projects in special areas; synthesis of existing knowledge in relationship to specific topic.

## MULTICULTURAL EDUCATION

## 5630:

480 SPECIAL TOPICS: MULTICULTURAL EDUCATION
1-4 credits
(May be repeated with a change in topic)
Prerequisite permission of instructor Group study of special topics of critical, contemporary concern in professional education.

481/581 MULTICULTURAL EDUCATION IN UNITED STATES
3 credits
Inquiryinto multicultural dimensions of A merican education Comparisons of urban suburban and rural educational settings with reference to socioeconomic differences.

482/582 CHARACTERISTICS OF CULTURALLY
3 credits DIFFERENT YOUTH
Study of characteristics of culturally different youth with focus on youth in low-income areas Emphasis on cultural, social, economic and educational considerations and their implications.

## 483/583 PREPARATION FOR TEACHING CULTURALLY

Study of principles, organizations and techniques of supervision with view to improvement of instruction.

611 SUPERVISION OF STUDENT TEACHING
2 credits
Frimarily for supervising teachers in guidance of student teachers. Topics include readiness for student teaching, directing teacher and college supervisor relationships. use of the conference. demonstration and observation.

612 ADMINISTRATION OF EDUCATIONAL FACILITIES 2 credits
Theories and practices involved in planning school facilities discussed. Includes field explorations of exemplary school buildings.

613 ADMINISTRATION OF PUPIL SERVICES
2 credits
Prerequisite graduate standing. Overview of pupil personnel services and special education including analysis of the nature and development of each component seivice program.

615 COMPUTER APPLICATIONS IN EDUCATIONAL ADMINISTRATION
2 credts
For graduate education sludent majoring in administration. Includes concepts of modern systems and their educational applications.

620 SECONDARY SCHOOL ADMINISTRATION
3 credits
Prerequisite: 601 . Designed to help student gain knowledge and develop skills needed to successfully deal with problems, procedures of orgenization and administration of secondary school

631 ELEMENTARY SCHOOL ADMINISTRATION
3 credits
Prerequisite: graduate standing. Examination of the elementary school principalship as it relates to the development and maintenance of a school climate most conducive to learning
684 FIELD EXPERIENCE I: ELEMENTARY ADMINISTRATION 2 credits
Entails supervised. on-the-job administration experience in administrative task areas of staff personnel, pupil personnel, curriculum, community reiations, finance and physical faclities.

686 FIELD EXPERIENCE I: SECONDARY ADMINISTRATION
2 credits
Prerequisite: graduate standing. Introduction to the preparatory program for secondary
school principals. Students observe a practicing principal in a public school setting.
694 FIELD EXPERIENCE II: ELEMENTARY ADMINISTRATION 3 credits
Prerequisites. 684 and permission of instructor. Culmination of the preparatory program for elementary school principals in which students perform administrative tasks supervised by experience principals.

695 FIELD EXPERIENCE FOR SUPERVISORS
2 credifs
Prerequisite: completion of all course work except research probiem. Designed to help student test and develop understandings and skills in supervision. Student participates in selected task areas which reflect supervisory responsibilities.

696 FIELD EXPERIENCE II: SECONDARY ADMINISTRATION
3 credits
Prerequisite completion or present enroliment in all course work for the master's degree for the secondary school principal. Provides student with on-the-job experience in secondary school administration

697 INDEPENDENT STUDY
1-3 credits
(May be repeated for a total of six credits)
Prerequisites: permission of adviser and supervisor of the independent study. Area of study determined by student's needs.

698 MASTER'S PROBLEM
$2-4$ credits
Frerequisite: permission of adviser. In-depth study of a research problem in education Student must be able to demonstrate critical and analytical skills in dealing with a problem in educational administration.

699 THESIS RESEARCH
4-6 credits
Prerequiste: permission of adviser. In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skilis in dealing with a problern in educational administration.

704 THEORY, RESEARCH AND PRACTICE IN
2 credits
EDUCATIONAL ADMINISTRATION
Study of organizations, strengths and weaknesses of bureaucratic model in administering them. Practical means by which weaknesses of bureaucracies are offset or lessened in educational institutions.

705 DECISION MAKING IN EDUCATIONAL ADMINISTRATION
3 credifs
Theories underlying process of decision making in philosophy. sociology, economics and politics of education. Alternative decisions and theory respective consequences. Fundamentals of PPBS and other decision-making aids.

706 COLLECTIVE BARGAINING AND EMPLOYEE RELATIONS
2 credrts
An overview of collective bargaining in education and a basic knowlegge of the mechanics and issues involved in the bargaining process and contract administration.

707 THE SUPERINTENDENCY
3 credits
An orientation to the superintendent's role and a basic understanding of the strategies for
oealing with the major relationai and functional aspects of the supermtendency.
720 TOPICAL SEMINAR: EDUCATIONAL ADMINISTRATION
$1-3$ credits
(May be repeated)
Prerequisite: permission of instructor Topical studies in selected areas of concern to stu.
dents, practicing administrators in public, private educatıonal institutions, organizations.
730 SEMINAR IN SCHOOL ADMINISTRATION
3 credits
Prerequisite: 601 . Focus on recent research in administration and educational administration theory.

731 SEMINAR: PROBLEMS OF THE SCHOOL ADMINISTRATOR
2 credits
Current administrative problems in educational institutions as perceived by student and practiong school executives. Emphasis on problem management, amelioration or solution. Field visits or resource persons invited to ciassroom.

732 ORGANIZATIONAL COMMUNICATIONS AND THE
3 credits SCHOOL ADMINISTRATOR
Fundamentals in interpersonal communications. Application of these primcipies to roles of educalicnal administrators Skill development in written and spoken communications, with attention to nonverbal communications: simulation and role playing.

3 credits SOCIAL SYSTEMS
Designed to bring educational administrator into direct contact with individuals responsible for other community service detivery systems, e.g.. city government. Methods of intoragency cooperation to provide client services.
795.6 INTERNSHIP IN EDUCATIONAL ADMINISTRATION

2 credits each
May be repeated for a total of six credits)
Work under a practicing administrator involving experience in optimum number of administrative tasks. Includes seminars and written work.

895 FIELD EXPERIENCE: THE SUPERINTENDENCY
2 credits
Prerequisite: permission of instructor Cooperative, tield-based experience in centrat office of a school district in which student performs assignments in administrative task areas.

896 FIELD EXPERIENCE IN SCHOOL PLANT PLANNING
2 credils
Prerequisite: permission of instructor Selected field experiences. Emphasis on analysis of school enroliments, evaluation of school plants and tinancial aspects of plant planning.

## 897 INDEPENDENT STUDY

$1-3$ credis
(May be repealed for a total of six credits)
Prerequisite: permission of adviser. In-depth study of a research problem in education. Student must be able to demonstrate critical and analytical skills in cealing with a problem in secondary education.

## 898 RESEARCH PROJECT IN SPECIAL AREAS

1-2 credits
Prerequisite: permission of adviser. Critical and in-depth study of specific problem in educational administration.

899 DISSERTATION
$1-20$ credits
Prerequisite permission of adviser. Specific research problem that requirea stuaent to apply research skills and techniques to the problem being studied

## SPECIAL EDUCATIONAL PROGRAMS

## 5800:

490/590 WORKSHOP IN ECONOMIC EDUCATION
1.3 creatis

OR IN SOCIAL STUDIES
Individual work under staff guidance on curriculum problems: utilization of communty re? sources; planning of curriculum units

491/591 WORKSHOP IN ARITHMETIC OR IN PHYSICAL SCIENCE
1-3 credits
Individual work under staft guidance on curriculum problems; utilization of community resources; planning of curriculum units.

492/592 WORKSHOP IN READING
1-3 credits
Individual work under staff guidance on curriculum problems: utilization of community resources; planning of curriculum units.

493/593 WORKSHOP ON EXCEPTIONAL CHILDREN
1-3 credits
Individual work under staft guidance on curriculum problems; utilization of community resources; planning of curriculum units.

494/594 INTERNATIONAL SCHOOL STUDY
3-6 credits
On-the-scene study of education in foreign countries, usually by concentrating on the study of schools in one restricted geographical area

## EDUCATIONAL TECHNOLOGY

## 5850:

100 INTRODUCTION: PUPIL PERSONNEL WORK 2 credits
Purposes, needs, scope, character of pupil personnel services.
201 INFORMATIONAL SERVICES IN GUIDANCE
2 credits AND SPECIAL EDUCATION
Emphasis on organization and status of informational services as related to activities of educational technologist.

204 HUMAN RELATIONS IN EDUCATION
3 credits
Study of individual and group relationships in educational setting including development of basic interpersonai skills.

207 MECHANICS OF STUDENT APPRAISAL 3 credits Introduction to group appraisal with major emphasis on assisting certified personnel in group test administration, scoring, organizing and recording tesi results.

213 ORIENTATION OF THE EDUCATIONAL TECHNICIANS
2 credits TO THE SECONDARY SCHOOL
Designed to provide student preparing for role of educational technician with framework for understanding secondary education.

260 SPECIAL EDUCATION TECHNOLOGY
2 credits
Survey of selected procedures and materials employed in classrooms especially designed and operated for exceptional children.

295 EDUCATION TECHNICIAN FIELD EXPERIENCE
5 credits
(May be repeated once)
Supervised field experience in school setting designed for educational technician enrollees only.

## HIGHER EDUCATION ADMINISTRATION

## 5900:

700 INTRODUCTORY ADMINISTRATIVE COLLOQUIUM IN
1 credit HIGHER EDUCATION
Introductory examination of issues, trends, topics and activities in institutions of higher education

715 SEMINAR IN HIGHER EDUCATION: ADMINISTRATION IN
3 credits HIGHER EDUCATION
Prerequisite $5700: 704$ or permission. In-depth study of problems. procecures and principles of administration in institutions of higher education. Emphasis is placed on the aaministrative process and major administrative task areas.

725 SEMINAR IN HIGHER EDUCATION: STUDENT SERVICES
3 credits
Prerequisite: permission. Topics of concern to student specializing in student personnel services in higher education. Topics may differ each semester depending upon specific student needs and interests.

730 HIGHER EDUCATION CURRłCULUM AND PROGRAM PLANNING 3 credits Study of strategies for implementing and monitoring the curricular change process. Broad aspects of higher education program planning shall be examined.

735 INSTRUCTIONAL STRATEGIES AND TECHNIQUES FOR
3 credits THE COLLEGE INSTRUCTOR
Selected topics iri instructional theory techniques and strategies which are appropriate to instructional planning and development of college-ievel courses. Criterion-reference formating is emphasized, including student achievement testing and evaluation.

745 INDEPENDENT STUDY IN HIGHER EDUCATION
1.3 credits
(May be repeated for a total of six credits)
Prerequisite: permission Selected area of independent investigation in an area of hugher education as determined by adviser and student in relation to student's academic needs and career goals.

800 ADVANCED ADMINISTRATIVE COLLOQUIUM IN HIGHER EDUCATION
1 credit
(May be repeated
Prerequisite. permission. Examination of selecteo perspectives and topics which pose concerns to participating students.

801 INTERNSHIP IN HIGHER EDUCATION
(May be repeated for a total of six credits)
Prerequisite: permission; corequisite: 802. Intensive work experience in operations of an institution of higher education, related to student's own program of studies and protessionai goals.

802 INTERNSHIP IN HIGHER EDUCATION SEMINAR
1 credil
(May be repeated for a total of three credits)
Prerequisite permission; corequisite: 801. To be taken in conjunction with internship for synthesis of problems encountered in internship experience and to provide the opportunity to share ideas and experiences from various areas of higher education internship piacement.

## College of Business Administration

## COOPERATIVE EDUCATION 6000:

301 COOPERATIVE EDUCATION<br>0 credits<br>(May be repeated)<br>For cooperative education students only. Work experience in business, industry, or governmental agency. Comprehensive performance evaluation and written report required

## ACCOUNTING

## 6200:

201 ACCOUNTING I
4 credits
Introduction to accounting, the language of bus:ness Emphasis on basic principles. concepts and terminology of accounting for assets. liabilities and proprietorship

202 ACCOUNTING II
4 credits
Prerequisite: 201. Study of accounting informational needs of management Emphasis on planning and controt, including tinancial statement analysis, funds flow. budgets, cost volume-profit analysis and decision-making costs.

301 COST ACCOUNTING
3 credits
Prerequisites: $3250: 202$ and grades of not less than " C " in 201, 202. Introduction to product
costing, emphasizing analysis of materials. labor and factory overhear. Cost control achieved through use of flexible budgets. standard costs and variance ana ysis.

317 INTERMEDIATE ACCOUNTING I
4 credits
Prerequisites: grades of not less than " C " in 201, 202. Accounting theory and problems of statement preparation: in-depth study of cash. temporary investments receivables. inventories, tangible tixed assets, intangibles and current liabilities

4 credits
Prerequisite: 317. Study of long-term tiabilities and investments capital stock, retained earnings. accounting changes, funds statement, pensions, leases, statement analysis and price-level accounting

355 ACCOUNTING INFORMATION PROCESSING
3 credits
Prerequisite: 202. Introduction to automatic data processing systems in an accounting and management environment. Fundamentals of computer programming presented to student.

360 BUDGETING 3 credits
Prerequisite: 301. Study of principles and policies of budgeting. Emphasis on manageria
control of expenses. capital expenditures and related activities.
401 ACCOUNTING SURVEY
3 credits
Prerequisite: permission of instructor. Introductory course for sludent with no previous accounting background. Essential accounting concepts, techniques and terminology for busi ness organizations.

402 ADVANCED COST ACCOUNTING
3 credits
Prerequisite: 301 . Study of use of standard cost procedures, job-order costing procedures and advanced problems in area of cost accounting.

410 TAXATION FOR THE NON-ACCOUNTANT 3 credits
Provides non-accountant basic knowledge of federal tax law as applied to individuals and businesses. Not open to accounting major.

420/520 ADVANCED ACCOUNTING 3 credits
Prerequisite: 318 Examination of accounting theory emphasizing accounting for business combinations, partnerships, foreign operations, nonprofit entities and consolidated statements.

425 CURRENT DEVELOPMENTS IN ACCOUNTING
3 credits
Prerequisite: 318. Official pronouncements of Accounting Principles Board, Financial Accounting Standards Board and Securities and Exchange Commission, and other current developments in accounting theory. Essential for C. P.A preparation

## 430/530 TAXATION I

4 credits
Frerequisite: 317. Application of current feceral tax law 10 indivicuals and proprietorships.
Types of income. deductions and structure of tax return covered
431/531 TAXATION II
3 credts
Prerequisite: 430/530. Apptication of current federal tax law to partnerships corporations. trusts. estates and gifts. Social security taxes and Ohio income, sales and personal property taxes discussed.

## 440/540 AUDITING

3 credits
Prerequisites. $301,318,355$ and 6500.322 must be taken prior to or concurrently or permission of instructor Examines auditing stancards and procedures used by independent auditor in determining whether a firm has tarly represented its tinanciat position.

## 45 INFORMATION SYSTEMS

3 credits
Prerequisites: 202, 355 or permission of instructor. Focus on development of accounting methods and procedures installation and improvement of accounting systems and evaluation of automated data processing systems. This course cannot be taken in ieu of 6500:324 Data Management for Information Systems

460 CONTROLLERSHIP PROBLEMS
3 credits
Prerequisites 301,318 Examination of quantitative accounting methods of planning controf and decision making. Standard costing variable costing and contribution approach to decision making emphasized.

## 70/570 GOVERNMENTAL AND INSTITUTIONAL ACCOUNTING

3 credits
Prerequisites: $20!$ or 601. and either senior-or graduate-level standing. Theory and procedures involved in application of fund accounting. budgetary control, appropriations and various accounting systems to governmental units, educational, meciral anc other nonprofit institutions.

480/580 ACCOUNTING PROBLEMS 3 credits
Prerequisite. 318. Independent researon on advanced accounting problem in student's specific area of interest

485 CPA PROBLEMS: COMMERCIAL LAW
2 credits
Prerequisite permission of instructor. Deals with those general principles of commercial law which appear on CPA examination.

486 CPA PROBLEMS: ACCOUNTING PRACTICE 3 crecits
Prerequisite: permission of instructor. Stucy of methoas for soiving vanous types of problems which appear on accounting practice section of CPA examination

487 CPA PROBLEMS: TAXATION
1 credt
Prerequisite: permission of instructor. Application of current deweloprents in federal income tax law to CPA examination

488/588 CPA PROBLEMS: AUDITING
2 credits
Prerequisite: 440/540 or permission of instructor Preparation for auding section of CPA examination. focusing on auditing principles, standards and ethiss and situations oncounlered by independent auditor

489/589 CPA PROBLEMS: THEORY
2 credits
Prerequisite: permission of instructor Preparation for theory section of CPA examination, tocusing on current developments and use of basic accounting theory to solve anvanced accounting problems

## 491/591 WORKSHOP IN ACCOUNTING

1-3 credits
(May be repeated)
Prerequisite permission of instructor Group study of accounting under faculty guidance May
not be used to meet undergraduate or graduate accounting major requirements, but may be used for elective credit only with permission of instructor or cepartrient.

495 INTERNSHIP IN ACCOUNTING
3 credits /credit/non-credit)
Prerequisite: permission of instructor. On-the-job tratning for student in fiela of public, inaus. irial of nonorotit accounting. Individual assignments made by supervising faculty member.

497 HONORS PROJECT
1-3 credits
(May be repeated for a total of six credits)
Prerequisite: senior stanaing in Honors Program linaivioual senor honors thesis or creative project relevant to accounting approved and supervised by member of the department taculty.

499 INDEPENDENT STUDY IN ACCOUNTING
$1-3$ credits
Prerequisite: permission.

## Graduate Courses

## 601 FINANCIAL ACCOUNTING

3 credits
ntroductory course for student with no accounting backgrounc. Examines accounting princi ples as applied to financial problems of firm.

610 ACCOUNTING MANAGEMENT AND CONTROL
3.creats

Prerequisite: 601 or equivalent. Investigation of role of accounting as management tool in areas of production marketing, internal control and capital budgeting with focus on management planning.

3 credits
Prerequisite: 602 or equivalent. Working capital managenient controlling miventory investments, administering costs and tunds. managing investment in plant ano equipment. administering business income and torecasting for financial maragement.

676 MANAGEMENT OF FINANCIAL STRUCTURE
3 credits
Prerequisite: 674 . Emphasizes determination of volume and composition of sources of tunds Primary attention directed to cost of capital for specific sources of financing.

678 CAPITAL BUDGETING
3 credits
Prerequisite 674 . Attempt to integrate various theories of capital buigeting into comprehensive conceptual scheme. Theoretical concepts and practical applicalions blended for better understanding of capital problems.

679 MERGERS, ACQUISITIONS, CONSOLIDATION, TAKEOVERS:
3 credits AN INVESTMENT BANKING APPROACH
Prerequisite: 602 or permission of instructor. A comprenensive study of financial planning, factors. steps to be considered for successful consummation of a merger
681 INTERNATIONAL BUSINESS FINANCE
3 credits
Prerequisite: 602 or equivalent. Financial policies and practices of companies involved in multinational operations. Considers management of working capital and permanent assets, return on investment and capital budgeting for the global firm.

690 SELECTED TOPICS IN FINANCE
3 credits
(May be repeated tor a total of six credits)
Prerequisite: 674. Provides study of contemporary issues and areas not covered in current finance graduate courses.

## 697 INDEPENDENT STUDY IN FINANCE

1-3 creaits
(May be repeated for a total of three credits)
Focus on special topics of sludy and research in tinance on an independent basis,
698 INDEPENDENT STUDY: BUSINESS LAW $1-3$ credits
Focus on special topics of study and research in the legal aspects of business administration.

## 699 SEMINAR IN FINANCE

3 credits
(Must be repeated for a total of six credits)
Prerequisites: 674 and a total of 15 Phase $1 /$ graduate credits. Frogram of independent research in finance area of student's choice, requiring submission of a finished research report.

## MANAGEMENT

## 6500:

301 MANAGEMENT: PRINCIPLES AND CONCEPTS
3 credits
Prerequisites: Three crecits in behavioral science, economics, mathematics. Theory, practice in management of human, other economic resources, with extensive coverage of operations systems

302 INTRODUCTION TO ORGANIZATIONAL BEHAVIOR
3 credns
Prerequisites: 301 and two courses in psychology, sociology. Investigation of applications of behavioral and social sciences as they relate to individual. group behavior in organizations.

321 QUANTITATIVE BUSINESS ANALYSISI 3 credis
Prerequisite: completion of collegiate mathematics requirement. Statistical analysis of business data including coverage of probability theory. probability distributions. sampling, estimation, hypothesis testing.
322 QUANTITATIVE BUSINESS ANALYSIS II
3 crears
Prerequisite: 321 . Statisticalanalysis of business data including analysis of variance, regression and correlation, time series, index numbers, distribution-free statistics, Bayesian decision making.

323 COMPUTER APPLICATIONS FOR BUSINESS
3 credits
Emphasis on batch and reatime programming. Includes graphics using PLOTALL. simulation in GPSS, business programming using BASIC, flowcharting, hâroware, sottware, management information systems.

324 DATA MANAGEMENT FOR INFORMATION SYSTEMS
3 credits
Prerequisites upper-college standing and proficiency in the BASIC programming language or approval of instructor. Developing business application systems using BASIC and oata base management systems sottware, including sequential and rancom files. finding ano arranging records, and database management systems applications.

331 PRODUCTION AND SYSTEMS MANAGEMENT
3 credits
Prerequisite: 301 , corequisite: 321 . Emphasis on design, analysis of operating systems. utilizing scientific decision-making methodology. Case exercises, project.
332 PRODUCTION AND OPERATIONS MANAGEMENT
3 creats
Prerequisites: 323.331 ; corequisite: 322 . Introduces use of models for proauction schecu'ing. materials management, quality control, distribution and project management Inctudes linear programming. FERT, simulation Cases, exercises, problems, computer analysis.

341 PERSONNEL MANAGEMENT
3 creatis
Prerequisites: wo courses in psychology, sociology and 301 . Principles. policies, practices in administering functions̀ of recruiting, selecting, training, compensating, apprasing humar resources of organizations.

342 PERSONNEL RELATIONS
3 credis
Prerequisite: 341 . Analysis of management, union and employee objectives, attitudes and strategy, as they affect conduct of business and economy. Stress placed on group assigned readings and reports.

3 credits
Prerequisites upper-college or graduate standing and 301 or 600 or equivalent. Examines the behavior and environment tor entrepreneurship. Focuses on classic and contemporary entrepreneurs and the importance of personal vatues and strategies. Case studies. Field projects

410/510 SELECTED TOPICS IN ENTREPRENEURSHIP
1-3 credifs
Prerequisites: upper-college or graduate standing and 301 or 600 or equivalent. Facilitates comparative international study of entrepreneurship, introduction of entrepreneurship to large organizations. or application of student's entrepreneurial skills. Six hour limit.

## 412/512 DEVELOPMENT OF MANAGEMENT THOUGHT

3 credits
Prerequisites upper-college or graduate standing and 301 . or 600 or equivalent. Review of development of managerial theories from 5000 BC . to present with consideration of their application to present organizational settings.

421 OPERATIONS RESEARCH
3 credits
Examines the use of operations research techniques in managerial decision-making processes: constrained linear optimization, non-linear optimization, network analysis, queuing theory, simulation

## 425 DECISION SUPPORT SYSTEMS

3 credits
Prerequisite: 324. May not be taken in place of 6200:454. Introduction to decision support systems design including applications in various functional areas. Projects may use BASIC, electronic spreadsheets, database and/or decision support system software.

433 BUSINESS OPERATIONAL PLANNING
3 credits
Prerequisites: 322,332 . Application of quantitative techniques for planning overall operations of firm. Emphasis given to externat-internal factors, which influence short- and long-run economic success of firm.

434 PRODUCTION PLANNING AND CONTROL
3 credits
Prerequisites: 322,332 Forecasting, materials management, production planning, scheduling, control. Integrates previous courses, provides overall framework including use of computer and quantitative methods Cases and a project in an operating organization.

435 QUALITY CONTROL
3 credits
Prerequisite: 322. Emphasis on statistical techniques essential to controlling product quality for both measurement and attribute data. Includes control chart methods and acceptance sampling plans.
436 ADVANCED QUALITY CONTROL APPLICATIONS
3 credits
Prerequisites 322 and 435. Applications of advanced topics including exponential and cusum charts. experimental design, evolutionary operations (EVOPS). planned experimentation (PLEX) and management of the quality function.

437 SPECIAL TOPICS IN QUALITY MANAGEMENT
3 credits
Prerequisites: 435 and permission of instructor. Exploration of advanced topics of interest both to the student and professor. Many special applications, case studies, outside speakers, projects in conjunction with local industries.

443 ADVANCED PERSONNEL MANAGEMENT
3 credits
Prerequisite: 341. Advanced study of current issues and problems in field of personnel.
Emphasis given to current literature and research. Activities may include projects. library research, case studies

455/555 MANAGEMENT OF ARBITRATION: COMMERCIAL,
3 credits INTERNATIONAL AND HUMAN RESOURCES
Prerequisites: upper-college or graduate standing and 301 or 600 or equivalent. A comprehensive study of managerial strategies for commercial, international and human resource arbitration. Graduate requirement: research paper.

457 INTERNA TIONAL MANAGEMENT
3 credits
Prerequisites: upper-college standing and 301 or equivalent. Management practices and techniques of international business organizations. Focus on structure and processes of resource allocation, design and technology, and the impact of culture.

458 SELECTED TOPICS IN MANAGERIAL ARBITRATION,
$1-3$ credits MEDIATION AND CONCILIATION
Prerequisites: upper-coltege or graduate standing and 301 or 600 or equivalent. Study of the various methods and mechanisms by which management can understand and deal with internal and external conflict. Six hour limit.

Prerequisite: 652 Leadership styles in organized institutional setting: influence of these styles on individual. group behavior; organizational goal attainment. Analysis of leader's role in administrative process

654 INDUSTRIAL RELATIONS
3 credits
Prerequisite: 600. Study of rights and duties of management in dealing with labor and
economic consequences of union and management policies and practices.
656 MANAGEMENT OF \{NTERNATIONAL OPERATIONS
3 credits
Prerequisite: 652 or equivalent. Deais with institutional environment of international business; parameters of international business system which hold the system together and which individual businessmen cannot materially aiter.

657 THE LEADERSHIP ROLE IN ORGANIZATIONS
3 credits
Prerequisite: 652. Analysis and development of leadership theory and thought. Identification of leaders in both formal and informal organizations. Training and development methods for leaders evaluated. Incividual and small group fieid study assignments.

659 OPERATIONS AND STRATEGIC PLANNING
3 credits
Prerequisites: $600,601,602$ or equivalent. Long-range and short-term planning in organizations and linkage between the two. Planning models are presented of business and nonprofit organizations.

## 662 QUANTITATIVE METHODS - OPERATIONS MANAGEMENT

3 credits
Prerequisite: 601 or equivalent. Survey of basic techniques of operations research. Stresses application to functional areas of business with particular emphasis given to production and planning aspects.

663 APPLIED INDUSTRIAL STATISTICS I
3 credits
Prerequisite: 601 or equivalent. Designs tor survey sampling and estimation. Simple linear regression analysis, including inferences, aptness of the model and joint contidence intervats.

664 APPLIED INDUSTRIAL STATISTICS II
3 credits Prerequisite: 663. Applications of multiple regression including determining "best" set of independent variables, correlation models, analysis of variance models including multifactor models. Experimental designs including randomized block and Latin square designs.

671 ADVANCED OPERATIONS RESEARCH
3 credits
Prerequisite: 662. Designed to present in more depth and breadth certain topics surveyed in 662 , with emphasis on application of these techniques to student's own business situations.

## 672 MANUFACTURING AND OPERATIONS ANALYSIS

3 credits
Prerequisite: 601 or equivalent. Provides an applications for $\mathbf{~}$ m where skills gained in other manufacturing - quantitative areas of curriculum can be empirically utilized and applied.

673 QUALITY AND PRODUCTIVITY TECHNIQUES
3 credits Prerequisite: 601. Introduction to techniques for improving productivity and quality, including statistical process control (SPC), material requirements planning (MRP), just-in-time (JiT) inventory control and management of the program.

688 INDEPENDENT STUDY IN HEALTH 1 -3 creaits SERVICES ADMINISTRATION
(May not be repeated for more than three credits)
Prerequisite: permission of instructor. independent study and research of a special topic of interest in health services administration (e.g., management), chosen by the student in consultation with and under the supervision of the instructor.

## 689 SEMINAR IN HEALTH-CARE SYSTEMS MANAGEMENT 3 credits

Prerequisite: 600 or equivalent or permission of instructor. In-depth study of nonprofit healthcare organizations and health-care delivery systems. Examination of organizational structure and management differences between nonprofit health-care organizations and traditional business organizations. Study of providers (patient care - third party payers) and role of governmental programs. Major research paper

690 SELECTED TOPICS IN MANAGEMENT
3 credits (May be repeated for a total of six credits)
Prerequisite: 652 . Selected topics in historical, contemporary and/or operational and functional areas of management.

695 BUSINESS STRATEGY AND POLICY: DOMESTIC
3 credits

## AND INTERNATIONAL

Prerequisite: to be final course in M.B.A. program. A case-oriented course which focuses on integration of theoretical and practical knowiedge acquired in core business courses. Students analyze, evaluate, formulate organization objectives and strategies within domestic and internationa! envifonmental contexts.

697 INDEPENDENT STUDY IN MANAGEMENT
1-3 credits
(May be repeated tor a total of three credits)
Focus on special topics of study and research in management on an incependent basis.
699 GRADUATE SEMINAR IN MANAGEMENT
3 credits
(May be repeated for a total of six credits)
Prerequisite: total of 15 Phase II graduate credits. For master's degree candidate in management. Independent study and reading. Leads to finished paper which should be completed within one year from time of enrollment in course.

## MARIKETING

## 6600:

300 MARKETING PRINCIPLES
3 credirs
Prerequisites: 3250:201,202 or permission. Broad course integrating commodity, institutional, functional and managerial concepts of marketing process: total framework of economic activity.

310 BUYER BEHAVIOR
Prerequisites: two courses from 3750 or 3850 or permission. Interdisciplinary approach to Prerequisites: two courses from 3750 or 3850 or permission. Interdisciplinary approach 10 analysis and interpretation of the nature and cynarmics of buy.ng molves. habits and procedures in consumer, industrial, intermediate and institutional markets. Economic, psychoogical and sociocultural actions and reactions of these buying units are viewed in terms of thei decision-making processes as
of the marketing organization.

320 PHYSICAL DISTRIBUTION 3 credits
Prerequisite 300 Basic course in source, movement and storage of goods. including emphasis on economics of transportation and requirements of an effective system.

## 340 RETAIL MANAGEMENT

3 creats
Prerequisite: 300 . Presents principles of management resulting in service to consumers at profit to retailer. Store location, staffing, planning and control, buying, pricing and promotion explored.

350 ADVERTISING AND MARKETING COMMUNICATIONS
3 creaits
Full fange of marketing communication eiements. Emphasis on role of each element and coordination required of marketing manager in developing successtul and systematic program of marketing communications.

360 INDUSTRIAL MARKETING
3 creaits
Prerequisite: 300 . Following principles of modern marketing management, focuses on development of local, regional, national markets. Emphasis on problems of industrial goods manufacturers.

## 370 PURCHASING

3 credils
Prerequisite: 3250:202. Process and activities associated with cost effective buying, interna management of all materials, equipment needed by manufacturer to produce product or provide a service.

375 PROFESSIONAL SELLING
3 credits
Prerequisite: 300 or permission of instructor Study of the role of personal selling in the organization's marketing mix with emphasis on customer problem solving and persuasive communication.

