# ACADEMIC PROCESSIONAL & CEREMONIAL CUSTOMS

The ceremonial customs of commencement, rooted in centuries-old tradition, are described below.

## Processional

The academic processional is an official prelude to the commencement ceremony. University marshals lead the procession, followed by the assembled degree candidates, marching in order of degree earned. Following the candidates are the members of each represented college's faculty. Next come the platform party, including Trustees, administrative officers, and recipient(s) of honorary degrees. Finally, the University Marshal, bearing the University Mace, which represents the authority of both the University and the state, is immediately followed by the president of the University.

## Academic Attire

The academic regalia worn at commencement are of medieval origin. The scholars of Bologna, Paris, Oxford, Cambridge and Heidelberg dressed in a manner to distinguish themselves from the merchants and other townspeople. When the universities first arose in the 11th century, "learned clerks" robed themselves in gowns, caps and hoods, thus signifying the distinction between "town" and "gown." As additional universities came into being, professors adopted distinctive forms of the gown and hood for bachelor's, master's and doctoral degrees.

These customs are reflected in today's commencement attire. In Europe, a professor generally wears the type of garment customary in the university where he or she is lecturing. In the United States, professors wear the gown and hood of the university where they earned their highest degree. All commencement ceremony participants at The University of Akron are attired in the appropriate academic apparel. University marshals are distinguished by their blue and gold robes and Elizabethan caps.

## Caps and Tassels

The cap, also called the mortarboard, may have been derived from the squarish cap worn by the masons of the Middle Ages, or perhaps was suggested by the shape of the books which occupied so much of the scholar's time. In the United States, the cap is usually flat and square in shape. In Europe, one sometimes sees caps of other varieties. Attached to a button atop the mortarboard is a tassel.

## Gowns

Originally, the gown may simply have been a type of overcoat to protect the teacher from the cold in unheated buildings. The cut or style appears to derive from ecclesiastical attire and most often is black. The associate's and bachelor's gowns generally have a closed front and open sleeves. The master's gown more often has long, closed sleeves, from which the arms extend through a slit at the wrist. The doctor's gown is faced down the front with velvet panels and has bell-shaped sleeves adorned with three velvet bars.

## Hoods

A triangular fold of cloth worn over the back of the gown, the hood is faced with colors which denote the field of study represented by the wearer's degree. The colors of the lining indicate the college or academic discipline in which the degree is granted.

## Colors

The various colleges and academic disciplines of The University of Akron are represented by the following hood and tassel colors:

Apricot	Nursing
Drab	Business
Gold	Doctoral
Light Blue	Education and Counseling
Orange	Engineering and Polymer Science
Peacock	Disaster Science and Emergency Services
Pink	Music
Purple	Law
Silver	Arts and Sciences Associate's
Teal	Health and Human Sciences
White	Arts and Sciences Bachelor's
Citron	Social Work and Child and Family Development

### The University Seal

A seal is an emblem, symbol or word that certifies or authenticates a document. The use of official seals dates back to the Norman Conquest in 1066. During the next century, seals were used throughout England to authenticate documents. Persons of rank had unique seals befitting their status. Most seals were circular or oval-shaped with heraldic designs embossed on their faces.

The use of seals became part of academic tradition in the medieval university and continues to the present. The University of Akron, for example, displays its seal on diplomas presented to its graduates.

The coat of arms shown on the University's seal includes an open book and quill, representative of the University's original liberal arts curriculum. A lamp of learning shown against a city skyline depicts the University's metropolitan setting. Three diagonal bars represent the private, municipal and state stages of the University's history. The phoenix, a mythical bird that is consumed by fire and rises from its ashes to achieve greater glory, is a tribute to the University's rebirth following the devastating fire of 1899. The seal also displays the original Buchtel College motto, *Fiat Lux* (let there be light).