380 SALES MANAGEMENT
3 credits
Prerequisite: 350 or 360 . Advanced consideration of firm's marketing mix as applied and adjusted to marketing objectives and policies and their implementation and control.

385 INTERNATIONAL MARKETING
3 credits
Prerequisite: 6800:305. Provides a basic understanding of the complexities of foreign marketing. It assumes knowledge of the basic international business course.

390 MANAGEMENT OF MARKETING CHANNELS
3 credits
Prerequisite: 300. An integrative approach to analysis of marketing channels of distribution to complement the more specialized analyses of retailing, wholesaling and physical distribution. Stresses the interaction of firms comprising a channel and the nature of managerial decisions designed to coordinate the efforts of the group of institutions that make up a channe of distribution.

420/520 LOGISTICS SYSTEMS ANALYSIS
3 credits
Prerequisite 320 . Stresses application of quantitative techriques in design and operation of individual logistics components as well as integration of total logistics system in the firm Emphasis on student's evaluation and solving of logistics problems.

425 ADVERTISING RESEARCH AND EVALUATION
3 credits
Prerequisites: 300 and 350 . The role and methods of research are studied as they relate to the planning of advertising campaigns, with attention to market analysis, competitor analysis, and copy and media planning. Post-campaign measurement of copy, media and makketing efficiencies and effectiveness are also included.

## 430 PROMOTIONAL CAMPAIGNS

3 credits
Prerequisite: 350 . Examination of total communications efforts involved in planning, developing and monitoring promotional campaigns. Stress is placed on understanding the nature and roles of advertiser, agency and support services.

## $440 / 540$ PRODUCT PLANNING

3 credits
Prerequisite: 300 . In-depth study of tools and techniques involved in new product development process and management of the product through its life cycle. Emphasis on alternative forms of corporate structures for product development and management, product policies and strategies, and product planning procedures and techniques. Differences between consumer and industrial products.

460 MARKETING RESEARCH
3 credits
Prerequisites: 300, 6500:321. Through lectures, cases and tean projects, a student is taugh to detect and evaluate actionable forces in the marketplace Emphasis on investigation appropriate to economics of situation

465/565 FORECASTING AND QUANTITATIVE METHODS IN MARKETING 3 credits
Prerequisites: 460,620 . Explores the more sophisticated quantitative and forecasting methods, tools, procedures available to marketing researchers, decision makers; how these are applied to marketing problems.

491 WORKSHOP IN MARKETING
1-3 credits
Group studies in special topics in marketing. Not used to meet undergraduate or graduate major requirements in marketing. May be used for elective credit with permission of instructor or department.

495 INTERNSHIP IN MARKETING
$1-3$ creats
Prerequisite permission of instructor. On-the-job experience with cooperating private and public sector organizations. Individual assignments made by supervising faculty member. Periodic reports and term papers required as appropriate.

497 HONORS PROJECT
$1-3$ credits
(May be repeated for a total of six credits)
Prerequisite: senior standing in Honors Program. Individual senior honors thesis or creative project relevant to marketing, approved and supervised by member of the department faculty

## 499 INDEPENDENT STUDY: MARKETING

Prerequisite: permission of instructor. Provides a means for individualized in-depth study of a marketing problem or problems from which student can derive significant benefit.

## Graduate Courses

## 600 MARKETING CONCEPTS

3 credits
Assessment of basic marketing principles involved in business and industry. Required of all non-business undergraduates; may not be selected for Phase II credit.

## 620 STRATEGIC MARKETING MANAGEMENT

3 credils
Prerequisite: 600 or equivalent. Managerial assessments of opportunities, threats are explored as are the development and management of appropriate strategic marketing plans and their tactical implementation.

## 630 INTERNATIONAL MARKETING POLICIES

3 credits
Prerequisite: 620 . Explores the problems of formulating and implementing marketing strategies and tactics within complex and changing muitinational organizations and international markets. A planning framework is emphasized.

640 MARKETING INFORMATION SYSTEMS AND RESEARCH
3 credits
Prerequisites: 620,6500:601, 602. Explores managerial development and maintenance of systematic methods for locating, acquiring, processing, analyzing and utilizing marketing information for marketing decision making.

## 650 CONSUMER BEHAVIOR

3 credits
Prerequiste 620 Methods of identifying and analyzing final industrial and institutional markets are explored Focus is placed upon theoretical models, research tools, appropriate marketing responses.

655 MARKETING COMMUNICATIONS
3 credits
Prerequisite: 620. Total range of marketing communication tools are examined individually, in the context of the planning, development and implementation of systematic marketing communications programs.

## 680 MARKETING THEORY

3 credits
Prerequisite: 620. Designed to apply those theoretical works from areas of economics, psychology sociology and cultural anthropology which have relevance to a general theory of marketing

3 credits
Prerequisite: a total of 15 Phase II graduate credits. Permits M.B.A. candidate to independently analyze a significant international business problem culminating in a major paper.
697 INDEPENDENT STUDY IN MARKETING
1-3 credits
(May be repeated for a total of three credits)
Focus on special topics of study and research in marketing on an independent basis

## 699 SEMINAR IN MARKETING

3 credits
(May de repeated for a total of six credits)
Prerequisite: a total of 15 Phase II graduate credits. Capstone course permits M.B.A. candrdate to undertake a carefully delineated program of independent study and reading which leads to a finished major paper

## INTERNATIONAL BUSINESS

## 6800:

305 INTERNATIONAL BUSINESS
3 credits
Prerequisites: 3250:201,202. A basic course in international bus iness which can also provide a platform for more specialized international business courses

## 405/505 MULTINATIONAL CORPORATIONS

3 credits
Prerequisite: 305 or permission of instructor. Course provides in-depth understanding of the functions. structures and strategic considerations governing the MNCs through theory and case study analysis

# College of Fine and Applied Arts 

## COOPERATIVE EDUCATION 7000:

301 COOPERATIVE EDUCATION
0 credits
(May be repeated)
For cooperative education students only. Work experience in business, industry, or governmental agency. Comprehensive performance evaluation and written report requifed.

## ART

## 7100:

100 SURVEY OF HISTORY OF ART I
Architecture. sculpture, painting and minor arts from primitive sources through Gothic time Architecture. sculpture, painting and minor aris from primitive sources through Gothic time
period in Europe.

101 SURVEY OF HISTORY OF ART II
4 credils
Prerequisite 100. Architecture, sculpture, painting and minor ants from Renaissance through 1960s, primarily in Western art. Development of photography and its application as art form integrated into artistic styles of 20th Century.

105 UNDERSTANDING ART
3 credits
Uses different societies have found for art and how social and technological fevels of the society have affected the kind of art they make

120 FUNDAMENTALS OF SCULPTURE 3 credits A study of sculpture through lecture and studio work in a variety of media. An exploration and enrichment opportunity for the non-art major. No credit toward major in art.

121 THREE-DIMENSIONAL DESIGN
3 credits
Introduction to meaning of "design" and act of designing in real space. Study of naturally occuring form, structure and process.

130 FUNDAMENTALS OF SCREEN PRINTING
3 credits
A study of screen printing through lecture and studio experiences. An exploration and enrichment opportunity for the non-art major. No credit toward major in art.

131 INTRODUCTION TO DRAWING
3 credits
Freehand drawing experience with an orientation to elements and principles of visual organi zation. Limited media.

132 INSTRUMENT DRAWING
3 creants
Creative uses of mechanical drawing processes for visually descriptive purposes. Proficiency in use of mechanical drawing instruments stressed. Both practical and theoretical drawing styles undertaken.

140 FUNDAMENTALS OF ACRYLIC PAINTING
3 credits
A study of the acrylic painting medium through lecture, demonstration and study activity. An exploration and enrichment opportunity for the non-art major. No credit toward a major in art.

144 TWO-DIMENSIONAL DESIGN
3 credits
Experimentation with systems for purposeful organization of visual elements on a wodimensional surface. Study of visual theory including color theory. Lecture and studio experience.

## 150 FUNDAMENTALS OF CERAMICS

3 credits
A study of ceramics through lecture and studio experiences. An exploration and enrichment opportunity for the non-att major. No credit toward major in art
160 FUNDAMENTALS OF JEWELRY
3 credits
A siudy of jeweiry making through lecture and studio for the non-art major. No credit toward major in art.

170 FUNDAMENTALS OF PHOTOGRAPHY
3 credits
A study of photography through lecture, demonstration ana studio work. An exploration and enrichment opportunity for the non-art major. No credit toward major in art.

180 FUNDAMENTALS OF GRAPHIC DESIGN
3 credits
A study of graphic design through lecture and studio work in a variety of media. An exploration and enrichment opportunity for the non-art major. No credit toward a major in art.

185 COMPUTER GRAPHICS FOR ART I
3 credits
(May be repeated for a total of six credits)
Prerequisites: 131 and 144 or $2240: 124$ or permissien of instructor. Introduction to the use of microcomputers as a creative tool for visual artists and designers.

190 FUNDAMENTALS OF OFF-LOOM WEAVING
3 credits
A study of off-loom weaving through lecture and studio work in a variety of media. An exploration and enricnment opportunity for the rion-art majur. No credit toward a major in art

## 191 DESIGN

2 credits
Basic principles of creative design and color theory. Discussion and studio. No credit towara major of teaching field in art.

213 INTRODUCTION TO LITHOGRAPHY
3 credits
Prerequisites: 131, 144 or 231. Use of lifhographic stone and metal plate as printmaking media. Stone and plate preparation, lithographic drawing materials and techniques, paper registration and printing press covered. Emphasis on aesthetic theory, technique and related history

## 214 INTRODUCTION TO SCREEN PRINTING

3 credits
Prerequisites: 131, 144 or 231. Silk screen printmaking. Theory and use of stencil process, positive and negative block-out techniques, photo stencil, regisiration and printing procedures. Emphasis on aesthetic theory, technique and related history.

## 215 INTRODUCTION TO RELIEF PRINTING

3 credits Prerequisites 131.144 or 231 Printmaking using found objects synthetic materials, as welt as traditional woodcut and linoleum engraving. Emphasis on aesthetc theory. technique and related history.

216 INTRODUCTION TO INTAGLIO PRINTING
3 credits
Prereauisites: 131, 144 or 231. Intaglio printmaking using drypoint engraving, aquatint and soft-ground techniques. Emphasis on aesthetic theory, technique and related history.

221 DESIGN APPLICATIONS
3 credits
Prerequisite: 121. Application of creative designing principles to problems of uthitarian function in human-aesigned and -produced items. May inciude product design/prototype development, furniture design and construction, display design, etc.

222 INTRODUCTION TO SCULPTURE
3 credts
Prerequisite: 121. Exploration of aesthetic factors influencing sculptural statements. Development of proficiency in the use of tools. materials and techniques.

231 DRAWING II
3 credits
Prerequisite: 131. Continuation of 131 . In-depth exploration of wide range of techniques and media. Attention to controlled descriptive drawing and space illusion and their aesthetic applications.

233 LIFE DRAWING
3 credits
Prerequisite: 131. Ferceptual problems in drawing from the life model. Study of skeletal muscular, mechanical nature of human figure and application of this knowledge to the resolution of aesthetic problems.

244 COLOR CONCEPTS
3 credits
Prerequisites. 144 or 286 or 2240.124 and $7100: 131$. Lecture and studio experionce giving information concerning perception of color, additive color phenomena of light. subtractive color phenomena of pigments and dyes, color notation systems and psychological effects of color.

245 INTRODUCTION TO POLYMER ACRYLIC PAINTING
3 credits
Prerequisites: 131, 144. Technical, aesthetic probiems involved in polymer acrylic painting Student pursues, through lecture and experimentation, transparent and opaque uses of this water-based paint.

246 INTRODUCTION TO WATERCOLOR PAINTING 3 credits Prerequisites: 131, 144. Studio course in theory and technique of watercolor painting. Study of Iraditional transparent watercotor methods, and experimentation with less conventional approaches to aqueous media.

247 INTRODUCTION TO OIL PAINTING
3 credits
Prerequisites: 131, 144 Study of technical and aesthetic problems involved in oul panting. A painterly or ientation toward plasticity of form as mediated by color

254 INTRODUCTION TO CERAMICS
3 ciedits
Studio/lecture course exploring potentials of hand-building techniques in both sculptural and functional forms. Clay processing. glaze application and practical kiln tirng.

266 INTRODUCTION TO JEWELRY
3 credits
Studio experience in which student is introduced to properties of metals processes of silversmithing and design and production of jewelry.

268 ENAMELING ON METAL
3 credits
Prerequisite: 266. Studio course in which student investigates inherent aesthetic qualities of color and texture resulting when molten, colored glass is applied to metat surfaces.

275 INTRODUCTION TO PHOTOGRAPHY
3 credis
Lecture, studio and laboratory course. Techniques and aesthetics are studied using both $4 \times 5$ and 35 mm cameras. A 35 mm camera with full manual control is required.

282 ARCHITECTURAL PRESENTATIONS I 3 credt's Prefequisites: 131, 144, or 286, or 2240:124. Study and studio practice in architecturai design and presentation methods, both residential and commercial, and the development of graphic presentations of interior and exterior concepts. Emphasis on beginning drawing and render ing in pencil and pen and ink.

283 DRAWING TECHNIQUES
3 credus
Prerequisites: 131 and 132. Includes advanced drawing and presentation techniques com . monly used in graphic design. Various presentation and design problems will be encountered stressing use of selected drawing methods and processes.

284 INTRODUCTION TO GRAPHIC DESIGN
3 crectits
Prerequisite: 131. Studio experience in use of tools and materials of commercial graphic artist Elementary design problems in commercial graphic design

285 COMPUTER GRAPHICS FOR ART II
3 credits
(May be repeated tor a total of six credits)
Prerequisite: 185 or permission of instructor. A follow up to Computer Graphics for Ait / High resolution imaging in both fine art and commercial applications.

286 COMMERCIAL DESIGN THEORY
3 credits Prerequisites: 284 and 132. Basic course in visual problem solving emphasizing visual movements in, and graphic elements of, single as well as multiple images. Equal emphasis given to existing and created images

288 LETTER FORM AND TYPOGRAPHY
3 creaits Prerequisite: 286. Letter symbois studied in terms of communication and aesthetic awareness. History of letter torms, hand lettering, alptabel design, contemporary type faces and reproduction processes

289 ARCHITECTURAL PRESENTATIONS II
3 credits
Prerequisite: 282. Study and studio practice in architectural graphtcs and methods of archıtecturat delineation. Emphasis on color medium including telt tip pen, color pencil, ink and waterccior.

## 293 INTRODUCTION TO WEAVING

3 credis
Development of visual percoption and rnanual dexterity through on- and off-loom techniques. Experimentation with various materials.

300 ART SINCE 1945
3 credits Prerequisite 101 or permission of instructor. Consideration of significant developments in visual art forms since World War II in architecture. sculpture. printing photography, metal. textle, ceramics, printmaking and graphic desigri.

302 ART IN EUROPE DURING THE 17TH AND 18TH CENTURIES
3 credits Prerequisite: 101 or permission of instructor. Analysis of major European examples of architecture, landscape design, painting, prints and sculpture from beginning of the 17 th Century untif approximately 1850

303 RENAISSANCE ART IN ITALY
3 credits Prerequisite: :01 or permission of instructor. Study of architecture, painting and sculpture of Italy during 13th through 16 th Centuries.

## 304 ART IN EUROPE DURING THE 19TH CENTURY

3 credits Prerequisite 101 or permission of instructor. Study and analysis of major developments in visual arts in Europe trom 1800 to 1900.

## 305 ART FROM 1900 TO 1945

3 credits
Prerequisite: 101 or pormission of instructur. Study of significant qevelopments in visual arts from approximately 1900 to 1945.

## 317 PRINTMAKING II

3 credits
(May be repeated for a total of 12 credits with a different process)
Prerequisite: 213 or 214 or 215 or 216 in the appropriate medium. Continuation of studio work in printmaking with concentration in one process designated by letter as follows: A. Litho graphy. B. Serigraphy, C. Relief, D. Intaglio.

## 321 FIGURATIVE SCULPTURE

3 credits
Prerequisite: 233. Lecture/studio course exploring the use of the human figure as a sculptural subject. Individual interpretation of the figure using various media and technrques.

322 INTERMEDIATE SCULPTURE II
3 credits
(May be repeated for a total of nine creaits)
Prerequisite 222 or permession Continuation of 222 . Addresses more advanced techniques. May incluge fabrication, casting, carving. or assemblage.

331 DRAWING II
3 credits
Prerequisites: $144,231,233$. Continuos concerns of visual organization and technical proficiency with materials begun in 131 and 231, but places more emphasis on use of imagination and development of ideas in drawing.

333 ADVANCED LIFE DRAWING
3 credits
(May be repeated for a total of six credits)
Prerequisites. 231, 233. Studio course in drawing fromhuman figure. Individual interpretation of human figure, using numerous media and crawing techniques. Emphasis on aesthetic of human figure, using numerous media and orawing
structure and formal realization of personal intention.

## 348 PAINTING II

3 credits (May be repeated tor a total of rine credits, but limited to a maxımum of three credits in a given medium
Prerequisites 245. 246 or 247 in the appropriate mecium Continuation of painting with concentration in one medium designated by letter as follows. A Polymer Acrylic, B Watercolor, C. Oil.

## 354 CERAMICS II

3 credits
Prerequisite: 254. Wheel throwing of both functional and sculptural form. Experiments inglaze chemistry and firing experience with both gas and electric kilns. Emphasis on technique. studio procedures and critical evatuation of each student's progress.

## 366 METALSMITHING II

3 credits
(May be repeated for a total of six credits)
Prerequisite: 266 . Contmuation of experiences presented in 266 with further development of skills and expansion of technical knowledge.

## 368 ADVANCED ENAMELING

3 credits
(May be repeated for a total of nine credits)
Prerequisite 268 Continuation of 268 . Development of personal aesthetic values. Advanced techniques with metal tolls. champleve cloisonne. limoge ana grisalie processes.

375 PHOTOGRAPHY II
3 credis
Prerequisite: 275. Projects utilizing photographic media and tools designed to expand student's awareness of visual qualities and order, both in the subiect and photographic image. Student must own or have use of camera with comtrollable shutter, Iens, diaphragm, focus and exposure meter.

## 376 PHOTOGRAPHICS

3 credits
Prerequisite: 375 . Photographic media and equipment used experimentally to produce line conversions, high contrast images, tone separations, shadow reversals and other photoabstractions

380 GRAPHIC VIDEO
3 credils
Prerequisites funior standing in graphic design or mass media-communication and permission of instructor. Study of applied video technologies as related to visual design principles and visual communication concepts in the design and use of graphic imagery.

386 PACKAGING DESIGN
3 credits
Prerequisite 387 or permission of instructor. Synthesis of two- and three-dimensional visual thinking. Research in materials applicable to packaģing of various products. Assignment of projects stressing development of conventional and experimental package design.

387 ADVERTISING LAYOUT DESIGN
3 credits
Prerequisites: 275, 288. Creative exploration of problems in visual merchandising. Projects offer exercises in developing skills from concept through final comprehensive presentation.

## 388 ADVERTISING PRODUCTION AND DESIGN 3 credits

Prerequisites 387 and either $2240: 222$ or 375 . Continuation of 387 . More complex projects with emphasis given to mechanical preparation of finished art for various printing processes.

393 WEAVING II
3 credits
(May be repeated for a total of nine credits)
Prerequisite. 293. Continuation of 293. Development of the techniques of spinning and will weaving Emphasis upon either aestheic considerations or commercial preparation techniques. depending upon the student's intended application.
400/500 ART IN THE UNITED STATES BEFORE WORLD WAR II 3credits Prerequisite 101 or permission of instructor. Consideration of development of art in the United States from earliest evidences to approximately Vorla War II.

401 SPECIAL TOPICS IN HISTORY OF ART
1-3 credits
(May be repeated for credit when a different subject or level of investigation is indicated)
Prerequisites, 100,101 or permission of instructor. Lecture course in which subject is specitied each time course is offered. Focuses upon an att movement. time period, the production of a single artist or a specific art medium.

## 405/505 HISTORY OF ART SYMPOSIUM

1-3 credits
(May be repeated for credit when a different subject is indicated)
Prerequisite: one art history ccurse beyond 100, 1 or permission of instructor Lecture, individual research and evaluation, group discussion related to a specific time period or to an artistic problem.

## 418 ADVANCED PRINTMAKING

3 credits
(May be repeated for a total of 12 credits)
Prerequisites 121, either 245 or 246 or 247,317 in the appropriate process, and 375 . Lectures, demonstrations and experiments with more sophisticated printmaking techniques and applications. Concentration in one process designated by letter as follows. A. Lithography. B. Serigraphy, C. Relief, D. Inlaglio.

## 422 ADVANCED SCULPTURE

3 credits
(May be repeated for a total of nine credits)
Prerequisite. 322. Development of ingividual points of view and sculptural statements
431 DRAWING IV
3 credits
(May be repeated for a total of nine credits)
Prerequisites. 121, 132,331. In-depth study of drawing for advanced art student. Emphasis on interpretive and inventive drawing using widest possible range of media and techniques.

## 449 ADVANCED PAINTING

3 credits
(May De repeated for a total of nine credits)
Prerequisites 121.231, 233.348in the appropriate medium. Advanced-level painting course. Opportunly to explore polymer acrylic. oil or watercolor painting techniques. and experiment with aesthetics of color, form and style Concentration inone medium designated by letter as follows A Polymer Acrylic, B. Watercolor, C. Oil.

## 454 ADVANCED CERAMICS

3 credits
(May be repeated for a total of 15 credits)
Prerequisite: 354. Emphasis on retinement of technique toward personal aesthetic statement in preparation for professional or private studio production. Student may choose a generai survey of subject matter or a more concentrated area of study.

455 FIBER, CLAY AND METAL SEMINAR
2 credits
Prerequisite: permission of instructor. Open formal seminar designed to explore ideas in clay, fiber and metal art through reading, discussion and production.

## 466 ADVANCED METALSMITHING

3 credits
(May be repeated for a total of 12 credits)
Prerequisites: 283,366. Investigation in depth of aesthetic and technical problems of metalsmithing Student works on individual projects under guidance from instructor.

## 475 ADVANCED PHOTOGRAPHY

3 credits
(May be repeated for a total of 12 credits)
Prerequisites: 233,376 and 3650 .137. Photographic media, light and photographic equipment manipulated experimentally to produce creative graphic images. Student works under guidance of instructor on advanced individual projects.

480 ADVANCED GRAPHIC DESIGN
3 credils
(May be repeated for a total of nine credits)
Prerequisite: 388 or permission of instructor. Student works on advanced-level individual projects under supervision of instructor.

## 482 CORPORATE IDENTITY AND GRAPHIC SYSTEMS

3 credits
Prerequisite 388 . Advanced projects in corporate identity, graphic systems analysis, design. Problem solving for these specific areas of graphic design within mechanical limitations of art reproduction.

484 ILLUSTRATION
3 credils
Prerequisite: 283 or permission of instructor. Application of painting and drawing skills and aesthetic sensitivity to specific commercial illustration and editorial art assignments.

## 485 ADVANCED ILLUSTRATION

3 credits
(May be repeated for a total of nine credits)
Prerequisite: 484 or permission of instructor. Advanced projects designed to tune student's personal aesthetic to communicative imagery. A more individual approach to design. Drawing and painting emphasized as is experimentation with multimedia.

488 PUBLICATION DESIGN
3 credits
Prerequisite: 482 Advanced research, design of promotional brochures, annual reports and other multipageo communicational print. Emphasis on total design from concept to cameraready art. Individual approach to communicative graphics stressed. Portfolio development.

489 SPECIAL TOPICS IN STUDIO ART
3 credils
(May be repeated tor credit when a different subject or level of investigation is indicated)
Prerequisite: advanced standing or permission of instructor Group investigation of a particular phase of art not offered by other courses.

## 490/590 WORKSHOPIN ART

$1-4$ creails
(May be repeated for credit when a different subject or level of investigation is indicated - 490 to maximum of eight credits; 590 to maximum of 12 credits)
Prerequisite: advanced standing in art or permission of instructor. Group investigation of a particular phase of art not offered by other courses in curriculum.
496 ART INTERNSHIP/PROFESSIONAL EXPERIENCE
1-12 credits
(Repeatable for credit. No more than 12 credits of internship may apply toward the elective requirement for completion of any art department major.)
Prerequistes: junior level in major program and permission of Internship Director. In-depth protessional training attording the intern on-the-job experience in selected areas of specialization

## 497/597 INDEPENDENT STUDIES

1.3 credits
(May De repeated)
Prerequisites for art majors: advanced standing in area chosen and permission of instructor. Prerequisite for non-ant majors: permission of instructor. Investigation in depth of aesthetio and technical problems within a studio-selected area of special ization. Student must present in writing a proposed study plan and time schedule for instructor approval.
498/598 SPECIAL PROBLEMS IN HISTORY OF ART
$1-3$ credits
(May be repeated for credit when a different subject of level of investigation is indicated) Prerequisites: 20 credits in art history ano permission of instructor and department head. Individual research in art history centered around limited topic. such as specific time period, history of specific techniques. a single artist or movement in art history. No more than 10 credits will be counted toward major.

## 499 HONORS IN ART

3 credits
(May be repeated for a total of nine credits)
To be used for research in the honors program established by student and his adviser(s).

## HOME ECONOMICS AND FAMILY ECOLOGY

## 7400:

121 TEXTILES
3 credits
Basic study of natural and man-made fibers. Emphasis on physical properties, selection and care. Attention given to design and manufacture of textiles. Lecture.
123 CLOTHING CONSTRUCTION
3 credits
Basic theory and methods of garment construction including experience with pattern alterations, diverse fabrics and special construction tecinniques. Two hours lecture, four hours laboratory.
132 EARLY CHILDHOOD NUTRITION
2 credits
Emphasis on nutrition as component of Early Childhood programs. Nutrition principles discussed in relation to self and young children. Prenatal and infiant nutrition studied. Food as learning experience, menu planning, purchasing, sanitation. tood labeling, storage and parent Irvolvement incluced. For Family and Child Development Option, and an educationai technology student.
133 NUTRITION FUNDAMENTALS
3 credits
Study of funcamental concepts of nutrition: emphasis on nutrients and requirements at different stages of the individual's life cycle

141 FOOD FOR THE FAMILY
3 credits
Application of nutritionto meal planning: problems in selecting. budgeting and preparing food; meal service.

147 HOME ECONOMICS SURVEY
1 creait
Survey of history and development of home economics with emphasis on professional and career opportunities.

158 INTRODUCTION TO INTERIOR DESIGN AND FURNISHINGS
3 credits Introduction to home furnishings invoiving topics such as furniture styles, utilization of space, color, lighting. wallcoverings, window treatments, floor coverings, furniture arrangement/ selection and accessorizing. Lecture/laboratory.

159 FAMILY HOUSING
3 credits
Study of housing allernatives related to stages in the family life cycle. Also overview of physical aspects of house construction financing, insulation, heating/cooling systems, wiring and kitchen design. Lecture/laboratory.

201 RELATIONAL PATTERNS IN MARRIAGE AND FAMILY
3 credits
Study of familial interaction in various life styles with emphasis on self-concept, changing roles, developmental tasks, family life cycles and socioeconomic and culturai influence upon individual and family.

204 SURVEY OF APPLIED HOME ECONOMICS
1 credit IN THE COMMUNITY
Directed study and observation of ongoing community and business programs in home economics and family ecology related areas including housing, home management, tamily financial management, food and nutrition, clothing, child development, parent effectiveness and handicapping conditions through family life cycle. Weekly two-hour local tour in addition to class sessions.

## 218 FAMILY HEALTH AND HOME NURSING

2 credits Overview of strategies for generation of positive physical. mental and emotional health across individual and family life cycles. Emphasis on preventative stralegies as well as home-care procedures.

## 245 BASIC FOOD THEORY AND APPLICATION

5 credits Prerequisites: 133, 3150:129 or permission of instructor Scientific and aesthetic principles involved in the selection, storage and preparation of common foods to maintain the highest nutritional quality and palatability.

255 FATHERHOOD: THE PARENT ROLE
2 creats
Overview of deveiopment of stereotyped behavior as it affects the father role and his interactive relationship with other family members. Directives for family life education, research, theory and sociat policy.

265 CHILD DEVELOPMENT
3 credits
Physical, social mental and emotional development of child from prenatal through five. Observation in child care and preschool centers.

275 PLAY AND CREATIVE EXPRESSION ACTIVIties
4 credits
Prerequisite. 265. Importance of play in child's social, emotional. intellectual and physical growth. Encouragement of creativity in adults and children through planned experiences that provide for individual expression.

290 ADMINISTRATION OF CHILD-CARE CENTERS
3 credits
Prerequisites 265,275 or permission of instructor. Study of principles, concepts and procedures involved in working with children in preschool programs. Curriculum innovation and implementation, parent involvement. observation and recording of children's progress.

295 DIRECT EXPERIENCES IN THE HOSPITAL
1 credit
Prerequisite: permission of adviser. Individual learning experences for students with patients. their families and the hospital personnel in various hospital settings under the direction of hospital and University staft

301 CONSUMER EDUCATION
3 credits
Study of consumer needs, concerns and problems as related to individual consumer. to consumers in the market econcmy and to the complex society in which tamilies function.

302 CONSUMERS OF SERVICES
3 credits
A study of the services sector of the economy. Emphasis is on a framework for studying all
service providers and in developing criteria for evaluating service providers.
303 CHILDREN AS CONSUMERS 3 credits
Development of consumer education concepts for children grades K-8. Emphasis includes research data on children in the consumer role.

305 ADVANCED CONSTRUCTION AND TAILORING
3 credits
Prerequisite: 123 . Advanced theory and principles in construction of couture garment Construction of coat or suit jacket utiizing custom tailoring techniques. Two hours lecture, four hours laboratory

310 FOOD SYSTEMS MANAGEMENT I
5 credits
Prerequis tes: 245 and 6200:201 or 2420:211. Basic theoretical concepts in the management of dietetic food service systems and the practical application of principles and procedures in quantity food production and service.

311 CONTEMPORARY NEEDLE ARTS
3 credits
Use of appropriate textiles, yams and needles in creation of various items for purposes of enhancing leisure time or as earning skills. Lecture/laboratory.

315 FOOD SYSTEMS MANAGEMENT I - CLINICAL
2 credits
Prerequisite: 245; corequisite: 310. Development of quantity food preparation and supervisory
skills in community agencies; identification of functions and resources involved in the management of food service systems.

316 SCIENCE OF NUTRITION
4 credits
Prerequisites: 133, 3100:207, 3150:203. In-depth characterization of composition. metabo-
lism. physiological functions and interrelationships of nutrients. Analysis and interpretation of current literature assessment of nutrition counseling techniques.

317 HISTORIC COSTUME
3 credits
Chronological study of costume from ancient to modern times as source of inspiration for contemporary dress and the theatre with consideration of cultural forces that affected the development. Lecture.

328 NUTRITION IN MEDICAL SCIENCE I
4 credits
Prerequisite: 316 . Analysis of therapeutic health-care concepts Consideration of nutritionai implications of pathological condilions: construction of diets for specitic disorders.

329 NUTRITION IN MEDICAL SCIENCE I - CLINICAL
2 credits
Prerequisites: 316 . CUP student only; corequisite: 328 . Clinical experiences in area hospitals
for application of principles of nutitional care learned in 328.

331 HISTORY OF TEXTILES AND FURNISHINGS
3 credits
An in-depth study of textiles and furnishings which focuses on the social, economic, and political effects of technological and aesthetic developments from antiquity through the 20 th Century

339 THE FASHION INDUSTRY
3 credits
Prerequisites: 121. sophomore standing. Overview of fashion industry including growth. promotion and impact of cultural influences. Review of international and American fashion scene Lecture/discussion.

340 MEAL SERVICE
2 credits
Prerequisites 245.316 or 133 or 141 . Management of resources in relation to marketing, meal preparation and service: appropriate forms of service for various types of meals. Preparation of foods from various parts of the world.

## 359 TAILORING FOR MEN

3 credits
Prerequisite 123 or permission. Fundamentals of tailoring for men. Construction of a suit jackel and slacks. Emphasis on alterations, construction techniques and fabric selection. Analysis of current market trends and men's wear designers. Prior experience with clothing construction necessary.

## 360 PARENT-CHILD RELATIONS

3 credits
Prerequisite: 265. The study of interactive parent-child relations from infancy through adulthood and the internal and environmental forces which impact upon family dynamics.

362 HOME MANAGEMENT THEORY
$3 \mathrm{cred} / \mathrm{s}$
Introduction to management theories, processes and principles as applied to utilization of human and material resources in promotion of individual and family well-being

380 INTRODUCTION TO COMMUNITY NUTRITION
1 credif
Orientation to the philosophy, objectives and structure of government and voluntary agencies and organizations which have nutrition components. Clinical observation scheduled.

390 FAMILY RELATIONSHIPS IN MIDDLE AND LATER YEARS
2 credits
Exploration of family and individual development during midale and later years of life. Emphases on issues re:ated to intimacy, economics, social policies, psychological and biological changes.

395 COMMUNITY INVOLVEMENT IN HOME ECONOMICS
1-3 credits
Development of managerial expertise through experience. Selected participation sites in business and industry, hospitals, community agencies and with individuai families with special managerial problems

401/501 FAMILY-LIFE PATTERNS IN THE ECONOMICALLY
2 credits DEPRIVED HOME
Study of farmily life orientation and life-style patterns among economically ceprived with emphasis on impact or socioeconomic and psychological deprivation on tamily members throughout family life span.

403/503 ADVANCED FOOD PREPARATION
3 credits
Prerequisite: 141 or 245 or permission of instructor. Study of advanced techniques of food preparation introcuction to and interpretation of classic and foreign cuisines. Emphasis on incividualized experience skill development and evaluation of procedures and results.

404/504 ADOLESCENCE IN THE FAMILY CONTEXT
3 credits
Prerequisites: 201. 265 or permission of instructor. The influences of adolescent behavior on the family and the influence of the family environment on adolescent development.

406/506 FAMILY RESOURCE MANAGEMENT
3 credits
Management of family resources as families function as consuming units in today's economy. Exposure to curfent consumer education resources including sources of consumer intormation and methods of utilizing these resources.

## 412 INSTITUTIONAL MANAGEMENT

3 credils
Organization and management in administration of food service systems; problems in administration of food service systems; problems in control of labor. time and cost. Field experience in food production

## 413 FOOD SYSTEMS MANAGEMENT I

3 credils
Prerequisite: 310 : corequisite: 414 . Advanced concepts in management of detetic service systems relating to achievement of nutritional care goals.

414 FOOD SYSTEMS MANAGEMENT II - CLINICAL
3 credits (credit/noncredit) Prerequisite: 315: corequisite: 413 Application of advanced food systems management concepts in community detetic rood service tacilities: preparation for entry-level staff positions as administrative cietitians; clinical experience for 24 hours per week tor 10 weeks of semester.

## 415 HOUSEHOLD EQUIPMENT

2 credits
Selection, use and care of modern household equipment. Survey of commercial equipment used in home economics related protessions.

419 CLOTHING COMMUNICATION
3 credifs
Study of cultural, social, psychological and economic aspects of clothing Emphasis on expression and use of clothing in relation to self, sociely and culture. Lecture/discussion.

## 420/520 EXPERIMENTAL FOODS

3 credits
Prerequisites: 245, 3150:130 or permission of instructor. Theory and methods used in the experimental study of toods. Application of analytical methods to sensory and instrumental evaluation of food quality. Individual research emphasized.

## 421 SPECIAL PROBLEMS IN HOME ECONOMICS

1-3 credits
Additional study or apprentice experience in specialized field or preparation: group and individual experimentation.

422 ADVANCED HOME MANAGEMENT
3 credits
Theoretical and practical experiences utilized in study of management processes and principles as applied to families, Management of human and material resources and decisionmaking processes emphasized.

424/524 NUTRITION IN THE LIFE CYCLE
3 credits
Prerequisite: 316 or permission of instructor. Study of the physiological basis for mutritional requirements; interrelating factors which affect growth. development. maturation and nutritional status from conception through the eiderly years.

426 THERAPEUTIC NUTRITION
4 credits
Prerequisites: $316,3100: 130,3150203$ or permission. Application of principles of normal nutrition to diet in disease. Effects of pathological conditions on planning of modified diets to meet nutritional needs. Fractice in writing therapeutic diets and interviewing hospitalized patients; limited experience in specialized clinics.

428 NUTRITION IN MEDICAL SCIENCE II
5 credits
Prerequisite: 328 . Overview of major areas of diet therapy not covered
429 NUTRITION IN MEDICAL SCIENCE II - CLINICAL 3 credits (credit/noncredii) Prerequisites: 329. CUP students only, corequisite: 428 . Clinical experience in hospitals applying of principles of nutritional care learned in 428.

430 COMPUTER-ASSISTED FOOD SERVICE MANAGEMENT 3 credits
Use of computer programs in application of management concepts for food service systems.

## 433 INTERIOR DESIGN I: RESIDENTIAL

3 credits
Prerequisite: 7100:282. An in-depth study of the interior design profession and its complexi-
ties, with emphasis on developing skills necessary to function effectively as a residential designer.

## 434 INTERIOR DESIGN II: CONTRACT

3 credits
Prerequisite: 433 . Continuation of Interior Design I with an emphasis on both residential interior design and commercial interior design, and the development of the basic skills necessary to function effectively as an interior designer.

435 PRINCIPLES AND PRACTICES OF INTERIOR DESIGN
3 credits
Study of the business aspects of interior design: business procedures, manufacturing of home furnishings and principles and psychology of marketing home furnishings.

440/540 FAMILY CRISIS
3 credits
Study of family stress and crisis including internal and external variables and their influence on degree of disorganization, coping and recovery. Includes theory, research and application dimensions.

442/542 HUMAN SEXUALITY
3 credits
Prerequisite: 201 or permission of instructor. Introduction to problems and values. Emphasis is on the role of values in intimate relationships, the diverse dimensions of sexual responsibility.

445/545 PUBLIC POLICY AND THE AMERICAN FAMILY
3 credits
How legislation in such areas as housing, clothing. consumer affairs, family formation and dissolution, resource conservation, child development and health care affects and, in some cases, determines the nature, structure and quality of the family as a social institution.

446/546 CULTURE, ETHNICITY AND THE FAMILY
3 credits
Study of the role of culture and ethnicity in adaptation of the family system to environment. Program applications considered

447 CRITICAL ISSUES IN HOME ECONOMICS
1 credil
Prerequisites: 147 and senior standing. Consideration of home economics as a protession and its impact on the quality of lite of individuals, families and their environments. Analysis of challenges facing the profession and all home economists
/548 BEFORE AND AFTER SCHOOL CHILD CARE
Study of the development, implementation and evaluation of school-age child-care programs Study of the development, implementation and eval
for before and after school and vacation periods.

## 449 FLAT PATTERN DESIGN

3 credits
Prerequisite: 305 Theory and experience in women's clothing design using tiat pattern techniques. Two hour lecture, four hour laboratory.

450 DEMONSTRATION TECHNIQUES
2 credits
Prerequisite: major only. Provides practical experience in organization and presentation of demonstrations. Emphasis on competencies in coordination of materials. motion and speech in presentation.

451/551 CHILD IN THE HOSPITAL
4 credits
Prerequisite: 265, comparable course or permission of instructor. Seminar dealing with special needs and problems of hospitalized/ill child and family. Literature related to effects, separation, illness and stress. Examination of strategies for coping.

455/555 PRACTICUM: ESTABLISHING AND SUPERVISING
3 credits A CHILD-LIFE PROGRAM
Prerequisite: $451 / 551$. Explores procedures for implementing and setting up child-life programs; critical analysis of currently functioning program.

459 MACHINE STITCHERY
3 credits
Understanding the utilization of the sewing machine as a creative tool. Emphasis on developing the artistic and technical skills necessary for doing embroidery, applique, orawing, quilling patchwork, cutwork and other related textile arts by machine.

460/560 ORGANIZATION AND SUPERVISION OF
3 credits CHILD-CARE CENTERS
Theory. principles and procedures involved in establishing and operating centers for infants todders, preschool and school-age children.

Prerequisite 316. Major concerns at international national and local levels Emphasis on community assessment, program planning, implementation, evaluation, legislation and rationales for nutrition services

481 COMMUNITY NUTRITION I - CLINICAL
1 credit (credtinoncredit) Frerequisite: CUP students oniy: corequisite: 480 . Fiela placement in area agencies offering nutriton services. Study of agencies, goals, organization and philosophy of nutritional care.

## 482/582 COMMUNITY NUTRITION II

3 credits
Activities of the communtly nutritionist Emphasis on controversies, cultural differences eoucatınal approaches, grantsmianshop. marketing and worming with the media.

483 COMMUNITY NUTRITION II - CLINICAL
1 credit
Prerequisite: CUP student only, corequisite: 482 Field placernent in area agencies offering nutrition services. Study of agencies goals. organizatom and philosophy of nutritional care.

## 484/584 ORIENTATION TO THE HOSPITAL SETTING

2 credits
Prerequisite: 265 , comparable course or permission of instructor. Focuses on hospital as a major social institution: introduces procedures and functions of the hospital; roles played by various hospital personnel plus cursory knowledge of medical terminology. common childhooc diseases. illnesses and injuries.

## 485/585 SEMINAR IN HOME ECONOMICS

1-3 credits
Prerequiste: permission of instructor. Exploration and evaluation of current developments in selected areas.

## 486 STAFF RELIEF: DIETETICS

1 credit (credil/noncredit)
Prerequisites: 414, CUP senior only. Opportunity to function as an entry-level dietitian in area of administrative, therapeutic or community dietetics. The graduating senior CUP student spends 1 wo 40 -hour weeks in a mutually agreeable agency primarily under direction of staff gietitians or coordinators

490/590 WORKSHOP IN HOME ECONOMICS AND
1-3 credits FAMILY ECOLOGY
Prerequisitc: at least junior standing. Investigation on current issue or topic in selected areas of home economics and tamily ecology. May be on ott-campus study tour or an on-campus full-time group meeting

495 INTERNSHIP: GUIDED EXPERIENCES IN
8 credits
CHILD-LIFE PROGRAM
8 credis
Prerequisite: 455. A field experience in a child-lite program as a child-life specialist at Children's Hospital-Medical Center of Akron.

## 496/596 PARENTING SKILLS

3 credits
Prerequiste: 265. comparable course or permission of instructor Reviews and analyzes
various chlld-rearing techniques with major emphasis on practical application.
497 INTERNSHIP IN HOME ECONOMICS AND 2.6 credits
FAMILY ECOLOGY
Frerequisite: permission of instructor. In-depth field experience in business, industry or community agencies related to student's area of specialization.

499 SENIOR HONORS PROJECT IN HOME ECONOMICS
1-3 credits
AND FAMILY ECOLOGY
(May be repeated for a total of six credits)
Frerequisites: senior standing in Honors Program and approval of honors preceptor. Individual study supervised by adviser Student and preceptor develop goals, objectives and methodology.

## Graduate Courses

600 EVALUATION OF HOME ECONOMICS LITERATURE 3 credits
A study of selected literature with emphasis upon evaluation and interpretation strategies.
601 FAMILY IN TRANSITION 2 credits
Overview of family in histoncal perspective. Effects of social change upon family and emerging relational patterns. Review of theory, research and educational strategies.

602 FAMILY IN LIFE-SPAN PERSPECTIVE
2 credits
Study of individual and tamily development across lite span. Emphasis on management of avallable resources. acjustment patterns and interpersonal competence Implications for education. theory, research and social poiicy.

603 FAMILY: MIDDLE AND LATER YEARS
2 credits
Study of family pattems and problems curing midole and later years of life with emphasis on psychological anc biological changes and economic and sociai aqequacy. Research and trenas in gerontology.

605 DEVELOPMENTAL PARENT-CHILD INTERACTIONS
3 credits
Prerequisite: 265 or equivalent or permission. Study of reciprocal interactions formed between parent and chitd from birth to aculthood Consiceration of cross-cultural studies. historical and societat influences and varying family characteristics and structures.

607 FAMILY DYNAMICS
3 credits
Development of techniques in home economics programs utilizing role theory. exchange theory and systems theory as understood through the study of the family acrass the life cycle.

610 CHILD DEVELOPMENT THEORIES
3 credits
A comparative study of developmental theories of the child within the family context. Application of the theories 10 child rearing in the family will be emphasized.

## 616 INFANT AND CHILD NUTRITION

2 credits
Emphasizes current rescarch trenos in physiology of infant and young chita in reiation to nutritonal requirements and feeding practices

624 ADVANCED HUMAN NUTRITION I
3 credits
Prerequisite: 316 or equivalent. In-depth stuay of human nutrition emphas:zirg metabolism. physiological functions, and interrelationships of carbohydrate, protein and lipids and the ootorminants of human energy requirements.

625 ADVANCED HUMAN NUTRITION II
3 credits
Prerequisite: 624 or oquivalent in-depth stuay of human nutrition with ar emphasis in the utilization, physiological functions and interrelationships of vitamins and minerals.

640 NUTRITION IN DIMINISHED HEALTH
3 credits
Prerequisite: 428 or permission. An examination of concepts re fatea to nutritional intervention associated with selecteo pathophysiological and cob.itat:ng concitions throughout the life cycle. Emphasis on current literature.

651 FAMILY AND CONSUMER LAW
3 credits
Study of laws which control ana protect incividuals within family. Emphasis on current trends. legal rulings. Course taught by atlormey

660 PROGRAMMING FOR CHILD-CARE CENTERS
2 credits
Principles, procedures involved in program development for child-care centers. Examination of current programs available for preschool children. Impications. literary analysis, application, evaluation stressed.

665 DEVELOPMENT IN INFANCY AND EARLY CHILDHOOD
3 credts
Analysis of research and theoretical frameworks regarding infant and chilo development from conception through age five Implications for guidance anc education.
675 CONCEPTUAL FRAMEWORKS IN FAMILY ECOLOGY
3 credits
The ecosystem will be used as a model for viewing the family as a unit and the relation between familial groups and the environment.

695 INTERNSHIP IN FAMILY AND CHILD DEVELOPMENT
5 creats
Prerequisite: permission of adviser Communtty basea experience cesignea to supplement classroom studies A student works with agency personnel and clicntele in programs de. signed to meet needs of children and/or familios.

697 INDIVIDUAL INVESTIGATION IN FAMILY DEVELOPMENT
1-3 credits
Prerequisite permission of graduate adviser only. Individua! pursuit and analys! in specitic area of student's interest and design under direction of faculty adviser.
698 INDIVIDUAL INVESTIGATION OF CHILD DEVELOPMENT $1-3$ credits
Prerequisite: permission of graduate adviser only. Indivigual pursuit and analysis in specific, area of student's interest and design under direction of faculty acviser.

699 THESIS
5 credits
Prerequisite: permission of adviser. Preparation of thesis pertaining to a selected research
project in area of tamily or child development.

## MUSIC

## 7500:

100 FUNDAMENTALS OF MUSIC
2 creaths
Introduction of basic notation and development of functional music reading and keyboard skills. Conducted in electronic keyboard laboratory with computer-assisted instruction available. For non-music majors only. with tittle or no previous musical training

101 INTRODUCTION TO MUSIC THEORY
2 credits
Designed for prospective music major to correct deficiencics in theory background as determined through department placement testing. Incluoes classroom instruction and computer-assisted instruction in basic notation. scales meler, key signatures ear training and basic familiarity with the keyboard. Credit not applicable toward music degree.

103 TRENDS IN JAZZ
2 crealis
An overview of the first 100 years of jazz music with emphasis on major figures and styles central to the development of jazz. This course is specifically designec for the non-music major.

104 CLASS PIANO I
2 credits
Preiequisite: 101 or permission of instructor. Designed for student with no previous keyboard experience to learn rudimentary keyboard skills such as playing scales. chords. arpeggios and melocic patterns as well as simple music.

## 105 CLASS PIANO II

2 credts
Prerequisite: 104 or permission of instructor Continuation of work begurn in 104
107 CLASS VOICE I
2 credus
Prerequisite: 101 or permission of instructor Minimum mernorization ana solo singing requirement seven songs. Voice literature emphasis. folk songs, ballads, spirituals, sacrod songs and easy art songs in English.

108 CLASS VOICE II
2 credits
Prerequisite: 107. Minimum merriorization and solo singing requiroment. eght songs. Vocal literature emphasis: old Italian and English songs, art songs in English or foreign language if student is conversant with the language.

110 CLASS GUITAR FOR NON-MUSIC MAJORS
1 credt
Prerequisite. permission of instructor Introduction to the guitar its repertore ano tochniques Basic classical techniques and music reading, strums finger-picking. accompanment patterns, blues slyles will be covered

## 151,2 THEORY I, II

3 credits each
Sequential. Prerequisite: 101 or permission of instructor. Study and creative use of elements of music investigation of music of major composers of classic and romanticeras introduction to earlier musical practices and contemporary music.

154,5 MUSIC LITERATURE I, II
2 credits each
Sequential. Familiarization with large body of musical material from all branches of music writing, vocai. instrumental, symphonic and choral music literature. Special attention given to style, form and structural procedures of principal composers

157 STUDENT RECITAL
Ocredits
Required of all music majors until minimum requirement is met. Forum for student and facutly members providing lectures, recitals and opportunity for practice of various skills necessary for successful music performance.

161 AURAL/ORAL MUSIC READING SKILLS
4 credits
Prerequisite: 101 or passing placement test or permission of instructor. Competency-based, supervised drill in the vocal mastery of scales, modes, intervals, broken chords, melodies. rhythms, meter, tempo, modutation Computer-based education programs in ear training and error detection.

173 NOTATION AND CALLIGRAPHY
2 credils
Prerequisite: 101 . Techniques involved in writing music symbois and their correct placement on staff paper. Included are specific techniques in orchestral, choral, jazz, popular notation.

205 MARCHING BAND ORGANIZATION AND TECHNIQUE
1 credit
Prerequisite: 104. Alt aspects of band on the field discussed. Student learns to write complete half-time show, administer marching band program.

210 JAZZ IMPROVISATION I
2 credits
Prerequisites: 262 and permission of instructor. Study and application of principles of jazz improvisation as they relate the chord-scale structures, motif development and style.

211 JAZZ IMPROVISATION II
2 credits
Prerequisite: 210 . Advanced study in principles of jazz composition.
212 THE MUSIC INDUSTRY: A SURVEY OF PRACTICES
2 credits AND OPPORTUNITIES
A study of current practices affecting the professional musician and a survey of career opportunities relating to the music industry.

251,2 THEORY III, IV
3 credits each
Sequential. Prerequisite: 152 Renaissance vocal counterpoint; Baroque instrumental counterpont; form and analysis of music of all eras.

254,5 STRING INSTRUMENT TECHNIQUES I, II
2 credits each
Sequential. Fundamentals of technique. tone production, methods and materials pertaining to violin, viola, cello and string bass: heterogeneous string ensemble activities.

261,2 KEYBOARD HARMONY I, II
2 credits each
Sequential. Prerequisites: 105 or equivalency and 152. Essentials of basic theory and harmony practically applied at keyboard; accompaniment, improvisation, transposition, modulation and sight-reading

263 SERVICE PLAYING FOR ORGANISTS
2 credits
Prerequisites: 152 and 261. Practical course in basic keyboard skills needed by organist to play for religious services in various denominations. Hymn playing, anthem accompaniment and simple improvisation.

271 PIANO PEDAGOGY AND LITERATURE I
2 credits
Prerequisite. permission of instructor. Examination of musical content and pedagogical orientation of beginning piano material to include appropriate teaching works, methods and ensemble pieces from a variety of historical periods.

272 PIANO PEDAGOGY AND LITERATURE II
2 credis
Prerequisite: $7520: 125$ or permission of the instructor. A survey of piano literature at all leveis of difficulty, with practical emphasis on its use for teaching.
265,6 DICTION FOR SINGERS I, II
2 crediis each
Sequential. Prerequisite: permission. Study of diction of the four most used languages (Italian, German, French and English) in vocal performance and international phonetic alphabet. Designed for student who expects to function as vocal performers and/or choral and studio voice teachers.

301 MUSIC APPRECIATION: MUSIC BEFORE 1800
2 credits
302 MUSIC APPRECIATION: 19TH AND
2 credits 20TH CENTURIES
301 and 302 designed as electives for non-music major to provide introductory survey of ant of music.

306 MARCHING BAND ARRANGING
2 credis
Prerequisite 152 or permission of instructor. A student arranges music for marching band including style, sound projection. Includes discussion of scoring for concert band as related to marching band

307 TECHNIQUES OF STAGE BAND PERFORMANCE
2 credits AND DIRECTION
Prerequisite: permission of instructor. Frovides for basic experiences relating to conducting, rehearsal techniques, improvisation, performance, repertoire and other matters pertaining to organization and direction of stage bands.

308 THE HISTORY AND LITERATURE OF JAZZ 3 credits Prerequisite permission of instructor Study of origins of jazz music, its development and influence on today's culture. Investigates evolution of musical instruments as they pertain to jazz music, the artists who pertorm on 1hem, and their music through live and recorded listening experiences.

309 JAZZ KEYBOARD TECHNIQUES
2 credits
Prerequisite: 262. Study of and familiarization with basic jazz keyboaro techniques as they relate to contemporary jazz harmony and theory.

## 310 JAZZ IMPROVISATION III

2 credits
Prerequisite: 211. Advanced study in the principles of jazz improvisation.
311 JAZZ IMPROVISATION IV
2 credits
Prerequisite: 310. Advanced study in the principles of jazz improvisation.
325 RESEARCH IN MUSIC
2 credits
Prerequisites: 155, 161,252, 262. Techniques of basic research methods; examination of selected music materials; field trips to specialized collections.

## 340 GENERAL MUSIC

3 credits
(May be repeated for a total of six credits)
Prerequisites: $155,161,252,262$. Introductory and devetopmental sequence of studies related to skills, techniques and materials appropriate to non-public performance music classes in grades K-12. Clinical and field-based experiences.

342 WIND-PERCUSSION INSTRUMENT TECHNIQUES
3 credits
(May be repeated for a total of six credits)
Prerequisites: 155,161,252,262. Basictechniques in teaching woodwind, orass and percussion instruments. Development of knowledge and skills on band instruments applied to ensemble, large group and individualized instruction. Clinical and fieid-based experiences.
351,2 MUSIC HISTORY I, $\mathbf{I I}$
3 credits each
Sequential. Prerequisites: 152, 155. Development of music from ancient to modern times; scores, recordings and live performances as illustrative materiak.

353 ELECTRONIC MUSIC
3 credits
(May be repeated for a total of six credits)
Prerequisite: 252. Theory of electronically-generated sound and practice of electronic music composition. Emphasis is on developing practical understanding of the components of the voltage-controlled studio.

356 MUSIC IN THE TEACHING OF RETARDED AND 2 credits HANDICAPPED PEOPLE
Prerequisite: permission of instructor. Study of application of music to needs of the special person in public/private schoot, clinical settings.

358 FUNCTIONAL CLASS GUITAR
2 credits
Prerequisite: knowledge of music rudiments and permission of instructor. Provides student in music education with basic rudiments of guitar playing as related to use in music classrooms.

## 361 CONDUCTING

2 credits
Prerequisite: 152 Study and practice of conducting techniques; beat patterns, fermatas. tempo and dynamic change, attacks and releases, score reading.

362 CHORAL ARRANGING
2 credits
Prerequisites: 252,352 or permission of instructor. Designed to provide student with an understanding of principles of choral arranging and composition in all idioms and styles.

365 SONG LITERATURE
2 credits
Prerequisite: 252 or permission. Exposes student systematically to vocal literature, aiding in their ability to distinguish between various periods and styles of music through recordings and class participation.

368 GUITAR STYLES
2 credits
Prerequisite: 200 performance leve or permission of instructor. Techniques involved in performing musical styies other than those in classical guitar. Included are plectrum styles such as bluegrass, country and rock, as well as flamenco. folk, popular and jazz

369 HISTORY AND LITERATURE OF THE GUITAR AND LUTE
2 credits
Prerequisite: permission of instructor. Study of plucked, fretted, string instruments from the 14th Century to the present: construction, notation, literature and performance practices. Modern editions and fecordings evaluated.

371 ANALYTICAL TECHNIQUES
2 credits
Prerequisite: 252. Techniques for analysis of musical score from all eras of Western music history, with major emphasis on works of Baroque. Classical and Romantic periods.
372 TECHNIQUES FOR THE ANALYSIS OF 2 credits 20TH CENTURY MUSIC
Prerequisite: 252. Techniques for the anatysis of musical scores from the 20 th Century. Required of a theory-composition major.

407 JAZZ ARRANGING AND SCORING
2 credits
Prerequisite: 454 or permission of instructor. Study of jazz instrumentation from small groups to large ensembles.

451/551 INTRODUCTION TO MUSICOLOGY
2 credits
Prerequisite: 352. Comparative musicology; acoustics; psychology ana physiology of music; aesthetics; theory of music theory; historical musicology
452 COMPOSITION 2 credits
Prerequisite: 252 or permission of instructor Study and creative use of major styles and idioms of musical composition; emphasis on 20th-Century techniques.

453/553 MUSIC SOFTWARE SURVEY AND USE
2 credits
Prerequisite: 152 or permission of instructor. A survey and evaluation of available software in the various forms of musical instruction. Students will design a course suitable for submission to a programmer.

454 ORCHESTRATION
2 credits
Prerequisite: 252. Theory of instrumentation ranging from small ensembles to fulf band and orchestras.

455/555 ADVANCED CONDUCTING: INSTRUMENTAL
2 credits
Prerequisites: 361 and 454. Baton techniques and problems reiating to practice, reading and preparation of scores; organization of orchestra and band, problems in programming and practice conducting larger instrumental ensembles.

456/556 ADVANCED CONDUCTING: CHORAL
2 credits
Prerequisite: 361 or equivalent. Adaptation of basic conducting techniques to the choral ensemble, including leadership, error detection, tonal development, stylistic accuracy and analysis.
$462 / 562$ REPERTOIRE AND PEDAGOGY: ORGAN 3 credils
Prerequisite: permission of instructor. Survey of organ literature of ali eras and styles, and of methods of teaching organ, applying principles to literature.

463/563 REPERTOIRE AND PEDAGOGY: STRING INSTRUMENTS
3 credits
Prerequisite: permission of instructor. Study in depth of the four bowed string instruments. their teaching and close relationship. Despite obvious difference in physical application of cello and bass from violin and vioia, methods of bowing. sound production and coloring are closely related. Application of the instruments to solo. chamber and orchestral playing.

## 471 COUNTERPOINT

2 credils
Prerequisite: permisson of instructor. Designed to give student of theory-composition necessary knowiedge and skills for understanding contrapuntal practices and procedures; emphasis on 20th-Century techniques.
472 ADVANCED ORCHESTRATION
2 credits
Prerequisite: 454. Study of techniques of orchestral style as found in major works from classical orchestra of Haydn and Mozart through modern orchestra of Stravinsky, Bartok. Berg and Schoenberg.

490/590 WORKSHOP IN MUSIC
1-3 credifs
Prerequisite: permission of instructor. Investigation of topics not offered in regular curriculum. Graduate student must futill additional requirements.

491 SPECIAL TOPICS IN MUSIC
2 credits
(May be repeated for a total of four credits)
Group project retated to a specific phase of music. Experimental course topics designed and implemented according to student interest. For elective credit only.

492 SENIOR SEMINAR
1 credit
Prerequisite: restricted to students enroiled in Student Teaching in Music. For music education majors; certification, contracts, benefits, job market prospects and student teaching experience sharing.
497 INDEPENDENT STUDY IN MUSIC
1-2 credils
(May be repeated for a total of four credits)
Prerequisites: senior standing and permission of department head. Music major cniy. Independent study under supervision of specially seiected facuity members in subject area bearing on student's own goals.

496 SENIOR HONORS PROJECT: MUSIC
$1-3$ credits
(May be repeated for a total of six credits)
Individually designed project demonstrating schoiarship, analysis, advanced musicianship. research and/or creativity according to student interest. Restricted to University honors music student.

## Graduate Courses

601 CHORAL LITERATURE
2 credils
Prerequisite: permission of instructor. Study in depth of style, structure, lechnical demands, manner of setting text, and special performance problems found in masterworks by great choral composers of nine centuries.
604 DEVELOPMENT OF OPERA
2 credits
Prerequisite: permission of instructor. Growth and development of opera from 1600 to present. Includes detailed examination of stylistic and structural changes as well as performance practices.

608 SEMINAR IN MUSIC OF THE WESTERN HEMISPHERE
2 credits
Prerequisite: permission of instructor. Designed to develop understanding of peoples and cultures of Western Hemisphere through study of music of each major area. Research and writing in areas of special interest.

609 PEDAGOGY OF JAZZ IMPROVISATION 3 credits A detailed study of the methods and materials as they relate to the teaching of jazz improvisation.

611 FOUNDATIONS AND PRINCIPLES OF MUSIC EDUCATION
3 credits
Prerequisite: permission of instructor. Study of basic phitosophical, historical, sociological and psychology concepts around which public schoci music programs function.
612 PRACTICES AND TRENDS IN MUSIC EDUCATION
3 credits
Prerequisite: permission of instructor. In-depth exploration of innovative practices and trends in music education. Findings of research and practice reiated to prevailing situations in public/private school programs.

613 INSTRUCTIONAL PROGRAMMING IN MUSIC
3 credits

## FOR THE MICROCOMPUTER

Prerequisite: $453 / 553$. Introduction to programming languages for the microcomputer including BASIC, Pascal and Assembler. Programming will be directed towards music educational concepts.

## 614 MEASUREMENT AND EVALUATION IN MUSIC

2 credits
Prerequisite: permission of instructor. Study and application of principles of music aptitude, music achievement and content evaluation. Elementary statistics for music test interpretation and construction explored.

615 MUSICAL STYLES AND ANALYSIS
2 credits
Prerequisite: permission of instructor. Detailed study of compositional techniques and stylistic traits observed in Western music from period of Gregorian chant through music of Palestrina, Gesualdo and others of late Renaissance.

616 MUSICAL STYLES AND ANALYSIS II
2 credits
Prerequisite: permission of instructor. Detailed study of compositional techniques and stylistic traits observed in Western music from Monteverdi through early Beethoven.

617 MUSICAL STYLES AND ANALYSIS III
2 credits
Prerequisite: permission of instructor. Detailed study of compositional techniques and stylistic traits observed in Western music from period of late Beethoven through Mahler and Strauss.

616 MUSICAL STYLES AND ANALYSIS IV 2 credits Prerequisite: permission of instructor. Detailed study of compositional techniques and stylistic traits observed in Western music in 20th Century.

## 619 THEORY AND PEDAGOGY

2 credits
Prerequisite: permission of insiructor. Methodology of theory teaching in 20th Century. Focus on differing philosophies of approach to theory instruction as noted from texts on subject. Recent innovations and techniques of teaching, such as programmed material, computerassisted instruction studied

620 COMPUTER ANALYSIS IN MUSIC
2 credits
Prerequisite: a minimum of one course in the 615-618 series. A systematic study of analytic techniques in music which make use of the computer. Hands-on experiences with music encoding, card manipulation, interactive, systems and program writing as related to music analysis.