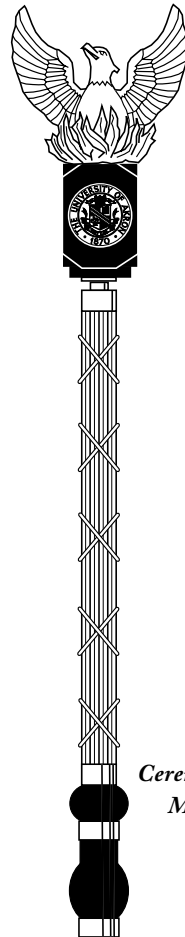

*University Seal*

### The Ceremonial Mace

The Ceremonial Mace was presented to The University of Akron by the Alumni Association on Founders Day 1970, in recognition of the University's founding 100 years earlier as Buchtel College.

Since ancient times, maces have been symbols of authority for many academic and governmental bodies. The University of Akron's Ceremonial Mace is carried by the University marshal at all formal academic occasions.

The most distinguishing feature of the Ceremonial Mace is the aforementioned rising phoenix, an apt symbol for the University, which was rebuilt, through the generous support of alumni and the community, from the ashes of Buchtel College after it burned down in 1899.

## Chorus

*The Alma Mater for The University of Akron was written by the Rev. Augustus B. Church, who was the last Universalist clergy to serve as president of Buchtel College (1901–1912). He was also the first person to assume the board responsibilities of chief executive officer. In fact, Church served both as president and as a trustee of the institution — as well as pastor of the First Universalist Church of Akron. Church understood the importance of higher education as a means to improve society, and he worked diligently on projects to successfully link the educational efforts of Buchtel College with the needs of a growing city. During his presidency, Buchtel College offered the world's first courses in rubber chemistry (1909).*

*The University of Akron's fight song, "The Akron Blue and Gold," was written in 1939 by Fred Waring, nationally known composer and leader of the wildly popular band, "Fred Waring and the Pennsylvanians." In response to a request from the University's student newspaper, Waring wrote "a distinctive song" for The University of Akron. "The Akron Blue and Gold" premiered over his NBC hookup on November 17, 1939, and has been used as the University's fight song ever since.*

# THE UNIVERSITY OF AKRON: A PROUD TRADITION

**T**he Ohio Universalist Convention established a small liberal arts college in Akron in 1870 and named it after one of the city's prominent industrialists, John R. Buchtel. It was Buchtel who led a group of 100 individuals and 13 businesses in a fundraising campaign to build the college. On July 4, 1871, thousands of citizens turned out to witness the results of that initiative, joining in a great celebration as the cornerstone was laid for a single but impressive structure that constituted Buchtel College.

Both a visionary and pragmatist, Buchtel believed that the vigor of any city is closely tied to the proximity of a high-quality institution of higher education. Decades of progress, both for the city and for the college he helped to launch, have proven him right.

Today, The University of Akron continues to invigorate the region, providing top-ranked and in-demand degree programs ranging from associate through doctoral degrees in the liberal arts, sciences, health care, engineering, business, law, education and more. Students gain real-world experience through internships, co-ops, study abroad and other career-focused learning opportunities.

Accredited by the Higher Learning Commission and classified at the highest level as a comprehensive, doctoral-degree-granting institution, the University serves students from all over the country and world through four degree-granting colleges and a School of Law on the main campus and through Wayne College in Orrville. Today, more than 180,000 of its alumni live and work around the globe.

## **The University of Akron Celebrates 150 Years**

When John R. Buchtel saw the cornerstone laid for Buchtel College, he pledged that the new school, built on a hilltop overlooking Akron, would bring honor and pride to the city and state. Over the next 150 years, The University of Akron kept and exceeded the promise of its founder, rising to become one of Ohio's most influential public urban research universities.

Among its many achievements, the University was the first in the world to offer courses in rubber chemistry. It pioneered one of the country's first engineering co-op programs, which remains a national model. In World War II, the U.S. government called upon the University to help develop synthetic rubber for the Allied forces. When the rubber industry declined, the University rose to new heights of innovation, leading the world in polymer science and polymer engineering.

Today, the University continues to rise, advancing research and knowledge in engineering, business, health care, the arts and sciences, education and law. It continues to uplift the region through hundreds of partnerships with business, industry, academia and government. It continues to produce leaders who are making a difference throughout the world.

It continues to keep its founder's promise.