621 MUSIC HISTORY SURVEY: MIDDLE AGES AND RENAISSANCE 2 credits Prerequisite: permission of instructor. Historical and stylistic analysis of all aspects of music of Middie Ages and Renaissance. Research and writing in areas of special interest.

622 MUSIC HISTORY SURVEY: BAROQUE
2 credits Prerequisite: permission of instructor. Historical and stylistic analysis of Baroque music; study in depth of specific examples, from recordings, scores and live performances; continuation and synthesis of approaches normal to study of music history; selected readings related to each student's particular fields of interest; project papers.

623 MUSIC HISTORY SURVEY: CLASSIC AND ROMANTIC
2 credits
Prerequisite: permission of instructor. Historical and stylistic analysis of classic and romantic music; study in depth of specific examples, through recordings. scores and live performances; continuation and synthesis of approaches normal to study of music history; selected readings related to each student's particular fields of interest; project papers.

624 MUSIC HISTORY SURVEY: 20TH CENTURY
2 credits
Prerequisite: permission of instructor. Historical and stylistic analysis of 20th Century music; study in depth of specific examples from scores, recordings and live performances; continuation and synthesis of approaches normal to study of music history; selected readings and project papers

625 GRADUATE BIBLIOGRAPHY AND RESEARCH IN MUSIC
2 credits
Prerequisite: undergraduate music degree or equivalent. Examination of alitypes of published music materials: research methods for thesis preparation and protessional publishing; field trips to music libraries, computerized music research.

630 TEACHING AND LITERATURE: BRASS INSTRUMENTS 2 credits
Prerequisite: permission of instructor. Research in current trends and issues in brass teaching techniques and appropriate literature.

631 TEACHING AND LITERATURE: WOODWIND INSTRUMENTS 2 credits Prerequisite: permission of instructor. To delineate and clarify contemporary techniques of woodwind pedagogy and to develop a comprehensive understanding of woodwind literature.
632 TEACHING AND LITERATURE: PERCUSSION INSTRUMENTS 2 credits Prerequisite: permission of instructor. To prepare an experienced instrumental music educator in new trends of percussion education. Emphasis placed on research, literature, performance techniques, new instruments and problems of teaching percussion from elementary level through high school.

633 TEACHING AND LITERATURE: PIANO AND HARPSICHORD
2 credits
Prerequisite: permission of instructor. The examination of piano and harpsichord literature in historically chronological order with special attention to its pedagogical value and stylistic differences.

634 TEACHING AND LITERATURE: STRING INSTRUMENTS 2 credits Prerequisite: permission of instructor. Research in current trends and issues in string teaching techniques and appropriate literature.

647 MASTER'S CHANBER RECITAL
1 credit
Prerequisite: permission of instructor. Composition student will present a recital of chamber music compositions (at least one-hall hour in length) written while in residence at the University. Student will actively organize and coordinate the recital and will also participate either as performer or conductor.

665 VOCAL PEDAGOGY
3 credits
Prerequisite: permission. In-depth study of subjects dealing with teaching of voice: physiology of vocal instrument, principles governing vocal production and application of vocal pedagogy.

666 ADVANCED SONG LITERATURE
3 credits
Prerequisite: permission of instructor. Systematic study of song literature presented chrono-
logically according to national schools of composition. Stylistic compositional characleristics and representative works of all major composers of solo song literature.

697 ADVANCED PROBLEMS IN MUSIC
1-3 credits
(May be repeated for a total of eight credits)
Prerequisite: permission of graduate adviser. Studies or research projects related to problems
in music.

## 698 GRADUATE RECITAL

2 credits
Prerequisite: permission of graduate adviser. Recital prepared and presented as a requirement for any appropriate degree option. If recital document is to be written in conjunction with the recital add 699 for the additional credit.

699 THESIS RESEARCH/RECITAL DOCUMENT
4-6 credits
Prerequisite permission of graduate adviser. Aesearch related to the completion of the master's thesis or recital document written in conjunction with the graduale recital. depending on the student's degree option.

## MUSICAL ORGANIZATIONS

## 7510:

No fee is charged for enrollment of a qualified student in music organizations. Enrollment may be repeated. For specific requirentents for an undergraduate student in music. consult page six of the Music Department handbook.

## 101 CONCERT CHOIR

1 credit
Mixed chorus. Membership by audition. Open to any qualified university student Previous choral experience and knowledge of music reading essential. Campus, regional and tour performances. Also annual concerts with Akron Symphony Orchestra and Chorus. Major conducted ensemble.

## 102 UNIVERSITY CHORUS: SYMPHONY

1 credil
Membership by audition. Frospective members are advised to contact Department of Nusic two weeks prior to beginning of term. Music reading skills and previous choral experience required. Performs with Akron Symphony Orchestra. Major conducted ensemble.

## 103 UNIVERSITY SYMPHONY ORCHESTRA

1 credil
Membership by audition. Organization devoled to study of orchestral literature. Full-length concerts as well as special University appearances. Major conducted ensemble.

104 UNIVERSITY BAND
1 credit
Includes Symphony Band/Wind Ensembie and Concert Band as major conducted ensembles. Marching Band (fall semester only) and Varsity Band. Membership in all bands open to all university students by audition with director of bands.

105 CHORAL ENSEMBLE
1 credit
Membership by audition. Sludy and performance of literature for chamber vocal ensemble tiom all periods of music history. Frequent public concerts. Designed for personnel with good music reacing ability and previous choral experience.

## 106 BRASS ENSEMBLE

1 credit
Membership by audition. Study and perfornance of literature for brass ensemble irom all periods of music history. Frequent public concerts. For advanced brass players.

## 107 String ensemble

1 credit
Membership by audition. In-depth study of performance of chamber music literature with special emphasis on string quartet and piano trio.

108 OPERA WORKSHOP
1 credit
Membership by audition. Musical and dramatic group study of excerpts from operatic repertoire. Includes annual production of standard opera and/or contemporary chamber work with staging. costumes and scenery

109 PERCUSSION ENSEMBLE
1 credit
Membership by audition. Study and performance of literature for varicus percussion groups, develops skill in ensemble performance.

## 110 WOODWIND ENSEMBLE

t eredit
Membership by audition. Study and performance of woodwind literature from all periods tor various combinations of woodwinds. Develops performance skills and knowledge of woodwind literature.

111 CHAMBER ORCHESTRA
1 creait
Membership by audition. Organization designed to study for pertormance the substantial repertoire for small orchestra. Open to student of advanced ability.

112 MEN'S GLEE CLUB 1 credit
Membership by audition. Designed to perform variety of music written for male voices in ensemble.

## 113 WOMEN'S GLEE CLUB

1 credit
Membership by audition. Designed to perform variety of music written for female voices in ensemble.

114 KEYBOARD ENSEMBLE 1 credit
Involves three hours a week of accompanying Keyboard maior required to enroll tor at least three years. Music education major may substitute another musical organization for one year

## 115 JAZZ ENSEMBLE

1 credit
Membership by audition. Provides experience in jazz ensemble performance. Student is assumed to have knowledge of rudiments of music and some experience in jazz pertormance.

## 116 GUITAR ENSEMBLE

1 credit
Membership by audition. Provides experience in conducted ensemble performance for guitarists. Major conducted ensemble.

## 117 COLLEGIUM MUSICUM

1 credit
Prerequisite: permission of instructor. A musical ensemble that performs music written betore 1750 on copies of authentic instruments

118 SMALL ENSEMBLE - MIXED
1 credit
Chamber Ensemble, Baroque Ensemble and Contemporary Music Ensemble. Each is a group
of diverse instruments which rehearses and performs a selected body of music.

## Graduate Courses

601 CONCERT CHOIR
1 credit
Mixed chorus. Membership by audilion. Open to any qualified University student. Previous choral experience and knowledge of music reading essential. Campus, regional and tour performances. Also annual concerts with Akron Symphony Orchestra and Chorus. Major conducted ensemble

602 UNIVERSITY CHORUS: SYMPHONY
1 credt
Membership by audition. Prospective members are advised to contact Department of Music two weeks prior to beginning of term Music reading skills and previous choral experience required Performs with Akron Symphony Orchestra. Major conducted ensemble

603 UNIVERSITY SYMPHONY ORCHESTRA
1 credit
Membership by audition. Organization devoted to study of orchestral literature. Full-length concerts as well as special University appearances Major concucted ensemble

604 UNIVERSITY BAND
1 credit
Includes Symphony Band/Wind Ensemble and Concert Band as major conducted ensembles, Marching Band (fall semester only) and Varsity Band. Membership in all bands open to University student by audition, with director of bands

605 CHORAL ENSEMBLE
1 credit
Membership by audition. Study and performance of literature for chamber vocal ensemble from all periods of music history. Frequent public concerts. Designed for personnel with good music reading ability and previous choral experience.

606 BRASS ENSEMBLE
1 credt
Membership by audition. Study and performance of literature for brass ensemble from all periods of music history. Frequent public concerts. For advanced brass players.

607 STRING ENSEMBLE
; credt
Membership by audition In-deptin study and performance of chamber music liferature with special emphasis on string quartet and piano trio

608 OPERA WORKSHOP
1 credit
Membership by audition. Musical and dramatic group sludy of excerpts from operatic repertoire. Includes annual production of standard opera and/or contemporary chamber work with staging, costumes and scenery.

609 PERCUSSION ENSEMBLE
1 credit
Membership by audition. Study and performance of literature for various percussion groups; develops skill in ensemble performance.

610 WOODWIND ENSEMBLE
Membership by audition. Study and performance of woodwind literature from all periods for various combinations of woodwinds. Develops performance skills and knowleage of wood wind literature.

611 CHAMBER ORCHESTRA
1 creda
Membership by audition. Organization designed to study for performance the substantial repertoire for small orchestra. Open to a student of advanced ability.

612 MEN'S GLEE CLUB
1 credit
Membership by audition. Designed to perform variety of music written for male voices in ensemble.

613 WOMEN'S GLEE CLUB
1 credit
Membership by audition. Designed to perform variety of music written for iomale voices in ensemble.

614 KEYBOARD ENSEMBLE
1 credit
involves three hours a week of accompanying. Keyboard major required to enroll for at least three years. Music education major may substitute another musicalorganization for one year.

## 615 JAZZ ENSEMBLE

## 1 creat

Membership by audition. Provides experience in jazz ensemble performance. A student is assumed to have knowledge of rudiments of music and some experience in jazz performance.

## 616 GUITAR ENSEMBLE

1 cred!
Membership by audition. Frovides experience in conducted ensemble performance for guitarists Major conducted ensemble.

## 617 COLLEGIUM MUSICUM

1 credit
Prerequisite permission of instructor. A musical ensemble that performs music written betore 1750 on copies of authentic instruments.

618 SMALL ENSEMBLE - MIXED
1 credit
Chamber Ensemble, Baroque Ensemble ana Contemporary Music Ensemble. Each is a group of diverse instruments which rehearses and performs a selected body of music.

## APPLIED MUSIC

 7520:A student must contact the Department of Nusic and consult with the appleco music instructor before registering for applied music

A music major must perform annually before an applied music: ןury on each instrument stucied privately for credit The non-music mator stuoying appleci music wili appeas betore a jury at the discretion of the private teacher
minutes practice per day. Enrolment may be ropeated each semestor tor cred:
-69 APPLIED MUSIC FOR NONMAJORS For a student below minimurn level of performance skills expected tor credit at 100 level or above. Designed tor those with limited backgrourt in applied stuoy who wish to take tessons for therr own pleasure, satistaction anc: or elective creait in tion-music programs. Not to be countea for credit in any music major programs of study

## 235 INTERPERSONAL COMMUNICATION

3 credits
Prerequisite: 115. Theory and practice in interpersonal communication concepts and principles. Special topics in communication apprehension, assertive communication. communication dyads and triads. and transactional communication.

245 ARGUMENTATION
3 credits
Prerequisite: 115 or permission of instructor. Study of process of developing, presenting and defending inferences and arguments in oral communication setting. Includes study and practice of evidence, reasoning, case construction, refutation and rebuttal.

## 252 PERSUASION

3 credits
Prerequisite: 115 or permission. Emphasis on understanding persuasion theory and practice. Includes information analysis of motivational appeals and introduction to propaganda analysis.

## 270 VOICE TRAINING FOR MEDIA

2 credits
Prerequisites: 115 and permission. Sate and effective uses of the vocal instrument in its specific application to radio, television and films.

280 MEDIA PRODUCTION TECHNIQUES
3 credits
Introduction to production techniques used in the mass communication covers sound image.
lighting, fundamentals of conveying messages on slide, film and video
282 RADIO PRODUCTION
3 credits
Study of radio production techniques and the functional operation of AM and FM radio stations. Includes practical production experience in studio.

283 TELEVISION PRODUCTION
3 credts
Prerequisite permission Function, structure and influence of television as communication medium with practical production experience in studio.

## 288 FILM PRODUCTION

3 credits
Prerequisite: permission. Techniques, immtations and potentials of ilm production. A student learns script writing, directing, lighting and makeup; practical procuction expenence in studios and on location.

## 301 ADVANCED NEWS WRITING

3 credits
Prerequisite: 201 or permission. Advanced course in writing and editing news, features and
analysis for print media. Behavioral approach to communication of information and ideas.
303 PUBLICITY WRITING
2 credits
Prerequisite: 201 or permission. Acquaints student with functions of public relations ir our society and explains basic theories and principles involved in publicity writing ano placement.

## 309 PUBLICATIONS PRODUCTION

3 credits
Prerequisites: 201, ability to type or permission. Fundamental course for person engaged in production of publications. Consideration of variety of processes for reproducing printed work including photoengraving. lithography, letterpress, rotogravure, mimeographing.

325 INTERCULTURAL COMMUNICATION
3 credts
Study of effect on oral communication process of existence of cultural bar!ers Includes study of verbal and nonverbal communication in transracial informal international and aiplomatic communicative settings.

335 ORGANIZATIONAL COMMUNICATION
3 credits
Study of large organizational communication principles and practices. Group projects related to several communication problems inherent to organizations inside communication flow. communication outward, incoming information to organization.

344 PUBLIC DECISION MAKING
3 credts
Prerequisite: 115 or permission. Discussion of basic considerations, approaches and techniques involved in understanding and participating in the communication processes essential to public úecision making

345 BUSINESS AND PROFESSIONAL SPEAKING
3 credits
Prerequisite. 1100.105 or 106. Practical improvement in speaking skills used in business seltings.

## 355 FREEDOM OF SPEECH

3 credits
Discussion and analysis of the Constitution's free speech guarantee: contemporary issues in: freedom of communication. role of the meoia in free speech issues.

357 SPEECH IN AMERICA
3 credits
Survey and critical analysis of major speakers, speeches and speech movements in Arrerican history Examines how style and content of American speaking infiuenced events and reflected their trmes.

361 AUDIO RECORDING TECHNIQUES
3 credits
Prerequisite: 280 . Basic principles of sound human hearing and the techniques of audio recording. Theory ano laboratory training, recording of live vocal and instrumental performance.

## 383 ADVANCED TELEVISION PRODUCTION

3 credits
Prerequisite: 283 . In-depth study of role of producer in complexities of ceveloping a television program from inception to completion.

384 MASS MEDIA-COMMUNICATION RESEARCH
3 credits
Prerequisites. 102.115. Fundamental concepts and methods of survey research, ano the application and interpretation of survey data in communication and in media operations.

385 AMERICAN FILM HISTORY: THE BEGINNING TO 1945
3 credits
Prerequisite: 102 or permission. Acquaints undergraduate student with historical developments of film and firm concepts, ends with films of 1945

386 AMERICAN FILM HISTORY: 1945 TO THE PRESENT
3 credits
Prerequisite: 385 or permission. Continuation of student's survey of film history and film concepts begun in 385 .

387 RADIO AND TV WRITING
3 credits
Prerequisite: 280. Practical application of script writing principles and techniques used ir writing scripts for commercials, announcements, comedy/drama. news and documentaries.

## 388 HISTORY AND STRUCTURE OF BROADCASTING

3 credts
Prerequisite 280 Growth of broadcasting in America; historical evolution of approaches to programming. news and financing of broadcasting operations.

395 RADIO STATION PROGRAMMING AND OPERATIONS
3 credits
Prerequisites 282,388 . History and development of radio programming from early formation
to present; nature, structure and function of educational and commercial radio broadcasting.
396 TELEVISION STATION PROGRAMMING AND OPERATIONS
3 credits
Prerequisites: 280,388. Examines the operations and programming processes of a broadcas
station; programming philosophies, broadcast schedules, feature and syndication acquisition, local productions, issues of staffing and funding.

400/500 HISTORY OF JOURNALISM IN AMERICA
3 credits
A review and analysis of the historical evolution of journalism in America, focusing primarily on newspapers, magazines, radio, television.

401 PHOTO EDITING
3 credits
Prerequisite. 309. Use of the photograph as a reporting tool. Criteria for a publishable photograph, selection and cropping of photographs, display of photo stories, combining of print and photographs in a communication effort.

403 COMMUNICATION IN PUBLIC RELATIONS
3 credits
Prerequisite: 309. Selected communication theories used to analyze and implement effective public relations programs with emphasis placed upon research, planning, promotional messages and evaluation of program

405 MEDIA COPYWRITING
3 credits
Prerequisites: 102. 484, ability to type or permission. Selected communication theories and research techniques used to plan, write and analyze commercial messages. Emphasis wil' be placed on selection of audience, medium. appeal, writing style and evaluation of efforts.

## 439 INDEPENDENT STUDY

1-12 credits
(May be repeated for a total of 12 credits)
Prerequisite: permission of faculty. Directed independent readings, research, projects and productions. Written proposal must be submitted betore permission is granted Appropriate documentation of work required.

450 SPECIAL TOPICS IN MASS MEDIA-COMMUNICATION
3 credits
(May be repeated for a total of nine credits)
Prerequisite: perm ssion of instructor. Special interest topics in mass communication journalism, or communication, supplementing courses listed in University Bufletin. See department for current listing of offerings.

454/554 THEORY OF GROUP PROCESSES
3 credits
Prerequisite: 344 or permission Group communication theory and conference leadership as applied to individual projects and seminar reports.

465 NON-BROADCAST MEDIA
3 credits
Prerequisites: 201 or 206, 387 and permission of instructor. Analysis of production problems and design, production and evaluation of solutions involving stides, film and non-broadcast video. Materials fee

470 ANALYSIS OF PUBLIC DISCOURSE
3 credits
Prerequisites: 245.252 or permission. Identifies principal textual and contextual ciements of public discourse and presents various theories and models to be applied in studying rhetorical acts.

471/571 THEORIES OF RHETORIC
3 credits
Prerequisite: 115 Study of key figures in history of metorical theory, stressing interrelationships among theories of rhetoric. intellectual climates and social climates.

480 MASS MEDIA-COMMUNICATION INTERNSHIP
$1-8$ credits
(May be repeatec for a total of eight credits)
Prerequisites. 24 credits in departmental courses and permission. Provides student with supervised experience and on-the-job training. Written permission must be obtained from the department prior to the term for which credit is to be received.

484 REGULATIONS IN MASS MEDIA
3 credits
Concentration on government regulations and self-regulatory bodies in broadcasting film and print media.

485 SENIOR HONORS PROJECT IN MASS
1-6 credis MEDIA-COMMUNICATION
(Nay be repeated for a totat of six credits)
Prerequisites: senor stancing in Honors Program: approval of honors preceptor. Independent
study project leading to completion of senior honors thesis or other originail work.
486 BROADCAST SALES AND MANAGEMENT
3 credits
Prerequisite sentor standing or permission of instructor. Using simulation and case history fochniques. this course examines the sales and decision-making processes of a broadcast station.

487/587 THE AMERICAN FILM INDUSTRY
3 credits
History, current operation and possible futures of the American film industry. Business and industrial aspects of film considereo in relation to technological and social change.

488/588 ADVANCED FILM PRODUCTION
3 credits
Prerequisites: 288 and permission of instructor (audition films or tapes required). Aovanced
study in film. Includes study of $35 \mathrm{~mm}, 16 \mathrm{~mm}$, and Super- 8 mm color and black and white, sound on film. Emphasis on individual production.

489/589 DOCUMENTARY FORM IN FILM AND TELEVISION
3 credis
Historical anc critical stuay of documentary and nonfiction forms in film and television with an analysis of their roots in photography and radio. Emphasis on Amrerican film and TV.
490/590 MASS MEDIA-COMMUNICATION WORKSHOP
13 credils
(May be repeatea for a total of six credits)
Prerequisites: advanced standing and permission. Group stucy or grouo projects investigating a particular phase of media not covered by other courses in curriculum

## Graduate Courses

600 INTRODUCTION TO GRADUATE STUDY IN
MASS MEDIA-COMMUNICATION
Introduction to the ideas and scholarship that constitute the various research irterests in
the department.

## 603 EMPIRICAL RESEARCH IN MASS MEDIA-COMMUNICATION

3 credits
An introduction to clementary concepts of empirical and quantitative research and their application in studies of mass media research topics.

604 INTRODUCTION TO QUANTITATIVE RESEARCH IN
3 credits

## MASS MEDIA-COMMUNICATION

Prerequisite 603 or equivalent An introduction to reading and uncerstanding research designs employing basic parametric and nonparametric descriptive and hypotheses testing statistical mocels in mass media-communication

606 COMMUNICATION PROBLEMS IN THE BASIC SPEECH COURSE 1 credit
Designed to train a graduate student in methods and materials of introductory speech course. Requirea of ali teaching graduate assistants.

608 COMMUNICATION PEDAGOGY
3 credits
Familiarizes students with aspects of teaching communication and media courses at the college level.

## 623 AMERICAN MASS MEDIA SYSTEMS

3 credils
Analysis of role, performance and impact of media in America.
624 SURVEY OF COMMUNICATION THEORY
3 credits
Study of dimensions of tield of communication: information analysis, social interaction and semantic analysis.

625 THEORIES OF MASS COMMUNICATION 3 credits
A review of theories of mass media and studies exploring the effect of media.
626 CONTEMPORARY ISSUES IN BROADCASTING
3 credits
Study of issues :mportant to the management of racio and television broadcast station. Subscription to professional journal required.

628 CONTEMPORARY PUBLIC RELATIONS THEORY 3 credits
Study and practical application of communication concepts, theories and skills relevant to public relatons programs in businesses ano nonprofit organizations.

631 SEMINAR: ADVANCED PRODUCTION DESIGN I 3 credits
Prerequisites: demonstratedcompetence in either photography, film, or video production and permission of instructor. Analysis of communication problems and the design of solutions mediated oy film video and photography. Emphasis on production research and writing in various media formats. Design and production of a major project.
632 SEMINAR: ADVANCED PRODUCTION DESIGN II
3 credits
Prerequisite 631 . Continuation of projects in 631 and an opportunity for students to work in additional media.

635 ISSUES IN LEGAL REGULATION OF THE MEDIA
3 credts
Structure of the regulatory system; current regulatory issues in print, film, radio and television broadcasting. pay and cable TV.

645 INTERCULTURAL COMMUNICATION THEORY 3 credits
Analysis of the impact on the communication process of cultural difference between commumicators: examination of existing literature in intercultural communication

## 665 THEORIES OF ARGUMENT AND PERSUASION

3 credits
Prerequistes: undergraduate course in argumentation and in persuasion, or permission of instructor. Analysis of principal theorles related to attitude formation and change

## 670 COMMUNICATION CRITICISM

4 credits
Introduces the basic elements, approaches and types of critical discourse as it is relevant to communication and mass media studies

## 675 SEMINAR ON RHETORICAL CRITICISM

3 credits
May be repeated for a total of six credits)
Organized around special problems and methoos :nvolved in analysis of different genres. forms and topios of discourse.

## 676 SEMINAR IN RHETORICAL THEORY

3 credits
Concentratec stucy and research of ancient. modern or contemporary writers or on some specific topic in rhetorical theory.

678 RHETORICAL ELEMENTS OF SOCIAL MOVEMENTS
3 credits
Examines role and function of collective rhetorical discourse in affecting change focus on various rhetorical methodologies for understanding social movements and case studies.

686 STUDIES IN COMMUNICATION MEDIA: RADIO
Study of raoio station programming.
687 STUDIES IN COMMUNICATION MEDIA: TELEVISION
3 credits
691 ADVANCED COMMUNICATION STUDIES
3 credits
(May be repeater for a total of six credits)
Special topics in communication in areas of particular faculty expertise Consult department for particular topic each semester.

692 SEMINAR IN FILM
3 credits
Prerequisite: permission of instructor Advanced historical and critical study of works and institutions in film and vioeo. Topics vary

697 GRADUATE RESEARCH IN MASS MEDIA-COMMUNICATION 1-6 credits
(May be repeated for a total of six credits)
Prerequisites 7800600 and approval of project prospectus one termi prior to undertaking the project. Performance of research on problems found in mass meaia-communication.
699 MASTER'S THESIS/PROJECT/PRODUCTION
(May be repeateo for a total of six credits)
Prerequisite: permission of department head

COMIMUNICATIVE

## DISORDERS

## 7700:

## 100 MANUAL COMMUNICATIONI

5 credits
Prerequisites: 271 and 2210104 or permission of instructor. Stucy of aifferent communcation systems employed by the deat: characteristics, similarities and differences Introduction 10 Ameslan as a language.

110 INTRODUCTION TO DISORDERS OF COMMUNICATION
3 credits
Overview of various types of speech disorders; their incidence, etiology and characteristics Basic concepts and principles underlying speech pathoiogy
111 INTRODUCTION TO PHONOLOGY
2 credits
Introduction to international phonetic alphabet, and overview of articulatory phonetics.
120 INTRODUCTION TO AUDIOLOGY/AURAL REHABILITATION
3 credts
(Not open to communicative disorder major)
Introduction to field of audiology including physics of sound anatomy and physiology of auditory system. measurement of hearing impairment. nature and causes of hearirg cisorders and habilitation of persons with hearing impairment.

## 121 PSYCHO-SOCIAL ASPECTS OF DEAFNESS

3 credits
Prerequisite: 120. The effects of deatness on the emotional, social, motor and intellectual developnent of the individual; the effects of deafness on interpersonal relationships.

130 BASES AND STRUCTURE OF LANGUAGES
3 credits
Introduction to linguistic bases of speech and language phonological. morphological, syntactical and semantic. Social and psychological variables in communicative process as applied to therapeutic environment presented

140 INTRODUCTION TO HEARING SCIENCE
3 credits
Normal anatomy and physiology of hearing system and acoustics of hearing Survey of field of audiology. Nature of hearing problems.
150 MANUAL COMMUNICATION II
4 credits
Prerequisite: 100 . Further study of Ameslan as a language. Practice in modifications which influence sign formation: more meaningful units and constructions: further similarities and differences among other signing systems.

200 MANUAL COMMUNICATION III
4 credils
Prerequisite: 150 . Further practice in developing expressive and receptive skills in Ameslan. Review of previous work and further in-depth study of linguistic components of manual communication systems of the deat.
210 APPLIED PHONOLOGY
3 credits
Prerequisite: 111, Training in allophonic transcription. Analysis of sound substitutions. distortions and dialectal variations. Study of Distinctive Feature Systems.

211 INTRODUCTION TO SPEECH SCIENCE
2 credits
Study of anatomical, physiological and priysical principles involved in production, transmission and reception of speech signal.
222 INTRODUCTION TO THE DEAF CULTURE AND ITS ORIGINS
2 credits
Prerequisite: 2210:100 or permission of instructor The treatment of deat persons, their education and legat status in Western cultures from early civilizations to modern times. Review of basic methods used in educating the deat, the rationale behind these methods and the contributions of the use of the different methods on the deaf cullure.

223 SPEECH AND LANGUAGE OF THE DEAF CHILD AND ADULT
4 credits
(Net open to cornmunicative disorders major)
Prerequisite: 222. Introduction to acquistion of speech and language hearing and prelingually deat children. Principles and techniques in language assessment and instruction will be covered.

230 SPEECH AND LANGUAGE DEVELOPMENT
3 credits
Prerequisite: 130 or permission. Stuay of language development inciuoing acquisition of comprehension and production of phonology, syntax and semantics. Approaches to use of language in learning and thinking.

240 AURAL REHABILITATION
4 credits
Prerequisite: 140 Introduction to philosophy and methods of aurai rehabilitation for children and aduits. Includes methods of speech reading, auditory training speech conservation: hearing aid use and combined visual and auditory approaches.
241 PRINCIPLES OF AUDIOMETRY
3 credis
Prerequisite: 140 . Introduction to psychoacoustic principles which underic basic audiometric tests: principles of speech audiomerty, masking and impedance audiomerry.

250 OBSERVATION AND CLINICAL METHODS
2 credus
Corequisite: 321 . Introcuction to clinicai procedures, analysis of preparation and structure essential to a successful therapy session and observation of therapy with:n several difterent settings.
271 LANGUAGE OF SIGNS I
3 credils
Expressive and receptive skills in manual communication, introduction to various sign systems: philosophy of total communication and ofientation to aspects of deatness: conversalional sign language and developing speed and comprehension of fingerspelling skills Laboratory.

321 COMMUNICATIVE DISORDERS I
4 credits
Frerequisites. 110, 210. Study of disorders of articulation. voice ano stuttering including etiology, symptomatology, evaluation and therapeutic procedures.
322 COMMUNICATIVE DISORDERS II
4 credits
Prerequisites: $110,3100: 264$. Study of organically based speech cisorders cleft palate, cerebral palsy, aphasia and dysarthria including etiology. symptomatology. evaluation and cerebral palsy, aphasia
therapeutic procedures.

330 Language disorders
4 credis
Prerequisite: 230 . Etology, identification. evaluation, intervention, remediation of symbolic. cogntive, interpersonal language disorders of children. Disorders viewed as corielates or sequelae of central nervous system dysfunction or emotionai disturbance.

340 AUDIOLOGIC EVALUATION
2 credits
Prerequiste: 241. "Test battery" approach to audıometry explored; techniques of case finding ana hanaling of cifficult-to-test cases: competency with ail tests in the battery required.

350 CLINICAL PRACTICUM: ARTICULATION/PHONOLOGY
1 credit
(May be repeated for a total of two credits)
Prerequisites: 250.321. Supervised clinical practicum in articulation. Emphasis on therapy procedures. diagnostic techniques and preparation of reports.

## 351 CLINICAL PRACTICUM: LANGUAGE

1 credit
(May be repeated for a total of two credits)
Prerequisites. 250, 330. Supervised clinical practicum in language. Emphasis on therapy procedures, diagnostic techniques and preparation of reports.

352 CLINICAL PRACTICUM: AURAL REHABILITATION
1 credit
(May De repeated for a total of two credits)
Frerequistes: 240.250. Supervised clinical practicum in hearing rehabilifation. Emphasis on therapy procedures, diagnostic techniques and preparation of reports.
370 LANGUAGE OF SIGNS II
1 credit
Prerequisite: 27 : or permission of instructor. Advanced work in signs and fingerspelling with emphasss on adoitional sign vocabulary acquisition and development of expressive and receptive skills. Stress on continued skill building in conversing with deaf adults.

430/530 ASPECTS OF NORMAL LANGUAGE DEVELOPMENT
3 credits (Not open to communicative disorders major)
Introduction to acquisition and development of comprenension and production of languagephonologically, semantically and syntactically. Relates language acquisition to perceptual development of child and tooks at function of language in individual, family and schooi.

450 ASSESSMENT OF COMMUNICATIVE DISORDERS
3 credits
Prerequisite: senior status. Introductory course devoted to discussion of role of speech and hearing clinician in differential diagnosis. Emphasis on casehistory taking, and administration of stancarcized and informal procedures in diagnosis of communicative disorders.

451 CLINICAL PRACTICUM: DIAGNOSTIC AUDIOLOGY
1 credit
(May be repeateo for a total of two credits)
Prerequistcs: 250, 340. Supervised clinical practicum in hearing diagnostics. Diagnostic procedures, preparation of reports.

460/560 SPEECH-LANGUAGE AND HEARING
2 credits DISORDERS IN THE PUBLIC SCHOOLS
(Not open to communicative disorders major)
Nature, causes and treatment of speech, hearing and language disorders in public schools. Spocial reterence to role of classioom teacher in identifying and refering student with suspected problems and in working with school clinician.

461 ORGANIZATION AND ADMINISTRATION: PUBLIC SCHOOL
2 crecits SPEECH-LANGUAGE AND HEARING PROGRAMS
Prerequisite: senior standing: open to major in communicative disorders only. Designed for speech and hearing clinicians who plan to work in public school system. Covers following areas with particular reference to public school setting: case selection; scheduling, individual and group therapy: in-service training for classroom teachers, parent counseling: and certification anc program standards as set up by the Ohio Department of Education.

480 SEMINAR IN COMMUNICATIVE DISORDERS 2 credits
Prerequisite senior standing. Provides a vehicle for detailed study and discussion of various communicative aisorders

481 SPECIAL PROJECTS: COMMUNICATIVE DISORDERS
$1-3$ credits
(Nay de repeatec for a total of four credits)
Prerequste permission of instructor. Individual of group projects related to any of the problerms of communicative disorders.

483/583 COMMUNICATION DISORDERS: GERIATRIC POPULATION
3 credits
(Not upen to cormmunicative oisorders major)
Examination of communication disorders that exist in geriatric population. Focus on etiology. symptoriatology ano concomitant rehabilitative procedures. Designed tor a student interestec in the agirg popultion

490/590 WORKSHOP: COMMUNICATIVE DISORDERS
$1-3$ credits
(May be repeateo for a total of four credits)
Prerequisite permission. Group investigation of particular phase of speech pathology and/or audiongy not offered by other courses.

495 INTERNSHIP: SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY 3-6 credits Prerequisite permission of director of Speech and Hearing Center. Affords opportunity tor in depth clinical experience in variety of clinical settings outside Fhe University of Akron Speech and Hearing Center. On-the-job experience with specialized case populations.

496 SENIOR HONORS PROJECT: SPEECH-LANGUAGE PATHOLOGY $1-3$ credits AND AUDIOLOGY
May be repeateo for a total of six credits
Prerequs tes enrolment in the Honors Program, senior standing and major in communicative disorders.

## Graduate Courses

601 ADMINISTRATION AND SUPERVISION IN SPEECH
4 credits AND HEARING PROGRAMS
Prerequiste permission of instructor. Organization and managernent of speech and hearing programis in voluntary and official agencies. Philosophy and methodology in supervision of services.

610 INSTRUMENTATION IN SPEECH PATHOLOGY 2 creot
AND AUDIOLOGY
Princules and use of clincal anc research mstrumentation in speech and hearing.
611 RESEARCH METHODS IN COMMUNICATIVE DISORDERS I 3 crechis
introtuscion to experimental design in, fiels of conmumbucative disorders.
612 RESEARCH METHODS IN COMMUNICATIVE DISORDERS II
2 credits
Promquisite: fi:1 Acvanceo expermental methocs: covelopirent of a research study.
619 COMMUNICATION DISORDERS: ADULT DYSARTHRIA 2 crechts AND APRAXIA
Dennoprent symbtors oagrosis ano treatment of asul cysathria anc apraxia.
620 ARTICULATION $z$ credts
 treatrent o' artou'atory ciscrgers

621 COMMUNICATIVE DISORDERS IN CLEFT PALATE
2 credus
mistorka background. current theories and reserroh mated to etiology. diagnosis and treatment of roloft palate.

622 COMMUNICATIVE DISORDERS IN MENTAL RETARDATION 2 credits
Histonmal batkground. current theories and research related to etiology, diagnosis and troatment of mental retaration.

623 COMMUNICATIVE DISORDERS IN CEREBRAL PALSY 2 credits
Histor wat batikgrcuna. current ineores and research relatec to etroogy oiagnosis and Frotrent on crerobra: palsy

## 624 APHASIA

2 credits
Histior wal barkgroung current trieones and rescarch relateo to etioiogy, ciagnosis and tradtrent of acolt abhasia.

625 LANGUAGE DEVELOPMENT: NORMAL AND DISORDERED
3 credits
Survey of research in normal anc disorcerod developitent of language skills
626 VOICE PATHOLOGY
3 credits
Prompuisite permission of the instructor. Background and current research related to normat
voral function as woll as the etiology, diagnosis and therapy of various disorders of voice
627 STUTTERING: THEORIES AND THERAPIES
3 credits
Rcading and oiscussion of selecteo theories and therapies
628 TOPICS IN DIFFERENTIAL DIAGNOSIS OF SPEECH AND
2 credts LANGUAGE DISORDERS
ifay ren 'fineatoc or a total o' four credits;
frerequiste permission of airector of Speech and Hearirg Center
629 TOPICS: SPEECH PATHOLOGY AND AUDIOLOGY
2 credits
Prerequisite permission of instructor. Solected ciument topics iricilical and or experimentat areas of specoch pathology, audiology or Janguage. Fmphasis on review of current and historical hiterature.

630 LANGUAGE SKILLS IN CHILDREN: ASSESSMENT
3 credits AND INTERVENTION
Prevequisto: 625 or permission of instructor. Theoretical and applied study of child-lanyuage assessmant and intervention strategies.

638 SEMINAR IN LANGUAGE AND SPEECH OF THE
$?$ crecits HEARING IMPAIRED
Study of anvelopment of language ano speoch in hearing-impared chioren emphasizing wsycho!mguistic approach, anameans of intervention. Communicat ve processes of hearingmpat!ed abuts. Effect of concitions of mirnmurn auditory strmulation ano acoustic teedback on speeen and language. Vethods of speech conservation

639 ADVANCED CLINICAL TESTING
4 credis
Theoretical basis for pure tone, speech tests. masking and acoustic impedance measure-
ments. Roview of classical and current literature relative to above tests.
640 SPECIAL TESTS/MEDICAL AUDIOLOGY
4 creails Prerequisite 639 or permission of instructur. Underlying $\mu$ sychuacoustic principles of adminstration and interpretation of site of-lesion tests. Relationship between otology and audiolugy. application of ciincal augiology in medical environment

641 AMPLIFICATION
3 credis
Prertatiste 639 or dermissior of nstructor Cumbunents of amplification systems. methoos of evatuatuig hearng a:o pertormanco

642 PEDIATRIC AUDIOLOGY
2 creats
Prerequiste 639 or permission of instructor. Fiology of hearing ioss in chilaren techniques for lesting preschool and school-age chilaren and other difficult-to-test clients.

643 INDUSTRIAL AUDIOLOGY
2 credits
Prerequisite: 639 or permission of instructor. Theureticas principles of noise measurement, etiology of noise-induced hearing loss and acoustic trauma; industrial hearing conservation programs, Occupational Safety and Heath Act (OSHA S regulations.

644 AURAL REHABILITATION
4 credis
Prerequeste perm ssion of instructor. Review cit current Tethodologes employed in aural rehabilitation of chilaren anc adults as well as curemt anc potential areas of research

645 EVOKED POTENTIALS
2 credits

647 EXPERIMENTAL AUDIOLOGY
$?$ creftis
Prerequisites six graauate aualogy creaits or permssion of in structor. Principles of psycho. acoustics. Review cf instrumentation and research techniques Stucy of significant literature in the field.

649 ELECTRONYSTAGMOGRAPHY
2 credits
Prerequisite: permission of instructor. Study of the anatomy and physiology of the vestibular system; nystagmus; electronystagmographic (ENG) recording procedures: ENG protocols; interpretation of ENG results.

650 ADVANCED CLINICAL PRACTICUM:
1 crodt DIFFERENTIAL DIAGNOSIS
(May be repeated for a maximum of two crecits)
Supervised clinical practıcum in diagnostic proceoures.
651 ADVANCED CLINICAL PRACTICUM: VOICE
1 credit
Supervised clinical practicum in rehabisitation of voice disorcers.
652 ADVANCED CLINICAL PRACTICUM: FLUENCY
1 credit
Superviseo clinical practicum in rehabilitation and disorders of flucncy
654 ADVANCED CLINICAL PRACTICUM: DIAGNOSTIC AUDIOLOGY
1 credit
(May be repeated for a total of six credits)
Supervised clinical practicum: diagnostics and aural rehabilitation
655 ADVANCED CLINICAL PRACTICUM: ARTICULATION
1 credit
(May be repeated for a total of wo credits)
Prerequisites: 321 and permission of the director of the Speech and Hearing Center Super. vised clinical practicum in articulation. Therapy procedures, diagnostic techniques and preparation of reports.

656 ADVANCED CLINICAL PRACTICUM: LANGUAGE
1 credit
(May be repeated for a total of three credits)
Prerequisites: 330 ano permission of the director of the Speecn and Hearng Center Supervised clinical practicum in language. Therapy procedures, diagnostic techniques and orepa ration of reports

657 ADVANCED CLINICAL PRACTICUM:
1 credit REHABILITATIVE AUDIOLOGY
(May be repeated for a total of six credits)
Prerequisites: 240 and permission of the director of the Speech and Hearing Center. Supervised clinical practicum in hearing rehabilitation. Emphasis on therapy procedures, diagnos tic techniques and preparation of reports

695 EXTERNSHIP: SPEECH PATHOLOGY AND AUDIOLOGY
24 credits
(May be repeated for a total of hour credits)
Clinical practicum in a selected area center
697 SPECIAL PROBLEMS: SPEECH PATHOLOGY AND/OR AUDIOLOGY 1.3 gredils (May be repeated for a total of six creoits)
Prerequisite: permission of instructor. Guided research or reading in selectect topics in speech pathology, audiology or language disorders

## 699 RESEARCH AND THESIS

46 credis
(May be repeated for a total of six credits)
Prerequisite: permission of department head

## SOCIAL WORIK

## 7750:

270 POVERTY IN THE UNITED STATES
3 credits
Survey of social and personal dimensions of life in the inner city and other areas of poverty in United States. For person wishing to develop an in-depth understanding ard/or intending to work in such areas.
276 INTRODUCTION TO SOCIAL WELFARE
4 credits
Survey of field of social welfare: place of social work profession within human services institutions of United States Introduction of basic concepts relating soc al welfare institutions and social work to society.

401/501 SOCIAL WORK PRACTICE I
3 credits
Prerequisite: 276 or permission. Basic concepts and methods of soc. ai work practice particularly relating to understanding and working with individuats and familes.

402/502 SOCIAL WORK PRACTICE II
3 credns
Prerequisite: 401 or permission. Concepts and methods of social work practice particularly relating to understanding and working with groups in various settings. in our socioty
403/503 SOCIAL WORK PRACTICE III
3 oreafis
Prerequisite: 402 or permission. Development of understanding and practice methocs for utilization of community organization and social planning as social work process in assessing problems and developing program to meet needs.

410/510 MINORITY ISSUES IN SOCIAL WORK PRACTICE
3 credits
Prerequisite: 276 or permission Racial, ethnic and cultural issces in social work related to various practice and theoretical perspectives to various types of social probterms. sprace agencies. indivicual tamily group. communily and societal contexts megratea sith the methodological processes of the social work practitioners.

## 411/511 WOMEN'S ISSUES IN SOCIAL WORK PRACTICE

3 credits
Prerequisite 276 or permission. Social work practice, knowledge and skill, social welfare institutions and social policy in relation to women's issues and concerns in the United States

## 421 FIELD EXPERIENCE SEMINAR

1 credit Prerequisites: 401 and permission; corequisite: 495. Careful examination and integration of acadernic understanding and protessional methodological stuaies into protessional practice

## $\mathbf{4 2 5 / 5 2 5}$ SOCIAL WORK ETHICS

3 credils
Prerequisite: 276 or permission. Social Worker's code of ethics as applied to practices. problems and issues in social work.

427/527 HUMAN DEVELOPMENT FOR SOCIAL WORKERS
3 credits
Prerequisite for $427: 276$ or permission of instructor; for 527 permission of instructor Social work perspective on human development across the life cycle. Human diversity approach consistent with the needs of social work students preparing for practice

430/530 HUMAN BEHAVIOR AND SOCIAL ENVIRONMENT
3 credits FOR SOCIAL WORKERS
Prerequisites for $430 \cdot 276.427$ or permission of instructor: for 530 permission of instructor Emphasis on social workers' understanding of and use of individual interaction and growih within family as a system. groups, roles. organizations, community and culture.

## 440/540 SOCIAL WORK RESEARCH I

3 credits
Prerequisites for $440: 276,3450: 112,3470: 251,52$ or permission, for 540 permission Sociat work practitioner's role in utilization of scientific method in the conduct of practice and utilization of social work research as found in social work and social science literature for improvement and advancement of social work practice

441/551 SOCIAL WORK RESEARCH II
3 credits
Prerequisite for $441: 440$ or permission of instructor; for 541 . permission of instructor. Evalua tion of social work intervention with individual, group and community. Processing and interpreting agency information for better practice, policy and administrative decisions.

445/545 SOCIAL POLICY ANALYSIS FOR SOCIAL WORKERS
3 credits
Prerequisite for 445: 276 or permission, for 545: undergraduate social work degree or permission. Description, analysis and construction of social policy in social services: to understanding forces and processes which establish or change social policies, to predict consequences of social policies and to establish goals for social policy devetopment; integrated into effective social work methodology.
$450 / 550$ SOCIAL NEEDS AND SERVICES FOR LATER

3 credits
Development of dramatic iterature and its relationship to the sociai/political/religious influences in various cultures from the 18 th Century to modern times and its relationship to the physical theaire

690 GRADUATE RESEARCH/READINGS
1-3 credits
(May be repeated for a total of nine credits)
Prerequisite: permission. Individual research of independent readings under supervision of member of theatte graduate faculty.

691 SEMINAR: THE ROLE OF THE ARTS ADMINISTRATOR
3 credits
In-depth examination of roles of arts administrator/manager including theatre opera, ballet, arts organizations and performing arts halls/centers. Guest lecturers. Term paper required.

692 LEGAL REGULATIONS AND THE ARTS
2 credits
Analysis of legat framework of arts regulation. Introduction to selected areas of lawrelevant io arts management through reading and discussion of legisiation. cases and scholarly materials.

## 698 ARTS MANAGEMENT INTERNSHIP

$1-3$ credits
(May be repeated for a total of three credits)
Prerequisite: permission. Faculty supervised work experience program in which student participates in an arts management situation with selected cultura! organizations.

## 699 THESIS RESEARCH/PRODUCTION DOCUMENT

4-6 credits
(May be repeated for a total of six credits)
Frerequisite permission of coordinator of graduate theatre program. Research related to the completion of the masters thesis or the production document written in conjunction with an approved production project, depending on the student's degree option.

## THEATRE <br> ORGANIZATIONS

## 7810:

100 PRODUCTION LABORATORY-DESIGN/TECHNICAL
1 credt
(May be repeated for a total of 12 credits)
Provides student with practical experience in technical aspects of theatre Students will undeftake assignments in such areas as set construction. state lighting, and costume construction.

## 110 PERFORMANCE LABORATORY

1 credit
(May be repeated for a total of 12 credits)
Prerequisites permission of project supervisor and undergraduate theatre coordinator. Provides student with practical performance experience in confunction with University theatre productions. Includes actual public performance of assigned role.

200 PRODUCTION LABORATORY-DESIGN/TECHNICAL
1 credi
(May be repeated for a total of 12 credis)
Provides student with practical experience in technical aspects of theatre. Students will undertake assignments in such areas as sel construction, stage lighting and costume construction

210 PERFORMANCE LABORATORY
1 credit
(May be repeated for a total of 12 credits)
Prerequisies permission of project supervisor and undergraduate theatre coordinator. Provides student with practical performance experience in conjunction with University theatre productions. Includes actual public performance of assigned role.
300 PRODUCTION LABORATORY-DESIGN/TECHNICAL
1 credit
(May be repeated for a total of 12 credits)
Provides student with practical experience in technical aspects of theatre. Students will uncertaxe assignments in such areas as set construction. stage lighting and costume construction

310 PERFORMANCE LABORATORY
1 credit
(May be repeated for a totai of 12 credits)
Prerequistes permission of project supervisor and undergraduate theatre coordinator. Provides student with practical performance experience in conjunction with University theatre productions. includes actual public performance of assigned roie.

400 PRODUCTION LABORATORY-DESIGN/TECHNICAL
1 credit (May be repeated tor a iotal of 12 credits)
Provides student with practical experience in technical aspects of theatre. Students will undertake assignments in such areas as set construction. stage lighting and costume construction.

410 PERFORMANCE LABORATORY
1 credit
(May be repeated for a total of 12 credits)
Prerequisite. permission of project supervisor and undergraduate theatre coordinator Provides student with practical performance experience in conjunction with University theatre procuctions Incluces actual public performance of assigned role.

## Graduate Courses

601 PRODUCTION PRACTICUM/DESIGN/TECHNOLOGY
$1-2$ credits
(May be repeated for a total of four credtes)
Prerequisite permission of instructor. Practice in selectec procuction design/technclogy operations applications and techniques as they apply to production projects and major departmental productions.

605 PERFORMANCE PRACTICUM
$1-2$ credits
(May be repeated for a 10 tal of 12 credits)
Prerequisite permission of propet adviser Recogniton of work undertaken by the student when performing a role in a theatre production. Credt assigned and work supervised by taculty propect supervisor

## DANCE <br> 7900:

## 115 DANCE AS AN ART FORM

2 creats
Survey of aance for novice observer: aesthetics, philosophies, methods of traning. Lecture and discussion of readings, viewing of film, videctape and live performances.

116 DANCE ANALYSIS I
2 credits
Required ot all dance majors in tirst two years. Lecture/laboratory. Understanding the body and its relation to technique.

## 117 DANCE ANALYSIS II

2 creans
Prerequisite. 116 or permission. Continuation of 116 . Lecture/laboratory Use of body in dance technique as student future teacher or performer.

119 INTRODUCTION TO CONTEMPORARY DANCE I
2 credits
(May be repeated for a total of four credits)
Course for novice dancers and teachers wishing to explore contemporary styles and techniques.

120 INTRODUCTION TO CONTEMPORARY DANCE II
2 credits
(May oe repoated for a total of lour crecits)
Prereauisite permission. Continuation of 119 Expansion of contemoorary movements ano techniques.

122 BALLET TECHNIQUEI
5 credits
(May be repeated for a total of ten credits)
Prerequisite permission Furdamental theory vocabulary, structure, placement
124 INTRODUCTION TO BALLET I
2 credits
(May De repeated for a total of four credits
Emphasis on body placement. muscular awareness
125 INTRODUCTION TO BALLET II
2 credits
May bo ropated for a tctal of tour creats:
Prerequisite permission Continuation of 124, basic exercises of classica batiet
219 INTRODUCTION TO CONTEMPORARY DANCE III
2 crecits
Prerequisie permission of instructor Contriation of 120 . Exnanging the wontemporary dance techniques, designed to merfect the student s technique for enterng the contemporary Technigue:

220 INTRODUCTION TO CONTEMPORARY DANCE IV
2 cremes
Prerequiste permission of instructor Continuation of 219. expanding the contemporary dance techniques designed to perfect tho student's technique for ontering the Contemporary Techrique!

## 222 BALLET TECHNIGUE II

5 credifs
(May be repeated for a total of 20 credits)
Prerequiste: permission. Contrituation of 122 expandme thedy on vocabulary structure. placeman:

224 FUNDAMENTAL BALLET TECHNIQUE
3 creats
May be rodeaien for a total of six creditsi
Prerequisite permission. Cominuation of 124,125 Fmphasm on bare and qeveloping strength

229 CONTEMPORARY TECHNIQUE I
3 crectis
May be reveated tur a total of 1 ? credits,
Prerequante permission. Expanang the basic contemporary dance tecinnques.
316 CHOREOGRAPHY I
2 credils
Prerequiste permasson of the mstructor Stucy anc practical application of choreugrapho principles in the areas of rhythm aynamics, spatial awareness, ano body and eye focus.

317 CHOREOGRAPHY II
2 cuodits
Prerecusites $3: 6$ and permesion of the irstructor Continuatior of 316 with emphasis on
establishod and traditional choreographic torms, including theme ano variation, the suite and fugue and the narrative.

320 DANCE NOTATION
2 creats
Beginning study of Labanotation method of recording movement and preparation for beginners axamination of the Notation Bureau

322 BALLET TECHNIQUE III
5 creots
(May be repeated for a total of 30 crecils,
Prerequisite permission. Continuation of 222 Emphasis on techrique style and line

323 JAZZ DANCE TECHNIQUEI
sredis
Emphasizes basic jazz techniques and styles, including East Incian, Afro-Cuban, Eariy American hoe-down and folklore styles. Also soft-shoe, charleston and eariy burlesque.

324 TAP TECHNIQUE I 2 credits
Emphasizes basic tap combinations and routines, tap terminology and methods for recorcing combinations. Special clothing/shoes required

CONTEMPORARY TECHNIQUE II
3 oredits
Prerequisite: permission. Continuation of 229 . Expanded development of contemporary techniques.

Prerequisite: 323. The use of more complex jazz technique combinations.
TAP TECHNIQUE II
creatis
Prerequisites: 124, 125, 324. A study of more complex routises ana combinations, :nclucing syncopation. classical tap and style (Astare. Kelly Vereen. Draper. Bolger) Speciai clothing/shoes

SPECIAL TOPICS IN DANCE
1-4 credits applied toward B.A. degree)
Prerequisite: permission. Traditional and nontraditiona! topics in dance. suppiementing courses listed in General Bulletio

CHOREOGRAPHY III
Prerequisites: 317 , permission of the instructor. Continuation of 317 with emphasis on rhythmic analysis and nontraditional forms

2 credits
Prerequisites: 416 and permission of the instructor. Continuation of 416 , expanding into group choreography and courherpoint.
(May be repeated tor a total of 40 credics)
Prerequisite: permission. Continuation of 322 , professional level of technique.
HISTORY OF THE DANCE
Study of important developments in dance from prehistory to Repaissance.

2 credits
Prerequisite dance major or permission investigation of cnanges in styles and techniques and theif influence on current choreography

DEVELOPMENT OF DANCE
Ronantic and Diaghilev eras and their influence on current ciance.

NIQUES OF TEACHING DANCE 1
Prerequisite: dance major or permission. Practical work in the basic principles of elementary保 traning

Prerequisite: 426 or permission. Continuation of 426 . Projects in teaching of elementary training.

## DANCE ORGANIZATIONS

7910:
101 CLASSICAL BALLET ENSEMBLE 1 credit ${ }^{*}$
By audition oniy. Participation in rehearsal and preparation for public performance of classical ballet repertoire

102 CHARACTER BALLET ENSEMBLE 3 credif*
By audition on'ly. Participation in rehearsal and preparation for pubtic performance of character ballet repertoire

103 CONTEMPORARY DANCE ENSEMBLE
1 sedit
By audition oniv. Participation in rehearsal and preparation for public performance of contemiporary dance repertoire

104 JAZZ DANCE ENSEMBLE I crectil*
By aucition only. Participation in rehearsal and preparation for public performance of jazz dance repertoire.

105 MUSICAL COMEDY ENSEMBLE 1 Credit ${ }^{*}$
By audition only Participation in rehearsal and preparation for public performance of dance production numbers in a musicai comedy

106 OPERA DANCE ENSEMBLE 1 credit*
By audition only. Participation in rehearsal and preparation for pliblic periormance of dance sequences in an opera

107 EXPERIMENTAL DANCE ENSEMBLE 1 credit*
By audition only. Participation in rehearsal and preparation for public pertormance of avantgarde dances

108 CHOREOGRAPHER'S WORKSHOP 1 credit $^{+}$
By audition only. Participation in rehearsal and preparation for public performance of student dances.

109 ETHNIC DANCE ENSEMBLE 1 credit*

## College of Nursing

## COOPERATIVE EDUCATION

## 8000:

301 COOPERATIVE EDUCATION
0 credits
(May be repeated). For cooperative education students only. Work experience in business. industry, or governmental agency. Comprehensive performance evaluation and writter report required.

## NURSING

## 8200:

100 INTRODUCTION TO NURSING
1 credit
Designed to introduce student to nursing. Emphasis on historical perspective as basis for modern trends in profession of nursing.

101 INTRODUCTION TO BACCALAUREATE
1 crean (15 lecture hours) NURSING FOR THE R.N.
Prerequisite: Registered Nurse. Emphasize role resocialization for RN's seeking a baccalaureate in nursing. Explores concepts incorporated in the philosophy. conceptual framework and curriculum structure of the baccalaureate nursing program.

200 NURSING THEORIES AND CONCEPTS
3 credits
Prerequisite: 100. Demonstrates relationship of relevant concepts and theories from various sciences with man's interaction with ecosystem. Relates these theories and concepts to practice of nursing in nealth-care systern utizing scientific researen approach.

300 NURSING: HEALTH
10 credits
Prerequisites: 100.200. Healthy man's adaptation throughout late cycle. Emphasis on his interactions within an ecosystem approach. Nursing process useo to view this approach as holistic man's adaptation

305 NURSING THEORIES, CONCEPTS AND RESEARC.H
6 credits
Frerequisites: 101. admission to college The specific focus is to relate concepts, theories and investigative projecis to the practice of nursing in a health-care system using the riursing process.

320 NURSING: DIMINISHED HEALTH I
12 credits
Prerequisites: 100,200.300 Man's maladaptation throughout ife cycle Emphasis on his interactions within an ecosystem approach. Nuising process usec to view this approach as holistic man's acaptation

400 NURSING: DIMINISHED HEALTH II
12 credits
Prerequisites: $100,200300,320$. Assists student in applying knowleoge ang skils for an integrated approach to nursing process in various settings ang to nevelop roles of leacership and change-agent utilizing teaching/tearning process.

405 HEALTH MAINTENANCE NURSING
5 credits
Prerequisites. 101, 305. Designed to focus on heaithy man throughout ine life cycle. Theory and practice focus on heaithy maris reciprocal interaction with ecologicai vanables.

415 DIMINISHED HEALTH NURSING
6 credits
Prerequisites 101,305 . Theoretical and clinical components emphasize alternative behaviors for the client anc the nurse within the framework of the hursing process. to assist individuals ano families experiencing diminished health 10 attain maintain and regain optimal tevels of heallh

## 420 NURSING: SYNTHESIS

10 credits
Frerequisites: 100.200.300.320. Provides student with ingepencent bractice opportunity. Emphasis on provioing student with practice in an area of his her choice. Guioance and direction provided to student as necessary by preceptor.

430/530 HEALTH-CARE (CURRENT YEAR): ISSUES AND NURSING
2 credits
Prerequisite: acceptance in the college Survey and exploration of the state of health-care delvery in the United States today and them ramifications ano implications for nursing.

## 480 SENIOR HONORS PROJECT

1-3 credits per semester Prerequisites. senior standing in Honors Program and nurging ma or A creative project. ndeperdent study or researoh relevant to nursing which is superv.sec by a faculty preceptor and or sponser

## 489/589 SPECIAL TOPICS: NURSING

1-4 credits
(May be repeatec as new topics are presented)
Group siucies of special topics in nursing May not be usea to meet requirements tor the major :n nursing May be used for elective crudi

## 493/593 WORKSHOPS

1-3 credits
(May be repeated as new topics are presented)
Group studies of spec:al topics in nursing. May not be used to meet college undergraduate or graduate major requirements. May be used for elective crecit only

## 497 INDEPENDENT STUDY

$1-3$ credits
Prerequisites senior standing and permission of instructor. Provides opportunity to develop greater depth in an area of nursing through methodology specific to discipine of nursing.

## 498/598 SPECIAL READINGS

1-4 credits
Prerequiste: permission of student's adviser or dean. Special readings in an area ot concen. tration may be taken to satisfy elective credit. Special rearings may not be used to satisfy requirements of the major.

## Graduate Courses

603 THEORETICAL BASIS FOR FAMILY HEALTH NURSING
3 credits
Prerequisite: acceptance in the Family-Health Nursing Graduate Program. Study of concepts and theories common to nursing. Provides a firm basis for family-health nursing withon the coologicai-phenomenological perspective

## 13 NURSING INQUIRY

3 credits
Prerequisites: 603 and 3470.664. Fhilosophies of science and ethics, concept formation and theory develobment shall be studied. Research in family-health rilrsing with the ecologicalphenomenological perspective shall be implemented

619 FAMILY-HEALTH APPRAISAL
3 credits
Prerequistle: 603 Seminar and practicum will be used to study health appraisal. The tocus will be on the health of families and enfamiliec selves across the tife span

622 FAMILY-HEALTH NURSING I
4 credits
Prerequisites: 603 and 619. Theory and practice of famity-health nursing focusing on concepts: theories and practice relative to families and enfamilied selves within the ecological phenomenological perspective

623 FAMILY-HEALTH NURSING II
4 credils
Prerequisites: 603, 619 and 622. Continuation of 622
624 NURSING OF FAMILIES WITH CHILDREN 3 credits
Deals with the growing chuld and his her family. Infants and childeren from the newborn period through school age will be considered
625 TEACHING STRATEGIES IN NURSING EDUCATION
3 credits
Focus on the development of increased knowleage for the setection of learning cpportunites ettective in the clinical and classroom setting useo by the family-health nurse.

626 NURSING OF FAMILIES WITH ADULT MEMBERS
3 creats
Analysis of the young ana miode-aged adult within the family structure focuses on applica tion of the nursing process with the healthy acult and identification of barriers to maintenance of optimal health

628 HEALTH PERSPECTIVE OF THE EXPANDING FAMILY
3 credifs
Focuses on the nursing analysis of the process of family expansion. the inoividual member's accommodation to that process: and relevant health issues.

629 FINANCIAL MANAGEMENT FOR NURSING ADMINISTRATION
3 credits
Prerequisite: acceptance in the Family-Health Nursing Frogram or by faculty permission Concepts, theories and processes necessary to implement sound financial management for nursing acministration. Focus is on cost containment and its impl:cation for family-health nursing

630 HUMAN RESOURCES IN NURSING SETTINGS
3 credits
Prerequisite. acceotance in the Family-Health Nursing Graduate Frogram or instructor's permission. Identify and examine major issues related to human resources in nursing sel lings. The focus is on those settings where family-health nursing is the core of practice. education and research

635 ORGANIZATIONAL BEHAVIOR IN NURSING SETTING
3 credits
Prerequisite acceptance in the Family-Health Nursing Graduate Program or instructor permission. Designed for the nurse manager. Examines nursing organizational behavior what it is now. and possible future directions. Provides a practical focus with specific examples from nursing service.

670,1 SPECIAL TOPICS
2 credits each
Prerequisite completion of all required first-year courses. Selecled topics and areas of interest to faculty stucient. Avaliable as electives.

672 INDEPENDENT STUDY
1-4 credits
An opportunity for the graduate student to elect an area of nursing for pracilce ano is considered as an option for the following: nursing elective credit and teadership role of nursing elective credit.

673 NURSING OF FAMILIES WITH OLDER MEMBERS
Prerequisite gracuate status. This course focuses on the diversity of roles helo by older adults in various tamily situations such as: the new farnily, the multi-generational farmily, the family with a widowec member, the institutionalized family. Opportunities are provided to function in a leaderstip role in tamily-health nursing and to become involved in community conferences a leadership rote in tamisy-heath nursing and to
which influence puotic policy for older adults.

675 CULTURE, ETHNICITY AND HEALTH CARE
3 credns
Increase cuitural sensitivity by exploration of culturally oiverse health values, beliefs, or practices Life styles of selected ethnic groups, factors affecting the health of individuals in ethnoc communities: the heath-care choices of ethnically siverse populations shall be examined from an ecological/pnenomenological perspective.
680 FAMILY-HEALTH NURSING LEADERSHIP SEMINAR:
DIRECT CARE WITH FAMILIES
Corequisites: $603,613,622,623$. Examines family-health nursing practice utilizing the ecolog-
ical-phenomenological perspective, to identify and explore practice issues and goals. DIRECT CARE WITH FAMILIES
ical-phenomenological perspective, to identify and explore practice issues and goats.

MARTHA R. CONRAD, Family Heaith Nurse Specialist (1984) B.S.N., The Ohio State University, M.S.N.. The University of Akron. 1982

CLARE F. COOK, Assistant Professor of Electronic Technology (1980) A. A.S., B.S., Lake Superin State College: B.S.E E., University of Michigan, 1379.
VERNON F. COOK, Associate Protessor of Political Scionce; Director of the Ray C Bliss Institute of Applied Politics (1965) B.A. The Ohio State University 1951
DALEE. COONS, Professor of Education (1973) B.S.Ed., Butler University, M.S.Eo., Ph.D., Indiana University at Bioomington. 1970.
CONSTANCE CARTER COOPER, Dean of the College ol Education; Protessor of Education (July 1986) B.A. University of Michigan, M.A. Ed.D., Wayne State University, 1971.

ROBERT G. CORBETT, Professor of Geology, Deputy Industral Security Supervisor (1969) B.S M. S.. Ph.D., University of Michigan at Ann Ardor, 1964

JAMES P. CORRIGALL, Assisiant Footbalf Coach (December 1985) B.S., Kent State University, 1970.

FRANK J. COSTA, Professor of Urban Studes, Professor of Geography: Center Associate, Center for Urban Stuoies (1972) B.A., Kent State University; M. S. Case Western Reserve Uriversity, Ph.D., University of Wisconsin at Madison. 1974
DAVID F. Cox, Associale Professor of Urban Studes; Associate Professor of Philosophy (1970) A.E., Morningside College; S.T.B. Ph.D. Boston University, 1953

KAREN M. COZAD, Assistant Proiessor of Biology (1986) B. S, Kent State Univer sity, Fh.D , Iowa State University, 1981.
WALDEN B. CRABTREE, SR., Professor of Education (1968) B.A., St. Memrad College (Indiara); M.S.Ed. Ph.D. Indiana University al Bloomington, 1968

ROGER B. CREEL, Professor of Physics (1970) B.A., Kalamazoo Coilege, Ph.D., Iowa State University, 1969
JAMES L. CRESS, Associate Professor of Accounting (1973) B.S.B.A. M.B.A. Bowlirg Green Slate University; D.B.A. Kent State University, 1979: CPA, Ohio.
MARCIA J. CRIDER, Assistant Professor of Nursing (1983) B.S.N., Duke University M.S.N., Case Western Reserve University, 1963; R.N.
CLARE A. CRItZER, Assistant Professor of Nursing; Coordinator of the Lorain Project (1983) B.S.N., M.S N. Catholic University of America, 1960

ZENA CROYDON, Associate Professor of Art (1986) B.F.A., Art Institute of Chicago.
JOHN CRUM, Assistant Protessor of Markeling and Sales Technology (Wayne Generat and TechnicaiCollege) (January 1980) B.A. M. A. California State University at Long Beach, 1972.
FAYE H. DAMBROT, Associate Frofessor of Fsychology (1967) E.S. Carniegie instilute of Technology; M.A., The University of Akron, 1966
MICHAEL F. d'AMICO, Professor of Marketing (1972) B S. Georgetown University, M.BA Rutgers University; D.B.A., Texas Technical University, 1975
ROBERT B. D'ANGELO, Managing Director of Edwin 3 . Thomas Performing Arts Hall; Adjunct Assistani Professor of Theatre Arts (ivovember 1979) B. S., Syracuse University, 1966
GEORGE DANHIRES, Associate Frofessor of Art (January 1983) B.FA, M FA Ohio University. 1974.

ISIAH DANIELS, III, Assistant Director of Office of Legai Affairs (December 1982) E.A.J.D.. The University of Akron 1976
SUSAN J. DANIELS, Associate Próessor of Education (1977) B. A., Marian College; M.A. Ph.D. Ball State University, 1977.
STEPHEN DARLING, Professor of Chemistry (1970) B.S., University of Wisconsin at Madison, M.A., Ph.D.. Cciumbia University, 1959.

RALPH FRANK DARR, JR., Professor of Education (1968) B.S.Ed., Southeast Missout College, MA.Ed.. Washington University. PhD. Southern illinois University at Cafbondaie, 1967
Patrick a. Darrah, Associate Director of Career Planning and Placement (August 1976 ) A.A.S., B.S., M.S., The University of Akron, 1976.

PAUL A. DAUM, Associate Professor of Theatre Arts (1965) B F. A., wesleyan College; M. A., The University of Akron; Ph.D. The Ohio State University. 1973
BRIAN E. DAVIS, Staff Auditor (January 1985 ) B.S., The University of Akron, 1983
GEORGE D. DAVIS, Professor of Communicative Disorders (1974)E.S.Ed. Kent State University; M.A., Ph.D., The Ohio State University, 1968

KATHLEEN M. DAVIS, Insiructor in Dance (1977) BA. The University of Akron, 1975
N. F. DAVIS, Professor of Management (1970) B.S., Lincoln University; M.B.A., Washington University: Ph.D., Indiana IJniversity at Bloomington, 1960.
RUSSELL K. DAVIS, III, Associate Protessor of Busmess Managemen' Technology (1971) BSB.A.MA. Wayne State University: Ed.D. The University of Akron. 1978
DEBRA L. DEANE, instructor in the Engish Language institute ( 1981 ; A.B. Albion Coitege; M. A. University of lifichigan. 1977
DAVID G. DECKER, Designer/Programmer (February i984; B.A., Kent State University, 1981
MARY H. K. DEE, Associate Professor of Office Administration (1970) B.S.SA University of the East (Manila); M.A., Centrai Missour: State University, 1969
ROBERT DEITCHMAN, Associate Professor of Social Work; Oufreach Coordinator/Hunan Services; (1970) B.B.A., City College of New York, M.A. Ph.D. University of Tennessee. 1968.
bernard a. Deitzer, Professor of Management Director of Seminars (January 1967) A.B., Allegheny College; M.L.L., University of Piltsburgh; Ph.D. The Ohio State University, 1967
JOSEFINA P. de los REYES, Assistant Professor of Mathematical Sciences (1985) BS. M.S. University of the Philippines; M.S., Cleveland State University, Ph.D. Case Western Reserve Universitv, 1985.
JAMES L. DENNISON, Associate Director of Athletics; Assistant Professor of Physical Education (Uuly 1965) B.A., College of Wooster; M.A.Ed. The University of Akron, 1968
CHRISTINA DePAUL, Assistant Professor of Art (1986) B.FA. Carnegie-Meilon University, M.F.A., Tyler School of Art, 1984.

ROBERTA A. DePOMPEI, Associate Professor of Communicative Disarders, Cimical Supervisor in Communicative Disorgers (January 1983) B.S.Ed. M. A. Kent State University, 1969.
HAMILTON DESAUSSURE, Professor of Law (1970) B.A. Yale University: LLB, Harvard University, LL.M., McGill institute of |nternational Air Law, 1953
LaURA DeYoung, Assistant Head, Instructional Support Services (1984) BA. Denison University, 1983
LiLLIAN J. DeYOUNG, Dean of the College of Nursing: Professor of Nursing (July 1975) B.S.M S. Ph.D., Unuversity of Utah, 1975
ROBERT L. DIAL, Associaie Protessor of English(1965)B.S., Central Missouri State Coliege: M. A., Ph.D. University of Missouri. 1963.
JEFFREY C. DILTS, Assistant Professor of Marketing (1983) B.A., University of Missouri at Columbia; M.A.. Northwest Missouri State University; Ph.D., Oklahoma State University, 1983.
LINDA DiPASQuALE, Instructor in Nursing (1985) B.S.N., Medical College of Georgia; M.S.N. Case Western Reserve University, 1985
RICHARD J. DiRIENZO, Assistant Frofessor of Surveying and Construction Technology (1981) B.S.C.E., Youngstown State University; M.S. University of Missouri. 1968.

GEORGE L. DisABATO, Assistant Professor of Commercial Art (1980) B.F.A., The Ohio State University: M.A., University of Louisville. 1964.
THOMAS M. DITZEL, Assistani Professor of Communication; Head, Center for Community and Public TV (December 1977) B.S.. Marquette University, M.A. Mami University. Ph.D., The Ohio State University, 1971

DOROTHY M. DOBRINDT, Assocrate Professor of Nursing (1969) B.S. St. Louis University. M.Ed., Columbla University: 1965: RN.
HELMAR H. A. DOLLWET, Associate Professor of Biology; Radiation Safety Officer (January 1970) B.S., University of Michigan at Ann Arbor; M. S. Technische Hochschule. Munich: M.S. Ph.D.. University of California at Riverside, 1969

IAN S. DONALDSON, Associate Professor of Mechancal Engineering (January 1986) B.Sc., St Ancrews Uriversily: Ph.D. Manchester University, 1955
JOHN L. DONALDSON, Associate Professor of Mathematical Sciences (January 1983) B. S., Case Western Reserve University. M.S. Ph.D. M.S. The Ohio State Uriversity, 1977.
JOSEPH J. DONATELLI, JR., instrucior in Modern Languages (1967) B. A., M A. The University of Akron. 1968.
DENNIS DOVERSPJKE, Assistan Professor of Psychology (1984) B.S. John Carroll University: MS Uriversity of Wisconsirl: Ph.D. Tho Uniyersity of Akron, 983
JAMES E. DOVERSPIKE, Professor of Education (1960) B.S. Inçiana University of Pennsylvania; MÉE. EdD. Pennsyivaria State University, 1961
RICHARD A. DRAPER, Data Base Administrator (February 1986; B A Otterbein College, 1977.
CLARENCE B. DRENNON, Associate Professor of CivilEngineering (1975) B. S., Coiorado Schocl of Mines ME. Texas A \& N: Ph.D. Iowa State University, 1972: P.E. Ohio. Virginia.
SCOTT D. DREsSLER, Assistani Director of Alunmi Relatons (December 1985) B.S., The University of Akron, 1981
JERRY E. DRUMMOND, Associate Protessor of Mechanical Engineering (1981) B.S.M.E., General Motors !nstitue: M.S.M.E. The Universily of Akron: Ph O. The Ohio State University, 1981: F.E, Ohio.
ROBERT A. DUBICK, Associate Provost and Dean of Student Services (1985) A B. St. Mary's; MA.. Fh.D., University of Notre Dame, i973.
KATHY D. DuBOSE, Academic Programmer (Analyst (October 1984) B.S. The University of Akron. 1984.
MILAN F. DUBRAVCIC, Professor of Chemical Technology (Lanuary 1968) ingenieur of Chemistry, University of Zagreb; Ph.D. University of Massachusetts, 1968
R. WAYNE DUFF, Vice President for Business and finance, A ssistant Secretary to the Board of Trustees (May i963) B.A., Oberlin College; LL.E.. Cleveland-Marshatl Law School, 1951.
TIMOTHY R. DuFORE, Director of Development (February 1984) B A. Westminster College: MA. Bowling Green State University, 1977 .
JOHN THOMAS DUKES, Assistani Prolessor of Enguish (1984) B.A. M.A. University of El Paso. Ph.D. Purdue University, 1984
JANNE R. DUNHAM, Assoctate Prefessor of Nursing (uanuary 1985) B.S., Michigan State University: M S. Pho. University of Michigan, 1982; R.N.
JAMES W. DUNLAP, Dean of the College of Business Adrmistration, Professor of Finance (1963) B.B.A. Memphis State University; M.B.A.. Ph.D., University of Arkansas. 1963.

JOSEPH J. DUNN, Director of Specialivents - Athletics (March 1976) B. S. Kent State University, 1974
KENNETH A. DUNNING, Professor of Compuier iniormation Syskms $(1973)$ E.SEE., North Carolina State Uriversity, MB. A. PhD. University of Pittsburgh. 1972
CHARLES J. DURBIN, Instrucior in Physical Education (;979) B.S. College of Wonster; M.A.Ed. ihe University of Akron, 1981.
ROGER W. DURBIN, Assistant Protessor of Bibliography; Libray Systems/Planning Officer 1977, B.A. M.A. Youngstown State University, M.L.S. Ph.D. Kent State University. 1985.
DAVID R. DURST, Professor of Finance (1968) B S.B.A. Kent State University: MB.A., D.B.A. Georgia State Unversity, 1972.
ASHOK DUTT, Protessor of Geography; Protessor of Urbari Sudies(1968) B.A. M.A., Ph.D., Patna University (India), $196{ }^{\circ}$
KATHLEEN DWYER, Assistant professor of Nursing 1983 : BS.N. The University of Akron; M.S.N. Case Western Reserve University, 1982

CHARLES MYRON DYE, professor of Education Director of Graduate Siudies in Education (1972) B.A., Harris Teachers College; M.A., Fh.D., Washington University, 1971

LYLE DYE, JR., Assistant Professor of Theatre Arts (1981) B.FA. Drake University, M F A., Yale Universily, 1958.
JOHN W. EDGERTON, instructor in Electronic Technology (January 1984) B.S. Cornell University; M.S., Purdue University, 1972.
SANDRA B. EDWARDS, Director of Noncreali Courses ( 976 ; B A. M. A. The Universty of Akrori, 1968.

JAMES B. EGAN, Assistant Professor of Education (1985) B.S. M.S., Ed.D., Syracuse University, 1985.

JAMES J. EGAN, Protessor of Engirsh (1971)B A. St. Joseph's Coliege: M. A., Ph.D., University of Notre Dame, 1971
JANICE L. ELEY, Assistant Proiessor of Hosphaily Management (1976) B.A. Manchester College: M. A Incliana University, 1974.
ROBERT K. ELEY, Associate Proiessor of Education (1975) B.S.Ed. M.S.Ed. Sall State University, Ed.D., Indiana University i975.
FAROUK W. ELKHAROUF, Assistant Prolessor of Accounting (1985) B SC. University of Jordan; MB.A. The American University of Beiruti PhD. University of thinols. 1982.
J. RICHARD ELLIOTT, JR., Assistant Frolessor of Chemical Engineering (January 1986) B.S., Christopher Newport Coilege, M.S. Virginia Polytechnic Instituie anc State University; Ph.D.. Pennsylvania State University, 1985.
J. R. ELLIS, Research Engineer in Civit Engineering (January 1983) B.Tech., Loughborough University of Technology, M. Phil., London University, 1968
DANIEL L. ELY, Professor of Biology, Professor of Biomedicat Engineering (1976) E A., M S., Ph.D., University of Southern California, 1971.
JAMES R. EMORE, Assistant Protessor of Accounting 1973 )B A Ed M S. Acct., The University of Akron; D.B.A. Kent State University, 1984.
ELIZABETH B. ERICKSON, Associate Professor of Economics (1969) B.3., M.S. Uriversity of Western Australia: Ph.D. University of illinois, 1972.
EARL L. ERTMAN, Professor of Ant 1967 ; B. S. Universtly of Southern Nississippi; M.A., Case Western Reserve University, 1967.
BERNARD L. ESPORITE, Professor of Education (1970) B.S.Ed, M Ed. Ph.D., Miarni University. 1971.

MARY ETHRIDGE-WILLIAMSON, Difector of Editorial Proyects (May 1983) A.B., Princeton University, 1981
THOMAS L. FAESSEL, Associate Director of Residence Halls (November 1983) B A., Bowling Green State University: M A., Ball State University, 1978.
FRED W. FANNING, Associate Professor of Education (1972) B.S. M.A., Ph.D., The Ohio Slate Universily. 1972
4. CLAYTON FANT, Assisiant Proiessor of Classics: Assistant Protessor of History (1984) B.A.. Williams College; Pn.D. University of Michigan, 1976.
STEPHEN A. FARIA, JR., instructor in Modern Languages (1967) B.A. Harvard University, M. A., Comell University. 1965.
BETTY B. FARMER, Associate Director of Development--Research (November i984) BA. Baldwin-Waliace College, 1983.
JEAN M. FARONA, Assistant Professor of Surgical A ssisting Technology (1980) B S, M.S., The University of Akron, 1984.
MICHAEL F. FARONA, Protessor of Chemistry, Faculty Research A ssociate Insutute of Potymer Scrence (1964) B.S. Case Western University, M S. Ph.D. The Ohro Siate University. 1964
LEONA W. FARRIS, Director of the Community involvement Component of Home Economics (1969) B.S., The Ohio State University, M.A., Kent State University, 1970.

ROBIN R. FAST, Associate Professor of English (1980) A.B. University of California, Berkeley: M.A. Hunter College; Ph.D., University of Minnesota, 1979.

LEED. FAULHABER, Cataloger (November 1985)B.A., Cleveland State University,M.S.L.S.Case Weslern Reserve University, 1985.
GERARD A. FAUST, JR., Head Football Coach (December 1985) B.S.Ed. Liniversity of Dayton: M.Ed., Xavier U'niversity, 1965.

RICHARD M. FAWCETT, Associate Prolessor in the Community and Technical College ( 1969 ) B.A. M.Ed., Kent State University, 1959.

JAMES V. FEE, Frofessor of Communication(1967) B.S.Ed., M.S.Ed., Southem lllinois University at Carbondale; PhD. The Ohio State Uriversity. 1964
RUDY FENWICK, Associate Professor of Socrology (1978) BA. Universily of Oklahoma: M.A. McGill University: Ph.D., Duke University, 1978.
DEMETER G. FERTIS, Professor of CivilEngineering (1966) B.S., M.S. Michigan State University; Ph.D., Eng.. National Technical University (Athens, Greece). 1964
ROBERT FIELDS JEANTET, Assistant Professor of Modem Languages (1984) B.A., M.A., Queens College: Ph.D., City University of New York. 1976.
ROBERT A. FIGLER, Assistant Frolessor of Management (1985) B.A. Indiana University of Pennsylvaria; M.A., Pn.D., West Virginia University, 1984
JOHN P. FINAN, Professor of Law (1967) B.A., Fordham University; J.D., Columbia University. 1961.

EDWARD M. FIRER, Research Associate in the Institute of Polymer Science (June 1975) B.A University of Bridgeport, MS.. University of Maryland; Ph.U. The University of Akron, 1973.
STEVEN A. FISHER, Assistant Professor of Accounting (1984) B.S.A.. M.S.A., The University of Akron; D.B.A., Kent State University, 1985; C.M.A.
VIRGINIA L. FITCH, Assistant Professor of Social Work (1981) B.S. East Tennessee State University, M.S.W., University of Hawaii; PhD., Gase Western Reserve University, 1982.
JUDITH L. FITZGERALD, instructor in Bibliography; Cataloger (July 1969) B.A.. West Virginia Wesleyan University; M.S.L.S., Case Western Reserve University, 1976.
PHYLLIS A. FITZGERALD, Associate Professof of Nursing; Assistant Dean of the Undergraduate Program (November 1982) B.S.N., Saint Louis University; M. A.N., New York University; Pri.D., University of Arizona. 1982
PATRICK J. FITZSIMMONS, Assistant Professor of Mathematical Sciences (1983) B. 5. Pennsylvania State University; M.S., Ph.D. Case Western Reserve University, 1981.
EUGENE FLAUMENHAFT, Associate Prolessor of Biology (1963) B. A., Adelphi University; M.S. PhD. University of Chicago. 1958
virginia J. fleming, Protessor of Home Economics (1969) B.S., indiana University of Pennsyivania, M.Ed., Pennsylvania State University, Ph.D., Kent State University, 1983.
WILLIAM S. FLEMING, Protessor in the Community and Technical College (1966) B.Sc.Ed., Rutgers University: M.A., University of Pennsyivania; Ph.D., Kent State University, 1970
CAROL A. FLEXER, Assistant Protessor of Communicative Disorders (1982) B.A. Metropolitan State College: M.A.. University of Denver; Ph.D. Kent State University. 1982.
LAWRENCE G. FOCHT, Associate Professor of Chemical Engineering (1968) B.S.Ch.E., University of Iowa; M.S.Ch.E. Ph.D., Louisiana State University. 1969: P.E., Chio.
ANNABELLE FOOS, Assistant Professor of Geology (1984) B. A., State University of New York at Potsdam; Ph.D. University of Texas, 1984.
ANTONIA FORSTER, Assistant Profescor of English(1986) E A., M. A., Flinders University, 1980.
HAROLD M. FOSTER, Associate Professor of Education (1976) B.A. Indiana University of Pennsylvania; M.A.. University of Pittsburgh; Ph.D., Universily of Michigan, 1976.
ROBERT J. FOURNIER, Assistant Athletic Difector for Academic Affairs (1979) B.S., Defiance College; M.A., J.D. The University of Akron, 1986
WILLIAM A. FRANCIS, Assistant Dean of Buchtel College of Arts and Sciences; Associate Protessor of English (1966) B.A. M. A., Duquesne Universtly. Ph.D. Case Western Reserve University, 1975
dOROTHY A. FRANCY, Certification Cocrdinator, College of Education (1979) B.S., M.S. The University of Akron, 1973.
GARY B. FRANK, Assistant Prclessor of Accounting (January 1985) EA., University oi Minnesota; M.A., Ph.D., M.A.S. University of llinois, 1984.

RICHARD FRANKLIN, Assistant Professor of PofiticalScience (1970) B.A. Bryan College: M.A., Michigan State University; Ph.D., University of Kentucky, 1976.
JOHN E. FREDERICK, Associate Professor of Chemistry; Associate Protessor of Polymer Science (October 1966) B.S.Ch., Glenville State College; Ph.D., University of Wisconsin, 1964.
ROGER FREEMAN, College Centered Account Executive (December 1985) BA., M. A., Kent State University: 1985.
LAVERNE M. FRIBERG, Associate Professor of Geology (March 1976) B.S., University of Wisconsin; M. A.. Ph.D. Indiana University at Bloomington, 1976.
ROBERT L. FRITZ, JR., Assistant Director of Gardner Student Center (June 1976) B.S.. The University of Akron, 1976.
JOHN L. FROLA, Associate Professor of Biology (1971) B.S., Waynesburg College; M.S., Ph.D., West Virginia University, 1970.
BILL.J. FRYE, Associate Frofessor of Education; (1971) B.S., M. S., Indiana State University:Ph.D., The Ohio State University, 1971.
STEPHEN S. FUGITA, Associate Professor of Psychology (1971) B.S.. The Ohio State University: M. A. Ph.D., University of California at Fiverside, 1969

DONNA GABOURY, Associate Professor of Home Economics (1977) B.A., College of Saint Catherine: M.A, Smith College: Pr.D., University of Massachusetts. 1973

ROBERT E. GAEBEL, Associate Frofessor of Classics (1970) B.A., M.A., State University of New York at Buffalo; Ph. D., University of Cincinnati, 1968
THOMAS J. GALLAGHER, Director of Building Services and Grounds, Physical Facilities (July 1977) B. A., Saint John's University, 1962

JULIA A. GAMMON, Assistant Proiessor of Bibliography, Head, Acquisitions Department (August 1973) B. A., University of Fiorida; M.S.L.S., University of Pittsburgh. 1967

Robert n, Gandee, Professor of Physical Education; Prolessor of Biomedical Engineering: General Studies Course Director: Physical Education (1973) B.S., M.S., The University of Akron; Ph.D., The Ohio State University, 1972.
GARY M. GAPPERT, Director of Institute for Futures Studies and Research; Professor of Urban Studies (December 1979) B.A., Colorado College; PhD. Syracuse University, 1972.
T. NEAL GARLAND, Professor of Sociology (1969) B.A., M.A., University of North Dakota; Ph D., Case Western Reserve University, 1971.
PAUL D. GARN, Professor of Chemistry, Director, Center for Fire and Hazardous Malerials Research (1963) B.S., M.S.,Ph.D., The Ohio State University, 1952.
GASPER A. GAROFALO, Associate Professor of Economics (1979) B. A., St. Vincent College; M.A., Ph.D., University of Fittsburgh, 1974.

GARY R. GARRETT, Assistant Professor of Military Science (August 1986) B. A., Saint Martin's College, 1986; Captain, Signal Corps.
CAROLE G. GARRISON, Associate Professor of Criminal Justice (1981)B.A., University of Miami: M.P.A., Georgia State University; Ph.D., The Ohio State University, 1979.

KENNETH D, GARTRELL, Assistant Professor of Management (January 1982) B.S., M.S., Kent State University, 1975
JO ANN GARVER, Assistant Protessor of Data Frocessing (1982) A.A.S., B.S.T.E. M.S.T.E., The University of Akron, 1984.
ALAN N. GENT, Professor of Polymer Physics (April 1961) B.S.C. (General), B.S.C. (Specia) Physics), Ph.D., University of London, 1955.
ARTHUR V. GEORGE, Associate Professor of Transportation (1979) B.B.A., City College of New York; M.B.A., Iona College, 1972
CHRISTINE R. GERBIG, Assistant Professor of Office Administration (1979) A.A.S., B.A.. The University of Akron: M.Ed., Kent State University, 1982.
DON R. GERLACH, Professor of History (1962) B.S.Ed., M.A., Ph. D., University of Nebraska at Lincoln, 1961.
THOMAS E. GETZINGER, University Auditor; Assistant to the vice President for Business and Finance (1969)B.S.B.A., The University of Akron; M.B. A., Kent State University, 1966: C.P.A.

LORELEI O. GIBBS, Instructor in Nursing (1984) B S.N., University of Cincinnatr, Ed.M., Boston University, 1968; R.N.
RUSSEL N. GIERSCH, Assistant to the Associate Vice President of Administrative Services tor Physical Facilties - Special Projects (1966) BM.E. Cleveland State University. 1954
CAROL C. GIGLIOTTI, Assistant Protessor of Office Administration (1981) A.A.S.. Becker Juntor College: BA.Ed. M.A.Ed., The University of Akron, 1977
RICHARD J. GIGLIOTTI, Associate Professor of Sociology (1972) B. A., St. John Fisher College: M.A. Ph.D.. Michigan State University, 1972.

KRISTINE GILL, Assistant Professor of Nursing (1976) B.S.N. St. John College, Cleveland: M.Ed. Cleveland State University; M.S.N. Ph.D., The University of Akron. 1985; RN
PETER J. GINGo, Associate Professor of Mathematical Sciences; Associate Professor of Bromedical Engineering (1969) B.S. The University of Akron: M.A. Ph.D. University of California at Los Angeles, 1966.
LOIS IRENE GLANVILLE, instructor in Nursing (January 1985) B.S.N. The Ohio Stale University: M.S.N., The University of Akron, 1983.

ELTON A. GLASER, II, Protessor of English (1972) B.A., M.A. Louisiana State University: M.F.A. University of California at Irvine, 1972.
WILLIAM M. GLAZIER, Professor of Surveying and Construction Technology in the Communty and Technical College, Protessor of Construction Technology in the College of Engineering (1958)(1967) B.S.C.E., Michigan Technical University: M.S.C.E, University of Michigan; Ph.D., West Virginia University, 1978 ; F.E. Ohio, Michigan and District of Columbia.
THEODORE L. B. GLOECKLER, Professor of Education (1972) B.A., Lycoming College; M.A. University of Northern Colorado, Ph.D.. University of Michigan at Ann Arbor. 1973
CAROLYN J. GLOVER, Assistant Director of Student Financial Aid (August 1985) B.S.I.M., The University of Akron, 1982
PEARLMARIE Y. GODDARD, Liaison Officer - Education (December 1981) B. S.Ed., M Ed, Kent State University, D. Ed., The University of Akron. 1985
LATHARDUS GOGGINS, Associate Professor of Geography (1969)B.A. Central State University: M.A.. The Ohio State University: Ph.D., St. John's University; EdD., M.S T.E., The University of Akron, 1985.
LAWRENCE G. GOLDEN, Professor of Marketing and Sales Technology (1968) B. S. Case Western Reserve University: M.B.A., University of Pennsylvaria, 1968.
GALE A. GOLEMBESKI, Assistant Professor of Art (1978) B.F.A., Cleveland Institute of Art, 1970
MARY BETH GOLEMO, Director of Studeni Development (July 1984) A.A.S., B.S., The University of Akron; M.Ed., University of South Carolina, 1975
MICHAEL R. GOLEMO, Assistant Protessor of Music; Acting Director of University Bands (1984) B.M.E., M.M., Northwestern University, 1983.

TOM A. GOOSBY, Manager of the Health and Physical Education Building (July 1970) B A, Baldwin-Wallace College; M. A.Ed., The University of Akron, 1978.
GEORGE R. GRAHAM, Head of Electronic Systems (November 1974) A.A.S., Williamsport Area Community College; B.S., The University of Akron, 1973.
H. ROGER GRANT, Professor of History (1970) B.A., Simpson College; M.A.. Ph.D., University of Missouri at Columbia, 1970
NANCY K. GRANT, Assistant Professor of Urban Studies (1983) B. A.. University of Dallas, M.A. Ph.D., The University of Texas, 1982
RICHARD L. GRANT, Professor of Law (1967) B.S., University of Pennsylvania; J.D., Stantord University; L.L.M., Georgetown University, 1967
VELMA RUTH GRAY, Professor of Nursing (1985) B.SN M.SN. Casc Western Reserve University; Ed.D., The University af Akron, 1982.
HOWARD L. GREENE, Professor of Chemical Engineering: Protessor of Biomedical Engineering (1965) B.Ch.E., M.Ch.E., Fh.D., Cornell University, 1966.

BERNARD D. GREENSPAN, Assistant Protessor of Mathematical Sciences (1985) BS University of Maryland; Ph.D. Cornell University, 1981
C. FRANK GRIFFIN, Professor of Physics (1967) B S., M.S. Texas Technologicai Colliege; Ph.D. The Ohio State University, 1964
CLAIBOURNE E. GRIFFIN, Dean of Buchtel College of Arts ana Sciences; Professor of Chemistry (July 1974) B. A., Princeton Univers.ty, M.S., Ph.D., University of Virginia, 1955
PHYLLIS S. GRIFFITH, Director of Alumnt and Constituency Relations (Juiy 1979) BA. The University of Akron, 1979.
EDNA P. GRIST, A ssociate Protessor of Nursing (January 1968) B.S.N.Ed. M.S.Ed., The University of Akron, 1967: R.N.
JUDITH A. GROENEWEG, instructor in Nursing (1984) B.S. N. University of Wisconsin; M.S.N. The University of Akron, 1983.
RICHARD J. GROSS, Associate Professor of Mechanical Engineering (1967) B.S.M.E., Uriversity of Pittsburgh; M.S.M.E., Ph.D., Carneģje Institute of Technology, 1967; P.E., Ohio.
JAMES E. GROVER, Assistant Professor of Electrical Engineering (1979) B.S., Ohio Nothern University, M.S., Ph.D., Ohio University, 1981
FRANK J. GRUCCIO, JR., Associate Professor in the Community and Technical College (1966) B.A. M.A., The University of Akron, 1967.

ROBERT S. GRUMBACH, Associate Professor of Electrical Engineering (1961) B.S.E.E., Case Western Feserve University; M.S.E.E., West Virginia University, 1951
BARBARA A. GSELLMAN, Instructor in Mechanial Technology' (1967) B.M.E., The University of Akron: 1950
PURUSHOTTAM DAS GUJRATI, Assistant Protessor of Physics; Assistant Protessor of Polymer Science (1983) B.Sc., Banaras Hındu University, India; M.Sc., Indian Institute of Technology, India; M.A M. Phil., Ph.D., Columbia University 1979.
VIRGINIA L. GUNN, Associate Professor of Home Economics (January 1974) B.S., Kansas State University: M.S., Syracuse Uriversity, 1972.
MARGARET B. GUSS, Assistant Protessor of Bibliography, Behavioral Sciences Bibiographer (December 1976) B.A., Oberlin College, Mi.L.S. University of Oregon, 1969
JOHN F. GWINN, Associate Professor of Biology (1970) B. A. Manchester College: M.S., Purdue University; Ph.D.. Kent State Uriversity. 1972
MICHAEL HABER, Associate Protessor of Music (1983) B. A., Brandeis University: M. M., indiana University, 1966
MICHEL S. HADDAD, instructor in Mechanical Technology (February 1971),
MAYO A. HADDEN, III, Professor of Miltary Science (August 1985) B.S. University of Alabama: M.BA. Hardin-Simmons; Graduate of U.S. Air Force War College: Leutenant Coionel Infantry
ROBERT D. HAHN, Direcion of Sudent FinancialAldand Employment (July 1969; B.S. M. Eo. Kent State University, 1969.
ALI HAJJAFAR, Assistant Prolessor of Mathematical Sciences (1984) B.S.. M. S.. University for Teacher Eciucation in Tehran. Iran; M.S. Ph.D., Michigan State University, 1984
DONALD E. HALL, Associate Professor of Communicative Disorders (1974) B.S.Eo. Inolana Universily of Pennsylvania: M.Ed., Westminster College: Ph. D. Onio University. 1971
PAMELA A. HALL, Assistant Registrar, Director of Registration and Scheduling (1981) BS Ed. The University of Akron. 1968
LYNN E. HAM, College Centered Account Executive (January 1986j B.A. Abion Colege. 1983
GARY R. HAMED, Associate Professor of Potymer Science: Associate Protessor of Biomedicai Engineering (1980)B.S.C.E. M.S.C.E., CornelUUniversity: Ph.D. The University of Akron. 1978
 Ph.D., The Ohio State University, 1973
JAMES K. HARDY, Associate Proiessor of Chemistry (1981) B.S. Cumberand College: Pri.D. Louisiana State University, 1981.
sUbramaniya I. Hariharan, Associate Professor of Mathernaticai Sciences (1985) B.Sc.. University of Sri Lanka; M.Sc., University of Salford, Englana; MS., Ph.D., Carnegie-Mellori University, 1980.
PATRICIA HARKIN, Assistant Protessor of English (1984) B. A., University of Kentucky MA. University of Virginia; Ph.D., Miami University, $197 \%$
VERN R. HARNAPP, Assoctate Professor of Geography (1972) B.S.Ea.. Concordia Teachers Coliege; M.S.Ed., University of Pennsylvania; Ph.D., University of Kansas, 1972.
WILLIAM D. HARPINE, Assistant Professor of Communication (1982) A.B., Wiliam and Mary College: M.A. Northern Illinois University: Ph.D. University of llinois, 1982.
JACK D. HARPOOL, Associate Protessor of Data Processing (March 1970) B.S., M.B.A. The University of Akron, 1968.
FRANK W. HARRIS, Professor of Polymer Science: Professor of Biomedical Engineering; Research Associate, Institute of Polymer Science (1983) B.S. University of Missouri M. . Ph.D. University of towa. 1968.
MONICA L. HARRISON, Assistant Professor of Mathematics (Wayne General and Technicat College) (1983) B.A. Walsh College; M.S., Universily of Notre Dame, 1982.
ALAN HART, Protessor of Phitosophy (1970) B.A., M.A., Suracuse University: Ph.D., University of Pennsylvania, 1965
TOM HARTLEY, Assistant Protessor of Electrical Engineering (1984) B.A., B.S. Onio Northern University: M.S., Ph.D., Vanderbilt University, 1984.
DONALD E. HARVEY, Professor of Alt (1973) B.A., Mankato State College; M.F.A.. Temple University, 1971.
JEFFREY S. HARWELL, Graphic Designer. Prini Communications (November 1985) A.O., B.F.A The University of Akron. 1984.
H. JAMES HARWOOD, Plofessor of Chemistry: Professor of Polymer Science (October 1959) B.S., The University of Akron, Ph.D.. Yale University, 1956

RICHARD HAUDE, Associate Professor of Psychology (1967) A.B., Kenyon College, M.S. Ph.D. University of Pittsburgh, 1964
DOUGLAS R HAUSKNECHT, Assistant Protessor of Marketing (January 1986 B.S., M.B.S University of Florida, 1981.
JON M. HAWES, Associate Protessor of Marketing (January 1981) A.S., Vincennes University B.S., M.B.A., Indiana State University; Fh.D., University of Arkansas, 1981.

DAVID N. HAWK, Associate Protessor of Finance(1980) B.S., The Ohio State University; M.B.A D.B.A. Kent State University, 1971

DAVID M. WEIS, Professor of Education (1967) B.A. Loras College: M.Ed. Ohio University; Ph.D. The Ohic State University, 1967.

JOHN T. WELCH, JR., Associate Protessor of Electrical Engineering; Director of the Engineering Computer Graphics Facimy (1973) B.S., M.S., Ph.D., North Carolina State University at Raleigh, 1964.

ARTHUR G. WENTZ, Associate Professor of finance (1982) B.S.B.A., Duquesne University M.B.A., University of Pittsburgh; Ph.D., The Ohio State University, 1969.

ANNE H. WEST, Professor of Ollice Administration (1971) B.S., Salem College; M.S Ed. Madiscn College. 1965
ROBERT C. WEYRICK, Acting Associate Provost for Academic Services; Prolessor in the Community and Technical College (February 1965) B.E.E., The University of Akron, M.S. Case Institute of Technology, 1965: P.E., Ohio
JAMES L. WHITE, Professor of Polymer Engineering: Director of the Certer of Polymer Engineering (July $\dagger 983$ ) BS.CnE., Polytechnic Institute of Brookivn; M.S.Ch.E. Ph.D., University of Delaware, 1965

CHERYL L. WHITMORE, Assistant Protessor of Data Processing 1982)B.A., M.S. The University of Akron, 1977
JOHN WIANDT, Assistant Controlter (July 1967) B.S. Bus. Ed, Kent State Unversity, 1965
JUDY D. WILKINSON, Associate Protessor of Marketing (1984) B.S., M.B.A., Louisiana Poly technic Institute: Ph.D., University oi Alabama, 1972
DENNIS WILLIAMS, Assistant Professor of Aerospace Stucies (August 1984) B.A. University of Southern California; M.A., Webster College, 1982; Lieutenant, USAF. Missile Maintenance Officer.
JEAN R. WILLIAMS, Associate Protessor of Home Economics; Assistant Director-Curriculum, University Nursery Center (January 1973) B.S., Iowa State University; M.S. The University of Akron, 1972.
JOHN D. WILLIAMS, Professci of Finance, Editor of "Akron Business and Economic Review" (1969) B.S., Westminster College; M.B.A., D.B.A., Kent State University. 1971.

MAURICE WILLIAMS, Protessor of toducation (1965) B.A., The University of Akrom; M.E., Kent State University: Ed.D., Case Western Reserve University. 1962
MICHAEL M. WILLIAMS, Assistant Professor of General Technology (1982) B. S., Bowling Green State University, M.S., University of Wisconsin at Milwaukeo, 1973
RICHARD A. WILLIAMS, Associate Professor of Electrical Engineering (1968), B.S., M.S. Ph.D. The Ohio State University, 1965: P.E, Ohio
Max S. WILLIS. JR., Professor of Chemical Engineering; Professor of Bromedical Engineering (1968) B.S., Ch.E., Pennsylvania State University, M.S.Ch.E. PhD lowa State University of Science and Technology, 1962.
RICHARD A. WILLIS, Instructional Programmer, Computer Based Education Center (wanluary 1980) B.S Ed., The Ohio State University; M.M. The University of Akron. 1980

CHARLES W. WILSON III, Professor of Physics, Professor of Polvmer Science: Research Associate, insthute of Polymer Science (1965) B.S.E., M.S., University of Michigan at Ann Arbor: Ph.D. Wasnington University, 1952
ERNEST LEE WILSON, Assistant to the Dean, College of Business Administration: Director of Internship Programs, College of Business Administration(1972), (1974), (i976) B.5.B.A. The Ohio State University: M.B.A. The University of Akron. 1969: C.M.A.
G. EDWIN WILSON, JR., Professor of Chemistry (1984) S.B.. Massachusetts institute of Tech nology; Ph.D.. University of liinois, 1964
JOHN WESLEY WILSON, Direcfor of Black Cultural Center, Drector of Afro-American Stroties (July 1970) B.S. Abany State College: M.S.Ed. Ed.D.. The University of Akron, 1983.
PAUL S. WINGARD, Associate Dean of Buchtel College of Arts and Sciences. Prolessor of Geology (February 1966) B.A. M.S., Miarri University; Ph.D. University of illinois at Urbana. 1960
BERNARD S. WINICK, Associate Professor of Business Law; Diector of Undergraduate Siudies (1979) B.S.B.A. The Oho State University, JD. The University of Akron, 1964.

DAVID S. WINKLER, Research Associale, Institute of Potymer Science; Manager of Applied Research, Institute of Polymer Science (October 1969) E.S., Ashland College; M.S., The University of Akron. 1972.

CYNTHIA D. WITNER, Assistant Director of Pubtic Relations (August 1984) B.A., Kent State University. 1978.
DAVID D. WITT, Assistant Prolessor of Home Economics (1983) B.A. M. A. Pn.D.. Texas Tech University, 1983
MARY O. WITWER, Associate Protessor of Office Administration (1971) (19/2) B.S., The University of Akron, M E Ohio University, 1951
MICHAEL P. WOODFORD, Assistant Football Coach (January 1986) B.A., Universily of Arizona. 1982.

JOHN W. WORKS, Associate Protessor of Finance (i981) B A., Brown University: J.D., Onio Northern University, M.B.A., Ph.D., Northwestern University, 1968
DENISE F. WRAY, Assistant Professor of Communicative Disorders (1980) B.A., M. A., Ph.D. The University of Akron, 1985
ISAAC YETIV, Professor of Modern Languages (1975) B A., Hebrew University of Jerusálem: Ph.D., University of Wisconsin, 1970
WALTER H. YODER, JR., Assistan to the Dean, College of Education: Professor of Education; Drector of Educational Field Experience (1971) B.A.. Tutls University: M.A., New York University: Ed.D., Indiana University at Bloomington, 1971.
GERALD W. YOUNG, Assistant Professor of Mathematical Sciences ( 1985 ) B.S. The Universily of Akion; Ph.D., Northwestern University. 1985
LAVERNE C. YOUSEY, Assistant Prolessor of Respiratory Therapy Technology (1976) B.A. Gosher College: M.S.Tech.Ed., The University of Akron. 1979
EDWARD A. ZADROZNY, JR., Associate Protessor of Music (1977) B.M.E. The Ohio State University; M.M., University of Illinois, 1975.
ROBERT L. ZANGRANDO, Prolessor of History (1971)B.A., Union Coliege:M.A. Ph.D Universivy of Penneylvania, 1963
PAUL H. ZAREFSKY, Assistant Protessor of Law (1982) B.A.. Oberlin College; J D., Universty of Pennsylvania: L.L.M. Georgetown University, 1982.
JOHN J. ZARSKI, Professor of Education (1985) B.S., Bloomsburg State Coltege: M. A.. University of Maryland; Ph.D., Ohio University, 1975.
HANS O.ZBINDEN, Assistant Professor ot Modern Languages (1965) B.A. Wittenberg University: M.A., University of Pennsylvania; Ph.D., Pennsyivania State Universily, 197 ,

DALE L. ZIMMERMAN, Assistant Professor of Aerospace Studies (1985) B.S. The University of Akron: M.B.A. University of Missouri. 1984: Captain. USAF. Missile Operations.
DONALD A. Zimmerman, Assochate Prolessol of Marketing and Sales Technology (1973) B.S.B.A., Defiance College; M.B.A., University of Pernsylvania, 1968

NOEL S. ZUGAY, Academe Adviser (July 1978) B.A.. M.A., Indiana Liniversity of Pennisyvania, 1978.

PATRICK D. ZURASK1, Assistant Professor of Civilengineering (1986)B.S. M.S.. Ph.D., University of Wisconsin-Madison, 1986

## Full-Time Teaching Faculty

(by College, School and Depariment and the University Library)

## Sept. 1986

## University College

## General Studies

head: David C. Riede
COURSE DIRECTORS: John D. Bee, Robert N. Gandee, Jim L. Jackson, Janet E. Marting, James F. Richardson.

## Community and Technical College

Division of Allied Health Technology
CHAIRMAN: Assistant Professor Laverne C Yousey.
ASSISTANT PROFESSORS: Jean M. Farona, Dorothy C. Moses, Raymond Sibberson, Genevieve H. Turlik.

## Division of Associate Studies

Chairman: Professor Blin B. Scatterday
PROFESSORS: Williain S. Fleming, Dennis A Kıeidon, Jack F. Mercer, Jonn B. Monroe. Beverly J. Mugrage Arthur R. Pollock. Jr
ASSOCIATE PROFESSORS: Anna M. Barnuin, Michael S. Bennett, Stanley R. Bruns, Richard M. Fawcett. Frank J. Gruccio. Jr.. Wendelf A Johnson, Rose A. Kleidor. Jon R. Peske. Charles T. Salem, Frederick J. Sturm, James D. Switzer, Edith K. Weinelein
ASSISTANT PROFESSORS: LeonardM. Calabrese, George L. Disabato, John G. Hearick, Walter $M$. Herip, Michael J. Jalbert, Laura J. Johnson, Velma E. Pomrenke. Stantey B. Silverman!. Willam V Webo, Deborah S Weber
INSTRUCTOR: Holiy C. Slack.

## Division of Business Technology

CHAIRMAN: Protessor James W. Taggart
PROFESSORS: Lawrence G Golden, Mary Jean Johnston, George J. Nakar. Linda J. Fodda, Joan E. Warner Anne H. West.

ASSOCIATE PROFESSORS: Gerald R. Camp. John A. Cole, Robert E. Colins, Russell K. Davis, Ill. Mary H Dee Arthur V George. Jack D. Harpool. Jack D. Huggins, James W. Nolte, Martin H Siegei, Martha W. Vye, Virginia J. Watkins. Mary O. Witwer, Donald A. Zimmerman
ASSISTANT PROFESSORS: Darice A. Angwin. Lloyd L. Close. Janice L Eley, Jo Ann Garver. Christine R. Gerbig, Carol O Gigliotti, Elizabeth A Larviere. Richard H. Lewandowski, Rebecca S. Marsh. Rosie C Mickey, Joyce E Mirman, Raifh j. Prall. Darius Rastomji, Jack E. Thompson Cheryl L Whitmore.
INSTRUCTORS: Richara W Altora, Donato V. Laconı, Philip E. Phillips.

## Division of Engineering and Science Technology

CHAIRMAN: Professor Thomas $P$. Herbert.
PROFESSORS: Ronnie G. Adams, Thomas M. Brittain, Nathan F. Caraarelli. Milan F. Dubravcic. William MV Glazier. Richard L. Henry, Sebastian V. Kanakkanatt. Fred L. Mullen. David J Robinson, Robert C Weyrick.
ASSOCIATE PROFESSORS: Thomas R. Conneli, Edwerd E. McDonald. Dennis K. Sullivan. Joseph A Takacs. Melvin C. Vye
ASSISTANT PROFESSORS: Clare F. Cook Richard J. DiRienzo, Paul R. John, Wyatt Kilgaliin, Minnie C Pritcharc. Janet B Van Doren, Michael M. Williams.
INSTRUCTORS: Johin W. Edgerton. Barbara A. Gseliman. Michel S. Haddad.

## Division of Public Service Technology

Chalrman: Protessor Joseph Ri Lentini
PROFESSOR: Kenneth L. McCormick.
ASSOCIATE PROFESSORS: Carole G. Garrison, Harriet K. Herscowiz. Robert W. Higham, Glenn H. Snyder, Karen B. Turner.

ASSISTANT PROFESSOR: John Mumper
INSTRUCTORS: Elizabeth L. Beldon, David H. Hoover.

## Buchtel College of Arts and Sciences

## Biology

HEAD: Protessor Dale L. Jackson
PROFESSORS: Daniel L. Ely, Nada Ledinko. Lazarus Macior. Ficharo A. Mostarai, John H. Olive, Walter A. Sheppe. Warren P. Stoutamire.
ASSOCIATE PROFESSORS: Helmar H. E. Dollwet, Eugene Flaumenriat1, John L. Frola, John G Gwine F Scott Orcutt. Jr., Donald W. Ott. Daniel B. Sneffer
ASSISTANT PROFESSORS: Karen M. Cozad, Martna M. Kory. Dorothy Moses, Ronald L. Salisbury, Jerry N. Stimner, Monte E. Turner.
INSTRUCTOR: Wei Jen Chang

## Chemistry

head: Professor G. Eifwin Wilson, Jr
DISTINGUISHED PROFESSOR: Joseph P. Kennedy.

PROFESSORS: Stephen D. Darling, Michael F. Farona, Paul D. Garn, Claibourne E. Griffin, H James Harwood, John J. Houser. Willam G. Korron, Gerald F. Koser, Donala Mcintyre.
ASSOCIATE PROFESSORS: John E. Frederick. James K. Hardy. Alan F. Krivis. Henry A. Kuska. Danici J. Smith, Ronald E. Viola.
ASSISTANT PROFESSORS: Kim C. Calvo. Peter C. Preusch, Helen W. Richter, Michae: J. Taschner.

## Classics

HEAD: Assistant Professor Jacqueine Hegbar
ASSOCIATE PROFESSOR: Robert E Gaebel.
ASSISTANT PROFESSORS: J. Clayton Fant, Gary H. Oller

## Economics

HEAD: Associate Protessor Rancall H. King.
PROFESSORS: William S Hendon, Manoucher Parvin
ASSOCIATE PROFESSORS: Dennis M. Byrne. Elizabeth B. Erickson. Gasper A Garofalo. Lung
Ho Lin. Devinder M. Malhotra, Steven C. Myers, Gary E. Seliers, Richard W. Stratton.
ASSISTANT PROFESSOR: Varanne T Hill

## English

HEAD: Professor R. Paul Merrix
PROFESSORS: James J. Egan, Elton A. Glaser, Ill, D'Orsay W. Pearson, Gerard M. Sweeney
ASSOCIATE PROFESSORS: Joseph F. Ceccio. Robert L. Diai. Robin R. Fast, Willam. A. Francis. Bruce Holland. Robert M. Holland, David L. Jones, Walter D Lehrman. Lawrence T. Martin. Martın H. Mckoski, Kenneth J Pakenham, Arthur L. Patacas, Robert F. Pope. Jr. David Nicholas Ranson, Diana C. Reep. Sally K Slocum, Dawn Trouard
ASSISTANT PROFESSORS: Jutta T. Bendremer, John Thomas Dukes, Antonia Forster. Patricia Harkin. Julia A. Hull. Mary K. Kirz, Janet E. Marting. SheryI A. Stevenson
INSTRUCTORS: Alice MacDonald, Arlene A. Toth.

## Geography

HEAD: Professor Alen G. Noble
PROFESSORS: Frank J. Costa. Ashok K Dutt. Laurence J. Ma Thomas L. Nash
ASSOCIATE PROFESSORS: Lathardus Goggins, Vern Fi Harnapp. Charles B Monroe. John E Mulhauser
ASSISTANT PROFESSOR: Robert B. Kent. II.

## Geology

HEAD: Protessor Robert G. Corbett
PROFESSORS: Arthur E. Burford. A. W. Kunze, James W. Teeter, Paul S. Wingard
ASSOCIATE PROFESSORS: Roger J. Bain, Charles $H$. Carter. Lindgren L. Chyi. Laverne $M$ Friberg, Jim L. Jackson, john P. Szabo.
ASSISTANT PROFESSOR: Annabelie Foos

## History

HEAD: Professor Robert H. Jones.
PROFESSORS: J. Wayne Baker, Vincent H. Cassidy, Barbara E. Clements, Don R Geriach. H Roger Grant, George W. Knepper, David E. Kyvig, Noel L Leathers. Sheldon B. Liss. William McGucken, Jerome Mushkat, Daniel Nelson, James F. Richardson, David C. Riede, Robert L. Zangrando.

ASSOCIATE PROFESSORS: Boris Blick. June K. Button, Howard S. Reinmutn, Jr
ASSISTANT PROFESSOR: $ل$ Clayton Fant.

## Mathematical Sciences

HEAD: Professor William H. Beyer
PROFESSORS: David C. Buchthal, Dougias E. Cameron, PhillipH Schmidt Leonard Sweet.
ASSOCIATE PROFESSORS: Dale Borowiak, Robert C. Carson, John L. Donaldson. Peter J. Gingo, Subramaniya I. Hariharan, William W. Hokman, Lala B. Krishna, Ernest A. Kuehis, Chano Midha. Judith A. Palagallo, Wolfgang Pelz. Thomas E. Price. Jr. Antonio R Quesada. Neal C. Raber, Johanna S. Schruben. Donald P. Story, George L. Szoke.
ASSISTANT PROFESSORS: Josetina P de los Reyes. Patrick J. Fitzsimmons, Bernard Green. span. Ali Hajjafar, John A Herminger, M. Mariha Lierhaus, Timothy S. Margush. Mary E. Maxwell, Timothy S. Nortolk, David B. Stark, Stephen P. Stehle, Richard P. Stemer, Hui-Qan Tan Gerald W Young

## Modern Languages

ACTING HEAD: Proiessor Hugo Lijeron.
PROFESSORS: Arno K. Lepke, Eugene A Maio, Allan J. McIntyre, Claude Y. Meade. Herbert W Smith, Jr., Isaac Yetiv.
ASSOCIATE PROFESSORS: Joiita Kavaliunas, William, Miller. Helen L Ryan. Phillp W Stuyvesant.
ASSISTANT PROFESSORS: Robert Fields Jeantet. Hans O. Zbinden
INSTRUCTORS: Joseph J. Donatelli, Stephen A. Faria. Janice Houser, Sys Inman. Kriemhilde Livingston, Susan Schunk.

## Philosophy

PROFESSORS: Alan Hart, William E. McMahon.
ASSOCIATE PROFESSORS: David F. Cox, James H. Buchanan

## Physics

HEAD: Protessor Roger B. Creel
PRoFESSORS: Harry T. Chu, Alan N. Gent, C. Frank Griffin, Ernst D. von Meerwall, Charles W Wison, III.
ASSOCIATE PROFESSORS: Peter N. Henriksen II. Harry T. Pinnick, Ronald E. Schneider
ASSISTANT PROFESSORS: David R. Bowman, Purushottam Das Guirati

## Political Science

HEAD: Professor Lesse F. Marquette.
PROFESSORS: Yong H. Cho, David J. Louscher, Yogendra Malik, Franik Marini
ASSOCIATE PROFESSORS: Vernon F. Cook, Katherine Hinckley, Frank J. Kendrick, Carl Lieberman.
ASSISTANT PROFESSORS: Stephen C. Brooks, Richard K. Franklin, Bette H. Hill, George W. Pruet, Jr.

## Polymer Science

HEAD: Professor H. James Harwood
distinguished professor: Joseph P. Kennedy.
PROFESSORS: Alan N. Gent, Frank W. Harris, Frank N Kelley, WayneL. Mattice, Denald Mointyre, Eberhard A. Meinecke, Irja Fiirma, Roderic P. Quirk, Charles W. Wilson ill.
ASSOCIATE PROFESSORS: John E. Frederick. Gary R. Hamed
ASSISTANT PROFESSOR: Purushottam Das Guirati.

## Psychology

HEAD: Professor Gerald V. Barrett.
PROFESSORS: Ralph Alexander. Alexis M. Anikeeff. Robert G. Lord, John A. Popplestone, Harvey Sterns, Edwin E. Wagner.
ASSOCIATE PROFESSORS: Faye H. Dambrot, Stephen S. Fugita, Richard i. Haude, Martin D. Murphy, Marion W. McPherson, Henry Rosenquist, Raymond Sanders
ASSISTANT PROFESSORS:Mary A. Brickner, Dennis Doverspike, Susan I. Hardin. Gary J. Sipps, Linda M. Subich

## Sociology

HEAD: Protessor David J OBrien.
PROFESSORS: Charles M. Barresi, Carl A. Bersani, T. Neal Garland, Lloyd B. Lueptow, John P Marwitt, Mckee J. McClendon, Margaret M. Poloma, Robert M. Terry
ASSOCIATE PROFESSORS: Rudy Fenwick, Richard J. Gigliotti, Donald J. Metzger. Samuel A Mueller. Brian F. Pendleton.
ASSISTANT PROFESSORS: Huey-Tsyh Chen, Paul B Colomy, Donald E. Stull, Jr, Mark B Tausig.

## Urban Studies

HEAD: Professor Yong H. Cho
PROFESSORS: Fiank Costa, Ashok Dutt, Gary M. Gappert, William S. Hendon. Frank Marini James F. Richardson, James L. Shanahan
ASSOCIATE PROFESSORS: David F. Cox. Frank J. Kendrick, Richard E. Klosterman, Peter J Leahy. Douglas V. Shaw.
ASSISTANT PROFESSORS: Nancy K. Grant, Allan R. Lundell

## College of Engineering

## Biomedical Engineering

HEAD: Associate Professor Karen M. Mudry
ACTING HEAD: Associate Professor Daniel B. Sheffer
PROFESSORS: Mamerto L. Chu, Daniel L. Ely, Robert N. Gandee, Howard L. Greene, Frank W Harris, Eberhard A. Meinecke, Richard A. Mostardi, Jonathon S. Rakich, Louis E. Roemer Michael Savage, Max S. Willis, Jr
ASSOCIATE PROFESSORS: Larry A. Abel, Feter J Gingo, Gary R. Hamed, Sunggyu Lee, Carl R. McMillin. Thomas E. Price, Narender P. Reddy, Daniel 」 Smith, Bruce C Taylor
ASSISTANT PROFESSOR: Michael J. Askew.

## Chemical Engineering

HEAD: Professor Howard L. Greene
PROFESSORS: Glenn A. Atwood, Jozsef M. Berty, Robert W. Roberts, Max S. Willis, jr.
ASSOCIATE PROFESSORS: Lawrence G. Focht, Sunggyu Lee, Robert F. Savinell.
ASSISTANT PROFESSORS: Harry M. Cheung, Steven S. Chuang, J. Richard Eliott, Jr.

## Civil Engineering

HEAD: Professor Andrew L. Simon
PROFESSORS: Tse-Yung Chang, D. G. Fertis, Louis A. Híl, Jr., David M. Robinson, Simsek Sarikelle.
ASSOCIATE PROFESSORS: William B. Arbuckle, Ciarence B. Drennon, David M. Timmerman. ASSISTANT PROFESSORS: Michael T. Askew, Mark S. Kennedy, Kenneth L. Klika, Robert Ying-Ko Liang. Atef F. Saleb, Faul D. Simpson, Patrick D. Zuraski.

## Electrical Engineering

HEAD: Protessor Chiou-Shiun Chen
PROFESSORS: Chun-Fu Cnen, Kai-Fong Lee, Louis E. Roemer, Donald C. Thom.

ASSOCIATE PROFESSORS: Robert S. Grumbach. Chaman N. Kashkarı Karen M. Mudry, Malcolm R. Railey, John T. Weich. Jr.. Richard A. Williams
ASSISTANT PROFESSORS: James Grover, Tom Hartley. Nathan Ida

## Mechanical Engineering

HEAD: Professor Benjamin T. Chung
PROFESSORS: Thomas M. Brittain. Mamerto L. Chu, Jr., Azmi Kaya, Brian P. Leonard, Eberhard A Meinecke, Joseph Padovan. Michael Savage, Rudolph J. Scavuzzo, Jr
ASSOCIATE PROFESSORS: Celal Batur, Minel Braun, Kat-Chung Choy, Ian S. Donaldson Jerry E. Drummond, Richard J. Gross, Samuel G. Kelly, Ill, Paut C. Lam, Stanislaw A. Lukowski. John S. Seratini

ASSISTANT PROFESSOR: Garneti Ryland.

## Polymer Engineering

HEAD: Protessor James L. White
PROFESSORS: Nobuyuki Nakajima. Joseph Padovan, James L. Throne.
ASSOCIATE PROFESSOR: Avram I Isayev
ASSISTANT PROFESSORS: Mukerrem Cakmak, Thein Kyu.

## College of Education

## Counseling and Special Education

HEAD: Professor Theodore L. Gloeckier
PROFESSORS: John R. Cochran, Dale Coons. James E. Doverspike, Wiliam E. Nemec, Joseph M. Walton, David M. Weis, John J. Zarski
ASSOCIATE PROFESSORS: Fred W. Fanning, Gary W. Kane. Michael Ross
ASSISTANT PROFESSORS: Roger F. Bass, Alice E. Christie.

## Educational Administration

ACTING HEAD: Professor Donald Birdsel
PROFESSORS: Constance Carter Cooper, James C. King, Marvin H. Maire, Richard F. Viering.
ASSOCIATE PROFESSOR: W. Henry Cone

## Educational Foundations

HEAD: Professor Rita S. Saslaw.
PROFESSORS: Abdul Amir Al-Rubaiy, H. Kenneth Barker, Ralph O Blackwood. Gerali J. Blumenield. Walden B. Crabtree. Raiph Darr, Jr.. Charles M. Dye. John J. Hirschbuni, isadore Newman, Frederick M. Schultz, John S. Watt
ASSOCIATE PROFESSORS: M. Kay Alderman, Edward B. Lasher
ASSISTANT PROFESSOR: William A. Mavrides.

## Elementary Education

HEAD: Professor Bernard L. Esporite
PROFESSORS: Caesar A. Carrino. Hugh G Christman, Loren L. Hoch, Laverne J. Meconi, Judith A. Noble, Joan C. Seifert. Robert Sovehik. Ramon F. Steinen, Maurice G. Williams.

ASSOCIATE PROFESSORS: Walter E Arms. Mary Ellen Atwood. David G. Barr. Blanche Clegg Susan J. Danieis, Mastha C Leyden, Regis Q McKnight, Janet R. Reuter, Norma L. Spencer. ASSISTANT PROFESSORS: Jackie M. Anglin, vames B Egan, Lynn A. Smolen,

## Physical Education

HEAD: Professor Robert N. Gandee.
PROFESSOR: J. Thomas Adolpi
ASSOCIATE PROFESSORS: Bruce L. Hollering, Mary J. MacCracken, Robert J. Mravetz, Wyatt M. Webb.

ASSISTANT PROFESSORS: Alexander L Adams, T Allen Campbell, James L. Dennison, Judith E. Maftett, Patricia J. Taylor, Mary A. Tripodi

INSTRUCTORS: Charles J. Durbin, David L. Newell, Stephen J. Parker, John M. Street.

## Secondary Education

HEAD: Professor Larry G. Bradley
PROFESSORS: Joseph P Arnola, Joy S. Lindbeck, Marion A. Ruebel, Michael N. Sugarman, Stephen J. Thompson, Walter H. Yoder.
ASSOCIATE PROFESSORS: Robert K. Eley, Harold M. Foster, Bill J. Frye, Lillian M. King.
ASSISTANT PROFESSOR: Fred M. Carr.

## College of Business Administration

## Accounting

HEAD: Professor Richard S. Roberts.
DISTINGUISHED PROFESSOR: Orville R. Keister
PROFESSORS: Hobart W. Adams, Arthur D. Kariin, Dennis L. KimmetI. Roberta P. Marquette, Charles K. Moore, Jr., Arjan T. Sadnwani.
ASSOCIATE PROFESSORS: Donald K. Berquist. Allen M. Cabral, James L. Cress, Darlene R Kausch. Vincent P Kopy. Alvin H. Liebermian, David L. Nichols.
ASSISTANT PROFESSORS: Lance J. Besser, Farouk W. Elkharouf, James R. Emore, Steven A. Fisher, Gary B. Franik. Myron J. Hubler, Jr., II-Woon Kim. Sharon L. Kirnmell. Dayal Kiringoda. Hai G. Fark, John A. Rude, Mostafa H. Sarhan, Linda Sugarman.

## Finance

HEAD: Associate Protessor Arthur G. Wentz.
PROFESSORS: Arpad F. Banda, James W. Dunlap. David R. Durst, james E. Inman. Michael F. L.tka, Robert J. Shedlarz, James R. Webb. John D. Williams

ASSOCIATE PROFESSORS: David Hawk, Bernard S. Winick, Jonn W. Works
ASSISTANT PROFESSORS: Allen S. Andersoǹ, C. R. Narayanaswamy, Harridutt Ramcharran. David A. Redle.
INSTRUCTOR: Patricia Billow.

## Management

HEAD: Protessor Alan G Krigline
PROFESSORS: N. F Davis, Bernard A. Deitzer, Kenneth A. Dunning, Keith A. Klafehn. Joseph C Latona. Richard C. Lutz, Gary E. Meek, Jonathon S. Rakich, Karl A. Shilliff, Howard L. Taylor
ASSOCIATE PROFESSORS: Kenneth E. Aupperie. Donald E Becker, John E Hebert. Paul J Kuzdrall, Jayprakash G Patankar, Franklin B. Simmons, III
ASSISTANT PROFESSORS: James J. Divoky, Robert A. Figler, Kenneth D. Gartrell, Avis L. Johnson, Deane V. Pham, Mary A. Rothermel.

## Marketing

HEAD: Professor Dale M. Lewison.
PROFESSORS: Michael F. d'Amico, Donald M. Jackson, William V. Muse.
ASSOCIATE PROFESSORS: Jon M. Hawes, Kenneth E. Mast, George E. Prough, John Thanopoulos. Judy D. Wikinson.
ASSISTANT PROFESSORS: Jeffrey C. Dilts, Douglas R. Hausknecht, Aif H Walle.
INSTRUCTOR: Robert D. Sproat.

## College of Fine and Applied Arts

## Art

HEAD: Protossor Earl L. Ertman
PROFESSORS: Bruce F. Armstrong. Donald E. Harvey, Dennis A. Kleidon, Ronald D. Taylor
ASSOCIATE PROFESSORS: Zena Croydon, George Danhires, Lorena M. Holshoy Robert J. Huff. James V Lensvit, Christopher P. Meyer. Dennis A. Meyer, Penny Rakoff, Mark E. Soppeland, Domia S Wevb. Thomas D Webb
ASSISTANT PROFESSORS: Andrew Borowiec. Christina Depaul Gale Golembeski. Waiter M. Hoip Idwand Laughner. Harry Murutes. Vlada Vukadinovic.

## Communication

HEAD: Protemsor Davig L Jamison
PROFESSORS: John D Bee James V. Fee Ruth B. Lewis
ASSOCIATE PROFESSORS: F. Dennis Lynch, Thomas T. Miles, Linda L. Moore, Nancy M. Somerick

ASSISTANT PROFESSORS: Richard E. Caplari, Thomas M. Ditzel, William D. Harpine.

## Communicative Disorders

HEAD: Professor George D. Davis.
ASSOCIATE PROFESSORS: Jean L Blosser, Roberta DePompei. Donald E. Hall, Carol W Lawrence, Sharon A. Lesner. James M. Lynn. Kenneth T. Siloac, Karen B. Turner, Winifred Watson Florence.
ASSISTANT PROFESSORS: Karyn Bobkoff. Carol A. Flexer, Mona L. Klingler. Denise Wray.

## Home Economics and Family Ecology

HEAD: Professor Mary C. Rainey.
PROFESSORS: Barbara N. Armstrong, Tomasita M. Chandler. Virginia Fleming.
ASSOCIATE PROFESSORS: Carolyn A Albanese, Doris J. Aldrich. Helen K. Cleminshaw, Donna Gaboury. Virginia L. Gumn. Janice L. Heckroth, Barbara Heinzerling, Harriet K. Herskowitz. Lucille B. Terry, Jean R. Williams.
ASSISTANT PROFESSORS: Dana L. Chapman, Pamela T. Price, David D. Witt.
INSTRUCTORS: Fise Krigline, Patricia M. Kuhn, Suellen Roberts.

## Music, Theatre and Dance

ACTING HEAD: Professor Richard N. Shirey.
PROFESSORS: David S. Bernstein, Frank Bradshaw, Richard J. Jackoboice, John A. MacDonald, Jr., Wallace H. Nolin, Howard K. Slaughter, Sherman D. Vander Ark.
ASSOCIATE PROFESSORS: Alfred Anderson, Cliftord C. Bilions, Alan Bodman, Paul A. Daum, Michael P. Haber, Scott A. Jonnston, Tucker R. Jolly, Marian J. Lott, Barbara J MacGregor, Eugene A. Mancini, Adel A. Migid, Marc C. Ozanich. George S. Pope, Mary G. Schiller, Laurence D. Shapiro, Larry D. Snider. Wallace Stering, Ralph Turek, Edward A. Zadrozny, Jr.
ASSISTANT PROFESSORS: Tana F. Alexander, Stephen Aron, David H. Bell, Jerry J. Burr, Margaret A. Carlson-Braham, Eugenia Carrol, Kelvie C. Comer, L.yle Dye, Jr., Michael R. Golemo, Virgil Hicks, William G. Hoyt, Jr, David T. Johns. Roland R. Paolucci, Georgia K. Golemo. Virgil Hicks, Wiliam G. Hoyt, Jr., David T. Johns. Ro
Peeples, Nikola Resanovic. James Ryon, Richard L. Shanklin.
INSTRUCTOR: Kathieen M. Davis.

## Social Work

HEAD: Protessor Gauri S. Rai.
ASSOCIATE PROFESSORS: Robert Deitchman, John H. Ramey.
ASSISTANT PROFESSORS: Virginia L. Fitch, Aaron R. Mann.

## College of Nursing

PROFESSORS: Lillian J. DeYoung. Velma Ruth Gray, Kathryn M. Homeier
ASSOCIATE PROFESSORS: Dolores A. Bower, Barbara E. Brown, Dorothy M. Dobrindt, Jarme R Dunham, Phyllis A. Fitzgerald, Edna P. Grist, Alma J. Hoffer. Mary Helen Kreidier, Joanne M Marchione, Susan J Stearns, Karen S. Tarpey.
ASSISTANT PROFESSORS: Elaine D. Alexander, Barbara Anandam, Joan E. Baumgardner, CheryI L. Buchanan, Janet L. Chamberlain, Jo Ann H. Collier, Marcia J. Crider, Clare A. Critzer, Theresa M. Dowd, Mary F. Dugan, Kathleen Dwyer, Cynthia L. Gibbons, Kristine M. Gill, Doreen D. Iafelice, Dianne C. Kulasa, Gaynor E. Lanik, Linda G Linc, Gail C. McCain, Elaine F. Nichols, Willeane V Schrock, Diana J. Sousa, Winifred J. Waiter
INSTRUCTORS: Nancy L. Barkley, Sara Barnes, Lu Ann Beavers, Deborah K. Berkey, Karen A. Bolyard, Pamela Bonnett, Denise J. Click, Linda DiPasquale, Elaine M. Fisher, Lorelei O. Gibos, Lois I Glanville. Judith A. Groeneweg, Marjorie M. Heinzer, Marlene Huff, Susan S. McLaughlin, Christine M. McQuiston, Elaine E. Mott, June Patton. Regina L. Pickett. Paula R Renker. Carolyn B. Roberts. Mary Schmedia, Susan L. Tayior. Adele A. Webb.

## School of Law

PROFESSORS: Richard L Aynes, Merlin G. Briner. James W Childs, Hamilton DeSaussure, John P. Finan, Richard L. Grant, Donald M. Jenkiris, Charles E. Kırkwood, Richard J. Kovach, Marvin M. Moore.

ASSOCIATE PROFESSORS: Lloyd C. Anderson, William C. Becker, Dana F. Castle, William S. Jordan, III, David H. Kessler, Margery B. Koosed, Albert H. Leyerle, Tawia Modibo Ocran, Roger D. Purdy, Paul Richert.
ASSISTANT PROFESSORS: J. Dean Carro, Richard C Cohen. Wilson R. Huhn, Carol A. OlsonEllyson, Elizabeth A. Reilly. William D. Rich, Faul H. Zarefsky.

## Wayne General and Technical College

## PROFESSOR: Warner D. Mendenhalt.

ASSOCIATE PROFESSORS: R. Diane Arnold, Armolene J. Maxey, Robert L McElwee, Janet L. Minc, Ellen S. Politella, Forest J Smith, Edwin Thall. Tyrone M. Turning
ASSISTANT PROFESSORS: Thomas E. Andes, John Crum, Monica L. Harison, Louis M. Jarielie, Jr., Emily A. Rock, Kay E. Stephan.
INSTRUCTORS: Gary A Bays, Jane F. Roberts. Patsy Vehar.

## University Library

DIRECTOR: Professor George V. Hodowanec.
PROFESSOR: Ruth E Clinefelter.
ASSOCIATE PROFESSORS: Jack E. Hibbs. Jr. Helen P. Livingsion, John V. Miller. Jr. Juditn K. Mowery, Anna M. Voorhees
ASSISTANT PROFESSORS: David R. Brink, Barbara L. Ciark, Roger W. Durbin, Julie A. Gammon, Margarei B Guss, Miriarm A. Joliat, Norma J. Pearson.
INSTRUCTORS: Ann D. Bolek, Judith L. Fitzgerald, Aichard E. Friedman.

## Reserve Officers' Training Corps July 1986

## Army

MAYO A. HADDEN, III, Professor of Miltary Science (August 1985) B S. University of Aiabama; M.BA. Hardin-Simmons: Graduate of US. Air Force War College: Lieutenant Colonet. Iniantry.
JAMES L. ANSON, Assistant Protessor of Mifitary Science (June 1983) E.S West Virginia University, 1969: Major. (USAR). Infantry.
ERNEST C. BOROWICZ, Assistant Professor of Military Science ((July 1983) BS., Central Michigan University, 1976: Captain, Finance.
JON A. CALVERT, Assistant Professor of Millary Science (July 1985) B. A. University of Toledo, 1982; Captain (ONG), Engineer.
GARY R. GARRETT, Assislant Prolessor of Miltary Science (August 1986) B A. Saint Martin's Coilege, 1986: Caplain, Signal Corps.
HILTON E. HEINEKE, III, Assisiant Professor of Miftary Science (August 1984)B. A. Westminster College. 1975: Captain. Intantry.
HERSCHEL E. CALDWELL, Operations NCO (August 1985) Master Sergeant
ROBERT N. SCOTT, Chiel instructor (July 1984) Sergeant Major.
ROBERT W. HINSHA, Supply Sergeant (July 1985) Staff Sergeant.

## Air Force

WILLIAM F. LEYDORF, JR., Professor of Aerospace Studies (August 1984) B.S., U.S. Air Force Academy; M.S. Purdue, 1967; Lieutenant Colonel, USAF. Pilot
DONALD L. LOGSTON, Assistant Professor of Aerospace Studies (July 1986) B.S., M.S.. West Virginia University, 1982, Captain, USAF, Project Engineer.
TROXEL O. PLUMMER, Assistant Protessor of Aerospace Studies (1985) B.S. Southern Illinois University: M.S., United States International University, 1981, Captain, USAF, Data Operatıons.
DENNIS WILLIAMS, Assistant Prolessor of Aerospace Studies (August 1984) B A., University of Southern California: M. A. Webster College. 1982: Lieutenant, USAF: Missile Mantenance Officer.
DALE L. ZIMMERMAN, Assistant Protessor of Aerospace Studies 1985 ; B.S. The Universty of Akron: MB. A Universily of Missoufi. 1984, Captain, USAF. Missile Operatons.
STEVEN S. FRAME, NCOIC. POC. Records (1985) Staft Sergeant. USAF. Personnel
JAMES K. BLAND, NCOIC, GMC Records (March 1986) Sergeant. USAF. Administration.

## Instilute of Polymer Science

FRANK N. KELLEY, Director of the Institute of Polymer Science; Professor of Potymer Science (1978) B.S., M. S., Ph.D., The University of Akron. 1961.

VINCENT A. ALTIER, Research Associate, Institute of Polymer Science (January 1983) A.B. Youngstown State University: M.S., The University of Akron, 1954.
MICHAEL F. FARONA, Professor of Chemistry; Faculty Research Associate, institule of Polymer Science (1964) B.S.. CaseWestern Reserve University; M.S. Ph.D. The Ohio State University, 1964
EDWARD M. FIRER, Research Associate, Institute of Polymer Science (June 1975) B.A. University of Bridgeport; M.S. University of Maryland; Ph.D., The University of Akron, 1973.
JOMN E. FREDERICK, Associate Protessor of Polymer Science; Associate Protessor of Chemistry (1966) B.S.Ch.. Glenville State College; Ph.D., University of Wisconsin. 1964.
ALAN N. GENT, Protessor oi Polymer Physics (April 1961) B.S., Ph D. University of London, 1955
PURUSMOTTAM DAS GUJRATI, Assistant Protessor of Physics; Assistant Professor of Polymer Science (1983) B.Sc., Banaras Hindu University, India; M.Sc., Indian Institute of Technology, India; M.A., M. Phil., Ph.D., Columbia University, 1978.
GARY R. HAMED, Associate Protessor of Polymer Science: Associale Protessor of Bromedical Engineering (1980) B.S.C.E., M.S.C.E., Cornell University; Ph D., The University of Akron, 1978.
FRANK W. HARRIS, Professor of Polymer Science; Research Associate, Instilute of Polymer Science (1983) B.S., University of Missouri; M.S., Ph.D.. University of lowa, 1968.
H. JAMES MARWOOD, Professor of Polymer Science; Professor of Chemistry (October 1959) B.S., The University of Akron, Ph.D., Yale University, 1956

JOSEPH P. KENNEDY, Distinguished Professor of Polymer Science: Distinguished Professor of Chemistry (1970) B.Sc.. University of Budapest; M.B.A., General Business. Rutgers University Ph.D. University of Vienna, 1961.
WAYNE L. MATTICE, Alex Schulman Professor of Polymer Science (July 1986) B.A. Grinnell College; Ph.D., Duke University, 1968.
dONALD MCINTYRE, Proiessor of Polymer Science; Professor of Chemisiry (1966) A.B., Lafayette College; Ph.D., Cornell University, 1954
EBERHARD A. MEINECKE, Professor of Polymer Science, Professor of Mechanical Engineering (October 1963) D. Eng., Institule of Technology (Braunschweig, Germany), 1960.
IRJA PIIRMA, Professor of Polymer Science (December 1952) Diploma in Chemistry, Technische Hochachule of Darmstadt; M S., Ph.D., The University of Akron, 1960
RODERIC P. QUIRK, Protessor of Folymer Science (October 1983) B.S., Rensselaer Polytechnic Institute; M.S., Ph.D. University of Illinois. 1967
EVERETT SANTEE, JR., Manager of the NMR Center, Research Associate, institute of Poiymer Science (1966) B.S., West Virginia State Coliege, 1962.
ERNST D. VON MEERWALL, Professor of Physics; Faculty Research Associate, Institute of Polymer Science (1971) B.S., M.S., Northern Iliinois University; Ph.D., Northwestern University 1970
CHARLES W. WILSON III, Research Associate, Institute of Polymer Science; Professor of Physics; Professor of Polymer Science (1965) B.S.E., M.S., University of Michigan; Ph.D. Washington University, 1952
DAVID WINKLER, Manager of Applied Research, Institute of Polymer Science; Research Associate (October 1969) B.S., Ashland College; M.S., The University of Akıon, 1972.

## Institute for Biomedical Engineering

KAREN M. MUDRY, Director, institute for Biomedical Engineering Research; Associate Protessor of Electical Engineering; Associate Protessor of Biomedical Engineering (1979) B.E.E., Vilanova University: M.S., Johns Hopkins University: Ph.D. Cornell University, 1978.
LARRY A. ABEL, Associate Professor of Biomedical Engineering (1986) B.S., M.S. Pn.D. Carnegie-Mellon University, 1976.
CARL R. McMILLIN, Associate Professor of Biomedical Engineering; Director, Cardiovascular Lab 1983 )B.M.E. General Motors Institute of Technology, M.S., Ph.D., Case Western Reserve University, 1974.
NARENDER P. REDDY, Associate Professor of Biomedica! Engineering (March 198i) BE. Osmania University: M.S.. University of Mississippi; Ph.D.. Texas A\&M University. 1974.
DANIEL B. SHEFFER, Acting Director of the Institute for Biomedical Engineering Research. Associate Protessor of Biology, Associate Prolessor of Biomedical Engineering, Director, Biostereometrics Laboratory (July 1980) B.S., M.Ed., Northwestern State College: Ph.D. Texas A\&M University, 1976.

## Center for Polymer Engineering

JAMES L. WHITE, Director of the Center of Polymer Engineering; Professor of Polymer Engineering (July 1983) B.S.Ch.E., Polytechric Inslitute of Brooklyn, MSChE., PhD., University of Delaware, 1965
MUKERREM CAKMAK, Assistant Professor of Polymer Engineering (August 1983) B.S. Technical Universily of Istanbuł; M.S., Ph.D., University of Tennessee, 1984
CHIM-HUNG CHEN, Chiel Engineer, Polymer Engineering Center (1985) B.S. Tatung Institute of Technology; M.S., University of Tennessee, 1981
AVRAM I.ISAYEV, Associate Professor of Polymer Engineering (1983) M.Sc. Azerbaijan Institute of Oil and Chemistry: M.Sc., Moscow Institute of Electronic Machine Building; Pn. D., USSR Academy of Sciences, 1970.
THEIN KYU, Assistant Protessor of Polymer Engineering (1983) B.Eng, Kyoto institute of Technology, M.Eng., D. Eng., Kyoto University, 1980
KYONSUKU MIN, Senior Principal Engineer, Polymer Engineering Center (August 1983) B.Eng., M.Eng., Kyoto Institute of Technology; Ph.D., University of Tennessee. 1984

NOBUYUKI NAKAJIMA, Professor of Polymer Engineering (1984) B.S., Tokyo University; M S Polytechnic Instifute: Ph.D.. Case institute of Technology, 1958

## Presidents

## Buchtel College

S. H. McCOLLESTER*, 1872-1878. D.D. Litt. D
E. L. REXFORD*, 1878 - 1880 . DD

ORELLO CONE*, 1880-1896. D.D
CHARLES M. KNIGHT*, 1896-1897. D.Sc. (ad interim)
IRA A. PRIEST*, 1897-1901, D.D
A. B. CHURCH*, 1901-1912. D.D., LL.D.

PARKE R. KOLBE*, 1913 , Ph.D., LL.D.

## The University of Akron

PARKE R. KOLBE*, 1913-1925, Ph D.. LL.D.
GEORGE F. ZOOK*, 1925-1933, Ph.D., LL.O
heZZLETON E. SIMMONS*, 1933-1951, M.S., D.Sc.LL.D
norman P. Auburn, 1951-1971, B.A. D.SC., Litt.D., L.H.D., LL.O., D.C.L.
D. J. GUZZETTA, 1971-1984, Ed.D. LL.D., D.S.SC., L.H.D.

WILLIAM V. MUSE, 1984 . B.S., M.B.A., Fh.D

## Deans of the Colleges of The University of Akron

## Buchtel College of Arts and Sciences

ALBERT I. SPANTON*, 1913-1938, M.A. Litt.D.
CHARLES BULGER*, 1938-1948, Ph.D., Litt.D.
ERNEST H. CHERRINGTON, JR., 1948-1960, Ph.D.
THOMAS SUMNER*, 1960 -1962, Pn D.
GEORGE W. KNEPPER, 1962-1967. Ph.D.
DON A. KEISTER, 1967-1969, PhD.
JOHN BACHMANN*, 1969-1970. Ph.D (acling)
ROBERT A. OETJEN, 1970-1977. Ph.D
CLAIBOURNE E. GRIFFIN, 1977- Ph.D.

## College of Engineering

FREDERIC E. AYER*, 1914-1946, C.E., D.Eng
A. D. LANDON, 1946-1963, C.E.. M.S.
W. M. PETRY*, 1963-1964. M.S.M.E. (acting)

MICHAEL J. RZASA*, 1964-1970. Ph.D.
COLEMAN J. MAJOR, 1970-1979. Ph.D.
JOSEPH EDMINISTER, 1980-1981, J.D. (acting)
LOUIS A. HILL, JR., 1981 - Ph.D.

## College of Education

W. J. BANKES ${ }^{\star}$, 1921-1931, M.A

ALBERT I. SPANTON*, 1931-1933, M.A., Litt.D. (acting)
HOWARD R. EVANS*, 1933-1942, PhD.
HJALMER W. DISTAD*, 1942-1944, Ph.D. (acting)
MOWARD R. EVANS*, 1944-1958. Ph.D.
D. J. GUZZETTA, 1958-1959. Ed.D. LL.D., D.S.Sc., LH.D. (acting)

CHESTER T. McNERNEY, 1959-1966, Ph.D., LL.D.
H. KENNETH BARKER, 1966-1985. Ph.D.

JOHN S. WATT, 1985-1986, Ph.D (acting)
CONSTANCE COOPER, 1986- Ed.

## College of Business Administration

WARREN W. LEIGH*, 1953-1962. Pn D.
RICHARD C. REIDENBACH, 1962- 967 , Ph.D
ARTHUR K. BRINTALL, 1967-1968, Ph.D. (acting)
WILBUR EARLE BENSON*, 1968-1970. Ph.D.
JAMES W. DUNLAP, 1970- PhD.

## School of Law

STANLEY A. SAMAD, 1959-1979, J.SD.
ALBERT S. RAKAS, 1979-1981, J.D. (interim)
DONALD M. JENKINS, 1981 -, LL.M

## Graduate School

CHARLES BULGER*, 1933-1951, Ph.D., Litt.D. (Dean of Graduate Work)
ERNEST H. CHERRINGTON, JR., 1955-1960, Ph.D. (Director of Graduate Studies)
ERNEST H. CHERRINGTON, JR., 1960-1967. PhD (Dean of the Graduate Division)
'Deceased

ARTHUR K. BRINTALL, 1967-1968. Ph.D. Dean of Graduate Studies and Research)
EDWIN L. LIVELY, 1968-1974, Ph.D. (Dean of Graduate Studies ario Research)
CLAIBOURNE E. GRIFFIN, 1974-1977. PhD. (Dean of Graduate Studies and Research)
JOSEPH M. WALTON, 1977-1978. Fh.D. (Associate Dean of Graduate Studies and Research)
ALAN N. GENT, 1978-1986, Ph.D. (Dean of Graduate Studies and Researchi)
JOSEPH M. WALTON, 1986-, Ph.D. (Acting Dean of Graduate Studies and Research)

## University College (formerly General College)

D. J. GUZZETTA, 1959-1962, Ed.D., LL.D., D.S.Sc., L.HD.

THOMAS SUMNER*, 1962-1977. Ph.D.
PAUL S. WINGARD, 1977-1978. Ph.D. (actirig)
MARION A. RUEBEL, ;978- Ph.D.

## Evening College

L. L. HOLMES, 1932-1934. MA. (Direcior) LESLIE P. HARDY, 1934-1953, M.S.Ed., L.H.D. (Director)
E. D. DURYEA, 1953-1956. Ed.D (Dean)
D. J. GUZZETTA, 1956-1959. Ed.D., LL.O. D.S.Sc., L.H.D. (Dean)

WILLIAM A. ROGERS, 1959-1967, Ed.D. (Dean)
CHARLES V. BLAIR, 1967-1970. M.A. (Dean)
JOHN G. HEDRICK, 1970-1974. M.A. (Dean)
CAESAR A. CARRINO, 1974- Ph.D. (Dean)
Community and Technical College
W. M. PETRY*, 1964-1974, MSM. .

ROBERT C. WEYRICK, 1974-1985.M.S
FREDERICK J. STURM, 1985 - Ed. D. (ACting)

## College of Fine and Applied Arts

RAY H. SANDEFUR*, 1967-1978. Ph D.
GERARD L. KNIETER, 1978-1986, PhD.
KELVIE C. COMER, 1986- EdD. (Acling)

## College of Nursing

ESTELLE B. NAES, 1967-1975, Ph.D
LILLIAN J. DeYOUNG, 1975-, Fh.D.

## Wayne General and Technical College

MARVIN E. PHILLIPS, 1972-1974, M. A. (Acting Directar)
JOHN G. HEDRICK, 197.4-1974. MA. (Director)
JOHN G. HEDRICK, 1974-1979. M.A (Dean)
ROBERT L. McELWEE, 1979-1980. M.A (Acting Deari)
TYRONE M. TURNING, 1980. Ed.D. (Dean)

## Current Members of College and School Advancement/Advisory Councils May 1986

## BUCHTEL COLLEGE OF ARTS AND SCIENCES

## (Advancement Council)

Mr. Thomas H. DuFore, Dr. James D'lanni, Mr. Emanuel Gurin, Mrs. Patricia A. Pacenta. Dr. Gary B Willams, Mrs Pamela S. Williams.

## COLLEGE OF ENGINEERING

(Advancement Council)
Dr. Norman P. Aliburn. Mr Otto Gearheart, Mr. Robert A. Handelman, Mr. Robert F. Meyerson, Mr. Vern L. Oldham, Mr. Tom C. Sawyer, Mr. Charles H. West, Mr. Charles G. Wyman

## COLLEGE OF ENGINEERING

(Advisory Council)
Mr David Chapmari. Mr. Robert Handetman. Dr Frank A. Jegice. Mr John Cavid Jones. Mr. J. Robert Kossier. Mr. Larry King. Mr. Robert A. Kraus. Mr. Robert F. Meyerson, Mr. Bruce W. Rogers.
Mr. Tom Sawyer Mr Charles West.

## COLLEGE OF EDUCATION <br> (Advisory Council)

Mr. Eugene Dominic. Mr. Robert Dunn, Mr. James Houston. Judge William P. Kennel. Mrs Audrey McDonald. Mr. Homer Neff, Dr. M. Herman Sims, Mis. Davia J Towell, Mrs Gere Wadooll, Di. Harold willson.

## COLLEGE OF BUSINESS ADMINISTRATION

 (Advancement Council)Mr Vincent A. Digirolamo. Ms. Karen M. Frey. Mr. Leon R Graf. Mr Michael Karder. Mr. Scott A Lyons. Mr Aidrew Marhevsky Mr James H Mitler. Mr. Willam R. Miller Mr. Robert Mitten, Mr Lowell E. Mulhollen, Mr. G 7homas Farry, Jf. Mr. Rogert T. Read Mr. C. Eugene Stalnaker. Mr. Hary P Sitzena Virs Fara Stizlem, Vr. Jeftey C. Truax, Mr Willis Wolf.

## COLLEGE OF FINE AND APPLIED ARTS (Advancement Council)

Mrss Mary Capotosto. Mrs. Peggy Fowler. Mr Emery Gelley Mr Louis S. Myers. Mrs Mary Myers, Mr. Rechara F. VanDresser Mr W. liam C. Zekan

## COLLEGE OF FINE AND APPLIED ARTS (Advisory Council)

Mr Herbent Moljevill Dr. E. Gates Moran. Mrs. Louis S Mvers D: Eruce Rothmann Mr John Tormey.

## COLLEGE OF NURSING

(Advancement Council)
Mirs. Brau Both Dr Herbert F Crott, Dr Artnur Dcbkins, Vir. Howaral Flooc. Dr Robert Henis, Mr
Richard A Heverman Mrs Lee Ong.

## COLLEGE OF NURSING

## (Advisory Council)

Mr. Mike Eornatovicz. Dr. Colin Campbel: Dr Herben Croft Mrs. Irene Glanville, Niss Joann Holt. Mís Paulkruder. Dr Focett iehelt Miss Viartna Nelson, Hon Fonerto Nettie Muss Juditi Nociy. Mrs John Ong Mr Roy Ray Mrs Barbara Venesy. Judge William Vector.

## SCHOOL OF LAW

(Advancement Council)
Judge Sam H. Beli, John C. Binkle, Esq. Ann E Ereman Esq. DaviaL Brennan, Esq., Gust Calias, Esq. Dean Dorala Na Jenmers. Abert S Rakas. Esq Bermard : Rossen, Esq

## SCHOOL OF LAW

(Advisory Council)
Juoge Alce M. Batcheider. Judge Randotph Baxter. Juage Sam H. Beli. Judge Myron T Brenneman, Juage Leroy J Contie, Jr.. Mr. Forry G. Dickinson. Juage Joseph Donufrio. Juage DaviaD Dowe h M: Whoward Fort M BractordM. Gearmger wage Joyce J George M/ Kar S Hay, Judge Jerry L Hayes. Mr Richara W Hinig. Judge Blanche E Krubansky Mr. Williarri N. Letson Mr. Fredentok $S$ Myers, Mi. Dennis Norman, Mr Bemaral Rosell, Judge James R Wiliams.

## GRADUATE SCHOOL

(Advisory Council)
Dr Riobert J. Fawcett, Nr Wulliami A. Fickinger, Mr. leary Harrolf. Dr. Donald W. McCarthy Mr
Thomas W Stroutle

## UNIVERSITY COLLEGE

(Advancement Council)
Mr Envad Bitte Dr Iohn Ciarke Jt Mr LouFis: Mr Davo Kaiser. Mr Dommick Maimone Ms Barbara Mathews Mr Dominic A. Vusitano. Dr. Richard L. Vankuck Mr. W. Stuver Parry. Mr. Geram Resevets.

## COMMUNITY AND TECHNICAL COLLEGE (Advancement Council)

Mr F. Steven Albrecht. Mrs Mary S Harpley, Mr. Steve Hawk, Mr Rober J. Kidney. Mr. Richard H. Lang, Mr. Nick Miller, III. Mr. Franktn E. Palmer, Mr. Tony Patrmo, Mr Clarence Randali. Miss Laura J. Sherer

## EVENING COLLEGE

(Advisory Council)
Mrs Tom B. Babcox. Mr Stantont. Erightman. Mr. Lugene A Dechellis Mr. SamFederoo Mr Ratphula Mi. Phulu G Karami, Dr. Martha Neison, Mr John Petenack Nôr. John: Scherba, Mr. Philip H. Young

## WAYNE GENERAL AND TECHNICAL COLLEGE

 (Advancement Council)Mr. Paul Crabit Mr \& Vir Dix N: Harry E Featherstune. Mr Tim Miller. Mr. Gene Ola Mr Bruce Sonamz. Wr Wolt R Schmith Wr. Bob Sommer Mr Gene Norman, Vir Davio Yonto.

## wayne general and technical college

 (Advisory Council)Mis Louse Ànthony, Mrs Noma Amstutz. Dr Donald Demkee. Nr R Vic Dix Mr Halph'isher. Mr Charbs Hawley. Mr. Donaddones, Nrs. Faye Kraus, Mr. Fichard Maxwell, Mr Alien Reinhardt Mr. Sorirag G. Secnist, Mr. Gent: Skiorman. Mr. David G. Sprang. Mr. Lowell Stembremner.

## continuing education and public services

 (Advisory Council)Mr. Robert A Anderson Mrs Eitem Blumm Mr Paul Breese Mr Virgil Colins. Mr Donald J. Frey Mr. N T. Harris, Mr. Richara Kist, Mr Ioseph i. Ruby. Mir Stewart Segal.
